LEAGUE CONTROL OF DARDANELLES

United Ministers Likely to Ask This Solution. The Problem Develops Only Trouble and Irritation—News Leaks Out and Lord Curzon is Raising a Rumpus.

(Canadian Press Cable) Paris, March 25.—The League of Nations is likely to be asked to take control of the Dardanelles, it has become known despite the secrecy the Allied foreign ministers have thrown around their deliberations here.

For that reason, Premier Poincare, the Marquis Curzon, British foreign secretary and the Italian foreign minister M. Schanzer, have discussed the eventuality of asking the league to relieve them of this burden.

M. Schanzer, a strong advocate of the league, is said to have particularly urged this solution, while M. Poincare and Lord Curzon are understood to welcome any plan that will relieve them of a problem which thus far has developed only trouble and contributed to irritation between the two Allies.

The Allied foreign ministers are trying to plug the news leaks in their own delegations. The Marquis Curzon is reported to have complained emphatically to Premier Poincare against such matters becoming public. M. Poincare summoned before the cabinet a newspaperman, who refused to tell the source of his information but absolved the French delegation from blame.

Lord Curzon is then said to have asked Premier Poincare for "protection against French leaks," which the French foreign office officials examined another reporter. He was as secretive as the first, however, so the foreign ministers finally decided to limit the amount of preventing publication of confidential matters would be to keep the members of their delegations from talking.

The foreign ministers at this morning's session took up discussion of revision of the financial clauses of the clauses of the treaty of Sevres, which the allied council of ambassadors today decided that the international troops occupying Scutari, Albania, should be withdrawn. These forces are entirely Italian, although they are occupying the town in the name of the Allies.

FIVE DAYS A WEEK WORK IN FORD FACTORIES

Detroit, Mich., March 25.—A material improvement in the employment situation here is generally expected as a result of action taken within the last few days by industrial leaders, which included announcement last night that all employees of the Ford Motor Co., many of whom have been working non-stop for three days a week, would be placed on a five-day-a-week schedule.

U. S. SENATE AND 4 POWER TREATY

Washington, March 25.—With the four-power Pacific treaty itself ratified by a margin of four votes over the necessary two-thirds, administration leaders hoped to see Senate action on the pact completed today by ratification of the supplemental treaty reserving purely domestic issues from the scope of the agreement.

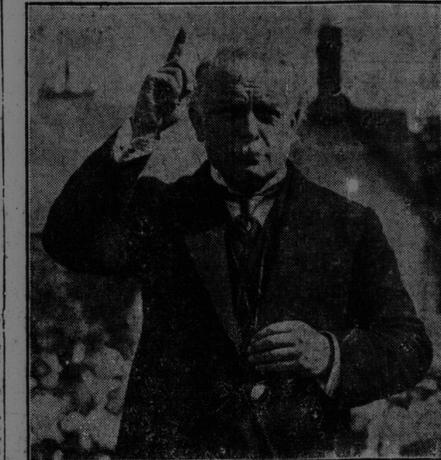

DAYLIGHT TIME IN NEW YORK APRIL 30

New York, March 25.—(Canadian Press)—Daylight saving time will go into effect in New York city and the suburbs, embracing the metropolitan area, at 2 a. m. on April 30, the last Sunday in April.

GOING TO MEET "DADDY" LITTLE CHAP DROWNED

North Sydney, N. S., March 25.—Tommy Brown, three and a half years old, son of Thomas and Mrs. Brown, Regent street, was drowned last evening in a brook, a short distance from his home, while "going to meet his daddy."

LLOYD GEORGE IN ACTION

A striking photograph of the British Premier who has agreed to hold his resignation in abeyance. Lloyd George has been taking a prolonged rest at Clivedon in Wales.

WANT "JANEY CANUCK" FOR THE SENATE

T. U. of Canada asked the dominion government to appoint Mrs. Emily E. Murphy, judge of the juvenile court and police magistrate at Edmonton, Alberta, to fill the first vacancy in the senate. Mrs. Murphy is better known throughout Canada for her writings under the pen name of Janey Canuck.

MUST CHANGE ACT TO OPEN SENATE TO CANADIAN WOMEN

Official Ruling That Amendment to British North America Act Necessary. Montreal, March 25.—The department of justice has issued an official ruling that no women senators can be elected in Canada without an amendment to the British North America Act. The official declaration is:—That under the British North America Act as it now stands, it is not competent for the governor general to summon any female person to the senate. The ruling was made in response to an inquiry made by the Premier King, who had received a request from the franchise committee of the Montreal Women's Club asking that, in view of the admission of Lesly Rhoads' claim to a seat in the House of Lords, Canadian women might be admitted to the senate.

FLYING BOAT PILOT IS FOUND; FIVE MISSING

Miami, Fla., March 25.—Robert Moore, pilot of the flying boat Miss Miami, missing since Wednesday morning when the boat left here for the Island of Bimini, in the British Bahamas, was being brought to Miami today and with his arrival it was expected that information would be obtained as to the fate of the five passengers.

PLAN TOUR OF FRANCE WITH PRODUCTS OF CANADA

Ottawa, March 25.—(Canadian Press)—Imports into Canada for the twelve months ended with February reached a total value of \$761,000,000 as compared with \$1,290,067,546 for the previous twelve months period and \$995,876,003 for the period preceding that. Dutiable goods were imported to the value of \$612,527,854 and free goods to the value of \$248,468,407 as compared with \$871,028,968 and \$419,948,958 in the previous twelve months.

MUCH SHIPPING IS TIED UP IN BRITISH PORTS

London, March 25.—(Canadian Press)—There is now more than two million tons of British and foreign shipping lying unemployed in thirty-six of the principal ports of the United Kingdom, and 1,900,000 tons of this shipping is British. Altogether 2,225,000 tons of British shipping is unemployed out of a total of 12,000,000 tons. It is recognized, however, that the position of American shipping is even worse.

BORDEN PAPERS TO BE BROUGHT DOWN IN HOUSE

Ottawa, March 25.—(Canadian Press)—All correspondence letters, telegrams and other documents in connection with the appointment of Sir Robert Borden as Canadian representative at the international conference for the limitation of armaments at Washington will be produced in the House of Commons, as a result of the adoption of a motion by Pierre F. Casgrain, (Liberal, Charlevoix-Montmorency) and amended on the motion of Hon. Arthur Meighen.

As Hiram Sees It

"Hiram," said the Times reporter to Mr. Hiram Hornbeam, "do you remember the old phrase—'in our power to your elbow?'" "Many's the time I heard it an' said it," said Hiram. "Well," said the reporter, "that is what the people are saying to one another in St. John now."

"I don't wonder," said Hiram. "I been readin' about them down in Ontario where they get cheap power an' plenty of it. If you had it here you might get some-where."

"But I take notice you got some people here that wants to look a gift horse in the mouth—as the sayin' is—an' some more that's seen' more things than they had in that spook-house in Nova Scotia. Start to death—some 'em wantin' to do somethin' else when you show 'em what they orto do. We got 'em just like that out to the Settlement. If they had this way we'd still be usin' snake fences an' ploughin' with oxen. They need a shock—an' I hope hydro'll give it to 'em—yes, sir."

Seeking To Win Non Union Miners

Leaders in the Coal Strike Would Recruit the 200,000.

Conference of Miners' Leader With Head of Locomotive Engineers With Reported Proffer of Assistance—A Deadlock in Western Canada.

(Canadian Press.)

Cleveland, March 25.—Leaders in the general coal strike of union miners, set for April 1, turned attention today toward winning 200,000 non-union miners to the walk-out which seemed assured of the united support of the half million union men. Calls for the non-union men to act will be issued in several states early next week, probably on Monday.

The programme of striking the non-union fields was decided on by the general policy committee of the United Mine Workers of America, which in concluding its formal meeting here yesterday also affirmed the union's policy of a general suspension of work, with no wage contracts being made for any soft coal district until an agreement had been reached for the central competitive field. Doubt that the policy could long be maintained in some partly unionized fields was expressed by Frank Farrington, the Illinois leader, who voted to support it, but declared that the Illinois union would make a contract with operators whenever the strike began to crumble.

In addition to laying plans for extending the strike, the committee meeting was marked by a private conference between John L. Lewis, the miners' international president and Warren S. Stone, president of the Brotherhood of Locomotive Engineers. It ended with Mr. Lewis announcing that Mr. Stone had no other conference planned with the leaders of the three other "big four" railway brotherhoods, which have headquarters in this city. None of the brotherhoods has yet formally ratified the alliance between miners and the transportation unions to oppose wage reductions, and the conference between Mr. Lewis and Mr. Stone was described by Mr. Lewis as a review of the "general situation confronting the mine workers."

District union officials remaining here after the committee meeting had conferences today with Mr. Lewis, the principal subject being the conduct of the strike. Deadlock in West. Calgary, March 25.—A cessation of work in all mines in District 18 of the United Mine Workers of America, comprising Alberta and eastern British Columbia, will take place on April 1, according to a statement by Robert Livett, international board member, after receiving a letter from the western Canada coal operators' association last night. As a result of their special meeting, yesterday, the operators notified the minister of labor that they had selected W. W. McNeil of the workmen's compensation board to act as conciliator; also that they refuse absolutely to pay the present scale of wages, but will pay rates now posted at their mines, to come into effect on April 1, pending an announcement of the board's finding. The situation now rests with the minister of labor. The operators have forwarded their letter to him and provided a chairman can be soon agreed upon the investigation may commence within the next few days.

The Outlook. Providence, R. I., March 25.—It is unlikely that there will be any serious shortage of coal resulting from the protracted bituminous mine strike, said J. D. A. Morrow, vice-president of the National Coal Association, here last night. Non-union mine production, the possibility of production resuming within sixty days after the strike in which at least a part of the union fields and existing accumulation of stocks, he considered, would assure an adequate supply.

LABOR MEN WERE OUT-MANOEUVRED

How the Estimates Were Passed Through the Manitoba Legislature. Winnipeg, March 25.—Protesting against the house "getting down to the level of a school debating club," Premier Norris registered a protest yesterday in the Manitoba Legislature against the estimates adopted by George Armstrong and John Queen, labor members, who tried to block progress with the estimates. Mr. Armstrong and Mr. Queen were ultimately all put through.

GERMANS TRY TO FLOOD MARKETS OF AUSTRALIA

London, March 25.—(Canadian Press cable) A Reuter despatch from Sydney says it is reported that several German ships are now in Java full of German goods with which it is intended to flood the Australian markets. These ships will also carry passengers from Australia to Germany for 25 each, which is under one-sixth of the usual rate.

IN PRISON, BUT SEEK ELECTION

Paris, March 25.—Emile Cottin, who attempted to assassinate former Premier Clemenceau in 1919, for which he is still in prison, and M. Goldsky, in prison for his connection with the Bonnet Rouge espionage case, were launched today in the Paris municipal councilors' elections which are to be held tomorrow.

MAY BE IN THE RACE OF SCHOONERS THIS YEAR

Halifax, N. S., March 25.—The schooner "Patera," built at Mahone Bay last fall, and a prospective contender in the Nova Scotia fishing schooner races of this year, arrived here today, en route to the banks.

LLOYD GEORGE TO END HOLIDAY ON MONDAY

London, March 25.—Premier Lloyd George is expected to return on Monday from Clivedon, where he has been enjoying a brief vacation.

MASKED GIRL BINDS INVALID AND ROBS HOUSE

Lynn, Mass., March 25.—A girl bandit, masked and armed with a revolver, stepped through a window into the bedroom where Mrs. Arthur Matrons lay sick early today, bound the woman with the big clothes and ransacked the bureau drawers. She escaped with \$30, while other members of the family were asleep in adjoining rooms. The police obtained a description of the young woman from a baker who saw her leave the house.

A BIG BRITISH SPORT EVENT

Athletic Contest of Oxford and Cambridge.

Letter Takes Hundred Yards and Mile—News from the Major League Ball Clubs—Late Sport.

(Canadian Press.)

London, March 25.—Oxford and Cambridge universities met at the Queen's Club for their 54th annual athletic contest today with an exceptionally fine lot of competitors on both sides. Cambridge thus far has won 25 meets, Oxford 23 and five have been tied.

The 100 yard dash was won by P. M. Abrahams, of Cambridge, a close second. The time was 10.1-5 seconds.

The one mile run was won by H. R. Stallard, of Cambridge, with W. G. Taham, of Cambridge second. Time 4 minutes, 22.2-5 seconds.

London, March 25.—Association cup tie results today were: Sunderland 3, Notts County 1; Preston N. E. 2, Tottenham Hotspurs 1.

Baseball. Boston, March 25.—The Braves, at their St. Petersburg camp, displayed the fruits of hard training yesterday, by beating the St. Petersburg team, 5 to 0. Johnny Cooney's southpaw pitching was the feature.

Washington, March 25.—The National regulars trimmed the second team, 5 to 3, at the Tampa camp, yesterday. Brillhead, the recruit pitcher, holding the Yankees to four hits. The Nationals will try to even up with the Boston Braves in the fourth game of their spring series at Tampa, Fla., today.

Chicago, March 25.—The Chicago clubs of the American and National leagues won their exhibition games yesterday, the White Sox easily defeating the University of Texas 6 to 4, while the Cubs in a white inning rally edged out Vernon 6 to 5 at Los Angeles.

Detroit, March 25.—The Rochester Indians regulars defeated the Yankees here on their credit after five defeats at the hands of the Detroit Americans. The teams in Charleston, S. C., today are playing a series of games through the Carolinas. Rochester outbatted Detroit yesterday and won 7 to 2, while Hughes of the Tigers "hits were" come here as the only major leaguer to make more than one hit. Woodall and Haney hit doubles and Helmann's best effort was a triple.

Cleveland, March 25.—A game played between the Cleveland Americans and Dallas, of the Texas League, at Dallas, yesterday was won by Cleveland 12 to 7.

Pittsburg, March 25.—Settling down into real season style, the Pittsburg Pirates regulars defeated the Yankees yesterday at Hot Springs, 3 to 2.

New York, March 25.—The New York Giants broke camp at San Antonio, Texas and started on their long trek leading to the Polo Grounds. As their last parting legacy to San Antonio, the Giants beat San Antonio 4 to 3.

New York, March 25.—In preparation for today's game with the Yankees the Brooklyn team took a fall out of the Mobile Southern Association aggregation yesterday. Most of the rookies got a chance to perform in some capacity, but they kept running up the score, which at the finish was 12 to 2.

Hockey. Boston, March 25.—The Victoria hockey team of Montreal last night defeated the Boston A. A. scattee by a score of 3 to 1.

Boston, March 25.—The Granites, winners of the Allan cup, who met the Westminsters, champions of the United States, here on March 31 and April 1. The Canadians will not appear as dominant champions, however. Permission to play the Westminsters for the Willis international championship trophy was refused the Granites by Canadian officials, but they agreed to come here as the Westminsters and play an exhibition game.

Charlottetown, P. E. I., March 25.—The Charlottetown Abegweils will pack away the 1922 hockey championship of the maritime provinces along with their skates and other equipment by virtue of its 5 to 3 victory over Windsor, champions of Nova Scotia, here last night.

Races Revisited. New York, March 25.—Four championship motor boat trophies that have been out of competition since 1914 are to be turned over to the American Power Boat Association by the National Association of Engine and Boat Manufacturers and offered in annual events under new deeds of gift.

The trophies, conditions and dates of five foot long, with minimum beam of five feet; maximum piston displacement, 110 cubic inches—Races in August in Connecticut with Thousand Islands Yacht Club regatta.

Interstate championship trophy, for displacement boats not less than twenty-five feet long, with minimum beam of five feet; maximum piston displacement, 625 cubic inches—Races at Interlake Regatta, Put-in-Bay, Ohio, July 19.

Motor yacht championship trophy, for express cruisers more than fifty feet waterline length—Races in one, two or three heats at Detroit, August 26 to September 8.

PARLIAMENT AND THE BANKS

Statement in Commons by the Hon. W. S. Fielding on the Merchants' Bank Case.

Ottawa, March 25.—(Canadian Press) "Instructions have been given for the prosecution of those who are being held for supplying false returns to the department of finance and the necessary steps are being taken in Montreal," Hon. W. S. Fielding, minister of finance, informed the House of Commons yesterday, when replying to questions by T. L. Church (Toronto North), on the Merchants Bank affair.

He said that the loss sustained by the shareholders of the Merchants Bank was wholly based on the "respectable" and "reputable" paid for their holdings. Shareholders purchasing at about par were not liable to sustain heavy losses, and those who purchased at higher prices would suffer more.

Mr. Fielding said that the government's intention with regard to imposing further penalties on directors, and others responsible for mismanagement in the affairs of banks or other financial institutions, was a matter for consideration when the bank act was before the House.

LABOR MEN WERE OUT-MANOEUVRED

How the Estimates Were Passed Through the Manitoba Legislature. Winnipeg, March 25.—Protesting against the house "getting down to the level of a school debating club," Premier Norris registered a protest yesterday in the Manitoba Legislature against the estimates adopted by George Armstrong and John Queen, labor members, who tried to block progress with the estimates. Mr. Armstrong and Mr. Queen were ultimately all put through.

ACCEPTS POST  
IN EDINBURGH

Dr. Watson of Toronto Faculty of Medicine Resigns to Go Overseas.

