## THE STAR TONIGHT

Louis Benson in "A Misfit Earl."

He was a misfit early, but a perfect lover—and scrapper. Anyhow, you can't expect a man fresh from the plains of the great west to act like a Chesterfield when he finds a little thrust upon him. But you do expect a red-blooded westerner to be a perfect lover and a bear-cat of a scrapper. And Louis Benson in "A Misfit Earl" certainly runs true to form. Don't miss this new Benson gloom-chaser. Five reels of rough-riding romance and whirlwind fun.

## IMPERIAL EXPLAINS

RE TICKET SYSTEM The system of printing tickets for road shows adopted by Imperial Theatre is in keeping with ticket systems in larger cities. Instead of a date line on the pasteboard a large numeral indicates the consecutive performance. For instance, tonight's tickets for "The Girl From Nowhere" are numbered with a large "4" and Tuesday night's show with a "5." This is the quickest and most efficient check system have upon people crowding into the theatre at the height of a rush just previous to curtain time. Patrons are respectfully requested to take cognizance of this system and not forget the date for which they made their purchases.

Belgrade, March 21.—Prince Danilo, heir apparent to the throne of Montenegro, until his recent abdication in favor of Prince Michael, son of the late Prince Mirko, has decided to accept the annuity of 800,000 francs which the Belgrade government had offered to his father, the late King Nicholas, according to the Politika. Big Sale Now in Progress at the New Store.  
As announced in the Times, Levine's Shoe Store opened for business at their new store, 90 King street, on Saturday morning; but owing to unforeseen difficulties premises were not altogether finished and selling service as a consequence was somewhat interfered with.

Saturday's trade far exceeded all expectations under the circumstances and intending purchasers may feel assured that low prices have followed the Levine's business to 90 King street, and Easter footwear is being offered at remarkable values.

## IN WALL STREET.

New York, March 21.—(10:30)—On the stock exchange today trading began with a resumption of the recent uncertain movement. Mexican Petroleum was the most conspicuous feature, falling two points in the first few transactions on selling, attributed to latest industrial advances from across the Rio Grande. At the market during the morning, but rails, steels and equipments weakened. New York Central and Reading being especially reactionary. Gain of 1 to 1 1/2 points accompanied the buying of Chandler, Studebaker, Maxwell and Pierce Arrow and International Motors, also Kelly Springfield Tire and Stromberg Carburetor. Pools furnished the momentum in American International, General Asphalt, American Woolen, Industrial Alcohol, and Central Leather at gains of 1 to 1 1/2 points and oils recovered part of their reversal. Call money opened at 6 1/2 per cent, the lowest initial rate in many weeks.

## MODERN DIOGENES IN PARIS.

Paris, March 21.—Early one morning two students who had drunk more wine than was necessary to quench their thirsts passed by a deserted market and found a large trunk. They started to carry it away, but it was too heavy. They opened it and a shock-headed man asked to be left alone and slumped down the cover. A policeman came along and took the man to the station where he said he was Honore Lehete, eighty-five, and he imitated the famous cynic dump sales and while levelling them off Corinth because of the lack of houses.

PROSPECTS BRIGHT FOR ROSS' STRING

Has Many Promising Three-Year-Olds—Has a Chance to Win the Churchill Downs Worth \$60,000.

Baltimore, Maryland, March 20—There is much potential strength in the Kentucky derby band of Commander K. L. Ross, of Montreal, whose stable thoroughbreds led American winners in 1918 and 1919 and finished second last season with \$250,000 to his credit to Har- Payne Whitney's winning combination in Star Votter, Cincinnati, Trophy- ner of last season, Oriole, a young- colt that furnished the contention in a or four of the Saratoga stake races two years old, Salling B., a son of Rock and Paccardillo and an eastern Pampas, an \$11,000 son of Short and Ellangowan, and Baby Grand- equent winner in Canada last sum- mer, the Canadian horseman has nomi- nated colts of demonstrated merit, probably Ajom, an English bred son of Aleppo and Polly Hill 2d, which also raced in Canada, should be included in this category. In Sun Turret, a \$26,000 son of Sunstar and Marion Hood, Re- sulting, a son of Erie Dock and Star of Danube; Bastie, a son of Votter and Op- pression, and Harmonique, a son of Sar- danapale and Melody, he has named colts as yet untried, but highly bred and promising. Any one of these un- proven colts may turn out as well as Sir Barton, winner of the Kentucky derby, the Preckness, the Withers, the Belmont and Maryland handicaps of 1919 did. When Sir Barton left Maryland for Kentucky in the first week of May, 1919, to try his luck in the derby he was a beaten maiden. He had not as a two year old shown as much as Pam- pas showed last season. That the entry of Commander Ross is not to be lightly counted out of derby reckoning is ob- vious. That the Canadian has a good sporting chance of taking down the winner's end of the Churchill Downs \$60,000 prize of the 7th of this coming May is not to be disputed.

