FRENCH STATEMENTS.

The official communication issued by the French war department tonight says:

"With the exception of an advance of some importance in the vicinity of Berry-au-Bac (on the centre) there is nothing to report."

The communique issued at 3 o'clock says:

"On our left wing our forces have resumed the offensive in the regions of Hazebrouck and of Bethune against detachments of the enemy composed in large part of cavalry coming from the front along Bailleul, Estaires and La Bassée."

"The Town of Lille, held by a territorial detachment, has been attacked and occupied by a German army corps."

"Between Arras and Albert we have made notable progress."

"On the centre also we have made progress in the region of Berry-au-Bac and we have advanced toward Somain in the west of the Argonne and north of Malancourt."

"Between the Argonne and the Meuse, on the right bank of the Meuse, our troops who hold the heights of the Meuse to the east of Verdun have advanced."

"To the south of the road from Verdun to Metz, in the region of Apremont, we have gained a little territory on our right, and repulsed a German attack on our left."

"On our right wing, Vosges and Alsace, there has been no change."

"To sum up, yesterday was marked by perceptible progress on the part of our forces at various points on the field of battle."

"In Galicia the Austrian corps defeated in Galicia are endeavoring to re-form at a point four kilometres west of Przemysl."

WILL REGARD STATUS OF SCHELDT.

BERLIN, Oct. 13, via The Hague and London, 4.32 p.m.—The government of the Netherlands has again been officially notified by the German Government that the status of the River Scheldt, the waterway which leads to Antwerp, will be regarded by Germany as heretofore. There will be no question of forcing the Scheldt or using it for purposes not sanctioned in treaties with the Netherlands.

The notification to this effect was sent this morning.

HEAVY FIGHTING IN ARGONNES.

BERLIN, Oct. 13, via Amsterdam and London, 11.00 p.m.—Heavy fighting continues in the Argonne, two chains of hills in northeastern France, according to an official statement received here today from the German general headquarters, under date of Oct. 13. Violent attacks made by the enemy east of Soissons have been repulsed, it is said.

The communication follows:

"There is no important news from the western war theatre. Violent attacks made by the enemy east of Soissons have been repulsed. Heavy fighting continues in the Argonne. Our troops are moving forward thru dense underwood in very difficult ground with sapper trains for use against the fortifications. The French troops offer obstinate resistance, firing from trees where machine guns are posted."

"Beside rifle pits, which are arranged in tiers, they have built strong points of support."

The statement contradicts news given out by French army authorities regarding success met with by the allies in the Woevre region, and denies other reports. It continues:

"All the French attacks at St. Mihiel have been repulsed. Etain (12 miles northeast of Verdun) remains in our possession."

BRESLAU TO ESCORT STEAMERS.

ROME, Oct. 13.—Advices from Bucharest say that the armored cruiser Breslau, bought by Turkey from Germany, arrived yesterday at Sulina and that her German commander declared menacingly that he had come to escort the German steamers Eresos and Seros, carrying war materials to Constantinople. These steamers left Braila under the Breslau's protection. Their departure was reported by wireless to the Russian fleet.

ENEMY STILL OCCUPIES ROYE.

WASHINGTON, Oct. 13.—The following cablegram was given out today by the French ambassador, received from his government:

"The Fourth Corps of the German cavalry were thrown back to the north of Lys toward Armentieres. Two other corps were stopped between the Lys and the Canal de La Bassée at noon. Roze is still occupied by the enemy."

MORE BOMBS FOR PARIS.

PARIS, Oct. 13.—A German aeroplane dropped six bombs into the city today. One went thru the roof of the Gare Du Nord and fell between two railway carriages.

Pupils Will Construct Actual Houses Inside New Technical School

Classes in Building Trades Will Make Their Own Bricks and Then Build With Them—Advisory Industrial Committee Yesterday Inspected Finest School in Canada.

Toronto's \$2,000,000 school underwent its first examination yesterday afternoon when members of the advisory industrial committee and others were told of the secrets of this new mighty educational factor which is destined to be the finest in the Dominion. The school is yet far from complete, but in its present state a splendid idea can be obtained of what it will look like when it is handed over to the educational authorities on June 1. In size it far outclasses any other in the country, on a site which covers six acres of ground, while the school itself has a flooring of over seven acres. It contains 150 large class rooms, which are to be used for every branch of technical education, such as building trade, art, photography for the men, while for the women, millinery, dressmaking and cooking classes will be held.

One room which is of particular interest is the building trades class.

Importance is one in which students of the building trades will build two complete houses. Estimates will be tendered by the students for every branch of the work and every class will undertake the building of its particular branch, and even the bricks which will be used will be manufactured on the premises by pupils of that class.

The large swimming tank is to be fitted with shower baths and a splendid gymnasium will be equipped, around which is built a running track. In the basement are to be seen machine rooms of exceptional interest. Engineering apparatus to the value of \$40,000 is to be installed. There are two large dining rooms and a large room for exhibition purposes.

