TWO CENTS

U. S. STEEL TRUST WINS LEGAL BATTLE FOR RIGHT TO EXIST Mackenzie King in Debate on Address Demands General Election

HON. MACKENZIE KING ISSUES CHALLENGE TO THE UNIONISTS TO CALL GENERAL ELECTION

In Debate on Address, Moves
Stunning Amendment—
Says Government Unstable—
Sir George Foster Makes
Humorous Reply, Partly in
Vigorous Vein—Denies
Expectation of Early Re-
tirement by Borden.

Ottawa, March 1.—Debate on the
address opened in the house today
with a zest which gives earnest of an
exciting session. Usually the open-
ing day of debate is apt to follow
formal lines. Today the first opposi-
tion speech brought an amendment
which was a direct challenge to a gen-
eral election.

Hume Glynn of London and Mr.
R. McCreary of Pictou moved and
seconded the amendment in speeches
which were more than the usual need of
appease. Then came Mr. Mackenzie
King, leader of the opposition—speaking
rather nervously at first, but his
voice gradually becoming more firm
—with the amendment. Mr. King criti-
cized the speech from the throne as
indicating an absence of govern-
ment policy. His reference to the pro-
tracted absence of the prime minister
and the "widely accepted belief that
it is not his intention to return to
the duties of his office." Makes
arrangements have been made for the
direction of important departments.
Three eastern maritime provinces were
entirely unrepresented in the cabinet.
These and other things, Mr. King's
amendment proceeded to operate to
produce a condition of uncertainty and
instability from which a vigorous and
efficient administration of the Dom-
inion's affairs cannot be expected.

Urges Appeal to People.
Therefore, the franchise bill should
be brought down forthwith and given
precedence over other business. No
essay should be made to vote. Then
there should be appeal to the people
at the polls.

Mr. King's amendment was proceeded
by a speech in which he criticized
the speech from the throne in that it
dealt more with external than home
questions. Referring to ratification of
the optium convention, Mr. King
thought the people were more concern-
ed with food than with drugs. Resto-
ration of the parliament buildings was
not needed so much as restoration
of the parliamentary system of government.

Reply of Sir George Foster.
Sir George Foster, acting premier,
replied. Sir George spoke with a vigor
reminiscent of earlier days. Again
and again he was cheered as he made
some point or other. As to the chal-
lenge to a general election, did the
last session, Sir George sarcastically
asked, give Mr. King much ground for
hope? "Does my honorable friend see
no lurking shadows of disaster?" Sir
George pressed, as his supporters
(Continued on Page 2, Column 6).

ADRIATIC QUESTION LEFT IN SUSPENSE

Negotiations Between Nitti and
Jugo-Slav Envoys Are Sudden-
ly Broken Off.

WILL RESUME IN ROME

London, March 1.—The conversa-
tions between Premier Nitti and Ital-
ian representatives in which Foreign
Minister Trumbitch and former
Premier Pachtich participated,
were suddenly broken off today.
It is not expected that they will
be resumed in London during the
present week.

The entire Adriatic question remains
in suspense, and it seems fairly cer-
tain that no solution of it will be
reached while the supreme council is
sitting in London, but that the ques-
tion will be reopened when the peace
conference reassembles in Rome to-
ward the end of the month.

According to the present arrange-
ment, Premier Nitti, accompanied by
several others of the Italian delega-
tion, will leave here on next Saturday.
Signor Scialoja, the Italian foreign
minister, will remain here as head of
the Italian delegation.

No confirmation is obtainable in
Italian circles here with regard to the
report printed in Le Journal of Paris
from Rome that Signor Nitti has of-
fered concessions to the Jugo-Slavs.
The Italians here still are anxious to
know what will be President Wilson's
attitude toward the reopening of nego-
tiations with regard to the Adriatic
controversy.

ATTACK IS REPULSED
OF AFGHAN TRIBESMEN
London, March 1.—A despatch from
India, dated Feb. 26, reports that an
attack of Mangal and Zadran tribes-
men in Kuram, Afghanistan, 78 miles
southwest of Kabul, was repulsed by
British and Kuram militia. The aggres-
sors lost 129 killed, the despatch adds.

EXPLOSIVE WRECKS GALWAY BARRACKS

Belfast, Ireland, March 1.—
Noticing an unusual gleam in a
turf fire in the Ballinagar Barracks
in Galway, the troops hastily left
the building. Hardly had they
done so when an explosion occurred
and the walls of the building
were blown out. Two arrests
have been made of persons sus-
pected of connection with the
crime. The belief is that a quantity
of explosives either were placed
in the turf that was being
burned in the building or in the
grate itself.

BORDEN CONFERS WITH COLLEAGUES

Arrives at New York and Spends
Afternoon With Calder
and Reid.

MESSAGE TO PARLIAMENT

New York, March 1.—Sir Robert
Borden arrived here this afternoon on
the Steamship Carmania from Liver-
pool by way of Halifax, returning
from a visit to England where he was
the guest of the British government.
Sir Hugh Stein Fraser of the British
embassy at Washington; J. M. St.
John Gates, chief justice of the Bar-
bados; and Dr. W. T. Grenfell, Lab-
rador explorer, also were passengers on
the Carmania.

Lady Borden, Hon. J. A. Calder,
legal advisor to the department of ex-
ternal affairs, and Col. J. A. Cooper,
chief of the Canadian bureau of in-
formation here, were among those
who assembled at the dock to meet
Premier Borden upon his arrival on
the Carmania here this afternoon. Mr.
Christie was the premier in Paris
during the negotiations.

After spending the late afternoon in
conference with the Hon. J. D. Reid
and the Hon. J. A. Calder, Sir Robert
Borden is resting tonight at the Hotel
Pennsylvania at the 215 tomorrow
afternoon the prime minister will
leave for White Sulphur Springs, W.
Va., with Lady Borden, who met him
in New York today.

Sir Robert was somewhat uncom-
municative, having nothing to say to
Canadian and American newspaper
representatives who were waiting for
him when the Carmania docked. The
only "interview" given by the prime
minister was a statement containing
extracts from an address which he
gave at a concert on the ship coming
over.

Ministers Take Back Message.
In this Sir Robert declared that one
of the greatest results of the world
conflict from the war was a full
understanding between the various
commonwealths of the British Empire
and the American people. These
understandings, he said, were the result
of united action have prevented the
war in 1914 and continued effort in
the future could prevent other con-
flicts.

Following his conference with his
two colleagues at his hotel, Sir Robert
pleaded fatigue and would see no
interviewers. Messrs. Reid and Cal-
der, who left at 7.45 o'clock for Ot-
tawa, said they had nothing to give
out as a result of the conference. It
is understood, however, that impor-
tant matters of policy to be placed be-
fore parliament now in session were
discussed, and that the two ministers
carry back with them messages to
parliament from the prime minister
of far reaching political consequence.

While nothing official or even de-
finitive was obtainable here tonight, it
is fairly well understood that the
visit of Sir Robert to Britain was
not altogether in the nature of a hol-
iday trip. It is reported that while
in London the prime minister took oc-
casion to lay before the British cab-
inet chiefs one or more subjects that
are interesting Canadians at the
present time. One of these, the story
runs, was the matter of obtaining for
Canada her own diplomatic representa-
tion in the United States.

Governor-General to Sail
For England on March 13

Ottawa, Ont., March 1.—(Special)—
His excellency the governor-general
sails from St. John on March 13 to
attend the wedding of his daughter,
Lady Dorothy Cavendish, to Captain
MacMillan, formerly one of the aides
at Rideau Hall. His excellency is in-
disposed with a slight cold. It is
stated at Government House that it
is not the flu. For precautionary pur-
poses his excellency is remaining in-
doors.

DEATH OF CHARLES GARVICE.
London, March 1.—Charles Garvice,
novelist, dramatist and journalist, died
tonight.

DISCUSS PROJECT OF DEEPER CHANNEL IN ST. LAWRENCE

Opposing Interests Lock
Horns at Deep Waterways
Hearing in Buffalo.

A QUESTION OF COST

Buffalo, March 1.—The international
waterways commission began here to-
day hearings on the project of the en-
larged ship channel in the St. Law-
rence River from Lake Ontario to
Montreal at the joint expense of the
United States and the Canadian gov-
ernments.

The proponents of the plan include
fourteen northwestern states, the
prairie provinces of Canada, north-
western cities and ports and shipping
interests on the great lakes. Their
chief argument is lower freight rates
to tidewater and cheap electrical
power from the improved channel.

Opposed to them are the state of
New York, Montreal's eastern railroads
of the United States and cities lo-
cated along the Erie Canal. The op-
position has organized and selected
former State Senator Henry W. Hill
as its spokesman.

Chairman Hill said the opposition
expected to show that it would be un-
wise for the United States to spend
the large amount of money involve
in a "problematic enterprise outside
the confines of this country when so
many projects within are crying for
attention."

Obidiah Gardner, chairman of the
commission, before the opening of the
session, said that the fate of the pro-
posal must rest upon the commercial
value of the enterprise as measured
against its cost. Hearings will be
held elsewhere and the conclusions of
the commission reported to the gov-
ernments of Canada and the United
States.

State Engineer Frank M. Williams
vigorously opposed the project as un-
fair to the state and declared it the well
known fact that the project would
benefit out of state and practical ves-
selmen.

Henry C. Barlow of Chicago, mem-
ber of a large delegation from the
United States, said the Illinois valley
was looking for an outlet to the sea.
In championing the cause of a ship
canal to tidewater the west was
not against the development of the
Erie Canal.

"We are in favor of it," he declared.
"The next generation will need all the
water ways possible to handle the de-
veloping commerce and industry of
America. Development of Canada will
help the United States just as de-
velopment of the United States has
helped Canada. I cannot agree with
the opposition that development of
the United States would be injur-
ious to the development of the St. Lawrence
route."

Mr. Williams said that the project
would be a "problematic enterprise
outside the confines of this country
when so many projects within are
crying for attention."

In many like Toronto, Ottawa and
other places, two ticket offices
will be merged into one, and cor-
responding economies will be worked out
in connection with freight offices,
freight yards, and other terminal fa-
cilities, including railway stations. In
some cities the unified station is al-
ready an accomplished fact as for
example in Ottawa, Toronto and Win-
nipeg. In Montreal there is a differ-
entiation and no one yet knows what
the policy of the government may be.
(Continued on Page 9, Column 6).

DEMURRAGE RATES STAY UNCHANGED

Railway Commissioners Will
Not Accept U. S. Practice
of Averages.

Montreal, March 1.—(By Canadian
Press)—An important decision of the
board of railway commissioners re-
jecting the proposition to apply in
Canada, the United States system of
"average demurrage" on cars, was re-
ceived today by the transportation
bureau of the Montreal Board of Trade.
The demurrage rules now in force
in Canada allow the consignee 48
hours after the car has been placed
to empty it. Thereafter penalties are
imposed increasing by a dollar for
each day's delay. The Canadian rule
made no provision for averages as
had been done in the United States.
By the United States plan a credit
of a day is allowed for each car re-
leased within the first twenty-four
hours of free time; and a debit of a
day charged for each 24 hours after
the car is returned free time. At the end
of the month if credits equal or exceed
debts no demurrage charge is made;
if not, demurrage is only charged on
the difference.

The rejection of this plan is based
on the reason that the average system
is discriminatory in principle, and has
not been proved that it will work out
to increase car supply available at any
given time.

HON. M. P. GOUDGE DIES
Halifax, N.S., March 1.—Hon. M. P.
Gowdie, president of the legislative
council of Nova Scotia, died at his
home in Windsor, N.S., tonight.

FIGHT AGAINST DISSOLUTION WON BEFORE SUPREME COURT BY U. S. STEEL CORPORATION

By Four-to-Three Decision,
Highest Tribunal Declares
Two Billion Dollar Trust to
Be "Good Combination
With Its Legality Estab-
lished"—Bigness Not Suf-
ficient Ground for Disso-
lution.

Washington, March 1.—In a four to
three decision today the supreme court
refused to dissolve the United States
Steel Corporation and its numerous
subsidiaries comprising the so-called
"steel trust."

The government's long fought suit
for dissolution of the iron and steel
trust combination for alleged viola-
tion of the Sherman anti-trust law
was dismissed, with abolition for the
corporation from all existing charges.

Placing the high court's "O.K." on
the steel corporation was Chief Jus-
tice White and Associate Justices Mc-
Kenna, who announced the majority
opinion. Holmes and Van Devanter.
Justice Day gave the dissenting opin-
ion which was joined by Justices Pit-
ney and Clarke. Justices McCreynolds
and Brandeis took no part, the former
having been attorney-general during
the litigation and the latter having
expressed opinions regarding it be-
fore appointment to the bench.

