NEWDEMOCRATIC BOOM

Candidate for Governor in His State  
Two Years Ago is Given a Boost  
for Vice-Presidency—Is Said to  
Have Bryan's Endorsement.  
Denver, Col., June 29.—Bryan and Sullivan is to be the Democratic national ticket according to the boom that got here from Iowa today. The Sullivan is Jeremiah V. Sullivan, of Iowa, who four years ago was candidate for Governor in his State. National Committeeman Martin Wade, of Iowa, brought the Sullivan boom to Denver, and so far it is the biggest boom that has shown itself above the sky line of Arapahoe county. Apparently, too, Mr. Sullivan is enough to Bryan's intimates. The Iowa leader is to second the nomination of Mr. Bryan, and the public may take it from Judge Wade that when he has finished his talk on his otherwise Wade would not dare to present his name, and Wade is enough to Bryan's intimates. FATAL WATERSPOUT IN KANSAS.

Score of Persons Missing—Many Houses Swept Away.  
Wichita, Kansas, June 29.—A waterspout occurred at Wellington, Kansas, at midnight, causing the death of at least five persons and much live stock. Three are children. A score of persons are missing. The Rock Island and Santa Fe railways are washed out and trains are unable to reach the stricken towns. The report of the property damage is enormous. Many houses are swept away and as most of the inhabitants were asleep the death list may reach a large number.  
Receivers Will Reduce Staff.  
Minneapolis, June 29.—A general reduction in salaries of officers and general office employees as well as lower officials on the line is contemplated by the receivers of the Chicago and Great Western. Although no definite action has been taken, the matter is up for consideration by representatives of the points and will be decided within a comparatively short time. How sweeping and how great the reductions is problematical although it is understood that the higher officials will suffer fully as much and possibly more than their subordinates. It is said, furthermore, that the reduction will begin at the top at the outset and will grade down to lower office and departmental employees.

Elections in Panama.

Panama, June 29.—Victory for the Obaldia faction in the municipal elections held today seems assured. Returns from this city, Colon, Taboga, Chame and Arraijan indicate triumph for the reformers. No definite action has been taken, but the officials upon charges of wholesale graft against the Amador administration, which has been in power since the election of Obaldia. The presidential election takes place Sunday, July 12, and the results of today's elections will be regarded as a forecast of the results of the presidential contests.

WITH THE FARMERS

MONDAY'S GRAIN MARKETS.

Winnipeg, June 29—Cables opened 1/2 to 3/4 higher and closed unchanged to 1/2 lower. Winnipeg October opened at 85, asked 84 1/2, under light pressure to sell gradually worked down, selling at 83 1/2, close was unchanged from yesterday. There seemed to be very little export, one inquiry today, markets all over the world have got into the rut and unless some developments in grain crops show up, there will remain a quiet affair for the next couple of weeks. Oats showed some strength today with offerings light. Receipts of both wheat and oats continue fair, 133 of wheat and 31 oats.

EUROPEAN CROPS.

Recent advices from Europe regarding the crop outlook were as follows: United Kingdom—Weather seasonable; crops good progress. France—Local storm; some damage; otherwise, prospects maintained. Germany—Crops good; supplies light; buyers very cautious. Hungary—Crops unimproved; corn, wheat below average; corn, good condition; fodder exports prohibited. Bulgaria—Reports, little cutting commended. Turkey—European, had. Italy—Harvest proceeding satisfactory. Spain—Bad storm; otherwise outlook fair. Russia—South combined with somewhat under average. TO REMOVE THE EMBARGO.

A cable dispatch from London, England, states that it is rumored that the Canadian government is preparing to use every effort to get the embargo on Canadian cattle removed. At this time, when the English population are feeling keenly the effects of this protective regulation, when there is a famine of meat in the United States that the Canadian government is preparing to pay all costs of suppressing disease, together with full indemnity in the event of any such disease being traced to stock coming from Canada. It is pointed out that should British agriculturists insist upon a ninety days quarantine, the cattle could be fattened during that period. It is rumored that some sort of modus vivendi is not impossible.

CATTLE IN BRITAIN.

