HINDENBURG LINE BROKEN BY BRITISH

BRITISH SURPRISE ATTACK SMASHES GERMANY'S LINES ON THIRTY-TWO MILE FRONT

Two German Defensive Lines Breached in Drive Which Carries British Five Miles Into Enemy Territory—French Also Launch Big New Offensive.

London, Nov. 21.—The great Hindenburg defence line, upon which the German commander-in-chief had built his hopes of holding the British from inroads into the open territory beyond, has been smashed. And the task apparently was an easy one.

The apex of the offensive apparently is centred on the important railway junction of Cambrai, lying to the east of the old line midway between Arras and St. Quentin. Here, having taken the towns of Maroing, Anieux, Graincourt and Noyelles, the victorious troops at last accounts were well within gun range of Cambrai, with its railroad lines and roadways branching out toward all the main points of the compass.

Synchronously to the south around St. Quentin and east of that point in the Alsace region the French have begun an offensive. While no details of this movement have been received, it doubtless has the object of pushing back the Germans eastward in the former sector and northward in the latter region toward Laon—strategic moves which, if successful, doubtless would compel that portion of the German line north of St. Quentin which is still intact to fall back precipitately eastward.

OVER EIGHT THOUSAND PRISONERS CAPTURED, GEN. HAIG ANNOUNCES

British Continue to Make Important Progress West and Southwest of Cambrai, With the Tanks Still Rendering Great Assistance to the Advance—Two More Villages Captured—Hostile Counter-Attacks Repulsed.

London, Nov. 21.—The report from Field Marshal Haig's headquarters tonight on the British drive in the Cambrai sector reads: "Important progress was again made today west and southwest of Cambrai, the rain has fallen continuously. "Reinforcements which the enemy hurried up to the battlefield to oppose our advance have been driven out of a further series of villages and other fortified positions, and many additional prisoners have been taken. The tanks have again given great assistance to the advance. "On our night we made progress in the direction of Crevecoeur-sur-L'Escaut. Northeast of Masnières we captured the enemy's double line of trenches on the east bank of the Scheidt Canal. Sharp fighting occurred in this neighborhood and hostile counter-attacks were driven off. "North of Croisilles the village of Noyelles-sur-L'Escaut was captured early in the morning. Here also heavy fighting occurred and the hostile counter-attacks were successfully repulsed. "During the morning Scottish troops, moving northeast from Flequières, captured the German defensive lines southwest of Cantais and the village itself, together with five hundred prisoners. Later in the day they continued their advance and established themselves in positions more than five miles behind the former German front line. "North of Anieux Westring battalions have been engaged with the enemy south and southwest of Bourlon Wood. Further West Ulster regiments crossed the Bapaume-Cambrai road and entered Moeuvres. "During the day strong hostile counter-attacks against our new positions in the neighborhood of Boullcourt have been defeated. "The number of prisoners who have passed thru our collecting stations exceeds eight thousand, including 180 officers. The number of guns captured has not yet been ascertained."

ADVANCE IS CONTINUED.

British Army Headquarters in France, Nov. 21.—(By the M.A.P.)—The advance of the British army against the Germans for the past few days has been a most remarkable one. The advance of the British army against the Germans for the past few days has been a most remarkable one. The advance of the British army against the Germans for the past few days has been a most remarkable one.

FORCES OF BRITISH CAVALRY CO-OPERATE WITH INFANTRY AND TANKS IN BIG NEW DRIVE

Open Fighting in Progress at Many Places and Mounted Troops Get Chance at the Enemy—British Still Push Advance Forward in Direction of Cambrai—German Casualties Heavy.

British Army Headquarters in France, Nov. 21.—Thousands of British cavalry today were co-operating with the great army of tanks and infantry in continuing the successful assault begun yesterday by the British troops against the Hindenburg defence over a wide front in the Cambrai section. Open fighting has been going on at many places since yesterday, and the horse troops, who long had waited for a chance to vindicate their existence in this war, were rendering invaluable services in "mopping up" the enemy territory. Bitter fighting occurred at many places, but the British forces, who up to this morning had penetrated strong German positions for a distance of some five miles, were still pushing onward this afternoon. Masnières, Maroing, Ribecourt, Havrincourt, Graincourt, and Flequières all lay behind the advancing troops, and by noon the cavalry was to be seen drawing in on the Bourlon Wood, which lies west of Cambrai and dominates that town. The Masnières-Bourvoir line of trenches was penetrated today. It is believed that the prisoners already in the British cages this morning for any one to see who cared to visit them. The German losses have been heavy. At least four divisions of infantry were drawn in toward the Bourlon Wood, west of Cambrai.

But Half the Amount Aimed at Has Not Yet Been Subscribed.

In the latest drive in Flanders the tanks have again played a prominent part. Just how big that part was the citizens of Toronto yesterday got some idea when they witnessed the giant tank Britannia caterpillar its way thru the city streets, saw it twist its massive bulk around with surprising ease, and beheld the spectacle of a big limousine car being pulverized by the new demon of war. If anything were needed to bring war home to the citizens that thing was a British "tank" in action. The thousands of people who lined the streets had their wishes gratified in every detail. The American marine band, American rifles, American overseas troops, together with these of their armored cars, shared the glory with the tank and its brave crew.

A noisy drizzle did not stop the parade thru the city streets. The British tank, under the command of a lieutenant, Capt. Haigh, climbed over a sturdy limousine car on University Avenue. It pointed its nose skyward and it looked to the thousands of people gathered as if it must upset, but the monster crushed the limousine back beneath it and went soon crawling back and forth over the wreckage. The manner in which it surmounted the obstacle was a revelation to everybody present. The car was donated to the Victory Loan, the owners simply desiring to have the tires tested.

Perhaps the wet weather had something to do with the tank's failure to do as well as expected in Victory bond sales. The results for the day show that the middle class investor must still come. The wet weather prevented any big sale of bonds around the tank while it was on exhibition in Queen's Park, but some business was transacted.

Mogul Engine to Run. Many people disappointed at not seeing the big C.P.R. Mogul engine go up Yonge street yesterday, and some were heard to say "Fake." The publicity committee was unable to get the engine up to the big parade owing to military regulations, and as the weather conditions were not ideal for the spectacle the engine was held at the West Toronto yards. It will run over the streets some time during the week, and the public will be informed of the time.

Hints of the approach of a giant to the city have often been made in past campaigns, but today a real giant will parade thru the downtown section of the city, advertising Victory bonds. This superman is eighteen feet high. He looks in second-story windows, glances over the tops of street cars, and despite his great height moves about in a free and easy manner. The giant arrived in Toronto last night. Owing to his weight he is a little afraid of slippery pavements, but unless the weather grows worse he will be out today and sink thru the streets for a week.

It has been said that this is the giant "Defeat," but the Victory Loan committee claims not, and says that he is a friend who has often been coming our way but has suffered thru reverses and that his right name is "Victory." He is very popular with the allies, and feels sure that they will win if everybody has the courage to dig down deeply and buy Victory bonds.

President Falconer followed in a brief but eloquent speech, pleading for national unity. The defeat of Union government, he said, would accentuate and embitter racial differences and would be the greatest misfortune that could befall Quebec. (No Apology to Make. Hon. N. W. Rowell said he had no apology to make for being a member of the Union government. The Liberal.

GERMANS NOW MAKE STEFFER STAND ON LINE

BIG VICTORY IS ACCLAIMED BY BRITISH

Enemy Troops Put Up Determined Opposition to British Advance.

TANKS STILL BUSY
Great Landships Continue to Mop Up Positions of Germans.

By the Associated Press.
British Army Headquarters in France, Nov. 21.—About 5000 German prisoners were in the British cages this morning as a result of yesterday's attack in the Cambrai sector, and nearly a score of guns were captured.

The British continued the attack today and the troops which had poured through the gaps torn in the Hindenburg line by the tanks were making good progress in mopping up the enemy territory west and southwest of Cambrai. Marston and Maziennes are well in the rear of the advancing British, who were pushing on toward Cambrai at the latest reports. Marston and Maziennes, south of Cambrai, had been entered and the high ground north of Marston known as Fromy Chapelle, had been fought over, the Germans being forced to withdraw.

The Germans this morning appeared to have stiffened their resistance and were reported to be fighting with more determination on their last line of defence in these parts.

The correspondent early today passed the main Hindenburg line near Havrincourt. The paths of the tanks through the great mass of barbed wire before this line could be clearly followed. In many places the tanks had torn the obstruction away completely, leaving wide gaps which were entirely free for the troops to pass thru. The German trenches and dug-outs were in a state of confusion, which showed plainly the haste with which the enemy abandoned this famous ditch.

There was very little artillery work on the German side in this section this morning, and no man's land, where one would expect to find heavy guns, was quiet except for the British construction operations which were being carried out rapidly. Tanks are being pushed thru with great speed to keep pace with the advance.

