AUSTRIA'S PEACE PROPOSALS ARE REJECTED TREMENDOUS SMASH COMING FROM SALONICA

STRONG BULGARIAN POSITIONS TAKEN BY FRENCH AND SERBS

Most Important on the Macedonian Front Fall, With 1500 Prisoners; in First Move of Great Offensive.

London, Sept. 16.—Reuter learns that after an intense artillery fire, the Franco-Serbian troops yesterday attacked the most powerful Bulgarian positions that had been organized and fortified for over two years. The whole positions on a front of fifteen kilometres, including Vetrnik, Dobropole and Sokol, constituting the most important part of the Macedonian front, have been captured. Fifteen hundred were taken prisoners and a great number of guns and material were captured.

Greece Has 200,000 Men. Reuter's correspondent interviewed Michael Anagnostis, the Greek minister of agriculture, today. The minister said that Greece had 200,000 soldiers under arms and could raise an additional 100,000, but was handicapped owing to the lack of shipping facilities. They were immediately commencing to build shipyards. He concluded that he was convinced that the Salonica front was far more important than was generally realized. "Soon there will be big developments there," he said.

A Serbian official statement issued here tonight gives the positions captured by the Franco-Serbian forces at Vetrnik, Dobropole and Sokol, which is the most important part of the Macedonian front.

Big Offensive Coming. The capture of the first and second line Bulgarian positions along a ten-mile section of the Dolran-Vardar front Sunday, was announced by A. J. Balfour, the foreign secretary, at a reception to the Greek delegation to-night. He referred to this, which involved the taking of 800 prisoners and ten guns, as the prelude to an important offensive "bringing greater triumphs in which the British and Greek troops would take an equal and glorious part."

GERMANS MAY ATTACK AMERICANS IN VOSGES

Artillery and Airplane Activity Suggest a Possible or an Expected Advance.

With the American Army in the Vosges Sept. 15, 9 p.m.—Artillery activity of an intensity to suggest a possible attack, or an expected attack, occurred in the Vosges today. It was accompanied by a very heavy amount of signaling. Enemy airplanes were unusually active. Ten flew over St. Die and 20 over Germering.

BRUTALLY BEATS WIFE THEN ATTEMPTS SUICIDE

Windsor, Sept. 16.—Following words with his wife in Ford, Sunday, Archibald McComb, 42, an employee of the Canadian Bridge Works, beat her brutally over the head with a mallet and then fearing he had killed her, slashed his throat several times with a razor. None of the wounds were deep enough to kill him and McComb will probably recover. The woman was taken to Hotel Dieu, where her condition is considered quite serious.

Plan to Use War Prisoners To Bring in Essex Crops

Windsor, Sept. 16.—Prisoners of war may be released to assist in bringing in some of the late crops in Essex, particularly in the tobacco fields. A plan will be suggested to the department of justice by William C. Kennedy, M.P., who left town for Ottawa today.

TONS OF BOMBS DROPPED ON CITIES BACK OF THE LINE

Long Distance Fliers Pass Over Mainz and Karlsruhe and Also Drop Explosives on Aerodromes.

With the American Army on the Lorraine front, Sept. 16.—British airplanes which are co-operating with American squadrons in this front flew far back of the enemy lines today and bombed aerodromes at several places. Some of the long-distance fliers passed over Karlsruhe and Mainz, dropping five and a half tons of explosives.

Eleven tons of bombs were dropped on the aerodromes at Longuyon, Boulay, Marheing and Bohm.

French and Italian units co-operated with American squadrons in carrying out nine missions, in addition to which, patrolling and photographic work was successfully conducted.

ITALIAN RAIDS SUCCEED UPON MOUNTAIN FRONT

Allies Make Improvements in Positions in Region of Grappa.

Rome, Sept. 16.—In the region north and northwest of Grappa, on the northern Italian mountain front, Italian detachments this morning raided the enemy lines and improved at some points the positions already occupied. The Italian war office statement issued today. The Italians took 321 prisoners and captured numerous machine guns.

On the remainder of the front there were artillery duels and patrol activity.

BRITISH ADVANCE LINE SLIGHTLY IN FLANDERS

Few Prisoners Brought in on Southern Portion of the Front.

London, Sept. 16.—British troops today advanced their line in the neighborhood of Ploegsteert and Ypres, in Flanders, according to the official statement issued this evening by the British war office. The statement says:

Ottawa, Sept. 16.—Sir Robert Borden has sent the following congratulatory message to General Pershing: "On behalf of the government and people of Canada I send warmest congratulations upon the magnificent victory which has just been won by the gallant army under your command and which I am confident is only the prelude of still greater achievements that will ensure an enduring peace thru the triumph of our common cause."

BIG OFFENSIVE SOON TO START FROM SALONICA

British and Greek Troops Are Ready for Combined Smash.

SEVERE AIR FIGHTING

Marked Increase Reported in Airplane Work Along All Fronts.

New York, Sept. 16.—The Associated Press tonight issues the following: In the various theatres of the war the fighting is going on steadily, and with added impetus in Macedonia, where the reconstituted Serbian army, co-operating with French forces, has stormed three strongly fortified Bulgarian positions and occupied Vetrnik, Dobropole and Sokol—considered the most important part of the Macedonian front.

