Britain Expects Heavy Casualties From Fighting at Dardanelles.

LONDON, June 30.—The British have forged ahead on the Gallipoli Peninsula; the Austro-Germans continue their advance in Galicia and over the Polish frontier.

From the British standpoint the account of the operations in the Dardanelles sent by General Sir Ian Hamilton is especially welcome, as showing that the British, with the aid of the French, are able to drive the Turks from their well-defended trenches.

BRITISH LOSSES 113,000 IN PAST THREE MONTHS

LONDON, July 1.—(2.20 a.m.)—The Daily Telegraph gives the following compilation of the approximate total casualties of the British expeditionary force during the past three months:

SYMPATHY WITH FALLER

Sir Charles was full of sympathy with those who had sustained losses and with the gallantry shown by the Canadians. "We know, of course, that it would be so, just as I knew that Canada would stand by the mother country in any need, but it is significant to see the way in which the outlying dominions are taking a share in the struggle."

BRITISH SUCCESS AT DARDANELLES

Important Advances Made East and West of Krithia Heights.

REDOUBT CAPTURED

Ghurkas Seize Important Knoll and Hold It Against Attacks.

(Continued From Page 1).

On the other side the British have advanced about a mile on their left from the lines in front of this stronghold, and now face east. The effect of the operation, if pushed a little farther, will be to invest this strong position and force the Turks to surrender or retreat.

The full text of the British statement issued today regarding the operations of the Anglo-French forces against the Dardanelles follows:

Gen. Sir Ian Hamilton reports that the plan of operations on June 23 was to throw forward the left of his line southeast of Krithia, pivoting on a point about one mile from the sea, and after advancing on the extreme left for about half a mile to establish a new line facing east on the ground thus gained.

This plan entailed the capture in succession of two lines of Turkish trenches to the east of Saghir Dere, and five lines of trenches to the west. Australians Demonstrated.

An Australian corps was ordered to co-operate by making a vigorous demonstration. The action opened at 8 o'clock with a bombardment by heavy artillery. The assistance rendered by the French in this bombardment was most valuable.

At 10:30 o'clock the field artillery opened fire to cut the wire in front of the Turkish trenches. This was effectively done, but the resistance of one of the enemy's trenches near the sea was great. The very accurate fire of the cruiser Talbot and the destroyers Scorpion and Wolverine succeeded in keeping down his artillery fire from that quarter.

Redoubt Assaulted. At 10:45 a.m. a small Turkish advanced work in Saghir Dere, known as the 'Boomerang Redoubt', was assaulted. This little fort, which was very strongly situated and protected by extensive strong wire entanglements, had been a source of trouble to the British since its capture.

For a special bombardment by a French motor, and while the bombardment of the surrounding trenches was going on, the British forces, at the exact moment prescribed, leaped from their trenches as one man, and like a pack of hounds poured out of cover, raced across and took the work most brilliantly.

The artillery bombardment increased in intensity until 11 a.m., when the range was lengthened. The infantry then advanced and an infantry attack was carried out with great dash along the whole line.

Three Lines Captured. West of Saghir Dere three lines of trenches were captured with little opposition. The trenches were full of dead Turks. Many had been buried by the bombardment. One hundred prisoners were taken.

East of the ravine the Royal Scots made a fine attack, capturing two lines of trenches which had been assigned as their objective, but the remainder of the brigade on their right met with severe opposition and was unable to set forward.

At 11:30 o'clock the Royal Fusiliers led its brigade in the second phase of the attack to the west of the ravine. The brigade advanced with great dash and resolution through the trenches already captured and on across the open, taking two more lines of trenches, and reached the objective allotted to it; the Lancashire Fusiliers inclining half to the right and forming a line to connect with our new positions east of the ravine.

Ghurkas Take Knoll. The northernmost objective had now been obtained, but the Ghurkas, pressing under the cliffs, captured an important knoll still further forward—actually due west of Krithia. This they fortified and held during the night, making our total gain on the left precisely 1,900 yards.

During the afternoon the trenches, a small portion of which remained uncaptured on the right, were attacked, but the enemy held on stubbornly, supported by machine guns and artillery, and the attacks did not succeed.

Turks Fall in Attacks. During the night the enemy made a counter-attack on the furthest trenches gained, but was repulsed with heavy loss. A party of Turks who penetrated from the flank between the two lines of captured trenches was subjected to machine-gun fire at daylight and suffered severely, and the survivors surrendered.

Except for a small portion of trenches already mentioned which still is held by the enemy, all and more than was hoped for from the operations has been gained. On the extreme left the line has been pushed forward to a specially strong point well beyond the limit of the advance originally contemplated.

All engaged did well, but certainly the chief factor in the success was the splendid attack carried out by the Twenty-ninth division, whose conduct on this, as on previous occasions, was beyond praise.

ASKED PREFERMENT FOR SON OF JUDGE

Roblin Made Peculiarly Worded Request to Sir Robert Rogers.

DARK DESIGN DENIED

Ex-Premier Said He Wished Only to Oblige a Friend.

WINNIPEG, June 30.—Before the royal commission on the parliament buildings inquiry today, Mr. Wilson, senior counsel for the Liberals, read a copy of the telegram sent by Sir Rodmond Roblin to Hon. R. Rogers under date April 30.

This message, says Mr. Wilson, was as follows: "Winnipeg, April 30 (confidential). Close friends say it is very desirable that Geoffrey E. MacDonald, son of one of the commissioners, now with Strathcona's Horse, given a commission, say lieutenant. See the general as I have no cipher with him, and explain the situation so he will understand and act. Am sure he will do this for me. Proceedings here already dragging. Anderson says important thing is to secure promotion. Kelly's son died yesterday."

