TWO FINE ADDRESSES

Rev. J. J. Ross, of Toronto Preaches Baptist Anniversary

Church Crowded on Both Occasions—Fine Choir Music

The anniversary services of the William St. Baptist Church were conducted yesterday, and both services were attended by large congregations. In the evening it was necessary to place chairs in the aisles in order to accommodate the large crowd of people.

The church was beautifully decorated with wheat, ornamental vegetables and various plants and flowers, which were kindly donated for the purpose by Mr. H. W. Ball. Contributions to the decorating of the building were also made by Mrs. Oldershaw, Mrs. Mounteer and Mrs. McDonald. The new electric lights, which have lately been installed, were used for the first time last night, and were indeed a great improvement to the appearance of the building. The choir place is brightly illuminated and two large chandeliers furnish light in the body of the church.

Both services were conducted by Rev. J. J. Ross, pastor of Dovercourt Road Baptist Church, Toronto, and it is safe to say that Mr. Ross is one of the best speakers that the people of this city have had the pleasure of hearing for a long time. His morning text was taken from the first, second and third verses of the 3rd chapter of the Epistle to the Colossians, the theme of which is Life in Christ. He dealt with physical and intellectual life, and also with life in Christ which pertains to the present, and future, and the aim in view of the actual possession of that life. His explanations were excellent and clear. He is a very powerful speaker, and the people of this William Street Baptist Church were greatly pleased with his sermons yesterday. The music at each service, under the able direction of Frank Phelps, was of a very high order and the members of the choir did themselves credit. In the morning, the solo, "The Beautiful Home of Paradise," was sung by J. D. McAlpine, and a solo, "The Unseen Kingdom," was contributed by Will Rutley. A double male quartet, composed of Messrs. Trotter, Rutley, McPhail, Cunningham, Wanless, Carter, Byram and McAlpine, won a triumph in their singing of the number, "Behold I Stand at the Door and Knock." By request, the same number was repeated at the evening service, also another number by the quartet, entitled, "Glory be to Thee, O God." A solo, "The Plains of Peace," by James Trotter, was ably sung, as was also the solo, "O Lord, Correct Me," by R. A. Cunningham. The work of the choir as a chorus was excellent, the anthems being well given.

The services were most successful, it being one of the most encouraging anniversaries ever held by this church.

LEAGUE MEETING

A large crowd was present at the Park Street League Friday night. A very interesting address on Dante's Divine Comedy was given by Wilson Taylor. He dealt with Purgatory and Paradise and gave a very instructive explanation of them. Miss Olive Richards contributed a solo in her usual good style. Dr. A. A. Hicks acted as chairman.

After the close of the meeting together for the purpose of organizing a reading circle under the leadership of W. N. Sexsmith. The circle about forty of the members gathered and was organized and the first meeting will be held next Friday evening. It has not yet been decided as to what will be taken up for the winter study.

DEATH OF A PIONEER

Mr. John Smith, Respected Chathamite Passed Away Yesterday

A Useful and Prosperous Career—Funeral on Wednesday

John Smith, one of the city's most honored and respected residents, passed away yesterday at his home on Water street, after an illness extending over a few months. Deceased was 86 years of age, and is survived by a widow and a family of children. Mrs. Smith is herself 85 years of age, and at the present time she is not in the very best of health.

Mr. Smith has been ailing for some months, and in fact has failed considerably during the past year. For the last three months, however, he has been seriously ill, and the end was momentarily expected. When able, deceased was a regular attendant at the First Presbyterian church, of which he was a valued member. During the later years of his life, he has been a liberal giver to Home and Foreign Missionary Work.

A funeral service will be held at the house on Wednesday evening at 7.30. The remains will be taken to Renwick Wednesday morning, where the funeral will take place from the Silken church to the Renwick cemetery.

The Biographical Record of the County of Kent has the following to say of the deceased gentleman:

John Smith was born May 13, 1822, in Scotland, and was reared to manhood in Tilbury Township, County of Kent. At the age of 18 he hired out as a farm hand at a salary of eight dollars a month, and being a thrifty and industrious young fellow in 1844 he was able to purchase 100 acres of land on lot 24, concession 6, Raleigh Township, of which he cleared 30 acres and raised a crop of wheat. He then sold his property and purchased 200 acres on Talbot street in Romney Township, County of Kent, where he resided until 1888, when he retired from active life and settled in Chatham. Mr. Smith was enterprising as well as industrious, and in partnership with the late Archibald McKellar, father of P. D. McKellar, he operated the first threshing machine along the Thames River.

On January 15, 1846, Mr. Smith married Mary Ann Renwick, who was born in Romney Township Sept. 5th, 1822, daughter of Thomas and Ann Renwick, natives of England, who came to Romney Township in 1818. To Mr. and Mrs. Smith nine children were born, four of whom died young: George, of Dover; Edward, of Leamington; Thomas Robert, James, deceased; and John B. Raleigh.

Politically, Mr. Smith was a staunch and respected Reformer. In religion he was a Presbyterian. Through his own efforts, thrift and good management, Mr. Smith accumulated a considerable fortune. He was one of the oldest citizens of Chatham and was held in the highest esteem by his fellowmen, who recognized his excellent traits of character.

EXCELLENT SERVICE

Last evening the Rev. A. H. MacGillivray and the choir gave the second number of the series on "The Life of Joseph," which, with the combined efforts of speaker and singers, made a most unique service. Mr. MacGillivray during his discourse showed at his best, and ably handled each detail consecutively, strongly appealing to strength of humanity to resist the weakness inherent.

The musical numbers included a finely rendered anthem, a solo by Mr. Wilfrid Smith, and a selection by the Mixed Quartette, composed of Messrs McKellar and Peate, Messrs. Angus and Wilson. The next of the series will be given next Sunday evening, when besides the usual musical service, a selection will be given by the male quartet.

A NURSE'S AWFUL CRIME

Fourteen Year Old Girl Arrested on Charge of Murder

Killed Six Small Children With Hairpins, Through Eity

New York, Oct. 21.—The World has received the following cable despatch from Munich, Bavaria: Ida Schmidt, a nurse girl, 14 years old, was arrested yesterday charged with murdering six small children by driving hairpins through the tops of their heads.

The girl confessed, the police say, that she could not bear to hear children cry, and so, pityingly, ended their suffering. Then she took another girl, and if the children there cried she was equally "merciful."

Her arrest was delayed by the difficulty in proving medically the cause of death of each victim. When the sequence of deaths was established her arrest was inevitable.

AT CHRIST CHURCH

In an interesting and forceful sermon on the worshiping of false gods, Rev. Robert McCosh, rector of Christ Church, last night deplored the fact that many of the present age appear to worship the golden image—money. The worshiping of the true God and the keeping of his commandments are lost sight of in the chase after gold—the craze to get rich quick, and to wield the money power. Speaking of money and its relation to marriage, he said in part:

"There are men and women in the highest walks of life to-day, who, I am sorry to say, give every evidence of worshipping the golden image. We hear of these 'matrimonial alliances'—I abhor the term—but this form of marriage is usually a case where a man of title and honors agrees to exchange them for the other's money. There are too many of these business marriages in our present day, for that. Can be no love in a 'matrimonial alliance,' where the parties oftentimes know very little of each other, with the exception of what the world rates them at in dollars and cents, and in titles and honors. I care not if they apply to Royal families where alliances of this kind are agreed upon simply to strengthen the bonds between two nations, no good can come of them."

At this service, "The Lord is my Shepherd," was rendered during the offertory by Miss Edith Barassin, who handled the sacred piece in excellent style. Her rendition was clear and sweet, and her enunciation perfect.

At the morning service, Miss Wena Harper sang in splendid voice, "I Have a Saviour."

A FINE WINDOW

Everyone stops to admire the strikingly well-dressed display in the western show window of Bradley's, on the corner of King and Third streets.

The window is filled with packages of cereal food, with decorations of gold and green. It is one of the prettiest window-effects ever attained in this city.

