### The Meaning of Values

Some people think that because a garment is low in price it is a "value" This is not always true. "Value" means something more than low price. It means low price and high quality. Many low priced garments look well for the moment but second grade materials, skimped seams, cheap trimming soon tell in poor wear. Such garments are not values. They are merely cheap merchandise, nothing more.

### Real Values—Farrah Values

Are something quite different. They are garments that represent the best in material, in tailoring, in finish. They are garments that have quality and style, garments for which you would willingly pay more. But because our buying organization enables us to purchase at great concessions, because our volume of business enables us to sell on a smaller margin of profit, we are able to offer them at prices which means real and consistent values.

OUR MERCHANDISING POLICY IS TO SELL A LARGE VOLUME OF GOODS ON A SMALL MARGIN OF PROFIT THAT MEANS BETTER GOODS AT LOWER PRICES.—REAL VALUES.

### To demonstrate this we are offering values in Women's Suits

The essential points to study in a suit are its style and its material. Is the suit smart? Is it correctly tailored? Does it fit the line of your figure? And is the material so firmly woven that it will retain its shape through all weathers and all wear? The suit values we are offering in this great demonstration meet every one of these demands.

### Baker Suggests Schools Teach News Reading

Former Secretary of War Offers Idea More Than Once Recommended By The Fourth Estate One Feature Of His Speech Causes Criticism

The assertion by Newton D. Baker, former secretary of war, in an address in Cleveland that news is bound to be colored, brought forth a sharp reply from the Cleveland Times and Commercial in its editorial columns. The newspaper reminded the statesman that the days of personal journalism have gone and that the daily of today stands for unbiased news.

Mr. Baker, however, redeemed himself when he brought out the fact the public depends on the newspapers and magazines for information on current affairs. The former secretary urged that there be established in the public schools courses on "How to Read Newspapers." This is a suggestion that has been offered by "The Fourth Estate" on several occasions.

The speaker said that the children should be educated to read what they see in the public print with a keen ability to discriminate between facts and opinion.

Replying to the aspersions which crept into Mr. Baker's talk, the Times and Commercial said:

"The assertion that people rely on newspapers and magazines to keep them informed on all matters of common interest is noncontroversial. It is a tribute to the high standard of American journalism in general that the public has come to place so much confidence in our publications that they rely on them for information.

"In asserting, however, that 'according to their respective policies, (the newspapers and magazines) news is bound to be colored and to some extent, biased,' the speaker did not entirely keep within the facts.

"As a rule, the old-time personal journalism has disappeared. The days of intermingling of facts and opinion in news columns is properly out of date. News columns are to give news facts.

"The editorial columns are for comment and opinion on the news. Though there are, unfortunately, some publications, including newspapers, that still persist in coloring their news and publishing biased reports to agree with their policies, there are others that recognize their responsibility to their readers and are honest enough to publish news facts without any attempt whatsoever to color or distort the facts to gain circulation or to advance the policies for which they stand."

We have in stock, Deed Forms, Teacher's Agreements, School District School Tax Books, Dog Tax Books, Assessment Lists, Road Tax Books, Poor and County Rates.

### Never Let A Cold Get A Start

Follow The Good Advice Of A London Woman

The quick direct treatment for colds of children and grown-ups, too, is an application of Vicks over throat and chest at bedtime.

Not only is Vicks absorbed through the skin, but its healing vapors of Camphor, Menthol, Eucalyptus Turpentine, etc., are breathed all night directly into the affected air passages.

Relief usually comes by morning. Just as good too, for cuts, burns, bruises and itching skin troubles.

Mrs. Lily Waghorn of 126 Elliott St., London, Ont., says: "I am pleased to tell you I have never found anything to equal Vicks Vapo-Rub. My daughter had a terrible cold and sore throat. I rubbed it on her forehead as her head was aching and got her to bed. Next morning she was nearly well. I think its the best yet for colds or chest trouble, also catarrh in the head, as it loosens up the air passages so quickly."

At all drug stores 50c a jar. For a free test size package, write Vicks Chemical Co., 344 St. Paul St., W. Montreal, P. Q.

The Vicks is new in Canada, it enjoys a remarkable sale. Over 17 million jars used yearly.

KINDLY REMIT YOUR SUBSCRIPTION TO THE ADVOCATE

### CHATHAM TRIMS CAMPBELLTON 3-1 AND BATHURST 5-4

Playing thirty minutes overtime Chatham defeated Bathurst Friday night, five to four. The contest was the most thrilling ever witnessed in Chatham. The game ended four to five. Three overtime periods of ten minutes each were played. No score was made until twenty-two minutes of overtime play when McMahon scored the winning goal. Every man on the Chatham team worked like Trojans. McMahon, the youngster playing a star game. Keoughan, Milton and Duncan played the game of their lives. For Bathurst Ryan and Crosby were the stars. Crosby especially being dangerous, but he was closely watched. Throughout Chatham had easily the best of the territory, raining shot upon shot at Moar. At times seemingly sure goals were turned aside. During the game and especially the overtime periods the crowd was held breathless with suspense and at the close of the game they surged upon the ice and formed a triumphant escort about their players.

Jack Twaddle, of Amherst, referred a most important game.

In a fast and exciting game of Hockey last night in Chatham, Campbellton was defeated by the score of 3 to 1. A large attendance of fans were present to see the game and many went down from Newcastle.

### 1923 OFFICERS AND COMMITTEES

At a meeting held last Friday evening of the newly elected Board of Trustees of St. James' Church, the following officers and committees for 1923 were elected:

Chairman—Jas. M. Troy  
Secretary—John Russell  
Treasurer—G. G. Stothart  
Fin. Sec.—A. A. MacTavish  
Auditors—L. D. Murray and W. E. Fish.

Church and Cemetery Committee  
Jas. M. Troy, Chairman; Joseph Jardine, W. F. Copp, and A. A. MacTavish.

Manse Committee  
G. G. Stothart, Chairman; J. D. MacMillan and H. Sproul

Sunday School Committee  
A. A. MacTavish, Chairman; John Russell, and Edward Falconer.

Lands Committee  
W. E. Fish, Chairman; David Mutch and J. P. MacRae.

The following appointments were also made:—  
Organist and Choir Leader—Prof. F. J. Liscombe.  
Church Officer—James Baisley.  
Ushers—C. S. E. T. Boys  
Choir Committee—John Russell and J. P. MacRae.

### JURY RETURNS VERDICT FOR DR. BELL

In the Supreme Court now in session, the jury returned an unanimous verdict in favor of the defendant Dr. J. A. M. Bell. He had been sued for \$15,000 damages in a slander action instituted by Dr. Olliqui Maloney.

The court is now hearing Buckley Insurance cases.