Farther to the east on the Dolran-Vardar front the first and second line Bulgarian positions have been captured by the allies over a ten-mile section. This successful operation, according to Mr. Balfour, who announced it at a reception of the Greek delegation in London, is "the prelude to an important offensive bringing greater triumphs, in which the British and Greek troops would take an equal and glorious part."

French troops, in their advance toward the Chemin des Dames, have gained two-thirds of a mile on a 2 1/2-mile front; to the northeast and east of Sancy, where they captured an additional 600 prisoners.

American and German patrols are doing the major part of the work on the Lorraine front, but there are reports of a possible great attack by one side or the other in the Vosges. In that mountainous territory the artillery fire has developed great intensity and hostile airplanes have been unusually active.

Severe Air Fighting. All reports indicate a marked increase in the work of the airplanes along all the fronts. The Germans, who quite recently appeared to lack adequate air forces, have now sent augmented forces into the air, and there have been numerous engagements. As an illustration of the severity of the fighting, the British airmen on Sunday accounted for 37 German planes, while they themselves reported 15 missing.

While the Czechoslovaks have been continuously and successfully carrying on the war against the Bolshevik steps have been taken looking to the organization of a Polish division, under Polish officers, to wage the fight in Siberia westward to their fatherland as integral units in the American army. It is estimated that 100,000 trained men can be made available at once in the regions of Harbin, Nikolaev and Vladivostok.

PEACE FEELER IS REJECTED QUICKLY BY UNITED STATES

Reply by Secretary Lansing To Austria's Peace Proposals

"I am authorized by the president to state that the following will be the reply of this government to the Austro-Hungarian note proposing an unofficial conference of belligerents:

"The government of the United States feels that there is only one reply which it can make to the suggestion of the imperial Austro-Hungarian Government. It has repeatedly and with entire candor stated the terms upon which the United States would consider peace and can and will entertain no proposal for a conference upon a matter concerning which it has made its position and purpose so plain."

CYNICAL PROPOSITION FOR DIVIDING ALLIANCE

Points in Balfour's Speech A. J. Balfour Comments on the Clumsy Diplomacy in Austrian Note—Questions Between Belligerents Are Definitely Defined.

It is incredible that anything can come of the Austrian proposal. It is not a genuine attempt to obtain peace; it is an attempt to divide the allies.

The German excels in direct, simple brutality; but when he tries to act as President Wilson would not he is clumsy.

Germany feels that she must restore Belgian independence. She intended to pay no indemnity to Belgium.

At the same time she was squeezing millions of dollars from Russia. The German colonies are one question on which there is no misunderstanding.

Britain stands on one side and Germany on the other regarding these colonies.

Lorraine: how are conversations going to set that right? Until central powers are of open mind and prepared to discuss the allied views, more conversations for practical results are worthless.

FRENCH AT SOISSONS MAKE MILE ADVANCE

Six Hundred Additional Prisoners Taken, When Ground is Won on Three-Mile Front.

Paris, Sept. 16.—To the northeast and east of Sancy (northeast of Soissons) French troops today advanced about a kilometre on a front of four kilometres, according to the war office announcement tonight. Six hundred additional prisoners were taken.

AUSTRIA JUST ACTS AS GERMAN CATSPAW

Step Brought About by Rapidly Increasing Clothing Difficulties.

Berne, Switzerland, Sept. 16.—It is generally believed here that Austria-Hungary made her peace proposal with the consent of Germany and it is even maintained in some quarters that Germany really inspired it. It is pointed out that the German Socialist leaders have used very threatening language to Chancellor von Hertling lately, demanding internal reforms and the opening of peace negotiations. In addition the rapidly growing food and clothing difficulties in Germany also must have had a considerable part in bringing about the step.

Overtime Pay for Police For Long Hours in Riots

After talking the matter over with the chief of police, acting Deputy Chief Dickson, issued an order to the various divisions for the men to turn in by them during the recent riots. It is understood that the matter will be brought before the police commissioners this afternoon with the idea of giving the men some remuneration.

Half an Hour After Receiving Document Thru Swedish Ambassador, Secretary Lansing Turns Austria Down on Allies Behalf.

Washington, Sept. 16.—The United States, as was fully expected, has unconditionally rejected Germany's peace feeler. In doing so the government has spoken for all the co-belligerents. The Austrian Government's note from the minister from Sweden, Mr. Ekengren, Secretary Lansing tonight issued his formal statement.

Lansing's statement was given out within half an hour after he had received the Austrian proposal. It would have been forthcoming almost immediately upon delivery of the Austrian note had it not been found necessary, in order to avoid the possibility of grave error, to make a careful comparison between the official text and that which was received in news despatches last night from Amsterdam.

Speedy Decision. Thus, emphasis was added to the declaration, if any were needed, the quickness of the reply indicating the existence of no shadow of doubt in the mind of the administration as to what it should be. As soon as Lansing's reply can be put in form it will be handed to the Swedish minister for transmission to Austria.

