KENTVILLE

Miss Maud Publicover has been in Truro visiting her friend Miss Muriel Fulton.

WANTED—At once in town small selling or 2 or more rooms for house-keeping. Apply at sw 3ins. Advertiser Office

Miss Daisy Peck, and friend, Miss Stewart, of Bear River, spent the weekend in town with relatives returning home on Monday.

WANTED—A Porter. Apply at Aberdeen Hotel.

Mr. Robert W. Starr, of Starrs Point visited Mr. and Mrs. Charles Smith during the N. S. Fruit Growers Association.

Did you ever taste Scotia Blend tea? If not don't waste time before you do, 50c. lb.

Hartien's Grocery Store.

Miss Robinson, of Mount Uniacke has been visiting her home after spending some time at Middleton in the D. A. R. Office. She will come to Kentville to take a position in the D. A. R. employ.

FOR SALE—Mason and Risch upright Grand Piano in splendid condition, practically new, will be sold at a bargain for cash. Apply Advertiser Office, Box C.

Mr. Fred McNeil, who has been a patient at the Nova Scotia Sanatorium since last summer has returned to his home in Bear River.

"We have a large order to fill for Yellow Eye beans. Will pay highest cash prices for first class stock. Immediately delivery".

sw tf. SUPPLIES LIMITED.

Private Ralph Dunn invalid at the Sanatorium, has been at his home in Landsdown, Digby Co., visiting his relatives.

Mr. Robert D. Starr, of Starrs Point is stopping at Chipman Corner with Mr. and Mrs. Ross Chipman.

Houses are still in great demand in Kentville.

Mr. A. H. Morash, has been training an excellent orchestra which will later be heard from.

St. Paul's Annual Meeting will take place on Wed. evening of this week. Anniversary Services will be held next Sunday for the first time since the opening of the new Church. There will be special music for this occasion.

As a saving of fuel seems to be a national necessity it should be possible for union prayer meetings to be held in this Town during the remainder of the winter. In Wolfville, the Methodist and Presbyterian Congregation have united for the winter, and hold all their meetings in St. Andrew's

KITCHEN CABINET, in good condition for sale at a bargain. Apply to Garnet Benson, At R. T. Caldwell's Store. 1 ins. x.

"We are open to buy large quantities Yellow Eye beans. Highest cash prices paid."

sw tf. SUPPLIES LIMITED.

J. L. Peck, of the "Advertiser" staff, received a letter last week from his brother, John O. Peck, who now has a good position on the Santa Fe Railway. He left Kentville seventeen years ago, first locating in Manitoba; from thence to Saskatchewan, Alberta and then Pagosa Spring's Colorado, where he lived for some years. He then accepted a position with the American Lumber Co., of Albuquerque, New Mexico being appointed Chief Engineer of the Company.

Mr. and Mrs. Peck and family moved from Albuquerque N. M. to their new home in Arizona last week.

The first meeting of the Kentville Musical Study Club will be held at Mr. St. Clair's Studio, in the Advertiser Building on Tuesday evening, Jan. the 29th, at 8 o'clock when a miscellaneous program will be studied. Anyone may become a member on payment of a membership fee of seventy-five cents, others not members may assist at any of the meetings on payment of an admission fee of fifteen cents. The Money Collected will be used to defray expenses. Those who wish to become members may do so at the first meeting. Very great interest was shown by the citizens of the town in the work of the Club last winter and it is hoped that even greater interest will be manifested during the present season. Everyone who likes music should belong to the Kentville Musical Study Club.

Fred Comeau is mentioned as an opponent to Hon. J. W. Comeau, in Digby County who resigned his seat in the legislature to oppose E. K. Spinney in federal contest.

The Red Cross Knitting Club will meet at the home of Mrs. H. G. Harris, on Thursday evenings until the return of Mrs. McBride to town members kindly get their knitting supplies at Red Cross rooms on Tuesday and Thursday afternoons.

Halifax schools will not open till March 1, on account of the short age of coal.

Always buy your groceries—staple and fancy here and you will always get a quality that permits of no criticism. We handle only goods of known quality, yet our prices are no higher than you will pay elsewhere.

Miss Stella L. McGregor, trained nurse left Kentville on Wednesday last for Peabody Mass.

Mr. John Armstrong, of Brooklyn St. has moved to the farm he recently purchased from Mr. Clarence Ryan of Woodville.

F. W. Webster Jr of Cambridge Sta. is among those who have recently purchased a new 1918 model Chevrolet car.

Mr. Ivor Best, of Brooklyn St. is a recent Subscriber to the farmers Telephone.

The Kentville Baptist Sunday school was held on Sunday last at 10 o'clock and the school was exceptionally large. It will be held at the same hour next Sunday and the question of changing the hour from noon to 10 a. m. is now being considered.

Gen. Sir Arthur Currie was in London on the 4th. He said the Canadians were delighted with the result of the Canadian elections.

Mrs. Geo. E. Graham entertained a large number of friends at an enjoyable Bride party last Wednesday afternoon. The sum of thirty dollars was realized for Red Cross Work.

SUGAR HAS DROPPED 90 CENTS A BARREL

Montreal, Jan. 11—More good news for all that use sugar, and that means everybody, was communicated by the representative of one of the largest wholesale grocers of the city. Last week the announcement was made that in view of the big Cuban crop being put on the market, the price of sugar had dropped ten cents per barrel. It has now dropped another 50 cents per barrel to the trade, so that purchasers should soon have sugar at a cheaper figure than they have been paying for it. The price of sugar to the trade today is \$8.55 per hundred pounds.

RRR
 Radway's Ready Relief
 For Rheumatism and Internal Use
CURES
 Neuralgia, Sore Throat, Coughs, Colic, Grip, Pneumonia, Lumbago, Neuritis, Sciatica, Rheumatism
 WILL AFFORD INSTANT EASE
 For rheumatism, sciatica, neuralgia, toothache, headache, neuralgia, lumbago, colic, and all other pains in the back, joints or limbs, pain around the liver, pleurisy, neuralgia of the joints and joints of all kinds, the application of Radway's Ready Relief will afford immediate relief and its continued use for a few days will secure permanent cure.

 Radway Squares, New York City

PREDICTS AERIAL TRIP FROM EUROPE TO UNITED STATES

Giovanni Caproni, Famous Italian Inventor, Believes Large Planes Will Play a Winning Part in the War.

(By Giovanni Caproni, in December Issue of Flying)

It is quite possible to deliver General Pershing's reports to President Wilson and President Wilson's orders to General Pershing by air in 48 hours for each trip—thereby not only solving the difficult problems created by the U-boat menace, but also cutting down the time required to transmit communication from Washington to the seat of the war to a fraction of the time required at present.

The Washington-Paris air line can be operated in a few months—surely by next summer.

It can be done by employing six of the largest Caproni machines, carrying the mail in relays.

The route will have five legs as follows:

1. From Paris to Portugal
2. Portugal to the Azores
3. Azores to Newfoundland
4. Newfoundland to New York
5. New York to Washington

A separate machine and crew will be used for each leg and there will be one machine and crew in reserve.

The longest distance over water in this route is the leg from the Azores to St. John's, N. F., which is about 1100 miles, therefore well within the flying range of our largest Caproni.

The time of the trip may be cut down further by flying straight from the Azores to Paris, which is a distance of about 1150 miles, without stopping in Portugal.

It is hardly necessary to point out that the mail will be much safer carried by aeroplanes than carried by ships.

The same U-boats that terrorize ships will be afraid of the mail-carrying aeroplanes, therefore the mail line will at the same time be an aerial U-boat patrol.

The aeroplanes can be summoned by the ships wireless to protect ships in distress. Carrying a few 50 pound depth bombs will not add appreciably to the cargo of the mail-carrying aeroplanes. There is nothing new in stating that the war is, above all, a war of material. The principle among the Allies is: We must produce more than the enemy. It is time that this principle was completed by its corollary. It is necessary also that the enemy's production diminish. Is this possible, Yes, and it depends upon us, the Allies.

War materials are produced in thousands of workshops, but they are almost all tributaries of three or four immense industrial centres. If we paralyze these centres—which in Germany are to be found on the banks of the Rhine—in Westphalia, at Munich, etc., and in Austria, in the outskirts of Vienna and Budapest—we would create a crisis, perhaps a decisive crisis, in the production of arms and munitions. This is possible, thanks to the great progress of aviation.

