## QUEBEC

CANADA.

### THE PROVINCE OF PROSPERITY.

Vast natural resources and an industrious, thrifty, and enterprising population have brought unexampled prosperity to this Province.

No Province of the Dominion offers more startling opportunities for the investor. Immense water powers, now running to waste, will produce electricity for industrial purposes in unlimited volume; vast forests will supply an enormous cut of timber and wood pulp; rich mineral deposits hold out alluring opportunities to the prospector; extensive tracts of fertile land suitable for general farming and dairying await settlement. Next to its lands and forests, the Fish and Game of the Province are among its most valuable assets, providing splendid commercial opportunities and incomparable sport. Quebec is the Sportman's Paradise, the Holiday-maker's Elysium, and a land of opportunity for all.

## ROYAL NATIONAL LIFEBOAT INSTITUTION.

(Supported entirely by Voluntary Contributions.)

No Canadian who is over in the Old Country fighting for Britain's cause can be indifferent to the noble work of the Lifeboat Service.

1916 WAS A RECORD YEAR IN LIFEBOAT ACHIEVEMENT.

The number of lives rescued in 1916 (1,300) constitutes a record which has never been beaten in the history of the Institution.

THE GREAT MAJORITY OF THESE LIVES WERE SAVED FOR BRITAIN AND HER ALLIES.

Vice-Admiral Sir David Beatty says: "H.M.S. LION. Through long years of peace the heroic deeds of our Lifeboat-men have served to show that the British sailor is still what he always has been, ever ready to do his duty with that indifference to danger which is our birthright from the sea. Theirs is the spirit which will bring us triumphant through the greatest peril that has ever beset our beloved country."

### THE LIFEBOATS AND THE WAR.

During the WAR the Lifeboats are constantly engaged in saving the lives of OUR SOLDIERS,

crossing the seas to fight our battles.

OUR SAILORS,

who guard our coasts by night and day.

OUR DOCTORS AND NURSES,

who bring the Wounded in Hospital Ships; and

OUR SEAMEN AND FISHERMEN,

who bring to our shores 80 per cent. of our food.

Since the outbreak of WAR the Lifeboats have been launched

**270 TIMES** to, and have **SAVED**

**766 LIVES** from H.M. ships and other vessels mined, torpedoed, or otherwise in distress from causes directly arising out of the War.

The Lifeboats have altogether saved over

**2,900 LIVES** since August 1914—the equivalent of nearly **THREE SPLENDID BATTALIONS OF FIGHTING MEN.**

**TWENTY-ONE GALLANT LIFEBOAT-MEN** and **THREE SPLENDID LIFEBOATS** have been lost on "Active Service," in the cause of humanity.

The Lifeboat Service is **THE RED CROSS OF THE SEA.** THE INSTITUTION RECEIVES NO SUBSIDY FROM THE STATE

Please **HELP** us to maintain a Service which in courage, endurance, and humanity is a fitting counterpart to the splendid achievements of our Fighting Forces.

Canadians responding to this appeal are asked to mention "Canada."

TO OUR READERS.

Owing to the Government restrictions on paper supplies, the cost of paper has already enormously increased and makes economy necessary. Readers will greatly assist us in meeting this new difficulty if, instead of purchasing by casual sale, they will order "Canada" from their newsagent or bookstall, as this is the only way to reduce the heavy loss and wastage of "returns" on unsold copies.

STRAIGHT FLUNG WORDS.

HERE is at last a new policy of Government in the Mother Country, a policy more in keeping with her history and with the temperament of her people. Ministers have commenced to tell the Nation the plain, hard truths. Mr. Lloyd George, in a very frank and courageous speech, calls for severe economies, necessitated partly by the results of the submarine campaign, and partly through the apparent absence of prevision in the late Government. These new measures will necessitate the entire suppression of many industries, but even those most seriously affected make no complaint. Plain speaking is very necessary if the nation is to make its utmost effort; and the utmost co-ordinated effort is required if we are completely to overcome our enemy.

In Canada there has been some good plain speaking by prominent men, in addition to the fine appeals of Dominion Ministers. Mr. Flavelle, the Chairman of the Imperial Munitions Board, has spoken stirring and timely words, and Sir Edmund Walker, both in speeches and writing, is encouraging his fellow citizens to face

all sacrifices ungrudgingly. In a recent article he tersely expressed the necessities of the moment:—

"We must supply many more men and we must not lessen our production of all classes of munitions. We cannot do this without harder work and longer hours for those who remain in Canada, and clearly not without the employment of women in the place of men to a very much greater extent than we have thought of thus far. Only thus can more men be freed to go to the Front, whether they go willingly or by conscription, and only through economy such as we have not begun to exercise can the task be successfully accomplished. If a wage-earner restrains his desire, or even his apparent need, to spend, and thereby saves \$100, and if he invests it in our war loans, he has put just \$100 more of fighting power into the British Army, which will absolutely not be available if he does not save the amount. So if any man, rich or poor, withstands his desire to spend his money on something he can do without, whether he puts his saving into a war bond or into a bank, he has by that act helped to win the war."

Speaking of the part Canadians have played in the war, he says:—

"I am sure we have not fought better than the Anzacs or the English, Scotch, or Irish, but we have fought as well. Our boys have quitted themselves like men, and that is enough. We are baptised and admitted to the councils of the world. We have helped in the greatest emergency the world has ever known."

In a fine passage Sir Edmund Walker refers to the

destiny of Canada if the people realise their responsibilities. He tells his fellow countrymen:—

Our responsibilities are enormous. We have been put in charge of one-third of the British Empire in area. We have in racial origin, land, climate, laws, society, industrial energy and moral quality such an opportunity as has seldom come to any people. We are the greatest hope of the home-seeker in the world. If we will turn the energy we have shown in the war to the building of that Canada which our elements are intended to produce, we shall show the world a nation such as history has not yet recorded.

Plain speech is a characteristic of an Imperial people, and it is significant that "straight flung words" are freely uttered to-day in every part of the Empire by the leading men and are so well received by the people.

### CANADA AND THE WEST INDIES.

**A**TENTION is again being given in Canada and the British West Indies to the scheme proposed some little time ago for a complete political and commercial union—Confederation—between the two countries. The subject is important enough to merit the fullest consideration, and no doubt more will be heard of it in the near future. Closer trade relations were, of course, established quite recently between the Dominion and certain of the West Indian Islands by the Hon. Sir George E. Foster, the energetic Canadian Minister of Trade and Commerce. With Jamaica, unfortunately, he was unable to conclude a similar agreement. It will be recalled that Jamaicans on a previous occasion feared that commercial preference to Canada might provoke tariff retaliation and penalisation of her products by the United States, on whose markets she has been dependent since the English preference for German bounty-fed sugar ruined the Jamaican sugar plantations. Under Confederation, and as an integral part of the Dominion, Jamaica would fear no tariff penalisation, as such action by America would provoke retaliation by Canada, the best customer of the United States.

The moment is certainly propitious for discussion of the proposal. To take one reason only. The present sugar shortage reveals the unpleasant fact that the British West Indies, which are capable of producing three million tons of sugar annually, are—thanks to our fatuous sugar policy in the past—producing only 2,000,000 tons. Confederation then (1) would secure direct trading between the Islands and Canada instead of largely through the U.S.A. as at present; (2) would secure to Canada a large market for her agricultural and manufactured products; and (3) the West Indies—with assured markets in Canada—would extend the cultivation of sugar. With the element of permanency—so essential to confidence—established, Canadians would supply all the capital necessary for the full commercial development of the Islands. Discussion of the suggested Union belongs primarily to the countries directly concerned. If Confederation be mutually acceptable, there will be little reason to anticipate objections from the Mother Country, where it is realised that full justice has not always been done to the British West Indies. If union with Canada will secure for the Islands a fuller development and usefulness, we welcome the revival of the proposal, and hope for its ultimate success.

### NOTES OF THE WEEK.

#### For the Conference.

The representatives of Canada and Newfoundland have now arrived in London to await the opening of the Imperial War Conference, in whose deliberations they are to take part. The statements made to the Press—and published on another page—by both Sir Robert Borden and Sir Edward Morris, provide ample justification—if such were needed—for the participation of the countries they represent in the sittings of the War Cabinet.

With pride Canada's Prime Minister is able to point not only to the prowess of the Dominion's soldiers on the field of battle, but also to the fine way in which they have been backed up by the munition makers and the soundness of Canada's financial basis. The National Service campaign is only another evidence of the determination of Canadians to bring the war to a victorious

conclusion. On his part Sir Edward Morris is able to present a fine record—also well known to readers of *Canada*—of the spirit that pervades the Island Colony, whose sons have played their part in the war on land and sea alike.

With a full knowledge of what is behind them, the representatives of Canada and Newfoundland may be trusted to take a worthy part in a meeting so momentous in the history of the Empire and of the world at large as that to which they have been invited.

\* \* \*

#### Restricting Canada's Trade.

Canadian trade will, of course, be considerably affected by the British embargo on imports. The principal items concerned are lumber, canned salmon and lobsters, leather, agricultural implements, apples, and paper.

Canadians, however, are by no means despondent regarding the consequences. Indeed, many hope that the step may be after all something of a blessing in disguise. In some of these lines prices have recently been unduly forced up, and it is hoped the restriction of export may bring about a reduction in the cost of living in the Dominion. Sir George Foster, the Acting Premier, speaking for his fellow-countrymen, says:—"We cheerfully make the best of the situation, sustained by the feeling that by sharing the sacrifices we are intimately associating ourselves with the Mother Country and the Empire at large in the common purpose of the war"; while Sir Thomas White, the Minister of Finance, describes Mr. Lloyd George's speech as "a wonderful epoch-marking utterance—one of the greatest, if not the greatest, in Parliamentary history."

\* \* \*

#### The Need for Thrift.

In the Mother Country thrift in the purchase or consumption of many articles is now enforced. In Canada such drastic action has not been taken, but national thrift is being strongly urged. Government statistics giving the articles imported into Canada during the twelve months ending October 31 last, show quite an extraordinary increase over the previous year, which, while giving proof of the plethora of money in Canada, certainly adds point to all appeals for national thrift.

Some of these official figures are somewhat surprising. The value of furs imported increased by one-third; musical instruments by two-thirds; precious stones were purchased to almost double the amount in 1915; silk manufactures are almost double; the imports of watches were actually more than double. As there has been no such increase of population through immigration to off-set those who left to join their brothers in khaki, it is obvious that the increased earnings, owing to high war prices and the wages of munition workers, have had the same result in Canada as in the Mother Country, where the working classes are spending their high wages in unaccustomed luxuries.

\* \* \*

#### The Canadian Spirit.

When a jester becomes serious it is often well to heed his words. Many have enjoyed the whimsicalities of Professor Stephen Leacock, whose books are almost as well known in the Mother Country as in Canada. Many have read his stirring appeal for national thrift and universal self-denial in the Canadian Press, and acknowledged the truth of his words. Mr. Leacock would have no half measures at this fateful crisis. He is as unsparing on personal comfort or indulgence as John Knox or Praise God Barebones. His cry is, "Those that can't fight must save and give all their savings to the national cause." He would have the conscience of the people stirred as in the days of Cromwell, when the people rose against autocracy. It might be well if we had a Cromwell to-day to arouse the conscience of the whole Empire.

Mr. Leacock says, in his appeal to his fellow countrymen:—

Save every cent. Live plainly. Do without everything. Rise early, work hard, and content yourself with a bare living. The man who does this—if he uses the saved money properly—is doing war work for his country. He may wrap his last year's coat about him and eat his bread and cheese and feel that he, too, is doing something to show the world the kind of stuff that is yet left in

it. . . . We need a blast of taxation—real taxation, income tax and all, that should strike us like a wave of German gas. As things are we should go down before it. Armed with the new gas helmet of national thrift we could breathe it easily enough and laugh behind our goggles. . . . If not—if that is the kind of nation that we are—let us call our soldiers home from the Western Front. They are fighting under a misunderstanding. The homes that they are saving are not worth the sacrifice.