The Swedish legation notified the state department early in the afternoon that it had received the note and that it would be presented as soon as it could be decoded and translated from the French. This continued several hours, and it was not until 6.30 o'clock that Mr. Ekengren appeared. He remained with the secretary only two minutes.

There is some reason to believe that the secretary acted with this unprecedented promptness in a matter of such great import with the design not only to indicate clearly the position of the United States Government, but perhaps to anticipate and prevent as far as possible newspaper discussions of the Austrian proposition, which might convey to the enemy a misleading impression that there was any considerable element in the United States willing to consider a negotiated peace, such as the "non-binding" discussions, proposed by Austria, might develop.

Also, it is understood, there was a purpose to sound the note which the entente powers might repeat in making their own answers. All these powers had gone on record formally regarding the conditions of peace laid down by President Wilson as their own.

There is some speculation in official circles as to what will be the next step in what is recognized as the great Germanic peace offensive. Generally, it is believed that the German and Austrian military leaders will point to the American reply as an evidence that they have done everything possible to bring about peace and thus to try to strengthen their people for another winter campaign.

But another view is that owing to the intolerable conditions in Austria-Hungary there is more than a possibility of a breaking up of the quadruple alliance; that Austria, having gone thru the form of making a peace proposal, which was promptly rejected, has thus cleared the way for her next step—an unconditional surrender on the terms laid down by President Wilson.

GOVERNMENT AT OMSK AT WAR WITH GERMAN

Two Classes Will Be Mobilized in Asiatic Russia.

Olovannaya, Trans-Baikalia, Sept. 16.—The Siberian Government at Omsk, a fortified town of Asiatic Russia, has declared war on Germany and has ordered the mobilization of the 1918 and 1919 classes.

man diplomat, and contended that it made impossible a settlement by conversation. "Until the central powers are of open mind and are prepared to discuss our view of what we believe to be right and just, and for the uplift of civilization," continued the secretary, "mere conversations for practical results are useless."

Fall Pickings

Now is the time to pick your suit or overcoat. The choicest garments always go first and the man who gets first choice has the same comfortable feeling as the man who has his coal in for the winter and that's some cozy feeling these days, eh? In spite of all obstacles in the way of getting materials, scarcity of labor and increased cost of production, we can honestly say we never had a better showing for you to pick from than we have now. Fur-collared overcoats will have quite a run this season, we have some splendid lines for you to pick from, as well as hosts of others in all the very best models. Our suit range is equal to our overcoats, and just as varied in styles and qualities from the typical young man's accentuated tiffics to the more conservative models for the quiet dressers.

A word of advice:

Perhaps we should have said caution, but either way you like to take it, we want to say that no matter where you shop don't make the mistake of buying so-called cheap bargain garments. Price is not everything, as you will learn to your sorrow, and today the cheapest garments are not the lowest in price. Our customers look to us to protect them and we are too proud of our good name to sacrifice quality for price.

Suits from \$15.00 to \$60.00—buy the higher grades.

Overcoats from \$18.00 to \$75.00—buy the higher grades.

HAMILTON NEWS

SERVICE ON RADIAL MUST BE ADEQUATE

Controllers Expect Little From Conference With the Railway Officials.

Hamilton, Sept. 16.—Tomorrow, at the board of control, a date will be fixed for the conference of representatives of municipalities and officials of the Hamilton Electric Radial Railway Company relative to the curtailed service which the company proposed to institute between Hamilton and Burlington. The controllers will have before them the letter of E. P. Coleman, general superintendent, in which it is stated that the hourly service will be continued until Oct. 1. The board of control will be asked to consider the fact that there is little to be gained from the conference with the company's officials. There is a clause in the local bylaw which stipulates that an adequate service must be given. F. R. Hall, K.C., has told the board of control that if this clause is violated, an appeal can be taken to the railway board. Most of Burlington lines are residents of the hamlet for the summer months only, and the majority of them have returned to the city, so that the service now is not congested.

FARMERS NOMINATE COMMONS CANDIDATE

United Association of North Ontario Place President Halbart in the Field.

Beaverton, Sept. 16.—The United Farmers of North Ontario at their convention here this afternoon, nominated R. H. Halbart of Melancthon Township, Dufferin County as their candidate for the Commons constituency at election, caused by the death of the late Col. Sam Sharpe. The convention was attended by about 250 delegates from the various clubs throughout the constituency. T. C. Wingard of Thorah, presided. Mr. Halbart addressed the convention at some length, contending that the farmers were loyal and determined to win the war, but that the production of food was one of the most essentials and that if inexperienced help could be used for this purpose, the expenditure on the teaching of scientific agriculture should be reduced. After a motion that it was the opinion of the meeting that an independent farmer should be nominated, Mr. Halbart was nominated, but all withdrew except Mr. Halbart and R. C. Brant of Cambridge. The ballot showed a large majority for Halbart. The latter, who is president of the United Farmers of Ontario, accepted the nomination and declared that if elected he would have the backing of all the United Farmers.

BOLSHEVISM DEAD IN ASIATIC RUSSIA

Leaders From Sretensk to the Volga Either Hanged or Hidden.

