More Than Hundred Thousand Dollars Lopped From Hamilton Works Budget.

Special to The Toronto World.
Hamilton, Feb. 18.—The pruning knife was wielded today on the works department estimates, morning and afternoon sessions of the board of control being held. They were satisfactory sessions, too. The controllers let it be known that a total of more than \$100,000 had been lopped off. This chops better than one mill from the new rate. The revenue-producing value of a mill is \$91,000.

First Pleasureless Day.

Hamilton's first "pleasureless" day was enforced here today, and as a result the theatres, skating rinks, dance halls, billiard parlors and bowling alleys had their doors closed tight. There was one exception and that was the Savoy Theatre. The fact that it was shown burlesque gives the owners the option of closing either on Monday or Tuesday. The Grand Opera House, too, under the same category, was closed.

At a conference of members of the city council, board of trade and about sixty representative citizens, held in the city council chambers this evening, hearty endorsement was given the board of trade suggestion that an international live stock show be established here in an arena on the Grand Trunk spur line, Wellington and Burlington streets, on which an option has been secured.

WAR SUMMARY

THE DAY'S EVENTS REVIEWED

The Germans, who denounced the armistice with the Bolsheviks on Sunday, also in his provisions required seven days' notice, at once broke faith and began advances on Monday against Dvinsk on the Dvina, and Kovel, south of the Pripiet River. The enemy has already crossed the Dvina. This breach of military faith puts the enemy outside the pale of negotiation or any armistice or convention. The enemy aims at occupying Reval and probably after Reval, Petrograd. He has a foodless country to traverse and he lengthens his communications and imposes a big drain upon his resources. The Bolsheviks are meanwhile taking strong action against the German nobles of Estonia for inviting German intervention. The resisting power of the Bolshevik forces is unknown. The advance against Kovel is designed to support the Ukrainians.

The central powers have reached an agreement whereby Germany is to confine her operations against the frontiers of the Great Russians, and Austria is to confine her operations against the frontiers of the Ukraine, or Little Russians. The report of a breach between Austria and Germany over the Russian invasion is simply eyewash. The Austrian Government is entirely under the thumb of the German Government. The stories of Bolshevik atrocities, it seems, are German-made and German propaganda. They are designed to foster an opinion in Germany and among neutrals favorable to carrying the German arms into Russia.

The news that also many of the Russian soldiers have gone home, five to ten millions still remain under arms, shows that with leadership the Russians are capable of offering formidable resistance to the German invasion. The attack, after the failure of the peace negotiations, and the breach of the armistice, is bound to arouse the utmost animosity; and if the Bolsheviks retain control of the army organization they can, by withdrawing and concentrating their forces far in the rear, ultimately envelop and destroy the Germans. The enemy knows this as well as anybody, so he must have large forces established in the east, and the stories of big reinforcements in the western theatre of the war may be largely mythical. The

Danforth Avenue Ratepayers' Association Will Hold Mass Meeting to Arouse Interest.

Investigation to Be Made and Permanent Conducting Staffs Appointed.

WILL REMEDY DEFECTS
In Future, Names and Addresses Will Be Sent by Wire to Headquarters.

Ottawa, Feb. 18.—The department of militia and defense in a statement given out this evening announces the appointment of a court of inquiry under Lieut.-Col. Hume of Vancouver, to investigate complaints made by returned soldiers as to treatment received by them on shipboard. The statement, which also deals with other complaints relative to the supplying of names of returned men, is as follows:
"Notice has been taken of certain complaints which have recently appeared in the press respecting the difficulty in obtaining a list of soldiers who disembarked from a certain transport. The department regrets that circumstances arose in this instance which made it impossible to obtain these names for publication. It is desired, however, to notify the public that such a situation is not likely to arise in the future as arrangements have been completed under which names and addresses of all soldiers returning to Canada will be communicated by wire to headquarters of military districts, no matter at what port disembarkation takes place. The names so communicated will be favorably noted only for friends and relatives, but for the

