Other Fatalities in Quebec
Metropolis.

Montreal, Sept. 13.—George Hurst, thirty-eight, of 114 St. Margaret street, and Louis Patene, a janitor, of 230 McGill street, thirty-five years old, are dead and Armand Lachesque, ten years old, has both legs broken and is in a critical condition as the result of the collision of an auto with a street car in Notre Dame street west last night.

The collision occurred after the driver of the machine had taken a narrow curve too sharply and failed to make the right side of the street, crashing into the street car as he tried to drive ahead of it.

Hurst died instantly, and Patene died a few hours after admission to the western hospital.

Alexander McDonald, forty-five, of Lancaster, Ont., was found crushed to death on Saturday on the Grand Trunk railway tracks near Riviere Beaudette by the crew of an outbound freight train.

Henry Saad, twenty-one years old, of 17 St. Elizabeth street, suffered a fractured skull and died in the Montreal General Hospital. He fell from the third story balcony of his home on Saturday afternoon.

E. Hill, 35, of 266 Molson avenue, was killed instantly on Saturday when struck on the head by a chain block while he was at work at the plant of the Union Engine and Machine Co. in this city.

BUSY MONDAY AGAIN IN THE POLICE COURT

This morning in the police court a case against Peter Wood and Peter Yapp, charged with stealing a lady's coat, a suit of clothes and a pair of blankets, the property of Mustafa Abraham, 60 Elm street, was resumed. Detective Donahue gave evidence.

Wood said that he sold the coat in Gilbert's second hand store and received \$4 for it. He said he got it from Yapp.

With reference to the trunks he said he never seen them before they were produced in court. He said that Yapp told him he found the coat on the floor in his house. After a short argument on behalf of Wood by his counsel, W. M. Ryan, both the accused were sent up for trial. Application will be heard this afternoon with reference to bail. W. M. Ryan and K. J. Macitae appeared for the accused.

Victor McLaughlin was charged with vagrancy and being a habitual loafer. He pleaded not guilty. Policeman Gibbs gave evidence. The magistrate ordered McLaughlin's brother to be brought into court and he told the accused that if he found them guilty he would send them to Dorchester Penitentiary for seven years. He was remanded.

A case against George H. Brooks, charged with non-support, was resumed and again postponed. The magistrate says he intends every woman who is keeping company with other women's husbands to be driven out of the city.

A case against Zill Cowan, charged with assaulting his wife, was resumed, and the accused was told he would have to get two sureties to bind him over to keep the peace. This was arranged.

Daniel Mullin, K. C., appeared for the prosecution and E. S. Ritchie for the defence.

Twelve men charged with drunkenness pleaded guilty and were remanded for sentence.

A case in which Louis Hurwitz and a man named Hoffman were charged with a violation of the provincial prohibition act, which has been pending before the court for some time, was resumed this morning but was again postponed. The accused are out on deposit.

W. M. Ryan conducted the prosecution and E. S. Ritchie and U. J. Sweeney appeared for the defence.

Commodore Ross Announces Hopes in Connection with America's Trophy.

Toronto, Sept. 13.—Commodore A. C. Ross of the Cape Breton "Yach" club, who is here after visiting New York, says that public opinion across the line is all opposed to freak yachts which can sail only in certain kinds of weather.

"There is a longing for a real sailorman's race. Commodore Ross says he proposes to try for the America's Cup with a seagoing schooner such as used in the Nova Scotia fisheries, and she will be manned by men whose every day at sea "witnesses not a race for sport but a race for their livelihood."

BETTER PAY FOR THE N. S. MINERS

Announcement of Recommendations of Royal Commission

Seventy-five Per Cent. Granted—Believed It Will Settle Minto Trouble—Housing and Other Matters.

Halifax, N. S., Sept. 13.—The Herald today carries the following despatch from its Sydney correspondent:

"Generous wage increases for the miners of Nova Scotia have been recommended by the royal commission which recently concluded its labor hearings at Sydney, so the Herald learns today from a usually well informed source.

"Not only has the commission recommended nearly all that the U. M. W. asked in the way of higher pay, but many grievances of long standing as to living and working conditions will be eliminated if the report of the commission is accepted and acted upon by the government and the coal companies.

"The report will be in the hands of the minister of labor at Ottawa when he reaches his desk on Monday. It is confidently predicted that the terms of the award, if they will have little reason to complain of the amount awarded them, better housing.

"Housing conditions in mining districts are touched upon at length by the report, and the way which miners at certain points have been compelled to improve, to say the least. The companies will be asked to co-operate in replacing the fifty year old shacks at some points with houses of more modern design.

