A Protest.

To all in silence when we should protest,
Make us words of men. The human race
has climbed on protest. Had no voice been ad-
ded

Against injustice, ignorance and lust,
The legislation yet would serve the law,
The politicians decide our last dispute.

The few who dare, must speak and speak again
to right the wrong of many. Speak!
No vested power in this great day and land,
Can guard or throttle. Press and voice may cry
Loud disapproval of existing law.

My criticism appropriate and discreet,
The lawlessness of wealth-producing laws
That let the children and childbearing toll
To purchase more for the millionaires.

Therefore, I do protest against the best
of independence in this mighty land,
Out on child, woman, child, and man,
On the child, woman, child, and man.

Send your protest to the editor of the

A REPORT OF THE THIRD ANNUAL
MEETING OF THE WOMAN'S AUXILIARY
TO MISSIONS, DIOCESE OF
NOVA SCOTIA, HELD AT LUNenburg

APRIL 21-22, 1908.

Read by Mrs. Marshall Black, Wolfville,
at the last meeting of St. John's branch of W. A.

The journey from Wolfville to Lu-
nenburg on a disagreeable winter's day
in April is not a pleasant one.

Arriving at Lunenburg about an hour
later, we were met by a delegation of
W. A. ladies and our welcome was so
cordial that we immediately forgot
any unpleasantness we may have en-
countered on the journey.

At 8 p. m. the first executive meet-
ing was opened by repeating the mis-
sionary prayer. After the roll-call
the president, Mrs. Worrell, chose the
following nominating committee:
Chairman—Mrs. Wallis, Mrs. Mitchell,
Mrs. Humphrey, Mrs. LePine, Mrs. Clark,
Mrs. Sutherland, Mrs. Dickie,
Mrs. Pooley, Mrs. Hebb, Mrs. Silver.

The reports of the various Diocesan
officers, and of the superintendents of
Girls' Branches were read. These
were read at this time so that if they
were incorrect they might be corrected
before the business meeting of the
next day. The meeting adjourned
with benediction.

At 10 a. m. Wednesday, the nomi-
nating committee met and chose the
following credentials: Miss Neish,
Miss Creighton; scrutineers: Mrs. Ham-
phrey, Miss Pooley; resolution: Mrs. Black,
Mrs. Cunningham, Mrs. Moser,
Mrs. Edwards, Mrs. Norwood, Mrs. Cor-
bin, Miss Hendry, Mrs. Beach, Mrs.
Hampshire, Mrs. Hebb, Mrs. Silver,
Mrs. Sutherland; question: Mrs.
Black, Miss Creighton, Mrs. Freeman,
Miss Sutherland; courtesies: Mrs.
Hebb, Miss Hawley, Miss Creighton,
Mrs. Mack, Mrs. Pettie, Miss Lucy
Creighton.

The choice of a new organizing sec-
retary was left to the board. The com-
mittee, having performed its duty,
disbanded.

At 10:45 the beautiful chimes of the
old historic St. John's church
pealed forth and a large congregation
was seated. The surplised choir en-
tered the main aisle singing the Ras-
terhym 'Jesus Christ is risen to-day.'

The beautiful Easter decorations re-
mained in the church. The Rev. G.
C. Wallis was the celebrant, assisted
by Rev. E. Underwood, W. C. Wil-
son and H. L. Haslam. A very car-
rest sermon was preached by Rev. E.
Underwood, of Bridgetown, from the
text, 'Whom say men that I, the Son
of man, am?' All the delegates and
many of the members of the Lunen-
burg W. A. were present. The com-
municants numbered about 130. The
annual thank-offering of the branches
formed the collection.

At 1:30 p. m. the first business
meeting was held in St. John's parish
hall which was beautifully decorated.
The missionary litany was read by
his Lordship, the Bishop. Hymn
number 16 was sung. The roll was
called and answered by 54 delegates.

The president's annual address
was called for and, according to a motion
moved and seconded, were accepted
as printed in the year book without
being read. A very pleasing address,
of welcome was given to the delegates
by Mrs. Wallis, the able president of
Lunenburg branch. The reply was
read by Mrs. MacClure, of Aylesford,
in absence of Mrs. Fairlie.