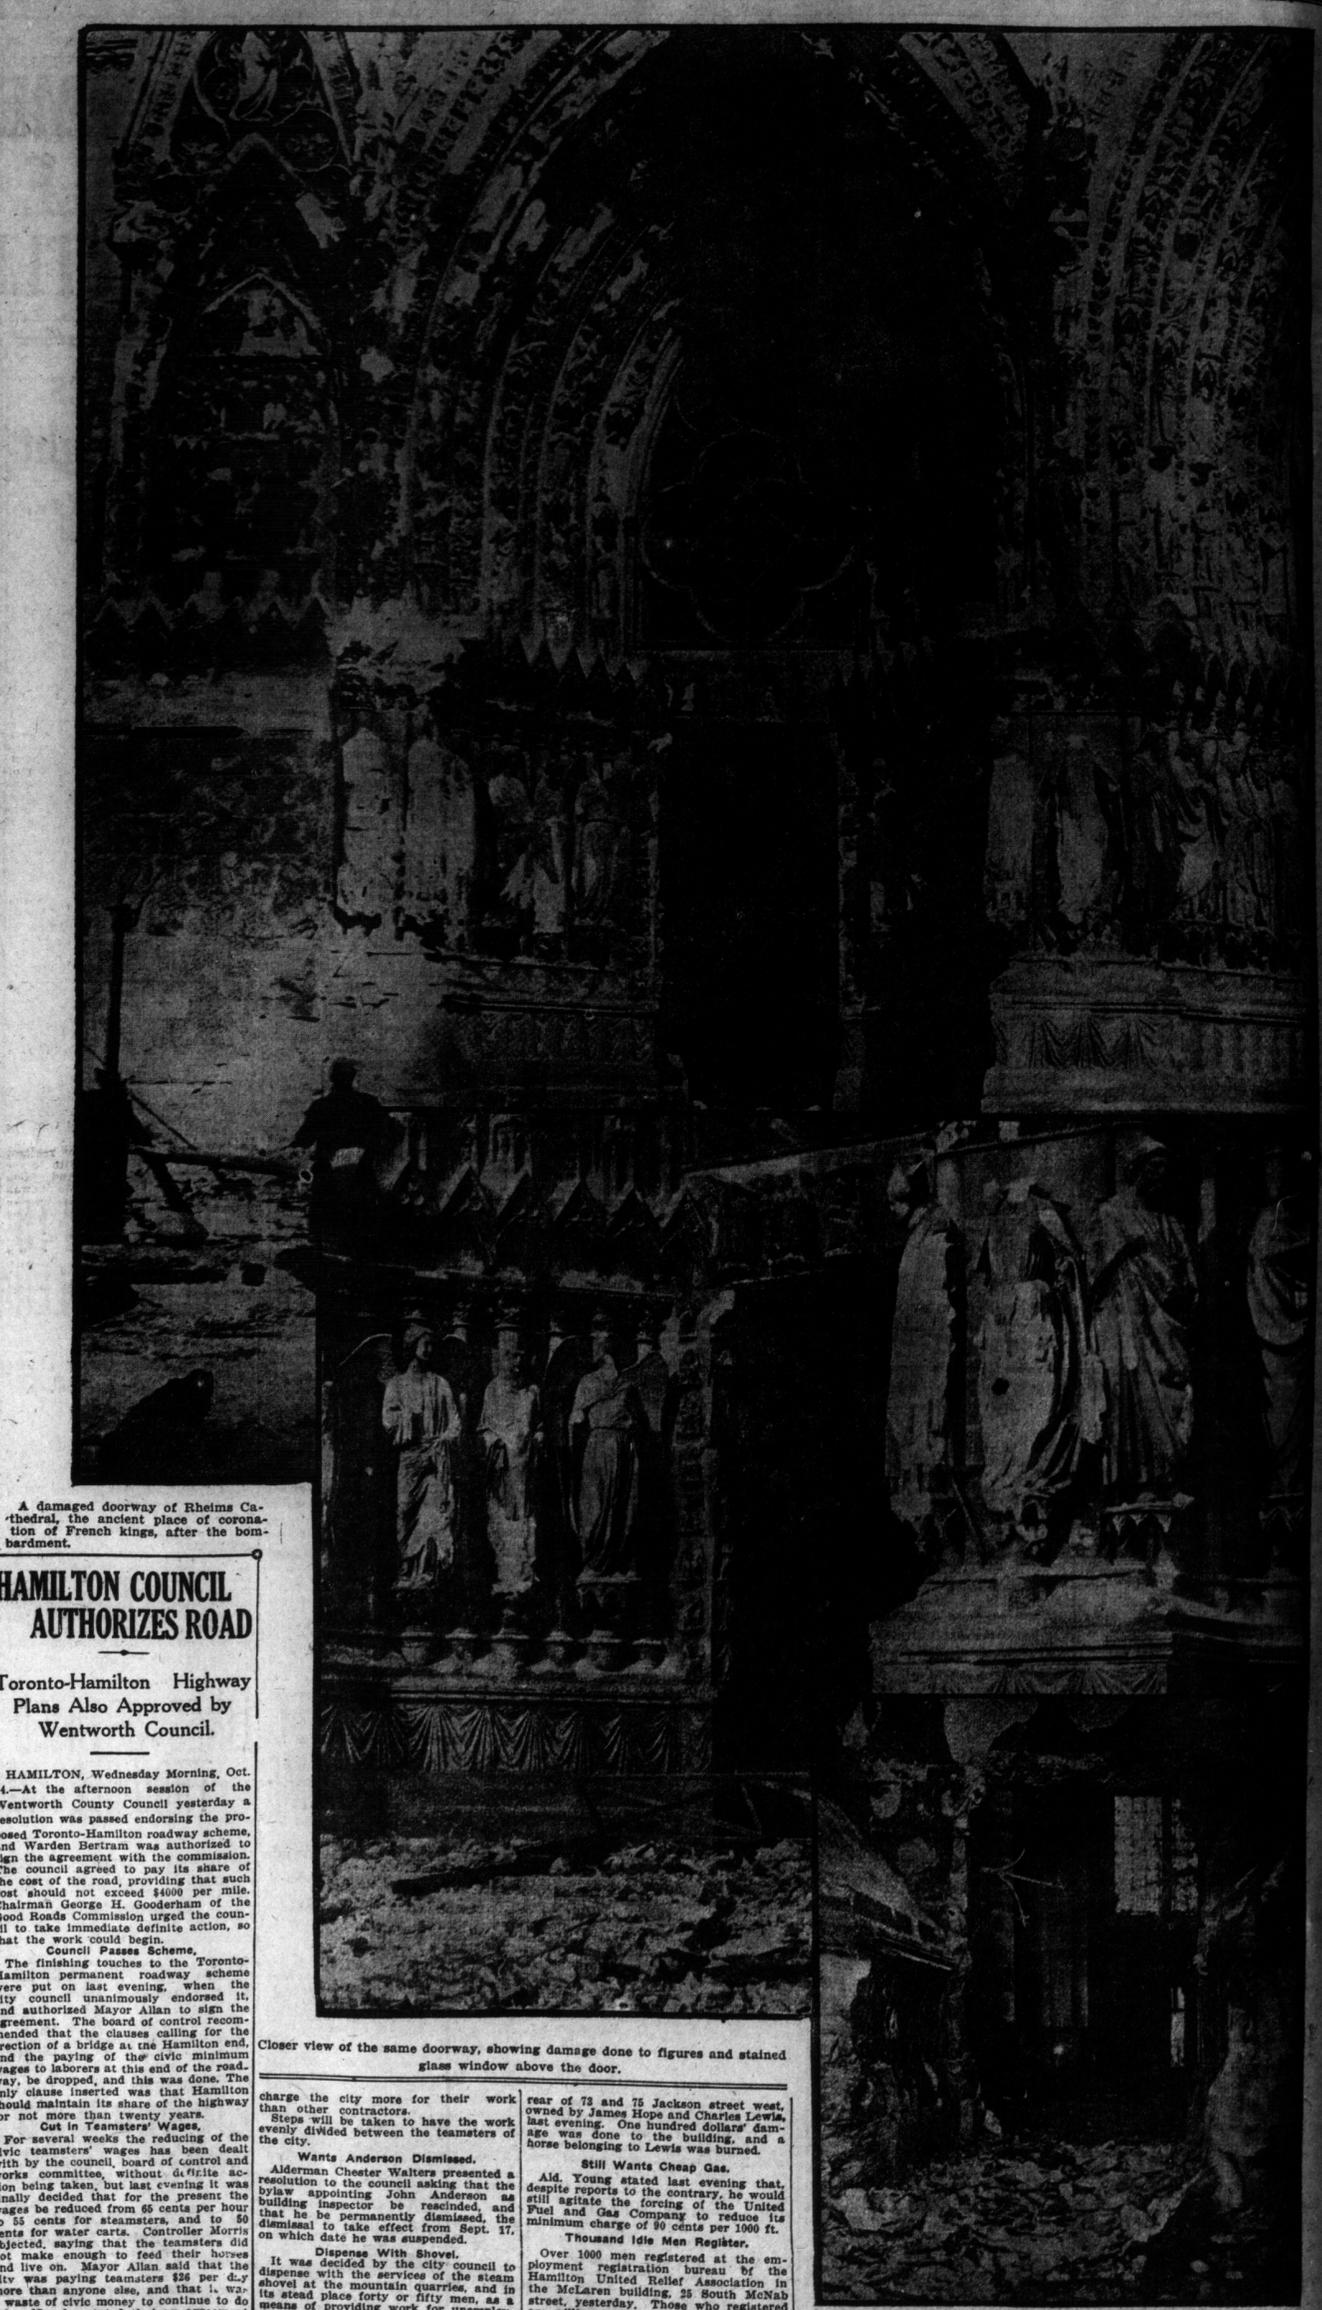

SOME IDEA OF THE SIZE OF THE BUILDING can be learned from the fact that there is one and one-half miles of twelve miles of iron piping.

After the inspection the members of the party were entertained by four members of the advisory committee at the National Club.

BIG GUNS AT CATTARO.

HAMILTON COUNCIL AUTHORIZES ROAD

Toronto-Hamilton Highway Plans Also Approved by Wentworth Council.

HAMILTON, Wednesday Morning, Oct. 14.—At the afternoon session of the Wentworth County Council yesterday a resolution was passed endorsing the proposed Toronto-Hamilton roadway scheme, and Warden Bertram was authorized to sign the agreement with the commission. The council agreed to pay its share of the cost of the road, providing that such cost should not exceed \$4000 per mile.

Charge the city more for their work than other contractors. Steps will be taken to have the work evenly divided between the teamsters of the city.

Wants Anderson Dismissed. Alderman Chester Walters presented a resolution to the council asking that the building inspector John Anderson as that he be permanently dismissed, the dismissal to take effect from Sept. 17 on which date he was suspended.

Dispense With Shovel. It was decided by the city council to dispense with the services of the steam shovel at the mountain quarries, and in its stead place forty or fifty men, as a means of providing work for unemployed.

Fire broke out in the stables in the rear of 73 and 75 Jackson street west, owned by James Hope and Charles Lewis, last evening. One hundred dollars' damage was done to the building, and a horse belonging to Lewis was burned.

Still Wants Cheap Gas. Aid. Young stated last evening that, despite reports to the contrary, he would still agitate the forcing of the United Fuel and Gas Company to reduce its minimum charge of \$90 cents per 1000 ft.

Thousand Idle Men Register. Over 1000 men registered at the employment registration bureau by the Hamilton United Relief Association in the McLaren building, 25 South McNab street, yesterday. Those who registered are willing to take any class of work to secure enough money to buy food and coal and pay their rent.

Thousands of Fugitives Return to Homes—Must Supply Food Free.

Canadian Press Despatch.

LONDON, Oct. 13.—The municipal employees of Antwerp have had to swear allegiance to the German Emperor.

The fugitives were allowed to return to their homes. The police have been ordered to remove the Belgian flag from all houses.

The fugitives returning to Antwerp are returning to Antwerp, and shops are very slowly reopening.

To Leave Small Garrison. The Germans say that there are 125,000 of their men in Antwerp.

Negotiations for the surrender of the city last Friday threatened to collapse because the Germans insisted upon having the signature of the Belgian commander, Gen. Guise.

While passing thru the boulevards the Germans were astonished at the almost total absence of troops.

The offices and printing works of the newspaper Metropole are among the buildings burned.

SWAM SIX HOURS WHEN SHIP SANK

Able Seaman Flagg of About-kir Had Hard Time in Water. Special Direct Copyrighted Cable to The Toronto World.

