## EXPLAINS ORDER OF RATE COMMISSION

By Staff Correspondent to Canadian Press.

St. John, N.B., Sept. 21.-At the first of his two meetings in New Brunswick, Premier King tonight broke new ground. He warmly challenged large gathering that crowded the reported statements by Mr. Meighen, opposition leader, that the government had legislated on railway rates in favor of the west, and he questioned Mr. Meighen's further assertion that the Canada-West Indies treaty was expressed his desire to retire this hot before the country. Mr. King further expressed the view that the year, but when party, pressure was order of the railway commission granting Crows Nest rates on westbound exerted he decided to enter the ring grain and flour was "fair and just."

What the government had done in the matter of railway rates, pressed the prime minister, was to instruct the railway commission to proceed with the work of equalization, making the only limitation that Crows Nest tates should apply on eastbound grain and flour.

Sketches History. He sketched the history of the Crows Nest Pass agreement, observing that the rates it stipulated were ixed by statute in 1897, and not by he present government, then, refering to the situation of last session, continued: "We said to our western riends: 'Conditions have changed. Carling's creek will be tiled from Colborne street to St. George street as a sanitary measure, according to a recommendation made at the board of health meeting last night. Following tests made by board of health and works department representatives it was advised that the board of works take up the laying of a sewer in this district. According to estimates made some months ago by the city engineer, the work will

cost upwards of \$20,000. R. H. Sanders, city sanitary inspector, reported that he and a man from the engineer's department had inspected the creek from the river to Colborne street. Mr. Sanders stated that a sewer pipe was discharging into the creek at the rear of an Ann street house and another from the old Arscott tannery.

It was stated that no effluent was coming from the Hyman tannery, of which complaint had been made, and Mr. Sanders said that apparently only in the spring of the year was there any discharge into the creek. Such a condition was caused by an overflow from the city sewers.

Six People Give Evidence at Inquest Into the Death of County Officer Jack Waddell—Tell of Hearing Shot and of Seeing Harlton Fleeing.

## FINDING OF BULLET PLAYS IMPORTANT PART

A coroner's jury at the police station last night held Edward Harlton responsible for the death of County Motorcycle Officer Jack Waddell, shot in a laneway beside the Harlton home on Saturday, Sept. 12.

The jury's verdict, brought in after only six witnesses had been heard, reads: "That the deceased, Jack Waddell, came to his death on September 12, as the result of a bullet discharged by the hands of

### No Eyewitnesses.

There were no actual eyewitnesses to the shooting. The gist of the evidence told of the slain man's body being found in the laneway of the Harlton home shortly after 5 o'clock on Saturday afternoon. His re-volver was found by his side. The fact that it was examined by the police and found fully loaded dispelled probable advancement of the theory that Waddell had shot him-self. Harlton was seen working on his motorcar in the laneway a minutes before the shot was fired, and later he was seen running away from the scene, hurrying along Eger

ton street, with his hand on his coat, and fleeing north across Dundas street, in between English's grocery store, and disappearing from view.

The discharged shell of a .25-calibre bullet was found in the rear thartfork Eroff car alongside seat of Harlton's Ford car, alongside of which Waddell lay dead. The bul-let which caused Waddell's death, Dr. Percy Banghart told the jury, was a

High Constable Wharton told of how he had sent Jack Waddell to watch the Harlton home, as Ed Hariton was suspected of being a member of the gang of chicken thieve Others were being rounded up, and it was Mr. Wharton's intention to arrest Harlton as soon as he had put his pals in jail and had definitely located him.

"When I arrived in East London at about 5:40 o'clock on Saturday afternoon of the twelfth, I found a group of people around the body of Waddell," the high constable said in orrhage caused by a bullet which had pierced his body. ### The Campaign Goes Well.