### EMPRESS THEATRE ON THURSDAY

The demand for mystery pictures is steadily increasing. They offer motion picture fans delicious thrills and expectancy, and in these respects "The Young Diana," a Cosmopolitan creation released by Paramount, starring Marion Davies, which will be the big feature at the Empress Theatre for two days Wednesday & Thursday ranks among the best productions of the current season.

In this picture Miss Davies is seen as a young English girl whose love romance with a titled naval officer seemingly is forever shattered. Life seems interest to her and she develops into a spinster whose future is dreary and hopeless. But she goes to Switzerland, where she encounters a mysterious alchemist who induces her to subject herself to a daily experiment with the result that she emerges from the ordeal a wonderful beauty and soon becomes the rage of Europe. Then in a mysterious way she encounters her former sweetheart, and what happens later is told thrillingly in a series of remarkable scenes. Naturally, she finds love and happiness at last.

Miss Davies is admirably supported in this novel and entertaining photoplay. In the cast are Forrest Stanley, leading man; Maelyn Arbuckle, Pedro de Cordoba and Gypsy O'Brien. The picture was directed by Albert Capellani and Robert G. Vignola, two of the most capable directors identified with the industry.

### I. O. D. E. OFFERS TWO PRIZES

In order to encourage Canadian literature the Imperial Order Daughters of the Empire is offering two prizes; the first of the value of \$200 for the best short story; the second of the value of \$100 for the best one act play. These prizes will be offered annually for ten years. The conditions under which they will be awarded this year are as follows:—

THE SHORT STORY

1. It must not have been published before being submitted in this competition.
2. It must not contain less than two thousand words nor more than six thousand.
3. It must be typewritten on paper of letter size (8 1/2 x 11 inches) and written on one side of the paper only.
4. It must be sent flat, not folded or rolled, have the author's "nom de plume", but not his or her real name on the title page, be registered and mailed to the National Educational Secretary, I. O. D. E., 239 Bloor St. E., Toronto.
5. A sealed envelope with the "nom de plume" printed or written clearly upon it, and the author's name within it, must accompany the manuscript.
6. The manuscript must be submitted on or before April 1, 1923.
7. The writer must be a British subject.

The copyright of the story adjudged the best is to be vested in the Imperial Order Daughters of the Empire with power to arrange for its publication in magazine or in book form or in both.

The Play

1. It must be a one-act play.

### NO CHANGE OF PORTFOLIOS IN PROV. CABINET

Fredericton, Feb. 1—New Brunswick's sixteenth administration since Confederation assumed office shortly after 10 o'clock this evening when Hon. Peter J. Veniot, and the members of his cabinet were sworn in before Hon. William Pugsley, Lieutenant Governor.

The oath of office and of allegiance were administered at the executive council chamber, in the provincial government buildings here. The personnel of the cabinet is as follows:

Premier and Minister of Public Works—Hon. Peter J. Veniot.  
Attorney-General—Hon. James P. Byrne, K. C.  
Provincial Secretary-Treasurer—Hon. J. E. Hetherington.  
Minister of Lands and Mines—Hon. C. W. Robinson.  
Minister of Agriculture—Hon. D. W. Mersereau.  
Minister of Health—Hon. W. F. Roberts, M.D.  
Minister without portfolio and President of the Executive Council—Hon. Fred Magee.  
Minister without portfolio—Hon. J. E. Michaud.

The new government is the same as that of Hon. Walter E. Foster, which resigned today, with the exception that Hon. Mr. Foster retired as Premier and member of the Executive Council. Immediately following the swearing-in ceremony the new government went into their first meeting, to arrange among other things for the coming session of the legislature which is expected to open on Thursday, March 8.

This evening Hon. P. J. Veniot, after having been sworn in, issued a manifesto.

With Hon. C. W. Robinson, having eliminated himself from consideration by his statement upon his arrival here from Ottawa this afternoon, the expectation in political circles here is that New Brunswick's next Lieutenant Governor will be William F. Todd, of St. Stephen, ex-M.P., for Charlotte, says the Gleaner today. Sometime ago it was generally understood in well informed circles that Mr. Todd would eventually succeed Hon. William Pugsley as Lieutenant-Governor. Then the assertion was very definitely made that Hon. Mr. Robinson would be the choice but he now says that he is not an aspirant for the position. Mr. Todd's friends believe his appointment is now virtually assured.

### MIRAMICHI HOSPITAL

The Secretary begs to acknowledge the following donation.

George Burchill & Sons, Payroll  
Subscription ..... \$108.50

2. Its presentation on the stage should occupy not less than twenty minutes nor more than thirty minutes
3. It must not have been published before being submitted in this competition.

Conditions 3, 4, 5, 6 and 7 for the Short Story apply also for the Play.

Names of the judges selected by the members of the Canadian Authors' Association will be announced at a later date.

**It's a Surprise!**

If there are those who have thought that they could not take cod-liver oil nourishment, there is a surprise in store for them when they take

**Scott's Emulsion**

It is pleasing to the palate and is assimilated so readily that it is the exceptional person who cannot take it easily. If you are run-down in strength, take Scott's Emulsion!

Revisors of Votes—E. J. Parker, David Manderville.  
Game Warden—John Jardine.  
Constables—John Knight, William Crawford, Alex. Davidson Jr., Allan Knight, John E. Jardine, Herbert Holt, Rainsford O'Donnell.  
Fence Viewers—Richard Cluston, Albert Bryenton, Daniel O'Brien.  
Hog Reeves—Samuel Lee, Allan Knight, John Davidson, George Hogan, Frank Jardine, Michael Kell, Christopher O'Brien, Herman Carnahan, Howard Manderville.  
Pound Keepers Thos. Power, Allan Knight, Perley Bell, Daniel O'Brien, Frank Parks, Chas. McDougall, Ben. Jardine, Howard Manderville.  
Surveyors of Lumber—James T. Crocker, E. J. Parker, Wm. J. Parks, Wilmot Crocker, Duncan Parker, George R. Parker, Wm. Allison, P. M. Henderson, Con. Regan, Victor Russell, Wm. Bell, John Parks, Perley Bryenton, Robert Ramsay, David Dolan, Allan Davidson, Robert Taylor, David Manderville, Burton Vanderbeck, Guy McEachren, George Bell, Abraham Vanderbeck, George Henderson, John Brophy, Raymond Vanderbeck, Melbourne Carter, Freeman Bryenton, Lloyd Bryenton, Albert Bryenton, Eldson Bryenton, \* Miller-Esson, Claude Russell, Borden Parker, Merton Parker, Earl Holt, Hiram Manderville.  
Ferryman—Albert Holt.  
Clerk of the Market—George Ite.  
Surveyors of Wood and Bark—Wilmot R. Crocker, Jas. T. Crocker, Fred P. Esson, C. C. Crocker, E. J. Parker, Wm. A. Matchett, Robert Robinson, Duncan Parker, Thos. Wilson, Everett O'Donnell, Burton Vanderbeck, Victor Russell, Ray Vanderbeck and Herbert Holt.

