TORONTO, *Dec. 28th, 1892.*

To the NORTH AMERICAN LIFE ASSURANCE COMPANY,
Toronto.

GENTLEMEN,—

I am in receipt of your cheque for $27,381.40, in settlement of my 15 year endowment policy issued by you Dec. 20th, 1884 for $20,000

The result is highly satisfactory to me, and furnishes the strongest proof of the careful and excellent management of the North American Life.

Personally, I have been a strong advocate of endowment Insurance, having carried over $500,000 on my life.

Yours truly,

GEORGE GOODERHAM.

If you are contemplating insurance, write to us, giving the date of your birth, occupation, and the amount you desire to pay annually, and we shall be pleased to send you full particulars of a plan suitable for you.

INTRODUCTION.

In presenting the twenty-fifth volume of this work, we wish to emphasize the claim we have made for a number of years back, that the Toronto City Directory stands in the front rank of publications of its class. There are not more than a dozen directories published throughout the entire world, that give the householders and business houses arranged by street and number, as we do in Toronto (pages 83 to 263 this volume) in addition to an alphabetical list of all residents and a complete classified business directory.

This year we have introduced some improvements: the index letter at the top of each page, greatly facilitating the finding of names, and the asterisk drawing attention to the different spellings of names.

There has been a substantial increase in the population of Toronto during the past year, as is shown by the increase in the number of names in the Directory.

This volume contains 87,029 individual names (exclusive of names of firms or companies), which shows an increase of 5502 over last year. In past years we have been multiplying the names in the Directory by 3 to estimate the population. In a great many cities, both in Canada and United States, they use 3, 3½ and 4.

Although Toronto has made rapid growth, we believe the use of the figure 3 would place the population a trifle higher than it really is. We have therefore decided after very careful consideration to use 2⅞ as the multiple. This gives Toronto a population of 250,209, exclusive of the suburbs which are printed in the front part of the Directory.

Below we give a table showing the number of names and vacant houses, stores, etc., in each year from 1891 to 1900, also the yearly average for these 10 years compared with the year 1900.

Taking into consideration the large number of new houses and buildings that have been erected during the past year, it is very gratifying to see that there are fewer vacant houses, stores and offices than there have been in any year for ten years.

Year	No. of Names	Vacant Houses	Vacant Stores and Offices
1891	64,339	3,133	422
1892	69,092	3,424	703

1900	87,029	1,255	316

	Increase in Names.	Vacant Houses.	Vacant Stores and Offices
Yearly average for the 10 years 1891 to 1900	2,267	3,079	547
For the year 1900	5,502	1,255	316

Another comparison which we ask the people of Toronto to take into their consideration is the price of the City Directory for 1900 as compared with 1880.

Year	No. of Names in Directory.	Price.
1880	21,919	$3.00
1900	87,029	$5.00

Although there are four times the number of names, which means over six times the labor, the price has only increased $2 in 20 years. The regular City Directory is the business man's friend and is entitled to his substantial support.

The map which we give to our subscribers this year has been very carefully revised and corrected up to date.

We extend our thanks to those who, by their support and patronage, have aided and encouraged us in our work, also to those who have kindly assisted in collecting some of the information which helps to make this volume as complete a work of reference as any City Directory published on the continent of America.