Dr. B. P. Watson, M. D., F. R. C. S. E., F. A. C. S., professor of obstetrics and gynaecology in the Faculty of Medicine of the University of Toronto, and now in charge of this department in the Toronto General Hospital, is resigning to accept the professorship of obstetrics and diseases of women in the University of Edinburgh.

Means Going Home.  
The department which Prof. Watson will accept at Edinburgh is recognized as being a premier one in the British Empire. The professorship was held by Sir James Simpson when he discovered chloroform and introduced anesthesia into midwifery.

Dr. Watson came from Edinburgh, of which he is a graduate, ten years ago, to take the position at present held by him in the University of Toronto. He was connected with the university in Edinburgh and is a gold medalist of that institution.

Tribute to T. M. S.

"I believe that this appointment has come to me because of the reputation of the University of Toronto Medical School," he said. "The eyes of the world are upon the scheme of re-organization which has been going on here for the last few years, and my experience here is what Edinburgh looks to, to give an impetus to the work there and to introduce the new methods, which we have had an opportunity of doing here."

The fame of the Faculty of Medicine of Toronto was known throughout the world, but "Toronto is appreciated everywhere but in Toronto itself."

Toronto in 'the Lead.

Men came from all over the continent and even from Europe to Toronto, Dr. Watson said, and they attended all departments of the Faculty and especially in the department of medicine and surgery.

"The Empire looks to such schools as Toronto to give a lead in their organization," he pointed out. "The training given students here at the present time is equal to that which they can secure anywhere, and if I succeed in the course of the next five years in giving Edinburgh students what students here are getting, I will feel that I have accomplished a great work."

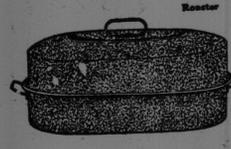

He had accepted the appointment only because his old school needed him. It is expected that he will sail some time around the end of July.

HIGHER PRODUCTION IN WORKERS' INTEREST

So Declares J. R. Clynes, Chairman of The British Parliamentary Labor Party.

Addressing a meeting of the Imperial Commercial Association, at London, J. R. Clynes, M. P., chairman of the Parliamentary Labor Party declared that wages in the last few months had been seriously reduced, but reduced wages would not avail to enable employees to meet their difficulties. Employers must discover and apply other means as well to make their success certain. But so far as the worker had to choose between less pay and greater output he could best promote his own interests by higher production, which would tend to increase his chances of employment and raise the purchasing value of the wages which he earned. There was a great deal of innocent misunderstanding in the minds of workmen, owing to lack of knowledge of the elementary facts of political economy. In the recent manifesto of the joint labor bodies it was expressly stated that it was in the interests of the whole community that production should be increased and its costs reduced. Merely to reduce wages gave no guarantee of lessened prices.

together wasted in industry. Most of them were indispensable to trade expansion. They extended, initiated, and stimulated business, and supplied a variety of service without which trade often would decline.

**OUTLOOK FOR WAGES—UP OR DOWN?**

"What will be the trend of wages during the next few years?" asks Paul Clay, in Forbes Magazine (N. Y.), who sums up his view of the situation as follows: "If machine work is to be substituted for hand labor on any large scale during the next few years, wages may be expected to hold or rise in face of falling prices; otherwise, prices, must be expected to pull wages down after them."  
"There is no way in the world to cut wages loose from prices. Soviet Russia tried it, and it has not worked. Millennium makers in all ages have tried it, and it has always failed. The wage-earner never has, and never will, obtain more than an approximately fixed proportion of the value of his product over any long period of time."  
"Concrete visible forces, then, point toward a further downward movement of prices and a slow readjustment of wages to the basis of prices. The only possibilities in the opposite direction are the possibilities of vast improvement in machine methods, or of another era of world-wide credit expansion—and, so far as can be seen now, it looks like stretching a point to call these 'possibilities.'"

FLOGGERS KILL ONE, LACERATE THREE

Brand Arizona Man with Carbolic—Dallas Klan Offers \$1,000 Reward for Assassants.

Dallas, Texas, March 25.—Dallas Klan 66, Knights of the Ku Klux Klan, in a letter to Mayor Aldredge have authorized a reward of any of the masked men who flogged F. A. Etheridge, a lumberman. The "Cyclops" of the Klan pledge its assistance in running down the hoodlums who committed this act.

Without regard to the social standing or the connection of persons who whipped Mr. Etheridge, the Grand Jury must return indictments against those responsible "for this outrage" when the proper evidence is submitted, Judge Phippen charged the Dallas County Jury today.

Etheridge is at work again. He said he was stiff and sore from the lashes Mayor Aldredge said every policeman in the city was working on the case. Officers have been assigned to guard the Etheridge residence.

Beaumont, Texas, March 25.—Dragged from the front porch of his residence, knocked unconscious with a revolver when he resisted, carried into the country and whipped, tarred and feathered, J. A. Pelt, aged 63, formerly a Justice of the Peace of Sour Lake, is suffering from high fever and wounds at his home here.

Mrs. Pelt, who was sitting on the front porch with her husband when six men demanded that Mr. Pelt accompany them, said she was knocked down and bruised when she clung to him. She knew no reason for the attack, she said.

Phoenix, Ariz., March 23.—A complaint naming twelve men will be filed in court following the whipping of Rollin P. Jones, Principal of the Lehigh District School, it was announced today by the County Attorney, Jones was flogged with a leather quirt and marked on the face with carbolic acid, he told the County Attorney. He said his masked assailants kept asking him if he was guilty of an offense, of which he recently was acquitted, involving a girl.

Nashville, Ark., March 25.—Police are searching for masked men who late yesterday shot and killed Walter Gibbs, 25 years old, when he attempted to protect Joel Harris, about 60, who was taken outside of the town and whipped severely after the killing of Gibbs.

TO COMPEL HUNTERS TO DON BRIGHT COLORS

Among a host of recommendations which are to come before the Fish and Game Committee of the Ontario Legis-

lature, this session is one to compel hunters to wear bright-colored garments while stalking game in the open season. Without passing opinion on the wisdom of this particular suggestion, Hon. Harry Mills voiced the opinion at the committee's organization meeting that some steps were certainly necessary to protect the lives of hunters.

Prices of Elephants.

An African elephant of the largest size measures about nine cubits or 13½ feet in height, and is worth about \$900. For huge Ceylon elephants \$4,000 is sometimes paid.

**WHITEFISH CULTURE.**

An Interesting Experiment is Being Tried at New York Aquarium.

At the Aquarium, in Battery Park, New York, they are trying out an experiment on whitefish, the result of which is being awaited with great interest by aquarists and ichthyologists.

"These Lake Erie whitefish," said Dr. Townsend, director of the Aquarium, "were hatched here from eggs about three years ago. They were fed on herring roe and mosquito larvae which pulled them through the critical period of infancy, and this gave them good start in life, so that they have lived and thrived. This undertaking was a great success, because it has not been possible to practice at government or state hatcheries to try to rear whitefish. The rearing is difficult, and they have always planted the young fry in proper lakes. When we showed this tank of whitefish raised under absolutely artificial conditions without these fish getting any of their natural food at any period of their lives, fish culturists were surprised at our good results."

These fish, it was explained, might have reached a spawning condition last year or ever further back, but they were left alone. Recently the Aquarium acquired the services of a man who has had much experience in fish hatcheries. He was told to look over the batch in the tank and he reported that they were full of eggs. He then stripped them of their scales. Many of the eggs turned out to be bad for hatching, but there were a few good eggs among them, and these are now being hatched. It will take fifty or more days to hatch these eggs, but the indications at present are that the experiment will prove a success. If this will have the unique distinction of hatching a batch of whitefish from the eggs of fish that had themselves been hatched from eggs brought to the Aquarium.

For some years biologists have been taking up different specimens of fishes, principally the salmon, and working out their age by their ring growths, or scales. The Fishery Department at Washington has a man at work on whitefish scales. The age of some species is told by otoliths, or ear stones. In the place, a fish found in British waters, the age is computed in this manner. Such, however, is not the case when the age is told by scales. Fish have many rings, in light and dark areas. A large, light ring represents summer; the winter rings are darker and fewer. A white and a dark ring represent one year of a fish's life. The age of a good many fish can be told by scales.

**COURT REVOKES DEATH PENALTY "DICTATED" BY VIRGINIA "MOB"**

Charleston, W. Va., March 25.—A declaration that "the mob has dictated this conviction" was made in an opinion handed down in the West Virginia Supreme Court of Appeals in reversing the death sentence imposed in Mingo county on Harry Lattimer. "The blood-thirsty mob spirit permeated the atmosphere of the trial and had its effect upon court and jury," continued the opinion. A new trial was ordered.

Lattimer was found guilty of criminal assault on an eight-year-old girl and was sentenced to be hanged in twenty-four hours.

**MOTORIST HIT AGED COUPLE BUT DID NOT STOP TO HELP**

St. Catharines, Ont., March 25.—Mr. and Mrs. J. Makin, an aged couple, residing in Wendel Villages, were on their way home recently after a visit to a neighbor, when both were knocked down by a motorist on the Allanburg Road. Mrs. Makin received severe cuts about the head. The offending motorist did not stop to enquire into the nature of the injury received by the aged couple, who were picked up when a call for help was heard by neighbors.

**EPWORTH LEAGUE MEETS.**

The Epworth League of the Portland Methodist church last evening enjoyed a programme arranged by the social committee. Miss Nan McDougal was the chairman for the evening and there were about fifty members present. Games and music passed the time very pleasantly and refreshments were served. The prize winners in two competitions were Miss Mary Kirkpatrick and Miss Marie Tower. An apple-eating contest between B. L. Kirkpatrick, William Leck and Fred Jones was one of the big hits of the evening. Mr. Kirkpatrick won the contest but had to make some desperate efforts to do so.

### NEW CITY MOVE IN FIGHT AGAINST WHITE PLAGUE

Dear Fellow-Citizens:

Since it has been proven long ago that tuberculous ailments are quite curable, and since many of us have personal friends who have happily gone through this curative process, it is proposed to take a confidential census of all people in the city now ailing with lung troubles.

This is part of a whole-hearted movement to stamp out the tuberculosis scourge, and progress made of late years encourages every worker to believe this can be accomplished in a reasonable length of time if persons afflicted will simply disclose themselves and receive the proper advice and treatment.

Tuberculosis has to be pretty far advanced if modern methods fail to check its progress and effect a cure. This is one of the big hopes and joys of these modern scientific times. Therefore any person, rich or poor, should not hold themselves aloof from their benefactor.

The St. John Society for the Prevention of Tuberculosis is pledged to a nation-wide movement to bring forward every case possible of tuberculosis trouble whether great or small. There will be no publicity about it, no undesirable intrusion upon one's privacy; it is merely a desire to find out if the progress of the disease is being checked and, if not, friendly suggestions or else outright assistance rendered.

It is the duty, therefore, of every person having weak lungs, or possibly tuberculosis in some other part of the body, to be confidentially reported to the Bureau of Statistics, where cheerful friends and willing organizations will bring about results. The whole thing is now focused to a point where illing people must themselves come forward and assist in this grand drive against the white plague.

Many a man, woman and child in St. John today is perhaps in one of the earlier stages of tuberculosis and does not realize the fact. If they make suggestions for the benefit of the object of keeping them posted concerning character, quality and prices of foreign competitive products. It also makes suggestions for the benefit of British exporters and furnishes information to promote the export trade.

During 1921 it conducted, for the enlightenment of British firms, thirty-one local exhibitions of foreign competitive wares, which was more than double the number conducted in the preceding year. The division's increased activities on behalf of British export trade are indicated by these figures received by the Bankers' Trust Company of New York from its English Information Service—

1920. 1921.

No. exhibitions held..... 17 31

No. British manufacturers attending..... 5,818 6,098

Foreign samples loaned..... 1,717 4,940

Foreign catalogues loaned..... 6,482 7,269

Export inquiries answered..... 1,092

**SEVEN BROOKLYN BANDITS GET 120 CASES OF LIQUOR**

New York, March 25.—Seven armed bandits yesterday invaded a Brooklyn warehouse, bound and gagged three watchmen and carried away 120 cases of liquor, valued at between \$6,000 and \$7,000.

**PLANS FLYLESS CITY.**

McPherson, Kan., March 25.—For the avowed purpose of making this a "flyless" city, the city commission has enacted an ordinance laying down strict sanitary rules.

No person will be allowed to keep more than one horse, cow or hog within the corporate bounds.

All barns, stables, chicken houses and other animal houses must be thoroughly cleaned three times a week and the refuse carted outside the city and burned. Wire flytrap must be placed at the front and rear of each business place. Heavy fines are provided for violations.

**NOVEL PLEA SUCCEEDS.**

Septuagenarian Romeo Acted Without Discrimination.

Paris, March 25.—The novel plea that children often acted without discrimination, so sometimes did aged persons, was made in behalf of Jean Delion, 70, when he was arraigned and fined and wounding slightly a successful septuagenarian rival for the affections of a young Montmartre girl.

The judge was so impressed with the ingenious plea in extenuation that four months in jail was all the irascible Romeo had to pay for his persistent glib temperament.

**THEY ARE WIDE AWAKE**

Enlarged activities during 1921 are reported by the Foreign Samples Exhibition division of the British Department of Overseas Trade, which was organized to assist British manufacturers in expanding their export trade.

The division's service includes the loaning of samples of foreign-made goods and also foreign catalogues to English firms with the object of keeping them posted concerning character, quality and prices of foreign competitive products. It also makes suggestions for the benefit of British exporters and furnishes information to promote the export trade.

During 1921 it conducted, for the enlightenment of British firms, thirty-one local exhibitions of foreign competitive wares, which was more than double the number conducted in the preceding year. **WHISKEY CAR SKIDS. DRIVER NEAR DEATH**

Twenty-three Cases of Liquor Confiscated by Windsor Police.

Windsor, March 25.—Ambrose McLean, 327 Kildare road, Walkerville, is near death at the Hotel Dieu, following the wrecking of his automobile containing 23 cases of whiskey at the junction of Glenagray and Aylmer avenues on Wednesday morning. The automobile skidded into the sidewalk as McLean was rounding the dangerous curve at that point known as the "Horseshoe." A patrolman called an ambulance, and McLean was taken from beneath the running-board with a broken leg, several broken ribs and internal injuries.

The 23 cases of whiskey were confiscated as a part of a total shipment of

**BETTER THAN HARD COAL**

Soft coal so free from soot that it does not make whiskeys on stove covers or pipe and does not mat or clog when burning, is far better than Hard Coal for general household use. Quicker to light, takes less to make a fire, cheaper in price and can also be used for open fires and small heating stoves. Such a coal is Broad Cove soft coal. The main thing is to insist on getting the genuine article. No other soft coal burns just like Broad Cove. You will know it by the above characteristics.

THE EVENING TIMES AND STAR, ST. JOHN, N. B., SATURDAY, MARCH 25, 1922

The Evening Times and Star

ST. JOHN, N. B., MARCH 25, 1922.

The St. John Evening Times is printed at 27 and 29 Canterbury Street, every evening (Sunday excepted) by The St. John Times Printing and Publishing Co. Ltd., a company incorporated under the Joint Stock Companies Act.

THE ISSUE.

There is but one issue in the coming civic elections in St. John. The hydro question is the most important and far-reaching of any that has been up at a civic election in St. John for many years.

THE COMING COAL STRIKE

The coal miners in the United States, with a two-million dollar war chest, are jealously preparing to go on strike on April 1 and dislocate the whole industrial business of the country.

Headstreet's notes that the record weekly production in the United States was in the week ending July 15, 1918, and was 19,286,462 tons, and that in one week in October it stood at 18,140,000 tons.

THE "RAMPANT" LEADER.

Mr. Charles D. Richards is good enough to lead the Conservatives in the legislature, but not good enough to lead the party in the province.

GIFTS FOR SHANGHAI COLLEGE.

A gift of \$50,000 gold has been announced recently for a Women's Building at Shanghai College. The building programme for Shanghai College in 1922 is a large one, as it includes two missionary residences, a large kindergarten training school building (for which \$40,000 gold is on hand), and a new academy building, to cost about \$30,000.

WASTED HOURS.

There was a day I wasted long ago, Lying upon a hillside in the sun— An April day of wind and drifting cloud, An idle day and all my work undone.

ESTIMATE OF WOMEN.

The Very Reverend Father Burke of New York, speaking in St. Patrick's Church, Montreal, said that the text of civilization is its estimate of women, and that the position accorded to women by the powers of the ancient civilizations of the world and in the teachings of pagan philosophers formed one of the blackest stains upon the records of mankind.

DOCTOR FOUND PATIENT DEAD AND SONS UNCONSCIOUS

Hamilton, Ont., March 25.—When Dr. Hopkins went to make a professional call on Mrs. Annie Murray, 123 Robert street, yesterday, he could not get into the house. The door was forced, and Mrs. Murray, who was eighty-four years of age, was found dead from coal gas, and her two sons, William and Richard, were unconscious.

THE NEW PARLIAMENT.

(Toronto Globe). This is the fourteenth parliament since Confederation, and each one convened with, as it were, new plans for the settlement of new issues.

STATE RESTS IN CASE AGAINST "TEX" RICKARD

New York, March 24.—The prosecution has rested its case against Tex Rickard, sporting promoter, charged with attacking fifteen-year-old Sarah Schoenfeld, after Herman Borch, junior, of an apartment house on West 47th street, in which the attack was alleged to have taken place, had been called to the stand.

POSTMASTER WAS AN AGENT.