**CHARCOAL FOR LIVE STOCK**

Wood Charcoal, or, as it is known in its medical significance, Carbo-Ligni, is used to a considerable extent in both human and veterinary practice. Its action, of course, is exerted whilst passing through the alimentary canal where it checks fermentation, lessens acidity, tends to remove mucous and exerts some considerable degree of healthy stimulation upon the digestive functions. Further it has an antiseptic disinfectant and deodorant action. Further still, and more important in the feeding of live stock, it supplies certain mineral salts necessary to animal nutrition. Everyone is familiar with the craving that cattle, horses and hogs frequently exhibit for woody substances. Cattle, particularly during the winter will often be seen chewing pieces of boards and wood of any kind. Hogs consume considerable quantities of ashes, charred coal, charred wood, etc. Horses and colts running at large are prone to nibble at boards and logs and are particularly fond of the bark of dead trees.

In the feeding of dairy cattle, particularly during the winter, it is advisable to see that such material is given regularly. One of the most satisfactory ways of supplying charcoal with a view to obtaining its desirable effect on digestion and in the supplying of certain of the earthy salts is to add to the meal ration a small percentage of charcoal in one of its several commercial forms. Pulverized charcoal may be used and where bought several hundred pounds at a time may be procured at reasonable rates from dealers in poultry supplies, seedsmen and general supply houses. The objection to pulverized charcoal is that it is an exceedingly fine and very light powder which is rather difficult to incorporate with the meal mixture without having a more or less inconvenience arise due to the black dust rising into the air and settling about the mixing room. Theoretically, the finely pulverized charcoal should be in its most available form. To obviate the inconvenience of the pulverized product it may also be fed in what is known as the chick size, or such as is prepared for the use of small chickens. This takes the form of small granules of charcoal which is readily mixed with the mixture and is small enough to be fairly readily available. One to two per cent of the meal mixture in the form of charcoal could be used.

With hogs charcoal may be fed in the larger size and will be eagerly consumed by them particularly if their supply of such material has been limited previously. In some sections it is possible to procure at a much lower cost soft or low grades of coal and fed with equal satisfaction in so far as results are concerned. For little pigs during the winter possibly charcoal crushed into lumps

is as satisfactory a form of this material as may be fed.

With horses, charcoal is equally desirable because of its effect in the better promotion of digestive functions. The charcoal may be mixed in the way of a small handful occasionally or may be administered with the bran mash weekly. Practically all the receipts for tonic or condiments to be used in connection with horses, contain a considerable percentage of pulverized charcoal. It is a medicine or corrective which uses no bad effect even if slightly greater quantities than required are fed and is highly desirable on account of its antiseptic or, as it is more popularly known, its sweetening or toning effect on the system.

In so far as the mineral content of charcoal is concerned, its use is important and desirable because it contains a large proportion of phosphates. With practically all classes of stock there is a tendency in many instances toward too small a proportion of phosphates entering the ration. Particularly does this effect the dairy cow and most particularly of all the high producing dairy cows on Record of Merit or Record of Performance test. Charcoal should not be omitted from the ration of the heavy producing dairy cow.

**The Human Factory**  
Its Motive Power is Rich, Red Blood

The human body is the busiest factory in the world. There is no eight-hour day, no slack season, no holidays, no cessation of its labor at any time. Day and night work is carried on in the workshop of your body and it never ceases until the engine—your heart—stops forever.

The factory of your body has its motive power without which it would cease at once. That power is rich, red, healthy blood, which keeps your whole system efficient and which drives away all disease that may attack it. Often, however, the blood begins to fail and becomes thin and poor. It becomes loaded with waste and charged with poisons. Then it is that your bodily workshop goes wrong: your physical machinery becomes disorganized and you fall ill. You become anaemic, perhaps the nerves break down, or you begin to suffer from indigestion, neuralgia, general debility with pains in the back, head or side in this condition of bloodlessness Dr. Williams' Pink Pills are just what you need. Their one mission is to make rich, red blood which brings health and energy to every part of the body. Mr. Raymond Webber, Welland, Ont., tells what these pills did for him as follows:—"My blood was thin and watery, and I was in a badly run down condition. Pimples broke out on my body which caused me much discomfort. I would catch cold easily, which aggravated my condition. My brother advised me to try Dr. Williams' Pink Pills, and after taking about eight boxes I felt that I was again a well man. I have since recommended the pills with good results to others."

You can get these pills through any medicine dealer or by mail at 50 cts. a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

**"A Mass of Sores—No Sleep—Unhappy Days"**

writes Mrs. George Harvey of Barville, Quebec, N. B.: "I doctored with doctors until the end of May. Then I got a bottle of D. D. D. AT ONCE MY FACE GOT BETTER. I used half a bottle only and have been entirely well ever since."

Why not see if half a bottle will relieve your case of skin disease, too—on our guarantee that the first bottle will show results or your money back? Shipping stops on the outside. \$1.00 a bottle. Try D. D. D. Soap, too.

**BRITISH ACCEPT WAR DEBT PLAN**

Terms of Funding Are Accepted Without Reservation

London, Jan. 31.—The cabinet council today with unexpected promptitude and almost without further de-

bate decided to accept the United States terms for funding the British debt, and, so far as known tonight, without reservations of any kind.

No official statement has been issued beyond the bare announcement of acceptance and if there are any reservations or counter-proposals, they will probably become known only after the United States Ambassa-

dor at London has communicated the British Government's decision to the State Department.

The United States Ambassador, Colonel Harvey, expressing to the Associated Press his gratification that the matter had been thus arranged, said he considered it a fair and just settlement.

**Washington is Pleased by News**  
Washington, Jan. 31.—Advices announcing the acceptance today by the British cabinet of the United States suggestions for the funding of the British debt were received by official Washington with undisguised satisfaction. The feeling prevailed generally that a step toward breaking the vicious cycle of the world debts has been taken and that the result would be a substantial improvement in world conditions. On the basis of press despatches which were supplemented later by a brief cable to the State Department from Ambassador Harvey in London, members of the United States Debt Funding Commission began immediate preparations for presenting the terms of the tentative settlement in Congress.

**Meeting of Presbytery**

At a pro re nata meeting of the Presbytery of Miramichi held Tuesday in St. James' Manse, Newcastle, Rev. L. H. MacLean, interim Moderator of the Session of Douglstown and Nelson, presented a call from that congregation addressed to Rev. Roland Davidson. The call was largely signed by communicants and adherents, accompanied with guarantee of \$1800 annual stipend and attested as most hearty and unanimous by Messrs. R. Jessamin and D. Baldwin, commissioners from the congregation. In sustaining the call, Presbytery expressed gratification at the prospect of so early a settlement and the generous advance to the new minimum stipend which had been made by the congregation. The clerk was instructed to forward the call to Mr. Davidson immediately and provisional arrangements made for his induction in the event of his acceptance.

