

PROPTLY MAIL LATEST CANTARD

George Jardine, Kent Co. Surveyor, Will Produce Witness to Prove He Notified R. Mattinson.

Grafters' Organ Attempts to Make Political Capital Out of Law-Breaker's Letter.

Special to The Standard. Richibucto, May 29.—The Telegraph on Saturday morning published a letter from R. Mattinson of Lower Sabin in which Mr. Mattinson charged that the lumber scaler in that vicinity had oppressed him by sending a small quantity of logs for stumpage charges without first notifying him. He also charges that there are many logs cut in Kent county on which no stumpage is paid and that there is no evidence of the offenders being brought to book for their offence. Another charge made in Mr. Mattinson's letter is that many of the lumber men cut logs below the legal size and yet they are not prosecuted. All of which is reported by the Telegraph in an effort to discredit the Hazen government in regard to its administration of the crown lands. George Jardine of Portage River, Kent county, who is the scaler referred to by Mr. Mattinson, informed The Standard correspondent this evening that the facts of the case are not just as stated by the writer of the letter. He says that on March 26 last he went to the crown land section where Mr. Mattinson was cutting and found 16,000 feet of unmarked logs. He notified Mr. Mattinson at that gentleman's house in the presence of Mr. Whalen that the logs had not been paid stumpage. Mr. Whalen told the scaler not to be hard on him and J. D. Irving of Bouctouche became responsible for the stumpage and the costs involved in the matter about \$10 and the matter was allowed to rest there. As far as the statement that logs under size are being cut, Mr. Jardine says that there is no attempt to shield anyone engaging in this practice and that he would be glad of any information of this kind that can be given to the government. Whalen who was present when the scaler notified Mr. Mattinson of the seizure of the logs is connected with Swedish Canadian Lumber Company and most reliable it would appear that there are two sides to the story which the Telegraph accepted as a chance to "knock" the provincial government, but, as usual, only the one found publicity.

Surveyor General Grimmer. St. Stephen, N. B., March 28th, 1910. To the Editor of The Standard: Sir—In reference to the letter of B. Mattinson of Lower Sabin, Kent county, which appeared in Saturday's Telegraph addressed to the government, and which refers more particularly to one of our crown land scalars, I have to say that until this matter has been investigated I do not care to make any reply, although it might be stated that no one is in a position to say who has been charged with stumpage nor the amounts charged until such time as the superintendent of the scalars has examined the returns of the different scalars and rectified any discrepancies he may find, after looking into any complaints that have been received from the several scaling districts. The superintendent intends to be in Kent county at an early date to close up this year's business, and it is part of his work to take up any matter of overcharges that may come

BRUTAL MURDERS DUE TO JEALOUSY

St. Paul Man Killed His Wife And Young Priest Whom He Suspected—Isidore Newman Empties Revolver Into Bodies Of Wife And 19 Months Old Babe—Claims That Woman Was Unfaithful.

St. Paul, Minn., May 29.—P. J. Gibbons, a livestock commission man of South St. Paul, today shot and killed his wife at their home in that suburb a few minutes later Gibbons rang the door bell at the residence of Father Walsh, the young pastor of St. Auguste's Roman Catholic church and as the door was opened fired two shots into the priest's head, killing him almost instantly. Gibbons was arrested and was brought to the Ramsey county jail in St. Paul, as there had been talk of such at South St. Paul, where the priest was popular. At the jail tonight Gibbons said that his wife had made a confession in which the name of Father Walsh was mentioned. Killed Wife and Child. New York, May 29.—Isidor Newman fired two bullets into the brain of his fifteen months old son, and three into his wife's brain this evening at the home of his father in East 52nd street. Both were instantly killed.

DR. E. T. GAUDET PASSED AWAY

One Of The Best Known French Practitioners In The Province Dead At Dorchester—Prominent In Politics.

Special to The Standard. Dorchester, May 29.—Dr. E. T. Gaudet died at St. Joseph's this morning after less than ten days illness. He was out last Sunday, although not feeling well and no alarm was felt as to his condition until Friday. The cause of death was Bright's disease. Dr. Gaudet was born at St. Joseph in 1857. He graduated from St. Joseph's University in 1875 and took his medical degree at the Victoria University of Medicine, Montreal in 1879. After being house physician at the Hotel Dieu Hospital, Montreal for one year, he took a special course under Dr. A. Jardine, the celebrated oculist and went to Moncton to practice. Three years later he removed to St. Joseph where he remained until his death. For many years Dr. Gaudet was attending physician to St. Joseph's University and since the death of Dr. Doherty some years ago, acted as physician and medical attendant to the Maritime Penitentiary. Few French doctors in the province attained such eminence as Dr. Gaudet. About three years ago he was chosen president of the New Brunswick Medical Society and last year was president of the Medical Council, being the first French practitioner to hold that office. He was held in great esteem by the profession and was generally popular as he was a very kindly man of a genial temperament. Professionally he was regarded as a very capable practitioner and a keen student of problems in his profession. In all matters affecting the public health he took an especially active part and during his career held several positions of importance and prominence. Of recent years he has been a member of a Conservative ticket in a Westmorland provincial election. Later he became a supporter of the late provincial government, and of Mr. Emmerson in federal politics. Dr. Gaudet was prominently connected with a number of societies including L'Assomption, the C. M. B. A., Les Artistes and the Knights of Columbus. He was well known for his goodness to the poor and will be greatly missed in the community. He is survived by his wife, formerly Miss Michaud, four sons and two daughters, Dr. Alfred in practice here, Camille a medical student at Laval University, Montreal, and Armand and Aurele at St. Joseph's University; Miss Hermance in a convent at Sillery near Quebec and another daughter in the local convent. The funeral will take place on Wednesday morning at 11 o'clock from St. Thomas' church Memramcook. before him, and I am sure that the people of Kent county will always find him fair and courteous to all, showing no favoritism to any. (Signed) W. C. H. GRIMMER, Surveyor General.

AN UNHAPPY MARRIAGE

Carson, Nev., May 29.—Mrs. Gunthro Aoki, formerly Gladys Emery, daughter of Archdeacon Emery of San Francisco, is here with her child and her mother, supposedly to establish a residence prior to getting a divorce. Mrs. Aoki gained notoriety by her marriage to George Aoki, Japanese, servant of the Emerys, at Corte Madera, a suburb of San Francisco.

MONCTON PASTOR IN FAREWELL SERMON

Rev. C. W. Corey Presented Address On Eve Of Departure For Kamloops—Moose Near City.

Special to The Standard. Moncton, May 29.—Rev. C. W. Corey acting pastor of the Moncton First Baptist church, preached his farewell this evening. At the close the congregation presented Mr. Corey with an address appreciative of his labors in Moncton. Mr. Corey leaves on Thursday for Kamloops, B. C., where he will have a pastorate. The engagement is announced of Miss Gertrude Agnes, daughter of J. J. Walker, mechanical account of the I. C. R., and Charles Edward Myers, son of the late James W. Myers, Phoenix Park, Dublin. The wedding takes place in June. Greta Mills, 11 years old, while picking wintergreens in the woods near the school house at Berry's Mills, at noon on Friday, strayed from her companions. When she did not return it was thought she had returned home, but on inquiry it was learned this was not the case. A searching party got out at once and seven hours later found the child five miles away, badly frightened but otherwise not much the worse for her experience. Two moose attempted to cross the river Saturday evening from Albert county. They had got nearly across on the mud flats, the tide being low, when they were frightened by the city noises and retraced their steps.

COOK DISCOVERED IN SCOTLAND

New York, May 29.—The mystery of the whereabouts of Dr. F. A. Cook, the American who said tomorrow, solved last night. He is in Scotland, preparing for his trip to Esch, whence he plans to bring back his records of

CURTISS WINS \$10,000 IN ALBANY-NEW YORK FLIGHT

New York, May 29.—Glenn H. Curtiss flew from Albany to New York city in an aeroplane today, winning the \$10,000 prize offered by the New York World. He covered the distance 137 miles in two hours, thirty-two minutes and came to earth as easily and as lightly as a pigeon. His average speed distance—54.00 miles an hour—surpasses any record ever made by an aeroplane in long distance flight and is entirely his feat perhaps eclipses anything man has attempted in a heavier-than-air machine. One hour and twenty-three minutes after leaving Albany he had reached his stopping place near Poukeepsie, where there was an hour's intermission. Resuming his flight at 9:25, he sped southward and landed within the boundary of Manhattan Island at 10:55. Thence to Governor's Island his task was but a whim of triumph and the concluding lap of a race already won.

LIVELY RAID AT BANGOR

Free For All Fight Ensues When Officers Visit South Brewer Hotel For Purpose Of Seizing Liquor.

