

JOHNNY MOLER MYSTERY SOLVED BY HIS RETURN

JOHNNY MOLER MYSTERY SOLVED BY HIS RETURN

Much-Sought-After London Man Found in Toronto—Amazed at Sensation Caused by His Simple Desire to Take a Trip West.

POSTCARD TO EMPLOYER GOES ASTRAY

The mystery of Johnny Moler is solved. He was found this morning, with all his arms and legs intact, calmly strolling through the lobby of a Toronto hotel.

Two or three months ago the disappearance of Johnny Moler had been a mystery. He was a dependable, hard-working young man, employed at the Webster Construction Company. One day, Saturday, Aug. 26, to be exact, he went down to Toronto to attend a wedding, intending to return on the following Monday, and that is the last that had been known of him from that day to this.

After Moler had been away for a few days his employer, William Webster, became alarmed, and, communicating with Toronto, discovered that Moler had never attended the wedding, and that his friends there knew nothing of him.

Foul play was at once suspected. Mr. Webster notified the police, and it was discovered that the young man had left behind a bank account of some \$2,500 and all his personal belongings in his room at the Empire Hotel. Evidently, therefore, Moler had intended to return, and within a week or so various stories of murder and sudden death were freely broadcast.

Careful search revealed no clue. Moler had vanished from the face of the earth, and that was all there was to it.

Until this morning. This morning Calvin S. Parker of Ridout street, manager of London Clay Products, Limited, was standing in the lobby of the King Edward Hotel watching the crowds. Suddenly in front of him appeared a familiar face. Mr. Parker gasped. It was Johnny Moler, or Moler's ghost.

Mr. Parker grabbed the ghost in great excitement.

"Why, hello!" quoth Moler, wheeling around in casual pleasure.

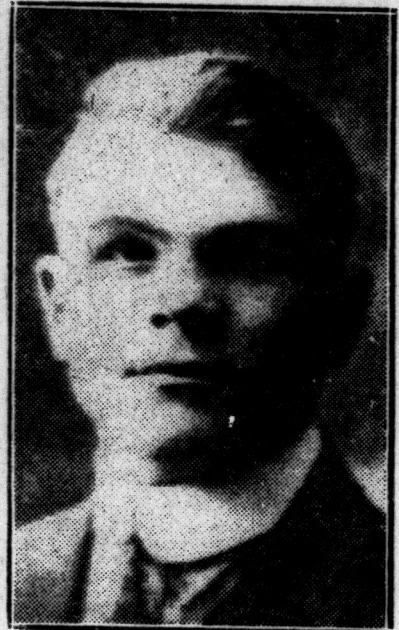

Parker was speechless. Didn't this calm young man know he was dead and buried long ago?

Really Moler.

To make a long story short, the young man didn't. And it was really Moler, and not his ghost. Nothing had happened to him. He had just been away for a while.

A mystery is never so mysterious as when there is no mystery. And what's the case with Johnny Moler. There was no real mystery. It just happened—another tragic comedy of errors.

The explanation is simple. When

JOHNNY MOLER.

card never arrived—and there you are!

Moler spent some time in Winnipeg, and then took a position with a construction company in Dauphin, Manitoba, always intending to return to London. And he'll be back here now within a day or so.

The most astonished person in the whole affair now is Johnny Moler himself.

"I didn't know anything about it," he declared to Mr. Parker this morning.

To Londoners, it's something like having the corpse suddenly sit up after the coffin is in the grave.

The advertiser phoned the proprietor of the Empire Hotel this morning, but he was still in blissful ignorance of the whereabouts of Moler. The hotelkeeper stated the man's clothes and other property were still in his room, but he had no idea when, if ever, the "missing" man would return to claim his belongings. Rather than spoil the surprise which Moler's homecoming would create, the advertiser did not break the news of the discovery.

REAL BEER PETITION FAILS TO FIND FAVOR

Alberta Members Appear Unwilling to Sponsor It in the House.

Special to The Advertiser.

Edmonton, Alta., Jan. 26.—The hotelmen's petition, asking for an act to allow the sale of real beer and light wines, is still wandering around legislative corridors, looking for somebody willing to sponsor it in the house.

Several members have been approached, but none have as yet given expression of willingness to take the bill in hand, and the "rule" of the house provides that the petition must be laid on the table by a member within ten days after the opening of the house. Those responsible for the securing of the large volume of signatures attached to the petition are naturally anxious that the question be settled, otherwise the whole matter will go into the discard for this session.

VOTE GERMANY IN DEFAULT ON REPARATIONS PAYMENT

Associated Press Despatch.

Paris, Jan. 26.—The allied reparations commission this afternoon declared Germany in default on all her reparations obligations to France and Belgium under the treaty of Versailles. The vote was the same as in previous default decisions, France, Belgium and Italy favoring the declaration and Great Britain abstaining from voting.

TEMPERANCE ORGANIZERS REPUDIATE QUEBEC LAWS

Canadian Press Despatch.

Montreal, Jan. 26.—In response to the challenge thrown out by Premier Taschereau in an interview that he would welcome an expression of opinion on the part of temperance organizations concerning the Quebec liquor act, a manifesto was issued last night from each of these bodies, in which the Quebec government's liquor policy is definitely repudiated.

WANTS SACRED VEIL OF DOCTORS REMOVED

Alberta Member Declares the Physicians Must Now Call "A Spade a Spade."

Special to The Advertiser.

Edmonton, Alta., Jan. 26.—Buckley of Glenora is going to tear the sacred veil from the face of the medical profession. In other words, Buckley of Glenora says "doctors' English" on prescriptions—that is, on honest-to-goodness drug prescriptions, not the two-dollar kind that are issued so largely these days—must go.

No longer shall "signs and aqua pura" strike terror into the hearts of the lame and the halt of this fair province. No longer shall "God Chik" masquerade as common salt, which when dissolved in water with a few drops of "On, su, or something equally mysterious" added details to the now thoroughly scared client, at a dollar for a small bottle.

The medical profession hereafter must call a spade a spade, and not Buckley, and they must write their prescriptions in plain, everyman's English. Mr. Buckley intends to introduce an amendment to the medical act at this session which shall wipe Latin off the face of the earth—or rather off the face of the well-known chemist's bottle of commercially compounded drugs, designed for the tumblers of clients who never got higher, maybe, than grade eight at school.

LIQUOR AND BLACK JACK LOCATED IN KU KLUX KLAN

Special to The Advertiser.

New York, Jan. 26.—Eight men alleged to have been seen leaving a meeting of the Ku Klux Klan held in a Brooklyn traffic court room were arrested and jailed early today by detectives of the bomb squad.

A bottle of Scotch whiskey, two black jacks, and a white robe with eyelets in the hood were found in the car in which the men were taken to drive away when seized, according to Lieut. Gagan, head of the squad, and other detectives.

Seventy-five men had just completed a meeting under the name of the Marines Circle Club, Gagan declared.

The men were charged with possession of concealed weapons.

BIDRELL EARNED OF SALARY RAISE AT 1922 MEETING

Commission Claims Sin Was One of Omission Rather Than Commission.

JUDD NOT INFORMED

Chairman of Civic Finance Committee Ignorant of Action of Police Board.

Common ordinary secrecy apparently did not satisfy the police commissioners when they raised Chief Bidrell's salary last December. The commission has approached the impossible: it has given the adjective "secret" a superlative degree. Of course, this was accomplished back in the "good old days" of 1922, when such things as transacting business without even calling a meeting was possible.

Ex-Mayor Cameron Wilson, Magistrate A. H. M. Graydon, Judge Talbot Macbeth, were assembled in Police Chief Robert Bidrell's office for the December meeting of the police commission. Chief Bidrell was secretary.

For reasons at the time unknown to the chief, he was asked by Magistrate Graydon to get a certain book from the magistrate's office. Then while the secretary was absent the commissioners discussed an increase for the chief. Before they had reached a decision at this "most secret" part of the secret session the chief returned. He was told that they were discussing a matter which demanded the utmost privacy, as the matter concerned him. He graciously withdrew.

Informed of Increase.

When he returned to the inner sanctum he was informed that he had been granted a \$500 increase.

"The chief never made application for an increase; in fact, he hasn't done so since he became chief," Magistrate Graydon stated. "He has often presented the claims of the other members of the force, but has never asked for an increase himself."

Incidentally the magistrate pointed out the police estimates for last year, which showed a \$100,000, as compared to \$128,000 for 1921.

"No one was instructed to keep the increase a secret," Magistrate Graydon stated.

So the sin has been laid down as one of omission rather than of commission—just a habit of secrecy which has gripped London police commissioners for decades.

Of which even the ones of the present day have been unable to rid themselves.

Insider Police Department.

"We'll consider the police department activities when we come to them," assured Mayor Wenige today, commenting upon The Advertiser's report yesterday with relation to the salary revision by the police commission in December last.

"There will be a directors' meeting in the near future," he stated, "the same as in the other municipal departments. I said 'directors' meeting.' There are no aldermen sessions this year."

All members of this year's council, who were also numbered among the 1922 representation, explained today, that they had heard that the salary increases were in last night's edition of The Advertiser.

Did Not Know of Increase.

"I never heard a word about it," said Ald. A. M. Judd, chairman of the finance committee. "I presume that the commissioners have the right to fix the salaries as they see fit. The only power resting with the council, involves the estimates. We may reduce them if we deem it expedient."

"As a matter of fact, I understand that the mayor is created chairman of the commission, since he would be better able to advise as he would be in close touch with the financial situation at the city hall."

Ald. Leonard Douglass, chairman of the board of works, states that he had received no intimation that the salary revision was being considered. "I never heard a word about it," he said. "I don't know if it is something doing in a little while or not."

Ald. John T. May, the last of the quartet to trek back from the municipal trenches last December, also acknowledged his ignorance of the matter. "Never heard anything about it," he states. "However, everything will be threshed out at estimate time."

He expressed the additional opinion that the chief's salary had been increased "none too much," and was inclined to believe that the increase was also entitled to a similar increase.

SAUVE ASSERTS LIBERALS WERE BETRAYED IN QUEBEC

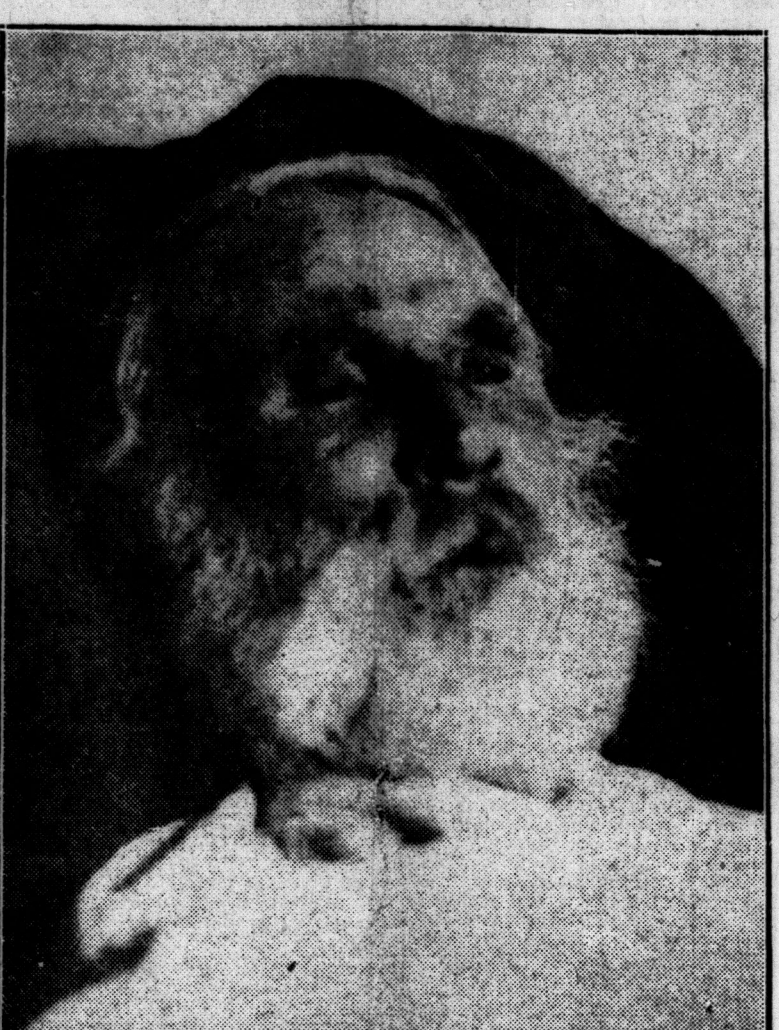

Canadian Press Despatch.

Montreal, Jan. 26.—Arthur Sauve, opposition leader, and Brig.-Gen. C. E. Smith, spoke at Verdun and Ville Emard last night in the provincial election campaign.

Sauve addressed himself particularly to the Liberals, asserting that they should be the first to complain of the present government, since they had been badly deceived.

He claimed that the principles and ideals of Liberalism had been betrayed. Mr. Sauve touched on finance, and quoted figures purporting to show that the annual amount for interest per head was higher now than in 1921.

EMPIRE'S OLDEST V. C. HERO TROD PATH OF GLORY ALONE

THE EMPIRE'S OLDEST HERO.

Here is Sergt. George Richardson, V.C., as he looked when The Advertiser visited him in Westminster Hospital this morning.

Sergt. George Richardson, 89, Dying in Westminster Hospital, of This City, Feeble, Lonely But With Glory Undimmed—Served Empire Well and Rewarded by Grateful Queen.

In a private room of Westminster Hospital a little old man is dying. He is Sergeant George Richardson, the oldest holder of the Victoria Cross in the British Empire, a veteran of the Indian mutiny.

Sixty-four years ago young Richardson, then a man of 25, walked leisurely past the outskirts of his English regiment in India. Hearing a rustle through a clump of bushes, he spied five sepoy.

A flash of fire lit the darkness and Private Richardson felt a piercing pain and blood dripping from his leg. Undaunted, he plowed into the enemy. A fierce native crashed the point of the young man's rifle and Richardson pummeled the sepoy's skull with the musket butt.

Single-handed he killed two others of the bronze-colored foe. He found an English officer lying in the bushes whom the sepoys had been torturing. The officer slaughtered the fourth native and the other one fled.

Now Lies Alone.

Now Sergeant Richardson lies, without a relative or friend, in a hospital cot. His breath is coming in feeble gasps.

Asked if he could hear an Advertiser representative this morning, the steel gray eyes of the ancient hero brightened momentarily and he nodded.

Questioned as to whether he could speak a few last words, his lips moved and an expression of pathetic fulfillment came over his face. The martial spirit of an heroic soul strove to find expression, but the claims of hoary age decreed the tiny spark of life that still remained should be burst again into the flame of action.

Sergeant George Richardson, V. C., is 89 years of age. Although the local climate over his face, the marks of the past war, in recognition of his undying services and because of his feeble condition, he was sent from Toronto to the London institution. Here he has remained since July last.

Swap Stories.

Several times old friends have journeyed to London to see the old general, and he has returned with a swap. Unless those friends can be located immediately, their eyes should never look upon the old man again.

Accompanied by Dr. McGhie, superintendent of Westminster, The Advertiser representative entered Sergeant Richardson's private room. The doctor stroked his snowy locks and murmured in his ear if he wished to talk.

"Can't you say a few words, dad?" the doctor whispered.

The dying patient vainly moved his lips for utterance. A few minutes later he was gone, and the old man coughed violently.

"We'd better go," suggested the doctor.

Jack Kippax of Toronto, a nephew, speaking to The Advertiser this morning, told of his uncle's life.

Came From Ireland.

George Richardson came from Ireland in his early teens. When the rebellion in India in 1857, young Richardson begged earnestly to join. Three times he was refused because of his tender age. The fourth time, however, the colonel of the regiment approached Henry, George's elder brother, in despair.

"George seems determined to pester the life out of us," he told him. "Then take the waster!" said the brother.

After his escape with the Sepoys, he was offered a commission. But the young man refused, because he considered his education below that necessary to be an officer. Failing a commission, the Queen honored him with the coveted cross, upon which is engraved two words that speak volumes of sacrifice, "For Valor."

BUSES IN LONDON ARE BEING SOUGHT BY ANOTHER CITY

Thriving Municipality Believed Anxious to Secure Services of Local Vehicles.

WILL OFFER BONUS

Decision of Men Expected to Depend Upon Action of Police Commission.

A thriving municipality, not many miles distant, has made a bona fide offer to the motor-bus operators of London, and definite action must be taken by the end of the month. The overture includes a substantial bonus.

An announcement to this effect was forthcoming this morning, and the name of the municipality is temporarily withheld pending final action by the local police commissioners.

The advertiser has good and sufficient reason to believe, however, that a substantial offer has been made by the municipal authorities of another Western Ontario center, and the place is not north or west of the city.

Official representatives were sent to this city within the past few days to watch the buses in action and confer with the operators as to costs of operation, the local traffic and license restrictions and so forth. A very encouraging report was received by the visitors upon their return home, and it is now known definitely, and from an undisputed source, that the offer was since forthcoming.

Depends on Commission.

The authorities of the other city have adopted the attitude that if London does not care whether the buses continue to operate, they will certainly endeavor to bring them hence.

Everything hinges now upon the next session of the police commission. The advertiser was informed today. A general meeting of the bus operators, set for last night, was postponed indefinitely.

"I will call a meeting of the police board early next week," Mayor Wenige assured this afternoon. "We must have this affair settled as soon as possible. In the meanwhile, the bylaw is being drafted again in order that the commissioners will be given definite assurance that it is the opinion of the majority of the city councilors."

Will Get New Buses.

The advertiser was further informed that while it was quite possible that certain of the bus operators would quit business entirely or else leave for other fields of endeavor, there are others who are preparing to introduce a number of new and more modern buses on the local thoroughfares.

Other operators state that should they abandon the field during the winter they will bring out their cars again in the spring to compete with the street railway corporation for Springfield traffic.

They insist that the city would have no power to license them in this respect, or otherwise interfere with their county program.

RUSSIA MAY ARRANGE TRADE PACT WITH JAPS

Soviet Government Representative on Way to Tokio for Visit.