The Ross horses of all ages will be ready for the earliest spring racing. They have been galloping over the new mile course at Ross Farms, in Howard coun- ty, Maryland, almost without interrup- tion, since Christmas. Today Oriole, Star Votter and Salling B., look to be the most formidable of Commander Ross' derby colts. Oriole, a big brown of homeric proportions, is a son of As- sagal and a grandson of Spearpoint, the sire of our own John and of Spion Kop, last season's British derby winner. Oriole was bred by Walter Farmer in Tennessee, but he is of English blood. He has a great turn of speed and last season he was all but unbeatable in mud- dy going. Oriole is nearer racing than any of the other horses at the Ross training place. He easily gallops away from the other three year olds.

Star Votter is an American bred son of Ballot, he the sire of more than two score of winners, and Starry Night, a descendent in the female line of the celebrated Maggie B. B., America's greatest brood mare. A compactly made chest- nut of sturdy underpinning Star Votter reminds one of Sir Barton. He was an unlucky colt last season. A hurried preparation for early two year old racing in Maryland upset his balance and after his Cincinnati Trophy victory he was not of much account until autumn. Indifferent racing luck brought about the defeat of Star Votter by Steplightly in the Belmont Park Futurity and by Believe Idle Hour in the Breeders Fu- turity at Lexington. No three year old in Maryland has improved more in phy- sique than has Star Votter and no son or daughter of Ballot, probably, will race better than he does this year, whether he is lucky in the derby or not.

Salling B. is a fast improving bay colt of strong physique Commander Ross took out of a selling race at Saratoga

THE MEDDLERS

There is much significance in the growing protest in the United States against the activities of the haters of England. It has been said that one of the reasons for the success of Mr. Harding and the Republican party in the presidential elections was the revolt of the real Americans against the various un-American groups who nursed their old-world prejudices and hates, and sought to strike from the safe vantage-ground of the country which gave them homes and freedom and the opportunity to gain wealth, regardless of the injury their intrigues might do to that country.

The great meeting in Madison Square Garden last week should serve as a warning to those people. That meeting had the endorsement of the president himself. He may be more pronounced than we would like against what are termed "European entanglements," but he is sound in his views regarding the trouble-makers who take advantage of their freedom in the United States to stir up ill-feeling against a friendly nation. It is to be regretted that here and there are to be found men who are not "hyphenated" but are willing to play the game of the disturbers. For example, the former postmaster-general, Mr. A. S. Burleson, has the effrontery, in an article in Leslie's, to demand, among other things:

"That we shall maintain terms of county and friendship with all nations, including, of course, Great Britain, and that steps shall be taken to secure the complete independence of the Irish Republic."

What would Mr. Burleson say if a British statesman should express himself in these terms:—"That the British Empire shall maintain terms of county and friendship with all nations, including, of course, the United States, and that steps shall be taken to secure the complete independence of the Negro Republic in the south."

To cultivate county and friendship with another nation by taking steps to dismember it may appear to Mr. Burleson to be possible, but most people will regard such a suggestion as that of an imbecile. Happily, Mr. Burleson is a member of a party which has been removed from power. He does not even express the views of the better type of men in his own party. His utterance is that of an irresponsible person who may have a personal reason for throwing a sop to the "hyphen." What the real Americans think is expressed in General Pershing, and in the following extract from Leslie's:—"The hyphen is an anachronism. It obstructs the path. It is a sign that an immigrant brought over everything except his heart. It is a waste of lip-loyalty behind which malcontents may prevail around in the dark. It is an index that may turn into a dagger struck at our vitals in the next year, for it has hang-dog and cast-trammelled symptoms and traditions. It is every day becoming more repugnant to the American people, filling the perspective with congeries of polyglot prejudices, speech, feuds and well-aid and it recalls the inert masses within our lines during the war and marplots of treachery, who even yet occasionally show the fangs of bitter asperity within the very bosom of the hospitable institutions which warmed their torpid faculties into life. The hyphen must go."

The literary life of Canada has sustained a loss in the death of Martin Joseph Griffin, C. M. G., LL.D., illustrious in parliament at Ottawa since 1881. While he accomplished no great literary work, his contributions to leading Canadian, British and American periodicals were always of interest, and his series of articles devoted to literary criticism which appeared for years in the Montreal Gazette under the heading "At Dodsley's," stamped him as a man of high literary merit and the master of a lucid and entertaining style. He was regarded as an authority on literary subjects. Mr. Griffin was a native of Newfoundland, but was educated in Halifax, practiced law there and also engaged in journalism. Later he went to Ottawa to represent the Toronto Mail (in 1879-81) and in the latter year became editor of that newspaper. An alibiarian of the capital he had exceptional facilities to pursue literary work. Readers of the period between the early eighties and the last decade have pleasant memories of their reading acquaintance with this gifted man.

