—Main Floor—Centre.

These Bargains in Boys' Suits Will Interest Every Mother

There are Bloomer Suits for boys, with three-button double-breasted coats, and with single-breasted Norfolk coats that have pleats down the front and back, belts at back. The cloths are tweeds, in dark and medium shades of grey, fawns and dark greens, and they are materials that will stand a lot of hard wear. The coats are lined with twilled Italian cloth and well tailored. The bloomer pants are made nice and full, and a few of the suits have knee pants that are lined. Sizes 24 to 28. Regularly \$3.75 to \$4.00. Friday bargain 2.68

For bigger boys there are Bloomer Suits in heavy tweed materials, made with coats in the three-button double-breasted model. Some of the suits are made from Hewson Amherst all-wool tweeds, and they are in handsome golden brown, neat fawn and dark and medium grey shades, in fancy weaves and in striking stripe patterns. The coats are lined with choice twilled Italian cloth. The bloomers are made full and have belt loops and a belt of the same material, watch pocket, straps and buckles at the knees. Sizes 29 to 33. Regularly \$7.50. Friday bargain 4.29

Bargains in Neat Russian Suits to Fit Wee Boys

And here is a chance for the mother of a wee boy for whom she is looking for a Russian Blouse Suit. These are made in double-breasted models, and have large sailor collars, separate fronts with emblem and black patent belts. They are made from good wearing materials in nice shades of grey, in fancy basket weaves and with almost invisible colored stripes. They are lined with good quality twilled material, and the bloomer pants are gathered at the knees by elastic. Sizes to fit boys from 3 to 7 years. Regularly \$4.50. Friday bargain 2.98

—Main Floor—Queen Street.

During May, June, July and August Store Closes Saturdays at 1 P. M. (No Noon Delivery)

Men's Suits That Regularly Sell at From \$10.00 to \$15.00 We Offer at \$5.00

On Saturday the Store will close at 1 o'clock, and for that reason we want an extra big day's business on Friday. A big lot of Men's Suits that we secured at an unusually low price, because we cleared out a manufacturer's stock, we offer at a figure that will enable almost any man to have a new suit.

These are new goods; suits made up in this Spring's styles, in three-buttoned sack model, and with neat, medium length lapels.

The materials from which the suits are made are fine worsteds and tweeds, and there is a wide variety of patterns; there are greys, light and dark brown shades and olives in the favored stripe effects, and in fancy woven effects. Every suit is well tailored and lined with material of good quality. Sizes 35 to 42 chest.

Regularly these suits would sell at \$10.00, \$11.00, \$12.50, \$13.50 and \$15.00. Friday bargain 5.00

See window display.

THE T. EATON CO. LIMITED

SHOE MANUFACTURERS ATTACK REMOVAL OF DUTY

Told That Their Contracts With Shoe Machinery Trust Can Be Proved Illegal.

WASHINGTON, May 3.—The investigating trend of congress took a wide range to-day, for enquiries into the affairs of the United States Steel Corporation, the American Sugar Refining Co. and the American Woolen Co. were placed on the program of the Democratic house; the big shoe industry interests were under fire; and a senate committee on interstate commerce opened the way for a discussion as to a re-investigation of the charges against Senator Lorimer of Illinois. Resolutions directed at the shoe industry were introduced to determine whether any of the first three named big corporations involved are operating in violation of the anti-trust, interstate commerce or national banking laws, have been started on the legislative ways. The steel trust resolution, the creation of the bill that will now be before the house committee, was approved to-day by the house committee on rules and will be reported to the house to-morrow.

While large shoe manufacturers testified to the senate finance committee that they were forced to keep prices high because they were in the grip of a controlled absolutely every manufacturer of shoes in this country, Representatives Weeks, on the floor of the house, was raising the question which owns all the patents on and controls all the shoe machinery in the United States and most of Canada. He declared that the United States Shoe Machine Co. refuse to sell any machine outright, only leasing it to the manufacturer, the latter is enabled to control the business with less capital, and that the tendency of this method is to increase manufacturers.

The manufacturers declared that this trust operates on a different basis with foreign manufacturers from what it does with those in this country, for one thing allowing those abroad to use some of their own machinery.

Mr. Weeks, on the other hand, said: "The United States Shoe Machine Co. leases its machinery abroad exactly as it does in this country, and at the same rate."

Senator Dally told the manufacturers that in his opinion their contracts with the trust could be proved illegal, that in spite of the shoe machine company's patent rights, he thought their action could be construed as an effort to restrain trade, and he declared that the attorney-general might make some trouble for the trust after he had learned the statements at to-day's hearings.

Hydro Exhibition at Fair.

It is understood that the city hydro-electric department will have a large exhibit at the Canadian National exhibition this year. This it is pointed out will be a good opportunity of demonstrating to visitors the possibility of hydro power.

Dr. Martell's Female Pills

Eighteen years the standard prescribed and recommended for women's ailments, a scientifically prepared formula of proven worth. The result from their use quick and permanent. For sale at all drug stores. 2501

C. C. WITCHALL BURIED

Strong Tribute Paid to His Sterling Character by Rev. Mr. Skely.

C. C. Witchall, the well-known Toronto contractor, whose residence was 125 Havelock-st., was buried yesterday afternoon at the family plot, Prospect Cemetery. A private service for the bereft family was held at the house and later a public service, both conducted by the Rev. Lawrence Skely, rector of St. Ann, assisted by Rev. Mr. Despard. Mr. Skely spoke feelingly of the deceased's strong Christian character, and his willingness at all times to assist in the activities of the church. He was a man of sterling integrity, whose example would be held in loving memory by all who came in contact with him. His life was that of a true gentleman, who aimed to make life gentle for all whose friendship he strove for. The pallbearers were his three brothers, John, George and Joseph, and three old friends, H. Lucas, James Wickert and George Rathbone.

WORK INTERCHANGEABLY

Agreement Reached Between Leading Cable Companies.

LONDON, May 3.—In a statement issued to-night, Theo N. Vall, president of the American Telephone and Telegraph Co., and the Western Union Telegraph Co., says that an understanding has been reached between the Western Union and the Anglo-American Cable Co. which will practically interchangeably, but that the details of the arrangement will not be made public until they have been submitted to the shareholders for ratification. He declares that the ownership of the Anglo-American Company will not be affected.

The conditions of the agreement, adds Mr. Vall, provide that the British postmaster-general will practically control the rates charged by the company, thereby assuring that they will be reasonable, and that the postoffice has under consideration a scheme for deferred service at modified rates.

ACADEMY OF MEDICINE OFFICERS.

The fourth annual meeting of the Academy of Medicine and the first in their new premises, 13 Queen's Park, was largely attended. The reports of the officers and committees showed that the past year had been a successful one, and arrangements are now being made for a formal opening of the new building, to be held the latter part of May.

The following fellows were elected as officers and council for the ensuing year: President, Dr. N. A. Powell; vice-president, Dr. E. A. Reeve; past president, Dr. Albert A. Macdonald; hon. secretary, Dr. Harley Smith; hon. treasurer, Dr. W. A. Young; chairman of sections: Medicine, Dr. Graham Chambers; surgery, Dr. H. A. Bruce; pediatrics, Dr. J. T. Fotheringham; ophthalmology, Dr. C. Trow; state medicine, Dr. J. S. W. McCullough. Elective members, John Ferguson, John Malloch, H. J. Hamilton, J. F. W. Ross, W. P. McKeown, A. McPhedran, P. N. G. Starr and E. E. Kings.

Sanitary Precautions.

BRANTFORD, May 3.—The Brantford board of health, following the lead of London, Toronto and Berlin, has recommended that the common drinking cup in public schools and institutions be abolished, and that the individual paper cup or the spray fountains be used instead. Hereafter all most sold on the market is to be wrapped in clean paper, instead of old used newspapers as heretofore.

Celebration Cost \$2500.

It is expected that the cost of the hydro-electric celebration will not exceed the original estimate of \$2,500. The final meeting of the special committee of the council having charge of the celebration will be held to-day.

The Toronto World

THIS CERTIFICATE, with 25 others of consecutive dates, if presented at the business office of THE WORLD, 40 Richmond Street West, will entitle the bearer to one WORLD COOK BOOK absolutely free. If the Cook Book is to be sent by mail, send the necessary certificates in an envelope, also including 14c in stamps, to the Cook Book Editor, care of Toronto World.

Not more than one Cook Book will be given to one person.

This is an opportunity for every good housekeeper to become possessed of the very best Cook Book on the market. The size is 8 1/2 x 6 1/2 x 2 1/2. It is substantially bound in oiled muslin and is designed for utility.

Caution.—Not more than one coupon bearing the same date will be accepted.

The Toronto World Cook Book.

MAY 4 1911.

Void if presented after June 15, 1911.

Be sure to write your name and address plainly in the lines below on at least one of the certificates, if you wish the Cook Book sent by mail.

Name

Address

ANOTHER ARCTIC EXPEDITION

Captain Baldwin, an American, Hopes to Drift Over Pole.

BALTIMORE, May 3.—Captain Evelyn Briggs Baldwin, the Arctic explorer, who is a delegate to the peace congress here, said to-day that he would lead another Arctic expedition in 1912, and hoped to effect the first crossing of the last remaining ocean to be thoroughly examined. He plans to enter the pack ice northwest of Point Barrow, Alaska, make his ship fast to a large ice floe and drift near to it, then over the north pole and into the North Atlantic ocean between Spitzbergen and the east coast of Greenland. He expects to emerge from the ice in 1912.

TWO MILLIONS FOR PARKS.

MONTREAL, May 3.—A special committee of the city council to-day reported in favor of setting aside two million dollars for the extension and improvement of parks and playgrounds in this city. One million is to be devoted to the purchase of the Law and Molson properties adjacent to Mount Royal Park.

