

## TO THE NEEDS OF LABOR

Policy Of Government Roundly Criticized By Labor Congress In Session At Quebec Alien Labor Law a Farce.

### MANY MATTERS DISCUSSED YESTERDAY.

Special to The Standard. Quebec, Sept. 22.—Mr. John G. O'Donoghue, Parliamentary Solicitor of the Trades and Labor Congress of Canada, presented his report at this morning's session of the Congress.

Denounced Alien Law. He denounced the Alien Labor Law as a "legislative farce." He said that when it suited the government to deport aliens brought to Canada as strike breakers, the machinery of the bill was made operative, but when it was not in the interests of the government no action was taken.

Mr. O'Donoghue said that no notice had been taken by the government regarding the resolutions passed at the Halifax convention last year asking amendments to the Lemieux Trades and Disputes Act. Amendment had been proposed, but they had been left on the order paper.

Weak Spots. "For some years," the speaker added, "the government has had two very weak spots in its treatment of labor legislation, namely its treatment of letter carriers and its attitude towards the Alien Labor Act."

This Congress has been annually requesting better treatment for the letter carriers and such amendments of the Alien Labor Act as would make it more than the legislative farce it is at the present time.

If the government thinks there is no necessity for improving the act, then it is simply because it will not see, and so far as the government's policy on the subject is concerned, it is something that does not exist, in its proper sense.

Policy Declared. Its policy was declared when it appointed Mr. Ed. Williams, Alien Labor Officer, upon whose report aliens were deported without formality of court prosecution. Subsequently the government under its new policy, required court prosecution of labor deportations to take place. Still later it reverted to its original policy, without any change in the act, simply because the late E. F. Clark protested most vigorously in the house against the employment of alien engineers on the G. T. P. Now the government has forsaken its old policy and is again at a do-nothing stand.

Delegate Franco. Delegate Franco of Montreal reported to the effect that he had organized the Quebec and Levis Federated Trades and Labor Council during the year. The national unions of the city had been hostile, but despite their objections the movement was a success. The fact that more than fifty delegates from the Province of Quebec were attending the Congress supplied the evidence.

A lively discussion arose regarding the disposition of the report during which Delegate Simpson of Toronto, declared that it was apparent that the national movement in Quebec was practically dead.

Vice President Simpson, Toronto, made his report as delegate to the Social and Reform Association. He referred to the question of saw-offs after the Dominion elections, and condemned the practice in language that could not be misinterpreted.

Mr. Simpson referred to what he called the inhuman treatment of men confined in Canadian prisons. He claimed they were treated more like brutes than human beings, and as a result, were turned out more vicious than before they were sentenced.

He dealt with the white slave practice, declaring that thousands of girls had been forced into lives of shame owing to the starvation wages paid by managers of department stores and factories.

The Social and Reform Association of the Province of Quebec is doing excellent work in the interests of the working classes of the Dominion.

Second Trades Union. Solicitor O'Donoghue said that the Social and Reform Association was a second Trades Union Congress. He had no hesitation in saying that it was the greatest influence for good we have in Canada today and congratulated the Labor Congress upon its affiliation with that body.

Mr. Simpson's report was referred to a special committee.

Delegate Obermyer, of Hamilton, called attention to the statements made by the president of the Canadian Manufacturers' Association at Hamilton last week, and asked that a special committee be appointed to reply to the allegations and misrepresentations made by him.

The following were named: Messrs. Glocking, Simpson, Bartlett, Obermyer, Monahan and O'Donoghue.

Before the noon adjournment a special committee was appointed to deal with the Oriental immigration question.

There was no session this afternoon. Mr. Will Crooks, the British labor leader, M. P., addressed a mass meeting in the auditorium hall this evening.

The meeting was held under the auspices of the Federated Trades and Labor Congress, in session here at present. The hall was crowded. Mr. Crooks who is reputed to be one of the most entertaining speakers in the old country was very eloquent.

## DR. COOK UNDER FIRE IN NEW YORK

Brooklyn Explorer Made to Submit to a Furious Rain of Questions—Dodge's Issue Raised by Astronomers in the Apparent Discrepancies of His Observations.

New York, Sept. 21.—Dr. Frederick A. Cook, peering past and past with his family after the boisterous welcome of yesterday, denied himself to interviewers and remained in his suite at the Waldorf-Astoria until late this evening when he submitted cheerfully to one of the severest cross-examinations since he announced his discovery of the North Pole.

The ordeal of the interview, which was conducted by forty newspaper representatives, including several from foreign newspapers, proved at least that he was not afraid to meet the public. Incidentally, the city of New York officially recognized his achievement today when the board of aldermen adopted a resolution commemorating his discovery and providing for a public welcome at the city hall. The date of the reception will be announced later.

Clings to Story. The material points of Dr. Cook's answers today did not differ in a great degree from his original report. Some slight details were cleared up, however, which throw light on the way in which the polar dash was effected.

Not once did he refuse to reply except when the name of Commander Peary was broached. Even then he said that he had always, and even now, considered Peary his friend, but controversial subjects in connection with his rival he avoided entirely, saying that they could wait.

Some of the more important questions put to Dr. Cook during the interview and his replies thereto follow:

Q.—Did anything ever occur in the life of yourself and Mr. Peary that would create an enmity or bitterness between you?  
A.—No; nothing whatever, that I know of.

Q.—Do you look upon Commander Peary as a friend or an enemy?  
A.—I must say I do not know. I have treated Mr. Peary as a friend and until I know more about the situation, I shall continue to do so.

Q.—Did you ever say anything in Etah that indicated that you feared for your life if he got there?  
A.—No.

Q.—Would you be willing to meet Peary in a debate when he gets here?  
A.—As far as I am concerned the Peary incident is closed. Mr. Peary is not the dictator of my affairs, and I do not care to say anything further about him.

Q.—Did you know Mr. Whitney when you had met him on your return to Etah?  
A.—No; he introduced himself, but I did not catch his name and did not know it until the following day.

Q.—Did you know that Peary was going to start up at that time?  
A.—No; I did not know.

Q.—What caused you to have such confidence in Mr. Whitney that you entrusted your instruments to him?  
A.—I knew him by name and circumstances that arose while I was with him justified my confidence. I gave him the instruments to bring back because I thought they would be less liable to injury on board his vessel than if I took them across glaciers and rough ice-covered country.

Q.—What is your opinion of the story told by the negro, Hansen, of the information he obtained from your two Eskimos?  
A.—Well, the Eskimos were bound down by me not to tell anyone where they had been. I should like you to have Hansen here and cross-question him yourself. Hansen's testimony is entirely founded on hearsay.

Q.—Knowing that a ship was coming north this summer did you do anything to get that ship and come direct to New York instead of going to South Greenland and sailing from there to Copenhagen?  
A.—I knew that the Danish Government ship would get me home before Whitney's ship.

Q.—What instruments did you take with you from Cape Thomas Hubbard and back?  
A.—Sextant, artificial horizon, three compasses, three chronometer watches, thermometers, barometers and a pendulum.

Q.—What kind of sextant did you have and how many?  
A.—One sextant, a French apparatus.

Continued on Page 2.