With little more than a month to run, the Liberals have reason to feel encouraged by the and enlarged upon it at his Exeter meeting, God-fearing citizens. Liberals felt they had sound leadership, a definite policy to follow and a cause that was so national in its scope as to call for the best effort they could make.

named in this district, E. Blake Winter, ex- But the rewards are great and far-reaching, for mayor of Windsor, for West Essex; W. G. Raymond, M.P., for Brantford, and R. W. Gladstone for South Wellington. It was a foregone conclusion that Mr. Raymond would again contest the Brantford seat. He has a record to lay before the constituents that will stand close scrutiny and all the criticism that his opponents care to launch against it. Probably no member in the house so successfully combined helpful support to a government with unfailing loyalty to his own constituency.

The entrance of R. W. Gladstone in South Wellington puts new interest in the campaign in that quarter. He comes as a manufacturer who has succeeded in building and enlarging a Canadian industry. Mr. Gladstone has had an experience that fits him to see Canadian problems from many angles. Born on a farm near Highgate, he spent his early years there, afterward teaching in a rural school. For some years he was in Western Canada, going to Guelph to develop a manufacturing business, of stone should be able to put it back where it belongs. He would make an ideal member and be a credit to the riding.

The two outstanding developments of the campaign have been the entrance of Hon. Vincent Massey as a member of the King cabinet and the acceptance of Conservative nomination in Montreal of Hon. E. R. Patenaude. Mr. Massey's appointment brought from Mr. Meighen what the independent Ottawa Citizen terms a "cheap brand of criticism" and one that gives "party heelers the lead along the path of mean to pass sentence of two and a half years in politics." Judge Warner was particularly emphatic on this point, and he stressed it further with the claim that in his experience in the London and Middlesex county court not one single case had appeared from a home where there was a religious atmosphere, and where church, Sunday school and day school entered into the training of the child.

It all comes back to a very old and at times a too easily forgotten condition, that the home is the source of our national greatness or our national misery. ### They Can't Agree.

Apparently it is not of much use that people should gather in halls and hear the question of evolution debated. They tried it in Tennessee and the result was tabulated chiefly in the increased business it brought to the vendors of

So it's no use debating this thing in public because there are so many people who object to admitting, even as a contribution to scientific research, that their forefathers swung by their tails from a tree or in more festive mood played tag in a jungle.

Let it be said at once that he is personally a man of character and integrity-as also is the prime minister, Mr. King. But Mr. Meighen's public utterances stamp him politically as a leader only along narrow-gauge party lines. He is apparently incapable of thinking with broad vision of the

nation's real interests. He is, indeed, prepared to sacrifice national interests for the sake of temporary party advantage. He cannot refrain from stooping to contemptible poli-

"Mr. Meighen's latest exhibition of Halifax last Tuesday, where he felt it necessary to say something to offset Vincent Massey's entrance into public life on the Liberal side. Instead of welcoming this commendable evidence of interest on the part of younger Canadian public men in national problems-even though in this instance it happened to be on the opposite side politically-Mr. Meighen could think of nothing bigger to say than to describe Mr. Massey's decision as 'grandstand play. The Canadian Press reports Meighen's churlish reference to Mr. Massey as follows:

"'It is very easy for Mr. Massey having secured immunity while others suffered, to make a grandstand play of entering the govern-

ment. "Far from securing immunity himself, it can safely be said that Mr. Massey's action in entering the with full realization that it means considerable personal sacrifice. ### Sneering at Railway.

GTHE same cheap brand of criticism is directed by Mr. Meighen against the administration of Canadian National Railways. Political followers have apparently persuaded him to refrain from making direct personal reference to Sir Henry Thornton, such as he used to make when Sir Henry first took over the position of railway president. Mr. Meighen's tactics are to refer to the board of directors, although he knows perfectly well that all decisions of major importance must be made by Sir Henry Thornton, But the Conservative leader is concerned only with making party capital, irrespective of whether it spreads the isruptive tendency towards sectionalism in Canada, or is calculated to destroy public confidence in the Canadian National Railways under pub-