Special Cable to The London Advertiser and Chicago Daily News Copyright.

Tokio, Jan. 26.—Negotiations between Japan and Russia toward a commercial treaty are expected to follow the arrival here of A. J. Joffe, Soviet Government representative in Shanghai to Tokio.

Joffe left Peking recently complaining of ill-health and expecting to recuperate at Hong Kong or Macao. The permission of the British and Portuguese governments for his visit to the colonies, however, was insufficiently cordial, and his trip ended at Shanghai.

Viscount Goto, who is mayor of Tokyo and also president of the Soviet-Japanese society, secured the consent of Foreign Minister Uchida for Joffe to visit Japan, and he was invited to recuperate at a hot springs here. The Japanese foreign minister announced that the Soviet envoy is expected to reach here Monday.

HOSPITAL FIRE THREATENS TO DRIVE SICK INTO STORM

Canadian Press Despatch.

Sydney, N. S., Jan. 26.—Over one hundred patients in the Glace Bay General Hospital were in danger of being turned out in a driving snowstorm when fire broke out in the superintendent's office last night. The fire was caused probably by the crossing of telephone and light wires as a result of a heavy gale. The blaze was eventually put out with trifling loss. There was no panic.

PETITION TO SAVE LIFE OF YOUTHFUL SLAYER

Canadian Press Despatch.

Calgary, Jan. 26.—Commutation of the death sentence passed on Orla Dortsch, 19-year-old slayer of Charles Howard Kelly, a well-to-do rancher of the Vulcan district, is asked in a petition now circulating in Calgary and Vulcan. The petition has been signed by friends of the condemned man's father and is based on the grounds that the self-confessed young murderer is weak-minded, although not insane.

ROBERT STEAD.

well-known Canadian author, who addressed the Kiwanis Club at the Tecumseh House today noon.

WENIGE CARRIES EFFICIENCY FIGHT INTO HYDRO CAMP

Will Order Probe Into Commission's System in Fixing Power Rates.

PRINCIPLE IS WRONG

Disagrees With Hunt. Who Claims Mayor Would Almost Double Rates.

Mayor George Wenige trains his guns in the general direction of the Ontario Hydro-Electric Power Commission.

He disputes the present system of service charges and he purposes, with as little delay as possible, calling a session of five big businessmen of the city to consider his line of reasoning with the rebulb by the local hydro authorities.

This was his announcement today to A. O. Hunt, assistant general manager of the public utilities commission, and to The Advertiser. Mr. Hunt adhered to a contrary view at the time, and upon his departure cut the argument short by what he declared to be a special conference.

"The principle is all wrong, as I view it," he stated to The Advertiser. "and I am not criticizing the local commissioners. As I understand it, the rates are fixed by the provincial commission."

Mayor Wenige maintains strenuously that the present system does not conform with the best municipal principles, and is prepared to submit his argument before a board of competent citizens, qualified to discuss business administration.

Assistant Manager Hunt, defending the local department, contended that the mayor's suggestion was adopted in his way, the meeting of his rates of nearly 90 per cent. increase. His worship declines to accept this suggestion without a more detailed discussion.

He objects vigorously to what he characterizes as a "service charge" scheme which is absolutely wrong, he said.

CHICAGO MAYOR STATES HE WILL NOT RUN AGAIN

Associated Press Despatch.

Chicago, Jan. 26.—William Hale Thompson, ending his second four-year term as mayor of Chicago, issued a signed statement last night announcing he would not be a candidate for re-election in the February primary or as an independent candidate at the general municipal elections in April.

Mr. Thompson's closing administration was characterized by attacks from newspapers, voters' organizations and civic clubs.

During the war Mayor Thompson was attacked by newspapers for his alleged unpatriotic attitude. His mayor in opposing the war declared the United States had no quarrel with Germany, and that Chicago was the sixth German city.

ENGINEER TO BE ABSENT FROM MEETING TONIGHT

Mayor Wenige states that City Engineer H. A. Brazier will not be in attendance at the session tonight of the special sub-committee of the city council called to open an investigation of the latter's department.

"It is more a directors' meeting to-night," he explained; "none of the officials or members of their staffs will be called in."

Discussing the question briefly, the city engineer reiterated his willingness to submit all information available to the councilors. "There is nothing here to shield," he said. "I am quite ready that they should have all facts, they are actually seeking further light they may have in."

REPORTS GREAT ICE FIELD IN GULF OF CAPE RACE

Halifax, Jan. 26.—News of a great ice field in the Gulf of Cape Race came yesterday in a wireless message to the marine and fisheries department from Captain Berlin of the steamer Cairnmore, which reported being caught in the pack off the Newfoundland coast north of Cape Race. Captain Berlin said the ice was heavily packed and extended north and south as far as the eye could reach in a field eighteen miles across, east to west.

The message was timed at 2 o'clock afternoon yesterday.

STATES CANADA'S GREATEST ISSUE IS IMMIGRATION

Robert Stead Sees Fine Possibilities for Dominion in Future.

WRONG IMPRESSION

Declares People of Other Nations Ignorant of Country's Great Wealth.

Robert J. C. Stead, the Canadian novelist and a member of the department of immigration and colonization at Ottawa, speaking at the London Kiwanis Club in the Tecumseh House at noon today, dealt with the problem of immigration, in which he is, as might be expected, thoroughly at home, and which he claims pre-eminent amongst the national issues of the day.

As opening volley in his exceedingly forceful address, Mr. Stead figures which indicate that while the population of Canada is but three persons to the square mile, England and Wales have 926 persons to the square mile, and the figures range through the hundreds down to Asia, which for its vast tracts of unpopulated regions numbers 50 persons to the square mile.

"These are figures," he said, "of tremendous significance to those who study the relations of cause and effect in world affairs. The inequalities in the distribution of the world's population lie at the root of most of our social and economic troubles. Canada, with less than three persons to the square mile, is destined to play a foremost part in the post-war readjustments of population which will make for a better and a happier world."

Blame Population.

"There is a tendency, all too common, to attribute Canada's sparseness of population, at least by comparison with the United States, to a rigorous climate and to large areas described as 'barren lands.' This tendency is founded not only on the United States and Europe, where lack may be expected, but also in the Dominion itself, where such ignorance cannot so readily be excused."

"The so-called 'barren lands' of Canada are, for the most part, not barren lands at all. I had a letter from a man who had been in the Yukon for some time, and who described as grass-covered prairies. But then it is not so long ago that Saskatchewan and Alberta were described as 'barren lands' and 'barren' whole three prairie provinces considered of questionable agricultural value, yet out of those provinces for two years in succession has come the second greatest wheat crop in the world."

"It is true that it is a natural tendency to avoid the rigorous climate because man was originally a tropical animal, and has only slowly found his way north through the temperate zone. But he is finding his way. Two thousand years ago the power of man was on the shores of the Mediterranean, and he is now in the latitudes of Paris, London and Berlin. The northward movement, viewed in the perspective of centuries, has been persistent and pronounced."

"Hardy people still continue to migrate northward and to raise about them a generation of hardy people, and with them moves the power of power and of authority. Canadians do well to remember this natural law and to reflect upon it when they are forecasting the future of the Dominion."

"All this leads us to the fact that the immigration problem is peculiarly vital to Canadians. We have, perhaps, other problems which are more obvious on the surface, but a little analysis will show that the immigration problem is deeper than they are. For example, the support of our national railways, the support of our national railways, are great problems which are actually being solved by the immigration of people from the United States and that Chicago was the sixth German city."

WOMEN'S MUSIC CLUB GIVES FINE RECITAL

Violin Ensemble Is Unusual
Feature of Regular Fort-
nightly Concert.

An entire program of modern music, arranged by F. L. Willgoose, afforded an evening of rare enjoyment for the number who on Thursday attended the fortnightly recital of the Women's Music Club in the Normal School.

A violin ensemble was an unusual feature for a club recital, providing the major portion of the artistic program, playing with delightful unity in tempo and interpretation.

The musicians making up the ensemble included Miss Edith James, Sidney Kingmill, Leslie James, and Mr. Willgoose, the director.

Other artists who assisted in the program were Miss Dorinda Abbott, contralto; Miss Mildred Chantler, soprano; Miss Laura Kirkwood, and Mr. Thomas Martin, pianists.

A charming keynote for the evening was struck by the playing of a couple of waltz-like compositions by the ensemble with style and finish.

Miss Abbott delighted, as always, with the tone and dramatic interpretation of her numbers, her melodious, beautifully controlled voice, heard to fine advantage in "The Day Is No More" (Carpenter), "Behemian de Concert" (Smetana), and "Japanese Death Song" (Sharp).

Miss Mildred Chantler, who has a pretty tough and excellent command of technique, played with distinction and grace a cradle song by Palmgren, achieving brilliancy in the "Moreau de Concert" by the same modern composer.

Miss Laura Kirkwood gave a most musically rendition of the second and third movements of the McDowell Concerto, Mr. Thomas Martin playing the orchestral part on second piano.

Miss Iva Smith, Miss Dorothy Collier and Miss Willgoose were the accompanists of the evening.

Obituaries

MISS MARGARET MCVICAR.

The death occurred yesterday in Detroit of Miss Margaret McVicar, formerly of Wardville, Ont. Miss McVicar spent her early years in Wardville, and graduated as a nurse. She was in Winnipeg for some years in this capacity, and later in Detroit, where she died through an attack of pneumonia poisoning. The body was brought to Wardville where the interment will take place.

The deceased is survived by Mrs. Elliott, Mrs. D. Tison and Miss B. McVicar, all of Wardville; Mrs. W. McCracken of London, Mrs. W. McCracken of Toronto and Miss M. McVicar of Toronto. There are also two brothers, Jack McVicar of Edmonton and Archie McVicar of Dunville.

WARNS ALL PETITIONERS TO PLACE REQUESTS EARLY

In accordance with the suggestion from Ald. W. A. Wilson, the city engineer's department is today notifying the general public that all requests for contemplated local improvements should be placed on file as early as possible. In fact, March 1 is set as the last day, in order that the city council will have a general idea of their construction program before they meet.

The petitions must be signed by two-thirds of the residents involved, representing at least one-half of the value of the property to be liable for assessment.

NUTS BARRED FROM U. S.

REMAIN IN THE DOMINION

Canadian Press Despatch. Ottawa, Jan. 26.—That from 22,000 to 30,000 bars of filbert nuts for the Christmas trade, which had been condemned and refused entrance into the United States, had been disposed of in Canada, was the announcement made here last night by W. C. Miller of Toronto, provincial secretary of the Retail Merchants Association.

Mr. Miller explained that the United States government had passed a law which prohibited all nuts imported into the country.

The Ottawa Retail Grocers Association went on record favoring the Dominion government's passing legislation similar to that in force in the United States for the standardizing of imported nuts.

American Pastor Denies Christ Walked on Water

Dr. Percy Stickney Grant Sends Letter to Bishop—Declares the
Resurrection Impossible.

Special to The Advertiser.

New York, N. Y., Jan. 26.—Dr. Percy Stickney Grant, in his letter to Bishop Manning denied:

That Christ actually walked on water. That physical resurrection of bodies from the dead is possible.

That Christ, after his crucifixion, descended into a flaming hell in the center of the earth.

That Christ, after his crucifixion, descended into a flaming hell in the center of the earth.

That Christ, after his crucifixion, descended into a flaming hell in the center of the earth.

That Christ, after his crucifixion, descended into a flaming hell in the center of the earth.

That Christ, after his crucifixion, descended into a flaming hell in the center of the earth.

That Christ, after his crucifixion, descended into a flaming hell in the center of the earth.

That Christ, after his crucifixion, descended into a flaming hell in the center of the earth.

That Christ, after his crucifixion, descended into a flaming hell in the center of the earth.

That Christ, after his crucifixion, descended into a flaming hell in the center of the earth.

That Christ, after his crucifixion, descended into a flaming hell in the center of the earth.

That Christ, after his crucifixion, descended into a flaming hell in the center of the earth.

That Christ, after his crucifixion, descended into a flaming hell in the center of the earth.

That Christ, after his crucifixion, descended into a flaming hell in the center of the earth.

That Christ, after his crucifixion, descended into a flaming hell in the center of the earth.

That Christ, after his crucifixion, descended into a flaming hell in the center of the earth.

That Christ, after his crucifixion, descended into a flaming hell in the center of the earth.

SAYS CARE OF HOME CAN BE PROFESSION

Mrs. David Nichol Leads Dis-
cussion at Federation of
Girls' Clubs.

"Service in the Home" was the subject of the discussion taken up by the Federation of Girls' Clubs at Thursday evening.

The first point brought up was that a young married woman's first thought should be her home. She should enter into it with the view of making it a home, in the real sense of the word.

Many young businesswomen claim that there is not sufficient time to keep their homes in order, said Mrs. Nichol, that there is a great reaction after the busy business days.

Housekeeping may be "made a profession," she declared, well occupied if she makes her time an ideal one for her husband and friends. She should enter into it with the view of making it a home, in the real sense of the word.

"First she should see that her husband has fair prospects of making a home, and then she should enter into it with the view of making it a home, in the real sense of the word."

The question of married women going to business was then taken up, and it was agreed that a married woman should not go to work unless she was married unless circumstances forced her to, such as sickness or the husband losing his position.

The next point brought up was in regard to the married woman with children taking up a profession. The opinion of the federation was that the mothers should remain with their children until their characters were formed. A mother, they held, owed this duty not only to her children, but to her husband, and to the nation in general. During the discussion, Mrs. Nichol's latest mentioned, also the mothers' allowance act.

The unmarried girl's duty to the home was next considered. She was a great deal to her home, the federation decided, whether she be boarding or living with her parents. She should give a certain amount of time to the home, and should be tidy and neat about the house. Emphasis was laid on the point that the women to help solve the problems of the younger women, and it is bringing out into the world the mother, who are giving both time and money to assisting other mothers, less fortunate.

Merchants all over London are going ahead with the new year. One merchant is again adding to his premises, and while rebuilding he is having a 10-day extension.

This is John A. Nash, Jeweler, 182 Dundas street, "where you will eventually buy perfect diamonds"—Adv.

SHOULD LONDON HAVE 2 ONTARIO MEMBERS?

Dr. Hugh A. Stevenson Will-
ing to Introduce Bill If
City Wishes.

While offering his services to the full extent, Dr. Hugh A. Stevenson, M.L.A., infers broadly that it would be nothing more or less than misdirected energy to ask a humble labor member to get authority from the government for London to have two members in the Ontario legisla-

ture.

Returning to the city last night after another day in the House, the member for London relates that the suggested redistribution of seats has not even been mentioned, in the assembly or in the neighboring lobbies.

From what he states it must be a real dead issue.

"I never heard a word about it," he said, "in fact, it looks as though the government is going to be pretty busy this term without this question. However, if London drafts a bill to

MAYOR TO INVESTIGATE THE ENGINEER'S OFFICE

Calls Special Meeting for Friday Night to Sift Whole Department.

MEET WITH BRAZIER

Committee Members Confer With Chief to Secure Necessary Data.

The Wenige drive for general "efficiency and economy" continues at the city hall.

A special sub-committee, with the authority of the members of the board of works, conferred yesterday afternoon with City Engineer H. A. Brazier, with respect to the special session of the city council set for tonight.

The committee comprised Ald. Leonard Douglas, chairman, of the works board, and Ald. Edmund Hayden and Peter J. Watt.

Arrangements were completed for the complete investigation of the city engineer's department, as urged by Mayor Wenige in his inaugural address.

There was nothing to divulge today for publication other than the announcement that the city engineer will not be permitted to attend Friday night's meeting while the department and staff are under consideration.

All members of the city council have been directed to equip themselves with all available data and statistics pertaining to the department, in order that they will be able to discuss with some degree of surety the situation from every conceivable angle.

As requested by the mayor, the city treasurer submitted his statement today to show that the combined salaries for this department total \$21,095.

Members of No. 2 committee stressed the point this afternoon that tomorrow's meeting was not in any sense of the word framed as an attack upon the city engineer or any of his staff, but was rather just a general inquiry into conditions to ascertain if it was possible to maintain a high standard of efficiency at a lowered expenditure.

ATTACK GOVERNMENT IN TRUSTEE SESSION

Elgin Rural School Board Calls Attitude of Legislature Autocratic.

Special to The Advertiser. St. Thomas, Jan. 26.—That the educational policy introduced by the Drury government, if pursued, will drive the farmers from the land and make rural schools a thing of the past, was the declaration made by members of the Elgin trustees' association in annual convention this morning.

Mungo McNab of Dunwich, one of the principal speakers, declared that the government of today is autocratic and that it is trying to tell the farmer what he must grow on every field and what every animal should be like.

He wished to know why the minister of education was not able to go before the government and say what money he would require for the ensuing year and why the legislature was not in a position to pass that amount.

If the legislature was not in a position to grant that amount then it should go out of office.

D. B. McPherson, secretary of the association, declared that there was no efficiency in the government's system of granting assistance to rural schools on teachers' salaries. There should be some system of granting teachers' salaries, according to their ability to make good.

J. A. McCrae, the president, expressed the view that the whole difficulty is that there is too much centralization by the government.

What there should be is de-centralization, he argued.

E. A. Kerr, of Rodney, who fathered a resolution disapproving of the government's system of distributing supplementary grants among rural schools, declared that there must be a readjustment somewhere, as men were being driven off farms for the simple reason that agriculture is not so remunerative.

QUIT SPORT OR CHOIR, IS ORDER—CHOIR OUTS

Moral Uplifters Fail to Stop Churchgoers Playing Sunday Games.

Special to The Advertiser. Vancouver, B. C., Jan. 26.—You can't sing in the choir of St. Andrew's Presbyterian Church, Nanaimo, on Sunday morning and then go to a football game in the afternoon.

Nanaimo is a coal town peopled mostly by former Yorkshire miners. They are used to Sunday afternoon sports, especially football.

Recently the town has been torn asunder on the question of Sunday sports. The moral reformers crusaded, but the miners paid light police court fines rather than forego their afternoon of sport.