Vladivostok, Sept. 15.—Bolshevism from Sretensk, in trans-Balkalia, to the Volga, in European Russia, is dead. The Bolshevik leaders in this region have been hanged or have hidden themselves, while the misled red guards, who are arriving here, have renounced Bolshevism forever. The soldiers are returning to the fields and the workmen are resuming work at the factories. A solid foundation is ready to be laid for a new Russia, from German clutches. Four thousand Czech-Slavs have fought their way for a distance of more than 2500 miles in three months. They speak, therefore, they say, from experience, and they claim the facts given should be sufficient grounds for the concentration of entire allied action, the despatch of troops and munitions and the forwarding of raw material to the Siberian factories.

LEADERS ENDORSE HUT CAMPAIGN

Letters From Sir Robert Borden and Sir Wilfrid Laurier to Knights of Columbus.

Ottawa, Sept. 16.—The Knights of Columbus, who inaugurated today a nationwide campaign for a fund of \$500,000 in connection with the Canadian army hut campaign, have received letters of endorsement from Sir Robert Borden and Sir Wilfrid Laurier. The premier's letter to Chairman Lyons says: "I have already made a contribution to the fund raised in Halifax by the Knights of Columbus for the same purpose, but the cause which you are supporting is so worthy that I gladly send an additional contribution to the fund here." Sir Wilfrid Laurier's letter says: "The citizens of Canada, without distinction of race or creed, will generously assist the military chaplain service and the Knights of Columbus in carrying on the welfare work which they have undertaken and which resembles to a great extent the excellent work which is being carried on by the Y.M.C.A. "Both have for their ultimate object the physical, moral and mental health of our soldiers who are standing between us and German militarism."

SHOWED HIS LOVE BY KILLING WIFE

Newspaperman, Intimating Suicide, Wrote He Could Not Leave Her Alone.

HAD BEEN GOOD PAL

Search is Now Being Made for Body of Well-Known New York Editor.

New York, Sept. 16.—Mrs. Charles E. Chapin, wife of the city editor of The New York Evening World, was found dead with a bullet wound in her head in the bedroom of the Chapin apartment in the Hotel Central, behind here late today. Discovery of Mrs. Chapin's body followed the receipt by Don Settle, business manager of The Evening World, of a letter signed "Charles E. Chapin," in which the writer hinted at suicide and added: "My wife has been such a good pal I cannot leave her alone in the world." The police immediately began search for Mr. Chapin, but up to late hour tonight he had not been found. Mr. Chapin has been in failing health for several years, and for the past year he has been constantly under the care of a physician. This letter received by Mr. Settle late this afternoon said: "I have been living with my wife for 49 years, and have been happy during that time. I am conscious of being on the verge of a nervous breakdown, and it is apparent that the time is close by when I will completely collapse. When you get this letter, I will be dead. My wife has been such a good pal I cannot leave her alone in the world." The writer concluded with directions as to the disposition of his body and his property. When the police entered the Chapin apartment, they found the body of Mrs. Chapin lying on a bed. Physicians said she apparently had been dead since early morning. No one could be found who had been shot. Mr. Chapin has been city editor of The Evening World for 20 years, and is one of the most widely known newspapermen in the country.

ORANGEVILLE OFFICER IS KILLED IN ACTION

Orangeville, Sept. 16.—Mayor and Mrs. Thos. Henderson received a message yesterday informing them that their eldest son, Lieut. Clifford Henderson, had been killed in action. Lieut. Henderson was a first year medical student in Queen's University when he enlisted in March, 1915. He went overseas with the Queen's Medical Corps in June of the same year, and was afterwards sent to Egypt, where he served in a British military hospital near Cairo. Returning to the western front, Lieut. Henderson was on a hospital staff in Etaples, France, for a considerable time. He then transferred to the 75th Battalion and was in the fighting at Vimy Ridge in April, 1917. Shortly afterwards he was sent to England to take a training course for officers. This completed, he returned to France on March 10 of the present year. A younger brother, Gunner

Will Henderson, is in France with the 17th Battery, C.F.A.

AIR ATTACK ON PARIS BY GERMAN SQUADRONS

Paris, Sept. 16.—Several enemy aerial squadrons flew over the region of Paris this morning. They were subjected to a heavy anti-aircraft fire, but succeeded in dropping some bombs. There were a few victims and some material damage. The official statement on the air raid reads: "Several enemy squadrons came in the direction of Paris during the night. Our lookout posts followed and reported their movements and they were subjected to a particularly intense barrage. Other methods of defense were also put into operation. Several bombs are reported to have been dropped, causing a certain number of victims and material damage. The alarm was given at 1.25 and the 'All Clear' at three o'clock."

LONDON PRESS REJECTS AUSTRIAN PEACE NOTE

London, Sept. 16.—London newspapers, with the exception of The Daily News, emphatically reject the Austrian peace note, regarding it merely as a German trick to enable Hindenburg to pull his armies together and to sow dissensions among the allies. Daily Chronicle: "It is now realized for the first time in Berlin and Vienna that the central powers cannot possibly win the war. After all they have suffered, the entire powers are not going to be bought off with an unreal peace, which could only mean a new war at some moment convenient to the militarists of central Europe. The free nations of the world are determined to hold together until this sinister menace has been finally removed." Times: "The note is the staliest of diplomatic tricks. Austria and Germany hope for its rejection in order to persuade their disheartened peoples and armies that a conclusive reason

exists for continuing the contest. This move will not deceive the allied democracies."