(Signed) "Roblin." Surprised Judge. Judge MacDonald said this was the first he had ever heard of the telegram or of any effort being made by Premier Roblin to secure his son a commission. He was only slightly acquainted with Sir Rodmond and had never approached him in any manner whatsoever.

Chief Justice Mathers remarked that there was no appearance of an attempt to influence a judge. Mr. Anderson said he thought the chief justice was mistaken in making this statement.

Edward Anderson said that his own son and the son of Justice MacDonald had gone to the front together with Lord Strathcona's Horse. Mr. Anderson had used his own influence to get a commission for his son and he had remarked to Judge MacDonald that it would be nice if his son should have a commission also. The judge had stated that this was so. Mr. Anderson had therefore spoken to Sir Rodmond Roblin about it. This, however, was a long time before the royal commission had been appointed and he had not heard anything of the matter in the meantime.

Roblin's Statement. Sir Rodmond Roblin then went on the stand and explained his only object in sending the telegram was to oblige his friend, Mr. Anderson. Judge MacDonald had never spoken to him about the matter and he had never approached the judge about it himself.

FOOTHOLD SECURED IN FRENCH POSITION

Germans in Third Attack in Argonne Seized Trenches Near Bagatelle.

ARTILLERY ACTIONS

Bombardments Reported at Several Places Along Front in France.

Special Cable to The Toronto World. PARIS, June 30.—A foothold was gained in some parts of the French lines near Bagatelle by the Germans in a third attack on the French positions on the road between Binerville and Four-de-Paris, in the Argonne today, the French war office reports tonight. The Germans had violently bombarded this position for three days, and their first two attacks were entirely repulsed. The third assault only gave them ground near Bagatelle.

Bombardments on the front north of Verdun, the Bois d'Ally, and the region north of Metzler, in the Vosges, are reported. Artillery actions also took place on the banks of the Yser and to the north of Arras.

No events developed between the Oise and the Argonne.

FIRST MATE OF DREDGE WAS CENSURED BY JURY

Andrew Scott Accidentally Drowned in Lake, Says Verdict at Inquest.

Accidental death by drowning in the lake on June 25 was the verdict of the jury at the inquest into the death of Andrew Scott, employed on the dredge Cyclone, owned by the Canada Stewart Co. The first mate, Morgan, was severely censured for his negligence in not having the ropes led around the posts of the dredge instead of the anchor.

Scott lost his life in the lake off the eastern gap by being entangled in the ropes attached to the three and a half-ton anchor carried by the dredge. He was a good swimmer, but never came to the surface after being dragged into the water.

Mr. Hudson said he could not say that on the resignation of the Government he thought any member made any personal profit from the parliament buildings contract. "I had no interview at any time with any one acting on behalf of the late Government. I had several interviews with Mr. Hudson," said Mr. Hudson. "He said he wanted to talk over the matter and asked if we were proceeding in a vindictive spirit. I said it was a bad mess and I had to be cleared up. He asked if I did not think it would be satisfactory if Kelly made a return to the government of a sum of money. I don't think he mentioned the amount, but apparently it was to cover the overdraft on account. He said he understood the Liberals were not anxious to assume power. I told him we were not anxious to get into power, but I did not think the public would stand for the Roblin government. I told him I did not think Kelly could hope to escape jail."

Hon. Mr. Winkler was further questioned on saw-off. To government's counsel Mr. Winkler said a saw-off was nothing unusual. The same thing had been done before. A party of "I've been on the bench 12 years, and I never tried an election protest," remarked Justice Perdue.

Winkler said Norris made no objection to a saw-off in other constituencies, but thought it unfair he should enter any arrangement when protests were still standing against the new Liberal members.

Richmond Street From Bay to Yonge street was brightly illuminated last night, the occasion being the inauguration of a new lighting system strongly approved by H. H. Couzens, general manager of the Toronto Hydro-Electric system. The new lights differ very materially from the cluster lights in that they are placed somewhat higher and consist of a single light, while the circumference of the light is considerably widened.