Theatrical Manager Charged With Assault.

NEW YORK, May 3.—Jacob J. Schubert, the theatrical manager, was pleaded to-day under \$500 bail for trial in special sessions court on a charge of assaulting Miss Marie Taylor Barnett, a grand niece of President Zachary Taylor. Miss Barnett declared in police court that the manager struck her three weeks ago during an argument arising over her dismissal from one of his companies.

Dr. Margaret Smith Will Lecture To-night.

The Western Hospital Alumni Association will meet to-night, Thursday, at 8 o'clock, at the Nurses' Residence, Roseberry-ave. All nurses cordially invited. Dr. Margaret Smith will lecture.

Dr. Chase's Ointment

See testimonials in the press and ask your neighbors about it. You can use it and get your money back if not satisfied, 5c. at all dealers or Emerson, Bldg., 2200, Toronto.

DR. CHASE'S OINTMENT.

FARMERS' BANK CASES STAND TILL SEPTEMBER

Effort Will Be Made to Have W. J. Lindsay Give Evidence.

The bulk of the Farmers' Bank prosecutions have now been laid over till the September assizes. This was arranged at the afternoon sittings of that court yesterday afternoon.

At the opening of the session, H. E. Rose, K.C., moved upon affidavit of A. S. Low, charged with Alex. Fraser, John Watson and John Ferguson, provisional directors of the bank; C. H. Smith, Dr. Beattie Nesbitt, J. R. Stratton, M. P., and J. J. Warren, who conspired to fraudulently secure the certificate of the treasury board of Canada to enable the bank to commence business.

This affidavit declared that W. J. Lindsay, for whom the police hold a number of warrants for offences not held to be extraditable, and who is now a fugitive in the United States, is a necessary witness for the defence and that they had reason to believe that they could secure his evidence.

Will Not Cross Border.

The substance of the affidavit follows: "That I am informed by my solicitor H. E. Rose, that he has had a conversation with J. R. L. Starr, who is the solicitor for Mr. Lindsay, and that Mr. Starr has informed him that Mr. Lindsay is at present in the United States, and that while he has no intention of presently returning to Canada, and would not return for the purpose of giving evidence in this case, Mr. Starr would undertake to produce him at one of the border cities at a convenient time for examination as a witness; and further, that Mr. Lindsay's business requires him to travel very constantly, so that probably Mr. Starr would require three or four weeks' notice in order to make an appointment for his examination; and I verily believe the facts to be as stated by Mr. Starr to Mr. Rose, and that if a postponement of the trial is granted Mr. Lindsay's evidence can be obtained."

CHINA'S FAMINE HORRORS

Hilled People Prey to Fevers—Babies Sold as Merchandise.

In a letter to Rev. R. P. McKay, secretary of the Presbyterian Foreign Missions, Miss A. Bostick, a missionary in China, gives an account of the conditions in China at the present time.

"Wheat bran now sells for what was ordinarily considered the high price for good flour she states, 'and dried potato leaves find a ready sale. Dry land cakes made from the sesame seeds that have all the oil pressed from them, now form common articles of food. Those who eat it find themselves burning with fierce inward fevers, and being unable to buy tea, drink freely of cold unboiled water, which very often results in death."

"Little children are still being sold from door to door, as common articles of merchandise. Most of the dead poor are just wrapped in matting and buried in trenches, where the dogs can get at them."

Dr. Donald McGillivuddy writes that the plague is abating, but vigilance is still necessary.

STOLE SILVER FROM MINE.

NORTH BAY, May 3.—(Special.)—A Polack miner named Sushski was found guilty by Judge Leask to-day, of theft of silver from the Buffalo Mine, Cobalt. Silver was found in the shaft of the accused, together with a number of finger rings crudely melted from native silver. Prisoner was sentenced to six months in the Central Prison.

Shoe Workers Win Victory.

After a battle of years, the Part Shoe Company of Fredericton, N.B., has signed up with the International Boot and Shoe Workers, agreeing to advance the interests of the trade by working together under union principles.

Wm. Lennon and Charles Schuch's will represent the local branch of B. O. and Shoe Workers at the convention to be held in St. Paul, commencing June 15.

Canadian Northern Earnings.

Week ending April 30, 1911, \$469,200. July 1 to date, \$12,288,500; same period 1910, \$87,900; \$10,357,700. Increase, \$11,997,100, 9.9.

THREE YEARS' TERM FOR BARRISTER EARNEY

Defence Claimed That Lawyer's Mental Condition Made Him Irresponsible.

Three years in the Kingston Penitentiary was the punishment meted out to William D. Earnsey, K.C., by Judge Denton in county Judge's criminal court yesterday morning, when the lawyer pleaded guilty to forging the name of Kate Chesler to a cheque for \$1000, uttering a forged mortgage in favor of Thomas Dalimore and theft of the \$1000 involved.

In asking the leniency of the court, H. H. Dewart, K.C., counsel for Earnsey, urged that the man had been drinking so heavily that he was hardly responsible for his acts. J. R. Beamish, J. Nesbitt, J. McCrimmon, J. Brown, and D'Arcy Hinds, with Dr. Godfrey, said they believed that Earnsey had been suffering from the effect of drugs and had also been drinking heavily. Judge Denton then said that the case was a particularly grave one as more was to be expected of a member of the bar in respect to conduct than of the ordinary layman. "You have already suffered much," he said to the prisoner, who sat with bowed head. "You will suffer more." He pointed out that Earnsey's position as a barrister will be lost and then imposed sentence.

SENT DOWN FOR BIGAMY

Gauthier's Desire for Third Marriage Led to Investigation.

NORTH BAY, May 3.—Jean Baptiste Gauthier, arrested at Bonfield, charged with bigamy, pleaded guilty and was sentenced to six months in the Central Prison. Gauthier, being already a married man, led to Bonfield to the altar in Hull, Que., in 1905, and lived with her nearly two years. The crown intimated that Gauthier's arrest arose from a desire on his part to contract another marriage at Bonfield, which led to an investigation of his history. He was said to have been drunk when the second marriage took place, but the crown did not think he could have remained so for the two years he lived with the woman.

AMEND EXTRADITION LAWS.

WASHINGTON, May 3.—The extradition of J. J. McNamara from Indiana to authorities of California on a charge of implication in the Los Angeles Times explosion, led to the introduction of a bill to-day by Rep. Korbly of Indiana amending the extradition laws. The bill provides that no fugitive shall be surrendered to authorities of another state except by proceeding in a court of record. In the McNamara case the prisoner was surrendered after appearance in a police court.

Woman's Auxiliary Officers.

The annual meeting of the Women's Auxiliary of the East Toronto Y.M.C.A. was held Tuesday night.

Officers elected were: President, Mrs. Bell; vice-president, Mrs. Kerr; treasurer, Mrs. MacHattie; secretary, Mrs. Ged. A. Mitchell.

The secretary was presented with a cut glass berry bowl. There were about 40 members present.

Killed by Fall From Car.

MONTREAL, May 3.—Woon Wah, a Chinaman, 18 years of age, who had only been two weeks in the country, was killed yesterday by a fall from a street car at the corner of Olive-ave. and St. Catherine-st.

Voted for Sanitary School.

TILLSONBURG, May 3.—By a vote of 25 to 10 a new and more sanitary public school was carried here by a majority of eleven. The work will be started during the summer vacation.

USE THE ELECTRICITY

OF YOUR OWN BODY TO CURE INDIGESTION

Andrew McConnell, the discoverer of this science of Human Electricity, has proved that indigestion is purely an electrical process.

The Peristaltic Action (churning movement) of the stomach necessary to keep the food from fermentation, is due to the presence of electricity in that organ. Again, the attraction from the blood of the elements which form gastric fluids is an electrical process and does not exist when this power is not present.

"If the power is weakened for any reason, the normal amount of electricity does not flow in the stomach. Also, when one overworks he uses in brain or muscles the electricity which is needed in the stomach for its thorough digestion of his food. A lack of this power in the stomach means an inactive condition of that organ, and this inactivity results in indigestion or fermentation of the food. There is thus a great decrease in the supply of building material for the body, large falling off of the production of electrical energy, and the circulation of the blood and life processes of the whole organism are interfered with. Indigestion is the primary cause of almost every form of disease."

Andrew McConnell has discovered the electrical laws whereby a greater percentage of the electricity in the body can be drawn to the digestive organs, giving the invalid digestive power of a well man. These are physical treatments which every one can give himself and which cure indigestion when used by the best specialists fail to give help.

Dieting cannot cure, because the best food combinations require 30002 power for their digestion, and when, as is the case in a weakened condition, insufficient energy is supplied, no method of dieting or drugs can effect a cure. If drawn to the stomach there is enough electricity in the body, even when one is in the most weakened state, to digest ordinary food. This new system of self-cure removes the necessity of dieting, and every one can, through utilizing the electricity in his body, cure indigestion, and consequently the diseases which follow in its train: Consumption, Constipation, Insomnia, Rheumatism, Nervous Exhaustion, Catarrh, etc.

Send for literature explaining this scientific system for the attainment of perfect health.

Postage extra to United States and all other foreign countries.

Is The World's New Telephone Number.

THURSDAY MORNING, MAY 4, 1911.

LAUDIER, CHAMP CLARK AND TAFT.

Sir Wilfrid Laurier has good excuse for withdrawing from the agreement negotiated between his government and the government of the United States in regard to reciprocity.

ADVANTAGE OF PUBLIC SERVICE.

Premier Whitney must have had it borne in to him, when he stood at the city hall on Tuesday night and touched the electric button, that the biggest thing in his career, the biggest thing in his administration, and the biggest thing in his party is the hydro-electric policy developed by Hon. Adam Beck.