The spirit expressed by Professor Leacock is typical of the feelings of the most prominent men in Canada.

\* \* \*

#### Preferential Tariff in Britain.

We expressed the opinion last week that the adoption of the policy of preferential trade within the Empire by the Mother Country would largely tend to keep emigration under the Flag. It must also tend greatly to stimulate the national industries in the Dominions and Crown Colonies. In Canada, for instance, pulp and paper manufactures are basic industries owing to unrivalled natural resources. The steel and iron industries of Nova Scotia similarly enjoy a favourable strategic position, and the output of such industries should be largely increased by a preferential tariff. The trade of India should become open to the Dominions on more favourable terms, while the products of that great Dependency would enjoy preferential tariffs in the Dominions. We refer elsewhere to the benefit to West Indian trade by more intimate connection with Canada.

\* \* \*

#### Free Trade Sophistries.

In spite of the lessons which German trade intrigue has taught us, certain Free Trade journals remain incorrigible. To bolster up their cause, to obtain delay, and to confuse the issue, they do not scruple to suggest unworthy and disgraceful motives to the Committee which decided in favour of Imperial Preference. We are told that "the proposals are the reward of the Dominions for their services in the war." Is it possible more grossly to outrage and insult Overseas sentiment than is deliberately attempted in this passage from the *Manchester Guardian*?

When will these Little Englanders, whose sordid and insular ambitions are concerned only with cheapness, realise that those in Greater Britain are in the war to their last man and their last penny on behalf of their own Dominions, and for the sake of ideals common to all? The suggestion of a reward could only have been made by the type of mind that urged, when the war clouds gathered, that England should desert her friends in order to enjoy war profits. The same journal raises the old cry of the poor man's loaf, and, in support of its fetish, exclaims, "Even the humble citizen of these islands has made his contribution to the common cause, and should not be sacrificed to other co-partners." This would be ludicrous if it were not so shameful. Now that the British farmer has been guaranteed a high price for his cereals, the "cheap loaf" argument falls to the ground.

\* \* \*

#### Red Cross Finance.

The report of the Joint Finance Committee of the British Red Cross Society, which has just been published, makes very interesting reading. We scarcely look for romance in a statement of accounts, but out of the coldly-ordered ranks of figures, and the calm, unemotional record of facts which this booklet contains, there shines the light of a great romance of public effort and giving for the weal of the sick and wounded among our splendid soldiers and sailors. Perhaps the most remarkable feature of all is the small cost which this vast work of succour entails. During 1916 the cost of Red Cross administration at home and in all theatres of war, excluding hospitals, amounted to £85,298, or only 6.67d. in the £ received. The cost of administration at Headquarters was but 4.15d. in the £ on income, and 7d. in the £ on expenditure. While the Society have spent over £1,800,000 in the past year, they have received a sum so much greater that they have in hand to-day sufficient to meet their estimated expenses during the current year.

Work in France and Belgium has cost £191,768; in Egypt, Malta, and the Near East, £189,270; in Mesopotamia, where an entirely new ambulance and motor-launch service has been created, £68,818; at Salonika £43,460,

and in East Africa £12,912. In addition to their own expenditure, cash and stores have been voted to Auxiliary bodies to a total value for the two years ended October, 1916, of £192,241, the Canadian Red Cross sharing to the extent of £25,000, £10,000 of which grant is still to be paid. This splendid work would have been impossible but for the generosity of the public, and it is to be hoped that the present inflow of funds will continue, for the work of the Society will not cease even when the war has ended.

#### NEW BRUNSWICK ELECTIONS.

##### A Liberal Victory.

According to the latest cables, the General Election which was held in New Brunswick on February 24 and 26 has resulted in the return of 27 Liberals and 21 supporters of the Government of the Hon. J. A. Murray, who succeeded the Hon. G. J. Clarke as Premier only on February 1 last. The defeated candidates include the Premier himself, the Hon. D. V. Landry, Minister of Agriculture, and the Hon. A. P. Culligan, a recently-appointed member of the Cabinet, without Portfolio. The leader of the Liberals, Mr. W. E. Foster, who was elected to that position only last month, is also among the defeated candidates.

The result indicates a great turnover of votes, inasmuch as at the last Provincial General Election, held in June, 1912, when the Hon. J. K. Flemming was Premier, he was sustained by a majority of over 40 out of 48 elected members. Mr. Flemming, who retired from the Legislature in December, 1914, was then succeeded by Mr. G. J. Clarke, whose continued ill-health led to his retirement in favour of Mr. Murray last month.

In only two of the nine Provinces of the Dominion, viz., Ontario and Prince Edward Island, is the Conservative party now in a majority in the Provincial Legislatures.

#### EMPIRE SETTLEMENT COMMITTEE.

We are pleased to be able to announce that as the result of strong representations, Canada is to be more fully represented on the Empire Settlement Committee, to whose composition we drew attention last week. In addition to Mr. Bruce Walker, the Dominion will be represented by the Hon. Robert Rogers, M.P., Minister of Public Works, and the Agents-General for Alberta, British Columbia, New Brunswick, Nova Scotia, Ontario and Quebec.

—\* \*—

Sir Charles C. Wakefield, who was Lord Mayor of London last year, was last week presented with an illuminated address from the Canadian and Australian Agents-General in London.

The Dominion Military Hospitals Commission reports that a 450-bed hospital has been prepared for returned soldiers on the pier at Halifax, N.S. At St. John, N.B., arrangements have been made to fit up a hospital for 500 bed cases in the armoury.

The Hon. Mrs. Ronald Greville's Sunday "At Homes" to Canadian officers have been so immensely appreciated that Lady Byng has asked different ladies if they will continue these parties till April 29. Among the kind hostesses who have readily thrown themselves into the scheme are Viscountess Enfield, Mrs. Orr-Lewis, Mrs. Leeds, Mrs. J. C. Brinton, and Mrs. D. Armour; as well as Lady Byng's uncle, Mr. Pandeli Ralli. Mrs. Greville has kindly undertaken to give another of her delightful "At Homes" about Easter-time. On Passion and Palm Sundays there will be no dancing, but simply tea and music.

**CANADA AT WESTMINSTER.**

**From Our Parliamentary Correspondent.**

I saw Sir Robert Borden in the Distinguished Strangers' Gallery of the House of Commons a few days ago when Mr. Lloyd George was delivering his big speech on sacrifice and victory. Many a British M.P. looked up at the virile, handsome statesman who has come over to take a big part in the Empire Cabinet.

\* \* \*

The authorities took care to give the Prime Minister of Canada the middle seat, and now and then the Prime Minister of the Motherland looked up in the middle of his speech as though particularly anxious to know that the head of the Dominion was watching and listening. He was. As a prominent Unionist M.P. said to me afterwards, "He was keenness personified."

\* \* \*

Sir Robert has already got to work on Imperial questions, although the great conference is still some weeks ahead. I happen to know that Mr. Lloyd George's speech and the way the British House of Commons took it both pleased the Prime Minister of Canada. It gave him the immediate impression—indeed the certainty—that the Old Country, its Premier, and its elected representatives have set their teeth to the sacrifices needful, and mean to see it through. The Dominion Premier, when he came down the stairs into the Lobby, let that view be known to several friends.

\* \* \*

Just behind the Premier sat several representatives of the Press of the Dominions, together with a row of neutrals. This is an innovation. The space in the little drab chamber set in the midst of the vast block of buildings is small, and before this the authorities of the House almost always failed to find room for the representatives of the Dominions and foreign Press. They are remedying that now.

\* \* \*

I learn from a Government official in the Lobby that Sir Robert Borden will have an opportunity soon of a voice on the question of instituting a new Imperial Order which, if adopted, will be awarded to those in the Dominions who have rendered distinguished service but who do not come within the scope of the existing K.C.M.G.

\* \* \*

I was chatting in the Lobby with Mr. Donald Macmaster a night or two ago, just after he had cross-examined the Government about the paucity of representatives of Canada on the After the War Overseas Settlers' Conference. He was pleased with the answer of the Government that the disparity of the number of representatives of Canada compared with those of Australia should be remedied. "The whole basis of Canada's claim to a larger representation," he said, "is not whether or not her Provinces are what are called 'Sovereign States,' but that they have the land on which they are ready to settle both their own ex-fighters and ex-fighters from this country."

\* \* \*

The meeting of Free Traders to hear the views of Mr. McKenna and Mr. Runciman was private, but I have got hold of a few facts as to what took place, which will be of special interest to Canada.

\* \* \*

The truth is, the old English Liberal Free Traders' opposition to Imperial Preference is broken down. Mr. Runciman, arch Free Trader, was President of the Board of Trade during strenuous war months, and he learned much about Imperial necessities. The Kaiser's legions have knit the Empire in a sense outside the purely military one. Mr. McKenna was Chancellor of the Exchequer, and he learned a good deal too. Of course, the private meeting of Free Trade M.P.s did not pass any resolutions denouncing Free Trade, but they took good care to keep an open mind. From what I hear I do not think there will be any solid opposition to Imperial Preference when the time comes.

\* \* \*

I find that Canadian officers are evincing a great interest in next week's Irish debate. A gifted Canadian major has asked me to do my utmost to get him a ticket for that day. They are "fed up" with the eternal drag of the Irish problem, and want to see it settled. I can say this much, that the visit of the Irish-Canadian Rangers to Ireland did great good. It brought leaders of all parties and creeds together. I went all round with the battalion. It was an education.

\* \* \*

There is great anticipatory amusement in the smoking-rooms of the House of Commons over the announcement that Mr. "Brass Tack" Martin, M.P., is coming back to Westminster again. That great statesman unconsciously delights the House. The way he spouted about Mr. Redmond as "the Right Honourable Member for Waterbury" is remembered with smiles.

**RAIDS BY DAY AND NIGHT.**

**Germans Vainly Seek to Imitate Canadian Tactics.**

The following is issued by the Canadian War Records Office, 3, Lombard Street, E.C., under date February 23:—

The week began with an attempt on the part of the enemy to imitate our raids. About 9 o'clock in the morning a heavy bombardment was made of the front and support lines held by the Canadian Regiment. Shortly afterwards, about 30 to 50 Germans were seen massing in their front line and waist high above the parapet. Our sentries at once opened rapid rifle fire, and our artillery at the same time commenced their retaliation, ranging accurately upon the crowded German trenches. The result was unfortunate for the enemy. Evidently a large number of casualties were inflicted, and the storming party completely disorganised. Groans of wounded were afterwards heard, and there was a great blowing of horns. No further effort was made to carry out the projected attack.

Our counter-blow was delivered at an early hour the following morning. Several parties took part in the operation. Under cover of an intense artillery barrage the attacking parties formed up outside our wire entanglements, and then advanced against the enemy trenches on a frontage of over 600 yards, including the well-known and strongly-fortified position known as "The Pimple."

**Enemy Suffers Severe Casualties.**

The Germans for the most part were still cowering in their dug-outs when our men poured into the trenches. On the left there was a strong resistance from the direction of the Triangle, the Germans attempting to bomb down to the assistance of the garrison directly attacked. However, the party detailed to protect the flank held firm, and thus permitted another party to penetrate across several lines of trenches to a depth of about 700 yards. Any Germans who resisted were quickly shot or bayoneted, and many dug-outs from which the enemy refused to emerge were bombed and then destroyed by portable charges. Nobody was left alive in the whole area over which our attack was spread. Sappers and pioneers who accompanied the raid located three large mine shafts, which they completely wrecked. The enemy retaliation was directed in part upon his own front line. We remained in possession of the German trenches for nearly an hour and finally withdrew, taking with us 47 prisoners of the 11th Bavarian Regiment, including one officer and two N.C.O.s.

Besides the extensive destruction to his trenches, the enemy suffered severe casualties, while our own were relatively few and consisted principally of walking cases.

