## Technical and Bibliographic Notes / Notes techniques et bibliographiques

The Institute has attempted to obtain the best original copy available for filming. Features of this copy which may be bibliographically unique, which may alter any of the images in the reproduction, or which may significantly change the usual method of filming are checked below.

- Coloured covers /  
Couverture de couleur
  - Covers damaged /  
Couverture endommagée
  - Covers restored and/or laminated /  
Couverture restaurée et/ou pelliculée
  - Cover title missing / Le titre de couverture manque
  - Coloured maps / Cartes géographiques en couleur
  - Coloured ink (i.e. other than blue or black) /  
Encre de couleur (i.e. autre que bleue ou noire)
  - Coloured plates and/or illustrations /  
Planches et/ou illustrations en couleur
  - Bound with other material /  
Relié avec d'autres documents
  - Only edition available /  
Seule édition disponible
  - Tight binding may cause shadows or distortion along  
interior margin / La reliure serrée peut causer de  
l'ombre ou de la distorsion le long de la marge  
intérieure.
  - Blank leaves added during restorations may appear  
within the text. Whenever possible, these have been  
omitted from filming / Il se peut que certaines pages  
blanches ajoutées lors d'une restauration  
apparaissent dans le texte, mais, lorsque cela était  
possible, ces pages n'ont pas été filmées.
  - Additional comments /  
Commentaires supplémentaires:

L'Institut a microfilmé le meilleur exemplaire qu'il lui a été possible de se procurer. Les détails de cet exemplaire qui sont peut-être uniques du point de vue bibliographique, qui peuvent modifier une image reproduite, ou qui peuvent exiger une modification dans la méthode normale de filmage sont indiqués ci-dessous.

- Coloured pages / Pages de couleur
  - Pages damaged / Pages endommagées
  - Pages restored and/or laminated /  
Pages restaurées et/ou pelliculées
  - Pages discoloured, stained or foxed /  
Pages décolorées, tachetées ou piquées
  - Pages detached / Pages détachées
  - Showthrough / Transparence
  - Quality of print varies /  
Qualité inégale de l'impression
  - Includes supplementary material /  
Comprend du matériel supplémentaire
  - Pages wholly or partially obscured by errata slips,  
tissues, etc., have been refilmed to ensure the best  
possible image / Les pages totalement ou  
partiellement obscurcies par un feuillett d'errata, une  
pelure, etc., ont été filmées à nouveau de façon à  
obtenir la meilleure image possible.
  - Opposing pages with varying colouration or  
discolourations are filmed twice to ensure the best  
possible image / Les pages s'opposant ayant des  
colorations variables ou des décolorations sont  
filmées deux fois afin d'obtenir la meilleure image  
possible.

This item is filmed at the reduction ratio checked below /  
Ce document est filmé au taux de réduction indiqué ci-dessous.

The copy filmed here has been reproduced thanks  
to the generosity of:

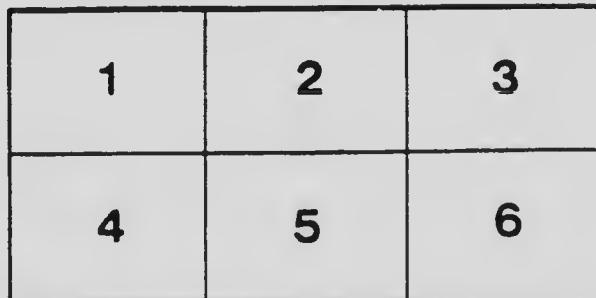

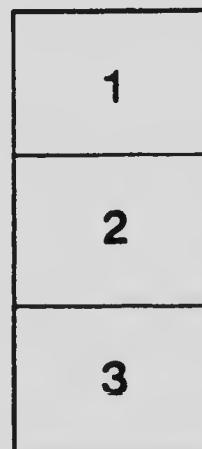

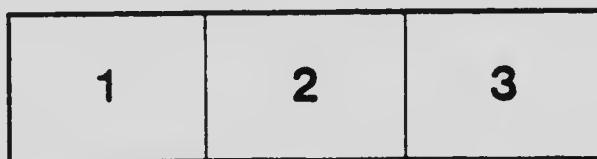

National Library of Canada

The images appearing here are the best quality  
possible considering the condition and legibility  
of the original copy and in keeping with the  
filming contract specifications.

