PORTUGAL HAS A PRESIDENT ALREADY

Provisional Government Installed — King Manuel Leaves Lisbon in Dramatic Way, and is Now at Mafra — One Report That Revolution Has Been Checked.

LISBON, Oct. 5.—A provisional government has been formed, with Theophile Braga as president. The new national flag is flying over all public buildings.

King Manuel has taken refuge at Mafra, 18 miles from Lisbon. A report was circulated late to-night that the revolutionists had been checked and were retiring in the direction of Mosanto.

President-elect of Brazil, Marshal Hermes Fonseca, has delayed his departure and remains in Lisbon.

British Minister's Report. LONDON, Oct. 5.—The telegram of British Minister Sir F. H. Villiers to the foreign office follows: "A serious disturbance broke out here (Lisbon) on Sunday night, when some troops of the garrison declared themselves Republicans. Fighting occurred throughout yesterday afternoon. Troops heretofore loyal went over to the revolutionists and a republic was proclaimed.

"Great excitement prevails. The proclamation of a republic was received enthusiastically by the people. I believe that a provisional government is being formed. King Manuel is said to be at Mafra (18 miles north-west of Lisbon), at the royal palace with the queen mother and the prince royal, but I have no precise news."

The News Via Madrid. MADRID, Oct. 5.—Advice received here to-night from Lisbon are to the effect that King Manuel and Queen Mother Amalie have left Portugal on a warship for England; that the revolutionists have triumphed and that a republic has been proclaimed amid the wildest enthusiasm.

Rumors have reached this city that 2000 armed peasants have entered the Portuguese capital. It is reported that the Republican flag is not flying over the royal palace at Lisbon, but only on the Portuguese warships in the Tagus River.

How Manuel Departed. BERLIN, Oct. 5.—A thrilling story of the night flight of King Manuel thru the streets of a riot-riven city and across a fog-shrouded bay, to safety on board the Brazilian warship Sao Paulo, is published this afternoon by The Lokal Anzeiger.

When the rebellion burst forth in its fury and the Portuguese warships in the harbor trained their heavy guns and began bombarding the palace, King Manuel, his mother, Queen Amalie, and other members of the royal household took refuge in a cellar, where they were safe from the shells of the Republicans.

Toward nightfall the commander of the Brazilian cruiser got in touch with the palace, with the full consent and knowledge of the Republican leaders. Brazilian officers warned the king that his life was in danger, and offered him refuge on board the Sao Paulo, which was then anchored out of the line of fire in the harbor.

Tried to Comfort Mother. The Brazilian officers found the boy ruler endeavoring to comfort his mother, but Amalie, who had seen her husband and eldest son shot to death and now faced the fact that her other son would be slain, refused to be comforted. At first Manuel steadfastly declined to seek safety in flight, but the efforts of his mother and the statement of the Brazilian officers that he could not hope to win, caused him to agree to the proposal.

Wearing the full uniform and with head erect, the youth walked thru a line of the troops who had remained loyal. He proceeded to a quay in a secluded portion of the city, where a ship's pinnace from the Sao Paulo was waiting. The sailors saluted with their oars as Manuel, with great dignity, took his seat in the stern. A few moments later, the oars dipped in the bay, and the little boat made its dangerous way toward the Sao Paulo. As Manuel came up over the side of the vessel the marines manned the rail and saluted the dethroned monarch.

An Actress in It? A French variety actress, Mlle. Gaby Deslys, is costing Manuel his throne, according to high officials of the German Government. His flagrant flaunting of his mistress in the face of his harping subjects is said to have caused a wave of popular indignation that culminated in the revolt. The nation was bankrupt, and her people, oppressed by taxation, were starving.

Manuel is said to have given Mlle. Deslys, worth \$500,000, to the chic dancer and actress. It is reported that he lodged her in a royal suite in his palace in Lisbon, and that she accompanied him in his travels.

British Warships Hurry Off. LONDON, Oct. 5.—There is a possibility that Great Britain will use her good offices to secure respect for the persons of King Manuel and the Queen-Mother Amalie of Portugal from the revolutionists, who are reported to be in control at Lisbon. There is much public sympathy here for King Manuel. It is alleged that it was too much to expect of a boy ruler that he would be a force in politics. As to the reflection upon his private life, all such suspicion is new in this country.

The close relations between the ruler and Governments of Great Britain and the United States.

THE C. P. R. PRESIDENT

SIR THOMAS SHAUGHNESSY Who yesterday made some important announcements to the shareholders.

C. P. R. WON'T CUT ANY MELONS JUST NOW

Not Always a Boon to Beneficiaries, Says Pres. Shaughnessy, Who May Find Some Other Way of Distributing Profits—Dividend Quarterly Hereafter.

ONTARIO LAGGING BEHIND IN THE C. E. MOVEMENT

Dr. Clark, the Founder, Appeals For a Revived Interest in the Work in This Province.

Ontario is away behind the other provinces and the states of the union in the movement in recent years. Dr. Francis E. Clark of Boston, founder of that movement, to a large gathering of representatives of the Endeavorers of the province, in College-street Presbyterian Church, last night. The meeting was largely made up of women, only a few men being present.

Addressing himself to the growth of the movement in recent years, Dr. Clark said, "Is this Christian Endeavor Society needed in Ontario?" In Manitoba and British Columbia, and in Quebec the work has been prosperous during the years just passed. In Ontario we regret to say it has not been very prosperous, not as prosperous as it was a few years ago, and the same is true of the maritime provinces. But do not know of a single state in the union where this can be said, or in any considerable portion of the world outside Ontario.

"If there is a better thing, use it. If there is a better way of training young people in Christian work than that, use it, but let us all know about it, for we want the very best thing there is."

"It is a fundamental idea that the Christian Endeavor Society is distinct from the Sunday school. It is training for the future, not for the present. It is a school of expression."

The report of the nominating committee was presented by Rev. Dr. Gilray and the following officers elected: President, Rev. H. M. Halper; vice-presidents, J. R. Leary, R. Davenport, R. Hewitson; treasurer, Miss A. Darling; recording secretary, Miss M. Minty; corresponding secretary, Miss Scriman; chairman prayer meeting committee, J. Hannigan; chairman good citizenship committee, P. W. Jenkins; chairman missionary committee, J. McAllister; chairman literary committee, Miss L. McDonald; statistician, Miss M. Hoey; editor, E. D. Otter; junior superintendent, James H. Shannon.

Dr. Clark will speak at the Western University at 10:15 this morning, and will leave in the afternoon for Newark, N.J., to attend a state convention there, and will tour the New England States.

GIRL COMPLAINED TO POLICE

And Causes Arrest of Young Man for Supplying Drugs.

Charged with supplying drugs for the purpose of procuring a abortion upon 25-year-old Ida Hurst, Thomas Peacock, a plumber, 24 years of age, living at 881 Margaret street, was arrested yesterday by Detective McKinnon. The girl complained to the police, saying that the drugs had been supplied three weeks ago. Peacock was arrested at the Union Station on his return from the Fort Erie races.

C.P.R. ENGINEERS EXPECT RAISE

WINNIPEG, Oct. 5.—(Special.)—Locomotive engineers on the Canadian Pacific Railway are expecting a substantial increase in wages. The matter is under consideration by the association of railway companies officials at Minneapolis. The territory affected is that between Fort William and the coast.

TELEGRAPHERS GET SMALL INCREASE

MONTREAL, Oct. 5.—The board of arbitration in the dispute between the Grand Trunk Railway and its telegraphers, which has been sitting in this city, concluded its work to-day. The award, which is binding on both parties, gives the men a small increase in pay, with a number of improvements in working conditions.

ALIVE AFTER FIVE DAYS.

MONTREY, Oct. 5.—Six Japanese miners, entombed in mine No. 2 of the Coahuila Coal Company at Palau, Mexico, as the result of Friday night's explosion, in which more than 150 miners lost their lives, have been found alive. Although they had been without food or water since the explosion, it is said all of them will recover.

A POLITICAL TENDERFOOT

Or Sir George to the Rescue.

MATERIAL REDUCTION IN TELEGRAPH RATES

Hon. Rodolphe Lemieux Will Introduce Question Next Session—To Approximate Charges Made in Great Britain — A Minimum of From 12 to 15 Cents.

OTTAWA, Oct. 5.—(Special.)—It is certain that there will be a material reduction in the cost of telegraph messages in Canada in the near future, and the rates will be made approximate to those prevailing in Great Britain. It is possible that the reduction in domestic rates will be accomplished before a cheaper Atlantic cable service is established.

It is understood that Hon. Rodolphe Lemieux, the postmaster-general, who is on his way to South Africa, will introduce the question in the form of a resolution in the house of commons next session, and that the matter will be referred to the railway commission for enquiry and procedure.

While no definite rate has been mentioned, it is probable that the minister will recommend that the minimum figure should be not lower than twelve cents, and not higher than fifteen cents, with comparative rates for distant messages.

It is pointed out that when a couple of decades ago, the rate in Great Britain was reduced from one shilling to six pence, the increase in business which ensued more than compensated for the reduction in price. It is also remarked that the cheap night letter telegrams instituted in this country have been a success, and convince students of the question of telegraphic and telephonic communication that the cheapening of rates is an advantage, both to the public and to the companies.

The question of a uniform rate for all over Canada has been considered, but it is not thought that the time for this radical change has yet arrived.

LURIER AND IRELAND

Says Britain's Treatment of Green Isle is Her Only Shame.

OTTAWA, Oct. 5.—(Special.)—In moving a vote of thanks to T. P. O'Connor, who delivered an address on the subject of the Home Rule Bill, last evening, Sir Wilfrid Laurier said that his treatment of Ireland was the only blot on England's record. He said he had been a student of the Home Rule Bill in the Russell Theatre this evening. Hon. Charles Murphy presided. The sum realized for the cause of home rule amounted to over \$1100.

Good Cheer Society.

A meeting of the Good Cheer Society will be held in Guild Hall Friday evening. Miss Theora Carter will give an address.

A Rich Mica Mine.

WINNIPEG, Oct. 5.—One of the world's richest mica mines has been discovered near Edson, Alta.

PLAGE OF COLLEGE IN TECHNICAL TRAINING

President Falconer and Dean Galbraith Give Evidence Before Royal Commission — Ontario's Work for Agriculture — Assistance for Girl Workers.

The royal technical education commission were very busy yesterday, and much valuable evidence was received at the two sessions in the council chamber. The morning was spent by the commissioners in individual work, as they found that time was too short to allow for a visit, as originally intended, to the principal industrial plants and educational institutions of the city.

The relationship of the university to technical and manual training was discussed by President Falconer of Toronto University, who was the first witness in the afternoon.

The university, he said, was above all, a teaching body, tho' all teaching must be accompanied by research. He believed it to be a good combination, for research was of value to the teacher, and teaching helped in research work.

Dr. Falconer explained that the unique system of federated colleges, under the control of the central university, applied only to the undergraduate work in arts; the work and the curriculum in all the other faculties, such as applied science, medicine, forestry, etc., was under the sole control of the university board of governors, who in turn were responsible to the provincial government. This had been the system since 1906.