BOLSHEVIKI TO BECOME ALLIES OF IMPERIALISTS

Amsterdam, Sept. 16.—Hints that the Bolshevik government of Russia may seek alliances with other powers are contained in a note addressed to the people's commissaires and soviet by Nikolai Lenin, the Bolshevik premier, printed in The Pravda of Petrograd and republished in The Lokal Anzeiger of Berlin. The note reads: "The position on the Czech-Slovak front is becoming more dangerous daily. We are daily becoming increasingly convinced that also we are powerless. For the soviet government there is only one way out, namely, to conclude a defensive and offensive alliance with another power. In order to save the power of the workers and peasants, we must not even recoil from an alliance with imperialists."

DEAD CANADIAN IS AWARDED VICTORIA CROSS

London, Sept. 16.—The London Gazette announces the award of three new Victoria Crosses, the recipients being a Canadian corporal, Joseph Kaebel, M.M., late of a Quebec regiment; an Australian lieutenant, and a sergeant of the Seaforth Highlanders. The latter, like Kaebel, is dead. Kaebel was honored for conspicuous bravery and extraordinary devotion to duty when in charge of a Lewis gun section in the front line trenches, upon which a strong enemy raid had been attempted.

POLES FORM DIVISION FOR FIGHTING IN SIBERIA

Harbin, Sept. 16.—A movement exceeding perhaps that of the Czech-Slovakia is being organized by Polish officers to form a Polish division to fight in Siberia westward to their oppressed fatherland as integral units in the American army. According to conservative estimates an army of more than 100,000 trained militiamen is immediately available in the regions of Harbin, Nikolai, Vladivostok.

PATROL WORK OCCUPIES AMERICANS IN LORRAINE

American Forces on the Lorraine Front, Sept. 16.—The Germans seemingly are holding the Hindenburg line from which they are sending out patrols while the Americans and French continue to feel out the line by the same method. Aside from slightly increased artillery activity this morning the day thus far has been largely devoted to patrolling by both sides.

TWENTY-SIX NEW SHIPS.

Washington, Sept. 16.—Twenty-six ships with a deadweight tonnage of 147,520 tons were delivered to the shipping board by American yards during the first thirteen days of this month, the board announced today. During the same period 28 steel and wood ships of 150,370 deadweight tons were launched.

COAL SITUATION LOOKING BETTER

Chance for Everybody to Get
a Small Supply
Now.

CRITICIZE CONTROLLERS Manner of Handling Question Discussed by Property Committee.

While the coal situation is far from reassuring, it has been improved as a result of the arrangements made yesterday at a meeting of the local coal dealers and the members of the board of control. It was decided that those who have coal in their cellars may apply to the property committee at the city hall and receive an order from him for a small quantity—probably a ton—which will be filled by the dealer nearest to the applicant. By this means every household is at least assured of some coal and will not be left entirely without aid.

The dealers also agreed that it would be necessary for them to cancel their large orders so as to be able to take care of the many small orders they expect to receive. So that they may be better able to deal with them, an order, which must be sent in in writing, will be received at the city hall until after Sept. 25.

The manner in which the coal situation has been handled by the board of control came in for some strong criticism at yesterday afternoon's meeting of the property committee, when the appointment of T. W. MacClain was recommended as assistant controller of the city. The committee was not in favor of the appointment, but it was felt that the appointment might be considered as a sort of endorsement of the board of control's actions, and this the committee does not intend to do.

ANXIETY INCREASES THRUOUT EARLS COURT

The past few days have increased the anxiety of Earlscourt citizens as to their coal supply, and notwithstanding the fact that local organizations such as the Earlscourt Central and the Earlscourt Women's Club are all doing their best to meet the coming trouble, the pessimism shared by both private citizens and the merchants is most marked.

The dealers in wood are now filling orders as far as their stock allows, but even this commodity is limited, except for the soft wood which is not suitable for burning in furnaces. The outlook is anything but bright for Earlscourt this winter.

ONTARIO TWO YEARS ON THE DRY SLATE

Yesterday marked the second anniversary of the advent of a dry Ontario. Rev. Ben Spence, secretary of the Dominion Alliance, expressed himself as well pleased at the progress made. Some of the evils and gaps left by the act were discussed by the legislation and law enforcement committee, and it has been decided to petition the government to have these gaps stopped, such as the prevention of the sale of native wines.

AVIATOR GETS SEND-OFF

A hearty send-off was given to Lieut. F. J. Howarth, R.A.F., on Monday night at his home, 45 Galt avenue, on the occasion of his departure overseas. Howarth, a member of the party was followed by an impromptu concert, after which many beautiful presents were given to Lieut. Howarth by his friends. A number of years he has been prominently associated with St. Joseph's Club, and has taken an active part in athletics. He was also a member of the debating team of St. Joseph's.