The president's annual address
dealt with many subjects relating
to the W. A. work, among them being
'The Indians,' 'The Bakimo,' 'The Care
of the Temple Children in India,' toward
which the ladies' branches had given
their thank-offering. More interest
being taken in education, al-
ready two sons of churchmen were be-
ing educated in college, and the hope
is that soon more could be sent. 'For
how are we to do the Master's work if
we do not prepare those who are wil-
ling to consecrate themselves to His
service but are unable to do so through
lack of funds?' The president urged
upon the meeting the necessity for
a resolution for the adoption of a pledge
by the branches, for paying insur-
ance premiums into 'The Widows and Or-
phans Fund' of the diocese. Only

THE ACADIAN.

WOLFVILLE, N. S., MAY 22, 1908

The Block of Progress.

Whenever you hear a collection of little men talking about politics, or science, or business, or government, you will discover that they have a tremendous respect for a thing they call precedent.

Precedent is merely the way things have been done before, the way their grandfathers and their great-grandfathers, and so on as far back as history has been recorded, have been doing them.

And the little men who do not think for themselves fancy that because a thing has been done a certain way for a thousand years that must be the right way to do it.

In this world just now there are very few people who are entirely governed by precedent. The Zulus and the Hottentots still observe most of the manners and customs of their ancestors; the curious subjects of the Lama at Lhasa are governed largely by precedent, and there are many sections of the vast Chinese Empire, with its four hundred millions of people, where precedent, and that if he sailed straight on around the world he could reach India, he gave all his friends a shiver of horror.

But Columbus had a practical mind. He used current knowledge of the wealth of India in his arguments. He pointed out that if he could reach India he might be able to put most of its gold in his ships and bring it back to Europe. Thus he aroused the avarice of a greedy government, and when avarice gets into competition with superstition, superstition is destined to defeat.

So Columbus was fitted out with a fleet by Ferdinand and Isabella, the Spanish rulers, and his return from his newly discovered country, which he at first believed was India, delivered another staggering blow to precedent.

Since the time of Columbus's death all the really great things that have been accomplished by the human race have been without precedent.

But they have, nevertheless, been great, actual accomplishments, and they have made the difference between our civilization of to-day, imperfect as it is, and the barbarity of other days.

Religion is no less the great world force to-day than it was in the time of the Inquisition, although our abandonment of the practice of burning doubters at the stake is unprecedented, or was unprecedented in Calvin's day.

Invention, which has made much of the material progress of the world, and supplied the poor of to-day with comforts unknown to the rich of a few centuries ago, has had a continual and heroic battle with the idea that whatever was right.

Just now precedent is more firmly entrenched in the law than elsewhere. But even in the courts and in the law offices men are beginning to discover that because certain rulings have obtained since the days of Blackstone they are not necessarily the best rulings that can be made.

A few years ago any legislation for the good of humanity was looked upon with disfavor. To-day the National Congress is discussing the necessity of abolishing child labor, and although precedent is still victorious over that great reform, it cannot remain so always.

We do not mean to say in this editorial that anything that is sanctioned by long use must be wrong, or that anything that is new must be right.

There are many instances, many laws, that are centuries old that still stand to-day, and will stand for all time.

No lawgiver of ancient or modern times has been able to improve upon the Ten Commandments as a perfect rule of life. No philosopher or sage has been able to supply a substitute for the wisdom and grace of the beautiful Sermon on the Mount.

But the fear that any new thing cannot be good because it happens to be unprecedented retards the progress of the race to-day as it has retarded it since men first began to use their minds to think.

It is important that any young man beginning life should know what has been done before him, and what has been done since, but he must also learn to choose between what has been done and what he has done better.

Then he can apply himself to the task of doing better.

Manitoba Election Act.

Should a crisis occur at Ottawa over this high-handed act it will be the fault of the federal government, and one of its own making. A government which gives a square deal does not get into tangles, but if crooked it soon finds itself in trouble. Revelations that are continually coming to light have affected the public mind and the opinion is abroad that if the country, or any part of it, is to be saved from absolute disaster there must be a change. Ministers of the crown, members of parliament and certain private citizens in close touch with these same ministers and members have, within a short space of time, advanced from actual poverty to being counted millionaires. The public have of late been curious to learn how this vast wealth has been acquired, and as to whether their trusted servants have been stealing; and as a result of these investigations, thwarted by all sorts of means though they were, have learned some marvellous facts—and the public eye is now wide open.