The world has experienced considerable satisfaction from the success of the long struggle to have the hydro-electric plan adopted. Power is now delivered in Toronto, in 25 other municipalities, and as Hon. Mr. Beck pointed out, there are applications from 62 unincorporated villages for power, and the extension of the system throughout the province from Windsor to Cornwall is clearly in sight.

Not only is the cheap power policy a direct benefit in itself, but indirectly as a check upon the private companies it will be worth an incalculable amount to the people within the sphere of its operation. It will regulate rates, and it will ensure good honest measure to the consumer. The people will get what they pay for in the competition which will ensue.

Besides the direct competition with the electric companies, the gas companies must acknowledge the sway of cheap electric power and light. Gas for light and for fuel must conform to the standard which cheap electricity will set up.

GOOD ADVICE PASSED OVER.

Have you noticed the price of Canadian Pacific stock as it keeps soaring up? Well, every time the question came up in the House of Commons for an increase in the capital stock of the Canadian Pacific, the member for South York recommended that it be taken by the government of Canada on behalf of the people of Canada.

TELEPHONE MONOPOLIES.

Under an agreement between the Inter State Telephone Company of Illinois, and the Illinois Telephone Company, which is installing an automatic system in Chicago, with a capacity of 300,000 phones, an entrance for the independent telephone systems has been arranged over the line of the Inter State Company into Chicago.

With one or two exceptions New York is the only large city in the United States where the Bell monopoly has control of the long-distance telephones. Chicago will have over 20,000 independent subscribers by June, under the terms of the new agreement, and it is clear that the people are determined to assert their objection to monopolistic oppression.

CITY HYDRO-ELECTRIC COMMISSION.

There will be only one opinion about the appointment of Mr. H. L. Drayton, K.C., to the city electric commission. It is a tribute to Hon. Adam Beck and Mr. W. K. McNaught, who made the selection, that Mr. Drayton consented to act. But Mr. Drayton has a high sense of public duty, and when assured of the value of the services to be rendered he has agreed to accept the responsibility and the burden of the work.

The choice completes the constitution of a body which is bound to have far-reaching consequences in the future of Toronto. Mr. P. W. Ellis is well experienced in electrical affairs, and the mayor of the city must naturally be in touch with current problems and naturally anxious to achieve the best results. Confidence will be felt that a commission has been secured to whom efficiency will be the first consideration, and to whom the principle of public operation will be a sacred trust.

CANADA AT THE IMPERIAL CONFERENCE.

Satisfaction will be general should an arrangement be reached that will enable Sir Wilfrid Laurier and the other Canadian representatives at the imperial conference and coronation to go to London. The conference without the prime minister of the Dominion would not be complete and its deliberations would necessarily be influenced by the fact of his absence. What however it has been reached, it affords no reason for partisan use. On the contrary, it ought to be regarded as an acknowledgement of an imperial duty, too important to be disregarded.

WILLING TO LOWER FARES.

MONTREAL, May 3.—The first meeting between the management of the street railway company and the board of control in regard to the question of an extension of the franchise to the company, was held at the city hall today. The company's representatives said they did not object to giving more tickets for 25 cents, but there might be some difficulty in regard to giving lower fares to connecting lines.

Enter Methodist Ministry.

A special examination was held by Rev. Dr. W. H. Hinks, the chairman of Toronto district, on Harold S. Woodsworth, M.A., and Mr. Lillian, a professor, who desire to enter the Methodist ministry. Mr. Woodsworth has already been appointed to do missionary work in Japan.

"OBSCENE LITERATURE."

Hamilton Herald: Magistrate Kingsford of Toronto has punished a highly respectable bookseller of that city for having on sale three modern novels, the works of well-known authors, which works had a wide sale three or four years ago, but are now almost forgotten.

Only a few weeks ago other Toronto booksellers were convicted of having on sale various standard and classic works, Boccaccio's Decamerone and Balzac's novels and Burton's version of the Arabian Nights among them, these works being classified as "obscene."

It will thus be seen that, in the view of Toronto's literary censors, neither the established reputation of a writer nor the popularity of a present-day "best seller" should operate to save a book from condemnation as unlawful because obscene. It is important to know what constitutes obscenity in a printed book. Fortunately, Magistrate Kingsford has endeavored to make the law of obscenity plain to the public.

MAGISTRATE KINGSFORD AND WALT WHITMAN.

Editor World: The poet I referred to was Whitman, not Whittier. The mistake is yours, not mine. Please apologize. You will find that a good deal of Whitman's "poetry" has been called the "ravings of a drunken helot."

Mr. Kingsford had a list of books in his hand when he spoke, and among them was the name of Whittier, not Whitman. Mr. Wilkie protested at the condemnation of the poet, and Mr. Kingsford, Crown Attorney Corley also protested, and in reply Mr. Kingsford said: "Some of Whittier's poems are backward enough to be destroyed. No doubt, Mr. Kingsford thought he saw the name of Whitman on his list, and no doubt by a hapless mistake the same name when he meant Whittian, but it is fair to say that the mistake is ours."

It is possible that a good deal of Whitman's poetry is pure, and his ravings of a drunken helot, but we have a rather poor opinion of the taste and judgment of the man who uttered such language. We prefer the verdict of Tennyson and Synge and Emerson and Burroughs to mention a few authorities on such a matter, to the absurd views of some of our present-day censors.

Dr. Reeve Removes to Kent Building.

Attention is drawn to the fact that Dr. J. Reeve, until recently located at 235 Sherbourne-st., has removed to a commodious office in the Kent Building, corner of Yonge and Richmond-sts., where he will continue his practice as formerly, specializing in Blood Diseases of the throat, mouth, and skin, etc.

Buffalo and Return, C.P.R. 9:30 a.m. Train, Saturday, May 6th

Tickets to Buffalo and return at rate of \$2.00 good C.P.R. 9:30 a.m. fast train Saturday and good for return all regular trains Saturday, Sunday and Monday, are on sale at all C.P.R. Toronto offices. City Ticket Office, 16 East King-st. Phone Main 6589.

Must Watch for Microbes.

Dr. Hastings says that the introduction of public drinking fountains will not be a guarantee against microbes in the water. He points out, however, that the same precautions must be kept people from drinking from them, and explains that the people who do so are doubtless acquainted with the possible conditions of the water.

CREATING CAPITAL

Saving small sums creates capital. It is the only method by which the average man can become possessed of the ready money which will enable him to avail himself of the opportunities constantly presenting themselves in this "Canada's century."

Master's Chambers.

Before Cartwright, K.C., Master. Thomas v. Hariton-Arrel (Elliott & Hume) for plaintiffs. Motion by plaintiff for consent for an order vacating certificate of his pendens without costs. Order made. Life-F. McCarthy, for defendants. S. H. Bradford, K.C., for plaintiffs. Motion by defendants for an order for the examination of the books of A. G. Ramsay. Order made. Costs in cause. Solway and Cohen v. Levy-Connat (Dewart & Co.) for plaintiffs. Motion by plaintiffs for an order vacating certificate of his pendens and dismissing action without costs. Order made.

Moore v. Moore-F. L. Bastedo, for plaintiff. O. H. King for defendant. Motion by plaintiff for an order for the examination de bene esse of Mrs. Amelia Buckland. Order made. Costs in cause. Bunker v. Taylor-R. J. Gibson, for defendant. Motion by defendant on consent for an order vacating certificate of his pendens and dismissing action without costs. Order made. Beals v. Stewart-Phoenix (Beatty & Co.) for defendant. Motion by defendant for judgment on an order dismissing action without costs. Order made.

Hyslop Brothers v. Hodgins-E. E. Wallace, for defendant. A. J. Snow, K.C., for plaintiff. Motion by plaintiffs for judgment under C. R. 503. Motion enlarged for cross-examination of defendant on his affidavit filed for two weeks to be brought on as may be arranged.

Toronto General Trusts Corporation v. Campbell-J. H. King for defendant. Motion by plaintiffs for an order for the issue of a concurrent writ, and for service of the same and statement of claim, and shortening time for appearance to twelve days. Order made. Costs in cause.

Single Court.

Re Rispin-F. P. Betts, K.C., for executor of R. Rispin. G. G. McPherson, K.C., for executors of Luke Rispin, a son. W. R. Meredith (London), for official guardian. A motion by the executors of will of Richard Rispin for an order constraining said will.

Judgment: The testator died in September, 1905. The son received \$4,000 from the executor of the will and died in November, 1910, having a will in which he assumed to dispose of the estate in the hands of the executor, amounting to about \$15,000. The executor disclaims all interest beneficially and asks to whom the fund should be paid, under the will of the son, or to the next of kin of the testator as an undispensed residue. My conclusion is that the undispensed residue of the estate of the testator should be paid into court for the benefit of the next of kin of the testator, and that it be referred to the master at London to ascertain.

Before Moss, C. J. O. Garrow, J. A. MacLaren, J. A. Magee, J. A. Smith v. Royal Canadian Yacht Club -E. E. A. DuVernet, K.C., and A. H. F. Leffroy, K.C., for defendant. M. G. Young, K.C., for plaintiff. An appeal by defendant from the judgment of Mulock, C. J., on 26th January, 1911. This was an action by Alma Smith, an infant, for damages for injuries sustained by plaintiff about 2nd July, 1910, while firing off a cannon for defendants, which damages are alleged to have been caused by the negligence of defendants. At the trial, judgment was given to plaintiff for \$3975 and costs. Appeal argued and judgment reserved.

who they are and to distribute the fund accordingly. The executor to pass his accounts and receive his costs and commission and be discharged. Costs of the application out of the estate. The solicitor appointed to represent the unascertained next of kin to have the carriage of the matter in the master's office.