lic ownership. "Speaking in Halifax, he told the maritime provinces what the Conservative party proposed to do with the Intercolonial Railway—framing the statement with the obvious intention of catching votes. The Con-Premier Mackenzie King politics. has faithfully carried out the will of the people by taking the railways out politics. Mr. Meighen quite tional discontent by saying that the Liberal politicians 'sat meekly by in Ottawa while the Canadian National board confines the Intercolonial Railway to Riviere du Loup.' The C. N R. administration has greatly increased the efficiency of the Inter colonial. But Mr. Meighen cares nothing about that. He thinks party capital can be made by catering to sectionalism maritime province hence the rubbish that he talked about politicians sitting 'meekly by'

"OF COURSE Mr. Meighen's electioneering policy is governed largely by the belief that such tactics are necessary to win elections in Canada. He is still playing the party game as he learnt it under Mr. Rogers in Manitoba fifteen years ago-overlooking the vital fact that in the meanwhile a new generation of Canadian manhood and womanhood has grown up in Canada,

"Mr. Meighen's ideas of dealing with national problems are worse told the people of Halifax that would reduce railway rates for the benefit of the maritime provinces, and the deficit due to this policy would be paid for 'from the general treasury of the nation.' In other he would tax the people of Canada to allow the Intercolonial Railway to be operated uneconomically. Mr. Meighen's whole talk on conditions, where the problem is not primarily one of lower transportation rates but of better markets.

The Family Wash

Rid of Blackheads There is one simple, safe, and sure way that never fails to get rid of clackheads: that is to dissolve them. To do this, get two oances of peroxine powder from any drug store—sprinkle 1 little on a hot, wet cloth—rub over the blackheads briskly—wash the parts and you will be surprised how the blackheads have disappeared. Big blackheads, little blackheads, no matter where they are, simply dissolve and disappear. Blackheads are a mixture of dust and dirt and secretions that form in the pores of the skin. The peroxine powder and the water dissolve the blackheads so they wash right out, leaving the pores free and clean and in their natural condition.—Advt.

Associated Press Despatch. Yankee Stadium, New York, Sept. 21.

—Dave Shade of California tonight came to the crossroads with Mickey Walker of Elizabeth, N.J., in his long pursuit of the welterweight champion and received as the answer to his two-year-old challenge a bruising defeat at the hands of the titleholder in a 15-round match at the American league has hall nark round match at the American league baseball park.

Pent-up bitterness of long standing between the two men exploded at the ends of four battering five-ounce gloves as the pair stood locked in the center of the ring almost throughout the fifteen rounds of their struggle and blazed away at each other until both were almost ready to drop from exhaustion at the finish. They bled profusely from nose and mouth and Shade was on the verge of a knockout in the closing minutes of the struggle as the champlon brought forth a thrilling rally to save his title by a close judges decision, 2 to 1.

champion brought forth a thrilling rany to save his title by a close judges' decision, 2 to 1.

Up until Walker's sensational finish, consensus of opinion among newspapermen at the ringside gave the crouching Californian an edge over the champion. Even after the spectacular rally of the titleholder, under which Shade bent like a broken reed, opinion remained divided, a chorus of booes accompanying the ovation which greeted the verdict.

Shade weighed 147, the welterweight limit, this afterneon, while the champion weighed 144½ pounds.

Throughout the bout the pace was terrific, with honors in the in-fighting about even. For 14 rounds there was little to choose between them the croaching tactics of Shade countering successfully the rushes of the champion. At times they took no care to protect themselves, but stood toe to toe exchanging blows.

A thrilling rally in the final round won the verdict for the champion who had been absorbing plenty of punishment from his challenger in the early rounds.

Walker had been wearing down Shade with a concentrated body attack and reaped his harvest in the final round when he hammered Shade about the ring in a charge which retained for him the world's 147-pound crown.

Tex Rickard, promoter of the fight, estimated the crowd at 45,000 and the total receipts at \$200,000. It was easily the largest crowd of the outdoor season.