\$2,000 Damages Against Saskatchewan Farm Vendor in Favor of Former Seaforth Man. (Toronto Telegram). Damages to the extent of \$2,000 have been awarded Donald McDonald against Howard M. Black for misrepresentation, which led McDonald to exchange his comfortable home and five acres near Saskatchewan, near Roche Perce, Black had referred McDonald to Arch D. Rose, postmaster at Roche Perce, for particulars as to the farm.

ASSIGNED.

David Clark, of Bass River, Kent county, has been assigned under the bankruptcy act to the Canadian Credit Men's Trust Association, Ltd. The creditors will meet in St. John.

BARON COCHIN OF FRANCE DEAD

Had Much to Do with Greece Joining the Allies in the Great War.

Paris, March 25.—Baron Denys Cochin, for many years a prominent Royalist member of the Chamber of Deputies and member of the French Academy, died yesterday at the age of seventy-three.

DOCTOR FOUND PATIENT DEAD AND SONS UNCONSCIOUS

Hamilton, Ont., March 25.—When Dr. Hopkins went to make a professional call on Mrs. Annie Murray, 123 Robert street, yesterday, he could not get into the house. The door was forced, and Mrs. Murray, who was eighty-four years of age, was found dead from coal gas, and her two sons, William and Richard, were unconscious.

BANK STATEMENT FOR FEBRUARY

Ottawa, March 25.—(Canadian Press).—A slight decrease in both current loans in Canada and savings deposits during February is shown in the bank statement issued by the finance department yesterday.

POSTMASTER WAS AN AGENT.

\$2,000 Damages Against Saskatchewan Farm Vendor in Favor of Former Seaforth Man. (Toronto Telegram). Damages to the extent of \$2,000 have been awarded Donald McDonald against Howard M. CANADIAN BROOM PLANTS HAD LARGER PRODUCTION

The production of brooms and brushes in Canada during 1920 was valued at \$4,880,985 at the factory, as compared with \$4,284,915 in 1919, according to a report issued by the Dominion Bureau of Statistics. In 1920 there were fifty-five plants engaged in making these products, with a capital investment of \$3,730,252. There were 1,000 male and 371 female employees, who received an aggregate of \$1,212,641 in salaries and wages. Materials used had a cost value of \$2,454,000. Imports of brooms and brushes from other countries were valued at \$1,201,677, and imported raw materials were valued at \$1,121,757. Exports were valued at \$296,459 shipped to the United States. The United Kingdom took brooms and brushes to the value of \$82,577, and

\$50,000 SHOE THEFT; 6 TONS CARRIED OFF

Burglars Work for Almost Thirty-six Hours Removing Loot from a New York Loft - Composers' Works were Stolen.

The speed that has recently characterized the work of fur robbers is utterly lacking in the operations of the gentry whose field is fancy footwear.

At 7:45 o'clock Harry Shapiro, foreman stepped off the elevator and into a Gustin premises on the eleventh floor of the twelve-story building between Fifth and Sixth avenues.

Shapiro rushed to the telephone and called Mr. Gustin at his home at 101 West 115th street.

Notified police headquarters as soon as I arrived here," said Mr. Gustin, "and detectives from the West Thirtieth street station were sent down.

When the heat has expanded the bolts of the shelves they made them into packages and then threw them down the freight elevator shaft.

As we reconstructed the robbery, the burglars got into the place through the rear window.

They then went into my stock room and took papers and twine.

A WEEK FOR IDLING

Poplar Unemployed Man Had Steady Steady Income.

London, March 1.—(By mail)—The Poplar Municipal Alliance, in a statement to the ratepayers dealing with the manner in which outdoor relief is being granted by the local Board of Guardians, give details of a case brought to light by the London Mendicity Society.

The facts are as follows: A merchant in the city had a man working for him at a salary of ninety shillings a week. The man left his employment, and a month or two afterwards returned and asked to be taken back. He was told that his old situation was filled, but that another was open to him at seventy-five shillings per week.

Unemployment relief ..... 1 0 0 Fevly food allowance by Poplar Guardians ..... 2 7 0 Money allowance by Poplar Guardians ..... 2 5 0 Total weekly income ..... £7 2 0

The Alliance said that out of upwards of 80,000 able-bodied men receiving outdoor relief in London, 4,000 are residents in Poplar, and that there are more than twice as many people in a hundred living on the ratepayers' money as in Linchouse and West Ham, more than three times as many as in Edlington, and six times as many as in Whitechapel.

MENTAL TROUBLE SIMPLY A DISEASE

Must be Treated Early—Taken in Incipient Stages as a Disease, Not Insanity, Says Canadian Club Speaker.

A strong argument was presented on Monday at the Canadian Club of Montreal by Dr. C. Macfie Campbell, the noted American authority on mental diseases that the public should drop the medieval idea that insanity was a direct dispensation from God or a manifestation of original sin, and turn to the modern idea that it was simply a disease.

Dr. Campbell pointed out that if any person was a victim of an accident or sudden illness on the streets he was at once hurried to the hospital. Everyone knew what to do with him. But if he became a victim of a perhaps temporary gust of mental trouble, and became wildly excited on the street and made a row, people shrugged their shoulders, and simply put it down to lunacy, with the idea that he should be sent to an asylum.

As a matter of fact, Dr. Campbell argued, real insanity was simply the final and acute stage of mental troubles, similar to the final and incurable stages of tuberculosis or cancer, and, like these diseases, if taken in hand early enough and properly treated, the majority of such psychopathic cases could be cured.

The president briefly introduced Dr. Campbell as director of the Boston Psychopathic Hospital, and one of the leading experts on mental diseases, to discuss "Mental Handicaps, a Neglected Aspect of Public Health."

In dealing with this Dr. Campbell spoke of the modern increased interest in mental matters, which had become a common subject of table conversation. But this interest seemed to be based on physical health, and seldom extended to the equally important field of mental disorders.

Drop Sensitive Prejudice. By this he did not mean insanity, which was essentially a legal term. The so-called insane were the severely sick, who had to be confined in asylums, but the final and acute stage of mental troubles, similar to the final and incurable stages of tuberculosis or cancer, and, like these diseases, if taken in hand early enough and properly treated, the majority of such psychopathic cases could be cured.

His suggestion was that such mental diseases should be treated as ordinary physical diseases, and a competent physician called as soon as the symptoms were noticed, and that there are more than twice as many people in a hundred living on the ratepayers' money as in Linchouse and West Ham, more than three times as many as in Edlington, and six times as many as in Whitechapel.

The trouble with most of these cases was that they were not intelligently dealt with from the source, as any physical disease would be. Dr. Campbell argued that such treatment should go back to school days, with observation of any children who developed abnormal traits.

Then in the medical schools students should be trained not merely to deal with diseases, but to study the patients themselves. Further, he argued that hospitals should not differentiate between mental and physical diseases, and that the psychopathic department of any hospital should not be segregated, instead of the present plan of many hospitals of announcing that no mental cases would be admitted. If this were done mental cases taken in hand as soon as they developed, and given ordinary hospital care, as in Linchouse and West Ham, more than three times as many as in Edlington, and six times as many as in Whitechapel.

Most of these mental disorders were due to the whole attitude toward mental diseases that of a century ago, when insanity was regarded as a visitation of God, a mysterious thing to be treated by putting the sufferers, chained, and perhaps brutally treated, in an insane asylum, as they were often, even as late as last century. The severe cases of insanity were no more typical of mental disorders than were the final stages of consumption or cancer typical of the earlier and curable stages.

RELEASE LIQUOR SHIP IF CONDITIONS COMPLIED WITH. Washington, March 25.—Release of the British schooner Emerald, held at Norfolk as a liquor ship, will be ordered if her owners will comply with the government's conditions. It was said yesterday at the justice department.

The vessel was brought into Norfolk recently with a cargo of liquor by the coast guard Manning after being traced from a point within the three-mile limit to about nine miles off Cape Charles.

Mayor Schofield received word yesterday from C. C. Kirkby, that work was coming along fast with the report on the cost of the hydro distribution system for the city and that it was hoped to have this report ready for the council on Monday or Tuesday.

THE IDEAL KITCHEN.

Things Which Make It So Named by University of Wisconsin.

To be efficient, a kitchen must be arranged so as to reduce the time of the worker, make the work less hard, eliminate waste and lower the cost of light, heat and cleaning, according to home economics experts at the University of Wisconsin.

They have found that the following things make kitchen work easier: The kitchen should be the most sanitary room in the house, and the sun should enter at all hours of the day. Therefore, it should face the southeast or southwest. The size depends upon the number who are to work in it. The number of doors should be reduced to two, if possible, because many doors make good arrangements and grouping of equipment impossible. Walls should be washable and of light color. Hardwood floors are rather expensive, but a cheaper wood covered with a good quality of linoleum is good.

In the home already built at least six things should be considered: Gathering, preparing, cooking and serving food, washing dishes and cleaning away. Equipment for preparing meals should be brought in from outside, taken to the work table, prepared and cooked on the stove and served from there into the dining room by means of a serving table. The equipment for clearing away meals should be grouped together. Dishes should be taken directly to the sink, washed and then put away. This grouping saves time, steps and labor. A carefully placed kitchen may be

LOCAL NEWS

About 260 books, all of great value to the Natural History Society, have been presented to that organization from the estate of the late Mrs. J. V. Ellis. The 250 volumes were selected by Mr. McIntosh.

A delegation, representing D. J. Purdy and holders of properties adjoining Mr. Purdy's, would likely be heard at the committee meeting of the city council on Monday morning in regard to the application by Mr. Purdy to extend his wharf at Indianstown farther out into the harbor, Commissioner Bullock said yesterday.

Rev. J. V. Young, priest in charge of the Mission church, being indisposed, the service in the Mission church last night was conducted by Rev. Canon R. A. Armstrong. Father Young, who has been suffering from an attack of tonsillitis, is making a satisfactory recovery but he does not expect to be able to conduct the Sunday services in his church.

The brick house on the northeast corner of Union and Dorchester streets was purchased recently by W. A. Ross in the interests of a syndicate composed of both local and outside people. The property, formerly the home of Dr. Harding, has a frontage of about forty feet in Union street and about eighty feet in Dorchester. Remodelling operations will be begun on the building about April 1, it has been announced.

The work being carried on in the mission fields of Japan, Korea and Northern China was shown last night in St. Andrew's church in a very interesting film exhibited by the Pathescene Company. A large congregation enjoyed the novel experience. One of the interesting features of the programme was the appearance in the picture of Rev. A. H. MacVicar, a former minister of St. Andrew's now doing missionary work in North Honan.

An article in a recent edition of the Peru, Illinois, Herald, says that Miss Agnes Lawlor, superintendent of the People's Hospital about to be opened in Southern Illinois. Miss Lawlor is a St. John girl and a graduate of the Worcester City Hospital. After she graduated she was connected for some time with the East St. John County Hospital and afterwards on the staff of the St. Mary's. Later she served two years in France.

Miss Ethel Hazen Jarvis, secretary of the New Brunswick division of the Red Cross Society, will attend today for Toronto, where she will attend the meeting of the executive officers of the society and later the annual meeting of the central council. C. B. Allen, who will

Fairy Orchid.

In Java there is an orchid, the graminatophyllum, all the flowers of which open at once, as if by the stroke of a fairy wand, and they all wither together.

Discussion of plans for "Free Consultation" week took up the time at a meeting of the St. John Association Board of Tuberculosis Prevention last night. Those present were: F. B. Schofield, Mrs. W. H. Shaw, Mrs. Jones, Mrs. F. B. Ellis, Dr. Mabel Huntington, S. K. Smith and H. F. Partridge. Various forms of publicity were authorized at last night's meeting.

Not the Answer Expected. The teacher was trying to impress upon her pupils the importance of doing right at all times, and to bring out the answer, "Bad habits," she inquired: "What is it that we find so easy to get into and so hard to get out of?" There was silence for a moment and then one little fellow answered, "Bad."

SPRING FAIR IS A BIG SUCCESS

Y. M. C. A. Entertainment Well Patronized and Much Enjoyed—To Be Repeated.

Two famous fortune tellers: an up-to-date country store selling necessities that ranged from the everyday collar to all kinds of groceries and country produce; a first class orchestra, playing continually; swimming exhibitions and moving pictures; a bang-up musical revue, with an uproarious minstrel finale; all these attractions and more, too, induced a good-sized number to visit the Spring Fair in the Y. M. C. A. building yesterday, beginning in the afternoon and continuing until late in the evening. This is the biggest undertaking of the Y. M. C. A. authorities in many years along this line but as all the participants worked hard and co-operated, and wholeheartedly, the success of the affair was undoubted. Judging from the many favorable comments of those present, this first annual fair will become a yearly event in Y. M. C. A. circles.

The fair, which also includes fancy work booths, homemade pastry and candy booths, ice cream stands, as well as the other attractions mentioned, will be run today and an even larger number is expected to attend than were present yesterday. One of the main attractions

CORNS Lift Off with Fingers

...hurt a bit! Drop a little of the cream on an aching corn, instantly that corn stops hurting, then shortly you lift it right off with fingers. Truly! Your druggist sells a tiny bottle of "Freeons" for a few cents, sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses, without soreness or irritation.

"DANDERINE" Grows Thick, Heavy Hair

35-cent Bottle Ends all Dandruff, Stops Hair Coming Out

Ten minutes after using Danderine you cannot find a single trace of dandruff or falling hair and your scalp will not itch but what will please you most will be after a few weeks' use, when you see new hair, fine and downy at first—yes, but really new hair—growing all over the scalp. Danderine is to the hair what fresh showers of rain and sunshine are to vegetation. It goes right to the roots, invigorates and strengthens them, helping the hair to grow long, strong and luxuriant. One application of Danderine makes thin, lifeless, and falling hair, naturally bright, lustrous, and just twice as abundant.

FOURTH OF THE FAMILY TO MEET TRAGIC DEATH

George Kennedy Drowned in the St. John River—Body Carried Under the Ice.

(Sussex Record) George Kennedy, a former well-known resident of Studholm, Kings Co., was drowned on Thursday of last week, while attempting to cross to the mainland from the foot of Musquash Island, a large tract of interval at the mouth of the Washademoak Lake. Kennedy, who had been visiting relatives in Sussex and vicinity, left here on Thursday morning for Lower Jemseg, where he resided with his sister, Mrs. Kennedy. He took the Valley train at St. John and got off at McAlpine's Landing, which is opposite where Colwell's creek, the lake and the main river come together. He tried to cross to Carpenter's Landing to reach Belyea's Cove on the further side of the lake and lost his way in a snow flurry. Kennedy had begun to fall early in the afternoon and continued until after dark, making it extremely difficult to tell direction and bringing darkness an early hour. Several boys on the mainland heard Mr. Kennedy crying for help, about 7 o'clock. He had lit a fire on the island and was calling out loudly. They shouted to him to stay where he was as the river was open below the island and they would get a boat and come for him. He said his name was Kennedy and that he came from Jemseg.

It is supposed that he became bewildered with the snow and, thinking he was walking towards the centre of the interval, he went further out on the ice which was only firm for about one or two feet. When the boys reached he called out that he was in three feet of water. The boat was put off to his rescue and he was wearing a heavy fur coat and the water at that place is a swift current. It is thought that, weighed down by his coat, he was dragged under and carried down beneath the ice-crust. Dragging for the body was carried out by Isaac Carpenter with the aid of the neighbors and it was not until late in the evening that all hope of recovering the body was abandoned. It is thought that the body may come to the surface when the ice breaks. The place where the fatality occurred was opposite the summer house of J. C. Belyea, near Wickham, and some 100 feet from the shore. Mr. Kennedy, who was between sixty-five and seventy years of age, is survived by two sisters, Mrs. George B. Nevers, of Lower Jemseg, and Mrs. Robert MacDonald, of MacDonald's Corner, Queens County. George Kennedy was the fourth member of the family to meet with a tragic death. One brother was drowned also; another brother was killed by falling from a tree; and a sister was killed by a runaway horse.

WARNING! Say "Bayer" when you buy Aspirin. Unless you see the name "Bayer" on tablets, you are not getting Aspirin at all. Why take chances? Accept only an "unbroken package" of "Bayer Tablets of Aspirin," which contains directions and dose worked out by physicians during 22 years and proved safe by millions of...

though they had suffered defeat by the U. N. B. girls' team. It was their first defeat and they declared their opponents such good sports that it was the next best thing to winning. The Byngs still claim the provincial girls' championship by virtue of the fact that in the two games with U. N. B. the total number of points they scored exceeded their opponents total. After the game in Fredericton on Thursday the U. N. B. team entertained the St. John team at a banquet and later, an informal good time with games and stunts was enjoyed. The Byngs spoke most warmly of the lavish hospitality showered upon them in Fredericton. On their arrival they were greatly pleased to find four telegrams of good wishes, two from Mount Allison friends and two from St. John friends.

"Just Listen to This"

"I HAVE been after you to try Dr. Chase's Nerve Food and you always say it is intended more for women." "Well that is what I always understood, for I hear you women talking so much about using it." "Don't you think men have blood and nerves as well as women? It says here that Dr. Chase's Nerve Food forms new, rich blood and nourishes the exhausted nerves back to health and vigor." "Yes." "Well, the doctor says it is your nerves that are responsible for your indigestion and sleeplessness. Why not try some of Dr. Chase's Nerve Food? You know what it did for me." "I would like to know of some men in my condition who used it."