Before Teetzel, J.

Hinchcliffe v. Toronto and York Radial Railway Co.-R. S. Cassels, K. C., for plaintiff. F. Ayresworth, for defendant. F. W. Harcourt, K.C., for infant. Motion by plaintiff for judgment pursuant to settlement between them. The action was for damages for injuries to John T. Hinchcliffe, the younger, by coming in contact with a wire of the defendants charged with electricity which it is alleged the defendants had negligently allowed to lie, in the highway known as Yonge-street, running thru the Village of Davisville. Judgment for plaintiffs, by consent, for \$125, in full for damages and costs, to be applied: \$275 to the doctor, \$150 to hospital, \$200 for costs of plaintiff and official guardian, \$100 to father, and \$100 into court to credit of infant, and \$100 per year to be paid to plaintiff half-yearly for maintenance out of the moneys in court.

Re Myers Estate-H. J. Martin, for Robert and James Myers. F. W. Harcourt, K.C., for unborn issue. Motion by Robert and James Myers, husband and son of Annie Myers, for authority to purchase No. 125 Hazelton-avenue, for the price or sum of \$3200. Order authorizing purchase as asked, the premises to be held by parties on the same trusts as property settled by will on Annie Myers.

Toffey v. Stanton-D. C. Ross, for defendant. J. E. Hutchinson, K.C., for plaintiff. An appeal by defendant from the report of the junior judge of Leeds and Grenville. By arrangement between parties motion enlarged for two weeks.

Ross v. Planagan-R. A. Pringle, K. C., for plaintiff. C. H. Clive (Cornwall), for defendant. An appeal by plaintiff from the report of the local master at Cornwall. Reserved.

Re Solicitor-A. A. Miller, for the law society. Motion by the law society to suspend solicitor for non-payment of fees for 1910. It appearing that the fees, but not the costs of motion, have been paid by the solicitor since motion launched, motion enlarged until 22nd inst.

Munro v. Mitchell-T. N. Phelan, for plaintiff. K. Denison, Jr., for defendant. Motion for judgment by plaintiff. By arrangement between counsel enlarged until May 8.

Re Bassett Estate-C. J. Holman, K. C., for executor. H. M. Morat, K.C., for the Brethren, and James Tracey, J. A. Macintosh for residuary legatee. Motion by executors of estate of Mary Bassett for an order constraining the will of Mary Bassett. Order made that executors may pay \$400 in question to the Brethren, and judgment reserved as to the two \$100 sums in question.

Re Phelps Estate-D. Urquhart, for Plaintiff. F. W. Harcourt, K.C., for absentees and unborn issue. Motion by executors of estate of John Phelps for an order constraining the will of the said John Phelps. Order made appointing F. W. Harcourt, K.C., to represent unborn issue, and the two absentees, John Phelps and Clarence Gray Phelps, and directing that the power of sale given to the executors may be proceeded with forthwith under the supervision of the master, the purchase money to be paid into court upon the trusts of the will. Costs out of the estate.

Re Hutchings and Allen-D. Urquhart, for vendor. E. Elliott, for purchaser. Motion by vendor for an order declaring that the vendor can make a deed to the lands in question without the concurrence of his wife, the estate being an equitable one. Order made as asked. No order as to costs.

Divisional Court.

Before Mulock, C.J., Clute, J. L. Harris-Maswell v. Goldfields-F. L. Bastedo, for plaintiffs. No one contra. Motion by plaintiffs, on consent, for an order varying the order of Riddell, J., of April 24, 1911. Order made in terms of the consent minutes to be filed.

Before Mulock, C.J., Clute, J.; Riddell, J. Burket v. Berlin Robe-W. M. Reade, K.C., for plaintiff. E. P. Clement, K.C., for defendant. An appeal by plaintiff from the judgment of Latchford, J., of March 7, 1911. This was an action for \$2000 damages for alleged false and malicious prosecution of plaintiff by defendant. At the trial the action was dismissed with costs and judgment given for defendants, on their counter claim for \$25.00. Appeal argued and dismissed with costs.

Before Latchford, J., Sutherland, J., Middleton, J. Fountain v. Canadian Guardian Life Insurance Co.-E. N. Davis for plaintiff. S. Denison, K.C., for defendant. An appeal by plaintiff from the judgment of Riddell, J., of December, 1910. An action by plaintiff to recover \$1420, alleged to be the cash surrender value of a policy of \$4000 in defendant company on the life of plaintiff. Defendants contended that \$1156 was the cash surrender value, and tendered same to plaintiff, who refused the same. They allege, and they paid same into court. At the trial, the action was dismissed with costs, but with provision that if he paid costs of action and judgment of \$120, he might be reinstated in the company as insured upon the same terms as he had not made the default. Judgment dismissed, and to mark our disapproval of conduct of defendants we refuse to allow them costs.

Court of Appeal. Before Garrow, J. A. MacLaren, J. A. Magee, J. A. Smith v. Royal Canadian Yacht Club -E. E. A. DuVernet, K.C., and A. H. F. Leffroy, K.C., for defendant. M. G. Young, K.C., for plaintiff. An appeal by defendant from the judgment of Mulock, C. J., on 26th January, 1911. This was an action by Alma Smith, an infant, for damages for injuries sustained by plaintiff about 2nd July, 1910, while firing off a cannon for defendants, which damages are alleged to have been caused by the negligence of defendants. At the trial, judgment was given to plaintiff for \$3975 and costs. Appeal argued and judgment reserved.

Before Moss, C. J. O. Garrow, J. A. MacLaren, J. A. Magee, J. A. Smith v. Royal Canadian Yacht Club -E. E. A. DuVernet, K.C., and A. H. F. Leffroy, K.C., for defendant. M. G. Young, K.C., for plaintiff. An appeal by defendant from the judgment of Meredith, C. J., of 12th December, 1910. This was an action for specific performance of a contract for the sale by defendant to plaintiff of a farm in Georgia. At the trial judgment was given to plaintiff for specific performance as asked. Appeal therefrom partially argued, but not concluded.

The Eleventh Edition of the Encyclopaedia Britannica

Presents a Modern and Complete Picture of the Operations of the Great Army of Modern Civilization

THE penalty of modern progress is the sacrifice of extensive to intensive knowledge. Like the soldier on the firing line of a modern battle, each individual unit in the great army of civilization is compelled, in order to hold his place, to concentrate his undivided attention on the task which immediately confronts him. He has little opportunity of finding out what even his immediate neighbors are doing. Still less chance has he of learning the nature of the whole general scheme of operations in which individually he is merely a pawn.

But while this illustration reflects very clearly the character of the situation in which the modern man finds himself, it is deficient in one very essential particular. Though the best soldier is probably the one who knows nothing and cares nothing about what is happening to the right or left of him, the desire to possess something more than the minimum of knowledge demanded by society from each of its members in return for clothing, food, warmth and recreation is the sole impulse behind the movement we call progress. It was curiosity that was ranked by the Greeks as the highest of human motives, and it is the soldier of civilization who seeks to know what his regiment is doing, what his battalion is doing, what his army corps is doing, and what the whole army is doing, who is most valuable to himself and his time, and is in line for promotion.

It is only, however, when a man has made this discovery for himself, has found that but few things are really worth while and that a personal share in the intellectual life and culture of his time is one of them, that his real difficulties begin. The moment he tries to acquire accurate information he is confronted with the fact that the enlightenment he needs is so various in source, diffuse in form and technical in expression that an ordinary library is inadequate to help him. He is halted by the discovery that the run of really informing books have little to offer anyone outside of the limited circle to whom they are particularly addressed.

The sources of information open to an actual soldier on the fighting line desirous of learning the nature of the movement in which he is participating are the company, battalion, regimental, divisional, and corps commanders, and, if he went far enough, the general staff, and lastly, the commander-in-chief himself. Now, when the editor and permanent staff of the new Encyclopaedia Britannica made an exhaustive survey of the battlefield of modern progress and employed 1,500 of the leading experts in the world to prepare under their supervision an account of it, they enjoyed all the unique advantages, and their position closely resembled that of the commander and general staff of an army in the field. They may be said to have placed at the service of every soldier in the army of modern civilization a detailed summary of the collated, analyzed and indexed reports of every officer engaged in its operation. This summary (literally, as the word implies, a summum of human knowledge, thought, and activity) is the new 11th Edition of the Encyclopaedia Britannica.

A completely new work, founded on a fresh survey of the world in every department of knowledge at the end of 1910. 28 quarto volumes (12 inches by 9 inches) of text, each containing 960 to 1,060 pages; and index volume containing 500,000 references. 40,000 articles aggregating 40,000,000 words; 7,000 text illustrations; 459 full-page plates; 417 maps. The production of the work cost \$1,150,000 before a single volume was printed. The 1,500 contributors include the great scholars, leading authorities and the best practical experts in all civilized countries. The employment of India paper reduces to one-third the weight and bulk of the volumes, and makes the work one to read, not merely to refer to.

Encyclopaedia Britannica

New Eleventh Edition

Applications at present prices can only be accepted until May 31st, after which date the prices will be increased.

Those who have already received forms for making application should send them promptly to The Cambridge University Press, Encyclopaedia Britannica Department, Toronto, and those who have not yet availed themselves of the opportunity to learn full particulars of the new edition (prices, binding, cash and deferred cash payments, etc.) are urged to apply for the prospectus and specimen pages on India paper at once.

Cambridge University Press Encyclopaedia Britannica Department Royal Bank Building, 10-12 King Street East, Toronto. CHAUFFEUR McLETCHE MUST AGAIN FACE TRIAL

Jury Unable to Reach Verdict—
Man Was Not
Identified.