HUBBY WONT PAY

Mrs. John Dungey, who a short time ago had her husband up for using insulting language, was a caller at the Police Court this morning. This time she came again to complain of her husband, whom she says is boarding at her place, but refuses to pay for what he gets to eat. She told the police that he came in last night and raised a big row over nothing. She wants him to pay \$3 a week for his board. The police are at present looking into the matter.

Virtue is its own reward, so it has a right to parade itself.

TRANSIENT TRADERS

New By-Law May be Introduced by the City Council

The Unprotected Railway Crossing, Will be Brought Up

The regular semi-monthly meeting of the City Council will be held in their chambers in Harrison Hall this evening at eight o'clock. Outside of routine, it is not expected that there will be a great deal of important business to transact.

It is understood that the new Transient Trader by-law may be introduced and given its various readings at the meeting to-night. It is known that some of the aldermen have been conferring with City Solicitor O. L. Lewis on this matter. As is now generally known, the old Transient Trader by-law did not appear to hold water, and convictions could not be made under it for some reason. It is hoped that the new by-law will prove satisfactory. If the by-law is not introduced at this evening's session it will come up later on.

Another matter which may come up for consideration is that with regard to paving that portion of Colborne street between the Park Hotel and Taylor's Mill. It is also likely that there will be some discussion on the unprotected C. P. R. crossings at Centre and Wellington streets. This matter will be reported on by the Railway Committee, who are to submit resolutions to the Railway Board at their meeting here on October 29.

SUDDEN DEATH

The many friends and acquaintances of Mr. Uwey Grandbois, of Kalamazoo, Mich., son of Mr. and Mrs. John Grandbois, Elizabeth St., will regret to learn of the sad and sudden death of his beloved wife, who passed away Sunday, Oct. 20th, of pneumonia, at the age of 34 years, and two small children to mourn her loss. Mr. and Mrs. Grandbois left for Kalamazoo to-day to attend the funeral.

APPLE CROP AND PRICES.

While those who have apples to sell will undoubtedly receive very high prices this year, the ultimate result of the prevailing quotations may be injurious. Because prices are so high the consumption of apples will be curtailed, and other fruits will be used in larger volume as substitutes.

An indication of the extent to which bananas have already displaced apples, is given in the September report of the Ottawa fruit division. In this report it is stated that the estimated consumption of bananas in the United States is over thirty-five million bunches a year. It is further pointed out that the imports of bananas into Great Britain have increased from two and one-quarter million bunches in 1901, to six and one-half million bunches last year. There will no doubt be a still greater increase in the consumption of this fruit this year, owing to the very high figures at which apples are selling.

Speaking of present conditions, the September report of the Fruit Division says there is every indication of a strong demand in Great Britain and it is further stated that American buyers have been operating, not only in Ontario, but in Quebec and Nova Scotia as well. It is further pointed out that France will probably make it easier to effect sales in the French market. Germany, it is stated, will require 100,000 barrels of imported apples, but the duty of \$1.50 per barrel on Canadian apples, imposed under our present unfortunate trade relations with Germany, is practically prohibitive so far as Canada is concerned. The demand for apples in the Canadian West will be limited on account of high prices. The damage sustained by western grain growers will also have an effect.

Speaking of production by districts the September report says that in the Lake Erie district fall apples are light, and winter fruit light to medium; in the section from Huron to York counties fall apples are also light to medium, but the majority of winter varieties will be an average crop; in the Lake Ontario and Georgian Bay districts fall apples are medium, with winter fruit light to medium. The rains which came during September, while too late to affect the size of the early fruit, have caused unusually little injury this year, but the coming month is increasing, and the tent caterpillar is reported in most Ontario districts, and are very numerous in Nova Scotia.

The report states that inspectors have been instructed to strictly enforce the law in regard to the classification of No. 2 apples. Speaking broadly, a barrel of No. 2 apples must not contain over 20 per cent. of the fruit defects which cause material waste, and all specimens must be nearly the normal size for the variety. Where the law is strictly complied with this grade will be

accepted as the grade for nearly all commercial markets. No. 1 being taken for fancy trade.

SIX DIE IN COLLISION.

Street Cars Crash In Fog at Chattanooga, Tenn.

Chattanooga, Tenn., Oct. 19.—A street car collision occurred on Harrison avenue early yesterday morning. Information given out by the street car officials at 8 o'clock is that several persons were killed in the collision. Among the dead are Motorman Parker and Harrington, and a passenger named Smith. A dense fog prevailed at the time.

Later reports say six are dead—two motormen, William Smith, groceryman and three negroes. Ten persons were seriously injured and are in a hospital. About twenty others were more or less injured.

Mother's Pitiful Delusion.

Boston, Oct. 19.—Once more the mystery of Grace Stevenson has been revived by report that she is living. Her mother is positive that her daughter is Miss Margaret Anglin, the actress now playing with Henry Miller in New York, and she is supposed to have gone to New York to try and meet Miss Anglin. It is ten years since Grace Stevenson disappeared. Her father was James Stevenson, a wealthy real estate operator. He lived at the Hotel Clarendon, which he owned, and was estranged from his wife, with whom Grace, then 25 years old, made her home. Miss Stevenson left her home one evening to take a walk and has not since been heard of.

JUST WHERE THE DANGER LIES.

In many catarrh snuffs, cocaine is the largely used ingredient in consequence, the drug habit may be formed. To be really cured of catarrh, to do so quickly, safely and pleasantly, doctors say Catarrhzone is superior to any other remedy. It heals sore places, stops discharge, prevents hawking, spitting and bad breath—does this by first destroying the cause of the disease. Catarrhzone is no experiment, it is a tried and proven cure that is guaranteed for bronchial, throat, nose and lung catarrh. Two sizes, 25c. and \$1.00, at all dealers.

A ripe old age is all right, but the trouble with old age is that it is so often green.

Triad Catarrh treatments are being mailed out free, on request, by Dr. Shoop, Racine, Wis. These tests are proving to the people—without a penny's cost—the great value of this scientific prescription, known to druggists everywhere as Dr. Shoop's Catarrh Remedy.

Sold by All Dealers. Congratulations rarely convey a fair idea of the true state of feeling.

DISTRICT

THAMESVILLE

Thamesville, Oct. 19.—The annual Convention of the W. M. Society will be held in the Methodist church next Tuesday, Oct. 22nd. Morning and afternoon sessions will be held. Mrs. Mercer returned yesterday from Toronto.

Miss Irene Currie Love, of New York, is the guest of Miss Duncan.

Dermit Courts has returned from Durham.

WALLACEBURG

Wallaceburg, Oct. 18.—D. W. Kinn, sold his trotting horse for a good sum to a Thamesville purchaser.

Dr. Thornton, of Strong, purchased a horse at the Sydenham stock sale yesterday.

Last evening the members of the First Baptist Church gave a very pleasant reception for their new pastor and wife, Rev. W. T. Roberts and Mrs. Roberts. A large number of members, adherents and friends of the church were present to greet Mr. and Mrs. Roberts and welcome them to the church and town.

Rev. W. Cosens, of the Methodist Church, Rev. J. R. Newell, of St. James' Episcopal Church, and Rev. M. Tait, of Knox Presbyterian Church, were seated on the platform, and each rendered an address, in which they gave Rev. Mr. Roberts and Mrs. Roberts a most hearty welcome.

The following very interesting programme was carried into effect—

Chairman's address—John Zavitz.

Selection—Imperial Orchestra.

Recitation—Miss Hazel Lynn.

Violin solo—Roy Morris.

Quartette—Misses M. Zavitz, G. Dunderdale, Wm. Lindsay, R. Thompson.

Selection—Imperial Orchestra.

Solo—Von Ayres.

Trombone Solo—S. Dunderdale.

Address of welcome from the church—J. Zavitz, in which Rev. Mr. Roberts gave a very pleasing reply.

Selection—Imperial Orchestra.

Benediction—Rev. W. Cosens.

Refreshments were served in the school-room, which was prettily decorated with flowers and bunting.

The Young Ladies of the B. Y. P. U. waited upon the guests in a very agreeable manner. The Imperial Orchestra furnished music throughout the evening.