HALIFAX TERMINALS, COST \$16,646,396.20

(Canadian Press Despatch) Ottawa, March 24.—The cost of the ocean terminals at Halifax to date, including the cost of land appropriation, breakwater, docks, station accommodation, cost of excavation and laying tracks from Waverley to the present station and terminals, will be \$16,646,396.20, it was announced in the house of commons this afternoon in reply to a question by William Duff (Liberal, Lunenburg).

HEIR TO MILLION ELUDES MOTHER

Gordon Duffield, 18, of Chicago, Ran Away from Jersey School Last October—Police Asked to Aid. New York, March 25.—"I'm getting \$8 a week and three free meals a day, mother, and considering how hard it is to get over a restaurant job, that's doing pretty well."

ACID STOMACH

In five minutes "Pape's Diapepsin" ends Indigestion Sourness Cases Flatulence Heartburn Palpitation "Pape's Diapepsin" really does put bad stomachs in order—"really" does overcome indigestion, dyspepsia, gas, heartburn and sourness in five minutes—that's just what makes Pape's Diapepsin the largest selling stomach regulator in the world. If what you eat ferments into stubborn lumps, you belch gas and eructate sour, undigested food and acid; head is dizzy and aches, remember the moment "Pape's Diapepsin" comes in contact with the stomach all such distress vanishes. It's truly astonishing—almost marvelous—and the joy is its harmlessness. A large sixty-cent case of Pape's Diapepsin is worth its weight in gold to men and women who can't get their stomachs regulated. It belongs to your home—should always be kept handy as a case of a sick, sour, upset stomach during the day or at night. It's the most efficient antacid and stomach regulator in the world.

Mother, Why Don't You Take Nuxated Iron

And Be Strong and Well and Have Nice Rosy Cheeks Instead of Being Nervous and Irritable All the Time and Looking So Haggard and Old?—The Doctor Gave Some to Susie Smith's Mother and She Was Worse Off Than You Are and Now She Looks Just Fine

Nuxated Iron Will Increase the Strength and Endurance of Weak, Nervous, Careworn, Haggard, Lacking Women in Two Weeks' Time in Many Instances. "There can be no healthy, beautiful, rosy-cheeked woman without plenty of iron in her blood," said a prominent New York physician and medical author recently. He has strongly emphasized that doctors should prescribe more of this iron—Nuxated Iron—for their nervous, rundown, weak, haggard-looking women patients. Pale, for means anemia. The skin of the anemic woman is pale, the flesh flabby, the muscles lack tone, brain fags and the memory is weak, and often they become weak, nervous, irritable, despondent and melancholy. When the iron goes from the blood of women the roses go from their cheeks. They become weak, irritable, and nervous because through the blood and when the blood is thin and anemic, the nerves are impoverished, the nervous mother or housekeeper is highly irritable, forgets where she puts things, and often cannot remember what she started to do. At night she often has a "good cry" and excuses it by saying it is a relief for her nerves, when it means a high state of nerve exhaustion. Often her nervousness and irritability last all kinds of ailments, because the NUXATED IRON IS A DISTINCT SUBSTANCE SIMILAR TO YOUR BLOOD. It is the most important fluid in your body. It gives life to your nerves and force to your brain. If you cannot think right, if your memory fails, if you are irritable and easily upset, trifling things annoy you, look into your nerve force. When your nerve force becomes weakened, all the vital organs of your body lose their normal strength and vigor, and as a result all kinds of ailments, because the NUXATED IRON IS A DISTINCT SUBSTANCE SIMILAR TO YOUR BLOOD. It is the most important fluid in your body. It gives life to your nerves and force to your brain. If you cannot think right, if your memory fails, if you are irritable and easily upset, trifling things annoy you, look into your nerve force. POLITICS IN THE  
OLD COUNTRY

Future of Coalition the Great  
Topic in London.

Lady Rhonda and the House  
of Lords—The Wedding of  
Lady Scott—U. S. as Book  
Market for England—Royal  
Bride's Presents.

(From our own Correspondent.)  
London, March 9.—The political  
question of the moment is whether the  
coalition is going to eject the little birds  
from the nest, or whether the little  
birds, by a united effort, are going to  
eject the cuckoo. It is really a very  
pretty issue, and there is such a screech-  
ing and chirping down Westminster way  
has not been heard for years past. It  
has stirred Clubland as well. Men who  
were friends for years are now  
arguing hotly and anxiously over the  
question of whether the coalition is to  
be maintained. There are some good  
people who are going about solemnly  
shaking their heads over it all and plier-  
ing affirming the need of smoothing the  
business down in the national interests.  
If unity does not exist, they expect it,  
at the very least, to pretend that it  
exists.

Perhaps I am possessed of a more than  
proper share of a Puck-like sense of  
humor, but I must frankly confess to a  
keen enjoyment of the turmoil. I hope  
it will get worse. Anything is better  
than the dull stagnation of things in-  
servable at Westminster under present  
conditions. If the old place is to go on  
at all it has got to be brightened up  
somewhat, and things really have bright-  
ened up this last week.

The sound of the wedding bells at the  
Abbey had hardly died away before the  
toasts at the palace on the other side of  
the road was sending forth strident  
noises. And now all the politicians are  
yawning backward towards the test of  
ants stirred up with the end of a  
long stick.

Here is our good friend, George  
Younger, the storm petrel of the occasion,  
described as a political Machiavelli.  
Could anything be further from the  
truth? George Younger is really a very  
good sort. He began life as a brewer,  
and, though it would be rude to say that  
he is a brewer still, he would be the  
first to laugh at all the talk that  
is being said about him. He has a  
genuine sense of humor and thorough-  
ly enjoys F. E.'s description of him as the  
"cabin boy, who washes the feet of the  
ships." Some men would have taken this  
as an insult and would have gone about  
demanding F. E.'s head on a charger.

That is not Younger's head on a charger,  
but his own head on a charge, if anyone  
wants it. But he is concerned to have it  
known that in all he has said and in  
all he has done he has merely acted as  
the spokesman of the Unionist machine.  
There lies the seriousness of the present  
situation. Whatever machine goes on  
and whoever is in charge of it must  
be seen to be in charge of it properly.  
To a great extent, Younger has his finger  
on the pulse of the Tory organization  
about the country and knows what  
the average Tory is saying about the  
political situation. Of course there are  
many cross-currents, but the idea of an  
indefinite continuation of the coalition  
under the title of a centre party or any-  
thing else, does not find much favor.

It might consist of all that was best  
in unionism and all that was best in  
its counsels might be the embodiment of  
all human wisdom, but whatever it was  
and whatever it did, the country would  
be about for some alternative. The only  
alternative would be—Labor! In the  
minds of many people labor spells com-  
munist, and no one wants communism  
in this country. Rather than face this  
prospect the average Tory would sooner  
see the re-creation of the old Liberal  
Party—even though his recreation meant  
that Toryism would wander in the desert  
of opposition for the next half-dozen  
years. Some set the period even longer,  
arguing that there can be no future for  
a purely Conservative party, so great  
have been the changes wrought by the  
war. Don't believe it. There will be  
a party in England for a party  
which represents the good landlord and  
the good employer.

The "Beverly business," as it is un-  
officially termed in the West End, is  
causing the greatest perturbation to  
many a society as well as city man.  
Amongst those who have suffered very  
heavily from the city crash is a lady who  
was at one time exceedingly well known  
in court and society circles. A few  
years ago her name was everywhere  
because of a scandal which had broken  
down a household of name, let us say, the  
names of Lady Diana Manners and Mrs.  
Asquith at the present time. From all  
accounts she is quite well known to  
the whole of her fortune, and much sym-  
pathy is felt for her in the paralyzing  
loss she has sustained.

In the Lions' Den.  
Some years ago there was a series of  
mysterious burglaries in a London  
suburb. House after house was robbed  
and though the local police were pro-  
perly on their mettle it was a long time  
before any arrests were made. It was  
then discovered that the house-breakers  
had their headquarters in the very last  
corner that would have been suspected.  
Posing as two bachelor chums, they had  
taken a flat immediately above the police  
station itself and were in the habit of  
bringing home their booty right after  
sight under the very eyes of the police  
constables, with all of whom they were  
on terms of friendly intimacy.

I am reminded of this story by a  
whisper which reaches me of another  
curious happening within the Home's den.  
There are receivers of stolen property in  
London who are quite well known to  
the police but who are so clever in their  
methods that they sometimes succeed in  
eluding justice for a considerable  
time. Even Home's nodded and the ar-  
rest of one of these gentry was pending.  
All proceedings were stayed, however,  
by some strange way, so the story goes,  
the man's record, together with his finger-  
prints, literally vanished from Scotland  
Yard itself.

Lady Rhonda's Triumph.  
There is still a little ambiguity about  
the actual position of Lady Rhonda and  
those twenty other peresses in their  
own right who under the sex disquali-  
fication removal act claim seats in the  
House of Lords. Although a strong and  
representative committee for privileges  
has fully conceded their claims, and the

GIVE THEM  
BAKER'S COCOA  
TO DRINK  
The almost unceasing activity with which children  
work off their surplus energy makes  
good and nutritious food a continual  
necessity. Of all the food drinks Baker's  
Cocoa is the most perfect, supplying as  
it does much valuable material for the  
upbuilding of their growing bodies.  
Just as good for older people. It is  
delicious, too, of fine flavor and aroma.

And Princess Mary, too?  
But what about Princess Mary herself?  
Surely this sex disqualification  
now removed all round; in which case  
what is to prevent a princess of the  
blood sitting in the House of Lords be-  
side her royal brothers? It is fitting that  
it should have been Lady Rhonda who  
asserted this feminine right, for Her  
Ladyship, who inherits the great busi-  
ness aptitude and intense vitality of her  
famous father, has been consistently in  
the van of the woman's movement. She  
is a lady in every middle-aged, handsome  
and attractive, but remorselessly intel-  
lectual, director of several big concerns,  
and something of a journalist, as well  
as a newspaper proprietor. She is en-  
tirely free of the sort of a person who  
suffers fools either gladly or otherwise,  
and she will certainly be a force to be  
reckoned with in the upper house.

It was a very interesting and pretty  
little ceremony in the crypt of the  
House of Commons when Lady Scott,  
widow of a famous explorer, was mar-  
ried to Commander Ailton Young, M.  
P., of Zebrugg fame. Austen Cham-  
berlain was one of the well-known people  
present, and he performed the office  
of giving away the bride. Commander  
Ailton Young looked a very fine figure  
in morning dress with his dramatic  
empty sleeve, a relic of Zebrugg. His  
bride wore a simple grey costume.  
When she was suddenly confronted by  
about thirty press photographers she  
gave a little gasp of dismay. Peter, her  
splendid little son, accompanied his  
mother, dressed in a white jersey and  
grey knickers, with sturdy bare legs ex-  
posed by short socks. Obviously, Peter  
thoroughly approved of the occasion. He  
looked extremely happy and came well  
into the wedding picture. His mother  
led the crypt chapel after the ceremony  
with her husband's arm linked in hers  
on one side, and holding Peter's hand on  
the other, a very touching group.

Asnesias as a Book Market.  
An American publisher now in London  
tells me that, although the number of  
native born authors with big reputa-  
tions has enormously increased in the  
states within the last ten years, it is still  
possible for English authors to create  
records, and he named half a dozen  
authors whose sales in America exceed  
a hundred thousand copies a novel. Miss  
Ethel M. Dell, he estimated, more than  
exceeded this number. Miss E. M.  
Hall's "The Shell" has gone into seventy  
reprints in twelve months, and Mr.  
Hutchinson's "If Winter Comes" has al-  
ready sold to the tune of 200,000 copies,  
and has probably exceeded the record of  
"Main Street," a book by an American  
author, St. Clare Lewis, that was claimed  
as last year's "best seller" in the States.  
In comparison the sales of American  
authors in England, though considerable  
in the case of authors like Gene Stratton-  
Porter, Jane Grey and Booth Tarkenton,  
are in number almost negligible, and  
America is becoming more and more  
the great book-market of the English-  
speaking world. Of the nineteen best-  
sellers among general literature in the  
States last year seven were books by  
English authors, the anonymous "Win-  
ners of Washington" and H. G. Wells' "Out-  
line of History" being two of the most  
prominent.

A Bazaar of Empire.  
In the Armory, the Tapestry Room,  
and Queen Anne's Drawing Room at St.  
James' Palace, the display of the royal  
wedding gifts is a veritable bazaar of  
empire. With the United Kingdom, the  
overseas dominions have given of their  
imperial best to the princess of the  
motherland. Priceless carpets and cab-  
nets from Indian maharajahs, apom-  
poms from "Down Under," ostrich  
feather fans from South Africa—with  
a no less characteristic and awe-inspir-  
ing jumble—pictures, pottery, lace and  
lith all are assembled on stands or in  
glass cases for public exhibition.  
Through the long avenue of royal rooms  
the democratic procession passes; for  
some the potent magnet is a work of art  
or a rare edition; others linger near price-  
less pottery, European and oriental, while  
the amateur of the antique finds paradise  
at every turn! Diamonds, emeralds and  
sapphires of imperial size and beauty,  
with the long pearl necklace of the Mary-  
of the empire, draw caustic comments

NO MORE SLEEPLESS  
NIGHTS—FINDS HEALTH  
IN INTERNAL BATHING  
Mr. F. C. Voigt, Queen's Hotel, Rapid  
City, Minn., writes:  
"For the last few years I have been a  
sufferer from indigestion, nervous debility,  
insomnia, and allied troubles. My  
health became so bad that I departed  
of living through the winter. Loss of  
appetite and sleep were making my con-  
dition unbearable. I purchased a J. B.  
L. Cascade, and though only using it for  
a short time, have obtained remarkable  
results. My appetite has returned, and  
I am now enjoying the most refreshing  
sleep that I have had for years. I re-  
gard it as a Godsend."  
If people only knew what internal  
bathing is doing for thousands of others  
fewer Pills and Laxatives would be  
taken and very much less suffering from  
Constipation and the accompanying  
Stomach and Nervous Troubles resulting  
therefrom.  
If you are robbed by constipation of  
the sound sleep and good appetite so es-  
sential to health and vigor, you should  
not lose a day in availing yourself of the  
simple home treatment which hundreds  
testify have meant for them a new lease  
of life.  
The J. B. L. Cascade is the only perfect  
appliance for internal bathing. It is  
shown and explained at J. B. L.  
Cascades, Drugists, Union and Water-  
loo streets, F. N. Munro, 337 Main street,  
St. John, N. B.

THREE THOUSAND  
FOR HEART BALM  
Belleville Young Lady Re-  
ceives That Portion of the  
Damages Asked.  
Belleville, March 25.—Three thousand  
dollars damages, in her \$10,000 suit  
against Albert Kearns of Lindsay, was  
awarded Miss Margaret Jean Houston of  
Halifax, now of Belleville, for breach  
of promise of marriage.  
The only evidence submitted was that  
of the girl herself, who is about 20 years  
of age. (She told that in September, 1920,  
she received the promise of marriage  
from Kearns in the town of Lindsay, the  
undertaking being that they were to be  
married by Christmas of that year.  
They were not married.  
The promise, according to her story,  
was renewed in October of 1921, the  
marriage to take place before the end  
of that year. That promise was not  
kept. At the time of the second  
promise she said that Kearns gave her  
an engagement ring, bearing his initials.  
The man denied promise of marriage.  
The funeral of Mrs. Amelia Austin  
will be held on Sunday afternoon at 3.15  
from her late residence, 103 Pitt street,  
and not this afternoon as was announced  
yesterday in error.  
Minard's Lintment prevents Spanish  
Flu.

NEWS OF THE CHURCHES

FINED \$400  
Judgment was given yesterday after-  
noon in the two cases against Walter W.  
Bell, charged with having liquor on his  
premises and with obstructing liquor in-  
spectors in the discharge of their duties,  
and he was fined \$200 or six months in  
each case, the sentence to run con-  
secutively in case the fines were not  
paid. Daniel Mullin, K. C., for the de-  
fence said the defendant would go for  
him and demanded a copy of the proceedings.  
E. S. Ritchie also appeared for the de-  
fence and W. M. Ryan for the pro-  
secution.  
The case against William Speight,  
charged with selling liquor, was dis-  
missed. W. M. Ryan, for the pro-  
secution, said they would not ask for a  
conviction on account of the flimsy  
character of the evidence. E. S. Ritchie  
appeared for the defence.  
Stephen Zeransky, Inspector Hender-  
son and Gertrude Donato gave evidence  
in the case against George Boesch,  
charged with being drunk and destroying  
property in the Asia Hotel. Miss Donato  
fainted while giving her evidence and  
the case was postponed until Monday  
morning.

THE LIBERAL ADMINISTRATION MAKES DECREASE IN ANNUAL ESTIMATES OF \$138,452,291

Hon. W. S. Fielding Surprises Official Ottawa With Sweeping Economy Programme

More Than Half the Reduction Made Up in Department of Railways and Canals, Where Cut is \$87,476,913—Many Items Affecting New Brunswick—Money Provided for St. John, Including Harbor (\$850,000) and Post Office Salary Increase, Sussex, Tracadie, Burnt Church, Dalhousie, Caraquet, Leonardville, Oak Point, Richibucto, Shippegan, Blacks Harbor and St. Leonards.

Table with 3 columns: Item, 1922-23, 1921-22. Rows include Interest and chief expenditures, Pensions, Soldiers' land settlement, etc.