It was intimated that Mr. Austen Chamberlain would probably be the choice of the Unionist party as successor to Mr. Bonar Law, and the choice is unanimous. There is much speculation as to whether he will at once resign the chancellorship of the exchequer, and whether he and Mr. Lloyd George will get on as well together as did the latter and Mr. Bonar Law.

Upper Silesia has voted to become a part of Germany, and not of Poland. The vote was overwhelming. The Allies will see to it that the wishes of the people are carried out.

THE BOY LIFE SURVEY.

Unless the men of the different organizations interested take themselves more seriously the proposed boy life survey will fall through. There have been many meetings since the Rotary Club invited half a dozen or more of other bodies of men to co-operate, and all are now in readiness except the raising of the necessary funds and the actual canvass of the wards. With regard to the first nothing has been done, and with regard to the second there has been no real response to the call for men. Every member of the Rotary Club, nearly one hundred of them, is pledged and ready, but the task is far too great for any one organization. It should be possible to get a thousand men to give part of a day to this work. There should be a rivalry between the wards to see which can do the work most promptly and completely. The work must be done soon, as the season when many of those who would like to help will be busy with other matters is at hand. The first step toward doing something of real value for the boys of St. John is to make this survey, listing every boy between the ages of seven and eighteen years and getting the essential facts about him and his education and occupation—if he is at work. All parents will be found willing to co-operate, for the survey is merely preliminary to such action as may be shown to be necessary for the benefit of all the boys of the city. Such surveys have been made in other cities, and have been followed by community action to better the conditions of boy life. Every parent, every clergyman, every man interested in the welfare of boys, should heartily support this movement. It is useless to ask what it is intended to do. That must be determined by the results of the survey. The information obtained will be invaluable.

Moncton Transcript:—"A Portland, Me., newspaper boasts that the Grand Trunk elevators in that port have been loading ships with wheat at the rate of a million or more bushels a week. That looks rather like an exaggeration, but evidently grain shipments through Portland have been large. The St. John Standard says the winter port of Canada is half idle, and laments that nothing is being done to develop Canadian trade through Canadian channels. But the government The Standard supports is putting up the money to enable the Grand Trunk to continue the work of building up the business of the port of Portland. Evidently we need an extension of the National Policy to cover other matters than providing high protection for the manufacturers."

The appeal of Mayor Schofield, for funds to keep the camp kitchen going, to supply nutritious food at cost to families in dire need, should meet with a generous response. There are idle persons in the city whose families really need the assistance thus given until the employment situation has improved and they are able to earn money to pay their way as usual.

Occasionally Cape Breton mines are closed because the miners decide to take a holiday. This time they are idle for a more serious reason.

WAVE OF CRIME IN BERLIN; SEVEN DEATHS IN ONE DAY

Berlin, March 21.—For a long period hardly a day has passed in Berlin without a suicide or some crime of violence. The record was reached the other day with five suicides and two murders. One of the murdered men was a visitor who became involved in a quarrel with one of the numerous beggars who haunt the streets. The beggar felicit his man and then beat him to death. Robberies are frequent.

GERMANY WANTS DAY OF MOURNING FOR WAR DEAD

Berlin, March 2.—(Associated Press by mail) Widespread agitation has begun for a national day of mourning for those who fell in the war. One of the proposals suggested to the Reichstag is that the day of mourning be held on the day the peace treaty was signed.

BABIES COME IN LOTS.

Rainford, L. I., March 21.—While Dr. Frank T. Caley was busy at the home of Mr. and Mrs. Christopher here, the event being the arrival of twin babies, a boy and a girl, the phone was busy calling him to the home of Mr. and Mrs. Joe Repora, where triplets had arrived. The three were girls weighing four pounds each. All five babies and mothers are doing well.

BANKING SYNDICATE FORMED.

London, March 21.—A plan to aid in the financial restoration of Europe by the formation of a large syndicate of banks and insurance companies is under consideration by government representatives, and leading bankers and insurance men. The proposal also has been taken up by several chambers of commerce.

WHAT'S IN A NAME?

New York, March 21.—On March 4 a ten-pound baby boy was born to Mrs. Florence Dougherty on board the United Fruit liner Santa Maria. He was named Harding Dougherty. The physician in attendance was Dr. Wilson. The nurse was Mrs. Cox.