Primarily, the decree officially
brings the steel corporation as a
"good" combination, with its legality
established.

Further, the court held that mere
size, bigness or preponderance in in-
dustry of corporate combinations is
not alone sufficient cause for their
dissolution.

The court also gave a new and far-
reaching judicial interpretation or ap-
plication of the Sherman law, analogous
to its famous "rule of reason" in the
Standard Oil approval of tobacco "trust"
cases, by declaring that public inter-
est must be considered in applying
the law. The public interest, it was
held, would not be served, and might
be injured by dissolving the steel cor-
poration.

The dissenting opinion.
Dissolution of the corporation and
its principal subsidiaries was urged
in the spirited dissenting opinion.
The majority declared that the anti-trust
law was violated in its organization;
that there has been "open, notorious
and continued violation" of its provi-
sions, and that approval of illegally
born combinations "would practically
annul the Sherman law by judicial de-
cree."

Agreeing that mere size of a corpo-
ration, including its genesis is legal, is
not prohibiting the minority vigorously
disapproved the new Sherman law
ruling requiring judicial consideration
of the public interest. Such a con-
clusion, the dissenters declared, "neces-
sarily results in a practical nulli-
fication of the act itself."

The decision was a complete victory
for the steel corporation and its 150
subsidiaries, said to compose the
country's greatest industrial combination
with assets of more than two billion
dollars. It also dismissed a suit
against a score of millionaire in-
dividual defendants, including Chair-
man E. H. Gary of the steel corpora-
tion, Charles M. Schwab, John D.
Rockefeller, the late J. P. Morgan,
Andrew Carnegie, Henry C. Frick and
others. Against these the government
had asked injunctions against illegal
acts.

Also the decree of dismissal marked
utter rout for the government in its
suit, which was begun in 1911 in the
New Jersey federal court, and which
has been one of the longest, most vol-
unuous and most costly proceedings
before the supreme court and the
records of which fill a small room.
It was twice argued in the high court
in March, 1917, and again last October.
A trace, suspending action during
the war, was agreed upon in 1918.

Altho today's decree leaves the gov-
ernment free to bring new proceed-
ings against the corporation for spec-
ific and present practices deemed in
conflict with the anti-trust law, de-
partment of justice officials declared
no thought had been given to future
action.

Pending study of the opinions, At-
torney-General Palmer and other de-
partment officials withheld comment.
In its appeal, the government con-
tended that to sustain dismissal of its
suit by the New Jersey court would
result in licensing enormous corpo-
rations which fall just short of com-
plete monopoly and would place the
court's stamp of approval on develop-
ment of industry by combination in-
stead of competition.

Monopoly Not Achieved.
To sustain its decree, that the steel
concern is a "good" combination, the
majority today found that it controls
about half of the American iron and
steel trade, including mines, mills,
railroads, ships and one-fifth of Mon-
opoly, the opinion declared, has not been
achieved. Its power over prices, the
majority also declared, is unequal to
its proportionate production.

Good conduct of the corporation to-
ward its competitors and customers
was emphasized by the majority, who
held it has not oppressed competitors
or dictated prices. That conduct of
the steel concern parallels the oil and
tobacco "trusts" was denied by the
majority, which declared the latter
had been found guilty of illegal prac-

Effective Method of Stopping
Profiteering and Blackmailing
Berlin, March 1.—Usurers, black-
mailers and profiteers are being
carded and marched in chains thru
the streets and market places of Bul-
garian cities, according to advices re-
ceived here. This is said to be pro-
ducing good results.

HON. J. D. REID SLATED
FOR IMPORTANT POST

May Be Appointed President of
National System of Railways.

Ottawa, March 1.—The Citi-
zen today says: "An interesting
report in circulation here is that
Hon. J. D. Reid, minister of rail-
ways, will be president of the
national system, as enlarged,
and that the railway department,
whose functions have been re-
duced somewhat by the wide
powers given the railway man-
agement, will be merged with
the department of public works,
the two to be administered by
Hon. J. A. Calder."

Income of Ex-Crown Prince
Is Only 40,000 Florins
Amsterdam, March 1.—In connection
with the recent decision of the Dutch
government, that the former German
crown prince must pay taxes on the
basis of an annual income of 800,000
florins, it was authoritatively stated
here today that his income does not
exceed one-twentieth of that amount.

REDS OCCUPY STAVROPOL.
London, March 1.—After stubborn
fighting the Bolsheviks on Sunday oc-
cupied the town of Stavropol, capital
of the Government of Stavropol, in the
northern Caucasus, according to a
Bolshevik communication received
this evening.

Ed. Stephenson Hotly At-
tacks Late Government in Its
Attitude to Settlers.
DENIED CITIZENSHIP
The Kapuskasing camp commission
which leaves for the north tonight to
take evidence faces an individual ap-
pointment of every soldier settler's
case against the late government.

Ed. Stephenson, secretary of the

phenson, Premier Drury's opponent in
Huron, made a trinity of talent equal
in every way as advocates of the set-
tlers' side of the case to the three
government commissioners, whose duty

down to moderate measure, which the
taxpayers must meet before the last

the Hearst government to colonize
Kapuskasing with members of the
C. E. F.

The commissioners are W. F. Nickle,
K.C., Col. John I. McLaren and Prof.
J. N. Sharp, New Liskeard. They are
sitting as a revising and adjusting
board to give effect to the generally
condemnation verdict of Col. Car-
michael, member of the Drury govern-
ment, without portfolio, upon the Ka-
puskasing camp.

The commission sat yesterday fore-
noon and afternoon in the reception
room at the parliament buildings
after reading the commission, Chair-
man Nickle announced that G. How-
ard Ferguson's criticisms of Col. Car-
michael's report prompted the Drury

Ed. Stephenson Hotly At-
tacks Late Government in Its
Attitude to Settlers.
DENIED CITIZENSHIP
The Kapuskasing camp commission
which leaves for the north tonight to
take evidence faces an individual ap-
pointment of every soldier settler's
case against the late government.

times up to the time of their dissolution, while any illegalities of the steel combination in the past are left to the courts in the future, and the steel trust is abandoned. In this connection, reference was made to the famous "Gary dinners," at which corporation officials met with competitors to agree on prices.

The government, the majority declared, was reduced to the sole contention that the Sherman law is an abhorrence to the public interest, and that the court should be used to punish and check any actual violation.

In its enunciation of the new application to be given the Sherman law regarding the public interest, the court said: "It is clear in its denunciation of monopolies and equally clear in its direction that the courts shall prevent and restrain them, but the command is necessary to adapt its remedies to those conditions. We do not mean to say that the law is not its own measure and that it can be disregarded, but only that appropriate relief should be granted to a court of equity to determine, not, and let us be explicit in this, to advance a policy contrary to that of the law, but in submission to the law and its policy, and in execution of both."

In conclusion, the majority said they were "unable to see that the public interest will be served by yielding to the contention of the government respecting dissolution, and that it is not a risk or public injury, including a material disturbance of, and it may be a serious detriment to, the public."

The dissenting opinion. In reply, the three dissenting justices declared that the corporation was not the law in its formation and its immediate practices, and, being formed originally, should be dissolved by the legislative body. The lower court, the majority declared, could fix the details, as has been demonstrated by the majority. The corporation was over-capitalized with "watered stock."

If the Sherman law is not enforced, the minority opinion declared, there must be a decree undoing as far as possible that which has been achieved in open, notorious and continued violation of the law.

"I agree," Justice Day continued, "that the act offers no objection to mere size of a corporation, when that size has been obtained by lawful means and developed by natural growth, although resources, capital and strength may give to such a corporation a dominating influence. But, under the act, the arbitrary decision of this court is to hold that this power may not result from concentration, combinations or contracts in restraint of trade. To permit this would be to practically annul the Sherman law by judicial decree."

Congress should act. Contesting the majority's interpretation of the law, the dissenters declared that if changes now are to be made in its construction or operation, congress is not the court.

Both the holding corporation and its subsidiaries, the dissenting opinion declared, were organized in "violation" of the law, and under the majority decree, are made immune "because of some public reasons requiring such a conclusion."

"I know of no public policy," said Justice Day for these dissenters, "which sanctions a violation of the law, nor of any inconvenience to trade, domestic or foreign, which should be considered in weighing combinations. . . . In an improper position above the control of the law. Such a conclusion does nothing to the policy which the law is intended to enforce. . . . and necessarily results in practical nullification of the act itself."

GEDDES RESIGNS AS MCGILL HEAD

His Appointment as Ambassador to United States Officially Announced.

LEAVES IN A MONTH

Montreal, March 1.—Sir Auckland Geddes, who was appointed several months ago as principal of McGill University, and obtained leave of absence from the board of governors to carry out temporarily his duties as a minister in the British coalition cabinet, has resigned.

His resignation, received by cable, was placed before the board of governors at a special meeting today. He stated that he had accepted the post of British ambassador to Washington and regretfully requested that his resignation of the McGill honor be accepted.

While passing a resolution of regret at Sir Auckland's inability the board complied with his request and accepted the resignation. A committee was appointed to consider again the question of the principalship.

Appointment in Announced

London, March 1.—The appointment of Sir Auckland Geddes as British ambassador to the United States was officially announced today. The ambassador will leave London for America in about a month. He will be the guest of honor of the Pilgrims and other societies before his departure.

The high cost of living at Washington has been an obstacle to finding a suitable man willing to take the ambassadorship at the salary and allowances of the position. These will be considerably raised in the present instance, according to reports in diplomatic circles.

1932 DEATHS IN VIENNA AND ONLY EIGHT BIRTHS

Geneva, March 1.—There were 1932 deaths, mostly those of children, and only eight births in Vienna, from February 8 to February 14, according to a telegram received here from the Austrian capital.

More than one million children are now being cared for by government aid, according to reports submitted by the "Save the Children" congress held here.

PRINCE TO DISSOLVE MORGANATIC MARRIAGE

Berlin, March 1.—Crown Prince Charles of Rumania intends to dissolve the morganatic marriage he contracted in 1918 with Mile Zyzia Lambrino, a young and beautiful Rumanian woman. According to a despatch from Bucharest, quoting the newspaper Epoca, the crown prince consequently has effected a reconciliation with King Ferdinand and Queen Marie, the newspaper adds, reviving his claim to the succession.

YORK COUNTY AND SUBURBS

M'NAMARA SCOUTS WATER SYSTEM FOR LAMBTON MILLS

U. V. L. Members Expel M.L.A.—Will Not Sign Petition. Will Cost \$85,000 to Satisfy Needs of Above and Islington.

"I am in favor of the \$2,000 gratuity and will work for it, but will not sign the petition in connection with same at the dictation of J. Harry Flynn or any other autocrat," emphatically declared Sergt.-Major J. McNamara, D.C.M., M.L.A. for Riverdale, at a largely attended meeting of the Riverdale branch, U.V.L. held in Broadway Hall, Broadway avenue, last night.

W. McIntyre, president, in the chair, the statement was made amid a storm of protest from the audience, and on the motion of A. B. Wilson, the resignation of Sergt.-Major McNamara from the membership of the branch and the return of the button was demanded.

Sergt.-Major McNamara is present, by invitation, to explain his action with regard to the \$2,000 gratuity and his alleged refusal to sign the petition at a recent meeting in Rhodes Avenue Presbyterian Church.

J. Harry Flynn, who was not present, charged Sergt.-Major McNamara with disloyalty to the organization and with being false to his pledges, in a letter read by the secretary. Mr. Flynn further added, as president of the U.V.L., that the sergeant-major's stand should be condemned and demanded that a strong stand should be taken by the association.

Sergt.-Major McNamara in his opening remarks explained why he took part in the Haulton county campaign in the interest of Ed. Stephenson, the returned soldier opponent of Premier E. Drury for the riding. Mr. Drury is advocating free trade, but I am a protectionist. I am out to protect our streets, our shops, our homes, our property, our industry, our capital, said the speaker who proceeded to give his views on the gratuity question. That he was elected on the \$2,000 gratuity platform, he denied. The question was a federal and not a provincial issue, and the government has declared that it will not give out of power rather than grant the amount demanded. The present attitude of the returned soldier organizations will never get a \$2,000 gratuity, said the speaker, who added that his service in France and his empty sleeve was a sufficient proof of his loyalty to the returned man and his country, if proof were necessary.

"I am accused of refusing to sign the gratuity petition, but after my election."

"I find young ministers of the present government who were but 23 years of age when we were opposing the Germans at Ypres, and who were opposed to the gratuity petition, but after my election."

"Go to any of the recognized leaders of the four groups and you will give your own gratuity," said the sergeant-major. Proceeding, he charged J. Harry Flynn with making the statement that the Independent Order of Odd Fellows was a snake in the grass, and that McNamara was a tool of the organization and that he (Flynn) was out to crush it.