**Minister's Association Meeting**  
The Miramichi Presbyterian Ministers' Association met Tuesday in St. James' Manse, Newcastle, immediately after the close of the Presbytery. Rev. F. W. Thompson acting as chairman of the meeting, the president, Rev. G. A. Grant having removed from the bounds. The election of officers for the ensuing year resulted as follows: Rev. William Girdwood president; Rev. W. McN. Matthews, vice-president; Rev. L. H. MacLean, secretary and these with Rev. Mr. Thompson to constitute a programme committee. The programme of the meeting was a paper on "The History of Millennialism" by Rev. J.H.A. Anderson.

**BEING TOO FUNNY**

Oversupply of Humor Not a Thing to Be Desired.

According to Writer, if One Would Succeed in Life, Cultivate Bearing of Solemnity.

"Never make people laugh. If you would succeed in life you must be solemn, solemn as an ass." That advice to a young and ambitious member of parliament is quoted in Ralph Nevill's "Mayfair and Montmartre." Michael Dane writes in the continental edition of the London Mail. It is advice which every young man who wants to make himself a great figure in the world must take to heart, and act upon.

When I read that instruction I thought at once of a man whom I was privileged to know a few years ago. He was a member of parliament. Although few realized the fact, there were in the house of him some flaming enthusiasms, some determinations to right wrongs, and to make for the following generations a better world than his own pampered youth had known. He was a man who might have made this world a better, saner, and cleaner place to live in—but comparatively early in life he had made the mistake of displaying himself as a funny man.

That man was the late Spencer Leigh Hughes. There will always live in my mind the memory of one talk I had with him when, putting aside the cap and bells of the jester, he spoke of the things which lay near his heart, and I realized the nature of the man who was usually so thoroughly disguised. He had vision and—which is still more rare—he had the constructive mind. But he had shown himself to the world as a jester, and the world, which will never forgive a jester who turns from his jesting to serious affairs, compelled him to remain a jester to the end.

The world has so deep, so insatiable a need for laughter that it believes it cannot spare any of its clowns. It is compassed about with serious people, and it has a cranky belief that serious people are alone to be trusted with its serious work. But once a man has revealed his possession of a trace of the spirit of the clown it will not allow him thenceforward to appear as anything else.

You have only to look round the life of today to see how violently true this is. There is W. W. Jacobs. He began to write funny stories, and the world will take none but funny stories from him. In the "Monkey's Paw" he showed that he could equal if not surpass Edgar Allan Poe in grimly tragic writing, but the world does not want him to write yarns about fat sailormen and impossible villagers.

Then there is the case of the late R. G. Knowles. The world which wants to laugh knew him as an admirable music hall comedian. Only a few were aware that he was an explorer of note, and that he only went on the stage to earn money enough to finance the expeditions which earned him the fellowship of the Royal Geographical Society.

If you are born that way the world will quite possibly pay you a lot of money for being funny. But it is perfectly certain that it will forbid you to follow any other trade than that of the clown, and will forbid you any enduring fame. Shakespeare is venerated for his tragedies, not for his comedies. Hogarth is honored as an artist and not as a humorist. John Sebastian Bach, funniest of all musicians, is praised mainly because in odd moments he wrote solemn music. The funny man may earn money at the moment. He never earns anything else.

**A Terrier Decorated.**  
A terrier named Peter, belonging to Rev. W. Adams of Liverpool, has been awarded the medal of the National Canine Defense League. While on holiday at Borrowdale in the lake district Peter was locked in a garage adjoining the hotel and startled the guests by barking violently. Mrs. Adams went to soothe him, and in searching for the cause Mrs. Adams discovered that a young man named Arnold had fallen 50 feet down the hillside and was pinned by the rocks which had fallen with him. His leg was fractured and there were many severe wounds on his body. Mrs. Adams attended to the injured man until the arrival of the nearest doctor, who lived four miles away. Had Peter not given the alarm the young man would probably have died before he was discovered.—Manchester Guardian.

**Use for Old Boot Soles.**  
Many devices have been suggested for the utilization of old army boot soles, the chief being concerned with fuel production. But a periodical, the Fertilizer, proposes to use them for stimulating the growth of beans and peas. The plan suggested is that of carbonizing part of the leather into lamp black and extracting sulphate of ammonia from the residue. It sounds rather like putting one's foot in one's mouth; but even that is a way of making both ends meet.—London Chronicle.

**The Difference.**  
Young Son—Father, what is the difference between robbery and pillage?  
Father—Perhaps, I can explain it, my son, by saying that a dentist's bill is robbery, while a doctor's bill is absolute pillage.—Wayside Tales.

**SMOKE**

in 1/2 lb tins and 15¢ pkts.

**OLD CHUM**  
The Tobacco of Quality

**ASPIRIN**

UNLESS you see the name "Bayer" on tablets, you are not getting Aspirin at all

Accept only an "unbroken package" of "Bayer Tablets of Aspirin," which contains directions and dose worked out by physicians during 22 years and proved safe by millions for

- Colds
- Toothache
- Earache
- Headache

TUESDAY, FEB 6TH 1923

## DEATH HAS CALLED THE REV. DR. WILLIAM HARRISON

In the passing of the Rev. Dr. William Harrison, who died at his home, 91 Fleet street, Moncton, on Wednesday, following an illness of ten days from paralysis, New Brunswick loses one of its best known citizens, one whose services to God and humanity in his chosen profession as a minister of the Gospel for over half a century endeared him to all with whom he came in contact during his lengthy life work. The end of a useful life will be deeply regretted throughout the Maritime Provinces where for 52 years he had served in the Methodist ministry, during the last four years serving as a supply in various parts of the province.

The late Dr. Harrison was born in Kirkby Stephen, Westmorland County, England, 73 years ago and when a young man 22 years of age emigrated to Canada, and had resided in the Maritime Provinces ever since and in Moncton for the last four years since his superannuation from N. B. and P.E.I., Conference in 1919. During his ministry the late Dr. Harrison served in all fourteen circuits in the Maritime Provinces. In the order of his ministry they are, Coverdale, Albert Co; Dear Island, N. B.; Richmond, N. B.; Gagetown, N. B.; Dorchester, N. B.; Charlottetown, P.E.I.; Baddeck, C. B.; Sackville, N. B.; Bathurst, N. B.; Cornwall, P.E.I.; Charlottetown, P. E.I.; Newcastle, N. B.; and Marysville, N. B.

