### SERIOUS BLOW FOR THE GAY WHITE WAY

New York, May 21—Many Broadway restaurants, hotels and theatres will be hit by the government order prohibiting unarmamented Germans within a half-mile of a state armory or arsenal, it was learned today.

The National Guard arsenal is at Seventh avenue and Thirty-Sixth street, a short distance from Broadway, and there are several armories within a half-mile of the "White Light district" above that point.

United States Marshal Thomas D. McCarthy has announced his intention of enforcing the restriction rigidly, which means that the enemy alien patronage of all dining and amusement places in the prescribed zones will be cut off. Some of the most popular restaurants of the city will be affected.

Marshal McCarthy said today that he had asked for fifty additional deputies to aid in checking up the German residents of the proscribed zones and in pointing the districts when the "red" goes on. He declared that permits would be issued only in cases of dire necessity—which will not include social calls or amusement trips—and all enemy aliens caught within the lines after they are established will be arrested.

Arrest will mean internment for the period of the war, unless the prisoner can establish his citizenship.

Mr. McCarthy said that figures compiled by him indicated that about 14,000 residents of the southern federal district of New York will be affected by the order.

**Soldiers' Families Return**

### HINTS FOR GARDENING

(By W. Saxby Blair, Supt. Experimental Station, N.S.)

**CORN.**

A warm, friable, rich soil should be selected for garden corn. The seed is sown in hills three and one-half feet apart each way, and five plants allowed to develop in a hill. The seed is sown soon after the middle of May. Early and late varieties should be planted to extend the supply of table corn into the fall. As is the case with peas and beans, constant surface cultivation to keep the weeds down and maintain a loose surface mulch is necessary.

**PEAS.**

Garden peas may be sown as soon as the ground is fit to work. The land should be fall manured with ten to fifteen tons of well rotted manure per acre, and ploughed. This is well worked in the spring to a depth of five inches. The seed is usually sown in rows two and one-half feet apart, and the seed planted one inch apart in the row.

Dwarf and early varieties do not require staking. It is advisable to stake the tall-growing sorts.

If one variety only is used, successive sowings should be made every week or ten days until the first of June. The garden peas is a cool season vegetable, and will not do well during the heat of summer. The season may be extended also by planting late maturing varieties. The early seedling is usually made one to one and one-half inches deep; the later seeding, two to three inches deep.

**RADISH.**

The radish may be sown as soon as the ground is fit to work, in rows one foot apart, and the plants thinned to one inch apart. Successional sowings may be made one week apart until the first of June.

**LETTUCE.**

Any good garden soil will grow lettuce. The ground should be rich and fairly friable. The seed may be sown inside six weeks before planting outside is possible. The plants are developed as in the case with cabbage. They may be set in rows one foot apart, and six inches apart in the row.

Seed may be sown in the open ground as soon as it is fit to work, and the plants thinned to four or six inches apart. Successional sowings may be made every two weeks until the first of August. Seed may be sown in rows of June for a fall crop on well prepared soil.

### HOW DO YOU KNOW

that old sore from which you are suffering is incurable? Zam-Buk has cured thousands of cases of chronic sores.

Miss Nellie Lucas of Silver Lake, Oregon, writes: "My father developed a sore on his face which became very swollen and painful. We tried numerous remedies, and several doctors attended him, but the sore got no better, and the doctor said the only hope of curing it was an operation. Father determined, however, that he would first try Zam-Buk.

"Even after the first few applications of this wonderful balm he felt great relief. Gradually the pain was ended, the inflammation was taken out, the swelling disappeared and the sore was soon healed."

### 7,000,000 KILLED IN WAR

Arthur Henderson Estimates Total Casualties Exceed England's Population

London, May 22—The number of men killed in the war thus far was estimated at 7,000,000 by Arthur Henderson, member of the War Council, in an address at Richmond. He estimated the total casualties of the war to be in excess of the population of the United Kingdom. The population of the United Kingdom, according to the census of 1911, was 45,870,000.

Mr. Henderson said that after nearly three years of military effort which will increase the strength and endurance of weak, nervous, run-down folk 100 per cent, in two weeks' time in many instances. Avoid the old forms of metallic iron which may injure the teeth, corrode the stomach, and thereby do more harm than good. Take only organic iron—Nuxated Iron. ST. JOHN, N. B., MAY 22, 1917. The St. John Evening Times is printed at 27 and 29 Canterbury Street every evening (Sunday excepted) by the St. John Times Printing and Publishing Co. Ltd., a company incorporated under the laws of the Dominion of Newfoundland.

THE IRISH PROBLEM

All friends of Ireland and all the people of the British Empire will certainly hope that the coming conference of Irishmen of all shades of politics and religious faith will result in the adoption of a constitution which will remove the Irish question from the realm of bitter controversy and bring lasting tranquility to that troubled island.

of honest and sincere effort for the public good. Moncton journalism betimes has been somewhat heated, and Mr. Hawke has merits as a controversialist. In matters relating to the social well-being of the community the Transcript has rendered valuable service. Its publisher is an Englishman who has made good in Canada, and who holds a high place in the esteem of his fellows.

Here is a striking paragraph in a despatch from Ottawa: "J. W. Borden, accountant and paymaster-general of the militia department, gave interesting evidence yesterday afternoon before the special committee dealing with the returned soldiers' problem. His attention was directed to a number of errors and complaints, and he attributed these to the improper working of a staff in the appointment of which he saw political cause of the trouble."

Attempts of federal government organs to show that there are great difficulties in the way of regulating and controlling food prices and distribution will not be able in that way to excuse the government for its utter failure even to attempt to overcome the difficulties.

THE AWAKENING

The eyes of Canada are turned this week to Montreal and Ottawa. The people are eager to learn what the great Win-the-War Convention in Montreal will propose, and what reception it will get from the government at Ottawa. Then there is the attitude of the government itself toward conscription and the extension of the life of parliament.

The people of St. John share with all other Canadians the desire to have government railways well managed, but they are especially interested in any changes that occur because of the possible effect upon the welfare of the port and trade of St. John. Mr. Gattelus was a man who believed in only one port, and that port was not St. John.

