## FROM THE STATES.

**BARCOON, Sept. 2.**  
Hurricane evacuated Fredericksburg on Sunday, and fell back to Arquia Creek, where the gubboats protected him.  
Since Pope left the Rappanock 15 separate battles have been fought.  
The New York Tribune accusing McClellan of treachery, Government ordered that establishment to be closed.  
On Sunday the Federal army were five miles from Centerville, in battle array.  
Confederates in Western Virginia have taken hucknann and threaten Clarksville.

Great alarm is felt at Cincinnati since the Federal reverse in Kentucky. Business is suspended; no male citizens are allowed to leave the city.  
General Wright has assumed command of Cincinnati, Newport, and Covington; and martial law is proclaimed.  
The Federals evacuated Paris, Kentucky, falling back on Cynthiana.  
Porter's James River flotilla came down from James River and is going up the Potomac.

Colonel Roberts is safe.  
**Sept. 3.**  
Banks' command, which was supposed to be shut off, arrived at Centerville on Sunday.  
McClellan is assigned to fortifications and troops for the defence of Washington.  
All the government Clerks are to be organized into Companies.  
A thousand surgeons reached Washington on Monday.

Two thousand three hundred Federals wounded have been removed, under flag of truce, from recent battle fields, so far.  
Stonewall Jackson made another attempt to cut off Federal trains on Monday, near Fairfax Court House. Severe fight ensued, and enemy repulsed with heavy loss.  
Federal Generals Stevens and Kearney were killed.  
Col. Fletcher Webster is dead.  
Considerable complaint in the army of the inefficiency of certain Generals.

Major Lefferts routed a thousand guerrillas in South East Missouri, capturing equipment.  
**Sept. 4.**  
Banks command, which was supposed to be cut off, arrived at Centerville on Sunday.  
On Tuesday afternoon considerable fighting occurred between Fairfax Court House and towards Washington.  
Hooker's and Porter's commands held the enemy in check while Federal army moved into fortifications on Virginia side, protecting Washington.

On Tuesday morning the enemy captured a train of one hundred wagons of commissary stores between Fairfax and Centerville.  
Works of defence in Washington are in excellent condition. No panic exists, but such solicitude is felt regarding the future.  
Gunboats lie in Potomac.  
It is reported the enemy are beginning to wear their chain bridge.  
Enemy's programme of inaugurating war in Maryland is in process of fulfilment.  
Cincinnati is still excited, but the exact whereabouts of the enemy is not known, they occupied Lexington, Kentucky, on Tuesday.

**THE INDIAN WAR IN MINNESOTA.**  
CHICAGO, Ill. Aug. 28.—A despatch from Des Moines, Iowa, to-day, says arrivals from Fort Dodge bring reports of the destruction of Springfield, on the Minnesota State line, by the Indians. Mmet and Dickson counties are reported to be in danger. The settlers are fleeing south to Fort Dodge and other places of safety. A gentleman from Fort Dodge is now here to procure arms and ammunition.  
St. Paul, Minn., Aug. 28.—Ten whites were killed and 61 wounded at New Ulm at the fight on Sunday. The Indians fought bravely and recklessly. Their loss was considerable. On Sunday our small force, Major Flanagan, fearing that he could not stand another attack with drew to Mankato, leaving the town to the mercy of the Indians. It is reported that between 500 and 600 Indians were in the fight. Col Sibley's command probably reached Fort Ridgely yesterday.

**SUPPOSED MURDER—CORONER'S INQUIRY.**  
Yesterday at half past twelve an inquiry was held by Wm. Bayard, Esq., Coroner, on view of the body of W. H. Hillis, of Rockland, Me., who is supposed to have come to an untimely death yesterday morning about two o'clock.  
When we entered the Court a colored lad named Clement Peter was giving evidence. From his statement it appears that John