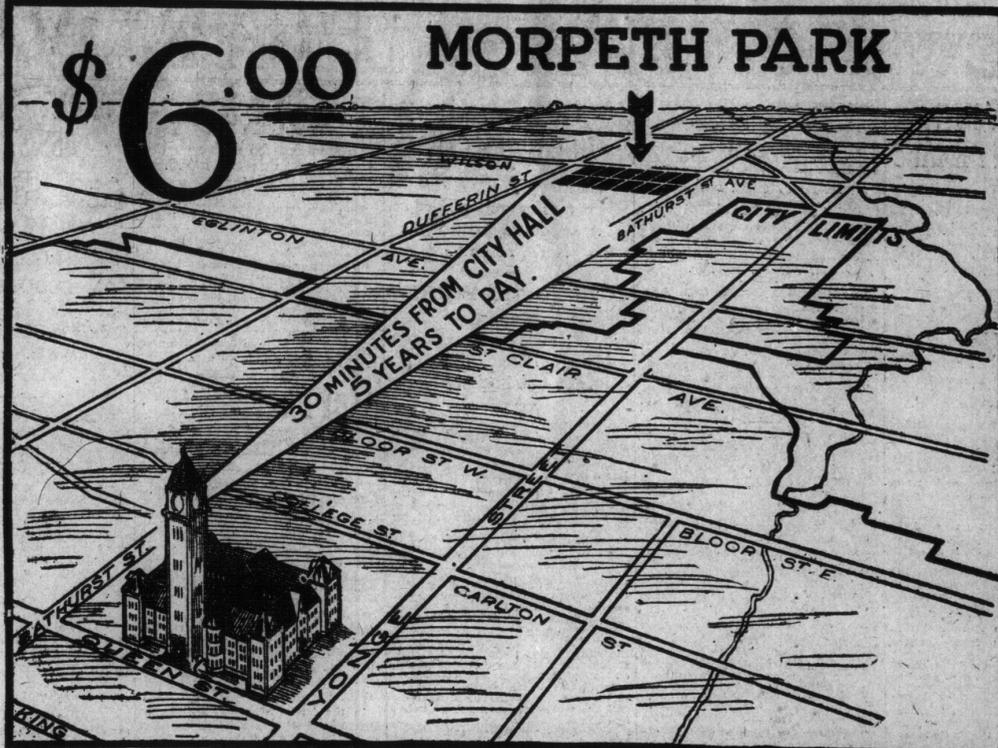

"We are naturally delighted with the appearance of the new lights which are in operation for the first time in the city on Richmond street from Bay to Yonge tonight," said H. H. Couzens to The World last night. "In my opinion they embody the most modern and desirable light on the market today and are known as the 500 Watt Tungsten lamp. They will give double the amount of light with the same consumption of electricity and are the type of lamps which the city council to adopt in lieu of the cluster lights on Yonge street and elsewhere."

The cost of maintenance is slightly higher than in the cluster lights per lamp, but this is offset in the cheaper consumption. However, if the city decides to use them generally we can substitute them for the cluster light, having made provision for this emergency. We offered them to the city at \$1.00 a lamp more than the cluster lights. We will install them on Toronto street, but no other streets will be illuminated with them for the present."

ROBLIN GREW ANGRY AT OVERCHARGES

Smashed Chairs When Told of Amount Spent on Parliament Buildings.

SAID HANDS CLEAN

Made No Personal Profit Out of Transaction, Told Hon. Mr. Hudson.

WINNIPEG, June 30.—Hon. Mr. Hudson testified before the royal commission on the parliament buildings charges today that Sir Rodmond Roblin was very angry over the amount of money that had been spent on the parliament buildings.

Sir Rodmond told Mr. Hudson that when the cabinet resigned they gave three cheers. "He told me how surprised he was by such a state of affairs at the parliament buildings. He said when he found what amount of money had been spent on the parlours he was so angry he smashed the chairs in his office. So far as he was concerned his hands were clean."

Part of the expenses of the election petitions and deposits were paid by local people in the constituencies. The balance was raised on a note signed by John Stovel and guaranteed by J. H. Ashdown, Hon. Edward Brown, Hon. Thomas Johnson and Mr. Hudson. It was for seven or eight thousand dollars and one thousand had been paid on the note from funds on hand. The balance was still unpaid.

No Personal Gains. Mr. Hudson said he could not say that on the resignation of the Government he thought any member made any personal profit from the parliament buildings contract. "I had no interview at any time with any one acting on behalf of the late Government. I had several interviews with Mr. Hudson," said Mr. Hudson. "He said he wanted to talk over the matter and asked if we were proceeding in a vindictive spirit. I said it was a bad mess and I had to be cleared up. To Help Nature Shed A Bad Complexion

Beauty devotees are enthusiastic over the beautifying qualities of mercolized wax. Nothing discovered within recent years accomplishes so much, so quickly, without harm, at such small expense.

It is Nature's way of renewing complexion. When the natural process is retarded because of deficient circulation or nerve tone, mercolized wax comes to the rescue and hastens the skin shedding. The new complexion which appears is a natural one, youthful, healthy, exquisitely beautiful. If you've never tried mercolized wax, get an ounce of it at the drug store, use at night like cold cream, washing it off in the morning.

Another natural beautifying treatment for wrinkled skin—is to bathe the face in a lotion made by dissolving an ounce of powdered asphaltum in a half-pint which base. This is remarkably and instantaneously effective.

NEWS OF SPECIAL INTEREST TO WOMEN

FROCKS OF VOILE ARE IN DEMAND

Dainty Stripes and Figured Designs Win Marked Approval.

WHITE PIPING CHIC

And Applied Hems, Long Sleeves and Pretty Girdles Shown.

Such pretty little frocks are being fashioned from voile this season. The popularity accorded this dainty material is well earned, and a host of charming new designs and novel weaves have made the mode, as fashioned from it "quite the rage."

The dark polka dot on a light background is extremely modish just at present, and is used with excellent effect in a frock of the "apron" tunic type. The skirt is of the full, gathered variety with very deep hem, and the tunic, attached to a high waistline in shirred effect, points to within six inches of the hem in front.

The waist is a dainty little model with the shirt-waist front adorned with cut jet buttons. A nifty little black bow-tie at the "open" Long sleeves set in medium armholes have narrow pleated frills at the wrist and a row of the buttons extending up the outside seam. A soft girdle in rich black satin completes this charming frock.

A very attractive model in a gay striped material exploits a pattern of tiny flowers in rose, on stripes of navy and white. The modish blouse fronts, and applied hem made cross-wise of the material provide a chic contrast, and the pipings of white on sleeves and front sections further enhance this very stunning but simple costume.

Novelty figure designs are very popular as are a large range of stripes and checks of various sizes.

By the Seashore. A holiday by the seashore is the form of vacation most appreciated by thousands of people from the inland centres. Notes of Women's World

St. Margaret's Camp, Daughters of Scotland, will not meet today. The Lord Nelson Chapter will not meet today for the regular work, but on each succeeding Thursday in room 7, Central Y.M.C.A. building.

The Richmond Hill Red Cross Auxiliary is holding a garden party this afternoon and evening on the lawn of Mr. Amos Wright, Yonge street.

The Look-Out Club will hold a sale of home-made dairies and ice cream in the store on the northeast corner of Bloor street and Delaware avenue, Saturday afternoon in the interest of the Red Cross.

The swimming pool at the Young Women's Christian Association building will remain open this year during the months of July and August. Special rates will be offered so that all young women may have the opportunity of learning to swim.