CASHED ENEMY BONDS CONTRARY TO ACT

Purser of Holland Liner Arrested and Held on Heavy Bail.
An Atlantic Port, Feb. 18.—Johannes Hendrik Werkhoven, assistant purser on the Holland-America liner Nieuw Amsterdam, was arrested here today under the trading with the enemy act and is said to have confessed that he had brought to this country for redemption bonds and coupons owned in Europe. He was held in \$25,000 bail for further examination.
Werkhoven is said to have admitted that since the outbreak of the war he has been making large profits by bringing to this country and cashing bonds and coupons which he said were owned by "friends in Holland."
Werkhoven, it is declared, claims that the bonds and coupons he surrendered today were the first he had surreptitiously brought to America since the passage of the trading with the enemy law. He has cashed bonds and coupons worth large amounts since he began work, however. One lot of bonds was sold to a Hoboken trust company for \$75,000. Last July he imported \$12,000 worth of coupons and in January, 1917, he cashed securities here worth \$32,000.

Thousands of them were on the job today.

CARVELL PREDICTS HEAVY INCOME TAX

Canada Must Raise This Year About Eight Hundred Million.

INTEREST CHARGES

Dominion Has Adverse Balance of Trade Which Must Be Taken Care of.

Montreal, Feb. 18.—Hon. Frank B. Carvell, minister of public works, addressing the members of the Montreal Canadian Club today, said that during the coming fiscal year the country had to raise something like \$90,000,000 and while he was not announcing any policy, he declared that, if they could not raise the money by way of tariffs, there was only one source of revenue and that was by asking the men who had the money to contribute a portion of it by way of income tax.
Mr. Carvell said there was hardly a man in Canada who was not in a better financial position individually since war started than he was before. But the government of Canada has been getting poorer and poorer, and today it was faced with a condition such as no government had ever faced before in Canada. Before the war the revenues of the country were about \$175,000,000. During the present year they had to raise \$25,000,000 to carry on the ordinary affairs of the country.
Balance of Trade.
Sixty million dollars had to be provided for interest charges, and at least ten millions or more for soldiers and that might go as high as twenty millions. In addition to this \$400,000,000 had to be provided to pay for the goods which were being sold by Canada to Great Britain and the allies and which they could not pay for at the moment. During the present fiscal year Canada would send to Great Britain probably over \$900,000,000 worth of goods, including munitions, but unfortunately she only imported about \$90,000,000 worth and that left an adverse balance of trade of \$800,000,000 which must be taken care of in some way. The railway problem would take up probably \$35,000,000 or \$40,000,000, cheese-pare the best way they could. The government had to provide at least \$145,000,000 to pay its debts and carry on the army in Canada in addition to \$200,000,000 for the money across seas, altho this latter sum would not be actually paid out.
The minister referred to the balance of trade against Canada in the United States and said that there was at least \$350,000,000 to be provided for this, and some scheme must be devised for this.
Government Railways.
Discussing the railway problem, he declared that up to date no government in Canada had ever succeeded in operating a railway properly, but may be the present government possessed more ability than its predecessors.
Alluding to the government shipbuilding program, Mr. Carvell said the government felt it its paramount duty to make a start with \$25,000,000 or \$40,000,000, and he hoped next year it would be still greater because either the cost per ton might be greater, still the country must have ships.

POLES VIRTUALLY DECLARE WAR AGAINST CENTRAL POWERS

London, Feb. 18.—"Nothing less than a declaration of war upon Germany and Austria, the nations which released Poland from the yoke of tsardom," is the way The Berlin Lokai Anzeiger characterizes a recently published proclamation, protesting against the cession of territory to the Ukraine, by the Polish government council which, like the Polish ministry, was recently reported to have resigned.

GERMAN AIR RAIDERS KILL TWENTY-SEVEN

All But One of Gothas Driven Back From London.

London, Feb. 18.—London's air defences again were tested Sunday night when German raiders broke through the coast defence. The Germans evidently made persistent efforts for some time to reach the capital, judging from the prolonged heavy barrage which rose and fell first on one side of the city and then on the other.
Soon after sundown the growing brilliancy of the moon saw few out-doors except those engaged in their ordinary business.
Victims of the Saturday and Sunday night air raids numbered 27 killed and 41 injured. Of these 16 were killed and 37 injured last night.
Saturday night's casualties were: Killed—Three men, five women and three children. Injured—One man and three children.
"Last night's air raid," says the official report, "appears to have been carried out by six or seven enemy airplanes, of which only one penetrated into London. The first raider passed the Isle of Thanet at about 9.45 p.m. and proceeded up the Thames estuary into London, crossing the capital from southeast northwest. Bombs were dropped in various districts between 10.45 and 10.55 o'clock.
The remaining raiders, which attempted to reach London from the northeast across Essex, or from the east along the line of the River Thames, were all turned back."