**Officer Twice Wounded.**

Hardly had the turmoil of this large attack subsided when, about four hours later, in broad daylight, another raid was made a short distance to the south by another party. Protected by a barrage of rifle grenades and artillery fire, the party dashed across No Man's Land and flung themselves upon the startled garrison. Sixteen Germans were killed in the open trench and ten large dug-outs, which appeared to be well occupied, were completely destroyed. All of those within must have perished. Two prisoners were captured, and taken back to our lines. Our own casualties throughout the operation only amounted to one officer and four other ranks wounded.

The officer in command, while advancing across No Man's Land, was wounded in the side by a grenade fragment. He pressed resolutely forward, however, and entered the German trench. Noticing that at one point some of the enemy were checking the advance, he passed ahead of his bayonet men and killed two of the Germans with his revolver, and wounded a third. But at this point he was himself again struck by a bomb and severely wounded. One of his men then took him upon his shoulders and carried him back to our lines. An artillery officer who had accompanied the party for the purpose of maintaining communications and controlling the barrages, also arrived on the scene at a critical moment, and killed two of the enemy with his revolver.

Two days later, another party executed a very carefully planned and successful raid at about three o'clock in the morning. The night was clear overhead, with the stars shining brightly, when the party, specially trained, crossed No Man's Land, and entering the enemy's lines immediately after the lifting of the barrage, began the work of clearing up the trenches. Each section of the party had its appointed task, which had been carefully rehearsed. The operation was entirely successful. Not only were a great many Germans killed and a quantity of dug-outs with their occupants destroyed, but the party brought back with them eleven prisoners. Our casualties were only three men slightly wounded.

## THE RAID CHAMPIONSHIP.

## The Canadians' Vow.

Reuter's Special Correspondent with British Headquarters writing last week, says:—

The City of London men have "done it again." One of their splendid "trained bands" has wrested from the Canadians the record for the most successful raid of the war. While no troops in the fighting line have applauded this feat more loudly than the gallant "Can-Do's" themselves, they vow that they will not rest until they have restored their claim to the championship. This is a spirit of competition that seems to augur ill for the Boches. The Canadians in their big raid of mid-January brought back one officer, 99 other ranks, and two machine-guns. The Londoners brought back one officer, 119 other ranks, and five machine-guns. In addition, they abandoned two machine-guns just in front of their own lines as being so much damaged that they were not worth dragging over the parapet. To add the finishing touch to the story, the prisoners are all Prussians, belonging to the 185th Regiment. There is always a peculiar satisfaction in hearing that Prussians have been captured, and it is computed that at least 300 of them all told have suffered this fate at the hands of the London men.

## CANADA LODGE.

## Brethren from Overseas.

A regular meeting of the Canada Lodge was held on Tuesday at Freemasons' Hall, Great Queen Street, W.C. Owing to the length of the agenda the Lodge opened at 3.30. The growth in membership of this important Lodge is at the present time probably greater than that of any other Lodge in London owing, of course, to the great number of enrolments of brethren in khaki.

On Tuesday night there were seven initiates, in addition to five new members. The heavy work was admirably done by W.M. W. MacLeod Moore, assisted by Bro. Fred Grundy, P.G.S. As usual, khaki predominated in the Lodge, and in the course of the Fourth Degree there were many brotherly messages from Lodges in Canada, as well as interesting accounts of incidents at the Canadian Front.

Among the items of musical entertainment was "Land of Hope and Glory," and a brother from the Front said that he had never heard the chorus of this great Imperial anthem sung with such spirit and enthusiasm except at the Front. It is difficult for members of a Lodge containing so many brethren from Overseas not to connect the captured German Colonies with the aspiration "wider still and wider shall her bounds be set." In days to come, many of those who have been initiated in Canada Lodge during the war will revisit their Mother Lodge covered with honours won both in the Field and in more peaceful pursuits at home, and will look back to the days when they and their comrades were making history with their fellow Britishers on the Western Front, and met together when occasion served in the harmony of Canada Lodge.

Major-General Turner, V.C., C.B., D.S.O., who was accompanied by Col. Godson-Godson, D.S.O., distributed a number of medals to Canadian soldiers at the Epsom Hospital last Sunday.

Pte. R. Munroe, of a Canadian battalion quartered in Surrey, was shot dead on Tuesday by a private of the same regiment. Both men, it is said, believed the cartridge was blank.

One of the passengers rescued from the Cunard R.M.S. *Laconia* was Mrs. Reid, of Vancouver, daughter of Mr. Fred Burcombe. Mrs. Reid's husband is in an Overseas battalion which recently left Canada.

The widow of Sergt.-Major N. Walsh, Canadian Infantry, was last week presented at Cork with the Military Cross by General Doran, in recognition of her husband's conspicuous gallantry whilst severely wounded.

The harmony with which the British and Canadian war machinery generally is now working is indicated by the appointment of Col. Nelson Spencer, of Medicine Hat, to be a member of the British Army Canteen Committee.

Of the 214 officers gazetted to the battalion of the London Regiment raised by Lieut.-Col. Sir Pieter C. van B. Stewart-Bam since its formation some 21 months ago, 106 have come from the United Kingdom, 76 from South Africa, 12 from Australia, 7 from Canada, 4 from New Zealand, 2 from India, 4 from the West Indies, and 1 each from Nigeria, California, and Rio de Janeiro. In addition there are in cadet units 25 from South Africa, 2 from Australia, 2 from Canada, and 23 from the United Kingdom. At present about 60 per cent. of the battalion's officers are from Overseas and 40 per cent. from the United Kingdom. One of the Canadian officers has been killed; another has received the Military Cross.

## "CANADA IN FLANDERS."

## Lord Beaverbrook's Second War Volume.

The publication of Volume II. of "Canada in Flanders" by Lord Beaverbrook (Sir Max Aitken) is expected very shortly.

This series is the official contemporary history of the Canadian Overseas Military Forces. Volume I. scored a great triumph, and admittedly contained the best published description of the second battle of Ypres.

Volume II. follows the growth of the Canadian Overseas Military Forces actually in the field, from the original Division to an Army Corps. The narrative is a continuation of the fortunes of the Dominion's fighters from the action at Festubert to the battle of the Somme, so that the main actions dealt with are those of St. Eloi in April, 1916, and the fierce fighting in which the whole Canadian Corps took part south-west of Ypres in the following June (generally known as the Battle of Sanctuary Wood). In this latter action the Germans first captured our line from Hooze to Mount Sorrel, and after a fortnight's heavy fighting were turned out again at the point of the bayonet by the Canadians.

The second volume is somewhat longer than the first. This is not unnatural, as in the period dealt with—September, 1915, to July, 1916—the operations of a whole Army Corps, instead of a single Division, have to be dealt with.

The accounts are, of course, founded upon the official reports of the various commanders, and should be of great interest, both to the public and the military expert, as being the only detailed and accurate contemporary description of any of the fighting on the Western Front in the year 1916.

The last chapter is devoted to a consideration of the effect of the war on the relations between the Dominion and Great Britain, and foreshadows some closer form of constitutional union. This prophecy is important in view of the impending Imperial War Conference.

Messrs. Hodder and Stoughton are the publishers, and the price will be 1s. 3d. net.

## RETURNED CANADIAN SOLDIERS.

The Joint Parliamentary Committee of the House of Commons and Senate appointed to examine the question of the care of returned soldiers held its first meeting on February 22, Sir Herbert Ames presiding. The opinion was expressed (says Reuter's Ottawa correspondent) that soldiers returned as medically unfit at the time of enlistment should receive pensions as their services had been accepted by the State. Colonel Thompson, M.P., Chief Medical Officer, gave evidence that the cases of rheumatism were far below the estimate provided for, and that insanity was only equal to the percentage among the civil population.

## A SUPER MATINEE.

On Friday, March 2, a special matinee was to be given at the St. James's Theatre in aid of the Royal Free Hospital, which is at present the chief hospital in London for Canadian officers. The performance was under the patronage of her Majesty the Queen, and a programme of exceptional interest had been arranged. Two new one-act pieces were to be produced, "Good Gods," by Lawrence Cowan, in which Sir George Alexander was to appear, and "A Bit of a Lad," by A. Neil Lyons, which was to be presented by Mr. Gerald du Maurier and Miss Mabel Russell. The price of tickets ranged from £3 3s. to 5s. For further information apply to The Appeal Offices, 34, Victoria Street, S.W.

Mr. Leo Scheff, who is well known throughout Canada, has been admitted a freeman of the City of Glasgow.

At Surrey Assizes, held at Guildford, on Monday, before Mr. Justice Rowlatt, Alexis Letenock, a Russian subject, was found guilty of the murder of Cpl. William Palmer, of the Canadian Forces, in camp on December 6, and was sentenced to death.

The British War Office has entered a suit in the Canadian Courts of Law to recover money paid to Caverhill, Learmont & Company, of Montreal, for having supplied the Army with shaving brushes which it is averred were infected with anthrax germs.

The colours of a Calgary battalion were deposited in Westminster Abbey on Tuesday, being placed on Wolfe's tomb, where there are now twenty Canadian colours. The Dean and Bishop Boyd Carpenter conducted the service. The colours were carried by Lieuts. Murison and Grant.

Andrew Carmichael, Military and Naval Outfitter, Conduit Street, London, W., who has already done an extensive business among Canadian military officers, advises us that, just now, he is especially well prepared to undertake any military outfits at the shortest possible notice.

# THE IMPERIAL WAR CONFERENCE.

Canadian and Newfoundland Representatives Arrive in England.

**T**HE representatives of Canada and Newfoundland at the forthcoming Imperial War Conference arrived in London on Thursday of last week, and are staying at the Savoy Hotel as the guests of the Imperial Government. The Canadian representatives are the Right Hon. Sir Robert Borden, G.C.M.G., K.C., M.P., Prime Minister of the Dominion; the Hon. Robert Rogers, M.P., Minister of Public Works; and the Hon. J. D. Hazen, M.P., Minister of Marine, Fisheries and Naval Affairs. They are accompanied by Mrs. Hazen; Mr. L. C. Christie and Mr. T. B. Cole, private secretaries to the Prime Minister; and Mr. G. F. Buskard, private secretary to the Ministers of Public Works and Marine. The Right Hon. Sir Edward Morris, K.C.M.G., K.C., M.P., Prime Minister of Newfoundland, is accompanied by Lady Morris. The party were met on arrival at Euston by Sir George Perley, Canadian Overseas Minister of Militia, Mr. H. F. Batterbee, representing the Colonial Office, and others.

**Stronger Effort and More Perfect Organisation.**

In a statement to the Press, Sir Robert Borden said:—

“We were fortunate in having fair weather throughout the voyage, which was uneventful except for necessary precautions.

tions in Canada bear witness. Before the war our borrowings were in London, and financial authorities would have scouted the idea that a loan of \$20,000,000 could be raised in our Dominion. For two years we have not approached the London market, and our loans, placed in Canada, have brought subscriptions exceeding \$300,000,000—more than double the amount asked for. For various patriotic purposes relating to the war, the Canadian people have made voluntary contributions aggregating about \$60,000,000. Besides our own unprecedented expenditure, provision has been made in Canada to assist British finances to the extent of \$250,000,000, used in payment for munitions. Of this sum \$150,000,000 came from the Federal Treasury, and \$100,000,000 were provided by the Canadian banks.

**The Ideal of National Service.**

“The ideal of national service more and more impressed itself upon our people. The Canadian Director-General of National Service has made a rough division of our manhood into three classes—those who should fight, those who should work, and those who should pay. In war it is imperative that each citizen shall render to the State that service which is most useful, and for which he is best fitted. This is the ideal

[Photo] [Elliott & Fry.]  
THE RIGHT HON. SIR ROBERT BORDEN,  
G.C.M.G., M.P.,  
Prime Minister of Canada.

THE HON. J. D. HAZEN, M.P.,  
Dominion Minister of Marine, Fisheries and Naval Service.

THE HON. ROBERT ROGERS, M.P.,  
Dominion Minister of Public Works.