CAVALRY FORCES IN BIG NEW DRIVE

(Continued from Page One.)

Infantry had been badly smashed since the fighting began.

Large numbers of civilians already have been released from captured towns. About 600 were brought back from Masnières, and other places furnished their quarters to non-combatants who received their deliveries with rejoicings.

To General Byng, who fought on the Cambrai Peninsula, who won fame as the commander of the Canadians who took the Vimy Ridge on the western front, falls the honor of having planned and successfully carried out the present drive, in which tanks and the cavalry have played such a leading part. General Byng staked his chances on the tanks, and the tanks made good beyond the wildest expectations.

Just before these mighty engines went forward to prepare the way for the infantry and cavalry the general commanding the iron monsters distributed an order of the day in which he said:

"We expect every tank to do its damndest."

They did this and dealt the Germans one of the most staggering blows they have received in many months. With the tank general leading them in a monitor, which new and daring charges thru two of the strongest lines in the German defence system on the western front and penetrated the fortified trenches had not been there, and behind them on a front of some six miles infantry and cavalry poured thru the great gaps which had been made.

MAJOR COCKBURN WANTS TO CONSCRIPT ALIENS

Adds Mass Meeting in East York to Further His Candidature There.

Conscription of alien labor in Canada for work on the farms and in essential industries is one of the planks of the platform of Major R. C. Cockburn, soldiers' candidate in East York, who conducted a successful meeting in Shell's Hall, corner of Broad street and Market street last night. Major Cockburn stated that he was in favor of conscription of both men and women in order that the men at the front might be properly equipped with reinforcements and munitions.

AMERICAN DESTROYER SINKS IN COLLISION

Washington, Nov. 21.—Lieut. Commander Walter E. Reno, the commanding officer, his two junior officers, Lieut. Charles F. Wedderburn and Ensign Harry G. Skinner, Jr., and 18 enlisted men were lost in the sinking of the American torpedo boat destroyer Chauncey in a collision in the war zone Monday morning, the navy department was advised today by Vice Admiral Sims.

Premier Goes to London.
After the Massey Hall meeting last night, the Premier returned to the Queen's Hotel, where he was in conference with J. R. L. Starr and Hon. Dr. Reid. This afternoon at 1:35 he leaves for London, where he speaks tonight.

Haig's Report on Breach of Hindenburg Line Thrills British.

MANY SURPRISES
Wonder Expressed Over Complete Success of Whole Unique Operation.

London, Nov. 21.—In one of his longest communiqués Field Marshal Sir Douglas Haig, commander of the British troops in France, thrilled the British nation today with news of perhaps the most striking victory yet achieved on the western front and certainly, owing to the novel phases of the British attack, a victory re-creating hope at a very gloomy period of the war.

"The Hindenburg line smashed" was the glad caption in the evening papers and aptly focuses the event engraving public interest and attention and also there was no marked sign of public jubilation, wherever men gathered together there was acclamation of the brilliant achievement of the British. Haig and General Byng, and discussion of the surprising features of the attack first, its secrecy and surprise to the enemy; second, astonishment at the number and the novel employment of tanks; third, the absence of artillery preparation and the customary barrage to assist the infantry advance, and fourth, there were many guesses why the tremendous German defensive organizations in the attacked area, in the words of one commentator, "melted away" before the British onslaught.

Everywhere the victory was heralded as the forerunner of still bigger things, and the question "What next?" is on everybody's lips. General Byng is the hero of the hour—the honor of planning and carrying out the unique stroke belongs to him—and his picture and sketch of his career appear in all the papers.

The Hindenburg, or Siegfried line, which the Germans had been believed by the Germans to be strong enough to hold back the world armies. Its triple cordon of three parallel trench systems had a central line with great tunnels, with openings at frequent intervals, making it unnecessary for the troops to move above ground, thus keeping the garrisons safe under the heaviest gunfire. It is believed that much of this tunnel is now in the possession of the British.

FRENCH BEGIN ATTACK IN REGION OF CRAONNE

Allies Capture Strong Defences on Front of Less Than Mile at Juvincourt.

Paris, Nov. 21.—The French troops today attacked in the region to the north of Craonne and Berry-au-Bac on a front of about two-thirds of a mile and penetrated the German positions to an average depth of about 400 yards, capturing strong defences and taking 175 Germans prisoner, according to the French official communication issued this evening.

The communication says: "West of the Miette River, we attacked today at about 2 o'clock on the salient of the German line to the south of Juvincourt. On a front of about one kilometre and to an average depth of 400 metres our troops reached all their objectives and captured strong enemy defences."

Between the Miette and the Aisne rivers our patrols brought back about 40 prisoners.

"The artillery activity has been spirited in all this region.

"On both banks of the Meuse several attempts against our main posts were stopped by our fire.

"In upper Alsace a surprise attack by the enemy to the north of Larziguen failed."

BRITISH FIVE MILES OFF JERUSALEM CITY

Scottish Troops Occupy Beit Lika, Northwest of Holy City.

London, Nov. 21.—An official report says: "There is no change in the situation north of Jaffa.

"On Monday Kurat-el-Bnadi, six miles west of Jerusalem, was carried to the point of the bayonet by Territorial troops in the northwest, was occupied by Scottish troops.

"Yesterday our mounted troops were in contact with the enemy four miles west of Beit Lika, on the Jerusalem-Jericho road."

BRITAIN HAS ABOLISHED VOTES FOR OBJECTORS

House of Commons Disfranchises All Conscientious Objectors to War.

London, Nov. 21.—The house of commons by a vote of 209 to 171 adopted an amendment to the electoral bill disfranchising conscientious objectors to the war.

In the course of the debate, which lasted through the entire afternoon, Andrew Bonar Law, chancellor of the exchequer, announced that the government did not desire to interfere with the house in any way on the question, but that it would leave the members free to vote as their consciences directed.

Calds Cause Headache and Grip.
LAXATIVE BROMO QUININE removes the cause. There is only one "Bromo Quinine." B. W. GROVE'S signature is on box. No.

During the big parade yesterday a big limousine was placed in the centre of University avenue, and the tank went over it, reducing it to matchwood.

SUBMARINES GET SEVENTEEN SHIPS

Ten British Merchantmen of Over 1,600 Tons Sunk the Past Week.

London, Nov. 21.—Seventeen British merchantmen were sunk by mines or submarines last week, according to the weekly statement issued by the admiralty. Of these, ten were vessels of 1600 tons and over and seven of less than 1600 tons.

Last week's record of British merchantmen sunk greatly exceeds that of the previous week, when only one vessel of 1600 tons or over and five craft of less tonnage were sent to the bottom. In fact, it represents in the aggregate the greatest number of vessels destroyed since the week of Oct. 28, when 15 were lost. Since then there had been a gradual falling off in shipping losses until the minimum since Germany's intensified submarine campaign began was reached Nov. 11 with a total of six.

As far as the losses of large vessels are concerned, however, the present admiralty report apparently bears out the optimistic statement made recently by Premier Lloyd George that he had no further fear of submarines and of the first lord of the admiralty that enemy submarines were being sunk to an increasing extent, for the sinkings in the 1600 and over category this week were the lowest since March, except for the two weeks of Sept. 16, Nov. 4 and Nov. 15, when in the two former weeks the total in each instance was eight and in the latter one Premier Lloyd George, in his address to the house of commons early in the present week, said that five submarines had been destroyed last Saturday but he gave no further information on the subject.

Clas, the new first lord of the admiralty, in his maiden speech before parliament, asserted that between 40 and 60 per cent of German submarines operating in the North Sea and the Arctic and Atlantic Oceans since the beginning of the war had been sunk. He added that enemy submarines were being sunk to an increasing extent, but that the Germans were building them faster than they previously had done.

The admiralty statement follows: Arrivals, 2531; sailings, 2462. British merchantmen sunk by mine or submarine, over 1600 tons, 10; under 1600 tons, 7. Fishing vessels sunk, none. British vessels unsuccessfully attacked, 2.

MAY NATIONALIZE RAILWAYS IN U. S.

Shippers Urge This Recommendation by Interstate Commerce Commission.

Washington, Nov. 21.—In a brief submitted to the Interstate Commerce Commission today in the 15 per cent advance freight rate case, Clifford Thorne, leading counsel for the shippers, suggests that the commission recommend that the government take over the operation of the railroads for the duration of the war.

Mr. Thorne pointed to the fact that Frank A. Vanderbilt, New York banker, testified that he believed the rate increase would not only as a public nuisance but also as a hindrance to the war effort, and to the statement of Samuel I.son, president of the Pennsylvania Railroad, that he did not believe the roads should attempt large bond flotations when the government was putting out loans.