"I accuse Mr. Flynn over his own signature of the following communication sent to me on Oct. 25, as follows: 'I am of the utmost importance to you and to me in my own office immediately. Certain important explanations are necessary. A statement is about to be issued to the press, also a gigantic meeting to be called in the Arena or Massey Hall. In justice to you, as this concerns you, I desire to have a talk with you before taking a drastic decision. I know that you will see the absolute necessity of making this meeting with me immediately. Fraternally, signed J. Harry Flynn.'"

"This is why I have not signed the petition, and I refuse to be dictated to by Mr. Flynn. Who is the friend of the returned soldier?" queried the speaker. (Cries of Flynn and applause.)

President McIntyre at this point said Sergt.-Major McNamara regarding the signature of the petition, but the eight or nine soldier organizations and that by McNamara's refusal to sign he was not abiding by the laws of the U.V.L. of which he was a member.

"The question of the gratuity scheme, but an decidedly opposed to the dictates of Mr. Flynn," said the sergeant-major, who then left the hall to the accompaniment of loud boos and yells from the members present.

Riverdale Daughters of England Discuss High Cost of Living

How to combat the high cost of living was discussed at considerable length at a well-attended meeting of the Daughters of England of the eastern district, held in Jesse Keitchum Hall, Davenport road, recently.

Mrs. L. G. Cross, president, occupied the chair. Ways and means were considered and various suggestions offered. A suggestion which received the general approval of the members was to petition for a one or two weeks' strike in the various food stores and other associations throughout the city.

Mrs. Cross, president, pointed out that the public were suffering from the sky-rocketing of rents and food prices since the close of the war and were determined to fight the matter to the best of their ability, and appealed for the united support of all associations.

The meeting was enthusiastic and pledged united support.

LEASIDE MAY RETAIN "C" PLANT BUILDING

Almost all the machinery and iron work at Leaside, the property of the United States government, has now been shipped across the line, and the majority of the men retained after the close of the war have been discharged.

According to many reports in the locality, it is believed that the large building known as "C" plant will not be pulled down, as it is stated, negotiations are in progress to have the big building from destruction.

Work at the C.N.R. plant is in full swing, and 350 employees are engaged in the various departments. An excellent motor bus service is being maintained by the Leaside Bus Company, a regular quarter-hour service up to a six-cent fare is run out daily up to 10 a.m. and at rush hours in the evening.

STEEL WORKERS' STRIKE SPREADS IN SOUTH WALES

Cardiff, Wales, March 1.—Nearly all the steel workers in South Wales today are on strike in the general strike. The men are demanding a forty per cent increase in wages. Between 15,000 and 20,000 of the workers are idle.

"If the strike continues for the six-five in plate works, which employ fifty thousand hands, will be a serious matter to the steel works for materials."

Board Will Not Interfere With Prepayment on Freight

Ottawa, March 1.—The board of railway commissioners has decided that it is not justified in interfering in the decision of the railway companies not to accept prepayment of goods in Canada, destined to points in the United States, excepting where freight classification or tariffs provide for such prepayment.

Various shippers in different parts of Canada have protested to the board against this decision of the railway companies, but after conferring today with representatives of the Canadian freight departments of the Canadian Pacific, the board stated that, on the facts presented before it, interference was not justified at the present time.

NEW SERUM FOR TYPHUS EVER Reduces the Plague in Russia

Paris, March 10.—Mortality from typhus fever has been reduced from 47 per cent to 2 per cent by the use of a new serum, adopted by Red Cross workers at Ekaterinodar, in the Kuban district of Russia, according to reports received here.

TYPHUS IN SIBERIA

Belgrade, March 1.—Typhus has spread with alarming rapidity by means of fleas from the Bolsheviks to the south Russian front.

HAMILTON

Hamilton, March 1.—Frank Lester was killed and Walter Ricketts, constable, injured when a scaffold in which they were working collapsed.

February real estate sales totaled \$19, as compared with \$15 the same month last year.

Robt. Murdoch, 60 West Strachan street, and his wife, Mrs. Murdoch, are being held on a charge of shoplifting at their house.

A \$25,000 addition will be built by the Brown, Boggs Company.

John Morris, aged 80 years, of Peterborough, is suffering from a broken hip.

Ald. Wm. Birrell threatened to resign from the council members if they fail to move for the purchase of the Brennan property.

BOHEMIAN ASHORE CLOSE TO HALIFAX

Passengers Safely Taken Off in Tug—Expect Ship to Be Lost.

Halifax, N.S., March 1.—The passengers of the steamer Bohemian, which stranded on the Sambro ledges, off Halifax harbor, this morning, were landed here shortly after 8 o'clock this morning from the tug Rosberg.

The Bohemian struck about 2 o'clock this morning, the way was from Boston to Liverpool, and was put into Halifax for coal.

The Rosberg brought the rescued crew to Halifax, landing them at Campbell's wharf, where they had a motley assemblage, but merry, chafed in impromptu wardrobes, night clothes in almost every instance replacing underwear, and few clutching pieces of hand luggage which they had hastily seized.

The Bohemian is now pounding heavily, and the prospects of saving the ship are very poor. The steamer's forward holds are now full of water.

Winnipeg Barbers, With O.B.U., Raise Prices; Seek Higher Wages

Winnipeg, Man., March 1.—Winnipeg barbers, who have broken away from the International Brotherhood of Barbers, have been notified by the O.B.U. that a new wage schedule is asking an increase of 75 per cent and shorter working hours. As a result of these demands the price of haircuts jumped to 50 cents from the old price of 35 cents today.

FLU CLOSES SEMINARY

Quebec, March 1.—There has been a recrudescence of the flu in Quebec since yesterday. The Seminary of Quebec, with sixty students in bed, closed its doors yesterday, sending 300 others home for two weeks.

HOMELESS MAN ARRESTED

Steve Downey, no home, was arrested last night by Policeman Campbell, charged with attempted shopbreaking. Downey was found in a room in the home of Mrs. Plaxton, 187 Sherbourne street.

STRIKE ENDS ON FRENCH RAILROADS

Premier's Proposals Prove to Be Acceptable to All Concerned.

Paris, March 1.—The strike on the French railroads ended tonight. Delegates of the railroad federation met the directors of the railways on the initiative of the federation and an agreement was reached without trouble on most points of the federation's program, which really was not in dispute. Difficulty arose, however, over the question of penalties to be imposed on the strikers. Finally both parties decided to appeal to Premier Millerand.

The premier's proposal, namely, no pay for the days of the strike; no punishment for refusing the formal request to resume work, and a review by each director in a spirit of justice of all other punishments, proved to be acceptable to all concerned.

The executive committee of the General Federation of Labor issued a statement tonight to the effect that the federation of railroads men had advised the committee that it had obtained satisfaction for all its claims. The committee, which had already taken steps to co-operate with the railroads, the statement added, took note of the situation thus arising.

Julien Content, editor of the revolutionary newspaper Le Travailleur, which was suppressed by the authorities Saturday, was arrested today charged with inciting to left and right and with spreading propaganda. Raymond Lefevre, one of the French delegates to the Socialist congress in Strasbourg, also was taken into custody as he left the congress today.

According to the evening newspapers Lefevre's arrest is not connected with his violent speech before the Socialist congress, but is for a speech delivered at Angliers, in which he said that former President Poincaré, instead of deserving well of the country, "deserved 12 bullets in his skin."

CANADA DID WELL IN BUILDING SHIPS

Stood Third in Number of Ships Built in War Year.

Ottawa, March 1.—Hon. C. C. Balguy, minister of the naval service, tabled in the house today the report of the department of naval service and fisheries branch, the department of marine and fisheries, and the report on steamboat inspection for the fiscal year 1919.

The report incorporated Eddy's report on ship-building throughout the world.

The minister, in the preamble to his report, pointed out with satisfaction that in 1918 Canada stood third in the number of ships built. Canada turned out 148 ships to Japan's 118, and stood fourth in tonnage with 226,284 gross tons, compared with 273,149 in the United States.

Of the total ship output for the British dominions, Canada, the great builder, turned out 21 steel ships of a gross tonnage of 62,990 tons, and the coast division, 31 steel ships of 76,666 gross tons. The great lakes yards also built one wooden ship of 2,400 tons.

No Man's Land was built in 1919, and the coast division built 47 wooden sailing vessels of 22,969 gross tons.

The British dominions in the fiscal year built nine steel and 10 wooden ships, steam or motor driven, of a total tonnage of 40,402 and 488, respectively, and 28 wooden sailing vessels of 137 gross tons.

KINGSTON TEACHERS GET SALARY RAISES

Kingston, March 1.—At a special meeting of the board of education held tonight to consider the ultimatum of the fifty-one lady public school teachers of the city threatening to resign, a resolution was passed of three hundred dollars a flat increase was not granted as requested, the board decided that the previous increase granted of twenty-five per cent on the annual schedule should be incorporated the fifty dollar increase provided in such schedule. The twenty per cent increase will be made in the year 1920, and the fifty dollars, and will bring the salary of senior teachers within \$25 of that requested. Two trustees regretted that the teachers had resorted to such a course, and condemned it as unworthy of the ideals which they were supposed to inculcate in their pupils.

ATTEMPT TO ASSASSINATE BRITISH MINISTER

Hume Cronyn, London, moved the address in reply to the speech from the throne. The world was settling down to a new era after five years of struggle, he said, and Canada must take her place in the new scheme of affairs.

Canada Needs Unity. Canada was entering upon a new era. Peace had been formally declared, and also it was true one of the great nations of the world was still outside, yet the end of the present year would see that nation united with the rest of the nations united for secure permanent peace for a war-weary world.

The great need of Canada today was unity. People in all of the different sections of the Dominion believed that they had a corner of God's country for their homes. "We've got to quit quarrelling and come together and realize that we are all members of one family," said Mr. Cronyn in conclusion. "Love is the way out. This is nothing else can help."

Mr. McGregor, Pictou, seconded the address and spoke with regret of the absence from the house of Sir Robert Borden, who, he said, was one of the few great men in Canada, a statesman of the highest rank in the empire, and a man of the highest character, whose loss was a great loss to the nation. The enormous responsibilities which he had shouldered during the years of the war had shaken on his rugged constitution, and he was rapidly being regarded as a casualty of the war.

Police Fire on Mob; General Strike in Milan

Milan, March 1.—As a result of the collision between a crowd and the police here yesterday, in which the officers fired on the mob and two civilians were mortally wounded, a general strike was declared at midnight.

Work was suspended throughout the city today.

The clash occurred in connection with a meeting of demobilized troops. The police fired on the crowd. Two wounded men died during the night.

Men's Spring Hats at Dineen's

THE Hats we sell are made by the world's greatest makers. In English-made hats we are sole Canadian agents for Henry Heath of London, England, and have received their first shipment of Silk and Felt Hats, and the latest swagger styles of English Tweed Caps.

Silks \$12.00
Felts \$10.00
Tweed Caps \$5.00
Christy (London) Hats \$8.00 and \$10.00
Other Makers' \$2.95, \$3.95 and \$5.00
Stetson Hats, soft and stiff \$10.00 and \$12.00

The English-made sell in Canada at a lower price than the American product. Figure out just how wise it is to buy one. If you prefer the American designs, remember we have the best.

The W. & D. Dineen Co., Limited
Hatters and Furriers
140 Yonge Street, Toronto.

HON. MACKENZIE KING ISSUES A CHALLENGE

Quality of the great war. Mackenzie King's Speech. Hon. W. L. Mackenzie King, leader of the opposition, congratulated the premier and seconded the address. There were, he said, any limitations in the remarks of the mover and second, the limitations were due to the meagreness of the legislative program presented in the speech from the throne. The speech from the throne dealt almost entirely with external affairs. Mr. Rowell had called the treaty with Bulgaria. "We are all interested in Bulgaria," Mr. King said, "but I think it would have been more in accord with the first document presented to parliament had been the agreement with the Grand Trunk Railway."

Urges Tariff Amendment. Mr. King urged such amendment of the tariff as would meet the wishes of both producers and consumers. Representative Parliament. No possession, said Mr. King, was of such value to Canada as education in this country of the British system of government. Canada, declared Mr. King, had a government that represented the people of this administration, which had large measure, ceased to represent the people of Canada. The people of Canada are beginning to believe that Parliament does not represent them. This, he went on, prompted the opposition to demand a new administration.

Hon. Mr. King criticized the government at length for failing to take advantage of the opportunities which were open to it. He said that the government had been in power for a long time, and that it had failed to do what it should have done. He said that the government had failed to do what it should have done, and that it had failed to do what it should have done.

