## PRINCE ARTHUR HAS BIG CARGO

The Ship Has 1500 Packages of Lobsters, and Several Carloads of Salt Fish

YARMOUTH, March 15.—The steamer Prince Arthur, sailing from Yarmouth tonight for Boston, is taking out the largest consignment of fresh fish stuff shipped from this port for many months. The ship is full to the utmost capacity, and the steamer Bernard M., Capt. E. B. Nickerson, which arrived this afternoon from Halifax, brought in 318 cases of fresh fish from Lockeport and Liverpool. These the Prince Arthur was unable to accommodate, and the Bernard M., as soon as she can be made ready, is leaving with her cargo for Boston direct.

Among the cargo on the Prince Arthur is 1,500 packages of live lobsters and over 200 packages of fresh fish for the Boston and New York markets, and four carloads of salt fish for transhipment at Boston for the Havana markets.

The live lobster shipment is made up, with the exception of about 300 packages which were locals, from points all the way from Tiverton to Lockeport. Over 300 arriving by the Dominion Express were picked up at Weymouth and at D. A. R. stations west. It is feared by many who understand the condition of the lobster market in Boston that such a shipment so soon after the opening of the season will have a great tendency to glut the market, and the fishermen in consequence will receive a very inferior price for their fish.

W. D. Sweeney's schooner, Grace and Ruby, Capt. Wiley Ross, arrived this morning from a two weeks' fresh fishing trip with a fare of 23,000 pounds of halibut, and 12,000 of shuck. Capt. Ross reports the trip an uneventful one, with good fishing, particularly the last three days out. The fare was purchased by Austen E. Nickerson Ltd., and is now landed for shipment by the Prince Rupert to Boston.

### C. P. U. Church Notes

The Sunday School, despite absences in consequence of sickness, is in a flourishing condition. This result is due in a large measure to the unflinching zeal of the Superintendents, Messrs. John H. Hicks and A. Owen Price. A new young people's bible class has been organized with Mr. J. M. Fulmer as the competent leader.

Next Sunday it is expected that a Young Worshippers' League will be formed and every member of the school is urged to be present. All the teachers are giving loyal service which is bearing much fruit. The church is to be congratulated on having such a capable deputy organist in Miss Ruth Burns who substituted most acceptably for Mrs. Bishop on Sunday, March 13th.

The junior group of C. G. I. T. gave a "Five O'clock" on Monday afternoon, March 14th, to which were invited their mothers and the minister. Under the trusted tutelage of Madams R. J. Messenger and F. R. Fay this group of bright girls may be confidently expected to fill an important place in the young peoples' activities of the church.

On Thursday evening the senior C. G. I. T. were "At Home" to their boy friends of the Trimus and a splendid program given, consisting of musical selections, games and refreshments, and altogether a most enjoyable evening was spent. These boys and girls are just as good as they are good looking. Mrs. Harry Magee is giving wise leadership to this group of senior girls.

A pantry sale was held on Saturday afternoon by the W. M. S. which was well patronized, and financial results most gratifying.

On Sunday, despite inclement weather, the congregation were good. Mr. A. Owen Price preaching in the morning and the minister in the evening. Indeed large congregations are in regular attendance, a spirit of reverence pervades the sanctuary, and all unite to make the services productive of much good.

The big event yesterday (Tuesday) was the visit of Misses Zeigler and Allison who addressed a gathering of girls of "teen age" in the af-

ternoon, and in the evening a grand rally under the auspices of the C. G. I. T. was held, when these ladies were again the speakers. A large boys' and girls' choir led the singing in a most creditable manner. It was a really great service.

The members of the congregation are asked to reserve Wednesday, Thursday and Friday evenings of this week, and to be present at each of the services, the purpose being the deepening of the spiritual life of the church.

Next Sunday being Easter Day it is anticipated that the congregations will be larger than usual. The Easter offering for which envelopes have been provided, will be received, and the Sacrament of Baptism administered in the morning and the Lord's Supper dispensed in the evening.

### NEWS OF THE CHURCHES

(St. John Telegraph)

#### PRESBYTERIAN

Rev. Dr. A. M. Hill, maritime secretary of the Canadian Brotherhood Federation, addressed the congregation of First Presbyterian church, West St. John, last Sunday, "World Brotherhood Day."

#### BAPTIST

Rev. F. H. Bore, B. A., has observed the first anniversary of his very successful pastorate at the Central Baptist church in St. John city.

Miss Flora Clarke, our well-known missionary, now in the homeland on furlough, has been obliged to cancel engagements to speak in many places and return to her home in Moncton owing to the serious illness of her father.

The Temple Baptist church in Yarmouth (N. S.) is now the scene of an extensive revival of the pastor Rev. S. A. MacDougall, his own evangelist and between thirty and forty have definitely professed conversion. It has been a long time since a sweeping revival has visited this Baptist centre.

The following item from the Watchman and Examiner will be read with concern and regret: "Much to the sorrow of his congregation the Rev. A. C. Archibald, M. A., resigned the pulpit of the Brookline, Baptist church on Feb. 27. For six weeks he has been out of his pulpit, suffering from a severe nervous breakdown, and is now compelled to seek another climate, and for the time being cessation from the responsibilities of the pastorate. He has done a notable work in Brookline, building up in sixteen months a great evening congregation of nearly 1,000. It is hoped a complete change for a period may work a quick recovery." Rev. Mr. Archibald is a brother of Rev. Dr. W. L. Archibald, of the Acadia Business Academy in Wolfville, and of Miss Mable Archibald, of the Canadian Baptist missionary staff in India.

#### VIRGINIA EAST

Miss Edna Freeman and Mrs. Harry Hatt spent Wednesday evening with Mr. and Mrs. O. Robar.