Collins, watchman on board the brig *Eagle's Wing*, induced Peter to leave the vessel and go up the wharf for the purpose of taking something to drink. On their way returning to the vessel, Collins offered Peter money for the purpose of inducing him to desert from the vessel. Peter refused to do so; whereupon Collins called him a d—n fool; Peter responded by calling Collins another d—n fool, when the latter made an attack upon Peter, and he calling for help, Mr. Hills, (whose yacht was lying at the same wharf) immediately upon hearing the cry of "murder," left his vessel to ascertain the cause of the disturbance. Upon coming on the wharf, Collins made a pass at the colored boy Peter, who instantly stepped behind Hills, who was standing near its edge, and by the blow was knocked off the wharf and fell on the deck of the "Eagle's Wing." In consequence of the alarm given by the lad Peter, a private watchman named Wallace came to the rescue, when Collins immediately struck him with a belaying pin, which blow brought him on his knees. Shortly after two of the City police arrived and arrested Collins and Peter.

From Capt. Watson's evidence, it appears that both of the Parties were in liquor.  
The evidence throughout was contradictory.  
The jury returned a verdict of "Manslaughter" against Collins. His trial comes off next November before the Supreme Court.—[New Brunswick.]

**Arrival of the "Asia" at Halifax.**  
HALIFAX, Sep. 3d, 1862.  
The "Asia" arrived at 8 o'clock this Wednesday morning. She left Liverpool at 9 a. m. on 23d and Queenstown on the afternoon of the 24th.  
Australasian at Queenstown 7 p. m. 22d and was off Liverpool when Asia left that port.

Ship Queen of the Exe arrived at Liverpool on the 22d, from Matamoras, with 400 bales cotton, and \$160,000 in specie from Confederate States.  
Dublin correspondent of Times, writes on 21st.—Tuscarora it appears has been dodging about the coast on the lookout for Confederate vessels. She put in Kingstown with the view of getting coals, and being unable to accomplish this there, partly in consequence of return of Ajax, she weighed anchor and steamed with all speed to Belfast Lough, where, according to previous arrangement, she received a supply of coal amounting to a hundred tons. Having anchored outside jurisdiction of Harbour Commissioners, the Collector of Customs at once took the matter up and served a notice on Federal Captain to depart within 24 hours. Revenue Cutter was placed alongside Tuscarora to prevent further violation of neutrality laws and at the same time the matter was reported to the Admiralty.

Belfast people ask what would have been done if Federal Captain had refused to leave the Lough and had persisted in taking coals. Times editorially argues that although the latest advice from America show an apparent improvement in financial matters by a diminished premium on gold, &c., the time must come when people of the United States will really understand the position of their own finances, and when that time arrives it doubts not that principles which so often been verified in bankruptcy of great European monarchies will assert themselves with equal vigor to punish financial obloquies of American Republic.

In another article the Times depicts latest American advices in most gloomy characters, and considered that on all sides political horizon grows blacker and blacker, nor can any chance of peace be discovered except in exhaustion or impotence of belligerents. If Federals were not so blind they would see what all Europe has seen from beginning, but the truth, it seems, has yet to dawn if not on the people at any rate on the Government of Federal States.

Morning Herald speculates on effect of drafting, and thinks it will try the temper of Northern people more hardily than it has ever been tried yet, and shake to its very foundation the tottering edifice of the Union. It says New Yorkers have less reason than other Americans to struggle against conscription. It is their last hope in absence now of any nobler or worthier object. It is for the supremacy of their city and to avert its commercial ruin that war is being prosecuted which will convert America to a desert.

Queen Victoria and junior members of the Royal family were to embark at Gravesend for Continent on the 26th.  
English politics dull. Palmerston had been figuring in public at Dover and Bar-

derby at Manchester, but neither said anything of political import.  
Harvest operations are progressing more favorably under improved weather.  
FRANCE.—French Minister of War had freighted some English steamers for Mexican Expedition.  
Italian crisis excited much interest in Paris, and indications of Napoleon's policy were eagerly awaited.  
M. Benedetti was about to return from Paris to Turin.

Constitutionnel, after declaring French flag will not recede before any menaces, says that to crush fools who would not stop before the flag which has given freedom to Italy might be a painful necessity imposed by honor, but it would not be a solution of the military question, and would not settle the political question.

Paris correspondent of Times believes, notwithstanding Constitutionnel's denial of the statement, General Lavallée has recently given Pope some such assurance of support of France's represented.  
Bourse flat, 68 75.