LONDON, Oct. 13.—Writing home to Hull, Able Seaman William Flagg (R.N.R.), who was on the Aboukir when she was torpedoed, says:

"I think I was very lucky. I had turned in at 4.30 on the Tuesday morning and at 6 o'clock we were torpedoed amidships. I jumped up, my hammock ablaze. That is how I got my burns.

"We were told to jump for it and save ourselves. I never thought I was such a swimmer. I think I shall go in training to swim the channel after this.

When I left the ship I swam towards the Hogue, which was blown up as I nearly reached her. I turned round and made for the Cressy and managed to get hauled on board after about an hour in the water.

"I was on board about three minutes when she was blown up at 4.30 on the Tuesday morning and at 6 o'clock we were torpedoed amidships.

"Just before I was picked up I passed a chum in the water about done, the same as I was myself, who the night before had promised to wash for me a duck suit and have it dry for the morning.

"Dear Sir: A banker with whom securities are deposited by way of security for a loan is not a mortgagee but a pledgee in possession, and the words 'except by way of sale by a mortgagee in possession' do not therefore apply to the case of a person depositing securities with his banker in order to obtain a loan."

Port Arthur News: The government has taken good care of the banks, both by legislation a year ago, and again by late legislation making their notes legal tender and allowing for redemptive facilities which have not been taken advantage of.

There may be some argument in favor of the attitude of the banks to be cautious in advancing money in times of international difficulties, if basic supplies have to be obtained abroad, but under existing conditions, legal and otherwise, if any Canadian manufacturer or merchant whose goods are produced or purchased in this country, has to curtail his business because of lack of accommodation from the banks, the matter should be thoroughly investigated and a remedy sought in order that we may be properly protected in our domestic industry.

Edmonton Capital: In other words, it must be admitted that the banking system as at present construed in Canada, fails to suit itself to the requirements of a country which relies not on the thing called "finance," as does New York of London, but upon a hickory-shirred production for its prosperity.

MORF ABOUT BANKS SERVING BUSINESS

The lack of banking accommodation is being widely discussed by the press of Western Canada. Some of The World's articles are being reproduced in full; some of the papers discuss our banking in the light of the improved system now coming into use in the United States; all then say radical reform is needed.

We spoke a week ago of The Huron signal of Godelich reprinting three columns of The World's articles. Last week it devoted two columns to an article from The Winnipeg Free Press on the lack of banking accommodation for the farmers of the west.

The World receives communications every day from people in the west in regard to this all-important topic. Here in Ontario, the newspapers keep carefully away from the issue, with the exception of the so-called financial papers, which are all apologetic for the banks.