The journey across the Atlantic under war conditions impressed us most vividly with the wonderful achievement of the Navy in keeping the ocean pathways comparatively secure against the most deadly menace ever devised. Throughout the war the Overseas Dominions have worked in close co-operation and harmony with the United Kingdom. Through their Governments they are now called into most intimate conference with the Mother Country. The deliberations and labours of the Conference cannot fail to be useful in assuring still stronger effort and more perfect co-ordination. But apart from this the summoning of such a Conference is in itself a notable and memorable event in the development of our world-wide Commonwealth. It opens, indeed, a new chapter in our history, and challenges the imagination as to even greater events which that chapter shall record. The scope of the Conference is most comprehensive. It includes questions touching the prosecution of the war, the conditions upon which peace may be assented to, and the problems which thereafter will immediately arise.

**Canada's Fixed Resolve.**

“Our most urgent and imperative concern is the effective prosecution of the war to a victorious conclusion. The splendour of Great Britain's spirit and the magnitude of her effort are fully realised in our Dominion. From Canada we bring a message of fixed resolve to throw our whole strength into that effort. Already we have enlisted for Overseas service 400,000 men, of whom nearly 300,000 have crossed the Atlantic. At the Front they have borne themselves worthily under the most searching tests, and their valour, initiative, and resourcefulness have brought distinction to their country. Measures to promote further recruiting are now under consideration. That in other matters we have sought to do our part more than 300,000 men and women now working in the production of muni-

at which we aim. More than 1,500,000 National Service cards have been received by the Board, and in every Province National Service leagues are being established, which will aid in co-ordinating and utilising the energies of our people for the purposes that are most essential. National Service is concerned not only with war, but equally with peace. Therefore, in the immediate future, preparation for enabling our soldiers, after the conclusion of the war, to resume their peaceful activities and to take their proper place in our national life, will engage the most earnest attention of the National Service Board and of other Departments of State. In this connection the Canadian Government has given consideration to highly important questions touching the migration of British citizens within the Empire. To that subject, and to the closely associated one of settlement on our vast unoccupied fertile lands, Mr. Rogers has given special attention. Mr. Hazen, Minister of the Naval Service, will confer with the Admiralty not only upon matters of common concern during the war, but as to future co-operation in naval defence.

“During the past two years much dross has been burned away in the flame of an intense conception of duty. In Canada that flame was never brighter than it is to-day. Fighting for the continued existence of the British Empire, but likewise for an ideal which transcends that Empire's influence and destiny, the Canadian people face the future with a firm heart and with the absolute and unchangeable conviction that there can be no abiding peace save in victory.”

**Newfoundland and the War.**

Sir Edward Morris said:—

“The feeling in Newfoundland is, if anything, stronger than at the outbreak of the war. It is true that Newfoundland has been hit hard, both in Gallipoli and in the Great Push, and that

she has had considerable losses in the Navy. But this has only had the effect of producing greater effort among our people, who recognise that all these sacrifices are part of their contribution to the Empire. It is to us a question of Empire or eclipse—no ordinary eclipse, but a total one, if the war is not won. But we have passed the stage of doubt. Even our enemies recognise that the war is won, and if it were possible for the to go back, the war would be over in twenty-four hours. No stronger proof can be adduced of the strength of the British Empire or more convincing proof of its wonderful vitality and organisation than the fact of our having carried over ten million men to and from France, without the loss of a man. We cannot too often remind ourselves of these consolatory facts, because from time to time some small set-back may make us pessimistic. There must be no pessimism till the war is won. It is due to ourselves, to those who have fallen, to the men in the trenches, and to those who are going forward that at least we at home should continually sound the note of optimism, especially when optimism is so abundantly justified.

"It used to be an unsolved problem at every Colonial Conference how the British Empire could in some tangible and constitutional form be united. The war has accomplished what Conferences failed to bring about. We are now a united Empire. The millions dwelling in the outposts of our Dominions were united automatically the day war was declared against the Motherland, and that union has been cemented with our best blood. This union has nothing artificial about it, and will preserve the Empire for ever. When, a hundred years ago, Napoleon had his heel on Europe, including Prussia, it was the British at Waterloo that drove him to St. Helena, and on that reputation we have lived for a century, but the reputation that the British Empire and all its parts have acquired since the outbreak of war for pluck, valour, spirit, money, men, and organisation will enable us to live on our reputation for ever."

#### Ministers' Busy Time.

The Ministers have had a very busy time since their arrival, and have been able to accept a very few of the invitations tendered them. On Thursday of last week Sir Robert Borden accompanied the Colonial Secretary to the House of Commons, where he heard a portion of Mr. Lloyd George's speech, having to leave with his colleagues to lunch at Clarence House upon the invitation of the Duke and Duchess of Connaught. On Saturday the King received the Premier. On Sunday afternoon the Ministers were present at the "At Home" given by the Hon. Mrs. Ronald Greville at 18, Charles Street, Berkeley Square, where they met a large number of Canadian officers and their wives. On Monday Sir Robert had an interview with the Colonial Secretary, and spent some time in consultation with the Committee of Imperial Defence.

On Tuesday Sir Robert Borden discussed with Sir George Perley proposed arrangements for obtaining information from the officers, non-commissioned officers, and men of the Canadian Overseas Forces, which will be useful when demobilisation becomes necessary and the men return to Canada to take up the regular activities of peaceful life. In the afternoon Sir Robert Borden had an interview with Admiral Sir John Jellicoe touching matters of importance that have been under consideration by the Admiralty and by the Government of Canada.

On Wednesday the Ministers were the guests at dinner of Sir George and Lady Perley at the Marlborough Club to meet the Duke of Connaught and Mr. Lloyd George.

Sir Robert Borden, Mr. Rogers, and Mr. Hazen will visit the Canadian troops in France at an early date.

Sir Edward Morris had an audience of the King on Tuesday.

#### OFFICERS KILLED.

LIEUT. K. M. CARMICHAEL (killed) was a son of Mrs. R. A. Carmichael, Victoria Avenue, Longueuil, P.Q. He was born in Montreal in 1888, and educated at the High School there, and was a prominent athlete. About eight years ago he went to Saskatchewan, and entered into business in Weyburn. He was formerly in the 95th Saskatchewan Rifles, and enlisted

in the 68th Batt., being later transferred to a Montreal Highland Unit.

MAJOR G. H. MAXWELL, Art. (killed), formerly belonged to the 1st C.G.A., Halifax, N.S.

#### Imperial Forces.

SEC.-LIEUT. JOHN L. FRY, R.F.C. (accidentally killed in England last week), belonged to Toronto, and was 19.

LIEUT. F. G. ENGLISH, Essex Regiment (reported missing or the Somme on November 14, and now reported, through the Netherland Red Cross Society, as killed), was General Freight Agent in Europe of the G.T.R. Mr. Fred C. Salter, European Traffic Manager of the Grand Trunk Railway, in speaking of his late associate, said:—"Mr. English joined the company eleven years ago. Step by step he rose to the office of General Agent of the Freight and Express Dept. of the European organisation. By his loyal and intelligent work and kindly manner, he gained the full confidence of all officials of the company, as well as of all those who knew him throughout Europe and North America. When People's Rule in Western Europe was threatened by monarchies and their War Lords, he immediately volunteered as a private to help to defend and keep alive the principles 'that Governments derive all their just powers from the consent of the governed'—that a word of honour given by the people, even on a scrap of paper, is more sacred and powerful than the might of Emperors or Kings with their War Lords. He upheld these principles in all activities of life—lived, worked, fought and died 'with malice towards none; with charity towards all; with firmness in the right as God gives us to see the right'—he strove on to finish the work he was in. He strove on in defence of democracy—the people—'whom God must love, too, or he would not have made so many.' He has given up his life that liberty, fraternity and equality shall grow stronger among the people of Europe. His memory brightens our path of life and cheers us on."

SEC.-LIEUT. C. STOKES, Essex Regt. (killed), belonged to Kitchener, Ont.

#### OFFICERS WOUNDED AND MISSING.

##### Canadian Expeditionary Force.

Of the Canadian officers reported wounded this week, the Canadian Red Cross Society, 14-16, Cockspur Street, London, S.W., learn that Lieut. G. F. Clingan, Lieut. A. N. Morin and Major A. C. Sutton have returned to duty, and that Lieut. C. H. White, of Campbellcroft, Ont. (gunshot wound, right leg and left buttock) is at the Duchess of Westminster's Hospital, Le Touquet.

LIEUT. H. H. BOURNE, C.M.R. (missing, believed killed), formerly belonged to "C" Co. (Michel, B.C.) of the 107th East Kootenay Regt.

LIEUT. H. W. COCKSHUTT, C.M.R. (missing, believed killed), was a member of the well-known Brantford family of manufacturers. He formerly belonged to the 25th Brant. Dragoons, Paris, Ont.

MAJOR H. H. DONNELLY, of Kingston, Ont., is making a satisfactory recovery from his wounds at the Queen Alexandra Hospital, Millbank.

LIEUT. J. C. F. OWEN, attd. R.F.C. (believed to have been taken prisoner by Bulgarians), formerly belonged to No. 5 Company, C.A.S.C., Ottawa.

CAPT. J. H. SYMONS, C.M.R. (missing, believed killed), was the eldest son of Mr. and Mrs. W. L. Symons, Jarvis Street, Toronto, and was an architect. He graduated from the Royal Military College of Canada, Kingston, in 1911, and afterwards joined the Governor-General's Body Guard.

#### Imperial Forces.

CAPT. THE REV. W. R. F. ADDISON, V.C., Army Chaplain (wounded), was at one time engaged in a Canadian lumber camp. He won the Victoria Cross some five months ago, and was previously wounded last December.

CAPT. H. G. TATE, South Staffordshire Regt. (missing), belongs to Sherbrooke, P.Q.

#### DR. BELAND IN BERLIN.

Mr. C. H. Mellor, who has just returned from Berlin, having been released as unfit, was a caller upon Sir George Perley, at the High Commissioner's Office, with a message from the Hon. Dr. H. S. Beland last week. Mr. Mellor occupied the next cell to Dr. Beland for sixty days in the Berlin prison, which he describes as a sort of Holloway gaol. Dr. Beland was at the time receiving telegrams during his wife's last illness, but his petition to go and see her, though approved by the local governor of the gaol, was over-ruled by his superior.

Mr. Mellor states that Dr. Beland is allowed to smoke, has certain reading matter, but would be sadly short of food were it not for parcels sent to him from the High Commissioner's Office. The long confinement is beginning to tell upon him and his fellow prisoners. Mr. Mellor adds that in his many conversations with Dr. Beland he gave no hint as to the reason why the German Authorities had so rigorously detained him.

THE DOMINION CLUB, CLAREMONT, HASTINGS.

Opened by the Mayor of Hastings, this Club was instituted by Lieut.-Col. George B. McLeod, Major Lyndon and officers of the Canadian Garrison Duty Depot, solely in the interests of the returned casualties located in the district. The building contains large concert hall, writing and recreation rooms, library, post office, and dry canteen where refreshments and light luncheons are supplied practically at cost prices. The voluntary staff consists of Mrs. Edward Theobald, Hon. Lady Manager (late of Westenhanger C. of E. Club); Mrs. Burnett Craigie, Mrs. Emslie, Mrs. Butcher, Miss Ferguson, Miss Allen and other ladies with a staff of orderlies. Open from 11 a.m. to 9 p.m. daily, the club has already proved a great boon to the "Boys." Concerts are held every Friday, and on Sunday evening a short service is conducted by the Depot Chaplain, Capt. Walker (late of the 31st Batta).

**THE PROHIBITION CAMPAIGN.**

Londoners will rally for a great meeting to be held in the Queen's Hall, W., on Thursday, March 22, at 2.30 p.m., in support of the Strength of Britain Movement for the total prohibition of the liquor traffic during the war and the period of demobilisation. Sir Alfred Booth, Bart., Chairman of the Cunard Line, who has accepted the presidency of the movement, will preside. Full details will be announced in due course, but meantime the date for this great demonstration should be booked.