"The question of pushing boxes in the mines does not take up much of the report, because this grievance was largely eliminated wherever possible by the coal company, while the commissioners were in session in Sydney.

"The industrial situation in the maritime coal fields was gone into at length, and the commissioners recommend the abolition or improvement of many sources of grievances of long standing, notably the obsolete water cart system at Reserve, where hundreds of miners and their families still have to depend for their drinking water upon horse-drawn from house to house on a motor truck.

Minto.

"The Minto, N. B., situation is the subject of a considerable portion of the report, and it is believed that the increased wages recommended will have (Continued on Page 2, Second Col.)

As Hiram Sees It

"Hiram" said the Times reporter to Mr. Hiram Hornbeam, "I am troubled. I have been trying to do a good deed, but I am a poor man with strong criminal tendencies, into my system of theology, and it is far from being the simple process. I would like it to be, it is easy enough to say that he is a product of somebody's sin, but there he is. He is himself—a human soul, cannot be changed in this world—at least he never is to any observable extent. He is a mistake here—what about hereafter?"

"Mister" said Hiram, "I'm gonto ask you a question. Do you think it's good for fellers like that in the world?"

"I certainly do not," said the reporter. "It is neither good for them nor for the rest of us."

"Well, then," said Hiram, "instid o' speculatin' about where they're gonto go, s'pose you try an' figger out how we kin stop 'em from doin' it here, an' git the kind o' marriage an' other laws that'll stop the supply. When you got some spare time to set down an' take notice, what the Lord'll do for 'em—but what we're doin' ourselves—yes, sir."

BAPTISTS TAKE SURVEY OF CHURCH

A campaign called survey week was begun throughout the maritime provinces today, a general survey of the Baptist congregations as to general conditions with reference to the church, where the campaign was ordered by the forward movement committee so that they might be able to tell as accurately as possible the standing of the church in the various districts and in that way know where work was most needed. The campaign is to discover how many members are active in the church; how many children in the Sunday schools; what communities are not being reached; where there is the best opportunity for work, and many other matters.

This campaign is carried on in each parish by providing each family with questionnaires which are answered and handed in to the pastor, who will make a summary and forward it to the central committee of the forward movement.

CANDIDATES FOR HOUSE OF COMMONS

Peterboro, Ont., Sept. 13.—(Canadian Press)—James Corbett Campbell, of South Monaghan, was nominated by the U. F. O. at a convention here on Saturday as the Farmers candidate to contest West Peterboro in the by-election for the House of Commons. J. F. Collins of Ennismore, who was defeated in the final ballot for the U. F. O. candidature by ninety-four votes to thirty-six, declared his intention of remaining in the field as an independent Labor minority U. F. O. candidate.

The vacancy in West Peterboro was created by the resignation of John H. Burnham, Unionist M. P., who was dissatisfied with the government in Ottawa and avowed his intention of contesting the riding as an Independent Conservative candidate.

VOTING IN MAINE TODAY

Portland, Me., Sept. 13.—Maine men and women went to the polls today for the election of state and county officers, a legislature and congressmen. The Republicans claimed victory by a 30,000 plurality, while the Democrats indulged in no figures. The issues have been national with chief emphasis placed on the League of Nations. For the first time women voted in this state. Both parties claimed the support of this new element.

For governor, Frederick H. Parkhurst of Bangor, Republican, is opposed by Bertrand G. McIntyre of Norway, Democrat. All four congressmen in this state are for re-election. Congressman Louis B. Goodall is retiring in the first district, and Carroll L. Bedy, county attorney, is running for the Republicans against Frank H. Haskell, Democrat.

JOINT SERVICE TO THE FAR EAST

London, Sept. 13.—(By Canadian Association Press)—The Times gives details of an agreement between Holt and Company of the Blue Funnel Line and the Canadian Government merchant marine for a joint steamship service between Vancouver and the Far East, each providing an equal number of vessels.

The Times regards the scheme as a remarkable one between the government and private interests and further suggests that the Hols, who have a large business with the United States Pacific ports, may be influenced to develop trade with British Columbia by discriminatory measures in the United States against foreign shipping.

Decision as to the Geneva Conference

French and Italian Premiers
in Conference at Aix-les-Bains—Accord of Italy, Britain and France Essential for World Peace.

Aix Les Bains, Sept. 13.—The French and Italian premiers, Alexandre Millerand and Giovanni Giolitti, held their long awaited conference here yesterday. They discussed international questions for several hours.