Accuse Council of "Jockeying" to Get Big Pension for Smith.

There is a movement on foot among the younger members of the fire department to apply at Osgoode Hall for an order to wind up the firemen's pension fund.

The fund is bankrupt. We are being asked to pay 7 per cent. of our salaries in order that the members of the force who have retired may live in ease and comfort.

There is a great deal of discussion among the younger members of the force about the fund. No open meetings have been held, but opinions have been freely expressed in the fire halls. Their chief grievances are as follows:

Merit—that was the goal

Scarcely more than three years ago Tanlac was but an ideal—to which a group of men were striving.

Today it is the greatest success in the history of medicine—nine million bottles, breaks all world records for the sale of a proprietary medicine in the same length of time.

It seems strange now, looking back on our beginning, to have come so straight and so swiftly to this eminence of production and place.

We believed that ultimately merit would triumph. We believed in the goodness of Tanlac.

Lloyd George on Trial
Interest in the war has been transferred to the changes occurring in the British high command, which in turn threaten the stability of the British Government.

The American roads had been unable to finance because they had been dishonestly managed. They had been robbed and looted in the most notorious and scandalous manner.

There is no doubt a sharp difference of opinion in and out of congress upon the railway question. Some, perhaps a majority, favor immediate nationalization.

Probably the one detail that is halting the government is the price that ought to be paid for the roads.

It is a wise arrangement from a public-spirited point of view. But it is likely to create a financial mis-advantage among the railroads that will render the task indeed, for one thing, it will practically nullify the provision in the railway bill for returning the roads to their owners within a stated period of time.

Director-General McAdoo is beginning to standardize railway equipment every day is drawing the roads into a closer union.

The Canadian Pacific is shrewd enough to see that it cannot be the only road on this continent under private ownership.

The British nation, and the British Empire, too, will stand solidly behind Lloyd George if he casts all compromises with Satan to the winds and commits himself unflinchingly to fight the good fight of liberty, justice and democracy.

The Press and the Railways

Two ideas are now being widely disseminated. One is that the United States has no thought of nationalizing her railways but intends to return them to the companies immediately after the war.

Mr. Gossnell, however, is frank enough to admit that the United States Government had the railways forced upon them by the breakdown of private ownership. That breakdown, however, was due to the inability of the roads to procure any more capital.

EDUCATION BOARD REJECTS PROPOSAL OF CITY MEMBERS

Hurriedly - Called Meeting Considers Suggestion and Votes it Down. ONLY ONE SUPPORTER

At two o'clock yesterday afternoon Dr. G. C. Steele, chairman of the board of education, issued a call for a special meeting of the board for eight o'clock last night to consider what action should be taken with respect to the proposal of the city members of the board of education to take over the control of the school system and expenditures.

The reports presented to the board set forth that a letter was sent to Mayor Churchman in the afternoon from the chairman of the board of education, which said: "Acting on the basis of the suggestion made by M. H. Irish, M.L.A., representing the city members of the legislature at the conference held this morning, the finance committee invites you to have Commissioner Bradshaw attend a meeting of the finance committee at six o'clock to discuss the estimates of this board and to discuss the same with the hope that our respective bodies will not require to appear before the private bills committee and that pending legislation sought may be dropped."

Secretary Wilkinson had received a telephone reply stating that the letter was not received in time for Mr. Bradshaw to arrange to be present at the committee met at four o'clock. The finance committee proposed to discuss the estimates of this board and to discuss the same with the hope that our respective bodies will not require to appear before the private bills committee and that pending legislation sought may be dropped.

That one representative of the board of education, the representative from the city council, the city treasurer, be ex-officio members of the board of education, and that in addition, a full board of education be organized.

Eleven species in support of the motion were made. The gist of the arguments was that the board had not been economical, but had in fact not fully met the requirements of the Ontario Education Act that they directly represented the taxpayers and were representative taxpayers.