One of these latter kind, up in Winnipeg, criticizes The World and Mr. W. F. Maclean, and describes the latter as an irresponsible and irresponsible legislator, an advocate of "depreciated money."

Of course, when papers deliberately misrepresent, it is useless to point it out, and this Winnipeg paper is on a par with the financial papers here in the east. The World and Mr. Maclean are advocating what has been adopted in many other countries: that is, a national currency in place of a bank-note currency and a bank redempt, in order to have sufficient money for the industries and employment of the country, but all based on first-class security and national credit.

It must be a weak case if the banks can get no better defenders than those who call out "rag-money" every time reform is mentioned.

The banks of Canada still refuse to accept their own notes for settlement in the clearing houses. In the States, according to financial papers there, the national bank notes issued by the various banks are being used for clearing-house purposes.

They could use emergency currency for this purpose, but they prefer to use notes which are more or less like our bank notes here. No one has yet found out why the Bankers' Association refused to follow so reasonable a system of clearing, so far, however, the strong banks have been able to intimidate their fellows in the clearing house in this matter, and the result has been that a stringency still unnecessarily continues.

Forty millions of good money would be out in no time if this clearing-house rule was changed. One big banker is credited with saying that they were not going to be dictated to by the government or anybody else, but they were going to make their own rules for themselves.

Mr. McCadoo continues to discipline the banks of the United States, at least those who refuse to come to the relief of business. He says there is no justification for high rates of interest, nor is there any real reason for tight money; to use his own words, "there is an ample supply of money and credit if the resources of the banks are properly used."

This statement applies to Canada, only more so. Mr. McCadoo, like Lloyd George, believes that the banks have public duties to perform.

The Montreal Financial Times says that a government can do nothing more than "certify" a currency. The King's head on a coin merely stamps it as of certain weight and fineness, and government paper currency should be merely warehouse certificates for so much gold on deposit.

This being assumed, it draws the irresistible conclusion that the state should not concern itself to issue money at all. Presumably the banks are to furnish the medium of exchange, but, as The Financial Times insists that there must be no intervention in, or interference with, the banking business by the government, the bank issues could not be legal tender. They would have to depend for their value entirely upon the credit of the corporations emitting them and there is no reason why manufacturers and merchants should not also put out their obligations as currency.

Such a system did prevail in Upper Canada seventy years ago. Common sense and universal experience, we think, has shown that the currency of a nation should be legal tender for all debts, public and private, and this requires that it should be issued, and its volume regulated, by the government. It should be national. In Canada we recognize this to some extent, but we practically permit a certain class of men, called "bankers," to put out notes which circulate as "money," and which, just now at least, are legal tender, except among themselves.

These men enjoy many franchises and privileges, and we had always supposed that they were under a certain obligation, and owed some duty, to the public. But if one of the banks refused to accept their own notes for settlement in the clearing houses, they are under no obligation whatever to finance business or to build up the country, but are free to do anything they please with the savings of the people which they think will enrich the banks.

If they use the money committed to them to stake the gambling operations on Wall Street, or the German side of the war, it is nobody's business except their own so long as it makes for profit. We dissent from this view, but we are glad to see it frankly stated, as follows: Montreal Financial Times, Oct. 10. The function in virtue of which a bank is a bank is the function of acting as a depository of money and so handling it as to be able to pay him a moderate interest rate and still pay its own expenses and make a profit for the capital invested in it.

This is a very simple function, and not one calling for a great amount of government intervention, and, as a matter of fact, it is carried on by a great number of private bankers without any government intervention, except that of the ordinary laws against theft and dishonesty, and by many trust and loan companies without anything but a certain amount of publicity. There is nothing in all this about "coming to the rescue of the business of the country." There is no suggestion that banks are under any obligation to "support the fabric of the nation's commerce." Such statements might be made about an endowed institution, or one supported by government funds. The banks are not endowed or supported. They are a business like any other business: their first duty is to ensure the safety of the funds entrusted to them, and their second to make a profit for the capital invested in them.

Most of the money which they hold after depositors have made use of things, invested in carrying on the commerce and industry of the country, in which they operate; for the simple reason that they have better opportunities of judging about that commerce and industry than about any other fields of remunerative investment. But they cannot invest in that commerce and industry more money than is entrusted to them by their depositors (beside the necessary reserves to meet sudden calls); and to say that they are bound to finance the whole business of the nation, or that any time of stress is to impose on them an utterly impossible obligation.

There is all-sufficient answer to this special pleading: if that's what a bank thinks it's for, then it's time parliament provided another kind of bank; one which for its privileges, for its right to collect the savings of the people, to accumulate realty, to issue notes, will undertake "to finance business" and regard itself as a public service proposition, as it ought to be. Service must go with franchise.

Editor World: I have been much interested in the banking articles of The Toronto World. In today's issue of The Grain Growers' Guide one of these articles appears. Has the Bankers' Association yet decided to permit the use of bank currency for the settlement of balance in the clearing house? A number of farmers who have dropped in (at Winnipeg) to see me recently have been much interested in Mr. King's article describing Mr. Maclean's plan for banking reform. They, like practically all other people in this country, feel that there is a need for a radical improvement and are pleased to see you pushing for it.

The London paper, Public Opinion, just to hand, has something to say about loans by English banks on margin: "Ever since the war broke out it has been recognized that the chief obstacles to the reopening of the stock exchanges lies in the fact that the bankers have made considerable advances on the security of stocks, the margin of which have run off and left unsecured indebtedness," says The Manchester Guardian.

"It has been estimated that the total of these loans is round about £100,000,000 sterling, but we have reason for thinking that the actual figure is considerably larger than this. The importance of the matter lies in the possibility that on a resumption of business on the stock exchange the banks would call in the loans, and in default of repayment sell the securities. The new Courts (Emergency Powers) Act, however, will make this less easy than it would otherwise have been.

"Owing to the wording of the act a question arose whether bankers holding securities against advances were not in the position of mortgagees in possession, which would enable them to realize the securities. This point has been taken up by Mr. Henry Gibbery, who had an interview with the treasury officials, and as a result was promised a statement in writing, of which the following is a copy: "Treasury Chambers, Sept. 15, 1914.

"Dear Sir: A banker with whom securities are deposited by way of security for a loan is not a mortgagee but a pledgee in possession, and the words 'except by way of sale by a mortgagee in possession' do not therefore apply to the case of a person depositing securities with his banker in order to obtain a loan."

Port Arthur News: The government has taken good care of the banks, both by legislation a year ago, and again by late legislation making their notes legal tender and allowing for redemptive facilities which have not been taken advantage of.

BOER COMMANDO OPENLY REVOLTS

Martial Law Proclaimed as Result in Union of South Africa.