The most important decision reached is reported to have been the postponement or definite abandonment of the Geneva conference. After the first session the French premier said to the correspondents:

"Our intervals have been most cordial and confident. Naturally we have agreed that an accord between Italy, Great Britain and France is indispensable not only in the interest of the three allied powers but for the maintenance of world peace."

"The treaty of Versailles must be enforced, as well as that of St. Germain and the others because they constitute an entity, and one of them cannot fall without the others being shaken. I am absolutely in accord with that point upon the formula accepted at Locarno. Treaties must be applied with moderation by the victors and with loyalty by the vanquished."

"We also discussed the question of Soviets. Evidently each government consults its internal policy before adopting a precise attitude. You know what the French policy is. The policy of our allies does not appear to be different in principle from ours."

"Settlement of the Adriatic question occupied some of our time. Our position is unequivocal, Great Britain and France, at San Remo, and myself, before and after San Remo, have stated that neither Great Britain nor France has the right to interfere between two parties when a question concerns them alone."

MUST PRESENT IT FORMALLY

Premier's Reply to Wire Request for Delay in Operation of New Freight Rates.

Winnipeg, Sept. 13.—Replying to a wire sent by J. B. Coyne, counsel for the Winnipeg Board of Trade, asking the federal government to delay operation of the freight rates until an appeal could be heard, Premier Meighen declares in a telegram received that the appeal must be sent in as a formal printed petition. Mr. Coyne replied that the railway commission act was over-ridden by this statement. He says the act disallows that time for an appeal must be allowed between the issuing of the order and its operation.

"The order will go into effect five days after being issued, and no time for proper consideration or action can be given by the public or the country in such a brief period," Mr. Coyne said.

The loss among small dealers is less than that sustained by the large enterprise. The small dealers have greater breakage than the large distributors, but they are better able to check up on the return of their bottles and therefore do not lose so many in that manner. Breaking bottles, losing or using them for other purposes, selling to junk dealers, or giving the bottles belonging to one dealer to another adds materially to the consumer's bill and is an economic error which each and every consumer can help to replace by returning every bottle in good condition.

THE EXHIBITION
The attendance at the exhibition Saturday was 6,230, bringing the total up to 77,350 for the week. This was considered satisfactory by the management as weather conditions were unfavorable three out of the seven days. During the closing day several of wounded soldiers from the Lancaster Hospital visited the fair as guests of Manager Charles Robinson. It was expected that there would be the usual free vaudeville acts in front of the grand stand Saturday evening, however, the members of the four acts packed up Saturday afternoon and left on the evening train for Ottawa. Many were also present for the sole purpose of enjoying fireworks display and they were also disappointed. Yesterday a crew of men were engaged cleaning the grounds. At 6 o'clock last evening all the live stock had been shipped and were homeward bound. This morning the poultry exhibits were shipped and dismantling of the commercial booths commenced. It is understood that stock men are already making preparations for the next fair, which will open September 8, 1921.

THE DREAD PYORRHEA BEGINS WITH BLEEDING GUMS

Pyorrhoea-infecting germs cause many ills. Medical science has proven this. Dismissed conditions, which not long ago doctors were unable to trace to a cause, are now known often to be the result of Pyorrhoea germs that breed in the pockets about the teeth. Rheumatism, anaemia, nervous disorders and other diseases have been traced in many cases to this Pyorrhoea infection.
Don't let Pyorrhoea work its wicked will on your body. Visit your dentist frequently for tooth and gum inspection. And watch your gums yourself. Pyorrhoea, which afflicts four out of five people over forty, begins with tender and bleeding gums; then the gums recede, the teeth decay, loosen and fall out, or must be extracted to rid the system of poisons generated at their base.
Forhan's For the Gums will prevent Pyorrhoea—or check its progress, if used in time and used consistently. Ordinary dentifrices cannot do this. Forhan's keeps the gums hard and healthy—the teeth white and clean. Start using it today. If gum-shrinkage has set in, use Forhan's according to directions and consult a dentist immediately for special treatment.

Why Pearls are Popular

Pearls are today the favorite neck ornament of womanhood. Just why they are so popular is little understood. Here is an expert's opinion:

"Pearls—because of their peculiar sheen—are complimentary to every complexion. Blondes and Brunettes alike can wear them with equally good results. The roundness of the pearl and the soft drupe of the string add to their charm. Any colors may be worn with them."

"We have made a close study of the pearl situation and have been successful in acquiring a stock of the best grades hard to duplicate as they are extremely scarce."

SISTERS KILLED BY "CRAZY MIKE"

Garbed in Stolen Uniform of British Officer, He Shoots Two of Automobile Party.

