and the Standard, will please insert the above for four weeks.

At a Special Meeting of the Board of Directors of The Central Bank, held at the Bank, on Friday afternoon the 25th November, 1836—

**PRESENT.**  
Mr. Beckwith, Mr. J. T. Smith,  
Bedell, O. Smith,  
Dibblee, Jas. Taylor.

Mr. Taylor being called to the Chair, the following Resolutions were severally made and passed, viz:

1. **Resolved,** That in the month of August last, sundry applications having been made to this Board to discount paper for the purpose of paying Stock into the Central Fire Insurance Company, and the Board having taken into consideration the advantages which under judicious management would be derived to the public from the institution of the said Company in Fredericton, did unanimously resolve to afford every facility (consistent with the safety and welfare of this Bank) to the Stockholders of that Company to pay in their Stock, by discounting without exception all safe paper that should be offered for the purpose of paying such Stock, and that this Board after receiving the pledge mentioned in a succeeding Resolution, did freely and unreservedly discount such notes at a time when, for various reasons, they were almost uniformly rejecting what is called new paper.

2. **Resolved,** That this Board, impelled by the instinctive principles of self preservation and by a due regard to the interests of the Stockholders of the Central Bank, being desirous of an assurance that the assistance which they were about to afford to the Central Fire Insurance Company should not be used as a means of injuring the Central Bank, did, at their President, Henry G. Clapp, Esquire, request a conference with the Board of Directors of the Central Fire Insurance Company, which being agreed to, a simultaneous meeting of both Boards was held in separate apartments in the Central Bank on Monday the 22d August, 1836.

3. **Resolved,** That a special meeting should be called in the second Resolution, at which were present—

H. G. Clapp, President,  
Mr. Beckwith, Mr. O. Smith,  
Bedell, Taylor,  
J. T. Smith.

Mr. Simpson, President of the Fire Insurance Company and representative of their Board of Directors (being also a member of the Board of Directors of this Bank, did on the part of the Board of Directors of the Central Fire Insurance Company, lay before this Board a Resolution made by that Board respecting the probable appropriation of their capital stock (£10,000) which this Board did not consider satisfactory, and that Mr. Simpson thereupon afterwards brought in another paper in the form of a Resolution, the purport of which was that the said funds (£10,000) should remain in this Bank as an open deposit, that no specie should be demanded from this Bank on account of the said sum, that it would be let out in sums of £200, £300 or £400, on bonds, mortgages or otherwise and that it should not be used in any manner prejudicial to the interests of the Central Bank; to which Resolution or proposition this Board did agree, considering the same perfectly satisfactory.

4. **Resolved,** That some of the Directors of this Bank are also Stockholders of the Central Fire Insurance Company, and were present at the adjourned meeting of the Stockholders of that Company held yesterday—that the Resolutions read from the Books of that Board on the subject mentioned in the third Resolution now passed was not the same Resolution or memorandum which was finally submitted to this Board by Mr. Simpson on the 22d August, but in their opinion is the same Resolution which was first submitted to this Board, and which was by them unhesitatingly rejected.

5. **Resolved,** That this Board having no access to the Books of the Central Fire Insurance Company, could not possibly ascertain whether the Resolution or proposition which on the part of that Company, was submitted by Mr. Simpson as the organ and representative of their Board, had not been and would not be entered upon its Books, and considering that such proposition or Resolution had been presented at that Board by its own Members without the agency of any member of this Board (except Mr. Simpson), this Board were fully justified in believing that it had received the full approval of the Directors of that body, and should be taken as their solemn act and deed, by which they would be bound in honor and good faith; and the Directors of the Central Bank could not for a moment have entertained the suspicion, that any evasion of the understanding thus established between both bodies was intended by either.

6. **Resolved,** as a self evident proposition, That the Directors of this Bank would not have discounted so much paper for the payment of Stock in the Central Fire Insurance Company, without a distinct and positive pledge that the money thus loaned by them should not be used to the prejudice of this Institution because, independently of other considerations, they would by such conduct incur the charge of deliberate fraud towards their constituents, and that the amount of interest to be received by this Bank for the discount of such paper could be no possible inducement for such discount, as it could not for one moment be put in competition with the great and manifest injury which must inevitably be sustained by the Central Bank thus directly furnishing the capital stock for a rival Bank.