Mrs. Chas. Nightingale and Mr. Hugh Munroe were most charming assistants, who helped introduce Rev. Mr. Roberts and Mrs. Roberts to the strangers present.

Mr. L. W. Stonehouse is spending a few days in Detroit.

Wallaceburg, Oct. 19.—Mrs. Wm. Stewart and daughter, Miss S. Stewart, of Barker Falls, Muskoka, are the guests of Mrs. John Jenner.

KENORA SHOOTING CASE.

Mrs. Sharpe Acquitted by Jury—Verdict Received With Applause.

Sherbrooke, Oct. 19.—Mrs. Sharpe of Kenora was found "not guilty" of manslaughter. The judge's charge was favorable, and the jury took the case to the jury box. The bullet glanced from a tree, striking Coates. There was applause in the court-room, and the verdict was most popular.

The crown examined two witnesses—Alvin A. Bailey and his daughter, Miss N. Bailey. Bailey said on the night of the shooting he was sitting on the doorstep of his house, and hearing two shots, went into the house to see what was the matter. His daughter, Nita, told him that she had fired the first shot, and her cousin, Mrs. Sharpe, the accused, the shot, to try and frighten away those who were driving by the house, shouting. Harold Coates had not been warned by witness that so long as he kept company with Morris Coates he would not allow him to come around the house or go with any member of his family.

Mrs. Bailey said she was in her room upstairs on that night, and heard the young men making a loud noise and singing a parody of popular songs as they passed the house, as well as using insulting language. She said she then took the rifle and fired a shot as they passed the house to try and frighten them away. When they passed the house again her cousin, the accused, said: "Let me shoot this time."

This closed the crown's case. For the defence, Alvin learned said that Morris and his daughter came to his hotel at Cookshire on the afternoon of the shooting and had some liquor. Morris Coates bought a bottle before leaving.

Fred Coates, at whose house Harold Coates went after being shot, said that Harold awakened him by calling to be let in. He said that he had been shot, and that it was Alvin Bailey who had shot him. None of his companions remained with him, nor did they return to find out how he was.

Dr. A. N. Worthington stated that he examined the deceased in company with Dr. Johnson, the day after the shooting, and he did not then think that the wound was serious. This opinion was brought about by the small bullet. He also made an autopsy. The two doctors agreed that the immediate cause of death was a clot of blood that had formed in the heart. There was no warning from such a case. The clot was caused through an accident in healing.

VERY GOOD HOME RECIPE

Rheumatism is easier to avoid than to cure, states a well-known authority. Every man, woman and child here should dress as warmly as possible, and above all else, keep the feet dry. Avoid colds and exposure, and don't become constipated.

Rheumatism is strictly a blood disease, caused by inactive kidneys, which, through cold or exposure or improper diet, fail in their duty of filtering the rheumatic poisons from the blood. This poisonous waste matter, uric acid, oxalate of lime, urea, etc., if not strained from the blood promptly, decompose and settle about the joints and muscles, causing rheumatic disease.

In damp or chilly cold weather the kidneys are made to do double work. The pores of the skin all over the body do not assist in eliminating the poisons of the body, throwing this work to the kidneys, which become clogged and feeble, thus causing not only rheumatism, but all forms of kidney troubles, backache, weak bladder and urinary troubles, and sometimes terrible blood disorders.

At the first sign of any of these troubles the following simple prescription should be mixed and taken in teaspoonful doses after each meal and at bedtime: Fluid Extract Dandelion, one-half ounce; Compound Kargon, one ounce; Compound Syrup Sarsaparilla, three ounces.

DRINKS CARBOLIC ACID.

Financial Worries Responsible For Death of Cincinnati Man.

Toronto, Oct. 19.—Financial worries preying on his mind, J. Krakauer of Cincinnati ended his life by swallowing carbolic acid in his room at the Vendome Hotel, Yonge street.

Letters from his wife were found on him, in which she pleads with him not to be angry, and says she is not angry but broken-hearted.

"Everybody is surprised you left the city. Things would not have gone as they have if you had stayed by me like a man, but you left the like coward, you left me to fight your mistake."

She appeals to him to tell the truth, and to state how much money he paid on a mortgage. She talks of being wrongfully accused, and says that she has been true. As a wife she urged him to come home to his little daughter.

YOUR WISEST COURSE.

If you are caught in the wet, get sore throat, neuralgia or muscular pain, don't wait for worse troubles. Begin prompt treatment with Polson's Nervine. It drives away all trace of cold, eases rheumatism, neuralgia and pain, saves you from a lay-up in bed. No 25c. purchase can bring more comfort than a bottle of Polson's Nervine; it's the cleanest, strongest liniment made. Sold everywhere in large 25c. bottles.

Hon. A. Turgeon Resigns.

Quebec, Oct. 19.—Hon. Adolphe Turgeon tendered his resignation yesterday morning as member of Bellefleur in the Legislative Assembly, by providing for the extension of its line of railway from Mimico to some point within the limits of the City of Toronto, for authority to purchase, lease or amalgamate with the Grand and Hamilton Electric Railway Company, the Hamilton, Grimsby and Beamsville Electric Railway Company, and any other electric railway running into the City of Hamilton, and to construct a line of railway from Brantford through the Counties of Brant, Oxford, Elgin, Kent and Essex to Detroit River at or near Windsor, or to enter into an agreement or agreements with the Windsor, Chatham and London Railway Company and the Windsor, Essex and Lake Shore Rapid Railway Company or either of them for any of the purposes specified in section 331 of the Railway Act, and to build and operate ferry steamers, and to conduct a ferry system across Detroit River, also to extend its line of railway to Niagara River and to construct an international bridge over Niagara River; or to enter into a contract or contracts for the use of any bridge, already or hereafter constructed, over Niagara River; to extend the time for the completion of the construction of its various branches, and for power to construct branches in different directions within the limits of the County of Westchester; and for increasing its bonding powers with provision for special bonding powers in respect of terminals in the City of Toronto, a bridge over Niagara River, and ferries over Detroit River; also for power to interchange traffic and freight and freight cars, with all steam and other railways crossed by or crossing or connecting with the petitioner's railway; and to be declared a railway for the general advantage of Canada.

Food and Civilization.

Few people realize adequately that the stomach is the greatest civilizing agency upon earth. A well fed man whose meals are suitably served will rise out of barbarism with an irresistible gleam—London World.

The Gallfly.

By the laws of England and of France legal documents are required to be written in ink made from galls, such ink having proved to be practically indestructible. The mixture is of bruised galls with sulphate of iron and gum arabic. This legal ink, at once the best and oldest in existence, entirely depends on a disease to which the oak tree is subject and which is caused by a fly known as the gallfly. The gallfly belongs to the same order as the bees and wasps, and when it is ready to lay its egg it cuts away the outer bark of an oak tree twig and deposits its eggs in the hole. From some unknown cause the tree immediately begins to enlarge about the egg, and a gall, or oak apple, as it is usually called, is formed. It is this gall which contains the tannic acid from which the ink is made.

Protoplasm.

Protoplasm is a living, transparent, viscid substance of protoid character, containing 70 per cent. of water. It coagulates with heat at 130 degrees and dies when the body is raised to this temperature. As only dead protoplasm can be subjected to chemical analysis it is difficult to determine its chemical nature. Its nearest allies are to be found in the albuminoids, of which the white of an egg is a good example. Of the real nature of protoplasm there is, of course, absolutely nothing known.

A Sample of What V.S.O. does.—Mr. Merrifield—I was so severely stricken with Joint Rheumatism that I was confined to bed for a long time with swollen and stiff joints; it even affected my stomach. I gave up all hope of ever being cured. The doctor finally told me he could "ease my pain but could not cure me." My sister heard of your Veteran's Sure Cure, and sent for a bottle. I took half of a 21 bottle. This enabled me to walk about as usual. This was about six years ago, and I have had no return of Rheumatism. Mrs. H. Privat, Williamsford, Ont., Sept. 11th, 1907.

DIED.

SMITH—At his residence, Water street, on Sunday, Oct. 20th, John Smith, in his 86th year. The funeral will leave the residence on Wednesday, 23rd inst., at eight a. m. to the P. M. station for Renwick station, and the remains will be interred in the Renwick Cemetery from Salem church.