Bangor, Maine, May 29.—One of the most spectacular raids that the Straits section has seen in this section was effected here last night. A free for all fight ensued between the officers and the men in the barroom, the deputies finding it necessary to draw their revolvers and clubs. In the melee, Proprietor Peter Smith, with a pair of handcuffs on his wrists escaped but Daniel McDonald was arrested after he had been clubbed into submission. Deputy Herman was struck in the eye with a pair of brass knuckles and was painfully injured. The arrival of Officer Pooler of the Brewer Police department, alone quelled the riot, but not until the deputies had been roughly handled. McDonald will be arraigned tomorrow in Bangor on the charge of interfering with an officer. A wagon load of liquor was seized.

SHARP FIGHTING IN NICARAGUA

Estrada Turns The Tables By Defeating Troops Of Madrid—Will Attempt To Retake Customs House.

Bluefield, Nicaragua, May 29.—Although the forces of President Madrid were victorious in their recent operations, the troops of Gen. Estrada and captured Bluefields bluff, which was garrisoned by a small section of the provisional army. Estrada today succeeded in repulsing the enemy with heavy losses. The government steamer Venus this morning signalled with green cannon to Gen. Lara, who began a desperate assault against Estrada's positions around the city of Bluefields. The engagement was kept up all day and the Madrid forces were driven back. Gen. Estrada captured 50 prisoners and Lara's losses are estimated at 250 killed or wounded. Several hundred marines are expected to arrive here from Colon tomorrow to enforce if necessary, the proclamation of Gen. Estrada, forbidding fighting within the city of Bluefields. New Orleans, La., May 29.—General Zeledon, in the insurgent army in Nicaragua, has assumed a formidable position in the rear of Bluefields bluff and will make an effort to retake the customs house situated thereon, according to advices received here tonight by A. J. Oliver, nominal acting counsel for the Estrada government.

HUB'S FORMER MAYOR DEAD

Geo. A. Hibbard Passed Away After Long Illness Dating Back To Unsuccessful Fight For Re-Election.

Boston, Mass., May 29.—Former Mayor Geo. A. Hibbard died tonight. The former mayor found himself suffering from the disease which caused his death at the close of his unsuccessful campaign for re-election last fall and his fight for life against hard odds, aroused the sympathy of the city. His successor recently appointed Mr. Hibbard city collector, but the appointment failed of approval by the civil service commission and the result was a great disappointment to Mr. Hibbard. Serving as a non-partisan deplorable Mr. Hibbard went out of office deprived of wealth, and antagonized by many interests. He claimed to have saved the city two and a half million dollars during his two years' service and to have left in the treasury \$800,000 cash on hand. George Albee Hibbard was born in Boston, October 27, 1844. He attended the public schools and upon graduation from the Roxbury high school in 1860 spent eight years with his father, a wholesale produce dealer in Quincy market and then six years in the bond house of Weston E. Lewis and Company. In 1869 he went into the merchant tailoring trade and became treasurer of the Hibbard-Mason corporation in which he retained his interest until his death.

DEATH OF MRS. WEST OF HOPEWELL HILL

Special to The Standard. Albert, May 29.—Mrs. Mary West of Hopewell Hill, widow of the late W. A. West, died at 7:15 this morning in Dr. Carnwath's private hospital at Riverside. Mrs. West's death followed a surgical operation performed on Thursday last by Dr. Ferguson of Moncton and Dr. Carnwath, assisted by Dr. Dash. She was in the 62nd year of her age and leaves a grown family. She was a sister of the wife of ex-Gov. McClellan. The funeral will be held on Tuesday at 1 p. m.

THREE KILLED IN AUTO ACCIDENT

EXPOSE OF FREE MASONRY

Report Published Of Proceedings Of Private Meetings Of The Emancipation, Branch Of The Grand Orient.

Special to The Standard. Montreal, May 29.—There is a good deal of excitement here amongst the French Masonic fraternity over an alleged exposure by a strong clerical champion, Mr. A. J. Lemieux, who is a contributor to La Croix, an advanced anti-Masonic sheet. There is a branch of the Grand Orient here called The Emancipation, the membership being 125. It appears that the anti-Masonic adherents gained access to the ante room of the lodge and the La Croix publication gives a report of what took place at six meetings in question, the details being highly interesting. Mr. Lemieux, who by the way is a Quebec man, and bears no relationship to the postmaster general, invites judicial proceedings for he says that a greater amount of interest will be forthcoming. Amongst those named are members of the legislature and the house of commons (one of the latter however, was struck from the list because he failed to pay his dues) high city officials and in fact French Canadians belonging to all classes of society chiefly however drawn from the better classes. The reports of the several meetings go to show that the Emancipation had already gained a foothold in the city council and was attempting to secure control of the legislative bodies and the newspapers of the city and province.

Joy Riders Attempting to Make Record Trip Dashed to Death on Bridge.

Left Marianne, Penna., Boasting They Would Cover 18 Miles in Half an Hour.

Washington, Penna., May 29.—In trying, it is believed, to drive the 18 miles from Marianne to Washington in 30 minutes, a party of three men in an automobile were wrecked early today, two being instantly killed and the other fatally hurt. The dead—John Deitz, 39 years old; Harry Wheatley, 37 years old; 25, crushed about the chest, is at Memorial hospital. Monongahela, with no chance of recovery. The party left here late last night in Dattig's car to attend a banquet at a club in Marianne. They had boasted at the banquet of having made the run of 18 miles from here in 28 minutes. The night was spent in Marianne and as they left the club Dattig is said to have declared that he would make the return trip in half an hour flat. Four minutes later the three men lay beneath the debris of the machine which had dashed into the abutment of the Monongahela and Washington railroad bridge near Marianne. It was nearly an hour later that the wreck was discovered by another automobile party.

KING'S BIRTHDAY WILL BE PUBLIC HOLIDAY

June 3rd Will Be Observed—Fine Collection Of Medals At Ottawa—Police Raid Cooking Main.

Ottawa, Ont., May 29.—The government has decided to take no action to cancel the celebration of the King's birthday. Therefore Friday next becomes automatically a public holiday under the bill of exchange act. What is described by Dr. Doughty the Dominion architect as the best collection of medals in the world has just been placed in the archives building. It is the gift of the British government and comprises every medal struck during Queen Victoria's reign, as well as every class issued. There are 214 medals in all, their value sentimentally and intrinsically is very great. The Dominion police today broke up a big cocking main near Chelsea, Que., on the Gatineau River. When the police arrived on the scene there were some hundreds of men present and the birds were busy executing one another. The names of a number of spectators were secured, and the birds which remained alive were taken to Hull where the court proceedings will be held.

ITINERARY FOR MR. R. L. BORDEN'S TOUR

Sir James Whitney Will Assist Leader Of The Opposition At Niagara Falls—Opens On June 17th.

TORONTO HAS THREE CASES OF SMALLPOX

Two of these cases were in Hallam street house which had been quarantined and the other was in a house on Shaw street, where as far as their recent smallpox cases have been among the people who have come from Newfoundland, and who have refused to be vaccinated.

C.P.R. BRANCH TO MATTA WAMKEAG

Activity Of Railroad Company In Improving Facilities At St. Stephen Renews Rumor That Washington County Railroad Will Be Extended To Meet Main Line—Officials Of Company Reticent.

Special to The Standard. St. Stephen, May 29.—Rumors are again current that the Canadian Pacific has acquired control of the Washington county and its Princeton branch which points directly across to Matta Wamkeag. Of course C. P. R. officials designate such stories as pipe dream and assert that there is nothing in it. But surface indications are that these officials are needlessly deaf and blind, and people who are believed to be "in the know" occasionally drop a hint of what is coming. The people here are not at all inclined to believe that the \$27,000 being expended here at present is just to provide needed yard room or facilities for handling a few cargoes of coal each year, that have previously been handled at Calais and lately secured by the C. P. R. On the water side of the big fill they are making in the local yard they are building a trestle-work of far heavier construction than would be required for the handling of a few freight cars and it has now so far advanced that the cruetest eye can see that a straight line from its terminus leads right to the Washington county rails in Calais. If it is simply for a dock it will be the only dock ever built on either side of the river on an angle and the structure of its outer face will be heavy enough to carry the heaviest kind of a through train, freight or passenger. And there has been no recent development in local business that calls for an expenditure of \$27,000 for yard room. The public wharf at the foot of King street adjoins on its eastern side the big fill that the C. P. R. is making in its yard and a portion of the dock now being filled out as far as their fill extends, but the present council is not complaisant and a public meeting held last Thursday evening and called by some in favor of acceding to the C. P. R.'s demands, emphatically endorsed the stand taken by Mayor Dinmore and the council. A plan has since been devised which may prove a happy issue out of all troubles, by leaving the C. P. R. in control of what they have already secured, and giving the town a chance to demolish an unused part of the public wharf and leave in its place dock room that was conveyed to the C. P. R. last year.