LIVED TO 104.

Glasgow, Scotland, March 21.—Mrs. John Geddes has just died at the age of 104. Her husband died fifty-six years ago and she remained a widow. She always enjoyed good health. Out of a family of seven four are living.

REST.

(J. S. Payne.) "Silence sleeping on a waste of Sun down—westward trailth a red streak— One white sea-bird, poised with scarce a motion. Challenges the stillness with a shrike. Challenges the stillness, upward whirling. Where somer rocky peak containeth her rude nest; For the shadows o'er the waters they come stealing. And they whisper to the silence, 'There is Rest!'"

"Down where the broad Zambesi River Glides away into some shadowy lagoon, Lies the antelope, and hears the Shaken by the sultry breath of noon; Hears the sluggish water ripple in its folds. Feels the atmosphere, with fragrance all-appropt; Dreams his dreams, and the sweetest is the knowing That above him, and around him, there is Rest."

"Centuries have faded into shadow; Earth is fertile with the dust of many decay; Pilgrims all they were to some bright El Dorado; But they wearied, and they fainted, by the way. Some were sick with the surfeit of pleasure; Some were bowed beneath a care-cumber'd breast; But they all trod in turn Life's stately measure. And all pursued betimes to wonder, Is there Rest?"

"Look, O man! to the limitless Here; When thy Sense shall be lifted from its dust, When thy Anguish shall be melted into Light; When thy Love shall be serv'd from its lust, Then thy Spirit shall be sanctified with seeing. The Ultimate dim Thine of the Blue; And the Passion-haunted fever of thy being Shall be drifted in a Universe of Rest."

LIGHTER VEIN.

Modern Evidence. Professor — Yes, Miss Hambleton, about two thousand years ago there was an ocean where we are now standing. Young Lady—Yes, it does seem to me that the ground is still very damp.

Results Disappointing. Fitz Jones—Did you go to music hall last evening, Percy? De Brown—No; Trunk elevators in that port have been loading ships with wheat at the rate of a million or more bushels a week. That looks rather like an exaggeration, but evidently grain shipments through Portland have been large. The St. John Standard says the winter port of Canada is half idle, and laments that nothing is being done to develop Canadian trade through Canadian channels. But the government The Standard supports is putting up the money to enable the Grand Trunk to continue the work of building up the business of the port of Portland. Evidently we need an extension of the National Policy to cover other matters than providing high protection for the manufacturers."

Absolutely Cruel. "I have a terrible cold," he complained. "My head feels all stopped up." "Have you tried a vacuum cleaner?" she queried, sweetly.

WON FORTUNE; SOON LOST IT

French Barmaid Got Clear of Million Francs in Eighteen Days.

Paris, March 21.—The mystery of what becomes of the big prizes won at the half francs which fall to the holders of French national securities, has always been something French writers have loved to speculate upon. Every Frenchman or woman, who can scrape any money together, owns a government bond, and such millions sometimes fall to poor people.

Such was the case of Mlle. Hofer, a barmaid of Sedan who won a prize of 1,000,000 francs. She got the money on Aug. 7, and on Aug. 25 it was all done. Six days after she had received the money she had an automobile, a big house and six servants. She lent 12,000 francs to a physician, and he disappeared. A charming commandant of gendarmes borrowed 60,000, and she saw him no more. Another friend persuaded her to put 200,000 in a restaurant, and now the restaurant's doors are closed. Today she is "broke," again.

GUARD BOSPHORUS AGAINST ATTACKS BY SUBMARINES

Constantinople, March 21.—Batteries have been placed at both ends of the Bosphorus as defense against possible attacks by Bolshevik submarines.

TAKES GOTHLAND'S PLACE.

Montreal, March 21.—The White Star Dominion line announces that the Samland will take the place of the Gothland for the latter's scheduled sailing from Halifax on March 28 for Hamburg, Danzig and Lubeck. The Gothland's last departure from Danzig was delayed by the necessity for a careful examination of emigrants, and she will reach this side too late to keep her eastbound sailing date.

URGES A DAILY HIKE AS A CURE FOR UGLINESS

Houston, Tex., March 21.—Dan O'Leary, champion walker of the world, who is promoting walking in South Texas, knows how to make every woman beautiful. "I can make every woman beautiful," he said. "It's simple. Just walk a ten-mile hike each day will bring up the standard of beauty a hundred per cent., and that's going some in these days." O'Leary, at eighty, can walk 100 miles in twenty-two hours.

THE ORIGIN AND SPIRIT OF ROTARY

(Hamilton Spectator.)