Charged with false pretences Robert Dvorsky of Elmvale was arrested last night at that place. He was charged with the theft of goods to the extent of \$400 from Abraham Gussel, 710 College street, by fraud. The transaction took place in 1917. The case will come up in the police court today.

A METAMORPHOSIS

THE WOMAN WHO CHANGED BY JANE PHELPS

It is Hard to Understand. CHAPTER VIII. "Now, Helen, I want to talk to you," George said, and I noticed that the look of animosity was surely on his face. If you can't learn at least the simplest beginnings of good form, you will either desert from meeting people until you do or I will engage a woman to teach you some. I could not understand. How could I?—I, in love with my husband! There was a dead silence. Then George resumed, "Please do not make me, my ability, the subject of conversation at any time. Especially so when I am in the room. It is not only annoying, but it is in atrocious taste."

CARTAGE AT ROOT OF COAL PROBLEM

Bakery in Eastern Part of City Has Had No Coal for Weeks.

Asked as to what he thought of the coal situation, Fred Moss, secretary of the Riverdale branch of the G.W.V.A., did not express himself in the most optimistic terms. "What do I think of the coal situation? Well, I shall just say this, the anything black; anything that looks like the real stuff is the good boy for us chaps up here. It is just the scum, best article around this burg. Oh, yes! I quite believe there will soon be enough coal in Toronto for everybody; but what about the problem of getting it up to the wives and children? That is the question which is troubling us most these days. If some good fairy spirit will arise or descend to Mother Earth and provide us with the necessary means of carting the black diamonds to our hundreds of homes crying out their needs we shall be in clover, and no mistake."

JOHN G. KENT.

Appointed Managing Director of Canadian National Exhibition. John G. The second charge against Dowdell is that of theft from the Crown and Company, 533 College street, to the extent of \$146. He is alleged to have impersonated a Canadian Express driver and accepted a package from that firm which was deserted on the street with the package.

FIRST OF SERIES OF CONCERTS GIVEN. Mendelssohn Choir Appears Under Baton of New Leader. FINE ORCHESTRA HELPS Philadelphia Organization is Associated With Toronto Singers. "When Dr. Vogt started the Mendelssohn Choir twenty years ago probably no one in Toronto anticipated the vocal perfection which finally obtained it an international reputation. It would be unfair to the new conductor to set a standard more than half-way between the early and the later achievements of the choir's first cycle. The war, which has shattered so many beautiful things, did not leave the choir scatheless. At the pitch of its perfection, it was to be further referred to as the triumph of Chicago, New York and Boston. The Kaiser would not allow it to be an object of enthusiasm. But it is not the same choir. There are many changes among the chorists. Duty overseas has removed both men and women to the front. It was observed at once when the first stanza of the National Anthem was sung by the soprano that the faultless performance of voices, such as marked feature of Dr. Vogt's conductorship, was lacking. In the mechanical side of the choir, precision, tempo, attack, release, and so forth there was little to find fault with. The magic purity of tone and the precision in execution for the first night of the new cycle.

REAL ENTERTAINMENT THIS WEEK AT STAR. Lots of Life and Music Await the Burlesque Fans in "The Pace Makers". Real entertainment with lots of life and music awaits the burlesque fans in "The Pace Makers," which opened yesterday afternoon at the Star Theatre with the usual matinee. The cast of the show is exceptionally strong; it is headed by that charming and well known little soprano, Frances Farr, who had recall after recall with her singing and dancing. The author of the book has written a very clever comedy which is suited to the work of those two screamingly funny men, Jack Pearl and Al. Hiller, who are assisted by the good work of Eugene Rauth. The show is not only strong in cast but in scenery and chorus. The latter, it is safe to say, is one of the best that has been seen on the Toronto boards this year. The show is full of pep, good singing and dancing, to say nothing of the wonderful scenery which was painted by a well known artist.

PLAY RETURN GAME AT ARENA TONIGHT

De La Salle Have Two-Goal Lead—Hockey News and Gossip.