All the facilities were viewed by the professional education, and matriculation was required in all cases. The higher education in engineering was, he believed, thoroughly well attended to, and would compare favorably with the same training as given in other countries.

He believed that the university, while giving this professional training, should be kept in touch with the secondary industrial phase. The university had no direct connection with the technical schools, and much thought had been given to the difficult problem of how a relationship could be established similar to that existing between the university and the high schools. The board of governors was looking forward with a great deal of anticipation to the question of relationship with such trade schools, and was anxious to be of any possible assistance. They had endeavored last year to co-operate with the Grand Trunk shops in organizing a course of instruction in steam, but the scheme had fallen through, owing to the body removed to the morgue. The coroner was also notified.

PROGGERS GETS THREE YEARS FOR SHOOTING

Prisoner Expressed Contrition For His Act—Will Foreswear Liquor in Future.

LONDON, Oct. 5.—(Special.)—A jury at the fall assizes this afternoon found John Proggers guilty of shooting with intent to kill, with a recommendation to mercy, in the case in which he was charged with shooting Elizabeth Franks on April 5. Mr. Justice Teste then passed sentence of three years in Kingston Penitentiary.

Babe's Body in Bay.

The body of a newly-born infant was found floating in Ashbridge's Bay, at the foot of Logan avenue, at 2.45 yesterday afternoon, by Percy Ellis, 18 Howard avenue. The police were notified and the body removed to the morgue. The coroner was also notified.

ED. JARDINE WITH GIRL LATE ON FATAL NIGHT

Several Witnesses Swear Positively That He Was With Murder Victim Between 8.30 and 10 p.m., Despite His Own Evidence That He Was at Home.

GODERICH, Oct. 5.—(Special.)—Tonight's session of the inquest into the murder of 16-year-old Lizzie Anderson, whose nude body, with throat cut, was found in the collar of a vacant house last Sunday week, after she had been missing since the previous Tuesday, brought out some startling evidence.

A dozen or so witnesses were called to depose young Edward Jardine's statement that he was at home on the evening of Sept. 30 at 20 minutes past 8. At various times, ranging from 8.30 till 5 minutes to 10 that evening, he was seen in company with the murdered girl, according to to-night's testimony. Even little girls and small boys came forward to tell Coroner Holmes and the jury that they had seen the two together. Inspector Greer promises a material witness along the same line from out of town.

Edward Jardine and a younger brother were both put on the stand for a moment so that the witnesses could tell whether or not they were mistaken as to their identity.

The regular court room could not begin to contain the curious crowds and the town hall had to be brought into commission, and this was packed to suffocation in a few minutes after the doors were opened. People sat around and atop the jurors, mounted the box stove, and perched on the window ledges. Several of the long benches were crushed flat by the crowd.

Question of Identity. When the session began, Edward Jardine sat on a bench and Crown Attorney Seager what clothes he had on the night of the tragedy.

"The clothes I have on now," "And what hat?" "That hat, my brother Thomas is holding for me now."

Turning to a constable, the crown attorney demanded that the hat be produced. "Put it on," he directed. It was a soft round felt affair. "That's the hat you wore that night?" "Yes."

"And did you carry your stick?" "Yes."

"Call Thomas Jardine," said Mr. Seager, and when Thomas stepped into the box, the crown asked, "Is that the coat of clothes you had on that night?" "Yes."

"And hat?" "Yes, Thomas was wearing a dingy brown derby."

"That will do," he said, and witness stepped down, seemingly bewildered at the abruptness of it all.

Saw Three Together. Mrs. Tideman was called. She did not know Edward Jardine, but she knew Frankie Jardine, aged 16, and had seen him at Goderich Fair on the Tuesday night in question, about 8.30, with Lizzie Anderson and another young man who very much resembled Edward Jardine. Witness had never seen him before that night, nor again until now, but she added "he looked the same to me." She fixed the time by having passed the Salvation Army barracks as the clock was striking eight, and the distance she had walked before meeting the three young people.

Mr. Tideman corroborated his wife's statements, and added that Lizzie Anderson wore a white hat with a blue ribbon around it, and a light suit with a stripe in it. He was pretty certain it would be about 8.30.

Seen at the Fair Grounds. Positive evidence that Edward Jardine and the Anderson girl were together about eight o'clock was given by 18-year-old Reggie Love, a playmate of Frankie Jardine. He and Frankie had met Edward and the girl in the chicken shop building.

"Are you quite sure it was Edward Jardine?" "Yes."

"And Lizzie Anderson?" "Yes sir."

"Anyone with them?" "No, they were standing together until Frankie met them," said the boy.

There was a murmur of surprise as Ray Steele boldly asserted that he had seen Edward and Lizzie together on the fair grounds at 9.20 that night. Steele had been working in a refreshment booth.

"You are quite positive you saw them?" "Yes."

He fixed the time from the fact that the band stopped playing a few minutes afterwards. They were on the

A RETROSPECT. Oct. 6, 1890: The McKinley tariff went into effect. 1892: Tennyson died.

A Minor Question? Every business man knows that he must appear as such. Absolutely the first requisite is the hat. The English hat has proved, by usage, both quality and class. There is one hat of English manufacture that has established a reputation throughout America, the "Health." The Dineen Company are the sole agents for the Henry Health Company, and have all their fall hats on display. The dangerous competitors of the Henry Health Company have also established an agency with the Dineen Company and are making a specialty of hats for large men. Ask to see the Hillgate hat.

HAMILTON HAPPENINGS

HOMELESS UNFORTUNATE FOUND DEAD IN A CELLAR

Went to Sleep in Intoxicated Condition—Lively Debate Over Cattle in City Limits.

HAMILTON, Oct. 5.—(Special.)—Joseph Cross, aged 67, a homeless unfortunate, who is supposed to have lived in Toronto most of the time, was found dead in the basement of Thomas Ryan's lodging house at 46 East Jackson-street to-night.

Catharine Maher, who has figured in police court a good many times during his life, was again arrested to-night, accused of stealing \$50 from James L. Carr.

The legislation committee of the city council had meeting to-night for the purpose of considering the new consolidated health bylaws, which were submitted for approval by the board of health.

George S. Kerr, K.C., pointed out to the committee that the enactment of such a bylaw would mean that Strouds, cattle buyers, would have to go out of business.

The hearing concluded about five o'clock this afternoon, following the hearing of much testimony, showing that Holmes had exhibited signs of insanity for a considerable period prior to the commission of the offence.

ACQUITTED OF MURDER ON GROUND OF INSANITY

Albert Holmes, Who Slew Nathan Bolton, Will Be Confined in Hamilton Asylum.

BROCKVILLE, Oct. 5.—(Special.)—It was that Albert Holmes, who was acquitted of the charge, on the grounds that he was insane at the time of the commission of the act, and we hereby acquit him on the ground of such insanity.

This was the verdict of the jury in the case of Albert Holmes, the Grenville County farmer, charged with the murder of Nathan Bolton at the farm of the latter on April 23.

The hearing concluded about five o'clock this afternoon, following the hearing of much testimony, showing that Holmes had exhibited signs of insanity for a considerable period prior to the commission of the offence.

Holmes will be committed to the insane ward of the asylum at Hamilton, there to be kept until the pleasure of the lieutenant-governor.

NEWSPAPER ARTIST SUICIDED

MONTREAL, Oct. 5.—Ralph Howard, artist, of The Montreal Star, who disappeared Tuesday, a week ago, committed suicide by drowning, but the reason is not known.

A NOTABLE GATHERING

Three Cardinals and Sixty-Three Bishops at St. Patrick's Consecration.

Buffalo Industrial Exhibition—Single Fare for Round Trip.

Tickets to Buffalo and return, account Buffalo Industrial Exhibition, at rate of single fare, \$2.10, will be available at all C.P.R. Toronto offices October 7 and 11, with a return limit of October 9 and 13 respectively.

Northern Navigation Co., Limited, sailings from Toronto 1.30 p.m. every Monday, Wednesday and Saturday.

PLAGE OF COLLEGE IN TECHNICAL TRAINING

Continued From Page 1.

Teachers in technical schools should be men thoroughly trained in practical science, and at the same time men fully understanding the point of view of the worker; and this would probably be a very difficult problem, to get satisfactory teachers.

What we are to do," said Dr. Falconer, "is to get the government and the public, rather than for the university to endeavor to meet the needs of the country, within the limits of its own sphere. But there is certain work it can do, and there is other work which it isn't constituted to do, and which hasn't the means to do. We will train our teachers as far as we are able to do so; but practical education is more than giving a man a lot of dead facts; it is the development of the man and his efficiency that ought to be the object aimed at."

It was the duty of the university to be in close touch with every branch of secondary education, and the means of preparing to train teachers in the higher grades of instruction, for which the facilities were now ample.

Mr. Simpson here propounded the case of a young man who, through family circumstances, is unable to attend high school or to matriculate, so that he would not be eligible for the regular course of instruction at the school of science. Dr. Falconer explained that the idea of matriculation was based on the theory that a certain amount of preparation was necessary prior to taking up the science courses; as otherwise much of the theoretical part would be unintelligible to the student. The matriculation subjects not bearing on the course were neither numerous nor heavy.

Breadth of Education Essential. "A certain breadth of education is essential," the president said; "we want to turn out men who will be citizens and will use their professions in the course of their citizenship. Indeed, we occasionally make exceptions, but we consider it advisable to stick very closely to the rules, in view of the great number of students in the school of science."

Mr. Simpson asked why an extra course could not be instituted for the benefit of men who had not had early advantages. Dr. Falconer replied that the chief objection was the poverty of the university and the fact that it was much undermanned, more so, in fact, than any other on the continent. He certainly thought such opportunities should be provided somewhere, but it was a question of where to be worked out, whether it should be at the university or elsewhere.

Training for Girls. Mrs. Archibald N. Heustis, president of the local branch of the Women's Council, said that she had taken a very active interest in technical education and had made considerable investigations. She thought courses of study should be instituted in fancy stitching, knitting, crocheting and buttonholing. A girl who had received proper training in any branch of work should be bound to develop expertness in learning with this instruction should also be given in the use of a sewing machine. There was a wide field here in town for designers of hats, and in the making of dresses.

Designing of dresses, basket weaving, lace-making, carpet and wall paper designing, house and church decoration, all these were highly developed and profitable trades in other cities, and might well be learned by the thousands of girls in Toronto who now lived by making boxes and paper bags.

Prof. Annie L. Laird, associate professor of household science at the university, said that one of the chief objects of the course was the preparation of students to work as teachers of household science subjects. A graduate would be qualified as a teacher for a class for working women. Previous experience at home was, however, very desirable, as there was much that could not be taught in a course. Furthermore, if the students came with better previous training it would put the department in a better position to take up research work.