Miss Lee Etta Riley and sister, Miss Esther, spent Tuesday with their grandmother, Mrs. M. J. Riley, at Bear River East. The young people of Virginia East spent Friday evening with Mr. and Mrs. Freeman Chute, playing games. After the games were over refreshments were served. All spent a very pleasant evening.

Miss Lee Etta Riley spent Saturday at Clementsvale.

## CHARGED WITH PERJURY

He is Seventy Years Old and Married A Girl of Seventeen.—Said She Was Twenty.

An Amherst despatch says: A former town employee, appeared before Magistrate Carey this afternoon charged with perjury. The preliminary evidence showed that the accused, who is 70 years of age and had a few days ago married a girl of 17 years of age, stated at the time of the ceremony that the girl was 20 years of age.

The circumstances leading up to the case are rather peculiar. It is alleged that the girl was threatened by her mother with being sent to the "Home" in Halifax unless she ceased going out at night. The girl there upon sought counsel from a woman on Lophancha Street who suggested marriage as a solution of the situation, and offered to furnish the groom.

A willing man was secured who said he would marry the girl rather than have her sent away from the town. The services of a clergyman were next secured and the two were made man and wife after a few hours of acquaintance.

The charge of perjury is laid, inasmuch as it is claimed that the groom stated to the clergyman that his bride to be was 20 years of age.

### HELPS BUILD 199 VESSELS

(Halifax Herald)

Amos Pentz, a prominent ship-builder, in Shelburne, was born at Beach Meadows, Queens County, December, 1849. At the death of his father in 1861, he moved to Lockeport. He attended the school there until sixteen and a half years of age. Then he came to Shelburne and worked in the shipyard as an apprentice at a wage of four dollars a month and board. Three and a half years later he moved to Jordan Falls where, at that time, quite a large number of brigantines were being built. At the age of 21 and a half years he took a contract and built his first vessel, a small brigantine named Qui Vive, which was owned by the then existing firm of J. and J. Locke, of Lockeport.

After building 38 vessels at Jordan and other places he came in 1900 to Shelburne and engaged with the late Joseph McGill, as foreman of his shipbuilding plant where he has remained ever since. In this yard since the year 1900 they have constructed 101 vessels, making a total of 139. At present he is building a fishing vessel for the king of LaHave fishermen, Capt. Joseph Conrad, now living on a farm in Clarence Annapolis County, but who expects to command the vessel next summer. She will compete in the fishermen's races off Halifax.

### SHORT AGRICULTURAL COURSE

Demonstration Building, Lawrencetown, March 15, 16, 17 and 18

The largest and most successful Short Course held at Lawrencetown has come to a close. Lectures on the subjects most interesting to farmers have been given. The instructors this year were as follows:

M. Cumming, LL.D., Fertilizers. Dr. Sinclair, Horses. Prof. J. M. Trueman, Live Stock. Prof. G. E. Sanders, Spraying. Prof. W. S. Blair, Gardening. Prof. Landry, Poultry. Prof. S. J. Moore, Seed Studies.

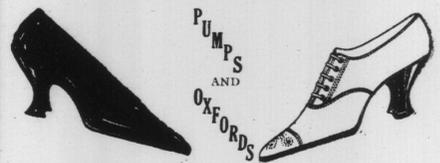

The evenings were devoted to motion pictures on the various subjects.

Dr. Cumming announced at the close of the course that the Short Course next year would continue six weeks. New subjects would be added to the course, as: Farm Bookkeeping, Literature and Laboratory Work in Sciences—a modern Science School for farmers, their wives, sons and daughters.

The schooner Harriet B., from Halifax with a cargo of potatoes, has arrived at Havana.

## THE X RAY SKIRTS

(From the Irma Alta, Times)

It used to take several yards of cloth to make a woman's skirt: now she can take one leg of her husband's trousers and make two skirts. I am like the preacher who said he didn't mind seeing women see them put both feet in one leg. We didn't used to understand women, but since they have commenced to wear X-ray skirts, we can see through them alright. The other day I saw a lady walking along the street wearing one of those transparent gowns. After a cop had followed her around for almost an hour he walked up and touched her on the shoulder—"Lady, this is Irma, you're not in Walworth!"

## RHEUMATIC PAINS HAVE DISAPPEARED

As a Result of Treating the Trouble Through the Blood

The chief symptom of rheumatism is pain. The most successful treatment is the one that most quickly relieves and banishes the pain. Many rheumatic people suffer pains that could be avoided by building up the blood; when rheumatism is associated with this blood it cannot be corrected until the blood is built up.

Mr. Ed. Hall, Main-a-Dieu, N. S., suffered from rheumatism for years, but was more fortunate than many victims of the disease. He found a cure system that he is now free from rheumatism. Mr. Hall says: "I was taken down with rheumatism, and at times was advised the use of Dr. Williams' Pink Pills and I began taking them. The first benefit I felt from the pills was an improved appetite, and then I began to feel stronger, and was finally able to get out of bed and go about on crutches. I continued taking the pills for months, slowly but surely getting new strength, and finally I was able to lay the crutches aside. I will always be lame, as the result of my long stay in bed, but my left leg has shortened somewhat but otherwise I am feeling fine and able to do my work as Fishery Overseer. I may add that when the rheumatism came on I weighed 140 pounds, and when I began going about on crutches I only weighed 67 pounds, and now I am at normal weight. There are many here who know and can vouch for the truth of these statements."

You can get these pills through any dealer in medicine, or by mail post paid, at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

## THRIFT

Speaking about municipal economy, the late Mayor Mitchell, of New York, once remarked that a city should be conducted as thriftily as a Scotch household, where, for example, the father setting out on a business trip would remark: "Well, good-bye all; and Janet, dinna forget to mak little Dugald tak his glasses aff when he's na lookin' at anything."

In property the proud man knows nobody; in adversity nobody knows nobody.

