While going over our DRESS GOODS this last week we thought we had too many pieces between the prices of 75c. and \$1.25 the yard. Our usual plan when we find a surplus is to reduce the same at prices that will clear quickly. The goods are not damaged in any way and are splendid values at the marked prices, but now the price flops down to

49c and 69c for this week only.

If you want DRESS GOODS buy now, as prices will go back to what they were at the end of the week.

From June 14th to 21st

Sale Prices 49c. and 69c.

THE BEERSVILLE COAL MINE.

Thirty Men are now Employed and Twenty tons are Mined per day.

1200 FEET UNDEGROUND

A Fine Quality of Coal which is Being Shipped to the I. C. R.

Although Beersville is practically only a few miles from Newcastle we wager that few of our citizens have visited or even know that there is at that place one of the best coal mines in the Dominion. The coal is there in large quantities and of exceptionally fine quality for house and steam purposes.

An Advocate representative paid a pleasant visit to the mine last week and found things progressing favorably, but not as energetically as it might be, as the management seem to be unable to hire miners.

The mine differs from the usual conception of a coal mine as there is no deep shaft to descend in a cage or bucket but is a level tunnel dug into the side of a hill. This tunnel is hardly high enough to enable one to walk uprightly and is about twelve hundred feet long. Therein the miners are employed digging the coal which is loaded on tram-cars and hauled to the mouth of the tunnel.

At present the entire output of the mine is sold to the I. C. R.

It is the hope of the company to further develop and increase the output of this property.

Mr. C. W. Dean, the accountant received the Advocate representative very courteously and showed him over the premises.

HERE'S THE LATEST POLITICTL RUMOR

Toronto World Says Hon. Mr. Emmerson is to Take G. T. P. Chairmanship.

Toronto, Ont., June 11—An Ottawa special to the World says: "There is a report circulating round parliament lobbies that the government has decided on a man to fill the vacant chairmanship of the Trans-Continental Railway Commission. This man is no less a person than Hon. Mr. Emmerson, the present minister of railways."

Mr. Emmerson's successor, as a cabinet minister, is said to be Hon. Mr. Pugsley, the present attorney general of New Brunswick. There appears to be very good grounds for accepting the report as authoritative.

It is expected that the appointment of Mr. Emmerson will take place as soon as the session is over, and Mr. Pugsley will also be taken into the cabinet at the same time. The new minister will see election in Mr. Emmerson's old seat.

The report bears many of the hall-marks of truth, as the chairman of the commission by the natural order of things, must come from the Maritime Provinces."

The Calvin Austin broke another record in his last trip to St. John. From Eastport to St. John, a distance of 49 miles, the steamer covered in 2 hours and 49 minutes. This gives the Austin the records between the four points of call—Baton, Portland, Eastport and St. John. Some time ago the Austin steamed from Portland to Eastport in 10 hours and 22 minutes; and from Portland to Boston in 5 hours 48 minutes. This would give a record of less than 19 hours run from St. John to Boston, providing no stops were made at Eastport and Portland for other than passengers.

A GOOD SHOW WELL CONDUCTED

Sells & Downs Show Made a Fine Impression on its Many Patrons

THOUSANDS ATTEND.

Many Good Features of the Show—Clean, Amusing and Instructive Performance

The great Sells & Downs show one of the largest on the road, arrived here last Thursday morning about 4.30 from Bathurst. Two trains of thirty seven cars are used in transporting the menagerie and circus paraphernalia. The unloading was a sight in itself. The men worked in a quiet manner, and understood their work thoroughly. There was no loud talking or use of profane language and everything went along smoothly so that by 10.30 the street parade was under way. This was witnessed by a big crowd of spectators, showed everything to be in fine shape, bright, clean and new. The cavalcade made an imposing appearance and created a splendid impression. The wagons were all newly painted, the costumes of the horsemen and horsewomen were resplendent and attractive and everything about the procession bespoke of prosperity and enterprise.

Many cages of wild beasts were open and gave the spectators a glimpse of what they may expect to see in the menagerie. A large herd of camels and two elephants Queen and Baby, were features of the parade that could not be overlooked. Three bands furnished aerial circus music, the clown band provided a lot of fun and a steam calloper rendered merry tunes.

The horses were exceptionally fine—and in this country where good horses are appreciated and known, praise was bestowed on the beautiful teams in the parade. There were about two hundred and fifty and not one had a blemish.

The show in the afternoon drew a crowded house their being hardly a vacant seat. It is estimated that there were at least three thousand people under the great canvas. The circus performance was replete with startling novelties, including tumbling, trapeze work, acrobatic feats, riding, aerial acts, barrel jumping, bicycle acts and scores of other marvellous performances. The entertainment is clean and wholesome and should find favor among the most fastidious.

Several of the acts, which were so thoroughly enjoyed because of their novelty and their amazing nature, were the three Silvertons, wire artists; the Rochette Brothers, who beat the world as barrel jumpers.

The Martil Family bicycle riders were loudly applauded. They certainly were wonders. One little tot of not more than three years was a clever artist as were the whole family.

The Berry trio, two men and a young woman, acrobats, gave a performance that has never been excelled. Madam Berry does the famous "human bridge," in which she is suspended in the air between the two heads of her assistants, and is whom she is alternately raised and lowered.