Agricultural Possibilities. C. C. James, deputy minister of agriculture, was the first witness of the afternoon. Referring to agricultural societies throughout the province, he considered that they should be much more thoroughly inspected than at present, if the farmers' institutes were organized locally and controlled by their own officers. These institutes were regularly addressed by representatives of the department of agriculture, and they held many meetings of an instructive nature on their own account.

The department maintained two dairy schools at Kingston and Guelph, where a technical course was given, with a diploma or certificate on graduation. The chief difficulty with the farmers' institutes, Mr. James thought, was that they were not doing the work that they were most amenable to instruction. As an experiment, a county had recently been selected, and a graduate of the agricultural college attached to the state of the county high school, it had been found that no pupils were attending the schools that day.

Board of Trade Report. R. S. Gourlay, vice-president of the board of trade, presented a voluminous report by the board and employees of a draft curriculum for technical schools. In discussing the report, from which he read extracts, Mr. Gourlay said that it was important that the very potent gap should be bridged between professional and commercial life. The high schools provided for general citizenship, with a strong emphasis on the professional phase of life. He would like, without leaving out the cultural studies, to have the stress laid on commercial life, in some of the schools at least. There should certainly be inductive teaching, such as would induce the pupil to look forward to becoming a leader in industry, on the same plane as the leader in a profession. It would be an excellent beginning to add a text book on industrial development to the curriculum.

The report presented gives details of investigations made by a committee of the board of trade in 1909. It suggests the introduction of elementary technology in all forms of the public schools of Ontario, the subjects to vary according to the industries of the locality.

J. F. Ellis, also representing the board, concurred in the views expressed by Mr. Gourlay. He thought instruction in foreign weights, measures and money should be more thoroughly taught in the schools than at present.

S. P. S. Training. Dean J. Galbraith of the faculty of applied science in the university, said that practically all the students at the school of science were preparing for the vocations taught in their courses, and not for teaching. It was of great advantage to the student to do practical

OPPOSE HIGH SCHOOL

Petitions Are Now in Circulation—Toronto Presbytery Meets To-day.

NORTH TORONTO, Oct. 5.—(Special.)—There is a good deal of opposition around town as to the action of the council re the high school, and a lot of petitions are being circulated.

At last night's meeting of the council, a letter was received from the deputy minister of education, advising the request for the establishment of a high school conditional upon the customary provisions as to site, building equipment, and the like, being fully met.

It is held, however, that not alone is the whole proceeding so far illegal, but that the ratepayers are, as a body, opposed to the establishment of the school, and that the majority have always taken the ground that a high school at the present time would be premature, and counseled delay.

It is held, however, that not alone is the whole proceeding so far illegal, but that the ratepayers are, as a body, opposed to the establishment of the school, and that the majority have always taken the ground that a high school at the present time would be premature, and counseled delay.

Feet Tired-- So Tired?

TIZ Makes Sick People Well No Matter What Ails Them.

Tiz acts at once and makes tired, aching, swollen feet remarkably fresh and sore relief.

It's the sure remedy you know, for everything that gets the matter with your feet, such as sore feet and for sweaty, bad-smelling feet, and for corns, callouses and bunions, too.

TIZ is not a powder. Powders and other foot remedies clog up the pores. TIZ draws out all poisonous exudations which bring on soreness of the feet, and is the only remedy that does. TIZ cleans out every pore and restores the feet—your feet.

TIZ is made only by Walter Luther Dodge & Co., Chicago, Ill. Distributors: National Drug & Chemical Co., Limited; Lyman Bros. & Co., Limited. Is for sale at all druggists, 25 cents per box.

Save running up and down stairs. Lighten your wife's household cares. Don't have only the One Telephone. You can increase the usefulness of your present telephone fully 100 per cent. by having

work in the summer, as he could thus adapt to his work of life the ideas obtained in theoretical study. Nevertheless, when a student graduated he was not a full fledged engineer; he had merely been taught how to become one. It would be of material assistance if practical experience could be gained before taking up the theoretical work.

Prof. Robertson concluded the session by expressing the thanks of the commission for the very valuable evidence which had been submitted by the witnesses, and for the material assistance given to the enquiry by the sympathy of the premier and cabinet. The commission meets to-day in Hamilton.

MARKHAM FAIR.

Entries Bigger Than Ever and Show Will Break All Records.

MARKHAM VILLAGE, Oct. 5.—(Special.)—I look upon this as the best fair that has ever been held in the township, and it is a credit to the fact that live stock did not require the first day morning, as in previous years.

The fair is held in the afternoon, and the entries are very large. The fair is held in the afternoon, and the entries are very large.

MIDWAY CONSERVATIVES.

A Conservative smoker under the auspices of the Midway Conservative Association will be held on the grounds of J. Marsh, Coxwell-avenue, north of Gerrard-street, on Friday, Oct. 7.

WILL BE A GREAT TIME.

The celebration of the fiftieth year of the pastorate of Rev. Dr. Carmichael at the little Village of Strange, in King Township, to-day will be a memorable event in the history of the Presbyterian Church in Ontario.

In, Out and In Again.

Robert Hepler, 17 years old, and Wm. Brinkley, 21, both of Ottawa, and another man were pointed out by Constable Peterson, on their return from the Fair Saturday last, as the men who had been arrested on Friday last.

TIZ Makes Sick People Well No Matter What Ails Them.

Tiz acts at once and makes tired, aching, swollen feet remarkably fresh and sore relief.

It's the sure remedy you know, for everything that gets the matter with your feet, such as sore feet and for sweaty, bad-smelling feet, and for corns, callouses and bunions, too.

TIZ is not a powder. Powders and other foot remedies clog up the pores. TIZ draws out all poisonous exudations which bring on soreness of the feet, and is the only remedy that does. TIZ cleans out every pore and restores the feet—your feet.

TIZ is made only by Walter Luther Dodge & Co., Chicago, Ill. Distributors: National Drug & Chemical Co., Limited; Lyman Bros. & Co., Limited. Is for sale at all druggists, 25 cents per box.

"30" for 1911

\$2350 Specially Equipped

A YEAR AGO WE ANNOUNCED RUSSELL "30" for 1910 as the most remarkable value on the market. RUSSELL "30" for 1911 is an even greater value than its predecessor.

The car will now have 34x4 inch tires, both front and rear. Spark and throttle control levers are of an improved type. A foot accelerator has been added. Better lamp equipment is given, including larger gas lamps. Solid type of dash board attachment of glass front without the usual filler-in board. The car has the popular high fore doors, introduced to Canada by us last season and now universally demanded.

Russell "30" has the following styles of bodies: Five passenger touring, four passenger and special roadster. Its standard construction includes shaft drive, selective transmission, full floating type of rear axle, etc.

This ideal car at a moderate price is fully described in our new catalogue now in press. Write us for a copy.

PINHOLES TO IDENTIFY THOUSAND DOLLAR BILLS

Odd Way in Which It is Proven That Gerald Crowe Sent Ill-Gotten Gains to Affianced.

Once more the Toronto police enter into the prosecution of Gerald Crowe, wanted for forgery here, and held in Winnipeg for uttering a forged cheque upon the Bank of Hamilton there, by which he secured \$200.

Crowe sent from Calgary, where he was arrested, to his affianced wife in Toronto two \$1000 bills, and these were turned over to Inspector of Detectives Duncan here, but the bank officials were unable to identify the money as that paid out on the cheque.

Yesterday this identification was made in a curious way. In his letter enclosing the money, Crowe had sent several sheets of paper, to which the bills were pinned. The young lady in the case declared that she could identify the money sent her by these marks, and yesterday, when they were laid together, it was seen that the pinholes in the two bills, and the five sheets of the letter exactly coincided, which will go far to block the effort of the defence to secure any part of the money sent.

FREE TO EXPRESS OPINIONS

Principal of Queen's Objects to Statement of Prof. Marshall.

KINGSTON, Oct. 5.—(Special.)—Prof. John Marshall, who recently resigned from Queen's, has recently resigned from Queen's, has recently resigned from Queen's, has recently resigned from Queen's.

BOTH HANDS INJURED.

Thomas Dobson, 7 Perry-street, a G.T.R. yardman, had both his hands severely torn at the foot of Cherry-street last night. He had sheltered from the rain behind a car when another car was shunted onto him without warning, he says. He was dragged a considerable distance, and the palm of the right hand was torn out and one finger broken. His injuries were dressed by Dr. H. M. East, 1911 East Queen-street.

NEW MEMBER OF BRIDGE COMMISSION.

OTTAWA, Oct. 5.—The vacancy on the Quebec Bridge Engineering Commission, caused by the resignation of Maurice Fitzpatrick, the English member of the board, has been filled by the appointment of Charles McDonald, C.E., of Gananouque.

BOULEVARD FOR MONTREAL.

MONTREAL, Oct. 5.—A proposition was made to the board of control by James H. Maher, the well-known local contractor, who offers the city the land for a boulevard extending four miles from the St. Catherine-road to the Back River, near Bourdeau. The boulevard is to be 125 feet wide, with double track space and double driveway, and is to be given to the city free of charge, provided they undertake to make the boulevard.

Dr. B.E. Lawke, 21 Wellesley-street, Toronto makes a specialty of all diseases of the lower bowels. Piles, diarrhoea, etc. successfully treated without operation. Write for free booklet.

# THE T. EATON CO. LIMITED

Lacrosse Owen Sound 2 Newmarket 2 Teams Practice Bowling League Games And Gossip

Note and Comment

Too one-sided was the verdict in regard to the junior final yesterday afternoon at the Island stadium. Owen Sound has a team of big, husky players, who would give Eaton or the Athletics, the other divisional champions, an argument. They have a couple of strong men who will be heard from later. Following is the list of C. L. A. junior champions:

1909—Bracebridge. 1908—Bracebridge. 1907—Bracebridge. 1906—Bracebridge. 1905—Bracebridge. 1904—Bracebridge. 1903—Bracebridge. 1902—Bracebridge. 1901—Owen Sound.

Con. Jones is out but \$74.48 in the operation of his Vancouver team, that failed to affect New Westminster in the B. C. League lacrosse championship. He paid his 23 players in wages \$11,860 and ground rent \$400, which were his chief items of expense. His net receipts ranged from \$465 to \$400, and were his only source of income.

Vancouver News-Advertiser: Should the Vancouver team succeed to-day, as all local followers of the game expect, it will take a great team to beat them. Whether Vancouver will be that great team remains to be seen. The lacrosse expert, and he has lately expressed himself of the opinion that the Cornwall team would win the trophy. However, after seeing the V. A. C. team at a workout quite recently, he was not so sure, so a great battle can, therefore, be looked forward to.

The Owens, the Toronto boy, who caught for Minneapolis in the American Association this year, is back in town, and will leave early in November to join his teammates, who will tour Cuba and the West Indies this winter. He is a right-handed pitcher. Ike says some of the pitchers are favoring Lajoie in the race for the auto on account of his popularity, and the corresponding ill-favor with which they regard Ty Cobb.