Ottawa, March 24—The following statement shows a comparison of the main estimates for the financial year 1922-23, presented to parliament today by the minister of finance with the total estimates voted for the previous year:

Ottawa, March 24—The Liberal administration showed its hand as a government of economy this afternoon. Hon. W. S. Fielding, minister of finance, placed the estimates on the table of the commons. The net decrease of the estimates from the total appropriations for the preceding year is \$138,452,291.93. Such is the amount this government thinks it can save for the country during the fiscal year which begins on April 1 next.

and war-like stories from \$197,054 to \$100,000. For N. B. Railways. In the railway department estimates, chargeable to capital provision is made for a vote of \$2,700,000 for construction for a vote of \$2,700,000 Canadian government and betterment on railways, as against a vote of \$4,117,994 last year.

Provision is also made for the purchase of Moncton and Buctouche Railway at \$70,000 and the Caraquet and Gulf Shore Railways at \$50,000. Both of these are revotes. For railway equipment and materials and for improvement to existing equipment, etc., a vote of \$2,800,000 is provided as against \$1,903,000 last year. The Port Nelson terminals vote is reduced this year to a revote of \$40,000.

Under the heading of canals, there is \$8,000,000 for Welland ship canal construction, an increase of \$3,000,000 over last year. An item of \$240,000 for Trent canal construction and betterment shows a decrease of \$99,000 from last year's vote; there is a revote of \$80,000 as a contribution toward cost of high-way bridge across the canal at Isle Perrot (Que.), \$4,000 for a storehouse on the Rideau canal, Ottawa, and \$50,000 for surveys and investigations, St. Lawrence ship canal.

In public works department the vote for Ottawa parliament buildings is reduced from last year's figure of \$1,000,000 to \$700,000; reductions are made in the votes for harbor and river works. The vote of \$270,000 for Port Arthur and Port William harbor improvements is replaced by a revote of \$128,000; the St. John harbor improvements vote is reduced from \$1,250,000 last year to \$850,000; Toronto harbor improvements from \$1,000,000 to \$850,000; Toronto Island breakwater protection from \$175,000 to a revote of \$50,000, and \$1,000,000 to \$700,000; Champlain dock from \$186,000 to \$116,000, of which \$100,000 is a revote.

Under the heading of pensions an amount of \$35,000,000 is provided for European war and active militia pensions, as compared with \$30,938,350 for the preceding fiscal year. Salaries and contingent expenses of the board of pension commissioners for Canada are reduced from \$25,000 in 1921-22 to \$71,000 for the coming fiscal year.

Militia and defence estimates show a number of decreases. The annual drill allowance is cut by \$100,000, from \$1,500,000 to \$1,400,000; customs dues from \$40,000 to \$25,000; dominion arsenal, Lindsay, from \$13,800 to \$25,000; dominion arsenal, Quebec, from \$428,900 to \$425,000; grants to associations, etc., from \$130,000 to \$100,000; permanent staff, from \$6,225,000 to \$5,900,000; printing and stationery from \$105,000 to \$85,000; Royal Military College, from \$378,000 to \$345,000; schools of instruction, from \$150,000 to \$140,000; training areas, from \$50,000 to \$15,000.

Under the heading of miscellaneous votes, the item for miscellaneous printing is reduced by a drastic cut. This year's figure of \$25,000, compares with that of \$100,000 last year. Expenses under the Canada Temperance Act to be voted total \$35,000 of which \$20,000 is a revote, as against \$50,000 last year. For housing loans there is a revote of \$9,550,000 as compared with \$12,000,000 last year. Canada's contribution toward the maintenance of the secretary of the League of Nations is reduced by \$40,000, from \$200,000. One of the votes under heading of miscellaneous is that of \$20,000 to provide for railway and steamship charges for freight on goods for the "war children fund", for relief of distress in Russia.

RIDEOUT IS NEW GLASGOW CHIEF

(Canadian Press Despatch.) New Glasgow, N. S., March 24—The town council tonight decided to appoint George R. Rideout, of Moncton, chief of police and inspector under the Nova Scotia temperance act, at a salary of \$2,400.

Mr. Rideout has been stationed at various times in Fredericton, Moncton and Sydney. (Sussex Record.) Mrs. Pringle of Fredericton is the guest of Mrs. J. E. Keth.

Miss Mildred Osborne is spending a few days in Moncton, the guest of friends. Miss Rebecca Elliott is visiting in Fredericton the guest of her sister, Mrs. Ernest Dryden.

Miss Mildred Prescott, nurse in training at Montreal, is spending a short vacation at her home, Sussex Corner. J. C. Mills returned on Saturday from Philadelphia. He was accompanied by his sister, Miss Carrie Mills, who has been spending the winter in Philadelphia.

Mr. and Mrs. J. Arnott Currie of Millstream, left Thursday last for Straburg, Sask., and will spend a short time with friends in Toronto on their way. Mr. and Mrs. Currie (nee Miss Freda Robinson) have been recently married.

Rev. Father Oram, of St. John, officiated at the services in St. Francis Xavier church on Sunday. Father Oram is a very eloquent speaker and talented singer and his visit to Sussex was much appreciated by the large congregation present.

Madame Jean Visard de Bury, a religious of the Sacred Heart Convent, after several years spent in Italy, arrived in New York last week and is now at Manhattanville Convent, New York. Miss Madeleine de Bury accompanied her sister to New York. Both ladies are sisters of Mrs. Daniel Mullin, of this city.

# POOR DOCUMENT MARCH 25 1922

THE EVENING TIMES AND STAR, ST. JOHN, N. B., SATURDAY, MARCH 25, 1922

**1,800 CARS FOOD  
CONSUMED DAILY  
IN NEW YORK**

Staggering Totals Include the Item of 5,000,000 Eggs—84,455,200,000 lbs. Used Yearly.

(N. Y. Times.)  
Details of the tremendous problem of supplying New York City with the 455,200,000 pounds of foodstuffs necessary each year to feed the 6,000,000 residents of the port of New York district is given in a report of the Port of New York Authority, made public yesterday. The report shows that the port district consumes annually for local consumption about 1,800 car-loads of food-stuffs, or 1,800 a day. It discloses the little fact that New York is one of the important live stock centres of the world, being fourth in the number of hogs slaughtered.

The investigation of New York's food supply was undertaken by the Port Authority at the request of the governors of New York and New Jersey last October, when a national railroad strike threatened to cut off the food supply.

## TOWER'S WATERPROOFS

"Takes the Wet out of Rain"

Keep out the Wet

All of it, all the time, with a Tower's Waterproof.

Made by Canada's foremost manufacturers of waterproof clothing—Tower's Waterproofs afford you absolute protection against rain and storm at a surprisingly low cost.

Dozens of styles to choose from—but insist on a genuine Tower's "Fish Brand" Waterproof.

TOWER'S FISH BRAND

of New York city and the 104 other municipalities in the port district. When this crisis passed it was decided to retain the organization to make further studies, as part of the function of the Port Authority was to improve existing methods of food distribution.

In considering the food requirements of the port district's population of 8,000,000, the report makes allowance for children and infants included in this total and for varying national characteristics of diet, and estimated this 8,000,000 population, for food consuming purposes, as equivalent to 6,340,000 "adult males."

Just What New York Eats.

The following table shows the estimate of the annual food consumption of the port district of 6,000,000 (6,240,000 "equivalent adult males") with the quantities stated in pounds:

Total Meat (including provisions and poultry) 967,200,000

Fish 163,240,000

Milk 1,728,460,000

Cheese 57,440,000

Eggs 187,200,000

Fats (including butter) 287,120,000

Cereals (including bread-stuffs) 1,872,000,000

Vegetables 2,077,920,000

Fruits 748,800,000

Sugar 948,200,000

Tea and coffee 89,600,000

Total 8,455,200,000

The report shows that 2,670,826 quarts of milk are received daily, or 877,222,440 a year. Approximately 420,000 cows on 40,000 dairy farms are required to furnish this supply and in addition the receipts of evaporated and condensed milk are estimated by members of the trade to be 8,000,000 cases of forty-eight sixteen-ounce cans a year, of which 1,800,000 cases are evaporated and 1,200,000 cases condensed.

The report gives detailed figures on the yearly meat supply in pounds, as follows: Beef 446,092,133; Lamb, mutton and goat 115,911,118; Pork 231,639,808.

Total fresh meat 811,142,387

Total meat provisions 848,987,513

Total of all meat stuffs, lbs. 1,274,530,200

Meat Consumption Large.

"An astonishingly large percentage of the fresh meat consumed here," says the report, "comes in as live stock and is slaughtered either in Manhattan or New Jersey." Of the total receipts of meat in the district for 1920, 1,056,719-849 pounds, only 327,433,738 pounds arrived dressed. The balance arrived on the hoof and totaled 5,091,984 head of cattle, calves, hogs, sheep and goats.

"The two principal stock yards of the district are in Jersey City and at Sixtieth street and Hudson River in Manhattan.

"Almost all of the fresh meat arriving in the New York district is consumed here, there being very few outward shipments.

"The amount of meat held in storage in the port district is very small in comparison with the daily consumption. There are only slight seasonal fluctuations of amounts in storage. During the winter months, there was only from four to six days' supply in storage and during the summer there was only from six to eight days' supply in storage.

According to the report, nearly one-fourth of the 1,683,271,512 pounds of butter consumed during the year 1920 came from Minnesota. Other sources of butter supply in the order of the quantity furnished were Illinois, Iowa, Nebraska, Ohio, Wisconsin, New York, Indiana, Michigan, Canada and Denmark.

New York state supplied the greatest amount of the 36,467,875 pounds of cheese consumed here, in addition to the 10,000,000 pounds passing through for export.

Long Island Furnishes Potatoes.

One-fourth of the white potato supply came from Long Island and a little less than one-fifth from Virginia. The following were the approximate receipts in vegetables in pounds during 1920: Potatoes 738,666,000; Onions 107,106,000; Potatoes (sweet) 69,804,000; Spinach 60,631,000; Tomatoes 63,841,625; Cabbage 35,931,220; Lettuce 63,115,500; Peppers 42,072,233; Beans 38,769,083; Carrots 27,792,602; Celery 18,480,971; Peas 18,227,028; Other vegetables 202,207,445.

Total 1,485,502,041

Fruits received during a year amount approximately to 1,866,589,616 pounds, or 72,969 carloads. "Oranges are consumed in the largest quantities," the report says, "apples second and grapes third."

Other year's receipts of fruits were: Apples 659,973,000 pounds, grapes 138,363,500 pounds, cantaloupes 60,895,900 pounds, peaches 9,111,375 pounds, pears 56,850,000 pounds, strawberries 25,002,000 pounds, cherries 9,218,360 pounds, grapefruit 65,620,000 pounds, pineapples 13,620,000 pounds, watermelons 69,810,000 pounds, and plums 6,350,240 pounds.

Millions of Eggs a Day.

Eggs, of which 166,791,869 dozen were received in 1920, an average daily consumption of 429,657 dozen or 5,294,500

## CHURCH TO HONOR LAWYER RECLUSE

Services at St. Patrick's Arranged for E. M. Berard, Known as Brother Francis.

(New York Times)

The curious career of Eugene Michael Berard, the recluse and retired lawyer whose body was accidentally discovered Friday night by firemen attacking a blaze at 16 East Ninetieth street, was reconstructed yesterday by persons who know him, including a relative and also his former law partner, with whom he had been associated for forty-two years.

Joseph D. Doyle, sexton of St. Patrick's Cathedral, announced that a solemn high requiem mass would be sung by Mr. Michael J. Lavelle at the funeral services to be held in the cathedral at 10 A. M. tomorrow. Unusual honors will be paid the late Brother Francis, as he was known to the cathedral from any part of the United States. Interment will be in Holy Cross Cemetery, Flatbush.

As far as could be learned last night no immediate relative of Mr. Berard will be present at the funeral. A sister, known as Sister Katherine, is in the Providence Retreat, Buffalo, and the Mother Superior of the order notified Mr. Doyle by telegraph yesterday that Sister Katherine would not be here. She also said that Mr. Berard was a contributor to the work of the order and that his checks were drawn on the Hanover National Bank of this city.

A cousin, Rose Mary Byrne of Sunset Terrace, Ashville, N. C., telegraphed Mr. Doyle asking him to make all arrangements for the funeral, and that she would communicate with him later. Mr. Doyle said as far as he knew Mrs. Byrne was the only person with whom Mr. Berard corresponded regularly. Friends have not yet located a brother of Mr. Berard.

The former law partner of Mr. Berard is Samuel Howland Hoppin of 96 Albemarle Road, Hempstead. Mr. Hoppin was shocked to hear of the death of his old friend.

"I knew Mr. Berard for forty-two years," he said. "He was a Brooklyn boy at the time and I met him when I came to take a position as clerk in the law firm of Mitchell & Mitchell, sons of Judge Mitchell. That was in 1880.

"We formed a law partnership as Hoppin & Berard in 1880. We were located at 87 Nassau street, 68 Liberty street and 48 Cedar street. Our partnership lasted about five years ago. Mr. Berard was not a land owner himself, but we acted as counsel for estates.

"The case that involving the Eastern Kentucky Coal Lands Co. He carried it to the U. S. Supreme Court and the decision went against him. I saw him last August. I know nothing about a will except that he spoke to me of making a will 3 or 4 years ago."

Tells of Seeking Recluse.

Mrs. C. F. Chandler, a cousin of Mr. Berard, lives at 21 East Fifty-fourth street, almost within a stone's throw of St. Patrick's Cathedral, where the recluse spent so many hours daily. She last saw Mr. Berard five years ago. Since then she has been seeking him but was not able to learn of his whereabouts until news of his death was published in the newspapers.

When Mr. Berard called on her five years ago he told Mrs. Chandler, formerly the wife of Professor Chandler, Columbia University, that he had suffered a grievous disappointment in the practice of law. She offered him financial assistance under the impression that he was in need, but he refused and said he was not in straitened circumstances.

"An unjust decision has made me ill," he said. "I find my greatest happiness in the church."

From other sources it was learned that Mr. Berard was interested in philosophy, religion, history and was particularly interested in Greek.

In November, 1919, Berard stepped into the office of Sexton Doyle, in whose house at 665 Lexington Avenue he lived at the time, and handed Mr. Doyle an old envelope on which was written: "Joseph M. Byrne is hereby authorized by me to attend to my funeral arrangements and burial."

"EUGENE M. BERARD."

Spent Time in Devotion.

Mr. Berard spent nearly all his time in religious devotion. On weekdays he served at all the regular masses at St. Patrick's and on Sunday he served at 7 o'clock and 8 o'clock masses. Occasionally one of the young boys from the cathedral told off to serve at a 6 A. M. mass failed to appear. Brother Francis, as Mr. Berard was known because of his membership in the Third Order of St. Francis, always offered to take the place of the sleepy youngster. The priests came to like him so much that his presence at all the low masses was expected as a matter of course.

Next to the clergymen who spent all their time at the cathedral Brother Francis was best known of any of the laity who worshipped there. He was permitted to wear the surplice, an honor limited to those serving regularly at the altar.

"He was a good man," said Mr. Lavelle yesterday when he read of his friend's death. The sentiment was echoed throughout the cathedral by priests and laity, all of whom revered the pious and humble Brother Francis.

As a member of the Nocturnal Adoration, eggs, are said by the report to come from more different states than any other one food commodity.

In 1920, 156,399,000 pounds of live poultry and 101,292,383 pounds of dressed poultry were received. The wholesale trade estimates of receipts of fresh and frozen fish for 1921 were 200,000,000 pounds and of preserved fish 43,500,000 pounds. "Contrary to the usual impression," the report adds, "New York does not get a large part of its fish supply from near-by waters."

In discussing the length of time the city could exist with railroad transportation suspended, the report says it would seem to be impossible to keep up the milk supply, and adds that a cessation of railroad facilities would undoubtedly cut off the bulk of the supply of live vegetables and farm products might be hauled by motor trucks. The flour, grains, canned goods, eggs, butter and meats in storage would be a great protection against temporary emergency, the report adds, and a supply of fresh fish could be had by water from all points on the Atlantic coast.

## Thrift

The judicious practice of thrift is as much an evidence of character as it is the worth-while assurance of comfort and contentment in the years that are to come.

The regular saving of a stipulated sum of money is not only within your power—but a habit every thoughtful person should cultivate.

An Endowment Policy offers a splendid opportunity for regular saving. There is no better way to create an estate than through systematic life insurance deposits. Life insurance is always worth par and it is the first asset realized on in the event of death. Save regularly—and in the meantime enjoy the peace of mind and comfort that such thrift brings.

Get in touch with us for any information you may require in regard to your insurance investment.

## Charles of Austria III

(Canadian Press Despatch)

London, March 24—Former Emperor Charles of Austria-Hungary, exiled on the island of Madeira, is ill with fever, says a Central News despatch from Funchal today. His temperature is given as 104 and a consultation of physicians has been called.

Minard's Liniment for Coughs and Colds.

## Your Finances

### The Man Who Saves

At age 15 he bills exceed his income.

At age 21 his Canada Life Policy creates an estate in event of death and saves his money.

At age 35—the age of extravagance—his "bills" include a "premium due," which, while counted as an expense, is really a saving.

At age 50 he can "spend" anything in reason.

At age 60 he has "saved" to some purpose, has no anxiety for the future, and leisure for his many interests.

If you look ahead you can easily picture how useful \$30,000 would be to you.