## SUPREMACY AT SEA THE HOPE OF THE EMPIRE

Sir William White, The Dreadnought Man, In Stirring Speech At Montreal—The Needs Of Greater England.

### HIS GOSPEL A PREACHMENT OF POWER.

Special to The Standard. Montreal, Sept. 22.—Sir William White, designer of the Dreadnought, addressed the Canadian Club this afternoon.

He began by speaking of the great impression the resources of the country and the optimism of the people had made upon him, and went on to speak of the feeling he had found everywhere that British supremacy must be maintained.

Everywhere Apparent. He had found this everywhere throughout the country, he said, not merely in Montreal, and in the seaports of the east and west, where one might expect to find it, but in the midst of the great prairies of the west also. "It is a matter of surprise and congratulation," he proceeded, "I am confident that so long as that state of affairs exists in the people throughout the British Empire, our supremacy on the sea will never disappear. Supremacy at sea is the business of my life. It is the business of my life to preach the gospel that the British Empire has been created by sea power, and can only exist so long as it is the supreme sea power. Our faith is an open sea for the pacific commerce of the world, the free communication between all parts of the British Empire."

Stand No Interference. "We will stand no interference with that supremacy from any one. Our forefathers fought for it and died for it. They thought no sacrifice too great for its maintenance. When they were a small handful of people they stood against the world, and conquered, simply because they had the faith that supreme sea power was necessary for the existence of their country. And that is the stronger measure. There is no empire or country in the world to which the supremacy of the sea is so vital as it is to the British Empire."

The supremacy of the sea, Sir William proceeded, was not the Russian empire, or to the German empire, or to the French empire. They stand along without supremacy at sea, but to the British Empire it was the one absolute essential.

Invited to Meet Him. About six o'clock yesterday afternoon Commander Peary invited all the newspapermen to meet him in the hotel parlor.

The interview was a decided contrast to that held last Thursday in far away Battle Harbor. At that time the explorer, in some Arctic dress, appeared on a pile of fish nets in the half lighted attic of a trading company's warehouse. Last night in a close fitting blue suit of military cut, spotless linen and fresh from the barber's hands, he sat in a richly upholstered chair in a luxurious room. Although the environment had changed.

Chief Crawford Has Landed His Man. Campbellton Man Who Escaped From Train While In Arrest For Theft Is Arrested At Bathurst.

### UNIONISTS PLEDGED TO TARIFF REFORM

Balfour Replies To Asquith At Birmingham—Tariff Reform To Be Main Plank At Next General Elections.

### WILL BUILD HIMSELF

Colonel Fages, the officer commanding the troops has sent a communication to the town authorities advising them that unless the town takes steps at once to furnish winter quarters for the military, he will proceed himself to build the same and in the latter event it will likely cost the town considerably more than if the town authorities did the work.

The Coal Company has made an offer to the town to erect buildings at net cost of labor and material. The estimate cost is \$7,900. The company also offers to supply sites without charging rent, if the land selected belongs to the company and will give as many houses as the soldiers need without charging rent for these dwellings. The company also offers to buy back the houses at termination here of the stay of the soldiers, and will allow therefor twenty per cent. of original cost. The matter will come up at a special meeting of the town council which will take place on Wednesday. It is thought that the offer of the coal company will be accepted.

Yarmouth Man Freed Of Charge Of Murder. Special to The Standard. Yarmouth, Sept. 22.—Ebenzer Hillon of South Old, charged with the murder of his mother, walked out of the court house a free man tonight the jury bringing in a verdict of not guilty.

In January, 1908, the young man beat his aged mother with an axe handle and was arrested and sentenced to eighteen months in jail but while serving his term his mother died and Hillon completed his term for assault he was arrested for murder.

The trial began today before Judge Longley who charged strongly in favor of the prisoner declaring that the prosecution had not shown that death was due to assault. The jury was only out a half an hour.

## PEARY WANTS TO BE A LONE STAR

Gives Out Important Interview at Sydney in Which He Intimates That His Is To Be All the Glory or None—Had Heard of Cook's Success Before Reaching Etah.

Special to The Standard. Sydney, N. S., Sept. 22.—Commander Robert E. Peary issued the following statement to the newspaper correspondents at Sydney late last night:

"Acting on the advice of General Hubbard and Mr. H. L. Bridgman, president and secretary of the Peary Arctic Club, I wish to express my thanks to my friends for their kind offers and invitations, and also I beg to say that I prefer to accept no invitations to public receptions and to no occasions until the present controversy has been settled by competent authority."

Wants All the Honor. The above apparently means that Peary does not want to be recognized as one of the successful Arctic explorers, but as the man who first set foot upon the vicinity of the north pole.

Before issuing his ultimatum Commander Peary held a consultation with the representatives of the Associated Press and showed them the following telegram which he received a few hours after his arrival:

"Welcome to God's country. Urge your attention to Hubbard, Bridgman, also to Associated Press telegram. (Signed) H. L. BRIDGMAN."

The Associated Press representative did not understand the meaning of the telegram in question.

"I took it to mean that General Hubbard and Mrs. Bridgman had made some statement to the Associated Press," said Commander Peary.

Shortly afterward his important statement was given out to the correspondents.

Invited to Meet Him. About six o'clock yesterday afternoon Commander Peary invited all the newspapermen to meet him in the hotel parlor.

The interview was a decided contrast to that held last Thursday in far away Battle Harbor. At that time the explorer, in some Arctic dress, appeared on a pile of fish nets in the half lighted attic of a trading company's warehouse. Last night in a close fitting blue suit of military cut, spotless linen and fresh from the barber's hands, he sat in a richly upholstered chair in a luxurious room. Although the environment had changed.

Whitney Coming Home. "If Whitney carries out his plans he should be on the west side of Davis Strait coming south leisurely on the Jeanie."

"When do you think he will get in to touch with civilization again?" "All I know is that his friends expect him home during the first part of October," replied the commander.

"Will he come back by the route of the Jeanie?" "I don't say any more. That is on the Cook question. Excuse me."

Curiosity was then expressed as to the whereabouts of Bear-Hunting Whitney.

Another Reprieve For Brutal Murderer. Owing To Discussions In The Dominion Cabinet The Hanging Of Walter Blythe Is Again Postponed.

Asquith's Start In Refusing To Lift Embargo Is Upheld By Cattle Disease Committee Of Chambers.

### BOSTON & MAINE'S POLICY IS CRITICISED

Labor Men Condemn What They Are Pleaded To Call The Niggardly And Pernicious Policy Of Railway.

### LEBANON, N. H., SEPT. 22.—Resolutions strong in condemnation of the policy of the Boston and Maine R. R. were passed today at the second day's session of the eighth annual convention of the New Hampshire State Federation of Labor.

Following a discussion of the accident of yesterday at Patee, in which several were killed, the following resolution was passed:

"Resolved, That the sympathy of this convention be extended to the families and relatives of those who lost their lives or were injured in the railroad accident at Patee. We condemn the niggardly and pernicious policy of the Boston and Maine R. R. in continuing to use old and antiquated cars, and we further condemn the management for its heartlessness in compelling train dispatchers, telegraph operators and trainmen to work long hours for small wages, and we strongly urge our state authorities to make a rigid investigation of this accident that the traveling public may not be sacrificed to the greed of the Boston and Maine R. R."