This latter fact is apparent when the by-elections in Ontario, the provincial elections in New Brunswick, Manitoba, Ontario and British Columbia are considered; and in Nova Scotia evidences have been apparent of late that the people are growing cold as to the fate of the present government.

To Sir Wilfrid Laurier the situation is plain. Shrewd politician that he is he has read the signs of the times. Fearing lest disaster should come suddenly and the power he so loves should slip from his grasp, a scheme is introduced the adoption of which would hand him over completely to the loaded dice, and the limitation of the power of the people to protest by their votes against wrong doing.

The liberal doctrine was for provincial franchise, and that worked to suit this government so long as the several provinces remained faithful in their allegiance, but now that Manitoba and British Columbia have been lost to them in local affairs the fear arises that in a Dominion contest a like result might occur. So Sir Wilfrid, through his minister of justice, the celebrated Mr. Aylesworth, has produced a bill in parliament that virtually disfranchises every conservative in either Manitoba or British Columbia. This Mr. A. B. Aylesworth was the legal adviser of the notorious Ross government in Ontario. "This Aylesworth bill is said to be aimed at Manitoba in particular, and a more villainous scheme to disfranchise political opponents could hardly be imagined."

The Manitoba franchise act is now in force in that province. The applications which the registration clerks receive to add and strike off names are posted up in several places in the different counties so that every person can see exactly what has been done during the time of registration. The county court judge holds a court of revision and it is he and he alone who has the power to add to and strike off names from the lists. Where is the unfairness in this or advantage to either party? The Aylesworth bill on the other hand is no doubt the most unfair way possible to make up a list, because a partisan appointee of the federal government, upon the recommendation of his friends in the constituency, makes up the lists and his decision is final, and he can put on this list any person, whether he be Canadian or foreigner. Further, this partisan official can strike off anyone he sees fit. He can also have marked any ballot he or any polling officer desires. Thus if a voter is paid one dollar or one hundred for his vote, it can be traced as to whether the money was earned or not, these ballots to be numbered, and each voter, if the polling officer and the partisan briber so requires, can be traced by this marked ballot.

The conservative opposition at Ottawa protest, and say that no such iniquitous bill shall be allowed to pass this parliament, and unless it is withdrawn or some of the objectionable clauses cut out, they will refuse to permit a vote for supply. A crisis is on, or nearly so. If a decision is decided on by the government, the opposition say they will fight out the question at the polls. They seem to welcome the prospect of an early election.

Manitoba and British Columbia are asking all Canada, east and west, to stand by them in their fight for freedom, and unless all signs fail, their appeal will be enthusiastically accepted.

Since the above was in type it is reported that a compromise had been effected by which the government agreed to withdraw the clauses objected to by the opposition. The fact that the government was allowed to warrant the compromise is a dangerous precedent.

For Little Babies and Big Children. Baby's Own Tablets are good for all children, from the feeblest baby, whose life seems to hang by a thread, to the sturdy boy who occasionally gets his digestive organs out of order. Baby's Own Tablets promptly cure all stomach and alling children, and make sickly or ailing children well and strong. And this medicine is absolutely safe—the mother has the assurance of a government analyst that this is true. Mrs. Alfred Goodland, Haldimand, Que., says: "I have used Baby's Own Tablets for constipation, stomach troubles and indigestion and had them a splendid success. They have made my little children, they have made my little children healthy, and my child, I always keep a box of Tablets in my house, sold by medicine dealers or druggists, or by mail from The Canadian Northern Co., Montreal."

A Montreal paper says: The longest train which ever pulled into the I. C. yards here, arrived yesterday, C. B. yards here, arrived yesterday, made up of fifty-one empty box cars, from Blouin & Curry, of Amherst, for the Canadian Northern. Two locomotives hauled the quarter of a mile long train. A hundred cars for this railway from the Amherst shops have passed through yesterday and today.

Potatoes for Export.

Now that the planting season is coming on we would strongly advise those who intend raising potatoes not to plant any Red Kados, Blush or other red varieties with the exception of the genuine Early Rose. The Early Rose and the white variety such as Carmen, American Giants and Burbanks are the only kinds that are wanted in Cuba. There is no call for other varieties.