Gas pressure from sour, acid, upset stomach is not only nauseating and highly uncomfortable, but some day it may prove fatal!

When your meals are followed by bloating, a feeling of fulness or pressure, shortness of breath and pains around the heart, you may be sure that the acid condition of your stomach is producing a GAS that is pushing upwards and crowding your heart. That's the reason for the shortness of breath and sharp, shooting pains.

Whether young or old, the presence of stomach gas is truly serious and careful attention.

To quickly banish gas, cleanse and sweeten the stomach, neutralize the acidity—nothing is better than the daily or "as needed" use of ordinary Bisurated Magnesia. It gives almost instant relief.

Vermilyea, with two hits Saturday, broke in against a .083 average he held until then. Sandquist, who finished eighth in the league batting with an average of .342, is hitting .071 for the little world's series. He should break out in to a hit rash today.

### OVER-TAXED.

Professional boxing will not be as popular as it should be in the smaller cities until the sport has some of the load of taxation taken

All other professional sports pay a normal war tax, but on boxing the tax is 25 cents on any admission price above 75 cents. It's rather incongruous that boxing, which was fostered more than any other sport by the British armies, should now be asked to pay more than any other pastime.

Commission supervision is absolutely necessary, but a five per cent. deduction from the gross receipts makes a big hole in the average cash box of a small city club.

## HOCKEY IS BIG BUSINESS.

Hockey is undoubtedly entering the domain of Big Business, and this will be officially marked by the meeting of the N.H.L., to be held 26. Hockey as a sport and a business on a scale undreamed of even a few seasons ago is about to vie with baseball, and will be limited in scope only by climate.

Sept. 26 will be a time for the initiation of far-seeing policies conforming to the monetary importance the game is assuming. Unless these are forthcoming, there are several rocks on which the sport might

But with the best in administration and government, there is the big problem of player supply, especially if more than two U. S. clubs admitted this year. Nobody can quite gauge the situation but are inclined to think that this will shake itself out over a couple of seasons The Montreal and Boston teams of last season are examples of what will happen new teams. But if there is enough money and solidity behind the new clubs to get over the first season, they should be able to stick to it. The Montreal team will be vastly different this year than last, and few changes have been necessary; and the same is true of Above all, there must be no wars. Just now, the U.S. clubs need the

drawing attraction of Canadian teams, and Canada will have need of the International atmosphere later. Policies ratified in New York on Sept. 26 must not be narrow nor short-sighted, or the coming boom might easily be pricked before it started. Agreements must be of such a nature and so tightly binding that the U. S. clubs will not be able to form an independent league, or else most of the Canadian clubs might find themselves playing a very minor role.

### RUMOR A BUSY DAME.

The spread of professional hockey to so many of the larger cities of the United States lends weight to rumors which began last year relative to a breakaway of O. H. A. senior clubs to form an independent hockey league and this fall, especially the last week, gossip has been London would be vitally concerned in such a shake-up, and it is

known that sentiment is largely in favor of just such a move. With cities like New York, having a rink with seating accommodation for 20,000, in the market for talent, hockey players are going to be in greater demand than ever before. The available supply of professional players does not go very far toward meeting the demand. Last year amateur clubs found it hard to withstand the raids of professional clubs, and the menace is going to be all the greater as the number of these clubs increases.

The amateur clubs are getting a bit bored with developing players and finding that they must be losers ultimately by the process. It doesn't add to their peace of mind to face the fact that at present they are defenseless against professional raids and the amateur residence

The only defense they might have would be to throw amateurism to the four winds and attempt to operate on a semi-professional basis under agreements giving mutual protection, such as exist between minors and majors in baseball. It would be a big step to take, but probably would be justified in the end.

