Anglo-American Co. 4 Direct U. S. Cable Co. 1 Frenchh Cable...... 1 American Cable Co. 2 mostly. The man who can keep a hotel or saloon under high license will be sure to Totals keep his place at least comparatively clean nfortable, and to maintain some however, has not been getting a cent from thing like decency and order on the premits cables for months, as the agreement ises. He is to a certain extent the holder of a a practical monopoly, and he will take particular good care not to endanger this

valuable property of his through any infraction of the law. But, it may be said, will not his customers have to pay extra for all this ?-high license, splendidly fitted-up premises, and so forth. Not at all, says the Tribune; they will get their glass of beer in a house paying a thousand dollars license for just what they paid troublous days. We say "ditto" to our contemporory :

for it when the document with official seal and signature cost one by all means a Canadian cable is specially hundred dollars. But peror two wanted in these troublous days. Great haps the dealer will make up for extra Britain may be at war with Russia in a quality of drinks. Again ne, says the Tribune; with licenses few and high in a burning disgrace both to the mother price, and confined to strictly respectable houses, the drink supplied will actually bewe have no cable of our own, but are de. better than that formerly sold in the "doggeries." Who, then, are they who chiefly stick out for low license ?

The Tribune answers-the innumerabl multitude of those who want to make lany man's living by selling drink, but the brewers most of all. What the brewers want is to be able to start saloons as they please at small expense, each one to make sale for his own beer. But high license is with Russia, the authorities will get new apt to render this kind of supply account light on this subject flashed into their eyes, business expensive and unprofitable, and and that in the most peremptory manner. therefore the brewers are particularly opposed to it.

This is the way the matter appears to the Chicago Tribune, from observations taken in the western states. How far our contemporary's remarks might apply to Canada is something that will bear a good deal of consideration.

Catarrh-A New Treatment.

Perhaps the most extraordinary success that has been achieved in modern science has been attained by the Dixon treatment for catarrh. Out of 2000 patients treated during the past six months, fully ninety per cent. have been cured of this stubborn malady. This is none the less startling when it is remembered that the sets starting when it is remembered than not five per cent. of the patients presenting themselves to the regular practitioner are benefitted, while the patent medicines and other advertised cures never record a oure a all. Starting with the claim now generally believed by the most scientific men that the disease is due to the presence of living para sites in the tissues, Mr. Dixon at area scapted his cure to their extermination: this accom iscase is due to the provide a second state of the second state of plished, the catarrh is practically cured, and the permanency is unquestioned, as cures effected by him four years ago are cures still. No one else has ever attempted to cure ca-tarrh in this manner, and no other treatment has ever cured catarrh. The application of the remedy is simple and can be done at home, and the present season of the year is the most favorable for a speedy and permanent cure, the majority of cases being cured at one treat-ment. Sufferers should correspond with Messra. A. H. THE SHIRT-MAKER. After recess Mr. Meredith moved an amendment to the resolution to go into committee of supply, to the effect that it was not in the interest of the province that any increase in the subsidies from the dominion should take place, and regretted that the government had taken ground in favor of such increase, as if it were granted it would render the dominion government less able to withstand the claims of other provinces. He made a vigorous speech, charging the government with unjustifi-able extravagance. Kelly, C. and general tough, to the central prison for Burns, Louney, Kennedy, Ryan, Herbert. 18 months recently, he thought he had earned the thanks of the sterile region Murphy, O'Connor, Petley, Kormann, Fraser, Wm. Burns; not forgetting John there and thereabouts. So indeed he would, Hall, the great assistant secretary treasurer had he conducted the case against Wallace properly. But justice in that region is not always what it might be, and yesterday Warden Massie had to reluctantly unlock Wallace's cell door and give him liberty. A report from Father Tobias gave the

Wallace seemed all along to be aware that he was irregularly committed, and boasted on the way down from Michipicoten that he would soon be at large again. He evi-dently knows a proper commitment when dently knows a proper commitment when he sees it, and no sooner did he reach To The sees it, and no sooner did he reach lo-ronto than he engaged the services of N. G. Bigelow, who brought the matter be-fore Judge Rose at Osgoode hall. His lordship found that the proceedings in the case and the commitment were irregular, and he yesterday ordered the prisoner's re-lease.

Wallace is well supplied with money and lost but little time in getting some To-ronty whisky aboard of him. He will find it to his advantage, however, to fight shy of the police here, as after their unsuc-cessful hunt for him at Michipicoten last

cessful and for him at Michipicoten last summer they would only be too glad to get him into their cluthes now. Meantime, why is not Wallace held on the charge of shooting with intent to kill Constable Frank Costley, into whose hip he sent a large-sized pistol bullet?