While Canadian Rugby teams are proceeding evenly in the natural course of their early season, the game across the line in the United States is not so. The Yankees are this year getting a taste of real Rugby football. They have our rules in part, and are using the same. They import some of the Canadian coaches. Giffith, Clancy and Ripley would be welcome at Yale, Harvard and Princeton, but they are too busy at home.

The U. S. followers have already discovered one feature about the new rules that works out well for the spectators, and also serves toward evening up the game for the opposing teams. That is the division of the game into four periods instead of two. As the teams and the ball change their positions on the field before the first important contest, the fourth period, the spectators stand in the end sections of the stands are able to get a better view of the play. This is especially true in the early games of the season, when the big colleges meet the little fellows.

Other than providing rest for the players of three minutes, and allowing the coaches a change of sides, the new rules work out well in dividing the advantages obtained in kicking with the wind. Under the old system of halves the team winning the toss and choosing the goal favored by the wind at the start of the game, had a decided advantage. As it is now, it happens that the first half ends without a score, or one team does not score until the close of the first half, the opposing team did not have a chance to benefit by the wind until the second half. And, as the wind usually dies down toward the end of the afternoon, the advantage of the wind's favor does not count as much as earlier in the game. So the division of the game into quarters is an added attraction to the spectators, besides serving well the players.

Mr. Richard Rudolph Best Man. NEW YORK, Oct. 5.—Charles E. Rudolph, Jr., of the New York bar, of the law firm of Messrs. Henning and Rudolph of New York, was married this afternoon to Miss Anna Augusta Ramatock, daughter of Mr. and Mrs. Frank Ramatock of New York. The wedding was held at the Church of St. Thomas Aquinas, Tremont and Daly avenue. The groom was attended as best man by his brother, Mr. Richard Rudolph, and a reception was held afterwards at the home of the bride's parents, 1811 Clinton avenue. Among the large number of guests present were Mr. F. E. Mitchell of New York, Controller of the City of Toronto and Russell W. Ford of New York.

THERE IS A REASON FOR IT

UTILITY GUB PICKED TO STAR IN WORLD'S SERIES

Zimmerman's Chance Looks Bright, According to Evers, Whose Place He Fills.

CHICAGO, Oct. 5.—Helen Zimmerman, utility man of the champion Cubs, will have a chance to carve his name in the hall of baseball fame along with such eminent pastimers as George Rube, Babe Adams, et al. Every world's series has produced its victims, holding or batting terror, and the appearance of "Zim," caused by the deplorable accident to the Cubs, will give thousands of fans fresh food for reflection. The Bronx boys may or may not be the lion of "em all" when the Cubs are cleared, but such a wise judge of playing talent as the everless Evers is free to tout his protégé as the coming twinkler of the Cubs-Athletics clash.

When hitting of the free, straightaway and clean-up style is considered, the big gun belongs at the top of the heap. That Zim can hammer that ball is a matter of history. His all-around ability on third base has stamped him a possible guardian of the corner next season of the year after. He has exhibited intermittent flashes of brilliancy while substituting for Joe Tinker on the short field, and his play at second, considering the few games he has played in Evers' place, brands him a capable understudy.

But how will our old friend Helge behave when put to test before thousands of wild-eyed rooters, especially on foreign fields? That's the all-consuming rider to be answered only by the flight of time. Including the game of Monday, Zimmerman has participated in 190 battles since the curtain ascended at Cincinnati April 14, inaugurating the 1910 pennant race. He has gone to bat 241 times for a record of 58 hits and a total of 16 bases, scoring 21 runs, and otherwise filled the bill to the highest stage of perfection.

All pitchers look alike to Zim, but he fairly dotes on the opposing flingers who feature the fast ball while toiling on the knoll. It's this ability that makes Helge the greatest value to the West Side machine, according to veterans of the club. In fact, Evers, speaking from his long experience, said to be the greatest value to the team against the other day, predicted Helge would be of greater value to the team against the style of pitching served by Mack's flingers than John himself.

According to statistics, the big German has played 23 games at second base, accepting 100 chances, with eight errors, and 100 chances at shortstop, with one miscue. He has accepted 100 chances at second base, with three errors, and 100 chances at shortstop, with one miscue. He has accepted 100 chances at second base, with three errors, and 100 chances at shortstop, with one miscue.

JUSTICE BROOK MAKES RECORD

215 Yards in 2:09 1/2—Results on Grand Circuit. LEXINGTON, Oct. 5.—Justice Brooke, a brown colt, by Mr. J. G. Galt, out of Spectation, owned by Donald Farro at St. Clair, Mich., to-day won the 2-year-old race of the Lexington Grand Circuit, a straight heat and broke the world's record for 2-year-old stallions in the season.

Other American Games. Philadelphia-Columb, who went in to pitch in the sixth innings yesterday was hit hard and New York won 7 to 4. Earl Mack, son of Manager Connie Mack, of the Philadelphia team, made his major league debut and made a single and a three-bagger. Manager Mack was presented with an autograph during the game, the gift of the members of his team. Score: Philadelphia 10, Columbus 4. Batteries—Hughes-Pfister and Blair-Frank.

At Washington-Washington bunched three hits in the last innings of yesterday's game with a grand slam, threw the tie plate, tied the score with Boston, 5 to 5, by making four runs. The game was then called on account of darkness. Score: Washington 5, Boston 5. Batteries—Hunt, Wood and Bradley and Carrigan, Umpire—O'Loughlin and Dineen. Only one National League game scheduled. At St. Louis-Pittsburg-St. Louis postponed, rain.

Owen Sound Junior C. L. A. Champions Defeat Newmarket

About three hundred people attended their way across the bay yesterday afternoon to see Owen Sound score a 2-to-0 victory over Newmarket in the final of the Junior C. L. A. honors. The Vancouver team were present in a body as the guests of the C. L. A., and enjoyed the game immensely.

The field was a sea of mud, and the players found it almost impossible to keep their feet. Pinder of Preston kept the game clear of roughness by sending out penalties for the slightest offences.

The first quarter saw the play all for Owen Sound, with the Newmarket boys played off their feet, and the quarter ended with the score 1 to 0 for the Sounders.

The second quarter was the same as the first—nothing to it but Owen Sound, with Newmarket hardly aware that they were on the field. The quarter ended with the score 2 to 0 for the Sounders.

Newmarket started the last quarter with lots of speed, and after four minutes of fast play, the game was tied 2 to 2. The game was then called on account of darkness.

The teams lined up as follows: Owen Sound (2-Goal, Turcott; point, Wilkins; cover, Fletcher; first defence, Stephens; second defence, Field; third defence, Elliott; centre, Lee; third home, R. Lee; outside, Joe; inside, White.

Newmarket (2-Goal, Knowles; point, Duncan; cover, McHale; first defence, Edwards; second defence, Staley; third defence, Dey; centre, Smith; third home, Trivet; second home, Griffith; first home, Gault; outside, Haskett; inside, Russell.

Referee—Kinder of Preston. One More Game for Mann Cup. The Mann Cup trustees last night heard that Young Toronto's defence in regard to Joe Head and Andy Mara, who played one game each for the Toronto team some years ago, was not satisfactory.

Three Hits Apiece While Detroit and Cleveland Win and Lose. DETROIT, Oct. 5.—The baseball season closed here to-day, Detroit and Cleveland breaking even in a double-header. The first game went to Cleveland, 3 to 2, in ten innings, while Detroit took the second.

RUGBY NEWS AND GOSSIP TEAMS HARD AT PRACTICE

Officials for Saturday in Inter-College and Big Four Games—Notes.

The rain last night didn't stop the Argos from turning out 33 strong at Bayville. Dissette and Meegan were again in uniform and Coach Ripley put the scullers thru a good workout. He has confidence that the Argos will do themselves credit in their opening Big Four fixture Saturday at Montreal.

Games in the High School League. Group B, this afternoon, are as follows: Oakwood at Humberstone and Riverdale at Malvern.

Parkdale Seniors and Juniors will practice to-night at the Brock-avenue grounds at 7.30.

Adams of Royal Military College was out last night at the Parkdale Junior practice.

Clancy claims his Rough Riders had the fastest back division in the Big Four. Maybe.

George Ballard and Dick Harcourt have agreed upon an officials for the opening game of the inter-collegiate series here Saturday at Rosedale, between McGill and Trinity, the Canadian champions. Charlie Gage, the crack outside wing player of last year's team, turned out with Varsity last night for the first time, but it is hardly likely he will play Saturday, as he will not know the result of his exams till Monday. The reserve seat plan for the game will be in effect on Saturday morning for the general plan, although the season tickets will remain on sale just the same.

Hamilton and Ottawa will line up as follows on Saturday in their Big Four fixture: Tigers—Full-back, George Smith; half-backs, Moore, Kilt Smith, Burton; quarter-back, Scott; scrum-half, Puffer; Pottery; inside wings, Bramer, Barron; middle wings, Imlister, Gage; outside wings, Thompson, Glasford, Scott, Puffer; Ottawa—Full-back, Johnstone; half-backs, McCann, Kennedy, Gerard; quarter-back, O'Neill; scrum-half, McCusick; scrum-half, Ferguson; inside wings, Church; Phillips; middle wings, Dineen, Vaughan; outside wings, Kilt, Glasford.

The probable line-up of the R. M. C. Cadets against Queens on Saturday will be: Full-back, Galt; halves, Stuart, Robertson and Smith; quarter-back, Serimasse, Irving, Young and Stewart; inside wings, Arnold and Sweney; middle wings, Robson and Goldie; outside, Lewis and Gwynne.

Billy McMaster of Montreal and Jack Newton of Varsity are the officials who will handle the Tiger-Ottawa game Saturday.

McGill had a good turnout in the wet weather, getting a good game here on Saturday. Captain Dan Gillmore will be in line, and Stewart, Forbes' shoulder is all right again, and he will be in his position in the game here on Saturday.

Argonauts and T.A.A.C. have arranged to play a practice match at Rosedale this afternoon, starting as close to 1 o'clock as possible. The game will be held on Saturday. Captain Dan Gillmore will be in line, and Stewart, Forbes' shoulder is all right again, and he will be in his position in the game here on Saturday.

T.A.A.C. line-up is beginning to take shape. With George Barber, who is a creditable full-back, the team is about ready to go to the field. The team is about ready to go to the field.

Dr. Allan Brown and Dr. Spence Lawson are the officials for the Senior O.R.F.U. game between T.A.A.C. and St. Michael's College at Varsity field Saturday afternoon.

The plan for the St. Michael's-T.A.A.C. Senior O.R.F.U. game at Varsity open on Saturday will open at 1:30 Yonge-street Friday morning.

George Barber has definitely decided to cast his lot with the Crimson.

Over the 525 Mark.

Bracebridge Take Three. A match game was played on the Brunswick Alleys between the Brunswick representatives of the Toronto City Association and E. Pierce's Nationals of the Central League. Altogether the visitors lost all three games, they showed great credit for their class, and deserve great credit for matching up against the oldsters. This team looks like a winner for the coming season. Ed. Nicols was high man for his team with a 575 score to his credit. McMillan was there with his old-time middle game. Mac was certainly hitting the pins last night. The scores:

Bracebridge Nationals: McMillan, Brunswick 602; Nicols, Nationals 575; Davies, Storks 541; Oliphant, Quills 534; Hartman, Brunswick 498; Stringer, Brunswick 424.