(Canadian Press)

New York, Sept. 13.—Miss Sadie and Miss Susie Feltzer, sisters, who were killed yesterday afternoon as the result of bullet wounds inflicted by Mike Mazarish, an ex-soldier, known in the neighborhood of Steelton, N. J., where the shooting occurred early yesterday morning as "Crazy Mike."

Seven members comprised an automobile party which was proceeding through a lonely stretch of road when the assailant, wearing a British army officer's uniform and with an Enfield rifle slung over his shoulder, stood in front of the car, leveled the gun at the group.

"You've got something in that car that's mine," said the intruder. The driver protested good-naturedly. A short controversy followed, Mazarish firing at the group and mortally wounding the two sisters. He was captured later by a posse of soldiers.

Mazarish had stolen the rifle and the uniform on Saturday night from the home of Captain Alexander Monroe of Steelton, late of the Canadian Expeditionary force. Captain Monroe reported the robbery and identified the rifle. Mazarish had been known as an eccentric.

GIRLS' ARMS CUT OFF BY SPEEDING AUTO

Driver Trying to Avoid Crash Says He Did Not See Child at Play.

Swerving to avoid colliding with an automobile running at a swift pace through Forty-seventh street, near Ninth avenue, a motor truck, says the New York Times severed the arms of a 7-year-old girl who, playing with other children, was lying prostrate on the sidewalk with arms extended over the curb. At the Roosevelt Hospital, where surgeons said her condition was critical, she was identified as Rose Cattail of 530 West Fifth street.

Although the driver said that he did not see the child on the curb, because he was intent upon avoiding a crash with the heavy touring car, he was held by the police of the West Forty-seventh street station on a charge of felonious assault. He described himself as Francis Hunt of 270 West Twenty-Ninth street.

The right arm of the child was crushed off three inches from the wrist and the other was severed just below the elbow.

Another six-year-old child was run down and so badly injured in a traffic accident in Elizabeth street that he may die. He was Martin Guardino of 122 Elizabeth street. Surgeons from St. Vincent's Hospital attended him.

New Brunswick and Companion Under Arrest in Montreal — Two Women Said to Be Victims of Thieves.

(Canadian Press Despatch.)
Montreal, Sept. 12.—Speedy and effective work on the part of the city detective force and the Canadian Pacific Company's special police force resulted in Sam Gale and Herbert Nice, the first of Montreal, and the other late of New Brunswick, appearing before Judge Lanctot on Saturday charged with theft from two lady passengers of the Canadian Pacific Railway en route from Newfoundland to Seattle. Voluntary statement was fixed for Sept. 17 and in the meantime accused are out on bail, which was placed at \$2,000 each to be secured on real estate.

The women who were robbed were Mrs. D. H. Slater, of St. John's (Nfld.), and Mrs. Elizabeth Brotherton, of Seattle. They registered at the Windsor on Thursday and left their suitcases containing clothes, checks for trunks, railway tickets to Seattle and some cash in the rotunda of the hotel. The two suitcases disappeared. The checks were used to get the trunks, the tickets were turned into the C. P. R. for refund and \$215 cash was obtained.

All the stolen property was recovered and brought into court on Saturday morning.

The dance at the Renforth clubhouse on Saturday night was one of the most successful of the season. A special orchestra from the city provided an excellent programme of dances and there was one of the largest gatherings of the season in attendance to enjoy every minute of the programme. Not until midnight did the pleasures come to an end and the guests leave for their homes. The dances have been one of the very delightful events of each week at Renforth.

THE METAGAMA BELIEVED TO BE ON A SAND BANK

(Canadian Press Despatch.)
Montreal, Sept. 12.—Coming up the river from Quebec, which port it left on Saturday afternoon about 5 o'clock, the Metagama, of the Canadian Pacific Ocean Services, inward bound from Liverpool, came to a halt in the early hours of this morning and, it is understood, although there is no official confirmation of the fact tonight from the company's officials, that the vessel is embedded in a sand or mud bank some twenty-five miles from Montreal. The ship struck about 8 a. m. and though there was no damage nor hurt to anyone, it was too deeply embedded apparently to get off.

The steamship Three Rivers, of the Canada Steamship Lines, Limited, has been sent to the spot, which is near the Bonchard, to take off passengers. The Metagama carried 592 cabin and 1,172 third class passengers, all of whom and a few of the former were disembarked at Quebec, so that there are only about 500 passengers to come on here.

It is said there was a fog prevailing at the time of the accident. All today tugs were trying to get her off but up to a late hour without success.