After asking "that if the government can buy several hundred million dollars worth of cars and engines for France and Russia, why can't she buy some cars and engines for American railroads?" Mr. Thorne said: "If your government takes over the operation of the railroads for the period of the war and guarantees the dividends that were paid during the pre-war period we should be entitled to the profits over and above those dividends, for we will be substituting a government bond in effect for a railroad stock. In surplus this would mean an earning that would go to the government of approximately \$100,000,000 annually in official classification territory alone."

ONWARD MOVEMENT FOR CZAR AND RUSSIA

New Organization Begins Work for Restoration of Monarchy.

Petrograd, Nov. 21.—The Novaya Zhenitsa (New Dawn) party, a group of monarchists, is described in the form of a manifesto of a monarchist union whose slogan is "Onward for the Czar and Holy Russia." The manifesto says the union purposes to take an active part in the constitutional assembly and has suggested as its representatives Vladimir Purishkevich, General Brovloff and M. Dragomiroff. It is the intention of the organization to work openly in rallying adherents.

8,000 PRISONERS ARE CAPTURED

(Continued from Page 1.)

5:30 o'clock in the morning, dropped a barrage along a section where it probably appeared as though the British might be planning a raid. The enemy presumably had been looking for something in this nature, but they did not expect a battle was clearly evident.

The correspondent reached a point near the British line a little after 8 o'clock. At that hour there was very little artillery work on either side. Machine guns occasionally spoke out from the staccato base as sentries on one side or the other thought they saw a head over a trench top.

Then came a period of absolute stillness. Suddenly the long line of British tanks moved forward, and in a moment the variegated signal lights of the German host high in the air. The British troops came out of their shelters and with fixed bayonets and grenades followed the tanks swiftly towards the enemy barracks.

The ground was firm and covered with long grass. There were few big shell holes such as are to be seen in Flanders, for comparatively little artillery work had been done against this sector. It was ideal going for the big land monitors, and they made the most of it. As they started forward the British put a heavy screen of smoke up all about them so that it was impossible for the enemy to see them many yards away. The tanks worked steadily all the while, never stopping surging thru it towards the barbed wire entanglements, their guns working steadily all the while. Here was a point where it had been feared they might encounter difficulties, but they did not. They pushed the barbed wire, and by 7:29 the British infantry were going thru the gaps this made.

RUSSIANS WIN VICTORY ON THE CAUCASIAN FRONT

Defeat Enemy on the Dyal River and Capture Almost Two Thousand Prisoners.

Petrograd, Nov. 21.—The Russian Caucasus armies have won a marked success against the enemy along the River Dyal, according to information reaching the army and the workers' and soldiers' delegates. The Russians initiated an attack and overcame the enemy, capturing 1600 of them, of whom 134 were officers. The morale of the troops is said to be excellent.

BRITISH PATROL TORPEDDED

London, Nov. 21.—A British patrol vessel was torpedoded by an enemy submarine in the Mediterranean, November 18, according to an admiralty statement issued tonight. Four officers and five men of the crew were killed.

U. S. MAY DECLARE WAR ON GERMANY'S ALLIES

Senator Hitchcock Speaks of Knotty Points in Policy Advocated.

Washington, Nov. 21.—Whether the United States shall declare war against Germany's allies promises to be a subject of considerable discussion at the next session of congress, said Senator Hitchcock, ranking minority leader of the foreign relations committee, upon his return today to Washington. In his opinion the question presents many complications, and is one of extreme delicacy as well as importance in immediate and future developments of the war.

The declaration of war against Austria-Hungary and Serbia, which was proclaimed by the United States, might be construed as endorsement of Italy's demands upon Austria. Three times a demand for territory which virtually would deprive Austria of every support—a fruitful situation for a future war. It is a question whether the United States would be willing to give such an endorsement.

The strike among the Kansas City trolley men may be broken by the use of linen conductors and motor-men.

ITALIANS REPULSE MASSSED ASSAULTS

Great Battle Concentrating on Three Main Fronts, With Italy's Front Well Withstanding Hammering of Austro-Germans

Italian Army Headquarters in Northern Italy, Tuesday, Nov. 20.—The heavy fighting which began on Sunday in the north continues with great violence, centring on the slope of Montefenera.

Enemy masses alternate fierce artillery attacks with infantry assaults, which have been repulsed by the heroic bravery of the Italian troops.

The battle is taking a wide range and gradually concentrating on three main fronts. It is not a question of gaining or losing kilometres, but it is a gigantic battle in which Italy's part in the war, with its resultant effect on the allies, is largely at stake.

The Austro-German offensive which began three weeks ago has not diminished, but is steadily intensifying. Frontal attacks thus far have failed on the Piave and the northern Asiago Plain. This compels the enemy to attempt to make a breach by one of the Italian flanks as the only resort, after the checking of the frontal attacks. This explains the gradual shifting of the front to three main divisions: First, along the Piave; second, from the Piave to the Brenta; third, from the Brenta.

The enemy's advance on the Piave and the menace to Venice is fairly well checked after the bloody repulse of the last few days, but the Austrians and Germans are still on the east bank of the river, with formidable forces pressing against this narrow stream.

At the other end of the line, behind the green slope of Piave, the Italian cavalry, the Italians have made a splendid resistance and the enemy attack has been worn down after it had suffered losses estimated at good part of three divisions. But in the central section between the Piave and the Brenta Rivers, the Italian offensive Sunday are being steadily augmented, and it is in this portion of the line that the conditions continue grave.

The Italian positions which General Diaz announced as abandoned are north-west of Quoro, on the upper Piave and the front runs south of Quoro. It is along this line, where the mountains meet the plain and the river valleys, that the greatest effort is now being made, near the Brennero and Monte Tomba. This northern sector is very vital to the eastern front, along the Piave, as a breach at the north would bring the enemy in the rear of the Piave line, which thus far has resisted all frontal attacks. For this reason attention is being anxiously directed towards the north, not only as regards the immediate repulse but in connection with its effect on the Piave line.

The Count of Turin, commander-in-chief of the Italian cavalry, has issued an address highly commending the part taken by the cavalry in repulsing the retreat to the Piave. The Italian cavalry is now in a position to press against this narrow stream.

FORMER OPPONENT FAVORS ARMSTRONG

T. C. Robinette Urges North York Electors to Support Union.

T. C. Robinette, K.C., who opposed J. A. M. Armstrong in North York and was defeated by him in 1911, has issued a letter to the electors of that constituency asking them to support Mr. Armstrong. A copy of the letter has been sent to The World. It follows:

Nov. 21, 1917.

Ladies and gentlemen:—This is a period of the severest trial for Canada. No party feelings must weigh against the highest and only duty of the hour. The man who, with his vote and influence, delays the despatch of reinforcements for our men in France is not far removed from him who betrays his country. Thousands of Canadians in Canada have determined to leave behind them old ties and affiliations in order to assist in saving their country and doing their duty by the empire. They may have regretted thus abandoning the leadership of one whom they gladly followed in days gone past, but even now, impelled by the highest sense of honor, has compelled them to adopt this course.

The policy of the Laurierites or non-conscriptionists, if successful, would bring undoubted disaster to our Canadian army so valiantly struggling in France, and would tear from Canada's brow the laurels she has so dearly won, and at the same time would stamp her unworthy of continuing a true daughter of the empire and a valued ally with the others.

To end the war speedily is the plain duty of every ally. We can't afford to delay. Tomorrow may be too late. It is a question of now or never. Rome may be even on fire at this instant, and no fiddling non-paying the tunes of petty party politics should be listened to for one moment by any true Canadian while the best and bluest blood of Canada is coloring red the green slope of Piave. Let the men and women of Canada now arise and say: "We will send our men to the front and support that glorious standard now battling for the very life of the empire and for the freedom of the whole world."

Often have we heard Sir Wilfrid Laurier say that if ever the empire were in danger Canada would stand her last man and her last dollar in aid of the mother country. That indeed was sound doctrine and all Canada applauded. Let us follow it now, as never before were these men and dollars needed as they are at the present time. Let us stand by the side of our brave men and women who are now in the front lines of the battle, and let us support the man who has shown himself to be a people's man and a true Canadian.

I have no fear that Canada will do this, but let us be on the watch and see to it that such a condition of things is not, by your vote, again a possibility.

No one regrets more than myself that Sir Wilfrid Laurier has seen fit to take the course he has chosen, and so compelled thousands of tried and true Liberals who loved and followed him for years to say: "Sir Wilfrid, thus far and no further can we go with you. We must follow the guidance of our consciences, and think provincially, but impartially, in the empire's dearest hour of need, and to help maintain liberty and freedom upon once published to the whole world. We support the union government, composed of Conservatives and Liberals who are prepared to wage a war policy with one aim, namely, to win the war, bring our boys home to our families and forever bring to a peaceful end the world and pack that peace of the world and pack the peoples of the world. Therefore, in my opinion it is your clear duty to support Mr. John Armstrong in this election."

(Signed) T. C. Robinette.