Three-Headed Government. "We are told that we are to have an acting prime minister, and a leader for the evening sessions. What we want to know is whether we are to have a government with one head, or a government with three heads," he asked. Mr. King declared that the cabinet was not a cabinet, and that it was not a cabinet. He said that the cabinet was not a cabinet, and that it was not a cabinet.

NEW G.W.V.A. BRANCH WOULD IMPORT LIMBS

An East Toronto branch of the G. W. V. A. was opened last night at Snell's Hall, when the charter members were presented by Comrade Stetford, Dominion vice-president, and the inaugural address delivered by W. E. Purdy, provincial secretary.

Great enthusiasm and sympathy was shown when Comrade Marshall of the Riverdale branch read a resolution recommending that returned men be had suffered the loss of a leg close to the hip should be given the best medical advice and surgical treatment obtainable. In the opinion of the East Toronto branch, the Canadian authorities could not secure competent limb fitters for some complicated cases and such defects should be made good by importations from Europe.

EYESIGHT DIM?

If your eyesight is dim, your vision blurred; if your eyes ache, itch, burn or feel dry, get a bottle of Bon-Opto Tablets from your druggist, dissolve one in a fourth of a glass of water and use to bathe the eyes from two to four times a day. Bon-Opto has given stronger eyes, clear, sharper vision, and relief to thousands.

Note: Doctors say Bon-Opto cures eyesight 95 per cent in a week's time in many instances. G. Tamblin and others.

DIRECT INVASION OF STATE POWERS

Rhode Island Files Brief in U. S. Supreme Court Against Prohibition.

Washington, March 1.—The United States supreme court must pass on the validity of the eighteenth amendment if the "cherished principles of the constitution and the perpetuity of the government thereunder" are to be

maintained, the state of Rhode Island declares in its brief filed in the United States supreme court today in reply to the government's motion for the dismissal of its action to obtain injunctive relief from the prohibition amendment.

The brief asserts that the amendment "is a direct invasion of jurisdiction and powers of the state and the rights of its people," and the government's view that it is "unassailable" can "only lead to anarchy and oppression." It contends that it is the duty of the court to keep congress in its amendments to the constitution "within the scope and jurisdiction of federal authority," and "maintain that the line of division between federal and state powers" which has "for so many years insured the harmonious

operation of our dual system of government—ordained and established as perpetual."

Additional Locomotive Orders For Big Kingston Company

Kingston, Ont., March 1.—(Special) William Casey, president of the Canadian Locomotive Company, stated this afternoon that the company had received additional orders for locomotives but did not announce the number. This, with recent orders, will keep the plant very busy the entire year and require additional staff.

AN IRON BLOCKADE OF FIUME PORT

D'Annunzio Has Forbidden Demonstrations Not Having His Consent.

Fiume, March 1.—A siege of Fiume has begun with a stringent blockade against commodities, including food-stuffs.

Said General Cavaglia of the government forces, "but it is not so. We shall exercise an iron blockade against the forces of Gabriele d'Annunzio. I am not offering them the slightest atom, but the children must be cared for. That is why I allowed 200 children to come out of Fiume and proceed to Milan."

The correspondent has gleaned opinions of all sorts in Fiume. Those of the citizens with whom he has talked seemed unanimous that the situation was critical and that the city now is in the deepest of despair, financially and commercially. "We are starving," said a prominent banker who previously had been a strong supporter of Italian annexation. "We are unable to go farther. We now are ready for an international

city. We want our port reopened to commerce. We want the city occupied either by British or an American garrison. The present state is impossible."

Gabriele d'Annunzio has ordered another deportation of Croats and other foreigners who are "pernicious by their presence for the proper defence of the city." The Socialists also have been made a part of the general cleaning out of the city. Public meetings and demonstrations of any sort, not having the consent of the post-soldiers' police, have been prohibited.

Spain Starts Campaign Against Gambling Houses

Madrid, March 1.—A country-wide campaign is in progress against the enormous increase in gambling houses in every large city in Spain, where the number of such resorts has more than doubled within three years. In Madrid alone there are more than three hundred, while not a single village or hamlet is without one, generally two, gambling houses, one for the rich and the other for the poor. Members of all the parties, especially the Liberals, demand the suppression of gaming places, while others call for strict regulation and supervision by especially appointed officials.

TO ADMINISTER DRUG ACT

Ottawa, March 1.—Administration of the opium and drug act has been placed under the control of the department of public health.

Y.M.C.A. REFUSE TO ALLOW MEETING

Daughters of Canada Disallowed Hall—Misunderstanding, Says Secretary.

Yes, it is quite correct that the Y.M.C.A. after renting a room in their building to us about ten days ago, declined to allow us to hold our meetings...

Asked why the Y.M.C.A. had refused to allow the association to hold the meeting, Mrs. Kantal said that Mr. Hopkins, secretary of the Y.M.C.A., informed her that owing to a call upon him by the Royal Canadian Mounted Police, he considered it better to cancel the meeting...

Mrs. Kantal admitted that at a meeting of Local Council of Women she had said she would be sorry to see a subscription brought upon the Y.M.C.A. as a precedent...

UNITED MEN'S SOCIETIES MEET

Church of England Clubs Endorse Policy of Mothers' Pensions.

Selection of officers and the president's address were the principal items at the annual meeting of the United Men's Societies of the Church of England...

The president, Mr. A. Howard Moore, said he had visited ten or twelve clubs in the past year and had met with a hearty response...

The athletic committee accomplished a good deal, six carpet ball clubs having been organized, and many pleasant evenings were spent in intercourse of the parishes which formed the league.

The officers for the ensuing year are as follows: President, N. A. Howard Moore; vice-presidents, Messrs. George Garrett, H. Hart, Albert Funnell, John Townsend and Chas. Fox; general secretary, Harry C. Higham; executive secretary, Chas. Jones; treasurer, George E. Jones.

A committee consisting of A. A. Proctor, F. C. Borden, John Hall, W. H. Candy, James Farrington, A. G. Watson and S. A. Seed, was appointed with power to elect the Sunday committees of the society.

The treasurer's report for last year showed a balance on hand of \$1206. The report of the other committees were adopted.

UNIVERSITY NOTES

No event within recent months has aroused such a furious controversy in the university circles as the cancellation of the visit of Miss Jane Addams here, which was scheduled for April...

The agitation which finally resulted in the cancellation of Miss Addams' lecture course was begun by the Daughters of the Empire at their convention held two weeks ago in Hamilton.

President Falconer, when asked regarding his opinion about the cancellation of Miss Addams' visit, said: 'I do not care to make a statement regarding this incident. I was sick at home when the thing occurred. I want to keep out of the matter entirely.'

Now that parliament is in session the Varsity veterans have started their spring offensive. Five thousand soldier students in ten Canadian universities have their guns trained on the work of the pro-Petitioners...

By arrangement with Mr. Zavitz of the department of forests and game, the Varsity Veterans are in a position to accept applications from twenty men to act as fire rangers during the coming summer.

The work is to commence between May 1 and 15. The rate of pay is \$3.00 per day, out of which a man pays for his own "keep." Applicants must be of good physique, and in good health...

C.N.R. PLACES BIG EQUIPMENT CONTRACTS

The Canadian National Railways executive have placed contracts for equipment as follows: Canadian Locomotive Company, Kingston, 45 locomotives; Montreal Locomotive Works, 67 locomotives; Canadian Car and Foundry Company, Montreal, 18 sleeping cars, 12 dining cars, 20 baggage cars, 1,000 box cars, 80 refrigerator cars, 50 cabooses; Eastern Car Company, Trenton, N.S., 100 box cars, 1,150 coal cars, six snow plows; National Steel Car Company, Hamilton, 1,500 box cars; Preston Car and Coach Company, Preston, 20 cabooses; Hart Oils Car Company, Montreal, 250 ballast cars.

This will approximate \$25,000,000 and will keep the various plants fully occupied for several months.

Feel grand! Clean up inside! Your system is filled with liver and bowel poison, which keeps your skin sallow, your stomach upset, your head foggy and aching...

CHARMING SIMPLICITY BY LILLIAN M. SCOTT.

"What's in a Name?"

Priscilla. THE CHARMING, demure name of Priscilla signifies ancient, a denotation to which it has every right, since it comes from the very old Latin. The Prisci, according to Niebuhr, were the original Latin tribe, whose name acquired its sense of age from antiquity.

Whether Priscilla was the name given to the daughters of this family or not is a matter of conjecture. The first Priscilla of whom we have record was a fellow-worker of St. Paul in her honor this feminine form gained great prevalence in England, especially among the Puritans.

America, of course, received her through the charming romance of Priscilla and John Alden and Capt. Miles Standish, where the famous utterance, "Why don't you speak for yourself, John?" arose.

The vogue of the name as a model of demureness and maiden propriety was widespread throughout New England, and has been much used in song and story in this country.

The amethyst is Priscilla's talismanic gem. It said to control evil thoughts, to quicken the intelligence, and according to an old legend, has a sobering effect upon anyone intoxicated from wine or love.

Sam Cowan, 534 West Richmond street, was arrested yesterday by Detective Cronin on a charge of theft of several bales of hay from J. Campbell.

THIN PEOPLE NEED BITROPHOSPHATE

Increases Weight, Strength and Nerve Force in Two Weeks' Time in Many Instances. Judging from the countless preparations and treatments which are continually being advertised for the purpose of making thin people fleshy, developing arms, neck and bust, and replacing ugly hollows and angles with soft, rounded curves, it is evident that there are evidently thousands of men and women who keenly feel their excessive thinness and weakness are often due to

lacked nerve. Our bodies need more phosphate than is contained in modern food. Phosphate is a necessary element that will supply this deficiency so well as the organic phosphate known among druggists as bitro-phosphate, which is inactive and is sold by most all druggists under a guarantee before which you get your money back. By feeding the nerves directly and by supplying the body cells with the necessary phosphoric food, bitro-phosphate should produce a welcome transformation in the appearance; the increase in weight frequently being astonishing.

Increase in weight also carries with it a general improvement of the health. Nervousness, sleeplessness and lack of energy, which nearly always accompany excessive thinness, should soon disappear, dull eyes ought to brighten, and pale cheeks give place to a bloom of perfect health. Miss Georgia Hamilton, who was once thin and weak, reporting her own experience, writes: "I was so thin and weak that I could not do any work. I was advised to take bitro-phosphate and I gained 25 pounds in weight. My nerves are now strong and I feel like a new woman."

CAUTION: While Bitro-Phosphate is guaranteed for the relief of nervousness, general debility, etc., it is not intended to be used as a substitute for food. It is not to be used in avoiding fat-producing foods.

FINANCE COMMITTEE DISCUSSES HEATING

Severe Weather Causes Large Expenditure of Coal in Schools.

At the meeting of the finance committee, held at the administration building of the board of education yesterday afternoon, Trustee P. M. Douglas in the chair, the matter of allowing principals absence with salary came up out of a communication from Principal Davis, asking for six months' leave with salary owing to sickness. Chief Inspector Cowley said he thought there should be some principle established in this regard. This case had already occurred in which absence with salary had been allowed and there were others which would have to be considered. Dr. Noble, who had already expressed his opinion on the number of days the principal in the case had been absent previously. Miss Boulton made a strong plea for the principal. The committee decided to approve of the principle of a day off, but deferred for a year.

The request for four new pumping engines, to cost \$66,000, was cut in half, and the buying of two at \$33,000 was approved. The chief stated that these pumps would effect an annual saving of \$30,000 in salaries alone, and the men displaced could be used on other apparatus. An item for a one-ton truck for the fire alarm department, to cost \$1200, was cut in half. At the request of the controllers, the chief agreed to hold over till next year \$2850 for three Ford runabouts for district chiefs. Three underground stoves, to cost \$1200, were approved, effecting a saving of \$625, and the sum of \$14,500 for a 60-foot service ladder truck was struck out entirely. The request for a grant of \$3000 for the reception of delegates attending the convention of International Fire Engineers was also refused.

A cut of \$6000 from \$46,000 asked for the purchase of new pumps was made. Fifteen thousand had been asked for upkeep of horses and harness, and commensurate with the cutting down on motor apparatus, this amount was raised to \$18,000. The street cleaning department estimates were badly gashed and scathed. When the board finished with them they were reduced to \$1,551,485, but the committee had previously cut away \$46,000. The revised estimates now total \$1,884,692.

Mr. Doughty, business superintendent, was given permission to visit the United States for the purpose of seeing the heating systems considered best. Dr. Noble hoped that Mr. Pearce, the architect, would also find his way to this country. "We are going to spend about a million on schools," said Dr. Noble, "and it would be awful if we built something that in about two years had to be scrapped. We put in the Smead-Dowd system and then it cost half a million to get it out."

