By Special Wire to the Courier. London, July 28.—Speeches which he had made to prisoners describing them as martyrs when he visited the prisoners when he visited them were given as the reasons by the Crown attorney why Laurence Ginnell, Irish Nationalist member of parliament for North Westmeath, had been refused permission to visit Irish prisoners in England, when hearing of the charge against him of attempting to gain admission into the Knutsford Barracks under the name of Lebrins McFingle. Mr. Ginnell was fined £100.

KAISER MAKES APPEAL TO THE GERMAN PEOPLE

"Should We Be Victorious" He Says, Even Then Trouble Threatens. By Special Wire to the Courier. London, July 28.—(New York Sun cable)—A letter from Kaiser William, passionately appealing to the German people to stand firm and unwavering, no matter how the tide of battle flows, has been printed in the German papers. The letter was circulated by the semi-official Wolff News Agency. Dated from the front in the West, the letter says in part: "Should we be victorious, there is threatening a war after the war" when the best energies and power of the nation, now expressed by its joy in arms, shall be taxed to the utmost to meet raw force, hatred and calumny."

COCAINE AND OPIUM ARE PROHIBITED

Britain No Longer Will Allow Their Importation. By Special Wire to the Courier. London, July 28.—The importation of opium and cocaine into the United Kingdom is prohibited by a royal proclamation issued today. There has been considerable agitation lately in this country against the sale of cocaine which, it is said has been used in increasing quantities during the past few years, and particularly has become the habit of many people since the outbreak of the war.

RUSSIANS KEEP ON ADVANCING

Both Against Teutons and Against Turks Is Offensive Continued. Bulletin, Petrograd, July 28, via London, 3.06 p.m.—Russian troops continue to advance successfully against the Teutons in the region of the river Slonevka and against the Turks in the region of the river Boldrovka. The Russian official statement announced to-day: "The Russian Caucasus army it is added, also continues to advance against the Bulgarians in the district of Krevo an enemy aeroplane was hit by our artillery fire. It fell within the enemy lines. In the districts northeast and southeast of Baranovitch there were artillery duels and encounters between advance guards. We made small advances at some points. In the region of the River Slonevka and the river Boldrovka our advance continues successfully. "Caucasian front"—The advance of our patrols captured 31 Turkish officers on the Sivas road."

QUEEN'S PROFESSOR GOES WEST

Another Has Been Offered Chair of Mathematics at McMaster. Kingston, July 28.—Prof. J. M. Adams, assistant professor of physics in Queen's University, has resigned to accept a similar position in the University of Saskatchewan, at Saskatoon. This makes two professors who are going from Queen's to the University of Saskatchewan, Prof. Swanson being the other of Queen's staff. The latest to be sought by other universities is Prof. Daniel Buchanan, who has been offered the chair of mathematics in McMaster University, Toronto, his alma mater.

GERMANY TELLS AUSTRIA THAT SITUATION IS SERIOUS

In Response to an Urgent Appeal to Send Troops to Its Aid, William States Nothing Can Be Done; That the Situation on the Somme "Is Serious." By Special Wire to the Courier. London, July 28.—(New York World cable)—The Geneva (Switzerland) correspondent of the Daily Express, writes: "I learn from Innsbruck that the Austro-Hungarian staff appealed several times during July to the German headquarters for assistance against the Russians in Galicia. Small numbers of reinforcements were sent with the statement that it was impossible to send more troops during the strong Anglo-French offensive on the Somme. "Thereupon the Austrian heir appealed directly to the Kaiser, who replied: "When we have beaten the English I shall reconsider the matter. I cannot spare troops at present as the situation is serious."

"DOMINION STEEL PRODUCTS" MAY LOCATE IN BRANTFORD

A charter has been issued to the "Dominion Steel Products Company." The capital is placed at \$500,000, and two or three Brantford men are represented, as well as others in outside places. Mr. W. B. Kellett is one of those interested in the concern, which should reach large proportions. The Courier understands that the choice for the location of the plant rests between Brantford and Toronto. A very large number of hands would be employed, largely skilled labor.

CANADA SUPERVISES AND CONTROLS NICKLE SALES

Treasurer of the International Nickel Co. To-day Issues Positive Statement and Denies Alleged Interview in Which He Was Reported as Saying Sales to Germany Were Not Refused. By Special Wire to the Courier. New York, July 28.—James L. Ashley, treasurer of the International Nickel Co., to-day reiterated that all sales of nickle made by his company since the beginning of the war have been under the supervision and control of the Canadian Government. Speaking of an alleged interview referred to in the Canadian papers, in which he is quoted as saying "that he knew nothing of the reported refusal of the company to sell nickle to Germany," and that "the company could not refuse to sell nickle to any purchaser," Mr. Ashley denied that he ever gave any interview whatever upon this subject, and declared that the statements which are alleged to have been made are correct. "All sales of nickle made by the International Nickel Co., since the beginning of the war," Mr. Ashley said, "have been made under the direct control and supervision of the Canadian Government."

ADMINISTRATION ANGLING FOR MORE PRESTIGE

New York Paper Says Latest Note to Britain a Political Move. By Special Wire to the Courier. New York, July 28.—A Washington dispatch to the Tribune says: "With the dispatch of a note to Great Britain, from the State Department, controversy over the British blacklist passes from the international stage to the range of domestic politics. Although the communication is addressed to Ambassador Page for delivery to the London Foreign office, and follows all the rules of diplomatic usage, in reality it is a document aimed at the thousands of voters on this side of the Atlantic who cleared their minds as to the merits of their minds as to the merits of the Wilson administration."

NO FOUNDATION FOR THE RUMOR

Story That the Bremen was Taken Is Not True. By Special Wire to the Courier. Ottawa, July 28.—The Navy Department denies that there is any foundation for the story published in New York this morning that the German super-submarine Bremen has been captured and taken into Halifax. Bulletin, Rome, July 28, via London 3.55 p.m.—Ground has been gained by the Italians in the Dolomites region, the war office announced to-day. After hard fighting with the Austrian defenders of Monte Coltrone, the Italians extended their positions. Austrian attacks in force on Italian positions in various sectors further to the west were repulsed.

GETTING BACK GERMAN VOTE

In the first place administration leaders are seizing on the note as rebutting the "pro-British" charges brought against the President by German-Americans and other "hyphenate" sympathizers. While from present indications it is going to be extremely popular to condemn every German vote, especially in Wisconsin, many are figuring will carry into votes.

ITALIANS GAIN

Bulletin, Rome, July 28, via London 3.55 p.m.—Ground has been gained by the Italians in the Dolomites region, the war office announced to-day. After hard fighting with the Austrian defenders of Monte Coltrone, the Italians extended their positions. Austrian attacks in force on Italian positions in various sectors further to the west were repulsed.

LENGTHY SESSION OF ROUTINE BUSINESS AT EDUCATION BOARD

Special Meeting Held Last Night to Dispose of Many Matters—Fire Escape For Alexandra School Was Decided Upon, a Deputation Waiting on the Board in That Matter

Routine business was the order of the evening at a special meeting of the Board of Education held last night in the council chambers, with all the members present except the chairman, Capt. W. N. Andrews. The principal business transacted was the authorizing of the buildings and grounds committee to proceed with the erection of a fire escape on Alexandra school.

Vice-Chairman Presided. In the absence of Capt. Andrews, chairman, the chair was taken at 8:30 by vice-chairman I. S. Armstrong. The report of the Dominion Boiler Inspection Company, upon the inspection of school boilers throughout the city, was to the effect that all were found in good condition. At Dufferin school the absence of manholes prevented the proper inspection

in parts. This report was filed, Mr. Shepperson questioning the advisability of employing boilers without the proper man holes.

Changes in Staff. The report of the management committee dealt with a number of matters. The resignations of Miss Frederica Stanley and Miss Mabel Moffat were accepted, and leave of absence was granted to Miss Bertha E. Baldwin, Messrs. Malcolm L. McLellan and Oliver M. Stonehouse were appointed to the staff of the public schools at an annual salary of \$800. The Misses Deem, Vanstone, Matthews, Houlding, Longstreet, Taylor, Peddie and Birkett were also appointed as probationers. Consistent upon the number of applications from qualified teachers resident in the city, Miss Edna G. Lavis was notified that it would be impossible

to give her an appointment to the public school staff.