A single large triplane of 900 horsepower can transport and drop 1,000 kilograms of explosives on Essen, 2181 kilograms on Pola and 1360 kilograms on Pola (via C.M.F.W.P.M.F.W.Y. on Vienna). It is easy to form an idea of the capabilities of a fleet of 200 or 300 triplanes by simple multiplication.

Aerial warfare, as I see it, has three phases: The first is the one I have just referred to; the others are the destruction of the enemy's naval bases and the bombardment of his rear.

It is not necessary to dwell upon the obstacle to Allied shipping created by the enemy submarines. It is also

useless to repeat that the means so far employed to combat the submarine have not proved equal to their task. You cannot extirpate a swarm of wasps by going after the wasps one by one; you extirpate them by destroying the nest. Similarly, we shall never triumph over the enemy's submarine fleet by chasing isolated submarines at sea, but we shall attain our object by destroying their bases.

Coming to the third phase of the war in the air, it is evident that we force the enemy by repeated bombardments to remove his aviation centres far behind the front we shall assure greater tranquility for the Allied fronts and territories. This is equally true as regards periods when the battle rages and when matters are quiet. As a matter of fact, aeroplanes can destroy bridges, roads, railways, concentration camps, munition depots, etc., in such a way as to hinder if not to render impossible the arrival of reserves and supplies of food and material.

Hitherto an exaggerated importance has been attached to air duels. We forget, alas, that the war is not a duel. On the other hand, minor importance has been attached to numerically strong raids against the enemy's bases. Why? Because they have been undertaken on too small a scale, and the results obtained almost never strike popular imagination. It was the same with respect to artillery. We run away with ourselves as regards the "75" at the expense of the "350". In aviation we lost our way behind the small chasing machine, without paying attention to the heavy bombardment airplane. When will it be realized that if a fortress cannot be demolished with a 75, neither can a factory be demolished with chasing aeroplanes?

Bombardment aviation has a double importance, military and political. From a military point of view, it can carry the offensive into no matter what part of the enemy's territory, for it has a superiority over the artillery in having a greater range than the cannon and is able to drop its projectiles at a distance of 400 or 500 kilometres. It also possesses greater rapidity of fire. Finally, there are no intervening obstacles, and it carries its observers with it. An army with numerous squadrons of large aeroplanes at its disposition, can, therefore, claim to possess a formidable heavy artillery.

From a political point of view, aviation is the menacing fist of the army, which carries the war into territory where life is peaceful but where the people prepare defensive and offensive means and in this way it accomplishes the work of disorganization and demoralization.

It is necessary for the Allies to have huge bombing air fleets. It is this aviation these fleets of 200 or 300 large aeroplanes, each capable of transporting 1,000 or 2,000 kilograms of explosives to drop on workshops, naval bases, roads, bridges, enemy resources, to hinder production to exterminate the submarines, to disorganize the supply services of food, men and material, which will hasten the, victorious end of the war.

FALLING OFF IN SINKINGS BY U-BOATS

London, January 16—Another marked decrease in the sinkings of British merchantmen by mine or submarine in the past week is noted in the report of the Admiralty, issued tonight. In this period only six merchantment of 1600 tons or over were sunk, and in addition, two merchantmen under 1600 tons and two fishing vessels. In the previous week the loss was eighteen merchantmen of 1600 tons or over, three merchantmen under that tonnage. The report of Jan. 12 gave the sinkings as 20, eighteen being 1600 tons or over.

Money for Total Abstiners

The figures in the following table, show what percentage the actual cost of insurance has been of the expected cost during the last few years in the two classes of insurers in this Company in Canada.

	1911	1910	1909	1908	1907	1906
Abstainers Sec.	44.87 pc	32.30 pc	34.65 pc	38.22 pc	39.00 pc	35.93 pc
General Sec.	79.59 pc	51.28 pc	15.11 pc	82.11 pc	72.75 pc	60.64 pc

This is no matter of theory, but a proved fact. Total Abstainers make an actual saving in dollars and cents by placing the life insurance with us.

Mr. John McMillan

MR. J. McMILLAN, who has initiated many notable improvements since he became General Manager of the C.P.R. Telegraphs eighteen months ago, has just decided to inaugurate an important service entirely new to Canada over the hundred and ten thousand miles of wire under his immediate control, namely, the day letter which may now be sent between points in Canada on the Canadian Pacific system at a rate very much reduced as compared with the usual commercial rush telegram. Mr. McMillan is convinced that many of those who send telegrams would be quite satisfied if they arrived on the same day, whereas a proportion of the cost of the rush telegram is due to the cost of speedy delivery. The day letter of fifty words will be rated at one and a half times the cost of a regular rush message of ten words and can still bring an answer the same day, which is as quick as many people desire. There are sixteen hundred C.P.R. telegraph offices throughout Canada, at each of which the new service will be in force, so that this will be a Dominion-wide service stretching from Louisburg, Nova Scotia, to Victoria, B.C. Messages will be taken in either French or English, code words not being permissible.

Mr. John McMillan owes his success to a genial and tactful disposition, which made him one of the most popular C.P.R. officials in the West, where his work centred until he was called to the head office in Montreal last year. Although less than fifty years of age, he joined the C.P.R. at its inception, working on construction in 1883. After acting for a number of years as operator at Donald, B.C., he became Inspector of Telegraphs at Winnipeg in 1902, Assistant Superintendent in 1906, Superintendent at Calgary in 1907, General Superintendent at Winnipeg in 1913, and finally Manager of the whole telegraph system in March, 1915.

FORMER COLDBROOK BOY DIES IN COUNTRY'S SERVICE

From Calgary News Telegram.
(By R. H.)

Among those from Alberta whose names appear in the latest casualty lists is the record of one who was personally acquainted in Calgary, well known in the vicinities west of Didsbury and Olds, and much beloved and liked wherever he was acquainted or known.

On December 6, "Somewhere in France," Kenneth L. Sanford, of the 50th Canadian, died from pneumonia contracted by exposure in the trenches.

Along with several companions he joined the 187th battalion in July 1916, went overseas in the band of that unit in November of the same year and later was transferred to a Lewis machine gun section.

His parents and family connections way back in the old Nova Scotia home will mourn the loss of a splendid son, and the noble profession to which he belonged will now be the poorer for his departure. Alberta the province of his adoption and residence for the past seven years, has been the richer for his contribution to its life, and now the realization that he has gone will bring a keen sense of loss into many a life up and down our land.

After a course at the Calgary normal he taught school at Hartman, Melville, and Springside school districts. He was popular in the extreme, not to say a favorite, among many acquaintances in all the places where he had labored and lived. Wherever he went he was a district community asset, prominent in social life and the field of sport. He was a faithful and efficient public servant. His scholars became affectionately attached to him and followed closely his fortunes after he left a happy and peaceful calling and our sunny land to go and do his bit elsewhere.

While he was not what you would call a deep student, he immediately impressed one as a fine type of an all-round man. One who has lived with him, shared in his social activities, hunting expeditions, camping trips, and outdoor games, can readily testify to his sterling qualities of heart and mind. He was a typical Canadian in his resources and a real soldier in spirit. Upon occasions when his adventurous nature found him in places of danger and difficulty he showed magnificent good sense combined with the finest daring and steady courage.

He was gifted with that rare charm of manner combined of an attractive personality a native intelligence and a sunny disposition. He was wholesome, bright, and witty. Mounted on his little white Indian pony—the sagacious "Nigger"—he was at home on any of the trails between Olds and Banff and a familiar figure anywhere within a twenty-mile radius of Westdale—at any season of the year, day or night. So full of life and interests, so full of promise, the thought of such as he being prematurely cut off is painful to bear apart from the Assurance through the dark portal he was entered into greater reward than ever this world could give and a far larger sphere of usefulness and development beyond. Having known him, it becomes a conviction that the qualities he embodied must abide form, live and find fruition in some form, somewhere—even if it be in a remalm beyond our present ken and cognizance.

Decoding the attachment of any maudlin associations of the term, he, like a true man, would have repudiated the designation "good." But the fact is well established, and in our minds remains, that he was a fine Christian character, exemplifying with many grace the virtues of his kind in a winsome personality. For, not only on the field of battle, but also before the war, he always displayed a ready, courteous, clean and sportsmanlike spirit. Life was interesting wherever and whenever he was around. Truly, he was a knightly soul. As before mentioned, he was a man of high ideals and he lived them out as principals of conduct day by day. He was keenly humorous, and one who richly loved a joke. He was essentially a man of action, though upon occasion not without words and the ability to express the fertility of his ideas.