The Six Flying Banavards, in a series of stunts, which makes the audience fairly gasp for breath; the thrilling "hurdle" races, which have been revived and converted into brilliant features; and Mike Koonce in his wonderful sumo wrestling act while riding bareback, are among the other pleasing features. The shows are very funny, and kept the entire audience amused with their antics.

The Silvertons in the wire walk were marvels and received merited applause.

The band was good as a circus band should be. It was under the management of Prof. C. H. Tinney, and we might add that the music was not in keeping with his name, but of a very high order.

The after concert was well patronized. A large portion of the audience staying to it. It had many excellent features. The menagerie was not numerous, but contained some fine specimens of wild animals.

The side show, with its wild men was a good attraction and was well patronized. Will Mitchell is press agent for the show, and proved himself one of the best in the business by his courteous and gentlemanly treatment of all who had business dealings with him.

Altogether circus day here was a very enjoyable one, being entirely free from any disturbances which usually are so prevalent when such a large crowd of people are assembled. The town official, chief of police and special constables are to be congratulated on the quietness of the day and evening.

"Windig doesn't seem to be as bigoted as he was, remarked the man who had been out of town for six months. He used to think he knew it all."

NOW LOOKS LIKE PEACE

Late Press Despatches Point to the Opening of Negotiations.

RUSSIA AND JAPAN

Are now Anxious for Peace and it is thought that the War is Over.

Washington, June 12—The official assurance that the President's efforts to bring Russia and Japan together to discuss peace will be crowned with success was brought to the White House today by the Russian ambassador who called by appointment and in the name of the Emperor formally accepted the President's "offer of good will." It is intimated officially that an agreement as to the place of conference may be determined in a few days but no suggestion except of a negative character of the choice of either belligerent is obtainable. Official assurance is given that at present the response made by Japan to the President's note will not be made public from Washington in its precise form, inasmuch as the Russian reply is not available in a similar form. Negotiations between Washington and St. Petersburg and between Washington and Tokio are in progress and final arrangements for the place of conference in its essential details are likely to be a question of only a few days. As soon as arrangements are completed an armistice will be agreed upon and the great armies in Manchuria will lower their bayonets pending the final negotiations of peace.

Tokio, June 12—Official announcement is made at the headquarters of the imperial army that a detachment of Japanese cavalry succeeded in dislodging the Russian cavalry near Hsuyingtu, six miles south of Liao Yang, and Wobungu Hsuyingtu, two miles south west of Hsuyingtu, was occupied. Another force defeated the Russians near Siaoehengtu, 18 miles north of Kingking, and Koochia Wheng, two miles north east of Siaoehengtu. An eminence was occupied north at Siaoehengtu, two miles east of Koochia Wheng and ten miles west of Liao Yang Wheng.

PROMPT ACT SAVES CHILD.

Driver Jas. King Saved Child's Life by Presence of Mind.

A COURAGEOUS ACT.

A report comes from Campbellton of a little child being snatched from certain death by the courageous act of an I. C. R. driver. While a special train was running into Campbellton on Friday last, driver James King, who was at the throttle, spied a little girl playing in the middle of the track totally unconscious of the impending danger that threatened her. Realizing the situation driver King quickly applied his brakes and took all possible means of bringing his train to a standstill before reaching the tot. It was soon apparent, however, that the heavy train could not be stopped in time to prevent running over the child and the engineer with great presence of mind resolved upon a courageous attempt to save the little one. The speed was considerably checked before the engine neared the spot where the child sat, and driver King by climbing out through the cab window and running along the foot board, was able to leap from the front of the locomotive, snatch the little girl from the track and bear it out of harm's way as the engine and cars thundered by. The train ran the length of itself or more past the spot before coming to a standstill, but those who witnessed the thrilling episode breathed a sigh of relief as they realized the gallant effort that had averted a fatality.

The mother of the child was an eye witness to the perilous situation of the little one and the heroic act of the engineer that restored it to her arms. The episode occurred in a very few moments and when the mother fully realized the close call her child had had, she swooned away.

Driver King after his gallant conduct boarded his engine and continued his run into Campbellton station. Needless to say he was given due credit and great praise for his presence of mind and splendid behaviour in saving the little one from such a shocking death.

TO THE TEACHERS OF THE MARITIME PROVINCES

The Nineteenth Annual Session of the School of Science for Atlantic Provinces will be held at Yarmouth, N. S., from July 11th to 28th, 1905. Some idea of the magnitude of the work done by this School and of its increasing popularity may be gathered from the fact that for the last twelve years, the Average Annual Attendance has been 160 Students with staff of ten or twelve regular instructors and five or six special lecturers each year. The School at Yarmouth this year promises to surpass all previous years both in point of numbers and excellence of equipments and provisions made for carrying on the work.

The magnificent new Academy with its splendid outfit, supplemented by the extra equipment of the School, will be at the disposal of the students.

The Teaching Staff is made up of the best men from the three Provinces.

Among those who will take part in evening lectures and round table talks will be Principal Soloman, Normal School, Truro, Dr. Hall, Truro, Dr. MacKay, Dalhousie College, several of the District Inspectors, with two or three special lecturers not yet arranged for.