PROBABILITIES.

Special per G. N. W.
Toronto, Oct. 21.—11 a. m.—Moderate winds, fine and cool. Tuesday, fresh southwesterly winds, fair, and a little warmer.

LOCAL

There will be an emergent meeting of Wellington Lodge, 40, this Monday evening, for the purpose of conferring degrees.

Fire Chief Pritchard says that there have been 62 fires and alarms this year so far. The total number of fires and alarms during all of last year was 68.

John J. Roesech has purchased a house and lot from W. J. Simpson, Gray street. Real estate market is very good in Chatham. This speaks well of the condition of the city.

Mr. and Mrs. Frank O'Hara, of Madoc, took in Chatham on their wedding trip and spent a few days with the bride's cousins, Mr. J. H. Broad and Mrs. J. G. Blakely, Centre street.

WARM WEATHER COMING

There was a very heavy frost last night. In some places around the city water is said to have frozen indoors. The outside world presented a cold and dreary appearance on Sunday morning, when nearly a half-inch of snow fell. This was the first snow-flurry of the season. Local weather prophets state that a snow-flurry so early in the season is a sign that warmer weather is coming.

YOUNG MEN'S SERVICE

A Young Men's service was held in Victoria Ave. Methodist Church on Sunday evening, when the pastor, Rev. Mr. Graham, preached a special sermon to young men. It was indeed an instructive and interesting address, full of sound, manly advice. Rev. Mr. Graham is to be complimented on the splendid impression he is making with his congregation as well as with outsiders who have found his sermons quite helpful.

The musical service was supplied by the young men's choir. A duet was rendered by Messrs. Wrigley and Horstead, and a quartet selection was sung by Messrs. Wrigley, Horstead, Morrison and Wrigley. At the morning service, a solo was rendered by Mr. Horstead.

Capt. Bernier Reaches Quebec With Steamer Arctic

Tells of Strange People in Remote Parts of Canada

Quebec, Oct. 21.—Capt. Bernier, who returned Saturday from the polar seas, has brought back many interesting tales of life and adventure from the Arctic circle. At Pond's Inlet, where the expedition wintered, two Esquimaux, who had picked up a little English from visiting whalers, were taken on-board the Arctic as interpreters, but no inhabitants were found farther north than Lancaster and Jones Sounds.

These Esquimaux inhabiting the many northern islands taken possession of for Canada by Capt. Bernier, live almost entirely upon the Arctic seals, their diet being only varied by any fish that they may catch. Their houses and huts are made of seal-skins, and so is their clothing, and they use the fat and oil for light and fuel. In some localities only musk-oxen and reindeer are found especially on Melville Island.

Polar bears are abundant in many of the waters visited by the expedition, living upon the icebergs and the ice-covered shores of the mainland and islands. Thick fog frequently shuts the hunter out from seeing them, but five were seen at one time from the Arctic in Resolution Bay, though, unfortunately, they could not be followed, for the ship had all she could do at the time to clear herself from the ice.

One of the animals killed required nine bullets to despatch, though he was only a few yards from the ship and charged valiantly on the enemy. The carcass measured 8 feet in length. The carcass measured 8 feet in length.

The northern Esquimaux are all pagans, but exceedingly harmless and kind, disposed towards strangers, and some of them were brought on board the ship to attend religious services, at which the captain was the acting priest. Relics of Esquimaux houses were found on the northern islands, which are no longer inhabited. On the other hand no snow or ice was found on Melville Island during July, August or September.

There are still many whales of different varieties in the Sea, including the right whale, the carcass of which is valued at \$10,000 on an average. The profits of a successful whaling trip are, therefore, very large. Ten Dundee whalers in all were seen by Bernier, who required them all, in accordance with Federal legislation of a few sessions ago, to take out Dominion licenses. The Canadian flag was planted on all the islands visited by the expedition.

FIRE AT SEDGEWICK.

Alberta Town Scorched by Serious Blaze—Two Men Injured.

Sedgewick, Alta., Oct. 21.—Fire broke out on Saturday in the implement warehouse of Matchett and Hampton and completely destroyed the building and contents. The fire spread to the dwelling of C. F. Arkin and the newly-completed Massey-Harris warehouse, and destroyed both buildings. Arkin's furniture was saved by citizens by means of hard work with buckets. Fortunately there was no wind or the loss would have been much larger. While trying to save the Massey-Harris building Charles Gammon by falling timber and received severe scalp wounds.

Losses follow: Matchett and Hampton, \$4,000, insurance, \$1,800; Arkin, \$500, no insurance; Massey-Harris, \$400, no insurance.

ATTEMPTED ASSAULT.

Discharged Brakeman Sent to Kingston For Thirty Months.

Tillsonburg, Oct. 21.—James Burns, aged 21, recently discharged from the employ of the M. O. R. as brakeman, was arrested on Friday for an assault on Ada Belle Sills, aged 13 years, on Ada Belle Sills, a prominent farmer's daughter, of a lonely place on the road at noon, and when she raised an outcry attempted to choke her. A farmer named Tillon happened along and overpowered Burns, who was taken before Squire Hole on Saturday. He confessed the assault, and was sentenced to two and one-half years in the penitentiary.

Dog Stopped Steamer.

St. Catharines, Oct. 21.—Acting upon a telegram from the chief of police of Prescott, Chief Parnell Saturday night stopped the steamer Corduna in the new canal at Port Dalhousie to search for a dog said to have been stolen by a deckhand. The purser claimed the dog came aboard at Ogdensburg and that it had been given to a man in Toronto. The purser sent word to return the dog to its owner in Prescott and the steamer was allowed to continue its journey through the canal.

Sawmill Burned.

Lindsay, Oct. 21.—The Rider & Kitchener sawmill was totally destroyed by fire at 5 o'clock Saturday. The loss is \$5,000; insurance only for a small amount. Ten men are out of employment. The mill was formerly the property of the counterfeiter, Burke. It had been running all summer, and it was intended to keep it going for nearly the length of the winter. The mill was a frame one and burned like tinder.

Spilled Fan-Tan Game.

London, Oct. 21.—A squad of police under Sergt. Birrell made a raid on Quong Wing's laundry at 11.30 o'clock last night and gathered in 50 Chinamen, who were sitting in at a game of fan-tan. The same joint was raided in June last when the police gathered in \$9,000 on the table.

WILL MEET 25TH NOVEMBER.

Absence of Ministers in Europe Delays Opening of Parliament.

Ottawa, Oct. 21.—At a meeting of the Cabinet Saturday afternoon the date of the opening of Parliament was set for Nov. 28. It had been hoped that the departmental reports and preparation of the legislative program would have been sufficiently advanced by this time to enable Parliament to open on Nov. 14 or 21, but unavoidable delays and the absence of several of the Ministers in Europe on business of state during a large part of the summer have resulted in holding back the opening by two weeks. At Saturday's council the principal question discussed was the mission of Hon. Mr. Lemieux to Japan. It is confidently expected that when Canada's case is presented to the Japanese Government by Mr. Lemieux, understanding as to a limitation of immigration to Canada in force when the treaty was signed, but it will be made perfectly plain by Mr. Lemieux at Tokio that if the immigration is not limited as desired by Canada, the Government at Ottawa will promptly give the six months' notice necessary to abrogate the treaty. Mr. Lemieux, in order to reach Tokio as quickly as possible, has again changed his plans, and cancelled his passage on the Canadian for Friday next, and will now go via Vancouver, sailing from that port on the 28th inst., as originally intended.

A young English boy who was driving a spirited team belonging to Wm. Weaver, of Chatham Township, was thrown from the wagon when the team ran away from him on King street Friday afternoon. He was slightly stunned and suffered a couple of painful bruises and cuts. He was taken into the Central Drug Store, where his injuries were attended to. No other damage was done.

Mr. Walter Dolman, who has been on a ten-day visit with his friend, Charles Wragg, at Cedar Springs, returned home Saturday morning, and in the afternoon resumed his position as pianist at Wonderland. While away, Mr. Dolman presided at the organ in Grace church, Overy, Sunday, the 12th October, and on the following Monday evening assisted in a concert by organ selections, and as accompanist.