These things have been discussed for several seasons now wherever senior hockey is played. Sometimes discussion does not get anywhere, but there are times when it as least gets beyond the empty vaporing stage. The impetus for such a movement would have to come from Toronto. There seems to be little likelihood of any of the teams in the Big Six, for instance, attempting to overthrow the existing order of things. But there is little doubt that once a leader appeared the Big Six clubs would join the general procession.

Brantford, Sept. 21.—When one gasping, spluttering ton of hmanity tries to

pull another such quantity of heaving humanity into a ditch, as per the tenets of the time-honored tug-of-war contests—what happens? Theoretically, nothing. On Saturday Dan Lewis, veteran chief of the Brantford fire department, sent down 1,930 pounds of his battlers to contest the Dominion tug-of-war championships at Toronto, an honor held by the Toronto police force ever since a title was suggested. The Porktown bobbles paradad a topheavy massed weight of 1,908 pounds, plus allowance for tradition, and they tore up the ground at the C. N. E. grounds something awful before the title was awarded the Western Ontario huskies. Incidentally Ed. Clayton, who at one time pulled on the famous Zorra team, was with the boys from the tall timber on Saturday.

## Ernie Alten, Baker's Choice, To Halt Hams Here Today

Ralph Judd Will Likely Pitch For Wetzelmen in Sixth Encounter of Pennant Series at Tecumseh Park This Afternoon.

MIKE BACK AT SHORTSTOP

ANAGER Baker is going to send Ernie Alten back at the Hamilton Clippers in the sixth game of the little world's series slated for Tecumseh Park this afternoon at 3:30 Alten showed such absolute dominance over the Hams on Friday when the Tees came from behind to win an uphill struggle that the mite manager is playing a hunch that the big fellow should come through today and even the series. That would leave Harris or Coogan to hurl tomorrow's game, with Harris probably having the call. Harris hasn't had the luck against the Hams that Coogan has, and had little luck in the game he lost It is expected that Wetzel will stick Judd in. Carmen last Wednesday

also is due, and it will be a choice between the two. also is due, and it will be a choice betw
Baker himself refuses to see anything of a handicap in having to win
two games in a row to cop the gonfalon.
He's all for getting the flagpole over
at Tecumseh park all painted up and
ready for a pennant hoisting. The way
he figures the series to date is that
London has won two games. Hamilton
one, and the breaks took the rest, and
he isn't far wrong. Certainly it was a
break that gave Hamilton the first
game, and that game means the difference just now between being one game
behind or a game ahead. He'll be back
at short again.

Baker's Arm Better.

Baker's Arm Better.

Baker's Arm Better.

"I couldn't throw Saturday at all," he said last night, "but my arm feels better today, and I think I'll go back to short if it feels all right by game time. Yeh! we'll play if we have to wear furlined gloves. We've got to get some breaks soon in this series, and it might as well be tomorrow."

The series is just old enough to bring one of the teams to the point of cracking. They've been playing such baseball as is seldom seen in a string of major circles, and one or the other, it may be presumed, will break off in the middle of either today's game or tomorrow's with a reverberating crash. And the Tees have shown the more consistent ball of the two teams all season. Several times the Hams have gone to pieces without apparent reason, and it might just happen here today.

Buzz' baseball career has been so crammed full of pennants that there is a natural and burning desire in the part of London fans to see Mike jaker's Braves thwart him this time ou.

Rapid Drop in American Can Causes General List to Yield.

Associated Press Despatch.

New York, Sept. 22—Wall Street, noon.—Marking up of the renewal rate on call loans to 5½ per cent was ignored by pool operators, who were fortified with favorable long term loans, and who regarded the stiff rates as temporary. Considerable buying develored in the low-priced motor and accessory shares, with Dadge Bros, and Paige-Detroit showing unusual prominence. A rapid drop in American Can toward rapid drop in American Can toward land to a standard to the control of the control of

rapid drop in American Can toward mid-day caused the general list to yield in sympathy.