The course of Study will include Physics, Chemistry, Geology, Mineralogy, Botany, Zoology, Physiology, Entomology, Literature, Drawing. The work will be of the most practical discussions in which teachers will have an opportunity of observing the best methods of conducting classes, and of gaining help with those difficulties which often confront them in their schoolroom.

Catalogues or any further information regarding the School may be obtained from the Secretary, Prin. Campbell, Academy, Truro, N. S.

DALHOUSIE IS AMBITIOUS FOR FULL INCORPORATION.

Full Town Rights Wanted by the Ratepayers—Logs Break Away but are Recaptured—The Steamer Lady Eileen.

Dalhousie, N. B., June 7.—Over two thousand people took in the Sells & Downs circus, in Campbellton, yesterday. Their large tents were placed on George Duncans ground in the town limits near the station. The weather was beautiful and the visitors enjoyed their trip to Campbellton. The circus, including a street parade, was good and the best of order prevailed throughout the day.

Over five thousand logs broke away from the Champoux boom, opposite Campbellton, last week and drifted down the Restigouche river and Bay Chaleur. After considerable trouble and expense over four thousand were saved.

A Times correspondent made a thorough examination of the S. S. Lady Eileen yesterday at the Campbellton wharf, and had an interview with Captain Pouliot. With some slight changes the steamer is well equipped for the

Restigouche and Gaspé route. During her last trip she carried fifteen carloads of mixed freight. She is very comfortable for passengers. It is said that a change in the time table would suit tourist travel much better and the boat would remain at Campbellton over Sunday instead of Gaspé Basin.

James Reid, M. P., was in Campbellton yesterday with the Dominion government engineer from Chatham completing arrangements about wharf building. The Dominion government dredge is on the Restigouche to work at the harbors of Campbellton and Dalhousie. She will also dredge the channel between Dalhousie and Campbellton.

There is considerable talk among the ratepayers of Dalhousie about applying for incorporation under the Town's Incorporation Act. At present the town is incorporated for fire, light, water and police purposes only.

"Did I understand you to say you had played poker out west?" was asked of the man who had been telling about the prairies and mountains.

"Yes, I played once for about an hour," was the reply.

"Was the game interrupted by a land slide or something?"

"Oh, no! We had a pot of about \$30 on the table when I got four aces in my hand. We bet and raised until there was \$100 before us and then I called."

"And raked in the money?"

"Well, no. I was going to, but the other fellow showed me that he held five aces, and so I wouldn't play any more. It was evident that the western way was not my way."

Keep Minard's Liniment in the house.

King Edward At Marienbad.

Looking very much like a prosperous Wall street banker, the King of England went by with a remarkably spry gait for a man of threescore.

You look after him with the rest, and if you are very curious you join in the thronging crowd that dogs his movements. The King is very popular. The poor Polish Jews fairly worship him, for he is said to be sympathetic.

As if the earth contained no bomb throwing assassins, the King of Great Britain and Emperor of the Indies comes down every morning of his two week's sojourn at 7 o'clock precisely.

His valet hands him a glass tube and a red napkin. He starts to drink, to talk, and if the day is fine, to laugh. Such a hearty, unaffected laugh, do you not often hear from the lungs of a young man. Everything amuses him. He has forgotten affairs of state, forgotten, too, tedious ceremonial. He wears a loose fitting flannel or tweed, and sports an Alpine stalker upon his Imperial brow. When he stops several thousand people stop; when he pauses to pay a pretty girl in the Colonnade a compliment, a gratified murmur is heard in the vast mob. He has done a popular thing, and that girl is marked for life.

Fortunes in Peculiar Places

It is only a few weeks since M. Bousigne, a Parisian, discovered a nice little treasure concealed in one of the very last places where he would have expected to find it.

He had inherited from an aunt a small statuette to which he attached very little value, but which nevertheless he placed as an ornament in one of his rooms.

As luck would have it, his maid in dusting the statuette one day dropped it on the floor, and presto! out rolled from its hollow interior a package which on examination proved to contain notes of the value of over \$2000 as well as a costly diamond ring.

A few years ago an art collector of Kharkoff in Russia, purchases a statue of the Appollo Belvedere of which he was very proud. One day his children, when playing, us the statue beyond all possibility of repair. The father was furious, but on examining the pieces he found concealed in a hollow limb a roll of Russian bank notes of the value of 3009 roubles.

NHE CZAR'S INSURANCE

The Czar has been the most active recent risk in English companies says a writer in Leslie's Monthly for June. Up to a week before last Christmas, the rate on his life was five percent, per annum. On December 29th, holders of Russian bonds, who insured him with Lloyds for some tens of thousands of pounds had to pay fifteen percent, for a policy running only ten months. After the assassination of Grand Duke Sergius and the Terrorist threat to wipe out the Imperial family, the Czar suddenly retired from activity as an insurance risk. Nobody wanted him at the price the underwriters placed on his life.

TWO OPEN LETTERS

IMPORTANT TO MARRIED WOMEN

Mrs. Mary Dimmick of Washington tells how Lydia E. Pinkham's Vegetable Compound Made Her Well.

It is with great pleasure we publish the following letters, as they convincingly prove the claim we have so many times made in our columns that Mrs.