Mighty oaks from little acorns grow. Sixteen years ago Paul P. Harris, a young man, had an office in Unity building, Chicago. It was a gloomy February day, and the heavy smoke and fog that enveloped a great city was sufficient to give even the most light-hearted the blues. While pacing up and down the hall of the great business block, he met another young office man with a fit of the blues came into existence. His profession, mission was to promote friendship between men and nations. The origin of the name came from the custom of rotating the meetings from office to office of the members. That was the beginning of a world-wide movement which is destined to play a wonderful part in bringing together the men of all nations through the simple medium of acquaintance. Its influence is given in a quiet but forceful way to promote patriotic education and business. To know anything about the inside workings of the Rotarians one must become a member. But that is the rub? It is hard climbing to get inside the sacred walls of its assembly rooms, for its membership is rather select, as only a few are admitted of the thousands who would deem it an honor to be enrolled as Rotarians. A great many who may regard the organization very highly, learn only from its activities, are not at all acquainted with the history of the organization as a world-wide movement, and they know nothing of the creed which appears to be just the kind to bind together a bunch of live wires such as the Rotarian club. All one outside knows of them is that they have occasional banquets, which bring together a jolly lot of fellows who seem anxious to learn from one another what can be done to make the world brighter and better for those who need the assistance of their more fortunate brethren. The Rotarian is taught the doctrine not to let his right hand know what his left is doing to make the world better. From that original group of four young men, one a lawyer, one a vining operator, the third a coal dealer, and the fourth a tailor, who met in Unity building sixteen years ago — February 28, 1905, there is today a membership of 85,000, and 400 clubs scattered in different parts of the world. The principles of the Rotarian creed are: "Man is friendly by nature; not self-sacrificing. He profits most who serves best."

The Rotary Platform. Recognizing the commercial basis of modern life as a necessary incident in human evolution, the Rotary club is organized to express that proper relation between private interests and the fusion of private interests which constitutes society. To accomplish this purpose most effectively, the principle of limited membership has been adopted, the Rotary club consisting of one representative from each distinct line of business or profession. Each member is benefited by contact with representative men engaged in different occupations and is enabled thereby to meet more intelligently the responsibilities of civic and business life. The basis of club membership insures the representation of all interests and the domination of none in the consideration of public questions relating to business. On account of its limited membership the Rotary club does not contribute itself the voice of the entire community on questions of general importance, but its action in such questions is of great influence in advancing the civic and business welfare of the community. The Rotary club demands fair dealings, honest methods, and high standards in business. No obligation, actual or implied, to influence business exists on Rotary. Election to membership therein is an expression of confidence of the club in the member elected, and of its good will toward him. As his business is an expression of himself, he is expected actively to represent it. Membership in the Rotary club is a privilege and an opportunity, but its responsibility demands honest and efficient service and thoughtfulfulness for one's fellows. Service is the basis of all business.

MORNING NEWS OVER THE WIRES

As a result of a big slump in the eastern coal industry twenty-five Cape Breton mines are closed and will remain idle until Tuesday. The Sydney and Louisburg railway has been tied up since Saturday.

One man was killed and one seriously injured in a tornado which swept several sections in Ontario on Saturday, and much damage to property was done. For stealing forty-six pounds of butter valued at \$29.30 from the warehouse of W. J. Kent, Bathurst, N. B., Albert Chaisson was sent to the penitentiary for five years by Judge McLatchy on Saturday.

The seven youths who were arrested on charges of entering cottages and destroying the countryside along the St. John river in the vicinity of Westfield and Long Reach appeared Saturday afternoon at Hampton before Judge Josiah in the Kings county court under the speedy trials act. All pleaded guilty to some of the charges, while Arthur J. Davis, one of the accused, pleaded guilty to all and wrote a confession implicating the others. The case was postponed until Wednesday for the purpose of securing additional witnesses.

Fire in St. Stephen on Saturday morning destroyed the garage of Willard B. Sampson and destroyed several new Ford cars and some that were in for repair. The insurance on the building was only \$1,000, and there was none on Mr. Sampson's cars. His loss is estimated at \$10,000.

At a meeting of the New Brunswick Lumbermen's Protective Association in Fredericton on Saturday officers were elected as follows: President, F. C. Beattie, St. John; vice-president, J. W. Brankley, Chatham; secretary, W. W. McClellan, Fredericton; members of the executive, Donald Fraser, Plaster Rock; F. C. Beattie, St. John; J. W. Brankley, Chatham; William Richards, Campbellton; W. SOME AGAINST THE REPARATIONS

Debate in Italian Chamber of Deputies—Foreign Minister Replies.