Some members of St. Andrew's choir went down to enjoy the fun. The church authorities presented an ultimatum that anyone patronizing Sunday games or Sunday concerts was not wanted in the choir Sunday morning. So the entire choir of forty has resigned.

FAIL TO FIND ANY CLUE TO MOOSE JAW BANDITS

Special to The Advertiser. Moose Jaw, Jan. 26.—Although 24 hours have passed since the Bank of Nova Scotia was robbed by two armed men, there have been no arrests, and so far as can be learned from the various police forces, the robbers got away without leaving one valuable clue behind them.

A statement today from the bank officials showed that the total loss was \$5,100. However, no statement was obtainable as to whether the bank officials have the serial number of the packages of missing bank notes.

OWNER OF DEATH CAR IS HELD AT CHATHAM

Benny Kert of Detroit, Whose Car Killed Herbert Keyes, Arrested.

DENIES KNOWLEDGE

Police Claim Some Time Elapsed Before Death Was Made Known.

Special to The Advertiser. Chatham, Jan. 26.—Benny Kert of Detroit, owner of the auto which killed Herbert Keyes on the provincial highway Tuesday afternoon, was arrested in Windsor last evening by county police on a charge of having liquor in an unauthorized place. He is now in the county jail here.

Police have been unable to get any trace of the missing car or the man who drove it away from the scene of the accident. Kert denies any knowledge as to the whereabouts of the missing car. At the request of Crown Attorney Smith today, the inquest was postponed, and it is understood plans will be made of the scene of the accident in an effort to calculate the speed the car was traveling when it struck the machine driven by the late highway official.

It is understood the police have secured important evidence which will show the considerable time elapsed after the accident before any information was given that a man had been killed. Police have not been able to determine whether a second car was proceeding westward in circulation to the effect that there were two cars involved in the accident, liquor, alleged to have been in the Cadillac car, was transferred to the other car.

WINGHAM RESIDENT AGED 105 YEARS, DIES

Believed To Have Been One of Ontario's Oldest Citizens.

Canadian Press Despatch. Wingham, Jan. 26.—Patrick Lynett, said to have been one of the oldest men in Ontario, died here yesterday afternoon in his 105th year. Although death was due to old age, the deceased retained his faculties up until almost the end. The aged man was always a keen student of current events and followed the news closely. He was never inclined to the opinion of many persons that the world was getting worse, but contended that it was getting better.

Mr. Lynett was born in County Mayo, Ireland, in 1817. He remembered the Crimean struggle, and was living in America during the American Civil War.

His parents resided for a short time at Pickering, and then moved to Belmont, in what was then known as the Huron tract. He could recall walking through the forests to Walkerton, a distance of 25 miles.

CONGRESS EXONERATES ATTORNEY-GENERAL

Report of Judiciary Committee Is Accepted by Big Majority Vote.

Special to The Advertiser. Washington, Jan. 26.—Attorney-General Daugherty stands exonerated by the House of Representatives today in a vote of 285 to 100, after a day of rough-and-tumble debate in which the Democrats led off with charges of wholesale whitewashing of the impeachment proceedings by the judiciary committee.

The end came late Thursday, when the house voted 204 to 77 to accept the report of the judiciary committee on Daugherty's removal from office.

The committee's report was a stinging rebuke to the Democrats, who had charged Daugherty with having taken money from the tobacco trust.

SCENE OF SUDDEN DEATH OF SAMUEL SCOTT FOLLOWING WORDS.

The top picture shows the house and barn of the late Samuel Scott of Simcoe, Ont., who dropped dead on Sunday, following a dispute with a neighbor, which was because some children were skating and sliding on a pond on Scott's farm. The cross on the lower picture marks the spot where Scott fell.

Man's Interest in Elections Grows While Women Neglect Their Ballot

While a greater number of the residents are voting at the municipal elections from year to year, the interest among the members of the fair sex seems to be steadily decreasing.

City Clerk Sam Baker submitted yesterday his official figures for the last contest, showing 12,796 persons exercised the ballot, or 59 per cent of those eligible. While this is 1 per cent in excess of any previous year in the history of the city, there is still room for considerable improvement, remarks Mayor Wenige.

"We have to sell the city to its citizens," he states, "before we can get them sufficiently interested to go out and vote. The increased vote from year to year shows that evidently some progress has been noted in this direction."

THUG IS SHOT TO DEATH TRYING TO ROB SALOON

Clarence Johnson of Wallaceburg Falls With Bullet in Heart During Gun Battle.

Special to The Advertiser. Detroit, Jan. 26.—Following a pistol battle in a Grand River avenue saloon here tonight in which a score or more shots were fired, Clarence Johnson, 35, of Wallaceburg, Ont., a man for whom Detroit police have been searching for weeks, was shot through the heart and fell dead, his own smoking weapon still in his right hand.

The shooting followed an attempt by Johnson to hold up the saloon, in which were two plainclothes officers.

As the holdup man drew his gun the policemen ducked, pulled their revolvers and opened fire. Johnson kept his automatic pumping until it was empty, and as his last cartridge was fired one of the officers' bullets found its mark. Neither of the policemen was injured.

On the night of November 27 last Johnson, with a confederate, William Arnfield, broke into four Wallaceburg saloons and robbed the safes, obtaining a considerable sum in cash and a number of checks, which they afterwards destroyed. Arnfield, after being sentenced to a term at Burwash prison. Ever since police have hunted for Johnson, but without success. Mrs. Anna Johnson, wife of the dead thug, aged 11-year-old son and Johnson's aged mother now reside in Wallaceburg.

Arnfield, after being sentenced to a term at Burwash prison. Ever since police have hunted for Johnson, but without success. Mrs. Anna Johnson, wife of the dead thug, aged 11-year-old son and Johnson's aged mother now reside in Wallaceburg.

As the holdup man drew his gun the policemen ducked, pulled their revolvers and opened fire. Johnson kept his automatic pumping until it was empty, and as his last cartridge was fired one of the officers' bullets found its mark. Neither of the policemen was injured.

On the night of November 27 last Johnson, with a confederate, William Arnfield, broke into four Wallaceburg saloons and robbed the safes, obtaining a considerable sum in cash and a number of checks, which they afterwards destroyed. Arnfield, after being sentenced to a term at Burwash prison. Ever since police have hunted for Johnson, but without success. Mrs. Anna Johnson, wife of the dead thug, aged 11-year-old son and Johnson's aged mother now reside in Wallaceburg.

LEADER OF LIBERALS WILL SUPPORT O. T. A.

Wellington Hay Criticizes Conservatives For Lack of Sympathy To Act.

FAVORS GAS TAX

Suggests Levy of Two Cents Per Gallon On Automobile Fuel.

Canadian Press Despatch. Toronto, Jan. 26.—Wellington Hay, leader of the Liberal party in the Ontario Legislature, speaking on the reply to the speech from the throne this afternoon, outlined the attitude of his party on the different questions confronting the government during the past year. He came out solidly in support of the enforcement of the Ontario temperance act, criticizing Conservative members for lack of sympathy with the Drury government in its efforts to have prohibition laws carried out. He urged that the government should have greater supervision over the expenditures of the Ontario Hydro Commission, and argued that a separate commission to look after hydro radicals would be more effective than the machinery provided by the radial bill passed last year by the Legislature. The government, he contended, should do all in its power to hurry an understanding with the United States, so that water power and hydro radicals could be developed.

He endorsed the government's good roads policy, and suggested as a means of raising further money to continue the work a 2-cent-a-gallon tax on gasoline. The Liberal leader urged the establishment of local banks to look after the needs of small towns, and dwelt briefly with the timber question. He called for redistribution, and was favorably disposed to a fair trial of proportional representation. It had been previously arranged that the speakers would be to speak during the afternoon, but while motions were being introduced a lively dispute started, and it took an hour to get through this order of business. Accordingly, the Liberal chief said he would forgo all but himself, Hon. Howard Ferguson and Premier Drury will take up the debate tomorrow.

Ferguson protests. The dispute all arose over the introduction of a bill to revise the vehicular traffic on highways. A special committee of the House investigated this question in the recess, holding some 30 meetings in various parts of the province, in which evidence was taken running into 500 typewritten pages. Hon. F. C. Biggs, in introducing this bill, explained that there was no report from the committee, that its unanimous conclusions were all included in the bill. Hon. Howard Ferguson raised the bill, contending that it was only prepared to allow the bill to be introduced if the government would undertake to have the evidence presented to the committee.

As the rules of the House provide that a committee must lay its report on the table before the bill is introduced, the speaker declared the bill out of order.

H. H. Dewar introduced amendments to the Ontario temperance act to prevent government liquor stores or liquor warehouses being located near churches or schools. K. H. Huth, Waterloo North, introduced a motion to give one man only one vote on municipal bylaws. He also introduced a motion to provide free text books for all pupils in public, separate and industrial schools. Premier Drury refused to agree that the evidence should be printed, as such a step would be "a waste of public money and the members' time."

Children Quench Cayuga Blaze

Save Mother's Store From Destruction by Fire.

Special to The Advertiser. Cayuga, Jan. 26.—Rare presence of mind and prompt action of the part of the four small children of Mrs. M. Heaslip saved her store and residence from being gutted by fire early this morning.

The cracking of the flames, which originated in a stock of matches stored on a shelf, was heard by Mrs. Heaslip. She awakened the children, who extinguished the blaze, which had spread to the stairway, with buckets of water.

The family reside above the store and would have been trapped had the fire demolished the stairs. The damage to the store and stock is estimated at \$500.

DENIES MISS L. BOOTH BETROTHED TO PRINCE

Parents of Ottawa Girl Refute Rumors of Engagement.

Ottawa, Jan. 26.—Absolute denial has been given by Mrs. J. F. Booth to the persistent rumors in the capital of the coming announcement of an engagement between Miss Lois Booth, only daughter of Mr. and Mrs. J. F. Booth, and Prince Eric of Denmark. Some reason for the rumors may be had from the fact that Prince Eric has spent several weeks visiting at the Booth home, and had been seen constantly at various social functions with Miss Booth, and at smaller family parties with her parents. During his stay in Ottawa and his visit here last year with Prince Rene, of Bourbon, his highness has been constantly entertained at various homes, both in an official and private way. He was a guest at Rideau Hall, when their excellencies, the Governor-General and Lady Byng of Vimy, entertained at dinner in his honor with a dance following, at which about 50 additional guests were invited to the ball.

Mrs. J. Franklyn Aherne, with her well-known habit of securing something different in the way of entertainment for her guests, had invited the Prince and his party to the Royal Ottawa Golf Club, and then took her royal guest skiing in the Gatineau hills, at which sport, it is said, there was no report from the committee, that its unanimous conclusions were all included in the bill.

Hon. Howard Ferguson raised the bill, contending that it was only prepared to allow the bill to be introduced if the government would undertake to have the evidence presented to the committee.

As the rules of the House provide that a committee must lay its report on the table before the bill is introduced, the speaker declared the bill out of order.

Smiting Them All.

"Away With Our Hypocrites!" That is the heading, even to the exclamation mark, of an article by Gratian O'Leary in the current issue of MacLean's Magazine. The writer, in the short space of a page and a half, annihilates the Liberal party, speaks harshly to the Conservatives, refers to Mr. Crerar as the docile puppet of Mr. King, and generally leaves the woods full of dead men speared by his pen and obliterated by his ink.

It is a peculiar style of journalism, or whatever name it may carry, that we have been developing recently in Canada. It does not take our national problems, trace their origin and development, and put the finger here and there as the points at which we went wrong.

Such a process is laborious; it makes it necessary to deal with facts, and facts are always in the road when these supercilious want to write a bang-up story that the public will reach for and pursue.

So the Ottawa writer in MacLean's accuses the Liberals of insincerity, of having thrown election promises high and afterward contented themselves with a mere pattering in earthwork; of standing by, giving assent to national debt, and aiding in the piling of it on the necks of the ratepayers. Then, turning to Mr. Melchior, O'Leary taps him ever so lightly. The most serious scourge that he lays upon the poorly-covered frame of the ex-premier is that his party was a one-man affair in the House, and that in his election speeches since the session he has travelled in the old groove, and has brought no fresh fodder to the Conservative political silo.

And what of the Progressives? Well, they came in good faith, but after Mr. King got his eye on them it was all off. The hypnotist says hokus-pokus, or something like that, when he puts people to sleep; well, the premier discovered how it was done, and Mr. O'Leary says that is what happened to the westerners. The fact that the Progressives voted almost to a man against the premier on the tariff is simply forgotten.

So that seems to constitute the popular magazine article. Its safety lies in the fact that all parties are ridiculed, and accusations are made in nicely-rounded general terms so when they do land they roll around easily and lodge on no particular door-step.

Entertaining in a way, but not at all constructive.

The Market For Onions.

The onion growers of Kent and Essex took occasion to meet Hon. Mr. Fielding when he was in Windsor and put their case before him. Those counties seem suited for onion-raising, and the growers there produce an excellent article in large quantities.

But onions are cheap this year and the market is full of them. Producers claim there is no money in them at prevailing prices, and they not only make the statement, but give cost figures to back up their claims.

Then they look at the U. S. onions that are coming across the line right into the place where they are growing. They have more figures which go to show that in the last year \$625,000 worth of U. S. onions came into Canada, while Canada sent only \$5,000 worth to the States. Early onions may have had something to do with these figures, but the big bulk would be domestic qualities, the same as are raised right here.

United States can ship in here at from 22 to 30 cents a bag, whereas when the Canadian dealer turns to the market to the south he is confronted with a tariff of \$1.20 per bag.

Mr. Fielding would naturally take the ground that putting a tax on onions would be putting a tax on the food of the people, and as a matter principle he would be opposed to it.

But that does not help out the man who is raising onions in Kent or Essex or any other place in this country. If he cannot find a market for his produce the only logical thing for him to do is to stop producing, and that is the very thing the provincial government and the federal government want they do not want him to do. Both these agencies state very positively that they want men to work on the land in Canada and to produce new wealth in that way.

The men who grow onions must have a fair chance to hold the home market, or they must have other markets. The government can hardly discharge its whole duty to the agriculturists by simply stating that it does not want to tax the food of the people while U. S. onions come in here at one-quarter the tax placed on Canadian onions going to United States.

The Farmer's Investment.

Every winter the residents of the cities have more people than they can find work for. And so the cities bustle around and pay for work being done in winter that should be done in summer. Not good business, certainly not, but cities reckon it's perhaps better to do this than

hand out doles or start soup kitchens.

Then we are always sure to make the remark that a lot of these people would be better if they would farm. There's one good point, a farmer is sure of a living, because he grows the most of it.

By "farming" we mean, or at least we would like to, going on the land and becoming possessors of it. Does the man in the city ever stop to think what this means? If a man is going to be a farmer he must have a farm, he must have stock and implements. In all he must make or become responsible for an investment equal to about \$10,000.

There are young men today, sons of farmers, who want to stay on the land. They have been brought up to it, and the natural thing is that they should want a farm of their own. Some of them start with what they can get, carry a mortgage and ultimately fight their way through. It can be done under favorable circumstances, and in many cases it has been done.

It is a side of the case that city people are apt to overlook. More credit and power to the young men who are tackling the problem and conquering it.

Was He a Thief?

A Port Stanley man had a sick wife and a cold house. He could get no fuel with which to heat the house. So he went out and stole some coal and was arrested.

The evidence in the case was presented to the magistrate at St. Thomas. Very sensibly, we think, the magistrate suspended sentence.

The man is no thief in the ordinary sense of the term. Circumstances and the misery of his wife drove him to do something he would not otherwise have done.

It is very nice to put down our theories of right and wrong, and it is well that we adhere to them. But put yourself in the place of that Port Stanley man and see what you would have done.

The Taste of the People.

At an auction sale in the north end of Middlesex county a seed drill, not a bad old affair, sold for \$5. At the same sale a small rifle, in rather poor shape, sold for \$7.50.

One of the farmers who related the incident to The Advertiser said he took it to mean that people would put up money for something to play with, or something that would give them a certain amount of sport.

That day he decided he would go in for the breeding of horses—horses that had speed and the promise of becoming good track performers in harness.

And his experience since that time has shown him that the lesson he drew from the seed drill and the rifle was absolutely correct.

Hardly a Fair Way.

The police commissioners increased the salary of the chief of police \$600 per year. While this was going on the city council was making officialdom sweat under threat of an all-round decrease in wages.

The fact that Chief of Police Birrell was paid \$3,600 instead of \$3,000 is not the real issue. He is a capable official, respected by the city, and not overpaid at his latest figure when salaries of similar positions in other places are considered.

The real point is this—that one spending body of the city, the police commission, should be secretly making increases, while another spending body, the city council, should be cutting into the none too high wages of men in the garbage department. The thing does not seem fair and right, and it is hardly to be credited that citizens of London will approve of this method of doing business.

Note and Comment

Make only a few promises, only a few engagements, and then keep them all.

Factory whistles in Germany refuse to blow. The Teutons have ceased to toot.

Some chaps tell you the old bus didn't cost \$25 for upkeep last year. Others keep books and say nothing about it.

The Turks are not only back in Europe, but it looks as though they had taken a 99-year lease on the premises.

The Detroit News believes in going right back to the root of trouble, so it blames Noah for not having thrown the dogs of war overboard.

Those two husky French pugs, Siki and Carpenter, can now show their true worth by insisting on having a pick and shovel in the Ruhr mines.

So far London has the distinction of being one Canadian city that has not been bombed by Sir Henry Thornton with reasons why it should be headquarters of the National Railways.

In New York motor registration for the first six days of the year was 160,810, or 17,000 ahead of last year. 'Twas a lucky man who took in the sights of Broadway and Fifth avenue last year.

Toronto is spending its spare time

recounting the ballots cast there at the municipal election. One alderman was counted out by this process, and now they are busy handling and rehandling the majority votes. If they keep on they'll have the ballots so thumb-marked they'll need another election.

Your Health

By ROYAL S. COPELAND, M.D.

Health and normal function depend on proper circulation of the blood through the body and its every part. Many disabilities can be traced to disturbances in the blood supply. Too much blood or too little blood is a cause of trouble.