An Order in Council passed at Ottawa forbids women and children to embark at Canadian ports for British and European destinations in the war zone.

Mr. Austen Chamberlain has presented to the Dominion House of Commons his father's edition of "Hansard," covering the period from 1873 to 1903.

By a terrific fire in Dawson City, Y.T., which destroyed property to the value of \$200,000, Mr. Charles C. Tabor, barrister, and Mr. W. H. McAdams, lost their lives (says a Canadian War Records cablegram).

Speaking at the meeting of the Soldiers' Clubs Association last week, the Duke of Connaught said the other day some soldiers came by mistake to have tea with him at Clarence House, but, owing to the new food regulations, he had nothing to give them. He at once thought of the Union Jack Club, and the men went off there and had an excellent supper. His Royal Highness has presented a memorial bedroom in the extension of the Union Jack Club. During a recent visit his Royal Highness expressed himself as being greatly pleased with all the arrangements he found there, and was deeply impressed with the urgent need of extending the accommodation.

## ONTARIO

## PROVINCE.

**OTTAWA.**—Mr. H. Boulay, M.P. for Rimouski, has given notice in the House of Commons of the following resolution: "The Government should decide that in the future men only shall be employed in all branches of the Civil Service where the salary is \$800 or more, and that a commissioner should be appointed to supervise the work done by the employees in each department.

—The Labour Department has issued a report on the cost of living, which shows that the index number of the price of provisions rose to 208 during January of this year, as compared with 170 for January, 1916. The average working man's family budget per week now amounts to \$10.27, an increase of \$2.30 in two years.

—During the financial year 1915-16, 19 cities in Canada reported postal receipts in excess of \$100,000, and among these the relatively high rank of cities in the West is noticeable.

—The Bate McMahon Construction Co. of this city has received the \$3,000,000 contract for the erection of the aviation school and plant at Camp Borden.

**TORONTO.**—The value of farms in this Province, including lands, buildings, implements and live stock, is estimated at \$1,480,000,000, yielding an annual gross return of at least 23 per cent. on their value.

—The Premier (Sir William Hearst) announced on Tuesday that the Provincial Government proposed to give the franchise to women.

—Since the announcement of the appointment of a settlers' loan commissioner by the Provincial Government, applications have been received in 1916 for over \$200,000.

—A life-size oil painting of the late Hon. J. J. Foy, former Attorney-General, has been presented to the Provincial Government by the executive committee of the Italian Nation-Club of Toronto, of which Mr. Foy was the President.

—In his Budget speech the Hon. T. W. McGarry, Provincial Treasurer, stated that the ordinary revenue for the year was \$13,800,000, the largest recorded. The surplus on ordinary account was \$1,135,000, and the Public Debt had been reduced by \$810,000.

—The Provincial Government has introduced a bill to create a bureau of municipal affairs under a director having the rank of "deputy minister." The bureau will be empowered to collect information useful in municipal administration, and to report upon all proposed changes in municipal government.

—A loss of over \$100,000 has been caused by fire at the Queen City Foundry Company's plant.

—The scarcity of coal has now become so acute that the University of Toronto had to be temporarily closed.

**PORT ARTHUR.**—Ice conditions point to an early opening of navigation on the Lakes this year, high winds having kept the ice broken up.

PRINCE  
EDWARD

## ISLAND.

**CHARLOTTETOWN.**—Mr. Donald Nicholson, M.P., in a paper on shipping and shipbuilding read before the Board of Trade here, advocated bonusing or subsidising for a number of years shipbuilding in order to encourage the building of small wooden vessels from forty to a hundred tons, as there is sufficient lumber on the Island to maintain a considerable shipbuilding industry. It was announced that preparations were now under way to build three 300-ton schooners on the Island at a cost of \$20,000 each. No vessel was built here last year. There are 130 sailing vessels with a gross tonnage of 8,400 and 28 steamers of 7,571 tons on the Island registry list.

—Premier Mathieson, on his return from Ottawa, announced that the chief architect of the Military Hospitals Commission is coming to the island to arrange for the enlargement of the Dalton Sanatorium further to accommodate returned soldiers.

—The Premier also announced that the remarks of the Chief Justice as to the non-enforcement of the prohibition law would be effectively dealt with.

**CANADIAN RESERVE ARTILLERY DANCE.**

Lieut.-Col. J. E. Mills, D.S.O., and the officers of the Reserve Artillery, Canadian Training Division, Shorncliffe, held a dance in the officers' quarters at Ross Barracks on Friday night of last week. Together with the invited guests who were able to be present, the company numbered something like three hundred, all of whom spent four hours of solid enjoyment and recreation, and were loud in their praises of the arrangements made for that enjoyment as well as for their comfort. These arrangements fell to the hands of Lieut. Harry T. Dickinson, of "Massed Bands" fame, the Mess Secretary, supported by a small committee.

Among those present, in addition to the full complement of the hosts, were Major-General S. B. Steele, C.B., M.V.O., Commanding the Garrison, Mrs. and the Misses Steele, Lieut.-Col. McEwen, C.A.M.C., Lieut.-Col. W. W. Burland (Quebec Res. Inf.), Lieut.-Col. J. R. Munro (R.C.D. Res. Regt.), Lieut.-Col. W. C. Good (Res. Art.), Major A. S. Wright, M.C. (H.Q., C.T.D.), Major G. A. Ferguson (A.A. and Q.M.G., C.T.D.), Major J. R. Hyde (Res. Art.), Major W. G. Scully (Res. Art.), Major W. Simpson (Res. Art.), Capt. H. E. R. Steele, A.D.C., Capt. and Mrs. McFarlane, many of the matrons and nursing sisters from the neighbouring Canadian military hospitals, and a goodly number of wives and daughters of officers who were able to accept invitations.

Capt. Gillies, C.A.M.C. (M.O. of the Res. Art.), undertook the duties of M.C., and was assisted by Lieut. Henderson (Res. Art.), while the excellent punch was brewed, from her own recipe, by the Matron of the Nurses' Home, Moore Barracks, Canadian Military Hospital. The music for the dancing was also excellent, and was furnished by the Reserve Artillery Orchestra, than which there is no better in the whole C.E.F., thanks to the organisation and training of Lieut. Dickinson, a musician known to the musical world of many countries.

The mess dining-room and the ante-room were converted into ball-rooms, the walls being gaily decorated with various flags, whilst the billiard-room was utilised for supper and refreshment purposes, where the hosts dispensed everything in the way of eatables that the art of their clever chef could devise.

Lieut. R. W. Powell, M.C., Canadian Engineers, who was recently awarded the Bar to the Military Cross, belongs to Ottawa.

# CANADA'S OVERSEAS MILITARY FORCES.

Requests of a Personal Nature—Appointments for Officers, etc.

**T**HE following memorandum has been issued by the Hon. A. E. Kemp, Minister of Militia, Ottawa:—

A large number of requests of a personal nature with reference to soldiers serving overseas with the Canadian Expeditionary Force are daily received by this Department and by the Canadian military authorities in England. It is therefore considered desirable to explain the methods which, in the interest of fair and equitable treatment to all concerned, are followed in each case.

The policy adopted with respect to these requests has been formulated with every possible regard for the personal interests of the soldiers concerned and the natural anxiety and interests on their behalf of their relatives and friends. It should be remembered, however, that at this stage of the war, the brave men of our own Canadian army and those of the British and Allied armies require all the support that can be given them in their heroic fight for liberty, justice and civilisation. To this end the services of every available man in whatever capacity his physical and other capabilities fit him to occupy are urgently required both in England and at the Front. It should, therefore, be clearly understood that the exigencies of the military situation must be the primary consideration in dealing with such requests.

### Procedure Adopted.

The following statement explains the procedure adopted in dealing with the various cases mentioned:

(1) Requests for commissions for men serving overseas.

Every opportunity is given to deserving men to qualify for commissions both in England and at the Front, and the only way an application can be considered is when it is made by the soldier himself to his commanding officer, by whom it must be recommended. It will then be forwarded through the usual official channels. A printed application form is available, which the soldier can obtain from his commanding officer for this purpose.

(2) Requests for the return of men to take out commissions in Canada.

The authorities in England have definitely asked that no further requests of this nature be forwarded as every opportunity is given to deserving men to qualify for commissions in England and France, and they are all needed there. An application may be made by the man concerned to his commanding officer for permission to qualify in England or France for a commission.

(3) Requests for the return of officers for duty in Canada.

All experienced junior officers now in England and France are required there. As regards senior officers, the authorities in England have arranged to inform the Department of Militia and Defence, Canada, of any surplus of such whom they recommend and can spare for return to Canada.

(4) Requests for promotions.

The military authorities propose and intend making all promotions according to efficiency and seniority, and records of all officers and men are carefully kept, with a view to assisting proper selection in this respect. The officer or man concerned must first be recommended for promotion by his superior officers.

If the reduction to ten million barrels of beer per year will save 600,000 tons of food, or nearly a month's supplies ;

And if this is, as the Prime Minister said, one of the most effective contributions that could be made towards winning the War, then we were right. The Strength of Britain Movement has been saying this since last June, and it has this to say to-day—

*That if a reduction to ten million barrels saves 600,000 tons of food, a reduction to no barrels at all will save still more ;*

*And if a mere reduction is one of the most effective instruments for winning the War, Prohibition will be more effective still.*

A peace year's consumption of beer was 36,000,000 barrels ; it is now to be 10,000,000. That is to say, we are nearly three-quarters of the way to Prohibition. *Are we satisfied to build a three-quarter bridge ?*

# THE DOMINION BANK

## CANADA.

### Proceedings of the Forty-Sixth Annual General Meeting of the Shareholders.

The FORTY-SIXTH ANNUAL GENERAL MEETING OF THE DOMINION BANK was held at the Banking House of the Institution, Toronto, on Wednesday, the 31st January, 1917.

There was a large number of shareholders present.

It was moved by Mr. A. W. Austin, seconded by Mr. H. W. Hutchinson that Sir Edmund B. Osler do take the chair, and that Mr. C. A. Bogert do act as Secretary.

Messrs. A. R. Boswell, K.C., and W. Gibson Cassels were appointed scrutineers.

The Secretary read the Report of the Directors to the Shareholders, and submitted the Annual Statement of the affairs of the Bank, which is as follows:—

#### TO THE SHAREHOLDERS:—

The Directors beg to present the following Statement of the result of the business of the Bank for the year ended 30th December, 1916:—

Balance of Profit and Loss Account, 31st December 1915.....	\$344,439.71
Profits for the year, after deducting charges of management and making full provision for bad and doubtful debts .....	\$969,065.02

	874,500.00
Balance of Profit and Loss carried forward.....	363,442.39
	\$1,237,942.39

E. B. OSLER, President. C. A. BOGERT, General Manager.

The statement presented shows a further growth in the business of the Bank accompanied by a satisfactory increase in earnings. Your Directors have continued the policy adopted at the outbreak of the war—namely, to conduct the Bank's affairs with as little interruption

as possible, at the same time bearing a full portion of the responsibilities attendant on war conditions.

In view of the gradual extension of the interests of the Bank, the Board consider it advisable to recommend to the Shareholders an increase in the number of Directors from eleven to thirteen, and the relative necessary By-laws will be submitted at this Meeting for your approval.

Your Directors, with regret, make reference to the death of the Hon. J. J. Foy K.C., who was for fifteen years a member of the Board, and always keenly interested in the Bank's welfare. His place was filled by the appointment of Mr. T. A. Reid, a gentleman who possesses wide experience in commercial matters.

No new Branches were opened in 1916; the following were closed: Port Arthur, Ont.; New Westminster, B.C.; Fairview Branch, Vancouver, B.C.

Substantial reductions in Bank Premises Account were made during the past 12 months through an appropriation from Profit and Loss Account and the sale of certain property unnecessary for the Bank's purposes—expenditures during the same period were unimportant.