Rome, March 21.—The acts of the London reparations conference were severely criticized in a debate in the chamber of deputies on Saturday. Many deputies declared that the policy of the conference was not a policy of peace, but of provocation. The socialist deputies especially denounced the policy of France, which they declared was aimed at the permanent occupation of Germany. They further asserted that Germany, opposed to the dominion of Germany, must be equally opposed to that of France in political matters and to that of Britain in economic and financial questions.

The fifty per cent levy on German exports was denounced as injurious to Italy, which wanted the German trade in order to escape from the high British and United States exchange rates. Germany's offer to pay thirty billion gold marks in thirty years, Count Sforza told the chamber, did not amount to as much as Italy would have to pay the Allies in the next forty-two years on account of war loans. "Her counter proposals," he said, "were not worthy of consideration; she seemed to be negotiating a transaction favorable to herself instead of offering indemnity to the Allies. Although the Allies acted with great forbearance, Germany had shown a manifest lack of good will."

SEARCH FOR LOST  
CITY IN MEXICO

Said to Have Had At Least  
100,000 Inhabitants 4,000  
Years Ago.

San Juan de Teotihuacan, Mexico, March 21.—(Associated Press by mail)—Prospecting for the habitations of a lost race in virtually the same manner as miners dig for gold, federal employees here have just started to uncover the remains of a city of at least 100,000 inhabitants which flourished 4,000 or more years ago. Here and there over the confines of the buried city have been sunk shafts to find streets, houses and temples known to exist below the level of the mountain valley in which lies the little village of San Juan de Teotihuacan, the name of which means in the Aztec tongue, "City of the Gods."

The Mexican government has appropriated funds for this work of excavation which is in charge of Manuel Gamio, director of anthropology of the department of agriculture. The government hopes eventually to make the spot one of the show places of Mexico.

Dominating the area are the two pyramids, one to the Sun and the other to the Moon, which for centuries have defied the efforts of archeologists and historians to trace their origin. The pyramid to the Moon is still untouched, retaining an appearance to the lay eye of a huge mound of irregular shape, overgrown with grass and rubbish.

Senior Gamio says the city now under excavation at one time covered an area of fifteen square miles with a population of more than 100,000. Its builders are unknown to history but, Sr. Gamio believes they were a portion of an Indian tribe which wandered into Mexico from the north and, finding the valley fruitful and the climate salubrious, decided to settle.

The presence of volcanic rock as one of the top strata covering the ruins indicates that one of the nearby mountains erupted and inundated the city with lava.

Entry to the grounds is made facing the "Temple to the Goddess of the Winds," which was discovered less than a year ago, when erosion uncovered well defined walls and decorations typically Indian and Egyptian in their conception. This temple has now been dug out and constructed on the exterior. The interior is reached at present through a series of subterranean passages. Inside, the floor trends over massive stairs with the decoration.

He thought it would be hard to raise the funds to build the spur railway unless the government would guarantee bonds, but that if bonds were guaranteed there would be many companies willing to undertake the work.

GUN FIGHT FROM HOUSES WITH BANDITS

Robber Gang Routed as They Loot Business Places on Sunday Morning.

Wilton, Iowa, March 21—Scores of citizens firing from house tops and windows here on Sunday, routed a bandit gang of four men caught looting business places. One of the four is believed to have been seriously wounded. All escaped.

Before entering the town the bandits engaged Marshal George Bennett and Constable George Kelley in a pistol battle, capturing the former and wounding the latter in the leg. Bennett was bound and gagged and left by the roadside. He later freed himself and raised an alarm.

MISSION CLOSED

One of Most Successful Ever Held in Cathedral—Communications Numbered 21,600.

Yesterday afternoon, at the close of the mission which was conducted during the last three weeks in the Cathedral of the Immaculate Conception, His Lordship Bishop LeBlanc, addressing the men of the parish, said that it was one of the most successful missions that had ever been given in the city. During the three weeks, 21,600 communications had been given and the church had been filled to capacity at both morning and evening services every day.

The closing exercises consisted of a sermon by Rev. F. F. Feeley, O. P., who preached on perseverance. He told the men that he and the other Dominican Fathers who were here with him would carry in their minds the memory of the large numbers who attended the mission here and the picture of the church full of men who received Holy Communion at the seven o'clock mass on Sunday morning would be held up as an example to other congregations to whom they would give missions in the future. Father Feeley then imparted the papal benediction.

The services were brought to a close with Benediction of the Most Blessed Sacrament at which His Lordship Bishop LeBlanc officiated, assisted by Rev. W. M. Duke, rector of the Cathedral, a deacon, and Rev. C. F. Carleton, of Silver Falls, as sub-deacon.

Rev. Fathers Feeley and Shiel left last night for New York via Montreal, where they will enjoy a brief rest before commencing another mission. They carried with them the best wishes of the large congregations to which they have administered during their three weeks' stay in the city.