As soon after Sept. 1st arrangements can be made, the local board will require the full services of Mr. Arthur Styles, manual training instructor of the public schools. This will allow that Mr. Styles will sever his present connections with the Paris board of education, in order that more classes in manual training be held in the city schools. After Dec. 31st of this year, Mr. Styles will receive a yearly increase of \$50 from his present salary of \$1,300 to the \$1,500 maximum.

The finance committee, in its report, recommended payment of a number of accounts. The expenses for the annual departmental examinations, as well as the entrance examinations, were also reported upon by the finance committee.

Successor to Captain Muttler. The technical advisory company, reported meeting held on Monday, July 24, for the purpose of appointing a successor to J. A. Muttler, formerly high school manual training teacher, now on active service. Mr. Gee, late of Hamilton, being the only qualified applicant, and being favorably spoken of by the Hamilton school and staff, and by Mr. Leack, Provincial Manual Training Inspector, was awarded the position at an annual salary of \$1,400.

A verbal report from the buildings and grounds committee was submitted by Mr. W. H. Lane, chairman, who announced that the working being done around the various schools during the summer, was going on in good condition.

Deputation Present. The moving of any classes from Alexandra school was opposed by a deputation of East Ward residents, Messrs. W. Riley and W. Hamburg, who presented a petition, signed by a large number of persons. The opinion was expressed that no classes should be moved from Alexandra school and that a fire escape should be provided for the same building.

Fire Escape Needed. "The school belongs to the people," emphasized Mr. Armstrong, commenting upon the subject. The attitude of the deputation was favored also by Messrs. Powell and Shepperson. Dr. Marquis expressed surprise that a school existed in Brantford without a fire escape, and urged immediate action, the erection of a fire escape first and its financing afterward, if necessary. It was stated by Dr. Gamble that children had already been transferred by their parents from Alexandra to other schools. This, replied Inspector Kilmer, was

because no further space was available at Alexandra.

The need of a fire escape at Alexandra school, Mr. Lane explained, arose because of the architecture of the building, there being one central winding staircase, and only one central exit to the school. In the past schools no fire escapes were needed as the buildings themselves were practically fire-proof and provided with several exits.

And Will Be Obtained.

The petition presented on the subject was received and filed, following which the matter of providing funds for this work and for the purchase of two lots adjoining the school was discussed. The buildings and grounds committee and Secretary Bunnell being appointed a committee to confer with the finance committee of the city council for the purpose of financing the undertaking.

Mr. Armstrong's notice of motion regarding the singing of the National Anthem in the schools of the city was allowed to stand until the next regular meeting.

A Crack at the Council

To meet with the finance committee of the city council, Messrs. Coulbeck, Lane and Bunnell were appointed to arrange for the commencing of the work.

"The city council is finally awakening to the realization that there are other bodies in the city possessed of some degree of intelligence," commented Mr. Armstrong in view of celebrating August 4th as a holiday. It was suggested by Mr. Shepperson that the celebration of Civic Holiday be cancelled for this year.

Honoring Khaki-clad Members

The matter of tendering farewell to several members and ex-members of the Board of Education, as well as teachers and employes of the board, who have enlisted for active service, was given consideration toward the close of the evening.

The chairman of the board, together with Dr. Marquis and Secretary Bunnell were appointed a committee to deal with the matter. It was decided by the board that no more presentations of money will be made in any such instances as these.

Messrs. Lane, Gamble and Elliott appeared in negligence during the evening.

Those present at the meeting were Messrs. Armstrong, Lane, Shepperson, Powell, Lahey, Coulbeck, Dr. Elliott, Dr. Marquis, Dr. Gamble. Also Inspector Kilmer and Principal Burt of the Collegiate Institute.

And the Lights Went Out.

"Alexandra school has nothing on this," declared one member of the board, as in stygian darkness the party descended the stairway from the council chamber, at the close of the session.

Children Cry for Fletcher's Castoria

THE KING'S CUP

The Wickedest Witch, who lived in the bog, came one day to the home of Marta's stepmother and her three ugly daughters. She hated the flower fairies in the bog, she hated Marta because the fairies loved her, she hated all things sweet and beautiful and good!

"Send Marta to the bog again!" said the Wickedest Witch with a dreadful smile. "This time I will show her my terrors and frighten her to death!"

So under pretence of kindness, the ugly stepmother begged Marta to take her fairy rope, lower herself into the bog and gather some bog myrtle to scent the linen in the chest of drawers.

Marta gladly obeyed and no sooner was she in the bog than the Wickedest Witch turned out all her herd of snakes to feed upon the snake root. But the witch was so harsh and cruel never feeling what she owned, that the snakes paid no attention to Marta and hungrily went on eating.

Next Marta heard herself threatened by a dreadful thicket of bluish white turtle heads with pointed jaws and woolly mouths of a dreadful pinkish purple.

"Be not afraid," whispered the Wind. "They are only swamp flowers that grow in the witch's garden."

Next the Wickedest Witch shook out into the air a bag of hunger and the minute Marta sniffed it she wanted to eat. It was then that a giant milkweed butterfly flew ahead of her and Marta saw that between the spread wings was a beautiful

fairly. She guided Marta to the swamp milkweed with its drooping, tassell-like flowers of rose-pink, filled a leaf cup with fairy milk and they both drank their fill.

But alas! after while Marta found some red and black berries that she fancied were choke cherries, never dreaming they were really poison of the witch's, and when she had eaten she fell down—as if she were dead.

Now at the far end of the bog came the king's son, a hunting, hunting what? The king's cup, stolen by the witch, the wise man said, and turned into a marsh marigold!

So it was that, hunting for the bewitched marigold which he had been told would be of brighter gold than any other, the king's son found Marta, pale and beautiful and lifeless.

This in the Sun helped. It gathered all his rays in one and warmed Marta into life and the king's son, loving her as he had loved another, dropped on his knee to beg her favor. So together they found the bewitched marigold and the minute the hand of the king's son touched it, it turned to a cup of shining gold. And now you know why some folk call the marsh marigold king's cup.

As for the witch, the bag of hunger she had shaken out of the window was her doom. For all her animal sniffing it in could not find enough to eat and returning in a body they pursued the witch herself into the worst part of the bog where she sank forever from view.

Farmer Hit by Trolley

(From our own correspondent) Simcoe, July 27.—Fred Peacock, a Windham farmer, while on his way to Waterford last night with a shipment of berries, in an auto, was struck by a trolley car on the L.E. and N. at the Cherry Grove Crossing. The trolley caught a hind wheel of the car and dragged it down the right of way several car-lengths. The auto was reduced to scrap and Peacock was severely handled. He was taken on the trolley to Waterford, and later to his home. His injuries are chiefly internal and his condition is considered critical by his physician, Dr. Richardson.

Threshing Started. The first threshing in this vicinity was done yesterday and Tuesday, on the farms of N. C. Butler and Roy Chambers, of Windham. The grain was below standard as to yield and sample.

Much hay in the county is still unharvested, owing to the shortage of farm help.

Appointment Confirmed. Rev. H. C. Newcombe received at his summer cottage, at Port Ryerse, to-day confirmation of his appointment as Chaplain to the 133rd. Recruiting for this unit has for the present been abandoned.

The Simcoe canning factory and can plant have put through more work during the past six months than ever before in the same time in the history of the establishment.

Mr. Stanley McKnight, of the Canadian Bank of Commerce, New York Exchange office, leaves for home to-day after a three day visit at the home of his father, Mr. Andrew McKnight King Street.

CRAWLED INTO ENEMY LINE AND CUT BARB WIRE

Then Lassoed Loosened Section, Crawled Back, and Pulled It Over.

THE CANADANS IN FRANCE. Party of Parliamentarians Paid Soldiers a Visit.