Dr. Noble made it quite clear that the matter was worth spending money on in advance rather than make mistakes as had been done before in the matters of heating and ventilation. In the case of seven schools, which had been employed by the board and who would not have come under the provisions of a motion of Trustee Mrs. Courtice, asking that allowance be made for previous experience. "We are disposed of with the announcement that the motion had been changed and that the cases in question would be included. In respect to the proposed extra allowance of \$100,000 from the board and \$50 from the government—for teachers of auxiliary classes, of whom there are at present 1200. The extra allowance is because of the difficulty of the work and to encourage teachers to take it up. The allowance was passed. The sum of \$2,000 was deducted upon as the salary for the attendance officers. The matter of paying commission to an agent for selling the property owned by the board was also discussed with a decision in the negative.

The board, however, heeded not, but continued the painless surgery. A luncheon of \$200 was clipped from \$300,000 for personal services for the street cleaning patrol, \$5000 off \$50,000 for the semi-patrol, \$3000 off \$21,000 for culverts, \$5000 off \$35,000 for road and gutter cleaning, and an item of \$7782 for flushing was struck out entirely.

The estimates of the assessment department amount to \$198,892, as compared with \$148,797 last year.

One expenditure of more than \$2100 required to install an office telephone was struck out. \$116,000 for revaluation of buildings for assessment purposes. Following are the cuts in civic estimates made by the board of control:

Property department \$ 41,502
Fire department 163,287
Hospital department 25,000
Assessment department 22,125
Street cleaning department 120,724
Total \$372,648

Additional estimates included \$27,300 for high cost of living bonus in the fire department, which originally provided for eight instead of twelve months; \$10,000 to the Canadian Institute for the Blind; and \$1000 to the board of control estimates.

The board of education estimates for 1920, prepared by Finance Commissioner Bradshaw, show that over ten million dollars are required for capital and current accounts, and public school expenses will be almost double those of last year, and colleges, technical schools, High School of Commerce and administration will all make higher demands on the public than was the case during 1919. There is a general increase of 36 per cent, the largest portions being required for salaries and new buildings.

Other expenses include fuel, insurance, books, caretakers' supplies, and enlargements and repairs to old buildings. Finance Commissioner Bradshaw stated that he hoped to be able to place the city's financial office on a self-sustaining basis within a short time. A conference with the county to discuss an increase in the rate of payment to be held. The deficit on last year's operation is thought to be in the neighborhood of \$1,000. The civic estimates of the law department are \$38,897; for the assessment department \$198,892; for the city auditor's department \$116,363. These estimates came before the controllers yesterday, having been withheld until Finance Commissioner Bradshaw had gone over them. Mr. Douglas expressed his intention of reviving his proposal that a modified form of the Lloyd George increment bill, providing for a tax on unimproved land, be applied to the city, and immediately outside the city.

During the month of February this year 263 permits for 301 buildings were issued by the city architect's department, having been withheld until Finance Commissioner Bradshaw had gone over them. Mr. Douglas expressed his intention of reviving his proposal that a modified form of the Lloyd George increment bill, providing for a tax on unimproved land, be applied to the city, and immediately outside the city.

CITY HALL NOTES

Fighting bravely against an engulfing sea of necessary expenditure, the board of control are putting forth many efforts to reach the safe haven of a 30-million tax rate. Yesterday they resumed the struggle, much to the detriment of the carefully-prepared estimates of the property and street cleaning commissioners.

When the fire department estimates were brought under consideration, the bloodless slaughter ensued. When they got thru with them they had managed to cut away \$162,287. The original estimates compiled by Property Commissioner Chisholm amounted to \$2,059,015, but previous to yesterday the property committee had struck out \$227,706, and on Friday the board of control had further reduced the total by \$15,020. The cuts now made, less \$3000 added, leave the revised estimates at \$1,828,514.

The one big item which was struck out of the list of 108 new men for the department. This big addition to the force would be required to provide one day off a week for each man. Thirty more men would be required to run the street cleaning department. On this question the board decided to approve of the principle of a day off, but deferred it for a year.

The request for four new pumping engines, to cost \$66,000, was cut in half, and the buying of two at \$33,000 was approved. The chief stated that these pumps would effect an annual saving of \$30,000 in salaries alone, and the men displaced could be used on other apparatus. An item for a one-ton truck for the fire alarm department, to cost \$1200, was cut in half. At the request of the controllers, the chief agreed to hold over till next year \$2850 for three Ford runabouts for district chiefs. TRADE RELATIONS WITH WEST INDIES

T. B. Macaulay of Sun Life Favors Commission to Consider Question.

Canada's one great authority on the West Indies is T. B. Macaulay, president and managing director of the Sun Life Assurance Company of Canada. Macaulay, president of the Canadian West Indian League yesterday afternoon Mr. Macaulay addressed the Canadian Club on the subject of "Our Relations with the West Indies." For many years Mr. Macaulay has been deeply interested in establishing closer trade relations between this country and the British West Indies. Last year Mr. Macaulay visited the Indies to further trade relations and also interviewed the colonial office in London on the subject. "The West Indies are a dangerous area," said the speaker, "that might after co-operating in war time, might go down in peace. "When we look to the West Indies last spring," said Mr. Macaulay, "I pointed out that at that time New York exchange was at premium of five to six per cent. London and three per cent. in Canada, and gradually increasing, and I pointed out the seriousness of that symptom. But since then the premium on New York funds in London has been growing; it has increased to 10, 15, 18 per cent. to 30 per cent. The pound sterling in New York is worth about \$74, and the dollar in London is worth about \$1.20. This means the premium is just about 30 per cent. In other words, it takes \$130 of real intrinsic value in England to pay for \$100 in New York, or \$100 in New York has a purchasing power of \$130 in London. In the same way in Canada the premium on New York funds has risen until it is over 8 per cent."

Compensating yesterday stage employees in Ontario came under the provisions of the Ontario Workmen's Compensation Act. This will mean that the fraternity since accidents befall stage employees and their families, they will be able to get compensation for a long time, and that will be a great benefit to them.

LABOR NEWS METAL TRADES FORM A. F. L. AFFILIATION

Resulting from the convention of the Metal Trades Federation, held in Montreal last week, the Canadian Council of the Metal Trades department of the American Federation of Labor was organized and set on a firm business basis. This is a matter of far-reaching importance, and like the present organization of the Building Trades evolution in Toronto, spells a new sense of conviction in the labor movement in Canada, with this difference, that the building trades was a purely local evolution, while the Canadian council of the building trades department is a Dominion-wide movement in itself. A special meeting will be called shortly by the executive. This executive comprises Harry Kerwin, machinist, president; Thomas Carson, millwright, vice-president; W. J. Colley, electrical worker, secretary; and an executive body of one representative from the eight bodies represented on the council board. The Canadian Council of the Metal Trades Department has formulated a wage schedule for a 48-hour week. No craft embodied in the union can sign an agreement at less than 90 cents an hour.

Colley, electrical worker, secretary; and an executive body of one representative from the eight bodies represented on the council board. The Canadian Council of the Metal Trades Department has formulated a wage schedule for a 48-hour week. No craft embodied in the union can sign an agreement at less than 90 cents an hour.

Resulting from the convention of the Metal Trades Federation, held in Montreal last week, the Canadian Council of the Metal Trades department of the American Federation of Labor was organized and set on a firm business basis. This is a matter of far-reaching importance, and like the present organization of the Building Trades evolution in Toronto, spells a new sense of conviction in the labor movement in Canada, with this difference, that the building trades was a purely local evolution, while the Canadian council of the building trades department is a Dominion-wide movement in itself. A special meeting will be called shortly by the executive. This executive comprises Harry Kerwin, machinist, president; Thomas Carson, millwright, vice-president; W. J. Colley, electrical worker, secretary; and an executive body of one representative from the eight bodies represented on the council board. The Canadian Council of the Metal Trades Department has formulated a wage schedule for a 48-hour week. No craft embodied in the union can sign an agreement at less than 90 cents an hour.

"IN LIKE A LAMB, OUT LIKE A LION"

March 1 Behaves Well in One of Coldest Winters Since 1874.

March came in yesterday like a "lamb," altho it was only 13 above at 8 o'clock and 30 above at noon. It is to be truly hoped that the lamb will not grow much during the next 31 days and leave us like a lion. Sir Frederic Stupart said yesterday there was little or nothing in the old adage, "Come in like a lion goes out like a lamb," as Toronto had on many occasions in past years had two or three lions and lambs during March. "These old sayings," he declared, "were more applicable to them than to Canada. Some of the other sayings run: "March comes in with an adder's head, but goes out with a peacock's tail." "The old adage is worth a king's ransom," while a third, "St. David's day (March 1) puts cats and barley in the hay." "The old adage is worth a king's ransom," while a third, "St. David's day (March 1) puts cats and barley in the hay."

It will be seen from the following table that the present winter has been the second coldest in recent years, that of 1917-18 having a slightly lower average temperature.

Table with columns: Year, In, Out, Mean. Rows: 1906-1919.

It will be seen from the following table that the present winter has been the second coldest in recent years, that of 1917-18 having a slightly lower average temperature.

FEBRUARY'S EPIDEMIC

Influenza Accounts for Over Fifty Per Cent. of Total Mortality of 1191.

During the month of February 1191 deaths occurred in Toronto. The two greatest epidemics, influenza and pneumonia, accounts for more than fifty per cent. of the mortality list, 466 Torontonians having succumbed to the former, and 190 to the latter. It was during the past month that the infections took

The Toronto World

FOUNDED 1850. Morning newspaper published every day in the year by The World Newspaper Company of Toronto, Limited.

TUESDAY MORNING, MARCH 2.

The Borden Puzzle.

British history affords no parallel to the Ottawa situation of the prime minister who isn't. Up in Saskatchewan the premiership of Walter Scott was distinguished by a series of prolonged absences from the province; but they were not like the vacations of Sir Robert Borden.

When Mr. Scott was away from Regina Mr. Calder was acting premier, exercising the full force and authority of the Executive Council.

It is peculiarly appropriate that Mr. Calder should be in the United States with Dr. Reid to see what they can do with Sir Robert Borden, while their colleagues and supporters start the debate on the address, wondering what can be done about him.

The drifting ship of state has a rudder, but it is hard to name the quartermaster at the wheel. The crew awaits a summons for a forecastle meeting, not knowing whether there will be a real skipper or whether the master's authority will remain in suspense.

It is thought by many observers of parliamentary navigation that the policy of the puzzled mariners who supplement one another on the bridge will presently be disclosed as one of watchful waiting until the session (which they pray heaven, may be short) is over.

So much for the speculative side of a situation that is nearly all speculation. Sir Robert will probably be found placing himself in the hands of his friends. Meantime, a franchise act is an imperative need, because, at all risks, the popular machinery of constitutional government ought not longer to be stalled.

Too Much Bunty.

A farmer-premier has no need to be in the position of the Frenchman who, travelling behind a procession, and invited to turn aside and rest, said, "No, no, I cannot. I am the leader of these people and I must follow them."

GOING TO SCHOOL WITH TEACHER

spirit and deed, other revisions of tendency may be necessary. The Sunday World published an authoritative summary of the educational survey which the premier accepted from the Massey Foundation.

THE DAY AT OTTAWA

BY TOM KING.

Ottawa, March 1.—(Special).—The debate upon the address in the house of commons today developed into a duel between Hon. Mackenzie King, the Hotspur of Liberal opposition, and Sir George Foster, the crafty Ulysses of the Union government.

DR. CHAS. G. HEWITT HAD NOTABLE CAREER

Dr. Charles Gordon Hewitt, D.S.C., F.R.S.C., Dominion entomologist and consulting zoologist died of pneumonia at an early hour this morning at his home in Rockcliffe Park.

GUELPH SOCIETIES HIT HEARST PAPERS

Guelph, Ont., March 1.—(Special).—At the close of the meeting of the Women's Canadian Club this afternoon a meeting was held with the Red Cross Society when the matter of publishing all the Hearst publications into Canada was taken up.

WORLD'S DAILY BRAIN TEST

Mr. King then made a slashing attack upon the government. He regretted that the prime minister was unable to attend to his duties, but that being the case, he ought to resign.

OTHER PEOPLE'S OPINIONS

The World will gladly print under this heading letters written by our readers, dealing with current topics, provided space is limited they must not exceed 200 words and written on one side of the paper only.

PROVINCIAL HONORABLES.

Editor World: The present Farmers' administration came into power with a cry of "No fuss or feathers."

Hockey Stratford 7 U. T. S. 3

STRATFORD ADD TO SEMI-FINAL LEAD

Defeat U.T.S. Seven to Three, on the Arena Ice.

SURPRISE FANS

Toronto fans got their first peep at the Stratford midgets last night, and the feeling is general that Toronto fans have a big job on their hands to lift the U.T.S. to 2 in Stratford, last Thursday, and come right down the arena ice last night and downed the Varsity School 7 to 3.