Bracebridge Nationals: McMillan, Brunswick 602; Nicols, Nationals 575; Davies, Storks 541; Oliphant, Quills 534; Hartman, Brunswick 498; Stringer, Brunswick 424.

Bracebridge Nationals: McMillan, Brunswick 602; Nicols, Nationals 575; Davies, Storks 541; Oliphant, Quills 534; Hartman, Brunswick 498; Stringer, Brunswick 424.

CITY LEAGUE SCHEDULE EIGHT CLUBS ENTERED

Rolling Commences on Tuesday Night—Scores and News of All the Leagues.

The City Bowling League this season will have eight clubs and 72 games will be rolled on eight alleys. The champions are again in camp. A season of good rolling should be the order.

The teams are: Royals, Dominion, Brunswick, Athletes, Parkdale, Gladstone, Fynes, and College. The schedule in two series is as follows:

First Series: Oct. 11—Brunswick at Royals, Athletes at College, Parkdale at Dominion, Gladstone at Fynes.

Second Series: Oct. 18—Royals at Brunswick, College at Gladstone, Dominion at Parkdale, Fynes at Athletes.

Third Series: Oct. 25—Brunswick at Dominion, Parkdale at Athletes, Gladstone at Fynes, Royals at College.

Fourth Series: Nov. 1—Dominion at Parkdale, Athletes at Gladstone, Fynes at Brunswick, College at Royals.

Fifth Series: Nov. 8—Royals at Dominion, Athletes at Parkdale, Gladstone at Brunswick, Fynes at College.

Sixth Series: Nov. 15—Dominion at Parkdale, Athletes at Gladstone, Fynes at Brunswick, College at Royals.

Seventh Series: Nov. 22—Royals at Brunswick, College at Gladstone, Dominion at Parkdale, Fynes at Athletes.

Eighth Series: Nov. 29—Brunswick at Parkdale, Athletes at Gladstone, Fynes at Dominion, College at Royals.

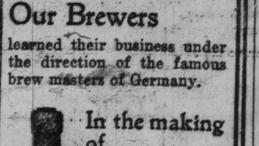

Ninth Series: Dec. 6—Athletes at Brunswick, College at Gladstone, Dominion at Parkdale, Fynes at Royals.

Tenth Series: Dec. 13—Parkdale at Athletes, Gladstone at Brunswick, Fynes at Dominion, College at Royals.

Eleventh Series: Dec. 20—Royals at Brunswick, College at Gladstone, Dominion at Parkdale, Fynes at Athletes.

Twelfth Series: Dec. 27—Brunswick at Parkdale, Athletes at Gladstone, Fynes at Dominion, College at Royals.

Thirteenth Series: Jan. 3—Athletes at Brunswick, College at Gladstone, Dominion at Parkdale, Fynes at Royals.

Our Brewers learned their business under the direction of the famous brew masters of Germany. In the making of INDIA PALE ALE they have adapted modern improvements to real, German beer-making. Only the choicest materials are used, and painstaking skill is exercised in every process from fermenting to bottling.

THE TORONTO BREWING & MALTING CO., LTD. Bottled at the Brewery Only. Sold by all dealers and good hotels.

Manufacturers of Bowling Alleys and Bowling Supplies. Sole agents in Canada for the celebrated "TIFCO" BOWLING BALL. This ball is the best on the market, because it never slips, never loses its shape, always rolls true, hooks and curves easily, does not become greasy, is absolutely guaranteed, is cheaper than any other reputable patent ball, and complies with the rules and regulations of the A. B. C. All first-class alleys are putting these balls on. Try one on the alleys where you roll, and you will never roll any other ball.

MOTOR BOATS STORED FOR WINTER. Hauling Out Repairs With Traveling Cranes, by Experts. THE MARINE CONSTRUCTION CO. LAKE STREET.

The Toronto World

FOUNDED 1890. A Morning Newspaper Published Every Day in the Year. WORLD BUILDING, TORONTO. Corner James and Richmond Streets. TELEPHONE CALLS: Main 5308—Private Exchange Connected to all Departments.

THURSDAY MORNING, OCT. 6, 1910. IN TWO HANDS ONLY. We are compelled to wonder sometimes why men who are familiar with all the big movements in the social, business and political worlds cannot read the signs of the times in matters that appertain to their own individual interests.

Both these gentlemen have very large local interests and connections, and they will gain in proportion to the growth and development of the city which they have made their headquarters. Toronto's growth depends in the most intimate way upon her transportation, lighting, heating and power facilities. This goes without saying. Does Sir Henry, does Mr. Mackenzie, deny for a moment that the cheap power and light of the hydro-electric movement will not tend immensely toward the expansion of the city?

Now, if these conclusions be correct, and the experience of other cities, in other countries, leaves no doubt of it, Sir Henry and Mr. Mackenzie are allowing their immediate interests in business to interfere with their larger ultimate interests as citizens, by failing to assist Toronto in settling the electric and transportation problems that are now urgent.

Such a settlement need interfere in no way with Mr. Mackenzie's operation of his radial railways outside the city. The extinction of the lighting franchise is not far away, and Sir Henry need have no regrets at a somewhat earlier parting from what, under the circumstances, can only be a doubtful boon. Would not a square and fair consideration of the facts, laying aside all prejudice or pique, incline Sir Henry Pellatt and Mr. William Mackenzie to settle their dispute with the city by arranging to terminate their franchises at once?

Among the interesting features of the electoral campaign now in full force in the United States is the candidature of the principal of Princeton University for the Governorship of New Jersey. Dr. Woodrow Wilson is the Democratic nominee and he has

been developing an unexpected vein of humor in his public addresses. One of his felicitous touches was the reference he made to "corporation men taking joy rides in their corporations," a figure which aptly describes and typifies the reckless and lawless character of many of their doings.

The Globe

THE BOY SCOUTS. The Boy Scout movement is occupying a prominent place on the public stage just now. The troops are growing, and new troops are in course of organization in most of the towns and villages of Canada. The Globe is in touch with the promoters, and in its Scout Department will always be found the latest information regarding the movement.

overthrow the administration and set up a military dictatorship. It has been stated that several regiments have joined in the movement and a general alarm was sent out in warning against the plot. According to the reports arms and ammunition in large quantities were being smuggled into the country across the Spanish frontier.

NATIONAL UNREST. Unrest is visible over a considerable part of the civilized world and also in countries that have come under western leading strings. The revolutionary movement in Portugal is one symptom among many of the awakening of nations that, under false guidance, remained impervious to progressive ideas.

The government of Portugal, while nominally a monarchy, has not been strictly a monarchy since the death of King Manuel I. The king's cabinet consisted of seven members, but the legislative power was vested in a cortes general, or national assembly. This assembly was modeled after the parliament of Great Britain.

Only the unexpected moment of the outbreak is surprising as regards the revolution in Portugal. King Manuel has been face to face with a revolution for more than a year, and in fact at no time since his accession has he had more than a small majority of his country with him.

Change in Great Lakes Service, Canadian Pacific Railway. Commencing October 10, the great lakes steaming of the Canadian Pacific Railway will leave Owen Sound 1.30 p.m. instead of 5 p.m., daily, except Friday and Sunday as heretofore.

AVIATOR BADLY INJURED. PARIS, Oct. 5.—Leon Morane, the best known of the French aviators, had both legs broken this morning, and his brother Robert had his skull fractured, when a monoplane in which they were flying from Issy dropped at Bolezy St. Leger. Robert is thought to be fatally injured, while Leon's condition is critical.

Tobacco Habit. Dr. McTaggart's tobacco remedy removes all desire for the weed in a few days. A vegetable medicine, and only requires the tongue with it occasionally. Price \$2.00.

Liquor Habit. Marvellous results from taking his remedy for the liquor habit. Safe and inexpensive home treatment; no hypodermic injections, no publicity, no loss of time from business, and a cure guaranteed. Address or consult Dr. McTaggart, 75 Yonge-street, Toronto, Canada.

AT OSGOODE HALL

ANNOUNCEMENTS. Oct. 5, 1910. Motion set down for single court for Thursday, 6th, at 11 o'clock: 1. Hessey v. Quinn. 2. Mickleborough v. Strathy. 3. Davis v. Winn. 4. Sager v. Sheffer. 5. Hill v. Glanville. 6. Leneve v. Arnold. 7. Hall v. Sealey.

Master's Chambers. Before Cartwright, K.C., Master. Turner v. Lefferts, W. J. E. Brown for plaintiff. Motion by plaintiff for an order striking out paragraphs 4 and 5 of statement of defence as irrelevant and immaterial. Judgment: It may be that defendant can make the defence set up in the paragraph 4 sufficiently plain by amendment. If so, it must be done in a week and is not, then this and the 5th paragraph must be struck out as embarrassing. Costs to the plaintiff in the cause.

Divisional Court. Before Falconbridge, C.J., MacLaren, J.A.; Riddell, J. Hunter v. Patterson—W. E. Raney, K.C., for plaintiff. A. C. McMaster, for defendant. Motion by plaintiff to extend the time for appealing in a county court case.

Single Court. Before Sutherland, J. Re Alfred Hall—A. H. F. Lefroy, K.C., for plaintiff. H. Cassels, K.C., for the Law Society. W. McKay for defendant. Motion by defendant for an order dismissing action without costs and vacating certificate of his pendens. Order made.

Before Middleton, J. Wade v. Rochester-German Fire Insurance Co.—W. Howell, K.C., and G. Wilkie, for plaintiff. G. McKay for defendant. Judgment: This was an action to determine the neat question whether an assignment by the assured, a limited company, for the benefit of its creditors by virtue of clause 4 of the statutory condition voids the policy.

Before Sutherland, J. Re Todd v. Woodley—M. Grant for plaintiff. W. Proudford, K.C., for executor. Motion by executor for an order appointing Peter R. Todd to act as trustee with his father for an order for repayment of money and for construction of will of Walter Todd. Reserved.

Before Sutherland, J. Re Todd v. Woodley—M. Grant for plaintiff. W. Proudford, K.C., for executor. Motion by executor for an order appointing Peter R. Todd to act as trustee with his father for an order for repayment of money and for construction of will of Walter Todd. Reserved.

Methodist Training School. The opening of the Methodist Training School, 257 Jarvis-street, will take place to-day at 4 p.m. Address will be given by Dr. Chown and Prof. R. P. Bowles, and music by Miss Bertha M. Crawford.

Guarantee—Every piano fully guaranteed for five years. Each guarantee carries a five-year option of exchange if you are not entirely satisfied.

8 GOURLAY, WINTER & LEEMING 188 YONGE STREET, TORONTO.

CITY MAKES QUITE PLAIN ATTITUDE TOWARD T. E. L. C.