By Special Wire to the Courier. Ottawa, Ont., July 28.—The weekly Eye-witness report from the military department relates a number of minor incidents, there having been no heavy fighting on the Canadian front. The visit of the Canadian parliamentary party is also noted. It reads: "In general during the past week, hostile artillery fire was unusually light, but on two occasions, sections of the Canadian front were subjected to an intense bombardment by the enemy guns and trench mortars. Our batteries responded vigorously. After one of these duels, several small parties of the German infantry attempted to approach the trenches held by battalions from Montreal and Vancouver. At all points they were met with rapid machine gun and rifle fire and driven off. Repulsed an Attack Further at the left a determined effort was made by the enemy to raid the lines of a battalion which also had been heavily shelled. The attempt failed, and the raiding party was successfully repulsed. On more than one occasion, enemy workings parties were discovered by our patrolling parties, and they were dispersed by artillery and machine gun fire. At a few points our positions were advanced without observation from the enemy. In one instance a German forward trench was reported unoccupied. A party immediately took possession and consolidated the post. Patrols Active The activities of our patrols and snipers were well maintained. Early one morning a party of an Ontario battalion, under Capt. Shephard and Lieut. Brownie, accompanied by Sapper Harper, blew up a German covered listening post with a charge of gun cotton. How to Cut Barb Wire Lieut. Routledge of a Montreal battalion with a small patrol, crawled into the German entanglements. A large section of the wire was cut by hand, and a rope was attached to the severed portion. Forty men in our lines then hauled on the rope, and dragged the entanglement to the Canadian side of "no man's land." Got the German Another night, a patrol of a Winnipeg battalion, under Lieut. Dunn followed an old communication trench towards the enemy's lines. Three Germans were encountered. Lieut. Dunn shot one of them with his revolver. The other two ran back and joined a larger party of the enemy who also commenced throwing bombs at our men. In spite of this fire, our men advanced and secured the wounded German and secured him back to our lines by Lieut. Turnbull and Private Rule. At ten o'clock one night the enemy blew up a small mine immediately in front of the trenches occupied by a mounted rifle battalion. The crater formed was eight feet wide, but no damage was done. Visited by M. P.'s The Canadian corps was visited by a party of Canadian parliamentarians consisting of Sir George Foster, Senators Landry, Belcourt, Ross and Dennis, and Messrs. Rhodes, Nickle, Shepherd, Knowles and Armstrong. Another visitor at the front was Mr. N. W. Rowell of Toronto.

THE SITUATION

The Huns continue to make most desperate fighting against the British in the Somme operations, but Haig's troops are still notching gains in spite of all that the enemy can do. Very much of the struggle continues to be hand to hand work. The estimated losses thus far on this front are over 400,000 men killed, wounded, missing and prisoners. Still the grim fight proceeds. The enemy is bending all his efforts against the member of the Allies who his hate is practically altogether concentrated. For their part the sons of John Bull, whether from the Old Land, or Canada, or Australia, are standing right up to the job and giving the foe "what for" without any flinching or quarter.

The continued success of the Russians in all directions, almost verges on the marvellous. In Volynia the troops of the Czar are now closing in on Brody, the key position to Lemberg, and in the Caucasus, Grand Duke Nicholas is giving the harried Turks no rest.

BRANTFORD WATER SUPPLY
 Brantfordites might as well face the fact that necessary steps will have to be taken with reference to the water supply of this city.

The existing municipal system has not only been of great service for a number of years, but it has in addition yielded handsome returns to the Corporation. It is no longer adequate for the demands made upon it, especially during the hot weather and the consequence is that we are now having river water pumped direct into the mains without any filtration whatever. That is not a healthy or a desirable state of affairs, more especially at a time when the Grand and contributory streams are at a very low mark, and and low current, thus contributing still further to the danger of contamination.

It is true that as a safeguard, the authorities have issued the warning to boil the supply, but this is a most inconvenient process during a period of the year when thirst has to be more or less constantly assuaged. Besides, it is not exactly convenient to carry a boiling apparatus along. The people of Berlin are going through a similar experience (the order there is to boil the water for at least twenty minutes), and so also are all other places of any size which depend on anything less than a lake supply.

This community is faced by two alternatives:
 1—To establish a large reservoir system with big filtration plant.
 2—To take the necessary steps to conserve the present supply.

The first proposition would involve the expenditure of a very large amount of money, such as the city would be very unwise to embark on at this period.
 The second plan, to be given practical effect, would mean the introduction of filters. It may seem incredible, but at the present time the consumption of water in this community is 136 gallons per day for every man, woman, child and infant in arms. This, too, be it remembered, in spite of the fact that the oiling of so many streets has lessened the demand in this regard by a tremendous number of gallons per diem. As a matter of course the factories and railways take vast quantities, but even so the figures tell in plain terms of an enormous waste. Stouffville furnishes an illuminating illustration. They found themselves in a similar position to ourselves and were contemplating a vast expenditure for an enlarged system when meters were introduced and the problem at once solved. If anyone can suggest a better plan, the Courier would like to hear it.

One previous was that river water should be separately piped to the factories and for lawn sprinkling purposes but investigation showed that this would also run into a lot of money.

One thing is certain: something will have to be done both on the score of public convenience and health.

NOTES AND COMMENTS

Jupiter Pluvius has been making Ontario dry some days before the scheduled time.

Cheer up. In a few weeks now you'll be shovelling coal to keep up some of the heat you've been swearing at.

The Toronto Globe which scoffed at the idea that the liquor vote turned the tables in North Perth, is now quite sure that this will be the chief element in a Toronto by-election. Quite a sudden conversion.

The champion mean man has been discovered in Pennsylvania. His wife, who took in washing to keep him, saved enough for a tombstone and before her death handed the amount to a neighbor to pay for a memorial stone. The husband, John Coleman, was so incensed at not getting the cash, that he went to the cemetery and smashed the memorial to pieces. The punishment of such a brute ought to include something "slow and lingering."

With regard to the appearance of non-eating sharks off the New Jersey coast, the Boston Transcript gets off the following: "If this submarine mightfulness isn't stopped immediately it is understood that President Wilson will despatch a sharp note to the head shark informing him that he will be held to strict accountability."

Sir Edward Carson has been depicted as an irreconcilable in connection with Home Rule, but he did not show it in the recent debate. Here is what he said: "It would not be a bad day for this country, for Ireland, and for the war, if Mr. Redmond and myself should shake hands on the floor of this House. But if that is to be done there can be no idea of coercion of Ulster. Let Ulster be struck out of the bill. Then go on, win her if you can; she can be won by good government. If the hopes of a settlement in Ulster and the rest of Ireland are

PRISONER WHO BROKE JAIL IS CAUGHT AGAIN

James L. McDonald, Simcoe Man, is Once More in the Toils.

SPENT WHOLE DAY IN BRANTFORD.

Joined Coop and Lent's Circus and Was With It When Arrested.

(From our own correspondent.)
 Simcoe, July 27.—James L. McDonald, one of the men who escaped last Sunday from the jail, landed in jail again here at 7.15 this evening. He was arrested by Detective Harry Downs while working with Coop and Lent's circus gang before seven this morning. He professes to have regretted his action within five minutes that being a fugitive bothered him little for instead of steering for London to his little wife and bright three-year-old boy, to whom at his trial he affirmed through his solicitor he would return and support, he eluded about to the north of the town, boarded the last trolley at a country stop, landed in Brantford and went to Miss Wark, the partner of his second wedding ceremony. He was in Brantford unmolested all day Tuesday and saw High Constable Lou Barber of Simcoe there.

His Mother Visited Simcoe. His mother at her home in Hamilton, learned of his escape from a neighbor and asked to see the notice. On reading it to the family, a sister expressed the hope that the authorities would not catch him, to which the father replied "I hope they do."

Mrs. McDonald came to learn the facts first hand, and after an interview with the gaoler, said she was

done with him, adding, "It is a hard thing to say." The embarrassed lady would not wait to see him when advised of the hour of his expected arrival.

Trying to Get Him on Parole. It is now known that at the time of McDonald's escape an effort was in the brewing to have him placed on parole, no doubt on the strength of his protestation of a desire to return to his family. If his mother was a party to this, it is understood his father was not.

Conscientious Objector Upholder in England Must Not Visit U.S. By Special Wire to the Courier. London, July 28.—Bertrand Russell, who recently was fined for issuing pamphlets criticising the manner in which the government treated conscientious object and was deprived of his lectureship at Cambridge University, has been refused a passport to visit America. He had been invited to lecture at Harvard University.

EX-LEAF DEAD

Toronto, July 28.—Word comes from Newark that William E. (Kid) Mahling dropped dead of heart disease at his home in Newark yesterday. "Kid" was a familiar figure in the Eastern League some years ago, and one season played shortstop for the Leafs. Before coming to Toronto he played with the Newark Club, for whom he did good work being brilliant one day and erratic the next. Jimmy Malen, who played second base alongside of him, used to play well over toward the second bag in order to help Mahling out. Mahling was born in Cleveland, thirty-seven years ago, and in 1909 was counted one of the most popular players in the Eastern League.