If there is too much blood there is congestion; if too little blood there is anemia. The former condition, if it affects the brain, is sometimes spoken of as "a rush of blood to the head."

There are two kinds of congestion. The first is due to an increase in the red blood, the arterial blood. The second is caused by some obstruction to the escape of the venous blood. The former condition is called active congestion, the second, passive congestion.

Congestion of the brain is a painful thing. It makes itself known by headache and dizziness in mild cases, by severe attacks there may be convulsions and trouble with the sight or hearing.

There are sparks and flashes of light before the eyes. The pupils are dilated and there may be redness and burning of the eyes. You know how your ears roar and buzz if you take a large dose of opium. There is similar trouble in congestion of the brain.

In this trouble there is redness of the face, restlessness and sleeplessness usually. If the victim falls asleep there are frightful dreams, night terrors in children and grinding and grating of the teeth.

There is apt to be confusion of the mind. Concentrated thought is impossible. Irritability and crossness are conspicuous symptoms. All the symptoms are made worse by lying down, because the recumbent position increases the congestion of the head.

Passive congestion may result from tight collars, growths causing pressure on the veins, or anything else preventing the return of the blood from the head.

To relieve the condition, the head and body should be elevated. Hot and cold packs to the feet and cold to the head will help relieve it.

There are various remedies which are useful. These will be prescribed by the family doctor.

THE VOICE OF THE PEOPLE

Editor Advertiser:

Sir—In your issue of the 24th "editorial" you cite a general feeling existing that there should be freedom for the preacher to deliver messages as they are inspired to do so.

Yet in the next paragraph you take this freedom away and suggest he should deliver his message in the hall of his own church, or in the hall of the Nazarene, or in the hall of the Baptist, or in the hall of the Methodist, or in the hall of the Presbyterian, or in the hall of the United Church, or in the hall of the Anglican, or in the hall of the Lutheran, or in the hall of the Evangelical, or in the hall of the Wesleyan, or in the hall of the Baptist, or in the hall of the Methodist, or in the hall of the Presbyterian, or in the hall of the United Church, or in the hall of the Anglican, or in the hall of the Lutheran, or in the hall of the Evangelical, or in the hall of the Wesleyan, or in the hall of the Baptist, or in the hall of the Methodist, or in the hall of the Presbyterian, or in the hall of the United Church, or in the hall of the Anglican, or in the hall of the Lutheran, or in the hall of the Evangelical, or in the hall of the Wesleyan, or in the hall of the Baptist, or in the hall of the Methodist, or in the hall of the Presbyterian, or in the hall of the United Church, or in the hall of the Anglican, or in the hall of the Lutheran, or in the hall of the Evangelical, or in the hall of the Wesleyan, or in the hall of the Baptist, or in the hall of the Methodist, or in the hall of the Presbyterian, or in the hall of the United Church, or in the hall of the Anglican, or in the hall of the Lutheran, or in the hall of the Evangelical, or in the hall of the Wesleyan, or in the hall of the Baptist, or in the hall of the Methodist, or in the hall of the Presbyterian, or in the hall of the United Church, or in the hall of the Anglican, or in the hall of the Lutheran, or in the hall of the Evangelical, or in the hall of the Wesleyan, or in the hall of the Baptist, or in the hall of the Methodist, or in the hall of the Presbyterian, or in the hall of the United Church, or in the hall of the Anglican, or in the hall of the Lutheran, or in the hall of the Evangelical, or in the hall of the Wesleyan, or in the hall of the Baptist, or in the hall of the Methodist, or in the hall of the Presbyterian, or in the hall of the United Church, or in the hall of the Anglican, or in the hall of the Lutheran, or in the hall of the Evangelical, or in the hall of the Wesleyan, or in the hall of the Baptist, or in the hall of the Methodist, or in the hall of the in the hall of the Baptist

LONDON, ONTARIO, FRIDAY, JANUARY 26, 1923.

**LUMBERMEN AFRAID U. S.
WILL TAX B. C. PULPWOOD****Fear Retaliatory Effects of Young-Fordney Tariff—Merchants
Cease Booking American Orders Beyond February 5—
American Trades Protest Any Plan to Place Duties.****TRADE BOOM RELIEVES UNEMPLOYMENT****Special to The Advertiser
by a Staff Correspondent.**

Ottawa, Jan. 26.—The full sweep of the consequences of the Young-Fordney tariff are likely to be felt more and more in Canada. It confers very few powers for the imposition of retaliatory duties on the goods of countries who penalize parallel imports from the United States. Enforcement of these retaliatory schedules is now being sought in the matter of pulpwood on the ground that the embargo on the export of pulpwood from crown lands in Canada constitutes a discrimination against the United States.

Lumbermen engaged in the export trade are also fearful lest the American authorities make immediate use of their powers and place a 25 per cent duty on imported Canadian lumber. Canada at present maintains a 25 per cent duty on finished American lumber, and many of our lumbermen fear the possibility of the imposition of a retaliatory duty on the new law.

So fearful are they of this contingency that lumber companies in British Columbia have ceased booking American orders beyond Feb. 5 next, and meanwhile they are urging the King government to remove the existing 25 per cent duty on finished lumber. Owing to the building boom in the Eastern States, there is an enormous demand for lumber, and some of the British Columbia companies have been shipping huge cargoes through the Panama Canal to the ports on the Atlantic seaboard.

Effects Will Be Serious.
If this very profitable trade is interrupted, the effects in British Columbia cannot fail to be serious. The Australian and Japanese markets are weak at present, and many mills would have to shut down. In the calendar year 1922 our exports of unmanufactured wood were valued at \$91,453,239, which is an increase of 20 million dollars, as compared with the figures of the previous year. Practically all this increment was the result of the extra demand from the United States, and it is substantial assistance in the relief of unemployment, especially on the Pacific coast. On the other hand, our im-

ports of unmanufactured wood were only valued in 1922 at \$9,146,258. This figure is \$732,596 less than last year, and is less than half the total for 1920, so that compared with our exports our imports are negligible, and the number of lumbermen who would lose by complete free trade in lumber between the two countries is very small.

There would be a certain loss of revenue, but in the end it might not be as large as the loss of income and corporation taxes which will follow if many lumber mills in British Columbia have to close down.

American Protest.
On the American side, protests against the importation of any duty on Canadian lumber are being made by representatives of the building trades, who claim the cessation of lumber shipments from Canada would raise the cost of construction, and seriously hamper the solution of the housing problem in the United States. If, therefore, the King cabinet are in a mind to undertake further cuts in the tariff, here is a special section of it to which they might profitably turn their attention.

There are renewed rumors that the solicitor-general may at last be induced to take a seat on the Nova Scotia bench, on which a vacancy has been kept for him for many months. Hitherto he has declined the suggestion, and it was understood that he hoped that when the retirement of Justice Sir Louis Davies came to pass he might be selected in his place as the representative of the Maritime Provinces on the supreme court. It is now stated that he has lowered his ambitions and will be content with the humble office.

But the probability is that he will see the session through. Meanwhile the Halifax Herald is urging his translation to the bench and suggests that the railway department be given to E. M. MacDonald in order that Nova Scotia still have two ministers. It urges as one of Mr. MacDonald's chief qualifications that he has been a steady advocate of the restoration of the Intercolonial railway, with headquarters at Moncton. But to most people affection for such a policy would seem a disqualification.

**EDMONTON EX-MAYOR
TO BE TRIED IN APRIL****Magistrate Scores Presumptuous
Attitude That George Armstrong Is Guilty.**

Special to The Advertiser.
Edmonton, Alta., Jan. 26.—George Armstrong, postmaster and former mayor of Edmonton, will not be tried for the theft of \$50,000 from the mails August, 1919, until next April. The crown prosecutor's office announces that there is no possibility of getting the evidence transcribed in time for a trial of the case at this session of the supreme court.

In giving his decision yesterday to commit Armstrong for trial, Police Magistrate Primrose said:

"My duty, as I see it, is solely to ascertain whether or not there is a case for trial, and if so, whether there is a strong or weak presumption of guilt. I have seen the evidence, and I agree with certain presumptions counsel for the accused contends are drawn.

"Justice demands that a man be considered innocent until proven guilty, and I deprecate the business which nowadays so frequently presumes guilt on the part of the accused before his trial is completed.

In this particular case I consider there is a presumption of guilt, the presumption of guilt, however, is not a strong one; therefore, I will remand the accused, George Armstrong, for trial.

Sydney B. Woods, K.C., counsel for the accused, in presenting his defense, contended strongly that by the narrowest test there is not a case for commitment for trial, however, Mr. Armstrong. The evidence submitted by witnesses for the crown, he declared, not only served to exculpate the accused but also suggested many more persons who would have more ready access to the money packages, now stolen, than would Mr. Armstrong.

Of all persons connected with the postoffice, Armstrong, he contended, was, according to the evidence, the least likely to have committed the theft.

**COMPANY MAY PRODUCE
MOVING PICTURES IN CITY**

Rumors are current in the city that a company may be formed here next summer for the production of motion pictures.

The manager of a local theatre yesterday received a telegram from Ernest Shipman, the director of several made-in-Canada releases, to the effect that if a company were formed in London he would offer the contract for its direction to John S. Robertson, a native Londoner, who has for five years been directing the productions of the Famous Players-Lasky people.

Mr. Shipman claims, according to the rumor, that if sufficient encouragement is offered he will proceed with his project of filming a master picture with London as the location, and that he has already entered into negotiations with Mr. Robertson as the director.

**U. S. WILL INTERFERE
TO CURE WAR FEVER****Expect Announcement That
Country to Help Europe
Solve Dangerous Problem.**

Special to The Advertiser.
Washington, D. C., Jan. 26.—The Senate is the scene of another wide-open discussion of international relations.

Definite expressions of senatorial opinion that this government ought not to remain aloof seem certain to be forthcoming.

Many of both parties believe the Franco-German situation should not be permitted to develop to its logical conclusion. That conclusion, many senators feel, will be war, or if not, an accentuation of present world turmoil.

Administration leaders admitted today they would not be surprised to see the Senate adopt Senator Borah's proposal for an international conference, which Borah announced today that he would introduce. Probably next Monday Borah will present it in the same form as when he offered it as an amendment to the naval appropriation bill some time ago.

He withdrew it then when assured by administration spokesmen that its adoption would embarrass the administration in pursuance of its policy.

It is evident that Borah holds that the administration policy is entirely negative. Public opinion, he declared today, is overwhelmingly against such a policy now.

The American people, Borah said, want their government to wield its tremendous influence in an effort to straighten out the snarl which France's action and the general disagreement over reparations has created.

**MEN WILL TAKE CHARGE
OF SERVICES IN CHURCH**

Thursday evening was a real social gathering in the Robinson Memorial Methodist Church, when the brotherhood held a special song practice. They had the assistance of a big orchestra in making themselves ready for Sunday next, when they will have full charge of the services in the church.

Several new members were present.

After the singing last night, sandwiches and coffee were served in the church hall.

**SEES BITTER WAR
TO AVERT CHANGE
IN ANGLICAN BOOK****Leader of the Evangelical Section
of Church Alarmed
Over Events.****STEPPING BACKWARD****Says Agitators Would Incorporate
Features Banned Before
the Reformation.****By HENRY SOMERVILLE.
Special Cable to The Advertiser.**

London, Jan. 26.—Interviewed today, John A. Kenist, leader of the militant section of the Evangelical party of the Church of England, on the prayer book revision proposals, said:

"The evangelical party is very alarmed. The position is scandalous, because the whole thing arises from my father's action."

"Father made certain protests in London churches in the year 1898, and as a consequence there arose what came to be termed the church crisis."

"A royal commission was appointed to inquire into the state of affairs in the Church of England. The commission sat several years, and took evidence of breaches of law. In 1906 it issued a report, making certain recommendations."

"Recommendation number one was, that certain extreme services, which were unquestionably illegal, should be immediately stopped by the bishops."

"Recommendation number two was, that the revision of the prayer book, with a view to greater elasticity, be suggested to convocation."

Simplify Matters.

"If the bishops had acted on recommendation number one, number two would have been altogether simplified, for extremists who were breaking the law would have been ousted from the church, and revision would have been merely a detail of eliminating archaisms and making the book more workable."

"But recommendation number one has been ignored by the bishops, and instead recommendation number two has been flogged at for fourteen years."

"They have had to go so far in their revision of the prayer book as to embrace the Roman Catholic program, which was eliminated at reformation."

"The Evangelical party would have no objection to the revision if it were merely a question of making the book more modern, but the alarm of the evangelicals is that we are going to embrace the Roman Catholic points of Roman mass, the worst feature of which is recommendation of mass vestments."

Misuse Reservation.
"Also there is a great retrograde step in the reservation of sacrament, because a considerable section of high Anglicans are now using reservation, not merely for communion, but for the purpose of worship."

"I have seen myself benediction with sacrament in a number of churches."

"The structure of the communion office is to be so altered as to have it hardly distinguishable from the first or unreserved prayer book."

"Edward VI revised prayer book is not to be compulsory, but it will be an alternative one. This makes confusion worse confounded, and it is to follow one prayer book, and another section will want a different one."

"Revision will not go through without a big fight. It will have to pass parliament, as well as a national assembly. The Evangelical party is strong in the present government."

We have both the law officers, Inskip and Hoggis, also Montague Barlow and Joynton Hicks."

**SEVEN SHIPS OF SIBERIA
BRING REFUGEES TO PORT**

Manila, Jan. 26.—Seven ships of the Vladivostok refugee fleet, commanded by Admiral Stark, the anti-Soviet leader, were at Mariveles quarantine station of the Philippines today, undergoing inspection and fumigation. The ships at Mariveles have aboard 600 officers and members of the crews, 82 women and 47 children, besides nine old men, including four priests of the Greek church.

Admiral Stark said he hoped that Manila would be their last port of call.

He added that he thought he would be able to sell the vessels here. Whether the exiles can give a clear title to the ships, however, is questioned, as it is believed in some quarters that the Soviets will claim them.

**PREPARE TO SHIP GRAIN
FROM PORTS ON PACIFIC**

Canadian Press Despatch.
Victoria, B. C., Jan. 26.—Vancouver business men are getting ready for the westward flow of grain from the Pacific Provinces to the coast for shipment overseas. Yesterday two such export companies were granted incorporation.

DIBS AND DABS

—BY HARRY MOYER

**TURKISH DELEGATES
PREPARE TO LEAVE****Pasha Declares He Will Send
Reply to Allies From Army
Headquarters.**

Associated Press Despatch.
Lausanne, Jan. 26.—The Turkish delegates to the Near East conference answered the allied project to adjourn the conference by the end of next week, whether their peace was signed or not, by announcing today that they were having their passports vised for their return to Turkey.

At the same time the Turkish journalists were forwarded to Constantinople a statement by Ismet Pasha that if the allies left Lausanne February 2, as they have stated was their intention, his delegation also would depart the same day.

They were not given sufficient time to reply after the presentation of the draft of the peace treaty next Wednesday, he would send his reply later from Ankara or his army headquarters, he declared.

Ismet's statement added that unhappily there was divergence between the Turks and the allies on many points, including the disposition of the Mosul oil territory and the question of the capitulations, war damages and the disposition of the town of Karagatch, opposite Adrianople.

**QUEBEC CITY COUNCILMEN
INCREASE OWN SALARIES**

Special to The Advertiser.
Quebec, Jan. 26.—Aldermen in this city are to receive \$1,000 per year instead of \$800 a year, according to a resolution they adopted last evening, under authority conferred by the legislature.

Objection was raised by Ald. Tremblay, who claimed that the city's financial position did not allow such a move, but his protests were useless. Up to two years ago the city fathers here were getting no remuneration and their first move was to obtain \$600.

Mayor Samson is to get \$5,000 instead of \$3,000.

**PARIS POLICE SEARCHING
EVIDENCE OF ANARCHISTS**

Associated Press Despatch.
Paris, Jan. 26.—The Paris police today carried out five additional raids simultaneously on the headquarters of three Communist and radical organizations and the homes of two Communist leaders.

The raids were made in seeking evidence in connection with the killing of Marius Plateau last Monday by the woman anarchist, Germaine Berton. A number of documents, including several recently received from Moscow, were seized.

**FARMERS' ASSOCIATIONS
LACKED SUFFICIENT TRADE**

Associated Press Despatch.
Washington, Jan. 26.—The failure of 200 of the 243 farmers' buying and selling associations in the United States which have ceased to function since 1913 was due in part to insufficient business, according to a survey made public today by the United States department of agriculture.

Other reasons for failures were listed as inefficient management, affecting 148 organizations; insufficient capital, 73; over-extension of credit, 35; dishonest management, 29; and concentrated control by a few members, 12.

**OFFICIALS IMPRISONED
BY ARMY OF WORKLESS**

Canadian Press Despatch.
London, Jan. 26.—The poor law boards continue to have a rough time with workless applicants, who descend upon them in more or less organized bodies.

At Bodvely over 2,000 unemployed marched upon the guardians at their place of meeting one evening and demanded increased relief.

Failing to receive a definite promise from the guardians as to the demanded relief being forthcoming, the workless army placed gentries around the building and held the guardians prisoners until 6 o'clock in the morning.

**YOUTH DIES INSTANTLY,
HIT BY FALLING LIMB**

**Frank Byron Is Killed While
Working on Farm Near
Sarnia.****Special to The Advertiser
by a Staff Reporter.**

Sarnia, Jan. 26.—Frank Byron, 16, was instantly killed on the farm of his employer, William Peck, south of Sarnia, when he was trapped by the falling limb of a tree yesterday afternoon. The lad was assisting his employer in the cutting of trees on the farm. The limbs of one large tree were obstructed by the other trees, and when dislodged the lad was trapped between a limb and the trunk. It was some minutes before the boy could be removed from underneath the limb and he was then dead.

He is the son of Frank Byron, sen., who came from England to reside at Forest a year ago, the father being at present at Pontiac, Mich. in search of work.

The lad had worked for William Peck on another farm for some time and had only moved with his employer to the farm on which he was killed when John Peck was found dead in bed in December last, this making the second tragic happening on the Peck farm in little more than a month.