Will Consent to No Negotiations Concerning Overhead Construction Except to Obviate Danger

An exchange of correspondence yesterday afternoon between E. F. B. Johnston, K.C., counsel for the Toronto Electric Light Co., and Corporation Counsel Drayton, was the result of the company's professed desire to find out the city's attitude on the various issues pending at the conference suggested by Justice Middleton.

Mr. Drayton's answers to the list of queries submitted by Mr. Johnston were given after close consultation with Alexander D. Stewart, an electrical expert retained by the city in an advisory capacity, concluding with the following point statement: "I hope I have made myself clear. If the company expect, as a result of these negotiations, to have their rights recognized or enlarged, or to get a new system of pole supports, the negotiations might as well stop immediately. On the other hand, if the company really desires to simply obviate the danger that may arise from the city's work they will do everything necessary. We desire to leave, and will leave, the work in such a position as to be free from danger, and any stipulations to ensure this end will be cheerfully agreed to."

Company's Proposals. Mr. Johnston's letter was as follows: "In view of what Mr. Justice Middleton said as to a conference, I have been considering with my clients the matter of dispute between the city and the company, in its various aspects, and I have thought the discussion might be shortened, and, possibly, a result arrived at more quickly if, before a meeting, the city would state to the company what provision the city proposes to make with reference to the matters in the memorandum herewith. If you can give us at once and before our conference some statement of the city's views on these points, a little time spent now in formulating the city's proposal with reference to these various matters would materially shorten the conference itself.

"I would have sent you this letter and enclosure before this but it required serious consideration and several consultations to enable us to comprehend the situation in all its bearings, as effected by your general proposition to place cross-arms, use of your poles, etc. (Sgd.) E. F. B. Johnston.

Mr. Drayton, in reply, stated that the city intended to take care of the company's wires at whatever points they were within such distance of the city's wires as to make contact possible.

"The whole idea is to absolutely obviate the danger complained of," he assured. "I think you will agree with me that the company's proposition goes much further than this. They seem to recognize rights in your company, and the joint use of poles as a permanent arrangement. I am afraid we cannot consider any arrangement on such a basis."

Questions and Answers. Mr. Drayton then proceeds to answer the questions submitted by Mr. Johnston. A summary is as follows: 1. What is the provision for additional lines when required? Answer—The company's right to string wires, if any, is not affected, but additional wires may be placed by the company on their own arms when they so desire, if within their existing rights. If the company desires to place such additional wires improperly close to the city's poles, insulation will be provided at such points by the city, so far as its own poles are concerned. 2. As to property rights in the wires if placed upon the city's poles and control over such wires? Answer—The city does not contemplate carrying the company's wires on city poles. Cross wires or brackets which will be put up are merely those required to prevent such contact as might possibly occur as a result of the city's construction. 3. What is the proposal as to our rights and how are they to be secured to enable us to look after, operate and manage our system? Answer—Your rights are not interfered with in any way. Whatever

they are they will continue, and the arrangement must also in the same manner cover any existing city right.

4. Duration of agreement? Answer—The settlement will recognize the duty of the city to insulate the company's wires from city poles and vice-versa just as long as the existing structural conditions last, or until the termination of the company's rights by judicial decision, agreement or otherwise.

5. Responsibility for damage to workmen or public? Answer—The company will not be responsible for injuries to city men, but the city has nothing to do with the company's responsibility to the public.

6. Responsibility for damage to the company's wires during construction and operation? Answer—The city is obviously responsible for its own acts and does not attempt to shirk that responsibility.

Company's Own Expense. 7. Will the city put on additional cross-arms as the company requires for new services? How soon? and who will pay? Answer—No. City will insulate where required to guard against danger, and the company must pay for its own wires.

8. If the city spreads the company's wires, you may force them into contact with signs and fixtures. Who will be responsible? Answer—City will do the work properly, if not so, will be responsible.

9. If poles are insufficient for all services for both systems, who will pay for additional poles? Answer—City has nothing to do with this, as it is not a joint pole system.

10. What is the practice before the railway commission where lines cross the right of way? Answer—The party who requires the

crossing must make application, but this question does not arise. (2) What about protecting another company's wires being put on the city's poles or on the company's poles? Answer—Such wires as the city finds must be protected.

Mayor is for Peace. Mayor Geary said yesterday afternoon that he could not see what the company hoped to gain by forcing a fight upon the city and thus creating a feeling that would stand as an obstacle to friendly negotiations. Even if the poles and wires conflicted in some technically legal way with the company's rights, the trouble could be easily smoothed out by act of the legislature which was willing to help the city to the fullest extent. All that the company could do was to occasion some loss of time and some inconvenience to the city.

Another difficulty has arisen in the form of the contention raised by G. Plunkett Magann, one of the South Parkdale deputation who opposed hydro-electric towers along the lake front, that he has a Dominion Government order-in-council entitling him to "navigable rights" on a water lot west of Dufferin-street, thru which the transmission line is to go, and that it over-rides the powers of the legislature. The mayor, however, makes light of the objection, holding that the Ontario Government's right to expropriate cannot be blocked by any such right or patent.

At the board of control meeting yesterday, the Canada Foundry Company was given the contract for the lamp-posts and five-light clusters which, with Niagara power as the illuminant, are to transform Yonge-street as far north as Wood-street, into a "great white way." The price is \$445 per pole, and about 500 are to be bought.

It is the city's intention to abolish eventually gas lighting in both residential and business districts.

WORK ON NEW HOSPITAL SHOULD SOON BE BRISK

Contracts Totalling \$260,000 For Medical Wing Awarded—Others To Be Dealt With at Once.

The new hospital site on College-street should show considerable activity within a short time. At the meeting of the board of trustees of the Toronto General Hospital yesterday afternoon, tenders for the medical wing, amounting to \$260,000, were accepted, and the architects authorized to instruct the contractors to proceed with the work forthwith. Tenders for the administration building will be opened to-morrow and it is expected that the contracts will be awarded next Wednesday. John C. Eaton has assumed the building of the surgical wing, and the entire cost of it is to be borne by him.

Cawthra Mulock, the first large subscriber to the new hospital enterprise, and who directed that his subscription be appropriated to the building of an out-patient department, has instructed the architects to accept tenders for this building, and to require the contractors to immediately proceed with construction. The tender for the emergency hospital, the money for which is provided by benefactions of two ladies, will also be set on foot and the work commenced immediately.

On the recommendation of the new superintendent of nurses, Miss Stewart, it was decided to establish a department of dietetics in which the nurses of the training school will be taught invalid cooking. This will be arranged for at once in the present building.

Dr. Brown, the superintendent of the hospital, submitted his monthly report, noting the average number of inmates in September as 32, an increase of 21 over September last year. The admissions to the hospital numbered 460, an increase of 78. In the out-patient department 119 cases were treated, an increase of 14. Total operations totaled 260, an increase of 81. There were 76 patients in the tuberculosis clinic.

CANADIANS AS ENGINEERS

They Supervise Eighty Per Cent. of U. S. Production of Copper.

A dinner was tendered last evening by 200 engineering graduates of the University of Toronto, to R. W. Leonard, C.E., who succeeded Dr. Goldwin Smith on the university board of governors. W. E. H. Carter presided and other guests were T. W. Gibson, deputy minister of mines for Ontario; Dr. Bruce Macdonald, Dean Galbraith of the faculty of applied science, and J. C. Murray, B.Sc.

Introducing Mr. Leonard, H. Fairlie said the engineering course of the university should be mapped out by men in close touch with engineering work, in view of the large interests at stake. They welcomed Mr. Leonard warmly as a gentleman who would do everything possible to advance the standing of the profession.

Mr. Leonard thanked the alumni for the reception. Graduates of Canadian universities were able to hold their own in all parts of the world. He was surprised on a recent visit to the United States and Mexico to find so many Canadians managing large industrial institutions. Sixty per cent. of the world's output of copper was produced in the United States, and eighty per cent. of this time by slavery, may be the only way for the people to regain their liberties and terminate the rule of graft. He further asserts that "the people of the several sovereign states are tired of centralization, imperialism, world power, colonization, and everything that is opposed to the principles declared by the people at the beginning of the republic."

The letter concludes: "The establishment of an empire in this country may not be conceivable, the disruption of the Union to independent republics is conceivable, possible and to be feared, if there be not great changes at Washington."

ANOTHER KIDNAPPING CASE An Elopement With Chinaman's White Wife Figures in It, Too.

A Buffalo despatch says that August Mingeaud, aged 38 of 17 West Gerrard-st., Toronto, is held for the grand jury on a charge of importing a woman for immoral purposes, and that Mrs. Charley Hing, a white girl, 24 years old, wife of Charley Hing, proprietor of a Chinese restaurant at 211 West Queen-st., Toronto, is the woman in the case. She is held as a witness.

Mingeaud, the woman, and Roy Mingeaud, four-year-old son of the man, were apprehended at a rooming house there, and he was then accused of kidnapping the boy by the sister of his dead wife.

"No one but myself has any claim on this child," he declared when arraigned. The police had received information from Mrs. O'Leary, a sister-in-law of Mingeaud, who resides at 1501 West King-st., that he was in Buffalo, and that he had obtained the child, in her possession by the dying mother several months ago.

According to the story that is told by Mrs. O'Leary, Mingeaud came to her apartments a week ago Monday morning and rapped for admittance. She recognized his voice, she says, and declined to admit him, whereupon he kicked in the door, attacked her and carried off the child.

Accidental Death. Coroner Cotton's jury last night decided that one was to blame for the death of James Holloway, an aged man who stepped in front of an auto on Saturday and sustained a fractured skull. Witnesses were unanimous that the auto was traveling slowly, and that the deceased had stepped in front of it from behind a telegraph pole.

Tuckett's Cigarettes. Enjoy Your Smoking to the Fullest Measure. Tuckett's "T. & B." Cigarettes are strictly high-class. Their first bid for popularity is their absolute purity. Second—cleanliness from tip to tip. Third—delicious flavor and sweet aroma. A truly distinctive cigarette—well out of the ordinary class—composed of the finest Virginia and Turkish tobacco properly blended to give that perfect satisfaction which knowing smokers demand. Try a package. 10c. a Package of Ten.

PROPHECIES DISRUPTION OF THE AMERICAN UNION

Yale Professor Declares "A New Secession" Only Way to End Rule of Graft.

NEW HAVEN, Conn., Oct. 5.—Asserting that the Republican rule in this country is tending rapidly toward the disruption of the Union, Prof. D. Cady Eaton of Yale, in a letter addressed to the Democratic party, declared that "a new secession, not handicapped this time by slavery, may be the only way for the people to regain their liberties and terminate the rule of graft." He further asserts that "the people of the several sovereign states are tired of centralization, imperialism, world power, colonization, and everything that is opposed to the principles declared by the people at the beginning of the republic."