THE MONCTON TRANSCRIPT

The Moncton Transcript quotes the following paragraph from its issue of May 18, 1917: "The Transcript printing establishment and publishing business has been purchased by Mr. J. T. Hawke, of Ottawa, who assumes charge in person on or about the 1st of June."

Both the British and French continue to make gradual gains on the western front, but the enemy still fights hard and there is still no evidence of such a change as would materially affect the relative positions of the opposing armies. It is still a long road to Berlin.

The case of the St. John armory is a fine illustration of the general inefficiency in military affairs in Canada. It is not the only local illustration. Newfoundland is likely to adopt conscription and Australia is likely to reverse its former decision and adopt compulsory service.

WHAT DYSPEPTICS SHOULD EAT A PHYSICIAN'S ADVICE. "Indigestion and practically all forms of stomach trouble are, nine times out of ten, due to acidity; therefore stomach suffers should, whenever possible, avoid eating food that is acid in its nature, or which by chemical action in the stomach develops acidity."

### LETTER FROM MISS AGNES WARNER

#### "Fruit-a-Lives" Soon Relieved This Dangerous Condition

This has been a most strenuous week and we are feeling very tired, but happy, because so many of the men are getting well. Monday morning at five o'clock the alarm for gas sounded and about eight of the first cases came in and they kept on coming till midnight. We had more than 300 admissions. The worst were kept here and the others were sent on further after they had had first treatment here. There were many badly wounded also and we operated all day and all night. Nearly all of us were on duty thirty-six hours and then after six hours sleep were on eighteen hour shifts, for there could be no let up on the treatment. We lost twelve and there are still three in a critical condition, but we hope to pull them through. It is more dreadful to see than the worst kind of wounds and I wonder that any of them get over it, but they respond to treatment in a most wonderful way.

Two boxes came from home today with all sorts of good things and one with a cake in it, some chocolate and various other things, there was no name in it and I do not know whether it was sent for Christmas or for my birthday. Thank you very much for them all. We are going to have the cake tomorrow. Mrs. Edridge's box turned up at last and is full of all sorts of wonderful things, plum pudding, hot water bottles, scarfs, caps, soap, books, sweets, etc. It really was a lovely box and gave pleasure to so many people.

I have not said anything about the book "My Beloved Pollus" yet because I did not have time. It was most good to take so much trouble to have my stupid letters published and I am more than delighted to get the book for "My Beloved Pollus" (soldiers), I shall write as soon as I have a minute. I must say it is a most interesting English, and I sell it, I must say, I know I did not even have time to read over my letters and they are rather a disgrace to a graduate of Medicine.

"For two years I was a victim of Acute Indigestion and Gas in the Stomach. It afterwards attacked my Heart and I had pains all over my body, so that I could hardly move around. I tried all kinds of medicine but none of them did me any good. At last I decided to try "Fruit-a-Lives" and now I am well, after being only three weeks suffering from indigestion."

### ROSY CHEEKED GIRLS

Every girl every woman—wants rosy cheeks. They mean not only good looks, but more important still, good health. Rosy cheeks indicate a rich, red blood, healthy blood, shining through the translucent skin. You can't have rosy cheeks unless your blood is rich, red and pure.

When a girl's color fades, when her cheeks are pale and her lips bloodless she is in a condition of health that should not be neglected. It is then that her heart palpitates after the slightest exertion. She breathes on going up stairs. She is troubled with headaches and backaches, and finds little or no enjoyment in life. This is a condition that comes on gradually, but its first sure sign is the disappearance of color from the cheeks, just as the sign of returning health under proper treatment is the return of a pinkish glow to the face.

To every weak, pale-faced girl or woman Dr. Williams' Pink Pills offer a sure way to new health and rosy cheeks. These pills actually make new, rich, red blood, bring brightness to the eyes, and color to the cheeks and lips, and in doing this they bring new strength and energy to every part of the body. When using these pills take plenty of fresh air, exercise moderately, and take a nourishing diet. Under this treatment the weakest anemic will soon be restored to health.

Remember delays only add to the seriousness of your condition. If you are at all unwell begin to cure yourself today with Dr. Williams' Pink Pills. They are sold by all medicine dealers, or you can get them by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

### EXPLAINS BRITAIN'S VIEWS AS TO BEER

Food Official Tells of Restrictions and the Problem of the Country

London, May 22—Influential representations have been made to the Minister of Food that the continuation of brewing in Great Britain is likely to make it difficult to get increased shipments of cereals from America. Kennedy Jones, Director of Food Economy, gave The Associated Press an authoritative statement in regard to the restrictions already imposed on brewing and the complexities of the problem. He said: "We realize that restrictions regarding our beer consumption. That is only natural. We are daily receiving letters from brewers in this country who consider that they are absolved from the necessity of saving bread because other people drink beer and who demand that, as a first step in food economy, all brewing should cease.

"As things stand no more barley will be milled in this country, except a small quantity for use as coloring matter. The last barley was milled in February. Therefore the only question is, would there be a very valuable saving in food by mixing the malt, which exists with flour, and making it into bread, rather than by using it for the brewing of beer? A strong body of scientific opinion holds that beer has its food value. Apart from that it is a fact that more than five per cent can be mixed with flour in bread making or it produces a sticky and unpalatable loaf.

"Whether the brewing of beer shall be stopped at once and the barley already milled used for making a maximum output of work for the prosecution of the war, or whether the malt, which exists with flour, and making it into bread, rather than by using it for the brewing of beer? A strong body of scientific opinion holds that beer has its food value. Apart from that it is a fact that more than five per cent can be mixed with flour in bread making or it produces a sticky and unpalatable loaf.

"The question is not whether cold tea would be better for them, but what would be the effect on the output of work by suddenly cutting off their supply of beer.

"If it be found advisable to stop beer altogether—upon which point there is a considerable difference of opinion—it would be simple common sense to allow the workers time to adapt themselves to the change gradually, by a gradual reduction of the supply rather than by checking or stopping the brewing of beer. Also it is well to bear in mind that if the workers are not deriving part of his energy, as has been his habit, from beer he may require more bread, so that practically an actual saving of bread could be effected.