The road race, which will become a yearly event in connection with the C. C. I. sports, will be run off on Saturday, October 26. This is open to the pupils of the C. C. I. only. The prize to be awarded to the successful winner will be a cup donated by the Banner-News, and a medal donated by Mr. D. S. Paterson of the Collegiate teaching staff. The race will start from the corner of Tecumseh Park at Stanley avenue, and will proceed down William street to the Park House, where it will turn and run two and one-half miles out into the country, and return to the place where it started. The cup is to be held for one year, and the medal will be retained by the winner, a new medal being given each year.

A CURIOUS CAP

Jack Primeau, of Toronto, who was in the city last week visiting parents on Wellington St., brought with him a curious cap, which was presented to him by a friend. Just before leaving the city Saturday, Mr. Primeau showed the cap to a Planet reporter, and explained that it was one commonly worn by the natives of Southern and Central America.

The cap is much like the toboggan cap of this country in shape, and when pulled out from the top is almost two feet in length, and has a tassel much resembling a Chinaman's cue. As might be expected of a cap worn in tropical regions, it is light and cool, the weaving being of a very loose nature, but withall strong and substantial. It is made from the fibre husk that envelopes a very long fruit, that grows on the Julia palm of Central America, and which is found mostly in swampy places. This palm is sometimes known as the cocco palm. In order to prepare this fibre for weaving purposes it has to be rolled briskly in the hands.

The cap is quite an odd curio, and Mr. Primeau says that he would not sell it at any price.

Stomach troubles, Heart and Kidney ailments, can be quickly corrected with a prescription known to Dr. Shrooper's Restorative. It promptly and surprisingly relieves which this remedy immediately brings is entirely due to its Restorative action upon the controlling nerves of the Stomach, etc.

A DREAM

I had a dream the other night and I saw in my dream two little chubby fellows very poorly clad in rags, and cold wet feet, crying on the street. Now if many of these little ones die and go to heaven this winter, maybe those immigration agents will be calling on those little ones for a drop of cold water to cool their parched tongues. I for my part have resolved to repair the shoes of such as these little ones for half price, if I have to go with half a loaf instead of one, and as doctors do, I will charge those that are able to pay more for what they have done. "THE CALL OF THE WILD"

There is not another place on the continent of America to compare with the "Highlands of Ontario" for deer and moose hunting. This part of Canada still forms a portion of that small remnant of the world's pristine wilderness—not yet the "bode of man and his mighty civilization."

Northern Ontario with its rich resources is regarded as the richest deer and moose country in the world.

Moose season in the Moose country opens October 18th for 31 days.

Deer season in the Deer country opens November 1st for 15 days.

These sections of Ontario are the places to hunt, and valuable information as to how and when to get there and all particulars can be had free by addressing J. D. McDonald, D. P. A., Grand Trunk Railway System, Union Station, Toronto, or W. E. Rispin, C. P. & T. A., or J. C. Pritchard, S. A., Chatham.

TENDERS WANTED

Scaled tenders will be received by the undersigned up to and including Saturday, October 26th, for the erection of a steel bridge 120 feet in length with concrete abutments and floor, over Jeannette's Creek, concession 3, Raleigh. Specifications can be seen at my residence or a copy will be sent to any address upon application. Each tender must be accompanied by a marked cheque for ten per cent. of the contract price, which will be returned if the tender is not accepted, or forfeited if contract is not carried out according to agreements. Address W. J. Shroove, Commissioner, Chatham P. O.

CLARIFIED AND BOTTLED
MILK

"To clarify and bottle milk is the only sanitary and up-to-date way to handle such an important product of the dairy as milk, for while it is one of the best and most necessary foods we use if properly cared for, it is certainly one of the most dangerous if neglected or carelessly handled, and should never be exposed to street dust, as is done in the ordinary way of peddling milk from large cans with open measures. The Steam Turbine Machine used to clarify all the milk sold from the

Spoiled the Encore.

The nobility and gentry of Little
Plowboro were recently gathered in
the village schoolroom to enjoy some
tableaux vivants by local performers
says Pearson's Weekly.

The curtain had just fallen on a
really creditable picture of the death
of Nelson, shown to slow music, when
one man, who was known to be a
friend of the gentleman representing
the greatest naval hero, rose and tried
to make his way toward the stage.

"Keep your seats, please," said the
stage manager. "We're much obliged
for your kind applause, ladies and gen-
tlemen, and we're going to give you
the death of Nelson over again."

"Oh, are you?" came from the hero's
friend. "Then if you'll tell Nelson's
kitchen chimney's aff're 'praps 'e won't
dis so blessed lingerin'."

He Settled It.

An amusing story is told at Strat-
ford-on-Avon. In the smoking room
of a hotel there an Englishman and a
Scotchman engaged in a heated argu-
ment. John Bull was declaring Wil-
liam Shakespeare to be the only poet
of the world, and Donald McPherson
was standing up for his Robert Burns.

Words ran high and blows seemed
imminent when a self-confident little
commercial traveler determined to
throw oil on the troubled waters.

"Gentlemen," he said, stepping be-
tween the heated disputants, "let me
settle this amicably. Who is this
Shakespeare-Burns?"—London Tele-
graph.

Crowded Out.

"I am thirty-five years old," an-
nounced a woman of fifty-six at a tea
last week.

"And I am twenty-six," said the wo-
man of forty-five. Then, turning to a
girl of seventeen who stood near by,
she asked, "How old are you, Ethel?"

"Oh," replied Ethel, "according to
present reckoning, I'm not born yet!"

"The Smallpox Devil."

BEER* STEADIES THE NERVES

GOOD beer, used as a bever-
age with meals, makes
steadier, stronger nerves be-
cause it helps the stomach do
its work better.

Your own doctor will tell you
that the right use of beer is
good for almost every adult—
women especially.

The little alcohol in beer (less
than there is in cider) helps
digest food. Get the right idea
about beer, and be healthier for
using it.

*BEER is a term which covers lager, ale, porter and stout
and, in the practice of Ontario brewers, implies beverages
made under most hygienic conditions, from Ontario barley
(the best in the world) malt, hops and pure water.

KNOW HUMAN NATURE.

Logic of the Man Who Fiddled in the
Midst of a Flood.

When Davy Crockett was on his way
from his Tennessee home to Texas to
fight for the new republic he rode over-
land with some chance friends from
Little Rock to Fulton. One day they
were startled by hearing the high notes
of a distant violin playing a rollicking
air. Putting spurs to their horses, the
men hastened toward the sound and
soon observed several others running
through the fields in the same direc-
tion. At last they came over the crest
of a ridge in view of the river and be-
held the fiddler seated in the middle
of the flood in an almost submerged
buggy playing as fast as he could
shake the bow.

"Hello, there! Turn back!" shouted
the men who came through the field.
"I can't," replied the fiddler.
"But you've missed the ford. You'll
drown!"

"I've known that for half an hour,"
he answered.
"What are you going to do?"

"Sit here till you chaps come out and
turn my horse the right way."
The horse was with difficulty keeping
his footing and seemed about to be
swept away. One of the men who had
been attracted by the fiddling waded
out and by a precarious way reached
the horse's head and led him round to
the ford and back to the bank, the pas-
senger fiddling all the way and wind-
ing up with a merry jig.

"What do you mean by sitting out
there fiddling in the face of death?"
demanded Crockett of the rescued
stranger.

"Well, colonel," said the fiddler, "I
am a student of human nature. When
I found I had missed the ford and
needed help, I set out to get it. I
might have shouted myself hoarse and
no one out here would have paid the
slightest attention to me. But there
isn't a man west of the Mississippi
who wouldn't come running at the
sound of a fiddle in the woods."

"And he was right," said Davy, "for
there we were, the lot of us, our horses
all of a lather, for running to satisfy
our curiosity about that squeaking fiddle
in this out of the way place."

SUNDOWN DOCTORS.

A Class That Is Peculiar to the Na-
tional Capital.

