

The Policy of Mr. Mitchell's Party.

The fiscal policy of the Opposition has usually been expressed in such vague, meaningless resolutions and speeches that the public have had much difficulty in getting a clear idea of its meaning. Fortunately, however, the leader of the party, Sir John Macdonald, once came down to something practical. In a speech in the Province of Quebec, not long ago, after speaking of the obstacles presented to Canadian trade by the United States tariff, Sir John said: "We were in favor of an exchange of the border on equal terms, of the products of the two countries, but we said then, and we say now, that the policy is to have the United States tariff on a reciprocity of trade as an incentive to free trade. (Cheers and cries of "that's it," etc.) If they shut the door absolutely and positively against us, if they will raise a Chinese wall by which not a single article you produce can go unscathed, we will raise a similar wall."

We have given, on Conservative authority, a comparison of the present Canadian tariff (which most taxpayers think is quite high enough) and the "Chinese wall" tariff which it is Sir John's avowed policy to establish in Canada. The comparison only covers sixty articles, a list of which is given in the accompanying table. It is to be noted that if this once occupies temporary punishment it will never receive its eternal infernal deserts. Please send the proprietor a copy, and will oblige.

Table comparing Canadian and American duties for various goods like Wheat, Rye, Indian corn, etc.

The following articles, all of which in our tariff come under the general figure of 17 1/2 per cent, are by the American tariff, charged with the rates undesignated: Wood Shingles, Saw, Staves and other castings, etc.

The people of the Dominion, and especially the people of the Maritime Provinces, are not insane enough to support a party whose leader declares his purpose to impose that enormous burden of taxation on this country.

The most sensible way of harnessing oxen.

Now, let some American invent an improved pad for the ox to butt against, and he might develop the idea so far as to utilize the kicking energy of a mule.

We observed from the window a long line of French cavalry horses that were being trained and exercised. Their tails were cut short, a fashion, I observe, quite common in France and England, and coming into use in America. It is a cruel fashion, for horses have a right to their tails to fight flies; besides the constant agitation of the head extremity is necessary to the health of the vertebrae. The booted horse, in fact, becomes discouraged and ceases to wag his tail, and this attitude will react upon the health of the animal. No horse should be deprived of the use of his tail. I find that I am at the bottom of the page without having written about horses. There is nothing much to write about except the views of the Alps and Mount Blanc. The city seems to be about equally divided between watch factories, music-box factories, muskets, and hotels.

The Freeman says the canvass in Miramichi, we are told, is very active, but papers are extremely dull, especially the Advertiser, which this week makes a dull, stupid attack on Mr. Snowball, and another complaint about the fishery regulations, republishes part of Mr. Tilley's Carleton speech, and dwells lovingly on that part in which Mr. Cartwright is grossly charged with having opposed the commutation of the New Brunswick debt.

Bleeding of the Lungs. Bornville, Ont., Nov., 8th, 1872. Messrs. Seth W. Fowles & Sons, Boston: I have been troubled with bleeding of the lungs for a long time, and about two years ago I took a severe cold which made my lungs very sore, but after using one bottle of Wistar's Balsam of Wild Cherry the pain and cough disappeared, and I have not troubled since. I believe the Balsam is the best medicine in use and well worth the price asked for it.