Friends at Springside, his last professional charge, will, in particular, long cherish his memory with love and esteem, and find in the visible records of his initiative, thoughtfulness, patience, and energy the unfading, ever-fragrant memorial of a genuine hero. For here was one who was clever and brave, generous to a

fault, good and kind; and now we salute the memory of him as teacher, soldier, sportsman, friend. Our thoughts of parting shall not be signalized by a mournful "good-bye," but more in keeping with his own vivacity and optimism as we leave it—we will smile through our tears and give a more characteristic and breezy valedictory: "For the present, so long, Ken."

The Advertiser gladly reproduces this fine tribute to one of our young heroes Kenneth was a son of Mr. and Mrs. Watson Sanford of Coldbrook. Besides his father and mother he leaves the following brothers and sisters:—Guthrie at College at Edmonton, Eva teaching at Olds, Alberta, Phillip "Somewhere in France", Ruth teacher at Woodville, Mrs. John Durno and Miss Angie, station agent at Coldbrook.

NOVA SCOTIA INCREASES BUTTER OUTPUT.

Figures Presented at Dairymen's Convention Show 175,000 Lbs. Over 1916

Truro, January 15—The 5th annual convention of the Dairymen's association of Nova Scotia was held at the College of Agriculture. Delegates were present from practically all of the cheese factories and creameries in the province. The report on dairying showed that in the year 1,760,871 lbs. butter were manufactured at a value of \$706,899.25, an increase of 175,000 pounds over 1916.

Addresses of much interest to dairymen delivered by Prof. Trueman, of the Agricultural College; D. J. Cameron, of the Cold Storage division, Ottawa; J. D. McKenna, of the Maritime Farmer Sussex, and others.

Officers were elected for the current year as follows:—

- President—A. M. Wheaton, Wolfville.
- Vice-President—Harold Falconer, Stellarton.
- Secretary-Treasurer—W. A. MacKay, Truro.
- Directors—President, Vice-President, J. D. McKenzie, Bridgewater; H. M. Chisholm, Lower South River.

Speeches of Canadian North-West Land Negotiations.

THE sole head of a family, or any male over 18 years old, may homestead a quarter section of available Dominion land in Manitoba, Saskatchewan or Alberta. Application must appear in person at the Dominion Lands Agency or sub-Agency for the district. Entry by proxy may be made at any Dominion Lands Agency (but not Sub-Agency) on certain conditions.

Options—Six months residence upon and cultivation of the land in each of three years. A homesteader may live within two miles of his homestead on a farm of at least 80 acres, on certain conditions. A habitable house is required except where residence is performed in the vicinity. In certain districts a homesteader in good standing may pre-empt a quarter section alongside his homestead. Price \$3.00 per acre.

Options—Six months residence in each of three years after earning homestead patent also 30 acres extra cultivation. Pre-emption patent may be obtained as soon as homestead patent, on certain conditions.

A settler who has exhausted his homestead right may take expurgated homestead in certain districts. Price \$3.00 per acre. Duties—Must reside six months of three years, cultivate 50 acres an acre a house worth \$300.

The acre of cultivation is subject to reduction in case of rough, shrubby or any land. Live stock may be substituted for cultivation under certain conditions.

Deputy of the Minister of the Interior

Fertilizer

It is hard to make most of the farmers realize that there is a great possibility of them not being able to get what commercial fertilizer they will require this spring. But never the less it is an absolute fact and the wise farmer will take home his fertilizer soon. As if you wait till spring you may not be able to get any. As even now it is very hard to go what you want a transportation is so bad we have only a few more cars of Basic Slag to sell.

JACOB COHEN CANNING -- -- NOVA SCOTIA

BROOKLYN CORNER. Mr. and Mrs. Kenyon and son spent the Xmas holidays with Mrs. Kenyon's parents, Mr. and Mrs. Whitney, Billtown. While here Mr. K. Preached to large audiences morning and evening. He also spoke the following Wed. and Thurs. evening. His messages as usual were clear and forcible presentations of the truth. The dealing with the World-War situation was masterly and should be heard in every church throughout our land.

Rev. L. F. Wallace, Home Missionary, came up purposely to hear Mr. Kenyon and enjoyed the services very much. While here he was the guest of Mr. and Mrs. Bligh.

Misses Gladys Rockwell and Grace Griffins have resumed their studies at the Maritime business College. Fortunately they were not in the devastated area and escaped almost unhurt.

Mrs. A. P. Skinner, is suffering from la grippe and neuralgia of the face.

Mrs. H. Logan, who spent her summers here, is with her sister, Mrs. Lewis. West Brook during the winter.

Mrs. Lawson Sawler met with a serious accident lately. While out in her yard she slipped on the ice striking her head on a rock and became unconscious. At present writing she is better.

W. C. Archibald, spent Xmas week at the home of his sister, Mrs. Bligh, Mr. Archibald took in the Kenyon meetings.

The farmers have just finished hauling nitrate and acid phosphate from a car unloaded by the Fruit Co. at Coldbrook Station.

A. A. Bligh returned last week from a visit to Cumberland Co. and Dorchester, N. B. While in Dorchester he was a guest of his old friends the Whitmans.

They are very comfortably located in the pleasant and home like parsonage which commands a magnificent view of Shepody Bay and mountain. Mr. Whitman, as always, is abundant in every good word and work is already finding a warm place in the hearts of the people.

Nova Scotia apples No 1 quality were selling a week ago at \$9.00 per barrel in Winnipeg.

INTREPID "FIGHTING" PILOT.

Double D. S. O. Winner. Acting Flight-Commander Robert Alexander Little, R. N. A. S., of Melbourne, has by his daringly successful work on the Western front and in England won the equivalent of a double D. S. O. and a double D. S. C., a unique honour for a 22 year old aviator. Acting Flight-Commander Little is a Scotch College boy who left here in July 1915 to study aviation at Hendon England, the expense of the trip and the cost of tuition being born by himself. After graduating at Hendon he obtained a commission in the Royal Naval Air Service, and once he reached the Western front, promotion and military honours followed in rapid succession. The first decoration was the Distinguished Service Cross, and then came the French Croix de Guerre. A bar to the D. S. C. followed equal to winning it twice, and then Flight-Commander Little brought down his thirty-second German flying machine, he was awarded the D. S. C. He was subsequently transferred to England, where he was engaged in highly important defence operations, for which he has now been awarded the bar to the D. S. O. The young officer is what is known as a "fighting pilot"—that is, he pilots his machine and does his own fighting. His intrepid and skilful work has been warmly referred to by his commanding officer in letters which have been received by the aviator's father, Mr. James Little, of the Centreway, Collins street—The Argus. (This brilliant young officer is a nephew of Mrs. Oscar Chase, of Church Street.)

ACTION AGAINST OWNERS OF IMO Action for \$2,000,000 damages filed in the Admiralty Court Halifax by the solicitors for the owners of the steamer Mont Blanc against the relief steamer Imo. These two steamers collided in Halifax Harbor on Dec. 6, following which occurred the explosion which wrecked Halifax. It is expected the action will be tried within six weeks.

Yarmouth, Municipality of Aryle has passed a resolution imposing a special poll tax of \$2.00 a head on all males from 21 years and upwards, for the Patriotic Fund for 1918.

The Canning Advertiser ROBINSONS' Store

SILVER WEDDING CELEBRATED AT SHEFFIELD MILLS.

Mr and Mrs. W. W. Harris Sheffield Mills—On Friday evening there was a most enjoyable and memorable event at Sheffield Mills Station when about one hundred of the many friends of Mr. and Mrs. Willett W. Harris met at their home to commemorate their twenty-fifth wedding anniversary. The evening was ideal and guests were present from Kentville, Canning, Centerville, and neighboring communities, to celebrate the occasion, many of whom had attended the wedding twenty-five years ago, when Mr. and Mrs. Harris (nee Clara L. Webster) were united in marriage at the home of the bride's father, Cyrus Webster, Esquire, in Sheffield Mills by the Rev. S. B. Kempton, at that time pastor of the First Baptist Church of Cornwallis.

Since then, Mr. and Mrs. Harris have resided at Sheffield Mills, until five years ago when they moved to their fine residence and fruit farm at Sheffield Mills Station. Mr. Harris is one of the prosperous and enterprising fruit growers of the Annapolis Valley and especially well known to the apple packing industry of this Province.

The large gathering of last evening testifies to the popularity of the host and hostess. Mr. and Mrs. Harris were the recipients of many tokens of esteem including a beautiful silver casserole from Sheffield Mills Cornwallis Baptist Church, of which Mrs. Harris has been organist for many years, and a parlor mantle clock from their children both of whom were home for the occasion.