"Moreover, we may well take a leaf out of Germany's book in this matter. That country—which again is unlike the United States, in that beer is part of its normal diet—is in the matter of food now scientifically organized with a view to supplying its workers with a maximum quantity of its pre-war quantity of beer, against our twenty-seven and a half per cent, yet no one would suggest that the food situation in Germany has not been serious for the last twelve months.

"Of course there may arrive the point at which it is considered necessary, on review of all the circumstances to stop all brewing, but until this point is reached, and in view of the drastic restrictions already imposed, it is scarcely fair to let the impression get abroad that we are blind to the considerations in-

### THE NEW IN MILLINERY

Trimmings for Women's Hats Which Are Now Being Shown

(New York Times)

Small hats for women, some of which have small brims and the tops of the crowns of which are entirely covered with curled burnt plumes, are becoming rather prominent here. They are shown not only in black and colors, but also in white. One of the best things seen here lately is a new military turban that has a small peak at the front. It is made entirely of white tulle.

In the trimmings, burnt ostrich and burnt peacock pinwheels are being worn. They are also shown in the advance fall lines of fancy feather decorations. In some instances they are shown in conjunction with poppies and other flowers for fall. Feathered cat-booms are also shown with large wheels of burnt plume inserted around the centre. Blots plumes, which is showing up well in current trimmings, is giving signs of being used for fall in several ways.

### CAN'T BEAT "TIZ" WHEN FEET HURT

"Tiz" for sore, tired, puffed-up aching, calloused feet or corns

"Sure! I use 'TIZ' every time for any foot trouble."

You can be happy-footed in a moment. Use "Tiz" and never suffer with tender, raw, burning, blistered, swollen, tired, aching feet. "Tiz" and only "Tiz" takes the pain and soreness out of corns, callouses and bunions.

As soon as you put your feet in a "Tiz" bath, you just feel the happiness soaking in. How good your poor, old feet feel. They want to dance for joy. "Tiz" is grand. "Tiz" instantly drives out all the poisonous exudations which puff up your feet and cause sore, inflamed, aching, sweaty feet.

Get a 25-cent box of "Tiz" at any drug store or department store. Get instant foot relief. Laugh at foot sufferers who complain. Because your feet are never, never going to bother or make you limp any more.

### PROTECTION OF N. B. FORESTS

Imperial Need of Adequate Fire Protection Shown by Survey

(Conservation)

The thorough survey of crown lands undertaken by the New Brunswick government has already revealed very important facts. The progress report recently submitted calls attention to the fact that while one-third of the total stand consists of hardwood species, including maple, beech and birch, yet these species form only 1.5 per cent of the annual cut of the province. This indicates clearly the opportunity and the need for the development of industries utilizing this class of material. These hardwoods are eminently suitable for the manufacture of flooring, chairs, turnery, etc. There is also a large amount of poplar suitable for the manufacture of soda pulp.

It is estimated, roughly, on the basis of present information, that on the entire crown land area, fires have, during the past 40 years, caused a loss of stumpage that would now be worth \$14,200,000, with a potential manufactured value of some \$80,000,000. These figures indicate the enormous losses that result from repeated forest fires. The results thus far secured from the investigation amply prove the wisdom of the New Brunswick government in starting and continuing this study, which will furnish a scientific basis for the administration of Crown lands for many years to come.

As elsewhere throughout the forest sections of Canada, the immediate imperative need is for adequate protection against fire. The New Brunswick government now has this whole matter under consideration, and it is to be assumed that modern and up-to-date methods will be put into effect, following the progressive lead taken in some of the other provinces.—C.I.

"The efficiency of any drug" says Dr. C. H. Robinson "is known to us by the results we obtain from its use. If we are able to control pain and disease by means of any preparation, we certainly are warranted to its use. One of the principal symptoms of all diseases is pain, and this is what the patient most often applies to us for, i. e., something to relieve his pain. If we can arrest this promptly the patient is most liable to trust in us for the other remedies which effect a permanent cure. One remedy which I have used largely in my practice is anti-kamnia tablets. Many and varied are their uses. I have put them to the test on many occasions, and have never been disappointed. I found them especially valuable for headaches of malarial origin, where quinine was being taken. They appear to prevent the bad after-effects of the quinine. Anti-kamnia tablets are also excellent for the headaches of a neuritic origin, and for the headache of women subjects, as pain is certain times. Two anti-kamnia tablets give prompt relief, and in a short time the patient is able to go about as usual."

### C. A. Hayes Takes Gutelius' Place

I. C. R. Manager Now Head of C. G. R. System—Other Promotions Follow

Ottawa, May 21.—C. A. Hayes, at present general traffic manager of the Intercolonial railway, will succeed F. P. Gateius as general manager of the Canadian government railway system, according to an announcement made by the minister of railways and canals to your correspondent this afternoon.

Mr. Hayes will take charge of a railway system of 4,068 miles. Mr. Hayes is recognized as a railway man of exceptional ability and came to the Intercolonial from the Grand Trunk about four years ago when Mr. Gateius was appointed general manager of the government system. As a traffic expert he has few equals in Canada, and his promotion is regarded in government circles as well deserved.

Other important changes are also announced. D. A. Story, at present general freight agent, becomes general traffic manager, succeeding Mr. Hayes. He has been for many years with the Intercolonial and has been of great assistance in helping to build up the I. C. R. to its present position. D. S. Brown, now superintendent of the Sydney division, has been appointed assistant general superintendent to have charge of the eastern lines of the government system to Quebec city.

F. B. Brady will be in charge from the Quebec bridge to Winnipeg. This will mean that Mr. Brady's present jurisdiction will be divided at the St. Lawrence and he will have charge of all the lines west of that river, and J. K. McNeill and Mr. Brown will have charge of all lines east of the river. W. A. Cowan will be assistant to Mr. Brady.

### Leave Home Rule Settlement To Purely Irish Conference

London, May 21.—For the first time in modern history the destinies of Ireland are to be placed in the hands of Irishmen alone. The British prime minister, David Lloyd George, announced to the house of commons today that the government will call a convention of Irishmen to frame a constitution for Ireland, and if Irishmen are able to agree upon some scheme for the administration of their country will attempt to enact it into legislation without delay.