Original copies in printed paper covers are filmed  
beginning with the front cover and ending on  
the last page with a printed or illustrated impres-  
sion, or the back cover when appropriate. All  
other original copies are filmed beginning on the  
first page with a printed or illustrated impres-  
sion, and ending on the last page with a printed  
or illustrated impression.

The last recorded frame on each microfiche  
shall contain the symbol → (meaning "CON-  
TINUED"), or the symbol ▽ (meaning "END"),  
whichever applies.

Maps, plates, charts, etc., may be filmed at  
different reduction ratios. Those too large to be  
entirely included in one exposure are filmed  
beginning in the upper left hand corner, left to  
right and top to bottom, as many frames as  
required. The following diagrams illustrate the  
method:

L'exemplaire filmé fut reproduit grâce à la  
générosité de:

Bibliothèque nationale du Canada

Les images suivantes ont été reproduites avec le  
plus grand soin, compte tenu de la condition et  
de la netteté de l'exemplaire filmé, et en  
conformité avec les conditions du contrat de  
filmage.

Les exemplaires originaux dont la couverture en  
papier est imprimée sont filmés en commençant  
par le premier plié et en terminant soit par la  
dernière page qui comporte une empreinte  
d'impression ou d'illustration, soit par le second  
plat, selon le cas. Tous les autres exemplaires  
originaux sont filmés en commençant par la  
première page qui comporte une empreinte  
d'impression ou d'illustration et en terminant par  
la dernière page qui comporte une telle  
empreinte.

Un des symboles suivants apparaîtra sur la  
dernière image de chaque microfiche, selon le  
cas: le symbole → signifie "A SUIVRE", le  
symbole ▽ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être  
filmés à des taux de réduction différents.  
Lorsque le document est trop grand pour être  
reproduit en un seul cliché, il est filmé à partir  
de l'angle supérieur gauche, de gauche à droite,  
et de haut en bas, en prenant le nombre  
d'images nécessaire. Les diagrammes suivants  
illustrent la méthode.

LABORATORY  
OF THE  
INLAND REVENUE DEPARTMENT  
OTTAWA, CANADA.

**BULLETIN No. 194**

**FRUIT JAMS**

OTTAWA, December 14, 1909.

W. J. GERALD, Esq.,  
Deputy Minister of Inland Revenue.

SIR,—In July of this year an order was issued for the collection of ten (10) samples of Fruit Jams, in each of the (15) Inspector Districts of Canada. Our Inspectors were instructed to procure strawberry and raspberry jams by preference. The following table shows the character of the collection made :—

District.	Jams.	Compounds.	Canned Fruit.	Total.
Nova Scotia.....	10	0	0	10
Prince Edward Island.....	3	0	0	10
New Brunswick.....	7	3	0	10
Quebec.....	1	2	7	10
St. Hyacinthe.....	9	0	1	10
Montreal.....	7	3	0	10
Ottawa.....	10	0	0	10
Kingston.....	8	2	0	10
Toronto.....	10	0	0	10
London.....	7	4	0	11
Windsor.....	10	0	0	10
Manitoba.....	10	0	0	10
Calgary.....	10	0	0	10
Vancouver.....	9	1	0	10
Victoria.....	5	0	0	5
	116	22	8	146

Thirty samples which do not meet the requirements of this inspection, being labelled and sold as Compounds, or being *Canned Fruit*, and not jam, are excluded from this report. Of the 116 samples sold as jam, the following are the results of analysis :—

	Samples.
Found genuine.....	108
" doubtful.....	7
" adulterated.....	1
Total.....	116

No. 975 is a very old sample, which has evidently been kept in a hot place; and not being perfectly sealed, has dried so as to be unfit for use.