U.T.S. went down, but there is no joy over their defeat. They played their best and perfect combination was a revelation to many, and let it be said right here that Stratford can do better than they did last night. Their performance against U.T.S. in Stratford was even better.

Defence Was Good. Seldon had Munro and Rowell played better defensive hockey than last night. Their body-work and clever sand-wiching of attacking forwards was what won the game.

Great Finishers. Stratford scored a great finish in the third. They opened the three-man attack in earnest. Sullivan got plenty of work early, but the little fellow was equal to the job. Carson scored the first of the period by picking up a pass shoved back from a face-off and racing the net to beat McLeod.

Teams and Summary. U.T.S.—McLeod, Goal; Sullivan, Defence; Berger, Defence; Munro, Defence; Lavelle, Defence; Rowell, Defence; Carson, Right; Kelterborn, Left; Plaxton, Sub; Sebach, Sub; Waddington, Sub; Laird, Sub. Referee: W. Tuckberry.

Plenty of Speed. Stratford are able to go at a terrific pace for the full ninety minutes. They were fresh at the end of the game, and were just as fresh at the finish as when they dropped over the boards. At last night's game, they can pick up a pass in a very short space, and if the rubber is last they wheel at once, get set and the puck-carrier and every line until they sweep it away. It is great.

Stratford always looked like winners. They opened with a smart attack and kept going the full game. The checking game was put down at the first bell. It took three minutes to get the first tally. Carson raced in to bat in a rebound after Lavelle's shot. Munro and Rowell drew their bodies into the fast-moving judicious and it was lively. Munro rushed down after time, but found it hard to wiggle thru. Carson made it two to nil by leaving a pass for a pretty three-man combination. Carson was uncovered when the pass was tipped over to him. Munro was no further scoring in the first period.

U.T.S. put in their best legs in the second part and got an even break in

THE SENATORS MAY BE CHAMPIONS TOMORROW

Ottawa, March 1.—Regarding the world's hockey series, for which their team likely to qualify, officers of the Ottawa Hockey Club stated today that they had had no negotiations whatsoever with the Pacific Coast League.

THUNDER BAY TO MEET MANITOBA CHAMPIONS

Regina, Sask., March 1.—Secretary W. C. Bettchen, of the Canadian Amateur Hockey Association, received a wire yesterday from Thunder Bay, Ont., stating that the Alberta association, to the effect that the Lethbridge team, senior champions of the province, will challenge the Thunder Bay team to meet in the Allan Cup final.

THREE-GOAL LEAD FOR THE SOLDIERS

Royal Military College defeated Varsity II, 8 to 5, at the arena yesterday, in the first of home-and-home games for the intercollegiate intermediate championship.

Eleven Games Thru Sticks for Leafs

The Leafs' list of spring exhibition games will be arranged. The Toronto crew will leave the ice and snow on March 20th for Columbus, Ga., and Hugh Duffy will put them thru the preliminary stunts. Then the Leafs will move to Atlanta on April 7 for two games, and work up thru the Carolinas and Virginia before moving into Reading, Pa., for the league opening on April 23.

The World's Selections

TODAY'S ENTRIES

AT NEW ORLEANS. New Orleans, La., March 1.—Entries for Tuesday:

FAVORITE VICTOR IN THE HANDICAP

Legotal Wins the Feature at New Orleans on Monday.

BASEBALL BRIEFS FROM SUNNY SOUTH

At Jacksonville, the New York delegation of Yankee ball players, minus J. Murphy, catcher, and John Biemiller, who was kept in New York by illness, arrived in Jacksonville last night.

Pharmacy Must Hand Over the Jennings Cup

A nigger in the wood-pile has developed in the Jennings Cup Hockey League. Pharmacy defeated junior Mess and Victoria College and thus secured the title of the silverware for the time being, but Victoria has a suspicion and held a quiet investigation with the members of the Ontario Hockey Association.

OTTAWA PREPARING FOR STANLEY CUP FIXTURES

Ottawa, March 1.—Regarding the world's hockey series for which their team likely to qualify, officers of the Ottawa Hockey Club stated today that they had had no negotiations whatsoever with the Pacific Coast League.

GENERAL FINANCE HOCKEY FINAL

The General Finance Hockey League final between Toronto General Trustee and Canada Life is on tonight at seven at Little V.

KINGSTON IS READY TO MEET COLLINGWOOD

Kingston, March 1.—Kingston easily overcame Brampton's three, and returned to the return intermediate semi-final game tonight. Brampton were defeated 9 to 3, and Kingston will now meet Collingwood in the final.

VETTERANS' BOWLING

A league game was played Saturday afternoon at the clubhouse between Central and Riverdale A teams.

VERNIE WORKED FAST SHE SAYS HE DID

Yep, just like that! And away zoomed the Saints' hopes of a championship. Well, it wasn't until the puck struck the goal that they realized that they were in a state of unarmed neutrality and hoot lustily for the best man, irrespective of his team.

FAMOUS HORSEMAN DIES IN FRANCE

New York, March 1.—Wilfrid Viau, prominent race trainer, who had been chased the noted American horse Omar Khayyam from C. K. G. Billings, died today in France.

TECHNICAL AND RIVERDALE WIN BOTH LEAGUE GAMES

The Girls' Intercollegiate Basketball League games yesterday resulted as follows:—Senior.

GAMES AT WEST END Y.

This week's program starts off another month of big doings at the West End Y.M.C.A. The headline attraction will be the final game for the girls' intercollegiate basketball championship, between the Hamilton Y.W.C.A. and Somerville Y.W.C.A.

BETTING ON SOCCER MATCHES.

London, March 1.—The football association, in an earnest appeal supporting the bill introduced in parliament to prevent coupon betting on football matches, to show the extent of the practice at present state, that in a recent raid at Wewcastle the police seized 51,525 filled up betting coupons, largely for sixpences and shillings.

THIS is no poker game, but a little Admiration Society of E. R. C. Struthers for his "Royal Flush" hand in the celebrated concrete filled Rod Bumpers, 3 Leaf V-Bolt attachments.

Applications to Parliament.

NOTICE. Ernest Alfred Ballard, of the City of Toronto, in the County of York, Province of Ontario, returned soldier, will apply to the Parliament of Canada at the next sitting of the House of Commons, on the 14th day of February, A.D. 1920, from his wife, Daisy Matilda Ballard, of the City of Toronto, in the County of York, Province of Ontario, on the ground of adultery and desertion. Dated at the City of Toronto, on the 14th day of January, A.D. 1920. J. S. WALLACE, Solicitor for applicant, 31 Richmond St. W., Toronto, Ont.

TO INSPECT MEAT STORES

Brantford, Ont., March 1.—(Special.)—The work of Dr. Cutcliffe, veterinary inspector for the city, will be extended to include restaurants, outside meat stores and milk depots, not until the finances of the city are on a better footing.

PLAYS, PICTURES AND MUSIC

"NOTHING BUT LOVE."

Well-Balanced Company Does Excellent-ly in Smart Musical Play at the Royal Alexandra.

"Nothing But Love" starts very well, and becomes better as it progresses, and it is all a very pleasant evening, listening to the chorus had more than the usual chorus share of appeal to the sensibilities. In physical form there was all that beauty, and in attire, all that wealth, and the music was tuneful, and the rendering of songs numbers in keeping with the altogether excellent stage production of Mr. Frank Stammers, author of the book and lyrics.

"Nothing But Love" is truly described as "a smart musical play." It develops from the rescue of June Marbury, who went bathing alone at sunrise, is overpowered by the pure and is rescued by Allen Hicks, an auto-racer, who remembers nothing of the actual salvation, but for his noble and self-sacrificing on the beach. June, of course, is in love with her savior. He is puzzled when he learns the whole story, because he did not know how to swim. The case is explained to him as one of those things which are not to be believed in the end, equally, of course, and after much laughter-provoking play of cross-purposes, June and Allen are united, and stand one another. Their love interest is furnished by June's stalwart, deep-throated father, Dr. Brock, who, with Winchester, and her son Teddy, and June's cousin, Lucy Cotton.

Her mother, who had married Tombs, is heralded as a comedian in a class by himself. He is not a side-splitter, but a comedian in a class by himself. He is not a side-splitter, but a comedian in a class by himself. He is not a side-splitter, but a comedian in a class by himself.

Under a happy and cheerful atmosphere, the play is a success. The music is well rendered, and the acting is well done. The play is a success.

AT THE PRINCESS.

Appealing Comedy-Drama, "Pietro," Shows Off Skinner in Remarkable Piece of Character Acting.

"Pietro," the comedy-drama in which Oris Skinner appears at the Princess Theatre, is a well-known actor, who has played the play of his remarkable powers as a portrayal of character. It was written by his wife, Maud Skinner, and is a play of love and power by Milton Loomis and Benedict James. The play is one of exceptional interest. Two brothers, sons of Jewish parents, are separated in childhood during a pogrom. One, brought up by Christians, becomes a priest of the Russian Church; the other, educated by his kinsmen, becomes a Jew, and a rabbi. Years afterwards, the two meet under dramatic circumstances. The priest, educated by his kinsmen, becomes a Jew, and a rabbi. Years afterwards, the two meet under dramatic circumstances.

AT THE STAR.

Clean, Bright, Geared Burlesque Keeps Everybody in "All New Gaiety Girl."

"All New Gaiety Girl" is a clean, bright, geared burlesque which keeps everybody in a state of high good humor. The show is a success. The music is well rendered, and the acting is well done. The play is a success.

"HIS WIFE'S FRIEND."

"His Wife's Friend" is a very appropriate title of the latest Dorothy Dalton feature at the Strand Theatre. It is a play of love and power by Milton Loomis and Benedict James. The play is one of exceptional interest. Two brothers, sons of Jewish parents, are separated in childhood during a pogrom. One, brought up by Christians, becomes a priest of the Russian Church; the other, educated by his kinsmen, becomes a Jew, and a rabbi. Years afterwards, the two meet under dramatic circumstances.

AT THE ALHAMBRA.

Picture Adapted From James Barrie's "Admirable Crichton" Shows Shal-lowness of Rank.

Cecil B. De Mille, famous for his long string of artistic motion picture successes, has excelled all previous efforts in the picture "Admirable Crichton," which is being shown today, Wednesday and Thursday at the Alhambra Theatre. The play is a success. The music is well rendered, and the acting is well done. The play is a success.

AT THE MADISON.

Olive Thomas, who has a continental reputation as a beautiful and brilliant screen star, is seen at her best in "The Spite Bride," the delightful Selmick picture being shown at the Madison Theatre. Her role is that of a bride of a man who married her just to spite another woman, and she plays it admirably. The story is a thrilling one in places, and very interesting throughout. A brilliant supporting cast is headed by Jack Mulhall and Robert Ellis.

"THE LITTLE BROTHER."

Tyrone Power Scores Another Success at the Grand Opera House.

Tyrone Power scores another success at the Grand Opera House with "The Little Brother." The play is a success. The music is well rendered, and the acting is well done. The play is a success.

"The Little Brother" is a play of love and power by Milton Loomis and Benedict James. The play is one of exceptional interest. Two brothers, sons of Jewish parents, are separated in childhood during a pogrom. U. S. STEEL DECISION CHEERS WALL STREET

Gains of One to Three Points Predominate at Active Close of Market.

MONEY RATES EASY

New York, March 1.—Demobilization of the railroads, a supreme court decision favoring the United States Steel Corporation, comparatively easy call money rates and an all-round advance in crude and refined oil products, were the chief influences in today's stock market.

Of these widely diverse developments the decision involving the steel corporation from illegal practices was the most important, prices rallying quite generally in the last hour, when the loss of 14 points' ruling was obtainable.

Reactions extended to rails, where a touch of the bulls' game was evidenced, investment transactions falling back as easily as the speculative division. Shipping showed similar tendencies and food shares became reactionary.

Traders did not grasp the full import of the steel decision until the news tickers issued excerpts, whereupon United States Steel began to be heavily accumulated up to 2 1/2 points, an advance of 2 1/2 points, closing virtually at its top.

Independent steels rallied 2 to 3 points from their minimum with numerous railroad equipments and motors and their specialties rose briskly with petroleum and shippings. Gains of 1 to 3 points predominated at the active close. Sales amounted to 775,000 shares.

In the bond market Liberty 3 1/2 made a feeble recovery from last week's low level, but others of that group as well as Victory notes were weaker. French municipal bonds were in the early heaviness, but the general list was irregular. Total sales, par value, were \$15,875,000. Old U. S. bonds were unchanged on call.