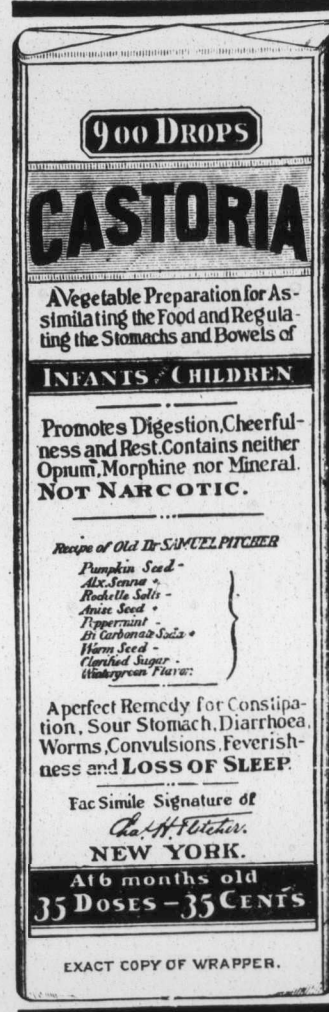

Pinkham, of Lynn, Mass., is fully qualified to give helpful advice to sick women. Read Mrs. Dimmick's letters.

Her first letter:
Dear Mrs. Pinkham:—I have been a sufferer for the past eight years with a trouble which first originated from painful menstruation—the pains were excruciating, with inflammation and ulceration of the womb. The doctor says I must have an operation or I cannot live. I do not want to submit to an operation if I can possibly avoid it. Please help me.—Mrs. Mary Dimmick, Washington, D. C.

Her second letter:
Dear Mrs. Pinkham:—You will remember my condition when I last wrote you, and that the doctor said I must have an operation or I could not live. I received your kind letter and followed your advice very carefully and am now entirely well. As my case was so serious it seems a miracle that I am cured. I know that I owe not only my health but my life to Lydia E. Pinkham's Vegetable Compound and to your advice. I can walk miles without an ache or a pain, and I wish every suffering woman would read this letter and realize what you can do for them.—Mrs. Mary Dimmick, 6th and East Capitol Streets, Washington, D. C.

How easy it was for Mrs. Dimmick to write to Mrs. Pinkham at Lynn, Mass., and how little it cost her—a two-cent stamp. Yet how valuable was the reply! As Mrs. Dimmick says—It saved her life. Mrs. Pinkham has on file thousands of just such letters as the above, and offers aiding women helpful advice.

THE END IN SIGHT.

The civilized world will welcome the news, that the movement in the direction of peace, appears to have at last reached a hopeful stage. The proposals said to have been already broached are of course only tentative and negotiations between the belligerents are of so delicate a nature that it would be idle to predict what the outcome of the present diplomatic activity will be. The apparent change in the attitude of the Czar is however, a very hopeful sign, and if he proves strong enough to overrule the war clique, with which he is surrounded, we may hope for a cessation of hostilities at an early date.

If the Russian Government has any statesmanship left, it will yield readily to the almost world-wide demand for peace. Russia has nothing to gain and much to lose by a prolongation of the struggle which has cost her so dearly in blood and treasure. She is hopelessly beaten on land and on sea, and a continuation of the war will inevitably lead to still more bitter defeat and fresh humiliation. It is difficult, we know, for a proud nation, smarting under repeated defeats, to abandon hope of ultimate victory and that, more than the exacting terms which the triumphant Japanese will undoubtedly demand, is we believe, the chief obstacle in the way of peace.

The Press despatches now indicate that the plenipotentiaries will meet in Washington to negotiate a treaty of peace, and, if the report that Russia now admits in principle that the demand for an indemnity is justified is correct, there should not be any insuperable difficulties in the way of arriving at agreement.

Only vague hints are given as to the terms upon which Japan will insist. These, it is suggested in London, will include the acknowledgment of a Japanese protectorate over Korea, the complete evacuation of Manchuria by Russia, the transfer of Russian interests on the Liaotung Peninsula and at Port Arthur, and the cession to Japan of the railroad from Port Arthur to Harbin. The question of the possession of the island of Sakhalin will certainly be raised and Japan will no doubt make out a strong claim for the cession of that strategic position.

The amount of the indemnity which Japan will demand will, it is evident, depend upon the way in which the foregoing questions shall be settled and to some extent upon the condition which shall be imposed as to the control of the Far East. But all this is speculation. If the belligerents are brought together, a good beginning will be made and the making of a durable peace may safely be left to the wisdom of the contracting Powers.

Hon. J. W. Longley, attorney general of Nova Scotia, has been appointed to the Supreme Court bench of that province. He fills a vacancy which has existed for some time.

There is a humorous aspect to the glorification of President Roosevelt in the press despatches from American correspondents, and one might almost be pardoned for believing that the thought of peace between Russia and Japan had occurred only to the president, who made haste to announce the fact, and that all other nations, including the belligerents, suddenly discovered it would be a good thing to talk about.

MR. HUTCHISON IS INTERVIEWED

Says that the Frederiction Estimate of 30 Millions is Too Large

FIFTEEN MILLIONS STUCK.

E. Hutchinson, the prominent lumberman of Douglastown N. B., who, with his wife, is registered at St. John, told a Telegraph reporter last night that the stories that thirty million of lumber was hung up on the Miramichi make entirely too large a calculation.