## TEN RULES FOR CORRECT TABLE SETTING

A small, shallow bowl of bright flowers is all that is necessary, much more desirable than the tall vase over which guests are often unable to see each other. A quiet, unobtrusively set table, perfect as to detail, shows the best taste. Here are some things to remember when setting the table:

- (1) Be sure that plates are at the right temperature, hot plates kept for hot meats or soups, etc. Have the dishes for salad or dessert kept cold. Salad is placed on them.
- (2) Cover the table with a silence cloth of heavy cotton flannel or felt if it is a dinner where a large damask cloth is used. This, of course, is not necessary if doilies are used as covering, although doilies are appropriate only for breakfast or luncheon.
- (3) Spread the cloth over the table smoothly and evenly.
- (4) All plates and cutlery for each individual cover should be set one-half inch from the edge of the table.
- (5) The knife is set at the right of the plate, next to it the soup spoon, and if oysters are served the oyster fork should be laid across the soup spoon. Forks at the left of the plate, and the one first used should be furthest from the plate.
- (6) Nothing is at left of fork, with roll or breadstick between the forks of napkin if these are served. Place card with guest's name on the napkins if the dinner is formal.
- (7) Goblets at the point of the knife; pepper and salt shakers between covers.
- (8) If each dish is served individually it is served at the right of each person; if each helps himself it is offered at the left.
- (9) Each course is removed before the next course is served, and the table crumbed before dessert. Finger bowls are brought in with dessert and placed at the left.
- (10) Glasses should be filled with water two-thirds, a minute before dinner is served, and the first course left at each cover before the meal is announced.

## NEW PLUMBING ESTABLISHMENT

(Middleton Outlook)

G. W. Crowe, local plumbing and heating expert, is opening up a branch at Annapolis. The carpenters are at work now remodeling the building and will make it into one of the finest show rooms on the line. This branch will be in charge of J. J. Byer of Boston, who is taking an interest in the Annapolis business. Mr. Crowe informs us that a complete up-to-date stock of fixtures and fittings will be carried at this branch in order that the increasing needs for plumbing and heating may be handled successfully.

## DON'TS FOR THE YOUNG MEN OF BRIDGETOWN

1. Don't use hair oil, it's smelly.
2. Don't imagine you know women, few do.
3. Don't boast, people only laugh at you.
4. Don't think girls are crazy about you because they smile, they're playing with you.
5. Don't wear loud clothes.
6. Don't wear bright colored socks and sit with your legs crossed.
7. Don't hurry to show off your voice when asked to sing, it probably sounds like a dog howling.
8. Don't follow your girl about like a pet dog, it makes you conspicuous.
9. Don't when meeting a girl for the first time, be too familiar.
10. Don't fail to ask your hostess to dance if you are dancing in a private home.
11. Don't neglect the girl who is not a good dancer, make yourself agreeable. Some day she may blossom as the rose, and repay you for your kindness.
12. Don't be a snob.
13. Don't ignore a girl if she asks you to call her up, you might marry that girl some day.
14. Don't play a double game, you are sure to be found out.
15. Don't make dates when you have no intentions of keeping them.
16. Don't go with a girl and then talk about her to others here, they may tell her, besides it's cadlike.
17. Don't keep a girl waiting too long if you're old enough before telling her that you love her.
18. Don't be a cad, but a real fellow.

## POINTED PARAGRAPH

In property the proud man knows nobody; in adversity nobody knows nobody.

## ONE WOMAN'S EXPERIENCE

### Of Interest to Childless Women.

Toronto, Ontario. "I suffered for a long time from a female weakness, inflammation, and a terrible backache caused by that condition. One day one of your booklets was left at my door, and I read how other women with troubles like mine had been well, so I got a bottle of Lydia E. Pinkham's Vegetable Compound and a package of Sanative Wash, and it helped me wonderfully, and I now have the finest little baby boy that any mother could want. I want to recommend Lydia E. Pinkham's Vegetable Compound to any woman who has female troubles." Mrs. JOSEPH LA BELLA, 73 Shaw Street, Toronto, Ontario, Canada.

The experience of Motherhood is a trying one to most women and marks distinctly an epoch in their lives. Not one woman in a hundred is prepared or understands how to properly care for herself. Every woman at this time should rely upon Lydia E. Pinkham's Vegetable Compound, a most valuable tonic and invigorator of the female organism.

In many homes once childless there are now children because of the fact that Lydia E. Pinkham's Vegetable Compound makes women normal, healthy and strong, and this good old-fashioned root and herb remedy contains no narcotics or harmful drugs.

Entirely Well After Six Weeks' Treatment With "FRUIT-A-LIVES"

MR. AMEDEE GARCEAU

82 Hickory St., Ottawa, Ont.  
 "I was for many years a victim of that terrible disease, Rheumatism. In 1913, I was laid up for four months with Rheumatism in the joints of the knees, hips and shoulders and was prevented from following my work, that of Electrician.

I tried many remedies and was under the care of a physician; but nothing did me any good. Then I began to take 'Fruit-a-lives' and in a week I was easier, and in six weeks I was so well I went to work again.

I look upon this fruit medicine, 'Fruit-a-lives', as simply marvellous in the case of Rheumatism, and strongly advise everyone suffering with Rheumatism to give 'Fruit-a-lives' a trial."

**WINS FELLOWSHIP AT YALE**

The Success of Donald D. Foster, of West Torbrook, Annapolis Co.

Announcement is made that Donald D. Foster, B. Sc. youngest son of Mr. and Mrs. D. E. Foster, of West Torbrook, Annapolis county, has been awarded the Loomis fellowship in physics at Yale University, New Haven, Conn. This fellowship, which is worth about \$600, was awarded to Mr. Foster as the result of a competitive examination in physics in which there were three candidates. Mr. Foster is a graduate of Acadia College, having taken his science degree there last June, when 20 years of age. He began his studies at Yale last fall for the Ph. D. degree, specializing in physics.