"Sundown doctors" are an institution
peculiar to Washington City. They are
an amiable company of medical prac-
titioners who ply their trade only
after nightfall. Not that these gentle-
men prefer darkness to light if they
had their druthers, nor are their deeds
of questionable complexion that looks
best in the shade. Sundown doctors
have no ways that are dark or tricks
that are vain. They are as open as the
day that they may not utilize. If they
practice their profession by candle-
light rather than by the sunshine,
that's Uncle Sam's fault, not their
own.

Sundown doctors begin to get
busy only after 4:30 in the afternoon.
From 5 to that hour, poor souls, they
are holding their noses to the grind-
stone over the government desks.
For one must live, don't you know,
however soaring one's scientific ambi-
tion, and Uncle Sam's wages do come
in mighty regular and handy. So that
in a pigeonhole is the story of the
origin of the struggling fraternity of
sundown physicians at the federal
capital.

There are thousands of instances.
Embryonic young physicians, with
their careers yet to carve, secure clerk-
ships in some of the governmental
departments of Washington in order to
keep the pot bubbling while they are
getting their medical education after
office hours. Their diplomas thus la-
boriously achieved, they hang out their
shingles tentatively, holding fast how-
ever, to their government positions un-
til securely established professionally.
A job in the hand, you know, is worth
a whole city directory full of uncap-
tured patients. Never let go a sure thing
till you are sure of a sure.

"Nanny Dummy."

In his "Highways and Byways in
Devon and Cornwall" Arthur H. Nor-
way tells of a fragment of antiquity
that still lingers in the neighborhood
of Redruth, where the country people
when they see a ghost say, "Nanny
dummy!" and he adds, "I leave the
riddle to be solved by any one who is
curious enough to undertake a useful
piece of practice in unraveling the cor-
ruption of language."

The phrase is probably a corruption
of "In nomine Domini," the Latin for
"In the name of the Lord," a phrase so
familiar in the devotion of the middle
ages.

His Compliment.

A few weeks back a wedding break-
fast was given by a substantial farmer
blessed with five daughters, the eldest
of whom was a bride. A neighbor,
a young farmer, who was honored with
an invitation, thinking no doubt that
he ought to say something complimentary
upon the event, addressed the bride-
groom thus:

"Well, you have got the pick of the
batch."

The faces of the four unmarried
ones were a study.—London Graphic.

The London Cabby.

An extreme specimen of a dandy
alighted from a four wheeler and went
round to pay the driver. The poor old
bag o' bones mare turned her head to
gaze at him.

"Yes," said the driver confidentially
to the horse as the passenger moved
away, "that's the blessed hobject
you've been a drawin' off"—London
Express.

RIVER OF SALT WATER.

Curious Stream That Runs Inland in
Grecian Island.

One of the most curious phenomena
of geography is found on the southern
coast of the island of Cephalonia, in
Greece. It is a stream of salt water
which for an unknown period has left
the almost tideless sea, and flowed in-
land with a volume sufficient to fur-
nish water power to two mills. For
some generations the mills were op-
erated by undershot wheels which took
their power from this little river of
ocean water. They supplied flour to
the people of the island until recently,
but now they have been dismantled
owing to the competition of larger and
better equipped mills.

The sea enters the land at four points
where the coast is practically on a level
with the salt water surface. The four
initial streams unite to form the
little river that flows inland in a broken
rocky channel until it finally dis-
appears in the limestone rock and
sinks into the earth.

This inland flow has continued al-
most certainly for several centuries.
It is far too great for removal by evap-
oration, chemical combination or even
physical absorption by pores or cav-
ities in the rocks. What becomes of
the water that is constantly flowing in-
land and disappears finally in the fis-
sures that have opened in the lime-
stone?

The question has been the subject of
much study, but no conclusive answer
has been given. It is probable that
there is an underground channel which
carries the water back into the sea at
no great depth below the surface. The
constant influx of salt water at Cepha-
lonia is duplicated, as far as is known,
at no other point of the world.

Clubs and His Tale.

To little John Adolphus Chubb
your kind attention I have been
Oh, how he loves to bathe and scrub
Each morn and eve at night!

New, John Adolphus William Chubb,
A fine young chap, is he,
And when he's in his little tub
Oh, 'tis a pleasant scene to see.

His nurse, a motherly old thing,
He used to coax the soap suds down
Adolphus, when he was her bring
The water, trumps in his gloe.

Oh, how he loves the cold, cold stream
Descending on him in the tub!
He feels as if he'd like to scroam:
He loves it so, does William Chubb.

And then, the evening's washing o'er
(Though he could wish it lasted still),
His nurse will say: "Come, no more,
You've had enough now, Master Will."

So swift he's dried, his nightgown on,
A nightcap tied upon his head,
And to the rattle's music John
Adolphus William goes to bed.

Acorn Lawn Party.

This amusement is very enjoyable to
young children. Gay colored bags of
muslin are given to each child—red
and green for the girls, blue and yel-
low for the boys. Inclose a large
enough portion of lawn or grounds
with long strips of cambric, the same
color as the bags, knotted together
and tied from tree to tree. Gilded
scornas, hidden from sight as far as
possible, are scattered over the ground
thus inclosed. At a signal the chil-
dren who have been placed outside the
ropes drive under the strips of cam-
bric and begin the search for the gold
acorns. At the end of a specified
time the children are called from the
haunt and an inexpensive prize
awarded to the one who has secured
the greatest number of acorns. Have
a consolation prize for the one who
brings in an empty bag. Cakes and
lemonade served out of doors add
to the enjoyment of the children.

A Strange Boy.

Some weeks ago in a village a few
miles from the City of Mexico a citizen
went to the alcalde and complained
that a boy ten years old had stolen and
carried away his donkey. He insisted
that the boy had carried the animal on
his shoulders. The police laughed at
the idea, but when the lad was arrest-
ed it was shown that the statement
was true.

The boy had carried a good sized
donkey a quarter of a mile on his
shoulders without a stop. He did the
trick again for the benefit of the po-
lice.

Various tests were made of his
strength, and it was found that he had
the muscles of two ordinary men.

Magnetic Toys.

Magnetic toys, such as swans, fish,
boats, etc., may be made of any light
material, such as cork or elder pith.
Much pleasant occupation for evenings
may be found in shaping these light
objects, and if a small piece of steel
or iron be placed in some prominent
part of the object it will float about
in the water in obedience to the move-
ments of a magnet held near it. Broken
pieces of needles, if carefully hand-
led, do very well so fasten into the
floating objects and serve as points to
be attracted by the magnet.

CASSEROLE COOKING.

The Most Popular Dish Cooked in This
Fashion Is Chicken.

The charm of cooking en casserole is
in the delicious blending of flavors
that it accomplishes. And one can
have meat as well as vegetables, all
from the same dish and with equal
good flavor. Perhaps the most popular
casserole dish is chicken. To prepare
this the chicken should be washed and
wiped very carefully and thoroughly,
then buttered all over and dipped in
flour. The chicken is then laid in the
bottom of a good sized casserole and
two cups of soup stock are added. If
vegetables are desired with it, a dozen
small onions are put in whole, with a
couple of large potatoes cut into about
two dozen small balls, one carrot cut
into fancy shapes, two handfuls of
string beans, two stalks of celery, a
clove of garlic, whole; salt and pep-
per, a sprig of parsley and one turnip
cut into fancy shapes. All these are
laid around the chicken, and the cas-
serole is then put in the oven to stay
for an hour and a quarter. If the veg-
etables are young and fresh, then it is
best to put them in after the chicken
has cooked for twenty minutes. But if
they are old then they can be started
when the chicken is, and both will be-
come tender and done at the same
time.

Deviled chicken is another savory
casserole dish, which is better known
at restaurants than it is at the family
table. To make this the chicken is
first broiled. Ten minutes before it is
time to serve the chicken is removed
from the broiler, laid in the casserole
and the following sauce poured over
it. Take a little mustard, two or three
tablespoons of Worcestershire, pep-
per, salt and stir. After the same is
poured over the chicken breadcrumbs
are sprinkled on it, and then the cas-
serole, with its contents, is put in the
oven to braise for a few minutes.