ITALY.—The official Turin Gazette, on 21st, published a decree proclaiming state of siege in Sicily, and nominating General Cugia Extraordinary Commissioner. Cugia forthwith issued the following proclamation:—  
Sicilians.—Notwithstanding the words of the King, vote of Parliament and forbearance of Government in giving time to deluded people to return to their duty, armed bands of Garibaldi continue to occupy important towns; the rebellion is thus opened, and Government has resolved to put an end to this state of things, so compromising to the destinies of Italy.

Every armed band or tumultuous meeting will be dissolved by force. The liberty of the press is suspended. Commanders of troops of divisions of Palermo, Messina and Syracuse, will assume both civil and military powers.

It is reported that Garibaldi appointed Nicotera prefect of Catania, and it is asserted that a considerable number of officers of the Royal Army declare they will resign rather than act against Garibaldi.  
Paris correspondent says that as General Cugia with 30,000 troops did not prevent Garibaldi from reaching the seaport of Catania, inferences are freely drawn that Government dares not throw any serious impediment in Garibaldi's way.

The Discussion asserts that Cialdini has been appointed Civil and Military Chief of Sicily with fullest powers. It is believed that Admiral Persano would assume command of fleet.

Official Turin Gazette 23d publishes the following report addressed by ministers to the King:—Garibaldi has raised the standard of rebellion. Your Majesty's name and that of Italy serve only to vent intentions of European demagogues. Cries of "Rome or death" are senseless insults to our glorious ally and retard the only possible accomplishment of our unanimous wishes, as Garibaldi remains deaf to your voice and unmoved by the thought of lightening up Civil War.—  
Energetic action has become necessary. The Rebellion of Garibaldi imposes on us the necessity of treating Country occupied by Volunteers as country occupied by an enemy. We, therefore, advise your Majesty to proclaim a state of Siege. The Ministry accepts responsibility of the measure.

Italian Parliament prorogued Aug. 21st.  
SPANISH.—Madrid journals almost unanimously continue to denounce terms in which Napoleon addressed General Concha when he presented his credentials.  
BELGIUM.—Senate adopted Commercial Treaty with England, 26 to 6.

TURKEY.—Great agitation prevailed at Cettigne, in consequence of the acceptance of Omer Pasha's ultimatum. Mirko had protested against it.  
POLAND.—Sentence of death against Jarosrogowski, who attempted to assassinate Grand Duke Constantine, was carried out by hanging on the 21st.

INDIA.—Bombay Mail of July 26, and Calcutta of 15th, reached England. American portion goes per Asia. News generally anticipated. Want of rain was unfavorably affecting crops, &c.

British North American Association.

A meeting of gentlemen connected with Canada and the British North American Colonies was held (Aug 13th) at the London Tavern, for the purpose of promoting the object of the Association, and forwarding the interests of the Intercolonial Railway.

The Chairman stated that the Association was formed for the purpose of affording a place of meeting and reunion for gentlemen from the North American Colonies and interested in the trade therewith; an institution of this kind could not be expected to succeed unless it could be made practically useful.

Mr. Kinnaird M. P. moved—"That this meeting has heard with great satisfaction that a convention is to be held at Quebec early in the ensuing month of delegates from the several British North American provinces, to consider the liberal proposal made by the Duke of Newcastle in his despatch of the 12th day of April last, with reference to the International Railway, and it desires to express the hope that the necessary measures for carrying out this important national undertaking will be then adopted."

Mr. Hennessey M. P. seconded the resolution which was carried unanimously. Mr. Galt addressed the meeting at some length and said that the Canadians were gratified to see the warm interest felt by the Association in the Intercolonial Railway.

That this meeting desires to record its appreciation of the statesmanlike policy of the Duke of Newcastle, as Colonial Minister and also its thanks for the ready assistance he has all times afforded to any matter in which the interests of the British North American Colonies are concerned.

This resolution was seconded by Hon R. B. Dickey of Nova Scotia who in course of his remarks said that he did so on two grounds, first because the Duke of Newcastle was the only Secretary of State who had ever visited the Province in his official capacity, and secondly because the great interest which his Grace had taken in the question concerning the Intercolonial Railway.