WALL STREET VIEWS

Henry Clews, in his weekly market letter, says the market was excited. The publication of unfavorable earnings by some leading steel and other industrial returns has shown how taxation and excessive costs can eat into the legitimate returns to be expected from a large business.

The prospects indicate more and more a general industrial soundness, with little, if any, accumulation of goods, great production power, and general underlying stability. There are certain factors whose correction will be essential before normal conditions can be regarded as settling down to a permanent footing.

In spite of all these industrial factors, however, while the tendency of industrial stocks at least seems to be downward, it must be realized that quite a number of directions have been well lowered. Hereafter, it will not be altogether a one-sided affair, but stockholders should be on their guard, as the market is too unstable at this length of time.

The prospects of high money rates in the future again loom up as a market menace, and this in turn likely to cause more liquidation in the industrials, which are fast losing their popularity, owing to their growing lack of stability. The market still looks attractive to hold, but tight money and liquidation in other parts of the list must necessarily temper them to some extent, so that taking fair profits as opportunity affords would appear to be wise.

Toronto will be the headquarters of another large Canadian industrial organization, as a result of the formation by leading financial and industrial interests of the Chase Tractors Corporation, Limited.

It is reported that the company has taken over the business throughout Canada of the Chase Motor Truck Co., of Syracuse, N. Y. The company has also secured a large plant adjoining the Canadian National Exhibition grounds, in Toronto, which will give it facilities on the main lines of the Canadian Pacific and Grand Trunk Railways.

The Chase tractor has established for itself a reputation of being one of the most successful machines of its kind in the world and it is the intention to manufacture tractors at the Canadian plant for the requirements not only of the Canadian market, but also for all parts of the British Empire.

The new company will have a capital stock of \$1,000,000, 8 per cent. cumulative preference stock, which with \$750,000 will be issued at present, and 1,000,000 of common stock, all of which is now issued. The Montreal and Toronto groups, who are connected with the new company, include H. J. Cluff, president; T. P. Birchall, vice-president; W. J. Cluff, vice-president; James Whalen, Senator Curry, R. M. Wolvin and J. W. Norcross.

The management of the new company will be in the hands of the Cluff brothers, both of whom have been identified with the management and operation of several successful manufacturing concerns, among their biggest undertakings being the Galt Brass Company and the Cluff Amusement Company.

It will be the policy of the company to manufacture its tractors from the highest grade of materials obtainable, irrespective of cost. This policy does not allow of as large a profit on each individual machine manufactured, but the company will undoubtedly derive the benefit in the long run, by establishing a record for the Chase tractor and at the same time making a satisfactory profit. This tractor has already been successfully manufactured in the United States and it is stated that the Canadian Company already has orders on hand sufficient to take care of its entire output for several months.

PULP AND PAPER EXPORTS.

Canadian exports of pulp and paper in December, 1919, were valued at \$29,572, an increase of \$2,324,423 over those of December, 1918, and of \$1,140,000 over those of November, 1919, showing

A WORD OF COUNSEL.

THE most frequent sources of litigation and loss to estates are as follows:—"Home-made" Wills; Old Wills, not up-to-date; Badly-drawn Wills; Wills executed contrary to Law; Death-bed Wills, made in a hurry, under undue influence.

Have your Will drawn by your Solicitor, and to ensure careful and competent management for your estate, appoint as your Executor and Trustee

\$778,385 over those of the preceding month. The principal gain was in the value of paper, which amounted to \$6,312,430 in December, 1919, compared with \$3,782,240 in 1918.

CORN PRODUCTS EARNINGS.

New York, Mar. 1.—Corn Products for the month ended December 31, 1919, showed

net income after all charges and federal tax of \$15,717,485, equal after preferred dividends to \$23.36 a share on \$49,784,000 common stock against \$8,622,400 or \$17.18 a share on 49,777,332 shares in 1919.

By order, NEWTON C. SLAYTER, Secretary.

PORCUPINE CROWN ADVANCES SHARPLY

Extension of Hollinger Vein Into Property Rumored—Dome Lake Up a Point.

Porcupine Crown was very much to the fore in yesterday morning's trading on the Standard Exchange, scoring a smart advance of 1/4 point, to 37, on trading in 1000 shares, the full gain being retained at the close, with 37 as the final bid. Porcupine Crown was persistently strong last week, despite the handicap of a dragging market in nearly all other issues.

Another active gold stock was Dome Lake, which moved up a point, to 9, on trading in nearly 14,000 shares. Dome Lake was pounded hard last Saturday, when 1/2 was touched, but the stock now appears to be on the mend. It rallied 2 points, to \$1.15. McIntyre at 24 and Keora at 24 were unchanged, while Dome Extension at 47 and Highland Lake at 73 were each off half a point.

In the Cobalt firmness was shown by Nipissing, Timiskaming and Threthewey. Nipissing sold 5 points up, at \$12.75, while Timiskaming bid 44, and Threthewey, at 47, were each up a point. Both were steady at 3 1/4.

There was no afternoon session, adjournment for the day being made after the morning session to permit members to pay last respects to the memory of the late H. A. Fleming, whose funeral took place yesterday afternoon.

PRICE OF SILVER.

London, March 1.—Bar silver, 84d an oz., an advance of 3/4.

New York, March 1.—Bar silver, \$1.31 1/4, an advance of 1/4c.

APPEAL MADE FOR FUNDS TO FIGHT BUFFALO SALE

Max Morgenstern of New York, who styles himself chairman of the Buffalo Shareholders' Protective Committee, has sent out a circular to shareholders of the Buffalo Mines, appealing for subscription to carry on a legal fight against the sale of the company's assets to the Mining Corporation of Canada.

Recently, Justice Middleton at Osgoode Hall dismissed a motion by Mr. Morgenstern, who asked an injunction to prevent the sale being carried out. Notice of appeal was then given.

In the circuit court, Morgenstern says he received information that within the last three months since the Mining Corporation took control of the Buffalo, quite a large tonnage of new ore has been put into sight.

CUTTING FOOD PRICES TO PORCUPINE MINERS

The effort being made by the operating companies of Porcupine to reduce the high cost of living and the same time make for a betterment of their employees' earning power, is shown, according to the information received by the employees of B. Wills, over his private wire from Timmins, by the Hollinger and McIntyre managements making a reduction of 20 per cent. on the various commodities in their stores patronized only by employees. This store was established on a 10 per cent. plus profit basis, and the action in further reducing prices 20 per cent. is indicative of lower prices in buying.

The placing of miners on their own capabilities is now becoming a general custom at the big mines, and today Edouard's underground men are practically contract men, and the competent miners will be able to earn \$6 per day, or better, dependent solely upon their own efforts.

REOPEN KEELEY SOON.

Cobalt, March 1.—It is officially announced that the Keeley Mine in South Ontario has been reopened and operations commenced on March 1. The mine is the Gold Mines of Western Australia is the largest of the district. An extensive development program has been started, and toward which end the de-watering of the mine will be the first work. It will be the policy of the management to concentrate all energy on development work for a reasonable length of time, following which a twenty-stamp mill with capacity for treating sixty tons of ore a day will be installed. It is proposed also to install an oil flotation unit.

IMPERIAL OIL ISSUE IS READILY TAKEN UP

The time for subscriptions by Imperial Oil shareholders to the new stock expired yesterday, and it is understood that the full issue was readily taken up. It will mean the raising of \$15,000,000 additional shares of treasury stock, which were issued at three times the par value of \$5,000,000.

CLOSING TONE FIRM ON NEW YORK CURB

New York, March 1.—The curb market closed firm during the early session many issues, especially the oils, were very strong. Short-covering was apparently responsible for the recovery. However, there was quite a volume of fresh buying of asphalt, which was up 2 1/2 points at \$1 1/2. There is talk of 100 per cent. stock dividend to be declared by the directors of that company. Marconi was stronger, advancing to 5 2/3. Orpheum circuit was fractionally higher. Dominion Oil was a strong feature among the oils, showing net gains of 3 1/2 points at 21 5/8. International Petroleum gained almost 2 points. Simms was up 2 1/2 points at 37 1/2. White Oil and Skelly Oil were also strong.

MEETINGS.

BIDWELL OIL AND GAS, LIMITED

(No Personal Liability).

Take notice that the Statutory Meeting of Shareholders of Bidwell Oil and Gas, Limited, (no personal liability) of the Company, 603-4 Lansden Building, Toronto, Ontario, on Saturday, the 20th day of March, 1920, at three o'clock in the afternoon, when the subject to be proposed is—

Resolution—Resolved that the Company issue one issue of Fifty Thousand Shares of Eight Per Cent. preferred stock.

By order, NEWTON C. SLAYTER, Secretary.

Wm. S. Livezey, President. Judge W. T. Carlton and Geo. Putty, Attorneys.

Little Motor Kar Co. LIMITED.

\$4 Capitalization \$3,000,000. Fully Paid and Non-Assessable Dallas, Texas. Factory, Grand Prairie, Texas. Northern Plant, Havre de Grace, Md. \$4

Now selling securities at \$4 per share. Building factories to manufacture THE TEXMOBILE, a product of the great Southwest. A fine small car of exceptional excellence, embodying many of the features of the highest grade automobiles. Strong, durable, well built, to give entire satisfaction. An ideal car that will delight the whole family.

Those Who Have Visited the Factory of the Little Motor Kar Company

Since Mr. Livezey's return to Dallas from the North, have not only seen the material coming in, but have seen the TEXMOBILE in its standardized form as it is now being built, ARE VERY OPTIMISTIC—Optimistic because they realize that the company is now ready to turn out automobiles, and they realize that the turning out of these automobiles means:

FIRST: Satisfied customers.

SECOND: Returns for those who have invested in the securities of the LITTLE MOTOR KAR COMPANY.

They realize that the car is well built—they can see the beautiful lines of the body; they can see the busy workmen hurrying to completion these bodies, from the first piece of wood that goes into them, to the finishing touch of the brush of the painter. Then comes the chassis of the machine itself, and they find in that chassis parts from the very highest grade manufacturer of their kind in the United States. They then realize that the TEXMOBILE IS A FINE SMALL CAR OF EXCEPTIONAL EXCELLENCE, embodying many of the features of the highest grade automobiles. It is strong and well built to stand the rough roads; last, they have the company's word that should a machine go wrong to a purchaser, the company stands ready to make any defect good instantly.

In thinking of the Little Motor Kar Company, they find this: It is a company that has been built as a house on the rock, piece by piece, and not as fast probably as some would have liked, but they find the company sitting on a strong foundation both financially and from a producing standpoint. They also find that their money that has been spent, has been expended for material things needed by the company to place it on a PRODUCING, PROFITABLE PAYING BASIS.

Now then: They look further and find that the company is also preparing to produce cars at Havre de Grace, Maryland, where it has its own property. They find that the engines being built by Mr. Livezey, for the company, are coming through in large quantities, and after riding in the TEXMOBILE they find an engine that is LOW ON GASOLINE CONSUMPTION, and is one that will take you out of the ruts in case you get in them. It is an engine that will take you where you want to go and you can rest assured that you will get back. Again, on the second consideration, THE TEXMOBILE itself is built not only for one year's business but for a PROFITABLE FUTURE BUSINESS FOR THOSE WHO HAVE INVESTED THEIR MONEY IN the ground floor securities of the Little Motor Kar Company.

It is a positive fact that those who have received BIG RETURNS, have ALWAYS BEEN EARLY INVESTORS. They have been investors who were willing to come in

Naturally, With the Expected Production, and As Soon As Mr. Livezey Does Pay Dividends, Which He is Striving So Hard to Do, We Do Not Think That You Will Be Able to Buy This Securities You Have Already Bought—There is No Doubt But That You Will See Them Grow to Be Worth Many Times What You Paid.

when the companies were in their infancy—they were people who put their money in those companies and watched them grow.

They were, as a rule, people who BOUGHT EARLY, and did not wait until they had to pay many times the price for their securities, that they would have to pay had they not invested early.

So, from all observations, they can see that other large companies that have returned such enormous profits, HAVE PAID THE LARGEST DIVIDENDS TO THEIR EARLY INVESTORS. They cannot help but ask themselves the question, WHY SHOULD NOT THE LITTLE MOTOR KAR COMPANY PAY GOOD RETURNS TO THOSE WHO INVESTED EARLY? For the company has great resources and is growing larger and larger every day.

Next week the company will start the second unit of its plant in Texas, which has been delayed by bad weather. All the material in the ground for this second unit, which will be a building about five hundred feet long. Almost immediately after this, it will start its buildings at Havre de Grace, Maryland. It has leased buildings there for immediate production, besides the property it already owns. Next week will find cars in the hands of the Little Motor Kar Dealers, ready for the public. These cars have been sold for some time, and from a casual observation, THE FUTURE OF THE LITTLE MOTOR KAR COMPANY IS CERTAINLY UNLIMITED AND VERY BRIGHT. Its management can say it has tried to secure dollar for dollar, for every dollar that has been spent.