The Early Rose is a potato that has gone out considerably in Nova Scotia, but Cuba requires a lot of this variety at the beginning of the season and we would advise growers planting as many of this variety as possible. It has been getting the most of this stock from New Brunswick but we Nova Scotians should try and control this trade as much as possible, and we can only do so by growing the kinds of potatoes that they want.

HOWARD BLOCH & SONS.

The Tourist Travel.

The Morning Chronicle says: That tourist traffic in Nova Scotia will be fully as good in 1908 as in any previous year, despite the financial stringency in this province. It is the opinion of E. L. MacDonald, manager of the Halifax Hotel, who has recently returned from a business trip to New York. "While there are so many people leaving the United States for the summer, this year, I think Nova Scotia will get as many tourists as usual," said Mr. MacDonald. "Many people have been hard hit by the stock slump, and many people who ordinarily would take their vacations in Europe will come to Nova Scotia this year."

Union Agricultural Society.

Straitforward Statement of Secretary Donaldson.

DEAR SIR: Soon after I last wrote my answer to the progress made at the Union Ag'l Society by the Western Chronicle, I received the government grant for the Union in connection with the other societies of the province. Consequently for a time no further action was taken by the directors, as, although after the charges were made they were aware that the Union had not complied with certain legal technicalities, yet they were aware that in that respect they stood in the same position as a good many other societies of the province. However having subsequently learned from personal interviews with the heads of the Agricultural Department that they had been blamed by the Premier for paying over the grant without an investigation after certain charges had been made, the directors at once took steps to ascertain the wishes of the department and the Premier in regard to this matter. It was stated to them that the directors had not misappropriated any of the funds, but had been carrying out what they considered was the intention of the Agricultural Department and did not wish to retain any portion of such grant to which they were not rightly entitled. By the advice of Principal Cunningham to whom the Premier delegated the arranging of these matters the directors have authorized me to return the grant to the Department with the understanding that when we have complied with certain conditions the whole or that portion of the grant legally coming to us will be returned.

There has never been the slightest intention to defraud, nor has there been any misappropriation of any government funds in the Union Society. All government moneys have been strictly used for the purchasing and keeping of bulls for the use of members. There have been (in common with all societies) efforts made to draw as large a grant as possible and here is where some irregularities have occurred. The bull keepers upon investigation by the directors were found to have made private bargains with the members and in most cases not to have collected the full membership fee as legally required to draw the grant. In doing this they never considered they were doing anything wrong as all funds from the bulls went into their pockets and hence they were not considered as having misappropriated the grant. The fact that membership fee was not collected and the society was none the poorer.

This is the best of means making solution. Whether it's Bull, Bulls or Hiccup, Plea or Fancy Plea, you can always depend on Beaver Fleas for the best remedy every time. Try it. At your Grocer's.

NYAL'S SPRING TONIC

A Pleasant Bitter. Purely Vegetable. An Energizer & Stimulant.

Composed of those vegetable Tonics, Bitters, etc., which supply the system with material that has been benumbed during the winter. At the spring season the body craves just these elements which are combined in the pro, or proportions to produce the greatest human energy.

An Excellent Tonic for any season, but particularly necessary in the Spring. Banishes that tired, lazy feeling that comes as a result of the too close confinement of the winter months. Gives a snap and spring to the indolent muscles, braces up the tired nerve, and stimulates the appetite. Makes work a pleasure. Gives a zest to the daily task and supplies that comfortable feeling of confidence and ability that comes when the whole human mechanism is working in a normal healthy condition.

Willow Bank Cemetery.