All sections, parties, creeds and factions, with clerical and laymen, as well as politicians, and even revolutionists of the Sinn Fein Society, will be invited to get together. If this final attempt succeeds a political miracle will have been accomplished. There is no great optimism respecting the success of the plan apparent, for Ulster stands where she has always stood. Sir John Lonsdale, whip of the Irish Unionists, predicted the same deadlock declaring that Ulster would not be driven into a home rule parliament, and predicting that the Nationalists will not consent to the exclusion of six Ulster counties.

But if the attempt fails, the failure will deprive the ancient charge that John Bull's greater island is "the oppressor" of much of its force, and it is pointed out that Ireland can hardly be halted before the European peace conference as another Poland, while America and the colonies can no longer reproach Great Britain with having neglected to set her own house in order.

Both houses of parliament discussed Ireland today, with hardly a ripple of the old animosities and feuds disturbing their harmony.

"The patient must minister to himself," said Mr. Lloyd George, and a noteworthy feature of the discussion was an agreement that politicians must play a secondary part to the men from other walks of life. The premier specified the Nationalist factions of which John Redmond and William O'Brien are the leaders; the Ulster Unionists, the Southern Unionists and the Sinn Feiners, as the political bodies which should be represented in the convention, but said the government considered it most important that representatives of local governing bodies, the churches, trades unions and commercial and educational interests should participate.

Mr. Redmond agreed in this policy, and the veteran home ruler even offered to obliterate himself in the interests of harmony. But the house refused loudly to accept his offer.

Ever Lord Lansdowne, who has been charged by some with the wreckage of Mr. Lloyd George's previous work of reconciliation, told the lords that the road to home rule had been traveled too far for turning back, and referred to the importance of facilitating the task of "those who are our friends in America."

The conception of the convention for all Ireland finds its inspiration in the making of the union of South Africa, after the Boer war, when the British and the Afrikaners, whose families then certainly equaled that of the Irish factions, were able to thresh out a constitution.

### Italian Mission Here Last Night

St. John was honored by distinguished visitors for a short time last evening when the Duke of the Abruzzi, a prince of the blood and formerly head of the Italian navy, also Senator William Marconi, the inventor of the wireless telegraph, passed through on a special train on their way to Washington.

The party included other men prominent in the affairs of Italy and form part of the mission representing the Italian government which is assembling at Washington for conference with the United States. His royal highness was attired in the uniform of his country and wore the short cape peculiar to the armies of continental Europe. The party landed at Halifax yesterday having made the trip across on an auxiliary cruiser. The special train drew into the city at 9:45 o'clock last evening. There were very few people on hand to welcome the distinguished visitors and those few who were about the train were hardly aware of the personnel of the party until the train had again pulled several of the party left the train and enjoyed a short stroll about the depot in the twenty minutes they spent here.

### CHILDREN CHARGED WITH BURNING CATHOLIC CHURCH

Sussex, N. B., May 21.—Charles Perry, aged fifteen years, and his two sisters, Lily, twelve years, and Mary, seventeen years, charged with burning the Roman Catholic church at White's Mountain on the 4th inst., were before Police Magistrate Folkins today for preliminary hearing.

Several witnesses were examined, who gave evidence as to seeing the accused in the vicinity of the church on the day of the fire and of finding papers in the bushes near by, supposed to be taken from the church by the children.

The prisoners were sent up for trial and will come before Judge Jubb at 11 o'clock in the course of a few days. J. H. McFadden represented the crown, and Harris Casack, of Havelock, appeared on behalf of the prisoners.

### EMPIRE DAY AT HIGH SCHOOL

There will be an Empire day programme from 2 to 2:30, designed to celebrate the fiftieth anniversary of the confederation of Canada. Returned soldiers, especially members of the old 26th, are cordially invited as well as friends and relatives of the pupils. The following programme will be carried out.

Essay, Confederation—John Jordan.  
Chorus, O Canada.  
Essay, Sir Leonard Tilley—Marion Thompson.  
Mantlin duet—Redvers Massie, John Hemprey.  
Recitation, Pro Patria—Marjorie Man.  
Solo, The Motherland—Yetta Tansman.  
Essay, Development of Canada—Douglas Fritz.  
Chorus—The Lads of the Navy.  
Address—Rev. Dr. D. Hutchinson.  
Cello solo, Fraumerei—McGregor Grant.  
Address—Dr. J. H. Frink, president Canadian Club.  
Flag salutation.  
God Save the King.  
In the course of the exercises a tablet will be unveiled in memory of Lieutenant Charles M. Lawson, of the 26th, killed in action last year. This will probably be done by a returned officer of the regiment.

### COSTLIEST PICTURES AT LOWEST PRICES

Imperial's New Policy Proves Highly Popular—Clara Kimball Young is Big Feature

The Imperial Theatre launched its wartime policy of giving the costliest motion pictures for the lowest prices in Canada yesterday with wonderful success. The big auditorium was crowded both afternoon and evening and it is safe to assume that the splendid merits of the Selznick production, The Price She Paid, were not alone responsible for this generous patronage. Evidently St. John folks were bent on showing their appreciation of the Imperial's co-operating policy by attending in large numbers. The common enemy, High Cost of Living, has at least received on setback at the hands of the Imperial management.

Clara Kimball Young, with her soulful eyes, comely figure and rare acting abilities, is certainly a favorite in St. John and in David Graham Phillips' story, The Price She Paid, her charms are given full play.

Clara Kimball Young, a Vitagraph favorite of former times, and Alan Hale, once a leading Biograph man, are the only other familiar players in the cast. Cecil Fletcher and Charles Bowser are newcomers, also Smit Edwards with David Powell, who will be remembered as Mary Pickford's leading man in Less Than the Dust.

Musical Director Jones, in addition to having his orchestra render most appropriate selections breathing the spirit of the whole story, introduced some splendid soprano numbers at such junctures in the pictures when her voice sang a leading soprano of note and included Just a Weaver's For You and a brilliant solo, "I'm a Traveller." The effects were startling in their realism and elicited applause. The whole performance was rich and exclusive in character and those who saw it were evidently as well satisfied as if they had seen the speaking production on a Broadway stage. The Pathe British Gazette headed each programme.