Altho the De La Salle team is weakened by the absence of "Duke" McCurry, their speedy left wing player, who had his hand badly cut when he fell on the slippery pavement on De Grassi street, on Saturday, owing to the bad street lighting, the players are confident of their ability to defeat Peterboro in the second of the home-and-home games in the third round of the junior series tonight. De La Salle defeated them last Friday by 7 to 2 in a straight and narrow lead to go into the game tomorrow night.

The Pates will be a full strength, using the same team tonight as they used against the freshmen last Friday. "Duke" McCurry is the only one of the green and white line-up who will not be in the game. He will be replaced at left wing by "Jack" Travers, the substitute. Dr. "Jerry" Larfame will handle the drill.

A Montreal despatch says: Only a miracle can keep the Toronto Bluehirts from winning the second half of the split N.H.L. schedule, writes F. W. Ferguson, in The Herald today. He says:

"Canadiens, by handing the Senators a thrashing here Saturday night, make a second half victory for Querris' crew almost as certain as anything can be certain in professional hockey."

"The blues, with three straight victories tucked under their belts, have five games still to play, and three of them at home. There is very little chance that any team will beat the blues on Toronto ice this season, unless a couple of Querris' temperamental stars make a bolt from the straight and narrow paths, and conceding the blues three victories at home, they will end the season with six victories even if they lose both games on the road."

Mr. Ferguson gives both Ottawa and Canadiens a tabulation at the end of the season of three wins and five defeats.

University Schools go to Dunville tomorrow to play the first of home-and-home games in the third round of the O.H.A. junior series. The return game will be played here on Friday night.

- Group No. 5—Oshawa.

- Group No. 18—Seasforth.
- Group No. 19—Midland.
- Group No. 20—Owen Sound.
- Group No. 21—Barrie.

In the second round of the intermediate O.H.A. series Galt has a one-goal lead on Port Colborne, Oshawa has three goals on Depot Batteries and Glenora—Thamesville Unions have seven goals on Brampton, the return games to be played this week. Collingwood and Toronto Military Hockey League drew five, in the second round of the junior series Kingston beat Cornwall Union Jacks, Peterboro won from Oshawa, Kitchener beat Owen Sound, and Barrie won from Midland. Woodstock will meet Seasforth and University Schools will play Dunville. De La Salle drew a bye. In the third round De La Salle has a lead of two goals over Peterboro, with the return game to be played in Toronto tonight.

It was Kieckhefer's first defeat in ten starts. Maupome had a chance to break the world's record for a number of innings in a 50-point match, scoring 41 in 30 innings, but then missed several easy shots. In the other game, De Oro lost to Clarence Jackson 55 to 39, and Joseph Cayron, of Chicago, defeated John Moore, Chicago, 50 to 32. Kieckhefer will lead the tournament with nine victories and one defeat and Charles Ellis, of Milwaukee, is second with a record of seven and two. Each man must play three more games.

THREE CHALLENGES IN FOR ALLAN CUP

From Manitoba, Thunder Bay and Saskatchewan Hockey Associations.

Arrangements were completed last night for the O.H.A. senior championship finals for the J. Ross Robertson Trophy and the defence of the Allan Cup, as follows:

Tuesday, Feb. 26—Kitchener (champions of Group No. 2) v. Canadian Army Dental Corps (champions of Group No. 1), at Arena Gardens, Toronto, at 8:30. Friday, March 1—Dundas at Kitchener, at 8:30.

The teams have agreed upon Lawson Whitehead of Toronto as referee for both games. The winner of this series will defend the Allan Cup, representing the amateur championship of the world, on Toronto, subsequent to these games. Three challenges have been forwarded to the Canadian Amateur Hockey Association, as follows:

Manitoba Hockey Association—Types team (Military League champions). Saskatchewan Hockey Association—Championship not yet decided. Thunder Bay Hockey Association—Columbus team of Port Arthur. A serious question has been raised in Saskatchewan and also in Manitoba, as to the eligibility of the Manitoba champions, on the ground that several of the professionals who played in the Military League are not qualified under the A.A.H.C. rule regarding soldiers. This is a serious question as to whether such amateurs and professionals could compete with and against each other. Only amateurs are eligible for the Allan Cup, and the challenge for the trophy with that knowledge and upon the understanding that no professionals can compete in either the elimination or final games for the cup. The Manitoba Hockey Association stands sponsor or guarantor of all players and vouches for the eligibility of the players who competed in the Military League. Secretary F. W. Mumery, of that association, writes that the Winnipeg Military League had full Amateur Athletic Union membership and that the Manitoba branch of the Amateur Athletic Union is in the series this winter.