PERMIT TO STORE WOOD ON VACANT LOT GIVEN

The application of William Robertson for permission to store firewood on a vacant lot in the rear of Pendrith avenue came before the property committee yesterday afternoon and was on its way to the city council for consideration. It had previously been opposed by people in the neighborhood on the ground that it would create danger from fire and depreciate surrounding property.

PRAYER BOOK NOW IN SYNOD'S HANDS

Revision is Discussed and Favored by Committee in Charge.

CANTERBURY TABLE

List of Lessons to Be Changed to Keep Abreast With Mother Church.

Prayer book revision was the chief topic of discussion at the general synod of the Church of England yesterday. In giving the report of the committee the Bishop of Huron said that he was now in favor of changes in the book although he had not been at the time when revision was first considered. The report as presented was the final one, and included three new services—national thanksgiving, family and children's services.

At the afternoon session, the time was taken up in dealing with the preface of the prayer book. On account of the difficulty many strangers had to find the places in the prayer book when attending service in the Church of England, it was proposed to place a set of directions in front of the book, explaining how to find the places.

Premier Massey's Speech.

Premier Massey of New Zealand is a vigorous speaker, and in his address at the civic luncheon yesterday spoke in a downright way of certain problems with which some other statesmen are inclined to deal only by intimation.

Mr. Massey, however, is not in favor of an imperial parliament and a federated empire right away. A constitution, he said, could not be made in a day, but the past two years had seen great constitutional changes.

There were other cases which were rushed through with almost as much speed, and in this respect if in no other these gentlemen are far removed from the board of control, as the new Union Station is from completion.

Then came the ever-talked-of fuel situation. It will be in the same class as when they began providing fuel for that every man will ultimately resign, and no amount of coaxing will change his mind, but the question appears to be, who can fill his place?

Mr. Massey as to the "constitutional changes" that have been brought about in the past two years may be explained by the fact that no binding action has been taken by any of the overseas nations in respect to the recent inclusion of their prime ministers in the war cabinet.

Then there is the usual absurd assertion that the Central powers are only waging a war of defence, when Von Pauev is declaring that they must retain Belgium and that the Treaty of Tilsit must not be interfered with by the entente.

President Wilson laid down definite and irrevocable terms of peace long ago, and there is no intention on the part of the entente alliance to back down from that position.

Once more the Bureau of Municipal Research has prepared an analysis of Toronto's budget for the current year. It is intended as a means of setting the example for next year's estimates.

Playing Germany's Game. Guelph Herald: The only safe and enduring peace is that determined by German soil. If labor lends itself to any compromise it will be favoring the enemy and allowing a loophole for keeping the world in arms in preparation for a war to follow.

The Big Issue. Hamilton Herald: We gather from the new Laurierite weekly, The Statesman, that, for Canadians, the most important problem of the war is how "Bordenism" is to be discarded and the Union government overthrown.

Sir Robert's Views Sound. Guelph Herald: Sir Robert Borden's views as to the business management of Canada's railways are as sound as his views on political control.

From Canadian Papers. The analysis prepared by the bureau deals with the estimates; with public service enterprises, and with assessment and taxation facts for the decade.

Canada Permanent Mortgage Corporation. Established 1885. President W. G. GOODERHAM. First Vice-President W. D. MATTHEWS. Second Vice-President R. S. HUDSON.

IDA GOES TO THE CITY HALL

BY IDA L. WEBSTER.

Yesterday the property committee had its first meeting since the holiday season, and after looking the flock over, we must say that the vacation must have done the various gentlemen a lot of good, because they certainly appeared to be in the pink of conditions.

The first discussion, or rather case, which was up for discussion, was that of Mr. Roberts, you know the man who made so strong a plea for a permit to start a wood yard, the other day before the board of control.

THE WIFE

By JANE PHELPS

CHAPTER XXXVIII

Brian Finds Out That Ruth Wears Expensive Clothes.

The invitation for Mrs. Curtis' dinner came just as Brian was leaving for the office. The note had said the dinner was to be informal, and Mrs. Curtis had added: "Please don't dress."

"Thank goodness for that!" he had said. Brian hated to dress for dinner. He was naturally indolent, and unless the occasion was a particularly formal one, he objected to wearing a dress suit. Ruth was exactly the opposite.

"Why did he look so uncomfortable when he himself was the one to mention her?" Ruth said aloud as she closed the door. "He looked sort of guilty. I wonder—she didn't finish the sentence, but as she dressed for the shot she looked very serious, and once or twice she sighed a little."

Occasionally there came to Ruth a feeling that perhaps she had made the mistake in marrying Brian until he had advanced further in his profession. She had also wondered once or twice why she had made a blunder in taking a position, but as she quickly dismissed the idea, why should she do things that were disagreeable and so save thirty or forty dollars a month (which a servant cost them), when she could do something she really loved to do and earn forty a week?

"No, if Brian were foolish enough to be hurt, why he would have to be, for a while, until he became more reasonable. He would come around after a while, just as he had about the moving. When he had seen that it was feasible, he had been very nice about it. She never dreamed, however, he had consented simply and solely because of her remark that it would give him a better standing. She had thought it might have some weight, of course, but that he would have absolutely refused to move had she not put it upon the table, she had no doubt."