Baccalaureate Sunday at Acadia Marks Close of Successful Year

Rev. R. S. MacArthur, D.D., Pastor of Calvary Baptist Church, Delivers Powerful Sermon at Large Gathering--Christ, the Wearer of Crowns of Creation, Revelation, History and Redemption--Theory of Evolution Does Not Teach Atheism--Jesus the Diapason of Enduring Music.

Wolfville, May 29--Baccalaureate Sunday has marked the close of one of the most successful years in the history of Acadia. The enjoyments of the baccalaureate have been greatly enhanced by the beauty of the morning service today opened at eleven o'clock with President Cutler presiding. After the prayer by Rev. Mr. Webber, pastor of the Baptist church, Rev. Robt. Stuart MacArthur, pastor of the Baptist church, New York city, preached the baccalaureate sermon as follows:

Without doubt Moscow is far and away the most interesting city in the world. It is a city of contrasts. It is true historically, racially, architecturally and religiously. Madam de Staël called Moscow the Tartar Rome.

DR. G. B. CUTLER, President of Acadia

Moscow is the heart of ancient Russia. The Kremlin, here kept woodwork and dust-laden, is the heart of Moscow. The treasury building is the heart of the Kremlin, and the throne room and the crown room are the heart of the treasury building.

Evolution does not eliminate God from the universe. Perhaps we are not ready to affirm that the doctrine of evolution has been indisputably established, but for all practical purposes it is established. It certainly is sufficiently established to be a working hypothesis.

THE CROWN OF CREATION. Upon the brow of Christ we find the crown of creation. The first verse in the Bible as we know it is: "In the beginning God created the heavens and the earth."

THE CROWN OF REVELATION. We see upon Christ also the crown of revelation. We have made unwarranted distinctions between God's word and God's work. I distinctly remember when certain teachers thought that they gave additional honor to the Word by taking some thing from the honor of the world.

THE CROWN OF HISTORY. We also place upon Christ the crown of history. What is history? It is a record of the past. It is a record of the things that have happened.

THE CROWN OF REDEMPTION. We place the crown of redemption upon Christ. It is the crown of redemption that we place upon Christ. It is the crown of redemption that we place upon Christ.

remember when certain teachers thought that they gave additional honor to the Word by taking some thing from the honor of the world. That was a great mistake. God's Word and God's work are only different parts of God's wonderful Book of Revelation.

Preservation is the loftiest function of the Almighty. It is indeed the recreation of the race. Not God the Father, not God the Spirit, but God the Son is the glorious personality of the blessed Trinity through whom creative and preservative power manifests itself in this world.

THE CROWN OF REDEMPTION. We place the crown of redemption upon Christ. It is the crown of redemption that we place upon Christ. It is the crown of redemption that we place upon Christ.

THE CROWN OF HISTORY. We also place upon Christ the crown of history. What is history? It is a record of the past. It is a record of the things that have happened.

THE CROWN OF REVELATION. We see upon Christ also the crown of revelation. We have made unwarranted distinctions between God's word and God's work. I distinctly remember when certain teachers thought that they gave additional honor to the Word by taking some thing from the honor of the world.

THE CROWN OF CREATION. Upon the brow of Christ we find the crown of creation. The first verse in the Bible as we know it is: "In the beginning God created the heavens and the earth."

THE CROWN OF REDEMPTION. We place the crown of redemption upon Christ. It is the crown of redemption that we place upon Christ. It is the crown of redemption that we place upon Christ.

THE CROWN OF HISTORY. We also place upon Christ the crown of history. What is history? It is a record of the past. It is a record of the things that have happened.

THE CROWN OF HISTORY. We also place upon Christ the crown of history. What is history? It is a record of the past. It is a record of the things that have happened.

THE CROWN OF REDEMPTION. We place the crown of redemption upon Christ. It is the crown of redemption that we place upon Christ. It is the crown of redemption that we place upon Christ.

THE CROWN OF REVELATION. We see upon Christ also the crown of revelation. We have made unwarranted distinctions between God's word and God's work. I distinctly remember when certain teachers thought that they gave additional honor to the Word by taking some thing from the honor of the world.

Albert Hall, London, a great audience was assembled for the coronation of Victoria the Great and the Queen present in the royal box. The audience rose, but the noble Queen remained seated and the magnificent coronation chorus; but the Queen remained seated. Higher rose the lofty song; with coronation glances, the audience turned to the royal box. The Queen remained seated. Loftier still rose the celestial notes. Now the choir sang the part of the chorus where Christ is a witness. "King of Kings and Lord of Lords."

THE CROWN OF HISTORY. We also place upon Christ the crown of history. What is history? It is a record of the past. It is a record of the things that have happened.

THE CROWN OF REDEMPTION. We place the crown of redemption upon Christ. It is the crown of redemption that we place upon Christ. It is the crown of redemption that we place upon Christ.

COLLEGE FOR FINE SERMONS & PRONOUNCES TO STUDENTS

Rev. A. P. Shatford, Baccalaureate Preacher At U.N.B., Forecasts a Central University For Maritime Provinces.

Special to The Standard. Fredericton, N. B., May 29--The golden exercises at the University of New Brunswick, which mark the Golden Jubilee of the institution opened today when Rev. Allen P. Shatford, Assistant Minister of the church at St. James the Apostle, at Moncton, preached the baccalaureate sermon at Christ Church Cathedral.

THE POLICE LAST NIGHT VISITED the residence of Joel Scott on York street, and seized two bottles of gin. The liquor was taken to the police station and Scott will be charged with an offence under the Scott Act. Last week he was in St. John and while there he was arrested for drunkenness and was incidentally charged by a policeman with attempting to pass counterfeit money. Two years ago he was charged with selling liquor to an Indian but pleaded to be allowed to go and was let off by the Indian commissioner.

THE WATER IN THE RIVER HAS BEEN rising and there is said to be some prospect of stranded lumber on the upper St. John River coming out. Although searching parties spent all day yesterday and today searching for the body of George Lounsbury, who was drowned near Oromocto about midnight on Friday night, their efforts have so far proved in vain.

GENERAL GRIMMER ARRIVED HERE FROM St. Stephen on Saturday night and went up river as a member of a party going through to Florenceville, Carleton county, in automobiles.

THE EVENING SERVICE UNDER the auspices of the Y. M. C. A., was addressed by Rev. Freeman Cross, Newton Falls, at the theological seminary. Professor Cross held the audience in close attention, his message being both sincere and sincere. His subject was "The Call for Christian Leadership."

THE SPEECH THAT WILL RESULT IN the open door for girls in this city who want to earn their living by following the trades. They will be taught how to do so at the expense of the Department of Education. The woman who made the successful appeal was Miss Olivia Leventritt, a member of the board.

THE BOARD OF EDUCATION HAS DECIDED to lease an institution for two years--Woman Member Victor. New York, May 28--A woman made the speech that will result in the open door for girls in this city who want to earn their living by following the trades.

Rev. Principal MacKinnon Speaks On Christian Character To Mount Allison Graduating Class

Special to The Standard. Sackville, May 29--Rev. Leander Daniel, of Halifax, preached the annual sermon before the theological union this morning, choosing as his subject "The Advent of Jesus and His Purpose." His sermon was the best of the series, judged to be a large knowledge of the old one. The last and by a large number, judged to be the best of the series, was the grand festival series held in Fawcett hall yesterday morning. Miss Wetmore was twice honored and rendered "Annie Laurie" as it had rarely been given in Sackville. Mr. Webster was very popular in his cellulo solo.

THE TRACK SPORTS WERE HELD IN the park during the afternoon. The ladies' college was crowded last evening on the occasion of the closing reception. A fine programme of seven numbers was rendered during the seven days, and at the same time the Sackville Citizens Band played march music.

Tableaux in Career of Sweet Girl Graduate

PREPARATION. Yesterday she had only one thought, 'Twas having the gown fit like it ought. For one who has learned as much as she, Must be perfectly dressed for all to see.

GRADUATION. Today is the climax of her life, She's ready to lighten the world's hard strife; Armed with flowers and wisdom, Starts out to uplift humanity.

RENUCIATION. Tomorrow—well, that is different, A disillusionment often occurs— With gingham apron well shielded, she is found preparing some hash for ten.

GRAND GRADUATING SUPER MEETING. Enjoyable Function at Sackville Friday Night When Lady Graduates of University Were Guests at Dinner.

Sackville, N. B., May 28.—On Friday evening the annual supper in honor of the young ladies of the University graduating class was held. About fifty were present including a number of lady graduates.

The toasts honored included those to the King, Seniors, Visitors, Mount Allison, The Gentlemen, Athletes, Our Next Merry Meeting. The toast to the seniors was proposed by Miss Leora Masters, '11, of Windsor.