MANY CANADIAN TROOPS ARE HONORED FOR THEIR BRAVERY

List of Men Who Have Received the D. S. O., the Military Cross, the D. C. M. and Other Awards

London, July 28.—The following Canadian honors were gazetted last night:

Distinguished Service Order
Major John Alexander Ross, 24th, volunteered and carried out with another officer a very dangerous reconnaissance in face of heavy fire and secured information of the utmost value.

Capt. Robert Mardie, 5th, during a long-continued and very heavy bombardment by the enemy, set a fine example of cool courage, and by skillful dispositions materially reduced the casualties.

Military Cross
Capt. John Arthur Cullum, Medicals, during a heavy bombardment, saw a Sergeant buried in his dugout and at once went out at great personal risk and succeeded in rescuing him. On many previous occasions he displayed great coolness.

Capt. Herbert Ernest Cummings, Medicals, for devotion to duty in carrying out his duties during a heavy bombardment.

Capt. Albert Peter Miller, 21st, leading a scouting party, subsequently a bombing attack, and continuing, although wounded, to encourage the men.

Capt. George Willard Treleaven, Medicals, for attending wounded under heavy fire and getting them back safely.

Lieut. Alexander Williams Aitchison, 13th, for leading a party of bombers through the enemy's barbed wire in order to occupy an important point. His gallant act removed great danger.

Lieut. Jas. Creswell Auld, 16th, when his observation post was hit by a shell, which wounded him severely and his telephonist mortally, he endeavored to rescue the latter from the debris, and went three hundred yards under heavy fire for assistance. He helped to carry the telephonist back safely.

Lieut. Lionel Dalzell Heron, 20th, when in charge of scouts-the covering raid party was dispersed and the leader killed by heavy fire. Heron rallied the party, withdrew them, went out twice and brought in the missing man.

Lieut. John Arnold Jackson, 29th, hung on to a battered enemy trench throughout an intense bombardment and led a very dangerous patrol. He held the post all the next day, though quite exhausted.

Lieut. Ernest Henry Lester, 5th, consistently and gallantly handled men with great coolness and judgment during a heavy bombardment, and carried three wounded men across a wide breach in a parapet under a sniping patrol.

Lieut. Robert Winyard Powell, Engineers, carried on a working party for several days and nights with the greatest coolness under heavy artillery, machine-gun fire and frequent bombing attacks, being twice wounded himself.

Lieut. James Stanley Scott, local

forces, and aviator, descended a thousand feet to attack a train well behind the enemy line, and though his engine was much damaged and the tank pierced, and the flying wires carried away by hostile fire, he succeeded in landing his machine within our lines.

Lieut. George Alexander Speer, 21st, led a bombing party with great dash, capturing important points and securing a trench.

Lieut. Francis Bassall Winter, 26th was the first man in and the last out during a raid on the enemy's trenches. He brought back wounded under heavy fire.

Specific acts which have earned the under-mentioned Military Cross will be announced later. Sergeant-Majors J. Sergeant-Major Casey, First Mounted Rifles; M. E. Geary, 4th; F. W. Hinchliffe, 25th; C. J. Houghton, 3rd Brigade Artillery; D. Stuart, 15th.

Distinguished Conduct Medal
Sergeant R. Cunningham, 18th, carrying wounded men under heavy bombardment. Sergeant Dalziel, 31st, took charge of a bombing party after two officers were wounded and forced the enemy to retire. He held the position all night.

Private A. Furber, 2nd. When the enemy exploded a mine his leg was fractured and he was buried up to the waist and exposed to the enemy's fire but dug the earth off two men near him sufficiently for them to breathe.

Sergt. Haines, 27th though wounded by shrapnel and badly shaken, went out under a heavy fire and assisted the wounded Sergeant 300 yards in front of our trench.

Lieut. Jas. G. Hood, 3rd, when a signalling station was wrecked, went out with another and assisted in serving the guns in an advance section of the artillery, returned later to the signalling station, destroying the instruments and codes in the face of advancing enemy.

Sergt. A. McLeod, 13th, jumped over a parapet and bombed an enemy party back to their own wire, a distance of 160 yards.

Pte. J. P. Morgan, Machine Guns, mounted a gun on a parapet in full view of the enemy, fired continuously to cover the retirement of some exposed infantry. When the gun was damaged he coolly mounted another.

Sergeant-Major S. Ross, 31st, re-empted his fire when the enemy at one hundred yards annihilated them.

Pte. G. M. Wright, 20th, during a raid an officer fell mortally wounded on the enemy's parapet. Wright, although wounded in seven places, carried the officer back to our lines, then himself was carried away on a stretcher.

When on a photographic reconnaissance he was very severely wounded in the head and left blinded by blood. He steered for the nearest aerodrome and collapsed after giving orders for safe delivery of photos. His pluck and skill saved his observer, Captain Bell Irving, who belongs to Vancouver, and was awarded in December last year and mentioned in despatches in June, and twice wounded.

Captain Harold Price, Northumberland Fusiliers, received the Military Cross for being the last man to leave the enemy's trenches after a successful raid. Price was a land surveyor in British Columbia and hurried home from Toronto to enlist.

Lieutenant Charles Dudley Ward, Welsh Guards, receives the Military Cross for the directing operations of a blocking party with great determination. Dudley Ward is well-known in many parts of Canada.

Lieut. John Robert Irving, Royal Medicals, formerly of the Military Cross. When the enemy exploded a mine, damaging our galleries, he immediately descended at great risk, owing to the foul fumes, and treated a man, enabling him to be brought up alive.

Lieut. Irving transferred from the Canadian Medicals.

Lieut. Russell Nassard, Royal Medicals, formerly of the Canadian Medicals; Lieut. C. B. Whiswell, Royal Medicals, formerly of the Canadian Medicals, receive the Military Cross for their specific acts of gallantry, and will be gazetted later.

Music and Drama

THE BRANT
Replete with variety to suit all tastes, and of the highest standard of excellence throughout, is the week-end program now being presented at the Brant Theatre.

In a drama of the mountains of Georgia, James Dawson as "The Good Girl," appears perhaps to better advantage than ever before in this city.

Her portrayal of the part being truly admirable, and with a strong background of being one of the finest quality.

In its first instalment, the new serial "The Iron Claw" gives every line and gripping interest throughout, and well worthy of being seen.

Lawrence Crane and company head the vaudeville bill in their "The Den of Mystery," presenting a repertoire of baffling feats of various descriptions. The three Burns sisters appear to great advantage in a singing act of the highest excellence, all three being possessed of splendid voices, which are used to the best effect possible.

CRICKET

The Brantford Cricket Club are playing Hamilton St. Georges at Hamilton to-morrow, Saturday, on the Tigers football ground when a good game is being looked forward to.

UPPER SCHOOL EXAM RESULTS

List of Pupils from Brant County Who Passed Faculty Entrance Test.

Toronto, July 28.—The following list contains the names of candidates who have passed on one or more parts of the Upper School examination for entrance into the Faculties of Education at the University of Toronto and Queen's University, Kingston. The examination passed is indicated after each name. The certificates of those who passed and the statements of marks of those who failed will be mailed to the principals and inspectors in due course.

The appeal examiners have already re-read the papers of each candidate whose marks might have justified an appeal. Where such candidate has still failed, his statement of marks will be stamped as re-read, and no further appeal will be allowed. In all other cases of failure appeals will not be refused in any case.

Successful candidates who desire to attend the coming session of either Faculty of Education must make application to the Dean at the University concerned, from whom may be obtained the forms of application and all other necessary information. The session of the faculty opens on October 1st, when all candidates must be present. Applicants are required to be at least nineteen years of age before October 1st. The Brant County list is:

R. R. Deagle (Pt. I.), G. Dunn (Pt. I.), H. J. Polsetter (Pt. I.), M. Harley (Pa. II.), E. H. Lawrence (Pt. I., honors), L. E. Malcolm (Pt. I.), W. J. Mitchell (Pt. I.), E. G. Roy (Pt. I.), M. E. Scott (Pt. II.), M. G. Thompson (Pt. I.), R. O. Qua (Pt. I.).