The dinner was to be at seven o'clock. Ruth took particular pains with her dressing, and she looked very chic and lovely. She wore a black dress, with a white collar and cuffs, and slipped her pearls around her neck. She had not intended to wear them, but she would look her very best because she had wished, while dressing, that it had been a formal affair, so she could have worn one of her lovely dresses. She wore a black dress, with a white collar and cuffs, and slipped her pearls around her neck.

"I am so glad you think I look nice," she said impulsively when she joined him. "That's a stunning dress!" Ruth was so pleased that she forgot all about Mollie King, that she had really dressed to please. Brian, who had been looking at her with a certain admiration, said: "I am so glad you think I look nice."

"No one could ever say that about you," he said, looking at her. "Then, a thought striking me for the first time, he asked: 'How much did that dress cost?'" "Aunt Louisa paid two hundred dollars for it. Of course, that did not include the slippers and stockings."

Open-mouthed, Brian stared at her. In all the months they had been married the cost of her clothes never had been mentioned. "He had not the slightest idea of the cost of such clothes as Ruth wore. He had asked the question only once, and she had said: 'It's lovely, isn't it?'" Ruth went on: "Aunt Louisa bought it at the same shop she has bought her own clothes for years. That's where most of my trousseau dresses were made."

"And did the rest cost as much?" "Why—yes, most of them. Some more, some less. Ruth never talked of clothes."

"How in the world are you going to get any more when you're out? Any more of that kind, I mean?" Ruth laughed heartily at his frightened expression.

"Oh, I guess I'll manage to get them some way."

"Not that kind, Ruth," he said soberly. "I never dreamed women's clothes cost so much. Then his face lightened. 'You must find out where Mollie gets her clothes. She always looks pretty, and she has scarcely any money. Will you need any more?'"

He happened to think that she said nothing about new clothes to him, and she hadn't been working long enough to do very much about replenishing her wardrobe.

"No, not very soon," she replied. But all the way to the dinner she was thinking quite a deal about it. Some nothing about her clothes, their cost, etc., and she was his wife. How was it he was so well posted about Mollie King's affairs? How did he know that Mollie had scarcely any money? Then her lip curled. "The idea that she would wear the cheap sort of things a girl like Mollie King would wear! It was ridiculous."

Sometimes Ruth forgot that she was no longer being supported by her husband.

Tomorrow—Ruth Overhears Brian Tell Mollie King Things Which Annoy Her.

Kumagai - - 3 Throckmorton 1

JAP EXPERT WINS ONTARIO TITLE

Play of Highest Order Shown in Lawn Tennis Final on the Toronto Club Courts.

Thanks to the graciousness of the weather man in keeping off the rain for three and a half hours yesterday afternoon the final in the men's open singles event in the Ontario championships was played. Despite the threatening weather several hundred people were present at the Toronto Tennis Club when Mr. Ich Kumagai of Japan and Sgt. Harold Throckmorton of New York took their places on the court at 2.45 p.m. The title would go to the winner of the first three sets out of five. The meeting of these two sterling exponents of the game brought forth tennis of the highest order and the interests of the spectators was held till the last stroke was played.

Kumagai won the toss and elected to serve. After going to deuce several times the game went to Throckmorton, Kumagai retreating by taking Throckmorton's service, losing only two points. Each then won his service till the sixth game, when Throckmorton dropped his service. With the score 4 games to 2 in his favor, Kumagai served out and then broke thru service, winning the first set six games to two. Throckmorton played brilliantly, but the accuracy of the Japanese gave the latter the set by a wide margin.

The second set alternated with the services until the score, 3 games to 2 was reached. Kumagai leading. Here he again broke thru service, winning the set six games to two. Throckmorton served out and then broke thru service, winning the second set six games to two. Kumagai again lost his service and Throckmorton, serving out the 10th game, won the set six games to four.

Throckmorton's game fight against seemingly hopeless odds to beat a man greatly appreciated, and the gallery were many times roused to the highest pitch of excitement by the brilliant and scintillating racquet work of the American. After seven minutes he was usual after the third set the players elected to continue without stopping.

Kumagai began serving and won both his own and opponent's service in deuce games. He then served a game to love, leading 4 games to 0. Throckmorton took the next two games, but dropped his service in the sixth game. The seventh and eighth games went to the service. Kumagai now had 5 games to 3, and then served out the 10th and final game, winning the set 6 games to 3 and the match 3 sets to 1.

Ladies' Singles.
In the ladies open singles the semi-finals were concluded. Mrs. Bickie meeting Mrs. Marburg and Miss Zinderstein of Boston playing Miss Best. Mrs. Bickie won her match by the score of 4-6, 6-1, thru splendid all-round play. There were many long rallies in the game, and Mrs. Marburg fought for every point, but Mrs. Bickie's ability at the net was the deciding factor.

Kumagai defeated Throckmorton 6-2, 6-2, 4-6, 6-1.

HIGH SCHOOL RUGBY SCHEDULES DRAWN

Only Six Teams in Senior Series This Year — Ten Juniors.