The sewing meeting of the 45th Highlanders' Chapter, I.O.D.E., will be held tomorrow in St. Andrew's Inn, Simcoe street, at 11 a.m. There will be a magazine shower for the soldiers, and as this is the last meeting till August, a full attendance is requested.

This is "Tag Day" for the Toronto Humane Society. The proceeds will go towards the society's fund for the care of animals, and the willingness of over five hundred Toronto women to help raise money for this very urgent work will undoubtedly result in a most gratifying sum.

The Toronto Humane Society tag day committee have succeeded in securing a large army of workers for today's great event. About five hundred maid and matrons will be located in various parts of the city, while the island, the beaches and other city recreation spots will be adequately covered. The parade notably "Gay Bird" a fine white-grey horse, which, on the pension, is emerging from his retirement and will be a fine object lesson to horse owners in the humane consideration which might well be shown towards animals whose services have justly entitled them to considerate treatment in their declining years. A feature of the streets will be a number of dog collectors, doing their share towards one of the society's great aims, the establishment of an animal's rest home.

WANTS MINISTERS OF HEALTH APPOINTED

Ontario Medical Council Concludes Annual Meeting. Dr. Edmund E. King, in addressing the Ontario Medical Council at its annual meeting yesterday, expressed the opinion that Dominion and provincial ministers of public health should be appointed. The doctor seconded a motion of Sir James Grant, Ottawa, that "more care and watchfulness should be exercised in the infant mortality of children by a special class of trained nurses." Dr. McCullough, deputy registrar-general, placed the infant mortality at 140.3 per thousand.

Onion smut is reported in Ontario for the first time, and means have been adopted to keep it under control.

ANGLICANS LEAD IN CHURCH CENSUS

Laymen's Committee Tried Interesting Experiment in North Toronto.

COVERED THE DISTRICT

House to House Canvass Made in Effort to Stimulate Church Membership.

At the recent banquet of the Laymen's Missionary Movement in North Toronto a committee of laymen was appointed to take a church census of the section beginning at the Belt Line Railroad and extending north to the city limits. The recent rapid growth of this district made this desirable, and it was decided to do the work in three evenings, and to have it done entirely by business men.

The Anglican, Baptist, Methodist, Presbyterian and Roman Catholic and two mission churches entered into the plan, each church furnishing one captain and taking a district. The full reports have just been submitted to the committee by the secretary, Col. Langton, and the work will be followed up by the clergy and laymen, in order to induce, if possible, everyone in this district to identify himself and their children with the churches and Sunday schools.

Anglicans Are Ahead. Reports show that the Anglicans lead with 1889 adults and 1275 children. The Methodists come second with 1288 adults and 749 children. The Presbyterians have 1027 adults and 639 children, and the Baptists 339 adults and 215 children. The Roman Catholics, 207 adults and 167 children. There were twenty different denominations represented, and the total population was reported to be 848-816, of whom were adults and 3292 children under 20 years of age. There were 204 adults that reported no denominational preference and 101 children included in their families.

It is generally considered that this was practically a perfect piece of work, and the most thorough canvass ever taken in any Ontario city. About 100 business men participated in the effort, and all were enthusiastic over the work and reported a cordial reception in practically every case. Mr. G. W. Kirby was chairman of the general committee, which was made up of one representative from each church, clergy and laymen that the committee continued for co-operation with the clergy in the next census results. Plans along church and mission lines for this important section of the city.

BANK CLEARINGS AT MONTREAL

MONTREAL, June 30.—Bank clearings in Montreal for the five days ending today amounted to \$38,185,967, compared with \$44,344,433 for the corresponding period in 1914, and \$48,811,793 in 1913. The past month's aggregate was \$1,064,472, as compared with \$234,737,813 for June, 1913. The full year's earnings for the half year ended today were \$1,050,287,000 as compared with \$1,241,944,000 for the first six months in 1914.

FALLS MAY NOT GO DRY

Special to The Toronto World. NIAGARA FALLS, June 30.—Dr. George Musgrave, M.L.A., said today he did not believe the Ontario License Commission would take any action that would affect the sale of liquor in Niagara Falls. A few weeks ago it was reported that the commission planned to limit the hours of sale in this city, because of reports that Falls liquor dealers were not living up to the order against selling intoxicants to soldiers in uniform.

AVIATOR GILBERT INTERNED

PORENTRUY, Switzerland, June 20.—The French aviator who bombarded the Zeppelin sheds at Friedrichshafen was M. Gilbert, one of France's finest pilots and the man who flew from Paris to Madrid in 1913. Gilbert had afterwards to land on Swiss territory thru engine trouble and has been interned.

REDUCE TOWN TO RUINS

Letter to Toronto Woman Tells of Havoc Wrought by German Airmen.

In the letter following, written to Mrs. Beach, 4 Rose avenue, by John and Fanny Ray, brother and sister, is a description of a Zeppelin raid on the town in which her brother and sister live:

"We are sorry to say Fanny's brother, Harry, has lost a son. He was in the Hussars and we got word the other day that he has been killed; a fine young fellow he was. Fred is in the hospital (somewhere in France) with varicose veins, brought on by the hardships he has gone thru, and he is having a rest to see if it will do him any good. We had a letter from him this morning.

Well, this is a terrible time and we have had a share of it here this week. On Sunday night Hull had a visit from an eppelin, which bombarded us properly, killing about 100 and setting fire to several places. One struck Edwin Davis & Co., and it is all in ruins. It was a terrible time for us all. Crowds are spending the nights in the fields. East Hull suffered very badly, and we don't want to say hundreds injured and property wrecked all over the city. Church street, Drayton, is practically all in ruins.

"We have also just received the paper showing Eric has joined the Highland Regiment and is leaving you for his training at this side. We know it will be a blow to you, as we are going home the same now, but we can only hope and trust they will both return safely and without a scratch, and in years to come they will be able to say they did their bit in defending their King and country in the greatest war the world has ever known. We send every hope that before Eric's period of training is over the war will be finished.