POLES EXTEND THEIR LINES

Warsaw, Sept. 12.—The Poles have extended their lines southeast of Brest-Litovsk along the Kovel railroad and have occupied Wolkowyska, Malarypa and Michniki after some fighting. The Bolsheviks in attacking the Poles in this sector used nine armored cars, which were captured, according to today's official communication. Eighty drunken Reds also were captured during the action. Southeast of Lemberg Polish cavalry, co-operating with the Ukrainians, advanced and occupied Bukaczowce and Nastassyn. The communication does not mention the Lithuanian sector.

From Other Fronts.
London, Sept. 12.—An official Russian report received in Berlin, speaks of the occupation of newly fortified positions on the Bug river and the almost total destruction of the forces of General Wrangel, the anti-Bolshevik leader, says a wireless despatch from Berlin.

The despatch adds that the Poles have retreated near Brest-Litovsk before a new Russian offensive.

NO ENTHUSIASM FOR FEDERATION

(Canadian Press Despatch.)
Montreal, Sept. 12.—"I did not find any evidence of any enthusiasm for federation with Canada during my recent visit to Newfoundland. In fact, I found a good deal of resentment expressed in some quarters at the way in which people were inclined to regard Newfoundland as a sort of suburb of Canada," said Captain Evan J. Edwards, H. M. Senior Trade Commissioner in Canada and Newfoundland, on his return from a ten-day official visit to Newfoundland. He added that despite the activity of the United States in the island, a very large proportion of the Newfoundland trade was going to Great Britain.

Thrown out of a delivery team at the corner of Queen and Sydney streets, when the horse ran away, James Lockhart of British street, was cut about the head and face and rendered unconscious on Saturday afternoon. He was taken to the General Public Hospital by automobile, where he recovered in a few hours and was able to return to his home.

NEGROES PLEDGE SUPPORT TO THE CANDIDATE

(Canadian Press Despatch.)
Marion, O., Sept. 12.—Five delegations of negro Republicans representing various organizations of the race in North and South America, gathered at Senator Harding's front porch Friday and pledged him their support in several hours of characteristic demonstration.

Convention of negro Baptists in session at Columbus and Indianapolis sent the largest delegations and a camp meeting spirit ruled the day's celebration.

The first group came up singing "Harding Will Shine Tonight," in parody of a revival hymn and "Amen" and "Hallelujahs" floated heavenward with "Oh Boy" and "You Tell 'Em" as the succession of orators poured out their professions of loyalty to the party of Lincoln and Grant.

Polished Surfaces Reflect Good Housekeeping

WOULD you have your Dining Room so clean, sparkling and inviting as to add to the enjoyment of every meal? This result may be obtained by the use of O-Cedar Polish.

Give it a trial and learn how wonderfully it lightens housework. A wet cloth, a few drops of O-Cedar on it—a light rubbing to remove all dust—then a brisk polishing with a dry cloth; and you have a surface that gleams brightly, with the grain-beauty of the wood revealed in all its original charm.

The goodness of this Polish is "reflected" in the beautifully polished furniture of our best homes. The quality of the O-Cedar Polish Mop is "reflected" in the clean and brilliant wood-work, floors, stairs and shining linoleums of the most particular Canadian women.

O-Cedar Polish 25c. to \$3.00 sizes. O-Cedar Polish Mop without handle \$1.50—the handle, 54 inches long, is 25c. extra. Both Polish and Mop at your Hardware or Grocery Shop.

M'SWINEY IN
STATE OF COLLAPSE

Hunger Strikers in Cork Jail Also Very Weak Today.

London, Sept. 13.—Terence MacSwiney, lord mayor of Cork, was in a state of collapse this morning at Brixton prison, where he is continuing his hunger strike. This is the 32nd day of his fast. He passed a bad restless night, according to a bulletin issued early today by the Irish Self-Determination League.

Not Taking Food.
London, Sept. 13.—Rumors that Irish hunger strikers in jail in Cork are being fed surreptitiously are denied in a Dublin despatch to the Daily Mail, which declares the only nourishment they are receiving is from oil with which they are rubbed to alleviate the pain they suffer due to wasting issues. While the deaths of the more delicate hunger strikers may be expected at any time, the despatch says they may not succumb for several days.

Near to Death.
Cork, Sept. 13.—(By the Associated Press)—The eleven hunger strikers in the Cork jail were still alive today, but all of them were materially weaker. Two of the striking prisoners, Michael Bugler and Kenney collapsed twice during the night, and their condition is causing special anxiety.

I have gained weight, have a clear, skin, no more headaches, I eat well, sleep well and enjoy my meals.