TO RENOVATE BAGS.

A Stunning Design in Gold Beads and
Sequins.

The shabbiness of suede or silk wrist
bags can be made to look very elegant
and expensive in the following way:
Cut away the old leather to within an
inch of the frame and make a new
bag or brocade or thin tapestry the
same size. To attach it to the suede
right up close to the frame is a very
easy matter, the stuff being turned

into shape as you go along. Next
comes the decoration. The bag il-
lustrated is sewn with jewels, with
the lovers' knot in tarnished gold
braid. The jewels are very close to-
gether, and it is a good plan to follow
the pattern of the brocade or else use
a simple geometrical design. When
the embroidery is finished, slipstitch
in a silk lining, which will hide all the
stitches. Several bags too dilapidated
to use were renovated in this way and
realized a considerable sum each for a
charity.

"Not Taking Any."

An amusing story is being told con-
cerning a certain duchess and little
Prince Henry of Wales. The duchess
was staying at Sandringham, and tea
was being served in the big hall.
Prince Henry, who was present, was
made much of by the ladies, and the
duchess, in her sweetest tones, said to
him:

"Come here, dear, and give me a
kiss."

Prince Henry came, gave a good
look at her and then said in his shrill,
childish treble:

"Thank you, some other day."

It was quite irresistible; no one could
help smiling, and happily the duchess
saw that her sense of humor was sufficient to per-
mit her to enjoy a laugh against her-
self.

A Rule of Three.

Three things to govern temper,
tongue and conduct.

Three things to cultivate—courage,
affection and gentleness.

Three things to commend—thrift, in-
dustry and promptness.

Three things to despise—cruelty, ar-
rogance and ingratitude.

Three things to wish for—health,
friends and contentment.

Three things to admire—dignity,
gracefulness and intellectual power.

Three things to give—alms to the
needy, comfort to the sad and appre-
ciation to the worthy.

The Afternoon Tea.

Orange straws are among the dainty
tidbits that are frequently served with
afternoon tea. To make them the easi-
est, quickest way, remove the white
membrane from the orange peel, cut
into thin, even strips and soak in cold
water for two hours. At the end of
that time wipe dry. Roll two cups of
sugar with one of water until the
sugar threads, dip the straw into this,
then lay on oiled paper until the next
day.

When Cleaning Knives.

Add a tiny bit of carbonate of soda to
the bath brick on the knifeboard.
Knives will polish much more easily.—

Wireless Money Lending.

One of the most interesting types on
the American track is the professional
money lender. Money lending is ab-
solutely forbidden, and so the entire
transaction must be conducted sub-
rosa, but if a person who is on good
terms with the law, and who has some
idea of value with him it is easy for
him to realize money on it.

The lender is an irreproachably
dressed person who sits on the grand-
stand with the rest of the crowd and is
known in his true colors only to the
habitués of the track. A man who
wants some capital makes an unobtru-
sive sign to him and twirls a ring he
may be wearing at the time. Shortly
afterward both will proceed to a res-
taurant, where, for the benefit of on-
lookers, they will greet each other as
ordinary acquaintances. The exchange
is then made over the drink they order;
the loan broker has the ring and the
loaner has the cash. If the latter comes
in on the next race he will return the
money and the agreed upon premium
and will receive back his ring—from
"The People and the Ponies," by C. F.
Peters, in Bohemian.

A wise man keeps a watch on
himself, while a foolish one watches
his neighbor.

At the Brisco Opera House—

A Romance in Ireland is the title of the new and successful comedy-drama in which our favorite young singing comedian, Allen Doone, will appear at the Brisco Opera House on Wednesday, October 23rd next. As in the past two seasons Mr. Doone will be under the direction of Mr. Geo. W. Kenney, who promises the best all around company, as well as, the most complete scenic production ever seen in an Irish play. As a swagging, devil-may-care, "Larry O'Day" the young star is said to be a delight. He "borrows" the old squirrel's pet hunting mare to follow the hounds, and makes love to his daughter, Nora, with equal assurance; and is just as ready to warble a sentimental ditty as he is to deliver a knock-down blow to an enemy. A Romance in Ireland is said to be an elaborate scenic production in four acts and eight stage-settings, whose characters are garbed in the picturesque costumes of the seventeenth century, and whose plot is remarkable for its originality and freedom from the hackneyed ideas of the conventional Irish play. A pleasing feature will be the introduction of the old-time songs and dances of the period, with appropriate musical accompaniment upon the "pipes." Mr. Doone has some pretty new songs, of his own composition.

THE NEW DEPARTURE IN MELO-DRAMA.

"The Shadow Behind the Throne," which comes to the Brisco Opera House on Friday, October 25th, goes as far afield as distant, ancient and mysterious Peking, China, for its scene of action, and its cast is a varied one introducing among other characters a Mandarin, who is "The Shadow," and a dramatic character of marked originality and force; a scheming and merciless Viceroy; Col. Cathoun, American Ambassador to China; George Ingram, his Aide-de-Camp; Henry Seaton, an Attaché; Ralph P. Cook, an American correspondent; Bobby Carruthers, the Colonel's nephew; Prince, a spy in the Viceroy's service; Li Ling Foo, a Christian missionary; Dorothy Cathoun, the Colonel's beautiful daughter; Blanche, her exceedingly lively friend; Madame, the Viceroy's mistress; De Roche, attached to the American Legation; and a number of minor characters, including U. S. Marines, Chinese Boxers and native servants. The specially imported costumes are gorgeously unique and the scenery rich and quaint in its oriental realism.

TRIED TO BLACKMAIL ACTOR.

Detectives Were Hidden In Room When Money Was Proffered.

New York, Oct. 21.—Hugo O. Vocech and Frank O. Tomberg were arrested Saturday night at the Astor Theatre on complaint of Raymond Hitchcock, the comedian, charged with blackmail.

The arrest followed the publication of a number of stories in which an unnamed "prominent" comedian is described as "the star of a successful Broadway production," was accused of gross misconduct. It is said that Vocech had recently written a number of threatening letters to Hitchcock demanding money, and that he finally called at the theatre last Friday night and demanded \$1,000 for the suppression of certain stories which were discreditable to Hitchcock and which Vocech threatened to have printed unless he received the money. He was asked to call again the next afternoon and was given a ring as security for the money he demanded. He called later and was offered a \$1,000 bill, but declined it, saying that he must have now \$2,500 in small bills. Detectives were hidden in the room at the time.

HUNTER DROPPED DEAD.

Coroner Summoned as Foul Play Was Suspected—Heart Failure Cause.

St. Catharines, Oct. 21.—Charles Tremor, moulder, at the McKinnon Sash and Metal Works, while out shooting with a number of fellow workmen on Saturday dropped dead near Martindale Creek. Tremor's absence was not noticed by his companions for some minutes, and when the body was found, with the gun beside it, foul play was feared, and Coroner Merritt was summoned.

Examination of the body failed to reveal any wounds, and the doctor soon discovered that death was due to heart failure. Tremor came to this city from Whitby. His mother and sister reside in Toronto.

Wife Goes Insane.

Toronto, Oct. 21.—A despatch from Cincinnati states that the wife of the man named Krakauer, living at 630 Central avenue in that city, became insane on learning of the death of her husband in Toronto.

Krakauer's body was found in a room at the Vendome Hotel, corner Wilton avenue and Yonge street, Friday, with an empty carbolic acid bottle nearby. Among his effects was found an accident policy for \$1,000, taken out on Oct. 12.

Letters in his possession indicated that Krakauer was in straitened circumstances financially.

Police to Explorers.

Ottawa, Oct. 21.—Detachments of the Royal Northwest Mounted Police will probably be asked next year to explore the unknown districts of Ungava, Keewatin and Mackenzie, one party striking west from Chesterfield Inlet to Great Slave Lake, and one traversing the territory of southern Keewatin on the west shore of Hudson Bay. In these districts the Indians are subject to no control, and nothing is done to preserve the forest areas.