"There is not a stick hung up on the main river," said Mr. Hutchinson, "but there are about fifteen million on the branches. The J. B. Snowball Co. has about two million five hundred thousand hung up on the Little Sevege, and on the Big Sevege and branches. The Edward Sinclair Co. and D. & J. Ritchie & Co. have about two million each tied up. Then on the Little Southwest there is some more hung up. Ritchie has four or five million, and myself two and a quarter. Timothy Lynch & Co. a million and a quarter, Geo. Burchill & Sons also have one and a quarter, but as they are down to White Rapids, they will probably come out. Ritchie may possibly get a million out but I doubt it."

Asked how the lumber shipments on the North Shore this year would be effected, he said: "The shipments will equal if not surpass, last year's for the reason that there were considerable logs and deals wintered over from last year. There were he thought, between forty and sixty million deals, and twenty million logs, and the latter, he says are out. Mr. Hutchinson says that he had about seven million wintered over himself."

There were, he says, between four and six million feet hung up last year, but last year was a short cut anyway, and the stranding was felt almost as much as the shortage this year in spite of the fact that this year's tie up is more than twice that quantity.

The most of the shipments, Mr. Hutchinson thinks, will be about the latter part of July or first of August.

A prominent lumberman, talking with the Globe to-day, gave it as his opinion that the building of the Grand Trunk Pacific will give a great boon to the lumber shipping business through the port of St. John. In the opinion of this gentleman the route selected will be that through the centre of the province to Chipman and thence to Moncton. This line will go through some of the finest timber lands on the Tobique and the head waters of the Miramichi and will open up timber lands that have never yet been reached by the woodman. The lumberman said it was his opinion that the operators on the head waters of the Miramichi would erect mills along the line of Railway and ship their manufactured product to St. John by rail instead of driving down the Miramichi. The advantage would be that they would have an open port all the year round from which to make shipments. Now there is only about seven months in which vessels can reach the Miramichi ports. St. John will be as good a port as any on the Miramichi for the shipment of merchantable lumber and better for the sale of laths etc., while it will also afford a market for birch, which cannot now be shipped from the Miramichi. In the view of the lumbermen, the lumber business of the Miramichi will come to St. John over the new line, and he said he would not be surprised if Tobique lumber also came here by rail from mills on the head waters. If this prediction should prove correct there will be a large increase in the yearly lumber shipments from St. John and more work for our lumber dealers, laborers, etc., all of which means growth and development for St. John.

Yes, replied his friend, but he was accepted as a juror at the last term of court.

WON GOVERNORS SILVER MEDAL.

Miss Bessie Parker of Millerton
Attained Highest Professional
Standing.

At the public examinations of the Normal School Friday afternoon Principal Crockett announced that Miss Bessie Parker of Millerton, Northumberland County, was the winner of the governor general's silver medal for the highest professional standing in the senior class, and the governor general's bronze medal for the junior class, has been won by Miss Mary Crisp of Gibson. The announcement was greeted with very hearty applause.

There was no presentation, the medals not having yet been received.

Miss Bessie A. R. Parker was the Valedictorian of the class.

MANY FIRES INJURING FORESTS

Serious Fires Burning Near Blackville on Lands Owned by the Gibson Co.

MEN TO FIGHT FLAMES

Desperate Efforts Being Made to Check Progress and Save Valuable Timber Lands.

Blackville, June, 10.—Very serious forest fires are raging on the Alexander Gibson Company's lumber lands in a westerly direction from Weaver's siding on the Intercolonial Railway. Weaver's is seven miles southwest of Blackville and the fire is twenty miles from here on land regarded as a very valuable property. The smoke in this direction is very heavy and the indications are that the fire is covering an extensive section of territory. Word of the fire reached the village last night and immediately arrangements were made to get off to fight it. The two Gibson mills here are closed down today, and their crews, about 80 men, went to the woods to give all possible assistance. The Swin mill at Doaktown was also closed down, and their crew sent out to fight the fire. What progress they have made your correspondent was not able to ascertain to ascertain, but the atmosphere as deeply clouded with smoke now as it was three hours ago, and it is feared that nothing short of a heavy rain will stop the progress of the fire and save some of the most valuable lumber lands on the Miramichi from total destruction. The fire is certainly a very serious one. There is a belief that the woods were set on fire by some designing persons, and there is talk of arrest being made.

FROM DOAKTOWN.

Doaktown, June 10.—A moderate breeze is blowing just enough to fan the flames; the smoke is thickening and very serious results are feared. The fire will certainly spread unless rain comes. The lands are mixed hardwood and softwood.

The loss will amount to a good many thousands of dollars. The fire is about Otter Brook, running thence to Rocky Brook. The whole woods in that vicinity are ablaze.

There are about 150 men now fighting the fire and at ten o'clock this morning the flames were about three miles northwest of the Intercolonial track at Weaver's. Fire Warden Price is endeavoring to locate the persons responsible for the starting of the fire, and it is now said that Joe Cherant of Bartholomew river and a man named Fitzsimmons of Weaver siding are the men upon whom he has his eye.

LATER.

The heavy rains have extinguished these fires after considerable damage had been done.

JUNE WEDDINGS

SULLIVAN-COUGHLAN.