PLOT TO JOIN GERMANS

Spies Perfected Agreement to Declare Republic of Cape Colony.

Canadian Press Despatch.

CAPETOWN, Union of South Africa, Oct. 13.—It is officially announced here that a commando, under Col. Maritz has rebelled in the northwest of the Cape provinces.

Martial law has been proclaimed throughout the union.

The proclamation imposing martial law follows: "Whereas, a state of war exists between the British Empire on the one hand and the German Empire on the other, and

"Whereas, the government of the protectorate of German Southwest Africa, has through widespread, secret propaganda persistently endeavored to seduce citizens of the Union and officers and members of the defence forces of the Union from their allegiance and to cause rebellion and civil war within the Union, and

"Whereas, these efforts have so far succeeded that Lieut.-Col. Solomon Gertrudus Maritz, together with a number of his officers, and a portion of the forces under his command, has shamefully and traitorously gone over to the enemy and is now in open rebellion against the government and the people of the Union, and is, in conjunction with forces of the enemy, invading the northern portion of the Cape province, and

"Whereas, there is grave reason to think that the government of German Southwest Africa has thru its numerous spies, time and again communicated with and corrupted also other citizens of the union, under the false and treacherous pretext of favoring the establishment of a republic in South Africa, and

"Whereas, the government of the union considers it necessary to take effective measures to protect and defend the interests of the union and against the insidious and treacherous attacks from within and without, and to that end to declare martial law,"

Continuing, the proclamation declares that the whole union of South Africa is under martial law as understood and administered in time of war, and dating from today.

The proclamation is signed by Lord Buxton, governor-general of the union and countersigned by Gen. Smuts, minister of defence.

Month in Brewing. The rebels among the forces of the Northwest Cape Province has been brewing since the resignation of Gen. Beyers as commander-in-chief of the Union forces.

As soon as the government realized this situation it sent Col. Britz to re-ignite Maritz's command. Col. Britz then discovered that Maritz was commanding German troops as well as his own, and that he had German guns in his possession. Maritz, who had been given the German rank of general, had arrested those of his officers and men who were unwilling to join the Germans and had sent them as prisoners of war to German Southwest Africa.

To Cede Part of Union. According to an official statement an agreement was drawn up between Maritz and the governor of German Southwest Africa, guaranteeing the independence of the Union as a republic, ceding Walvis Bay and other parts of the Union to the Germans, and undertaking that the Germans should invade the Union only if Maritz asked them to do so.

Maritz boasted that he possessed large supplies of guns, rifles, ammunition and money obtained from the Germans, and that he would overrun the whole of South Africa.

"In view of the state of affairs," concludes the official statement, "the government is taking most drastic steps to quell the rebellion and punish all rebels and traitors according to their deserts."

Solomon G. Maritz fought in the Boer war with the rank of commandant. News despatches in the early part of November, 1901, described his military activity, and on Dec. 10 of the same year he was reported wounded.

Aided Germans to Fight. In the summer of 1904 the administration of German Southwest Africa was conducted with a rebellion of the native Hereros, and in the early part of July German admitted her inability to cope with the movement. She asked aid of Great Britain.

In response the British government granted Germany permission to engage Maritz, who then had the title of general, as a military adviser of Gen. Trotha, commander of the German troops in Southwest Africa. Two steamships conveyed Gen. Maritz, ten Boer officers and 500 Boer marksmen from Cape Town to Swakopmund, from which place they advanced to join the German forces.

News despatches from Berlin in July of 1904 related that Gen. Trotha had entrusted Gen. Maritz with the conduct of his main division against the Hereros. Hope was expressed at this time in German circles in Cape Town that these Boers would remain in German Southwest Africa as colonists.

Prince Died of Wounds. PETROGRAD, Oct. 13.—Prince Oleg, a son of Grand Duke Constantine, died yesterday of wounds received in action. An official despatch from Petrograd, on Oct. 11, said that Prince Oleg had been wounded during a cavalry engagement at the front. He was carrying a Russian standard at the time he was shot.

Servian Princes Wounded. LONDON, Oct. 13.—The Star's Copenhagen correspondent says The Vossische Zeitung of Berlin reports that Crown Prince Alexander of Servia has been slightly wounded and that his brother, Prince George of Servia, has been mortally wounded in the fighting against the Austrians.

Consumption and Bronchitis. Mrs. W. J. Martyn, 48 Garden Ave., Toronto, is another sufferer who has been relieved by Copeland's Cure for Consumption and Bronchitis.

It will be interesting for any having even traces of these dread diseases to read what Mrs. Martyn says: "After taking several bottles of your Consumption Cure, I am now fully recovered and in four months have gained in weight 17 lbs. MOTORISTS TAKE HOLD OF APPLE SITUATION

Cars Owned by O. M. L. Members Will Be Link Between Poor and Food.

Apples may be secured free thru arrangements made jointly by the Salvation Army authorities and the members of the Ontario Motor League, along with the generosity of the farmers in the vicinity of Toronto.

The project has been under consideration of the Motor League for some time, but only within the last few days have the difficulties been solved in connection with the work. Scouts will be sent out by the Salvation Army to ascertain what farmers are willing to give their apples free for the picking, and when the results of the investigation are known, members of the Motor League will give the use of their cars.

The question as to how the fruit will be transported to the city has been solved by members of the Motor League who have motor trucks. It is not known how many cars and trucks will be available for this work, but the enthusiasm of the members of the league has been so marked that no difficulty is anticipated in this direction. The Motor League are congratulating themselves that they are thus removing obstacles between the poor and food which needed only co-operation to place it at the disposal of those in need.

## RADIAL MEETING AT BIRCH CLIFF

Many Benefits to Accrue From Hydro Radial Line.

## UNKNOWN MAN KILLED BY BLOOR STREET CAR

Was Knocked From Bicycle Under Trolley Wheels on West Queen Street.

A meeting was held last night in St. Nicholas' Sunday School, Ontario street, to discuss the Hydro Radial Railway by-law, and over a hundred residents of that part of Scarborough Township were present. J. G. Cornell, reeve of the township, was in the chair, and spoke strongly in favor of the new line, pointing out that it would advance the farming industry, and the community would be greatly benefited by the distribution of light and power. Sir Adam Beck explained just how public ownership was the best possible solution of public difficulties, and that if the people of the district would only vote for and carry the by-law they would realize the great advantages when they began to use the light and power at the reduced rates. The system was up-to-date and improving daily. It was like trying out a new bubble scheme. The railroad, he declared, would be one of the best ever built, and the hydro would furnish power on all the main highways, leaving it to the township to distribute.