**COURT RULES HANGING
AN IRREPARABLE INJURY**

Associated Press Despatch.
San Francisco, Jan. 26.—A temporary injunction restraining the state prison warden at San Quentin from hanging a man convicted of murder was granted in superior court yesterday.

Attorneys for the condemned man based their pleading on the same principle of law which governs civil injunction proceedings, namely, that if their client were hanged "an irreparable injury would be done him."

**FRANCE WARNS SUBJECTS
TO LEAVE RUHR DISTRICT****Germans Make Attacks on French and Belgians, Even Including
Women—Prevailing Opinion Is That Situation Is
Growing Worse Since Thursday.****TO ESTABLISH NEW CUSTOMS BOUNDARY****By GEORGE WITTE.
Special Cable to The London Advertiser
and Chicago Daily News. Copyright.**

Berlin, Jan. 26.—Official notice that the French will establish a new customs boundary around the Ruhr zone occupied by them, was served on the German Government today. It is expected here that this new measure will take effect Feb. 1, when France will start collecting taxes on reparations accorded directly from the German people, and, if necessary, cut off the rest of Germany from coal supplies until certain payments are made and guarantees furnished.

It is reported here that France has given Germany until Feb. 15 to make a new reparations offer, but in the meantime the government will continue the present policy of passive resistance and encourage general strikes and other counter measures by the people in the Ruhr territory if the French carry out their threat.

Indicates Firm Stand.

Thursday's demonstrations in Essen, Dusseldorf and other Ruhr cities are accepted here as indications of the unflinching determination on the part of the Ruhr population to support the Berlin government's policy, despite threats of tempting offers on the part of the invaders.

The prevailing opinion is that the situation in the Ruhr has grown worse since Thursday, when French reinforcements arrived.

Anti-French feeling in Bavaria is running so high that the French

consul-general in Berlin has sent all French women and children and as many men as could go, out of the country because he feared a "massacre."

The Nuremberg consul, in a telegram, asked for instructions as to how to deal with the situation, which was too difficult for him to handle without outside aid.

Consul-General Provost in Berlin advised him to carry out his business as calmly as usual, but praised him for having sent the women and children out of the danger zone.

Situation Improved.

"As I see it personally, the situation has improved in the last 24 hours, and the crisis has been successfully passed," said M. Provost to the writer. At the same time the South German Nationalists are far more given to Anti-French demonstrations than the French.

There have been a few attacks upon Frenchmen and Belgians, even including women in the last few days, and I understand that an American woman was also maltreated. French officials here realize only too well how excited certain classes of the German people are, and have warned all French subjects to leave the country while they can.

Count De Magerie, the French ambassador, and General Nollet, head of the Interior Ministry, have sent notes to the German Government protesting against the mobbing of French officers in Munich and their expulsion from hotels and restaurants there.

**VALLEY OF THE KINGS
STIRRED BY DISCOVERY****Local Population Wants the
Mummy of Tut-Enkh-Amen
Kept in Luxor.**

Associated Press Despatch.
Luxor, Egypt, Jan. 26.—An air of suppressed excitement pervades the valley of the Nile in anticipation of the opening today of the inner or mortuary chamber of the tomb at King Tut-Enkh-Amen, recently discovered in the Valley of the Kings.

Pressure is being exerted by the local population to have the mummy of Tut-Enkh-Amen, if it is found in the inner chamber, kept in the tomb, instead of being removed to Cairo.

They make no secret of their motive in the matter, declaring that if exhibited to the public view in the tomb the mummy of the Pharaoh would attract thousands of tourists to Luxor and stimulate trade in the hotel business and the sale of antiquities. At present in all the tombs of the imperial Necropolis there remains only one royal mummy, that of Amenophis II, which lies in view in its original burial place. The whole Theban burial area, including the Valley of Kings and Queens, contains the bodies of countless generations. Here all from the Pharaohs to the humblest of citizens sought their final rest.

They work on the theory that a spade into the ground in this area without unearthing skeletons of the ancient Egyptian people, and in many cases the bodies of their priests, will preserve, particularly those of the nobility who could afford the expense of embalming with aromatic oils and spices, is anticipated that if Lord Carnarvon finds the body of Tut-Enkh-Amen it will be in an excellent state of preservation, especially if the burial vault was not previously invaded by robbers.

Canada was very fortunate, Mr. Wilson said, in having the system of running railroad affairs that is in vogue in the United States.

"From reports we hear, the United States roads must be going through a very trying ordeal," the superintendent stated. "Railroad troubles during the past year or so have greatly handicapped the efficiency of American transportation, and will be a serious handicap to the railways in that country which will reach a normal stage."

"The diversity of policies and by-laws on the American railways is surprising. Across the border they have twenty or more commissions, whereas in Canada there is only one railroad commission. The Dominion is indeed fortunate."

**GROWERS TO SUPPORT
COMPULSORY BOARD****Meeting With Favor Among
Saskatchewan Delegates.**

Special to The Advertiser.
Saskatoon, Sask., Jan. 26.—Delegates to the Saskatchewan Grain Growers Convention, who may, in the opinion of their president, Hon. J. A. Maharg, number close to 1,000 when they are called to order this afternoon, will almost certainly vote a compulsory wheat board to market the 1923 crop.

Casual discussion among them indicates a preference for this plan over the co-operative pools suggested by Premier C. A. Durney.

There is a strong sentiment also in favor of "broadening out" in political activities. Hon. George Langley, an advocate of a permanent wheat board, will urge that the farmers accept members of every group as their comrades.

"Mr. Wood of Alberta is the shepherd of a very carefully-folded flock, and I believe his view that the flock will be contaminated by mingling with others is a mistaken one," said Mr. Langley.

At the first informal meeting of delegates held last night, some concern was expressed over a supposed decline in the membership of the association and in enthusiasm for its work. A. J. McPherson, secretary, will correct the impression this afternoon, when he reports that 1922 enrollment is less by only about 100 than that of 1921.

The membership remains approximately 20,000.

DR. HILL AT BROTHERHOOD.
Dr. H. W. Hill is announced to speak at the Men's Brotherhood of Askin Street Methodist Church on Sunday morning at 10 o'clock on the subject of "Social Hygiene." The subject is one of special interest, and a very large turnout of men is looked for.

**STATES GRAND TRUNK
PROGRESSING RAPIDLY****W. S. Wilson Optimistic That
Lines Will Enjoy Prosperous
Year.**

The Grand Trunk Railway at the present time is in a better condition and is making more progress than any other railway in Canada. Such was the firm belief as expressed to The Advertiser today of W. S. Wilson, superintendent for the Canadian National Grand Trunk lines, who is in the city for a few hours, making an informal inspection of local road conditions.

Mr. Wilson left at noon to attend the annual banquet of the transportation company, which is being held in Sarnia, Ontario.

Chief Forester of the London division of the G. T. R. left London this morning for the west, and will also attend the banquet.

The Toronto official, as all others who have visited London during the past few months was most optimistic regarding the prospects for the Canadian National Grand Trunk railways enjoying a prosperous year in 1923. The transportation department was exceptionally busy at this time, he said.

Canada was very fortunate, Mr. Wilson said, in having the system of running railroad affairs that is in vogue in the United States.

"From reports we hear, the United States roads must be going through a very trying ordeal," the superintendent stated. "Railroad troubles during the past year or so have greatly handicapped the efficiency of American transportation, and will be a serious handicap to the railways in that country which will reach a normal stage."

"The diversity of policies and by-laws on the American railways is surprising. Across the border they have twenty or more commissions, whereas in Canada there is only one railroad commission. The Dominion is indeed fortunate."

**SMOKE POURING OUT
OF ALASKAN MOUNT****Activity of Matses Accompanied
by Two Shocks of
Severe Proportions.**

Associated Press Despatch.
Anchorage, Alaska, Jan. 26.—Mount Matses, near Mount Shushaldin and Pavloff, which were recently in eruption, was today emitting a large volume of smoke, according to a wireless message received here from the lower Alaska peninsula.

This activity of Matses began yesterday, and was accompanied by two other shocks. The first broke bottles in drug stores and dishes in homes. The second was less severe.

Successive recent eruptions of Pavloff, Shushaldin and Pavloff have made men familiar with the geological history of the Alaska peninsula and the Behring Sea to believe that some series of events is in progress similar to those that marked the rising and falling of the islands of Bogoslof, 170 miles westward from the group of these three volcanoes in 1906.

**BALDWIN WILL PRESENT
REPORT TO PREMIER LAW**

Associated Press Despatch.
London, Jan. 26.—Stanley Baldwin, chancellor of the exchequer, who headed the British debt mission to the United States, will report immediately upon his arrival in London tomorrow to Prime Minister Bonar Law, but it is considered unlikely that the cabinet will consider his report until early next week. The date will be fixed at today's meeting of the cabinet ministers.

According to official circles, it is considered improbable that Mr. Baldwin will return to the United States, the idea advanced being that the negotiations for the debt settlement would be continued by Sir Auckland Geddes, the British ambassador at Washington.

**SUMMONS COMMISSION
TO TALK DISARMAMENT**

Associated Press Despatch.
Geneva, Jan. 26.—M. Viviani, as president, has convened for Feb. 9 at Geneva, the commission of the League of Nations, for the reduction of armaments.

MY THIRTY YEARS IN BASEBALL

By JOHN J. MCGRAW.

Temperaments of Rookie Twirlers—The Trouble With Rube Marquard—When Is a Curve Not a Curve?—Exit the "Spitball."

(Released exclusively through the North American Newspaper Alliance.)

ARTICLE 19.

The most difficult problem a manager confronts in building up a pitching staff is the rookie twirler, with great natural ability and dozens of faults, who has made a reputation in the minor leagues. They must have done something to get promoted. As a result of this many of them imagine that they know it all. And you mustn't lose sight of the fact that youth is youth. These players are mere boys with very little development of their reasoning powers—simply harum-scarum kids.

You can readily understand how easy it is to turn the head of a boy of nineteen by newspaper publicity and public admiration. To escape that a young man must be unusually level-headed. And if he is too serious and reflective he is lacking in pep and spirit.

This problem, I imagine, confronts executives in many lines of business as well as in sport.

It is not at all uncommon for these self-satisfied young men to openly resent any coaching intended to remedy their faults. They don't think they have any.

This type of young pitcher is quickly spotted by his new manager and the coaches. Then our problem begins. We don't want to kill his over-confident spirit, and at the same time he must be reformed to be of any value to himself or to the club. Wilbert Robinson had a great knack of handling these young men. Jennings also seems to understand them. They must be made to like their instructors and to have confidence in them. If we get that far there is a chance.

Many of them, though, prove utterly impossible. The only thing is to cast a boy like that aside, much to his surprise and indignation. On his return to his home or his old club he makes it clear to his friends and to the newspaper men that he was not given a fair trial. And he goes right along with his faults, remaining in the minor leagues until the end of his playing days. He never understands.

Most of the rookies are willing and anxious to be taught. They can be developed, and it is from pitchers of this type that we get our great stars.

A famous pitcher with whom we had great difficulty at first was Rube Marquard. Apparently he had everything. In the American Association he was almost unbeatable. It was on record that we paid \$11,000 for him. I still think that the immense amount of publicity following that deal in which Rube got the sobriquet of the "Eleven-Thousand-Dollar Beauty" interfered a lot with his progress. I don't mean to say that Marquard was swell-headed. He was anything but that. It was nervousness over living up to a great reputation that seemed to upset him.

Rube by the way, is now assistant watchman at the Polo Grounds. Dan Brouthers is the other watchman. Often we get together and talk over old times. Always I have had a deep sentiment for veteran ball players, and I try to get them a good place any time there is a chance.

For the enlightenment of those who, perhaps, are not so familiar with baseball terms I had better explain that in the lingo of ordinary pitching we never recognize but two terms—a fast ball and a curve.

All balls that are twisted out of their natural course are called curves. The outcurve, the drop, down shoot, and so on, are simply a curve ball to the professional player. To us there is no such thing as an incurve. That is what we call a fast ball. Of course, I am assuming that the pitcher is nothing more than a ball thrown in right-handed. A so-called incurve is a natural way with great force. A ball thus thrown will naturally curve inward to a certain extent. If it takes a sharp jump, due to the speed, we call that the "break on his fast one." In other words, the inshoot is the natural course of a ball. A curve is unnatural, due to a reverse twist being put on it.

So, when you hear ball players speak of a curve or a fast one you will understand that "curve" means anything that takes an unnatural bend. One thrown naturally and with great speed is a fast one.

Of course there is the slow ball, which comes under a distinct classification, as does the spitball. The latter is not allowed except by pitchers who were already using it at the time the rule was passed to abolish it. Every team has to register its spitball pitchers and notify the league heads in advance of the season. Unless a man is so registered as a "spitter" he is not permitted to pitch that ball. In time all of them will disappear. Youngsters are not

allowed to use that freak of the pitching art and the spitball itself will soon become obsolete.

Personally, I never like the spitball because I think it affects the arm of the man who uses it. Just the same, I have had some spitball pitchers. Bugs Raymond was one of the best in the world. Mathewson could pitch the spitter, but rarely ever used it in a game. He never considered it part of his equipment.

Thirty years ago we had some masterful pitchers. In the next chapter I want to discuss some of them in connection with the Temple Cup series.

(Copyright, 1923, in United States and Canada by the Christy Walsh Syndicate.)

THREE HUNDRED AND FORTY MILES OF TEA.

If the packets of "SALADA" Tea in the INCREASE ONLY in the sales during 1922 were placed end to end, they would reach for three hundred and forty miles. It would take a person on a fast passenger train, going forty miles an hour, more than eight hours to reach the end of this long line, the distance from Toronto to Montreal.—Advt.

Wilbert Robinson was our coach then and I turned Rube over to him. Marquard got very fond of Robbie and by degrees the old coach was able to work him out of his faults.

His main fault was of putting the ball over the plate with nothing on it, as we say. Rube had trouble with his control. After whipping a few curves—and he had a beauty—and some fast ones around the batter, he would find himself in the hole. So fearful was he of not being able to get the ball over when it came down to two-and-three that he would simply toss it over as straight as a string. In other words, he had so much stuff that he was afraid to use it.

Obviously the only thing to do was to perfect his control so that he would not get in that hole. He worked very hard and under constant coaching finally settled down. Instead of being afraid to turn one loose he got to where he could even play the corners with either his curve or his fast one. When right, Marquard's fast ball had a peculiar jump to it that was a complete baffler to opponents. It was in the use of this

ball at the right moments that he won his nineteen straight games. The point I try to make is that if Marquard had been of the swell-headed type, who refuse to recognize faults, he would never have been a successful big league pitcher. I have seen many pitchers with as much natural stuff as Marquard had who never got past the training period.

Very few of our present day fans remember Amos Rusie. He was a wonderful pitcher and his greatness lay exactly in the spot where Marquard's early fault developed.

Rusie had tremendous speed and a wonderful curve. He could throw a curve ball almost as fast as his regular fast one. Not only that, but he had the nerve and confidence to whip his curve over the plate when in a hole. As a rule, pitchers do not dare try a curve when the count is two strikes and three balls. They've got to get the ball over, and to be sure they usually use their fast one. Rusie had no such misgivings. If in such a hole he would deliberately pitch his curve ball with every ounce of steam he could put on it. Usually he stood bating on their ears by that kind of pitching.

Rusie, by the way, is now assistant watchman at the Polo Grounds. Dan Brouthers is the other watchman. Often we get together and talk over old times. Always I have had a deep sentiment for veteran ball players, and I try to get them a good place any time there is a chance.

EMILE COUE IN AMERICA

Coue Declares American Audiences Most Attentive

Finds Women Take More Readily To His Teachings Than Men—Understand Ideas With Little Difficulty.

By EMILE COUE.

"What do you think of American women?" is a question frequently put to me among a host of others by my new friends over here whose interest in me and my work deviates with often startling celerity to my opinions on seemingly irrelevant subjects.

Now, I am not going to answer that question just yet. The unchallenged queen of every realm of American activity demands longer study than I have yet been able to give her. I merely pause here, in my breathless rush through the States, to do her homage, reminded as I am by her omnipresence by the predominance of the feminine element at most of my lectures. This preponderance is especially noticeable at Washington, where I am writing these notes, and I am wondering why it should be so. It is true that two out of three lectures have been given in the afternoon, at hours when most men are at work, but I have observed the same disproportion at evening sittings. I think the reason may well be that women are more studious than men in America, more attractive than men intellectually, without taking into account their greater inquisitiveness, which is a natural attribute of Eve the world over.

However, in one respect at least, American men and women are alike, that is in their invariable attentiveness. American audiences are ideal from this point of view. Not once, so far, have I had the slightest difficulty in capturing the attention of everyone at the beginning of a lecture, either at New York, Philadelphia or Washington, or in holding it right to the end. I hope I am intelligent enough to know that this is not because of any superior qualities of my own. On the contrary, it is an undoubted fact that my hesitating English, pronounced with a foreign accent, although it may be understood quite sufficiently, ought to have a soporific effect on an audience, and put an abnormal stain on its powers of concentration. I understand now why so many European lecturers prefer to address the American public. They are sure of getting an attentive, comprehending and appreciative audience. And none of the public speakers can really understand the thrill of pleasure experienced when one feels the fluid of every soul in the hall vibrating in unison with one's own thought, or realize the torture of knowing that there's something "out of tune" and that the audience's attention is wandering. Personally I shall never forget the delight of watching my American listeners' eyes riveted on me in a manifest desire to lose nothing of my lecture.

Smiles Puzzled Him.

American audiences have two other characteristics which I have rarely encountered in Europe: they smile while they listen to you, and at the end of the lecture they are fresher than at the beginning. The first one, I will confess, almost dismayed me at the start of my opening lecture. When people began to wear a pleasant, smiling expression I was afraid that I or my ideas were the object of their amusement, or that, for some reason, they were unable to follow me. I now think with a little confusion how surprised they must have been at my too-frequent, uneasy queries, "Do you understand?" No, that is the American way. They sit through even a lengthy, possibly rather dry conference with ease as well as understanding. In Europe people are apt to have a tense expression on their faces if they are following a speaker on any serious subject; or else they look just a little bored, despite a polite effort to simulate attention.