215TH CONDUCT BIG CAMPAIGN

Hope to Bring Battalion to 600 Mark by End of Week.

PREPARATIONS MADE FOR CAMP.

All Is in Readiness, Both Here and at Niagara Falls.

General citation is experienced in all ranks of the 215th Battalion, as a result of news that the Battalion is to proceed very shortly, in all probability next week, to Niagara camp. To this end the energies of all are being devoted entirely during the remainder of the week to the work of recruiting, which has been given considerable impetus by the announcement of the 215th's going. This is proving a great inducement to many to hasten and join the ranks, and more are expected daily. Four men were signed yesterday, and with the recruiting campaign now in full swing it is expected that to-day will prove one of the best in the line of recruiting for some time. All who are contemplating enlistment should delay no longer, but avail themselves of this which may be their last opportunity.

All Arrangements Made
All arrangements to ensure the perfect comfort and accommodation of the battalion at Niagara Camp have now been completed as a result of the efforts of Lt.-Col. Cocksatt, Major Snider and Capt. Ferguson. Even the men's laundry has been seen to, having contracted for at the moderate price of 25 cents per man per week. Lt.-Col. G. J. Williams, senior Chaplain of the division has been requested to obtain for the battalion band music to be played on the occasion of divine services, which will be formed into a Divine Service Book.

Farm Furloughs Not Cancelled
Despite the impending departure of the 215th, the issuing of furloughs to men of the battalion for the purpose of assisting in the work of harvesting, has not been discontinued. A number were issued in fact this morning at headquarters, and the statement was made that the men will not be recalled when the battalion encamps, which will be allowed to complete their terms.

Battalion Notes
Good progress is being made by the N.C.O.'s, and some classes are now established in the 215th Battalion which are being held daily with large attendances. On Monday of next week a class in musketry will be commenced in conjunction with the N. C. O.'s class.

Capt. W. Joyce, of C Company, of the 125th, leaves on Wednesday of Lt. Cottrell is acting adjutant for the battalion.

In the absence of Capt. Sweet and Lt. Cottrell is acting adjutant for the battalion.

The Blockade is Still On.
New York Tribune.—We are evidently in for a great deal of nonsense about the wonder-trip of the submarine Deutschland. On the authority of a Captain Hans Hinch, it is already pronounced "the most remarkable thing that has ever happened in marine circles in the history of the world." Without in the least underrating a feat successfully accomplished, Captain Hinch's remark may be dismissed as grotesquely absurd. There was really never any sound reason to doubt the possibility of such a voyage on theoretical grounds; the sole question being whether in practice it was worth attempting. The Deutschland's feat is notable, and if it is found to pay it will doubtless be repeated. But the notion that it proves that the English blockade amounts to nothing, is delusional, as the Germans themselves are well aware.

RECRUITING IS GROWING BETTER

As Result of Allied Progress Everywhere, Say Recruiting Sergeants.

RETURNED FROM STRATFORD.

Bantams Have Signed Up Several Very Valuable Men at Different Points.

To the effect that a beneficial influence on recruiting throughout Ontario is being exerted by the allied victories on every front, the recruiting sergeants of the Bantam Battalion, who returned to the city last evening after a successful three days' recruiting trip to Ingersoll, Woodstock, Stratford and other nearby points. Excellent results were achieved everywhere. In Ingersoll the Bantams secured 41 recruits, 11 years of age and married, who had several times been rejected to enlist before, but were accepted. In Woodstock a new recruit was obtained for the 215th in the person of Cecil Vogna, an unmarried Canadian, and a painter by trade. Here also the Bantams secured a recruit for the Army Service Corps two veterans of Neuve Chappelle, and men of long service in the Imperial army. Returned from the front, both were desirous of further serving their country, and were readily induced by Pte. Maurice to join the A. S. C., in which Charles Henry Baker had 13 years previous service and Henry Jinks 7 years. In Stratford the Bantams obtained as a recruit John Kelly, an American from Philadelphia who accompanied the recruiters to Brantford last evening. In addition to these men, a number of applications were received from men who, upon examination, proved to be physically unfit, and were accordingly of necessity rejected. One man is at present undergoing an operation in Stratford hospital and when recovered he will report at Brantford for attestation.

CHARLES DOWEN
The death occurred yesterday of Charles Dowen, a member of Salisbury Lodge, S.O.E. He leaves to mourn his loss a widow. The funeral will take place to-morrow afternoon from H. S. Peirce's undertaking establishment to Mount Hope Cemetery, being conducted by the Sons of England.

Mrs. C. T. Smith
The death occurred on Wednesday evening of Lillian Maud Smith, beloved wife of Mr. S. T. Smith of Mr. S. T. Smith of Dundas street, who with two small children is left to mourn her loss, as do also two brothers and two sisters. The funeral took place to-day to Mount Hope cemetery.

To the Grave
CRANDALL FAMILY
The funeral of the late Lloyd A. Crandall and his wife and daughter took place in Lake Forest, on July 26th, being attended by relatives of the deceased from Brantford and Chicago. Those from this city were his parents, Mr. and Mrs. A. V. Crandall, and his grandmother, while from Chicago Mr. and Mrs. Archie Crandall, uncle and aunt respectively, of the deceased, were in attendance.

WATER WORKS NOTICE
The Water Commissioners feel that owing to the enormous consumption of water at the present time and the excessive heat that while every precaution has been taken, it would be safer in the interest of public health that the City water should be boiled before being used.

Children Cry FOR FLETCHER'S CASTORIA

THE WORLD'S PRESS
Sir George Foster's Foresight Christian Science Monitor.—Sir George Foster, since the war began, has discussed it with a breadth and depth of insight that has greatly enhanced his reputation at home and abroad. Just because back of his political career there is that of the liberal statesman and teacher he can deal with problems of state that come up in a way impossible to the ordinary political leader. Looking either backward or forward he sees more that must be reckoned with because he knows the reasons why states rise and fall, meet their opportunities or fail to meet them. So when he depicts the post-bellum economic strife that Canada faces, his countrymen do not think that he is trying to frighten them. They believe that he is speaking candidly about economic changes which he knows already have begun to register themselves. There is no questioning of his good faith, no disposition to consider him needlessly disturbed. The common sense of the average man is on his side. The real point to be watched is the response or indifference of the men to whom he makes appeal.

The Blockade is Still On.
New York Tribune.—We are evidently in for a great deal of nonsense about the wonder-trip of the submarine Deutschland. On the authority of a Captain Hans Hinch, it is already pronounced "the most remarkable thing that has ever happened in marine circles in the history of the world." Without in the least underrating a feat successfully accomplished, Captain Hinch's remark may be dismissed as grotesquely absurd. There was really never any sound reason to doubt the possibility of such a voyage on theoretical grounds; the sole question being whether in practice it was worth attempting. The Deutschland's feat is notable, and if it is found to pay it will doubtless be repeated. But the notion that it proves that the English blockade amounts to nothing, is delusional, as the Germans themselves are well aware.

Vienna Must Now Bear the Coffee Restriction

The People of Austria's Capital at Last Find Their Favorite Beverage Cut Down in quantity, But Restaurants Still Allowed to Serve it to Patrons.

Vienna, July 28.—(Correspondence of The Associated Press).—The long-dreaded restriction in the use of coffee—which is to Vienna what beer is to Munich—has come at last, bringing with it coffee cards entitling each person over four years of age to half a pound of coffee a week and confiscation of all the coffee now on hand to prevent hoarding.

resorts that line every boulevard and street. Each coffee store, wholesale and retail, has been required to notify the authorities of its exact supply of coffee over 100 kilograms (220 lbs.) The excess in each case is then subject to the control of a "Coffee Central," which in future will regulate the disposal of the product to the public, and have charge of all coffee that in future comes into the country.

BUILD FROM GROUND UP

That is the Way to Develop a Ball Player, Says Connie Mack.

HAS NO USE FOR MINORS

Says in Two Years Will Have Another Winning Combination.

Manager Connie Mack of the Athletics refuses to be a pessimist, although others are worrying about his ball team. He is optimistic as far as the meaning of the word goes, and says that in time he will have molded together a club that will more than repay the fans for their patience with the team that is in its early stages of development.

can be developed into a minor league sensation in two years and then come into the major leagues a star, and the same player in the same length of time playing right under my eyes.