The Loomis fellowship in physics was established in 1902 by Professor Francis E. Loomis by the gift of ten thousand dollars. The fellowship is open to recent graduates of Yale College and the Sheffield Scientific School of Yale University and to graduates of other institutions who have spent at least one year in the study of physics in the graduate school of Yale University. It is granted to the candidate who passed the best competitive examination in physics (descriptive, mathematical and laboratory practice). The holder must be a candidate for the degree of Doctor of Philosophy and must make physics his chief study.

The first Acadia man to win the Loomis fellowship was Mr. Foster's elder brother J. Stuart Foster B. Sc. (Acadia 1911), who was awarded the coveted honor two years ago.

**TRY THIS**

Sing this to the tune of "The Old Oaken Bucket."

How dear to our heart is the steady subscriber, who pays in advance at the birth of each year. Who lays down the money and does it quite gladly, and casts round the office a halo of cheer.

He never says: "Stop it; I cannot afford it. I'm getting more papers now than I can read," but always says: "Send it, our people all like it—in fact we all think it a help and a need."

How welcome his check when it reaches our sanctum, how it makes our pulse throb; how it makes our heart dance. We outwardly thank him; we inwardly bless him—the steady subscriber who pays in advance.

**NOT APPRECIATED IN BRIDGETOWN**

The St. John Globe says: Some of the most eminent of medical men declare the summer use of daylight saving, with its longer hours of sunlight after work ends, is as good as two weeks' vacation for those who labor hard under adverse conditions and have few opportunities for the recreation of the more fortunate. This claim for the individual and community benefit of daylight saving is a complete, convincing answer to all the smaller arguments against its adoption and should make the town and city toiler its most enthusiastic advocate.

**ALREADY KEEPING COMPANY**

A Dutch pastor makes it a point to welcome any strangers cordially and one evening after the completion of the service he hurried down the aisle to station himself at the door.

A Swedish girl was one of the strangers in the congregation. She was employed as a domestic in one of the fashionable homes, and the minister, noting that she was a stranger, stretched out his hand. He welcomed her to the church and expressed the hope that she would be a regular attendant. Finally he said that if she would be at home some evening during the week he would call.

"Thank you," she murmured bashfully, "but Ay have a fella."

**A MOTTO FOR FARMERS**

There was a good motto laid down more than nineteen hundred years ago by a teacher, who said, in addressing a public gathering: Ye cannot gather grapes from thorns, nor figs from thistles. Throughout the whole range of food production this old truth is being brought to bear, and scrub cattle, scrub hogs and inferior poultry and tainted grain and blighted potatoes are giving way all along the line to well-developed, purely bred, carefully selected foundation stock.

**H. W. BORING, a well-to-do Kansas farmer, says he has gained twenty pounds and is in better general health than he has been in years, since taking Tanlac.**

"Since Tanlac has overcome my troubles I have gained twenty pounds in weight and am in better general health than for years past." was the straight forward statement made a few days ago by H. W. Boring, a prominent and well to do farmer living at Overland Park, Kas.

"During the two years I suffered I tried everything I knew of to get relief, but nothing seemed to reach my case until I tried Tanlac. My appetite was poor and my digestion was so bad I could hardly retain my food. Nothing seemed to agree with me; in fact, I was almost a confirmed dyspeptic. My whole system seemed to be out of shape. I would have pains across the small of my back so bad at times I could hardly move around.

"My nerves were all unstrung and I would become upset at the least little thing. I seldom slept well at night and finally became so weak and run down that I lost weight rapidly. I was also troubled a great deal with catarrh and my mornings had to spend a half hour or more clearing up my head."

"This is just the condition I was in when I began taking Tanlac and it certainly has been a blessing to me. It just seemed to be made especially for my case. I improved from the first. My digestion now is perfect and regardless of what I eat I never suffer any bad after effects."

"The pains across my back have entirely disappeared. The catarrh has left me, too, and my head is perfectly clear. I am no longer nervous and rest well at night. I have regained my lost weight and am feeling better and stronger than I have in years. I am going to keep Tanlac in my house so it will be handy at all times."

Tanlac is sold in Bridgetown by S. N. Weare in Middleton by Clifford A. Mumford and in Bear River by L. V. Harris.

**CLEMENTSVALE**

Sorry to report several in this village on the sick list.

Some of the farmers are beginning to harvest their crop of Maple Sap. Mr. and Mrs. J. W. Porter left on Tuesday for Port Lorne and Truro.

Mr. and Mrs. Howard Wright, Bear River East are living with Vernon Barrell.

Congratulations to Mr. and Mrs. Arthur Potter on the arrival of a son on March 6th.

Messrs Howard Cress and Earl McCormick, of Bear River, spent Sunday with friends at Clementsvalle.

The village mourns the loss of Mr. and Mrs. George Matting, who passed away at their home here. She passed away just two weeks before him. Much sympathy is extended to sorrowing ones.

**CRICKET**

The Hants Journal of Windsor says: "Oh you Stellarton! planning to clean up the Valley teams and throw down the glove to Upper Canada. Windsor will put her best foot forward and hold her bat straight against any such dream Sure."

The Bridgetown team will also be on the job and if we keep up last season's records, Stellarton will have to get busy, before leaving for Upper Canada.

**CHANGE LIGHT HOUSE SYSTEM**

Service of Keepers Along the Cape Breton Coast May be Dis-pensed With

The Marine Department has under consideration the installation of a gas lighting system in all light houses on this coast which will do away with the expenses of keeping lighthouse tenders at salary the year around. This system is already in use in one lighthouse in Sydney harbor and has proven itself entirely satisfactory.