If you should visit their factory now, we believe you would be well pleased and you, too, we think, would become enthusiastic with the possibilities and after talking with the President of the company and seeing how he is endeavoring to pay dividends this year to stockholders in his company, there is no reason in the world, we believe, that you, too, will want to BECOME ONE OF THE EARLY INVESTORS. In a few years from now, we feel that you will be VERY GLAD that you did invest when YOU HAD AN OPPORTUNITY TO BUY LITTLE MOTOR KAR COMPANY'S EARLY SECURITIES AT \$4.00 PER SHARE.

WHAT OTHERS HAVE DONE STILL OTHERS CAN DO. Write for our latest booklet. CLIP THE COUPON AND MAIL TODAY WITH YOUR ORDER FOR LITTLE MOTOR KAR SHARES AT \$4.00 PER SHARE, BEFORE PRODUCTION FORCES THE PRICE UP.

5 to 1000 Shares Solicited

U. S. BANK CLEARINGS. The conservative tendency that is reported to be developing in some departments of business is reflected to some extent in bank clearings in the United States, which, however, at practically all important points, continues to show substantial gains over those of this period in all previous years. While at a few centres the expansion is not quite so pronounced as in some earlier weeks, the total last week's twelve leading cities in the United States, according to Dun's Review, amounts to \$6,406,527,331, representing an increase of 15 1/2 per cent. over the figures of this week last year and of 24.2 per cent. over those of the same week in 1919.

NEW YORK FUNDS EASIER. New York funds were easier in the Toronto market yesterday, being quoted slightly under 15 per cent. premium, as against a premium of about 15 7/16 per cent. on Saturday last. The pound sterling at \$3.42 1/2 showed a gain of about 3 cents in New York.

DIVIDENDS DECLARED. Brazilian Traction directors have declared the regular quarterly dividend of 1 1/4 per cent. on the preferred, payable April 1st to shareholders of record Mar. 15.

SUMATRA'S EARNINGS. New York, March 1.—American Sumatra's earnings for 6 months of fiscal year to February 1, were \$1,452,347 against \$1,187,572 for same period of previous year, equal to ten times full year's dividend on \$2,000,000 preferred stock and after payment of preferred dividend equal to practically 3 per cent. on common stock outstanding.

BENMAN'S EARNINGS. Montreal, Mar. 1.—Sales for the year by Penman's, Limited, showed a decrease in 1919, but there was an increase in net trading profits. The sales amounted to \$5,223,819, a decrease of \$109,624, while the net trading profits

amounted to \$1,298,314, compared with \$1,287,171.

Commercial failures last week in the United States, as reported by R. O. Dun & Co., were 130 against 124 the previous week, and 136 the corresponding number 12 against 16 the previous week, and 11 last year.

GEN. ELECTRIC BONUS. The expected bonus on Canadian Gen-

APPLICATION BLANK LITTLE MOTOR KAR COMPANY, Grand Prairie, Texas. Please find enclosed check, draft, money order, for \$..... for which please send me shares of LITTLE MOTOR KAR CO. SECURITIES at \$4.00 per share, fully paid and non-assessable. It is understood I am to share in the profits of all the company's branch factories. Name Address T. W. (Please write plainly.)

The Sterling Bank of Canada TAKE NOTICE that a Special General Meeting of the Shareholders of the Sterling Bank of Canada will be held at the Head Office of the Bank, corner King and Bay Streets, Toronto, on the 10th day of March, A.D. 1920, at the hour of twelve o'clock noon, for the purpose of filling the vacancy in the position of Auditor created by the resignation of the present Auditor owing to ill-health.

AND FURTHER TAKE NOTICE that the following persons eligible for nomination are intended to be nominated for the said office at the said meeting: NAME TO BE NOMINATED BY: J. Z. Robson, 25, T. Hecker, Robson, Ritchie & Co.

AND FURTHER TAKE NOTICE that this meeting is called and this notice given, pursuant to Section Fifty-six of the Bank Act.

PATRY, at Toronto this second day of February, A.D. 1920. A. H. WALKER, General Manager.

TWO-POINT DECLINE IN GENERAL ELECTRIC

Atlantic Sugar is Strong and Resumes Position as Market Leader.

SMELTERS IS ACTIVE

The course of stocks on the Toronto exchange yesterday suggested a very active market. Gains here and there were counterbalanced by heaviness in other issues, with the result that an irregular appearance was given to the market. Dealings were again on a comparatively small scale, the total in listed stocks, exclusive of mining issues, falling below 1900 shares, while in the unlisted group trading in other than mining stocks was almost negligible.

C.P.R. SELLS EX-DIVIDEND.

C. P. R. sold ex-dividend 2 1-2 per cent. yesterday and touched 118, but rallied to 119 at the close.

THE CANADIAN BANK OF COMMERCE

PAID-UP CAPITAL \$15,000,000, RESERVE FUND \$15,000,000. DEPOSIT SERVICE FOR INDIVIDUALS AND CORPORATIONS. THE IMPERIAL TRUSTS COMPANY OF CANADA. ESTABLISHED 1887. 15 Richmond Street West, Toronto.

Exploration Completed on the HERRICK GOLD MINES

Main vein cut at 800 feet by diamond drills indicating existence of a huge tonnage of ore—average assays show a value of over \$15 in gold to the ton

cross-cutting, drifting and general mining operations will begin as soon as steam is turned on. A large tonnage of excellent milling ore should be "blocked out" in a few months of aggressive development.

The treasury is well fixed, therefore, the present offering is a limited one of 100,000 shares at 40 cents a share. The allotment will not last long. Subscriptions should be forwarded to us early.

Installation of an adequate mining plant is being rushed to completion. Shaft sinking, cross-cutting, drifting and general mining operations will begin as soon as steam is turned on.

You Are Invited
to take advantage of the festive Spring atmosphere of Simpson's Store. Bird songs, delicate decorative effects, and the glory of all manner of merchandise invite you to Come and See.

The Robert SIMPSON Company Limited

To Gain a Flying Start
at the pile of business correspondence waiting in the office, a man should begin his day fortified by a Pain Room breakfast. Delicious food, fragrant coffee, shining napery, and dainty service. The memory will linger all day.

The Short Sports Coat

is Fashion's favorite and the jaunty models that form the greater part of our vast coat assortments for the Spring Displays are almost certain to contain the style you will most want.

They Are Mostly of Polo Cloth—the soft woolly fabric of camel-hair finish and shade, which is so immensely fashionable. The smartest trimmings are of leather in the way of belts, collars and bandings.

Bolivias, tricotines, gold tones and jerseys are also shown in the short lengths and in colors of jade, heather, fawn, rookie, tan, Pekin and navy.

The Dressy Wraps Are Exquisite

Developed along dolman lines from finest of cloths and richest of silks. For instance, one gorgeous black satin model with great flowers, embroidered with chenille in old tapestry shades. Or one of taupe satin with tasselled monk's hood falling to the waistline. Linings are as gorgeous as the wraps—often of silk veiled in georgette.

Very smart coats are obtainable at \$25.00, with increasingly attractive models marked on up to \$250.00.

Special! Women's Sample Coats, \$37.50. Made to Sell at \$45.00 to \$60.00

As these lovely coats are models from which ranges of Spring garments were copied, they represent the newest ideas in fabric, design and color. Many full-lined. Extraordinary Opening Special, today... 37.50 Simpson's—Third Floor.

Sumptuous Tailored Suits

for Women and Misses surpass in originality of design, extravagance of adornment and beauty of finish, all previous Opening Displays. Only the designers who inspired them knew such suits could exist.

The tailleur dominates the mode—but not the tailleur of the past seasons. Even the fact that nearly every model is in navy tricotine bears no significance when we tell you that the most unique lines, exquisite embroideries and even such novel details as hand-painted buttons are shown.

The Coats range all the way from tiny Eton, which in one fetching model for the Miss is elaborated with tomato-colored wool, and faced with the same shade—to a model almost knee length, whose tight bodice is all-over embroidered in Japanese design of gold and colored threads.

As to skirts, they may be straight and plain, accordeon-pleated, panelled and tasselled or richly embroidered to match the coat.

3-Piece Suits of Rare Elegance

are strongly featured—one handsome model for women having an Oriental-embroidered beige tricolette underbodice—another for Misses with gold embroidered black satin overblouse, which falls below the short coat.

An Opening Special! Misses' \$45.00 Suits, \$37.50

Made from very fine Men's-ware serge in a host of newest designs. Trimmed with tucks and soutache or military braids and nicely lined. Special, today... 37.50 Simpson's—Third Floor.

"Color" Cries the Mode,

And the Millinery Department is all abloom with the brilliant materials and vivid colorings that mark the Spring Opening Displays. But one and all express the unprecedented influence the Eastern world has upon the dawning season's fashions.

"Color, color, color!" is the dominating note of the wonderful display. Turquoise, emerald, brilliant-toned metal-cloths, peacock shades, burnt yellow, Chinese blues, jade and scarab greens, all the tones of brown, with an occasional dash of cherry and the inevitable black. These caught and held in shimmering cellophane, lacquered liseré, cired silk or leather, toile ciree (oilcloth) and other gleaming straws or fabrics to enchant femininity.

Design, too, runs rampant, from the trim and ultra-tailored sailor in astonishing variety to the unique sphynx-like turban with its novel "ears." Charming adaptations of the modes of great historical periods are much to the fore, and so varied, indeed, are the models displayed as to make it possible for every choice to be satisfied.

Stunning Tailored Hats

are attracting more than usual attention. Never before have we been able to gather such a vast assortment of individual designs—some unadorned, save for a dashing bow—others with the smartest of novelty pins or crisp glycerined feathers. Most of them are hand-made.

Blouses of Great Charm

Have set the Department abloom with their flower-like colorings, and feature new designs that are enrapturing.

The "Garibaldi," which falls loosely from rounded neck to below the waistline in simple but fascinating design, was originated in the monastic robes of olden days, and exploits the tendency of designers to revive ancient periods.

The "Cossack" overblouse, which won fame last season, continues in un-wavering popularity with little innovations—one of which is the length to which it may travel to make itself bewitching.

The "Monkey" or hip-blouse sounds the newest note this season. It craves particular favor—when worn with a dressy skirt it forms the long-waisted frock of newest mode.

Georgette—Tricolette—Crepe de Chine and Satin Duchesse

vie with each other for favor—one and all forming exquisite backgrounds for the elaborate embroideries in self, contrasting and Oriental shades that adorn them.

Colors, lovelier than ever, bespeak the popularity of Bermuda (deep coral), jade, rose, orchid, turquoise, beige, Maeterlinck blue, Aztec, burnt orange, canary, faupe, brown, navy, flesh, white and black—alone or in glorious combinations.

Prices range all the way from \$5.00 to \$35.00.

Never Were Such Petticoats

As Fashion has exploited for the new season. They take a delightfully conspicuous place in the Spring Opening Displays.

These chic bits of apparel, without which no Spring suit is complete, are mostly fashioned from silk jerseys and habutais—but 'tis the colors and designs that captivate.

For instance, you will see Algerian red with Italian green, teal duck blue with beige, pearl with rose, green with purple, in a host of Vandyke pointed, black stripe and novelty flounced effects.

Newest of all are exquisite Oriental medallions and the Dresden ribbons set in the deep plain or accordeon-pleated flounces.

The Petti-Bock

is also featured in jerseys and soft silks of many colors. They have knicker or broad frilled knees and elastic tops. All are priced between \$9.50 and \$17.50.

Exclusive Hats From Paris

hold all the magic of which French models are capable, and are far, far more exquisite than ever before. We were just breathless with admiration when we saw them. Do you wonder when you know that

One model from Germaine, in brown raffia, held the quaintest ornament on its abruptly upturned front rim. It was a little Chinese scene cut from wood in Oriental shade.

Evelyn Varon sent a clever hat—its shape borrowed from 1880, but entirely modern in that it is formed of cellophane in black and turquoise and finished with just one languid feather.

The Egyptian Turban from Hermance, with outstanding "ears" of crisp "l'oiseau" blue ribbon—the new coronet from Germaine in lacquered brown braid, with a little "deception" veil—another rare Egyptian creation with top of glittering black cellophane, border of black and scarab green foliage and lacquered grapes for ear-drops— they merely hint of the wonderful collection.

But newest of all is a hat of alligator leather turned right off the face, surmounted by a scarab ornament in natural shades and boasting a soft crown of metallic batavia-cloth.

These, together with a host of striking models from our own designers—faithful reproductions of French designs—or smart originalities—form the most entrancing assortment we have ever shown. We invite your inspection.