The 28th annual meeting of the trustees and lot-owners of Willow Bank Cemetery was held on Friday evening last in the rooms of the Wolfville Board of Trade. There was a very small attendance, only ten persons being present. The president, Dr. J. P. Tufala, was in the chair, and after the reading of the minutes of the last meeting the reports of the secretary and treasurer were read. The secretary reported two lots sold during the year, making the total number now sold 156. There were sixteen burials during the year, and the total number of interments now in the cemetery is 378. The treasurer's report showed the amount received during the year to have been \$137.25, and that \$177.31 were paid out. The balance on hand May 15th, 1908, was \$162.39. The following officers were elected for the coming year: President—Dr. J. P. Tufala; Vice-Pres.—Mr. R. Earl Burgess; Secretary—Mr. A. J. Woodman; Treasurer—Mr. Clarence H. Borden; Messrs. W. H. Chase, C. S. Fitch and William A. Chapman were elected to the Board of Trustees to take the place of those retiring. Mr. C. R. H. Starr and Capt. Tingley were appointed a committee to look after the old Main street cemetery. Messrs. C. R. H. Starr, J. M. Shaw, R. E. Burgess, C. H. Borden and D. B. Shaw were appointed a committee of management.

A sad accident occurred on Wednesday morning when David Allan Parker, of Woodville, was killed by being trampled to death. He was hauling manure and the horses took flight and killed him. He was one of the leading farmers in that vicinity and was in very prosperous circumstances. He is survived by his wife, who was Miss Hattie Woodman, also a son Scott, and two daughters, Fanny and Mrs. John Armstrong. Mr. Parker was sixty-five years of age, and his untimely death has cast a great gloom over the community.

The estate of the late George Churchill, was up for settlement on Saturday last week. After the death of Mr. Churchill, Mr. Rodgers Macdonald, of Halifax, and Mr. Ezra Churchill, were appointed administrators as Mr. Churchill left no will. The heirs were not satisfied with the work done by the administrators, so the different heirs were represented in Windsor by the following lawyers, H. S. Duchemin, Esq., Sydney; T. K. Robertson, Esq., Halifax; W. H. Roscoe, Kentville; E. J. Morse, Reg., and W. M. Christie, Esq., of Windsor. The difficulties in closing up the estate were amicably settled by all the heirs being joined to a joint stock company, and the administrators being allowed one per cent. for their work done up to the present time.—Hants Journal.

Graduating Recital At Acadia Seminary.

MISS NELLIE DEWITT AND EVELYN STARR DELIGHT AUDIENCE IN FINELY REHEARSED NUMBERS.

Two of Wolfville's talented and clever young ladies have completed the musical course at Acadia Seminary, and Tuesday evening gave their graduating recitals in the presence of a large and most enthusiastic audience. They were Miss Nellie Anderson DeWitt, daughter of Dr. G. E. DeWitt, who completes the vocal course, and Miss Margaret Evelyn Starr, who receives a diploma for artists' course in violin. Miss Starr is a young lady of rare musical gifts and gives promise of making a name for herself in the near future. With great natural talent, she has by diligent training under experienced teachers, acquired a splendid technical equipment which is seen in her firm bowing, her tone shading and her correct phrasing. She seems competent to undertake the most difficult of operatic numbers, and her treatment of them is broad and sympathetic. She gave excellent examples of her art in Wagner's 'Polonaise Brillante' and Bach's 'Bourree,' but she was at her best in that great masterpiece of Mendelssohn's 'Concerto in G Minor.' The three movements of this beautiful selection were artistically given, and it is saying but the truth to say that she was able to do justice to all the technical difficulties of a composition that taxes the resources of the greatest of artists. She recited 'The Spirit Song,' the beautiful Italian aria 'Canto D'Aspetto' with scores by Handel exhibited the well sustained melody of her tones, her lighter strains were the modern productions, Brahms' 'Sapphic Ode' and Liszt's 'Du bist Wie Eine Blume,' both of which were brilliantly given, but her finest effort was the 'Ave Maria' by Schubert, whose earnest invocations her sympathetic voice made very real. Mrs. Kingswell accompanied Miss DeWitt very effectively.

At the close the young ladies received valuable gifts, and were heartily congratulated upon the merit of their work.

Misses King and Westover will be prepared to do dressmaking after the 1st of June. Work will be done at Mrs. Westover's, Highroad avenue. Orders will be taken any time. For further information apply to Box 9.

Rev. George McMillan, of Kentville, occupied the pulpit of St. Andrew's church on Sunday last, and preached two excellent sermons which were very much enjoyed. Rev. Mr. Wright spent the day at Kentville.

To Make High Standard at Acadia College.

TEXT OF THE NEW REGULATIONS AS PASSED BY THE FACULTY.