Along the coast of Cape Breton there are at least forty lighthouses and range lights, all of them having keepers who are paid salaries by the government. In Sydney harbor alone there are now four of these lighthouse stations with keepers; in Glace Bay harbor there are two and in Louisburg three. The remainder of the two score are scattered along the coast of the Island. A few of these which are situated on very dangerous shoals or isolated points of land or on islands (such as Flint Island) will not be altered, but will remain under the old system.

The gas light which was recently installed at South Bar by an engineer of the Marine Department needs only to be charged once a year. It lights automatically at a certain fixed hour each evening and extinguishes itself at sun up.

The establishment of the new system will mean that many light house keepers who have held stations along the coast will be dismissed without salary. It will also mean a saving to the government of about \$20,000 a year on Cape Breton light houses alone. The salary paid a range light keeper is from \$35 to \$40 a month and certain supplies are given him which considerably reduces his living expenses. His job as range light keeper does not hinder him from engaging in other work.

The light house keeper as a rule gives all his time to the government service. He is paid between \$500 and \$600 a year and all his food and other living supplies are given him free of cost.

Now the girls are going around with the top clasp of their overshoes unbuttoned, and getting away with it as the latest fad. Capt. Thomas Best, a veteran of two wars, gave an excellent address to a large congregation in the Bridgetown Baptist Church last Friday evening. Capt. Best is a good speaker and has many friends who are always pleased to greet him. He takes a deep interest in Y. M. C. A. work in which he has been engaged for the past thirty years.

This being "Holy Week", Services are being held daily in St. James Church. Friday being Good Friday the Services will be at 11 a. m., 4 p. m. (special Children Service), and 7.30. At the evening Service the address will be preparation for Easter Communion. The collections on this day will be for the promotion of Christianity among the Jews.

It is noted that Dr. J. A. White, general secretary of the Baptist Young Peoples' Union of America, will visit the maritime provinces in the near future. His itinerary will include the following centres: Fredericton, Woodstock, Moncton, Sussex, Charlottetown, Amherst, Windsor, Truro, Sydney, Halifax, Wolfville, Middleton, Bridgewater, Bridgetown, Yarmouth and St. John. Dr. White is in every sense a popular leader.

OUR WORK APPRECIATED

We are in receipt of the following letter which is self explanatory. Bridgetown, March 8th, 1921

O. S. Dunham Esq., Editor MONITOR

Dear Sir:—At the regular meeting of the Board of Management of the Gordon Providence United Church of Bridgetown, held on March 7th the following resolution was unanimously adopted and the Secretary asked to forward the same to your good self and to engross a copy on the minutes of the meeting.

THE RESOLUTION

Resolved that the hearty thanks of this Board be extended to Mr. O. S. Dunham, Editor of the MONITOR, Bridgetown, for the many courtesies and favors given us in the free use of the columns of his paper from week to week to promote the work of the Church and its various departments.

We recognize in the devoted press agency for good, second only to that of the Church, in promoting christian principles, good citizenship, moral and social betterment or, to put it in the words of the great Gentle Apostle, "Whatsoever things are true, whatsoever things are honest, whatsoever things are just, whatsoever things are pure, whatsoever things are lovely, and whatsoever things are of good report."

Firmly believing this operation and co-ordination of the consecrated press in these various departments of the Christian Church is the best type of loyalty and devotion to country or State and is most salutary for the public weal; and is hereby acknowledged and our sincere appreciation recorded with a deep sense of gratitude to those concerned.

I have much pleasure in transmitting to you this line of appreciation for your many services in this department of life.

Yours very truly, M. E. ARMSTRONG, Recording Secretary

The editor mailed the secretary a reply which will be read at the next meeting of the Board.

MARINE NEWS

Schooner Charles F. Gordon, Captain G. Bower, arrived at Baltimore on the 7th from Tampa. She is coming to, Halifax with a cargo of fertilizer from the Maryland port.

Arrived at Digby March 15th, schooner Dorothy M. Smart Longmire fishing; tern schr Rose Ame Belliveau Comeau, from Yarmouth, to load coeprage for Bermuda. H. T. Warro, shipper.

It is understood that work on the extension of the breakwater at St. John harbor, from the west side of the port to Partridge Island, will be commenced in the spring, and that the call for tenders will be issued in the immediate future.

The new knockabout schooner Patrick and Michael, Captain William Murphy, has just returned to Yarmouth from her first fresh fishing trip with an excellent fare of fish. The vessel was out nearly four weeks and during that time she was in at Shelburne to land a man named Hersey, who was suffering from appendicitis, and was afterwards brought to the Yarmouth hospital. The schooner landed her fare of 31,100 pounds of fresh halibut, 4,000 of cod and 3,000 of hake and cusk, all of which was purchased by Henry A. Amiro, of Yarmouth South. The schooner for the trip stocked \$7,119 and the crew shared \$110 per man.

WEST CLARENCE Miss Stevenson left for Montreal last Thursday. Mrs. Fletcher Wheelock is on the sick list. Mr. Arthur Munroe spent a few days at Mr. H. O. Marshall's. Miss Dorothy Garman left for her home in England last week. Dr. D. O. Saunders is improving in health and is out doors again. There was a box social in the school house March 8. The sum of \$32.00 was realized. Miss Pearl Chute, the trained nurse, called on our school last Wednesday morning. The young people gave Miss Lillian Saunders a surprise party last week in honour of her birthday. Messrs Max Miller, Arthur Banks, Shirley Miller and Harry Marshall are attending the short course in Lawrencetown.

PRINCEDALE

Mr. Arthur Wright, of Weymouth, is visiting relatives here. Mrs. Zenas Sanford returned Saturday from a visit at Clementsville. Mrs. Leslie Baird and daughter Emma, of Clementsville, were week end guests of Mrs. Elder Fraser.

A number of the friends of Mrs. Manning Dondale spent Saturday evening at her home in honor of her birthday.