A very pretty June wedding took place at 8.30 o'clock Wednesday morning at the Sacred Heart church when Clifford B. Sullivan of Roxbury, Mass., and Nellie M. Coughlan of this city were united in the holy bonds of matrimony. The very large crowd present lent an unusual air of impressiveness to the services. Father Rice was celebrant of the mass while Father O'Dowd officiated at the ceremony. The bride was gown in white crepe de chine over white silk and had to match and carried a white Prayer Book and presented a very fascinating appearance. Her bridesmaid was Miss Bella Lynch, who was attired in blue silk muslin and also looked very attractive. The best man was John J. Delaney of Boston. They presented an attractive appearance as they marched up the aisle to the strains of a fine wedding march played by Charles McDonnell, who conducted the music, assisted by Miss Mary Twigg and members of the Sacred Heart Choir.

After the wedding the bride and groom held a reception at the home of Mrs. Blodgett, 31 Winter street where they received their friends who had assembled to pay their kindly respects and good wishes. The rooms of the house were prettily decorated for the occasion and there were flowers in profusion. In one corner of the room was a table loaded with the innumerable presents that the happy young couple received from their admiring associates. There were many out of town friends present who had come to attend the wedding. The brides going away dress was of blue Panama cloth with hat to match. Mr. and Mrs. Sullivan will make their future home in Roxbury, Mass., and their many friends in this city will be continually interested in their welfare wishing them the best of good luck and prosperity for the future.—Portland Express.

The contracting parties are natives of the Miramichi and are well known here.

A CALL TO PRAYER

General Booth has Appointed A week of Prayer from June 10 to 17th.

TO PRAY FOR PEACE.

General Booth has cabled from Australia to the Salvation Army throughout the world to observe the week ending Saturday June 17th as a week of Special prayer for peace.

The following is an extract from the General's message:—"It is my earnest desire that you will observe, and I hereby appoint the week from Saturday 10th to Saturday 17th of June to be observed as a time for special intercession, that in His Infinite mercy, God may be pleased to move the hearts of the rulers and people concerned in the present war, that peace may be restored, and that His name may be honored."

"Every spar of real benevolence the world contains, pleads for peace in the spirit of Jesus Christ, the highest interests of the two nations; the wounded thousands in the hospitals; the lonely captives in the prisons; the very dead in their graves on land, and asleep in the deep waters; the almost numberless orphans and widows who helplessly weep; the countless multitudes doomed to perish if the slaughter continues. All I ask is that you should pray for peace. Surely the honor of Russia, and the advantages sought by Japan must now be satisfied in the name of God and humanity. I plead that the powers of Europe and America shall represent reasons for bringing this bloody strife to an immediate termination."

Comrades, whatever may be the right method of settling the disputes of nations, this dreadful hatred and carnage and desolation cannot be God's way. Upon this we must all agree. Let us then appeal to Him to bring it to an end, and let there rise from every Army home, nay, from every heart in which there is shed the love of Christ who died alike for our dear brothers of both these great people, a ceaseless cry to the heart of our God so stretch out His hand to interpose in His strength to end the strife."

RICHARDS CO. SELL PROPERTY.

Valuable Timber Lands on Taxes River and Boiestown to Change Hands.

For some time negotiations have been going on for the transfer of the large tracts of land on the Miramichi now held by the William Richards Company, Ltd. Several representatives of different large pulp and paper companies of the United States have been here, and looked over the properties.

In March last the Bayless Pulp & Paper Company of Binghamton, N. Y., sent down a number of their directors, headed by George C. Bayless, President of the concern. They inspected the property and Mr. Bayless said at the time that he was much impressed with the tracts of land which they had cruised. The Bayless Company at that time secured an option on the property, which option has since expired.

A short time ago President Chrisholm, of the International Paper Company accompanied by several of the directors of that big concern was here. The party spent several days in inspecting the properties at Boies town and on the Miramichi and passed through here enroute home. In the meantime they secured an option on the property. The amount of the option was between \$600,000 and \$700,000 and it is understood it will expire on the 15th of this month. The property includes altogether about 160,000 acres. Part of it, about 115,000 acres, is on the Taxis river and it is all excellent timber land.

Yesterday the William Richards Company received a telegram asking them if they would send an authorized representative to New York to close arrangements for the transfer of the property. In response to this message Mr. H. H. Gunter of Boiestown and J. H. Ruddle of Chatham left last evening for New York. It is thought that today or tomorrow the transfer of the property at the figures of the option, somewhere about \$800,000 or \$700,000, will take place at New York. If the company takes over the property they will at once install an up to date lumbering plant and within a few years they propose to build pulp and paper mills. Their headquarters will probably be at the mouth of the Taxis river on the line of the I. C. R. or else at Chatham and they may have offices in this city.

When Mr. Bayless was here he expressed the opinion that the lands would be much more valuable to his company if the Grand Trunk Pacific did not adopt the centre route, which would go through the property.—Gleaner.

NO FAKIRS ALLOWED HERE

The Usual Crowd of Circus Fakirs did not Open up Here.

POLICE WERE ALERT.

Town Officials Took Prompt Measures to Protect its Citizens and Visitors.