This amount of money can be more easily saved than most people imagine, in this way:

If you were to start in and save \$200 each six months and let it compound at 5 1/2%—in 30 years you would have \$30,000, but—you know of many people who could have set aside this amount, yet who are still "drudging along," with no hope of relief.

You know yourself how hard it is to save cash. Human nature is such that very few people allow ready money to remain untouched for any length of time. Therefore—

### The Canada Life Plan

Provides that any sum you name will be delivered to you in cash at any age you desire, or to your beneficiary should you die in the meantime.

By this plan an IMMEDIATE ESTATE is created in event of death equal to the full face value of your insurance policy. You anticipate years of effort, capitalize your present health and earning power, and make certain of many years of progress now.

### The Endowment at 65

issued by the Canada Life makes saving money attractive, systematic and very profitable.

You can be certain that the full amount—\$2,000, \$5,000, \$10,000, or more—will be paid in any case, whether you live or not. Other investments may fail—the Canada Life Endowment is a certainty. It will take care of your home, your business, your children's future, or yourself, as nothing else can.

### Profits Will Hasten Maturity

If the profits are allowed to remain each year, instead of being withdrawn and spent, a special clause provides that the face value of the policy will be paid some time well in advance of the due date.

Regular saving, an immediate estate in event of death, substantial profits, absolute safety—this is a combination that you should look into today.

**LOCAL NEWS**

**BURIED TODAY.**  
 The funeral of Mrs. Hannah Walsh was held this afternoon from her late residence, corner of Bessy and Chesley streets, to Cedar Hill. Rev. Dr. D. Hutchinson conducted service at the house and at the grave.

**PROBATE COURT.**  
 In the matter of the estate of Cornelius Daley, personally \$1,500, his last will was proved and G. M. Hingham and Francis Kerr sworn as executors. His widow was the sole beneficiary. Mr. Kerr was proctor.

**TO GIVE A DANCE.**  
 There are four Head Line steamers in port and their officers are to give a dance in the Oddfellows' Hall, West St. John, Monday evening, in return for the courtesy extended them by the Navy League, the Rotary Club and others a few weeks ago.

**PANTRY SALE.**  
 The Wide Awake of the I. O. G. T. held a very successful pantry sale this morning and afternoon in the lobby of the Imperial Theatre. The ladies in charge were Mrs. H. M. Kane, Mrs. F. Brown, Mrs. B. Kirkpatrick, Mrs. J. R. Armstrong, Mrs. E. Chapman, Mrs. J. Cunningham and Mrs. G. Jones.

**TO SAULT AU RECOLLECT.**  
 Madame Jeanne Visart de Bury a religious of the Sacred Heart Convent has been transferred from the Institute of the Sacred Heart, Italy to the Convent Sault au Recollet, Montreal. Madame Visart de Bury spent a few days at Manhattanville Convent, New York on her way to Montreal.

**A PLEASANT TIME.**  
 The employees of the Victoria rink enjoyed a social last evening at the home of Mrs. Charles Bridgen, 58 Forest street. A feature of the entertainment was the presentation of a club bag to Miss Nellie McColgan, by E. S. Bridges on behalf of the gathering. Music and games were enjoyed and refreshments served.

**CREDITORS' MEETING.**  
 A meeting of the creditors of Sullivan Bros., of Grand Falls, who made an assignment recently to the Canadian Credit Men's Trust Association, was held in the office of the company here yesterday afternoon. The creditors instructed the trustees to dispose of the assets to the best possible advantage. Mr. Jones, of Woodstock, was appointed inspector.

**BOARD OF TRADE.**  
 The secretary of the Board of Trade in receipt of an inquiry from Pittsfield, Mass., as to road conditions in the province. He has also received a copy of the government publication, "Directory of the Principal Exporters, Importers, Producers and Manufacturers." Any merchants or others interested in trade with India may have access to the copy at the Board of Trade rooms.

**FRATERNAL VISIT.**  
 The Tuxis boys and several of the Trail Rangers of Ludlow street Baptist church, with their mentors, R. H. Parsons and R. J. Rupert, visited the Tuxis Boys of Central Baptist church in their gymnasium last evening. Two friendly games of basket ball were played, in which the Central boys were victorious. The visit was greatly enjoyed by the Ludlow street boys, who were warm in their praise of the Central boys.

**COMPETITION AT WHIST.**  
 A competition at whist between J. A. McDonald and C. E. Stewart against G. Earle and W. S. McLean, at Lancaster Hospital resulted in victory for the former. It lasted three weeks. The prizes were donated by Mrs. Tillotson. It is now proposed to have a whist drive when the checker tournament is ended.

**MILK OR EPIDEMIC?**  
 A citizen called at the Times office yesterday to say that four children left one of the Carlton schools this week, and one left another, with the same symptoms as those persons in the city said to be affected by impure milk. These Carlton children were not using milk from the source blamed for the illness of the east side folk, and this citizen thinks there is an epidemic rather than an impure milk supply.

**TRAFFIC CASES.**  
 Three traffic cases were dealt with this morning before the magistrate. As a sequel to a runaway in Union street yesterday morning, Charles Snodgrass paid a fine of \$10 for allowing his double team to stand without footstraps on the horses. This report was made by Policeman Chisholm, who was instrumental in stopping the runaway. Sidney Hunton was fined \$10 on a charge of exceeding the speed limit, and Harold Elliott paid a like amount on a charge of driving on the wrong side of Main street.

**JUVENILES IN COURT.**  
 There were fifteen juveniles in the police court this morning, four of them on charges of truancy and the rest on charges of causing disturbances in the streets at nine o'clock in the evening. They were dealt with in the usual way. His Honor remarked that he had seen several boys acting in an illegal way in the streets late at night and said that there should have been a hundred of them in court instead of fifteen.

**LIFE UNDERWRITERS MEET.**  
 A very interesting meeting of the Life Underwriters' Association of New Brunswick was held last evening in the form of a six o'clock luncheon at Bond's Restaurant. The gathering, which was well attended, was presided over by J. M. Queen, manager of the Canada Life. After making ample provision for the inner man the gathering indulged in chorus singing. This was followed by an interesting paper on "Present Day Conditions" by Malcolm McPhall of the Imperial Life. Discussion on the paper was continued by T. R. S. Smith of the Excelsior Life. During the regular business of the meeting several new members were added to the association.

**IN THE MARKET.**  
 Business was quite brisk in the city market this morning with prices holding about the same as last week. There was a fair quantity of maple products on hand and they seemed to sell quite well. The following prices were quoted:—Beef, 20 to 35c; veal, 20 to 35c; lamb, 20 to 35c; mutton, 10 to 15c; pork, 20 to 35c; bacon, 45c; ham, 40c; chicken, 65 to 70c; fowl, 50 to 60c a pound; potatoes, 50c; carrots, 50c; beets, 50c; parsnips, 50c; turnips, 25c a peck; cabbage, 30 to 35c; lettuce, 6 to 10c; celery, 25 to 30c; parsley, 5c a pint; 5c a bunch; onions, 18 to 20c; squash, 4 to 5c a pound; eggs, 35 to 40c a dozen; butter, 35 to 40c a pound; cranberries, 30 to 35c a quart; apples, 40 to 60c a peck; maple sugar, 45c a pound; maple syrup, 50 to 60c a quart.

**MAYOR RECEIVES FLORAL GREETING**

In sending greetings to Mayor Schofield this morning to mark the opening of the Fifth National Flower Show, in Indianapolis, Ind., Mayor Samuel L. Shanks, of this city, adopted the idea of "saying it with flowers." When Mayor Schofield arrived at his office this morning there was standing on his desk a large pot containing a beautiful azalea plant in full bloom, which spread a beautiful fragrance around the whole office. On one of the branches there was fastened with white ribbon a card bearing the words: "On opening of Fifth National Flower Show today it gives me great pleasure to send a message of flowers to you. Mayor Samuel L. Shanks, Indianapolis, Ind. The mayor wired a reply saying that the greeting was deeply appreciated by his office, representative of the citizenship of St. John. He expressed sincere thanks and concluded: "May Indianapolis continue to bloom."

**SAW BIG ICE FIELD**

**Minnesoda Passengers Given Pretty Sight—More Than 500 Aboard.**

Fate has destined that to some a voyage across the Atlantic shall be devoid of interest and merely mean transportation from one country to another, but to others it hands out thrilling adventures, hardships, or something unusual from a spectacular standpoint. To the passengers on the large Canadian Pacific Steamships Ltd. liner Minnesoda, which arrived in port this morning, an opportunity was afforded to view an exceptionally large ice field in its rugged expanse which they encountered some distance off the coast of Newfoundland two days ago. It was resplendent in the sun's rays. It seemed to be many miles in length and breadth. As the liner's speed was diminished until six o'clock the following morning. Despite the delay occasioned the liner made remarkably fast time out from Liverpool, making the run in seven days and a half. The Minnesoda brought out 599 passengers, 207 cabin class, in addition to approximately 2100 tons of general cargo, two car loads of royal mail and two cars of express. The passengers sent forward to their destinations in two special trains, the first leaving West St. John at 2:30 o'clock with cabin passengers, and the second about 8:30 o'clock with first class passengers. Among the cabin passengers were: Lady Edith M. Stopford of Corey, Ireland, who was accompanied by Miss M. C. Paul, of London, England; Dr. A. and Mrs. Fraser, of Montreal; Major J. H. Franklin, of Warwick, Ont.; Dr. G. G. Guest, of Toronto; M. Arnold, G. E. Brennan, U. S. Rivard and J. Sturanton of Montreal; Col. R. G. Stewart, of Ottawa; Capt. L. F. Truemp, of Toronto and Miss M. G. Angel, of North Sydney, C. B.

**COMPLAIN OF CRACKERS**

Commissioner Thornton said today that he had received complaints regarding the action of boys setting off fire crackers in the city, on some occasions scaring horses standing in the streets. He said that a recent runaway was alleged to have been started by this cause. He said that the sale of these crackers was forbidden by law and the police had been warned to be on the look out for offenders. Another source of complaint was a material sold to children which when rubbed on a hard surface gives off a crackling sound. Incidentally many of the buildings in the city were badly scared as a result.

**ASSESSMENT MATTERS**

The sub-committee of the bills committee of the municipal council which has been gathering data in connection with county residents who are taxed in the city, held its final meeting this morning and the result of its endeavors will be presented to the main committee at three o'clock this afternoon. It is expected that arrangements will be made whereby all residents in the county will be taxed on one-half their income in the city, or the parish will receive authority to tax all employees of the post office, customs house, C. P. R. and C. N. R. resident within their boundaries.

**PRESBYTERIAN NOTE**

The Edmundston Observer of March 17 reports the Presbyterian church there incorporated under the name of St. Paul's. The congregation is worshipping in Fraser Hall as the little church built some thirty years ago is too small. Rev. A. J. W. Back of Fort Kent has been appointed interim moderator and it is expected he will meet the congregation on Sunday, April 2, exchanging pulpits with Rev. Mr. Hardwick. It is said to be likely that the latter will receive to the pastorate.

**PROPERTY AUCTIONEER**

Three parcels of property were disposed of by Auctioneer Potts at Chubb's corner today at noon. About 150 acres of timber land at St. Martin's was sold to Edward Hogan for \$17,725. Four lots at Barnesville with a two-story house were sold to Frank McDade for \$235. A parcel of vacant land in the March road was knocked down to W. E. Mulrally for \$1,000.

**CARLETON WATER SITUATION**

The West Side water department crew which has been working on the leak near Tilton's corner, has excavated to the pipe line, where it was found that one joint of the eight-inch had almost entirely collapsed and it will be necessary to put in a new piece. It is expected that the water will be turned on in that line this afternoon.

**VOTERS LIST FILED**

The voters' list for the coming civic elections was filed in the office of the common clerk today at noon by the city chamberlain. While a large number of names have been struck off on account of non-payment of taxes, the chamberlain's office was unable to say today the total number now on the list.

**EXHIBITION FINANCE**

At a recent meeting of the board of directors of the St. John Exhibition Association, the following were appointed as finance committee with power to advise: Adam P. McIntyre, chairman; Commissioners T. H. Bullock, R. O'Brien, R. Peterson, Mayor Schofield and W. H. White.

**HER BIRTHDAY**

Little Beryl Brown, 86 Lancaster avenue, West End, entertained about twenty-five friends yesterday afternoon on her birthday. She received nice gifts. All had a jolly time.

**DOUBLE FINE**

Mrs. Hatlie Hogan was today fined \$16, 88 on a charge of being drunk and 88 for being out late at night.

**OAK HALL - Scovil Bros., Ltd. King Street.**

**After All It's The Little Things That Count**  
 It's the little touches here and there which brighten up the home and give it an air of refinement and good taste. Fortunately, little things can be added for little money which make a big difference in the charm and distinction of your home.  
 Console tables, end tables, floor and table lamps, spinet desks, tasty chairs—lots of little things here at little prices; prices much smaller than they were only a few months ago, because we have revised all our prices to meet new conditions.  
 Really, there is no excuse to postpone buying now. Furniture will probably go higher, rather than lower, once the wheels of industry begin to hum again.  
 Come in and see how little money can make a big improvement in your home. We'll delight in showing you the new things, even though you are not ready to buy.  
**A. Ernest Everett THE HOUSE FURNISHER 91 Charlotte Street**  
 Packing and shipping of Furniture done by experts.

The R. M. S. P. Chaudiere is due in port on Monday night with passengers, mails and general cargo from Bermuda and the West Indies.

The Hastings County arrived yesterday afternoon from Bordeaux.

The Fanad Head will sail about next Friday for Belfast and Londonderry.

The Times is due on Monday with sugar from San Domingo.

The Bratland is due on Monday with sugar from San Domingo. She will load potatoes for Havana.

The Gocha is due from New York about Monday to load potatoes for Cuba.

The Kenbane Head and Melmore Head are expected to sail on Tuesday for Irish ports.

The Lord Antrim is due in port on Monday.

TOO MUCH BUCCANERING

(Frederick Gleaser, Friday.)

The Conservative convention, which meets this afternoon, may or may not deal with the question of leadership of the provincial party. There may be no such question to present. It is not called at a time when the legislature is in session, dealing as it is at this very period with business of considerable importance, to strip one who has made progress in the work he has undertaken of the authority he possesses and of the hearty support he has been given by the party following in the house. There is possibly—probably in fact—some friction within the ranks. Party without friction and we had an interesting display in the legislature last night of the run of things—has not yet been photographed as the genuine article. There is the conspicuously ambitious man who views it as the great weakness in the British constitution that he is not named as the king; there is the man who has yet to know that he is an absurdity; and so on. Political parties are made up of all kinds of men of queer ambitions. And sometimes there are ambitious men who will pay the cost—and stop at that—of rushing a convention to a conclusion. The convention of today should confine thought and action to the general principles. We have had already in our party too much of the buccanering business.

THE ARBUCKLE CASE

San Francisco, March 25.—Today's session of the third trial of Roscoe Arbuckle, for manslaughter, in connection with the death of Virginia Rappe, motion picture star, was expected to be short, with early adjournment to Monday. Adolph Juel, police department finger-print expert, was expected to be called to the witness stand.

DEATH OF OFFICER

Victoria, B. C., March 25.—Major James C. Britain, D.S.O., officer commanding "A" Company, Royal Canadian Machine Gun Corps at West Point barracks, died yesterday of pneumonia. He was born in England 38 years ago.

FIVE MONTHS OF DAYLIGHT SAVING FOR QUEBEC

Quebec, March 25.—The Quebec city council last night passed a resolution enacting that daylight saving shall go into effect here from Sunday, April 30, until Sunday, October 1.

MINERS KILLED IN EXPLOSION IN COLORADO

Trinidad, Colo., March 25.—Eight miners are known to have perished as a result of an explosion in a mine of the Colorado Fuel and Iron Company near here.

DEATH OF WORKER

Rockland, Mass., March 25.—Edwin Mulready, a young man prominent in the temperance advocacy, died yesterday at his home here.

1921 RECORD FIRE LOSS YEAR IN U.S.

It will Total More Than Half a Billion Dollars, 75 Per Cent of Which is Called Preventable.

The fire loss for 1921 exceeded that of any previous year in the history of the United States.

The association is making an appeal for a sustained effort during 1922 to spread the gospel of fire prevention.

Public indifference, carelessness or ignorance is charged with being responsible for most of the country's fires.

Any of the other main fire hazards, it is thought, such as electricity or defective chimneys, could be reduced by a similar campaign.

The question of individual liability for preventable fires is now coming to the fore.

The Massachusetts Legislature is now considering a bill to fix the cost of extinguishing fires upon persons disregarding fire prevention orders.

Definite progress has been made in the direction of enabling non-professional

users of motion picture films to distinguish the safety films from the gun-cotton variety.

Two concerns making safety film for the American market. Both of these manufacturers now make all slow-burning American film "Safety" along the edge.

The oil pollution of harbor waters is another subject touched on in the bulletin.

The situation with regard to the fire hazard resulting from fuel oil thrown on New York harbor waters from oil burning vessels or other sources is considered satisfactory at certain locations.

The activity of the United States Attorney's office in connection with specific violations of the law is also believed to have helped the situation.

Better facilities are gradually being afforded for the removal of oil from ships, making it more convenient to dispose of it without throwing the oil on the water.

The matter of national legislation, intended to improve conditions, not only with respect to New York and other harbors, but also in behalf of the preservation of fish and bird life, as well as the beach resorts, is before Congress.

Fire prevention lessons will be taught in Pennsylvania schools, commencing in September.