First of All, Some of the Joys of Toyland

One of the Special Attractions—the Hug Enormous Noah's Ark, Sketched Below, and Just Crammed to the Cunning Little Window in the Roof With All Sorts of Animals.

CAN YOU IMAGINE its size from this little picture? It's almost as big as a house. And oh! you should see the wonderful collection of animals! There are rows and rows of them that you may glimpse through the windows—tigers treading on the toes of ducks, elephants walking over pigs and horses; big snakes coiled up amongst the monkeys, and so many hosts of others that you wonder how Noah could have possibly managed them all. To describe a few:

First of all, the Teddy bears which everybody loves. These are obtainable with nice, silky-looking coats, and faces which have a very knowing expression, ranging from sizes suitable for quite small babies, at 75c, to quite big fellows at \$2.75.

Then there are the loveliest soft cats of white felt with brown ears and blue or red collars. Prices, 35c and 60c.

Nice, big, solemn-looking elephants covered in grey flannel, with red or green velvet howdah cloths on their backs, can be seen in quite a small size at 15c, and in larger sizes at \$2.00, while a big, ferocious-looking elephant, with white "tusks," is \$3.25, and another on wheels is \$2.75.

Horses with tossing manes and waving tails—white or grey ones on wheels, with red saddlecloths and black trappings can be obtained at 25c, 50c, 85c and \$1.50, and a wooden one that moves its head as it goes along is \$2.25.

Lions on wheels are 60c, and wooden tigers on rockers like those you may see on the right of the ark are 15c and 25c each.

Then you may see all your old friends out of books—"Peter Rabbit," with quite a worried expression, but very smart in his checked waistcoat and red coat, being \$1.75, and Myn, the bunny, dressed in pink, at \$1.00.

The Quacky Daddles family are there with their long, slender necks and jointed legs. Quacky Daddles, at 65c each; Grandma Quacky Daddles, at \$1.75.

Very interesting, too, is the Goose Girl, with her uoek of geese, and the cowherd, with his cows, all of wood, each set being 75c.

Santa Claus in Toyland, 9 to 11 a.m., and 2 to 4 p.m. Come and See Him

And These Bargains in Toys for Friday

 - Questions and Answers game. Reg. 25c. Friday, 18c.
 - 4 Dolls' Chairs and Table, of bamboo. Reg. 50c. Friday, 39c.
- Toyland, Main Floor, Furniture Building.

"Do or Die"

THIS is the soldier's motto as he looks at his responsibility regarding the war.

Why should we set a lower standard for ourselves?

Our country calls to us at home—to Women and to Men who Cannot Bear Arms, to lend our money for the fight against the Hun. Can we refuse, and still call ourselves patriotic?

Let us "do or die" in this matter of Canada's great fourth War Loan.

And Put the Last Penny We Can Spare Into

Victory Bonds

T. EATON CO. LIMITED

THE STORE'S CONVENIENCES
The Waiting and Rest Room, Third Floor. The Information Bureau and Postoffice, Main Floor. The Free Parceling and Checking Room, in the Basement.

F. Quaintly demure, she waits into the picture in her smart little frock, which, though it be of blue serge, is so unusual in design that it's very captivating. The two little pockets on the panelled bodice are bound and lined with red flannel, matching the French knots that are embroidered round the collar. Obtainable also in royal blue, green and dark red. Sizes 8 to 10 years. Price, \$6.00.

G. A really truly practical dress! Then here it is. And although it's so practical it has a great many features that will endear it to the schoolgirl's heart. To begin with, the quaintly-shaped yoke, beneath which two box pleats disappear, to be held—apparently—by buttons. Then there is the smart black patent belt, with its pouch, and the yellow and white braid trimming and yellow tie. The material is a fine men's wear serge in navy blue. Sizes 8 to 14 years. Price, \$13.00.

H. The popular navy blue serge, too, fashions this little frock, with its pleated skirt, attached to a pique top, over which is worn a quaint little coat. Its corners, like the corners of the loose sack, are embroidered with green and blue. The wide collar, which, by the way, is part of the pique blouse, is edged with purple lace. Sizes 8 to 14. Price, \$3.95.

J. A winsome little frock, and as pretty in coloring as it is in style! For it's made of a soft material, almost a pale buff, cotton, also in blue and green, the pipings and smocking being carried out in old blue, and the little, wee buttons that trim it being of cut pearl. The back is something like the front, with a panel-like yoke, to which the skirt is smocked. And quaintest touch of all are the pretty pockets, with their blue edging. Sizes 6, 8 and 10 years. Price \$8.50.

N. Can you imagine a little girl who wouldn't love a bedroom suite of her very own—a suite in miniature, in grey or ivory enamel, with painted Mother Goose and squirrel decorations? The bureau sketched is just a part of it, and measures 4' 6" to the very top of the mirror. It is well constructed, with drawers that can easily be pulled out by small people, and the price is \$16.50. Other pieces in the same suite are a toilet table, with wing mirror and one drawer, \$10.00; a chiffonier, \$13.50; arm chair with seat back and seat, also ornamented with geese and squirrels, price \$5.50; a lovely chest with a top that lifts up and can be used either for toys or clothes, price \$5.75, and the bed described below.

P. Just think what dreams any small person could have in a bed like this, the head showing Mother Goose flying on her own particular goose straight off to Fairyland, where the nicest dreams are made, and the foot showing Mother Goose with her broom and the most mysterious expression when she has come back. And fathers and mothers will like to know that this same bed is very substantial. Obtainable in ivory enamel, with blue or brown decoration, and in grey, with red. Price, \$9.50.

K. Surely she can safely defy the wintry blast, the girl who wears this sturdy coat. It is made of a heavy Oxford grey coating, with a chinacilla finish, is lined throughout, and the collar can be wrapped close about the throat, as in the sketch, or worn low. The double belt goes all round and buttons at the sides. Sizes 6, 10, 12 and 14. Price, \$8.95.

A. Warm winter underwear, of course, little Miss Schoolgirl must have, and what would you think of this white flannel petticoat to begin with? The skirt is full, is slightly gathered on to the top, the frill being edged with lace, and the top is of soft white cotton. Sizes 6 to 12 years. Price, 55c.

B. "How could any little girl feel the cold in such nice, warm combs?" the demure maiden on the left seems to ask. They are made of a mixture of wool and cotton, are soft and finely knitted, and the mixture of cotton will not only do much to prevent their shrinking, but it prevents that "tickly" feeling which is often such an affliction in winter combinations. They have a flap at the back, and fit closely from ankle to wrist. Sizes 6, 10, 12 to 14. Price, \$1.85.

C. Very sleepy! But then it's worth while being sleepy when you have such nice pyjamas as these to go to bed with. And they are wonderfully cozy—made of heavy flannel, with a soft, woolly finish, and they're striped in mauve, blue or pink, with frogs of silk braid to match. The trousers fasten at the left side with a cord of the material. Sizes 6 to 12 years. Price, \$2.25.

D. Why does the pussy cat sit taking with her seems filled with joy at the antics of the funny Teddy Bears that disport themselves round the legs and sleeves and on her pocket, and of course any little girl would be delighted to possess such amusing sleepers. And her mother will be interested to hear that they're made of heavy, fuzzy flannel—pink or blue, with white spots and brown bears. They fasten up the back and have 3 or 4 seats. Sizes 6 to 12 years. Price, \$1.50.

L. A most inviting little chair, isn't it? As nice as the Baby Bears that Goldilocks found so comfortable, for it's just the right height for people who haven't very long legs. It is made of brown rattan, with a pretty woven back, and is priced at \$3.00. The rocker to match is \$3.25. Others of the same family can be obtained with high back and roll edges—just miniatures of a grown-up rattan chair, at \$3.00, and rockers at \$3.25.

M. If you didn't know it before, allow us to introduce you to a kindergarten set—a table and 2 chairs in miniature, which any small person would find a delightful possession. They are just the right height for playing games, for busy small people who sew, and are even big enough for nursery tea. They can be obtained in a bright red—the most popular among boys and girls—also in brown finish, with a little—a very little—decoration in gold. Price of the three pieces, \$2.00.

E. Such a nice, cozy night to pop between the sheets with. And it has such a pretty tucked and embroidered yoke and sleeve. Frills that it is no wonder the girl of the picture admires it. Fashioned of soft, white flannel, and cut with quite a wide skirt, it should wash and wear splendidly. In sizes 6 to 10, price 80c. In sizes 10 to 16, price \$1.00.

ST. MATTHEWS LAWN BOWLERS' PRIZES

Club Winners Receive Their Awards, and the Ladies Played Cards.