The following stringent regulations have been adopted by the faculty of Acadia College:

(1) When there has been failure in the first class standing must be taken over in class.

(2) No student who has failed in more than three term examinations of the preceding year or years will be promoted to a higher class.

These new regulations will make the standard of Acadia very much higher than that of any similar college. This should attract students of denominations other than Baptist. On the other hand many of the present students, including ministers, will be obliged to seek an agylum elsewhere.

A delegation is to go to Ottawa to interview the government in reference to the Census duty on Canadian apples. J. E. Shaffner and R. J. Elliot from Annapolis county, W. O'Brien and M. Saxton from Hants, and W. W. Pine, C. O. Allen and H. Bight from Kings, compose the committee.

'Black Prince' Hosiery for Boys—the strongest and blackest hose made for 25c a pair. All sizes at J. D. CHAMBERS'.

Mrs. John McGowan, of Sydney, C. B., has fallen heir to a fortune of about \$30,000 left by a relative who recently died in Scotland, besides some valuable real property. She left on Saturday morning by the Empress of Britain for the Old Country to complete the necessary arrangements.

Makes Red Blood AND GOOD HEALTH

What Dr. Chase's Nerve Food does is to increase the number of red corpuscles in the blood and thereby make the blood richer and send the elements which build up new cells and tissues to replace those wasted by disease and in the process of living.

By use of this great nutritive you lift yourself up to a higher level of health which leaves you an easy prey to every ill wind that blows for with this, weary blood, you can catch and tame the elements which build up new cells and tissues to replace those wasted by disease and in the process of living.

Gleaned by the Way.

'Some people claim they don't get out of life.'

'And they are the kind that don't put anything into it to draw interest on.'

'Health Coffee' is really the closest Coffee Imitation ever yet produced. This clever Coffee Substitute was recently produced by Dr. Shoop of Racine, Wis. Not a grain of real coffee in it either. Dr. Shoop's Health Coffee is made from pure toasted grains, with milk, nuts, etc. Really it would find an expert who might drink it for coffee. No. 20 or 30 minutes tedious boiling "Made in a minute" says the doctor. Sold by T. L. Harvey.

'Shakespeare wrote for all time.'

'For instance?'

'Take his expression: "It is not so deep as a well, nor so wide as a barn door, yet 'twill serve. How well that describes a 1908 spring hat!"

'Bad Attack of Dysentery Cured.'

An honored citizen of this town was suffering from a severe attack of dysentery. He told a friend if he could obtain a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, he felt confident of being cured, he having used this remedy in the West. He was told that it kept it in stock and lost no time in obtaining it, and was promptly cured. "I was cured," says M. J. Leach, druggist, of Watouet, Vt. For sale by Rad's Drug Store.

'You naughty child, where have you been? You have been fighting again with Paul. Just look at your new clothes! I'll have to buy you a new suit.'

'Don't say anything, ma. You ought to see Paul. I think his mother will have to buy a new boy.'

Weak women should read my "Book No. 4 For Women." It was written expressly for women who are not well. The book tells of Dr. Shoop's "Night Cure" and just how these soothing, healing, antiseptic suppositories can be successfully applied. The book, and strictly confidential medical advice is entirely free. Write Dr. Shoop, Racine, Wis. The Night Cure is sold by A. V. Rand.

A man arrested for murder was assigned the lawyer whose appearance caused the prisoner to ask the judge: "Is this my lawyer?"

'Yes, he is going to defend me.'

'Yes.'

'If he should die, could I have another?'

'Yes.'

'Can I see him alone in the back room for a few minutes?'

There is a Pink Pain Tablet made by Dr. Shoop, that will positively stop any pain, anywhere, in 20 minutes. Drug stores everywhere sell them as Dr. Shoop's Headache Tablets, but they stop other pains as easily as headache. Dr. Shoop's Pink Pain Tablets simply coax blood pressure away from pain centers—that is all. Pair comes from blood pressure congestion. Stop that pressure with Dr. Shoop's Headache Tablets and pain is instantly gone. 20 Tablets 25c. Sold by A. V. Rand.