High money rates continued to provide a stumbling block of speculative operations for the advance in today's stock market, although strongly organized pools did succeed in lifting several of the automotive and public utility issues to new high levels for the termittent selling pressure, inspired by the belief that the technical condition of the market warranted a further reaction because of the apparently oversold position of many stocks.

Little attention was paid to trade news, the chief item of which was a decline in raw sugar prices to the lowest level since 1922. Reduction of the dividend on New York Air Brake, common, sent that stock down from 41 to 36½, despite the fact that rumors of 36½, despite the fact that rumors of 36½, despite the fact that rumors of such action had been widely circulated about the street.

Sharp breaks of nearly five points each in American Can and General Electric also tended to curb bullish sentiment. Rails held firmly with traders showing an inclination to await additional August earnings statements before extending their commitments. A sharp run-up of five points in Detroit sharp run-up of five points in Detroit Edison and the establishment of a new high record above 77 by Columbia Gas and Electric were among the feat soft hat first each motors.

Montreal, Sept. 21.—There were no new developments in the spring wheat flour situation, prices being steady, with only a moderate amount of business passing for local and export accounty. The demand for winter wheat flour was also somewhat limited, and the movement was smaller than it has been of late, but prices were unchanged.

A fair amount of business continues to be done in millfreed, and, as supplied are none too large as yet, owing to the fact that United States buyers are taking all the surplus at as good prices as those ruling here, the tone of the market remains steady.

## 4 out of 5 is grim pyorrhea's count

DENTAL STATISTICS tell this grim story: four people out of every five are destined, through neglect, to contract pyorrhea after they pass the age of forty. Thousands younger also suffer.

Pyorrhea is the dread disease of the gums which is responsible often for loss of teeth, rheumatism, neuritis and other dangerous disorders.

It starts with tender bleeding gums. Pockets form below the teeth and poisons spread relentlessly through the body. If you have pyorrhea or any of its symptoms see your dentist at once and start brushing your teeth with Forhan's for the Gums.

To safeguard yourself against pyorrhea make Forhan's your regular dentifrice. It is the formula of R. J. Forhan, D. D. S., and contains his pyorrhea liquid which has been used by dentists the last 15 years in the treatment of pyorrhea. If used regularly and used in time it will prevent pyorrhea or check its course. Don't give this insidious disease a chance to start. Start using Forhan's this very day. All druggists, 35c and 60c in tubes.

## Now Somers feels great!

Says Tanlac was "like a lifeline thrown out to him"

Charles Somers is a salesman. Success in his work calls for an alert mind and the energy that only comes with boundless health. For a solid year he suffered with stomach trouble until he was almost a nervous wreck. He couldn't eat. He couldn't sleep. In

a few months' time he lost fifteen pounds and was going rapidly down hill. Now, thanks to Tanlac, Somers feels great. His nerves are steady. His appetite has come back. He has regained his lost weight and is in the pink of condition. He writes: "I dread to think what would have become of me without Tanlac. It was like a

lifeline thrown out to me as I was going down for the last time." \*Authentic testimonial; address on

Tanlac is the world's greatest Tonic and builder. It can help you just as it has helped millions of others if you will only give it a square chance.

Compounded after the famous Tanlac formula from Nature's roots, barks and herbs it is a harmless vegetable tonic that stimulates the digestive organs, restores appetite, tones up the system and makes you feel great.

Don't risk prolonged illness or a serious operation by letting matters drift along. Get a bottle of Tanlac at your druggist's today and start back to vigorous health.

with kidnapping 6-year-old Mary
Daly and killing Raymond Pierce,
negro chauffeur, is sane enough to
plead to the indictments, Judge Caffrey ruled today. The court fixed
next Thursday as the date for opening testimony on the question
whether Noel is sane enough to
stand trial.

The prisoner refused to answer in
court today to the indictments, and
a plea of not guilty was entered in
his behalf.

great entertainment. LOEW'S THEATRE Wild Justice.