The St. Matthew's Lawn Bowling Club, the most successful in the city the past season on the green, held a social evening last night in the R.C.B.C. rooms, Broadview avenue, when the club prizes were presented. The members entertained their wives and lady friends, progressive euchre being a feature. President John Maxwell was chairman. Several other past presidents, Joe Taylor, Aid. Hiltz, A. E. Walton, Jos. Russell, M.L.A., were on hand to assist the presentations. Following is the list of prize winners:
Voice singles for Freyena's Trophy—1. Geo. Marshall; 2. Rev. J. G. Hindley.
Open singles for Linden Cup—1. T. B. Peake; 2. A. Crichton.
Handicap singles for F. M. Johnston Cup—1. T. A. Crichton; 2. H. W. Barker.
Club doubles—1. G. Crichton and E. M. Woodward; 2. C. C. Hughes and D. H. Bessell.
Globe doubles—1. E. G. Horsman and T. B. Peake; 2. H. W. Barker and A. E. Walton.
Civic Holiday doubles—1. T. A. Crichton and W. Hogarth; 2. J. Jupp and H. W. Barker.
Club rinks for Kemp Trophy:
Geo. Marshall, B. Hill, W. D. Booth, B. Crowther, W. Bewley, R. Sattin, H. G. Sallibey, sk. 1, G. Watson, sk. 2.
The monthly club tournaments resulted as follows:
—June 1—W. Crichton, T. Crichton, A. E. Heyes, A. Rogers, D. Walton, W. Beatty, G. G. Elliott, sk. 1, Dr. McNicol, sk. 2.
—July 1—T. Hill, C. C. Hughes, F. Chesman, A. McIntyre, B. M. Woodward, H. Johnston, Dr. Sneath, sk. 1, K. Montgomery, sk. 2.
—August 1—N. Richardson, E. G. Horsman, J. C. Forman, A. E. Heyes, H. McAllister, D. Walton, F. M. Johnston, sk. 1, J. Taylor, skip 2.
—September 1—F. Hill, W. Crichton, J. C. Keatings, W. A. Salisbury, B. Sattin, H. Russell, J. F. Russell, sk. 1, H. McAllister, sk. 2.
Highest aggregate—W. Hogarth, W. Crichton, D. Walton and D. B. Birrell.
Ladies' singles—1. Mrs. Montgomery; 2. Mrs. Burnell.

HALF TIME IN LOAN CAMPAIGN

(Continued from Page 1)

office who also bought. The proprietor has invited a canvasser to call again and see if the employees will not increase their subscriptions.

Good Seed Sown. A canvasser on Capt. Pratt's team in district "B" says that he called on a woman on McCourt street who keeps a small store and after a great deal of persuasion sold her a \$50 bond. Yesterday he called again and asked her if she would not take another bond. She said she had a little more money in the savings bank in the country and it might be just as well to invest it. She produced a bank book showing a balance of \$4058.30, and she made out an application for \$4000 worth of bonds. This goes to show that the "follow up" "call back" idea is working out.

Five Sons at Front. A striking example of self-sacrifice was discovered by a canvasser yesterday. Away up in an attic he was told that an aged man lived alone, too poor to buy bonds. The canvasser went to the man's house and found the man sitting at a table in the attic room. To the visitor's surprise the occupant was wearing a Victory button, but a greater revelation followed. The old man had bought and paid for \$500 bonds in the previous year. Only a few weeks ago he had been told that he should save his money until he had five sons at the front and he wanted to see them all. To do this he lived alone in his attic room, cooked his own meals and did his own housework. He was a very old man, but he was a true patriot.

Good Salesmanship. D Division is proud of one salesman who pulled off a very nice deal yesterday. Outside headquarters he tackled a woman who was very nervous. He talked her into buying a \$50 bond and finally secured her signature for \$1000. It was good salesmanship and it was a fine example of the spirit of the campaign.

Repeating orders for bonds were quite common throughout the city yesterday, showing that the citizens can lead a responsive ear to appeals when properly made and especially when a definite spirit of pride in Toronto's achievements is touched. In one district which had been reported "cleaned up" one canvasser went over a part of the ground yesterday morning and in a few minutes gathered \$1000 from people who had previously subscribed.

The 600 aviation cadets at Burwash Hall had a call yesterday from R. R. Bond and as a result of the feeling created by the several speakers, including Major Murdoch it is expected that the great majority of the flyers will be bond holders before the week is out.

At the National Iron Works the number of Italian laborers who subscribed astonished the canvassers. Many could not sign their own names but were willing to take bonds, some as large as \$2000.

Frank F. Wood \$ 25,000
Imperial Oil Company, Limited 200,000
London Guarantees and Accident Company, Limited 30,000
Policy Holders Mutual Life Insurance Company 25,000
Aldent Order of Boreas 25,000
W. Y. Petrie 25,000
Wesley Motor Car Co., Ltd. 500,000
Canada Life Assurance Co. 5,000,000
Special Underwriters Corp. 65,000

Table listing various companies and their contributions to the loan campaign, including National Life Assurance Co., Sun Insurance Office (Fire), and others.

Half Period Elapsed. With Ontario the only province from which complete reports are available, a number having failed to send in their returns for two days or more, the Victory Loan showed a total for the Dominion last night of over \$1,000,000 for the nine elapsed days of the campaign. Yesterday the half-way post was reached, but despite the fact that the recorded sales were below expectations of some, the officials regarded the figures as very encouraging and were supremely confident of the outcome.

At Ontario headquarters the feeling was particularly optimistic, due to the remarkable manner in which the local organizations are keeping up their enthusiasm and maintaining their record of subscriptions. Through the province the various districts continued to surge ahead at a rate eclipsing expectations. Early word came from a number of districts that heavy storms were interfering with the work, but despite this the total subscriptions were well up to the average, the rain failing to dampen the ardor of the workers who braved heavy rains in the downpour.

That they covered a tremendous amount of ground was indicated by the various reports coming in, showing an unusual large percentage of small subscriptions during the day. The rural districts showed a surprisingly well sustained response to the appeal, while the smaller industrial centres outside Toronto reflected an equally active demand from the smaller buyers.

Counties Do Well. One outstanding feature of the day was the large number of counties which got into the "millionaire class." These include Kent, Wainfleet, Welland, Essex, Huron, Brant, Frontenac, Leeds and Grenville, Simcoe, Grey, Wellington and Dundas, Stormont and Glengarry. In some cases these figures are close to the original objective set but so excited has the rivalry become new objectives have been set by the local committees surprisingly far in advance of the quota first allocated.

Sault Ste. Marie reported for the first time last night. "We are only sending down \$400,000 tonight, but we'll mortgage our reputation on a million before the campaign is over." The chairman at Belleville, while running for a train last night was stopped by a newsboy after a \$200 bond. The chairman made the sale, but missed his train and so had time to telephone the incident to provincial headquarters.

That the farmers of the maritime provinces are following the example of the Ontario agriculturists is shown by a wire from Prince Edward Island last night, saying that of the total of \$77,400 subscriptions there, \$40,000 is from farmers with not one subscription for over \$5000.

Table showing Ontario's returns for the day, categorized by region: Toronto Division, Hamilton and London Division, Ottawa and Welland Division, Southern Division, and Western Division.

Table showing Ontario's returns for the day, categorized by county: Central Division, Eastern Division, Northern Division, and Rainy River.

Total \$7,818,400
Returns to Date \$76,508,400
Toronto \$1,818,350
Hamilton \$2,464,700
London \$2,464,700
Ottawa \$2,464,700
Welland \$2,464,700
Essex \$2,464,700
Huron \$2,464,700
Brant \$2,464,700
Frontenac \$2,464,700
Leeds & Grenville \$2,464,700
Simcoe \$2,464,700
Grey \$2,464,700
Wellington \$2,464,700
Dundas, Stormont and Glengarry \$2,464,700
Rainy River \$2,464,700

Days of campaign elapsed: 9; days to go: 91 subscribers to date, Ontario, 72,188, Canada, 111,274.

Your God—Your Country—Your Family—Call Upon You to Support Your Flag

A Victory Bond bought means the continuation of this trinity. You are now privileged to exercise the greatest suffrage in the world.

You Must Buy Victory Bonds

To buy is a vote for all that is dear to mankind; not to buy is a refusal to accept the great heritage left by our fathers.

REMEMBER—Victory Bonds save soldiers' lives—Victory Bonds are the one road to victory—Victory Bonds make the cash you value worth 100 cents on the dollar.

The money of a beaten nation is worthless.

Back of you is your credit; back of your credit is all you possess and all you are. Your credit is good because Canada's resources are limitless—because Britain and her Allies are undefeated. If Victory Bonds are not good the credit of Canada is not good and the credit of every man is worthless.

This cannot be, it will not be if you will be a loyal Canadian and buy Victory Bonds today.

God gave our soldiers the spirit, the purpose and the heart to fight.

Would you refuse them food and clothing?

Victory Bonds clothe, feed and support our soldiers, who are protecting our wives, children and all we possess.

Buy Victory Bonds Today

Space donated by Massey Hall.