EPILEPSY, SPASMS, St. VITUS' DANCE

"I suffered for many years from what some people call epilepsy. Dr. Miles' Restorative Nerve Cure met me, and you can imagine how thankful I am." M. I. COFFMAN, Coldwater, Mich. "My daughter was cured with Dr. Miles' Restorative Nerve Cure, after having been afflicted with fits for five years." PETER MCAULEY, Springfield, Mass. "For a year my little boy had spasms every time he got a little cold. Since taking Dr. Miles' Nerve Cure he has never had one of these spasms." MRS. MYRTLE DAGUE, Rochester, Ind. "My daughter couldn't talk or walk from St. Vitis' dance. Seven bottles of Dr. Miles' Nerve Cure entirely cured her." MRS. NANNIE LAND, Ethel, Ind. "Until my son was 30 years old he had fits right along. We gave him seven bottles of Dr. Miles' Restorative Nerve Cure. He has not had a fit since he began on the fifth bottle." MRS. R. DUNTLEY, Wautoma, Wis. Price \$1.00 at your druggist. He should supply you. If he does not, send price to us, we forward prepaid. DR. MILES MEDICAL CO., Toronto.

ENGINEERING SOCIETY

President Falconer and Others Address the Students. The opening meeting of the Engineering Society of the University of Toronto was held in Convocation Hall yesterday afternoon. A. D. Campbell, president, occupied the chair, and R. W. Leonard of St. Catharines was the chief speaker. President Falconer and Dean Galbraith were also present. President Falconer encouraged the students in their efforts, and declared the society to be a great power for good. He said that as technical education was being raised to a higher standard, a greater proficiency was required by those who made engineering a profession. "Canadian workmen," he said, in conclusion, "are far ahead of the foreigners, as they meet new conditions in a better way." Dean Galbraith showed how the university actually prepares students to become engineers. "The engineer defined as a man who does things," was the subject of Mr. Leonard's address. "As engineering was becoming more and more complicated by civilization, no student's education was complete until he understood the practical significance of the work." This he defined as a knowledge of law and order, and discipline of military strictness.

BALFOUR SUES WINNIPEG CONTRACTORS. WINNIPEG, Oct. 5.—Hon. Arthur James Balfour, former prime minister of England, is plaintiff in an action which has been entered here against the contractors for the construction of the Winnipeg grain exchange building. The claim is for unstated damages on account of the injury sustained by the Balfour block on the adjoining property during the construction of the exchange. Carelessness is alleged. Typhoid Epidemic in Orons. An epidemic of typhoid fever in the village of Orons brought an appeal to the provincial health authorities yesterday morning. Dr. J. E. W. McCullough, secretary of the provincial board of health, left for Orons in the afternoon.

FAMOUS BRITISH ADMIRAL. Praises Zam-Buk. How It Healed a Terrible Burn. From top to bottom of the great British naval ladder Zam-Buk is known and used. Admiral and stoker alike have proved its value, as the foregoing and the following show: Stoker Kingsnorth, of H. M. First Class Cruiser "Cochrane," says:—"One day I slipped and fell with my arm on an exhaust steam pipe, which fairly frizzled the skin. At once the ship's surgeon dressed my arm, but from the first, the burns took the wrong way, owing to a lot of coal dust and dirt from the pipe having got embedded in the flesh and setting up blood-poison. A large scab appeared, and from underneath the festering flesh matter oozed out. I was in fearful pain and didn't know how to get ease. For weeks I remained under treatment, but the ordinary ointments proved no good for my arm. Indeed, I got worse, and I became alarmed at the spreading of the poison. I therefore obtained a supply of Zam-Buk and almost as soon as this was applied I got ease. From the very first application, healing commenced; and a few boxes of Zam-Buk healed my wound completely." No matter in what occupation or stage of life you may be, for skin injuries and diseases of all kinds you will find Zam-Buk is the latest and best in scientific healing. That is why it is so popular to-day. Mothers should see that it is always handy in the home. It is a proved cure for eczema, ulcers, abscesses, ringworm, poisoned wounds, tetter, itch, bad leg, varicose ulcers, suppurating wounds, cold sores, chapped hands, babies' sores, inflamed patches, etc. Zam-Buk is also a specific for piles. All druggists and stores at 50c. box or post free from Zam-Buk Co., Toronto, for price. Refuse all substitutes and harmful imitations.

ONE MILLION PEOPLE AND A MARKET GARDEN. In ten years from now Toronto will have a population closely approaching one million people. The wise man will realize this fact and will recognize the effect this enormous population will have on land values close to Toronto already.

# Complete Reversal of Tone on New York Market

## Market Under Heavy Pressure Reacts Under Profit-Taking

### Selling Movement on Wall Street Reflects Influence of Portuguese Revolution—Values Firm in Toronto Market.

World Office, Wednesday Evening, Oct. 5.

Trading showed some disposition to broaden out on the Toronto Stock Exchange to-day, but there was a sufficiency of stock forthcoming to satisfy what demand was in evidence, and values did nothing beyond holding firm around yesterday's level.

The market thruout was characterized by general steadiness, and it was noteworthy that little stock was on offer. Profit-taking sales came in play at intervals from the previous week, but there was no marked inclination to put out securities, and prices held well whenever selling of this nature came into evidence.

As during the last few days, speculation was centralized in such issues as Rio, Sao Paulo, Twin City and the Mackays.

C. P. R. was a strong point on the New York market, selling as high as 124 1/4 on that exchange. The movement was engendered by reason of the announcement from Montreal that the stock had been placed on a quarterly dividend basis. The shares were not traded in locally, and at the close the best bid was 123 1/2, with stock offering about a point higher.

Mackay and Twin City were in fair demand, the latter issue advancing to 118 3/8, but dropping back to yesterday's figures at the close. Mackay changed hands at figures comparative with unchanged from the previous session. Interest in these stocks is being aroused by reason of the rumors of increased dividends.

Quebec Light and Power was a strong spot, advancing over a point. The buying was supposed to be for Montreal interests, little local attention being aroused in the security.

Trading dwindled somewhat on the afternoon board, and values at the close were about unchanged from the previous day's record.

### WALL STREET POINTERS.

Copper stocks in London heavy. Sentiment in Wall-street has improved. Americans in London heavy, below parity. Atlantic Coast Line places order for 15,000 tons of rails. Increase in Colorado and Southern dividend considered less probable. Kansas City Southern annual report shows balance of 2.17 per cent. on common, after payment of preferred dividend. London market less influenced by weakness in Portuguese and Spanish bonds than might have been anticipated. Plant of Westinghouse Air Brake Co. is working practically full capacity. Business outlook is exceedingly bright, according to statements made at annual meeting. Joseph says: Keep long of Utah. The Copper shares will be the feature. On any further dip take on Western Union, Buy C. and O. and U. P. preferred.

Chesapeake and Ohio, Smelting and Amalgamated continue to show an upward trend. Bear spots have been placed in St. Paul, Cons. Gas should be bought on recessions. Great Northern and Louisville and Nashville show upward tendencies. Bull talk continues on M. K. and T. Rock Island and Northern Pacific, Union Pacific and Southern Pacific are marking time. Stock is for sale in Steel around 72. Westinghouse and Utah Copper are still bulled.—Financial Bulletin.

The trend of prices is still upward, but those working for a higher level are receiving no assistance from outsiders, and, in fact, we learn that during the past few days commission houses have disposed of more stocks than they bought. This may result, if continued, in bringing about a culmination of the present bull movement earlier than expected, but there is reason to believe that the bulls will not desert in their efforts to stimulate a buying movement during the next week or so.—Town Topics.

### C. P. R. Dividend Quarterly.

MONTREAL, Oct. 5.—At the directors' meeting of the Canadian Pacific Railway to-day it was decided to declare a two per cent. quarterly dividend, or at the rate of eight per cent. per annum. Former disbursements were paid semi-annually.

### Over a Million Increase.

The municipal bond sales in Canada during September, as compiled by the Monetary Times, were \$2,841,486, compared with \$1,503,108 for the corresponding period.

### SEPTEMBER FAILURES.

September failures in the United States reported to R. G. Dun & Co. numbered 945, as compared with 873 in 1909, 1026 in 1908, 856 in 1907 and 814 in 1906, being, with one exception, the most numerous in five years. The total liabilities were \$15,933,182 against \$8,446,029 in 1909, \$17,298,136 in 1908, \$18,935,227 in 1907 and \$6,255,995 in 1906. The average liabilities per failure was \$13,589.

The manufacturing failures numbered 275 with liabilities of \$10,295,428, comparing with 192 defaults in 1909 with liabilities of \$1,822,271. In 1908 the September liabilities were \$4,710,229; in 1907, \$10,602,834, and in 1906, \$2,569,642. This great increase in the manufacturing liabilities is the chief feature of the failure exhibit of the month.

Trading failures numbered 639 against 594 in 1909 and 786 in 1908. The trading liabilities were \$5,273,496

ins period last year, an increase of \$1,338,775. The September figures show a satisfactory increase when compared with the total of the previous month, which was \$1,312,953, the increase thus being \$1,525,533.

Dividend in November? The long-expected dividend on B. C. Packers common will likely be declared in November, says The Montreal Star, and may be somewhat better than expected. It is said that the earnings justify a dividend of possibly three per cent. for the year.

### Fire Losses Are Less.

The Monetary Times' estimate of Canada's fire losses for the month of September is \$894,125, a decrease of \$721,280 from the same month last year, and a decrease of \$773,145 from the previous month. The total for the first nine months of this year, February holding the record in this respect. The number of deaths due to fires was 10 during September, against 11 during the previous month, and 15 for July. The total number of deaths from fires since January is 202.

### Output for September.

The statement of the Nova Scotia Steel and Coal Co. for September, just issued, shows an output of 55,100 tons of ore, 787 tons of coal, 7200 tons of pig iron, 6830 tons of steel, while the company shipped 30,000 tons of coal.

### Municipal Debentures.

The Ontario Securities Company, Limited, has been awarded \$25,000 per cent. debentures of the Town of Galt, Ont., maturing in 1950, that company being the highest tender. The issue is made for sewer and storm drain purposes. The net debt of Galt is less than 5 per cent. of the assessed value.

### General Motors Financing.

NEW YORK, Oct. 5.—It is announced that negotiations have been closed for the sale of \$15,000,000 six per cent. five-year notes by the General Motors Co. Proceeds will be used to pay off accumulated indebtedness. Leading New York bankers took the notes.

### Northern Pacific Annual.

The Northern Pacific annual report for year ending June 30, showed an increase in gross earnings of \$6,000,000. Operating expenses increased \$5,000,000, or \$1275 per mile. Of this amount, \$4,150,000 was additional expenses for equipment and roadbed, all of which is for the benefit of the stock and the property. The cost of operating \$6,000,000, that is, conducting transportation, was \$3,750,000.

### London Market Heavy.

LONDON, Oct. 5.—The Stock Exchange markets closed with an irregular but generally heavy tone. The foreign department was unsteady, and the market failed to rally. Domestic securities finished at the level of the session, on hopes that the difficulty between the cotton spinners and their employees would be adjusted shortly. Gilt-edged investment issues were heavy. Americans at the end of the official session were weaker, but steadied on the curb. Oil issues were flat.