Forty-Nine More 33rd Degree Men. Boston, Mass., Sept. 22.—Forty-nine new members were elected to honorary membership in the 33rd degree body at the close of the 57th annual meeting of the Supreme Council of the Scottish Rite Masons, of the northern jurisdiction. None of those elected were from Massachusetts.

Fire started by children with matches in a barn caused the destruction of fifteen horses at Yarmaska, Quebec with several barns and twenty head of cattle, causing a loss of \$60,000.

## FAST STEAMER SERVICE WITH INDIES URGED

Important Evidence Adduced At Opening Session Of Royal Commission—Lord Balfour Speaks Of Trade.

### EMPIRE NEEDS CLOSER TRADE TIES.

Special to The Standard. Ottawa, Sept. 22.—The Royal Commission to inquire into the question of the improvement of trade relations between Canada and the West Indies sat in Ottawa today. The commissioners are: Lord Balfour of Burleigh, Sir Denis Morris, Sir John Dickson-Poynder, Hon. W. S. Fielding and Hon. William Paterson.

Advocated Fast Service. The most important suggestion made was that by Mr. F. C. T. O'Hara, who thought that if a fast through steamship service to a point in the West Indies with a subsidy service to deliver and collect cargo was instituted, it would greatly develop trade. The exports from Canada to the West Indies in 1908 amounted to \$2,847,331, and in 1909, \$3,090,468.

Purpose of the Inquiry. Lord Balfour of Burleigh, chairman of the commission, announced that the inquiry was to be into the present condition and future prospects of trade between Canada and the West Indies. The commissioners were here, he said, to receive suggestions for the betterment of the improvement of transportation and for a cheaper and better telegraph service.

Personally, said Lord Balfour, he could conceive of nothing which would be more productive of good to the Empire than the closest interchange of trade between the constituent parts of the Empire. It would be essentially a business inquiry, and their object would be to hear everybody who had an interest in the question.

Steamship Subsidies. The question of steamship subsidies was taken up first and Mr. F. C. T. O'Hara, Deputy Minister of Trade and Commerce, was the leading witness. He stated in reply to Lord Balfour that there was a twelve day service between Halifax and the West Indies. Four steamships were commissioned by Messrs. Pickford and Black for which a subsidy of \$65,700 per annum was paid both by the British Government and the Canadian Government.

Vessels Delayed. There had been complaints, said Mr. O'Hara, regarding delays by vessels and amongst the explanations given was the statement that the official red tape of the islands often caused delay.

Mr. O'Hara's belief was that if a fast through service to South America or one of the West India Islands was instituted, calling at one or two points en route, and there was a subsidiary service to distribute and collect cargo, it would be very much better than the present system.

The control of the service it was shown, is in the hands of the Canadian Government, that is so far as it is affected by the subsidies.

Preferred Yankees. Mr. W. H. Rowley, managing director of the E. B. Eddy Company, of Hull, Quebec, giving evidence, said that the West Indians seemed to prefer to deal with the Yankees so far as his experience went. One reason was that the Americans had better transportation facilities and Canadian goods had been shipped through to the West Indies via United States channels.

### P. W. A. TO AFFILIATE WITH CANADIAN UNION

Unanimous Resolution Passed At Yesterday's Meeting Of Grand Council Favors Union With Federation Of Labor.

Special to The Standard. Halifax, N. S., Sept. 22.—The grand council of the Provincial Workmen's Association at today's session was unanimous in passing a resolution favoring affiliation with the Canadian Federation of Labor.

Before the session closes delegates will be appointed to attend the convention of the latter organization and discuss the matter.

The Murray Government's eight-hour day bill was discussed, and it was decided to have the legislation committee inquire into the delay of the commission appointed by the Government.

ONE DOLLAR DAMAGES TO MR. OWELL'S REPUTATION

Jury in Slander Suit, Lowell vs. Gray, Decided Yesterday Very Nominal Sum Must Satisfy Local M. P. P.'s Wounded Feelings—Dr. Currey in Address Intimates Such Action Would Be an Insult—Would Prefer Verdict For Defendant—Court Proceedings.

Damages to the amount of \$1 were awarded by the jury yesterday afternoon, after about three quarters of an hour's deliberation, to Mr. James Lowell M. P. P. in the suit brought by him against Dr. J. H. Gray of Fairville for having made by the latter prior to the Provincial election of August, 1908, Mr. Lowell asked for which he claimed to have received as a member of the Legislature, fixing the amount at \$5,000. The plaintiff's counsel, in his address, told the jury that if they were to award a verdict of less than nominal damages he would prefer a verdict of \$1, and that he would accept of that amount.

At yesterday morning's sitting Mr. Currey moved that the declaration be amended by adding a count to the effect that the plaintiff at the time the slander was published, was a member of the Municipal Council and a chairman of the Highway Board of the Parish of Lancaster. That such a change would be in the interest of justice, and that the plaintiff, who he believed to be a member of such municipal council, with the commission of the crime.

Mr. Hazen Resumes His Address. Mr. Hazen then resumed his address to the jury. He reviewed the evidence of Masson, the plaintiff's principal witness. The meaning of Masson's statement was that Dr. Lowell was a member of the House of Assembly. The plaintiff has not proved that Dr. Gray is a member of the House of Assembly. The jury would be fully justified in awarding nominal damages to Dr. Gray. Dr. Gray did not prove that Dr. Lowell was a member of the House of Assembly. Dr. Gray should be believed as much as Masson, an employe of Lowell, who was the person who circulated the alleged slander. Mr. Hazen said that it has not been proved that Dr. Lowell has suffered one bit. In conclusion he asked for a verdict.

Dr. Currey. Dr. Currey severely criticized the Attorney General's attitude towards the case. It was not trivial, he said, to charge a man with a commission of crime punishable by a term of four years in the penitentiary. If what Dr. Gray said was true then Mr. Lowell was a criminal and that was not a trifling affair. He was surprised to hear the Attorney General indulge in exegesis. The Attorney General had said that he had been accused of every crime on the calendar. This was not true. I have been a supporter of my learned friend ever since his advent into politics, continued Dr. Currey, and I never heard a criminal charge made against the Attorney General. Dr. Currey then reviewed the evidence and spoke in glowing terms of Mr. Lowell's record. He said that Mr. Lowell refused to pass from the street railway. The jury was afraid to plead justification. Dr. Gray was not man enough to retract what he said. He was not man enough to retract what he said. The Attorney General charged that Mr. Lowell was a criminal. Dr. Currey said that if Dr. Gray had apologized the suit would not have been brought.

No Apology Tendered. Mr. Hazen arose and contended that there was no evidence of an apology being tendered.