"Well, we hope you and Douglas are in good health. You must cheer up, they did their bit in defending their King and country in the greatest war the world has ever known. We send every hope that before Eric's period of training is over the war will be finished.

Flying from its tall slender mast rose the "flag that has braved a thousand years," signaling to all that here was the spot where the interests of Jackie Tar were much in evidence. Following the wide road bordered by picturesque young oaks, travelers on foot and in cars found themselves yesterday afternoon in the middle of the charms of "Fallingbrook" the home of Lady Mann, kindly lent for the garden party in aid of the sailors.

Pretty red and white tents rose among the trees, in which tea and coffee were served by a bevy of Toronto's brightest girls, looking their best in white middie suits. In one small canvas house elaborately hung with rugs a palmit told wonderful things to the unending line who awaited her dictum, while a party of gay Italian Signorinas in yellow skirts, red scarfs and caps made bright color on the landscape.

The band of the 48th Highlanders, every man of whom looked brave and bonny in his kilts and plaid, made the air reverberate to the thrill of martial music played with patriotic spirit, and a piper skirled his pipes beautifully while S. C. Downing, a member of the band, toed in and out in a wonderful way between two crossed swords on the grass. By and by the dancer appeared again, this time in sailor's dress, and the biggest applause of the afternoon for the skillful way in which she executed the "Sailor's Hornpipe."

Sea Scouts Novelty. Novelty was furnished Toronto when a body of Sea Scouts appeared and executed a series of manoeuvres in which skillful sword exercises were a feature. Many parties strolled down thru the wooded ravine to the lake and were rewarded with the aromas from the fresh earth and a sight of the pretty brook flowing under the rustic bridge and to which the estate owes its name.

Lady Mann and Lady Willison were out among the guests, and Rev. Alfred Hill, senior pastor of the Canadian National Ladies' Guild for Canada, under whose auspices the party was given, was a distinguished figure in the uniform of a captain of the navy. Miss L. A. Brodigan and her girls made themselves useful at every point.

The proceeds of this successful venture are for the sailors' institutes which are already established at Halifax, St. John's, North Sydney, Charlottetown, Union Bay, Vancouver and Victoria. New ones will be founded at other centres near the sea.

PLEA FOR RAILWAYS BY LABOR OFFICIAL

Calvin Lawrence of Locomotive Engineers Wants Higher Freight Rates. OTTAWA, June 30.—The eastern freight rates case ended today after being before the railway commission exactly four months.

The last incident in the case caused a surprise all around. It came from Calvin Lawrence, legislative representative of the Brotherhood of Locomotive Engineers, one of the largest and most influential labor organizations on the continent. He appealed to the board in behalf of the engineers and railway employees in general for the granting of the application, or rather, to have a rate set that would not cause further interference to the business of the railways, "for as they suffer so will the employees, and fully 40 per cent. of the population depends on the railways and the railway employees for a living."

Mr. Lawrence said that it was not for him to say what rate the board should fix, but he was of the opinion that better service would be rendered to the public by raising the freight rates than by reducing them.

Dominion Opposes Change. J. F. Orde, K.C., special counsel for the Dominion government, spoke strongly against the application. He said he was holding a watching brief for the public, and the public rightly assumed that their interests were safe in the hands of the board. The application, he said, came as a shock to the people. He held that the present was not the time to ask the public to carry the increased burden of the railways.

The board, he continued, may have to take up the question of duplication of lines in Canada. In times of prosperity these lines might have been justified, but the country was now faced with the situation of too many railways.

KRITHIA SOON IN HANDS OF ALLIES

Exhaustion of Turkish Defenders is Becoming Quite Evident.

TROUBLES MULTIPLY

Enemy Unable to Get Reinforcements and Supplies Required.

PARIS, June 30.—A Havas Agency despatch from Athens says the exhaustion of the Turks facing the French forces on the Gallipoli peninsula is evident and leads to the belief that the Turkish position at Krithia will soon be taken by assault. In a recent advance made by the French, it is added, 6,000 Turks were found dead in the trenches on the front taken.

Recent fighting in the Dardanelles has resulted in an appreciable advance by the allies. The despatch declares, the French troops under the inspiring leadership of General Gouraud, commander of the French expeditionary force at the Dardanelles, particularly distinguishing themselves.

Growing Difficulties. Facing the French, the Athens correspondent continues, the Turkish front does not exceed three and one-quarter miles, which artillery sweeps continuously. The Turks are meeting with growing difficulties in bringing up reinforcements and supplies, while the allies have every facility for supplying their needs.

It is reported from a reliable source the correspondent adds that German officers have left Jaffa in Palestine, and an important port in a neutral state for Tripoli to lead the natives there against the Italians. The Turks, the correspondent reports, are said to have gained to their cause a Senegalese chief, who promises a general rising of the Arabs in Tripoli.

GERMAN GOVERNMENT TO SEIZE GRAIN CROP

Measure Taken With Last Year's Output to Be Repeated.

BERLIN, via London, June 30.—The German Government has decided to adopt the same measures for the conservation of this year's crop of grain as were employed last year, expediting all grain and fixing maximum prices for its sale. The despatch will be in the hands of the communes, however, and the maximum prices will not be fixed until it is seen exactly how the harvest turns out. The same measures will apply to fodder.

POLITICAL SENSATION IS SPRUNG IN JAPAN

TOKIO, June 30.—A searching judicial investigation has been ordered following the arrest of two members of the house of representatives on charges of political corruption. The arrests have caused a sensation throughout Japan. The press declares the men accused are suspected of accepting bribes to desert the Selyoku or Conservative party and vote for the government's bill providing for increasing the size of the army by the addition of two divisions.