The ladies of the senior class are: Gretchen Allison, Sackville; Adda L. Atkinson, Albert; Lena Bartlett, Toronto; Katherine Bates, St. John; Mildred Bennett, Hopewell Cape; Leah Borden, Lower Canada; N. S.; Mary Chesley, Lunenburg; Alberta Crisp, Mahone Bay, N.S.; Madeline DeBury, St. John; Gertrude Hamilton, Sackville; Jennie King, Sackville; Mabel Leaman, Truro; Hazel Martindale, Sackville; Annie McElion, Oxford; Gladys Vaughan, Wolfville.

King George Sends Congratulations to World's Greatest Nurse—Health Did Not Permit of Receiving Visitors. London, May 29.—On the celebration of the nineteenth anniversary of her birth, Miss Florence Nightingale, O. M., received greetings from all parts of the civilized world.

DOES NOT FAVOR LADY CHAIRMAN. London, May 29.—Mrs. Clayton, wife of the Bishop of Leicester, has been appointed chairman of the Boarding-out Committee of the Peterborough guardians, and although the board by a small majority have confirmed the appointment, there is a widespread feeling of resentment against Mrs. Clayton personally.

Queen Mary (says the Liverpool Daily Post) suffers from overworking. I entered a tortuous, covered, dark way leading from a dirty street from the most crowded part of the bazaar in Teheran into what reminded me of the patio of an old Moorish house in Spain, writes Lady Barclay in the Pall Mall Gazette.

NEW REGIME IN SOCIAL LIFE

Queen Mary's Influence on Court and Public -- Royal Pair Who Delight in the Domestic Life.

London, May 29.—Very soon the public will begin to appreciate what a change of sovereignty means to the social life of the country. Rather it is politics the King is hedged round with all sorts of limitations in the domain of social life, he is the greatest autocrat in the world.

Her late mother, the Duchess of Teck, was in some respects exceedingly like the late Queen Victoria, and to say so much signifies that the best qualities of the Victorian period are fostered by her Majesty. In the last reign it was the King who settled who would be invited to court and who excluded. The King is not strictly a social man.

Met by Mother. I crossed the court, escorted with great ceremony by the oldest nurse carrying the son, a little boy of 6, half way I was met by my mother, who with grave courtesy led me up among the sweet pea bunches and into the house. Here perhaps thirty little tables held the sweets sent for the wedding, the gift of the bridegroom; they stood in double rows all around the room, and in a little room apart, which windows from the big room looked into, sat the bride's old grandmother.

Correct and Proper. "The Queen will be very correct and proper, Queen Mary shares all the views of the Duchess of Portland, and the stiffness around her will not be brightened by much humor." Thus has the new regime been forecasted by one who is high in the society of the youthful sovereigns.

A WEDDING IN FAR-OFF PERSIA

Bride and Groom First See Each Other at the Marriage Feast--Gorgeous Dress of the Attendants--Bride is Quite Overcome With Ornaments and Decorations.

Three New York Society Ladies Abandon Interesting Experiment After Three Days and Indulge in Solid Meal. Three New York society ladies who called themselves Methusals decided a short time ago to starve themselves into what they believed would be permanent health and beauty.

Felt Slighted. One woman who arrived late was brilliant in a cherry damask gown, and flashing her eyes down the room to one old woman who had remained sitting when the others rose at her entrance called across, "Why do you not salute me? Why do you not speak to me?"

Another hour we sat eating, then we were moved to the terrace, given a high place and told to watch the dancers. They faced us below beyond the bonfire and were unique girls from 12 to 20, no more, their hair cut like the pages in a pantomime, bushy and curled and dyed with henna; they kept tossing it about like a pony's mane.

She had a low table covered with a seal pearl embroidered cloth set in front of her, and she sat enthroned like a gorgeous old owl, leaning against gold encrusted cushions and wrapped in priceless cashmere shawls.

FAILED IN KEEPING FAST

Three New York Society Ladies Abandon Interesting Experiment After Three Days and Indulge in Solid Meal.

Three New York society ladies who called themselves Methusals decided a short time ago to starve themselves into what they believed would be permanent health and beauty. The ordeal, however, proved more difficult than they had anticipated, for, after holding out for three days, they abandoned it, and indulged in a good solid meal consisting of "toasted cornflakes, three soft-boiled eggs, two lamb chops, and fried potatoes, muffins, rolls, coffee and straw-berries and cream."

Another hour we sat eating, then we were moved to the terrace, given a high place and told to watch the dancers. They faced us below beyond the bonfire and were unique girls from 12 to 20, no more, their hair cut like the pages in a pantomime, bushy and curled and dyed with henna; they kept tossing it about like a pony's mane.

She had a low table covered with a seal pearl embroidered cloth set in front of her, and she sat enthroned like a gorgeous old owl, leaning against gold encrusted cushions and wrapped in priceless cashmere shawls.

SAINT JOHN, MONDAY MORNING, MAY 30, 1910.

THE PUGSLEY DOCTRINE AT TORONTO.

Mr. Pugsley created an original sensation in Toronto when he spoke at the Ontario Club. His address was a disappointment to those who expected from him any discussion of large problems of statesmanship. Mr. Pugsley can only make one kind of a political speech. Unless he is in a place to promise public expenditure he fails miserably. The only time that he ran an election without a budget of promises he lost his deposit.

But while Mr. Pugsley contributed no ideas on question of state and of empire he offered Toronto a glittering assortment of presents. No one ever went to that city since it was named with such a repertoire of offerings. When he explained that he had not come with promises the minister went on to say that the government to which he belonged had shown what it was to perform. The idea he conveyed was that he had not come with the promise of good things, but almost with the articles themselves. "It is not necessary," said Mr. Pugsley, "that I should make promises. What we have done and are doing ought to be an earnest of the feeling we entertain toward the city of Toronto and ought to be a guarantee of the future." By way of further confirmation Mr. Pugsley said that Sir Wilfrid had told him to go ahead and obtain the necessary appropriation whenever he was convinced that a certain public work was in the interests of the country.

Having thus shown his authority to say what Toronto should have, Mr. Pugsley proceeded to outline the system of ships and wharves and mechanical contrivances that were coming to give the port "as good a fresh water harbor as exists in the world." Railways were to connect with wharves, wharves were to be fitted out with all shipping appliances, the entrance was to be dredged deep. Nothing was to be missed.

Thus gently Dr. Pugsley led up to the question of waterways. At another place he had committed himself to the Georgian Bay and Ottawa Canal system, officially estimated to cost one hundred million dollars. This canal connects the lakes above Toronto with the St. Lawrence at Montreal, cutting off the whole system of canals now in use and side-tracking Lake Ontario, on whose coast Toronto lies. Toronto interests do not favor this Georgian Bay project, but demand the deepening of the Welland and other canals and the improvement of the existing system. This did not trouble Mr. Pugsley. He promised both. He said that Toronto should reach out for business from the great Lake Superior port, the same business that the Georgian Bay canal is to take in another direction. "That means," said Dr. Pugsley, "the deepening and enlarging of the Welland Canal." He was committed to the Ottawa river route, "but," he hastily adds, "the country is big enough and wealthy enough to tackle both projects as soon as the Transcontinental is completed, by 1913 at the very latest." It is a coincidence that 1913 is the latest date for the next election.

But there was more. It seemed to Mr. Pugsley that Toronto ought to have a ship-repairing and ship-building plant. "I am now in a position to lend a friendly ear to applications for aid in the building of dry-docks," said Mr. Pugsley, adding that he had visited the Polson works, and "speaking for myself as Minister of Public Works, I may say I am prepared to recommend favorable consideration to any application for aid in building dry-docks and establishing a ship-repairing plant."

Mr. M. J. Haney occupied the chair at the Pugsley dinner. Mr. Haney is one of the most opulent of government contractors. His bills of extras on one government work would alone make a large fortune. Mr. Haney is understood to be the largest Ontario contributor to campaign funds. Among those at the head table were the parties chiefly interested in the dry-dock application.

It may be recalled that some correspondence was recently published showing great impatience among Liberals over the dominant position which men like Mr. Haney and other contractors were exercising over the party in Toronto, to the exclusion of life-long Liberals who supported the party from conviction. But it is not likely that any objection from this source will be made to the prominence of the machine element at the Pugsley meeting. What would a Liberal from conviction have to do with Mr. Pugsley, who is only a Liberal because that party has office and patronage? Mr. Pugsley was a Conservative so long as that party had office and patronage. He changed sides the day the government changed. He will change again when the Conservatives attain power, and will still be on the side of the contractors, in company with other camp followers.

THE EASTERN COLLEGE.