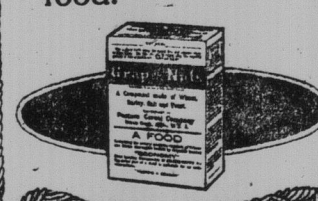

The Price She Paid is a drama of the life of a beautiful young society woman. It outlines the problems in the life of a young woman, used to luxurious surroundings, who finds herself almost without resources. After a disastrous marriage she determines to become an opera singer, and the difficulties she encounters form a series of scenes of unusual interest. How she finally reaches independence and freedom is a fascinating story. It will be presented at 2 o'clock and 8:45 this afternoon and 7 and 8:45 this evening. On Wednesday afternoon it will be shown commencing at 2 o'clock, and in the same continuous programme. Blanch Sweet, supported by Tom Forman, Guy Oliver, James Neil, Charles Ogilvie and others, will appear in Jesse L. Lasky's powerful production, Those Without Sin. This double matinee on Wednesday should attract large numbers. The Wednesday evening programme will be Those Without Sin at both shows.

### MT. ALLISON CLOSING

Sackville, N. B., May 21.—The lawn drill, held this morning, on the ladies' College grounds under the direction of Miss Briggs, department of physical culture, was unanimously voted the best of many years by the large crowd. In the afternoon in Fawcett hall the academy closing was carried out. The matriculation and classical scholarships were won by M. Merrill, of Sackville, and the Nelson shield for the highest standing in bookkeeping was won by Gordon Avard, also of Sackville.

The Ladies' College closing tonight in Fawcett hall was attended by a large audience with an excellent programme provided by the students of the various departments of the Ladies' College.

Hon. Colonel Rev. Dr. Chown, of Toronto, was on the platform and delivered a striking address, referring feelingly to Mount Allison's war record. Rev. E. B. Moore held the close attention of the audience as he paid a well deserved tribute to Dr. Horden and spoke of their early association. The exercises still maintain their high standard, making it one of the best commencements Mount Allison has ever had.

### Breaking Through Hindenburg Line

(From a Staff Correspondent of the Associated Press.)  
British Headquarters in France, May 21, via London.—So completely did the British artillery do its work before the attack between Croisilles and Bullecourt that 3,000 yards of the Hindenburg line are totally missing. This segment of the German defences was completely wiped out.

Airplane photographs taken May 1 show beautiful symmetrical zig-zags, but the latest pictures taken contain no trace of the trenches. The support line also was badly "strafed," some 6,000 yards of it now being in British hands, leaving the Germans holding the remaining 2,000 yards. The Hindenburg front line between the south end of the captured trenches and Bullecourt is in dire danger, as it is flanked on both sides by the British.

The engagement was really made up of two attacks, one in the early morning, when seventy prisoners were taken, and the second late in the afternoon, the two netting some 150 prisoners for the day's work in this sector. The German artillery response was very feeble, and the counter barrage during the attack was particularly weak.

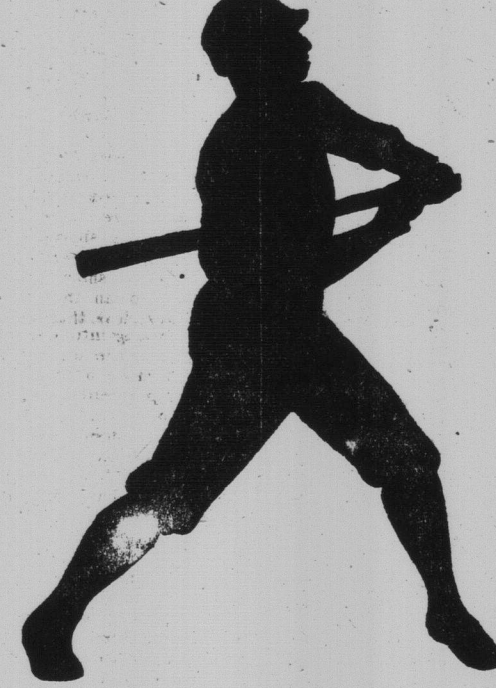

### ANTI-CONSCRIPTION MEETING IN QUEBEC

Quebec, May 21.—Fully 10,000 people assembled at St. Peter's Market Square tonight to attend the anti-conscription meeting which was organized by a group of young men headed by Oscar Drouin, president of the Junior Liberal Club; Alderman E. Dussault, of Belvedere ward, and other young men.

It was plainly stated that the meeting was entirely non-political and the organizers, as well as the joint chairmen, two prominent labor men, made it known that they were there, not as representatives of any organization, but as citizens of Quebec.

The keynote of the speeches was that the people should be consulted by referendum before conscription was passed, and if the people throughout the dominion voted in favor of conscription, the minority would cheerfully submit to the will of the majority.

## The Onward Sweep of Prohibition!

When the staggering cataclysm of the world-upheaval broke over Europe in 1914, the Entente Nations faced not one, but two powerful foes—Germany and drink!

By one gigantic stroke Russia shook herself free from the toils of the monstrous vodka demon. Many other nations followed her wonderful example in varying degrees. From the great upheaval must come compensations. One of the greatest for Canada is her great heritage—Prohibition.

### Sports and Drink

A well-known baseball manager says:

"Because constant, moderate drinking gets a ball player just as sure as because I don't bother with youngsters that drink."

### THE CANADA TEMPERANCE ACT

The policy of the Dominion Alliance is to encourage the repeal of the Canada Temperance Act (Scott Act) in counties in which it has been operating. Where this is done the new Provincial Prohibition Law would then become effective.

It is always easier to enforce one uniform law. The New Brunswick Government cannot put its new law in effect in Scott Act counties, as the latter is Dominion legislation, which has precedence over provincial legislation. Friends of temperance who live in Scott Act counties are, however, asked to co-operate in the more thorough enforcement of that Act so long as it continues in operation.