The second characteristic is shown by the vigorous volleys of questions which are fired at me directly I finish my lecture. That is somewhat rare in France. And the questions put are almost always intelligent, and prove that not only have the questioners fully grasped what I have said, but are eager for me to develop certain aspects of the subject or to explore side issues the possibilities and importance of which they have been quick to seize upon. In this respect—and this is, perhaps, a third characteristic—Americans do not seem to suffer from that kind of nervousness which is better described as self-consciousness or bashfulness: I have only encountered one bashful person at my lectures over here—and he was a mere man! As a rule, I find Americans put their

questions with directness and concision, in a voice audible all over the hall, with no discernible trace of timidity. I have been struck also with the order and discipline they so readily show. Whenever a number of questions happen to be put simultaneously jumble and confusion are avoided by a quasi-automatic perception of the most interesting one, and to the author of it the floor is immediately abandoned by the others' tacit consent. Little details, perhaps, but they denote character.

Temperament Is Responsive.

In general, I find that I was not mistaken in believing, even before I sailed from France, that the American temperament is peculiarly responsive to the creed of autosuggestion. Take my hand-clapping test, for instance. 'Simple as it appears—and really is—quite a number of people in France and England fail to grasp the elementary principle underlying it, and the conflict in their own minds mars the success of the demonstration. In America, however, I have had comparatively few failures, because the American mind is sensitive to ideas of psychological analysis.

Perhaps this same sensitivity is responsible for the serenity of American audiences. I can think of no better word to convey my meaning. There is a sort of self-watchfulness, self-control and conscious consideration for others, which surprises me and compels my admiration at each of my lectures. There is an amazing absence of that buzz of conversation, of laughter or (worse) giggling, of rattling of chairs, which are the annoying features of most public meetings in Europe. Above all, there is none, or very little, of the exasperating chorus of coughing, which hitherto I believed to be an inevitable accompaniment to all lectures, concerts or theatre plays. Only once in America have I noticed the plague, and then it was in a very mild form. I conclude that not only do Americans possess an innate respect for the rights of others to hear and enjoy, and of the lecturer or concert-giver or artist to do their part without annoyance; but that they have also come to penetrate the principles

of autosuggestion, and to know that when a person coughs in a public hall it is not because he or she needs to cough, but simply because someone else has conveyed the suggestion by coughing, awaking an unconscious response in others. Contagion, it is usually called. It is really a wonderful confirmation of the theory of autosuggestion.

ALBERTA BUTTERMAKER WINS DOMINION'S PRIZE

Canadian Press Despatch.

Calgary, Jan. 26.—Alberta demonstrated the fact that it holds an enviable place in the butter industry of the west. This was shown at the morning session of the Western Canada Dairy convention when the results of the butter-making contests were announced. In the Canada-wide creamery butter contest held by the association, in the solid pack class, shipped not later than September 9, the first prize was taken by W. Hanson of Lacombe with 97 points to his credit. He was closely followed by the Edmonton City Dairy with 96.7, and O. Severson, Calgary, 96.5.

ONE-CENT SALE IS STANDARD DRUG FEATURE

Standard Drug, Limited, introduced the one-cent sale in Western Ontario over nine years ago. By giving exceptional values, frequently at less than cost, they made this sale a wonderful drawing feature. Like nearly all successful features, it has been copied and, likewise, abused, even to the stage where the public has somewhat lost confidence in one-cent sales. This lost confidence is what we are attempting to regain. It has been the main incentive that has induced us to offer the extraordinary attractions presented on page five of yesterday's edition of this paper.

Read this advertisement over carefully and be among the first to secure your share of these remarkable values.—Advt.

INTRODUCTIONS

By JULIA HOYT

Introducing persons to each other is something everyone has to do occasionally, and one might just as well do it properly. Moreover, this is a very good illustration of the way in which social usage is based on courtesy.

In making casual introductions it is no longer good form to use the word "present." It is too formal for ordinary social relations, which are far more easy and natural than they used to be. Of course, if you are introducing people to a truly distinguished man or woman you "present" them.

As a general rule you merely say: "Mrs. Reed, Mrs. Wallace," or "Miss Reed, do you know Mrs. Wallace?" or yet, "Mrs. Reed, you know Mrs. Wallace, don't you?" Still another form of introduction is "Mrs. Reed, have you met Mrs. Wallace?"

It is usually taken for granted that the person's name you speak first is the one to whom you are presenting the other. However, if you wish to make this more emphatic, pronounce the first name with a slight rising inflection as if you are asking a question, then say the second as if making a flat statement.

If you are introducing a man and a woman—unless the man is a distinguished person—you merely say, "Mrs. Reed, Mr. Wallace." If the man is a personage you may add the "may I present." Unless it be the president, a king or a cardinal, the man is always presented to the woman—never present a woman to a man.

A young woman is always presented to an older one, and an unmarried lady to a married one unless the former is much older. A young man, too, is always presented to an older one. All this, of course, is based on chivalry of men to women and on the courtesy of youth to age.

This same idea of courtesy dictates that men shall rise when a woman enters the room, or is introduced, and remain standing until she is seated. This does not mean that social usage demands absurdity. If a woman comes into a large room

where there are many persons in scattered groups, only the men near her rise and wait for her to sit down. It is good form for a woman to rise and shake hands when another woman is introduced to her, particularly so when she is older. Men always rise and shake hands when they are introduced to one another, but a woman never rises when she is not shake hands with him unless she wishes, unless indeed he should extend his hand, when it would be very rude not to accept it. "How do you do," she is really expected to shake hands with a man when it so happens that they both have long heard about each other through mutual friends and they are glad to have met. Otherwise when a man is presented to a woman she merely bows her head slightly and says, "How do you do," whereas the man bows and says nothing.

There is really no set rule as to when a person should shake hands or how one person should greet another, for one never knows how different persons will affect each other, when you do shake hands always look into the person's eyes.

When a little girl is introduced to older persons she should curtsy, but this custom is not observed after the age of 8 or 9. After that an act which is a charming gesture in a child becomes an affected mannerism.

When you are presenting your daughter to an older or a distinguished man the form is: "Mr. Burke, my daughter Julia," or "This is my daughter Julia." In case she is married: "My daughter, Mrs. Reed."

To another woman you say: "This is my daughter Julia, Mrs. Wallace." But to a young man a mother always introduces her daughter only as "My daughter, Mr. Burke."

Only one phrase in used in acknowledging an introduction, and that is: "How do you do?" To be "pleased" or "delighted" to meet a person happens only in rare cases, where one has been looking forward to the meeting and is glad that it has at last been achieved.

At a formal dinner or luncheon the

Some Don'ts

Don't say "I'm charmed—or delighted—to meet you."

Don't say "Let me make you acquainted with."

Don't say "Meet my friend."

When shaking hands don't grip the hand so tightly that it will take several minutes for the person to regain the use of it.

But don't take a hand as if it were a wet rag, either.

Don't ask personal questions a moment after you have been introduced.

Never introduce a woman to a man.

(The next article in this series will cover the subject of "Personal Stationary and Visiting Cards.")

dinner partners should always be introduced, and the host must always see that every gentleman either knows or is presented to the lady who is to sit at his right, and if possible to the one who will sit at his left at the table. The same applies to the two gentlemen who are to be seated at the left and right of the hostess. Everyone should always meet the guest of honor.

A small group of people who are to sit together at meals, cards, games, theatre, or in fact, on any occasion should be introduced to each other.

In introducing people to one another, names should never be mumbled, but neither should one make an effort of the pronunciation. If you speak slowly and distinctly that is all that is necessary, for, after all, the person being introduced should pay strict attention, so that they may hear and remember the names.

"Pardon me, but I didn't quite hear your name," is bad form a moment after you have been introduced. Although it is not considered good form to repeat a name when it is given, all these rules are elastic, and in cases where you especially wish to remember that name, it is permissible, but always prefix the remark with "How do you do." Never repeat the name alone as acknowledgment of an introduction.

Reflecting an individual Beauty. Ornate creations, as well as types of dignified simplicity, are developed in Paisley Silk and Canton Crepes, Taffetas, Georgettes and Tricotines, trimmed with flowers, braided girdles and floating bows, in women's and misses' sizes.

NOW CLEARING All that is left of our Winter Suits, Coats and Dresses at drastically reduced prices.

You are invited to come and view all that is new for Spring Wear, as first choice is always best and a deposit will hold any garment till required.

ARTISTIC LADIES' WEAR CO.

211 Dundas Street.

He saw, or thought he saw, a little spot of black moving with what looked so like moving snow.

A white coat, and the tip of Shadow's tail was black.

Peter waited to see no more. He turned and as fast as his legs could take him he hurried into the dear Old Briar Patch to find little Mrs. Peter.

"He's coming, Fuzzy, he's coming!" cried Peter as soon as he found her. And on his face was such a look of fright that Mrs. Peter knew at once he had dreadful news.

"Who is coming?" she whispered, as if afraid to speak aloud.

"Shadow the Weasel!" cried Peter. "He's coming straight for the Old Briar Patch. There isn't a minute to lose."

Peter began to run about in the Old Briar Patch as if he didn't know what he was doing. This way and that way he ran, back and forth along those little paths with Mrs. Peter at his heels. Those Rabbits acted as if they were crazy with fright. But Peter did know what he was doing. He was mixing up his trail. At last when he dared wait no longer, he led the way out of the dear Old Briar Patch straight for the Old Pasture. And my, how he and little Mrs. Peter did run!

A Clear, Beautiful Skin

There are millions of tiny openings or pores in the skin and these must be kept open and clean if the beauty of the skin is to be maintained.

Because it cleanses these pores and encourages the healthful action of the skin, Dr. Chase's Ointment is most effective as a skin beautifier. Roughness, redness, pimples and all sorts of skin blemishes disappear by its use, and the skin is left clear, smooth and velvety.

Junior Tilt Has Fans Aroused: G. T. R. Trans. and Bell Win Mfrs.: All Set For Indoor Track Meet

TONIGHT'S JUNIOR MIX PUTS IT UP TO LOCALS

Must Beat Ingersoll or Sink Out of Picture This Year.

LINE-UP SAME

Ingersoll Brings Big Contingent of Rooters Up To See Crucial Game.

The biggest strain in the way of noise and weight put on the Westminster tilt this season will be placed on the venerable structure tonight, when the Ingersoll youngsters and the locals mingle. The affair means a three-cornered tie for the group, with Gloucester or peaceful oblivion for the locals for this season, and as the latter are not quite ready to quite the stage yet, it is sure to spell fireworks.

From all accounts, Ingersoll will be a modern version of the deserted village tonight, for a couple of hours, though where they are all going to be put presents a problem. Anyway, they will have seen London.

Local fans also figure on seeing this mix tonight, and apparently are all prepped up to witness a whole season of rooting all in one night. Certainly none of the hockey games thus far have been very noiseless affairs, so if the local customers come to life under the stimulus of this youthful fracas there is still hope for an arena yet.

The locals will not be changed much for the crucial game of their young lives. They made mistakes in Gloucester and corrected them here, and they are fairly confident that they'll be able to do the corrective stunt again tonight over Ingersoll. However, as well as being sure, they have to make sure, and they can only do that from going to go on the ice.

"Cap" Graham said the youngsters were confident last night, and with the home ice in their favor, they should be able to step into the boys from the dairy center with real aplomb.

If the junior mix tonight there's still the consolation that the girls' team is still very much in the tripping.

DELLA UNKO WINS AFTER DRIVER IS REPLACED

Windsor Ice Card Opens With Third Race As Feature.

Special to The Advertiser. Windsor, Jan. 25.—Splendid racing marked the opening of the winter racing season here this afternoon, and about 2,000 harness fans were on hand to witness the sport. Owing to recent snow the track was not fast but the racing was better than that seen at Mount Clemens last week.

Feeling in the audience was heavy on each race, as spectators from all over the country were here to witness the sport. Alvin Pointer, the favorite, topped the 2:30 pace, the opening number on the card, in three straight heats. He sold in the auctions at \$50 against \$10 on the field, and was a sure bet. Peter Johnson, the second favorite, topped the 2:20 trot, the best of the field of 2:20 trotters, was the best of that group, and won handily in three straight heats.

The third race was the betting and racing feature of the afternoon. Della Unko sold for \$10 in the auctions, Jack Canuck \$25, Peter Hall \$10, Blend J. \$10, and the field \$10. Jack Canuck won the first heat from Della Unko by a neck. The judges did not think that Lynn, who drove Della Unko, got the best out of the mare, so they put up Peter Hall before the second heat.

The judges did not figure Lynn dishonest, but incapable. In the second heat four steeds were bunched at the three-quarter pole, and Della Unko coming down on the outside, passed one after another and beat out Jack Canuck by a half length at the finish. The time was 2:14 1/2, the fastest time around this winter.

Della Unko captured the third heat and race in a great stretch drive, winning over Peter Hall by a head. Jack Canuck was out of the contention throughout.

The summaries:

2:30 Pace, Purse \$500.
Alvin Pointer, b.g., by Sidney Pointer (Malow) 1 1 1
Lucey Peter, b.m. (Morrison) 2 2 2
Daisy Overard, b.m. (Mullin) 3 3 3
Daisy Hall, b.m. (Piering) 4 4 4

Issue Invitations For Scots Games

Admission to the evening games at the new London Club, at which the touring Scotch curlers will play with local rinks as opponents, will be by invitation only. It was announced last night. These will be given out by members of both the Thistle and London Curling Clubs.

The program for the Scots' entertainment while here on Jan. 30 has been practically completed. With the out-of-town rinks they face in the afternoon, they will be guests at a one o'clock luncheon to be tendered by local curlers at a place yet to be designated. After their games in the afternoon at the Thistle Club they will be taken on a short drive about the city, and will be the guests of the London curlers at a banquet in the recently-completed clubrooms of that new rink. The evening games will start at eight o'clock.

THISTLE RINKS WIN IN TANKARD PRIMARIES

Heaman and Allen Fours Beat Ingersoll in Finals Five Shots Up.

Special to The Advertiser. Ingersoll, Jan. 25.—London Thistle rinks skipped by P. N. Allen and A. M. Heaman, were winners here today in Group 15, Ontario Tankard primaries. They won from St. Thomas in the first round by fourteen shots, and in the final from Ingersoll by five shots. The London Curling Club and Embro defeated.

First Round.
Woodstock, Ingersoll.
J. McCurdy, G. C. Ellis
F. Harrington, E. C. Sylvester
A. H. Wilson, D. H. McGill

W. L. McWhinney, 12 W. J. Peters 26

Final.
St. Thomas, Ingersoll.
R. B. Hutt, 11 P. N. Allen 25
W. J. McWhinney, 12 A. M. Heaman 18
London Thistles up 5 shots.

Primed for Low-Benny Go Again

Tender Never Trained For Pal Moran—Heavy Gossip.

By FAIR PLAY. New York, Jan. 25.—Inedders are to-day engaged in a boxing match. Tender engagement this summer. Ordinarily Low's unsatisfactory showing against the veteran of the gate receipts, but the fact is that the Philadelphia southern held Pal too lightly and did not train as he should.

This is not to say that Low neglected his training in his last fight, but it is stated, spend a single day on the road, and as a consequence, when Moran was pulled tender in his last fight, he was obliged to favor lest he damage himself further and do himself out of the big time engagement next summer.

In about four weeks more Benny Leonard will be in the ring with the theatrical work, and will then proceed earnestly to get himself in condition for fighting. Benny is always a careful liver, and thus does not get as far out of condition as he would were his habits not so regular.

Which indicates that Benny is not letting his grip upon the heavyweight division. Benny has laid out two fights for himself, the first against Charley White, the second against Lew Teller. Out in Jersey there is talk that Mickey Walker is being built up for a meeting with Leonard, but the latter does not seem to be enlightened about it. Probably he will be enlightened later.

Floyd Johnson is looking around for the cleverest heavyweight boxers he can find to be used when he starts training for Gibbons. What Johnson really needs is the service of some such trainer as Jimmy De Forest.

Dempsey has promised to do some work with Johnson in the course of his preparation, but if he takes Larry Williams and Jack Renault as examples, working with a champion gets a little late save a collection of punches.

Civil Service	2	2	6	7
McCormicks	0	4	3	18

Tuesday's Games.
Bell Telephone vs. Civil Service.
G. T. R. Trans. vs. McCormicks.

The crowd that follows the Manufacturers' League cities were all crossed up last night, when a big portion elected to choose another night for the two affairs staged developed the best bill yet staged this season.

It took the Grand Trunk Transportation just half an hour of overtime to get a 4 to 2 verdict over H. J. Jones & Son's team, both teams furnishing breath-taking passages. That was a surprise, but the "Hello" boys saved the big upset of the evening for the last, when the Bell outfit were out in front to the extent of 5 to 4 over the Grand Trunk A. A. and upset the crowd by a paper giving them a 5 to 4 victory in the last few months. The big leagues have

the first game neither team got away to a good start, and it was well into the third period when the goal shot from center ice. Potter scored for the G. T. R. and gave them a comfortable lead to fall back on. Good combination was witnessed, and the Bell boys were playing in the third period when the G. T. R. goalie was smothered by the Jones' and when the final bell rang the score was tie. A few minutes later scored another, putting the G. T. R. nearly even with the Bell. Both teams battled hard, but the G. T. R. nearly scored their fifth, and it was only by the quick work of Needham that they were held.

The second game the snappy playing of Grainger and Woolley was a neat shot. Grainger scored shortly after the Bell had the lead. Wilcox got a stick, and had to quit, so the cuts needed stitching. The Bell boys were lost without the assistance of Wilcox, and played the boards to advantage. Woolley started the scoring a few minutes after play started on a neat shot. Grainger scored shortly after the Bell had the lead. Wilcox got a stick, and had to quit, so the cuts needed stitching. The Bell boys were lost without the assistance of Wilcox, and played the boards to advantage.