SUES FOR SON'S DEATH

Leamington Woman Wants \$10,000 From the Michigan Central.

Special to The Toronto World. St. Thomas, Nov. 21.—Before Mr. Justice Kelly today Mrs. Lucille Isced, of Leamington, Ont., is suing \$10,000 damages from the Michigan Central Railroad here for negligence on the part of the employees when her son and sole support, Frank Reed, a Pare Marquette brakeman, met his death in the Michigan Central yards on Jan. 12, last, while in discharge of his duty. The deceased was on the step of the caboose when two Michigan Central freight engines backed up suddenly and crushed into the rear end of the Pare Marquette freight train, killing Reed.

Mr. Justice Kelly gave several questions to the jury, and also for the jury to consider the amount of damages if they found the M. C. R. employees negligent.

BETTER THAN LAST YEAR.

Special to The Toronto World. Woodstock, Nov. 21.—Local taxpayers met their tax. Yesterday was the last day for paying taxes without incurring the extra five per cent. The total received was \$11,556.37, having \$11,877 to be paid, which is \$320 better than the payments last year.

BEER IN SUIT CASE.

Hamilton, Thursday, Nov. 22.—Weighed down by a suit case that dragged him almost to the sidewalk, a man was stopped by a constable and asked to open it up. He said he had just returned from a holiday. He was finally forced to open it and to expose 80 bottles of beer. He and the suit case were taken to the police headquarters.

Four Thousand Have Already Been Recorded With Chief Registrar.

DRAFT MOVES EAST

Major Barker Made Lieutenant-Colonel, and Other Promotions Announced.

Appeals against the decisions of the local exemption tribunals are being received at the rate of about half a

NO NEED TO CALL CLASS TWO AS YET

Premier Borden Thinks Need Will Be Met by Present Draftees.

Sir Robert Borden stated yesterday that married men in class 2 would not be called to the class in February as was intimated on Tuesday by Judge Winchester, in dealing with a case before his tribunal.

Regarding the raising of the hundred thousand men authorized by the Military Service Act the premier said:

"It is anticipated that all requirements can be met out of the class already called up. I observed that statement with surprise. There is no authority whatever for any such statement, and there is no necessity, so far as I am aware, for any such course as he outlines. Up to the present time no such course has been under consideration either by the minister of militia or the government as a whole."

Grand Trunk Applying.

Several Grand Trunk employees had their claims heard before different tribunals yesterday and the representatives of the road made a strong case for conditional exemption of firemen, brakemen and yardmen. W. S. Sharp, of the motive power department, said that the work of locomotive firing required physically fit men and not one out of six that the company had engaged during the past year could stand up to it.

"Have you tried to get men from Quebec?" asked Mr. Macdonald of tribunal 362.

"Yes, we have, and they do not stick," replied Mr. Sharp.

"We will be in a worse position before this winter is out than we were last," he said regarding the condition of the road.

Asked if he was speaking for this division only, he said it was true of all the Ontario lines.

Of 7077 employees 822 are in the first class and the road is asking for exemption of 647 for so long as they remain in their present employments.

Claims Inventive Genius.

R. H. Howie, 17 Dowling avenue, in applying for exemption, stated among other things that his inventive genius would be of more use to the allies out of the trenches. He said that he was in touch with several governments and if the tribunal disallowed his claim he would appeal his case, even to them. It was thought, however, that he was needed as a fighting man.

The claims of those seeking exemption on conscientious grounds are still causing considerable worry to the tribunals and no uniform rule is followed. The members of the Christian delphian sect and that while some of their members are relieved from combatant service others are not on precisely the same grounds.

Exemptions Refused.

James E. Sullivan, 85 Lillian street; Samuel W. Knipe, 237 Merton street; Morley L. Veltch, 10 North street; David Keddie, Cent. Y.M.C.A.; E. A. Sumner, 87 Lappin avenue; J. Alexander, 225 Jarvis street; Alfred J. Mattless, 29 Wright street; Melville Lemmon, 2421 Yonge street; Gordon H. Armour, 21 Fernside avenue; Wm. M. McColl, 291 Fern avenue; John A. Felton, 364 Sorara avenue; Jas. Baird, 1632 Dundas st. e.; C. Scie, 9 Cavatina square; G. Keys, 1037 Bathurst street; E. Edwards, 42 Walton street; S. O'Hara, 87 Bristol avenue; H. OFFICIAL PROSPECTUS

The Proceeds of this Loan will be used for War purposes only, and will be spent wholly in Canada

The MINISTER OF FINANCE offers for Public Subscription

Canada's Victory Loan

issue of \$150,000,000. 5 1/2% Gold Bonds

Bearing interest from December 1st, 1917, and offered in three maturities, the choice of which is optional with the subscriber, as follows:

- 5 year Bonds due December 1st, 1922
- 10 year Bonds due December 1st, 1927
- 20 year Bonds due December 1st, 1937

This Loan is authorized under Act of the Parliament of Canada, and both principal and interest are a charge upon the Consolidated Revenue Fund.

The amount of this issue is \$150,000,000, exclusive of the amount (if any) paid for by the surrender of bonds of previous issues. The Minister of Finance, however, reserves the right to allot the whole or any part of the amount subscribed in excess of \$150,000,000.

Principal and Interest payable in Gold Denominations; \$50, \$100, \$500 and \$1,000

Subscriptions must be in sums of \$50 or multiples thereof.

Principal payable without charge at the Office of the Minister of Finance and Receiver General at Ottawa, or at the Office of the Assistant Receiver General at Halifax, St. John, Charlottetown, Montreal, Toronto, Winnipeg, Regina, Calgary and Victoria.

Interest payable, without charge, half-yearly, June 1st and December 1st, at any branch in Canada of any Chartered Bank.

Bearer or Registered Bonds

Bonds may be registered as to principal or as to principal and interest.

Scrip certificates, non-negotiable, or payable to bearer, in accordance with the choice of the applicant for registered or bearer bonds, will be issued after allotment in exchange for provisional receipts. When these scrip certificates have been paid in full, and payment endorsed thereon by the bank receiving the money, they may be exchanged for bonds, when prepared, with coupons attached, payable to bearer, or registered as to principal, or for fully registered bonds when prepared, without coupons, in accordance with the application.

Delivery of interim certificates and of definitive bonds will be made through the Chartered Banks.

Bearer bonds with coupons will be issued in denominations of \$50, \$100, \$500, and \$1,000, and may be registered as to principal only. Fully registered bonds, the interest on which is paid direct to the owner by Government cheque, will be issued in denominations of \$1,000, \$5,000 or any authorized multiple of \$5,000.

Subject to the payment of 25 cents for each new bond issued, holders of fully registered bonds without coupons, will have the right to convert into bonds of the denomination of \$1,000 with coupons, and holders of bonds with coupons will have the right to convert into fully registered bonds of authorized denominations without coupons, at any time, on application to the Minister of Finance.

Surrender of Bonds

Holders of Dominion of Canada Debenture Stock, due October 1st, 1919, and of bonds of the three preceding Dominion of Canada War Loan Issues, have the privilege of surrendering their bonds in part payment for subscriptions to bonds of this issue, under the following conditions:

- Debenture Stock, due October 1st, 1919, at Par and Accrued Interest.
- War Loan Bonds, due December 1st, 1925, at 97 1/2% and Accrued Interest.

(The above will be accepted in part payment for bonds of any of the three maturities of this Issue.)

- War Loan Bonds, due October 1st, 1931, at 97 1/2% and Accrued Interest.
- War Loan Bonds, due March 1st, 1937, at 96 and Accrued Interest.

(These will be accepted in part payment for bonds of the 1937 maturity ONLY of this Issue.)

Bonds of the various maturities of this issue will, in the event of future issues of like maturity, or longer, made by the Government, other than issues made abroad, be accepted at par and accrued interest, as the equivalent of cash for the purpose of subscription to such issues.

Issue Price Par

Free from taxes—including any income tax—imposed in pursuance of legislation enacted by the Parliament of Canada.

Payment to be made as follows:

10% on December 1st, 1917	20% on March 1st, 1918
10% on January 2nd, 1918	20% on April 1st, 1918
20% on February 1st, 1918	20% on May 1st, 1918

A full half year's interest will be paid on 1st June, 1918

The Bonds therefore give a net yield to the investor of about:

- 5.61% on the 20 year Bonds
- 5.68% on the 10 year Bonds
- 5.81% on the 5 year Bonds

All payments are to be made to a Chartered Bank for the credit of the Minister of Finance. Failure to pay any instalment when due will render previous payments liable to forfeiture, and the allotment to cancellation. Subscriptions accompanied by a deposit of 10% of the amount subscribed, must be forwarded through the medium of a Chartered Bank. Any branch in Canada of any Chartered Bank will forward subscriptions and issue provisional receipts.

In case of partial allotments the surplus deposit will be applied toward payment of the amount due on the January instalment.