Do you realize that every province in Canada, except British Columbia and Quebec, are now actually enjoying Prohibition! And Prohibition is winning too in Quebec; 976 municipalities in Quebec are "dry" and only 182 "wet"! What a glorious heritage! But the day is not far off when the great test must come. Shall Prohibition laws remain permanently on the law books—or only for "duration of the war"?

The answer depends upon the use we make of the weapon of prohibitory law while it is in our grasp. Upon the shoulders of every man and woman in this province (who wants to see the curse abolished forever) lies a heavy burden of responsibility! Prohibition must be enforced and the trenches held, not by a few zealous officers of the law alone—but by the whole people!

### Help to Enforce Prohibition

Since September 16, 1916, Ontario has enjoyed good enforcement of Prohibition in all but a few districts. Not the most daring anti-prohibitionist harbors the slightest hope for a return to the curse of the traffic in Ontario. Here are some figures showing results in Ontario's largest cities for the last three months of 1915 and 1916:

	DRUNKENNESS		ALL OFFENCES	
	Under License	Under Prohibition	Under License	Under Prohibition
Toronto	1915	1916	1915	1916
Ottawa	2,908	953	8,291	5,682
Hamilton	286	234	587	607
London	498	61	1,341	749
Brantford	367	144	783	501
	152	16	354	260

Note—It will be noted that Ottawa has not much reduction in arrests for drunkenness, and that it has an actual increase in all offences. It is perhaps strange that it should show any reduction in the drunkenness record, inasmuch as it is separated only by a river from the license city of Hull!—Pioneer, Toronto.

United public opinion in New Brunswick can enforce any law—upon every man and woman in the province lies the responsibility of helping the officers of the law enforce Prohibition properly.

Dispute Keeps Armory Idle

Repairs Neglected and Building Empty While 62nd Seeks Accommodation—News of the Soldiers

The recent agitation for the taking over of the armory by the 62nd regiment has called forth a reply from the military hospital commission to the effect that they will not part with the building. The armory at present is being put to no apparent use and would form a splendid location for the new defense unit. Not only is it not being used, but the hospital commission is not keeping up the repairs, under the plea that it is primarily a military building and should be repaired by the military authorities, who naturally refuse to do this since they cannot have the use of the building. Meanwhile the premises are rapidly falling into disrepair. Something must be done about this matter as quickly as possible or else the armory will be unfit for occupation by either branch of the 62nd. It seems a strange thing that the 62nd should be compelled to put up with inferior quarters when this building, which has all the modern advantages installed, is being left to fall into disrepair for lack of use.

Receives Husband's D. C. M. Mrs. Patterson, of Canterbury street, received a letter from her husband, G. L. R. Patterson, recently enclosing his D. C. M. which he won for rendering first aid to one of his comrades on the field of battle. Mesoptomia is All Orderly Now

Old Chaotic Days Have Passed Into History—Men Well Fed and Every Care Taken

British Army Headquarters in Mesopotamia, April 16.—(By eyewitness)—Nothing more efficient than the lines of communications and supplies serving the British forces in Mesopotamia can well be imagined. The days of muddle and disorder have been replaced by a well thought out plan. Facilities for the loading and unloading of vessels at Basra are now an adequate scale. Communications by road, railway and river have been laid out and developed. An adequate water supply is assured at every base and camp. Sanitation has been taken in hand. An anti-plague crusade is being carried on, though any appreciable diminution of the plague can only be achieved by herculean efforts and after long time. The construction of public works, houses, wharves, docks and railways goes merrily on, and on so large a scale and of such solidity that it is not surprising if the inhabitants of the country interpret these activities as denoting a determination on the part of the British visitor to remain permanently in Mesopotamia.

Comparative Comfort. The feeding of the troops from the firing line to the base is excellent and in the army cantons there is an abundance of purchasable necessities and luxuries. From Basra to Sheik Saad one may travel in comparative comfort in the boats adapted for this purpose, of the style of a ferry boat. These boats are used for the rapid evacuation of the wounded when heavy fighting is going on. What is wanted for this purpose is no frills. The boats are admirably designed, adequately staffed and equipped with every conceivable comfort.

"Jumping Off" Place. Sheik Saad is the jumping off place for troops, stores and munition brought up and, for the transfer from rail and light vessels to larger ships of the coast, is going down to the base hospital. Sheik Saad itself has two large hospitals, one for Indians and one for Europeans, and also a large casualty clearing station. Elaborate systems exist for feeding the troops at this point of casualties is usually of quite a different character. The hospitals are almost as complete as the best hospitals in England.

Hottest Days Now. The hottest of the hot weather is now at hand with all its attendant horrors, the path of the armies. The soils, the floods, the flies and the heat are carried out as far as conditions in this country will permit. All males in the dominion between the ages of 18 and 40 will be compelled to enroll.

INDUCTION AT ST. PAUL'S. The induction of Venerable Archbishop Crowfoot as St. Paul's Valley church rector, took place last evening. A large number of the congregation were present. Bishop Richardson conducted the service, and there were also present Rev. Canon Daniel, Rev. Canon Armstrong, Rev. Mr. Armstrong, Rev. H. A. Cody, Rev. Mr. Loweth, Rev. Mr. Holmes, Rev. J. V. Young and Rev. J. W. Millidge, who has been acting rector for the last several months.

The service opened with evening prayer by Rev. Mr. Armstrong. The first lesson was read by Rev. Canon Daniel. Then following a hymn, the induction took place. Rev. H. A. Cody read the mandate of institution, following which Bishop Richardson delivered the Bible and prayer books to Archbishop Crowfoot.

Rev. J. W. Millidge read the mandate of induction. He commended the church wardens to induct the new rector into the temporalities of the church. They then accompanied the new rector to the church doors and passed to him the keys of the church. The new rector then gave several strokes on the bell to signify to the parishioners his induction. After certain prayers and hymns, the services concluded with the blessing by Bishop Richardson. Those present then retired to the school room where refreshments were served and a congregational reunion took place. Short addresses of welcome to Archbishop Crowfoot and his wife were delivered.