Following his retirement, four years ago the late Dr. Harrison had been very active and had served as supply in many churches throughout the province for his own denomination and other bodies. Dr. Harrison, was one of the best known preachers of the N. B. and P. E. I. conference, and in addition to being president of the conference in 1902 he was for three years a delegate to the General Conference, which is considered a high honor in the Methodist church. He had also been a frequent contributor to many religious and educational journals, both on this continent and in the land of his birth. He was also a Regent of Mount Allison University, the convocation of which in 1912 conferred upon him the honorary degree of Doctor of Divinity.

Besides his widow, the late Dr. Harrison is survived by one son and one daughter. The son is William J. Harrison, representative of the Canadian Westinghouse Co., and residing in Moncton, and the daughter is Miss

Allice, Secretary of the Primary work of the Maritime Religious Educational Council. The sympathy of the community is extended to the bereaved in their great sorrow.

The funeral was held on Saturday afternoon at 2.30 from the family residence, 91 Fleet street.

### DR. HARRISON BURIED

The funeral of Rev. Dr. William Harrison, which took place in Moncton, on Saturday, was one of the most impressive ever seen in the city.

At the home of deceased, a private service was conducted by Rev. E. Val. Tilton, pastor of Central Methodist Church. The remains were then conveyed to Central Church, where at 2 o'clock a public service was held. An eulogy was delivered by Dr. Geo. Steele, superintendent of Missions, St. John, and life-long friend of Dr. Harrison.

### Hon. C. W. Robinson To Go To California

Hon. J. E. Hetherington, provincial secretary treasurer, has been appointed acting minister of lands and mines during the absence of Hon. Mr. Robinson, minister of lands and mines, who has been granted leave of absence to enable him to proceed to California on private business in connection with the Jordan estate of which he is executor. He remained in Fredericton until Friday evening, packing up affairs at the crown lands department, and will leave Moncton almost immediately for the Pacific coast expecting to return before the opening of the session of the provincial legislature on March 8th.

### PARLIAMENT OPENED

The second session of the fourteenth Parliament of Canada opened Jan. 31st, with the usual ceremonies. Mr. Harold Putnam M. P. for Colchester thought the address in reply to the speech from the Throne. Right Hon. Arthur Meighen, of the opposition opened the debate by congratulating the mover and seconder, Joseph T. Rheaume, M.P., Jacques Cartier on their speeches. The debate continues.

### SNOWSTORMS COST

Charlottetown Guardian—Since the last storm the streets of Summerside have been levelled off only at the worst places, and the cleaning of the sidewalks was a difficult operation, owing to the snow being so heavily packed. The two previous storms cost the town over \$800.00 to clear the sidewalks and level the streets.

### DEBT FUNDING

Washington, Feb. 4—The plan for funding Great Britain's war-time debt to the United States was turned over to President Harding Saturday night by the debt funding commission. Accompanying the plan was a statement by the commission suggesting methods of congressional action translating the results of the commissions negotiations into law. The statement was not made public.

President Harding will submit the settlement agreement to Congress probably on Tuesday. While he has not made a definite decision the expectation is that he will make the presentation in person to a joint session of the House and Senate in the House Chamber.

Commenting on the increase of \$37,898,967 in the Dominion revenue for the first ten months of the present fiscal year, the Toronto Globe says: "It is a substantial and much-needed improvement. Heavier taxes alone would not have produced it."

It is proof of the upward trend of trade and industry in Canada.

KINDLY ADVISE US OF ANY CHANGES IN YOUR ADDRESS.

## FOUND IN MAILS

### Many Things Are Forwarded Besides Correspondence.

Superintendent of Philadelphia Post-office Tells of Some Amusing Experiences He Had Had.

Every one who has watched the crowd collect in front of the parcel post window at holiday time knows that the mail has a more or less humorous side, remarks the Philadelphia Record. How humorous it can be you do not realize till you begin to find out about it.

Mr. Johnson, the superintendent of mails at the central postoffice, knows. He has 27 years' experience. "Did the crying baby ever go through the mails?" the reporter questioned him.

Mr. Johnson shook his head. "No, the only live things allowed are live chicks and bulbs. Everything else under the sun does go. Sometimes very humorous and pathetic incidents occur."

"An old Virginia mammy wanted to ship herself home parcel post. Every Christmas she had received a nice fat package through the mail. It meant direct communication with her own people. She pictured Christmas down on the plantation in all the rosy glow of her far-off childhood. She craved to go back and she didn't know how to go. She had just enough brains to know that she was too ignorant to take the long journey by herself. So she came to her mistress. "Couldn't I just be labeled and stamped an 'weighed,' she demanded, 'and sent along back to Virginia with the postman? I'd like to give myself as a Christmas present to my folks this year.' "Humorous, but pathetic as well isn't it?"

Mr. Johnson talks like a Virginian and has a true gift of telling a story. "A negro said there were three kinds of pies, the covered, the uncovered and the barred. We have to do with the barred variety. In a country district some one made the most beautiful barred apple pie. They decided to send it through the mails to a friend in Philadelphia. Great was their trust. They put a string through one of the bars. Tied on a label with the name and address and the proper amount of postage. Put the pie in a pieplate and sent it off on its journey. "That pie arrived in perfect condition. It had appealed to the humorous sense of the clerks and had been handed from one man to the next with the greatest care."

Mr. Johnson also had amusing experiences when he worked in the railway mails. Bags collected at the rural stations often contain queer guests. "I have seen a clerk open a bag and a small snake come out," continued Mr. Johnson merrily; "whenever that happens they look as if they had been struck by green lightning. "The bag had been put down somewhere and somehow the snake had managed to creep in. "At places too small for the express to stop, the mail bag is hung out on an iron crane. The postal clerk grabs it and throws out another as the train goes by. I had just taken off a pouch and opened it when out stepped a chicken. Not a day-old chicken, but a good-sized bird. You could have knocked me over with a feather when I saw that fowl."

**Suffers for Heroism.**  
Sergt. Willie Sandlin of Devil's Juno Branch, Leslie county, is suffering a serious lung affection as the result of gas inhaled while in the Argonne forest, he was told when he visited Richmond, Ky., for examination by government physicians.

Sergeant Sandlin, advancing in command of a platoon at Bois de Forger, France, September 26, 1918, kept on when discovery of a machine-gun nest brought a command to halt. In one day he destroyed three machine-gun nests, killed 24 Germans, captured six machine guns and a hospital group, killing the German lieutenant with his own gun.

Sergeant Sandlin was awarded the Congressional Medal of Honor, the Croix de Guerre with palm, the Medal Militaire and citations from General Pershing and Marshal Foch.

**Natural Colored Silk.**  
Experiments made in France, it is reported, show that the yellow and green colors possessed by the silk spun by certain caterpillars are due to coloring matter derived from the food and passed through the blood of the spinners.