The pleasant evening was concluded at a late hour when after the usual good wishes, the guests bid their host and hostess goodnight.

The Rev. F. Friggens will preach at Sheffields Mills at 3 p. m. on the 27th inst. Instead of the 20th—which is his regular appointment.

Mrs. Chas. McFadden, of Canard left for Boston on Tuesday, last being called there by the serious illness of her brother, James O'Hearn.

OBITUARY

NATHAN BEST

Waterville, January 19—In the passing of Nathan Best, of this village Kings county loses one of its best known and most highly respected citizens. Mr. Best was in his eighty-second year and was predeceased by his wife who died on December 12, 1916. Since the death of his wife, Mr. Best lived with his son-in-law and daughter, Mr. and Mrs. R. D. Pineo and was faithfully cared for. Rev. R. D. Layton, of Kentville, conducted the funeral service. The pall bearers were T. R. Lyons, Irving Lyons, Dawson Ratchford and Kenneth Pineo. The interment was in the Presbyterian churchyard at Waterville, of this church, Mr. Best had been a long and faithful adherent and was for many years one of its managers.

As a contractor and builder, Nathan Best was widely known throughout the valley. In school and church work he always took an active interest. In work of charity he was never laggard. Cheerful and jovial always he was a real happiness spreader and scores of those of a younger generation will cherish while life lasts affectionate memories of Nathan Best. In politics he was a staunch conservative. For a number of years he was a county constable and took a keen interest in legal matters and his opinions were widely sought.

Mr. Best leaves one son, Harris R., of Somerset and four daughters Mrs. R. D. Pineo of Waterville; Mrs. E. Margeson, Melrose, Mass.; Mrs. Boyd F. Bowles, of Wallaston, Mass. and Miss Carrie superintendent of nurses in Wilges Barre city hospital.

HOT ENGAGEMENT NEAR DARDINELLIS.

In a naval engagement recently held at the entrance of the Dardinellis the former German Armored cruiser "Breslau" was sunk and the former "Bachen" was driven ashore. These ships have been used by Turkey for some time and have been particularly daring in their work. The British lost in the engagement the Monitor Roglan and another small vessel.

SCHAFHEITLIN—BLAKE

Miss Margrey Blake Married on Her 25th Birthday

Woburn Mass Paper. A very pretty home wedding took place at the home of Mrs. Harriet C. Blake, Federal street, this city, last evening when Miss Margrey Blake daughter of Dr. Harrison Blake was married to Mr. Adolf Otto Schafheitlin of Canning, N. S. Dr. Stephen N. Norton officiated at the ceremony.

The festive day was also the occasion of Miss Blake's 25th birthday. Miss Blake was attended by Miss Helen Lewis, of Cambridge and Buffalo, as bridesmaid and Mr. Schafheitlin had as best man a former college, class mate, Mr. Dougall, of South Africa. Mr. Dougall is studying Scientific Dairying in America, for the South African Government.

The bride was charming in white, crepe meteor pearl trimmings and a veil caught with orange blossoms and pearls. She wore a beautiful pendant and pin of amethysts, diamonds and pearls, both gifts of the groom, and carried brides roses.

The bridesmaid wore pale yellow chifton and carried tea roses.

After a wedding trip to New York and Thetford, Vermont, Mr. and Mrs. Schafheitlin will return to Woburn whence they will go to Canning N. S., where they all will make their home.

Mr. Schafheitlin's mother and sister Dora, of Canning, N. S., and a sister Anna who is a teacher at Mt. Holyoke College were at the wedding. Miss Schafheitlin, missionary in Arabia is a sister of the groom.

Miss Blake was a graduate of Woburn High School, Class 1911.

Mr. Schafheitlin was a graduate of the Agricultural Department of McGill University. He is engaged in Scientific Export Fruit Growing in Canning.

KINGSFORT, N. S.

Rev. Ainsley, Canning, occupied the pulpit of the Cong. Church Sunday 13th Inst.

Mrs. McKittrick, Kentville, is the guest of Mrs. Wm. Newcombe.

Mr. Hugh Ellis has returned to Business College, Halifax.

Miss Woodworth, Habitant has charge of the Kingsport School for present term.

"Red Cross" Meets at the residence of Mrs. Richard Johnson every Wednesday from 2 to 5 p. m. The report of the Kingsport Branch, for year ending Dec. 31, 1917 is as follows:—

- Amt. raised—\$164.11.
- Socks—366 prs.
- Shirts—77 prs.
- Pyjamas—52 prs.
- Quilts—15

The annual "Red Cross" Concert, given by the "Junior" girls and Boys, will be held in February. Exact date be given later.

Friday the 18th was "Goodwill S. of T. Division's Musical evening. Miss Huntley had charge of programme. Prize winners were Miss Johnson and Mr. Wm. Webb.

DIED.

At Somerset, on Saturday, January 12th, Mrs. Margaret Dodge, aged 79 years.

At Waterville on Saturday, January 5th, Mr. Nathan Best, aged 78 years.

At Waterville, on Tuesday January 5th, Burpee R. Best, aged 72 years.

Funeral on Thursday, 17th at 2 p. m.

At Waterville, January 6th, Mr. Ernest I. Miller.

MARRIED

At Berwick, on December 28th, by the Rev. W. A. Robbins, Mr. Lindsey Foote, of Lakeville, and Miss Myra Gladys, daughter of Mr. George Dodge, of Berwick.

At the Baptist Parsonage, Berwick, on Wednesday, Dec. 26th, by the Rev. W. A. Robbins, Holmes M. Tupper, of Lake Paul, and Miss Mildred Morrow, of Berwick.

At Berwick, on Saturday, Dec. 22nd, by the Rev. W. A. Robbins, Mr. J. Wallace, of Jordan Falls Shellburne Co., and Miss Sadie Viola Lovelace, of Berwick.

In London, England, on Thursday, Dec. 27, 1917, Pte. Frank Hamilton Palmer, of Berwick, and Miss Matilda Anna Evans, of Tottenham, London, England.

Contributions to the Halifax Relief Fund now amount to about \$3,000,000.

TENDERS

Sealed tenders will be received up to 12 o'clock noon of Feb 9th, 1918 for the dwelling House situated on the Corner of Main & Pleasant St. Canning N. S. The house is about new, 2 store-size 22x30 suitable for 2 small families—Can be easily moved. Which will be a condition as the land it occupies is needed in connection with the Mill and Coopersage business. The highest or any tender not necessarily accepted MELVIN BROTHERS.

Abject poverty in the midst of riches was discovered at Atherstone, Warwickshire, a few days ago. When an aged widow who had been living alone was removed to the local workhouse, more than five hundred dollars in gold and silver was discovered secreted in her house. In a tea caddy hidden under the bed was found nearly two hundred and fifty dollars, while another hoard included seventy-nine sovereigns.

From figures compiled by the city comptroller it is shown that Vancouver has contributed in the neighborhood of \$36,000 to the Halifax relief fund. Contributions are still to come in, although the lists have been officially closed.

A large number of the 6000 Ford tractors ordered by the Government have been completed and will be delivered shortly. The tractors will be for the use of country agricultural committees, and not of individual farmers.

CHURCH STREET CORNWALLIS

The young people gathered round the home firesides and the Holiday Season, passed very pleasantly, in spite of the sadness in connection with the Halifax Disaster we are glad to be able to report the progress to health, of those injured in that unhappy event. And whom we consider had most miraculous escapes.

Miss Minnie Healy has returned to the City after having visited with her mother at the homes of her Aunt Miss Armstrong, and sister Mrs. Reg. North Canning, Miss L. A. Chase, has returned to Toronto to resume her studies at the University. Miss Margaret to Acadia and Susie to the N. S. A. C. Truro. We wish them continued success in their studies and hope to again welcome them home for the summer.

Miss L. J. Eaton, our popular School Teacher spent the Holiday Season with her parents at Lower Canning and has returned to her Past of Duty.

John Sutton is determined to be a farmer and has returned to Truro to the Agr. College, which is it to be John, Beef Cattle or poultry, or both, brown fur muff, on the Road one day, "y! what! Santa Claus found a warm, and having no need of that comfort, left it at the home of David Sutton, to be called for by the owners kind old fellow was he not?

The Peoples Society met on the 10th inst., and resumed work for the winter, with a most enjoyable and instructive Library Party. Be at the Parish Hall, Thurs. eve. 24th, hear a thing or two, have a good laugh it will, be worth your while we assure you.