Subscriptions may be paid in full on January 2nd, 1918, or on any instalment due date thereafter under discount at the rate of 5 1/2% per annum. Under this provision payments of the balance of subscriptions may be made as follows:

If paid on January 2nd, 1918, at the rate of 89.10795 per \$100.
If paid on February 1st, 1918, at the rate of 79.46959 per \$100.
If paid on March 1st, 1918, at the rate of 59.72274 per \$100.
If paid on April 1st, 1918, at the rate of 39.90959 per \$100.

Forms of application may be obtained from any branch in Canada of any Chartered Bank, or from any Victory Loan Committee, or member thereof.

The books of the Loan will be kept at the Department of Finance, Ottawa.

Application will be made in due course for the listing of this issue on the Montreal and Toronto Stock Exchanges.

Subscription Lists will close on or before December 1st, 1917.

DEPARTMENT OF FINANCE, OTTAWA, November 12th, 1917.

Lend to your Country - All Canada is your Security

"The man, be he rich or poor, is little to be envied, who at this supreme moment fails to bring forward his savings for the security of his country."

Canada

SHE HAS GIVEN HER ALL

You Will
Protect Him
With Your
Dollars
While He's
"Over There"

When the din of battle ceases where will her boy be ?

He was all she had to give, yet gladly did she offer him as a sacrifice upon the altar of Freedom.

What are you doing to help cheer her lonely vigil ?

What are you doing to soothe her anxious mind---to make her smile and be content even while the ache still catches in her throat ?

She is wondering today if her boy is safe---she is wondering if he is protected, if he is warm, if he has enough to eat---and enough bullets to drive back the enemy of civilization he has gone forth to fight.

**It is your duty---you who stay at home
---to allay her fears.**

Every Victory Bond you buy helps to lighten the load---helps to guarantee to some mother that her boy will come back.

Some of them may return with tired hearts---broken allusions and unsmiling lips---but he will be safe if you will do your part---your duty.

Will you protect him today with your dollars ?

It is your task to throw every ounce and sinew of your resources into the gauge of battle while mother waits and prays.

If your income is \$2,500 and upwards---do not buy a couple of bonds and sit back with a look of self-satisfaction. **DOUBLE** your first figure. You are not giving, you are lending---at good interest---on the best security in all Canada.

Make It Your First Duty---Buy a Victory Bond Today

WASAPIKA GOLD MINES RICH IN POSSIBILITIES

Peculiar Formation Promises Remarkable Results, and Mining Men Are Watching Developments With Keen Interest—Speedy Erection of Plant to Treat Ore Urged.

The third report on Porcupine issued by the Ontario Bureau of Mines gives some important information as to the main vein on the Porcupine Crown. It is generally conceded that this vein contains the highest grade of ore in the camp. The report puts the mill heads at \$17.18, and the tails at 47 cents. This is practically double the values now being recovered at the Hollinger Consolidated. But the stock of the Crown has been declining rapidly of late, and we must look for some reason apart from the mere gold contents of the vein. Now the report states that the vein dips to the east, and as it occurs not far from the eastern boundary of the property, mining men have for some time been of the opinion that it will enter the North-Thompson (now a portion of the Porcupine V. N. T. gold mines), at no great depth. If so, some arrangement will have to be made between the two companies for the further exploitation of the vein because there is now no law of the apex in Ontario. The boundaries go vertically downwards quite irrespective of the dip of the vein.

The vein on the Porcupine Crown has a north and south strike, and its exceptional values are shown by the rolls and swells along its dip. So far as we now know there is only one other vein in Northern Ontario with a north and south strike, and pronounced rolls or folds. This vein is in the promising gold district of West Shilling Tree. It is there known as the Ribble, and the most important portion of it has been secured by the Wasapika Gold Mines, Limited, and is now under active development.

The vein here is, however, in many respects vastly different from that on the Porcupine Crown. It continues at intervals for a total distance of three miles, and wherever it outcrops during its whole length it is large, strong and very well defined. This vein shows for a width of 30 feet on the west side of Granite Lake, and here, as well as at the Wasapika mines, it carries very even values, and pays off right at the surface. But at this point, it is strictly a contact vein, the east wall being of granite. But the eastern or foot wall of the great vein at the Wasapika mines is andesitic lava which continues across the country until it meets the granite in the vicinity of Granite Lake already mentioned.

Typical Formation. Dikes of olivine diabase are typical of the gold fields of this whole district, and they were a very important factor in the mineralization. At the Wasapika mines one of these dikes has bisected the vein and divided it into two sections. This intrusion accounts for the many rolls and folds in the vein, and its extensive impregnation with gold.

George H. Rogers, E.M., who is now directing the work at the Wasapika mines spent a month in sampling the vein over a total length of 2000 feet. This was a preliminary to its acquisition by the present company. Mr. Rogers obtained 101 assays from the provincial assay office without a single blank, and the net result of all the assays showed values of \$9 per ton over this great length.

The vein occupies a ravine or depression about sixty feet wide. The outcrop of vein matter is along the face of the eastern wall. Here the crumpling and folding can be very plainly seen, and it was here that the sampling was done.

On the western side of this ravine there is a dike or intrusion of rhyolite porphyry about 80 feet from the outcrop of the vein on the east. The shaft is being sunk about 60 feet west of the outcrop, and near the porphyry.

GREATER COBALT IS IN PROSPECT

Mineralization Believed to Persist to Greater Depth Than Has Been Explored. At Cobalt, the recently accepted new geological theory appears to be proving up. It will mean the development of a new and greater Cobalt. This theory is that the mineralization has yet been explored, and that the new vein systems and bonanza ore bodies will be discovered in the lower contact zones between the diabase and gneiss rock formations. Favorable results have already been reported in this zone at depth of 1600 feet in Beaver Consolidated mine.

The ore bodies occur in narrow, practically vertical, fissures and cracks that cut through a series of slightly inclined metamorphic fragments of rocks of pre-Cambrian age, known as the Cobalt series. The three formations are the Huronian, a sedimentary rock, the diabase and the Keewatin. The geological theory is that when the diabase is molten, volcanic, lava-like form forced through the Keewatin the oldest or baseness series of the district and covered the Huronian. The mineralizing solutions followed and deposited the values in the cracks in the diabase and the Huronian. A few productive veins also have been found in the Keewatin, as in the Nipissing and the Timiskaming, and there are examples of veins which run from the conglomerate into the underlying Keewatin.

In the short period since its discovery Cobalt has established remarkable production and dividend records. The leading mines have produced 258,843,417 ounces of silver, valued at \$137,097,185, and paid in dividends \$70,435,304 to the end of 1916. The net value of the 1916 output was approximately \$2,538,938 in excess of the 1911 record, which indicates an increasing prosperity. Cobalt silver mines today are supplying the world with one-sixth of its total silver production.

OUTPUT OF McINTYRE GOLD PRODUCTION VITAL WAR NEED

No Apparent Reason to Expect Cut in Dividend Rate. Plans Discussed to Relieve Situation Due to High Operating Costs.

F. C. Sutherland and Co. in their weekly letter say: The McIntyre Porcupine Mines produced 60,000 ounces of gold in the nine months ending September 30, 1917. At \$20 per ounce this represents \$1,200,000, the net rate of \$1,584,000, as against \$1,464,000 the last year reported. There is no reason, therefore, to anticipate a reduction in the dividend rate from 20 per cent, per annum. It is rather remarkable that the stock is selling as low as \$1.80. The report of McIntyre this year makes it plain to Hollinger, the largest producer in Porcupine camp, it is understood that the net profits for October will be in the vicinity of \$50,000, as against \$24,000. The McIntyre has been working on its three famous vein systems, which promise to keep the mill fed with high-grade ore for many years to come. Recently a new ore body has been opened up, which indicates a fourth separate vein system.

HOLLINGER'S OUTLOOK

Early Resumption of Dividends Regarded as Likely. F. C. Sutherland and Co. say in their weekly letter: During the first nine months of the current year, the McIntyre has produced 161,702 ounces of gold. At \$20 per ounce this represents \$3,234,000. With the increased output the latter part of the year this should mean an output for the twelve calendar months of in the neighborhood of \$4,700,000, as against \$3,974,000 in 1916. Last year net profits were 42 per cent of the gross. Granted that the percentage of net this year is 40 per cent, and profits would work out at \$1,850,000, or 40 per cent, on the stock outstanding. As the Hollinger has paid no dividends during the last nine months they have been asked to wipe out their "book" deficit of \$260,000 and accumulate a substantial surplus. It should not be very far off from the company resumes its dividends.

POWER ENTERPRISE TO HELP GOWGANDA

New District of Matachewan Will Also Benefit From Undertaking.