IN DEFENCE OF OLD MAIDS

The St. Louis Globe Democrat, in refuting the charge that old maids do nothing for the world, offers the following list of twelve famous maids of history:

Frances E. Willard, founder of the temperance movement. Joan of Arc, one of the important factors in French history. Queen Elizabeth in whose reign England reached her golden age. Jane Adams, first citizen of Chicago and head of Hull House. Dorothea Dix, pioneer of reform in prison and reformatory methods. Jane Austen, whose pen pictures of English village life promise to be immortal.

Susan B. Anthony, pioneer in efforts to procure mere equal rights for women. Rosa Bonheur, who opened new artistic fields in the representation of animal life. Clara Barton, founder of the Red Cross Society and saviour of thousands from death and suffering. Florence Nightingale, angel of mercy in the Crimean War and establisher of organized nursing in war times.

Charlotte Bronte, whose novels are among the best in England literature. (She married at the age of thirty eight).

Julia Lathrop, chosen from among the women of America to lead in preserving child life and happiness throughout the country.

WEST CLARENCE

The St. Lawrence Flour Mills Co.  
Montreal, P. Q. Halifax, N. S.

Toronto can always count on the C.P.R. to provide a unique and attractive exhibit for the Toronto Fair, and this year if anything the C.P.R. Exhibit has surpassed all previous records for originality and artistic execution. In order to visualize the romance as well as the majestic scenery of the Canadian Pacific Rockies, a Sun Dance Lodge based upon a Stony Indian model has been reconstructed and decorated with Indian relics and sporting trophies—fine heads and priceless skins. The exhibit is under the direction of Mr. Norman Luxton, editor of the "Crag and Canyon" of Banff, who has spent most of his life on the trails and passes of the Rockies, camping, fishing and hunting, and who is also an authority on Indian art. He is assisted by his wife, daughter of the late Rev. John McDougall, one of the earliest missionaries in Western Canada, and herself the first white woman born in Alberta.

The first thing noticed on entering the C.P.R. Exhibit is the huge Sun Bure which throws its rays around the gigantic Lodge in which are garnered the side scenes portraying in miniature form some of the gorgeous settings which note but the Canadian Pacific Rockies can produce. The roof of the Indian Lodge is hand painted with symbolic writings and signs typical of the Rocky and Plains Indians. The side embellishments are finished in white birch, the bark of which was always a favorite with the Indian not only for the construction of his canoe but for the building of

a camp fire. On each side of the entrance, office accommodation has been worked into the setting where information of every description can be obtained and telegraph service is also installed. This has the tepee finish and real Indian tepee poles transported from the West for the purpose have been used. The lighting effect of these interiors with miniature Indian tepees as shades produces an effect of entrancing beauty.

The scene from Sulphur Mountain overlooking Banff Springs Hotel in the foreground, and the beautiful Rundle and Tunnel Mountains, and the stretch of the Bow River in the background is highly realistic. A fine model of the C.P.R.'s famous hostelry built specially for the occasion is shown electrically illuminated and gives the visitor the impression that he is paying a visit to Banff instead of sweltering under the atmosphere of an exhibition. The Banff Hot Springs, famous for their health giving qualities were known to the Red men long years ago and accidentally discovered by some engineers when surveying for the C.P.R. The huge swimming tank hidden from the view, but situated directly in front of the hotel has a depth of water of from three to eight feet, and is one of the great summer attractions. The Bow River scene in the back of the picture reminds one of an opal with its pale green color, and its ever changing fires. The scene cannot be eclipsed for grandeur, although Lake Louise depicted on the other side of the tent certainly gives it a close run-

ning. This panorama is the representation of what meets the eye of the tourist looking for the grandeur of Lake Louise from almost any spot behind the Chateau with a glimpse of the wonderful lake and gigantic glacier and mountains in the rear. The Victoria Glacier which forms the background feeds the lake which is shown by real water, while the towering peaks of Mount Lefroy and Mount Aberdeen are observed in the distance. The frieze of Indian decorations and the magnificent transparencies lend a perfect finish to the whole Sun Dance Lodge effect. The remaining sides of the "Lodge" are of typical white birch interspersed with paneling of real Indian mats made from cedar bark, and there are many reproductions in miniature of the famous Totem poles from Alert Bay. There is also an exhibition a very valuable collection of Indian relics from the West Coast, all of which are original, and many over a hundred years old. They include eating and cooking utensils made of wood and whalebone, bows and arrows, coffins and tom-toms, cedar chests and model Indian houses. The illumination effect is perfect comprising some five hundred lights. The panoramas were executed by Mr. Hal Ross Perriard, assisted by Mr. A. Robinson, and decorated by Mr. Perriard assisted by Mr. James Crockett, all Canadian. The models were made by Henry Morgan & Co. of Montreal. The C.P.R. Exhibit is not only a historical representation but educational from every viewpoint.

**RISE OF THE HEN**

(From the Ottawa Citizen)

Has anyone commented on the startling intellectual development of the humble hen of late? Nobody has, so we will. A few weeks ago the news carried details of a hen that would lay eggs on the broad back of a pig-of which she was inordinately fond. Naturally the conjunction of might almost say the prenatal conjunction of ham and eggs was evident and the discernment of the hen was much praised. Now comes another proof of advance along similar lines. Read this, from the Timber Trades Journal.

A hen which deposits a fresh breakfast egg on her owner's bed and then awakens him at the proper time to consume the fruits of her industry, is the prized possession of a sawmill employee at Bend, Ore. Retiring at 3 a. m.—the end of his working day—the man leaves open the window at his bedside. Shortly before noon the hen flies in, nestles near her master's shoulder, lays her egg, and rising, picks the sleeper gently on the forehead.

**ONE CONSOLATION**

"Girls! huh!" snorted the pessimist, disgustedly. "Don't talk to me about girls. I took one of them out to lunch."

"Well, that's all right," said his friend. "No trouble in that was there?"