"DOWN TOWN"

(A. J. Gardiner in New Republic.) Down town New York! It is America thrusting out the spearhead of its astonishing life to the Atlantic. On the tip of its tongue of rock that lies between the Hudson River and the East River is massed the greatest group of buildings in the world. Behind the mountain range, all over the tongue of rock for a dozen miles and more, stretching into the maze of streets, rambling about in the easy-going fashion of the London street, which generally seems a little uncertain of its direction, but running straight as an arrow north and south or east and west, crosswise between the Hudson and the East River, longwise to the Harlem River, which joins the two streams and so forms this amazing island of Manhattan. And in this maze of streets, through which the noble Fifth Avenue marches like a central theme, there are many lofty buildings that shut out the sunshine from the causeway and leave it to the upper stories of the great towers and the towers of the many churches and the gables of the houses of the merchant princes, giving on a sunny afternoon, a certain cloistral feeling to the streets as you move in the shadows with the sense of the golden light filling the air above.

Of this 750,000 acres is in one tract to the north and adjoining the present holdings. The newly acquired property shows heavy seepages of oil at various points. Delivery Costs Range

From 5-12 to 30 Cents.

How much does it cost for a department store to carry home a package for a customer? The National Retail Dry Goods Association, which is answering the question, has compiled the results of a questionnaire on the subject and found that it may cost a store an average of anywhere from 5.5 cents to 30 cents. Thirty-three stores, members of the association were asked how much it cost them. These stores, each of which does a business of more than \$1,000,000 annually, gathered their statistics and sent in the results to the bureau of research and information of the association. The results, as tabulated by the bureau in a chart it has prepared, indicates that for fifteen of the thirty-five stores the cost of delivery per package is 12-15 cents. For eight of them the cost is 15-18 cents. It cost four stores less than 10 cents to deliver a package, two it cost 10-12 cents, two 18-25 cents and two more than 25 cents.

Sells One Customer \$100 Worth of Shoes.

The sale of \$100 worth of footwear to one customer at a single sitting is some selling event, even in these times when prices of shoes are sky high. Some travelling salesmen would be glad to leave a store with this amount of wholesale business booked with the proprietor, but the sale in question was at retail, and as far as is known established a record, at least in the Far West.

Accordably, he got in touch with the salesman, with the result that arrangements were made to offer a similar show in his place of business.

THROUGH ATTEND FUNERAL IN CORK

Burial of Seumas Quirke, Killed There

Cork, Sept. 13.—The funeral of Seumas Quirke, a young volunteer, killed in Thursday's disturbance, brought out virtually every able-bodied man and woman in Cork yesterday. There were large numbers of children also, but there was an entire absence of disorder. The military, as on the occasion of the funeral of the slain Lord Mayor Mac Curtain here in last April, remained in barracks.

Not a single soldier was seen in the streets throughout the day and the only bit of khaki visible was that of a dozen men on guard duty on the parapet of the jail, about 200 yards from the grade along which the cortege moved.

Whether by accident or design the hearse and company of uniformed volunteers heading the long procession stopped for a few minutes at the intersection of a by-road leading to the jail where the hunger strikers are slowly dying.

The streets of Cork and the long route to the cemetery were lined with spectators as the funeral procession, in which probably 6,000 men and women marched passed. The Archbishop of Adelaide was among the high church dignitaries and hundreds of priests and monks made up the clerical contingent. Men prominent here in every walk of life were among the marching host.

The only notes of color in the drab sombre pageant was supplied by the Gaelic kilts bands, with bagpipes and muffled drums, which played unceasingly by the Irish dirge "Wrap the Green Flag Around Me Boys—to die—'tis far more Sweet," and by little girls in vivid green mantles of the national costume. Order was well preserved by the volunteers, a squad of whom fired a salute over the grave. The priest's brief oration at the graveside contained references to the hunger strikers and an expression of the wish that all Irishmen might meet death as heroically as Quirke had done and as the Cork prisoners were doing.

The Hunger Strikers.

Cork, Sept. 13.—Michal Hennessy, brother of Sean Hennessy, yesterday showed the Associated Press a slip of paper apparently made by a multigraph machine, which he said he had taken from a lamp post in a street leading to the jail early yesterday morning. The paper reads:

"In some districts loyalists and members of His Majesty's forces have received notices threatening the destruction of their homes in certain eventualities. Under these circumstances it has been decided that for every loyalist's house so destroyed the house of a republican leader will be similarly dealt with. It is naturally to be hoped that the necessity for such reprisals will not arise, and therefore, this warning of punishment which will follow any destruction of loyalist houses is being widely circulated."