Mr. B. Robinson supported the resolution. He entirely approved of the competition of the Halifax and Quebec Railway, and saw very clearly that it would be the means of curtailing the military expenditure of the colony and of saving the expense of sending out troops from England.

The Hon B. Wier, proposed the next resolution, and in prefacing it he said that if the money required for the proposed railway were raised by the North American Provinces, they could not obtain it under 6 or 6 1/2 per cent; but with a British guarantee they could get it at 3 1/2. He then moved the following:

Resolved That the gentlemen now present have pleasure in recording their appreciation of the valuable services which have been already rendered to their interest by this Association, and they pledge themselves to promote in their several provinces the objects contemplated by its operations.

Mr. John Boyd in seconding the resolution said that the citizens of St. John had expended \$2,000 in providing B tracks for the 6,000 British Troops, and in giving them a series of receptions and military entertainments which were unparalleled in the history of the British Army.

Mr. G. F. Young moved "That this meeting is firmly convinced that the almost universal desire of the British public is to preserve and strengthen the bonds which unite the British Empire with its North American Colonies; and that relying with confidence on the reciprocal disposition of the inhabitants of these Colonies to cultivate the most friendly relations with the mother country, it is of opinion, that while it is equally the duty and the interest of the Colonies to devote their utmost energies to the maintenance of their independence from all foreign interference, it is equally incumbent on Great Britain to render every reasonable assistance in furtherance of their patriotic efforts."

Mr. H. Seymour M. P. seconded the resolution which was carried unanimously. The proceeding terminated with the usual vote of thanks to the chair which was proposed by Mr. Scholefield M. P. and carried by Mr. E. Watkin, and carried by acclamation.

It is generally conceded in Washington that the Confederates are extending their lines into the Virginia Valley with a view of crossing into Maryland, and the impression still prevails that they will make the attempt. The position of the Federal army around Washington is identical with its position before the invasion of the Peninsula.

An individual reports that Jackson entered Leesburg and is pushing for Harper's Ferry, and that Longstreet is marching in the same direction. The Union men at Leesburg are escaping into Maryland. The Federal troops have partially evacuated Aquia Creek the gunboats remaining.

A captured Confederate mail confirms the report of heavy Confederate losses in the late battles including Gen. Elwell. Baton Rouge is not burnt, but the Federals have evacuated it, two gunboats only remaining of the town. Confederates threaten New Orleans, Breckenridge and Van Dorn, with a force variously estimated at from twenty to fifty thousand reported advancing on it, and Gen. Butler is making great preparations for the defence of the place.

grain aphid which made its appearance last year is also very numerous this season, and infests the grain fields, particularly oats, to an alarming extent. Mr. William Thompson, of Waltham, N. S., has sent to Halifax a quantity of potatoes, Early Whites, full grown, which are a portion of a second crop raised on the same piece of land this season.

Another slaver captured.—The Spanish schooner Conception was captured off the river Congo by a British cruiser, and sent to St. Helena, where she arrived on the 15th of July. She had 195 slaves on board, of whom eighteen died on the passage.

Buckwheat, when sown on rich ground will kill grass effectually. It must be sown as soon as the ground is ploughed. Buckwheat seems to be poison to other plants, and it is even known to destroy the roots of the grasses and herbs on which they feed. No insect touches buckwheat in the ground.

FROM THE STATES.

It is generally conceded in Washington that the Confederates are extending their lines into the Virginia Valley with a view of crossing into Maryland, and the impression still prevails that they will make the attempt. The position of the Federal army around Washington is identical with its position before the invasion of the Peninsula.

Confederates threaten New Orleans, Breckenridge and Van Dorn, with a force variously estimated at from twenty to fifty thousand reported advancing on it, and Gen. Butler is making great preparations for the defence of the place. Five thousand Confederates arrived at Boyd's Station on Friday.

Copper Ore.—There is now lying Leavitt's wharf a schooner having on board about 40 tons of Copper Ore, from which it is expected that between thirty and forty per cent of pure Copper can be extracted. This material was obtained from Simpson's Island, Charlotte County, about six miles distant from Eastport, Me. It is found in a narrow belt of land extending over a greater portion of the island. Much of it is like sand, except in color, and can be shovelled out without the slightest difficulty.