YESTERDAY IN THE CHURCHES

In the Central Baptist church yesterday the pastor, Rev. F. H. Bone, preached on the subject of holiness. He said it was a "request" sermon, as supplementary to his discourse of two weeks ago.

At the close of the service in the Ludlow street Baptist church yesterday, a marble tablet commemorating Rev. W. R. Robinson, and Deacons I. E. Smith, L. L. Sharp, C. F. Belyea and J. T. Gray, was unveiled by Florence and Audrey Belyea, granddaughters of Deacon Belyea. Deacon Ring accepted the tablet on behalf of the board of trustees. The tablet was the gift of the relief society and the pastor, Rev. Isaac Brindley, spoke briefly before the unveiling. Mrs. E. E. Brown was the organist and R. H. Parsons choir leader.

Mrs. Brown and Rev. Mr. Brindley sang a duet. At a special Sunday school service in Ludlow street church yesterday, Deacon John C. Ring addressed the scholars.

In the Mission church yesterday morning, Palm Sunday was observed and palm branches were carried by the choir at the celebration of the Holy Eucharist and at evensong. The priest in charge, Rev. J. V. Young, announced that Rev. Father Palmer, S. J., P., a member of the order of Cowley Fathers of Boston, will arrive in the city this week to conduct the service of three hours.

Captain Tom Best of the Y. M. C. A. spoke in the Y. M. C. A. yesterday morning in the G. W. Y. A. hall yesterday afternoon, and in the Portland street Methodist church in the evening. He took for his subject last night "Lest We Forget."

Crulshank and Bayard Currie were the accompanists. Some very much enjoyed specialties were given, as well as the choruses of hymns. "The Near Us O Father" was sung as a quartette selection by Miss Fernie Climo, Miss B. Thompson, E. C. Girvan and Aubrey McKee. Mr. Girvan sang "Beyond the Dawn" as a solo.

Lachute, March 20—Magistrate Calder on Saturday heard the case of Sarah Wilson charged with shooting her husband, Isaac Edward Fletcher on March 15. Fletcher in an ante-mortem statement said that he was the aggressor and that the shooting was his own fault.

The defence stated that application would be made to the attorney general to have the case transferred to Montreal so that a special of the court of King's Bench take place in Ste. Scholastique, so that the accused woman would not have long to wait for her trial.

THEIR FIRST SIGHT OF AN AIRPLANE

Population of Little Nicaraguan Village Take to the Woods.

San Juan Del Sur, Nicaragua, March 6.—(Associated Press by mail)—There are even yet in remote parts of the world people who never even heard of an airplane.

They thought the NC-6 was a huge albatross, which had come in for some unfortunate mariner who had offended it and they hid in the woods for several hours.

Near the little cove where the NC-6 came down are two ranches. After the Associated Press correspondent had found the missing NC-6 he visited one of these ranches and asked the women if they had seen the plane arrive.

QUIETER TIMES NOW IN MEXICO

First Three Months of Obregon's Rule Pleasantly Disappointing.

Mexico City, March 8.—(Associated Press by Mail)—Mexicans or others who expected President Obregon to use a ruthless hand in ruling the nation have been disappointed in that respect in his record for the first three months of his administration.

Nevertheless, at the end of three months, he is not menaced with any apparent revolutionary element which seriously threatens his control. Disturbing factors in several of the Mexican states have been pacified and even Francisco Villa, from such home at Canutillo, is sending postcards to government officials which are described as being "intensely humorous and indicating loyalty to the present regime."

Some of President Obregon's efforts to solve the economic and industrial problems, with which his administration is faced, have suffered defeat. His banking scheme was rejected by the Chamber of Deputies. His critics complain that he has failed to outline a definite policy in regard to the operation of the oil fields, one of the disturbing factors in Mexican affairs.

Obregon's agrarian law has been so bitterly opposed by the Catholic church, the dominant religious sect in the republic, that the Archbishop of Mexico has called upon his parishioners to resist it to the utmost. Industrial Conditions. The problem of assisting the millions of peons is one of the chief industrial questions. These poor people must first be given work to enable them to live and then must be educated.

Although confronted by these tasks, President Obregon has been compelled to absent himself from the national capital at times, either on account of illness or to rest. When he has been able, he has spent sixteen hours a day at the Palace. He arrives there without escort or guard, passing through the streets with far less ostentation than hundreds of foreigners who are here to join in the general clamor for concessions.

At night, he romps with his boys or plays billiard despite his loss of one arm. He meets on an average of 100 persons daily at the palace, and in the newspapers several days ago apologized for being unable to meet more. Unlike his predecessor, Carranza, who was never known to give a direct answer, Obregon replies to all questions, but keeps to himself his plans for the future.