Mayor Miller received word on Wednesday last that more than the usual crowd of fakirs were following the big Sells & Downs circus and prompt measures were at once taken by the police committee and officials to put a stop to those here.

It was reported that at Campbellton and Bathurst, where no restriction was placed on these gentry they skimed every one who ran up against them, one working man at Campbellton is said to have lost \$190.00.

Thursday morning Chief of Police Thos. Hill was on duty with a large number of special police.

At an early hour the fakirs showed their hand but were promptly ordered to close up or they would be arrested. This they did and as they were closely watched no faking was done during the day.

The town is to be congratulated that it had officials who dealt promptly with this matter as it means thousands of dollars saved to the country.

DIST. MEETING

The Chatham District of the Methodist Church.

MET AT CAMPBELLTON

Good Reports From all Congregations — Public Meetings.

The annual meeting of Chatham District of Methodist church was held here on Tuesday and Wednesday of this week, the ministers in attendance being as follows:—

Jas. Stothard, Chatham, Chairman.

J. S. Gregg, Derby, Financial Secretary.

Hammond Johnston, Newcastle.

Richard Opie, Bathurst.

Aquilla Lucas Buctouche.

J. F. Estey, Richibucto.

E. S. Weeks, Tabusintac.

H. E. Thomas Campbellton.

J. B. Champion, Harcourt.

The ministerial sessions were held Tuesday morning and afternoon at which the usual routine business was transacted.

On Tuesday evening a public meeting was held presided over by the chairman.

An address on the question Why did Jesus Die? was delivered by Rev. J. F. Estey, showing in a most conclusive and scholarly manner that Christ died for the sins of mankind.

Rev. J. S. Gregg also spoke on the significance of the "Lords Supper" setting forth that it was more than a memorial, inasmuch as it was a pledge of Christ's interest in the believer and an acknowledgement on the part of the participant of a desire to enter into vital union with Christ.

The Sacrament was then dispensed by Rev. Jas. Stothard, assisted by Rev. H. E. Thomas.

On Wednesday the open sessions of the District were held, there being only two day delegates present T. A. Clark from Newcastle and J. T. Reid from Campbellton. Rev. A. Lucas was elected Journal Secretary with E. S. Weeks as assistant.

In the evening a public meeting was held addressed by Rev. H. Johnson and Rev. R. Opie, Mr. Johnston's address was a strong and forceful plea for the old time Pentecostal revival. The so called popular preaching of the day was not accomplishing its purpose of reaching and holding the men of the churches, hence there was urgent need to return to the simple story of the cross. That is the kind of revival we need.

Rev. R. Opie's address on the Baptism of the Holy Ghost was also impressive.

After the public meeting the district came to order and took up the routine business, and passing of circuit reports and schedules the session being continued until well into Thursday morning.

The membership for the district shows an increase of 23 over year, the total number being 1078.

For the Educational Fund there was collected \$61.85, an increase of \$11.85, supernumerary fund \$134.00 decrease \$1.75; Missionary \$480.14, decrease \$21.28. Stentation \$183.04 decrease \$38.58.

A pleasing feature of the Wednesday afternoon meeting was the serving of ice-cream and cake by Mrs. Thomas which was very much appreciated by the members.

Have you heard the latest?

No. What is it?

Why, an employment office in New York is going to auction of its best cooks.

I am glad to hear it. Some cooks deserve to be knocked down.

LOUISBURG FISHERMAN HAD A CLOSE CALL

Boat Dashed to Pieces in Raging Storm and Peach Spent Night on Rocks.

Bay, June 7.—Benjamin Peach, a Louisburg fisherman, was off Port Morien, came within an ace of losing his life last evening at Flint Island. A storm came out while he was taking his boat out of the car his boat struck her moorings and sped into the breakers, and in a few moments was dashed upon the rocky shore broken to fragments. Peach secured the mast, and using it as a lever, climbed up the cliff out of reach of the waves. His brother stepped for Port Morien for assistance. The steamer Gladiator went out, but the storm prevented her landing. A passage separates the two parts of the island, and Peach was on the uninhabited part. No boat could live in the raging breakers in the passage. Peach lay all night on a shelf of the rocks, the sea twenty feet below him, the cliffs towering seventy feet above him. This morning the Gladiator went out again and rescued him, not much the worse of his adventure.

CONSUMPTION BEGINS WITH A COUGH

The cough ticks and tears the tender tissues of the throat. Inflammation supervenes and then serious bronchitis. If trouble is established. The important time is at the beginning. Stay the progress of the cough by using Fragrant Cough Syrup which reaches every part of the bronchial tubes, throat and lungs. Cough Syrup cures whooping cough, stops the cough, breaks some spots, clears the nose and throat of discharge. Cough Syrup, never irritates. Guaranteed for every form of cough. For getting into the Cough Syrup. Two months treatment \$1.00; trial size 25c.

Did you ever hear anything so idiotic as that talk of Mrs. Softer's when she is addressing her baby? queried one woman of another on the street car.

"Yes, I think I have," was the reply.

Then, for heaven's sake, what was it?