By impregnating leaves with artificial colors, the experimenters caused some species of caterpillars to produce silk of bright orange-yellow and fine rose hues.

By the aid of the spectroscopic presence and nature of colored pigments in the blood of the little creatures were established.—Washington Star.

**Birthday Cake Candles.**  
The custom of placing candles on a birthday cake—one for each year—comes from Germany. The Germans placed a thick one in the center, called Lebenslicht, the light of life.

Only he or she who declares his or her birthday may put out the light of life; it is unucky if done by any other member of the family.

## Officer Frustrates Thieves Who Flee

A bold attempt was made to break into Lounsbury Co's store, Chatham on Saturday night. Shortly after 12 o'clock when Officer Johnston was making his rounds he noticed two men lurking about the rear entrance of the store. He switched on his flashlight and the miscreants took to their heels. He gave them chase but they were too speedy for him.

Going back, he called Chief Coughlan and R. S. Curll, manager of the store; and the three made a thorough search of the premises. Nothing was missing as the would-be thieves evidently had just broken through the door preparatory to entering. The officer had evidently just come along immediately after the would-be thieves had broken a window preparatory to opening the door and before they had really made an entry—Gazette.

## AGRICULTURAL COLLEGE ON TOUR

1.—Interior View of Farm Produce Car.  
2.—Interior View of the Home Economic Car, showing French Canadian Weaving and Spinning Equipment.  
3.—View of Rear of Better Farming Special—Cattle are kept on some of these cars.

AN Agricultural college on wheels is the means by which the Minister of Agriculture of Quebec, in co-operation with the Canadian Pacific Railway, is carrying the gospel of good farming and good cheer to the farming community of the province. The college consists of fifteen C.P.R. cars equipped with material to illustrate all phases of agricultural production, and carries a staff of twenty-six lecturers and demonstrators.

Starting out at Vaudreuil on Sept. 18th and St. Cleon, Sept. 19th, the train traversed the north shore of the Ottawa, stopping at Hull, Papineauville, St. Scholastique, Ste. Therese, St. Jerome, St. Agathe, Labelle, Manimougue and Mont Laurier. Early in October the lines of the C.P.R. in the eastern townships will be covered. The train will complete its tour on the north shore of the St. Lawrence between Montreal and Quebec during the last two weeks of October.

Five cars are devoted to Live Stock, in which dairy cattle, sheep and hogs are featured. Special attention is being given to the grades and grading of hogs, and to the encouragement of the bacon industry. Field Crops and Agricultural Engineering occupy two cars, while Horticulture, Beekeeping and Sugar-making, Poultry, Dairying and co-operation, and Home Industries, each occupy one car. A diner and sleeping coach for the accommodation of the staff makes up the full complement of the material equipment of the college.

Each car is equipped with material and plainly labelled charts, by which the important factors of economic production are emphasized. An opportunity is afforded from 10 a.m. to 5 p.m. for visitors to examine the exhibits and discuss any problems in which they are interested. For this purpose two lecturers and demonstrators accompany each car. In the evening lectures and demonstrations illustrated by lantern slides and moving pictures are given in the town hall or other suitable place for meetings.

The Live Stock Branch of the Federal Department of Agriculture has arranged for demonstrations on the grading of hogs. The Canadian Packers' Association has an exhibit illustrating the carcasses produced from various types of hogs, and the requirements of good bacon for export purposes. The Agronomy Department of Macdonald College has co-operated in the equipment of the Field Crop and Agricultural Engineering Car. The Provincial dairy school has an exhibit of dairy buildings and products. Other colleges and schools, as well as the co-operative associations, have also lent aid either in furnishing equipment or by supplying instructors.

The train is under the direction of A. Desjardis, B.S.A., of the Province Department of Agriculture, and J. Dugan, B.S.A., in the evening lectures and demonstrations.

### DANGER IN FARM WELL WATER

Water from the farm well may be clear and sparkling and pleasant to the taste and yet polluted, and in consequence a source of danger to health. If it comes from a shallow well that is located too close to a source of contamination, it is certain sooner or later to become unwholesome. The Chemistry Division of the Experimental Farms at Ottawa, which examines well waters from farm home-steads, reports that about 35 percent are found to be unsafe for drinking purposes. It should be remembered, however, that only suspected samples are sent in. Of 119 samples dealt with in 1922, 24 per cent were found to be pure and wholesome, while the remainder were either suspicious or positively dangerous. Care should therefore be exercised, first in locating the well and, secondly, in seeing that it is properly protected from contamination. The Dominion Chemist in his annual report recommends a spring or pure stream as perhaps the best source of water supply. Water from such a source may be piped to the house and farm buildings by gravitation, if a proper fall can be secured but otherwise by the aid of a windmill, gasoline engine or hydraulic ram. A well to be safe should be at least fifty yards from the barnyard or other possible contaminating source. It is further recommended that a radius of fifty yards be kept entirely free from all manure and other filth and preferably maintained in sod. It will be found of very considerable value to line the well to a depth of 10-12 feet and to a thickness of say 6 inches with concrete or puddled clay, continuing this wall or lining for a foot above ground. A safe supply can usually be depended on if the well is bored or drilled through a layer of impervious rock, tapping a deep-seated source of water.

Water that is suspected of contamination may be made safe by either of two simple ways. One is to boil it for ten or fifteen minutes the other way is to treat by chlorination. Rub up a level teaspoonful of chloride of lime in water to the consistency of a creamy paste. This may be diluted with a pint of water and kept for some days bottled and corked as a stock solution. A teaspoonful of this solution should be added with stirring to each two gallons of the water to be treated. After fifteen minutes all disease germs present will be destroyed.

Farmers desirous of an analysis should write to the Division of

### WOMEN FROM FORTY TO FIFTY

Will Be Interested in Mrs. Thompson's Recovery by Use of Lydia E. Pinkham's Vegetable Compound

Winnipeg, Man.—"Lydia E. Pinkham's Vegetable Compound has done me good in every way. I was very weak and run-down and had certain troubles that women of my age are likely to have. I did not like to go to the doctor so I took the Vegetable Compound and am still taking it right along. I recommend it to my friends and to any one I know who is not feeling well."—Mrs. THOMPSON, 303 Lizzie St., Winnipeg, Man.

When women who are between the ages of forty-five and fifty-five are beset with such annoying symptoms as nervousness, irritability, melancholia and heat flashes, which produce headaches, dizziness, or a sense of suffocation, they should take Lydia E. Pinkham's Vegetable Compound. It is especially adapted to help women through this crisis. It is prepared from roots and herbs and contains no harmful drugs or narcotics. This famous remedy, the medicinal ingredients of which are derived from roots and herbs, has for forty years proved its value in such cases. Women everywhere bear willing testimony to the wonderful virtue of Lydia E. Pinkham's Private Text-Book upon "Ailments Peculiar to Women."