THE TWIN TOO MUCH FOR MARTIN

Boston, Sept. 22.—Mike (Twin) Sullivan received the decision over Terry Martin in their 12-round bout at the Army and Navy Club last night. The twin jabbed, hooked and countered Martin at will in every round, and while Martin made a flash at the start of every round he did not land many blows. The cleverness of the twin evaded him, and at times Martin looked like a novice falling to show the form he displayed recently. Martin was in good shape and declared that the blows that the twin dealt did not hurt him. It is over five years since the twin has been seen in the ring in this section, and he showed some improvement. Martin found it hard to get inside of the twin. The twin also showed that he is himself in the clutch. He is a good jabber and can hook and uppercut well, as Martin discovered. Martin seldom landed a blow that he was not countered. The twin's right hand was on the left and the other right on the left of the body. He managed to plant the right hand of the twin's leg and was successful in knocking the twin down for a short time.

DR. CUREY UNDER A TREE UNDER THE CAPITAL AT HOME STILL GROWING BEYOND THE STAR

Continued from Page 1. Q—What kind of artificial horizon did you use? A—Glass. Q—What kind of transitor theodolite did you use? A—We didn't use any. Q—What kind of compass did you use? A—We had one liquid compass, one surveying compass. Q—What kind of compass did you use to determine your compass variation? A—Surveying compass. Q—What kind of compass did you use to determine your compass variation? A—Surveying compass. Q—What kind of compass did you use to determine your compass variation? A—Surveying compass.

YESTERDAY'S FIGURES BRING TOTAL UP TO 29,000—LARGEST AMOUNT OF PRIZE MONEY IN HISTORY OF PROVINCE.

Special to The Standard. Exhibition Grounds, Fredericton, Sept. 22.—The attendance at the exhibition today was 24,000, making the total to tonight 29,000, which makes it evident that the 30,000 mark will be reached. The exhibition closes tomorrow night at 10 o'clock, after which cattle will be hustled on a special train of twenty cars for Halifax. The cattle will be taken to the coast and Geodetic Survey to determine that point. It is admitted that this question might go to the International Polar Commission or to the Royal Geographical Society. When the vandals raid upon the exhibition grounds, the friends of Commander Peary feared that the successful discovery of the North Pole. The anxiety was dispelled by the commander's statement on this point. "My records, notes and observations were under lock and key. I had come together for the purpose of extending to them the heartiest congratulations and wishing them many more happy years of married life.

Merely Nautical Observations. A—We have told that the altitude of the sun gave us our position; that is all we have to say about that. We made regular astronomical observations as regular as would be made by the company and other instruments. We merely made the nautical observations that a captain would have made aboard a ship. Q—Will you describe in detail any single observation taken by you at the north pole, with the exact figures of the results and the corrections applied? A—Not at this present moment. We will describe every one of them in detail when you go to the University of Copenhagen. They will go there within two months. The entire records will be delivered to the University and after that they will go to everybody that wants to examine them. Q—In your original narrative published in the New York Herald, you said that the night of April 7 was made notable by the swinging of the sun at midnight over the horizon. Our observation on April 6, longitude of the camp in latitude 86.36, and in the latitude of the North Pole, the first time on April 7, you must have been 234 miles from the Pole, instead of 234 as you supposed. Therefore, you would have had to travel 28 miles daily. What is your explanation of the apparent discrepancy?

Full Records Required. A—In the first place that indicates the point I have taken; that nobody pronounces judgment on a matter of record. The northern horizon at midnight has been so obscure that we could not tell whether the sun was below the horizon or above it. We were not sure of the position at midnight. Therefore this statement is based on the fact that we have said that it is impossible to see the sun at midnight of that day. I have looked through the Herald's story and it has been written out in full. My inability to see the sun at midnight is not a matter of record. Q—Why was it necessary to trust your word for Mr. Whitney's under pledge of secrecy? A—I don't know that there is anything further to say about that, but Mr. Whitney, I do not think I am bound to divulge to you anything of my work. I am perfectly willing to give it to the world, and I have done so. Dr. Cook laid aside the role of the explorer when he arose this morning and became a family man again. When he breakfasted he announced his intention of spending the day with his family until the afternoon, when he met the newspaper men.

OTTAWA TO HAVE MOTOR CAR MILITARY CORPS. Special to The Standard. Ottawa, Sept. 22.—Ottawa is to have a motor car military corps. It will be organized under the 43rd Regiment, and will consist of owners of cars who agree to their use by the military in the event of an emergency. The name probably will be the Motor Association and the officers will be: Honorary president, Prince of Wales; honorary vice president, Major General Sir Percy Lake; honorary secretary, Lieut. Col. Rogers, 43rd D. C. O. B.; vice president, Capt. Harry Ketchum; lieutenant and adjutant, Mr. Percy Harris. Cameron-Raymond. A pretty wedding was solemnized at the residence of Mr. Robert Peary, 177 Chesley street, last evening, when Mr. Frank H. Cameron, of St. John, Raymond of Digby, Rev. Geo. W. H. Stewart officiated at the ceremony. Mr. and Mrs. Robert Titus attended the young couple.

PERSONAL. Mr. and Mrs. A. H. Ballie and their two children were spending two weeks with Mr. Charles Ballie returned to Montreal last evening. Miss L. Tweedie of Sackville who has been spending the summer at home, she is accompanied by Miss McCormick of Annapolis who is en route to Mount Allison. Mrs. R. C. Fraser and little son left last evening for Winnipeg to spend two months with Mr. Fraser's mother. Mr. R. J. H. and Mr. F. M. Smith will leave for Sackville today. Mr. F. H. J. Kiel was a passenger to the city on last evening's Boston train. Mr. H. Yanwart arrived home last evening from the Boston train. Mr. John A. Kelley returned last evening from Fredericton. There was a change in the condition of Mr. Hugh McCormick last evening. He was reported to be resting. Senator Josiah Wood, Mr. and Mrs. F. B. Wood and Mr. H. M. Wood, of Sackville, arrived in the city last evening and are registered at the Royal last evening. It is reported that the condition of Mrs. W. is somewhat improved. She is not yet considered out of danger. Miss Kathleen Trueman left last evening to attend the Halifax Ladies' College. Miss Mary McLellan was also intended to go was obliged to remain at home on account of illness. Miss Frances Hazen will leave this morning to visit Miss Fawcett, of Sackville.

Endless Chain For the Ferry. Aid Kelley made the suggestion yesterday to The Standard in speaking of ferry matters, that a motor and endless chain should be provided to assist in towing up the heavy loads. This means had been followed by the aid of the adoption of the scheme here world result in the relief of horses in drawing up the heavy loads. Aid Kelley in his capacity as a member of the S. P. C. has on more than one occasion had to procure local firms for overloading teams using the floats. Cameron-Raymond. A pretty wedding was solemnized at the residence of Mr. Robert Peary, 177 Chesley street, last evening, when Mr. Frank H. Cameron, of St. John, Raymond of Digby, Rev. Geo. W. H. Stewart officiated at the ceremony. Mr. and Mrs. Robert Titus attended the young couple.

PREMIER'S SILVER WEDDING IS HAPPILY CELEBRATED

Notable Gathering Of Friends Of Hon. J. D. And Mrs. Hazen At Their Home Last Evening—Hearty Congratulations On Twenty-five Years Of Wedded Life—Chief Justice Barker Makes Presentation Of Handsome Silver Tray—The Premier's Reply.