7. **Resolved,** That the resignation by Mr. Simpson of the Presidency of the Central Fire Insurance Company was in the opinion of this Board, a measure imperatively forced upon him as a man of honor and integrity, because his continuance in office after the passing of an appropriatory Resolution of that Board, providing for the investment of £1000 of its funds in a New Bank in Fredericton, which was in direct violation of the specific pledge given to this Board by Mr. Simpson, would have implicated him as a consenting party to such violation of the good faith so pledged to this Bank.

8. **Resolved,** That the resignation of Mr. Simpson was not advised by any member of this Board now present, and this Board are fully convinced that it was not advised by their President Mr. Clapp, nor by any other person concerned in the management of this Bank, but was Mr. Simpson's spontaneous act, proceeding from a conviction that such a measure was inevitably necessary for the vindication of his own character as a supposed party to the proceedings of the Board of Directors of the Central Fire Insurance Company, and that neither Mr. Simpson's determination to resign nor the cause of such resignation, was by him either directly or indirectly communicated to any member of this Board until after his resignation had been handed into the Secretary of the Central Fire Insurance Company.

9. **Resolved,** As the opinion of this Board, That the conduct of Mr. Simpson throughout the whole of the proceedings referred to in the foregoing Resolutions, has been distinguished by the highest principles of honor, integrity and good faith, and demands the full approbation of the Board.

Published by order of the Board of Directors.

**SAINT JAMES PARISH SCHOOLS.**

Mr. Editor.—When I, with my neighbour Mr. J. Maxwell, undertook some time ago to write and offer you for publication an account of the rising of the Church in this place, we received a severe censure from that giant, the Rev. Mr. McIntyre, who, in a manner totally inconsistent with the character of a clergyman, but perfectly consistent with his character as a man of letters, attempted to hold up to ridicule and scorn, every person

connected with the transaction, and maintaining at the same time, that we were unfit to write for any public paper. Although there may be some truth in this last observation, I shall attempt, even at the risk of again incurring the displeasure of his Reverence, to lay before the public a plain statement of facts relative to the Schools in this place.

I am one of the inhabitants of the Eastern School District, in the Parish of Saint James, a native of this County, a member of the Episcopal Church, and the son of a Captain in the 42d Regiment. I state this for the purpose of showing that the epithet of Alien, Infidel, &c. &c. is not applied to some of my worthy neighbours, but, in no way, either attach to me, or be supposed to reflect my veracity.

In the district we have a convenient public School-house and plenty of children to fill it. Under the former School Laws, the trustees hired the teachers, and because bound for their salaries; but under the present Act, the people of the District must hire and be accountable to the teachers themselves. We have therefore, invariably since the present Act came into operation, hired our own instructors.

The Rev. Peter McIntyre was appointed a Trustee before his arrival in this Province, and has, ever since that time been continued. Since that time we have had several teachers in the District whose Schools he has examined and whose bounties have been obtained by his certificate. In the fall of 1835 the School was vacant and a licensed Teacher, of the name of Dudley, offered his services. His subscription paper was in the course of signature, when we ascertained, to a demonstration, that he was a habitual drunkard, and we therefore rejected him as an improper person to teach our School.

Another District of our Parish, continued for a term and received his Government allowance by order of the Trustees. After his departure a Miss Rogers, a native of the adjoining Parish of Saint David, offered her services as an Instructor. She had taught six months in the adjoining District, and her School was closed in consequence of the failure of her employers to finish a School house then in progress. Miss Rogers had a license and had the name of being a good teacher and she was hired to teach for six months in our District, with the unanimous consent of the inhabitants; and as transactions and proceedings of a very extraordinary character were ultimately connected with this affair, I shall submit a copy of her agreement, and close this letter, not wishing to trespass further on your columns at this time.

We the Subscribers whose names are hereunto annexed do severally agree with Hannah Rogers, a Licensed Teacher, to teach a School in the School-house near Moore's Mills in the Parish of Saint James for the period of six months, and we severally agree to pay 6d. per week for the tuition of each Scholar for which we shall severally subscribe, also to board the said School Mistress and to furnish good and sufficient fire wood in proportion to the number of scholars aforesaid and to furnish each scholar with such suitable books and stationery as may be required.

(Signed) ISRAEL PEARS, and others.

Saint James, Nov. — 1835.