Women who suffer should write to the Lydia E. Pinkham Medicine Co., Cobourg, Ontario, for a free copy of Lydia E. Pinkham's Private Text-Book upon "Ailments Peculiar to Women."

Chemistry, Experimental Farm, Ottawa, for the necessary directions for the collection and shipment of the sample.

#### SEED ORDERS

The new seed catalogue will soon be received with their ever attractive descriptions of novelties and staple varieties, but, while these catalogues are eagerly looked over, it frequently happens that the ordering of the seeds is left until spring. By that time, however, the seeds which we most desire may be exhausted as the best stocks of the best varieties are usually limited, hence the desirability of ordering soon to ensure getting what is wanted.

Some novelties are well worth the

high price asked for the seed, while others are no better, if as good, as the reliable sorts. It is best to let the Experimental Farms and Stations do most of the testing of these, and delay ordering until a report is received from one of these Stations as to their merits. Usually it pays well to order the most expensive strains of staple varieties. There is a great difference in strains as thorough selection and roguing in the field ensure much more satisfactory results than where this is not done. The cost of good seed is small compared with the value of the crop obtained.

There are now many lists of best varieties of vegetables and flower seeds available through the Experimental Stations and Agricultural Colleges, and it will be found to be well worth while getting these before deciding on what to buy.

When one has seed of a good strain of some particular variety of flower or vegetable it is desirable to sow the same seed another year after testing it for germination as sometimes it is not possible to get the same strain two years in succession.

Order early: Order the best seed of the best varieties:

Consult Experimental Farm Lists of best varieties:

### RADIO CANNOT RIVAL THE NEWSPAPER

Patron's Of Wireless Must Adapt Themselves To Its Time, Chester Lord Asserts Country Needs Good Editors As Never Before

The radio will not supplant the newspaper as a distributor of news, said Chester S. Lord, formerly for many years managing editor of the New York Sun, in answer to a question at the close of an address at the Y. M. C. A., Brooklyn, Monday on journalism as a profession. Mr. Lord said that the radio requires its patrons to adapt themselves to its time, instead of adapting itself to their time, as the newspaper does.

Mr. Lord, who was managing editor of the Sun under the late Charles A. Dana, eulogized Dana as one of the greatest editors that this country ever had. Speaking of journalism as a career to-day, however, he said that there was more opportunity for a young man in the small towns than in the greater cities, especially New York.

"There are between 7,000 and 7,500 newspaper men now actively engaged in the work in New York City," Mr. Lord said. "Unfortunately, not all of these 7,000 can be editor-in-chief, and they must to a large extent write under direction. But in a village the conditions are reversed. The editor generally owns the sheet, and may write as he pleases. The editor in the village is one of its most influential citizens."

"Never have I seen such opportunity for newspaper editors as at present. Moreover, the honest editor is needed now as never before."

The country needs good editors, Mr. Lord said, because of the influence of the newspapers, and the pressure of present problems, political, social, intellectual, artistic, and moral.

"To summarize briefly," he said, "the newspaper of today is a better product than the newspaper of a few years ago. The making of newspapers is settling down to a strong and substantial basis."

**MURINE** Night and Morning. *Keeps Clear, Healthy Eyes. If they Itch, Smart or Burn, or are Red, Swollen, or if Sore, Irritated, Inflamed or Granulated, use Murine ointment. Satisfies, Soothes, Refreshes Infant or Adult. At all Druggists. Write for Free Eye Book. Moline Eye Remedy Co., Chicago*

**PUDDING Lane**

To Plum Pudding Hill the Children lie—  
And they climb to the top in the wink of an eye;  
And the puddings all whiggle. "To make us so nice,  
Use raisins and sugar, and soda, and spice,  
And milk and molasses, and citron and nut,  
And FIVE ROSES flour—  
be sure that you do it!"

**SERVE** any one of those good puddings that have made FIVE ROSES flour famous—well-swollen, full-flavoured, digestible puddings! The anticipation of these new dessert delights will reduce the consumption of heavier, more expensive dishes. And the same thrifty flour that makes prize-winning bread, cakes and pies, also makes each pudding a tasty source of vitality. So get out your FIVE ROSES Cook Book to-day. Start on some of the enchanting tours through its many pages. But be sure you get started right. Be sure you get FIVE ROSES flour!

Newcastle

Local and General News.

**THE COAL BIN**  
You can't walk quite a ways farther into the coal bin than you could a few weeks ago, can't you?

**NO ICE FAMINE**  
As the cold days continue piling up, perhaps it is some comfort to think that there won't be any excuse for an ice famine next summer if the dealers take advantage of their present opportunities.

**NORTH SHORE BONSPIEL**  
The North Shore Curling Bonspiel will be held on Thursday and Friday of this week in Bathurst. The local curlers are now busily engaged preparing rinks to take part in this, the biggest event, of the curling season.

**DIED AT CAMPBELLTON**  
Mr. Archibald McKenzie, a well known citizen of Campbellton and father of the late Col. A. E. G. McKenzie, former commander of the 26th Battalion, died on Saturday aged 82 years. He is survived by a widow and eight children.

**MUCH SICKNESS**  
There is considerable sickness in the town and vicinity at the present time. Many persons are confined to their homes with gripe, and heavy colds. Pneumonia however, has not been so prevalent this winter as in some other years. The gripe is not of a severe type.

**WHAT REAL WINTER WAS**  
Twenty-five years ago, according to the Moncton Times, a terrific snow storm raged in New Brunswick, which was said to have been the worst in the previous 25 years. In Northumberland County the snow was 15 feet deep. An old Chatham resident of that time said he had not seen so much snow at once in 50 yrs.

**NOT LONG TO WAIT**  
Newcastle has had an entertainment for some time, and everybody is anxiously awaiting for some thing to turn up. Well—it won't be necessary to wait much longer as the Miramichi Hospital Aid and Red Cross Society intend having an entertainment on Thursday, February 22nd, to which every one will be welcome.

**CARNIVAL**  
A grand Carnival under the auspices of the Red Cross and Miramichi Hospital Aid will be held in the local rink next Friday evening. Good ice and good music is assured and prizes will be given for the three best costumes. Everybody is invited to attend and help make the carnival a success for these two worthy organizations. Hot Coffee and Doughnuts will be served during the evening.

**SUDDEN DEATH AT WOODBURN FARM**  
Dr. Kinsman of Truro, who with Mrs. Kinsman, a sister of Mrs. Geo. E. Fisher, has been spending the winter at Woodburn Farm, went out snowshoeing on Wednesday and enjoyed a long tramp. He spent the evening playing dominoes with the family and retired about 11 o'clock. At about 3 o'clock Mrs. Kinsman was awakened by his deep respirations, and, failing to get a reply to questions, telephoned for Dr. Marven, who found on arrival that the gentleman was dead. Dr. Kinsman was about 67 years old. He had been for some time troubled with hardening of the arteries, and death was caused by the rupture of a blood vessel in the brain.