Gen. Pope is relieved of command at his own request, and will prefer charges against several Generals for disobedience of orders. Five thousand Confederates arrived at Boyd's Station on Friday.

Masonic.—Robert T. Clinch, Esq., has been appointed to the office of Deputy Provincial Grand Master of the Grand Lodge of Free Masons in New Brunswick, and the Registry of England, vacant by the death of A. K. Smedley Westmore, Esq. Mr. Clinch will doubtless discharge the duties of the office creditably alike to himself and the Fraternity.

Deck Load Law.—Intelligence has been received from England that a Bill repealing the 170th, 171st and 172d, sections of the Customs Consolidation Act, commonly known as the Deck Load Law, has been agreed to by Parliament, and received the Royal assent on the 29th July last. Hereafter vessels can carry unrestricted deck loads of deals and timber during any part of the year from the British North American Colonies to Great Britain.

Newfoundland.—The fisheries in Newfoundland, so far, have not been, on the whole, successful. Reports from various out harbors state that in some places the catch has been good, in others bad, and more indifferent. Altogether the catch will be below the average. The crops over the Island are reported very favorably of, except grain, which, it is feared will not turn out well.

With feelings of the most profound sorrow we learn that the report of Mr. Perley's death, alluded in the Courier last week, is confirmed by intelligence received from his son, Mr. George H. Perley; remains were interred at Forteau, on the coast of Labrador.—[Courier.

The Wheat Crop in Nova Scotia.—In various parts of Nova Scotia, so we learn from the Pictou "Standard" the weevil is very destructive this season, in some instances whole fields have been destroyed by it. The

NEW BRUNSWICK AND CANADA RAILWAY.—The Half-yearly General Meeting of Shareholders was held at the Company's Office, No. 5, Whitehall, London on the 21st day of August, F. Edwards, Esq. in the Chair.

The Report, which had been circulated among the Shareholders, was taken as read. On the motion of the Chairman, seconded by Mr. Maudsley, it was Resolved—That the Report, with the Statement of Accounts, and Balance Sheet appended thereto, be received and adopted.

On the motion of the Chairman, seconded by Mr. Field, it was Resolved—That the Directors be, and they are hereby authorized and empowered to make such further financial arrangements, by temporary loans, for meeting the liabilities of the Company, and for providing the necessary plant for the service of the Railway, upon such terms and as they may deem expedient.

Mr. Henry Maudsley, who had recently returned from New Brunswick and Canada, gave a short account of his tour, and reported the condition of the Railway, and the country served thereby, from his own personal observations. He also bore testimony to the necessity of an increase in the Rolling Stock.

On the motion of Mr. Field, seconded by Mr. Tegg, it was Resolved—That the thanks of the Meeting be given to Mr. Maudsley, for the information and explanations he has just given.

The New Bark, built by Mr. Oliver Ridout on Bay Side, is to be launched this day at high water. She is said to be a well built vessel and to be commanded by Capt. Walter Soellegrove of this Port.

Blackwood's Magazine for August has been received from Messrs. Leonard Scott, & Co., the American publishers, New York. The contents are:—Chronicles of Castlingford; Salem Chapel—Part VII, A Skye Lark, Castonians—Part VI, No. X.—On the Moral Effect of Writers, Victor Hugo's Last Romance, The Rights of Woman, Sermons, Across the Channel, Ten Years of Imperialism.

A telegraphic item comes from California stating that a waterspout burst in the sparsely settled portion of Los Angeles county on the 15th of August, fifty miles from the ocean, filling the long ravine with water fourteen feet deep. A man and a woman riding in a carriage were caught in the flood, and the woman and horse drowned. The man floated more than a mile to a place of safety.

Child-murder has for the last few years increased in England, and has become in London, as we are told on good London authority, "an affair of almost daily occurrence."

Anthony Burns, whose surrender as a fugitive slave in Boston a few years ago, created so much excitement at the North, died at St. Catherine's, Canada West, where he was pastor of a Baptist church, on the 27th of July.