ETHER BRINGS BACK HIS POWER OF SPEECH

Boston, March 21.—Administration of ether to Ernest Young, former British aviator, under detention here pending an investigation as to his citizenship, brought back his lost power of speech. After being hot down behind the German lines, Young became speechless. He subsequently recovered the use of his tongue while in a prison camp. He tumbled from his bed here recently and physicians found that again he could not talk. Dr. Albert Murphy, attached to the medical staff at a Long Island institution, conceived the idea of ether treatment after he had learned some of Young's history. Young began to talk as soon as he came out of the ether.

"I'm certainly glad Tanlac came my way, for it has proved to be the very medicine I needed," said Hector Ledoux, of 203A St. Martin St., Montreal.

"Before I got Tanlac I never knew what it was to eat a good meal without having dreadful pains in the pit of my stomach afterwards. My heart palpitated and skipped beats, my liver was badly out of order, and I was worried, whole lot with constipation. I generally woke up every morning with a general headache, and was so dizzy I could hardly get up without falling. ABLE TO DO HER WORK. After Long Suffering Mrs. Pease Restored to Health by Lydia E. Pinkham's Vegetable Compound. Toronto, Ont.—"I suffered with irregular menstruation, was weak and run down, could not eat and had headaches. The worst symptoms were dragging down, so bad I sometimes thought I would go crazy and I seemed to be smothering. I was in this condition for two or three September years and could not seem to work. I tried all kinds of medicines and had been treated by physicians but received no benefit. I found one of your booklets and felt inclined to try Lydia E. Pinkham's Vegetable Compound. I received the best results from it and now I keep house and go out to work and am like a new woman. I have recommended your Vegetable Compound to my friends and if these facts will help some poor woman use them at you please."—Mrs. J. F. Pease, 287 King St., Toronto, Ontario.

**MELITA IN; WAS ROUGH AT TIMES**

Liner at Sand Point Has Fine Dominion.

With the rolling on her bow store in the large C. P. S. liner Melita, 14,000 tons, emerged out of a bank of fog this morning and docked at Nos. 2 and 3 berths, Sand Point. During her passage from Liverpool the steamer encountered very stormy weather and was forced to face mountainous seas which broke with terrific force over her bow. She sailed from Liverpool on March 11 with 1,438 passengers, comprising 446 cabin and 992 third class; 600 tons of general cargo and 508 bags of mail and 159 packages of parcel post.

She had been at sea only one day when she ran into a storm, which raked for a number of days. Owing to the small amount of cargo the large combers tossed her about considerably, but being a good sea boat besides the elements and arrived safely off the island early this morning. She docked at 8.30 o'clock, but as the doctor had not examined the passengers there was a delay of over two hours in the disembarkation, the passengers not coming ashore until after eleven o'clock. From that until nearly one o'clock there was a steady stream of humanity coming down the gang plank and sending their way to the immigration shed where they were to be examined by the officials, have their baggage checked and ticketed through to their destinations.

They were an exceptionally fine looking lot, the majority being young men and women, all British subjects. Many were married and had a number of little children with them. While the parents were arranging for their baggage transfers, etc., the little ones were cared for in the children's ward. Some of the young women came out to meet their prospective husbands, whom they met in England when they were attached to Canadian units, while others are to join their husbands who came to Canada following the termination of hostilities and are now located at various parts of the Dominion.

According to passengers interviewed by a representative of The Times, nothing of a sensational nature happened on the voyage to Canada.

Among the cabin passengers were Sir Charles and Lady Tupper, of Winnipeg; A. McQuarrie of Sydney, N. S.; Rt. Rev. Bishop and Mrs. Lea, who are en route to Nagasaki, Japan; and Lieut. Colonel J. Handley, of Sudbury, Ontario.

The passengers will be taken to their destinations in three special trains, which are scheduled to leave Sand Point at 4 o'clock, 5.30 o'clock and 6.30 o'clock. The first two will take cabin passengers to Montreal, Toronto and points west, and the third will convey the third class passengers to Montreal, Toronto and the west. In addition three or four cars will be attached to the regular Montreal train to handle third class passengers.

Mr. Property Owner

Water, one of Nature's greatest benefactors, is likewise one of Nature's greatest destructive forces. To be healthy, drink lots of water, but to keep the woodwork in your house sound keep water away from it. To prevent the water from decaying the wooden portions of your building and so reducing the value of your property, equip it with galvanized iron gutters and conductors to carry the water away. Spring is here; we are likely to have lots of rain; be prepared; have those gutters and conductors put on NOW.

We shall be glad to submit quotations.