Meat, says the London Daily Mail, is just now dear and getting dearer in Great Britain. This is due to the fat cattle famine in the United States. The rise in prices at home is caused by the largely reduced arrivals of live stock from Canada and the United States. Fat cattle have reached a very high price throughout the United States. Meat has risen to almost unprecedented prices, and shiploads exported to Britain have been recalled and other exports stopped to meet the American home demand. Canadian supplies which usually come to Britain have been secured by the Chicago packers and American traders generally. The trade returning to the United Kingdom gives the following figures showing the decrease in the number of cattle imported by Great Britain from Canada and the United States this year compared with 1907. The numbers of head imported are: From United States—May, 1907, 23,983; May, 1908, 16,921. Five months, 1907, 158,637; five months, 1908, 134,067. From Canada—May, 1907, 8,262; May, 1908, 6,337; five months, 1907, 31,483; five months, 1908, 21,182. Decrease for five months, 34,871.

INSPECTORS OF GRAIN.

Winnipeg, June 29—Several applications having been filed with the board of grain examiners appointed by the Dominion government, in the terms of the general inspection act to examine candidates for certificates qualifying them to act, if appointed, as inspectors or deputy inspectors of grain within the Dominion, the examining board will hold a sitting, commencing at 9 a.m. on Thursday, July 2, in the office of the chief inspector of grain, Grain Exchange building, Winnipeg. It is understood that some ten or twelve candidates will appear for the examination, which is a very strict one, and generally last from two to three days. Candidates must file with their applications for examination, certificates regarding their moral character and education. The board of grain examiners consists of S. Spink, R. Muir, A. R. Hargrave, N. Bawlf and G. V. Hastings, chairman.

TIPS FOR FARMERS.

Prof. Campbell, in the course of his lecture on "Dry Farming," at Lethbridge recently, stated three points that every farmer should keep in mind: (1) Never plow when the ground is either wet or dry, but when it is moist. This may seem hard at first, but when it is found quite easy. (2) The lower portion of the furrow must be fine and firm; (3) the surface must always be kept loose, prevent the evaporation and let in the air, for air is as important as water.

NO DAMAGE TO CROPS.

Winnipeg, June 30—Reports received from various districts in the path of the heavy storm of Saturday and Sunday show that though much damage of a significant nature was done to farm buildings and villages, the crop actually advanced. Corn, grain being unaccompanied by hail. In some low-lying districts heavy rains did some damage to roots, especially potatoes, but grain crops were reported to have suffered. Thus, although July has well sustained its reputation as a wet month, the opening of July sees no deterioration in the splendid prospects of a month ago.

GOOD PROGRESS ON DOMINION LAND BILL.

Minister of Interior's Bill is Almost Through the Committee Stage—The House of Commons has passed the Bill, being discussed—A Question for Squatters. Ottawa, June 29—After the afternoon session on the continuation of the debate on the Dominion Lands Bill a discussion arose as to what should be done with squatters, no provision being made for their eviction. Dr. Schaffner (Conservative, Sons), chairman of the committee, turned out squatters who have put extensive improvements on the land, and wanted to know if such lands were made homesteads, would the homesteader or the government get the improvements. Hon. Frank Oliver said he did not anticipate such a contingency, as it was unlikely squatters' lands, from which improvements were being made, would be opened to homesteaders. While he admitted he was in favor of dealing leniently with squatters, he said it must be remembered that squatters are on the land in defiance of the government, and it would not do to legalize their situation. After the final clause, 103, was passed at four o'clock, half a dozen clauses which had been allowed to stand over were taken up, and Hon. Oliver moved his clause 27, an amendment extending the pre-emption area westward to the line of Edmonton and Calgary railway. In reply to M. S. McCarthy (Conservative, Calgary) Mr. Oliver stated that this extension of the boundary only included half a dozen townships northeast of Calgary. The odd numbered section had been mostly taken by the railways, but the railway boundary would make the block more uniform. At the request of R. L. Borden, clauses 27 and 28 stand over till Thursday. There was considerable discussion of an amendment moved by Hon. Mr. Oliver with the object of protecting the owners of timber lands from the passers or illegal cutting. W. D. Staples (Conservative, Macdonald) said that during last year's fuel famine it was stated that T. A. Barrows had refused to allow settlers to cut wood on his limits. The member said for Dauphin indignantly denied this. Clause 77, one of the administrative clauses, was held for further consideration by the committee on the bill.