Woolley started the scoring a few minutes after play started on a neat shot. Grainger scored shortly after the Bell had the lead. Wilcox got a stick, and had to quit, so the cuts needed stitching. Three of the stars for which major league have spent \$500,000. Jimmy O'Connell, left; Sammy Hale, center; and Willie Kamm.

By NORMAN E. BROWN. These may be lean and hungry days for the legion of baseball fans who hanker for the days of the box scores and such. These may be lean days for the ball players who are directing elevators or performing other arduous tasks to keep in trim.

But now are the palmy moments for the moguls of the Pacific Coast League. If their situation interests you. For they are spending their waking hours counting over the dough they have collected from the major leagues in the last few months. The big leagues have

shipped to the coast just about half a million dollars in gold—or certified checks—in payment for Coast League stars and prospects.

This half million went for just ten of the players acquired. The probabilities are that deals for lesser lights might add another \$100,000 to the Coast League treasuries.

Oh, what a day for the Coast Leaguers! The deal for Jackie May of the Vernon club has struck a snag, but still may be considered. The other deals have been completed.

The sale of Jimmy O'Connell, star outfielder and first baseman of the San Francisco team, to the Giants was the first deal to draw attention. The Giants gave \$100,000 for him, just like that.

The fans were still talking about Jim when the White Sox gave the Frisco team \$75,000 for Third Baseman Willie Kamm. That made \$175,000 worth of starry for the Frisco club.

Fortune in Two Deals.
Connie Mack liked Sammy Hale of the Portland club and offered that outfit a mere \$75,000 for him. Sold, to the gentleman with the stiff hat, Walberg, another Portland star, looked good to McGraw—\$20,000 more for Portland stockholders.

And so it went. The Coast League clubs may find their turnstiles clicking a bit slower for a while because of the absence of these stars. But they can stand a lean period and still be sitting pretty.

And, meanwhile, big league fans are awaiting the opening day of the season to see how this half-million-dollar collection turns out. How many of the ten will be bloomers?

How the Money Went.
Here are the ten, the clubs that sold 'em, the clubs that bought 'em and the price given for the deal:

Player	Club Sold To	Price
May, Vernon	Sold to Yankees	\$100,000
O'Connell, Jimmy	Sold to Giants	100,000
Kamm, Sam	Sold to White Sox	75,000
Hale, Portland	Sold to White Sox	75,000
Mack, Connie	Sold to White Sox	75,000
Sand, Salk Lake	Sold to Phillies	50,000
Walberg, Portland	Sold to McGraw	20,000
Thurston, Salk Lake	Sold to	15,000
Kinn, Sacramento	Sold to	7,500
Adams, Seattle	Sold to Dallas	5,000
Total		\$497,500

New York—"Just a little scar left now." Babe Ruth said today about his infected finger. He was in from his Massachusetts farm having the doctor look at it. "Feeling fine. Going to Hot Springs Feb. 15. Watch me hit them next season," Ruth said.

New York—Contracts to all of the Giant regulars, with the exception of Mousie, Kelly and Stengel, who are on tour, have been sent out by Secretary Timmer. The Yankee contracts will not be sent out before Feb. 1.

New York—Luis Firpo, South American heavyweight champion, is willing to fight Jack Dempsey if he wins from Bill Brennan, according to a cable Tex Rickard received from him accepting terms for the Brennan bout.

Central Seniors Here on Feb. 16. Toronto Central 'Y' seniors will be seen here in action against an all-star team from the local 'Y' on Feb. 16. This will be one of the high spots of the cage season this year, probably the closest attitude to be reached, as this team put the fast Northwesterners from Chicago, seen here against Western 'U' away. The Central 'Y' is leading the senior O. B. A. race at present.

By LAWRENCE PERRY. Special to The Advertiser. New York, Jan. 25.—In objecting to the attitude of the U. S. Golf Association against making the gate receipts of holding the national open championship at Inwood next summer, an official of the professional golfers' association said that the U. S. G. A. is in a position to send a team of amateurs to England this year for a return match for the Walker Cup. And it can do this without incurring financial embarrassment.

It is this true there would seem to be no reason why the association should deny it. Amateur sport conducted purely in the interests of the game may be regarded as pure amateur sport only by courtesy. But it is perfectly legitimate that funds should be raised through the admission price, especially when money thus derived are employed in the advancement of the sport.

For example, as a result of funds raised from the Walker Cup team and the amateur championships, the U. S. G. A. is in a position to send a team of amateurs to England this year for a return match for the Walker Cup. And it can do this without incurring financial embarrassment.

Surely a happy position as compared to the British, whose Walker Cup team was sent here last summer on the basis of subscriptions which, according to recent reports from London, were inadequate to cover the full cost of the invasion.

In any event, when one considers the immense sums of money taken in by our great football eleven last fall—profits ranging from two hundred to five hundred thousand dollars—when one recalls the opulent gates at the Davis Cup matches, at Forest Hills and the national singles at Germantown, the comparatively paltry income of the U. S. G. A. is striking. To be precise, it was brought out at the annual meeting of the association that income from receipts at the open and amateur title tournaments amounted to \$25,138. A fine showing for golf.

But were this sum the total earnings of our great amateur sports the walking would reverberate with bowls of dismay.

It is a great pleasure for the writer to correct the report that Paul Robeson, the great Rutgers football star, now living in New York, has no intention of entering the prize ring. It will be recalled that reference to Robeson's reported ambition appeared in this column, now it appears that the former athlete student, who is highly respected and admired and in good time he intends to take up the practice of his profession, either in New York or New Jersey.

New York—Contracts to all of the Giant regulars, with the exception of Mousie, Kelly and Stengel, who are on tour, have been sent out by Secretary Timmer. The Yankee contracts will not be sent out before Feb. 1.

New York—Luis Firpo, South American heavyweight champion, is willing to fight Jack Dempsey if he wins from Bill Brennan, according to a cable Tex Rickard received from him accepting terms for the Brennan bout.

Special to The Advertiser. Woodstock, Jan. 25.—The Western Ontario Secondary Schools Basketball League got under way last night, when the college was defeated by the collegiate by a score of 29 to 8.

TONIGHT'S TRACK MEET WINNERS MAY GET TRIP

Hamilton Extends Invitation To Representative Team Next Month.

GUNNERS FAVORITES

Central Collegiate Track Squad Will Have Tough Opposition From City Stars.

The winners of tonight's big indoor meet being staged at the armories, the trophies of the Garrison A. A. A. will in all probability be chosen as a team to represent the local association at an indoor track meet in Hamilton next month. An invitation to send a team down to the city under the mountain has been received, and the London Garrison A. A. will likely accept.

Tonight marks the second big effort of the season by the Garrison A. A. A. in its met, the only event of the kind to be staged in London this season. The Garrison A. A. made a distinct success with its big boxing tournament, Christmas, and its second venture to night should go further in proving what a big asset to the city's athletics this two-year-old organization is.

The meet tonight brings practically all the city's outdoor track stars into the competition, and as track events during the past two years have grown in favor with Londoners, tonight's bill should attract a big crowd to the armories.

The work of the Collegiate track team, who made a splendid record in out-of-town meets last year, will be watched with keen interest tonight. The Collegians, who are also members of the Machine Gun Corps, however, will have plenty of good opposition, probably not as youthful but with much experience in track athletics. General regret is felt that exams, prevented the entry of the Western University track team, as they have been the dark horses of the evening.

Several members of units, it was rumored last night, would be protested for professionalism, but their names were not divulged.

The interests of the meet were put before the Kiviat society, who are now in the city, and the officials in charge of the events have been equally energetic in other places.

At the conclusion of the meet, the prizes, which have been on show in the Briois store windows, will be presented to the winners by Brig.-Gen. W. B. King, C.M.G., D.S.O.

TIGER CORAL RESIGNS.
Hamilton, Jan. 25.—Ernie Runion, Cornwall, honorary coach of the Senior Tiger O. H. A. team, has resigned because he feels that he has not been able to get results from the team, which is in fifth place in the league.

New York—Luis Firpo, South American heavyweight champion, is willing to fight Jack Dempsey if he wins from Bill Brennan, according to a cable Tex Rickard received from him accepting terms for the Brennan bout.

MR. ALWAYS LATE—

GOOD GOLLY! LATE AGAIN

YES SIR

FORTY MINUTES LATE

YES SIR

WHY DON'T YOU GET HERE AT EIGHT?

I WAS AT THE ENTRANCE HERE AT FIVE AFTER EIGHT!

AND YOU LOAFED THERE THIRTY FIVE MINUTES?

NO—

—NOT EXACTLY LOAFING— I WAS THINKING UP AN EXCUSE FOR BEING FIVE MINUTES LATE.

HER THREE CHILDREN GEORGE RALPH IS
HAD
WHOOPING COUGH
HIGHLY ELATED

Many mothers make the mistake of thinking that whooping cough is not of serious importance, but it is one of the most dangerous diseases of infancy, and yearly causes more deaths than scarlet fever, typhoid or diphtheria, and is more common in female than male children.

DR. WOOD'S NORWAY PINE SYRUP. is highly recommended by mothers everywhere for the relief of this trouble as it helps to clear the clogged-up air passages of the mucous and phlegm that has collected, and in this way brings on the "whoop" which brings the so-much-sought-for relief and heals and soothes the lungs.

Mrs. H. W. Mahar, Kentville, N. S., writes: "My three children had whooping cough. I tried every medicine I could think of until an old gentleman told me to try Dr. Wood's Norway Pine Syrup. Before they had one bottle taken the cough seemed better, and after two bottles they were well. It loosened the cough and relieved them of that hard, distressing and strangling feeling that goes with it."

"Dr. Wood's" is 35c and 60c a bottle. Put up only by The T. Milburn Co., Limited, Toronto, Ont.—Advt.

Expresses Gratitude to Tanlac for Ending Stomach Trouble and Indigestion of Ten Years' Standing.

"Tanlac not only stopped my stomach trouble, but it built me up ten pounds, and I am one of its firmest friends from now on." was the emphatic statement of George H. Ralph, 1339 16th Ave. W., Calgary, Alberta. Mr. Ralph is in the trucking business and is well known.

"For ten years," he said, "I suffered from stomach trouble and indigestion. I had no appetite, and just had to force myself to eat. Even then I would bloat up with gas, and there was a heavy, distressing feeling in the pit of my stomach that was awful. I had splitting headaches, lost weight, and was so nervous and run down I could hardly get any sleep at night. It's all over now, though, thanks to Tanlac. I never have indigestion, my appetite is a wonder, nervous steady, sleep like a top and feel fine all over. Tanlac is mighty fine, and I gladly recommend it."

Tanlac is for sale by all good druggists. Over 35 million bottles sold.—Advt.

TRY MAGNESIA FOR STOMACH TROUBLE

It Neutralizes Stomach Acidity, Prevents Food Fermentation, Sour Gassy Stomach and Acid Indigestion.

Doubtless if you are a sufferer from indigestion, you have already tried peppin, pancreatin, charcoal, drugs and various digestive aids and you know these things do not give you relief. In some cases do not even give relief.

But before giving up hope and deciding you are a chronic dyspeptic just try the effect of a little Bisulphate of Magnesia—not the ordinary commercial carbonate, citrate, or milk, but the pure Bisulphate of Magnesia, which you can obtain from practically any druggist in either powdered or tablet form.

Take a teaspoonful of the powder or two compressed tablets with a little water after your next meal and see what a difference this makes. It will instantly neutralize the dangerous harmful acid in the stomach, which now causes your food to ferment and sour, making gas, wind, flatulence, heartburn and the bloated or heavy, lumpy feeling that seems to follow most everything you eat.

You will find that provided you take a little Bisulphate of Magnesia immediately after a meal, you can eat almost anything and enjoy it without any danger of pain or discomfort. Moreover, the continued use of the bisulphate of magnesia cannot injure the stomach in any way, so long as there are any symptoms of acid indigestion.—Advt.

HOW HE CURED HIS RUPTURE

Old Sea Captain Cured His Own Rupture After Doctors Said "Operate or Die."

His Remedy and Book Sent Free. Captain Collings sailed the seas for many years. He sustained a bad double rupture that soon forced him to not only remain ashore, but kept him bedridden for years. He tried doctor after doctor and trust after trust. No results! Finally, he was assured that he must either submit to a dangerous and abhorrent operation or die. He did neither! He cured himself instead.

Captain Collings made a study of himself, of his condition—and at last he was rewarded by the finding of the method that so quickly made him a well, strong, vigorous and happy man. Anyone can use the same method. It's simple, easy, safe and inexpensive. Every ruptured person in the world should have the Captain Collings book, telling all about how he cured himself, and how anyone may follow the same treatment in their own home without any trouble. The book and medicine are FREE. They will be sent prepaid to any ruptured sufferer who will cut out the below coupon. But send it right away—now—before you put down this paper.—Advt.

FREE RUPTURE BOOK AND REMEDY COUPON.

Capt. W. A. Collings (Inc.), Box 555H, Watertown, N. Y.

Please send me your FREE Rupture Remedy and Book without any obligation on my part whatever.

SULPHUR CLEARS ROUGH, RED SKIN

Face, Neck and Arms Easily Made Smooth, Says Specialist.

Any breaking out of the skin, even fiery, itching eczema, can be quickly overcome by applying a little Menthosulphur. Because of its germ destroying properties, this sulphur preparation begins at once to soothe the irritated skin and heal eruptions such as rash, pimples and ringworm. It seldom fails to relieve the torment and disfigurement, and you do not have to wait for relief from embarrassment. Improvement quickly shows. Sufferers from skin trouble should obtain a small jar of Rowle's Menthosulphur from any good druggist and use it like cold cream.—Advt.

Bilious Attacks Are Usually Due to Constipation

When you are constipated, not enough of Nature's lubricating liquid is produced to keep the food waste soft and moving. Doctors prescribe Nujol because it acts like this natural lubricant and thus replaces it.

Nujol is a lubricant—not a medicine or laxative—so cannot gripe. Try it today.

Nujol
A LUBRICANT—NOT A LAXATIVE

NOTICE! To Live Stock Owners

If You Own Any Horses, Cattle, Poultry or Hogs, By All Means Read This.

Safeguard your stock against the costly ravages of quick spreading diseases. Nature has provided wonderful health-giving roots and herbs which have proved unfailing in thousands of cases. These are combined in a time-tried, reliable remedy, Rundle's Liniment—the steady of hundreds of farmers in this community. They recommend it highly for colic, sore, colds and distemper in horses and for soreness of the udder, caked teats, blots and sores in cattle. It is a positive relief for diarrhoea, cholera, roup, parasitic growths and bowel trouble in poultry. It will build up sick hogs and remedy cholera and indigestion.

Use Rundle's Liniment at the slightest sign of trouble. Just follow the directions with each bottle. It may save you several hundred dollars. Your druggist guarantees satisfaction or money back.

"THE RAPIDS" IS SET AT SAULT STE. MARIE

Canadian-Made Film Is Not Typical of Natural Beauty of Dominion.

SHIPMAN DIRECTOR

Harry T. Morey and Mary Astor Co-Starring in Feature at Grand.

The two, and two only, attractions in "The Rapids," a Canadian-made feature now showing at the Grand, are the scenery and Mary Astor. Undoubtedly, the director meant it otherwise, as Harry T. Morey is co-starring, and there is quite apparently an effort toward action of the well-known "vital and gripping" variety. Mary Astor is more or less a recent comer to filmdom, and little or nothing can yet be found about her in the pages of movie magazines or newspapers. She has appeared with Eugene O'Brien in at least one film and was "The Beggar Girl" in a version of a Tennyson poem which appeared a few weeks ago at a local theatre. Either of these productions will give guarantee of her fairness, though she has had the opportunity for emotional acting, but her smile is most infectious and her eyes as bright as twin stars.

TAKE SALTS IF STOMACH ISN'T ACTING RIGHT

Says Indigestion Results from an Excess of Hydrochloric Acid.

Undigested food delayed in the stomach decays, or rather ferments, the same as food left in the open air, says a noted authority. But it is not indigestion that is caused by hyperacidity, meaning there is an excess of hydrochloric acid in the stomach which prevents complete digestion and starts food fermentation. Thus everything eaten sours in the stomach much like garbage sours in a can, forming acids and gases which inflame the stomach like a toy balloon. Then we feel a heavy, lumpy misery in the chest; we belch up gas; we eructate sour food or have heartburn, flatulence, water-brash or nausea.

He tells us to lay aside all digestive aids and instead get from any pharmacy four ounces of Jaid Salts and take a tablespoonful in a glass of water before breakfast and drink it, while it is effervescent, and furthermore, to continue this for a week. While relief often follows the first dose, it is important to help neutralize the acidity, remove the gas-making mucus, attack the liver, stimulate the kidneys and thus promote a free flow of pure digestive juices.

Jaid Salts is inexpensive, and is made from the acid of grapefruit and lemon juice, combined with lithia and sodium phosphate. This harmless salts is used for many stomach disorders with excellent results.—Advt.

All the Theatres

ALLEN.

Laurette Taylor as Peg in "Peg o' My Heart." Vaudeville.

PATRICIA.
Thursday, Friday and Saturday
Roy Stewart in "Back to Yellow Jacket."

vaunts much his exploiting of Canadian scenery, Shipman has woefully neglected his opportunity in the neighborhood of Sault Ste. Marie, and while we are not prepared to vouch for the statement, surely there must be most attractive scenery to be found in that, or any other, Canadian vicinity.

Bridges Not Scenery!
What the scenery chiefly displayed was an iron foundry and the Soo rapids. Both were interesting and the foundry was splendid, from an educational point of view, but the rapids were not typical of the beauty of the Dominion. In one or two places really magnificent effects were obtained by double exposure, but in the most part they were the rushing water was dimmed, the stark bareness of a rock pile, or the gaunt outlines of a bridge. From a commercial point of view, bridges may be magnificent but they are not natural scenery.