Three of the Maritime Province universities will hold convocations this week. Three have already sent out their classes of graduates. The list of arts and science graduates of this year from these schools will number one hundred and fifty, or more young men and women. Besides there are theological, law and medical departments which have given or will give credentials to considerable groups of young men. In all of these schools are many men and women pursuing partial courses. Connected or affiliated with some of them are colleges for ladies in which courses of study are offered in letters, art, music and in more recently established departments of household science, or housekeeping as the mothers of the students would have called it.

It is safe to say that the number of male students in the universities and technical schools of these provinces is double that of ten years ago. The rate of increase before 1900 or 1890 was also great. Colleges for ladies have continually added to the scope of their work, particularly in the departments which offer professional courses of study, and the number of young women in these establishments has increased even more than the attendance in the universities. Moreover

women have invaded nearly all the universities and form a large part of the graduating classes in arts. Yet it is probably true that there are more students from the Maritime Provinces in the larger schools outside the jurisdiction than ever before. McGill draws from this part of Canada as freely as from other parts of Canada. The provinces are always well represented at Harvard, though chiefly by post-graduates, and they have always nice Rhodes scholars at Oxford.

We lose something economically, something in advanced academic work, and most of all in facilities for professional and technical training by the dispersion of our forces among these relatively small universities and colleges. The Maritime Provinces could together maintain a good school of technology, including forestry and agriculture, and the various departments of engineering. There could be a much more complete law school than either of those now in operation, and we could have a medical college much better than has been accomplished or attempted at Halifax. There are now in the Maritime Province colleges, pursuing university courses, seven hundred and fifty to a thousand students. The number has been multiplied by three in a quarter of a century, with the population practically stationary. It will be still farther increased. Incidentally it may be remembered that when the alumni roll of these schools is called the answer comes largely from the western provinces. Europe is furnishing the west with the majority of the settlers who work. The eastern provinces of Canada are supplying the majority of the teachers and a large proportion of the professional men. We are paying heavily in the east for the instruction of the west, and, as we shall continue to do so, we are fairly entitled to liberal contributions from the west to college endowments.

While it is true that there is a certain economic disadvantage in the distribution of educational activity to some many points of operation, certain advantages have been gained. The men trained in these schools may not have gone so far as the best students in the larger colleges but they have had the advantage of much closer association with teachers, and with each other. Students who had inadequate preparation found better opportunity to make good the deficiency. Those who were slowest of understanding, or who came late to the consciousness of their powers, were less likely to be discouraged and submerged. Brilliant students, who first found their way to these smaller colleges and afterwards followed up their work in more famous schools, have almost invariably given testimony in favor of their first college, and spoken gratefully of the intellectual stimulus received at the most advantageous time from personal relation with some of the teachers, and for wise sympathy and counsel at critical periods. In the past students have found their way to the provincial colleges from schools of all classes, or have been prepared more or less adequately by private study. They have often lacked the symmetrical training which is assumed to have been received by the matriculant in a large college, though perhaps much better fitted in general for academic study. In the hands of teachers who knew their limitations, and in an institution where the proper adjustment could be made, they have accomplished more than would be possible in the great universities. It may be safely said that some students who in post graduate days have won high honors in the most famous universities, might have been derelicts if they had gone to these institutions when they entered the small colleges at home. As it is we find graduates from our local colleges entering the professional schools connected with McGill or Harvard, and easily holding their own with the arts graduates of these universities. We see them after two years in the engineering or science schools of the lower provinces taking better than an average place in the third year at McGill. Therefore while it may be that if the provinces could begin anew with the higher educational work they might make a better organization than they have now, they have no reason to feel ashamed of what they have done and what they are accomplishing.

MR. MATTINSON'S CASE.

Mr. R. Mattinson, of Kent county, has a grievance against the Crown Land Department. Accordingly he has written a letter addressed not to Mr. Grimmer but to Mr. Hazen, and instead of sending it to the person addressed he sent it to the Richibucto Review to be reprinted in the St. John Telegraph. Mr. Mattinson does not clearly set forth his cause of complaint, but says that he cut 14,000 feet of lumber on "vacant" crown lands, meaning apparently lands on which he had no license to operate. As a result a man who financed his operations has been asked by the scaler to pay double stumpage on 10,000 feet with some fees (or mileage) making \$50 in all. Mr. Mattinson adds that his men by mistake cut 1,000 feet of lands said to be licensed, and the logs were seized. It is not clear whether the government or the man who had the license made this trouble. So far then as can be learned Mr. Mattinson's trouble grows out of illegal operations, and his complaint is that the government is doing what the law requires the government to do in such cases. Mr. Mattinson makes the further statement that many others have cut lumber on vacant crown lands without paying stumpage. He also states that he is himself an old man and poor, and that he was injured last winter in the woods, and will never be well again.

Elsewhere will be found statements of the surveyor general and the scaler whom Mr. Mattinson seems to accuse of harshness. Mr. Grimmer says that the matter has not yet been settled, and that a full inquiry will be made by the superintendent of scalers who will see that no wrong is done.

A part of the letter which concerns the public is that which speaks of other operators who have been cutting on crown lands without paying. Mr. Mattinson does not give particulars, but fortunately he promises to furnish them. Undoubtedly Mr. Grimmer will welcome such assistance. The Surveyor General has greatly increased the revenue of the province by not allowing people to cut lumber on crown land without paying for it. It may be that he has not yet accomplished all that is possible in the protection of crown land revenue from plunder. Mr. Mattinson's fifty dollars is not a large contribution but the intervention of the scaler in his case is a good sign. He may be one of a number of ready discovered, and if what he says is correct the good work should go much farther with the assistance that he has promised. One good effect of the rigid collection of stumpage from operators that are discovered is their desire that the rigid enforcement should be general and their readiness to co-operate to that end.

THE NAUWIGEAU VERDICT.

Mr. Brady of the Intercolonial board of management does not seem to agree with the coroner's verdict in the Nauwigewauk railway accident case. His own private inquiry may have given another result but the conclusion is not disclosed, and the evidence on which it is based is taken in secret. The testimony taken by the coroner was given on oath in public, the witnesses having been cross-examined by counsel for the railway. It appears to the lay mind that the verdict was justified by the evidence.

A friendly newspaper asked Mr. Brady if he thought there was politics in the verdict. His reply as reported was that there was "politics in everything." The Standard's information is that a majority of the Nauwigewauk jurors were Liberals, and that in fact there were only two Conservatives among them.

THE
BEST
EYES

Are those which receive the best care throughout all periods of life. "I used to have the best eyes" is a common expression. These people very likely have had eyes now because they neglected to give them the care necessary to keep them good.
Let us help you to keep your eyes good. If you haven't good ones let us help you to make them good.
Right glasses will aid your eyes—that's what we offer.

TRIBUTE BY CANADIAN.

To the Editor of The Standard:
Sir,—May I call your attention to the enclosed poem, which seems to me to convey by suggestion the strongest possible tribute to his late revered Majesty.
I am happy to say the lines are by a Canadian, which may add to the appreciation of many of your readers.
Yours sincerely,
CHARLES CAMPBELL.

THE EAGLES.
Hearken, ye gathered fliers
Who ride through London's gloom,
And follow the draped gun carriage
To Edward of England's tomb.
Men called him the Peace of Europe,
Shall the calm he strove for cease?
Will ye loose now Europe's eagles
To prey on the Dove of Peace?
There is a Northern Eagle,
Two-faced, savage and thonged,
Shall he wing his way to the southward
And prey as he always longed?
There is a stern Black Eagle,
Powerful, steadfast, grim;
Shall he follow his trade-marked
rangings?
Shall ye lower your points to him?
There is a Golden Eagle
Swift winged for strife or play;
Are the wreath and the "N" still missing
That startled the world that day?
There's another Two-Headed Eagle,
Claimed from the Caesars of Rome;
Shall each head rend the other
In their fierce-hearted jealous home?
Ponder, ye congressed rulers;
Think well! Dare ye say
That ye follow the Peace of Europe
To Edward's tomb this day?

NO BETTER TIME
For Entering Than Just Now
St. John's summers are so cool, our position so elevated and our rooms so well ventilated, that we do not find it necessary to take a summer vacation, and we have good classes during the warmest weather.
Also, students can get more attention than in winter, when our rooms are crowded.

COLLECTED \$75,000 FOR SUNDAY SCHOOL WORK

Rev. R. P. McKim Speaks of World's Convention at Washington—Extension of Work Among Heathen and Mohammedans the Keynote—Exclusion of Colored Delegates a Great Mistake.

Rev. R. P. McKim, one of the delegates to the world's Sunday school convention held in Washington last week and one of the two Canadians selected to deliver addresses, returned to St. John Saturday night. When seen by a Standard reporter yesterday, Mr. McKim said the convention was attended by upwards of 7000 persons interested in Sunday school work in all quarters of the globe, and that despite the unpleasantness created by the exclusion of the colored delegates, the programme had been carried out with great success.