THEIR GOLDEN WEDDING. The friends of Major and Mrs. James Buchanan showered them with congratulations yesterday afternoon and evening when they celebrated the fifteenth anniversary of their wedding. A reception was held at the home of their daughter, Mrs. E. A. Benn, 46 Garden street. Gifts of flowers and cut glass were numerous and beautiful but, as the major said last evening, "The hearty handshakes of life-long friends is the greatest memory of the day." Last evening the elders and session of Calvin church called in a body and presented Major Buchanan a magnificent electric reading lamp. The firm of J. & A. McMillan by whom Major Buchanan has been employed for over forty years, made him a gift of a coin purse filled with gold, while the employees of the same firm remembered their co-worker with

\$3,000,000 FIRE IN ATLANTA, GEORGIA. Atlanta, Ga., May 21.—Fire that started late tonight in an obscure negro section swept a broad path through the residential section of Atlanta, devastating scores of blocks and destroying many of the city's finest homes and hundreds of negro houses. Although the flames were not entirely under control tonight, they had been checked half way through the exclusive Ponce de Leon avenue residence section, and fire officials believed there was little danger of a further spread. First estimates of the damage placed it at between \$2,000,000 and \$3,000,000. So far as could be learned the only life lost was that of a woman, who died from shock.

ST. PETER'S Y. M. A.  
LEAGUE OPENED

Thistles Vanquish Y. M. C. I. in First Game of Season—T. J. Durick Teases First Ball Across the Plate and the Season Is On

St. Peter's Y. M. A. baseball league was auspiciously opened last evening on the grounds and it was evident that all were anxious to have a look at the game. A little after seven o'clock T. J. Durick, prior to tossing the first ball across the plate, told of the pleasure it afforded him to officiate at the opening game. He briefly narrated the achievements of ball teams from St. Peter's Y. M. A. in the past and expressed a hope that the league would flourish this year. He also said that as an incentive to the players he would offer each member of the winning team a five dollar gold piece. He was given a grand ovation as he tossed the ball somewhere in the direction of some plate and as he walked off the field the players struck up the song "For It's a Jolly Good Fellow."

The game was a bit loose, but this was to be expected. Baseball is essentially a game of nerves and a cold wind takes the snap out of the players as well as the enthusiasm of the fans. However, considering that the teams have had little or no chance to practice and that it was the first time either team had a chance to get together, the fans were apparently satisfied. Several snappy plays and a cluster of good hits caused some excitement and allied cheer from the assemblage. The box score of the game follows:

HAD BRONCHITIS  
For Years

Bronchitis comes from a neglected cold and, if neglected, will surely turn into pneumonia. The first symptom is rapid, painful, dry cough, accompanied with rapid wheezing and a feeling of oppression or tightness through the chest. The phlegm raised from the bronchitis is at first of a light color but as the disease progresses it becomes a yellow or greenish color and is very offensive to the nose.

Central B. P. Y. U.  
A most enjoyable concert was held by young people of Central Baptist church last evening under the auspices of the Young People's Union. Those singing part in the programme were: Miss Nellie Caswell, reading; Miss Rieta Ison, solo; Mrs. Olmstead, solo; Miss Ruth Blaisdell, solo; Miss Beryl Blanche, solo; Miss Audrey Milne, solo. There were a number of appropriate and delightfully arranged tableaux which were really enjoyed by the large audience. A liver collection was taken up for the Y.P.U.

At Buffalo—Buffalo-Buffalo, game postponed, wet grounds.

**Manager Barry Injured.**  
Carl Mays checked the Chicago American's winning streak, when Boston defeated them 2 to 1. The victory for Boston may cause the world's champions to play without the services of their manager, because of a collision at second base between Manager Barry and a pitcher in the initial inning. It was said that Barry's knee was badly hurt. Kinsberg also was compelled to leave the game.

**Ball Player Hurt.**  
Aurora, Ill., May 21—John Murphy, an outfielder under orders to report to the Providence club of the International League on Monday, was suffering from a broken collar bone sustained in a game played at the foot of the flag pole. Physicians expressed doubt of his chances to play again this season.

**Beavers 4; Cubs 2.**  
The Juniors also got under way last night on the grounds at the foot of Hanover street, when the Beavers won their first game of the season by a score of 4 to 2. The game was a close one throughout and many were on hand to cheer the lads on, while Empire Donahue was kept busy deciding points which the various players entailed. The teams lined up as follows:  
Beavers.....Pitcher.....Horton  
Cubs.....Catcher.....Horton

**Was Anaemic For Over a Year**  
Anemia, or blood turning to water, is caused by the heart becoming deranged, and if the heart becomes weakened it cannot pump the blood as it should. As a result the blood becomes impoverished and it loses its nourishing qualities. The face becomes pale and thin, and the lips bloodless. There is a weakness, tiredness and loss of weight.

**ALLIED TRADE PACT FRIGHTENS THE HUNS**  
"A Matter of Extreme Gravity for Germany," Says One Teuton Paper  
London, May 22—The following appeared in the Rheinisch Westphaelische Zeitung, the most violently anti-American of the big industrial papers. The interest of the article lies in the fact that it shows that the scare regarding German after-war trade, which has started in the banking press is now spreading in the manufacturing, industrial and Social ranks.

**Tom Seaton Real Come Back; Won Three Straight**  
New York, May 19—Tom Seaton, one time famous star of the Phillies, is one of the main reasons why the Cubs today have a record of ten straight victories. He is doing very success what many baseball players have tried and failed. He is coming back.  
Seaton spent last year with the Indianapolis American Association team after he had strived valiantly to win for the Cubs from pneumonia, and a complication. Fred Gilmore, his manager, is authorized for the statement that Darcy's price ring days are ended. Darcy recently joined the Aviation Reserve Corps here.

Canada Has Largest Gold Mint in World  
Ottawa, May 22—The total amount of gold received by the Canadian treasury from the United States since the outbreak of war has been \$104,926,716, and the total amount of gold received from all sources during the same period was \$90,606,105. The large amount of gold being sent to Canada was due to the exchange situation. At the beginning of the war gold was sent from the United States to Canada for Britain, but in December, 1914, the flow changed and British gold was sent to Canada for transmission to the United States.