Should Consider It. W. F. Maclean, chairman of the committee, expressed the great benefits which would accrue from public ownership. He exhorted the people to consider the matter thoroughly, and he believed that they would fall in line with the new project. Referring to municipal affairs, Mr. Maclean stated that it was time that the people of the district woke up and saw to it that they sent the right men to represent them on the council, and if they did not get satisfied with their duty as ratepayers to rise in a body and appeal to their candidate for satisfaction, and see that they got it.

## WESTON TO LAY PAVEMENT ON W. HEATH ST.

York Township Council Passes Bylaws for Local Improvements.

The oft-repeated request of the property holders on Heath street west, for a sidewalk and pavement, was granted yesterday when the York Township Council passed a by-law instructing the engineer to proceed with the work. Desiring to keep faith with the tenants of their apartment houses, Cooper & Farrell, the owners, have recently been urging the council to put down the improvements necessary on the local system, and offered to contribute \$200 besides the taxes on their assessment towards the cost. Not being able to sell the adventures owing to the state of the financial market, the council was forced to refuse the request, but as the banks have now come to the aid of the township, all improvements will proceed as far as possible. A bituminous pavement on a four-inch concrete base will be laid on 166 feet on Heath street, at a cost of \$4300, payable in ten yearly instalments. The assessment on lot frontages will be reduced one-half and the township will bear the remaining half of assessment, and the cost of the work at Walmer road and Kendal avenue intersections. Cooper & Farrell will be asked to forward the \$1000 promised.

## Concrete Sidewalks.

The council also decided, after hearing the engineer's report, to construct a cement sidewalk 1662 feet long, on the south side of Dundas street, the cost to be levied by special assessment on the properties benefited.

## WEST HOME GUARD TO BE ORGANIZED

Meeting in Annette Street School Tonight—Ward Seven News.

The organization meeting of the West Toronto Home Guard will be held this evening in the assembly room of the Annette Street School, for the purpose of electing executive officers and making arrangements for the drilling of the members who have already signed. A large number of these have put down their names and no time will be lost in putting the organization on a proper basis and commencing drill and rifle practice. All male citizens of the western part of the city interested in home defence are invited to tonight's meeting.

## DOCTOR SETTLED FOR \$200.

Dr. W. J. Doynton of Pefferlaw agreed to pay Charles E. Mechin, a York County farmer, \$200, and the lawsuit in which the farmer claimed damages for alleged neglect and negligent treatment of his son was withdrawn yesterday from the non-jury assize court.

## BALMY BEACH.

The patriotic concert given in the Masonic Hall, Balsam avenue, last night in aid of the Red Cross Society drew a full house, and the quality of the entertainment was such that numerous encores had to be given.

## When You Hear That Dinner Bell

Does Your Mind Go Back to the Days When You Could Eat Like a Farm Hand?

The memory of an appetite is a wonderful thing. The loss of stomach power—the ability to eat—the yearning after good old-fashioned food—that condition which really can't be cured by any number of thousands of others have demonstrated? Do a little common-sense and look at your stomach trouble in a practical manner. Something has gone wrong with your digestive apparatus. Set your body machinery right. Stand the dyspepsia. Tablets are Nature's own way to digest and food. By eating one of these tablets after each meal you digest that meal, work of the stomach, intestines, liver and pancreas, and storing up new materials for digesting future meals. That's what you will and when you will, but always carry a little Stuart's Dyspepsia Tablet in your pocket. In a short time you will be eating as if you were a young man again. Write for a box of Stuart's Dyspepsia Tablets this very day. To anyone wishing a free trial of these tablets, please address F. A. Stuart Co., 120 Stuart Bldg., Marshall, Mich., and a small sample package will be mailed free.

# IS THIS YOU?

If it is, call at The World Office (Circulation Department), bringing a copy of this issue of The Toronto World, and receive an order for two box seats for tonight's performance at Loew's Wigwag Garden.

## Canadians on the Continent

The Hon. G. H. Perley, acting high commissioner for Canada, has issued the following further list of Canadians on the continent: Mr. P. H. Anderson, with his wife and three children, resident for the last two years at Kaiser Allee 221, Gartenhaus IV, Berlin, W. 15. Mr. Ernest MacMillan of Toronto, last address care of United States Consul, Nuremberg, writes he is unable to leave Germany. Apparently suffering no inconvenience. Mr. Harold McIlwain of Toronto, quite well at Wellandstrasse 5, Dresden. Cannot leave until after war. Mrs. Emmy Owen of Morse, Sask., last known address, Emsbuttel, Chaussee 100V, Hamburg, but has left the house. Mr. J. D. Robins of Toronto, last heard of at University of Marburg. Mrs. C. D. Warren of Toronto, last address Hartig's Carleton Hotel, Dresden, telegrams "all well." Miss Irene Margaret Watson of Ottawa, quite well, staying with Frau Von Langen, Cross Park, Berlin, Mecklenburg. Miss Ermytrude Winifred Watson of Ottawa, quite well, staying with Frau Von Gussow, Jauer-Strasse, Silesia. Rev. Simon Winter of Berlin, Ont., and lately Rome, Italy, lately at Hohenwurt, Lower Bavaria. Mr. H. F. Young of Toronto, well, but detained in Nuremberg. Mrs. Margaret Elma Cross writes from Pisek, Bohemia, that she is quite well and not in any danger. Mrs. Anna Frielewicz went to o.p. Monasterzyka, Galicia. Mr. Jacob Weis and family last heard of at Humiska post, Blaszow, Galicia. Dr. S. M. Polson of Kingston, Ont., thought to be at Yantzen, Prussia. Mr. and Mrs. W. J. Rose, Student Christian Movement, Prague, Bohemia. Nantzen, Prussia. Richard, Hopfinger's Park Hotel, Hitzing, Hauptstrasse 12-14, Schoenbrunn, Vienna. Mr. Weis, believed to be at Lemberg, Galicia. Mr. Charles Gould, last heard of enrolled in British Consulate Guard, Brussels. Miss Charlotte Langmuir of Toronto, last heard of at Spa.

## PRZEMYSL SIEGE MAKES PROGRESS

(Continued from Page 1.) following official statement, given out in Berlin, has been received here by the Marconi Wireless Telegraph Co.:

"It is officially reported from Vienna that 40,000 Russians were killed or wounded near Przemysl.

"Belgian officers who are interned in Gallatz, report that the Austro-Hungarian soldiers are still in Antwerp as prisoners.

"The Germans as soon as they entered Antwerp took possession of all the big engines in the city and commenced extinguishing the fires.

"The biggest forces are between Przemysl and Ivangorod, which is the centre of the German advance. The fighting thus far is only of advance guard character, or probably, where the Russians are withdrawing, in the nature of rear guard actions.

"Watchful Waiting. The Germans seemingly are completely out of the Suwalki and Lomza districts, but the Russian advance into East Prussia is making little if any progress. Probably both are willing to wait where they are until the bigger battle to the south has been decided. The Germans it is said have been surprised by the early setting in of winter, and not being provided with heavy clothing, such as the Russians have, are suffering severely.