Steamer North Land left for Boston this morning at about one o'clock, having kept in port a day until the heavy wind had subsided. She carried about 50 carloads of freight, part of which was live lobsters.— Yarmouth Light Jan 17.

SEED WHEAT.

More Wheat will be required in Nova Scotia for next spring sowing. All persons who desire Marquis the best variety grown should send in orders for same. It is 10 to 15 days earlier than Red Fife yields 10 to 12 bus. more, and does not shell in handling like other variety. Can be delivered here at \$2.75 per bus. All parties wishing to order same notify undersigned at once. Wheat is not here but ear will be brought from the West by person who raised it if sufficient orders are obtained.

H. G. HARRIS.

Classes Will Re-open Wednesday, Jan. 2, and we hope to be able to show ourselves worthy of the very generous patronage we are receiving. Catalogues showing tuition Rates etc., mailed to an address.

WOLFVILLE

Mrs. Dr. A. S. Burns, and daughter are spending the winter at Wolfville, at Acadia Villa Hotel.

Rev. J. W. Manning, D. D. was at Bear River a week ago and preached in the Baptist Church.

Mr. John W. Vaughn was in Middleton on Saturday of last week.

The different grades of the Kentville schools and Academy have enjoyed sleigh rides to town during the past week. They patronized the rink and Opera House and made the time pass merrily.

Mr. R. E. Harris returned from Yarmouth on Wednesday, where he had been adjusting some claims for five insurance companies, at Yarmouth North.

The Poultry Show and lessons learned therefrom will stimulate many to extra exertions to increase the poultry products the present year.

Miss Jean McGregor, who has been teaching at Prince Rupert during the past four years since leaving Wolfville is at Chester Basin visiting her parents Rev. P. S. and Mrs. McGregor. Miss McGregor graduated at Acadia in 1912.

The Gesaspneau Senior Red Cross sewing circle sent to Halifax a box goods:—

31 suits pyjamas, 35 prs. socks, the Junior sewing circle sent 5 suits pyjamas in the same box.

Lieut. Harold Manning, son of Dr. J. Manning, of St. John, N. B. who has been in active service over in France and has been twice wounded, first in the battle of Vimy Ridge and the second time at Passcheneale, visited relatives in this lower Granville recently.

The annual business meeting of the Presbyterian congregation of Wolfville and Grand Pre was held in St. Andrew's church on Wednesday evening. There was a good attendance and the reports presented were of a most encouraging nature. During the year the church has purchased and paid for a fine new organ besides paying a good proportion of the debt on the church and contributing a very creditable amount to denominational objects, Dr. F. J. Harvey, Prof. Sutherland, Miss Annie Stuart, Mr. Geo. Chase and Mr. J. C. Mitchell compose the managing board for the ensuing year.— Acadian.

The body of George Tupper, of North Kingston, victim of the late Halifax explosion, has been exhumed and identified, and was brought to Kingston on Friday, 11th inst., where interment took place in the North Kingston cemetery. The body of Mrs. Tupper has not yet been recovered, and much sympathy is left for the sorrowing relatives.

We are sorry to record the death of Mrs. Fred Bartheaux, which occurred Tuesday, the 8th. The deceased was a consistent member of the Baptist church and beloved by all who knew her. She has been in poor health for several years so she longed for the time to come to be at rest. The funeral took place Thursday, conducted by Rev. F. H. Beals at the house. She leaves a father, Mr. Wm. Warner, of Kingston, a husband and two daughters to mourn their loss.— Inglisville Cor. in Monitor.

DEATH OF W C HAMILTON

News has been received here of death on Dec. 29th at the Royal Alexander Hotel Edmonton of Mr. D. C. Hamilton formerly of Grand Pre. His death took place following an operation of the stomach.

Mr. Hamilton was a son of the late George Hamilton Esq. of Grand Pre and himself was prominent for many years as a leading fruit grower and produce speculator. He represented Ward 9 for many years in the County Council. He married Miss Mary Harvey of Grand Pre who survives him.

LETTER FROM HOSPITAL

The following interesting letter was received from Harry Walsh of Kentville now in Hospital recovering from very severe injuries received while doing his level best to protect us from the Hun. The letter is to his parents Mr. and Mrs. R. B. Walsh. After mentioning about their worry in hearing of his accident he continues "Did you get a letter from Harry McCormick? He saw me off from the advanced dressing station which was at the line under severe shell fire. I surely had a lot to thank "Gus" for after I was hit I managed to get back 100 yds. and get in the remains of a trench for shelter from the flying shrapnel and machine gun bullets and who should be there but Gus taking care of his wounded officers. The minute he spied me he said "Donkers" what's the matter, and I told him, so off he crawled to look for a stretcher bearer, and who should he bring along but a big Fritz who had a big Red Cross sewed on his arm and he sure understood his business, and he tied me up good. The bullet hit me in the left chest near the two lower ribs breaking two ribs, took a downward course, thank Heaven, instead of up and lodged in my side. Old Fritz seemed delighted that it did not go through and said in good English "Good, Sergeant is all right and elapped his hands. He was a Saxon and a perfectly good Fritz. After I got fixed I decided, to take a chance and try and make Battalion headquarters alone. Well I just made it and that was all. They carried me after that. Four Fritz's carried me to the advanced dressing station thru the most awful shell fire I ever saw. They were a game lot and got me thru O'K. several times shells came so close the mud flew all over us, and nearly knocked the Fritz's down. Was carried four miles thru the mud before we came to nearest ambulance.

I was in a clearing station for 12 days expect to go to hospital in England in a few days.

Don't worry about me as I am recovering rapidly my wounds are healing up so very nicely really almost surprisingly and before long I shall be able to walk about a little I consider myself the most fortunate laddie in the world to get out of that place alive. Am feeling fine only a little sore, etc."

BREST LITOVSK NEGOTIATIONS HAVE BEEN INTERRUPTED

London, Jan. 19.—The negotiations at Brest-Litovsk have been interrupted temporarily, according to a Petrograd despatch to the Daily Mail dated Thurs. and the Russian delegation is returning to Petrograd.

The Germans, it is added, appeared to be manoeuvring to force the Russians to break the parley over a minor point, so as to throw the blame on the Russian representatives in the eyes of the Russian people.

A by election contest is on in Vancouver B. C., for local house and the candidates are, Mrs. Ralph Smith, widow of the late member and Major J. Robertson, D. C. M.

ULTIMATUM TO RUMANIA

Petrograd, Jan. 19.—A dangerous stage has arisen in the relations between Rumania and the Bolsheviks. A two hour ultimatum has been sent to the Rumanian military authorities by the Revolutionary committee of the Ninth Russian Army, demanding free passage of Russian troops through Jassy, the temporary capital of Rumanian.

FISHING NOTES

Boston, Wednesday:— With 126,000 pounds of fresh fish at the pier yesterday as against none by vessel arrival the day before wholesale prices at the pier were far higher than in many weeks. In fact, some varieties of fish yesterday were quoted at higher figures by dealers than at any time within recent years. Even wholesale quotations were far beyond the reach of the average buyer. They were as follows: Steak cod 20 to 24 cents per pound, market cod 15 to 15 3-4 cents per pound, haddock 15 to 15 3-4, steak pollock 11 to 11 3-4, large hake 13 to 18, small hake 11 to 12, steak cusk, 9 1-2 to 11.

Boston, Thursday.— Four fishing vessels brought 161,000 pounds of fresh groundfish to the pier yesterday. Wholesale prices were somewhat lower than on Tuesday, although receipts were far smaller. Quotations of dealers follow: Steak cod 14 3-4 to 19 1-4 cents per pound, market cod 9 cents, haddock 11 to 14 3-4, steak pollock, 9 3-4 to 11 add steak cusk 8 1-2 cents.

N. S. Fruit Growers Association
DOMINION EXPERIMENTAL ORCHARD WORK IN 1917

As has been the custom during the past four years, we are presenting at the present time a report, as condensed as possible, of the work being conducted at the different orchards where tests with different sprays are being tried for scab control. As you all know, the opening of blossoms was delayed fully 15 days, the full bloom period being about the middle of June. The temperature was high and the weather fairly bright, giving apparently ideal conditions for a good set of fruit. The set was influenced largely by a more or less weakened fruit bud having developed, an increase of bud moth the green apple bug. To add to this the crop was lightened by the heavy gale on August 10th when one third of the fruit was blown from the trees.