**McDONALD-McLEAN**  
Miss Margaret McLean, proprietress of the Travelers' Quick Lunch in Mill street, was united in marriage to Private Pius McDonald, a returned soldier, in the Cathedral this morning at 6:15 o'clock by Rev. William Duke, with nuptial message. The bride wore a becoming suit of white serge with picture hat and carried a bouquet of carnations. She was attended by Mrs. Albert Graham who was neatly attired in a suit of white with pink trimmings. Pte. Philip Moore supported the groom. Mr. and Mrs. McDonald will make their home at 87 Somerset street. The groom is a native of Sydney, N. S., and went overseas with a battalion from Halifax. He was wounded and is now awaiting his discharge. Many valuable and useful wedding gifts were received expressive of their popularity and esteem.

**NOTED WRITERS IN PROVINCE ON SALMON FISHING EXPEDITION**

Prominent Men in Newspaper and Magazine World in Party Organized by Joe Page

The party of American writers referred to yesterday as having arrived at Fredericton for a week of salmon fishing in New Brunswick numbers some very noted men.

Among them are Hugh Fullerton of the Chicago Tribune, baseball expert, prominent short story writer and the author of several volumes; Grantland Rice, of New York, another noted sportswriter, one of the best known penmen in the United States; Jack Leigh, playwright, magazine writer, novelist and contributor to the Chicago Herald; Maximilian Foster, another whose stories in the Saturday Evening Post had a wide circle of readers; W. P. McCarhan, sporting editor of the New York Tribune; L. O. Armstrong, lecturer of the bureau of economics, Washington, D.C.; and Freeman Owens, moving picture operator, one of the best in America, also in the party. J. M. Gibson, chief of the C. P. R. publicity department, and Allan Seymour, also of the C. P. R. They are guests of the C.P.R. The idea of the trip was conceived by Joe Page last year. He knows the men well on account of association with them in his baseball activities and during last summer he arranged for them a trip here for the fall in quest of the lordly moose. The writers, however, found it impossible to get together at that time and decided on a salmon fishing expedition this year. And now they are with us. Several others tried to make the trip with them but could not get away.

It was to be hoped that weather would be greeted with better success for the last week. For the first time in many weeks the list of principal products shows several reductions.

The most important feature, of course, was the drop in flour. Manitoba now being quoted at 40 lower and Ontario at a reduction of sixty cents as compared with the figures a week ago. The reduction, it is said, has not had the effect of stimulating sales, as purchasers insist on waiting until they are sure the bottom has been reached.

Sugar also shows a reduction, all grades being quoted twenty cents a hundred lower than last week, although the raw sugar market is firm.

Yellow-eyed beans have dropped twenty-five to thirty cents, and are now fifty cents a bushel lower than white beans.

Eggs and butter are easier and prices slightly lower.

Compound lard, canned apples and certain grades of canned salmon all show small advances.

Oregon apples and California oranges are somewhat higher, while grapefruit is lower.

Bermuda onions and Florida tomatoes are quoted at lower prices this week and cucumbers and fresh pineapples have made their appearance on the local market.

Potatoes continued their upward course the demand being stimulated by planting operations and the wholesale price now is \$750 a barrel.

**NOW FACES CHARGE OF THEFT OF A WATCH**

Following closely upon the remand of Arthur Johnson in the police court this morning on a charge of stealing a ride last evening on the outbound Boston express in the vicinity of the cantleaver bridge, Detective Briggs and Duncan set to work on a theft case which they believed involved the prisoner.

Yesterday morning a man answering the description of Johnson entered Robinson's bakery in Celebration street and before he left he got away with a gold watch belonging to Fred Nobles, who is employed there. The watch was hanging in a rack on a wall on the wall. Johnson now faces the charge of theft of the watch, valued at \$25.

The watch was recovered by Detective Briggs this morning in Gilbert's second hand store in Mill street. It is understood it was sold there for \$2. The man who sold it signed under the name of Johnson of Halifax.

Johnson is an Englishman and it is said came to the city early yesterday morning from Nova Scotia. The affair will be tried in the police court within the next few days.

**HERE'S A CHANCE TO ENCOURAGE THE BOYS**

The thoughtful onlooker at the opening game of the Boys' Club League last evening on the Petry playground at the foot of Hanover street saw more than the alert lads who played or cheered the game. He could see in fancy, other forms running the bases, the forms of enough former members of the league make a full team, and quite a number who played last year, but who are today playing a bigger game in France.

More than a hundred boys large and small were on the playground last evening. One wondered where the fathers and mothers and sisters were, that none of them thought it worth while to encourage the players by their presence. Rattling good ball will be played on this diamond this season, four evenings per week for the working boys' league and practically every evening for the small boys after the latter begin their series.

Why do not the people in that section of the city get together and provide some swings, lectors and other equipment for the children on parts of the field not used for base ball? Who will take the lead and make the place a real playground?

**RIOT IN SARAGOSSA**

**Cheer for Germany at Demonstration for Allies Starts Trouble**

Madrid, May 22, via Paris.—Manifestations in which violent incidents occurred are reported from Saragoassa. The disturbances were started by a person on a street car cheering for Germany as the car passed where a demonstration was being held in favor of the Allies. A crowd promptly attacked the car and a free fight followed between the supporters of the allies and adherents of Germany. Eventually the police dispersed the rioters, but not before many of them were injured.

Saragoassa is the capital of the Spanish province of Saragoassa and of Aragon and lies about 175 miles northeast of Madrid.

**FUNERALS**

The funeral of Mrs. J. Allan Belyea, who died in Boston and whose body was brought here for burial, took place this afternoon from Waterloo street Baptist church. Services were conducted by Rev. F. H. Wentworth. Interment was made in Fernhill.

The funeral of Mrs. F. W. Vincent took place this morning from her late residence, Millidge avenue. Services were conducted at the house last evening by Rev. B. H. Nobles. The body was taken to Gondola Point, where interment will be made in Lower Jesuerg.

The funeral of Walter Young took place this morning from Messrs. Chamberlain's undertaking rooms. Services were conducted by Rev. B. H. Nobles. The body was taken to Lower Jesuerg.

The funeral of Miss Laura Stafford took place this morning from the Cathedral, where requiem mass was celebrated by Rev. Miles P. Howland. Interment was made in the old Catholic cemetery.