The twenty-fifth anniversary of the wedding of Mr. and Mrs. J. D. Hazen occurred yesterday, and last evening a large number of their many friends observed the occasion by surprising the Premier and his wife at their home, Hazen street, for the purpose of congratulating them on their silver wedding and wishing them many more happy years of married life. It may be remarked that if Fuller, the New York Herald correspondent now on board the Jeannie has any control over the destinies of that craft, she will soon touch land under a Marconi station. "What observations would it be necessary for an explorer to make in order to prove his claim to having been to the North Pole?" the explorer was asked. "I shall leave the Coast and Geodetic Survey to determine that point," he replied. He admitted that this question might go to the International Polar Commission or to the Royal Geographical Society. When the vandals raid upon the exhibition grounds, the friends of Commander Peary feared that the successful discovery of the North Pole. The anxiety was dispelled by the commander's statement on this point. "My records, notes and observations were under lock and key. I had come together for the purpose of extending to them the heartiest congratulations and wishing them many more happy years of married life.

Wests of Friends. During the many years that they have lived in St. John Mr. and Mrs. Hazen had made hosts of warm personal friends. It was the lot of few persons of Mr. Hazen's age to have acquired such a distinguished position in the public life of Canada. Mr. Hazen's age to have acquired such a distinguished position in the public life of Canada. Mr. Hazen's age to have acquired such a distinguished position in the public life of Canada. Mr. Hazen's age to have acquired such a distinguished position in the public life of Canada.

His Most Valuable Loss. "The most valuable thing lost from the standpoint of the expedition was the successful substantiation of the claim to the discovery of the North Pole. The anxiety was dispelled by the commander's statement on this point. "My records, notes and observations were under lock and key. I had come together for the purpose of extending to them the heartiest congratulations and wishing them many more happy years of married life.

WALTER DAY HAS NARROW ESCAPE FROM DROWNING. Out in Sailboat Yesterday and Fell Overboard—Rescued By Companions When Sinking For Last Time. Mr. Walter Day, of Land's End, had a narrow escape from drowning yesterday when he was out in his sailboat. He fell overboard and was rescued by his companions when he was sinking for the last time. Mr. Day was out in his sailboat yesterday and fell overboard. He was rescued by his companions when he was sinking for the last time. Mr. Day was out in his sailboat yesterday and fell overboard. He was rescued by his companions when he was sinking for the last time.

BURKE TO FACE CHARGE IN COURT. Man Who Assaulted Driver Gallagher At Fredericton Race Track Is To Be Tried Before Magistrate. Fredericton, Sept. 22.—Colbert G. Burke was arrested on Tuesday afternoon by City Marshal Roberts, special officer of the Fredericton Park Association, on a warrant charging him with assault on James W. Cole, livery driver, at the race track on Monday night. He was taken before Magistrate and remanded until Monday next. He is now under bonds of \$500, the securities being Messrs. Dell Galloway and John McCoy, Messrs. Galloway and Hanson will conduct the prosecution for the park association. It is charged that Mr. Gallagher was assaulted by Burke at the race track race in which the judges put him up to drive Lady Belmont after Harvey M. McCoy had been taken down.

FUNERALS. Mr. Elias W. Elliott. The funeral of the late Mr. Elias W. Elliott took place at 2:30 yesterday afternoon from his residence, 30 Wellington Row. The service was conducted at the funeral home of Messrs. Edna Powers, the honor, was a very creation. The service was held by the Foresters of which order Mr. Elliott had been a member for many years. The interment took place in Fernhill. If You Don't Advertise, Business Goes By Your Door Every Day, To The Store Of "The Man Who Does." THE STANDARD. You Need More Money. Let your windows make it for you. They can do it for you if you will let them. W. O. STAPLES, Card Writer and Window Decorator, 102 Prince Wm. St. Phone 2511.

Widow of Railway Worker Has a Labor of Hercules to Confront.

The impossible fight against an ever increasing income. America's twelve richest women. Mrs. Harriman... \$85,000. Mrs. F. C. Penhull... 78,000. Mrs. Russell Sage... 68,000. Mrs. J. Hooley Hearsh... 39,000. Mrs. Annie Leeds... 20,000. Mrs. Matilda Ziegler... 20,000. Mrs. Morris Jesu... 20,000. Mrs. Miss Evelyn Gould... 24,000. Mrs. Clara Morsini... 18,000. Mrs. M. C. Thaw... 12,000. Mrs. W. W. Wainmaker... 11,300. Their total wealth, \$500,300.

When Edward H. Harriman died railroad wizard wrote his wife a will that made his widow the richest woman among 12 very American women, whose wealth haled a billion dollars. Most of Mrs. Harriman's \$50,000 estate is in stocks, bonds and interest bearing, but strong as a steed. All invested. Rockefeller, the steel trust and other great holders of capital have invested in huge industries which employment to hundreds of thousands of men. It draws its profit for the year, and it gives its added to the public. But in the case of 12 richest women the money is in mere trade, and it also greater burden to the owners of it. Take the case of Mrs. Harriman. She has a fortune of \$50,000,000. A woman, schooled more to her than to public, suddenly finds herself the richest woman in the world. The million one man—Harriman was sufficient to steer this wealth among the uncharted seas. Wall street during the life of men. It draws its profit for the year, and it gives its added to the public. But in the case of 12 richest women the money is in mere trade, and it also greater burden to the owners of it. Take the case of Mrs. Harriman. She has a fortune of \$50,000,000. A woman, schooled more to her than to public, suddenly finds herself the richest woman in the world. The million one man—Harriman was sufficient to steer this wealth among the uncharted seas. Wall street during the life of men. It draws its profit for the year, and it gives its added to the public. But in the case of 12 richest women the money is in mere trade, and it also greater burden to the owners of it. Take the case of Mrs. Harriman. She has a fortune of \$50,000,000. NEWS OF A DAY Schedule Filed. Ottawa, Sept. 22.—A schedule of express rates between the United States and Canadian points and between American points through Canada was filed with the Railway Commission today by the Express Tariff Association of Canada.

HIAWATHA IS RENOWNED AS INDIANS' GOD Chippewa Preacher Tells How Popular Conception of Longfellow's Hero Came Into Being.

PREDICTS INDIAN IN WHITE HOUSE Traverse City, Mich., Sept. 22.—Resplendent in a red blanket, clad in the costume of his fathers, head dress and all, the Rev. T. C. Thomas, a full blooded Chippewa Indian of Odanah, Wis., renounced Hiawatha as the ideal of the Indian and then predicted that when the great race war between the whites and blacks came to an end—

Madrid, Sept. 22.—The gray haired privy councillors of King Alfonso are having difficulty in curbing their young monarch's chivalry and generous impulses. At present he is yearning to go to the scene of the Rif war and only repeated remonstrances from his ministers have made him give up the idea.

After I went away to school, I who was born a little red papoose in a hut in a wilderness and kept warm by means of bark, went down to the white man's school and saw his numbers, saw his great resources, his wondrous wealth, his inventions and how he made even the earth obey him.

KING ALFONSO IS AGING TO FIGHT MOORS Prior Counsellors of King Have Hard Time to Dissuade Monarch from Entering Into Country's Battles.