KITCHENER BEAT LONDON

London, Ont., Feb. 18.—The London Military Hockey Club senior team defeated 15 to 3 by Kitchener in ahibition game played here tonight. The Kitchener team, who have for the past four years held the Senior City League championship, lost to Nobel by 5 to 1. The game was witnessed by a record crowd of spectators. The first period ended 1 to 0 for Nobel, who added two more in the second and two more in the last. While New Beach scored their early in the third period, when Halliwell beat Keith from close in on a beautiful shot.

KENTUCKY BOWLERS LEAD AT CINCINNATI

Cincinnati, Ohio, Feb. 18.—The Heidelbergers, of Newport, Ky., went into first place in the first shift of the five-man team in the American Bowling Congress tournament tonight by rolling a score of 2875. They displaced the "Sport" Bowling Club of Covington, Ky., who rolled 2655 last night.

The Heidelbergers' three games were 818, 1008 and 1049. They were composed of Cincinnati National League ball players, and captained by Manager Mathewson, scored 2261 pins.

PRO. BALL PLAYER IS REINSTATED

At a meeting of the registration committee of the Ontario branch of the Amateur Athletic Union of Canada last night, William Craven of Guelph, who took part in a game of baseball outside of amateur rules six years ago, was declared in good standing.

No action was taken in the case of D. Brodie of Hamilton, under suspension for playing in unrecognised baseball in Brantford last fall.

A note of caution will be sent to the Riverside A.C. over the inclusion of a boxer in their team for Pittsburg recently, whose name was not on the list for whom permits were applied for.

HORSE RACING vs. PRO HOCKEY

Horse-racing has been criticised for crookedness. The runners sometimes show reversals of form. On reputable tracks they must show cause for in-and-out performances, or they are ruled off. There is no in professional hockey. There may be a reason for Toronto's beating Canadiens Montreal by a one-sided score, and then the Frenchmen coming along to the arena to wallopp the blue shirts, but the public would be like to, and are entitled to, know about it. Crowds attend the games, and the question arises: How long are they going to stand for this kind of performance?

CANADIENS TURN TO BEAT BLUE SHIRTS

Woeful Reversal of Form Displayed by the Pros. Last Night.

Talk about your reversals of form, Toronto, after winning three straight in the second half of the pro series, the Canadiens today, after they were two to one against when they tackled the red-shirted Canadians at the arena last night. One of the biggest crowds of the year was on hand, and then the Toronto let the Canadiens run away from them, and many a roofer was at a time and rained shot after shot at Holton's benches, and will be given a man at the goal mouth to take a pass. In the closing period of the game, Duffey had barely entered the ring before Lewis knocked him down with a terrific right to the jaw. He stayed down for three more times and Duffey was out.

Toledo, Ohio, Feb. 18.—Ted Lewis really defended his title as waterweight champion of the world here tonight by knocking out Jimmy Duffey of Lockport, N.Y., in two minutes at the Columbus before a record crowd. Lewis was scheduled to last 15 rounds with Duffey, but Lewis knocked him down with a terrific right to the jaw. He stayed down for three more times and Duffey was out.

FRENCH BANTAM WON.

Philadelphia, Feb. 18.—Benny Valger, the French bantam, outpointed Joe Lynch of New York in their six-round bout here tonight. The Frenchman had the better of every round, and when the fight ended Lynch was bleeding freely from constant jabbing by Valger.

HARRY GREG BEAT BOB MOHA.

Cincinnati, Feb. 18.—Harry Greg, the Pittsburgh middleweight, outpointed and "knocked out" the Milwaukee cavy, Bob Moha, in the sixth round of a decision at the end of the thirteenth round. Only Moha's ruggedness saved him from a knockout in several of the rounds. Greg boxed the latter about his ears, and he landed almost at will.

DECISION FOR PAL MOORE.