Stewart A. Jellie, member of the National Fire Protection Association and Chairman of the Fire Prevention Committee of the Philadelphia Chamber of Commerce, reports an arrangement with Dr. T. E. Finnegan, Superintendent of the Department of Public Instruction of the State of Pennsylvania to introduce the study of fire

COMPLETELY FREE OF CONSTIPATION

Tried for Years to Find Relief "FRUIT-A-LIVES" GAVE IT

Chronic Constipation or insufficient action of the bowels, is one of the great causes of disease.

"For years I was troubled with Constipation, and had tried many laxatives and purgatives all the time.

About two years ago a friend advised me to try "Fruit-a-lives," which I did.

The relief in my case has been lasting, as up to date I have never had any further trouble.

"Fruit-a-lives" are sold by all dealers at 50c. a box, 6 for \$2.50, trial size, 25c., or sent postpaid by Fruit-a-lives Limited, Ottawa, Ont.

LECTURER KISSED CO-ED IN THE DARK

Court Upheld His Dismissal by the University Authorities.

London, March 25.—For a college lecturer to kiss a fair co-ed, even at a student's dance, "reveals a character incompatible with the due performance of his duties," according to the judgment pronounced in the King's Bench Court.

The incident occurred two years ago. Jones danced with one of his pupils and then invited her to walk along the corridor to an unlighted lecture room.

It was during a dance, I admit then I mix with students. I do all I can to become good friends with them," the lecturer answered, but said that, as far as he could remember, he had kissed no other girl that night.

### VOTE ON GENOA TO BE TEST OF HOUSE LOYALTY

Chamberlain Clears the Air on  
Lloyd George's Intentions  
—Liberals Want Approval  
of Entire Policy to be Im-  
plied.

(Special Cable to The New York Times  
and Montreal Gazette)  
London, March 21—A statement made  
by Austen Chamberlain in the House  
of Commons this afternoon dissipates many  
rumors and makes known with official  
authority what course of action the  
Coalition leaders purpose to take. The  
date fixed for the Genoa conference,  
April 10, will be adhered to, and the  
Prime Minister will attend as the principal  
British delegate.  
Mr. Chamberlain's statement was  
made in reply to questions from mem-  
bers, and it confirmed the information  
cabled yesterday that the government  
will challenge a vote of confidence on the  
Genoa conference.  
Lieutenant Commander Kenworthy  
first asked whether there was any alter-  
ation in the date of the conference, or in  
the arrangements for its assembly, and  
whether the names of the British repre-  
sentatives to attend the conference could  
be given.  
Mr. Chamberlain replied that the con-  
ference would take place at Genoa as  
arranged and that the British repre-  
sentatives would be the Prime Minister,

"Double the Wear in Every Pair"

**ESTEY & CO., - 49 Dock St.**  
High Standard Rubber Goods.

the Foreign Secretary and the Chancellor  
of the Exchequer.  
Mr. Chamberlain added: "I take the  
opportunity of stating to the House that  
the Prime Minister, after the rest which  
under medical advice he has been com-  
pelled to take, will be back in his place  
in this House upon April 8. He will at  
once take the opinion of the House upon

the policy of the government in regard  
to the conference at Genoa."

This was received with ministerial  
cheers.

Limit to Agenda.

Rt. Hon. J. R. Clynes then asked if,  
pending the fuller announcement to be  
made by the Prime Minister, any infor-  
mation could be given by Mr. Chamber-  
lain as to whether the Genoa agenda  
had been in any way limited in defer-  
ence to French opinion, and whether  
any representation at the Genoa con-  
ference of Russia and Germany.

Mr. Chamberlain answered: "I have  
nothing to add to what is already known  
as regards the representation of Russia  
and Germany, and nothing to add to  
what I have already said in regard to  
the preparation of the agenda. The sketch  
of the agenda arranged at Cannes was  
made public at the time. Further  
elaboration of the proposals to be laid  
before the conference when it is pro-  
ceeding is now the subject of exami-  
nation by the experts of certain of the  
powers in London, and their labors are  
not yet concluded."

Mr. Clynes asked if the statement to  
be made by the Prime Minister would  
have relation to any motion to be placed  
on the order paper of the House.

Mr. Chamberlain replied: "Yes, cer-  
tainly. We intend to put the motion on  
paper, which will clearly raise the ques-  
tion as to whether the government is in  
possession of the confidence of the House  
on this matter or not. The whole House  
will recognize that it would be impos-  
sible for us to ask the Prime Minister  
to go to Genoa if there were any doubt  
about the authority which he possesses."

Test of Loyalty.

At a preliminary talk held between the  
whips this evening as to the draft of the  
motion, it was noted that Mr. Chamber-  
lain's reply to Mr. Clynes, describing the  
character of the motion, was very care-  
fully worded. On the Conservative side  
there is a strong desire that the motion  
should be limited to an expression of  
good-will toward the Genoa conference  
and by implication toward the premier,  
who will be the chief British repre-  
sentative. On the Liberal side there is a  
strong desire that not only approval of  
the immediate issue of the Genoa con-  
ference, but of the larger issue of the  
government's whole policy, should be im-  
plied.

In all probability a course will be  
found between the two contentions. In  
any case the motion must be in such  
terms that the vote upon it can be re-  
garded as a test of loyalty to the premier  
and the Coalition government, and it  
will be so regarded by the government.

### A "RED" WIRELESS STATION IN BERLIN

Equipment and Secret Docu-  
ments Regarding Country  
Found by Police:

Berlin, March 25—A secret "Red"  
wireless station has been discovered and  
raided in the heart of Berlin by the police  
acting under the orders of Dr. Weismann,  
Commissioner of Public Security. The  
station was secreted in the apartment of  
a mechanic and wireless operator, Wal-  
ter Ahrends, who was apparently living  
in modest circumstances. It was re-  
vealed to consist of a complete wireless ap-  
paratus fitted with every modern device  
for long and short distance receiving.  
In the apartment were found original  
confidential regulations and copies of  
rules governing the telegraph, telephone  
and wireless network of Greater Berlin  
and Germany, with blueprints of all lines  
lists of wireless stations throughout the  
country, with drawings and plans of  
wiring of military and police telegraphic  
connections.

Among the papers was found a docu-  
ment with a list of "Reliable" Commu-  
nist agents among Berlin's postal, tele-  
graph and telephone employes.

This is expected to bring to a head  
investigations which have long been con-  
ducted into irregularities among Com-  
munistically-inclined employes in Greater  
Berlin.

The material found included impor-  
tant despatches lately received from Rus-  
sian Communist leaders, which has been  
sent through the Moscow Government  
wireless. Ahrends got wind of the raid  
in time to make his escape, but an im-  
portant arrest was effected in the talk-  
ing of one, Grylewicz, Communist mem-

## DUNLOP

CORD TIRES FABRIC

"There's something in the Quality of Dunlop Tires that's missing from other  
tires. Don't know what it is, but when I make that quick stop I know instantly I  
have Dunlop Tires on!"

One motorist thus spoke for himself. He really was speaking for thousands of  
car owners.

Live Rubber and Best Egyptian Cotton go into Dunlop Cords and Fabrics. No shoddy,  
no skimping. The day of the short-mileage tire is gone; the day of the high-mileage tire is  
here; and when "tire-mileage" is up for discussion now, you find the word "remarkable"  
generally precedes a reference to DUNLOP.

## AN APPEAL

on behalf of the

# Starving Children in Russia

From indisputable evidence of those who have lately returned from the  
famine district in Russia, millions of Children are doomed to starvation  
unless immediate assistance is afforded.

The Canadian Government does not feel justified officially, in appropriating  
public monies for this relief work, unless the move is first supported by  
voluntary subscriptions on the part of the people of Canada.

The Canadian Committee of the Save The Children Fund has been formed for  
the purpose of collecting donations on behalf of some ten million children who  
will inevitably starve to death without this assistance.

The Government has the assurance of Lord Weardale — Chairman of the  
British Fund — of Dr. Nansen, International High Commissioner of Relief in  
Russia — and Mr. Herbert Hoover, on behalf of the United States, has also  
given similar assurance — that all foods sent to the famine districts are care-  
fully guarded and reach their destination intact.

The food supplies at the disposal of the Save The Children Fund and other  
relief organizations in the famine area are inadequate to cope with the situa-  
tion, while the need for more is immediate and pressing.

The people of Canada are asked to come to the rescue of the starving children  
of Russia by subscribing to the Save The Children Fund. All money contri-  
buted in Canada is expended on Canadian foodstuffs. Shipments are already  
on the way through this organization.

25 cents will feed a child for a week.

\$1.00 will ensure sufficient food for a month.

\$500.00 will establish another kitchen to feed 100 children until next harvest.

Cheques and money orders should be forwarded through local banks or direct  
to Sir George Burn, Treasurer, Save The Children Fund, Elgin Building,  
Ottawa, Ontario.

JOHN D. PALMER HEADS THE N. B. CONSERVATIVES

Fredericton, March 24—John D. Palmer, of Fredericton, was selected as provincial leader by the convention of the Conservative party in New Brunswick, which was held here this afternoon in the G. W. V. A. hall, York street. Three names went before the convention, those of Mr. Palmer, Charles D. Richards, M. P. P., of Fredericton and H. A. Powell, former M. P., of St. John. The convention with a registration of 134 delegates on the first vote eliminated Mr. Powell and tied on the other candidates. On a re-vote Mr. Palmer received a majority of four. Mr. Richards at once moved for a unanimous vote, which was given.

W. S. Sutton, former M. P. P., of Woodstock, was selected chairman and Raleigh Trites, of Sackville, secretary. Addresses were delivered in the course of the convention by the chairman, Mr. Palmer, Mr. Richards and Hon. J. B. M. Baxter, M. P., of St. John. Mr. Powell was not present. Mr. Richards, who represents York in the house of assembly, will continue as leader of the Conservative opposition. Whether Mr. Palmer will obtain a seat in the house is not known. Among those present were: F. L. Potts, ex-M.P.P., J. Roy Campbell, ex-M.P.P., J. Starr Tait, Roy C. Fraser, R. R. Patchell, James Husey, F. J. McMurway, Myer Cohen, R. W. Dean, James Lewis, C. J. Mellday, H. D. Payson, K. A. Bailey, G. A. Ward, Dr. J. H. Barton, G. Earle Logan, Chas. P. Hamu, Roy Davidson, S. W. Palmer, W. H. Harrism, John C. Belyea, St. John; N. J. Wooten, A. H. Baird, Andover; Raleigh Trites, Sackville; F. J. Robidoux, Shediac; H. G. Smith, T. C. Cain, East Florenceville; A. D. Holyoke, W. S. Sutton, ex-M.P.P., Woodstock; G. T. Perry, Bath; F. P. Hunter, St. Stephen; P. M. Shannon, Campbellton; John Foran, Balmoral; Perry Mazeroll, Edward Arsenau, Inkerman; M. L. Hayward, Harland; E. S. Floyd, H. H. Drummond, Upland; T. B. Carson, ex-M.P.P., West Quaco; Hanford Price, Moncton; A. E. Mitchell, O. A. Batson, Campobello; J. W. Smith, A. Smith, Hampton; J. B. M. Baxter, M.P., and George B. Jones, M.P., arrived from Ottawa this afternoon to attend.

The convention appointed a provincial executive after a leader had been selected. W. S. Sutton, of Woodstock, convention chairman, was appointed ex-officio. George B. Jones, M. P., of Apohaqui and J. D. Palmer and C. D. Richards, also were appointed ex-officio. County representatives are as follows: Queens, R. C. Ritchie; Moncton city, J. F. Edgett; Westmorland, E. R. Richard; Victoria, N. J. Wooten; Kent, Senator Bourque; Kings, R. St. John; St. John city, Frank Lewis; St. John county, G. Earle Logan; York, H. A. Smith; Charlotte, A. D. Gannon; Carleton, M. L. Hayward; Miramichi, Max Cormier; Sunbury, W. Frank Taylor; Northumberland, J. Y. Mersereau; Gloucester, J. B. Hachey; Albert, K. S. Duffy.

ONTARIO ROADS GOT \$1,317,508

(Canadian Press Despatch) Ottawa, March 24—The sum of \$1,317,508.61 has been paid to the Ontario provincial government to date from the grant of \$20,000,000 made by the Dominion government for good roads, it was announced in the house today.

YARMOUTH SPIRIT SHIP AND CARGO ARE RELEASED

Boston, March 24—The British schooner Grace and Ruby, which was captured outside the three mile limit a month ago as a run-runner after a shot had been fired across her bow while she was bound ostensibly for St. John, was today released to her owners under bonds of \$50,000 by Judge Morton in the federal court. It was stipulated in the release that the liquor cargo, valued at \$500,000, should be taken out of United States waters "forthwith." The schooner itself will be returned to its owner, W. D. Sweeney, of Yarmouth (N. S.) and the cargo was turned back to the owners, the Bahamian Importers, Ltd., Nassau (B. W. L.) and M. J. Sullivan, of Salem (Mass.). Sweeney furnished a \$10,000 bond and Sullivan and the Nassau firm supplied a bond for \$20,000. Sullivan accepted part ownership of

NEW BRUNSWICK DAY AT FREIGHT RATE HEARING

(Canadian Press Despatch) Ottawa, March 24—At the Maritime provinces freight rate hearing, today, J. C. Rand, representing New Brunswick, reviewed the history of the rates and the basis of the rates to and from the Maritime provinces, to and from points west to Montreal. The original basis was voluntarily established in 1876 not as a government concession but to provide business for the Intercolonial against water competition from Portland and Boston. The basis established in 1876 was continued for forty years and the greatest injustice, he said, done to the Maritime provinces was the changing of the original basis of the rates. He said the Maritime provinces rested in the shadow of Montreal. There has been constant relation between them and points and traffic has been governed by an arbitrary rate. One reason for the establishment of the Atlantic Sugar Refineries, Ltd., in St. John, was the existing rates which was the deciding factor. "Either lower our differential in part or raise Montreal in part, lower ours as a whole or raise Montreal as a whole we are not concerned. What we would like is the relationship which existed for forty years should be maintained. My principal argument is that the differential is an established economic factor in business. It has existed for forty years and has become constant. Business has been established because of it."

Montreal Situation. Mr. Rand pointed out that the Montreal refineries had 1,000,000 people at their doors within the radius of a few miles while the Maritime provinces had altogether a total of 800,000 people. "We have two refineries in the Maritime provinces, the same number, but we are practically shut out from the millions in Ontario and the west," he said. Mr. Rand pointed out that the Intercolonial Railway was not under the jurisdiction of the railway commission and that if they could not get relief here they would seek it in other quarters. Mr. Rand represented the Atlantic Sugar Refineries, Limited, said that one of the reasons for the establishment of their plant at St. John was the then existing rates. They had been in effect up to that time for thirty-six years and it was naturally assumed that they would continue. In choosing the site the company had been encouraged by the dominion government, the provincial government and the city of St. John.

Montreal refineries cannot justly complain, he said, if the differentials are restored, because they will be in the same competitive position as before the rates were increased. At the present time he said the Montreal refineries enjoy an advantage over the maritime refineries of 20% to 25% per 100 pounds. J. P. Smith, of the Montreal Board of Trade, said at the outset that Montreal was opposed to any general freight reduction in the west as again the existing

You are cordially invited to attend a free Demonstration of Baking

conducted by a practical and experienced Domestic Science expert, a member of the Educational Department of E. W. Gillett Co. Ltd., manufacturers of Magic Baking Powder, under whose auspices this demonstration is held.

BRIAND ACCUSED BY THE DEPUTIES

(Canadian Press Despatch) Paris, March 24—A storm of criticism of the attitude of the French delegates to the Washington conference on limitation of armaments and far eastern affairs and of the treatment they received at the conference, broke loose in the chamber of deputies this evening. Aristide Briand, former premier, who at first headed the delegation, was accused of

proposing to Charles E. Hughes, the United States secretary of state, a Franco-American naval alliance against Great Britain, and there were repeated demands from the extreme right that M. Briand be tried before the senate sitting as a high court. M. Briand briefly defended his position, but will do so more fully next Monday when a tumultuous session is expected.

A Gentleman of Leisure. Clitham World.—One of the able-bodied men who were given a cord of wood by the town, in accordance with the motion of Ald. Cripps, hired a man to saw it for him. Then he probably took his family to the movies.

### LEGISLATE TO STOP FLOW

#### Ontario Govt. May Try to Compel Liquor Shipments to be by Rail or Steamboat.

(Toronto Telegram)  
If the Court of Appeal should uphold the decision of Judge Gault, of Hamilton, quashing a magistrate's conviction for breach of the O.T.A. of Campbell, a Brantford truck driver, transporting whiskey from Waterloo to the U. S. border, it is not unlikely that the legislature will be asked to plug up the loopholes now said to exist. The Gault decision is to be carried by the Crown to Osgoode Hall, as a test case. Attorney-

### A Profitable Profession for Women

McLean Hospital Training School for Nurses offers a three years' course in the care and treatment of nervous and mental diseases, with affiliations that also offer training in medical, surgical and obstetrical work. Instruction consists of lectures and practical work on the wards. Board, room and laundry are furnished and an allowance of \$30 per month for the first and second years, and \$46 per month for the third year. This course is open to young women who have had one year or equivalent in high school. Entrance at any time during the year. For information apply at once to  
DR. F. H. PACKARD, Superintendent, Waverley, Massachusetts

General Raney is said to have asked for details of the case.  
Judge Gault, losing his judgment on a decision by Chief Justice Meredith, has held that the driver, when provided with customs papers, was not required to investigate as to the legality of the sale of the liquor he was engaged to carry.  
Seizure on Highway.