"I have tried my hand at handling these high-priced minor league stars and find that they are too set in their ways and invariably cannot be broken of faults which I will not tolerate in a ball player. Therefore, I made up my mind that in the future I would do my own developing at any cost.

Nobody knows better than I do that the fans will not patronize a losing ball team. I don't ask them. All I want is a fair chance. I promised a powerful team in 1917 and I will have it.

Rookies Will Develop Fast. "It was three years before Collins, Berry, Melanis, Strunk, Baker and others of my old team, found their stride, but this new bunch will come along faster unless I miss my guess. They have a better chance because they are getting more opportunities to play in regular games.

"When I built the old team I foolishly tried to keep it in the race with a combination of my new and old players and the result was that I got tired out, my house and money nowhere until I cleaned house and put it entirely up to my youngsters and started from the bottom.

"I have the foundation for a great club right now. I admit that I am disappointed at the showing of several of my recruits and a few of the veterans who were left over, but I want to say that we have others coming who will fill the bill if these youngsters fail to come through.

Elmer Myers Promising. "Too much cannot be expected of a youngster. They are not asking for it, but when they have the natural ability they come fast, once they get the confidence. Elmer Myers was three years in a minor league under my direction before he came through. He was a lad who naturally was slow in developing, but he is on his way now and next season will be the best pitcher in the country."

LEAFS AND BISON BLANK EACH OTHER

Herbert Wins His Game, But McTigue Loses

Buffalo, July 28.—Toronto and Buffalo divided a double-header here yesterday. The Leafs, by superior batting and flawless fielding, won the opening event, 6 to 0. Herbert was at his best, allowing only five hits. In the second contest the Bisons evened matters, winning, 10 to 0, by pounding McTigue and Russell hard, while Tyson applied the kaisholine. His support was gilt-edged. The scores:

Hard to Develop Minors. "I made up my mind then that I would build from the ground up if ever I got a chance and it came shortly after. I seldom got after the minor league star, not because of the ridiculous price asked for his release, but because I find he is harder to develop to my style of play than the inexperienced youth.

"Does it not stand to reason that if a youngster with natural ability

BASEBALL AS "SHE" APPEARS IN ENGLAND

British Paper's Description of a Contest Between Soldiers.

The Brighton Herald of Saturday, June 24 says:

"The presence of the Canadians was undoubtedly the great attraction which drew such enormous crowds to the Preston Park cricket grounds. The great attraction was none other than the Canadian baseball team. It struck a chord in the hearts of the British soldiers who were present, and they took the dangers of the trenches so light-heartedly. To an outsider, it would appear that the great thing in baseball is to stun your opponent. The pitcher grips a ball about the size of a cricket ball and quite as hard. Then, without any preliminary warning, he hurls it with all his strength at the batsman's head. If the batsman is lucky he ducks out of the way. If he is luckier still he hits it and sometimes sends it sailing into the crowd. If the ball escapes both batsman and pitcher for the purpose of escaping with his life from the game, his head and face are enclosed within iron bars, his chest heavily padded, and he wears gloves that would make a boxer's look small. The fielders are also protected with gloves. Otherwise the game resembles our homely rounders. Several men received what seemed to be nasty blows during the course of the game, but only one man encountered a real injury, breaking his finger while catching a ball. Possibly it was this small amount of casualties that accounted for the fact that no score was kept, and no one could say which of the two sides engaged had won.—Montreal or St. John."

MAY MEASURE WHIRLPOOL. Niagara Falls, Ont., July 28.—The depth of the whirlpool rapids in the Niagara River may become known. Engineers propose to take a series of soundings from a passenger aeroplane which has been constructed, 200 feet above the water by the Niagara Spanish Aeroplane Co. The engineers will use a weight of 500 pounds or heavier if necessary. Some say that the whirlpool has no bottom. It has been estimated by many that the depth is anywhere between 250 and 1,000 feet. Because no boat can live in the rapids it has been impossible to contradict or verify the rumors.

CLEANED BASES WITH A HOMER

Oldring Knocks Ball Over Fence With Three on and Wins for Yankees.

Chicago, July 27.—"Rube" Oldring's homer with the bases full in the 9th crowned a five-run rally that snatched victory from defeat to-day from New York. In the ninth Scott had the Yanks well in hand though Peckinpaugh's hits—a home run and a single—had driven in three runs. In the final round Alexander was passed, and Mullen, a pinch hitter, singled. Scott also walked Caldwell, filling the sacks with no one out. Wolfgang took a slab and forced Baumann out on a short fly. He then passed Peckinpaugh, forcing in a run and fanned Pipp, but Oldring cracked the ball over the fence in left for the round trip. Score

At St. Louis—Sensational fielding by St. Louis enabled the locals to defeat Philadelphia in the fourth game of the series to-day by 3 to 2. Nabors pitched a good game, but was unlucky. Score:

R.H.E. Philadelphia . . . 000001010—2 11 1 St. Louis . . . 001000023—3 6 1 Batteries—Nabors and Pienich; Hamilton, Groom and Severid.

At Cleveland—In a game that lasted nearly three hours Boston defeated Cleveland by 7 to 6, bunching his hits with Cleveland's errors. Cleveland batted Foster and Leonard hard but threw away several runs by trying to stretch its hits. O'eill, with 4 hits in four times at bat, and Walker who made two triples and a double, carried off the batting honors. Score:

BIG LEAGUES AFTER CATCHER.

Macon, Ga., July 28.—Catcher Jack Snyder, of Macon, is without a doubt one of the best backstops that have ever donned the mitt and mask in the Sully. The Macon club has received several offers to sell him; in fact, President Jacobs turned down \$3,000 for him from the Detroit club recently. The Athletics and both St. Louis clubs are among the other big league teams after him.

RED SOX GET WOOD. Cleveland, July 28.—"Smoky" Joe Wood, star Boston Red Sox hurler, came to terms with Manager Carrigan yesterday. Details were not announced.

At Detroit—For the third time in as many days Washington lost to Detroit, the score being 7 to 4. Boehling, who opposed Boland, pitched good ball, but his support was erratic, and the misplays behind him were costly. Henry was put out of the game for arguing with Umpire Owen in the second inning. Veach was forced to retire when a ball that took a false bound hit him in the face.

Harper replaced him, and was in turn succeeded by Cobb, who has been out because of his injury to his throbbing hand. Score:

CUBS AND BRAVES PLAY A TIE GAME

Brooklyn Defeat Cardinals By the Score of Four to Two.

Boston, July 28.—Chicago and Boston played a 2 to 2 tie yesterday, the game being called in the eleventh on account of darkness. Gowdy was put out of the game while at bat in the ninth for vigorously disputing a called strike by Umpire Eason. The score:

R.H.E. Chicago . . . 200000000—2 11 2 Boston . . . 001000010—2 5 1 Batteries—Packard, Lavender, Brown, Clemens and Fischer; Tyler, Hughes, Barnes, Gowdy and Trassessor.

At Brooklyn—Brooklyn played its steady game here yesterday and beat St. Louis 4 to 2. The locals took the lead in the second inning, scoring twice on singles by Wheat and Cutshaw and Stengel's double. Cheney's wildness in the 8th allowed St. Louis to tie the score. Doak was taken out in the eighth, but Ames was greeted with a series of bunts and singles that brought the winning run across. Score:

R.H.E. St. Louis . . . 000011000—2 7 1 Brooklyn . . . 02000002x—4 8 1 Batteries—Doak, Ames and Snyder; Cheney, Dell and O. Miller.

At New York—New York won its first extra-inning victory on the home grounds yesterday when McGraw's team scored an eleven-inning victory over Cincinnati, the score being 4 to 3. Score:

R.H.E. Cincinnati . . . 000012000—3 13 1 New York . . . 100002000—4 11 1 Batteries—Toney, Wingo and Clark; Tesreau, Schupp and Radden.

WOMEN POLICE IN ENGLAND

Acting in Various Capacities and Give Very Good Satisfaction.

London, July 28.—Women police are making good, according to the chief officer of the Women's Police Force. They are employed in munition factories very largely to search the incoming and outgoing women workers for contraband, keep order in trains, to inspect and yards. They get \$10 with railway fares, sergeants receive \$11 and inspectors \$12. The chief officer says school teachers are particularly wanted for the force as their training fits them admirably for police duties which require good temper, patience and tact with firmness. The girls in the factories appear to be very fond of the women police and the Government are asking for more to be appointed at various munition works throughout the country.