Baltimore, Md., Feb. 18.—Pal Moore, of this city, won a ten-round decision over the New York fighter, Tom Memphis, in a ten-round bout here tonight. Moore boxed the latter about his ears, and he landed almost at will.

The next concert by the Toronto and District Cricketers' Association is announced for tomorrow (Wednesday) night, in the Occident Hall for the cricketers, their families and friends and families of cricketers in the Canadian overseas forces.

SAMMY ALSO SAYS THE LEAGUE WILL OPERATE

Montreal, Feb. 18.—There has been a doubt as to whether the International League will operate with six, if not with eight teams. The declaration of Sam Lichtenstein, president of the Royals, back today from attending the International League meeting, and he incidentally announced that the sale of Paul Smith, star hitter of the International, to Boston Red Sox, had been called off, as well as a deal with the same club for the services of Manager Dan Rowley, of the team.

"What the International will do will not be definitely known until March 25," said President Lichtenstein, "and writers who have made declarations otherwise than the owners. The owners decided that if certain conditions were complied with—that conditions it is impossible for us to say at the present time—they were willing to operate."

News that a deal was under way with the Red Sox for the transfer of Manager Dan Rowley comes as news to the local baseball fans. The deal was made by Dan Rowley, who is now manager of the Red Sox, and the transfer will be made.

HANDBALL

Harry Phelan and Charles Davies have just returned from a handball tour, which included a tour of the United States. The first series was at Boston, N. Y. C. A., where they defeated Reynolds and Wilson in five straight sets. They won all five easily by the following scores: 21-8, 21-8, 21-12, 21-12, 21-11.

The next series was at the Equitable gym, in New York, where they won the singles. Davies, defeating Jack Trout, champion of the City of New York, by a score of 21 to 20. They lost the doubles, however, to a team of Reynolds and Wilson, who won by a score of 21-17, 19-21, and 21-10.

The next battle was in Buffalo, where they defeated Henry Jocky, champion of Buffalo, and Dr. G. Beyer. The Buffalo pair won the first game, 21-14, but the Toronto boys grabbed the next two, 21-18 and 21-12.

Davies then tackled Jocky in a hard-fought game, and they were forced to play on strange courts and under different rules. This pair have been invited to take part in the big handball tournament in Detroit in March.

GREAT SHOWING IN HEXATHLON

West End Y.M.C.A. Men Keep Up Good Work in All-Round Athletics.

The members of the West End Y.M.C.A. are delighted with the showing made in the international hexathlon, as shown below. The enthusiasm among the non-competitors as they urged those taking part to do their utmost in order to beat the score of last year, when West End won the Canadian championship and was only beaten out of first place in the international by Brooklyn, N.Y., caused many on the outside to start speculating to see what was the cause of the record made last year. The score made in the score made in more remarkable when one considers that five of those scoring points last year were from the West End. The score made in more remarkable when one considers that five of those scoring points last year were from the West End.

G. Hutchinson, a newcomer to West End, scored his first victory in the hexathlon, with this event with a total of 53 1/2. H. Adam gave him a close run for the medal, for he finished at 51 1/2.

Running High Jump—Inmy Walker, the junior Canadian record holder for this event, cleared the bar at 5' 4 1/2", thus taking first place. Fred Galt and G. Hall will have to battle again for second place, for they tied at 5' 1 1/2".

HEALTH TALKS BY WILLIAM BRADY M.D.

Dr. Brady will answer all signed letters pertaining to health. Writers names are never printed of general interest are answered in this column, but all letters will be answered by mail if written in ink and stamped, self-addressed envelope is enclosed. Requests for diagnosis or treatment of individual cases cannot be considered. Address Dr. William Brady, in care of this paper.

Training the V. M. Nerve

It requires no nerve to take a cold bath or an air bath; no matter whether it be a limited bath or a complete bath, the nerve it requires is called the vaso-motor nerve or system of nerves. This automatic system controls the calibre of the arteries or smaller arteries throughout the body and thus regulates the distribution of the blood. If the nerve works, you warm up and feel stimulated and refreshed by your exposure to cold. If the nerve shrinks you are only chilled. If you happen to have some slight chronic disease of the lining of the nose or throat or bronchial tubes or whatever, you will feel the congestion—and if you are a regular old woman you'll declare you are "taking cold."