The professor in charge of a class room had been annoyed by the tardy entrance of a student. After the lecture the student apologized. "Professor," said he, "my watch was five minutes out of the way. It's nothing but a good deal lately but after this I shall put no more faith in it." "It is not faith you want in it," replied the professor, "it's works."

MINARD'S LINIMENT CO., LIMITED.
Yarmouth, N. S.
GENTLEMEN:—In January last, Francis Leclair, one of the men employed by me, working in the lumber woods, had a tree fall on him, crushing him fatally. He was taken home, placed on a sled and taken home, where grave fears were entertained for his recovery, his legs being badly bruised and his body turned black from his ribs to his feet. We used MINARD'S LINIMENT on him freely to reduce the pain and with the use of three bottles he was completely cured and able to return to his work.
RAYNER KUNAL,
High Road, 1785 St. Joe.

A man who was offering gratuitous information at a country fair was disparaging the show of cattle.

"Call these here prize cattle!" he scornfully asked. "Why, these ain't nothin' to what our folks raised. You may not think it, but my father raised the biggest calf of any man around our parts."

"I can very well believe it," observed a bystander. And the bystander wondered why everybody laughed.

Is Your Chest "Wheezy"?

Tightness and wheezing means your trouble is deep-seated. To delay is dangerous. Inflammation must be drawn out at once. Rub the chest and chest with Nerviline, and out on a Nerviline Porous Plaster. Relief comes in an hour. The counter-irritant effect of the plaster relieves the tightness and strain, draws out the soreness, eases the pain. The penetrating qualities of Nerviline enable it to reach the very core of the trouble, and you experience a feeling of warmth and relief that proves the danger is past. For weak chest, sore throat and tendency of cold, the Nerviline Treatment beats all others, by it.

To Move a Cold.

Cough mixtures 'dope' a cold, but don't cure. Above all else, keep the bowels regular and stimulate the eliminating organs. More valuable than any cough syrup are Dr. Hamilton's Pills. They clear the system of every trace of cold—the dull headache, the aching limbs and cough disappears. Take the pills before retiring, they work while you sleep, and by morning your cold is broken and passes quickly away. All druggists sell Dr. Hamilton's Pills in 25c boxes.

Whooping Cough.

"In February my daughter had the whooping cough. Mr. Leo, of Hamilton, kindly sent me a box of Chamberlain's Cough Remedy and I gave her a few doses. It was very effective. We found it as good as any cough medicine I have ever used. It is a good thing for every family who has a child with whooping cough."—Mrs. A. S. Doss, of Hamilton, N. S.

Is Your Corn Troublesome?

Why not cure it—without it, it will trouble you again. The pain and soreness is not cured, it is only relieved. It is a good thing for every family who has a child with whooping cough."—Mrs. A. S. Doss, of Hamilton, N. S.

Dainty Deserts.

In this recipe all measurements are made level. Measuring cups divided into thirds and quarters are used, also tea and table measuring spoons.

As a dessert hot puddings are very acceptable at the family table.

An Indian Tapioca Pudding is a bit more delicate than the baked Indian pudding of our grandmother's day. Soak five tablespoonfuls of pearl tapioca for two hours in cold water to cover. Pour four cupsful scalded milk over four tablespoonfuls of Indian milk mixed with three-fourths of a cup of molasses and one and one-half teaspoonfuls of salt, and cook in a double boiler twenty minutes, stirring occasionally. Add the tapioca drained from the cold water and three tablespoonfuls of butter. Turn into a buttered baking dish and pour over one cupful of cold milk, and do not stir. Bake in a warm oven one hour and fifteen minutes and serve hot with cream. When cream is not at hand often use butter (as I do not know the old-fashioned Indian pudding) in its place. The minute tapioca as on the market are many of them of great value to the housekeeper in preparing the cold milk, and more quickly than otherwise could be prepared. I always use them in tapioca cream, tapioca custard and apple, as well as in peach tapioca; but remember, if you please, that for this recipe they cannot be substituted for the pearl.

The most common cause of suffering. Rheumatism causes more pain and suffering than any other disease, for the reason that it is the most common of all, and it is certainly gratifying to sufferers to know that Chamberlain's Pain Balm will afford relief, and make rest and sleep possible. In many cases the relief from pain, which is at first temporary, has become permanent, while in old people subject to chronic rheumatism, it has brought on by dampness or change in the weather, a permanent cure cannot be expected; the relief from pain which this liniment affords is done worth many times its cost. 25 and 50 cent sizes for sale by Rad's Drug Store.