"Most of the delegates," he said, "were not aware that the colored delegates had been excluded until the day after the convention opened. The American reception committee took that action on their own initiative I think, but though it caused considerable comment among the delegates, no official protest was made that I am aware of. I think myself, it was a great mistake to exclude the colored delegates.

"Three thousand delegates with 4000 associates and others interested, attended the convention, and nearly every country was represented. The British delegates arrived in a chartered steamer.

REV. R. P. MCKIM.

"The convention this year had as its keynote the possibilities of the extension of Sunday school work in heathen and Mohammedan lands. At the opening meeting, Rev. F. B. Myer, of London, presided. President Taft was on the platform and after introducing his wife as the real president of the U. S., delivered an interesting address, pointing out the value of Sunday school influence in the world. A choir of 500 voices rendered a number of inspiring hymns.

On the second day a number of sectional conferences were held, at which Sunday school mission work was discussed. On Friday night there was a parade of all the men connected with Bible societies from each country met at appointed places, with emblems, banners and illuminated devices and when the procession was finally formed 7000 were in line. Kansas banner informed the world that "All the states lie about Kansas."

On the second day a number of sectional conferences were held, at which Sunday school mission work was discussed. On Friday night there was a parade of all the men connected with Bible societies from each country met at appointed places, with emblems, banners and illuminated devices and when the procession was finally formed 7000 were in line. Kansas banner informed the world that "All the states lie about Kansas."

continued Mr. McKim, "a special effort was made to raise money for Sunday school mission work. The committee in charge set out to raise \$75,000, and they finished their work in two hours.

"Among the well known speakers who addressed the gathering were Bishop Hartzell, of Africa, Dr. S. L. Zweemer, a missionary who works among the Mohammedans, and R. E. Spears, secretary of the U. S. Sunday school society.

Mr. McKim spoke of the fine buildings, squares, streets, and statuary of the American capital, and contrasted its physical appearance with that of St. John. "After visiting a city like Washington, with its fine boulevards, magnificent parks, and numerous statues and fountains," he said, "St. John looks rather dingy and dirty."

"Washington is laid out on a plan prepared by a French engineer, and has broad radial streets, lined with the merchants do not keep their shop windows as clean as they ought to be. Perhaps painting and cleaning is discouraged by the fact that the streets are continually covered with dust that on windy days rises up and envelopes everything. In most cities a walk through the streets affords a deal of pleasure, but here on a windy day it is anything but a pleasure to walk the streets.

"Our city has neglected its possibilities of beauty. The streets are too narrow, landlords are allowed to put up buildings of any character or style. In other cities I have seen them tearing down fine buildings just to widen the streets—as fine buildings as you will find in the business district of St. John.

"Our city authorities ought to realize that St. John is evidently destined to be a big city. Certainly the mother who wake up what other cities are doing, and begin to plan for the future, the better it will be."

King Edward's funeral at Nickel. Just ten days after Edward the Peacemaker, was interred with great pomp in St. George's chapel, Windsor, the people of St. John are to be enabled to see this most wonderful mourning pageant of modern times. The King's funeral will doubtless be the greatest feature of the year and an event which has attracted the finest emotions of the Empire will be seen in its final and saddest stage at the Nickel Theatre this afternoon, tonight and tomorrow. Representatives of the Nickel Theatre Co., by right of entrance, secured the first copies of the picture by fast mail steamer at New York on Saturday and were shipped express to St. John. The picture, which is a masterpiece of the art, will clearly depict the funeral cortege in all its grandeur and pomp, showing near-by views of King George V., the German kaiser, the King of Spain, the King of Norway and five other crowned monarchs in that regal cavalcade, as well as numerous other dignitaries of the royal corps, hundreds of thousands of mourning spectators and London's unexampled decorative to the king of grief will contain additional interest. In order to see this picture Nickel patrons should be early in the evening. In addition to the King's funeral film, the Nickel will have pleasure in introducing Miss Betty Donn, the Cuban novelty "Tivvans," as already announced. Miss Donn will, no doubt, prove herself one of the most brilliant attractions of the year and along with Mr. Tom Clifton will complete a delightful programme. In the picture department the additional films will be the Biograph drama Over Silent Falls, and Edison's production of Richard Harding Davis story Her First Engagement, Orchestra as usual.

The Fresh Air Fund. The new work which is to be taken up by the King's Daughters during the coming season, must appeal to all our citizens, especially to those who are interested in the health and happiness of the children. On Tuesday next the Fleischmann Co. through the ladies representing them here, will kindly give a benefit day for this work, in Keith's assembly rooms. A special programme has been arranged which will be very instructive and enjoyable. A small admission will be charged. Questions will be answered. There will be a morning and an afternoon session.

ARGUMENT HEARD IN ADAM BELL REPORTED SHOT BY WOMAN AT SASKATOON

Unconfirmed Rumor Given Wide Circulation in City Yesterday—Well Known Cigar Manufacturer and Sportsman Said to be Fatally Injured—Has Engaged in Many Activities.

A rumor gained widespread circulation Saturday night and Sunday to the effect that Adam H. Bell, of this city, the familiarly known cigar manufacturer and sportsman, has been murdered by a woman in Saskatoon, Sask. Up to a late hour last night no authenticity could be given the report, though telegraphic communication and local inquiry were thoroughly made.

The story as mouthed about so freely was to the effect that Mr. Bell had been shot with a pistol by a woman several times, but that he still lived, though his case was considered a hopeless one. His friends were naturally greatly perturbed at the intelligence, but like the newspapers were unable to secure definite news on the matter.

Adam Bell's prominence as a real-estate agent and publisher of the Western Mail, a short time ago in Calgary only recently. A month or so after his departure from St. John he was followed by his wife and son.

The present Mrs. Bell is a third wife. She was known to be an excellent horsewoman in this city, and her command of spirited animals on the streets always attracted attention.

The 25th annual meeting of the N. B. and P. E. I. Women's Missionary Society, will be held in Centenary church on June 1st, 2nd and 3rd when it is expected that about 125 delegates from outside the city will attend.

Rev. R. E. Knowles, of Gault, Ont., occupied the pulpit of St. Andrew's church at both services yesterday. In the morning he delivered an eloquent sermon from the text of John 1:46: "And Nathaniel said unto Him, can there any good thing come out of Nazareth? Philip said unto Him, come and see."

Mr. Baxter contended that the errors in the Royal Gazette as to the day of meeting were merely clerical in nature and could not affect the validity of the hearing. As to the number of the premises in the application differing from the actual facts, the number is 236 Union street, and 230 is situated on the upper floor of the building.

Only Clerical Errors. Mr. Baxter contended that the errors in the Royal Gazette as to the day of meeting were merely clerical in nature and could not affect the validity of the hearing.

Entertainment Planned for June 3, at Which Fred. A. Hines, Imperial Potentate, Will be Present.

Evandale, which has long been noted as one of the most picturesque spots in the noble St. John will entertain a party on June 3rd, the like of which never before visited there. Already the people of the country side are thrilled in anticipation of the event for on that date the nobles of Luxor Temple of the Ancient Arabic Order Nobles of the Mystic Shrine will foregather there for a day of merry making in honor of Huzarout, Nobil Fred A. Hines of Los Angeles Imperial Potentate of the order, who on that date will visit the Maritime Temple.

Funerals. Miss Adeline Lambert. The funeral of Miss Adeline Lambert took place yesterday afternoon from 237 Wentworth street. Rev. R. A. Armstrong read the burial service and interment was in Fernhill.

OBITUARY.

John O'Connor.

John O'Connor, a well known resident of this city for 55 years died yesterday morning at his residence, Prince William street, after a lingering illness. He was about 90 years of age and was a native of Ireland and came to St. John when a young man. In the days of wooden shipbuilding here he was employed for years with Paul L. Rose, in the shipyard.

Funerals. The funeral of Miss Adeline Lambert took place yesterday afternoon from 237 Wentworth street. Rev. R. A. Armstrong read the burial service and interment was in Fernhill.

PHOTOGRAPH SHOWS COTTON FIELD IN SOUTHERN TEXAS TODAY.

KING COTTON WILL HIT HIGH CROP reports. The cotton from this one state into one pile and you would have a mountain of fleecy white which will dwarf the rock of Gibraltar; packed tightly into ordinary freight cars the cotton would require a train as long as from Mobile to Galveston, and transport and would make enough bed sheets for every man, woman and child in the civilized countries of the world. And all this from just one state!

C. P. R. TO ADOPT STOCKS SOLD TO PREPARE FOR STRAIN NEWFOUNDLAND PULP WOOD Montreal, May 29.—Mr. Harrington Hooper, who has been making a tour of Canada and Newfoundland, and special correspondent for the London Daily Mail, arrived in Montreal on his way home. He had come direct from Newfoundland and was very enthusiastic over the success attending Lord Northcliffe's enterprise in that colony in the establishment of big pulp and paper making works.