According to young Hennessy similar warnings were posted during the early morning in various parts of Cork on lamp posts, signboards and dead walls.

Harold Barry, former high sheriff of Cork, who has been striving to save the lives of some of the hunger strikers here received a message from the Irish office, London, late yesterday, asking him to meet immediately with the heads of police in Cork for the purpose of reviewing the government's case against Sean Hennessy and Joseph Murphy, the latter claiming United States' citizenship, and any others in connection with new evidence, which may be produced. Barry is scouring the city for a young friend of Hennessy, who has asserted that he can prove a complete alibi for the dying hunger striker. Barry says he hopes to secure the release of Hennessy and perhaps the release of several other prisoners if witnesses are found.

Dominion Labor Congress.

Windsor, Ont. Sept. 13.—A resolution denouncing the British Government for its policy towards Lord Mayor MacSwiney of Cork has been submitted to the Dominion Trades and Labor Congress by a Toronto group of delegates.

Toronto delegates who are here, admit that such a resolution was drafted some time ago in Toronto by a branch of the Independent Labor Party which is entitled to representation at the congress. The names of some of the prominent members of the labor political group are attached to it but these will not be divulged until the formal presentation of the motion to the congress. "We have taken the stand endorsed at last year's congress," explains Tom Moore president of the congress, "that Ireland cannot secede from the empire, but that a dominion government be granted that country by the British parliament. If the Irish had agreed among themselves some twenty years ago on what kind of government they wanted the British Empire would not now be confronted with the present serious situation. What is the use of telling the Irish people what they want when they don't know themselves? The events of the last year have not changed my views on the Irish question."

Quebec Asks Release.

Quebec, Sept. 12.—(Canadian Press)—A cable was sent to Lloyd George on Saturday by Mayor Semson, asking on behalf of the city of Quebec for the release of Terence MacSwiney, Lord Mayor of Cork.

LUMBER REPORT. Speaking with reference to the lumber situation at the present time, a shipping agent said this morning that the demand for lumber and laths in the United States was very much limited, and that permits for the erection of dwellings were falling off very rapidly. TRADE NOTES. The secretary of the board of trade has received an inquiry from a New Brunswick lumber firm asking for the names of importers of pit props in Great Britain. He has also received a letter from a firm in England in which they ask for the name of some person here who will handle fruit for them. A certified copy of the recent judgment of the railway commission in the matter of increased rates has also been received.

BRINGS HOME NOBLE ANIMAL

Wm. E. Oram Has Dog Which Saved 92 Lives in Newfoundland.

William E. Oram of Murray street has returned home from Bonnie Bay, Nfld., where he was working during the last three months. He brought with him a large dog, half collie and wolf, which has a record of saving no fewer than ninety-two lives. On December 10, 1919, the S. Ethie was driven on the shoals near Bonnie Bay and the large combers which broke over the ledges made it impossible to launch a boat. The inhabitants saw the distress signals and, realizing that they were helpless to render any assistance, as no boat could live in the sea that was running, conceived a plan in which this dog took the leading role. Every effort to land a line ashore by rockets failed so the dog was taken to the beach and sent off to the ship with a light line tied to his collar. Despite the fact that the water was icy cold the noble animal plunged into the surf and although buffeted about by the waves made a gallant effort and reached the ill-fated steamer.

After the line had been secured by some of the seamen the animal swam ashore and when it reached the land was nearly dead from exhaustion and cold. As a result of his efforts a larger line was drawn ashore and eventually a basket was rigged in and by it ninety-two people were saved. The first passenger to come ashore was an infant born during the voyage. It was sent ashore in a mail bag.

The story of the rescue was spread broadcast and the Starry Cross Humane Society of Philadelphia sent to the owner a magnificent collar and a medal suitably inscribed. The dog was seen about the North End this morning and when people learned of his great feat it came in for a lot of attention and his owner was pined with questions regarding the story of his bravery. The silver medal, which was presented to the dog, has the following inscription: "Presented to Hero by Starry Cross, of Philadelphia, in token of appreciation for his rescue of ninety-two lives off S.S. Ethie, December 10, 1919.

CITY TACKLES PAVING PLANS FOR NEXT YEAR

Matter Opened at This Morning's Committee Meeting

Contractors Asking for Estimate of Granite Block Requirements — Claim for Horse—Alteration in West Side Heating Passed.

The city's paving programme for 1921 was opened by the city commissioners in committee meeting this morning when Commissioner Frink brought up the matter of the supply of granite blocks from the quarries at Spoon Island. He said that he had visited the quarries last week and the operators of the three quarries there asked for information as to the prospective supply required by the city next year, so that they would be in a position to retain the organization which they have there at present.