Miss Elizabeth E. Cook, of Ithaca, N. Y., is a young woman who will bear watching by the public eye. She was a member of the Cornell team which belated against Columbia in spite of the Columbia protest—and did exceedingly well. Now she has been unanimously awarded the \$100 prize in oratory endowed by General Stewart L. Woodford and which is considered the highest public speaking honor which the Cornell students receive. Her oration was entitled "Men, women and human beings," consisting of a plea for the breaking down of the barriers between the women of the world and their developing together of the wide range of common human interests. Her interest in her subject may be understood to be more than merely academic.

Are You Subject to Colds?

Then don't load your stomach with cough syrups. Send healing medicine through the nostrils—send it into the passages that are subject to colds and catarrh. Easy to do this with Catarrhoseone—all through the bronchial tubes, nostrils and air passages—everywhere a trace of disease remains will Catarrhoseone follow. You'll not have colds, nor will you suffer from an inflammation of the throat trouble if Catarrhoseone used. Get it to-day. 25c. and 50c. per all druggists.

Mother—Tommy, what are you doing in the pantry?

Tommy—Oh, just putting a few things away.

INDIGESTION IS THE END OF HEALTH.

Health ends when indigestion begins, because nutrition fails. This you are starved. Then the impurities which arise from undigested food get into your system. Thus you are poisoned. Mother, Seigel's Malted Syrup makes an end of indigestion by strengthening the digestive organs.

THE GOME AND SEE SIGN

Public Exhibition Limited. From 10:30 a.m. to 10:00 p.m. Daily. Tickets 10c. 25c. 50c. 1.00.

This sign is permanently attached to the front of the main building of the Lydie E. Pinkham Medicine Company, Lynn, Mass.

What Does This Sign Mean? It means that public inspection of the laboratory and methods of doing business is honestly desired. It means that there is nothing about the business which is not "open and above-board."

It means that a permanent invitation is extended to anyone to come and verify any and all statements made in the advertisements of Lydie E. Pinkham's Vegetable Compound.

It is a purely vegetable compound made from roots and herbs—without drugs?

Come and See. Do the women of America continually use as much "it" as we told? Come and See.

Do the women of America continually use as much "it" as we told? Come and See.

Have they really got letters from over one million, one hundred thousand women correspondents? Come and See.

Have they proof that Lydie E. Pinkham's Vegetable Compound has cured thousands of these women? Come and See.

This advertisement is only for doubters. The great army of women who know from their own personal experience that no medicine in the world equals Lydie E. Pinkham's Vegetable Compound for female ill will still go on using and being benefited by it; but the poor doubting, suffering woman must, for her own sake, be taught confidence, for she might just as well regain her health!

"Sunshine" Furnace

Where Shaking is Respectable

A Draft of furnace gas, with no other assistance, is sufficient to overcome the dust nuisance in shaking times. Only surplus heat rises off itself above the fire. Draft hole descends into ash-pit, and unless tightly closed will be blown out by the draft in the "Sunshine" Furnace the legitimate dust outlet is provided. It's a great big dust-pipe running straight from ash-pit to dome, thence to chimney. When big pipe damper is opened, all dust in ash-pit ascends to dome; and then, when direct drafts are opened, all dust passes up chimney.

Always the clean and quick dust route in "Sunshine" Furnace—via grate, to pan, to dust-pipe, to dome, to chimney, to open air.

Write to us for "Sunshine" testimonials received from your own townspeople.

At the Stroke of Nine.

A pretty, white cottage, on a broad, green lawn, with a stone wall leading to the gate.

By the door a rose climbed over the wall, and the gentle north wind scattered the white petals like snow on the ground.

And the perfume from these flowers floated up and sweet, like the breath of incense, burning in the temple of old.

A woman whose hair was just touched with gray stood in the door way, and a tall, handsome young man lingered at the gate.

"Good bye," the woman was saying, "be sure to stop at the hotel with Fred. Gilvin. I am sure he will keep you out of mischief. Be a good boy, and remember, every night and morning at nine o'clock I will pray for you."