Cambridge Man in Amusing Incident "It is an excellent thing that this fighting has come in the long vacation. Perhaps we shall have finished off the Riffs and I shall be free to return at the end of September to go on with my lectures."

When a constabulary lieutenant restraining hand on the arm of the Marquis of Villacerrato, who was shouting with his fellow students, the Spanish nobleman said: "I have a right to be here; I am the Marquis of Villacerrato."

Another Episode. On the day of the first anniversary of the Ottoman constitution Abdul Hamid entered into the spirit of the celebration. He bought thousands of dollars' worth of fireworks, and the illumination of the villa was the best, they say, in the empire.

ABDUL HAMID HOLDING FORTH AT OLD STAND The Red Sultan is Not Done Away With Yet, and is Still a Factor in Near East Situation.

Constantinople, Sept. 22.—A few months ago, when Abdul Hamid was dethroned and exiled to Salonica, the world thought that the troubles caused by the "Red Sultan" had come to an end.

The wealth found at the Yildiz and turned over to the public treasury amounted to \$7,500,000, and nobody guessed that Abdul had any more until recently he began to speak to the officer to whose charge he has been intrusted.

Turkey Menaced. Turkey's peace is menaced not alone by Abdul's wealth. His dream is to reorganize his partisans and march on the capital with an army to regain his power and punish his enemies. This is not idle talk, and there is much in evidence to show that the history of this most energetic Turk has not been closed yet.

PHILADELPHIA WINS FROM ST. LOUIS

PHILADELPHIA EASILY WINS FROM ST. LOUIS

Athletics Have Little Difficulty in Taking Game from Browns -- Boston Wins from Cleveland 3-1--Other Games.

Philadelphia, Pa., Sept. 22.—Philadelphia had little difficulty in defeating St. Louis today, 6 to 2. Six of the home team's nine hits off Griffen, were for extra bases and nearly all of them counted in the scoring.

Boston, Mass., Sept. 22.—With Mitchell, a new recruit, pitching for the visitors, Boston defeated Cleveland today, 3 to 1. In the fourth inning, the locals scored three times on three singles, an error, a hit batman and a sacrifice. Wood was very effective and received brilliant support, especially from McConnell.

The locals retired in order in seven of the nine innings. Sensational catches by Lelivelt and Gessler shared honors with Mullin's pitching.

At St. Louis—Score: Philadelphia, 6; St. Louis, 2. Time—1:45. Umpires—Egan and Sheridan.

THE REAL PITCHING CLASS OF THE LEAGUES

Christy Mathewson, a name to conjure with, and George Mullin, almost as fearsome, lead the National and American league pitchers, respectively.

Mullin's splendid work on the hill, brilliant style all year. He led the league for a long time, but was finally passed by "Mighty Matty," as the result of some hard luck games.

Krause is the left-handed youngster who astonished the American league this spring by his wonderful work for the Athletics. For a bushy, just breaking in, he probably deserves more credit than the others, who are veterans all.

Silk Patchen Takes 2.14 Pace At Rochester in Great Race

Rochester, N. H., Sept. 22.—The second day of the Rochester Fair brought out some high class racing at Gold-spring Park, the feature event being the victory of Silk Patchen in the 2.14 class pacing, after she had finished third in the first heat. Three unfinished races from yesterday's card were run off and in the 2.17 class trot, Alcyona, who finished third three times yesterday, won in straight heats today. In the 2.20 class pacing, Fleetwood also won in straight heats with Beverage second. The summaries:

2.30 CLASS, TROTting. Derby Directly, brg. (Buck) 1 5 8 1 1 Mascolo, bg. (Yeaton) 4 1 2 6 5 Rescotta, bm. (Quinn) 8 3 1 8 6 Mocomo, bg. (Dore) 2 4 3 5 3 Katherine Kohl, bm. (Deering) 6 8 4 2 4 Jay Kay, bg. (Fox) 5 2 2 3 5 4 Alfred V., bg. (Dore) 4 5 4 2 2 Rebecca G., bm. (Carpenter) 5 2 2 3 5 4

Eel Only Able To Land Third Money At Grand Circuit Meet

Columbus, Ohio, Sept. 22.—Copa de Oro's pacifier to a season's race record and the overthrow of two pronounced first choices made lively the third afternoon of Grand Circuit racing here. Copa de Oro lost the race, however, to Alleen Wilson after pacing the opening heat of the free-for-all in 2:02.

In the first heat, Alleen Wilson and Hedgewood Boy led to the half in 59 1-2. The three quarters was passed in 1:30. Hedgewood Boy drew away in the stretch, while Copa de Oro closed up and won the heat from Alleen Wilson.

The next two heats, both in slower time, were won by Hedgewood Boy. The Eel was favorite for this race, but could not do better than third. The local favorite first choice for the trotting division of the three-year-old Kentucky Stock Farm Futurity, was the second of the day's favorites to glaze, world's champion for fillies of her age on a half-mile track. She is owned by S. J. Fleming and Son of Terre Haute, Ind. Czarvena finished third.

Baseball followers in the city were surprised and not a little bit disgusted when they learned yesterday that the All-St. Johns, who were to have gone to Eastport to play the Browns of that city, had evidently "backed down" from the undertaking. All arrangements had been made for the trip, but owing to some of the players not being present when the Governor Cobb sailed yesterday the team was unable to go. This will doubtless prove a disappointment to the 3,000 fans who had advertised and arranged for the game. Such little incidents are to be regretted, and do not reflect credit on the "amateur" players who were back of the undertaking.

It is understood the cost of bringing the team will be upwards of \$500, but the Greeks are desirous of giving the public the worth of their money. Ever since their organization they have been foremost in every branch of sport, and deserve the support of every person who has the interest of amateur sport at heart. The presence of the Worcester team, champions of the New England League, on the local diamond on Friday and Saturday will recall to St. John fans the old days when the Roses and Alberts battled with some of the fastest teams of the New England States. It should go a long way towards reviving interest in the game in St. John.

The past two years has seen a wonderful revival in nearly every branch of sport in the city. Baseball, football, basketball and hockey being all well patronized. This is a very healthful sign, and a source of satisfaction to all lovers of amateur sports in St. John.

CHAMPIONSHIP CHATTER BEATS POLE PONDER

Mr. Arthur Finnemore of Fred-erickton is Out With Scheme to Settle Question--Wood-stock is Really Mad.

Sporting Editor The Standard: Sir— Seeing your item on baseball this morning, I wish to say that a claim to the Provincial championship by my team is impossible without the formation of and winning of a league.

As to the Woodstock team, the Tartars took two straight games in Woodstock from them 8 to 1 and 5 to 2. Now if these teams are out to find out which is the best team I can arrange for them to play on the Frederickton grounds, and also offer the same to Newcastle; otherwise it is impossible to find out which is the best team. We do not claim the championship because it is impossible without a league, but we have about as much right to it, if one were going, as any other team.

Excuse hurry, but hope to see this in the morning paper. Yours very truly, ARTHUR FINNEMORE, Manager Tartars of Frederickton, N. B., Sept. 21

Special to The Standard. Woodstock, N. B., Sept. 22.—The ball team say that the controversy with the Marathons is unnecessary. Woodstock wins its games on the field, not on paper and will force the Marathons to play if it can be done.