SCOUNDREL IS TRAPPED

How Owen Sound Bigamist Was Caught in London

He Swallowed Bait Offered In Bogus Advertisement

Owen Sound, Oct. 21.—It was by a clever ruse that Thomas A. Richardson, the alleged thief and bigamist who is wanted here, was arrested yesterday afternoon in London, Ont. Richardson has been a sawyer and sawyer in lumber mills for a number of years, and when he disappeared from St. Thomas, after the victim of his second matrimonial venture, Miss Weir, was brought home, it was thought that he would make his way out of the province to some other point where the saw mills are numerous.

He had frequently spoken of a desire to go to South America to work in mills there. An advertisement was placed in a daily paper, calling for a competent sawyer and sawsetter to go to South America, a fact advanced by acceptable man. Among the replies received was one from "Thomas Alexander," which are Richardson's Christian names. Mr. J. S. Finlay, for whom Richardson had been sawyer and from whom the latter had stolen a considerable sum of money, recognized the application as from the man that he wanted. Instructions were wired to the London police, and the arrest followed at the factory in the East-end, where Richardson was working.

WHOLE CREW SAVED.

Officer's Noble Deed Averts Terrible Explosion on Connecticut.

New York, Oct. 21.—A terrible disaster on the United States battleship Connecticut was averted by the presence of mind and heroism of Lieut. Wm. Piggott Cronan. According to the story, Lieut. Cronan was in command of one of the eight-inch guns on the Connecticut during recent target practice off New England. As the powder charge was thrust into the gun the lieutenant noticed that from a small hole in the bag a quantity of powder had escaped and fallen into the threads into which the breech-block of the gun screws. Realizing that the action of screwing the breech-block home would ignite the powder before the block could be firmly screwed home, causing the entire charge to explode back into the turret, Lieut. Cronan shouted an order which stopped every man in the turret as he stood, except the man who was closing the breech of the gun. He did not hear the shout, and continued to screw the breech home. Lieut. Cronan sprang forward and thrust his hand into the breech of the gun. The breech closed on his hand, badly mangled it, and clearly cutting off the first finger, which fell into the grooves and caused the closing mechanism to stop. The sailor at the breech of the gun faintly when he discovered what he had done and what he had narrowly escaped doing. If the breech had been closed it is likely that every man in the turret would have been killed.

A board of inquiry was called to determine how the hole came in the powder bag. Lieut. Cronan refuses to discuss the incident.

TWO KILLED IN EXPLOSION.

Gas Expert and Assistant Are Blown to Death.

New Hartford, Conn., Oct. 21.—A machine used in the manufacture of illuminating gas from petroleum in a small structure on the Farmington River, in the upper village, exploded with terrific force Saturday morning and Thomas O'Connell, the maker of gas, and his assistant, Michael Donovan, who were standing nearby, were instantly killed, and George Gagnon, a helper, was seriously hurt.

The building was wrecked. Only the three men mentioned were in the building.

The reason for the explosion is not apparent.

Thaw Working on Brief.

New York, Oct. 21.—Harry Thaw has been working on a brief to be used by his attorneys at his second trial for the murder of Stanford White, and turned the document over to Martin W. Littleton, his chief counsel, Saturday.

Thaw has had frequent conferences with Russell Peabody and Daniel O'Reilly, two of his counsel. Evelyn Nesbit Thaw has recovered her health and visits her husband daily. As she was leaving on Saturday she said Thaw was in good health and spirits.

Crashed Into Freight.

Ottawa, Oct. 21.—The C. P. R. North Shore train which left Ottawa at 6.20 p. m. Saturday crashed into a heavy freight train which was trying to make the siding at East Templeton. Several cars and one locomotive were badly smashed but fortunately no one was injured. Traffic was blocked for five hours. The Montreal football team were on the train.

Alfonso's Close Call.

Manresa, Spain, Oct. 21.—King Alfonso had a narrow escape from a serious accident near here yesterday. His automobile the King was going over a temporary bridge, when the structure collapsed under the weight of the car, which was precipitated into the river. His Majesty escaped with a wetting.

Floater Found at Kingston.

Kingston, Oct. 21.—The body of a man, found in the water near Macdonald Park yesterday afternoon. It was badly decomposed. There was no clothing upon it. The deceased appeared to be about 55 years old and 175 pounds in weight. There is no clue to the man's identity.

"The Waverly" Kid Glove

At \$1.00 per pair

All that a woman could ask of a glove is included in the "Waverly."

"The Waverly" is a worthy glove---by which we mean that at every stage of its building, expert, open, honest methods have been used.

And it's worth while to consider how such a glove as "The Waverly" is made.

"Kid Gloves" nowadays is a term that covers not only real kid, but imitation of the lamb, the deer, the colt and many other kinds---"The Waverly" is real French kid selected by experts in the glove craft---made by Perrin Freres and backed by them and backed by us---every size and every shade. Price \$1.00 per pair.

Furs that are Exclusive

Our success in the fur business has come from the persistent backing of every statement we make with goods that live right up to our statements about them. We call furs by their correct name if it is imitation we plainly call it so, if it is dyed we call it dyed. We invite the most critical inspection and comparison of our goods with absolutely no obligation but you may choose your fur now and have it reserved until wanted---an early choice often gets you the best---

LEFT SIX PASSBOOKS.

Cassie Chadwick Apparently Had \$305,000 In Pittsburgh Banks.

Cleveland, Ohio, Oct. 21.—The startling statement was made by Nathan Looser, referee in bankruptcy for Mrs. Cassie L. Chadwick, Saturday, that he had come into possession of six passbooks between Mrs. Chadwick as a depositor and banks in Cleveland and other cities. According to one of these passbooks Mrs. Chadwick was a depositor in the Second National Bank of Pittsburgh, on June 10, 1902, to the amount of \$305,000, and at intervals during that month for smaller sums. There are no marks indicating that the money has been checked out.

Mr. Looser said that he has written the Pittsburgh bank officials for a full statement of Mrs. Chadwick's dealings with the bank, and that he is also making an investigation concerning the passbooks with local banks.

"Whatever money is found," said Mr. Looser, "will go to the creditors, and not to relatives of Mrs. Chadwick. I do not care to state just now all of the information that has come to me concerning probable funds belonging to Mrs. Chadwick, but will probably make several trips soon in pursuance of an investigation made necessary by this discovery.

The date of June, 1902, it is said, corresponds with the period in which Mrs. Chadwick is alleged to have had considerable business dealings with the late James W. Friend of Pittsburgh. Referee Looser is of the opinion that Mrs. Chadwick had the money on deposit in Pittsburgh when she was arrested, and that she never called for it.

Story is Denied.
Pittsburgh, Pa., Oct. 21.—Thomas W. Walsh, Jr., second vice-president of the Second National Bank of Pittsburgh, said yesterday that Mrs. Cassie Chadwick never had an account at the bank.

At the time Mrs. Chadwick is said to have deposited \$305,000 Mr. Walsh was cashier of the institution.

Killed by Automobile.
Troy, N. Y., Oct. 21.—Gen. Jas. C. Grindley, an employee of the state comptroller's office at Albany, was struck by an automobile here Saturday, and was so severely injured that he died. The automobile was driven by C. Beckford, also of Albany.

Beckford was taken into custody and arranged on a charge of manslaughter in the second degree. He was admitted to bail in the sum of \$2,000.

Fatal Railway Collision.

Chicago, Oct. 21.—Harry Larson was killed and 10 other persons injured, none fatally, in a head-on collision between two suburban passenger trains on the Chicago and Northwestern Railroad, near Grand avenue, Saturday night.

"WE DO WHAT WE ADVERTISE"

Suits Against Thaw.

New York, Oct. 21.—Dr. Allan McLane Hamilton, the well-known alienist whose testimony formed an important part in the trial of Harry K. Thaw, is preparing to sue the Thaw family for his services.

The suit, which will be for between \$5,000 and \$7,000, will probably be followed by similar proceedings on the part of all the other alienists employed by Thaw's counsel to testify in his behalf.

In explaining his absence from court Mr. Hartridge made affidavit that private cares (the sensational disappearance of his wife about two weeks ago) had rendered his state of health such that he was unable to leave his home.