After five hours' deliberation, the jury which heard the evidence in the assault at the trial of Herbert McLetchie, chauffeur, charged with manslaughter in connection with the killing of Joseph Jacobs in West Bloor-street, was unable to agree upon a verdict and was dis- charged by Chief Justice Meredith at 10 o'clock last night. McLetchie was returned to the jail and may be tried again at the present court of his case may be traversed till the September sittings. He is still before the police court upon a charge of furious driving and of wounding a young woman in an accident to his machine on Du- ras-street, subsequent to that in which Jacobs was killed.

The evidence was entirely circum- stantial as no positive identifica- tion of the man was made by any of those who saw the accident. One witness, William Pettie, saw the accident and called to the driver of the machine, which looked just like McLetchie's employer's car, to stop. The man drove on. Pettie saw only one side of his face, but thought that Mc- Letchie looked like him. Miss Mary Law thought that McLetchie looked like the man she had seen driving the car which was in the accident. Policeman McDermott saw a car like the one in the accident, standing be- fore the Heunswick Hotel earlier in the evening of the accident. He saw the number was one of three figures, the first two of which he remembered as 21. He did not recall the last figure, the car in which the prisoner drove was numbered 242.

Disagreed on Oil Cup.
But the chief point made by the crown was in regard to a piece of an oil cup found a few days after the ac- cident upon the scene of it, and turned in to the police. This was fitted into another piece of the machine, which had been found on the McLetchie car. Two experts for the crown swore that they believed that the piece had once been one article. An expert for the defence disagreed with this. McLetchie went into the box and swore that he had not been north of College-street on the night of the ac- cident. He said that he had had the car out for an hour and a half, but had been at his boarding house at 2:30 where the car was left in a lane all night. He had had two friends with him, one of whom was present, but the other he had been unable to find. He told of their movements with much particularity, save that he could not be sure of the number of drinks which he had, which he declared was not more than three. He could not name the hotels where they had stopped for these James T. Harber, that the men who McLetchie said was with him, corroborated his story in the main, but did not seem to have known of the trouble with the machine to which the prisoner had sworn. He also swore that he could not remember what hotels they had visited for drinks. McLetchie explained that the cup which was missing from his employer's machine had been lost in Barrie some time ago. The jury after they had heard for some time came back ac- cording to see the car. Mr. Robertson, counsel for the defence, had his car, which is of the same make, brought to the Toronto entrance of the build- ing, whither the jury repaired to view it.

Milk Loaf and Gold Crust Are Real High-Class Bread

For those of our customers who wish Wrapped Bread, we make our Milk Loaf—a Bread of highest quality. It is made in the small Bread size, as Wrapped Bread cannot be made of good quality to sell for 5 cents retail in 24-oz. size. Gold Crust is our standard loaf in 24-oz. size.

We shall be pleased to send a sample loaf of this kind to any address upon request by phone or mail.

I.O.F. RE-ELECTS CHIEF RANGER

P.S.C.R. presiding. The scrutineers appointed were Judge N. N. Cockburn and J. R. Clouston. The election of Quebec, W. J. Shepard of New York, Dr. J. F. Basken of Eastern Ontario, and L. L. Walton of Maine, in an arena which lasted for an hour and a half. The chief ranger, Alex. MacGillivray of Toronto, nominated and John G. H. Meyers of New York, seconded the nomination of the supreme chief ranger, Elliott G. Stevenson, for re-election. The supreme chief ranger was declared re-elected and as he rose to reply received an ovation which lasted for several minutes, that testified in no uncertain manner to the place that Mr. Stevenson occupies in the hearts and affections of the representatives.

Extension of Sick Benefits.

The question of extending the state of the order was presented by the Rev. Dean Davis of London, Ont. The report dealt in a most exhaustive manner with the question of sick- ness and showed that the committee had given every consideration to this important subject. The standing sick benefits has been debated from time to time, and the following special committee were appointed to look into and report to the supreme court of the advisability of increasing the benefits in this department, the com- mittee consisting of the following: Dr. C. Day Clark, of Toronto; Dr. C. B. Dickson, of Los Angeles, Cal.; Dr. J. Gauthier, Quebec; Dr. Gamack, of Indiana; Dr. E. Cross, of Mis- sissippi; Dr. B. Davies, of New York. The status of social membership in connection with the various subordi- nate courts through the order received consideration and a special committee consisting of Mrs. Anna T. Schreder, of Illinois; A. E. Courtney, of Ohio; W. D. Peterson, of Manitoba; Mrs. M. B. Looney, of Wisconsin were delegated to bring in a re- port dealing with the matter.

WOMEN'S AUXILIARY CONVENES

Encouraging Reports Presented at Opening of Annual Meeting. The twenty-fifth annual meeting of the Woman's Auxiliary to the Board of Missions of the Church of England in Canada was begun yesterday morning by the celebration of holy com- munion in St. James' Cathedral, with His Lordship the Bishop of Toronto as the celebrant, assisted by the leading Anglican clergymen of the city. An inspiring sermon was preached by Rev. A. P. Stratford of Montreal. At the afternoon session, in Associa- tion Hall, the recording secretary, Miss Mary Campbell, read a very encour- aging report, which showed that there is a present total of 193 auxiliary branches of the auxiliary in this dis- trict. The treasurer's report showed the yearly receipts to be \$12,864.77, and expenditures \$12,322.57. The various other departments of the auxiliary showed great activity. The president, Miss Julia Tilly, gave a short review of the Woman's Aux- iliary from its inception (twenty-five years ago) up to the present time. The evening brought interesting ad- dresses by Miss Whittenden of St. Matthews' Girls' Branch, the Col- lingswood Girls' Branch, followed by a paper by Miss Whittenden on mis- sions work in Nagasaki, Japan. The address of the evening was by Rev. A. P. Stratford of Montreal on the sub- ject of "Service."

IT WAS WARM SESSION OF RETAIL MERCHANTS

Vote of Confidence in Officers Passed, But Vice-Presidents Didn't Accept.

In a riot of confusion, the Retail Merchants' Association discussed the recommendations of the executive last night. A number of members wished the press excluded, but a motion allowing the reporters to remain was passed by the president's deciding voice.

It was decided to ask the Dominion board to so amend the constitu- tion as to permit the local branches to elect their own officers, and that the fee payable to the provincial board be fixed.

Provincial Secretary Trovorn claimed that cost of obtaining legislation was heavy, and it was suggested that the fee be raised. The recommendation asking that the fee be raised under the control of the local executive officers. After an ex- planation of the system, the clause was thrown out.

Debate Grew Hot.

A stormy session ensued when the clause providing that the local secre- tary under all conditions be elected by the branches was brought up. At present the Dominion board can demand the resignation of a local secretary who is not brought up, without confer- ring with the branch executive, and appoint his successor. "I want to fix a constitution we can live up to," stated George Gibbard, "a constitution that any sane, honest man can understand and live up to." After much discussion the clause was carried.

More Charges.

When dealing with the question of new quarters for the local work, more charges were preferred against the secretary and president. The matter was to be reported upon by the secretary at an executive committee, but it was not brought up. Mr. Gibbard explained that in the stress of his business he forgot the report. "Unless some definite charge is laid with the press here, this is not a fair motion," declared Mr. Lomon concerning the clause asking that the general secretary be asked to abstain from any interference with the local work except in cases where his advice and instructions are sought and after by the executive officers. The clause was struck out.

ENERGY IS THE WHOLE THING.

Energy in most instances spells suc- cess; to be energetic you must feel well; one way to feel well is to eat well; one way to eat well is to use your stomach in good condition. You yourself can attend to the eating and sleeping part of the program, and St. Leon, the world's greatest medi- cal water, will look after the stom- ach, if you take a long drink of it twice daily. If you are suffering from any of the most eminent medical men all you have to do is drop us a card. St. Leon Waters, Limited, 1114 King-st. E. M. 132.

HOW SKIN TROUBLES HAVE BEEN CURED

A Remarkable Record of Itching, Burning, Disfiguring Eruptions Successfully Treated.

That those who have suffered long and hopelessly from eczema and other tortur- ing, disfiguring eruptions of the skin and scalp, and who have lost faith in all man- ner of treatment, may learn that there is one way to find immediate relief, the fol- lowing remarkable series of condensed testimonials will show.

W. H. White, 42 E. Cabot street, Phila- delphia: "Knee to ankle a mass of eru- pions. Suffering simply indescribable for six long years. Had to scratch till blood ran and health was undermined from lack of sleep. Cuticura Remedies cured it without a mark."

Mrs. M. C. Maitland, Jasper, Ont.: "Itchy rash on my baby's head when but three months old. It spread over entire body. Put mittens on him to prevent tearing skin. Reduced to a skeleton. One bath with Cuticura Soap and applica- tion of Cuticura Ointment soothed the itchy skin. A single set cured him. Thanks child would have died but for Cuticura Remedies."

Mrs. Wm. Hunt, 29 Fairmount avenue, Newark, N.J.: "Whole body a mass of eruptions. Hair all fell out and ears seemed ready to drop off. Hoped death would soon end fearful suffering. Cuti- cura Remedies cured me. Pills and ointment cured me and soon cured my wife."

Mrs. J. B. Renaud, 271 Mountain street, Montreal: "Treated for eczema on leg. It peeled from knee down; foot like raw flesh. Doctor advised cutting leg off. Decided to try Cuticura Remedies first. In two months' use of Cuticura Remedies she was cured. Mrs. Nora Emmott, 26 Lena street, Brook Green, London: "Two little girls had dreadful scalp trouble that doctors called ringworm. Cried with intense itching. Hospital treatment gave frightful pain, but did no good. Suffered three years; cured by three sets of Cuticura Soap and Ointment."