### IRON AND STEEL OUTLOOK.

NEW YORK, Oct. 5.—The Iron Age to-morrow will say: Pig iron production in September amounted to 2,054,175 tons, or 68,470 tons a day, an increase of about 50 tons a day over the corresponding production of all kinds of pig iron is now at the rate of about 24,000,000 tons a year. The U. S. Steel Corporation has 45 blast furnaces idle and its capacity active is 67,822 per cent. hence, it will be recalled that change in three weeks. The September bookings in wire products were greater than for any previous September save one. Specifications and new contracts exceeded those for August. The foundry iron market is uninteresting. Large buying for 1911 is still deferred and the shadow of lower prices for ore in 1911 has now been thrown across the situation.

### MAY REDUCE DIVIDEND.

Regarding the break of six points in Sioux yesterday a wire to Chas. Head & Co. said: The sharp break in Sioux should have been due to fear that the dividend would not be maintained at the regular rate of five per cent. a year, when the directors take action about six weeks hence. It will be recalled that shortly before the last declaration was made, the stock was sharply depressed by speculative selling, and it was reported at that time that the dividend would be reduced. No change was made, but large interests in the company admitted their unwillingness to promise that at the forthcoming period the usual quarterly disbursement of 1-1/4 per cent. would be ordered.

So far during the present quarter there has been no material improvement in the Southern iron trade and unless there is a radical change for the better within the next six weeks it seems to be expected that a reduction will be made.

## THE DOMINION BANK

HEAD OFFICE TORONTO

CAPITAL PAID UP \$4,000,000  
RESERVE AND UNDEVELOPED PROFITS \$2,000,000  
TOTAL ASSETS \$6,000,000

Banking of every description transacted at each branch of the Bank.

### ON WALL STREET.

Erickson Perkins & Co. wired J. G. Beatty as follows: Stocks were reactionary all of the afternoon, closing not far from bottom. Continued profit-taking was directly responsible for to-day's setback. It may go a little further, but on any drive we think the market will do by again. Discussion of the railroad situation, induced some selling of stocks to-day. It is evident that the repeated postponement of dates for the proposed advanced rates is not liked. Yet, this would not sufficiently account for the weakness of stocks. The setback, however, is no more than normal after an extended rise. Various issues are up 4 to 8 points. Little unrest has been caused by the upturn in Portugal. Unless the trouble should spread, we think it may be dismissed as a market factor.

Chas. Head & Co. to R. R. Bond: The banks are gaining from the support of the market. The funds may be returning from the interior, tho it is rather early for the crop moving time to turn. Politically, the situation seems to have settled down into a state of quiescence. Wall-street being generally prepared for Democratic success next month. We still feel that on all good breaks stand-by to buy stocks at a price that the market shows a good undertone, despite the bearish talk in evidence. Money is fairly easy and is not likely to cause any trouble this fall, tho the banks may favor quiet speculative conditions for the present.

J. P. Bickell & Co. from Finley Barrell: If the banking interests see it return the market around after to-day's reaction, they will secure an important following for the public is ready to buy stocks at a price that the market shows a good undertone, despite the bearish talk in evidence. Money is fairly easy and is not likely to cause any trouble this fall, tho the banks may favor quiet speculative conditions for the present.

## 440 Square Miles Timber Limits

On Georgian Bay, Ontario

To be Sold by Auction in Blocks of 5 to 36 Square Miles

On account of their President and principal shareholders being engaged in other large enterprises, and not having the time to give to them all, THE PARRY SOUND LUMBER COMPANY, Limited, have decided to sell by Public Auction, to be held in the rotunda of the Board of Trade in the City of Toronto on the

Seventh Day of December, 1910,

all of the timber lands, mills and town property situated in the Town of Parry Sound, also Tug, Scow and Full Camp Equipment for five camps. Ontario Timber Limits

## TO BE SOLD

comprise some 440 square miles of licensed and deeded pine, hemlock, spruce, birch and other timber. The licenses from the Ontario Government include all timbers, and are not restricted for time. Government dues are as follows:  
Saw Logs, White Pine, \$1.50 per M. ft. B.M.  
Saw Logs, Hemlock, Tamarac and other woods, 75c per M. ft.

The timber is situated in the Townships of McDougall, Foley, McKellar, Monteith, Carling, Christie, Shawanaga, Burpee, McConkey, Mills, Allen, Secord, Falconbridge and Street.

The Canadian Pacific, Canadian Northern and Grand Trunk Railways run through the limits, which makes some of the parcels offered for sale particularly desirable for small mill owners.

A circular giving full information, maps, terms and conditions of sale will be furnished upon application to

Conflicting Damage Reports From Argentine Wheat Belt

Chicago Market Strengthens on Claims of Crop Deterioration... Sentiment Susceptible to Further Damage Scares.

World Office, Wednesday Evening, Oct. 6. Liverpool wheat futures closed today 1/4 higher than yesterday; corn 1/4 to 1/2 higher.

December wheat at Chicago closed 1/4 higher than yesterday; December corn 1/4 higher, and December oats 1/4 higher.

Winnipeg receipts to-day 636 cars, against 624 a week ago, and 561 a year ago.

Argentine Crop Report. Brookhills cables that a cable received from Buenos Aires...

ST. LAWRENCE MARKET. Receipts of farm produce were 600 bushels of grain, a few loads of hay.

Market Notes. Jasha Ingiam bought 200 lambs alive, at 80c per lb., 30 dressed hogs, at \$12.50 per cwt.

CHICAGO GOSSIP. J. P. Bickell & Co. say at the close of the market: Wheat—Higher. Firm cables, reflecting less favorable crop conditions in Argentina...

FARM PRODUCE WHOLESALE. Hay, car lots, per ton \$13.00 to \$14.00. Potatoes, car lots, per ton \$7.50 to \$8.50.

Hides and Skins. Prices revised daily by E. T. Carter & Co., 55 East Front Street, Dealers in Wool, Hides, Calveskins and Sheepskins.

GOLDEN OPPORTUNITIES

Stewart, B.C. to Be a Great Mining Camp—Timber and Farm Lands, Too.

In a personal letter to The World, Harry Smith, general merchant and miner of Stewart, B.C., writes as follows: "Speaking more particularly of the Portland Canal Mining Camp, Stewart headquarters, the various kinds of ore and the quantities that have been brought in from new places during this season together with the properties which are being developed and the ore bodies proving depth in several of them, makes me firmly believe that this will be the greatest mining camp ever opened up in the Dominion of Canada."

Rich Ore Samples. From Right of Way Property—Big Values at the Mine. Splendid ore samples from the Right of Way property, adjacent to the Hargrave, were exhibited in the city yesterday.

FREE GOLD FINDS. Reported in Langmuir, Near Carman Boundary—Assayed \$18.50 in Gold. Still further reports of free gold finds come to hand from the southern portion of the Porcupine field.

IMPREGNATED WITH GOLD. Vein on Claim Adjoining Crown Chartered—Later Property in Good Shape. The decline in Beaver yesterday was attributed by those who were in close working, in close proximity to another rich surface vein, and at the 70 foot level a cross-cut has been made.

HOLD YOUR STOCK YOURSELF. The decline in Beaver yesterday was attributed by those who were in close working, in close proximity to another rich surface vein, and at the 70 foot level a cross-cut has been made.

STAMP MILLS FOR PORCUPINE. There is considerable talk of heavy purchases of machinery for various prospects in Porcupine and rumor has it that the Foster, the Dome and others are negotiating for the purchase of large stamp mills and other equipment at the close.

COTTON GOSSIP. Erickson Perkins & Co. had the following at the close: Outside buying in increased volume followed an easier opening in response to the Liverpool cables, but the market showed less ability to absorb the heavy profit-taking sales, and prices, after an early rally, again receded, leaving the market otherwise more confident of their position.

NEW YORK COTTON MARKET. Erickson Perkins & Co. (J. G. Beatty), 16 West King Street, reported the following prices: Close. Oct. Open. High. Low. Cl.

CHICAGO GOSSIP. J. P. Bickell & Co. say at the close of the market: Wheat—Higher. Firm cables, reflecting less favorable crop conditions in Argentina...

FARM PRODUCE WHOLESALE. Hay, car lots, per ton \$13.00 to \$14.00. Potatoes, car lots, per ton \$7.50 to \$8.50.

Cobalt-Mining Stocks Sell Off, But - Cobalt Depressed Tone to Mining List

Natural Outcome of Advances Market Experiences a Day of Profit-Taking, But Holds Well Under This Influence.

World Office. Wednesday Evening, Oct. 6. The local mining exchanges to-day drifted into a profit-taking movement, which served to hold bullish sentiment in check, and which was followed by lower prices for most of the active issues.

PRICE OF SILVER. Bar silver in London, 24 1/2 oz. Bar silver in New York, 85 1/2 oz. Mexican dollars, etc.

BUYING IS GOOD. The buying of Beaver, Right of Way, Peterson Lake and Little Nipissing on yesterday's reaction in the mining markets was of the highest character.

PRODUCTION LESS THAN NORMAL. The production of the Amalgamated Copper Co., including the North Butte Co., for September, was about 22,500 pounds, which compares with a normal output of 27,000 pounds.

NEW YORK CURB. Chas. Head & Company (R. R. Bondar) report the following prices for the New York curb: Argentine closed 1/4 to 1/2. Bailey, 7 1/2 to 8.

PREMIER UP IN THE AIR. ST. PETERSBURG, Oct. 5.—P. A. Stolypin, the Russian prime minister, is expected to make a ten-minute flight in an aeroplane as a passenger with Capt. Macievich.

SMASHED HIS SKULL. CHARLOTTETOWN, Oct. 5.—Capt. John Stewart of the three-masted schooner "Trilly," one of the best-known shipping men of the Maritime Provinces, met with almost instant death at Georgetown yesterday.

HEALTHY REACTION. The decline in the Cobalt Market yesterday and the strength at the close of the Exchange demonstrated the substance of the present profit-taking movement. Investors are beginning to recognize the value of Peterson Lake.

LORSCH & CO., 36 Toronto St., Toronto. PETERSON LAKE STRONG. Investors are beginning to recognize the value of Peterson Lake. The stock made a further rise yesterday, but it has only begun to advance to the price warranted by the company's holdings.

Timely Bargains of Quality

Don't let the balmy effect of these golden October days lull you into a false sense of security. Unless you're preparing for winter now, you're not living up to your opportunities. Every day that slips past without a careful perusal of this page means lost chances for savings on things you'll surely have to buy later. The greatest supply of winter merchandise we ever gathered together is here now, and to-morrow's special prices should bring you here early in the morning, no matter what the weather promises.

Second Day of the China Sale

To-morrow we are focussing the power of the China Sale chiefly upon the needs of the kitchen. The Simpson high standard of quality will be found as much in evidence in this class of china as in the more expensive kinds. Come and see our vast assortment of staple lines for everyday use.