LIGHTNING KILLED GIRLS

St. John, N.B., July 28.—A severe electrical storm which swept the province last evening killed two girls. At Bedell settlement, Carleton County, lightning struck the house of John R. Cunningham, instantly killing his fifteen year old daughter, Myrtle, and setting fire to the dwelling. At Como Ridge, near Edmundston, a bolt struck the house of Frank Dubey, and the tragedy at Bedell was practically duplicated. His seven year old daughter was killed and two small sons of the family and another daughter were burned. The house was destroyed.

BERLIN WATER SHORTAGE

Commission Issues an Order Forbidding Lawn Sprinkling. Berlin, July 28.—Owing to a threatened shortage of water in the city, the Water Commission yesterday issued an order that no lawn sprinkling will be allowed until further notice. The daily average for July has been 1,500,000, the highest in the history of the local plant, and the lack of rain has caused the supply to diminish considerably. The local consumers have been urged by Chairman Brethaupt, of the commission to conserve the supply until there is a heavy downfall of rain.

BILLION DOLLAR CROP EXPECTED

After a thorough canvass of various points throughout Western Canada, Dr. McGill of the Dominion Grain Commission, is quoted in Calgary as saying that Alberta would have a crop as good as last year, that the Dominion would have a billion dollar grain crop and that the grain crop of the three Prairie provinces would be little, if any, behind that of last year.

"The country as a whole never looked better than it does at present," said Dr. McGill. "The weather was made to order, as you might say and I am of the opinion that this year's harvest will be another wonderful one." O. Henry Stories

VII.—Art and the Broncho

By O. HENRY

(Copyright by Doubleday, Page & Co.)

(Continued from Thursday, 27th.)

"Come on, boys," said Lunny, urging Hot Tammies into a gallop with his knees. With a whoop the inspired job by force after him through the dust Lunny led his cohorts straight for the capitol. With a wild yell the gang endorsed his now evident intention of riding into it. Hooley for San Saba! Up the six broad limestone steps entered the bronchos of the copunch

"Don't spend any more money for paint."

ers. Into the resounding hallway they patterned, scattering in dismay those passing on foot. Lunny, in the lead, showed Hot Tammies direct for the great picture. At that hour a down-pouring, soft light from the second-story windows bathed the big canvas, against the darker background of the ball the painting stood out with valuable effect. In spite of the defects of the art you could almost fancy that you gazed out upon a landscape. You might well flinch a step from the convincing figure of the life-sized steer stampeding across the grass. Perhaps it thus seemed to Hot Tammies. The scene was in his line. Perhaps he only obeyed the will of his rider. His ears pricked up; he snorted. Lunny leaned forward in the saddle and elevated his elbows, wing-like. Thus signals the copuncher to his steed to launch him self full speed ahead. Did Hot Tammies well flinch a step from the driven back to herd? There was a fierce clatter of hoofs, a rush, a gathering of steely flank muscles, a leap to the jerk of the bridle rein, and Hot Tammies, with Lunny bending low in the saddle to dodge the top of the frame, ripped through the great canvas like a shell from a mortar, leaving the cloth hanging in ragged shreds about a monstrous hole.

Quickly Lunny pulled up his pony, and rounded the pillars. Spectators came running, too astounded to add speech to the commotion. The sergeant at arms of the house came forth, frowned, looked at the rein, and then grinned. Many of the legislators crowded out to observe the tumult. Lunny's copunchers were stricken to silent horror by his mad deed.

Senator Kinmer, happened to be among the earliest to emerge. Before he could speak Lunny leaned in his saddle as Hot Tammies pranced, pointed his quirt at the senator and said calmly:

"That was a fine speech you made today, mister, but you might as well let up on that 'proprietion business. I ain't askin' the state to give me nothin'. I thought I had a picture to sell that makes me kind of proud I'm his grandson. Well, the Briscoes ain't takin' presents from the state yet. Anybody can have the frame that wants it. Hit her up, boys."

Away scouted the San Saba delegation out of the hall, down the steps, along the dusty street. Halfway to the San Saba country Lunny stole away from the company and sought Hot Tammies, placidly eating grass at the end of his stake rope. Lunny hung upon his neck, and his art aspirations went forth forever in one long, regretful sigh. But as he thus made renunciation his breath formed a word or two.

"You was the only one, Tammies, what seen anything in it. It did look like a steer, didn't it, old boss?"

Bad Weather in Vienna

Women There Wear Patent Leather Hats to Keep Off Rain.

Vienna, July 28.—Rainy weather that has prevailed for weeks without a let-up has been responsible for the introduction of patent leather hats which are now in great vogue among the women of Vienna. In addition to the genuine there are numerous imitation patent leathers which are not affected by dampness. The patent leather style has also extended to include belts, cuffs, collars and other parts of the costume.

KEEP CHILDREN WELL DURING HOT WEATHER. Every mother knows how fatal the hot summer months are to small children. Cholera infantum, diarrhoea, dysentery and stomach troubles are rife at this time, and often a precious little life is lost after only a few hours illness. The mother who keeps Baby's Own Tablets in the house feels safe. The occasional use of the Tablets prevents stomach and bowel troubles, or if trouble comes suddenly—as it generally does—the Tablets will bring the baby safely through. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

NEW PATENT IN SEOUL. Seoul, Korea, July 28.—Japan will build an imperial palace in Seoul to receive the Emperor and Empress in case they visit the country which is now a part of the Japanese Empire. The construction of a detached palace has been contemplated for some time but was delayed by the coronation of Emperor Yoshihito.

MORHARTY ON SICK LIST. Memphis, July 28.—George Morharty, manager of the Memphis Southern Association club and former major league player, has typhoid fever, and probably will be out of the game for the remainder of the season.

Lord Lansdowne. The Marquis of Lansdowne, who has run foul of John Redmond over the Irish question, is one of the outstanding men in the British House of Lords. He was born in 1845, and is well known to Canadians as he was Governor-General of this country for five years, later Viceroy of India, Secretary of War, and then Foreign Secretary. As a matter of fact he is one of the strongest men in the Conservative Party and was the Conservative leader in the House of Lords. Since the outbreak of war he has been in the coalition cabinet, but apparently his Irish land holdings do not permit to adopt Lloyd George's scheme of settling the whole Irish question.

BODY FLOATED 30 MILES. Iroquois Falls, July 28.—Thirty miles from the place where Louis Roch was drowned a week ago last Sunday, his body was discovered yesterday. It was found near the Abitibi ridge, eight miles from Cochrane, whither it had been carried by the swiftly-flowing Abitibi.

HE WILL GO AS ADAM TO LIVE IN THE WILD. Artist Knowles Will Again Wrest Food With Bare Hands in Adirondacks.

Some day toward the end of this month the bears, moose, mosquitoes, and wiggleworms that inhabit a certain section of the Adirondacks, will have an opportunity to cast their eyes upon the figure of a man clad in the costume made famous by Adam and Eve and Lady Godiva.

He is Joseph Knowles, an American artist, and the proof that he is able to do what he says he will do lies in the fact that for two months he lived in just the same way in a wilderness in Maine. Mr. Knowles arrived here now stopping at the Hotel McAlpin. His hatless et cetera sojourn in the woods was in 1915. Without any clothes or any of the implements of civilization he journeyed into the branches he tore from trees and made his clothing from the skins of the animals he caught. He ate game fish, berries, and wild vegetables, and when he wanted to cook he made fire by rubbing two pieces of wood together or in another primitive way.

Mr. Knowles, he has been called the Primitive Man since his outing in Maine, laughed at all suggestions of hardship yesterday. He said that when he comes out of the woods he will be better physically and mentally than he has ever been. He is equipped to paint pictures of wild life. Nothing but an unforeseen accident can interrupt his stay, he said.

Shale Beds in Colorado. The geological survey has estimated that in the State of Colorado alone there are sufficient shale beds to hold 100,000,000 barrels of crude oil from which one-tenth of that quantity of gasoline may be obtained.

Krumbles

The New Whole Wheat Food with the Delicious Flavor originated by the Kellogg Toasted Corn Flake Co.

BATTLE CREEK, MICH. and TORONTO, CANADA

FOR the first time in the history of things to eat, the whole of the Wheat appears on the table as a delicacy.