GERMAN PAPERS NOT SO BOASTFUL

Realization That Outlook is Not Promising Shown by Comments.

SUBMARINES FAIL

Naval Expert Admits Little Impression Made on British Fleet.

NEW YORK, June 30.—A cable to The Herald from London says: The newspapers reaching London from Germany are particularly interesting just now. For the first time since the war began the official tone seems to have subsided, and while in many quarters there are significant allusions to peace prospects—significant because they are made with official sanction—there is a general realization that the naval and military outlook is not so promising for the fatherland as appeared a few months ago.

In the course of a lecture on the sea power of Germany's enemies, which was delivered by Herr Geheilmrat Flamm at Berlin a few days ago, the following statement was made: "British Navy's Supremacy."

"Today the strength of the English fleet in ships of the line and cruisers is hardly less as compared with ours than at the beginning of the war, for they possess 85 of the first-class and 60 of the second-class, in spite of the losses which they have incurred, which amount to 16 and 13 per cent, respectively. The reason for this is that England retained all the ships which she was building for foreign states. Our submarines still have a great deal to do."

This, of course, is only half the truth. Since the war ships have been completed in English yards, and the strength of the British navy is greater today than it was a year ago. It is becoming clear to the German critics that their submarines are not likely to conquer the sea for their country.

PAID HIGH PRICE FOR BINOCULARS

Sir George Foster Refused Favorable Offer, Says M. C. Ellis.

STIFF PRICE LATER

Government Lost Twenty-Five Thousand Dollars by Ignoring Option.

OTTAWA, June 30.—M. C. Ellis of Toronto, testifying at the war contracts enquiry today, said the offer of Sir George E. Foster to accept a favorable offer of binoculars cost the government \$25,000. Mr. Ellis stated that his firm was employed by Gen. Hughes to buy binoculars for the troops. Baugh & Lomb would not sell direct; he sent out agents and gathered glasses all over Canada and the United States. As a result the Rochester optical firm came down and offered an option of 1200 glasses at very low rates. "This was a very good offer," said Mr. Ellis, "and I was compelled to buy the purchase of glasses. Sir George refused the offer. A short time later the government, and presumably Sir George, once more was compelled to buy the same glasses through agents of the same firm and pay them at an advance of at least \$10 a glass. The option had expired."

Got \$5000 Commission. Mr. Ellis testified that his commission for purchasing and securing binoculars was \$5000. For this, Ellis & Co. had placed their organization in Toronto and New York at the disposal of this work. He himself took charge, and nearly the whole time their high-salaried employees were engaged to secure the best prices for the government. He had advanced \$15,000 to secure cash discounts. The work took five months, and in the busiest period of the jewelry season. The correspondence was exceptionally heavy. His agents in the United States were employed in this work and paid out of his commission. Also, he had to arrange for the change of cases from black to brown.

Col. Hurstman testified that officers were charged \$40 for glasses. Mr. Ellis, once he brought back, stated that a fair price to be paid for glasses that cost \$17 in New York would be about \$30. Birkett's glasses averaged \$35. To this should be added expenses and 25 per cent, making the price to the government \$45 instead of \$35.

BUS SERVICE BETWEEN CITY AND GAMBRIIDGE

R. L. Fairbairn, general passenger agent of the Canadian Northern, announces that an auto-bus service is to be established between Cambridge and Kirkfield. This has been arranged for by Miss Campbell, the manageress of the Kirkfield Inn.

By this scheme Toronto passengers for Kirkfield will have a three-train service daily, leaving this city at 7.20 a.m., 10 a.m., 5.15 p.m. via the Canadian Northern. An additional train leaves at 1.09 p.m. on Saturdays. The Kirkfield Inn is owned by Lady Mackenzie.

LICENSES REFUSED TO LONDON HOTELS

Brunswick, Queen's Park and Windsor Are Ordered to Sell Out.

ONTARIO BOARD ACTS

Two Roadhouses Near Kingston Were Cut Off Yesterday.

The Ontario License Commission disposed of several issues at a conference yesterday. The four London hotels, Bank, Brunswick, Queen's Park and Windsor, were refused an extension of license till the end of the year, and the hotels in Fairbank and Concord were granted license extension until the end of the license year. The board cut off two road house hotels at Portmouth, near Kingston, and in the case of J. S. Bryceland, Wolfe Island, issued merely a beer and wine license.

The London hotels were ordered to dispose of their holdings within three months and a short while ago they appeared before the board to apply for a further extension. The members believed the situation warranted personal investigation and last week three members went up and looked over the situation.

License transfers announced yesterday were W. F. Dulmage, Harrison, granted a tavern license taking effect today. Thomas Potten, Concord, tavern license; Fred Newton, Fairbank, tavern license; John O'Meara, New Toronto, tavern license, and Henry Bellefeuille, Keewatin, license for the Bay City Hotel.

THURSDAY MORNING, JULY 1.

What Canadians Must Do

Whether the politicians like it or not party politics will go by the board, for a time at least, in Manitoba. Men of all faiths and persuasions must get together in that province to form a national party of safety. We doubt if much can be accomplished by a mere coalition government, but such a government at least could bridge over the war time and be able to exist without corruption influence and crooked contractors. But Manitoba, as we already ventured to point out, needs a new constitution. With direct legislation and something like a commission plan of government there is little more need for party politics in provincial than there is in municipal affairs.

It is argued, however, that we cannot keep party politics out of federal affairs and that the politicians will therefore turn every province into a battlefield. They are digging trenches today in Manitoba for the next Dominion election. Honorable Mr. Rogers is trying to save a desperate situation for his party, and the Liberals are correspondingly anxious to destroy his power and prestige. We need not believe one-half of the stories that are afloat to be convinced that the party chieftains at Ottawa have been directing campaign manoeuvres at Winnipeg.