I Hannah Rogers do promise and agree to teach a School for the space of six months in the aforesaid School-house, on the condition herein before specified; I promise to teach the usual branches required by Law to be taught in our common Parish Schools, to comply with such lawful instructions and regulations as I may from time to time receive from the Trustees, to devote my whole attention to the pupils committed to my charge, during the number of hours it is customary to teach each day; and to do all in my power, not only to advance them in useful knowledge but also to suppress all vice, immorality and misconduct that may appear among them while under my charge.

(Signed) HANNAH ROGERS.

I am, dear Sir,  
Your Obedt. Servt.  
THOMAS MITCHELL.

**APPROPRIATIONS FOR ROADS.**—It should be remembered that in all cases where the Commissioners of High Ways neglect to make their returns to the Clerk of the Peace, showing that the Statute Labour has been performed and the delinquents prosecuted in the several parishes, no money will be given by the Legislature for want of the requisite certificates.

Individuals having any special business to entrust to our Representatives should do so forthwith: we give this hint as we have often heard members blamed for neglecting what was not their business, unexcused, to attend to.

# ADDRESS.

THE THIRD VOLUME of the STANDARD was completed on the fourteenth day of last month. As it is our intention to remodel the paper, in some measure, and to make such improvements in the next volume as circumstances will permit, we beg, on this occasion, to say a few words to our Subscribers, our Friends, and the Public.

We were to take a view of our past labours, we should have to encounter an obstacle incident to our nature, which it is excessively difficult to surmount—that of pronouncing on our own acts, with impartiality. We can rarely "see ourselves as others see us," and shall therefore abstain from the attempt, content to abide by the decision of those who, "Still finding like a friend," "Something to blame, and something to commend," may be supposed to exercise an unbiased judgment.

When we confess that the results of our labours have not tallied with our anticipations, we must also confess that many causes conduced to render the paper less useful and attractive than it might have been, and among these the most prominent has been the want of sufficient support. It so happened, that when we undertook the publication of the STANDARD, this Province was in a ferment of political excitement. The press teemed to redundancy with severe articles on the state of affairs, on official corruption, and political intrigue; and not content with employing the most acrimonious invective in discussing party questions, it was hardly considered improper to resort to the grossest personalities, and the virulent appetite of the public seemed to revel in their ardour. We attempted to take a neutral course, but soon found that few readers were disposed to accompany us that way, so that we neither had the friendly countenance of the Conservatives on the one hand, nor the bold support of the Reformers on the other. To give a distinctive character to a paper, in Editor's sentiments should be fearlessly expressed, and in this respect we shall be more explicit in future, at the same time promising that we shall lay before our readers the opinions and designs of all parties, however much any of them may be at variance with our own convictions—"to hold, as 'twere, the mirror up to nature; to show virtue her own feature, scorn her own image, and the very age and body of the time, his form and pressure."

As to the proposed improvements in the next volume of the STANDARD, the first number of which will be issued on the fifth day of the New Year, we may now be allowed to say a few words. The proceedings of the Provincial Parliament are at all times an indispensable requisite for the columns of our paper; but in the approaching Session, the transactions which will attend the concessions made by His Majesty's Government to the wishes of the House of Assembly, will possess an interest that will render every step in their progress anxiously observed and carefully examined—as well by those who think that a gloomy and portentous cloud hangs over the destinies of the Province, as by those who expect from them the sunshine of prosperity, happiness and peace. We shall make every exertion to procure the earliest intelligence on this and all other subjects, and shall detail it with care and impartiality.

Many of our Subscribers desire that we should give a selection of those amusing and interesting stories which are so generally adopted by the weekly prints: with this we mean not only to comply, but are in possession of several originals which shall be interspersed. We invite those who have a turn for composition to send us their productions for insertion under this head: It is the most simple way in which they can acquire a true knowledge of their powers, for any production of merit will receive the decisive test of superiority by being copied into most of our Exchange Papers, and thence of infatuation. Should it remain unnoticed, the author's mortification is confined to himself—"stat nominis sub umbra."

The great and ultimate object of this Province must necessarily be the extensive cultivation of its soil, wherefore anything that tends to improvement in the theory or practice of the Farmer—to conduce to his intelligence, and to administer to his comforts, should never be neglected. Possessed of ample materials and promised the aid of several friends whose essays the public have already approved, we intend to dedicate a column exclusively to the interests of Agriculture.

The prices of produce not only in the markets at home and abroad, but of a variety of articles in which our population are interested, would be a desirable matter to record in the paper. The Mercantile community are generally provided with such intelligence, of this kind, as peculiarly concerns them, but it would often be a benefit to our Traders to know the value of commodities in places accessible to their enterprise; besides, it is gratifying to most people to inspect the prices current in every part of the world.