Cobalt, Nov. 21.—It is understood that plans are now under way for the development of electric power at the Bend Falls to supply Gowganda and the new district of Matachewan. This is a very important undertaking, and will be in a much better position to determine its probable value. Should it live up to its present promise it will be one of the great producers of Northern Ontario.

Plant Required. Mr. Rogers has just reported to the fiscal agents of the company, Messrs. Isbell, Plant and Company, that the time has arrived when it is necessary to consider the erection of a plant to treat the ore. He says: "We have on hand about 14,000 tons of quartz of an average assay value of \$12 per ton, and will be over 2000 tons in sight," and he recommends the erection of a mill to treat the ore by the straight cyanide process. In view of the fact that development began in July last, we must confess that very extraordinary progress has been made.

The Ribble vein has a total length of three miles, it is not crumpled up so far as we know, except on the property of the Wasapika gold mines. This crumpling, or folding, is a very favorable feature. The most notable example of this phenomenon is the Champain Reef in southern India. This reef carries five large mines, and from it all the gold of India has come for the last 30 years.

The folding at the Wasapika mines is in no way identical with the saddle reefs of Bendigo, or Nova Scotia. There the country rock is itself doubled up or wrinkled, and thrown from the horizontal, but at the shape of a banded bow, but at the Wasapika the diabase dike seems to have crowded all the original vein matter into the contact zone between the two formations. Mining men will watch with great interest the further developments at the Wasapika gold mines. We may have here the best made which on all indications Gowganda will be more fortunate.

READY TO PURCHASE BALANCE OF WHEAT

Winnipeg, Nov. 21.—This morning the board of grain supervisors for Canada received the following message: "New York, Nov. 21.—I have received cable from royal commission on wheat to you to guarantee to you that we authorize the company to accept grain from the grain surplus under the balance of wheat basis of \$2.21. Trust this is satisfactory." (Signed) "Wheat Export Company."

COTTON UP ON NEWS OF BRITISH TRIUMPH

J. F. Bickell & Co. received the following cable from London today: "The cotton market is somewhat easier today. Three per cent. has been anticipated and the market has been somewhat easier today. The report brought about a somewhat easier tendency in the early part of the morning. The news of the striking British victory caused a vigorous buying movement to see in the price showing gains on balance of about 1 1/2 per cent. Cotton futures are now high records for this movement."

MONEY AND EXCHANGE

London, Nov. 21.—Money was in increased demand and discount rates were steady. Italian and Scandinavian exchange was quiet for cash. Money 4 per cent. Discount rates, short bills 4 1/2 per cent.; three month bill 4 1/2 per cent. Gold premiums at Lisbon 100.00.

TRADING IS LISTLESS IN MONTREAL MARKET

Montreal, Nov. 21.—The local stock market remained undisturbed today by the day announced to only a few shares. Prices showed but little change. The market was listless and the market was not active at all. The steel stocks were the most active. Steel of Canada was down at 62, unchanged from yesterday, while the market was firm for iron. The latter stock opened at 53 and on light trading advanced to 53 1/2.

MINING MARKET REMAINS STRONG

Confidence that the local mining market has definitely turned the corner was strengthened by the course of trading on the Standard Exchange yesterday.

Confidence that the local mining market has definitely turned the corner was strengthened by the course of trading on the Standard Exchange yesterday. On Tuesday the general list took a decided upturn toward the close, and while there were no speculative advances yesterday, results were quite satisfactory, as stocks held their gains well and in some instances showed decided activity at higher quotations. Transactions were on a larger scale than usual of late, more than 69,000 shares changing hands. It was quite evident that some of the selling, particularly in McIntyre, was for short account, and it was equally evident that the power of resistance displayed by the market was not relaxed by the bears. It is currently reported that there is a large outstanding short interest in McIntyre, amounting, it is said, to about 50,000 shares, but sales in lieu of resumption of the dividend may be declared at the end of the year. It is estimated that the mine's production for the year will probably reach about \$4,700,000, equal to 8 per cent on the capitalization. Dome was higher at from 6.75 to 6.85. West Dome at 13 1/2, and Apex at 6, while the bid on Schrammer was advanced sharply to 42.

Strength also prevailed in the Cobalt. Adams repeated its recent high mark at 14, and Hartgraves in reaching 9 1/2, sold at its best price in some time, the turnover being 7000 shares. Ophir retained its gain, closing at 11 1/2, after touching 12. Beaver was 1 up at 2 1/2, and Timiskaming steady at 2 1/2. McIntyre again sold at 60, and Mining Corporation at 400.

SMELTERS ORE RECEIPTS

The Consolidated Mining and Smelting Co. of Canada, Limited, reports ore receipts for the week ending Nov. 17, 1917, at 8996 tons, and from Oct. 1, 1917, to date, at 58,961 tons.

U. S. OUTPUT OF STEEL

New York, Nov. 21.—The United States is fortunate in having the premier steel industry of the world to rely upon in time of war. The steel furnaces today are producing iron at the rate of 43,500,000 tons annually. The total production for the year, according to the estimate of the Iron and Steel Institute, will be 42,000,000 tons, which is approximately half of the total production of the world.

ROYAL BANK'S PROGRESS

Annual Report Will Show Increases in All Departments. The Royal Bank of Canada fiscal year ends with the present month, and it is now apparent that the financial statement for 1916-17 will show great progress in all departments of the bank. During the eleven months ending Oct. 31 assets increased from \$253,158,000 to \$311,471,266, or more than \$58,000,000. Deposits during the same period increased from \$200,227,595 to \$249,886,236, an increase of \$49,658,641, or nearly 25 per cent. Notes of the bank in circulation increased from \$18,178,228 to \$26,872,558.

MORE OUTSIDE BUYING

J. P. Bickell and Co. received the following wire at the close of the New York stock market yesterday: "The news of the British advance on the western front was very stimulating to the market, and there was a larger volume of outside buying on the rise. The state is set for a strong opening tomorrow, but the recovery has run to normal proportions and we advise a conservative position for the present."

LONDON EXCHANGE IS STEADY; STOCK MOVEMENTS NARROW

London, Nov. 21.—The stock market maintained a steady tone today, but apart from a rally in Argentine rails on better labor news and a hardening in shipping, there was no real movement under a good demand. There were no special features to the dealings and narrow movements were confined to price limits.

BRANCH BANK CLOSED UP

The Imperial Bank announces that its branch at Athlone, B. C., was discontinued on Nov. 1.

GOOD BUYING OF STEEL

Montreal, Nov. 21.—There is considerable trading in Dominion Steel about the market. The buying is understood to come from interests close to the company. It is believed that when general conditions improve from some will be the market leader in the upward movement.

PRICE OF SILVER

London, Nov. 21.—Bar silver closed at \$17 1/2 per ounce. New York, Nov. 21.—Bar silver closed at 85 1/2 per ounce.

Receipts of fresh graded eggs were very light. Fancy prices were paid for the small quantity of specialties.

GOOD NEWS CAUSES ADVANCE IN STOCKS

Profit-Taking and Short Sales Check Movement Towards Close.

New York, Nov. 21.—Stocks were more susceptible to favorable influences today than any time since the widespread depression engendered by the Russian and Italian reverses.

United States Steel asserted its long established leadership, taking a foremost position in the advance from its low quotation of 95 3/4 in the first hour to 98 1/4, but receded to 97, a net gain of the smallest fraction.

Other industrials and equipments, copper, shippings and war specialties displayed greater firmness.

There was no demand for cash flax. The wheat situation was unchanged.

CASH OATS SOUGHT BY EASTERN BUYERS. Cash barley is unchanged in trading at Winnipeg.

Winnipeg, Nov. 21.—Cash oats were in demand today, Eastern buyers were on the market.

The Robert SIMPSON Company Limited

The Robert SIMPSON Company Limited

Announcement

You do not need to postpone the time for choosing gifts or things for the home because of a limited cash balance. The Home-Lovers' Club will arrange the terms so that, instead of paying all cash, part of the purchase amount may be spread over a period as arranged.

You do not have to miss the special bargain events because of lack of ready cash. If you are a Club member you are entitled to every special buying advantage in the home-furnishing departments that cash customers enjoy.

Responsible persons may join The Home-Lovers' Club by making application with the Club Secretary, 4th Floor.

The Home-Lovers' Club terms apply to purchases made in the following departments: Furniture, Rugs, Floor Lamps, Reading Lamps, Electric Light Fixtures, Draperies, Pictures and Grafonolas.

IMPORTANT!

Out-of-town persons desirous of joining the Home-lovers are requested to write the club secretary, who will gladly give them any information concerning the rules of the club. It costs absolutely nothing to join the Home-Lovers' Club. Write today.

Santa Claus is Here and Growing Jollier Every Hour--He is on the Fifth Floor

So happy is he to be among the children once again. They are keeping him busy telling him what they want to put in their stockings. Have you seen him? And how do you tell him what you want? Come in as often as you like. He is in the Christmas Show on the Fifth Floor.