MORE TROOPS.—The 4th, 5th, and 6th batteries of the 18th Brigade Royal Artillery, embarked at Woolwich, Aug. 19th, on board H. M. steam troop ship Megairo, for Halifax and Canada. It said that the military authorities here are seeking accommodations for an increased number of troops.—[Globe.

**RELIEF AND HEALTH TO YOUR INFANTS**  
We have put up and sold this article for over  
ten years and can say, in confidence and truth, of  
it what we have never been able to of any other  
medicines—never has it failed on a single instan...  
ce to effect a cure when timely used. Never did we  
know an instance of dissatisfaction by any one who  
used it.  
On the contrary, all are delighted with its  
operations, and speak in terms of commenda...  
tion of its magical effect and medical virtues. We  
speak in this matter, what we do know, after  
ten years experience, and pledge our reputation  
for the fulfillment of what we here declare. In...  
almost every instance where the infant is suffer...  
ing from pain and exhaustion, relief will be found  
in fifteen or twenty minutes after the syrup is ad...  
ministered.

This valuable preparation is the prescription of  
one of the most EXPERIENCED and SKILL...  
FULL NURSES in New England, and has been  
used with never failing success, in  
THOUSANDS OF CASES.

It not only relieves the child from pain, but  
vigorates the stomach and bowels, corrects acidity  
and gives tone and energy to the whole system.  
It will almost instantly relieve  
GRIPING IN THE BOWELS AND WIND COLIC  
and overcome convulsions, which, if not speedily  
remedied end in death. We believe it the best  
and surest remedy in the world, in cases of  
diarrhea and diarrhea in children, whether it ar...  
ises from teething or any other cause. We would  
say to a mother who has a child suffering from any  
of the foregoing complaints—do not let your pre...  
judices, nor the prejudices of others, stand between  
you and your suffering child, and the relief that  
will be sure—yes, absolutely sure—to follow the  
use of this medicine if timely used. Full dire...  
ctions for using will accompany each bottle. None  
genuine unless the fac-simile of Curtis & Perkins,  
New York, is on outside wrapper.

town and city in New England and

**THE OXYGENATED BITTERS.**  
THE OXYGENATED BITTERS.  
This remedy is just what is requisite to be—  
"a remedy  
for Dyspepsia." Though containing no alcohol, yet it  
restores the vitality in any climate. It is highly commenda...  
—a successful in half a tumbler of water containing  
one teaspoonful. Among all the remedies ever discovered for these  
grievous and chronic complaints, there is none which  
ever wrought such great and permanent cures, or which  
can produce so many and unexpectable cures from  
the recipients of its benefits. A single dose often subdues  
the disease, and a permanent cure speedily follows.

From a highly respected Physician in Health  
SOUTH FARM, Me., Dec. 18, 1861.  
Messrs. R. W. FOWLE & Co.,—Gentlemen: For  
several years past I have had a knowledge of the op...  
eration of the OXYGENATED BITTERS in some cases  
of Dyspepsia and General Debility. They have generally  
given satisfaction, and sometimes have effected a perman...  
ent cure where other remedies had been used without  
benefit. I do not hesitate to recommend them.  
Respectfully yours,  
WILLIAM A. RUDY, M. D.

**THE OXYGENATED BITTERS.**  
THE OXYGENATED BITTERS.  
Letter from Stearns Foster, Esq.  
STODDARD, N. H., Sept. 20, 1861.  
Messrs. R. W. FOWLE & Co.,—Gent.: I was  
for many years, a great sufferer from DYSPEPSIA  
and WATERBRAIN, and tried almost everything which my  
doctor recommended, but I was relieved by the use  
of the OXYGENATED BITTERS. Dr. Hession, to make  
use of the OXYGENATED BITTERS. The first bottle  
produced but a slight alteration in the disease, and had  
it not been for the urgent request of my physician I  
should have discontinued their use, thinking them  
to be of no avail; but his confidence inspired me to  
persevere, and after using the extent of half a doz...  
bottles, I had entirely regained my health. I hope all  
appropriate persons will be induced to give them a fair  
trial, being confident that this remedy is the most po...  
tent, for the various forms of DYSPEPSIA, that has ever  
produced. Yours,  
STEARNS FOSTER.