WANT KANICKS FOR CITIZENS Boston, Mass., May 29.—To permit of an exchange of views on the wood pulp question and the importance of Canadians who have made their home in the United States, a dinner in honor of the naturalized American citizens, a dinner is to be held at the Hotel Somerset in Boston, within the next thirty days, at which preference will be given to members of the press and Canadian residents in the United States.

BRITISH BIRTH RATE LOWER London, May 28.—Two conspicuous facts stand out in the registrar general's return for the first quarter of 1910. The marriage rate in England and Wales during the first quarter of 1909 was the lowest recorded in the fourth quarter since the establishment of civil registration. It also appears that the birth registered in the first quarter of 1910 gave out the lowest rate recorded in any first quarter since the establishment of civil registration.

DRY DOCK FOR OWEN SOUND ECONOMIC FORCE OF CANADA London, May 29.—The Daily Mail, referring to the Canadian commercial negotiations, says: "The Dominion's ideal is still closer to the commercial union in the Empire, but as yet years pass without response from the British electorate, hopes diminish, and the ideal recedes. It will be unwise for the British people to delude themselves regarding the permanency of the present Canadian sentiment."

LACHINE BRIDGE REBUILT Montreal, May 28.—The management of the Canadian Pacific Railway has decided to double-track its bridge over the St. Lawrence at Lachine. The work will cost about one million and a half dollars, and is to be completed within the next two years. The double-tracking will entail the enlargement of the present piers and abutments, and the complete removal of the steel superstructure and it will be superseded by the fact that the new bridge will have to be built without the stopping of traffic.

STOCK MARKET CLOSED FOR DECORATION DAY, MAY 30. TENDERS Tenders will be received by the undersigned up to 5 o'clock p. m., Tuesday, May 31st, 1910, for mason and carpenter work in connection with the alterations in the premises on King St., belonging to Messrs W. H. Thorne & Co., Ltd.

PLOWWORKS ARE DESTROYED Minneapolis, May 28.—Fire practically destroyed the seven-story brick building occupied by the Great Northern Implement Company and the Rock Island Plow Company, Seventh avenue, South, and Third street, early today morning. The fire started at the San Bernardino County Building Trades Council on all merchants and business men of this city. Bedouins and Riverside, who employ Japanese or other Asiatic labor.

P. O. D. DIVISION NEW HAVEN Pennsylvania Line Gets Control of Railway Recently Reported Purchased by C. P. R.—Terms Not Revealed.

Philadelphia, Pa., May 25.—The Pennsylvania Railroad Company now owns an important stock interest in the New York, New Haven and Hartford Railroad. With the first vacancies which occur in the board of directors of the New England system, the Pennsylvania interest will receive representation commensurate with its ownership. This fact which became known here today, is fully confirmed even if it has not yet been officially announced.

HAROUND WINS WORLD'S GREATEST RACE FROM DARING AUTO DRIVERS

Indianapolis, Ind., May 28.—In a desperate struggle for supremacy among drivers of the most powerful American cars, records went down for all distances between five and 200 miles at the speedway today and in the grand only two men were injured. Herbert Lytle the driver and his mechanic, Wm. Clifton, were hurled from their car as they were turning into the home stretch in the last lap of the ten mile race for all hand-cap. The car plunged into the sand at the inner edge of the track and was smashed. Lytle's leg was broken and Clifton was severely bruised. Haround driving a Buick, which achieved the most sensational long distance triumph in the history of automobile track racing in the country when he won the 200 mile race in 2:46:31.

game and held his position brilliantly. Matern was taken out of the box at the end of the sixth. Parsons pitched well the remainder of the game. Dahlen was sent to the clubhouse in the 11th for objecting. The score:
Boston,000200000—4 12 1
Brooklyn,10200100000—5 11 1
Batteries—Matern, Parsons and Smith; Berger and Bergen. Time—2:30
Umpire—Johnston.

St. Johns and St. Peters Win

Clippers Defeated on Victoria Grounds in Game Which Showed Signs of Good Playing—Aspirations of A.O.H. Nipped in Bud by North Enders—St. John the Baptist Lose to St. Josephs.

Five hundred fans basking in the glorious sunshine on Saturday afternoon saw the St. Johns administer crushing defeat to the Clippers on the Victoria grounds by a score of 7:2. It was nicely and easily done. Starting out with two tallies in the first inning, Manager Tilley's team added no more until the sixth. Recovering from their eclipse in the first inning the Clippers succeeded two men home with the assistance of errors in the third and it looked like anybody's game until the fatal seventh was reached. The St. Johns began their inning with the score 5:2 in their favor and they casually added two more before the close of the game, while the Clippers failed to connect again with the home plate.

Clippers

Lynch, lb.	3	0	0	13	0	0
A. Ramsey, 3b.	4	0	0	1	0	1
Cribbs, r.f.	4	0	0	1	0	1
Nesbit, p.	4	3	1	2	7	1
Rootes, c.	4	1	1	5	1	0

Carson, c.f.	4	0	2	0	1	0
Case, p.	0	0	0	0	2	0
35 7 9 27 17 4						

Marked by heavy hitting by both teams and chock full of sensational plays the game was interesting to watch and fans have a treat in store for them in the baseball which is being served up in this series. Of course there were errors, but the offenders redeemed themselves by some brilliant afterwards and the only cynic would say that the game was good in "spots."

WIND BOTHERS EVEN CRACK RIFLE SHOTS

The St. John City Rifle Club held their regular weekly spoon match on the local rifle range on Saturday afternoon. There was a large attendance, but a strong and tricky wind from the right greatly bothered the young shots and hindered big scoring. The following were the winners and their scores:

LEADERS WIN ON SATURDAY

Chicago Cubs Give Pirates Bad Beating—Athletics Defeat Boston—Brooklyn and Doves in Great Game.

AMERICAN LEAGUE

Boston, May 28.—Philadelphia won from Boston 9 to 3 today by batting Wood hard and being helped by Wagner's errors. Plank was a puzzle after the first inning. A hard rap by Lewis in the seventh bounded off Baker's shin into the pavilion giving the batter a home run. The score:
Philadelphia431000001—9 11 2
Boston20000100—3 4 2
Batteries—Plank, Thomas and Wood, Hall and Carrigan. Time—1:57. Umpires—Sheridan and Kerrin.

NATIONAL LEAGUE

Philadelphia, Pa., May 28.—In a game filled with fast fielding and hard hitting New York defeated Philadelphia today 8 to 2. A two bagger by Snodgrass with men on second and third bases in the 5th inning, scored the winning run. The score:
New York010000000—8 9 1
Philadelphia100001000—3 10 1
Batteries—Mathewson and Meyers; Marony and Doolin. Time—1:50. Umpire—O'Day.

ROTHESAY WINS AT CRICKET

The local cricket season was opened on Saturday when the St. John cricket club visited Rothessay and had an interesting game with the college eleven. The game resulted in a victory for the collegians in the first innings by a score of 42 to 21.

FUNERAL OF KING EDWARD

GOOD NIGHT!

That Moriaty went through Tommy Howe like Clarence leaving the house after an interview with her old man.

INTER-SOCIETY LEAGUE

The fans who separated themselves from their loose change, to witness the ball arguments on the Shamrock Grounds Saturday saw the St. Johns assassinate the A. O. H. and the St. Josephs do likewise to the St. John the Baptists.

THE SLAB ARTISTS

As for the pitchers, there was nothing particularly brilliant about the work of either pitcher, though both were steady and had a fair number of strikeouts. Nesbitt fields his position well and Howe always keeps his head.

NEW SUITS A HINDRANCE

The Hibernalians attribute their downfall to their new suits, which they were apparently afraid to soil, and "Cap" O'Toole, it is said, has given orders that in the future all players excepting the usual one or two, will appear in the staunch old red and white.

OFFICIAL SCORE

The official score and summary of the game is: St. Johns. A. B. R. H. P. O. A. E. Copeland, ss.4 1 2 2 2 1

A CHALLENGE

The baseball team of B. Company of the 62nd Fusiliers would like to play any baseball team in the regiment. Apply to Color Sergeant Nash.

THE WEATHER.

Maritime—Easterly winds, partly cloudy and cool with occasional showers. Toronto, May 29.—The disturbance which has centered in the mists on Saturday now covers the great lakes and eastern states. Showers have occurred in Ontario today while in the other provinces the weather has been fair. The temperature has been highest in Alberta and Quebec. New England Forecast. Washington, May 29.—Forecast for New England: Showers Monday; Tuesday fair; moderate southwest to west winds.

HALLEY'S COMET.

Time Table. The following table corrected for New Brunswick, Atlantic Standard Time, gives the hour of setting until May 30: Comet Sets Sun Sets May 30 . . . 11.45 p.m. 7.56 p.m.