The World ventures to suggest that the people of this country should concentrate themselves to the cause of the nation. We must do all we can to finish up the war and meanwhile to cleanse and purify the public life of our Dominion. With that end in view patriotic men should step forward in Manitoba and form a national party. Public opinion outside of Manitoba should back the politicians at bay while the decent people of Manitoba bury the dead and count the missing. Our public men must get together in the service of the state.

Standing in the dawn of the new civilization we must consecrate ourselves to higher things, we must do away with petty bickerings, unworthy ambitions and selfish greed. Public ownership is coming whether we like it or not, upon a scale undreamed of a year ago. Men of commanding talents forego the pursuit of personal and corporate interest and render unselfish service to the state. In municipal, provincial and national affairs we must have mere party politician should no more be allowed to disturb us with his brawls and intrigues at home than he would be allowed to disturb our soldiers at the front. We must have a truly national government; a government representing all the people; in the nation and throughout the nation, until this our testing time, is over.

Huerta Again

As the President Wilson did not have enough trouble already on his hands, Gen. Huerta turns up in the State of Texas. The legal proceedings against him may not result seriously, but meanwhile the general has been lionized at El Paso. Army officers entertain him, crowds cheer him on the streets and newspaper men do him reverence.

No doubt a good many people would like to see Huerta go forth to battle against Villa. Huerta has military resources and immense financial backing. Nearly everybody with a dollar invested in Mexico would like to see a dictator. Great Britain cannot, the United States evidently will not, interfere, and the country is in a shocking condition of anarchy. The trouble in Mexico seems to be largely economic.

The land question is not new and has, at one time or another, distracted every country from Russia to Ireland and from China to Peru. In Mexico it ought to be worked out by the Mexican people; yet it is hard to see how they can work out any problem until peace and good order are established. If Mr. Wilson loses the second term it will not be because of Secretary Bryan's detection in the

German crisis, but because of his failure to grapple with the Mexican situation.

Get the Wheat Out

We are growing the biggest wheat crop in our history; so is the United States; it is quite likely that the North American surplus will not all be absorbed by Europe. The great market of the world is Liverpool and our wheat must get there as soon as possible. Moreover, it should get there by the St. Lawrence route.

A lot of Canadian wheat went to England via New York last fall. We had splendid transportation facilities from the wheat fields to tide water, but there was a lack of tonnage at Montreal. The tramp steamer in the past has preferred New York to Montreal because there was a better chance of a cargo going and returning. It was said that last fall a number of steamers after waiting around the port of Montreal departed with empty holds. The public elevator was gorged with grain held by speculators.

We believe the Montreal Harbor Board made a special trip to Buffalo and no doubt got some pointers which they will not lose sight of this season.

But the problem is so big that the Dominion Government should act and perhaps the imperial government also. We should have the preference of the British market, if not by tariff, then by some other way. No doubt the government at Ottawa is giving the matter thought and some good results may flow from Sir Robert Borden's visit to England.

But how to ship our wheat to Europe in quick order is one of our vital problems.

Mud Wall Prospects

Mayor Church has no doubts at all about the beauty of a mud wall on the water front. Citizens are going out today to look at the scenic destruction at High Park, on the Lake Shore road, and to meditate on the wisdom of Mayor Church and his friends, who wish to duplicate that monument of ugliness on the water front. Perhaps Mayor Church will grow grass on it, when it is built, or if the money will run to it, it might be set with flower beds. They could be renewed every week out of the park commissioner's resources, for the smoke and coal grit of the engines on the top of the mud wall would not let them have a long life.

It is a pity that the lines on the water front could not be electrified, as they are in up-to-date places. This would make the erection of bridges that are to be crossed a simple matter, but if Toronto prefers a big blank mud wall, we shall have to get it. The board of trade is reported to be enthusiastic for the mud wall, and when the wall is completed they will have a picnic on the top of it to declare it open. It will be sufficiently broad, as it is to accommodate four railway tracks, and there will be holes in it to let traffic thru on the street level where the crossings are. It will close up the view of the island and the bay, but it will be a big, solid, substantial thing, and will last as long as the city's reputation for sheer uncleanliness.

An Unfortunate Move

One unfortunate situation at least has arisen out of the failure of the board of control and the city council to settle the reorganization of the fire department. The dismissal of District Chief Gunn by Acting Chief Smith is one of those things which are deplorable from every point of view. Whether either or both men would have been a good head of the department is a question which will now be obscured by the petty personal nature of the conflict which is pretty certain to ensue. On the face of it the action taken looks like a tactical mistake and error of judgment on the part of the acting chief. Such peremptory action can hardly be justified by mere charges of personal rivalry, and nothing more important appears to have been vouchsafed as the motive for the dismissal yesterday.

C. H. PORTER, A FIRE RANGER, WAS DROWNED

Word was received on Monday by the provincial forestry department, stating that Charles H. Porter, 12 Halton street, was drowned in West Shining Tree Lake. Mr. Porter, who was 23 years old, and former warehouse manager for the Gowans, Kent Co., left Toronto on May 3 for the north, where he had received an appointment as fire ranger.

RICH WOMAN'S WILL PUZZLES COURT

News Vendor Claims Trusteeship of Late Naomi Bilton's Estate.

RED CROSS INVOLVED

Strange Signatures to Codicils Are Under Consideration.

Mr. Justice Middleton, at Osgoode Hall yesterday, disposed of the claim of Joseph A. Armstrong, an old man who lives in the city of Toronto, at the corner of Yonge and King streets, to be admitted as executor of the estate of Miss Naomi Bilton, to dispose of real estate valued at \$200,000, as trustee for the Red Cross Society, Miss Bilton, who died in Los Angeles, the land in question being at 188 Yonge street, now occupied by Goulay, Winter & Leeming, and by her will left practically all her property to the Toronto University, with certain devices over upon any attempt to convey the property to, or permitting it to be occupied by, departmental stores.