"Yes. I took her into a restaurant, and she said she wasn't hungry."

"Didn't she eat anything?"

"But anything? Why, man, she went right through the menu, she had soup, salmon, two entrees, chicken, cream pudding, macaroons and coffee. But anything, indeed!"

"Anyhow, old chap," said his friend soothingly, "you ought to be glad."

"Glad? What for?"

"Glad she wasn't hungry."

**WHAT IS REQUIRED**

Captain Marty Welch, of Gloucester, a native of Digby, has his own ideas of the ideal craft to lead the way from Sandy Hook to Ostend, Belgium, for the King Albert Cup.

Here are the measurements of the vessel he would recommend to win:

A two-masted schooner of from 140 to 145 feet over all.

Twenty five and one-half foot beam.

Draft of 15 1-2 feet.

A 12-foot hold.

Water line measuring 110 feet.

**A STRANGE COINCIDENCE**

A new boot-boy at a hotel took up to one of the rooms a couple of boots, one of which was a top too and the other an ordinary shoe.

"What do you mean," said the visitor, "by bringing me two boots of different shapes?"

"I don't know sir," came the reply. "But what bothers me most is that there is another pair down stairs just like 'em."

**J. A. CRAIG BANQUETED**

A banquet was tendered J. A. Craig in Yarmouth Thursday evening by the local curlers to signalize his return from the Scottish tour of the Canadian curling team. Mr Craig returned home on Monday and reports a great trip.

**SPEAKS WHEN IT'S TOLLED**

That Miss Gableigh reminds me of a church bell, only she hasn't the sense of one. "What do you mean?" "Well a church bell has an empty head and a long tongue but it is discreet enough not to speak until it's tolled."

**WHEN IS IT UNLUCKY**

Thirteen is always an unlucky number to have at the table, when there is only dinner for twelve.

**Minard's Liniment Co., Ltd.**

Gentlemen—I have used Minard's Liniment and have found it a good remedy. After the explosion I was pretty well shaken up having quite a number of bruises and cuts, but thanks to Minard's Liniment I am my old self again. It healed the sores and bruises and gave me much relief. It is true to its name as the King of Pain, for it stopped the pain almost at once. I first noticed the ad in the Montreal Standard and decided to invest in a bottle, for which I am not sorry, but can say with truth that I am thankful for it having done all it claimed to do, and in my case more, and a satisfied customer is the best ad one can possibly find. That is my view of it and I think you will agree with me too.

Yours very truly,

Back to the Old Price \$1 a bottle.

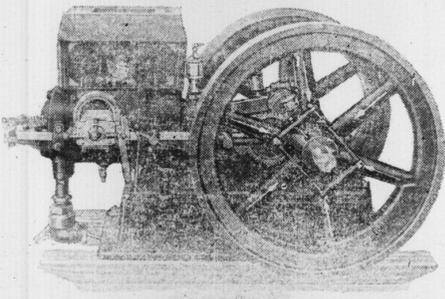

Just recently, prices have dropped on the very finest Cod Liver Oil and the very purest Drugs used in preparing "OLIVEINE EMULSION". These lower prices make it possible to put "OLIVEINE EMULSION" back to the old price of \$1 a bottle.

Dealers everywhere have been notified that \$1 a bottle is now the price of this favorite tonic, blood purifier and health restorer. The quality is the same—you get the same big bottle—and you pay the old price \$1. Be sure to get "OLIVEINE EMULSION".

Druggists and General Stores sell Oliveine at \$1. a bottle. Do not take a substitute. FRASIER, THORNTON & CO. LIMITED COOKSHIRE, QUE. 22

More About the Farmers

To the Editor of the MONITOR:—

I feel that with your kind permission, Mr. Editor, I should say a few words in defence of my work as one of the organizers of the United Farmers of Nova Scotia and explain the objects we wish to accomplish through our organization.

The Farmers represent nearly 50 per cent. of the population of Canada. Agriculture is the basic industry of Canada, and the prosperity of the country depends upon the prosperity of the Farmers; yet they are the only class that is not organized.

If we were organized as labor, we could control production and thus fix prices on our products, as the manufacturers do through their organization. We would only need to make the request, and our Government would establish an abattoir, stockyards and a cold-storage plant at Halifax, or at some point that would serve the Maritime Provinces, and then get a better price for our beef, pork, etc.

We could get better ventilation in steamers that carry our apples to Great Britain ports. There has during the past year been a strong agitation to have more of our Nova Scotia apples packed in boxes. It will require several years to demonstrate whether it would be profitable to pack our apples in boxes. This work should be carried on by our Experimental Farms, using several orchards in the experiment, and using both the box and the barrel, and in this way proving the value of the box in comparison to the barrel as a package.

Our fruit, potatoes, beef, pork, etc., are all thoroughly inspected by government experts before they go on the market, and if they are not graded up to the standard set by statute, we farmers are liable to prosecution. We have learned our sorrow during the past few years that the rigid inspection and standardization does not apply to boots, clothing and other manufactured goods that we need in our daily living.

There are questions arising every year that are of vital interest to the farmer that could be dealt with to our advantage through our central office and an organization such as we hope to establish. Through our local clubs we will get educated to the benefits derived from co-operative marketing of our products and co-operative buying of our supplies. In selling our products

through co-operative association we can get nearer to the consumer, eliminating some of the middlemen, thus getting a better price for our products. We have at the present time in the United Fruit Cos. one of the best co-operative systems for the marketing of fruit that there is in Canada. Through the Farmers' organization co-operating with the other apple shippers in the Valley, we have forced the steamship companies to reduce their freight rate on apples seventy-five cents per barrel, which puts just that much more money into the pockets of the shipper. We have saved many thousands of dollars through this organization by pooling our orders for fertilizer, flour, feed and grass seeds, etc.

We want to go yet further in our co-operative work and establish a chain of retail stores in Nova Scotia such as are operating in New Brunswick, and in this way make another large saving in our expenses.