The commissioner said that it is the intention of the city to pave Douglas avenue next year and double street car track sections will require granite blocks. After City road has been completed, he presumed that it would be the city's desire to continue the pavement to the Mars Bridge and the matter of Brussels street would likely also be considered next year. He said that the matter in hand would no doubt open up the question of the city's paving programme for next year, but he thought it would be a good idea to get it as early as possible.

Commissioner Thornton asked about the statue of Douglas avenue.

The mayor replied that the council was waiting for the visit of the Board of Railway Commissioners to take up the matter of the overhead bridge at the falls, which would effect the paving at the end of the avenue.

Mr. Thornton said that in spite of the fact that the N. B. Power company had stated that gas main renewals were not necessary, he understood that some of their pipes were in bad condition. Regarding the placing of old street car rails in streets that were being permanently paved, the commissioner said that he had learned that the power company had a supply of new rails stored here and on taking the matter up with Manager McCannell, was informed that it was intended to use them in Douglas avenue.

He suggested that the commissioner of public works keep this matter in mind when the pavement was being done.

Doctor Frink asked for authority to negotiate with the contractors as to prices for granite blocks, but on the suggestion of the mayor he agreed to bring tomorrow's meeting an estimate of the number of blocks that would be required next year, when the matter of contracts could be taken up again.

Commenting on paving matters, the mayor said that the Marsh road from Haymarket Square to the One Mile House should certainly receive attention next year, and also the Market Square.

A letter was read from Barry and Sweeney, solicitors, regarding a claim made against the city by Thomas Hayes for \$800, the purchase price of a horse delivered to the city and which died a few days after delivery. Mr. Hayes contended that the animal had been passed by Dr. Boyce, the city veterinarian, and he thought that the city should pay the bill.

Mr. Thornton said that the horse was delivered to the public safety department for a mounted policeman, on trial, and had not been passed by the city veterinarian. The common clerk was authorized to reply to this effect.

Commissioner Bullock was authorized to proceed with arrangement for the shifting of a gear shed in No. 2 shed at Sand Point and a re-arrangement of the heating systems to this shed and to the customs, shipping and checkers' office in No. 1 at an estimated cost of \$2,500 for the whole job, tenders to be called for the piping work.

Application from A. Crozman, 9 Duke street, and Sydney DeWolfe, 325 Brussels street, for permission to erect electric signs on their premises, were referred to the commissioner of public works.

The commissioners agreed to meet tomorrow at 2 p. m. to proceed with Commissioner Jones to inspect the pulp mill property which last week he suggested selling.

ON THE WARSHIP. Officers on the H. M. S. Constance, which is in port, said this morning that although they have not as yet announced a special day for visitors, any arriving in the afternoon from 1.30 to 3 would be shown over the ship by members of the crew. They were unable to say definitely when she will sail, but they thought they would not get away before the end of the week or the first of next week. A new crew for the warship are never. Melie and will join the ship at Halifax. The present crew's time is up and they are to return to England. A large number of people visited H. M. S. Constance yesterday. They were courteously shown through the ship by the obliging jacksies. The ship's mascot, a goat, afforded amusement to the spectators. Wherever two or three were gathered together in conversation there also was the goat. He wandered around from one group to another, butting into each gathering by virtue of his license as a goat. His capacity was marvellous. He ate anything offered to him, but seemed pained as to what to do with cigarettes. After due deliberation he decided to chew, which he did.

The sailors from the Constance are making good use of the excellent accommodations offered by the Seamen's Institute. Last night and the night before twenty men slept there. Arrangements are being made for a series of entertainments for their amusement.

The master reported favorably upon the appointment of the Eastern Trust Co., as guardian with power to sell certain local property.

There are odd Desks and Chairs—artistic Lamps and Mirrors—Pictures—Brass Jardinières and Smokers' Stands—little things quite out-of-the-ordinary to contribute coziness and charm to your home. Spend as much, or as little, as you like, but buy more of the Little Things—they count.

A. Ernest Everett THE HOUSE FURNISHER 91 Charlotte Street

We have decided to continue Saturday half-holiday during September. Store open Friday evenings until Ten. as usual.

For Early Autumn Wear

Autumn has a classification all to itself in the way of what to wear. The edge of summer has been dulled and the crisp fall is not yet. Hence autumn calls for autumn weights.

We are now showing for the season's selling chic serge dresses for the woman who prides herself on what she wears. Variety of styles and designs.