Mr. A. Krusick, 574 Wabash avenue, Chicago: "Itching eruption spread from head to body. Literally tore his skin off in shreds. Remedies tried had no good. Cuticura Soap, Ointment and Pills stopped itching quickly and cured disease in three weeks."

Frank Gridley, 23 E. 43rd street, New York: "In twenty-four hours he became raw from head to foot with a dreadful burning itch. Suffered agonies and could not get down or sit. Suffered for three weeks. Cuticura Ointment cured him in a single day."

Mrs. Kate Brougham, 200 Dewey street, Bennington, Vt.: "Rash came on her baby and soon turned to watery crusts of scabs over face, back and neck. She was a fearful sight, and all attempts at cure were fruitless. Lasting for three weeks she was cured by Cuticura Remedies, and soon skin was clear and healthy."

Dr. J. Dance, 57 West 10th street, England: "Tortured for five years with bad skin disease. Attended hospital five months without success. Cuticura Ointment was relieved, and got good night's sleep. In a fortnight Cuti- cura Remedies cured him. Send to Potter Drug & Chem. Corp., Boston, Mass. for free 2-page Cuticura Book on skin diseases."

"A lot of interviews have been pub- lished since our last meeting that have been of no benefit to the association. Direct charges have been made against President Dockery and myself. A threat has been made that he will institute actions against me for \$1000 each."

"This is not a matter for this meet- ing," declared a member. "Let them have their legal litigations among themselves," he declared. The clause was struck out.

"There has been no friction in our executive," stated Mr. Gibbard. The meeting passed a vote of confi- dence in the present officers, asking them to reconsider their resignations. H. Ellis and J. B. Cooper insisted on the acceptance of their resignation, and D. B. Jacques and John Dunlop were elected as vice-presidents.

A great deal of quibbling over the financial statement led to a great deal of confusion. A committee consisting of J. C. Van Camp, S. J. Creelock and W. J. Sheppard was appointed to look into the statement, to investigate charges instituted by Mr. Trovorn.

PARLIAMENT BILL THRU THE COMMITTEE STAGE

Revolt of Laborites Against the Preamble Fell Flat When Bal- four Declined Opposition.

LONDON, May 3.—The parliament bill, known also as the veto bill, for the curtailment of the powers of the house of lords, passed to-day the com- mittee stage in the house of commons practically without amendment, amidst scenes of great enthusiasm.

The refusal of A. J. Balfour, leader of the opposition, to vote against the preamble to the veto bill, removed any danger that might have been apprehended from the revolt of the Laborites against the preamble, and this portion of the measure, the considera- tion of which was regarded as the most critical test for the government, proved easiest to carry. The Unionist opposition to the bill almost vanished. In place of hundreds of amendments which threatened to delay proceedings in the committee stage, only a few important ones, mainly in the direction of urging joint sittings, or conference of the two houses in cases of disagreement will be moved in the report stage of the bill, which is expected to occupy only two or three days next week.

An amendment that the preamble be eliminated, moved by George Nicoll Barnes, the Labor leader, who described that portion of the bill as inconsistent with all the pledges and tenets of the Labor party, was defeated 218 to 47.

After the application of closure and the rejection of another amendment without division, Mr. Balfour said that he regarded the preamble as "inde- finite and illusory," but he wished to see the government carry it out. He hated some of it, but liked another part of it, and therefore would not vote against it.

Amid loud ministerial cheers, the preamble was then agreed to without division. On motion that the bill as amended be reported, division was called and the motion was carried by 255 to 147. The house then adjourned, the government supporters giving vent to the wildest enthusiasm.

FROM THE BOWELS OF THE EARTH.

"Mirac" the original and only genuine St. Leon water (est. 1881), flows from hot-rock in the Wolf River valley in the wilds of Northern Quebec. It is shipped to Toronto under seal, and may be obtained from druggists and grocers. The name of the company's depot here. If you keep your system purified with this great mineral water, heavily charged as it is with sulphur, iron, magnesia, bar- itum, strontium, lithium, etc., you cannot fail to be benefited. It creates vigor, health and energy and incidentally cures rheumatism.

Advised Greater Precautions. SAND POINT, Ont., May 2.—After a lengthy inquiry into the explosion at the Easterns' Friend works to-day, the jury returned a verdict to-wit: that the fatal accident at the Dominion Explosives Com- pany's plant was due to unknown causes. They also advised greater precautions for the safety of employees, recommending that the plant be prohibited until better protection of human life was inaugurated.

The merchant takes a long step towards successful retailing when he installs an elevator

Whether he sells dry goods, groceries, stoves or haberdashery—every merchant nowadays has an actual, imperative need for a freight elevator.

When goods arrive and pile up on the ground floor, it is of the utmost importance that the merchant be able to at once transfer this new stock upstairs where it will be out of the way and convenient of access at the same time.

Nothing repels people quicker than a slipshod, untidy-looking store or store front, due to the accumulation of surplus stock or empty parking cases. Orders are frequently delayed because clerks have to spend much time carrying goods upstairs when they should be attending to deliveries, dressing the windows or making the store look more attractive.

No system yet devised will induce the habit of tidiness and facilitate order and economical handling of stock like the use of an Otis-Fensom elevator.

OTIS FENSOM FREIGHT ELEVATORS

Its ready convenience and ease of operation form a direct in- centive to keep your ground floor inviting and to use all that ground floor for salesmanship and attractive display. It en- ables you to have a place for everything and everything in its place. Increases the efficiency of your clerks, reduces expenses, and makes people want to deal with you because your place "looks so clean."

Of course many merchants have no need for a belted ele- vator, something smaller and lighter being sufficient for all their needs. We make a Hand Power Elevator admirably suited for such cases. Its improved steel roller bearings make its opera- tion very simple and easy, and it has the advantage that you can install it anywhere. The new Otis-Fensom makes its opera- tion hold the car at any point, how- ever heavily loaded, and the many safety features should commend it to the merchant whose space and help are limited.

Send for our illustrated book, "Freight Elevators and Their Uses."

SAND FOR FILTERING IS NOT WELL CLEANED

Controllers Not Satisfied With Work of Apparatus—Sold Land Below Value.

That the sand washing apparatus in use by the contractors on the filtration plant is not working satisfactorily was made known at the meeting of the board of control yesterday, and there was considerable discussion as to what action should be taken to insure the filters being completed without delay.

The controllers were of the opinion that the contractors were experimenting with the sand washing plant they were using, and that they should have installed the plant recommended by Allen Hazen, the city's filtration expert. In this connection, however, it was pointed out that Mr. Hazen would not guarantee that he would accept the product of that plant be recommended.

It was decided to have Superintendent Logley appear before the board this morning and explain just what progress was being made in the sand washing.

Manager Irving of the Sunbeam Incandescent Lamp Company raised his estimate for 25-foot diameter adjacent to his factory on Dufferin-st. from \$65 per foot to \$100 per foot. Assessment Commissioner Forman placed a valuation of \$125 per foot on it, but advised that in view of the benefit the addition to the city's factory would be to the city the offer of the company be accepted. The board decided to recommend to council that the offer be accepted.

The master house painters applied for a grant to assist in entertaining the delegates to the Canadian Association's convention to be held here shortly. They were referred to the legislation committee.

The mayor announced that the city engineer was going ahead with the specifications and plans for the duplicate intake, and that tenders for the pipe would be advertised for.

City Architect McCallum requested that \$2000 additional be put into the estimates for extra engineering help as the result of increased building operations. The request will be considered later.

The application of the Independent Labor party for permission to hold open air meetings in Bayside Park on Sundays was refused, or there is a by-law prohibiting it.

PUBLIC AMUSEMENTS

Louis Mann at the Royal Alexandra. At the Royal Alexandra Theatre next week, Mr. Louis Mann will begin a week's engagement when he will be seen for the first time here in his newest successes. For the first half of the week he will be seen in the Jules Eckert Gooch play, "The Man Who Stood Still." Mr. Mann's role is that of an old Swiss business, in thought, in social life, and at length even in his domestic relations. Mann plays the part of a man who is displaying his remarkable studies of character.

Engaging with Thursday night Mr. Mann will be seen in his own comic play, "The Cheater," which enjoyed a successful run of five months at the Lyric Theatre, New York. Mr. Mann's reputation as well established here that his comic characterization of "The Cheater" is being looked upon with little pleasure and curiosity. Emily Ann Wellman and Madame Mathilde Cottrell will be seen in their original roles.

Honey Boy Minstrels at the Princess. George Evans' Honey Boy Minstrels to be seen at the Princess Theatre next week, keep close to the old flavor of this time-honored style of entertainment. The semi-circle in which they perform, the sign supreme, is retained, and the middle man will have the same simple favorite settings. All this is presented in modern setting, however, and the "Crimson Tropic," first part of the "Honey Boy" show, is described as one of the most vigorous works ever turned out by that wizard of the trash, Mr. Albert Carter. Coban and Harris gave Mr. Albert Carter blame to produce his ideas of a modern minstrel act, and is the chief feature of the big Honey Boy show.

With George Evans, the Honey Boy, John King, Sam Leo, Clarence Marks, Pierce Keenan, Charles Hilliard and Tommy Hyde as the principal comedians this year, the show promises a treat to laughter. All the scenes of the heavy production have been newly equipped and the costumes is described as perfect. Gentlemen Jim Corbett is the featured attraction, and adds his famous monologue to the program. The first scene of the minstrel starts this morning at the box office of the Princess.

"The Blue Mouse" at the Grand. It is seldom a favor creates the attention that fell to the lot of "The Blue Mouse." It is an adaptation from the German and

Suffered for Years From Constipation and Sick Headache.