The usual inspections of the Head Office and Branches have been made, and the Auditors appointed by the Shareholders—Messrs. G. T. Clarkson and R. J. Dilworth—whose certificate is appended to the Balance Sheet, have completed their annual investigation of the affairs of the Bank.

**E. B. OSLER, President.**

Toronto, 31st January, 1917.

It was moved by Sir Edmund Osler, seconded by Mr. W. D. Matthews, and resolved—That the Report be adopted.

A resolution was passed by the Shareholders authorising an increase in the number of Directors from 11 to 13.

The retiring Auditors, Messrs. Godfrey T. Clarkson and Robert J. Dilworth, were reappointed for the current year.

The thanks of the Shareholders were tendered to the President, Vice-President and Directors for their services during the year, and to the General Manager and the other Officers of the Bank for the efficient performance of their respective duties.

The following gentlemen were duly elected Directors for the ensuing year: Messrs. A. W. Austin, W. R. Brock, James Carruthers, R. J. Christie, Sir John C. Eaton, W. D. Matthews, A. M. Nanton, E. W. Hamber, H. W. Hutchinson, Sir Edmund B. Osler, M.P., and A. T. Reid.

At a subsequent meeting of the Directors, Sir Edmund B. Osler, M.P., was elected President, and Mr. W. D. Matthews, Vice-President, for the ensuing term.

### AUDITORS' REPORT TO SHAREHOLDERS.

We have compared the above Balance Sheet with the books and accounts at the Chief Office of the Dominion Bank, and with the certified vouchers received from its Branches, and after checking the cash and verifying the securities at the Chief Office and certain of the principal Branches at September 30th, 1916, we certify that, in our opinion, such Balance Sheet exhibits a true and correct view of the state of the Bank's affairs, according to the best of our information, the explanations given to us, and as shown by the books of the Bank.

In addition to the examinations mentioned, the cash and securities at the Chief

Office and certain of the principal Branches were checked and verified by us at another time during the year, and found to be in accord with the books of the Bank.

All information and explanations required have been given to us, and all transactions of the Bank which have come under our notice have, in our opinion, been within the powers of the Bank.

## INVESTMENT NOTES.

Some measure of the war prosperity which Canada is experiencing is revealed by the Canadian trade returns for 1916, which have now been completed by the publication of the figures for December. The value of Canadian exports for the year reached the great total of \$1,091,706,403—more than double the value of exports in 1913, and more than treble the value of exports in 1912. The value of imports for the year was \$766,726,991, so that the result of the year was a trade balance of \$324,979,412 in Canada's favour. Previous to 1915 the annual trade balance was steadily adverse to Canada. This was due in a great measure to the very rapid development of the Dominion and the amazing rush of immigrants into the country. Even so, the adverse balances were growing smaller at the end of each year. In 1912 the balance against Canada was over \$293,000,000, in 1913 just under \$223,000,000, while in 1914 the amount was very little over \$102,000,000. In 1914 both development work and immigration, which in August were summarily interrupted by the outbreak of war, had already slackened as a result of the business depression. Exports of agricultural produce in the autumn of that year were no more than normal. Very early in 1915, however, the scales tipped heavily over the other way. The results of the amazing industrial development, due to war demands, began to be felt and, in the autumn, the wonderful crop swelled the volume of agricultural exports. As a result 1915 showed a balance of trade in Canada's favour of over \$203,000,000.

\* \* \*

In 1916 the full measure of the industrial output became apparent, and for the first time agricultural exports, though themselves enormously increased by the moving of the 1915 crop and the high prices in the autumn of 1916, had to yield pride of place to manufactures. Exports of manufactures during the year reached the surprising total of \$440,477,143, while a still more striking comparison is afforded by the figures for December which, at \$54,261,266, were slightly in excess of the value of the entire export of manufacturers for 1913.

\* \* \*

Holders of Brazilian securities must now face the question of what will be the effect upon their interests of the embargo on coffee importations. The loss of the German market for Brazilian coffee has hitherto been, to some extent, counter-balanced by the fact that cargoes stopped by our blockade have been taken into stock in Great Britain. The entire closing of this market for one of Brazil's principal products can hardly fail to have an adverse effect upon the rate of exchange which is already so low that the transmission of money from Brazil, for dividend or other payments, has been attended with heavy loss. In this regard the periodically expressed doubt as to whether Brazil Traction can continue its common stock dividend will recur with increased seriousness.

\* \* \*

The Ames-Holden McCready Co., whose manufacturing plants have hitherto been situated in different localities in Montreal, now proposes to concentrate all its factory operations in one location. This will entail extensive alterations and extensions to its principal plant. The factory which it will vacate has been leased to the Canadian Consolidated Rubber Co. A recent statement by the general manager announces that the company carries no war orders on its books now, but that its ordinary domestic business is the largest yet, and sales for the year should be over \$6,000,000.

\* \* \*

The statement presented by the president, Sir Wm. Mackenzie, at the meeting of the Toronto Railway Company, seems to have allayed a good deal of the anxiety which existed in regard to the company's affairs. The financial statement showed gross earnings for the year of \$5,973,161, or nearly \$280,000 better than the previous year. After deducting operating expenses and all other necessary outgoings, the surplus earnings amounted to \$1,340,790, or equal to 11.15 per cent. on the paid-up capital, which compares with the previous year's earnings of \$1,192,489, which equalled 9.92 per cent. on the Common stock. After paying the regular dividends at the rate of 8 per cent. per annum, there remained a surplus of \$381,968, which, added to that brought forward from the previous year, gives the company a total surplus of \$5,408,875. There appears no reason, therefore, for any fears as to the company's ability to earn its regular dividends. As to the more serious question of the company's franchise, Sir William assured his hearers that even if the company should not be able to secure a renewal—as to which he is still sanguine—the earnings of subsidiaries would be sufficient to provide 8 per cent. dividends for all time to come. He assured shareholders that the stock at present was worth fully as much as it had ever been worth. In this regard it may be noted that in 1911 the stock sold as high as 169 in Montreal. A little while prior to the war it was quoted at 144. Recently it fell to the very low quotation of about 79, but following the meeting it rose to about 87.

## CANADIAN WAR CONTINGENT ASSOCIATION.

Mr. J. G. Colmer, C.M.G., hon. secretary of the Canadian War Contingent Association, has received the following letter from Major-General R. E. W. Turner, V.C., C.B., D.S.O., General Officer Commanding the Canadian Forces in the British Isles:—

"Please permit me to say a word or two of appreciation of the good work which has been carried on by the Canadian War Contingent Association. I was, as you know, until recently in command of the 2nd Canadian Division at the Front, and I know only too well that every unit in that Division is greatly indebted to your Association for the comforts supplied them. Your Association rendered particularly valuable service during the winter of 1915-16. During that winter the trenches were particularly wet, and the gifts of socks were certainly a god-send, and were responsible for keeping a number of men in the fighting line who would otherwise have been laid up with chilled feet. Will you please be good enough to convey to the members of your Association my hearty appreciation of their work, and if there is anything I can do to help along the good work will you please call upon me."

THE BANK OF MONTREAL'S ROLL OF HONOUR.

This Roll of Honour, in the London City Office, contains some 700 names. The frame, which is the work of F. Bramhall, 13, Strutton Ground, S.W., is a replica of the facade of the head office in Montreal, and the effect is extremely striking.

Mr. James Ponsonby Sexton, K.C., Consul for Greece in Montreal for many years, died in that city on February 5, aged 82. His only son is in the Royal Bank of Canada.

Mr. J. G. Taylor, general superintendent of the C.P.R. for Saskatchewan from 1912 to 1916, and one of the best-known railway men in the West, died at the home of his son Herbert in Edmonton, aged 55 years.

After an illness of two years, the Hon. Mr. Justice James Leitch, of the Supreme Court of Ontario, died on February 7 in Toronto, aged 67.

Mrs. Parmelee, wife of Mr. W. G. Parmelee, I.S.O., formerly Deputy Minister of the Department of Trade and Commerce, died at Ottawa on February 4.

Mr. Edmund Martson, a native of Woolwich, who settled in Winnipeg when Fort Garry was a hamlet of a few houses, died there on February 1, aged 71.

Mr. H. J. Mudge died at Montreal, on February 6, in his 71st year. He was a nephew of the late Archbishop Bond, and of late years had been treasurer of the Diocesan Synod.

Addressing a patriotic meeting at Ottawa, the Hon. Arthur Meighen, Solicitor-General, said:—"The fellow who crosses the border at this time of his country's need will carry the brand 'coward' in yellow letters on his back for the rest of his life, and no matter what need of immigration we may feel to fill up his rank when this war is over may we never come to the stage where we will welcome back the fellow who took to his heels."

## THE LONDON MARKET.

Stock Exchange Settling Days :—

CONSOLS.		
Wednesday, April 4.		
GENERAL CARRY-OVER.		
Continuation Day.	Ticket Day.	Pay Day.
Mon. Mar. 12.	Tues. Mar. 13.	Wed. Mar. 14.

LONDON, Tuesday.

Business on the Stock Exchange during the past week has not been large.

There has been no special activity among Canadian securities. The gilt-edged issues of the Dominion have been steady, and are about unchanged on balance. Canadian Pacifics have fluctuated moderately, but after allowing for the deduction of the quarterly dividend, the stock is a fraction better around 167½. Current earnings remain satisfactory, the gross figures for the third week of the month being \$132,000 heavier. The Grand Trunk, on the other hand, had a weekly traffic decrease of £1,438. One or two senior stocks in this group have risen ½ to 1½, the latter gain being recorded by the first Preference at 67. Canadian Northern issues have not varied. The January earnings show that the gross receipts during that month increased by \$745,800, or more than 35 per cent., and the net receipts by \$226,700, or more than 88 per cent. over those of the corresponding month of last year.

In the industrial section trading has been on a more restricted scale, and movements have been distinctly narrower. Canadian Car issues have not varied. Steel of Canada at 61½ has added the fraction. There is no variation in Dominion Steels.

As regards land shares, Hudson's Bays, after being higher, have reacted to 6 13-16ths. City Services at 295 are 10 points to the good.

Brazilian Tractions have been offered with other Brazilian securities on the coffee imports restrictions, and at 47½ are 1½ down.

Spanish River Pulp and Paper issues have not been unfavourably affected by the restrictions on the import of paper owing to the fact that most of their business is confined to the Dominion and the United States.

## OUR TORONTO LETTER.

TORONTO, February 10.

When I last wrote you stock markets were suffering from the very severe depression induced by the German submarine announcement. That general weakness continued for some time. Indeed, right up to Friday evening there was no material improvement. But, on Saturday morning, the lifting of the selling pressure in New York was promptly reflected in the Canadian markets. Opening strongly on Saturday morning, they continued to display very marked strength during Monday, and though on Tuesday things became quieter and more hesitating, the general tone still holds firm, and in many stocks the week's recovery has resulted in substantial gains over the low prices of last week.

As usual, the movement was led by the principal steel stocks, Dominion Steel, Steel of Canada and Scotia all responding promptly to the improved feeling, while in Toronto marked interest was shown in local munition stocks. The paper group also shared notably in the recovery, Riordon, for instance, sold at 106 on Saturday, and at one time on Monday was changing hands at 120. Laurentide and Spanish River attracted attention, while strength was shown by Cement, Dominion Bridge and Canadian General Electric. Civic In-

vestment has been in demand, interest in the stock being quickened, doubtless, by the excellent reports concerning the company's first six months' operations. In Toronto Russell Motors, both Preference and Common, came in for a strong advance. During the week heavy selling of C.P.R.s in New York came as a surprise, and excited a good deal of curiosity in Canadian circles as to its cause. Several suggestions are current. Among them is one to the effect that the movement may have had its origin in selling by Germans with the object of weakening the British Exchange by depreciating some of the security stocks. The effect of this upon the general market, however, has merely been somewhat unsettling, and it is noteworthy that any demand for some security only brings out light offerings.