It will be noticed that the foliage injury tabulated has been divided into two classes, one having the characteristic brown burn on the foliage, and the other a yellowing of the foliage which may or may not have any of the former injury present. It will be remembered that this yellow leaf appeared in 1916 in the Bordeaux sprayed plots to a marked degree and also in the soluble sulphur arsenate plots. This season it seemed to follow the use of arsenate of lime quite generally and was not apparent on the arsenate of lead plots to any great extent. The foliage injury it may be stated as usual did not appear to any extent until after the 4th spray, and injury as given for that date is for that which appeared after that time.

MOST IMPORTANT SPRAY

For the purpose of finding out which of the four regular sprays are the most important, tests have been conducted during the past four years, and in addition to the results obtained this season, we have made a summary of the previous experiments, which is given herewith. It is exceedingly difficult to determine just what in general is the important one, as there is a variation from year to year, and sprays giving the best results one year may not be the important one the following season. It is evident, however, that no one spray will suffice. It may be possible, however, to control scab fairly well by two thorough applications, the one just before bloom and the one soon after bloom. These certainly should not be eliminated if we hope to get reasonably clean fruit, and in general it may be said that the two sprays before bloom are of greater importance than the two after bloom. That is, if only three are to be given, the fourth is the safest one to leave out, judging from our results covering a period of years. During this period, however, in some years the fourth may be of more importance than the first.

SPRAYS OF DIFFERENT STRENGTH FOR APPLE SCAB CONTROL

In order to control the green apple bug, it is necessary to apply a spray of high pressure. It appears that the regular lime sulphur arsenate spray of 1 to 40 strength, when applied to foliage, is liable to cause burning and that to reduce this to 1 to 60 materially lessens the injury. The tests given below were developed to gain information as to efficiency of different strength for scab control, and these have been applied in light, moderate and heavy applications to determine whether even the weaker mixture heavily applied, may not cause material injury. A summary of the results are given below, and from this it would appear that the heavier the application the greater the leaf injury and the better the scab control. On the other hand it does not seem possible

to eliminate burning material, especially in the heavy applications, by reducing the strength of the mixture. Observations made during the past three years would lead us to believe that much of the drop attributed to the lime sulphur is not due to this at all. So far as we have been able to determine, none of the fruit drop tabulated was due to the mixture used. It will be seen that the drop on the check plot where no spray was used was as great as on the sprayed trees.

The light, moderate and heavy application were put on as we thought a fruit grower would apply them. The light was simply one put on sufficient to cover the foliage and cause little, if any, dripping when spraying was finished. The moderate was applied heavier, more liquid, having been applied and a corresponding increase in dripping, although not a heavy dripping by any means when spraying was finished. The heavy application was made until there was a heavy drop from the foliage.

LIME SULPHUR ARSENATE APPLIED WITH DIFFERENT NOZZLES

Lime sulphur of the regular 1 to 40 strength with 2 lbs. of arsenate of lead were applied with the calyx, drive and regular nozzle. From the results obtained it would appear that there is a slight advantage in favour of the drive nozzle in scab control, but for practical purposes, the kind of nozzle is not a factor of great importance in actual scab control. It will be noticed the foliage injury is greatest with the drive nozzle. The advantage of the calyx nozzle is that double the liquid may be applied in the same time as would be possible with the regular. The advantage of the drive is that slightly more liquid can be applied in the same time than with the calyx, and the top of the tree can be more readily reached than with either the calyx or regular nozzle.

King Honors C.P.R. Official

SIR ARTHUR H. HARRIS, who has been made a Knight Commander of the British Empire for his services in Canada as Director of Overseas Transport, is a son of the late Henry Vinton Harris of Devonport, Devonshire, England. Educated at the Devonport and Stoke Grammar School he came to this country in the seventies, entering the service of the Grand Trunk Railway, and rising to the position of General Freight Agent Through Traffic. In 1902 he joined the Canadian Pacific Railway since which date he was actively engaged in initiating traffic for the Company's rail and ocean services. On the outbreak of the war, the President of the Canadian Pacific offered Mr. Harris' services to the Imperial and Canadian Governments for the purpose of organizing and directing an Overseas Transport Department, the successful administration of which is now recognised by His Majesty.

SIR ARTHUR H. HARRIS, Director of Overseas Transport.

He is a member of St. James' Club, Montreal; Rideau Club, Ottawa; and the Montreal Royal Golf Club. In 1888 he married a daughter of the late William B. Lamb, B.C.L. of Montreal, granddaughter of the late Hon. Wm. Morris, at one time Receiver-General of Canada, and niece of the late Hon. Alexander Morris, First Governor of Manitoba and the North West Territories.

KARL GREY
A Last Word

A piece of literary news which has for Canadians an almost national significance is the announcement of the forthcoming publication of Earl Grey's last message to the Empire. At a time when even the most devoted and unselfish of statesmen might be pardoned for thinking only of his approaching end and his private affairs, Earl Grey summoned his failing energies to utter a final word in support of the ideals to which he had devoted his life. This message has been given to the world through Mr. Harold Begbie, the well known novelist and man of letters, who was for some years intimately associated with the late Earl Grey.

Such a message as this, coming from a statesman of proverbially liberal and progressive views, would at any time deserve the most serious consideration. But at such a period of stress and change as the present, when the whole fabric of modern society has been thrown into the fiery crucible of war, it has a very special significance. Far more keenly than most public men, Earl Grey realized the perils to liberty and progress involved in the great European struggle, perils which might still exist, even if Germany were decisively beaten. These perils lie in the long and bitter struggle between capital and labor, in the selfish tyranny of partisan politics, in the spirit of arid sacerdotalism in the church, and in the general tendencies of society towards money-grabbing industrialism and materialistic standards of happiness. Earl Grey sounds a solemn last warning against these things, and makes a noble plea for that Anglo-Saxon unity and that federalization of the Empire in which he saw the surest hope for the peace and progress of the world.

While Earl Grey's last message is addressed to the whole British Empire, it has a special appeal for Canadians. Of all the great Dominions this is the one in which he took the keenest interest, and to which he was bound by the strongest ties. In fact his last published utterance under his own hand, was a warning to Canadians to as an Imperial statesman were centered in Canada, and he delighted to describe himself even in England as a Canadian by adoption. It is therefore only natural that in his last message his eyes should have been turned particularly to this country.

Mr. Begbie has very wisely added to Earl Grey's last word a character study of the dead statesman himself. Canadians have every reason to recall how unselfish and lovable was the personality of this nobleman, who probably numbered more intimate and devoted friends among all classes of the Canadian people than any other Governor-General. As Viscount Bryce says admirably in this very book: "No more beautiful or lovable personality has adorned our generation, or borne more worthily the tests of long life and high office." Similar testimony is given by men of such diverse distinction as Lord Milner, George Russell, the Irish seamanist and poet, better known as "A.R." Sir Starr Jameson, and F. S. Oliver. The appreciations of these distinguished public men and writers, the clever and sympathetic character-sketch by Mr. Begbie, and above all Earl Grey's own last word to a harassed and bewildered world, make this book, which is announced for immediate publication by Messrs. Hodder and Stoughton Limited, Toronto, one which should have an almost universal appeal. It is fitting monument to a great career closed in honor and in unselfish public service. It represents also the accumulated wisdom of a statesman's life.

EVERY-DAY DISHES IN HOLIDAY DRESS

By Martha Allen Gray. The holiday season is upon us—the season when that contagion of serving "fancy dishes" was wide-spread. But this year plain dishes will be the "thing" and the extravagance of other years will be tabooed almost universally. But if we will add a frill here and a frill there the hackneyed dishes of yesterday will be transformed into joyous surprises.

crisp biscuits or serve as a pie with a crisp pie crust or a top of mashed potatoes for boiled rice. This not only makes the dish more tasty but gives additional food value to it.

Serve the dish of left-over chicken with dumplings either steamed or browned in the oven, or make a rich gravy by adding the bits of chicken, a chopped pepper or a bit of pickle and a hard-boiled egg, and pour it over tiny baking powder biscuits.

Try cutting apples in half and roasting them with pork and see how they dress the dish when served. Likewise bananas, skinned and placed around the lamb roast will make a pretty dressing, and also add a delicious flavor.

Even the "impossible bread pudding" takes kindly to a layer of marshmallows, particularly if that same pudding be a chocolate one. Marshmallows also change the identity of our well-known friend, cornstarch pudding.

Plain buttered toast becomes a luscious sight when sprinkled with cinnamon and sugar and left to brown in the oven a bit. And incidentally, it makes a welcome dish for Sunday night supper.

Why not make plain desserts more tempting by sprinkling chopped nuts, marshino cherries, shredded coconut, or dots of jelly or by putting meringue on them?