Peter the Great, the police dog hero of Wild Justice, which opened at Loew's yesterday, is just about the most lovable of all the dogs that appear on the screen. The picture is one of the best dog stories ever shown at Loew's, and that is saying

a whole lot when one recalls the long line of successful canine pic-tures that has been shown in the past

tures that has been shown in the past year or so.

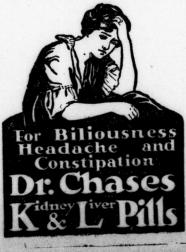

If you like dogs, and most people do, be sure and see Wild Justice. It showing at Loew's today and tomorrow. It is a stirring drama of the north country, where justice is swift and not always sure. You will want to cheer when the great dog star, apparently able to understand the situation being worked out by the human actors, takes a hand in the tense game of life and death, and works out the ends of justice and works out the ends of justice

## **WOULD NOT ALTER** AIR FORCE SYSTEM

Secretary Wilbur of U.S. Navy Not Affected by Col. Mitchell's Criticism.

Associated Press Despatch Washington, D. C., Sept. 22.-Maintenance of the navy air service organization of the United States in substantially its present form was advocated today by Secretary Wilbur before the air board, appointed by President Coolidge as an outcome of charges of inefficiency brought by Col. William Mitchell, former assistant

chief of the air service.

Called as the first witness of the day by the board which yesterday inquired into the policy of the war department and the army air service, Mr. Wilbur emphatically opposed cretion of a department of national defence. Such a step, he declared, would be a "well-nigh irreparable nistake.

"Air forces," he asserted, "form an essential part of the fabric of the navy itself and its administration and its organization, like all other admin-istrative problems internal to the navy, will, if unmolested by outside influence, be solved with the same efficiency and with the same happy results as have been obtained in sim-

lar problems in the past." The secretary likewise expressed opposition to the navy air service as a separate corps analogous to the marine corps and declared against any single air service maintained for national defence, but not under the army or navy.

The navy, he said, requires its own air force as "a vital element of a naval battle," adding that "if a vita'is component part of a navy is unde the direction and authority of an in dependent air service it removes from the naval commander that unity of command in time of battle and that uniformity of training in time of peace which every war has proved to

## CHINA IS FACING MANY OBSTACLES

Several States Raise Objections to Reconsideration of the Chinese Treaties.

Associated Press Despatch. Geneva, Sept. 22.—China is encountering obstacles in her plan to put the League of Nations assembly on record as favoring a satisfactory outcome of the forthcoming conferetnce in China for the revision of Chinese treaties.

An agreement seemed in sight on the draft of the resolution to adopted by the assembly when denly from several states interested in preventing reconsideration of other pacts and especially the treaty of Versailles, theer sprung up deter-mined opposition to any reference in mined opposition to any reference in the resolution to article 19 of the covenant

This article declares that the assembly may advise reconsideration of treaties which have become inap-plicable and the Chinese delegation desired the projected resolution to the building occupied sis exceedingly low.

The stock in trade consists of seeds.

The stock in Bowing to the objections ex-

pressed in private conversations with the delegations the Chinese, a rather than have the resolution defeated, will presumably accept a compromise clause, saying tha vision of the Chinese conventions is in consonance with the spirit of the covenant, thus avoiding embarrassing certain states by calling to the covenant's revision article. A veiled, yet strong, warning to Austria that she must abandon any hope of annexation to Germany was the feature of an address delivered before the assembly yesterday by Dr

## Tories Inviting Higher Taxation

Canadian Press Despatch.
Port Elgin, N.B., Sept. 21.—"If
you want more taxation, now is
the time to get it," said Premier
King this morning. The prime
minister spoke from the end of his
private car during a one-minuta's private car during a one-minute's halt on the way from Prince Ed-ward Island to St. John, N.B., where he speaks tonight. He was referring to the Conservative platform of higher protection. arguing that it would invite higher taxation. "The aims of the gov-'nment," he said, "have been to make the cost of production less by reducing duties on instruments of production."