AROUND THE CITY

Two New Members Received. At the service in the main street Baptist church on Sunday morning two new members were received into the church. At the evening service Mrs. Cousins, wife of Rev. Dr. Cousins of Newcastle, contributed a solo. There was a good attendance at both services.

Deckload was Retrimmed. The steamer Trebia of the Battle Line, loaded with lumber for Buenos Ayres sailed on Saturday afternoon with a very large cargo. When outside the island she listed badly and it was found necessary to discharge some of the coal she carried on deck. The steamer then returned to the harbor where her deckload was retrimmed. She will sail again early today on her long voyage.

Death Of Edward Hipwell. Police Sergeant John Hipwell received word on Saturday of the death in Philadelphia of his only brother, Edward Hipwell, in the 73rd year of his age. The late Mr. Hipwell who had visited this city on several occasions had carried on a large carpet business in Philadelphia, but he retired several years ago. He left a widow and five children.

Johnson Piano Co. Has Assigned. The W. H. Johnson Piano Co., of Halifax, with a branch in this city, have assigned for the benefit of their creditors, to George B. Faulkner, official assignee, of Halifax. J. King Kelley acting for the official assignee, entered the record of the assignment here on Thursday. A statement of the company's affairs will be ready by Wednesday and a meeting of the creditors has been called for Monday, June 6th.

Fire in Gibbon's Coal Sheds. What might have developed into a serious blaze was discovered in J. S. Gibbon & Co.'s coal sheds on Smythe street about 10 o'clock last night. An alarm was rung in from box five and the department found little difficulty in extinguishing the fire, although considerable damage was done to the building. A motor engine which was used in the building was also slightly damaged. The loss is said to be fully covered by insurance.

City League Players Barred. Hereafter all players who have taken part in the city league games will be permitted to play in the intersociety series. The decision was reached at a meeting of the executive of the society league held Saturday night. It was also decided to place a cover over the players' benches. This will be a new departure for the league and will fill a much felt want. This evening on the Shamrock grounds, the St. Josephs and A. O. H. will play.

The Secret of Scottish Success. Rev. R. E. Knowles, of Galt, Ont., will deliver a lecture in St. Andrew's church this evening on the auspicious of the Women's Foreign Missionary Society, on the subject of the Secret of Scottish Success. The fact that Dr. Knowles is the pastor of the largest Presbyterian church in Canada is an indication that he is well qualified to lecture on such a theme and those who heard him in St. Andrew's church on Sunday and before the Canadian Club are looking forward with pleasant anticipations of his address.

E. D. C. Supervised Playground. In order that the scores of little children who spend every evening on the Every Day Club playgrounds may be under proper supervision, the club has engaged the services of Miss Kerwell, who has had much experience as a teacher, to be on the grounds every fine evening from six o'clock till the closing hour. Parents will thus be assured that the little ones will be in safe hands, and will be sent away in time to get home before dark. The children have their own corner in the spacious field and are not at all interfered with by ball games or other exercises. Mothers may safely send the boys and girls to these grounds for an evening's play of two hours or more every fine day.

Miss Rogers Appointed. The St. John Society for the Prevention of Tuberculosis, has made arrangements to send Miss Rogers of the Bellevue Hospital, New York, where she will take a three months' course of instruction in the treatment and care of consumptive patients. Miss Rogers will leave for New York on Saturday. On her return she will be employed by the society to visit the sick in their homes, give them the benefit of her special training, and point out to relatives the best methods of preventing the spread of the disease.

Ferry Employee Injured. Charles Dykeman, an employe of the ferry department, was painfully injured yesterday. About 11 o'clock yesterday morning one of the davits holding the Moberg broke and was left on the deck until the afternoon. In removing the davit Dykeman was struck in some way and knocked overboard between the boat and the pier. He was badly cut about the head and bruised on the arm and shoulder. Dr. W. L. Ellis was summoned and attended Dykeman on the wharf. Six stitches were necessary to close the wound in his head and he was then taken to his home on the corner of Ludlow and Guilford streets.

AGENTS OF THE WHITE SLAVE TRAFFIC AT WORK IN ST. JOHN

The Standard Possesses Definite Evidence That Nefarious Trade is Being Carried On by Two Women—Three Girls Stopped on Main Street on Saturday—Alluring Offers to Go to Boston.

Representatives of that world-wide syndicate through which the white slave traffic is carried on are at the present time engaged in St. John. This has at different times been mentioned in paragraphs sent here from other cities, but up till the present the authorities here have never been able to secure anything very definite. The Standard is today in possession of the facts and will give them to whatever responsible organization takes up the work of bringing these criminals to justice. For the time being the names and certain other information are withheld, as the publication of every detail might interfere with the work of those who may hereafter interest themselves in the matter. Just now it is sufficient to say that this paper yesterday obtained sufficient information to warrant prompt action on the part of the police.

Two Women at Work. On Main street, near the corner of Hill street, the agents of the organization are to be found. They consist so far as has already been learned, of two women, one of these being perhaps sixty years of age, the other in the vicinity of twenty five. These two, working together are in the habit of accosting young girls and young women on the streets and elsewhere and by alluring promises endeavoring to persuade them to leave their homes and go to the United States where, they are told, they will be given pleasant employment at almost any wages they may ask. On Saturday, The Standard knows for absolute truth, three young women were held up in this way. One of them was almost dragged into the place where these two women live, she was told that Mrs. May who lives in Boston had until recently a good girl in her employ, but that this girl had left and that another was wanted to take her place. Specious Arguments. Whoever accepted the position would have the use of three auto-

TO ORGANIZE COUNCIL FOR BUILDING TRADES

Delegates from Unions Interested Will Meet on Wednesday—Move to Secure Employment of Union Labor.

A meeting of delegates from the various building trades unions will be held in the Market building on Wednesday evening, for the purpose of organizing a building trades council. The carpenters and joiners, the bricklayers and masons, and the painters appointed delegates to attend the meeting some time ago, and at their last meeting the sheet metal workers elected A. Winchester, W. Wannacotte, J. S. Brown and the president of the union, J. O'Brien as delegates. At present the plumbers and stone cutters have no unions in the city and it was proposed to make an effort to organize the men in these trades as soon as the council can make the necessary arrangements. Speaking of the purposes of the organization to be formed this week, a trade union official who has taken an active interest in the movement, told The Standard that there was no immediate intention of taking up the question of securing an increase of wages, that matter might engage the attention of the council some time in the future, and there would be no move to embarrass master builders who in taking contracts for the summer had figured on the prevailing rate. The council would, however, take up the question of securing recognition of the various unions, and having all work in connection with the construction of new buildings performed in so far as possible, by union men. "The object of this movement," added the official, "is not to crowd anybody out of employment, but to oblige every man employed in the construction of buildings to join the union of their trade."

TEACHERS OF LUDLOW ST. S. S. IN ANNUAL MEETING

Total Enrollment of 392 Scholars Reported—Large Increase Over Previous Year—\$455 Raised—Officers Elected.

The annual meeting of the Ludlow street church Sunday school teachers was held yesterday afternoon, with the superintendent, R. Hunter Parsons in the chair. Mr. Parsons in his address to the officers, referred to the remarkable growth of the school during the past few years, and to the fact that the year ending was the most successful since its organization, about fifty years ago. The report of the secretary showed a total enrollment of 392 for the year, 69 having joined the class during the past twelve months. There are at present 18 organized classes, accomplishing splendid work. The average attendance for the year was 196 as compared with 136 for 1909. The present enrollment in the temperance department numbers 142. Upwards of 100 members of the class became church members during the year. The report of the treasurer showed that \$455.95 was raised by collections

PARENTS RESPONSIBLE FOR YOUNG CRIMINALS

Rev. W. R. Robinson at E. D. C. Makes Strong Charges—Newfoundland Willing to Join Industrial College Scheme.

In a slashing address at the Every Day club, last evening, Rev. W. R. Robinson described the conditions in St. John which develop youthful criminals. He pictured incidents at the police court and jail, and laid the lash of severe censure upon parents primarily and the citizens secondarily for failure to provide playgrounds and surround the children with healthful influences to develop manhood and womanhood. Mr. Robinson pictured some mothers as hugging little dogs or leading them on the street while their children were left to the care of ignorant servants. He told of seeing six little boys in the police court and not a parent in sight. In the course of his address he dealt with the home, the church, the school and the neighborhood as the four factors that make or mar the child. It was a remarkably strong and incisive address and the speaker was several times interrupted by applause. Rev. Mr. Robinson will leave on Tuesday for Halifax to confer with Judge Wallace of Nova Scotia on the question of an interprovincial industrial college for delinquent children. Chief Justice of Newfoundland recently expressed in a letter the desire of the ancient colony to join with the Maritime Provinces in the establishment of such an institution.