Subsequent to the granting of probate of the will on June 19, 1914, Armstrong produced three documents which he alleged were codicils to the will. Two of these had been deposited upon a citation issued under section 31 of the Surrogate Court Act, and the third, which has disappeared, purported to have been witnessed by D. Fasken, a barrister, and H. G. Wilson, Both these gentlemen were witnesses to the will, and the latter knows anything about any such supposed codicil. The documents produced for purpose to be the subject of Armstrong's application, "without any conditions, or any other restrictions, or any limitation of the future of the Russian people Emperor Nicholas proceeded.

BIG LOSS FROM INSECT PESTS.

Canada Loses Over a Hundred Million Dollars Yearly From Their Ravages. From careful calculations made by Gordon Hewitt, the Dominion Entomologist, it is estimated that the annual loss in Canada, due to the deplorable state of insect pests on field, vegetable and forest products, stored grains and forest products, on a conservative estimate, over \$100,000,000 yearly. A very great portion of this loss could be prevented.

Full information as to what, when and how to spray, or what methods to employ to combat successfully the attacks of these insect pests, may be found in the great farm and poultry and live stock book, "Making Money from the Soil," for which you will find special purchase certificates on another page of this paper. DUNNING'S SERVED ITS LAST MEAL YESTERDAY

Dunning's Restaurant, formerly McConkey's, 27-31 West King street, closed its doors last night. This action was the outcome of a meeting of the creditors held this week-end. Mr. Dunning took over the business from Mr. McConkey. It was established many years ago by the latter's father, George S. McConkey. The assets are \$25,000, and liabilities \$40,000.

LATE A. R. CLARKE'S FUNERAL

Funeral arrangements are being completed for the burial in this city of the late A. R. Clarke, the prominent Torontonian whose death occurred last week in a London hospital from injuries received in the Lusitania disaster. It is expected that the body of the late Mr. Clarke will reach Toronto on Saturday night or Sunday morning. Mrs. Clarke was in England with her husband at the time of his death. She returns to New York today.

Leafs' Pitchers Blew Up Inter-City Soccer Today

ROYALS HAMMERED TWIRLERS CAME FROM BEHIND TO WIN

Coreham, Cook and McTigue Failed to Stop the Montreal Sluggers — Two Out of Three for Howley's Men.

Special to The Toronto World.

MONTREAL, June 30.—A score of 8 to 4, the Royals took the rubber in the three game series with Toronto Leafs this afternoon. Three Toronto pitchers, Coreham, Cook and McTigue all tried in vain to stop the Royals once they hit their batting stride. Following an inning in which the Royals scored five runs and took a winning lead, Manager Bill Cuymer of the Leafs was ordered off the field for disputing the umpire's ruling. It looked like a win for the Leafs up to the sixth, starting which the Torontoians had a lead of three runs. The Leafs got two in the first after two were out on Laque's single and triples by Demmitt and Williams, but this was the only occasion on which hits were bunched off Cadore with any effect.

Bill scored in the second after hitting a double, taking third on Coreham's single and talking on Ireland's fumble, while Wares got the visitors' fourth run with a home run clout in the fifth.

The Royals got a run in the third on Flynn's single and Devin's double. They hit six in the fourth, when Coreham started by passing Almeida and Whitman. Clymer waved Coreham out and the Royals scored when he hit the first ball he pitched over the fence, but it was foul by means, he drove the next to deep left, also foul, and then singled to left, filling the bases. Cook was then pulled in favor of McTigue. Howley singled, scoring Whitman, and when Trout tumbled the ball, Flynn also romped home, tying the score. Naan singled after Cadore had rounded out the inning. Devin scored, while Howley romped home on Ireland's long fly. Demmitt, Holden also singled, but Almeida filed to centre. After this the Royals were never in danger, and added a couple more runs in the next frame on Whitman's single, Devin's triple and Howley's single. The score:

RAIN AT CHATHAM SPOILED THE RACES

Track Was Heavy and Dead — Rose Eel Dillard Won Drawn-Out Contest.

By a Staff Reporter.

CHATHAM, Ont., June 30.—Rain again interfered with the program of the Chatham Driving Association today. After the rain of yesterday, the track was heavy and dead, and the time today was not as fast as it would have been under more favorable conditions.

It was nearly 3 o'clock today before the first race was called, which was the unfinished 2.50 pace, half-mile heats. Rose Eel Dillard had two heats and Hal Actor one at the conclusion of the racing yesterday. It required three heats today to find the winner.

Rose Eel Dillard pulled wide in the home stretch in the first heat, with Billy Mc second and Rose Eel Dillard third. The horses moved apart and only the judges were able to separate them. The final heat was won by Rose Eel Dillard.

The unfinished 2.10 pace was the next race. It also required three heats to finish. Eel Direct having two heats to his credit at the finish and the Indian longboat, the latter winning.

The 2.20 pace had four starters and before it was finished a real rainstorm came on and the racing had to be postponed for the day. The races will have to be called a little earlier and less time given between races in order to get the program thru.

The officials for the meeting are: Presiding Judge, H. S. Wilcox, London; Dr. Corrie, Chatham; and J. H. Glassford, Chatham. The starter is J. H. Glassford, and the timekeeper is J. H. Glassford.

There's some Style to this Shoe

Now don't expect us to tell you just what we mean by "style"—it has never yet been successfully defined. But you will know what we mean once you put on a pair of these shoes. Minister Myles Shoes will bring forth a pleased "I told you so" from many a man who has all along contended that one ought to be able to get a good shoe and a good looking shoe for \$5.00. At last you can—but not if you persist in paying duty on imported goods. It's here for you in a beautifully-made, rightly-designed Canadian Shoe.