In other words let us give our old garnishing stndbys, namely parsley, celery and eggs a rest and try something new on our families before they "get on to the trick."

SPECIAL VS. SIDE LINE POULTRY PRODUCTION.

At this time when economical production is of first consideration, the question of whether production should be increased by encouraging the number of poultry farms or by increasing the flocks on farms and in back-yards in the towns and cities, becomes of special interest.

Poultry Specialist

That the poultry specialist usually gets better results than the farmer, goes without saying. He gets better results because he has to; if he did not he would soon be out business. He has nothing but his poultry to depend on; he must show a profit. It costs him so much more to feed his poultry than it does the farmer that his only salvation is in increased production. He must get it or fall by the wayside—one of the failures in the poultry business.

With the present high and the ever ascending prices of feed, it is becoming more and more difficult for the specialist to show a satisfactory profit so that we must turn for increased production to sources mixed farm where a flock is kept as a side and in the town-dweller.

Farm Flocks.

Every farm in the country should carry a flock large enough to make the best use of the unsalable grains, vegetables and waste mill. There are few that could not to great advantage carry a flock of at least one hundred hens. But the flock must be put on a business basis. One member of the family—preferably one of the younger members—should be given full charge. Careful records should be kept and all wastage promptly disposed of. In this way the production may be greatly increased without any corresponding increase in cost.

Most of the work will be done by one of the younger members of the family. It will interfere very little with the general farm work. It will generally be necessary to purchase some feeds to supplement those available on the farm, but by so doing much of the lower grade products may be fed to produce a greater profit than if sold or fed to any other live stock.

The Back-yard Flock

The greatest hope for increased production at the present time lies in the back-yard flocks. There is no reason why every city, town and village should not be wholly or in great part at any rate, self-supporting from an egg standpoint. There are hundreds and thousands of dollars' worth of good feed thrown in the garbage pails every day. The waste going on even yet in our cities is simply appalling. The kitchen waste from the ordinary family of five or six people may be fed to best advantage to a flock of about twenty-five birds. This is more than many will want to keep, but a flock of this size will only require a house about twelve feet square—even a little less will do—no yard room is necessary and the

PROFITABLE SHEEP RAISING

THERE is not the least doubt that Western Canada is steadily building a reputation as a wool producing country. The opportunities it affords for the profitable breeding and rearing of sheep are unsurpassed in any part of the world. An abundance of suitable food of all kinds is available all over the country, while climatic and other conditions are exceedingly favorable. Almost any line of sheep husbandry may be followed successfully in the Prairie Provinces of Canada. On the range sheep breeding and rearing is an extremely profitable industry, especially in those districts where conditions are not well suited to ordinary agriculture.

That the farmer is more and more realizing the value of a small flock of sheep on his farm is shown by the increasing number of participants at the co-operative wool sales each year. Throughout the west this has been noticed at practically all the sales. In some cases, notably at Calgary, Alberta, there has been a greater number of participants and less wool offered than last year, but this is due to the fact that the larger breeders have been induced to sell their wool independently, so that practically all the wool offered for sale came from small farmers, who are obtaining as big returns in this line as in any other. At other places there has been an increase, both in the number of participants and in the quality of the wool offered.

It seems safe to say that within a few years the whole world will be looking to Western Canada and especially the Alberta for their sheep. The price now being obtained for far good by those who were not lighted enough to go in for sheep raising, either on a large or a small scale, has opened the eyes of farmers

all over the west to its possibilities and to all the best ways of doing it. Those who have small flocks are using every effort to improve the quality of their wool and larger breeders are leaving nothing undone in their endeavors to improve their stock and are striving to increase this and that of the quality of their wool. After trying all over Canada and the United States, and finding also that what he required in Australia, he recently purchased the full blooded Romney and to all the best ways of doing it. The Romney is the best breed of sheep for the range and the best for the town. It is a hardy, active, and intelligent breed, and its wool is of the highest quality. It is a breed that is well adapted to the conditions of the West, and it is a breed that is well adapted to the conditions of the East. It is a breed that is well adapted to the conditions of the South, and it is a breed that is well adapted to the conditions of the North. It is a breed that is well adapted to the conditions of the world.

(1) On an Alberta sheep ranch. (2) A shepherd can mind hundreds of sheep. (3) Sheep raised on irrigated land. These who have small flocks are using every effort to improve the quality of their wool and larger breeders are leaving nothing undone in their endeavors to improve their stock and are striving to increase this and that of the quality of their wool. After trying all over Canada and the United States, and finding also that what he required in Australia, he recently purchased the full blooded Romney and to all the best ways of doing it. The Romney is the best breed of sheep for the range and the best for the town. It is a hardy, active, and intelligent breed, and its wool is of the highest quality. It is a breed that is well adapted to the conditions of the South, and it is a breed that is well adapted to the conditions of the North. It is a breed that is well adapted to the conditions of the world.

eggs produced should keep the house supplied and still leave enough to sell to less thrifty neighbours to pay for all the supplement feeds which it is necessary to purchase.

What is more tempting to the appetite than an absolutely new laid egg from a flock that has been cleanly? Once used to home produced eggs, the consumer will never be content to depend on store eggs. If you don't believe this, try it.

Under present conditions, increased production should not be brought about by increasing the number of poultry farms, but rather by increasing the size and number of farm flocks, culling closely, and keeping nothing but good producers and last but of primary importance — by the increase in number of back-yard poultry plants where flocks may be kept largely on feed that would otherwise be wasted.

WORLD SHORTAGE IN FUEL AND FOOD.

We are living here in Nova Scotia
 with all the comforts of life and
 denying ourselves practically nothing
 The great world war has caused misery
 death and devastation of want or relax-
 ing of our desires for the luxuries we
 have been accustomed to.
 Never in our history has there been

such an urgent call for discipline,
 thoughtfulness and saving in the
 home, office, store and factories as at
 present. We as a people must now
 recognize the wide demand for economy
 in the use of food and fuel.
 While we have plenty in Canada
 there is not sufficient of these two
 things in the world to supply all the
 peoples needs.
 Let us decide that it is our duty to
 eat less of the food that is needed
 elsewhere and save all fuel not neces-
 sary for comfort so that the people
 elsewhere may be saved from starva-
 tion and freezing.

WAR BREAD IS COMING

The standard loaf and war bread is
 one of the things which we must adopt
 in Canada soon. Announcement has
 been made that after February there will
 be none of our patent flour allowed on
 sale, but a lower grade but more
 nutritious flour will be standardized.
 It will be of the same standard as that
 which the United States has adopted and
 will be the only flour available.
 We in Canada are prepared to go to
 any necessary extent in saving wheat,
 bacon, sugar, etc., in order that the
 starving and hungry ones of Europe
 may be fed. We should not expect
 to live as in former years with all the
 luxuries of life and hear of the terrible
 tales of hunger and suffering of
 people of our allied nation. The step
 for a lower grade of flour is taken none
 too soon and we will be much better
 by this act of self denial.
 The representatives of the Bakers of
 Canada will meet at once in Ottawa
 and adopt a standard loaf made from
 the new flour and of the same weight
 in all parts of Canada.
 Help to win the war by saving.

KINGS CO. UNITED BAPTIST CHURCH NOTES.

For many years the desirability of
 a readjustment of pastoral boundar-
 ies within this County has been very
 apparent. The matter has been re-
 curringly discussed and recurringly
 shelved. The writer, is, however glad
 to report that progress is being made
 and changes effecting three of our
 church Groups have been completed.
 The church at Port Williams which has
 hitherto been a branch of the First
 Cornwallis church, was on the even-

ing of January the 9th, organized into
 a separate church, and its officers
 duly elected. This with the New Minas
 and Canaan churches have been or-
 ganized into an independent group and
 have sufficient strength to pay a salary
 of \$1000. New Minas and Canaan
 have for a generation or more been
 served by Students from Acadia. There
 is an excellent opportunity for work
 among these churches. They are
 seeking a suitable leader the securing
 of which, I hope will not be long de-
 layed. The First Cornwallis Church
 at Canard, has now taken in the
 Village of Centreville a contiguous
 community, part of which formerly
 worshipped at Billtown and part at
 Canard and the remainder at ———. Be-
 cause of its borderland location this
 village of some 40 families has been a
 sort of No Man's Land. The church-
 es adjacent to it have had too extensive
 fields to permit much work among
 these people. A business meeting was
 held here on the 11th inst., at which
 about 90 were present. At this
 meeting the change of relationship
 was fully explained and the first step,
 taken toward the organization of a
 branch church the membership of
 which will be about 25 or 30.