The Marathons never played here in August. They did play here on June 12, with an amateur team with two regular teams playing and won by 9 to 5 and 7 to 5, which was a better score than they made in their games against St. Peter's or the Tartars.

Final Plans for Friday's Big Game. What is expected to be the biggest baseball event in years in St. John will be the visit of the Worcester team, champions of the New England league who will play the Marathons on Friday and Saturday. There will be two games Saturday and one Friday and the Greeks are hopeful of having at least one victory to their credit against the fast aggregation which has won the New England pennant this year.

FREE-FOR-ALL CLASS TROTting. Purses \$1,200. Sonoma Girl, b m by Lynwood W. (McMahon) 1 1 1 Margaret O, b m (Wills) 2 2 2 Oro, blk g (McCarthy) 3 3 3 Jack Leyburn, ch g (Grady) 4 4 4 Time 2:06 1/4, 2:06, 2:07.

WANDERERS OF HALIFAX MAY PLAY HERE. A special effort will be made to secure a full practice of the Algonquin team on the Shamrock grounds this evening between 6 and 7 o'clock. Every night this week a number of the faithful have been booting the pig-skin and doing some spectacular half and scrimmage work, but at least twice as many are needed to make the practices of any benefit and it would do the hearts of the well-wishers of the team good to have twenty or thirty men on the grounds tonight in uniform. Following a meeting of the club, communication with outside teams will be established with a view of making dates in advance for the games. It is likely that the Halifax Wanderers will be seen here this season, for the first time in recent years.

THE WEATHER.

Maritime—Fresh southerly winds; generally fair; not much change in temperature; few local showers to-night and on Friday.

Toronto, Sept. 22.—The disturbance which was centered in Missouri last night has since passed northward over Lake Superior, caused strong winds and gales over the Lake region, attended by heavy local rains.

Minimum and maximum temperatures: Winnipeg, 36-56. Port Arthur, 54-62. Parry Sound, 53-62. Toronto, 60-74. London, 62-72. Ottawa, 50-70. Montreal, 52-70. Quebec, 48-72. St. John, 48-62. Halifax, 42-72.

New England Forecast. Washington, D. C., Sept. 22.—Forecast—Showers Thursday and Friday, cooler Friday; moderate to brisk south winds.

English Mail. The English mail by the S. S. Oceanic via New York is due here at noon today.

Street Cars Delayed. Owing to a fuse burning out in car No. 43 at about 10 o'clock street car traffic was delayed for about 15 minutes near the corner of Charlotte and St. James streets.

Thirty-fifth Anniversary. The 35th anniversary of the founding of Peerless Lodge, No. 19, I. O. O. F., will be celebrated on Friday evening with an elaborate reception in the lodge rooms, Simonds street.

Enforced Holidays. Policeman Rankin is having a week of enforced holidays as a result of being struck by a stone on Sunday night. Policeman McFarlane is still on York Point, but alone. The injured officer is confined to his home in Union street.

North End Still Alarm. A still alarm was given yesterday afternoon for a slight fire in the rear of Mr. Charles Miller's house on Douglas Avenue. No. 3 chemical engine and the ladder truck responded and found that a fire had started in some dry grass at the back of the house and was spreading rapidly. The chemical fluid was played on it and it was extinguished before any damage was done. How the fire started is unknown.

Manitoba Flour Drops 30 Cents. Local wholesale flour dealers received word last evening that all brands of Manitoba flour had fallen in price thirty cents a barrel. Speaking with The Standard a house agent that the drop was owing to the new crop arriving at the mills. Although the crop this year was very large it is not expected that the price of flour will fall to any extent. Flour at the present time is almost one dollar a barrel dearer than it was at this time last year.

Carpenters' Union Anniversary. The Carpenters' Union will celebrate their 31st anniversary on Wednesday night with a supper at the Clarendon Hotel, Torryburn. This was decided upon at a largely attended meeting of the union in the rooms of Berryman's Hall last evening. Mr. E. Farren presided. The officers of the union said that the rumor to the effect that the union in St. John had been called upon for aid by the striking miners of Sydney mines was without foundation.

A Lady Angler. Miss L. Tweedie, of Sackville is in the city returning from a summer sojourn at Sandy Cove, Digby county. Miss Tweedie reports that there is good recreation in fishing for cod, haddock and pollock from a boat. Her own high water mark was sixteen of these large and vigorous fish, which supplied a fair amount of healthy exercise. Miss Tweedie is accompanied by Miss McCormack of Annapolis, who is joining the freshman class of Mt. Allison University. Her mother, as Miss de Bois, was a former Mt. Allison student.

Board of Health Cases. The postponed Board of Health cases came up again in the police court yesterday and all were finally disposed of with the exception of two. Edward Doyle, a milk vendor reported for not having a license was not in attendance and a summons was issued. Stephen Furlin, reported as the owner of unsanitary premises said he had ordered the necessary work done, and he was given until Monday to see that it was completed. The inspectors reported that the premises of Mrs. Annie Mullin and Miss Deborah Thompson had been satisfactorily attended to.

Schofield—Orchard. A pretty wedding took place last evening at the home of Mr. W. A. T. Thorne, Somerset St., the contracting parties being Mr. N. Schofield, of Portland, Me., formerly of Kings county, N. B., and Miss Rosella Kate Orchard, also of Portland, and formerly of Queens county. The ceremony was performed by Rev. A. B. Macdonald of Cambridge, Queens Co., assisted by the Rev. David Hutchison. A few relatives and friends witnessed the ceremony. After visiting in Queens and Kings counties, Mr. and Mrs. Thorne will go to Portland to reside. The bride is a sister of Mrs. W. A. T. Thorne.

A Mistaking Criticism. Referring to a despatch from Andover in which Mr. H. R. Boulton criticized adversely the report submitted on the examination of a sample of Andover water, Dr. Wm. Warwick said last evening that such statements would only come from a layman who had not a full knowledge of the subject. A chemical analysis of the water had not been asked for and the report submitted showed first that there was no typhoid fever bacteria; that there was no trace of sewage in the water; no pathogenic disease bacteria. The fact, however, that none of these were found would not necessarily mean that the water was good for drinking purposes.

LAMP EXPLODES DESTROYS PIANO IN QUICK TIME

Exciting Scene in Mr. Power's House, Dorchester St., Last Evening—Father Rescues Children From Danger.

Lamp exploded. Almost in the twinkling of an eye, a handsome upright piano in the home of Mr. J. M. Power, 33 Dorchester street, was totally destroyed by fire last evening, as a result of the explosion of a large parlor lamp which had been placed on the top of the instrument. The fire did not spread owing to prompt work of the firemen. Mr. Power's loss is fully covered by insurance.

A little before ten o'clock Mr. Power was sitting in the room reading by the light of the lamp when the flame suddenly flickered and the explosion followed. The oil was splashed over the piano and the woodwork was soon ablaze.

Mr. Power's first thought was for his two children sleeping in a room off the parlor, and the door of which was very close to the piano. Dreading the licking flames which sprang up with lightning-like rapidity, the frantic father dashed in and brought the children to safety.