"In the sinking of the cruiser Pallada by a German submarine the Russian navy has suffered quite a heavy loss, Russia has too few ships at sea, and the loss of a cruiser of the Pallada class is of serious consequence.

"The Montenegro claim another victory over the Austrians at the northeast of Sarajevo, capital of Bosnia.

## BIG RUSH TO BOATS

Belgian Seat of Government Has Been Transferred to Havre.

(Continued from Page 1.) made in each city or town of importance changes hands.

## THOUSANDS OF FUGITIVES.

Canadian Press Despatch. LONDON, Oct. 13, 8:20 p.m.—As early as 11 o'clock this morning, the harbor station at Ostend was besieged by thousands of people anxious to get aboard the mail boats, according to a despatch from the Ostend correspondent of Reuters' Telegram Co.

Members of the Belgian Government, the diplomatic corps and other officials left for Havre on the first two steamers. The boats were literally stormed by a crowd of fugitives, many even getting on board by way of the luggage chute.

## BELGIAN GOVERNMENT AT HAVRE.

Canadian Press Despatch. PARIS, Oct. 13.—Altho all of the Antwerp forts continue to hold out and a good part of the German army is occupied with their reduction, it has been deemed advisable to transfer the seat of Belgian government from Ostend to Havre, France, where a permanent freedom of movement is assured. All documents of the government will be taken to the temporary capital on foreign soil.

Several members of the ministry left today for Havre, where the French Government has placed suitable quarters at their disposal. The king, the minister of war and some other officials will remain in Ostend. King Albert is in personal command of his army, which will be ready for the members of the Belgian government effective last evening when the men have recovered from their recent great exertions at Antwerp.

## CABINET ARRIVES SAFELY.

Canadian Press Despatch. PARIS, Oct. 13, 9:35 p.m.—A despatch to the Havre Agency from Havre says that posters were put around the city bearing the signature of the mayor, announcing the arrival of the members of the Belgian Government and calling on the citizens to receive them appropriately.

## KING STILL HEADS ARMY.

Canadian Press Despatch. LONDON, Oct. 13, 9:25 p.m.—The headquarters of the Belgian Government have today transferred to Havre. With the exception of King Albert, who remains at the head of the army, and the minister of war, the members of the Belgian Government, left Ostend by steamer for the French port where they will carry on the affairs of the state, and where hospitality has been offered them by the French Government.

The American and Spanish ministers, both of whom are still at Brussels, and the only diplomatic representatives accredited to Belgium remaining in that country.

This is the third move of the Belgian capital since the Germans succeeded in silencing the forts at Liege. The government first moved from Brussels to Antwerp; thence to Ostend and today across the line to Havre.

The final change followed quickly upon the German retreatward advance, which was begun immediately on the fall of Antwerp.

## BATTLE OF AISNE IS NEARING END

German March to Coast May Be Cut off by the Allies.

(Continued from Page 1.) planes which, once the Germans reach the coast, will be within easy striking distance of the British coast ports and even London.

This new movement promises to bring the battle of the Aisne, which has been in progress for a month, to a speedy conclusion. The Germans, although they have brought heavy reinforcements from Germany, and are now using at least a part of the troops which participated in the siege of Antwerp, are known to have withdrawn many troops from their front along the Aisne to reinforce the right wing, where they have been striking hard at the allies' left.

French Make Progress. These attacks have apparently met with little success, for the French claim to have made marked progress between Arras and Albert. At the same time the withdrawal of the troops which have been engaged in these attacks from the centre has enabled the allies to make advances in the Berry-au-Bac district, to the northwest of Rheims, and also toward Souain, west of the Argonne and north of Malancourt, between the Argonne and the Meuse.

Nothing is said in the French official report of the fighting around Apremont and St. Mihiel, which has been very heavy for some time. The Germans have been making determined efforts to maintain their positions on the Meuse.

Great Battle in Picardy. However, all this is now secondary to the battle in the Province of Picardy, which forms the department of Somme and part of Oise, Pas de Calais and Alsace.

The Germans are in complete possession of the City of Antwerp, but it is said that some of the forts are still holding out and that Gen. Guise, the Belgian commander, is there directing the portion of the Belgian garrison which occupies them. There is another rumor, however, that Gen. Guise is among the Belgians who crossed the Dutch frontier, and that he is interned with the others.

The big German siege guns which were used to reduce the Antwerp forts have already been moved and it is reported they are to be taken to the Vosges, where an attempt will be made to reduce Belfort.

MURDER AND SUICIDE. A jury under Coroner Cotton brought in a verdict of murder in the case of the death of Caroline Suszki, who was murdered by her husband, Frank Suszki, on October 7th in his home, 703 West Queen street. A verdict of suicide was brought in with respect to the death of the husband.

## RHEUMATISM

A Home Cure Given by One Who Had It

In the spring of 1885 I was attacked by Malarial and Indurative Rheumatism. I suffered as only those who have it know for over three years. I tried remedy after remedy, and dozens after dozens, but such relief as I received was only temporary. Finally I found a remedy that cured me completely, and it has never returned. I have given it to a number who were terribly afflicted and even bedridden with Rheumatism, and it effected a cure in every case.

I want every sufferer from any form of rheumatic trouble to try this marvelous healing power. Don't send a cent; simply mail your name and address and I will send it free to try. After you have used it and it has proven itself to be that long looked-for means of curing your Rheumatism, you may send the price of the one dollar, but understand, I do not want your money unless you are perfectly satisfied to send it. Isn't that fair? Why, any longer when positive relief is thus offered you? Don't dicker. Write today.

The Farmers and the Hydro Railway Bylaw

As is usual when any public ownership project is up for consideration, the corporations are making every effort to defeat the law which is to be voted on next Monday for the construction of a hydro-electric railway from Toronto eastwards thru Scarborough and on to Whitby and Oshawa.

It seems strange that after all the controversies over the Ontario hydro-electric light and power system, there should be found any persons willing to listen to the similar objections raised by the corporations to this kindred proposal.

Perhaps there is something about agriculture that makes those who follow it particularly open to pessimistic suggestion, for it is the farmers who, as a class, will be most benefited by the line, who are relied upon for opposition.

Scarboro Township may be taken as an example of the situation in general. The farmers on the east of the township think that because the railway runs thru the western section they should not be asked to help the construction of the line by even the use of their credit.

The experts that used to tell us how hydro-electric power would ruin the province and the municipalities which had anything to do with it, are now busy trying to convince the farmers that they will be ruined by the hydro railway.

The railway has a better prospect of early profits than the hydro light and power lines had. Yet they are paying. We believe the hydro railway lines will pay from the start.