The Hall's Harbor field which has
 been a problem for the people there,
 as well as the Mome Mission Board
 since the Union, will be cared for by
 the Billtown church which is its nearest
 neighbor. Bro. Bone of Canning has
 been caring for the Hall's Harbor
 churches for more than a year and
 his work has been abundantly blessed
 in the heartening of the people and
 organizing them for good work.

This readjustment is but the be-
 ginning of a larger work that needs
 to be accomplished before the churches
 here and elsewhere will be in a posi-
 tion to do their best work for the
 Kingdom of God. Such changes neces-
 sary involves sacrifice in the severing
 of established ties and an increase of
 benevolence. It was a pleasure to
 the writer, who visited the several
 churches concerned a number of
 times to note the willingness on the
 part of the leaders to make the chang-
 es referred to when it became obvious
 that the work of the Kingdom would
 be facilitated. Though the 1st Corn-
 wallis Church as it formerly existed
 has had to increase its gifts to pasto-
 ral support by \$200.00 it has not low-
 ered its aim along lines of denomina-
 tional work. Its entire gifts this
 year, if its goals for Missions, are
 reached will total more than \$1000. We
 are in need of more Ministers. Bill-
 town is pastorless. This is one of our
 strong Country Churches. It offers
 an excellent opportunity for construc-
 tive Christian work. The people are in-
 telligent, generous, and responsive to sym-
 pathetic leadership.

Rev. H. Carter on account of a ser-
 ious illness has had to give up the
 work at Perea. He has been con-
 fined to his bed since August and at
 times has suffered very acutely.
 Though it may be many months be-
 fore he is able to resume work he
 seems to be on the road to recovery.

The Perea church paid his salary
 during the last three-months of his
 illness prior to the expiration of his
 year. This generosity on their part
 as well as the subsequent considera-
 tion shown Bro Carter by his friends
 has helped to lighten the heavy
 burden of these months of suffering
 and inactivity.

Besides the churches referred to as
 pastors lass there is to be added the
 Lower Aylesford and Burlington groups.
 The call is for men, may the need be
 speedily met.

A. J. PROSSER.

CANADA'S AREA LARGELY INCREASED.

Canada occupies the larger half of
 the North American continent. It is
 larger than the United States
 including Alaska.

Last year the area of Canada was
 largely increased by discoveries of
 Stefansson the Arctic explorer. He
 has discovered and explored to some
 extent several large Arctic islands
 northwest of Banks Land. Stefansson
 claimed these new islands for Canada,
 which sent him forth on his voyage of
 discovery. His new spending his
 winter in the Northern seas of Bartel
 Island. Later we will learn more of the
 land which he has claimed for Canada.

Weymouth has for many years been
 a centre for smelt fishing in the winter
 time but this year all records are be-
 ing broken. Everybody in that town
 is fishing for smelts through the ice
 and it is not uncommon for a single
 fisherman to clear from \$20 to \$25
 every night. The fish are shipped to
 the United States. — Ex.

Administrators Sale

In Court of Probate 1918
 In the estate of **Henry C. Garrison**, deceased late of Horton Bluff in the County of Kings.
 To be sold at PUBLIC AUCTION on
Saturday, the 26th., day of January 1918

at the hour of eleven o'clock in the fore-
 noon at the Homestead of the late said
 deceased at Horton Bluff, pursuant to a
 license to sell granted by the Court of
 Probate for the County of Kings dated
 the 20th. day of Dec. A. D. 1917. The
 following all that certain piece or parcel
 of land lying and being in Avonport in
 the Township of Horton conveyed to
 John E. Kennedy by Judah B. Newcomb
 and Maggie Newcomb his wife, by inden-
 ture bearing date the first day of May A.
 D. 1884 and recorded in the Registry of
 Deeds Office for the County of Kings libro
 48, folio 763 and 764 described therein
 as follows:— Commencing at the South-
 east corner of lands owned and occupied
 by William F. Newcomb thence north 24
 degrees west 11 chains and 50 links to a
 line, thence north 68 degrees east on the
 same line 9 chains and 50 links thence
 south 26 degrees east 12 chains thence
 south 68 degrees west 10 chains to the
 place of beginning containing eleven and
 two tenths acres more or less, also that
 piece or parcel of land at Horton Bluff
 conveyed to Kennedy by Mary
 A. Claire (widow) Charles, Jane C.
 Thomas, Abbie and Henry heirs of the
 late Capt. Thomas Claire, of Horton
 Bluff, of the County of Kings, N. S., by
 indenture bearing date A. D. 1888 and
 recorded in the Registry of Deeds Office
 for the County of Kings in Book 98 folio
 32 on the 17th. day of February A. D.
 1910 and described therein as follows:—
 All that certain lot of upland situated
 in Horton Bluff, in the County and Pro-
 vince aforesaid and bounded as follows:
 On the north by the W. A. Railroad on
 the south by lands of Andrew S. Mc-
 Burney, on the east by lands of Holmes
 J. Davison and Capt. Andrew Colwell,
 on the west by lands known as the
 James Patterson property by at present
 owned and occupied by the said John E.
 Kennedy and containing 15 acres be the
 same more or less, with all the buildings
 and appurtenances and appurtenances there-
 unto belonging or in any way appertain-
 ing, also all that certain lot or tract of
 land situated in Horton Bluff, so called,
 conveyed to John E. Kennedy by James
 Patterson by indenture bearing date the
 13th. day of June A. D. 1891 and recorded
 in the Registry Office for the County
 of Kings in Book 98 folio 31 on the 17th
 day of February A. D. 1910 and therein
 described as follows:—Bounded easterly
 by the Avon River, on the south by
 land formerly or now of Thomas Claire
 westerly by lands of Freeman Huntley
 and Northerly by lands of John Dickey,
 containing 30 acres more or less which
 lands formerly belonged to Henry Chire
 deceased and were conveyed to said
 James Patterson by W. A. Parker, Esq.,
 executor of the last will and testament
 of the said Claire by indenture duly re-
 corded in libro 32 folio 629 in records of
 the Register of Deeds for Kings County,
 also all that certain parcel or lot of land
 situated in Horton and conveyed to
 John E. Kennedy by John B. North and
 Elizabeth North his wife by indenture
 bearing date the 14th day of February
 A. D. 1896 and recorded in the Registry
 of Deeds Office for the County of Kings,
 N. S., in Book 98 folio 29, the 17th day
 February A. D. 1910 and therein describ-
 ed as follows:—Bounded on the east by
 the Bluff Road so called, on the north by
 lands formerly owned by Edward F.
 Borden and Leonard Newcomb, on the
 west by an old laid out road and adjoining
 lands of Hugh Kelly and on the south
 by lands of John Dickey the whole
 comprising a lot of land deeded to the
 said John B. North, April 23rd. 1883 by
 Hugh Kelly and Mary Kelly, and record-
 ed in libro 47 folio 616 and 617 in Reg-
 istry Book at Kentville, also a lot of land
 deeded said J. B. North, March 31st.
 1888 by said John E. Kennedy and
 Anne Kennedy and recorded in libro
 65 folio 203, also a lot of land deeded
 John B. North by John Dickey and
 Hannah Dickey under date December
 24th 1895 and containing about two
 hundred and seventy-two square rods,
 the whole containing 28 acres more or
 less, also all that piece or parcel of land
 situated in Horton Bluff and conveyed
 to said John E. Kennedy by last Will
 and Testament of Isaac Armstrong
 bearing date A. D. 1880 and bounded
 as follows:—On the north by Bluff Road,
 on the south by lands formerly owned
 by J. B. Newcomb, on the east by prop-
 erty of John B. North and on the west

PERSONAL NEWS.

Mrs. N. T. Bowles of Bigged, Sask.
 has been spending a part of her vaca-
 tion to Kings Co. with her sister, Mrs.
 Allen Brown, of Brooklyn St.
 The many friends of Mr. Levertt
 Bligh of Billtown will regret to hear of
 the loss of his barn by fire with all
 of its contents. The fire is supposed
 to have been of incendiary origin as
 Mr. Bligh had not even had a lantern
 in the barn.

Doubtless the oldest resident in the
 Dominion of Canada to cast a vote at
 the recent election, was Joseph Mantell
 of Toronto, aged 107. Mr. Mantell is
 recognized as the oldest Mason in
 the Dominion.

Special trains on the lines in Canada,
 except such as are ordered by military
 authorities, and all excursion trains
 are now prohibited.
