The Fishery Commissioner's Report. We pass over, for the present, a good asked the question. This is the officer the Captain, who lent himself to those does its work with a precision and redeal of matter that is placed between who wrote to the Inspector last season who, like the Advocate desired to get gularity which will imbue a man with a gin to come to life. the schedules showing the salaries and ontingent expenses paid to officers, and the Report of the Inspector for this Province, in order that we may continue

ceeding with an examination of the Commissioner's Report one is impressed with the intelligence and experience that are brought to bear upon the important matters treated by many of the officers, who give the Department the benefit of their experimental knowedge and unbiased judgment. In passing, therefore, we may say it is with regret that we leave untouched, for the

present, the singularly clear and able report of N. Laovie, Esq., Fishery Officer in charge of the steamer "Lady Head," the tone of whose remarks is in district to collect the tax—he made no personal effort whatever to collect it. One day he found a Napan fisherman in town with some split bass and he bought him to retain the bass tax out of the only thing that can keen a certain plase. He will, evidently develope into a circus performer of no mean pretensions at an early day, and the boy at our right hand who bundles twenty five thousand per day of ten hours can challenge the only thing that can keen a certain plase. such creditable contrast with the oracular deliverances of Mr. Inspector him to retain the bass tax out of the only thing that can keep a certain class Going to our Hotel we retire early Venning of this Province. Those who know most about the sub-

ject of our fisheries are sensible of the the net fishermen were surprised to office and they are as lordly as peacocks moderate share of vigor and percent the not insierment were surprised to learn, a short time ago that Mr. Wyse had charged them on his books with a small sum each as bass tax, but these had never been asked in their district fact that there is no matter connected with the important industries of the country which presents a wider or more difficult field of experimental study-no subject upon which the student is more by him for any account of their catch flow with champagne and the waters gay The eyes of the "edger man" have liable to be misled by theory.