It only remains that sufficient patronage should be extended to us to enable us to carry these views into effect by conducting a paper regulated by them. The County of Charlotte alone is able to accomplish it, and we shall earnestly it for that purpose. If we cannot command success we shall endeavour to deserve it. We have hitherto abstained from making public appeals to our Subscribers on the state of their accounts, but it is now absolutely necessary to remind those who have taken one, two and three years credit, that although their individual debts are small, the aggregate is a serious thing to us and we earnestly request them to pay their amounts to our Agents in their respective districts, as the wide space over which they are spread would cause an enormous proportion of the whole to be swallowed up in the expense of sending a person to collect them. Those who neglect to comply must blame themselves if they be put to the cost of being sued. We are now in the course of publishing Extra Numbers to this third Volume to be continued to the end of the year, and which, in gratitude, we present gratis to our paying Friends, but we cannot afford to do so to others, Paper is an expensive article

and must be promptly paid for by the Publisher, how unfair then is it in individuals to make him pay and print without paying for them, the price of a newspaper containing the information and the material are too expensive to admit of long terms. We believe the greater part of our Subscribers will take care to receive the Standard of the volume free of old scores.

The inhabitants of British Guiana have petitioned the King in favor of the St. Andrews and Quebec Rail Road. The petition was presented to His Majesty early in October, and very graciously received.

The Rev. RICHARD VERNER has arrived in St. Andrews and is appointed to the Pastoral charge of this Parish, under the Roman Catholic Diocese of Charlotte Town &c.

**ASSEMBLY DEBATES.**—It may be recollected that the sum of a hundred pounds was appropriated last session, to be paid this season towards publishing the reports of the Debates in the House of Assembly, provided two competent secretaries were employed to take Mr. F. D. Mitchell, published the "Legislative Reports" on his own account last year, and we believe was very poorly remunerated. He intends to follow up the undertaking this session, and as the members of the assembly which will be taken into consideration are of high interest to every member of the community, we would recommend Mr. Pierce's daily Journal to general perusal. It will be, as it has been printed in a neat and convenient form (at a dollar a volume for the season) and embody the speeches of all views of the members on every subject that comes before them. Subscribers names put at the Post Office, to wish us, will be forwarded to Mr. Pierce.

**THE DELEGATES** are to be invited to a public dinner in St. John, to be completed on the 10th inst. to return, and on the next day to leave for their delegation. As it is intended to be a sumptuous entertainment, we will not doubt get a full account of it, which renders it unnecessary for us to say anything more of it at present.

**THE ENGLISH NOBILITY** talk of making trips to America, as they formerly did to France or Italy, and intend to make long-extended tours in the States as they went about to make in the grand tour of Europe. It is said that many noble families are so much attracted in America "where the good things flourish more greenly than their brethren"—Lady Byron, and Lord and Lady King (Ada Byron) will sail for New York in February and will sojourn in the land of liberty for some years.

We observe by a letter in the St. John Courier of the 3d inst. that the Rev. Dr. L. Wiggins has been compelled by the infirm state of his health, to retire from the Pastoral charge of Grace Church, Portland, where he had ministered for the last three years. On taking leave of his Parish, sufficient interchange of the most friendly sentiments passed between the Reverend Gentleman, his Wardens and Vestry.

Mr. FORRESTER, the American actor, has been well received in London, in the bustle of Drury Lane, in the part of *Spenser*, which is the chief character in the *Gladiator*, written by Dr. Ford, &c. &c. is also an American. The leading Journals have taken different views of his talents, but it may be gathered from their general tenor that Mr. Forrester is considered to possess high qualities for the stage. His *Spenser* will be better exemplified in the heroes of Shakespeare and the standard characters of the modern drama, and he will receive deep examination but simple justice from the London theatrical critics. He was presented with a valuable snuff-box, at the close of his second appearance, by the Performers of the Theatre.

**Deaths.**

On the 25th ult. Mr. DAVID FRASER, aged 83 years, Mr. Craig was a native of Spynie, Scotland, was born in the year 1753, and emigrated to this County in 1783. He has left behind him 7 children, 5 grand children, and 37 great grand children, direct descendants in all, 121. His character, unswerving, practical faith as a Christian, and retained the affection and esteem of all who knew him.