Perhaps it is because movie-goers have become accustomed to the finished perfection of California settings that the aspect of our own cities becomes, when seen through the camera, a trifle rude and uncouth. The scenes first in the village, and then in the town of St. Marys, are excellent and realistic, however, and the director has found many true Canadian types with which to represent the populace. On one or two characters the make-up is rather badly done, but at first glance, anyone who has ever lived in a small town, could find the people for the leading citizens of St. Marys.

Money Exaggerates.
Harry T. Morey was for many years a favorite actor, but in "The Rapids" he seems to overdo things a trifle and sways between the dreamer and the decisive man of business so much that at the end one has no clear conception of the character. And few of the minor roles are convincing.

In spite of its somewhat glaring crudities (Nottingham lace curtains are not used in the well-regulated homes and bungalows of today), there are one or two dramatic moments in "The Rapids."

A fall from the bridge into the swirling rapids below is excellently manoeuvred, and someone, whether the hero or a double, treats the audience to an excellent display of the strong overarm stroke in swimming. The dangerous current is a feat quite splendid, and watching it, one almost feels the tug of the swift water about one's ankles.

If you are prepared to overlook the immaturity (and after all the making of Canadian films is an industry still in its swaying clouds), you may find enjoyment in "The Rapids."

FAMOUS STAGE PLAY ADAPTED TO SCREEN

Laurette Taylor, at Loew's, in Her Beloved Role, "Peg o' My Heart."

DECIDED SUCCESS

Admitted To Be the Finest Film Shown Here in Weeks.

Loew's the rest of the week, brings its own star, also Mary Pickford, of all the luminaries of filmdom role, would be the only logical selection for the title.

Heretofore, Mary Pickford has been the only actress of the screen whom one might perfectly conceive as Peg, but Laurette Taylor, following her beloved role from stage to screen, endows the Peg of shadowland with all the whimsicality and charm which made Peg of the stage so great a success.

There's the saying, "See Naples and die." It might almost be construed, "See Peg-o'-My-Heart—and nothing else matters."

After all the sumptuousness that has been poured at random into the movies, all the fine feathers and the foreign lands, it seems extravagant to enthuse over anything as finely simple as "Peg-o'-My-Heart," but J. Hartley Manners' play, transformed to the screen in an exquisite delight.

The background contrasts the quaint, soft contours of an Irish landscape with the gracious loveliness of an English country home. And in the foreground is the vivid, the piquant, the wistful, and always the utterly fascinating Laurette.

Simple Story.
The story of Peg is by no means new, and no doubt it is well known. Laurette Taylor is "the whole show." She has adequate support in Ethel Terry and Mahlon Hamilton, yet they serve but to enhance the fitness of the background.

The only approach to her characterization is Mary Pickford in her new version of "Fess of the Storm Country," and whereas Mary has until now had the field to herself in the roles of untamed creatures of the wild, who were thrust suddenly into the bewilderment of a perfectly-appointed home and the company of "ladies and gentlemen," now she of the curlew has a rival in Laurette, and in truth it will be hard to say which is the greater actress.

The story opens with the death of the mother in the Irish cottage, a scene, lovely, yet pathetic, which ought to move the most hardened heart. From there on the plot moves with the mood of Peg, through smiles and tears, through near-tragedy and comedy. It is utter delight to watch it, and you will be surprised when you realize that this film has been written. In passing, the subtleties are clever, and one of the nicest features of the film.

A Great Actress.
"Peg-o'-My-Heart" is but one more proof that the screen needs more sincere actresses and fewer beautiful dolls. Laurette Taylor is beautiful beauty. To the end she retains in the movie the life and the spirit of the stage and she is not startling.

CLAIMS PEOPLE BOUND BY EXISTING SYSTEMS

A. R. Mosher Declares Social and Economic Principles Cause Troubles.

BAN IDEA OF GOLD

Avers Change of Present Rules Would Solve All Labor Problems.

In his plea to the unorganized railroad workers of the city of London to become organized so that the railroad labor unions would have that vital power of membership behind it in its efforts to secure for the employees a fair living wage and other needed reforms, A. R. Mosher, Grand President of the Canadian Brotherhood of Railway Employees, declared that the "root of all evil" in his opinion was the social and economic system of the present day.

Mr. Mosher, one of the most prominent labor men in the Dominion, made a special trip to the city yesterday, and in his address to the gathering of more than 125 railroad workers in the labor temple last night greatly impressed his hearers, and his heart-to-heart talk merited the applause that followed it.

Solution For All Labor Problems.
After speaking at some length on the absolute need of organization, if anything was to be accomplished in the way of improving working conditions of employees, and to investigate alleged injustices, was to change the present social and economic order and to back the consolidation of organized labor on the railroads.

In the course of his talk, the speaker drew attention to the fact that the time had come for the new president of the Canadian National Railways, had declared on several occasions that all employees should be paid a living wage, which he defined as follows: "So that every employee will be able to bring up his children as they should be brought up, and be able to live in comfort and decency."

Lauds Thornton's Declarations.
In concluding he lauded that declaration of the C. N. R. president, but pointed out that even if Sir Henry could work miracles, he would not be able to accomplish that desired object if the employees were not organized. The employees should be organized, he said, to be able to co-operate in every way so that the railways will be able to pay a living wage.

C. Plummer was the chairman of the meeting.

CLAIMS MANITOBA HAS BUT 200 DRUG ADDICTS

Canadian Press Dispatch.
Winnipeg, Jan. 25.—Denying a statement made at a meeting of the Council of Physicians and Surgeons of Manitoba here Tuesday night that there were 5,000 drug addicts, Dr. B. J. McConnell, administrator of the Manitoba narcotic drug act, declared today that there were not more than 200 addicts in the whole of the province. Five years ago when the narcotic drug act was put into force, Manitoba had 4,500 addicts, he stated, but successful operation of the act had reduced this number to about 200.

MURDER PAYMASTER, THUGS GET PAYROLL

Thugs Kill R. Anderson in Plant of Michigan Tool Company.

THREE MEN IN PARTY

Make Clean Getaway in Automobile With Half-Monthly Payroll.

Special to The Advertiser.
Detroit, Jan. 26.—Intercepted while carrying \$10,000, the semi-monthly payroll, from the company offices to his own department, located in another part of the building, Robert H. Anderson, 36 years old, secretary-treasurer and paymaster of the Michigan Tool Company on Joseph Campau avenue, was shot and killed at 5:30 o'clock last evening. Two bullets penetrated Anderson's body and he rolled lifeless to the bottom of a flight of stairs, while three holdup men, two of whom fired the shots, scooped up the money envelopes, darted downstairs and into the street and escaped in a big automobile that stood waiting. Not more than two minutes elapsed from the time the thugs entered the building until they were on their way.

Anderson is believed to have resisted the thugs when they surprised him on the stairway leading from the first to the second floor of the company's plant. His revolver was found beside his body when the employees rushed to his side following the shots. That the holdup men were familiar with the office and the fact that the company pays on the 25th, as well as the 10th of each month, is evident in the fact that they waited in the hall leading from the offices on the second floor to the shops on the first floor, where the paymaster's wicket is located.

Lauds Thornton's Declarations.
In concluding he lauded that declaration of the C. N. R. president, but pointed out that even if Sir Henry could work miracles, he would not be able to accomplish that desired object if the employees were not organized. The employees should be organized, he said, to be able to co-operate in every way so that the railways will be able to pay a living wage.

Winnipeg, Jan. 25.—Denying a statement made at a meeting of the Council of Physicians and Surgeons of Manitoba here Tuesday night that there were 5,000 drug addicts, Dr. B. J. McConnell, administrator of the Manitoba narcotic drug act, declared today that there were not more than 200 addicts in the whole of the province. Five years ago when the narcotic drug act was put into force, Manitoba had 4,500 addicts, he stated, but successful operation of the act had reduced this number to about 200.

MURDER PAYMASTER, THUGS GET PAYROLL

Thugs Kill R. Anderson in Plant of Michigan Tool Company.

THREE MEN IN PARTY

Make Clean Getaway in Automobile With Half-Monthly Payroll.

Special to The Advertiser.
Detroit, Jan. 26.—Intercepted while carrying \$10,000, the semi-monthly payroll, from the company offices to his own department, located in another part of the building, Robert H. Anderson, 36 years old, secretary-treasurer and paymaster of the Michigan Tool Company on Joseph Campau avenue, was shot and killed at 5:30 o'clock last evening. Two bullets penetrated Anderson's body and he rolled lifeless to the bottom of a flight of stairs, while three holdup men, two of whom fired the shots, scooped up the money envelopes, darted downstairs and into the street and escaped in a big automobile that stood waiting. Not more than two minutes elapsed from the time the thugs entered the building until they were on their way.

Anderson is believed to have resisted the thugs when they surprised him on the stairway leading from the first to the second floor of the company's plant. His revolver was found beside his body when the employees rushed to his side following the shots. That the holdup men were familiar with the office and the fact that the company pays on the 25th, as well as the 10th of each month, is evident in the fact that they waited in the hall leading from the offices on the second floor to the shops on the first floor, where the paymaster's wicket is located.

Lauds Thornton's Declarations.
In concluding he lauded that declaration of the C. N. R. president, but pointed out that even if Sir Henry could work miracles, he would not be able to accomplish that desired object if the employees were not organized. The employees should be organized, he said, to be able to co-operate in every way so that the railways will be able to pay a living wage.

CLAIMS MANITOBA HAS BUT 200 DRUG ADDICTS

Canadian Press Dispatch.
Winnipeg, Jan. 25.—Denying a statement made at a meeting of the Council of Physicians and Surgeons of Manitoba here Tuesday night that there were 5,000 drug addicts, Dr. B. J. McConnell, administrator of the Manitoba narcotic drug act, declared today that there were not more than 200 addicts in the whole of the province. Five years ago when the narcotic drug act was put into force, Manitoba had 4,500 addicts, he stated, but successful operation of the act had reduced this number to about 200.

HUMANE SOCIETY ELECTS OFFICERS FOR THIS YEAR

Col. G. E. Reid was elected president of the London Humane Society at the annual meeting last night.

Other officers elected for the ensuing year were: Dean L. Norman, treasurer, honorary president; Miss J. Elliott, second vice-president; Mr. Wallace, third vice-president; Mrs. W. Brown, secretary; Mrs. H. B. Clements, treasurer; Mrs. E. M. King, Miss Dunstan, E. H. McKone, Miss Forbes, executive.

Three hundred and nine cases were handled during the month, the report of Inspector George Tustin showed. One conviction for cruelty to animals was obtained. Two prosecutions on cruelty charges are pending. In the shelter at present are one horse, one dog and four pups. During the month 234 complaints were received and seven horses were destroyed.

FOUND WONDERFUL RELIEF FROM CONSTIPATION

BY USING
Milburn's Laxa-Liver Pills

Constipation is one of the most prevalent troubles the human race is subject to, and is the greatest cause of many of our ailments, for if the bowels cease to perform their proper functions all the other organs will become deranged.

Keep your bowels working gently and naturally by the use of Milburn's Laxa-Liver Pills, and thus do away with the constipation and all other troubles caused by it. Mrs. A. R. Spence, Springfield, N. S., writes: "I have suffered for some time from constipation, and was advised by a friend to try Milburn's Laxa-Liver Pills. After taking a vial of them I have found wonderful relief, and would advise all those who are constipated to give them a trial. For I feel sure they will also receive the same benefit I did."

Price 25c a vial at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.—Advt.

SENSATIONAL VALUES

FROM OUR GREATEST OF ALL February Sales

For weeks and weeks we have been making preparations for this event! We decided to have it go down in our history as by far the greatest furniture sale ever held in this city. We searched the great furniture markets for unusual values and have made a number of special purchases, which, with our entire regular stock included, afford the people of this city and vicinity the greatest variety of new furniture to select from that has ever been put before them at any one time. And, mind you, in spite of every forecast indicating an advance in the wholesale price of furniture, we are including our entire stock at a straight discount of 25 to 50 per cent. from regular prices that were already very low indeed! We consider this the greatest opportunity in years to buy worth-while dependable furniture and you should take quick action for best choice!

CLAIM TAX FOR ROADS BURDEN ON COUNTIES

Seek To Have Department of
Highways Bear Construc-
tion Costs.

SET MILL RATE

Members Make \$1,000 Grant
To London Children's
Hospital.

Consideration of the reports of the
finance and the highway improve-
ment committees occupied the atten-
tion of the county council yesterday
afternoon. The report of the finance
committee, as follows, was accepted:

1. That a grant of \$25 be made to
the Humane Society.

2. That the bill of Dr. Banting for
the treatment of one Samuel Dodge,
an Indian of Denfield, be referred to
the Indian agent.

3. That no action be taken with
the request of the Canadian National
Institute for the Blind for monetary
assistance.

4. That a grant of \$1,000 be made
towards the War Memorial Hospital
for Sick Children.

Some objection was raised regard-
ing this last clause, on the grounds
that the county had already given
in the neighborhood of \$12,000, which
amount was considered by one of
two speakers to be as much as could
be afforded. However, ex-Warden J.
Cousins and numerous others sup-
ported the grant, and as a conse-
quence the vote was almost unani-
mous.

Seeks Redress.
The report of the highway im-
provement committee, which was ac-
cepted with amendments, was as fol-
lows:

1. That the chairman of the com-
mittee, the county engineer and W.
J. Fuller comprise a committee with
power to deal with the request of
Mr. Arnold for redress for damage
to his property brought about
through a washout.

2. That the balance of the premium
due on payroll, amounting to \$175,
be paid.

3. That the warden, the chairman
of the board and the county engineer
be appointed to attend the Good
Roads Association annual meeting
to be held in Toronto, February 28,
and March 2 and 3.

4. That the claim of S. W. Steven-
son, re the injury of his car, be filed.

5. That the county engineer be ap-
pointed to attend the 4th annual con-
ference on road construction for the
county and township road superin-
tendents and engineers.

6. That the engineer's report and
estimates be adopted, and that the
rate for road improvement be 2 1/2
mills. This report includes the pro-
posed Pipe Line road pavement.

There was much difference of opin-
ion over the sixth clause, and it was
agreed to consider the report by a
committee of the whole.

An amendment to the last clause
was agreed upon, providing that the
estimates be referred back to the
engineer so that provision could be
made for the 2 1/2 mill rate, after much
discussion, when it was pointed out
that the estimates would have to be
referred back to the county engineer
if the tax rate was changed from 3 to
2 1/2 mills. The chairman claimed that
his idea in proposing to lower the rate
was made in an effort to effect a sav-
ing to be used to offset the \$130,000
debt for provincial highways. En-
gineer Talbot stated that it would be

LORD BIRKENHEAD
is said to have been named as opposi-
tion leader in the British House of
Lords.

necessary to make a levy, or issue
debentures to take care of the debt.
Two further changes were made in
the personnel of the committees,
namely, D. Gordon was removed
from the House of Refuge commit-
tee and placed on the petition com-
mittee while the name of B. Holman
was placed on the House of Refuge
committee.

Tax Was Burden.

The treasurer's report, after being
read, was referred to the finance
committee. The notice of motion
submitted at the previous session by
J. N. Sullivan, to the effect that the
county council appoint a committee
to recommend to the minister of
highways that the total cost of pro-
vincial road construction be taken
over by the department, as it was
believed that the present taxation
was a burden to the ratepayers, was
referred to the petition committee
after some discussion.

A resolution that a committee com-
posed of the warden, the chairman of
the highways committee and the
county engineer, be appointed to pur-
chase any road material that may be
required during the year 1923, was
referred to the board.

The resolution that John Cousins,
D. Gordon and W. J. Fuller meet
the chairman of the chamber of com-
merce with regard to the Port Stanley harbor
was passed.

A resolution that the warden, ex-
warden and W. J. Fuller meet the
city council and the agricultural sec-
tion of the chamber of commerce re-
garding the co-operation between the
city and the county during 1923 was
also passed.

The resolution: "That for pur-
pose of maintenance of the continua-
tion of schools in the county all pupils
outside the public school section in
which the school is situated be
classified as county pupils, and that
the cost of maintenance be given as
a grant to schools which have a
larger area than the public school
section," was referred to the educa-
tional committee.

LANIGAN WILL RETIRE.
Canadian Press Despatch.
Regina, Sask., Jan. 26.—W. B.
Lanigan, general freight and traffic
manager of the rail and steamships
lines for the Canadian Pacific, and an
official of that company for more
than 40 years, declared here today he
would shortly sever his connection
with the railway and retire to private
life. He lives in Victoria.

CLEARING SALE OF COATS and DRESSES

The Ladies of London and District Are To Be Offered ON SATURDAY

the very latest and choicest of exclusive garments now in the trade.

This merchandise is entirely the product of our own factory, and bears our label, which stands as a guarantee for quality, style and workmanship.

There is no concealing the fact that an increased sale has not been realized this season, and as our motto is ever forward, we made preparations for a largely-increased output, and consequently we have an overplus of stock

Which Must Be Sold Regardless of Cost

Lot of 15 High-Class Coats

A Hint of Coming Spring In Millinery Section

Just in, New Midseason Hats that bring a hint of coming spring. Zestful affairs, these springlike models in the new haircloth and slipper satin! They hint of spring, these clever fabrics, intriguing colors—trimmings that dare many new devices. Smart little shapes, in poke, tricorn or close-fitting turbans. Gay bunches of multi-colored fruit and flowers, touches of Paisley cloth or embroidery with odd appliqued ornaments, and veil pins add a new note in trimming. Colors black, navy, nigger, muffin and new green. We cordially invite you to see these advance spring models just arrived here. A very unusual group, featuring hats priced from \$7.50 to \$15.00.

Ladies' Fur Coats

One-Quarter To About One-Third Off Saturday

Fortunate will be the woman who will be able to participate in this sale of these beautifully fashioned Electric Seal Coats. There are models that are made entirely of seal, others trimmed with contrasting furs, beaver or sable, and the linings are unusually beautiful.

Four only Coats—three Sable and one Beaver-trimmed—first quality skins (Chapella dyed), lined with brocade silks, belted, outside pockets and deep shawl collars; all one price, about one-third off \$159.00

One only Electric Seal, size 36 (all seal). Sale price \$107.50

One only Electric Seal, size 40 (all seal). Sale price \$116.25