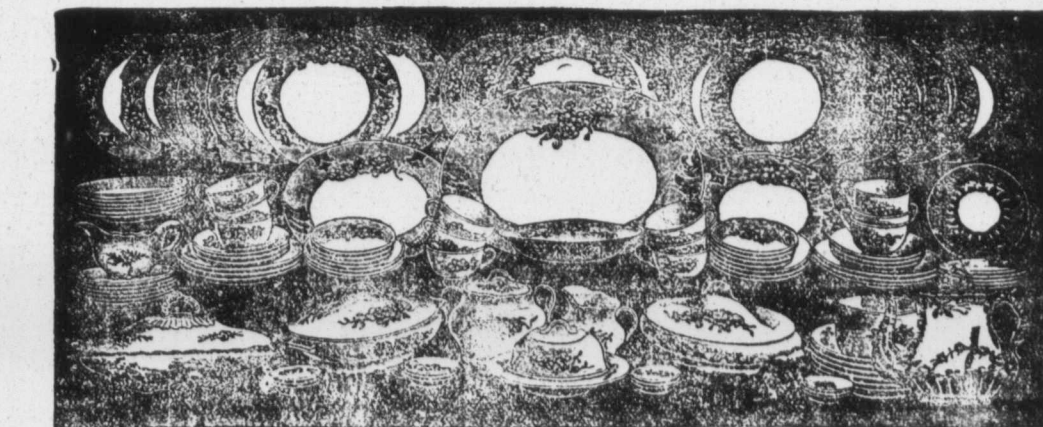

"I once heard a fat man talking to a canary bird."

Rheumatism Entirely Cured

Also suffered from constipation, kidney disease and stomach troubles.

Whatever mystery there may be about rheumatism, this much is certain, that it is caused by derangement of the kidneys, and disappears when the kidneys are set right by Dr. Chase's Kidney-Liver Pills.

Mrs. Grace W. Lawson, Concession, Ont., writes: "It is a pleasure for me to state that Dr. Chase's Kidney-Liver Pills made a well woman of me, completely curing me of constipation, rheumatism, stomach troubles, and a very severe kidney trouble after years of suffering. I am now sixty-eight years of age, and very grateful for what Dr. Chase's Kidney-Liver Pills have done for me, and for the remarkable cure of my husband by the use of Dr. Chase's Nerve Food." By their combined action on the liver, kidneys and bowels, Dr. Chase's Kidney-Liver Pills cure the most severe and complicated ailments arising from derangements of these organs. One pill a dose, 25 cts. a box, at all dealers, or Edmondson, Bates & Co., Toronto.

"Progress" Anatomy

Fine fabrics and trimming alone won't produce fine clothing. Fit and shapeliness, and wear, too, depend on the hidden parts—the work you don't see.

The illustration shows the anatomy of "PROGRESS" Clothing. Note the shoulder and sleeve pads—the felt, hair cloth, and pure linen canvas, thoroughly shrunk.

All these parts are modeled by hand and held in shape by thousands of tiny stitches. It is only by hand work, by expert tailors, that "PROGRESS" Clothing gain their shapeliness, and hold their perfect form.

"PROGRESS" Clothing is the finest fabrics and best trimmings, moulded by specialists into permanent shape.

This fits in every genuine "PROGRESS" Coat.

Sold by leading clothiers throughout Canada.

Progress Brand Clothing may be had from R. N. Wyse.

The steamer had a heavy list to starboard, but her master declared she was all right excepting that the bidge pumps were choked.

The Advocate always to the fore in giving its readers good literature and stories has made arrangements whereby it will publish thirteen Sherlock Holmes stories. These are the latest, illustrated, copyrighted series and are extra fine. We believe the Advocate is the first weekly in the province to give its readers such high class stories. These stories are given at considerable cost and we trust they will be appreciated.

A cook is only as good as the flour she uses.

A poor cook can make better bread with ROYAL HOUSEHOLD Flour than a good cook can with poor flour.

ROYAL HOUSEHOLD recipes make bake day the pleasantest day of the week.

There are two kinds of flour, ROYAL HOUSEHOLD and the kind that has not been purified by electricity.

ROYAL HOUSEHOLD Flour is made of the best grade of hard wheat. Hard wheat is the best spring wheat grown in Manitoba. Soft wheat is winter wheat—inferior for flour making. Some millers advertise that they "blend" soft and hard wheat to get better flour. We do not blend wheat for ROYAL HOUSEHOLD Flour. If we did, we should soon fall short of our present standard of excellence in flour making.

OBITUARY.

MISS BARBARA SILIKER

Miss Barbara Siliker of Silikers died at her home Sunday June 4th at 10 o'clock after an illness of only about four days. The deceased young lady has been acting postmistress at Siliker's P. O. ever since the Post Office was established and in this capacity as well as in her private life she made many friends who mourn her death. She was most highly esteemed and respected and her funeral on Tuesday was very largely attended. Deceased was 24 years of age.

NEW BRUNSWICK WON

The New Brunswick riflemen, with a score of 690, won the interprovincial match at Kensington range, P. E. I., Thursday.

A raw, chilling easterly wind, with rain, operated against high scoring. The Island team took second place, with 681, and Nova Scotia secured 576. The visitors were entertained to luncheon on the grounds, where Mayor Kelly extended a welcome on behalf of the city, and Hon. George E. Hughes on behalf of the provincial government. A smoker in the evening wound up the proceedings.

The following are the scores at 200, 500 and 600 yards of the New Brunswick team.