The Campbell case is analogous to one remanded in the Toronto Police Court today resultant from the seizure yesterday of three automobiles near Oakville, on the Toronto-Hamilton Highway, carrying 81 cases of liquor worth \$3,400, consigned from a Toronto distillery, to purchasers in the States. Highway constables picked up the cars at various points between Toronto and Oakville, and ordered them to drive to the Oakville town hall. Inspectors Chariton and Hammond, of the License Department, were notified and took charge of the seizure. Six men were held by the police, all from Windsor and Essex counties. They had a legal adviser with them.

A license department official today was emphatic in declaring that their officers had not followed the cars from the city, and that the arrests had been made by the highway police without special instructions.  
"The general assumption is that there must be a tremendous traffic, and the seizures of late bear that out," said Inspector Hammond.

Under the Canada Temperature Act, distillers with a Dominion charter are able to send out orders received from the U. S. This privilege is used by those ordering liquor to transport it towards the border—but not across it. What Hon. Mr. Raney's department will supposedly try to figure out is a way by which the province can compel these shipments to be made by recognized rail or boat lines, and not by motor or motor truck or small craft. In this way the consignment would be made to be through to the scheduled destination, which, of course, would result in seizure when they entered the U. S.

A Veteran Journalist.  
Moncton Transcript.—J. E. B. McCready is acting editor of the Charlotte-town Examiner during the absence of W. L. Cotton, who has gone on a trip to the Old Country. Mr. McCready will be kindly remembered in Moncton and elsewhere in New Brunswick. Though advancing in years he still keeps in touch with current events and writes a facile pen.

### MRS. PUGSLEY AT HOME TO HUNDRED

Fredericton, March 24.—(Special)—Mrs. Pugsley, wife of the lieutenant-governor, was at home to about 100 guests this afternoon at Government House, Regent street. The reception rooms were decorated with yellow and mauve daffodils. Mrs. Pugsley received in a gown of blue cation crepe and henna georgette with silver embroidery. Mrs. T. C. Allen and Mrs. Richardson presided over the tea table. They were assisted by the Misses Helen Morrison, Jean Hodge, Kathleen Taylor, Frances Hawthorne, Margaret Hall and Mary Smithers.  
Following the reception Mrs. Pugsley entertained at a private dinner for six.

### FRIENDS IN CHINA ARE RECOGNIZED

Motion pictures of the mission work of the Presbyterian church were shown in St. Andrew's church last night and a large gathering was present. The pictures were shown by the Pathescopie Film Company and gave a vivid impression of the different missionary fields and of their workers. Starting with scenes of the world Sunday school convention in Japan, there were next shown different views of Japan, of Korea and of China. Many of those in the audience had the pleasure of recognizing former friends among the missionaries. When pictures of Hamheung, Korea, were shown, Rev. A. F. Robb and Mrs. Robb and Miss Jennie Robb, of this city, were easily recognized. When pictures of Wonsan were shown, Rev. E. J. O. Fraser, who is well known in St. John, was readily spotted. Dr. Kate McMillan, of Jacques river (N. B.), whose death was reported about one month ago, was seen at her post in the strange land where she died. It was specially interesting to the audience to see Dr. J. H. MacVicar, former minister of St. Andrew's church, in a very life-like manner, appear in the church where he at one time was in charge. Dr. MacVicar was shown at work in far-off Honan.

**AN ENJOYABLE EVENING.**  
The Booster Club girls of the Cornwall and York cotton mills and their friends had a much enjoyed party last night that was provided for them by their friends. Dr. Margaret Parks was their hostess for a theatre party and W. H. Golding arranged that one of the boxes should be reserved for them. A five-pound box of chocolates was an adjunct to the theatre party that was heartily approved of. The girls returned to the Y. W. C. A. recreational centre in King street east, where they spent a happy social evening. Refreshments in the form of doughnuts and cocoa were provided by the Indoor-Outdoor Club of the Y. W. C. A. There were forty-seven of the Boosters present and Miss Innes MacKenzie and Miss Jessie Milligan were the chaperones.

**You get out what you put in —**

**COLD** weather tests the quality of the gasoline and the oil you use. If you've standardized on Imperial Premier Winter Gasoline and the right grade of Imperial Polarine Motor Oils the results will prove that you're getting your money's worth.

**IMPERIAL PREMIER WINTER GASOLINE**  
It gives you the quick, easy start, the prompt pick-up and the abundant power so necessary for satisfaction during the cold months. "More miles per gallon" in every drop of it. Usually costs less than other brands.

**IMPERIAL POLARINE MOTOR OILS**  
The lubrication afforded by the right grade at every friction point and the gas-tight, piston-to-cylinder seal cuts fuel costs and increases power. Winter or Summer the right grade "Makes a good car better."

Imperial Premier Winter Gasoline and Imperial Polarine Motor Oils are sold at Imperial Service Stations and by dealers everywhere.

**night**

Night—the hour for relaxation and gladness. All dressed up for the Theatre, the Bridge Party or the Dance. The Sedan newly polished and running smooth as sailing—the last word in comfort. What a time for a blow-out! Wouldn't it take all the joy out of life? In fair weather or foul, changing tires in darkness is not a fit job for a man in his best toggery; and, yet, that's what will happen if you do not disarm Accident by Precaution. Equip your car with "Gutta Percha" Tires—they carry on, unfaltering, through all weathers and circumstances, day or night, on all cars and on all roads.

**"GUTTA PERCHA" TIRES**  
"Quality all Through"

Most of the successful farm lighting plants have Exide Batteries.

**Exide**  
MADE IN CANADA  
**BATTERIES**

**Is Your Battery Friend or Enemy?**

There is solid satisfaction in a loyal battery—one that you can rely on to do its duty in your car and never leave you in the lurch.

But a frail, untrustworthy battery is about the most pesky thing in motordom.

It is up to you whether your battery is friend or enemy, or it will be, when you choose a new car or replace the battery in your present car.

When you have an Exide, you know there will be instant response as your foot touches the starting pedal. Click! and the road is bright from your lights. Never does your motor lack the spark to give it life.

Yet bodily comfort is not all you get from an Exide Battery. You get pocket-book comfort as well, because the Exide lasts so much longer.

Before you buy a new car, find out what kind of battery it has. If it is an Exide it is significant of quality throughout. When you have to replace your battery, insist on an Exide, and if you have any trouble in getting one, let us or our nearest district distributor know.

### PROTEST AGAINST 'MURDER CAMPAIGN'

Belfast Catholics Pass Resolution Alleging No Attempt to Check Atrocities.

Belfast, March 24.—At a meeting of representative Catholics here today a resolution was passed protesting against the campaign of murder against the Catholic community.

The resolution alleged that no attempt had been made by the authorities to check the atrocities and assert that the legislation proposed by the Ulster government would merely result in legalising the work of the assassins.

The position of the Catholics in Belfast is daily becoming more desperate, the resolution continues, "and can only be paralleled by the treatment meted out to the Armenians by the Turks. Just as the civilized governments felt compelled to take action then so now we believe they would take similar action if the facts of the present situation were known."

The resolution urges the fullest inquiry into the situation.

A freight train was held up near the city this morning by twelve armed men who opened the registered mail it was carrying and scattered the freight along the tracks.

Hovace S. Wilkinson, chairman Crucible Steel Co. of America, issued the following statement after the meeting at which directors passed the common dividend:

"I am of the opinion that the long

BY ORDER OF THE COMMON COUNCIL OF THE CITY OF ST. JOHN

PUBLIC NOTICE is hereby given that a Bill will be presented for enactment at the present session of the Provincial Legislature, the object of which is to amend the "Saint John City Assessment Act, 1918."

(1) To further define the profits in relation to which income tax may be assessed.

(2) To provide that the Board of Assessment of Taxes may, if they deem it desirable, send out their Notices, Tax Bills or Accounts through the mails by post instead of having them served by the District Commissioners.

St. John, N. B., 4th March, 1922.

HERBERT E. WARDROBE, Common Clerk. 8-4-tf

Arrangements have been made with the Young Men's Catholic Institute, whose officers have kindly consented to act as examiners for the First-Class Swimming test.

Scouts will be glad to know that H. A. B. Blake of 88 Germain street, has kindly consented to act as examiner for the Fireman's badge.

- NEW BADGES FOR 1922. Accident Prevention. To obtain the Accident Prevention proficiency badge a Scout must— 1. State four or more dangerous conditions in the average home, and indicate what steps should be taken to correct these conditions.

DETERMINATION LEAGUE DISBANDED

Local Branch Feels Objects in Ireland Attained—Presentation to M. E. Agar.

At a largely attended meeting of the St. John branch of the Self-Determination for Ireland League of Canada and Newfoundland, held on Wednesday evening, it was unanimously decided that the objects for which organization had been effected having been attained, and the right of the people of Ireland to determine for themselves their own form of government established, there was nothing further for the league to do.

Whereas, the aims of the Self-Determination for Ireland League of Canada and Newfoundland were to secure organized support for the right of the people of Ireland to choose their own form of government, and

Whereas, a committee from the elected representatives of the Irish nation and the British government, signed a document known as the Irish Free State agreement, the same to be submitted to their respective parliaments for ratification, a procedure which has been carried out, and

Whereas, press reports indicate that a general election will be held in Ireland within three months, with the aforesaid agreement the main issue.

Therefore, resolved that, in the opinion of the members of this branch, the objects for which we organized have been attained, and we cease to function as an organization from this date.

How young those ankles make her look! YOU'D be surprised, Molly, if you knew I was responsible for that! When she first arrived, she asked me to tell her what were the best stockings she could buy.

**Four Games Tonight.**  
Toronto, March 25.—With their team engorged by the inclusion of Eddie Ford, Ottawa hockey star, who takes place of Randall, St. Patrick's will go tonight's game, the fourth in the series for the Stanley cup, confident that a combination play and had the better territorial play. The Millionaires are confident.

**Abegweits Win Championship**

The Abegweits of Charlottetown won a championship of the Maritime Province by defeating the Windsor team, champions of Nova Scotia, by a score of 3 to 2. The Windsor team were strong in combination play and had the better territorial play. The Abegweits on seventeen consecutive games this season.

**FOOTBALL**

**He Made Good.**  
Windsor, March 24.—J. ("Scotty") Borthwick was in the city recently, called a few friends prior to leaving for England, where he was playing football for the Bristol Club. Mr. Borthwick was the first player to go from Canada to an English club, and he has made good. He went as an amateur and played as an amateur with the Bristol club, so that he retains his amateur standing.

The proof of his having made good is that he has been offered a contract for the season of 1922-23, which would necessitate his going back to England in July. He states that he does not think he will go, as it would mean that he would have to relinquish his amateur standing and play as a professional.

**"WORLD BEATERS"  
WIN MATCH GAME**

**Larry MacLaren's Crack  
Bowling Team Has One  
Victory to Credit—It was  
"Some" Game.**

The C. P. R. car service and general staff crack bowling quintette, known as "The World Beaters," vanquished the mechanical staff aggregation by a wide margin in a special match held on the G. W. V. A. alleys last evening. The winning team was captained by the "redoubtable" Lawrence MacLaren, who demonstrated that as a bowler he is one of the best car service men in the district. His average was well up in the fifties and would have been higher only the pin boys refused to set them up in the gutters. Twice he nearly made a strike, but on each occasion his sharp-breaking curve hit the corner pin instead of the king pin. However, Larry had no overtures, for Jack O'Neill was going him one better and hitting every hole in the alleys. His valiant efforts failed to establish any alley records, but were valuable from a training standpoint, for Jack is a baseball pitcher who can shoot the ball around corners. The palm of victory goes to R. A. Sewell and D. H. Ryan, who, undismayed by the "horrible" showing of their colleagues, put forth their best efforts and sent the candle pins flying in all directions. Both are reputed to have been stars in their day and their work last night marked them as present-day cracks. It is said that both smoked more than a package of bacco during the exciting episode and that they had the atmosphere so thick that their opponents could not locate the pit and subsequently were badly handicapped.

There was a "dark horse" introduced by Larry, whose first name was Archie. His appearance wrought havoc among the enemy, and the fact was that through Larry's strategy the game was won before it had started. The mechanical department deserve credit for their good showing, but they made a fatal mistake of under-estimating the prowess of their opponents. They thought that they were up against five "MacLarens and O'Nells," and were dismayed when they were pitted against such a trio as Sewell, Ryan and the "great unknown." It is expected that a return match will be arranged in the near future. The score last night is a secret.

**"OBIE" WOULD  
LIKE TO COME  
TO ST. JOHN**

**Joe Page Gets Letter from  
Snappy Third Baseman of  
Marathons of 1912-18.**

Joe Page, while in the city yesterday, received a letter from Charles A. O'Brien, who was formerly a member of the Marathons in the N. B. and Maine League and was popularly known as "Obie." During the war he was a member of the American army and rose from a private to the rank of captain. In 1914 O'Brien played with a team in the Colonial League and after three weeks was made a playing manager. They finished in second place. The following year their franchise was transferred to Connecticut, where they won the pennant. When the playing season terminated he accepted a position as an inspector with a life insurance company. He said he read an article in the paper recently that St. John contemplated entering the Eastern Canadian League and wondered if Joe Page was interested in its formation. He expressed a wish that he might be given an opportunity to come here.

**FREDERICTON BEAT  
ST. STEPHEN, 52-17**

Fredericton, March 24.—(Special)—The basketball team of St. Stephen High school made its initial appearance in Fredericton tonight playing Fredericton High in the Y. M. C. A. gymnasium. The game ended Fredericton High, 52, St. Stephen High, 17. The visiting team started out well but failed to last. It showed no class which could compare with the interscholastic league teams. The teams were as follows:

Fredericton High	St. Stephen High
Currie	Norton
Davidson	Henderson
Wilson	Tourillotte
Hickson	Defence
McFarlane	Coleman
McCaffrey	Heustis
Dunphy	Douglas
McWinn	Grimmer

**MCGRAW OFFERS  
CONTRACT TO COLLEGE  
UNDERHAND FLINGER**

San Antonio, Texas, March 25.—At a recent practice in the Giants' camp much comment was caused by the appearance in the box of a new pitcher, one Seidler from the West Texas Military Academy. Seidler had been highly recommended to McGraw and Hughey Jennings, and the Giants' chief trainer induced the youngster to put on a uniform and show his wares. He is not yet eighteen years old, but is said to be a phenomenon. After the Texas had pitched to the Giant hitters, McGraw, according to reliable information, offered him a contract, but the lad refused because he still has a year left at the military academy. He is said to have promised the Giants' plot that he would be ready next year. Seidler's main stock in trade today was a puzzling underhand ball, delivered about as low as that of Carl Mays.

**KENTVILLE ARENA.**

(Kentville Letter)  
The Kentville Arena drive is on in good shape, and the clock on Aberdeen street registered Tuesday afternoon over four thousand dollars of stock sold. So far this week purchases of stock have been without solicitation, but in the meantime the executive committee of the company has been busy in districting the town and neighborhood, and commencing active campaign started to realize the objective by the end of the week. It goes without saying that Kentville old and young are delighted with the prospect for an early building of the

**MANY ENTRIES  
FOR BOXING BOUTS**  
(Halifax Chronicle)  
The greatest galaxy of amateur mitt wielders who have ever participated at the one time in a tournament held in this city are expected to compete in the N. S. Amateur Boxing Championships which will be held at the Majestic Theatre on next Monday and Tuesday nights, under the auspices of St. Mary's H. C. T. A. and B. Society. Among those who have signified their intention of competing are some of the best amateur boxers in the maritime provinces and followers of the roped arena are assured of plenty of action when the boys face one another on Monday night.

Among the entries already received are Nolan, 168 lbs.; Hines, 168 lbs.; McLeod, 148 lbs.; McKenna, 145 lbs.; Bartlett, 158 lbs., all from Cape Breton, and all boasting of reputations. The Halifax entries include, Healey, lightweight champion; Roy Chisholm, 126 lbs., champion; McGrath, 148 lbs.; O'Grady, 138 lbs.; Grey, 118 lbs.; Landry, 118 lbs.; Purcell, 135 lbs.; Roache, 145 lbs.; and Morris, 118 lbs.

Famous Players—Lasky Corp. Presents  
**"Back Pay"**  
Created by Cosmopolitan Productions

A COUNTRY SCHOOL TEACHER UPON SEEING NEW YORK for the first time thinks she has been missing too much and decides to collect what she terms her "back pay." She hits a pretty fast clip until her better nature asserts itself. Not until she reaches the very trenches of the Flanders front, where she stumbles upon her village sweetheart, does she realize the real truth of life. A story that settles a lot of silly notions.

**A ROWING RACE  
HERE TOMORROW**

The rowing season is to have a famous opening in the St. John harbor on Sunday when the crews of the Fanad Head, the Melmore Head and the Kenbane will race for the much prized rowing trophy that is competed for annually by the crews of these boats. Last year the Melmore Head crew won the trophy, but it was a close finish with the Fanad Head crew nosing almost up to the winning boat. The quality of the rowing can be judged from the recent work of the Melmore Head's crew in rescuing the men from the wrecked steamer Mod. If either of the other two crews mean to obtain possession of the trophy this year there will be some speed shows. The