Headache seems habitual with many people; indeed, some are seldom, if ever, free from it, suffering continually, and wondering why they can get no relief. The most frequent of all are bilious or sick headaches, and are caused by some derangement of the stomach or bowels, or both.

Burdock Blood Bitters regulates the digestive and biliary organs, removes acidity of the stomach, improves digestion, regulates the constipated bowels, and promotes a perfect circulation of pure blood to all portions of the body.

Mrs. C. Meadows, Clarkburg, Ont., writes: "For years I was troubled with sick headache and dizziness, and was also constipated. I was advised to try Burdock Blood Bitters. I only took three bottles of the medicine, and now feel like a new person as I am completely cured. I can truthfully testify that B.B.B. is the best medicine I have ever used."

Burdock Blood Bitters, has, during the last 25 years, built up an unrivaled reputation as a cure for all troubles arising from a constipated condition of the bowels.

Manufactured only by The T. Milburn Co. Limited, Toronto, Ont.

This Kingly Bird Within the Letter A is the time honored trademark of Anheuser-Busch. It's the emblem of Quality and Purity Budweiser "The Old Reliable"

It stands alone at the top of the world's bottled beers, because we use only the cream of each year's crop of Barley and selected Saazer Hops. It is thoroughly aged in the largest storage cellars in the world. Its mildness and low percentage of alcohol makes it friends EVERYWHERE.

OUTSIDE IRONWORKERS TAKE STRIKERS' PLACES

French-Canadians at Work on Parliament Buildings—Advice to the Men.

New complications have arisen in the iron workers' strike. Yesterday the Dominion Bridge Company set eight French-Canadians at work on the parliament buildings job. These non-union men had been imported from Quebec, and it was ascertained that 14 more were on their way.

The company state that the French-Canadians were regular employees of the company's Montreal branch. They were not members of any union. About ten strikebreakers from Montreal were brought into the strikers' camp by the company.

William Farnum Coming to Shea's. Manager Shea has prepared a treat for his patrons at Shea's Theatre next week, as the bill will be headed by William Farnum, his first appearance here in vaudeville. He is to present one of his greatest successes, "The Littlest Rebel."

"Ginger Girls" at the Gaiety. Snappy as its name is the offering of the "Ginger Girls," one of the latest spoken in the wheel of the Columbia attraction, is described as the most extravaganza in the "Ginger Girls" which comes to the Gaiety Theatre next week, nothing has been overlooked that could serve to amuse and create laughter.

Dixon's Big Revue at the Star. Pretty women, capable comedians, music of the kind that is both euphonious and dazzle the eye, and an endless continuity of sensational features and attractions, are promised in the latest two-act comedy, which is presented by Henry D. Dixon's Big Revue, which will be the offering at the Star Theatre next week.

Two Electrocuted. Wire Rope They Were Handling Spung Against Power Line. CORNWALL, May 2.—Peter Cook of Cornwall Township and George Cook of Indian from St. Regis, were instantly killed here this afternoon. They were walking along the canal bank and stopping to mend a wire rope when high wind hoisted a new boom of derrick at a C. Cheevers' coal shed. Several men were hauling in a wire rope to which a hemp rope was attached, when high wind swung them against the wires of the St. Lawrence Power Company, which were hanging from the derrick.

NOW READY TO START WORK ON GOOD ROADS

Hon. Dr. Reaume Advises That Work Must Be Up to Proper Standard.

Hon. Dr. Reaume, minister of public works, said to The World yesterday that the good roads work in South York could go right ahead, so far as the government was concerned. The bylaw had been approved and that was all he intended to do.

Girls Fought Blaze. Prevented Repetition of Washington Place Disaster. NEW YORK, May 3.—One hundred and fifty women and girls on the eleventh floor of a loft building a block from the scene of the disastrous Washington-place fire of March 26th, sprang from their seats when a burst of flame filled the room this afternoon, organized a bucket brigade and fought the blaze to such good purpose that it was entirely extinguished when the firemen arrived.

When the Odds are Against You. You Can Depend on DR. CHASE'S SYRUP OF LIMESEED AND TURPENTINE to Help You, if You Get the Genuine.

MAIL SERVICE TO JAMAICA. Montreal Board of Trade Will Intervene Minister of Commerce. MONTREAL, May 3.—Much consideration was given by the meeting of the council of the board of trade today called for by the department of trade and commerce for mail service between Canada and Jamaica, and the council expressed itself as being emphatically of the opinion that it is in the interests of the whole country that for the season of navigation the service should be from Montreal, with calls at St. John or Halifax, as only by such an arrangement will large exports of Canadian products now shipped via New York be carried by Canadian steamers.

Struck by Auto. Toronto Girl Painfully Injured in Accident in Baltimore. BALTIMORE, Md., May 2.—(Special.)—A young girl was painfully injured by being struck by an automobile while crossing the street at Guilford-avenue and North-avenue early this morning. Miss Barwick was in company with Miss Anna M. French, when the accident occurred. Miss French who is a special nurse, was so badly injured that she is confined to her bed.

Foot So Sore Couldn't Walk Down Stairs—TIZ Cured Her Quick. In certain districts a housewife in good standing may possess a quarter-section along the west-end. Price, \$100 per acre. Duties—Must reside on the homestead 6 months before the time required to obtain a patent and cultivate five acres extra.

TORONTO MISSION UNION. Year of Activity With Satisfactory Results Reported at Annual Meeting. The annual meeting of the Toronto Missionary Union was held Tuesday evening at the headquarters of the union on Hayter-street. Henry O'Brien, K.C., occupied the chair.

TENDERS For Sale as a Going Concern

MAIN SEWERAGE MUNICIPALITY OF NORTH TORONTO

Tenders are invited for Providing and Laying Main Sanitary Pipe Sewers, Construction of Manholes, etc., as follows:

Table with 2 columns: Contract No. and Description/Amount. Includes Contract No. 1 (approx. \$22,000), Contract No. 2 (approx. \$1,416.53), and Contract No. 3 (approx. \$22,998.00).

Includes approximately Sewers to streets and Trunk Sewers south of and including Eglinton Avenue. Includes approximately Sewers to streets and Trunk Sewers north of Eglinton Avenue and south of and including Glenview Avenue to the west of Yonge Street and south of and including Victoria Avenue to the east of Yonge Street.

Supplies of Sewers to streets and Trunk Sewers north of Glenview Avenue to the west of Yonge Street and south of and including Victoria Avenue to the east of Yonge Street to the Town Limits north.

Quantity, Schedule and Forms of Tender may be obtained upon a deposit of twenty-five dollars (\$25.00), returnable on receipt of bona fide tender, together with all documents and plans supplied.

Tenders to be sent in under seal not later than MONDAY, THE 15TH OF MAY, 4 O'CLOCK P.M., addressed to Frank Howe, Chairman of Works Committee, Eglinton Town Hall.

For further particulars apply to E. R. C. CLARKSON, Provisional Liquidator, 23 Scott Street, Toronto.

NOTICE TO CREDITORS - IN THE Matter of the Estate of Emily Rebecca White, late of the Township of North York, in the County of York, Deceased.

Notice is hereby given that all persons having any claims or demands against the late Emily Rebecca White, who died on about the 15th day of North Toronto, in the County of York, are required to send by post, to the undersigned, a statement of the nature of the claim, and full particulars, in writing, on or before the 15th day of May, 1911, at the hour of 11 o'clock, A.M., to the undersigned, at the address herein, for the purpose of presenting the same to the court, so far as applicable.

NOTICE TO CREDITORS - IN THE Matter of the Estate of Peter Sheardown, late of the Township of Vaughan, in the County of York, Deceased.

Notice is hereby given, pursuant to E.O. 188, Chap. 128, Sec. 38 and Amending Act, in relation to the winding up of the estate of the said Peter Sheardown, who died on the 16th day of March, 1911, that the said executor, Frank White, of the County of York, in the Province of Ontario, is desirous of settling the accounts of the said estate, and of the nature of the securities (if any) held by them, and of the nature of the securities (if any) held by them, and of the nature of the securities (if any) held by them.

THE HOME BUILDERS, LIMITED. The undersigned, a director named in the Prospectus of the Home Builders, Limited, hereby gives notice that he has withdrawn his consent to the said Prospectus, and will not be bound by the statements therein, and will not be liable to anyone subscribing for shares on the strength of the said Prospectus, because the undersigned has since the signing of the said Prospectus, become aware that certain statements therein contained are untrue, namely, the statement that the company had acquired the equities in four houses on Moutrey Avenue, that the profit therefrom would pay a dividend of five per cent., and that the company had acquired other existing contracts from one C. McCormack.

Kingston Uses "Bubbler". KINGSTON, May 3.—(Special.)—A report of the Kingston Board of Health, that the public drinking cups have been abolished, and will be replaced by bubblers.

3000 NEW HOMES

WILL BE REQUIRED TO HOUSE THIS YEAR'S INCREASE OF POPULATION IN CALGARY and this will leave the city at the beginning of next year with no shelter for those who will come here. Where will these houses be built? The valley is filled and the vacant lots are too expensive for the average man. Only in one direction can they go and enjoy transportation, water and other public utilities, **ALONG WITH LAND THAT CAN BE HAD AT A FIGURE THE AVERAGE MAN CAN AFFORD TO PAY.** Look at the map and determine in which direction these advantages lie.