By this time the fire had been noticed from the outside and an alarm was sent in at No. 3 engine house. Mr. Power is himself a member of No. 3 company and his fellow members soon had a stream of water playing on the blazing piano.

An enlarged picture of Mrs. Power, valued at \$10, and the piano were the only articles damaged in the room and the \$800 insurance with Messrs. White and Calkin will fully cover the loss.

There was only an interval of two or three minutes before the fire was out and the hundreds of people who hurried to the scene returned to their homes, thinking that a false alarm had been rung in.

BOTH IN HOSPITAL TYPHOID STRICKEN; HUSBAND DIES

S. H. Elderfield Passed Away Last Evening—Young Wife Kept In Ignorance—Bride Of Four Months.

Sad news is awaiting Mrs. Stronaid H. Elderfield, a bride of four months, who is ill in the hospital with an attack of typhoid fever. Last evening her young husband who was in another ward of the institution, stricken down by the same dread disease, died at 6 o'clock.

Mr. Elderfield was a native of England and came to this country only a little more than a year ago. He had achieved a considerable reputation in the Old Country as a cyclist. In May last the girl of his choice, whom he had left behind in England, came to this country and the wedding ceremony was performed in the city.

A few weeks ago the young man was attacked with typhoid fever, and his case proved one of the most serious. When the young wife was called away last evening the doctors decided against informing Mrs. Elderfield that she was alone in the world. If she recovers she is expecting a happy reunion only to find herself a widow.

The late Mr. Elderfield has a brother, Frank, in Campbellton who has been informed by telegram of his brother's death. The deceased was a member of Marlborough Lodge, Sons of England, and the secretary of the lodge has taken charge of the funeral arrangements.

MANCHESTER ROBERTSON ALLISON, LTD.

TREED BY A MOOSE UNTIL RESCUED BY A TIMELY SHOT

Fred Day Had Exciting Experience in Miramichi District—Game Fight Made Him Lose His Nerve.

That the moose is not the most docile of creatures to hunt was rather forcibly illustrated to Mr. Frederick Day in the Miramichi district one day last week. Mr. Day, with a companion, Mr. Norris Day, started out one morning to locate a moose. He is usually considered a good shot, but when he sighted a handsome specimen of the monarch of the woods, he became affected with what is known among sportsmen as game-fright and was unable to shoot.

The moose, however, did not seem to be affected with any form of indecision, and made a rush for the hunter, who thinking that discretion was the better part of valor, climbed up a neighboring tree. His moose-ship did not appear to be especially pleased that his victim had escaped and vented his spite by butting viciously against the tree in an effort to dislodge the sportsman.

Mr. Day's companion in the meantime had been scouring the woods in search of small game, and hearing the shouts ran in the direction of the tree. Sizing up the situation he gave the moose a dose of cold lead which finished him.

On being assured that the moose was dead, Mr. Day climbed down from his perch. On examination the moose was found to be a handsome specimen with a perfect head and set of antlers. Mr. Day intends to have the head mounted and will preserve it as a memento of a thrilling experience.

Drinking Water Being Analyzed. A pathological examination of the city's drinking water is in progress, but it may be some weeks before the results are announced. It is understood that samples of the water have been taken from various points throughout the city and the examination left with Dr. Wm. Warwick, pathologist at the public hospital. Should bacilli be discovered in the water, cultures will be made and the germs identified. It is quite possible that the typhoid bacilli may exist in the water and not be detected. The presence of sewage, however, can be easily traced, and the inference is drawn wherever typhoid exists and sewage is found in the water that the water is responsible for the epidemic. The examination of the water will be continued at stated periods. As the first tests are only begun, no report is expected for some weeks.

Archaeological Society. The St. John Archaeological Society will be formally launched tonight at a meeting in the Natural History rooms, following a lecture by Prof. Wilson of Baltimore on "Recent Discoveries in Rome." Those interested in the formation of a branch of the Archaeological Institute of America here have succeeded in securing the consent of nearly fifty gentlemen to join the society and with this nucleus the branch can be formed. Prof. Wilson and Dr. Judson Eaton of Montreal returned yesterday from Halifax where they were very successful in organizing an Archaeological Society. The officers in Halifax are: President, J. Y. Payzant; Vice-presidents, Sir Malachy Daly, President Forrest, Dr. C. F. Fraser; Secretary, Rev. J. W. Falconer; Treasurer, D. Macgillivray; Executive, J. W. Allison, O. E. Smith, G. S. Campbell and Dr. Frank Woodbury.

Band Concerts. The City Cornet Band gave another of their enjoyable concerts on King Square last evening. On Friday night the Artillery Band will give a concert in the bandstand.

SUIT TO RECOVER NINETY-NINE HIDES ALLEGED MISSING

In Circuit Court Today Case Of C. H. Peters' Sons vs. William Barbour Will Be Tried.

When the Circuit Court opens this morning at ten o'clock the jury case of C. H. Peters' Sons vs. William Barbour will be commenced. The plaintiffs claim that they stored a large number of hides in the defendant's bonded warehouse, Victoria wharf and when they went to get them there was a shortage of ninety-nine hides.

The defendant claims that the plaintiffs received all the hides which they stored. The plaintiffs say that the warehouse receipts for the ninety-nine more hides were stored there were returned.

The action is for the return of these hides or their equivalent in money. Messrs. Hamington and Hanington and Mr. M. G. Teed, K. C. will appear for the plaintiffs and Hon. J. D. Hazen, K. C., and Mr. W. A. Ewing, K. C., for the defendant.

FINDS RESIDENT OF 100 YEARS AWAY ON TRIP TO ENGLAND

William S. Marvin Returns From First Visit To North Shore—Was In Search Of Records.

Mr. William S. Marvin of this city has returned from a pleasant tour of the Gulf shore including visits to relatives and friends at Shediac, Newcastle, Chatham, and other points. In his seventy-seven years of life in this province Mr. Marvin had gone that way before and he was naturally surprised and pleased to find such substantial towns on the Miramichi.

He was anxious to find some survivor who remembered the Miramichi fire of 1825, but that part of the exploration was in vain. There was a resident of the Newcastle district, understood to be an even hundred years old, who could have told all about it, but it chanced that he had taken a vacation trip to England.

Wanted to Fix Damages at 5 Cents. It is understood that the jurymen in the case of Lowell vs. Gray which was decided yesterday, were at first about evenly divided, as to whether or not Mr. Lowell should be awarded damages. It was finally decided to give nominal damages only. One jurymen, it is said wanted the amount to be fixed at 5 cents, but his desire was overruled by some of his more generous companions and \$1 was the amount finally agreed upon.

Lord Charles Agrees With Mr. Potts. Mr. Thomas Potts printed in pamphlet form the letter which he addressed to the congress of Chambers of Commerce and which was printed in The Standard. A copy was sent to Mr. Chamberlain who replied thanking the writer and expressing his interest in the observations. Hon. Geo. E. Foster replied in some detail agreeing with most of Mr. Potts' conclusions. Yesterday Mr. Potts received a letter from Lord Charles Bessford, written from Toronto. After expressing his thanks Admiral Bessford said: "I am very glad to see that we agree so heartily on the question of Imperial defence as a whole."