When we farmers contemplate anything along the line of collective buying, our minds usually turn to flour, feed and fertilizer, etc.; yet at the present time the merchants in our towns are making more profit on a pair of five-dollar shoes than we can save on a barrel of flour, and more money on a pair of ten-dollar pants than we save on a ton of fertilizer.

At the present time, owing to conditions brought about by the war, prices have gone far above normal, and the general public is demanding a lower cost of living, and there is right now an unorganized effort to reduce the price of the farmer's product. In fact, the downward trend in prices on farmers' products is much more in evidence than it is on the manufactured goods that he buys.

The farmer cannot fix prices on his crops as they are controlled by supply and demand in the world markets. Neither can he control production, as our industry is world-wide. Our only chance to better our condition financially is through co-operation; thus through collective buying and pooling our products in marketing, we save for ourselves a part of the profit that at the present time we are giving to a lot of unnecessary middlemen.

Through co-operative marketing we can get better distribution of our fruit, thus avoiding results such as we experienced in some of our shipments during the early part of this season. If we had a co-operative system such as the United Fruit Cos. established in every apple district in America, the managers of these companies could get together at the beginning of

the shipping season, and knowing approximately how many apples each of these districts had for export and knowing how many thousand barrels each of the European markets could handle per week, they could so arrange shipments that they need not have a repetition of our experience in the early part of this season. If we had more fruit than the markets could handle, they had much better rot on this side of the Atlantic than for us to pay the freight on them and lose them on the other side.

I feel, Mr. Editor, that I am taking too much of your valuable space, and with a few more words will close my letter.

Some of the objects I have spoken of that we wish to attain may appear to be a long way in the future, but I do not think I have named any condition that is not possible for us to bring about if we go at it in the right way, and there is no doubt in my mind that the right way is for the farmers to organize.

## CHILDHOOD CONSTIPATION

Constipation is one of the most common ailments of childhood and the child suffering from it cannot thrive. To keep the children well the bowels must be kept regular and the stomach sweet. To do this nothing can equal Baby's Own Tablets. They are a mild but thorough laxative, are absolutely safe and never fail to relieve constipation and indigestion; colds and simple fever. Concerning them Mrs. Jules Fauquereau, Nominique, Que., writes:—"My baby was terribly constipated and suffered day and night. I was advised to give him Baby's Own Tablets and from the first they helped him and now at the age of thirteen months he is a big healthy happy boy." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

**BORN**

FRASER—To Mr. and Mrs. Reginald Fraser, of Princesdale, a son, March 15, 1921.

**Joys of the Farm Boy**

I'd like to be a boy again  
Without a single care,  
With freckles scattered on my face,  
And hayseed in my hair.

I'd like to rise at four o'clock  
And do a hundred chores,  
And saw the wood and feed the hogs  
And lock the stable doors.

And herd the hens and watch the bees,  
And take the stock to drink,  
And teach the turkeys how to swim,  
So that they wouldn't sink;

And milk about a hundred cows,  
And bring the wood to burn,  
And stand out in the sun all day  
And churn—and churn—and churn;

And wear my brother's cast-off clothes,  
And walk four miles to school,  
And get a licking every day  
For breaking some old rule!

And then get home again at night  
And do the chores some more,  
And milk the cows and feed the hogs,  
And curry mules galore—

And then come wearily upstairs  
And see my little bed;  
And hear Dad say: "That worthless boy,  
He isn't worth his bread."

NO PLACE FOR A NEWSPAPER

My friend, have you heard of town of Yavu  
On the banks of the river Slow  
Where blooms the Waltawhite flower fair,  
And the some time or other scent the air,  
And the soft Go easys grow?

It lies in the valley of What's the use,  
In the province of let her slide,  
The old tired feeling is native there—  
It's the home of the listless I don't care  
Where the Put it offs abide.

The Put it offs smile when asked to pay up,  
And they say: "We'll do it tomorrow"  
And so they delay from day to day,  
Till death slides up and steals them away,  
And the creditors beg, steal or borrow.

THE PATH THE CALF MADE

One day through the principal wood  
A calf walked home, as good calves should;  
But made a trail all bent askew,  
A crooked trail, as all calves do.

And from that day, o'er hill and glade,  
Through those old woods a path was made:  
And many men wound in and out,  
And dodged and turned and bent about  
And uttered words of righteous wrath  
Because 'was such a crooked path.

The years, pass on in swiftness fleet:  
The road became a village street:  
And this before they were aware  
A city's crowded thoroughfare.

A hundred thousand men were led  
By one calf near three centuries dead  
They followed still his crooked way,  
And lost one hundred years a day:  
For such a reverence is lent  
To well established precedent.

WASHED THE IMPORTANT ONE

"Bobby, did you wash your face before the music teacher came?"  
"Yes'm."  
"And your hands?"  
"Yes'm."  
"And your ears?"  
"Well, ma", said Bobby, judiciously  
"I washed the one that would be next to her."

**A Wager**

The Distributors of "Niagara" dust and dusters for the Maritime Provinces are prepared to put up a wager of \$100.00 to go to any charitable institution if anyone (Government experts preferred) can prove:

1. That Niagara Tobacco Dust will not control the green apple bugs or aphids.
2. That Niagara 90-10 Sulphur dust will not produce apples with a finer appearance, gloss or polish than Bordeaux Dust and equally as clean.
3. That there is any finer Dusting Sulphur on the market to-day than "Niagara" Sulphur.

**New Goods FOR EASTER**

The Easter season is drawing near and you will be wanting something new in the line of wearing apparel.

I have just received new lines in men's spring overcoats, hats, caps, ties, collars, etc., and can fit you out at right prices.

I have just opened another lot of boys' suits which are good values.

My new House of Hobberlin samples are here. Come in and look them over.