TUXEDO PARK

LIES IN THE HEART OF THE NORTH PLATEAU. Upon this plateau, in sublime view of the eternal Rockies, overlooking the city throbbing with activity below, overlooking Mount Royal and all the hills encircling the splendid metropolis of Alberta, the early future will find a population of many thousands, contented in their homes. Within two miles of the heart of the city, reached by street railway (this year), water sewer, lights and phones (this year), Tuxedo Park becomes for every man who contemplates a home the **HEIGHTS OF OPPORTUNITY.**

Topographical View of Tuxedo Park, Calgary, Looking South

Hundreds of people appreciate the facts as related above and are buying TUXEDO PARK. Whether you contemplate the purchase for a home or as an investment you cannot afford to overlook it. One man, a prudent Calgary investor, took the entire western tier of Tuxedo lots. "What do you want them for?" was asked him. "To build on," he replied with decision. The sale of Tuxedo lots to date constitutes a record in Calgary, the city of records. Are you among the buyers? Think it over. Wide boulevards, parks, superb view, excellent soil, transportation, water and sewer (paid for, for immediate extension), lights, phones, all the conveniences, and within every man's means, **AND BUY TO-DAY.** Intending purchasers may secure illustrated book of Calgary and maps upon application.

Prices, \$400.00 down to \$125.00. Terms, one-third to one-fourth Cash. Balance extending over a year and a half.

Hollinger Still Going Up--Advances 150 Points, to \$12.46

Upward Movement in Hollinger Carries Whole Market Along

Porcupine Issues Display More Buoyancy Than For Some Time—Cobalts Hold at Firm Prices.

World Office, Wednesday Evening, May 3.

Another advance in Hollinger, which carried the stock up to \$12.46 or 150 points above yesterday's closing price, was the chief topic of conversation in brokerage circles to-day. After the advance yesterday traders gave up trying to theorize about the probable market action of the shares, and they were prepared for almost anything at the opening of the exchanges this morning. Consequently there was little surprise expressed when the shares began soaring again.

The opening sale of Hollinger was made 45 points over yesterday's top figures, and the upward move of over a dollar above that point was made with scarcely a set-back. The stock was decidedly scarce, and it was stated that such lots as were put out were transferred again and again at the ever-increasing valuation. Bids were marked up 10 and 20 points at a time, before any stock was attracted, and at the close the shares were not on offer under \$12.50.

The advance in the leader was reflected throughout the Porcupine list and the gold stocks showed more buoyancy than at any time in the last month. This was especially marked in the higher priced issues. West Dome rose up 30 points to \$2.50, and was bid for at that quotation at the closing call. Res, which has been decidedly inactive, scarcely a trade having occurred in the last three weeks, was in strong demand, and a large amount of the stock changed hands at prices between \$6.23 and ten points higher.

The cheaper Porcupine issues were generally affected by the movement and Sweatica, Preston, East Dome, Tisdale and Dora Extension were all higher, the latter shares moving up two points to \$3.40.

The Cobalts were to a large extent neglected, interest being so concentrated in the other section of the market, that traders had little time to devote to the silver mining issues. There was a firm appearance to the whole list, however, and several of the cheaper issues made fractional gains. Timiskaming and Cobalt Lake were both in better demand and changed hands at higher levels.

Sentiment was optimistic throughout, and it was freely predicted that the turn had been reached, and that from now on the Porcupines would experience a better market.

HOPES FOR GREEN-MEEHAN Property Again Producing a Valuable Mine May Result.

Green-Meehan, which was so promising in the early history of the Cobalt, is still thought capable of making a mine of considerable value. The company which has the property under lease is working assiduously and the vein which produced \$92,000 from an open and which later pinched out, has been found at a lower depth. At the mine there are now nearly two cars of ore ready to ship and it is the intention of those working the property to install a concentrating plant.

Green-Meehan shares are being bought by those who have inside information and are willing to await developments. The feeling in mining circles is that the shares may strengthen materially and that without notice.

NOW IT'S THE KLONDIKE. DAWSON, Yukon, May 3.—The spring clean-up of the Klondike district has begun, and it is believed that the gold output this year will exceed \$4,000,000. Last year's output was \$3,600,000.

BIG DEVELOPMENT CO. HOLD 55 PROPERTIES

Faith in Porcupine's Worth Brings Good Results—Properties Worked by Subsidiary Concerns.

PORCUPINE CITY, April 23.—(From Our Man Up North.)—Something of the faith in the future of the Porcupine district that is held by the Development Company of Porcupine, Limited, may be seen in a short resume of the work accomplished by this concern this winter and spring.

Development Co. of Porcupine was organized last October with 12 million to develop. The preliminary development work was merely to ascertain where to place to the best advantage the future development of the properties.

The Development Co. of Porcupine was organized last October with 12 million to develop. The preliminary development work was merely to ascertain where to place to the best advantage the future development of the properties.

G. W. Bennett, Peterboro, Gets Ontario Government Appointment.

St. James Whitney announced yesterday afternoon that the Ontario Government had appointed G. W. Bennett, Peterboro, former colonization road inspector, to the position of superintendent of colonization roads. This position has been vacant for some time, but it was considered necessary to have a superintendent to report on the work in progress. The salary is \$1500.

Gave His Life for Another.

CORNWALL, May 3.—(Special.)—Phley J. MacDonald, son of John MacDonald of Alexandria, who died recently in Philadelphia, was 52 years of age, was elected sheriff of Granite County, Mont., for three terms on the Democratic ticket. He was the first president of the Granite Miners' Union, when it was organized in 1888. His death was indirectly due to injuries sustained in stopping a runaway team and thereby saving the life of the lady driver. He was dragged several blocks.

Death of a Pioneer.

CORNWALL, May 3.—(Special.)—One of the pioneers of the town of Kenyon Township, Farquhar Dewar, died, aged 82 years. Mr. Dewar was born at Glen Elze, Invernesshire, Scotland, and came to Canada in 1852 with his parents, Mr. and Mrs. Ewen Dewar. They located on lot 18, concession 4, Kenyon, where the deceased spent all his days.

Hollinger Advancing Others Ready

Yesterday's advance in Hollinger was only what has been predicted for many weeks back. That it will eventually sell much higher there is no doubt.

We have reason to believe that PRESTON EAST DOME will considerably improve in price in the immediate future. Their Nissen stamp mill will be running on high-grade ore from their Golden Rose vein, which assays \$100 per ton.

DOMESTIC EXTENSION is proving up remarkably under Captain Anchor's wise supervision.

AND DON'T FORGET ELBORADO. We received another telegram from our engineer yesterday, which is most enthusiastic. Heavy buying orders are coming in, and the only offering which this company will put out at 10 cents will soon be exhausted.

PORCUPINE THE GOLDEN CITY

Station of the T. & N. O. R.R.

The Town of Porcupine is located on Porcupine Lake, in the heart of the greatest gold field ever discovered. Stages and motor boats clear in every direction to the various mines. "Bobs Lake," a mile distant, the source of water supply, now being installed for the town, has been carefully analyzed and is the only body of water in the vicinity that is adapted for drinking and cooking purposes.

It is worth your time to think about it as a business proposition. But act quickly before the choice sites are selected. Every mile of advance of the railroad adds value to the value of the sites, and the value of the sites is the only body of water in the vicinity that is adapted for drinking and cooking purposes.

TIM MARLEAU, Box 158, Porcupine.

PORCUPINE

We advise the purchase of the better class of Porcupine stocks, and shall be glad to give our reason for this advice.

We have prepared a new up-to-date map, which may be had on application.

REALTY VALUES IN CALGARY ARE STEADILY CLIMBING

Buoyant, But Sound Market, and Everybody Doing Well in the Deals.

CALGARY, May 2.—In the midst of all the "movement" attending the growth and expansion of this city, and which involves an expenditure this year of twenty to twenty-five million dollars, it is interesting to note the trend of the realty market, which is steadily and strongly upward. There is no inflation, nothing to indicate the so-called "boom" which is often a fitting subject for depreciation; all values are climbing, but yet in the most natural, business-like way. Nobody seems to be excited, and yet everybody is interested and busy. And what is particularly well worth noting, in all walks of life, the citizens are prosperous-looking.

Because it is a good and staple commodity, realty is being handled by all classes. Still, for the most part, transactions are on straight, conservative lines, with the live-and-let-live principle pretty generally observed.

The activity in residential property exceeds expectations. The population increases at the rate of 3000 a month. Many of the new comers are heads of families who have decided to make a permanent home in Calgary. They buy city lots and prepare to build. This makes for residential realty rises. The north section of the city is fast being taken up and bids fair to become the most popular suburb. "Tixie's Park" is coming into its own, for one subdivision. It is ideally located and with the extension of the street railway, city water and other public utilities, cannot fail to attract the best class of home builders. As an assured solid investment for eastern people, who want to place money in Calgary property and earn handsomely, "Tuxedo Park" will rank with the very best propositions now being offered.

MINING CLAIMS

The owner of valuable claims in Porcupine requiring capital will sell part interest. This is a rare opportunity for securing an interest in a real mining property for a small investment.

ADDRESS---BOX 2, WORLD

MAPS

We will receive shortly a large supply of Northern Ontario Township Maps, showing all the Mining Districts, including Cobalt, Porcupine, Swastika, Munroe, Cripple Creek, Elk Lake, Gowanda, Shining Tree, Maple Mountain and South Lorraine. Map shows the line of the T. & N. O. Railway, and also the line of the new spur into Porcupine and country traversed by Montreal River.

Will be pleased to send copy of this map free on application.

Don't Neglect Cobalts

Since the introduction of the Porcupine stocks there has been a disposition to disregard the Cobalt securities. Prices for the silver shares are low, and we expect a good advance to take place at once.

In Porcupine GOLD REEF and STANDARD PORCUPINE are two cheap stocks which will undoubtedly make good profits for present buyers.

Small

CHICAGO, May 3.—The market for wheat is showing a falling tendency. The statement putting the wheat market in a pessimistic aspect, an increase in the acreage of wheat in Argentina, and the fact that the wheat crop in Nebraska is not so good as it was last year, are all factors which are likely to bring about a decline in the price of wheat.