Nos. 41273, 41277, 35988, 35991, 978, 983.—These samples contain dextrin, and are evidently made with addition of glucose, but in small quantity. It is an open question whether or not the addition of small amounts of glucose without declaration of the fact is permissible in jams. Some manufacturers consider the use of five to ten per cent of glucose as desirable, to prevent the separation of sugar by crystallization on long keeping. This question should be determined. The fact that many of the best makers of fruit jam do not use glucose seems to point to the needlessness of introducing even small amounts of the article into jam.

No. 36797. This sample contains a considerable amount of glucose. On account of the very variable nature of commercial glucose the actual amount present can only be approximated, and is at least 20 per cent.

It is true that no legal definition of jam, or explicit standard for the article as required by Section 26 of the Adulteration of Food Act, yet exists for Canada. Nevertheless the meaning of jam as 'a conserve of fruit, boiled in mass, with sugar and water,' is so well recognized; and the term has legal meaning in so many countries, that I have no hesitation in declaring a product made with more than ten per cent of glucose, as adulterated under the Act.

The following definition for jam is submitted for criticism and comment; and it is hoped that a legal definition and standard for this important article will be established before another collection is made:

*Jam*, (marmalade) is the sound product made from clean, sound, properly matured and prepared fresh fruit and sugar (sucrose) by boiling to a pulpy or semi solid consistence, and conforms in name to the fruit used, and in its preparation not less than forty-five (45) pounds of fruit are used to each fifty-five (55) pounds of sugar.

*Jam* may be made with glucose instead of sugar, in whole or in part; and with admixture of other fruits than that which gives its name to the article, so long as the fruit so added does not exceed fifty (50) per cent of the total weight of fruit present, and provided that the word *Compound* is printed on the label, as an integral part of the same, and in letters as large as those which name the fruit of which the jam purports to be essentially made.

Section 24 (d) of the Adulteration Act provides that no food shall be deemed to be adulterated when 'Articles of food not injurious to the health are mixed together as a compound, and sold or offered for sale as such, with each package, roll, parcel or vessel containing such articles distinctly labelled as a mixture in conspicuous characters forming an inseparable part of a general label bearing the name and address of the manufacturer.' 53 V., c. 26, s. 1; 61 V., c. 24, ss. 2 and 3.'

I inclose with this, for your inspection, the labels taken from the following samples of the present collection, viz.:—40262, 30808, 30699, 30690, 36799, 36798, 38570, 38564, 39526, 41181, 38561, 39535, 38568, 40264, 38562 and 40265, in all of which I am of opinion that the requirements of the Adulteration Act are not fairly met; either because of the smallness of the type used, or the want of proper background (see 38564 and 39526) which makes the word 'Compound' indistinct. The labels 38565, 37700, 30810, 38567 and 41180 contain the word 'Mixture' or 'Compound' in distinct lettering: but in the first two cases, it is placed in such a way as to escape ready notice. I would respectfully advise the adoption of a ruling, something like that authorized for Germany, in regard to which I quote from the Second Edition of the 'Deutsches Nahrungsmittebuch' 1909, page 283:—

1. Every declaration must be placed on the same side of the package on which the content of the package is printed.
2. The declaration may be printed on the main label, or on a special label; but in the latter case, this special label must be affixed directly above or below the main label.
3. In the labelling of Compound Jams, no word on the label must be printed in larger characters than the word 'Compound'.
4. In case of the word 'Compound' being printed on the main label, it must be placed directly over or under the name of the jam, and parallel with this.

5. The word 'Compound' must be printed in an easily legible and dark lettering, upon a light background.
6. If the normal contents of a jam are specially emphasized on the label, this must not be done in a larger type than the word 'Compound'.
7. On containers more than 16 cm. ( $6\frac{1}{2}$  inch.) high, the small letters must be 3 mm. ( $\frac{1}{8}$  inch.), and on larger containers 5 mm. ( $\frac{3}{16}$  inch.) in height.  
I beg to recommend the publication of this report as Bulletin No. 194.

I have the honour to be, sir,

Your obedient servant,

A. MCGILL,

*Chief Analyst.*