KRUMBLES, the new Kellogg food with the delicious flavor, brings to you all the nourishment of the wheat, with a full, rich flavor that you've never known before in a wheat food.

The discovery of Krumbles is an achievement of the Kellogg Toasted Corn Flake Co. It is the whole of the wheat, cooked, "krumbled," and delicately toasted by a special and exclusive method.

Krumbles has a fine sweetness of its own—and the more you chew it, the sweeter it tastes.

Made in Toronto, Canada. In the WAXTITE package 10c. Look for this signature.

AUSTRALIA PLANS FOR TROOPS WHEN THEY COME HOME

Outline of General Scheme Arrived at get Them on the Land.

STATES WILL GIVE LAND.

Federal Government Will Provide Funds for Various States' Use.

(Journal of Commerce)
Australian newspapers contain the details of the conference held in Melbourne recently between Federal and State representatives to consider a number of the aspects of the problem presented by the need for absorbing the returned soldiers. The conference adopted a complete scheme for the settlement of soldiers and their dependents on the land. The details of the scheme are given below in a series of resolutions, which were agreed to by the conference. It is estimated that the scheme will result in the placing of about 42,000 families on the land during the next three years.

The conference of Federal and State representatives adopted the following resolutions with regard to land settlement:
(1) The Government of the Commonwealth and the states should cooperate in the promotion of a scheme for the settlement of willing and suitable returned soldiers upon the land. (2) The provisions of the settlement scheme, applied to the families for stock and implements, the state institutions to advance to the soldier settlers such money as cost, plus reasonable working charges. (3) The Federal Government should operate in the promotion of a scheme for the settlement of willing and suitable returned soldiers upon the land. (4) With a view to meeting the special requirements of the soldier settlers, the state governments will be invited to liberalize their conditions, apply to the repayments for stock and bank advances, and, if practicable, upon a uniform basis. (5) In order to provide for the subsidiary requirements of the returned soldiers, the citizens generally will be invited to subscribe either in cash or kind to a special repatriation fund. This fund is to be raised by appeal for land from the federal parliamentary war committee, the state war councils and their associated local organizations, and is to be vested by an Act of the Commonwealth in the Parliament. The fund is to be distributed subject to conditions to be prescribed by the federal parliamentary war committee, and advances from the fund are to be made to returned soldiers or by way of general assistance to returned soldiers and their families as determined by the federal war committee. Such advances are to be loans without interest.

Training Farms
(6) Provision should be made where necessary for the immediate establishment by the states of training farms on which inexperienced men might serve a probationary period, for the purpose of determining whether they have an aptitude for the work. Where the state authority is satisfied, such training may be arranged for an approved private farm, with a view to the elimination of men who are obviously unqualified for land settlement, and who are prescribed period after discharge, be addressed to a central authority, constituted by each state government, the duty of which should be to divide the applicants into three groups, as follows: (a) Those who are immediately eligible; (b) Those who may prove so after a probationary training; and (c) Those who are unsuitable. (8) Concurrently with the proposals herein contained every encouragement should be extended to approved private efforts for the settlement of returned soldiers on the land.

Loans to Men
(9) Loans to soldiers for land settlement purposes, as provided by reasonable rates of interest not exceeding 3-1/2 per cent, in the first year, and increasing by 1-1/2 per cent each subsequent year, to the full rate of interest at which the money has been raised, plus working expenses. The difference between these rates and the cost to the Government of the money is to be borne equally by the Commonwealth and the state governments.

(10) Provided their military records are satisfactory, soldiers enlisted in the Australian Imperial forces, but not sent to the front, will be given the privileges extended to the returned soldiers, those cooking utensils, the wife, widow, or mother and children of a member of the forces, who were wholly or in part dependent upon his earnings at any time during the period of the twelve months prior to his enlistment.

Brilliant Military Man.
The fact that Gen. Foch, France's right hand man, is in command of the Big Drive along the Somme has inspired the Allies with every confidence that the outcome will be satisfactory. Foch is next in command to Joffre, but as a matter of fact, has the actual direction of the forces in the field. He is a man sixty-four years of age, but is as active mentally and physically as a man half that age. For more than a generation Foch was a professor at a French college, where he was regarded as one of the best military tacticians since the days of Napoleon. His books on military affairs are regarded as classics, so much so that even the proud Prussians have translated them. Foch is said to know the French character better than any other general in France, and is credited with being able to get more out of an army than any man since the great Napoleon. Apparently his years of preparation and study are going to stand him in good stead.

TURKISH MUTINEERS MASSACRED BY TROOPS.
New York, July 28.—Reports received here yesterday from Smyrna state that a Turkish regiment mutinied in the forest of Mount Simitlou. Turkish forces pursued the mutineers and set fire to the forest. Many of the mutineers were burned to death.

Drink Hot Water if You Desire a Rosy Complexion

Says we can't help but look better and feel better after an inside bath.

To look one's best and feel one's best is to enjoy an inside bath each morning to flush from the system the previous day's waste, sour fermentations and poisonous toxins before it is absorbed into the blood. Just as coal, when it burns, leaves behind a certain amount of impure material, which if not eliminated, forms toxins and poisons which are then sucked into the blood through the very ducts which are intended to suck in only nourishment to sustain the body.

If you want to see the glow of healthy bloom in your cheeks, to see your skin get clearer and clearer, you are told to drink every morning upon arising, a glass of hot water with a teaspoonful of limestone phosphate in it, which is a harmless means of washing the waste material and toxins from the stomach, liver, kidneys and bowels, thus cleansing, sweetening and purifying the entire alimentary tract, before putting more food into the stomach. Men and women with sallow skins, liver spots, pimples or pallid complexion, also those who wake up with a coated tongue, bad taste, nasty breath, others who are bothered with headaches, bilious spells, acid stomach or constipation should begin drinking this phosphated hot water drinking, and are assured of very pronounced results in one or two weeks.

A quarter pound of limestone phosphate costs very little at the drug store but is sufficient to demonstrate that just as soap and hot water cleanses, purifies and freshens the skin on the outside, so hot water and limestone phosphate act on the inside organs. We must always consider that internal sanitation is vastly more important than outside cleanliness, because the skin pores do not absorb impurities into the blood, while the bowel pores do.

AMERICAN OFFICER VICTIM OF HOAX
Washington, July 28.—Sir Cecil Spring-Rice, the British Ambassador, informed Acting Secretary of State Polk yesterday that he had received a message from the Admiral commanding the British squadron on the Atlantic denying that a British warship had entered Chesapeake Bay as reported by the commander of the battleship Louisiana.

The Ambassador said the British ships had strict orders not to enter the three-mile limit of American territorial waters, to waylay the German submarine Deutschland, or for any other purpose, and the Admiral had reported that these instructions had not been violated at any time. The statement of the Ambassador will be accepted by the State Department, but the commander of the Louisiana is being pressed by the Navy Department for further details on his report that a craft which passed him at Lynnhaven inlet signaled "English cruiser." Officers do not know what to make of the case, but some are inclined to believe that an American officer was the victim of some kind of hoax.

SYNOPSIS OF CANADIAN NORTHWEST LAND REGULATIONS

The sole head of a family, or any male over 21 years of age, who has homesteaded a quarter-section of available Dominion land in Manitoba, Saskatchewan or Alberta, or who has homesteaded a quarter-section of Dominion Lands Agency or Sub-Agency land in the District of British Columbia, may be made at any Dominion Lands Agency (but not Sub-Agency), on certain conditions:
Duties—Six months residence upon and cultivation of the land in each of three years. A homesteader may live within one mile of his homestead on a farm of at least 80 acres, on required except where his homestead is in a homesteaded area. Residence is performed in the vicinity.
In certain districts a homesteader in good standing may pre-empt a quarter-section alongside his homestead for \$100 per acre.
Duties—Six months residence in each of three years after settling on homesteaded patent; also 60 acres extra cultivation. Pre-emption patent may be obtained as soon as homesteaded patent, on certain conditions.
A settler who has exhausted his homestead right may pre-empt a homestead in certain districts. Price \$3.00 per acre. Duties—Six months residence in each of three years, cultivate 50 acres and erect a house worth \$500.
The area of cultivation is subject to re-lease in case of rough scrubby or stony land. Live stock may be subletted and cultivation under certain conditions.
W. W. COLE, P. 24-2.
Deputy Chief of the Interior.