The farmer, in building a hydro line, is not going to adopt any of the promoter's questionable methods, but will use his own franchise and his own credit and his own patronage to build and pay for and finally to own a road which will pay for itself and its own repairs.

For sums of one hundred dollars and upwards we issue Debentures bearing a special rate of interest for which coupons payable half-yearly are attached.

of their own franchises and their own credit they are not going to hand over the opportunity any more to the slick gentlemen who—and we do not blame them for making hay while the sun shines—gather their harvest while they may.

The private capitalists pay no taxes. They are supposed to do so, because they hand over money for taxes levied upon them. But they pass on the charges to the people who ride on their cars or use their light and power or anything else they have up for auction.

In the case of the hydro railway there should be no delay, for the lines cannot be put in late. It must be done by the united action of the whole community. There will be no loss to be met. The government is looking after the whole business, and is taking care that there will be nothing done that will not be perfectly safe and sound as an investment.

The east side men will have another advantage in the bringing of light and power into their district by the hydro lines, so that Malvern, Woburn and other points will be brought into a public ownership circuit and be able to compete with cheap light and power from other parts of the province.

And later on, when the province makes up its mind to take over the whole radial railway system, Scarborough will be in a splendid position to connect up and establish cheap travel with the whole country round.

Tomorrow evening Sir Adam Beck will speak at Whitby and other meetings are to be held in the district in which the vote is to be taken. There is no reason why every farmer in Ontario should not understand the question thoroughly. The government will see that the business is placed on a profitable basis. The farmers who vote the credit will have nothing to pay, but will see a valuable property grow into existence under their eyes.

Some years ago Sir Wilfrid Laurier suggested that the best way to reform the Canadian Senate was to have the members elected by the various provincial legislatures, citing the example of the United States Senate in support of his contention.

In this war whose extent and character have no precedent in history, ups and downs are bound to happen. Hitherto the allies have stood mainly on the defensive, the only real exception being the outflanking movement on the left of the long battle line.

No reason exists for taking a pessimistic view of the future of the war. Time is on the side of the allies and every day that passes without material gain to the enemy strengthens the reinforcements now being prepared in Britain.

The idea of an indirect election commends itself to many people, and has been tried at one time or another in nearly every country of the world. The framers of the American constitution were strongly impressed with this plan, and therefore did not provide for the election of the president or the senate by the people, but restricted the people to choosing delegates to make the selection for them.

For sums of one hundred dollars and upwards we issue Debentures bearing a special rate of interest for which coupons payable half-yearly are attached. They are a made payable in one or more years, as desired. They are a

MacDiarmid may not be opposed. West Elgin Seat Will Probably Go to Him by Default. IN WHITNEY'S RIDING. No Contest is Likely at Once. Thinks Andrew Broder, M. L. A.

According to general opinion in political circles, Hon. Findlay MacDiarmid, the new provincial minister of public works, will not have to face a by-election contest in his riding of West Elgin. Appearances indicate that the seat will be accorded to him without any opposition from the Liberal party, the custom for the last few years being to allow a newly appointed minister the right of holding his seat without a new appeal to the electors.

Nothing will be done for some time toward bringing on a contest in Morrisburg, the government desiring to do honor to the memory of Sir James Whitney by avoiding the election of a party conflict for the time being. There are several candidates, however, who have signified intentions of entering the field.

Broder is in Town. Andrew Broder, M.P., of Morrisburg, who is staying at the Queen's, paid a high tribute to Sir James Whitney when seen there yesterday. He stated that as yet the people of this constituency had not started to consider any new candidates to fill the vacancy caused by the death of their chief. It was not probable that any movement will be made until the end of the month when a convention will be held.

Government Farming. Editor World: Permit me the use of your columns to suggest that our governments can utilize many "waste spaces" in public lands, or donated farms property. From the public credit, or cash, by purchase or hire, provide the implements and teams of tractors needed for the purpose, purchase the seed and pay for the labor (preferably of the unemployed citizens), market the crop results and dispose of crop or proceeds to the best advantage of the public as a whole, probably donate extra power to army or their families at home. "Go to it." Whitby, Oct. 11.

Three Directors Appear But Not Pollman Evans. Union Line Case May Be Postponed Until the Spring Assizes. A date will probably be set at the fall assizes today for the trial of Harry Symons, K.C., Dr. F. E. Hughes, the Edmondson dentist, and George E. Mitchell, director of the defunct Union Life Assurance Company, who are charged with conspiracy to defraud. The accused appeared in court yesterday along with their counsel, who agreed with Mr. Justice Britton and Crown Counsel DuVernet to wait until hearing Pollman Evans, the fourth director named in the indictment, is still a fugitive. The case may be postponed until the spring assizes.

The visitor was especially delegated by his firm to investigate the island's fox industry. While in New York preparing to return to Japan he received a despatch from the headquarters of the firm to go to Prince Edward Island and thoroughly investigate fur farming. Before leaving, the Japanese merchant was taken to a number of the island's principal fox ranches.

GROER PAYS DAMAGES. GEORGE BARRON ASSAULTED EMPLOYEE WHO COMPLAINED HIS PAY WAS CUT. Verdict of jury was given yesterday in the case of George Barron, grocer, who was charged before Mr. Justice Britton and a jury at the fall assizes with having assaulted Clarence Frederick McDonald, an employee, on Sept. 30 and again on Oct. 16, 1913. McDonald declared that he had received short pay in his envelope, and when he went to interview Barron he was assaulted and thrown on the street. His pants and shirt were torn and he suffered pains since from injuries sustained. Barron said the wages were docked for bills owing and lost time. Damages were fixed at \$25.

ESTREAN TRIAL POSTPONED. Because of the absence of Dr. Heywood of the Toronto Hospital staff, Mr. T. C. Robbette urged at the assizes yesterday that the trial of Isaac Estrean, who is charged with having killed the woman he loved, be postponed. The crown was prepared to go on with the trial, but counsel for the defence stated that Dr. Heywood had pronounced the accused insane and was therefore a material witness. Mr. Justice Britton will decide today when the case shall come before him.

How to Banish Wrinkles Quickly

If the average woman only knew it, it is not at all difficult to preserve the youthful contour and velvety smoothness of complexion. Every woman hates to see her face wrinkled and aged, and practically everyone has experimented with some sort of patent remedy in the effort either to remove such condition or ward it off.

fatigue party went to Aurora yesterday and prepared the camp ground for the men, who leave the city today. It is expected that 150 will be entrained. Yet mobilization orders have not yet reached Toronto, every preparation is being taken with a view to securing a large contribution of Toronto's best men to help maintain the integrity of the British Empire. Disappointment awaits many of the mounted troops, as only 500 men are wanted from Ontario, so that not more than 200 can be drawn from Toronto, while many times that number are available and expectant.