One of the most notable improvements has been the recent rise in Toronto Railway stock. The annual statement, just published, is most satisfactory, showing surplus earnings for the year equal to 11.15 on the Common stock, whereas earnings for the previous year only equalled 9.92 on the stock. Sir Wm. Mackenzie's statement at the annual meeting also markedly restored confidence in the position of the enterprise.

Dominion Steel Foundries, which last year paid 40 per cent. in dividends, have brought the dividends paid so far in respect of the current year up to 25 per cent. by the declaration of a 5 per cent. dividend payable February 22. The regular quarterly 1½ per cent. on the Preferred was also declared. It is announced that the A. Macdonald Co. will immediately reopen a transfer and registration office in Montreal so as to prevent the stock being removed from the list.

Mr. J. W. Hamilton, of Toronto, has been appointed assistant general manager of the Union Bank of Canada. Mr. W. W. Near, president of the Page Hersey Iron, Tube and Lead Co., of Toronto, has joined the Board of the Dominion Bank.

At the first annual meeting of the Bondholders' Association of Canada, held recently in Montreal, William Hanson, the first president, retired, and was succeeded by A. E. Ames, of Toronto, the vice-presidents are J. H. Gundy, Toronto, and J. M. Mackie, Montreal. The Hon. President of the Association is E. R. Wood, who, by the way, is stated to be recovering well from an operation which he recently underwent in Baltimore for internal trouble.

The annual report of the Canada Landed and National Investment Co. shows earnings which, though slightly less than last year, equal nearly 16 per cent. on the paid-up capital. The slight decline is due to increased taxes and interest charges. After providing for all necessary outgoings, contributions to patriotic funds, and paying the usual 9 per cent. dividends, \$35,000 was transferred to the reserve fund—which now equals the paid-up capital of the company, and \$35,392 is carried forward into this year.

Among current quotations Scotia is 102, Dominion Steel 61, Steel of Canada 59¾, Dominion Bridge 140, Cement 60, Civic Investment 81, Steamships 33, Canadian

General Electric 110, Riordon 116, Wayagamack 83½, Laurentide 183, Spanish River 15½, Quebec Railway 27, Toronto-Railway 85, Winnipeg Railway 80, Ames-Holden Common is quoted 17¾-20, and Asbestos Corporation Common 21, with the bonds 72.

The mining markets hardly shared in the revival at the end of last week, but since then have been more active, though irregular, with prices tending upwards. Dome Mines in January milled 39,600 tons of ore, and produced bullion to the value of \$181,000. McIntyre prospects are reported to be encouraging, with the expectation that the new crushing machinery now being installed will largely increase the output of the mine. Beaver Consolidated reports the discovery of a large high-grade vein at the 1,600-ft. level. During January twelve Cobalt companies shipped twenty-seven cars of ore of the total weight of 1,965,011 lbs. Among current prices Hollinger is \$6.50, Dome Mines \$21, McIntyre \$1.94, Dome Extension 31, Boston Creek \$1.12, New Ray \$1.14, Beaver 47, Nipissing \$7.85, Temiskaming 58½, Coniagas \$4.10, Hargreaves 19, Kennabeek 16.

# Ontario after the War—TIMBER.

Ontario has 202,000 square miles of forests, which yield timber to the value of \$26,775,000 per annum.

After the war, vast quantities of timber will be required for rebuilding purposes in the ravaged cities, towns and villages of Europe.

Ontario, with its vast forests of pine, birch, maple,

beech, and other valuable hardwoods, can, with the aid of British capital, supply the timber demand of the world.

There is also a great future in store for the wood pulp and paper industry. Huge plant already exists, but new factories are needed to cope with the inevitable demand for paper that will arise immediately after the war.

## NOTES ON INVESTMENTS.

### Investors and the Treasury's New Policy.

It is, of course, inevitable that many holders of the securities included in the list requisitioned by the Treasury in the new list will feel regret at being compelled to part with their holdings of what they regard as excellent investments. It is impossible to withhold sympathy from many investors who are in this unfortunate position, especially where the price at which they have to yield up their securities is much under what they gave for them. Per contra, these unfortunates must admit that they have had timely warning that the Treasury had need of their holdings and the securities included in the list, for those contained in the first list have already been asked for under Schemes A and B. Also those who now have to hand over their securities to the Treasury are exceptionally fortunate in the matter of the re-investment of the proceeds, for, allowing for the change in the investment standard due to the war, they should not really be seriously injured by the exchange of investments necessitated by the action of the Government. In so far as the Canadian issues included in the first list are concerned we know of one holder of Canadian Pacific Special Investment Fund 6 per Cent. Note Certificates, 1924, who was much disturbed at the discovery that he had to part with his holding of this undoubtedly gilt-edged investment even at the relatively high figure of 107, ex March coupon. On re-consideration this investor finds that he will practically get out without any loss, and that by re-investing the proceeds in the War Loan he will be able to obtain £112 10s. of stock for each £100 of the C.P.R. 6 per cent. notes, and £5 12s. 6d. of interest. In the circumstances this particular investor has really little cause for complaint, for in addition to the income position he exchanges a Colonial railway investment for a British Government security, and will undoubtedly eventually see a substantial increase in the value of his capital on the return of normal financial conditions.

\* \* \*

### Effect on Trust and Insurance Companies.

Speculation is now rife as to the nature of the securities likely to be included in subsequent lists that the Treasury will requisition in connection with the regulation of the foreign exchanges. The *Economist* says these will be mainly United States, Argentine and Canadian securities, and that further lists may be expected shortly. The *Times* had an interesting article on the subject in which it rightly pointed out that as these may be expected to include securities which holders have had no previous opportunity of lending to the Government, the effect will be to compel Trust and Insurance companies to realise at prices far below their book values. "This question," our contemporary says, "is causing some uneasiness in the City, where the possible effect of such compulsion on the finance of the companies is appreciated." The important question of depreciation crops up here, and it presents a very serious problem for those companies who have had to make provision for many years past that has made serious inroads upon reserve funds. Indeed, it is regarded as probable that the latter could not in some cases be subjected to further burdens, as the result of the compulsory sale of securities, without causing serious difficulties. In endeavouring to discover some means of relief for companies so circumstanced, our contemporary's financial editor suggests that if it is not possible to afford holders the alternative of lending as well as selling their securities to the Government, those companies whose securities are compulsorily acquired might be empowered to regard investments bought to replace those relinquished as of the same value for balance-sheet purposes. We agree with the suggestion that this might be effected perhaps most suitably by Government securities being given in exchange for securities acquired. Our contemporary opines that statutory authority would be required to legalise the replacement of securities in this manner, but this should not be a difficult matter, and the point certainly deserves careful consideration on the part of the Treasury and its financial advisers.

### How Ontario is Helping to Finance the War.

Reuter's Toronto correspondent sends the important announcement that the Ontario Provincial Treasury stated on Friday in the Legislative Assembly that the Government intended to purchase \$17,000,000 worth of Ontario Government securities held by investors in this country, and float a loan of equal amount in Canada, "thus to that extent helping Great Britain to finance the war by providing credit for the purchase of munitions." The importance of this latest development is obvious. Until we have fuller particulars of this financial measure, it is, however, impossible to deal with the

machinery by which it will be consummated, but it is quite possible that it may be on the lines of the similar operations carried out here last year. Possibly the new Treasury lists dealing with the requisition of further securities which are expected to include additional Canadian issues may furnish the key. With prices of Canadian securities at their present abnormally low levels, it is obviously to the advantage of the Provinces and municipalities to follow the excellent example of Ontario, especially if by so doing they can extend the good work of creating fresh credits for the Mother Country in the Dominion. That the Treasury has not overlooked the possibilities in this direction may be safely assumed, and further developments will be awaited with interest both here and in Canada.

### Dominion Bank's Fine Showing.

The figures revealed in the annual report of the Dominion Bank, presented at the forty-sixth annual general meeting, held at Toronto on January 31, are on a par with the fine showing made by Canada's banks generally for the year under review. Progress is shown in every direction, and the management fully deserved the expression of the shareholders' appreciation, embodied in the vote of thanks passed by the meeting, for the successful manner in which the affairs of this prominent institution had been handled during one of the most trying years in the history of the Dominion. An analysis of the general statement and a comparison with the figures for the preceding year demonstrates the progress of the bank during 1916, and its financial strength at the beginning of the current year. Capital stock paid in stands at \$6,000,000 and reserve fund at \$7,000,000, the total liabilities to the shareholders being \$13,544,382. Total deposits at the end of December were \$70,473,614, against \$65,965,597 a year previously, an increase of \$4,508,016. Circulation has risen from \$4,995,666 to \$7,118,232, whilst the cash assets at \$19,751,070 compare with \$19,924,625 in 1915. The total liquid assets at \$37,625,896 are no less than \$4,965,496 higher than a year previously, when they stood at \$32,660,400, and are practically 50 per cent. of the total liabilities to the public—\$79,322,310—a position of strength which needs no emphasis in such times as those we are now passing through.

\* \* \*

### A Strong Financial Position.

An unusual feature in the report of a Canadian financial institution is the reference to the bank's holding of "British, foreign and Colonial public securities other than Canadian." As these are included with Canadian municipal securities, it is not possible to say how much is held in this way, but the fact that such securities now figure in the bank's portfolio will not be lost sight of by financiers in this country and in other British Colonies, and may be regarded as of more than passing significance. Current loans figure at \$49,030,365, as against \$47,466,260, whilst although foreign call and short loans advanced substantially during the year, evidence of the conservative policy actuating the management is furnished by the equally substantial contraction in domestic call and short loans. The bank's total assets were \$92,866,692, which is well over \$5,000,000 ahead of 1915, when they were given as \$87,475,126. So far as the actual working results are concerned, the profits were \$969,065, or after allowing for Dominion War Tax on circulation and taxes paid to Provincial Governments, \$893,502, as compared with \$805,123 in 1915, an increase of \$88,379. It is interesting to note that the net profits were equal to as high a ratio as 14.84 per cent. on the paid-up capital of the bank, and 6.08 per cent. on the combined capital and reserve. Twelve per cent. in quarterly dividends called for \$720,000, contributions to Canadian Patriotic Fund, British Red Cross Society and to British Sailors' Relief Fund absorbed \$29,500. \$25,000 represented contribution to Officers' Pension Fund, and \$100,000 was written off bank premises—which account also benefited from the sale of certain property unnecessary for the bank's purposes—the latter figuring in the balance-sheet at \$5,482,351. The balance left to be carried forward to the current year was \$363,442, as against the \$344,439 brought in from 1915. Our readers will do well to remember that the Dominion Bank is one of the Canadian banks selected by H.M. Treasury for the completion of transactions in foreign, Colonial and Indian securities carried out in the United States, Canada or Newfoundland under the terms of the Treasury notice of January 30. The annual financial statement of the bank is published on page 256.

## FINANCIAL AND REAL ESTATE.

'98 (Shorncliffe).—The report of the receiver will shortly be made public. It is not at all likely to afford the bondholders much consolation.

CANSEC (Glasgow).—A market rumour, spread about, of course, for market purposes. It has been more than once authoritatively denied.

S. N. (Leeds).—It is probable that there will be a new bond issue for the purpose of providing for plant extensions. So far, nothing definite has been announced.

B. P. (Mortlake).—A very satisfactory year's business. The statement has not yet come to hand, but as soon as it is received a summary will be published in our financial columns.

HOLDER.—We think it improbable that the movement related in any way to the intrinsic value of the stock. In our Toronto Letter, in this issue, the affair is alluded to as having caused surprise in Canadian financial circles, and rumours in regard to possible causes are mentioned.

X.—There is some activity on copper properties in the Sudbury district. As you are aware, the district has always been reputed to be rich in copper deposits. It is said that financial difficulties have militated against the development of the various properties, despite the high price of copper.