**ECZEMA**  
You are not experiencing it? When you do, call on Dr. Marven. He will advise you on the best way to cure it. He has a special treatment for it.

**A Gard Party will be held in the Town Hall, Monday, Feb. 12th at 8 P. M., under the auspices of the Newcastle Sub-Division C. W. L. Prizes will be awarded for Auction Bridge, Auction Forty-Fives, and Progressive Whist.**

**FIRE ALARM**  
The Fire Department was called out Sunday evening for a fire in Mr. Wm. Gifford's residence.

**FRIENDS OF MR. CLEM RYAN**, who is a patient in the Miramichi Hospital, will be pleased to hear that the condition of his health is improving.

**FIRE IN VERDUN**  
A building occupied by two families in Verdun, across the river, was burned to the ground on Sunday evening about 9:30 o'clock.

**CANDLEMAS DAY**  
Last Friday, Candlemas day, was bright and clean, and the Ground Hog was able to see his shadow all day. If the old legend runs true, we are doomed for more cold stormy weather.

**FOOD, CANDY AND FANCY SALE**  
The Junior Women's Club of St. James' Church will hold a Food, Candy and Fancy Work Sale in St. James' Hall on Saturday, February 10th. Doors open at 3 o'clock, p. m.

**PIPES FROZEN UP**  
A number of water pipes in resident's houses were frozen yesterday morning. The thermometer registered 34 degrees below zero.

**CONDUCTED SERVICES**  
Owing to the illness of Rev. L. T. MacLean, the services on Sunday in St. James' Presbyterian Church were conducted by Rev. Mr. Gardiner of Moncton, N. B.

**PLOW RAN OFF**  
A. C. N. R. snowplow special was derailed here last week by going through an open switch. The train was pretty well piled up and the men in the plow had to get out over deep snow banks.

**LIEUT.-GOVERNORSHIP**  
The latest in regard to the Lieut. Governorship is that it will go to Mr. Todd, of St. Stephen when Mr. Pugsley retires. It is now stated that Mr. Robinson, of Moncton will remain in the provincial government, for some time at least, and that he may become a member of the Board of Directors of the C.N. Railways. According to the Gleaner, Hon. Wm Pugsley, when he retires from the governorship, is to act as counsel for the Dominion Government in respect to Canada's war reparations claims. It is further stated that Mr. Pugsley will remain as governor, until the legal work he has in view begins to materialize. This seems like a very convenient arrangement—for Mr. Pugsley.

**CALLED TO OTTAWA**  
By a unanimous vote, the congregation of Erskine Presbyterian church, Ottawa, at a recent special meeting, decided to extend a call to Rev. E. B. Wyllie, M.A.B.D.L.L.Ph.D., minister of First Church, San Diego, Cal. and formerly of Chatham, N. B. No other name was considered by the congregation and the stipend was established at \$2500 per year, the former salary of the office being \$2400 per annum. Dr. Wyllie has been in Ottawa for the past few weeks, while Mrs. Wyllie and three children are at present in San Diego. Call will be given by Rev. Dr. Wyllie in Ottawa, as soon as the formal arrangements for his transfer to his new field are completed.

**OCEAN DELAYED**  
The eastbound Ocean Limited was two hours late in reaching here on Sunday, the delay being due to the extreme cold weather experienced north.

**ASSIGNMENT**  
The Canadian Credit Men's Trust Association Ltd., of St. John announces that George H. Morris doing business in Newcastle as Dickson & Troy, has made an assignment. A meeting of creditors is to be held in St. John on February 15th.

**"WHAT KIND OF HAY HAVE YOU THIS WINTER"**

The old saying that "the proof of the pudding is in the eating" is abundantly borne out as far as value of stored hay is concerned. The long winter months are the real testing time of the efficiency of our methods of growing and harvesting our hay crop.

Now that we are well started on our regular feeding period we are in a position to judge whether or not we have been wise or unwise during the past summer in the seeding and harvesting practices that we have followed with our hay crops. If our mows still give promise of furnishing us with sufficient feed for the coming months and if the condition of our animals bears testimony to the fact that the fodder was good, we have reason to congratulate ourselves. If, however, our fodder is either insufficient or poor, or perhaps both, we may well examine critically the farming practices that are responsible for the existing condition. If the fodder is consistently poor, our harvesting operations may well bear changing. If it is scarce there may be a number of influences at work.

Perhaps we did not seed down a large enough acreage or there may have been unfavorable weather conditions that destroyed a part of the crop. If lack of fodder is due to either of these reasons, we may remedy it. In the first instance the obvious thing to do would be to seed down a greater acreage, whereas in the second instance there may be a number of remedies. Winter killing that is beyond our control can only be met by planting some annual hay crop to make up the estimated shortage. We have however, winter killing and general failure of hay crops due to other reasons that are within our power to control. A very considerable part of our failures to produce a profitable crop of hay is due to the planting of insufficient or because we try to grow a particular hay crop under soil or climate conditions that are decidedly unfavorable for it.

We have a great abundance of different forage plants which vary enough in their adaptations to take care of mostly all soil and climate conditions which we meet on the ordinary farm. In spite of this fact we mostly trust to Timothy and Red Clover under all conditions. These are undoubtedly two of our best general hay crops in Eastern Canada yet if we are to secure the highest yields we must recognize that they have limitations and try and secure the fodder plant best suited for our special requirements. Whether our lot has been failure or success as determined by the winter feeding of our forage it is well worth our while to face the situation squarely and decide to prefer by whatever the present arrangements for his transfer to his new field are completed.

London Couple Are Delighted

His Wife's two Years of Trouble Is Now Ended, Says Frank Westlake

"Tanlac has made all the difference in the world in my wife's health and we are both delighted," declared Frank Westlake, valued employee of the Public Works Department of London, Ont; residing at 40 Langarth St.

"About two years ago my wife underwent an operation that left her badly run-down and she simply couldn't get back her strength. Her appetite left her and she could hardly eat enough to keep going. The least exertion would tire her out completely, and her housework was an awful burden. She would lie awake hours at night, too, and morning found her just as tired as when she went to bed. She suffered terrible splitting headaches, her nerves were on edge and she got very little pleasure out of life.

"But three bottles of Tanlac simply put her on her feet again. She sleeps soundly and her appetite is a joy to behold. I can't find words to express my gratitude."

Tanlac is for sale by all good druggists. Over 35 million bottles sold.

NOTICE

A meeting of Agricultural Society No 122 will be held in the Town Hall, on Tuesday, February 20th 1923 at 2 o'clock P. M. A full attendance of the members is requested.

D. S. GORDON, President