Open all night and leave them open all night every night in the year. The health department mollycoddle will advise, "but avoid drafts." If he forgot to stick in the wassal words he wouldn't be a mollycoddle.

Suppose you have joined the mollycoddles, adopted their never effective methods of keeping artificially warm, worn too much clothing all your life, kept your living rooms and work rooms heated six or eight degrees too high, and thus made yourself susceptible to every trifling change of temperature, weight of clothing, draft or exposure—in short, suppose you have put your vaso-motor nerve to sleep, is there any way to bring it back to life again? With your vaso-motor system doped from luxury can you hope to become alive once more?

That depends entirely on you. You're dead for keeps if you are so grooved in your habits that you are unable to get out from under the great delusion. Here is the way to find out whether you are still young enough to reform:

On a clear cold evening start out for your two miles of oxygen, and when you have huffed it a mile at a fair speed take your hat in your hand and goosestep forty paces. If that leaves you nice and warm there is still hope. If it leaves you cold go right back home and put on your chest protector. Are you warm? Then come round again tomorrow for your next lesson.

QUESTIONS AND ANSWERS.

Chlorosis and Tuberculosis.
Eight months ago our doctor ordered me to leave school because of chlorosis, which he said was caused by tuberculosis in my lungs. Is this true? Is—good for the former trouble? How long before one could resume regular work in school, every precaution being taken in the eight months to strengthen the lungs?
C. G.

ANSWER.—Chlorosis, "the green sickness," is a severe anemia, getting its name from the greenish, sallow hue of the patient's skin. Since anemia is always due to some definite cause, often tuberculosis, your doctor probably was right, advice, "but avoid drafts." If he forgot to stick in the wassal words he wouldn't be a mollycoddle.

Suppose you have joined the mollycoddles, adopted their never effective methods of keeping artificially warm, worn too much clothing all your life, kept your living rooms and work rooms heated six or eight degrees too high, and thus made yourself susceptible to every trifling change of temperature, weight of clothing, draft or exposure—in short, suppose you have put your vaso-motor nerve to sleep, is there any way to bring it back to life again? UP-TO-DATE NECK LACES.
Laces are lovely this season, and there are many sales of wonderfully fine, intricate patterns. Some of the coarser laces are very new and attractive. A fad of the moment is to make one's own collar by draping and gathering or laying flat a piece of hand-made lace at the décolletage of a frock. They look lovely on dark materials. The same can be done with hand-embroidered edging.

Oatmeal in Mixed Bread.
The following trade advantages of the use of rolled oats as oatmeal in mixed breads are pointed out by a large cereal concern:

"First, rolled oats and oatmeal are more easily obtained than their substitute ingredients; second, rolled oats or oatmeal will absorb far more water than wheat flour and retain it longer; third, they are as cheap as any other ingredient which is available; fourthly, the oatmeal loaf is said to have a greater nutritive value than even a straight wheat flour, and far greater than a cornmeal or barley-flour mixture."

ANYONE CAN TRY THESE EXERCISES AS DESCRIBED BY MISS VERA ROEHM

Second of a series of articles by famous physical culturist.

You will find that nine times out of ten the athletic woman makes the better mother, wife and housekeeper.

Why? Because of many reasons. First, she is more physically fit to bear the duties of all three.

do the many household duties, whether it be overexerting or doing the actual work.

A woman's build differs greatly from that of a man, and where the muscles of the latter will become hard and knotty, those of a woman will

theless, it will be hard, firm, and shapely.

Constant exercising of the forearm muscles causes their development. The difference in figures can be noticed more forcibly on the breast than anywhere else.

Key for Today's Exercises. The following are some instructions for today's exercise of reducing:

Many times has that remark been passed about my mother, and never has it failed to make me the proudest girl in the world.

Lack of Time Poor Excuse. Often the excuse of lack of time is given by the mothers of large families.

Many a woman has far more power in the muscles of an unsuspecting shapely arm, than is found in the knotty arms of a man.

each exercise is given ten counts. Instructions for bending, which will help the hip toward graceful lines:

Stand erect with arms folded in front of chest; raise upon the toes and sink slowly until the body rests upon the heels; then rise to position upon toes and sink back to first standing position.