SHAREHOLDER.—The Minister of Finance stated recently that munition orders to the amount of \$500,000,000 would be placed in Canada during the present year. As this amount will very greatly exceed the amount of the contracts placed in Canada in 1916, it seems evident that there is no reason at present to anticipate any slackening of activity in Canadian plants.

J. W. (Sheffield).—We understand that the municipality, having in the past incurred heavy expenditure in local improvement schemes, and finding its tax collections so heavily in arrears that impending interest payments and redemption of liabilities would present a very difficult problem, proposed that the Provincial Government might take over and administer the municipal affairs until the municipality could arrange to be taken in as part of the neighbouring city. What response, if any, has been made to that suggestion we are not yet aware.

S. E. C. (Guildford).—As far as we are aware, no official information in regard to the company's operations has recently been issued. This is probably for the reason that there is very little information to issue. The report for the last completed year (to June 30, 1916), made it quite clear that the company's land-selling operations were practically suspended, and

would remain so until immigration into the districts in which its lands are situated is resumed in considerable volume. The last annual statement showed a debit balance of \$161,184. This, however, was largely composed of charges in respect of the deferred interest on the debentures and a charge in respect of loss of prospective profits owing to the cancellation of an important sale contract. The company's farmlands are said to be of good quality, and the extension of railway facilities during the last few years has rendered them more easily accessible; the valuation at which they stand in the balance-sheet does not seem unduly high. Of the valuation of the urban properties it is more difficult to judge. There is no recent quotation for either the shares or debentures. The company's future must depend on whether, pending a resumption of land sales, it can earn enough to meet its expenses, interest on loans, etc.

## GENERAL.

MOTHER.—Write to the Canadian Record Office, Green Harbour House, Old Bailey, London, E.C.

W. P. (Derby).—Send full particulars to the office of the Adjutant-General, Overseas Military Forces of Canada, Argyll House, Regent Street, London, W.

COLLIER.—The decline in coal production in Nova Scotia in 1916 is stated to have been due almost entirely to the large proportion of enlistments from among colliery workers.

Sir W. T. White, Dominion Finance Minister, announced on Tuesday that a third Canadian domestic war loan would be issued on March 12. There was no intention to issue a New York loan at present. The proceeds of the present loan would carry the Government on until midsummer. No details regarding the amount or the price of the loan (says the Ottawa correspondent of the *Times*) will be made known until the prospectus is published.

## CANADA'S TELEGRAPHS AND TELEPHONES.

Of all the Dominions and Colonies Canada is the only one that has made any headway in the manufacture of apparatus and material for telegraph and telephone purposes (says the *Engineer*). Practically all wire, cable, subscribers' instruments, and manual exchange equipment used throughout the telephone services of the country are made in the Dominion. Automatic exchange apparatus, where this is in use, is obtained from the United States, but even this is now being assembled and built up in Canada. Copper wire, iron wire, and pole fittings are also made to a large extent. Telegraph apparatus is

**CANADA'S WAR EXPENDITURE.**

For the fiscal year beginning April 1 a war appropriation of \$500,000,000 has been voted by the Dominion Parliament. The war expenditure itself is estimated at \$433,274,000, out of which it is expected \$196,171,000 will be spent by the Department of Militia and Defence; \$219,000,000 by the Ministry of Overseas Military Forces, and \$17,500,000 by the Department of the Naval Service. The military expenditures proper are divided in the estimate given to Parliament under the following heads:—

Pay of 400,000 troops .. .. .	\$182,500,000
Separation allowances .. .. .	36,000,000
Rations and subsistence .. .. .	51,000,000
Clothing and necessaries .. .. .	48,000,000
Equipment and general stores .. .. .	42,261,000
Ammunition .. .. .	16,750,000
Small arms, machine guns .. .. .	80,000
Ross rifles and bayonets .. .. .	2,660,000
Renewals of small arms and machine guns in France .. .. .	5,500,000
Forage .. .. .	2,500,000
Remounts .. .. .	2,000,000
Medical services .. .. .	4,000,000
Ocean transport .. .. .	5,000,000
Railway transport .. .. .	3,000,000
Engineer services, including housing troops, etc. .. .. .	4,000,000
Civil employees .. .. .	2,000,000
Printing, stationery, cables, etc. .. .. .	3,000,000
Recruiting, customs duties, funeral expenses, fuel, etc. .. .. .	5,000,000

The amount of \$2,660,000 for Ross rifles is due, it is explained, upon a former contract.

**CANADIAN STOCK IN ENGLAND.**

The Hon. T. W. McGarry, Provincial Treasurer, announced in the Ontario Legislature that the Imperial authorities have requested the Ontario Government to take up \$17,000,000 of Ontario Government stock held in England on account of the construction of the Temiskaming and Northern Ontario Railway, which is owned by the Province. The proposal (says the Toronto correspondent of the *Times*) is that, by borrowing the same amount on this side of the Atlantic, the Ontario Government can turn the stock into dollar securities, and thus assist the financing of munition orders in Canada. A Bill is being passed empowering the Treasury to carry out the proposal, and a provincial loan of \$17,000,000 will shortly be brought out, probably in the United States.

The Montreal Board of Control has agreed to the redemption of civic debentures held in London, to the amount of \$10,703,000, through an arrangement with J. P. Morgan & Co., of New York, which takes advantage of the existing exchange situation and by which it is expected to reduce the city's obligations by about \$1,365,000.

**International Nickel.**—A dividend of \$1.50 (6 per cent.) on the common stock has been declared, payable March 1, to holders of record February 13.

**Royal Bank of Scotland.**—The directors announce that Mr. Adam Tait, cashier and general manager of the bank, has, after upwards of forty-one years in their service, placed his resignation in their hands, and that they have accepted the same. Mr. Tait's resignation will receive effect on April 30, 1917. Mr. William Wallace, who for twelve years has filled the position of manager of the bank's London office, recently expressed his desire to retire at the end of the present year, but the directors, in view of his intimate and valuable knowledge of the London business of the bank and of the exceptional circumstances arising out of the war, urged him to reconsider the matter, and he has consented to remain in office for some time longer. The directors further announce that they have appointed Mr. A. K. Wright, who has acted as secretary of the bank since 1907, to succeed Mr. Tait in the office of cashier and general manager.

Grand Trunk, £154,949; increase, £5,616. Grand Trunk Western, £30,514; decrease, £5,445. Detroit, Grand Haven and Milwaukee, £11,075; decrease, £1,609. Total, £196,538; decrease, £1,438.  
G.T.P., Prairie Section, £17,255; decrease, £4,219.

**THE WESTERN WHEAT CROP.**  
The final corrected returns of the wheat crop of the Prairie Provinces show a yield of 225,000,000 bushels, according to a Canadian War Records cablegram from Winnipeg. This revised total is 30 per cent. more than was estimated last autumn.

**ENCOURAGEMENT OF EMPIRE INDUSTRIES.**  
The Committee of the Royal Colonial Institute has been in communication with the Governments and Chambers of Commerce of the Dominions and Colonies with a view to urging the necessity of making it obligatory on all Government and Municipal bodies to purchase Empire-made goods, and to place all contracts as far as possible with British firms. In response to the communication sent on the subject, replies have been received from 28 Governments and 23 Chambers of Commerce and Boards of Trade, which go to show that the Empire is united in the desire to assist and encourage Empire industry and trade, and to take what action may be deemed appropriate and feasible.

**TRADE ENQUIRIES.**  
Opportunities for British and Canadian Firms.

Among trade enquiries received at the Canadian Trade Commissioner's Office, 73, Basinghall Street, London, E.C., are the following:—

A business man in Scotland, who claims expert knowledge of the grocery, provision and grain trades and an established connection among buyers, is desirous of securing Canadian agencies after the war.

A London firm desire the addresses of Canadian shippers who can offer dried calves' stomachs as used in cheese-making.

A London firm ask to be placed in touch with Canadian manufacturers of galvanised roofing sheets, of which they wish to purchase supplies.

A London company who wish to purchase considerable quantities of wood meal invite samples and quotations from Canadian manufacturers who can supply it.

A correspondent in Winnipeg who is familiar with United Kingdom trade conditions wishes to secure agencies on a commission basis in silks, velvets, ribbons, draperies and textiles generally, also knitted goods, hosiery, millinery and wearing apparel.

A Winnipeg correspondent who is interested in a new patented wood preservative asks to be placed in correspondence with United Kingdom users of such preservatives suitable for sleepers, etc.

**Buffalo and Lake Huron Railway.**—A dividend has been declared of 5½ per cent. per annum (5s. 3d. per share), less income-tax, for the half-year, payable March 8. The sum of £1,360 is carried forward, against £1,339 last year.

and Branches.  
Specialise for Officers' Portraits at Moderate Prices.

**RUSSIAN PURCHASES IN CANADA.**  
As the result of negotiations with the Canadian Government, Russia has established a Purchasing Commission in the Dominion (says the Ottawa correspondent of the *Times*). It is felt that of orders placed by Russia in this continent Canada is not getting a fair share, and representations have been made in Petrograd. After considerable negotiations the Russian Imperial Purchasing Commission arrived in Canada, having equal authority with the corresponding body in the United States.

**Spanish River Pulp and Paper Mills.**—Coupon No. 2, due March 1, 1917, attached to the 6 per cent. "A" Debentures, which were issued in exchange for the two- and three-year Sterling Notes, will be paid on and after that date (Saturdays excepted) by the British, Foreign and Colonial Corporation, Ltd., 67, Bishopsgate, London, E.C.

Mr. F. B. Francis, the Inspector of the Bank of Commerce at Winnipeg, has been appointed senior agent of the bank in New York.

## OVERSEAS OFFICERS.

MR. SWAINE, 106, New Bond Street, London (and Southsea), offers to photograph any Overseas Officer, and to present a finished copy of two poses selected **free of all charge or obligation.** Overseas Nurses also invited on the same terms.

*West Africa* is a bright, new weekly published in London in the interests of British and French West African trade. Discussing in the third number the question of the future of the country after the war, the paper agrees with Mr. Walter Long that it is "unthinkable" that German influence should ever again be allowed to predominate there, for the German has proved himself a bad neighbour, and an utter failure as a "coloniser."

## ÆOLIAN HALL.

Mark Hamburg will give another piano-forte recital at the Æolian Hall, New Bond Street, W., this afternoon, at 3.30. Beethoven, Ravel, Debussy and Brahms are represented on his programme.

## THEATRE ROYAL, DRURY LANE.

The revival of "Young England" at this theatre was somewhat in the nature of an experiment, and a bold one at that, but that Mr. Courtneidge's courage will be rewarded we have very little doubt. The cast is of all-round excellence, and Mr. William Cromwell, who succeeds Mr. Walter Passmore as Drake's Drummer, has introduced some original business which is all to the advantage of the present production of this enjoyable musical comedy.

A further advance of from 4s. to 6s. per cent. all round for Canadian cheese, with finest quality quoted at 166s. per cwt., is reported by W. Weddel & Co., Ltd.

An organisation has been formed under the name of the Tobacco Trade Association of Canada. It comprises forty of Canada's leading tobacco manufacturers, and its object is readjustment during the war and reconstruction afterwards.

*The New Europe*, published weekly in London at 6d., has already made a place for itself among students of politics and others. The authoritativeness of its articles makes it invaluable to all who wish to understand the complicated issues involved in the present conflict, especially as affecting the Central Empires and the Near East. Among the contributions in last week's issue are "The Future Status of Bohemia," by T. G. Masaryk, and "The Cursing of Venizelos," by Sir J. G. Frazer.

Among the contents of the *Canadian Magazine*—an excellent number—for February are "The New Governor-General," by Hugh S. Eayrs; "Our Strangle-Hold on the German Spy System," by William Le Queux; "Abel and His Great Adventure," by L. M. Montgomery; "An Aspect of the Bilingual Question," by Hilton M. Radley; "Canadian Poets and Poetesses as Lyricists of Romantic Love," by J. D. Logan; "The Listening-Post" ("With Canadians from the Front" series), by Lacey Amy; and "The Minister of Finance," by W. L. Edmonds.