The High School Rugby League will "carry on" this fall, but many changes will be the order. The high schools have been hard hit by the draft and enlistments, and boys of 20 and over are a scarce article now. Rugby is the only sport for the high schools, and to keep as close to the standard of other years as possible the athletic association executive yesterday decided the only possible scheme to carry on, with two series of the great fall game.

The senior series will have an age limit of 18 years, and the juniors must be 16 years or under. This will allow all schools to get teams together and make it an even break all round. Parkdale, always in the fight for the senior honors in seasons gone by, will only have a limited number of players this year. Very few big boys are left at the west end school, and they will be unable to muster a senior team, even with the age limit in force. This will be Parkdale's first lapse since the league was organized.

The junior semi-finals will take place on Oct. 25, and the final will be staged on Nov. 1, when the seniors will battle for the league honors. Both senior and junior series will open on Oct. 4.

The officers for the year are: Honorary president, Dr. Steele; president, W. Baird; commercial, first vice-president, W. Ferguson; technical, second vice-president, J. H. Adams; harbor, secretary, J. H. Adams; treasurer, T. Barton, Oct. 7, 58 Dorval road, Junction 6827.

COOPER SMEATON IS DECORATED AT FRONT

Montreal, Sept. 16.—Cooper Smeaton, the well-known hockey referee, who went overseas with the 48th heavy battery, is reported to have been recommended for the distinguished conduct medal. He helped to prevent destruction of an ammunition dump which had been fired by enemy shells.

The First Marathon Was the Gamest Guy

The gamest guy in the history of early athletes was Phidippides, the Greek sport who won the first marathon race. This was pulled off 2408 years ago, 490 B.C.

In those days the Greeks were the world's best athletes, and their Olympic games always attracted a lot of stellar talent. Every Hellenic youth was trained in a "gym," and physical torture joints were as numerous in Athens, as places of liquid refreshment in New York or San Francisco. The occasion for Phidippides' great stunt was as follows: The Persians had invaded Greece, intending to occupy the country, and the Greeks naturally resented such a project. A little band of patriotic Greeks opposed the Persians, under Darius, on the plain of Marathon. To use a vulgar but expressive phrase, the Greeks "licked the Persians." The Greeks sought to send the news of their victory to Athens by foot, and the telegraph wires had not been laid. So was the wireless. As for automobiles, well, there assistance was not available. The Greeks sought to send the news of their victory to Athens by foot, and the telegraph wires had not been laid. So was the wireless. As for automobiles, well, there assistance was not available.

Phidippides, an Athenian lad who had won several medals as a long-distance runner, volunteered for the job, and set a record that has never since been equalled. He covered the 26 miles and reached Athens with just breath enough to blurt out the news. He died shortly after.

SOUTHPORT DEFEAT BLACKBURN ROVERS

Several Exciting Tussles on Opening of the English Soccer Season.

New York, Sept. 16.—English soccer got going in full swing on Saturday, several exciting tussles resulting. The return game between Bolton Wanderers and Blackpool was bitterly fought out, ending in a draw. For the second time in two years the United States and the biggest win in the history of the game, being defeated by 6 to 0, and led the table with a fine goal average. Hull City came a bad cropper in facing Bradford City, losing by four clear goals. The London games attracted a lot of attention, large crowds turning out at all the grounds. Chelsea entertained their neighbors, Fulham, and with the great rivalry between the two teams a splendid game ended in the "Penistons" disposing of the "Cottagers" by 4 to 2. The Arsenal kept up their good form of the previous week by scoring their second win in the competition, trouncing Aston by 4 to 0. Stout Men's Suits Genuine Semi-ready in English Worsteds

Plain greys for Men who prefer them

Stout men need not confine themselves to plain greys—we have fancy weaves in Worsteds and Tweeds in sizes and types for the men who like more life in the fabric than these neat greys.

Type E.
Suits marked Type E are for short stout men—they fit perfectly, with coats of right length for men of shorter stature.
Thus: Size 40 is for a man of 5 feet 4 inches.
Size 44 is for a man of 5 feet 7 inches.
Size 46 is for a man of 5 feet 7 inches.

Type F.
Our Suits marked Type F are for stout men of the average height, with coats cut exactly their right length, and with due allowance for embonpoint. Thus:
Size 40 is for a man of 5 feet 7 inches.
Size 42 is for a man of 5 feet 8 inches.
Size 44 is for a man of 5 feet 9 inches.

All sizes for short stout men, for average stout men and for tall stout men in the Semi-ready designs.

Naturally a coat made for a man of Type F would look ridiculous on a man of Type E. The Type F coat would be over an inch too long—the waist line would be in the wrong place.

If we have not your size in the pattern of cloth you like best, we'll make it to your exact measure in four days—Special Order—by the Semi-ready tailors.

CHARGED TO SPEAKER**
To Triestian Speaker of Hubbard City, Texas and Cleveland, Ohio, goes the prize for "bone" plays in 1918. With the Cleveland Indians going at top speed, within a stride or two of the leading Boston Red Sox, with a possible pennant victory in sight for the "Spokes," became so enraged when Umpire Connolly waved him out at the plate that he swung his trusty left to Tommy's jaw.
Ban Johnson came thru at once with a suspension, killing all possible chance of a Cleveland pennant until the Teutons are licked.

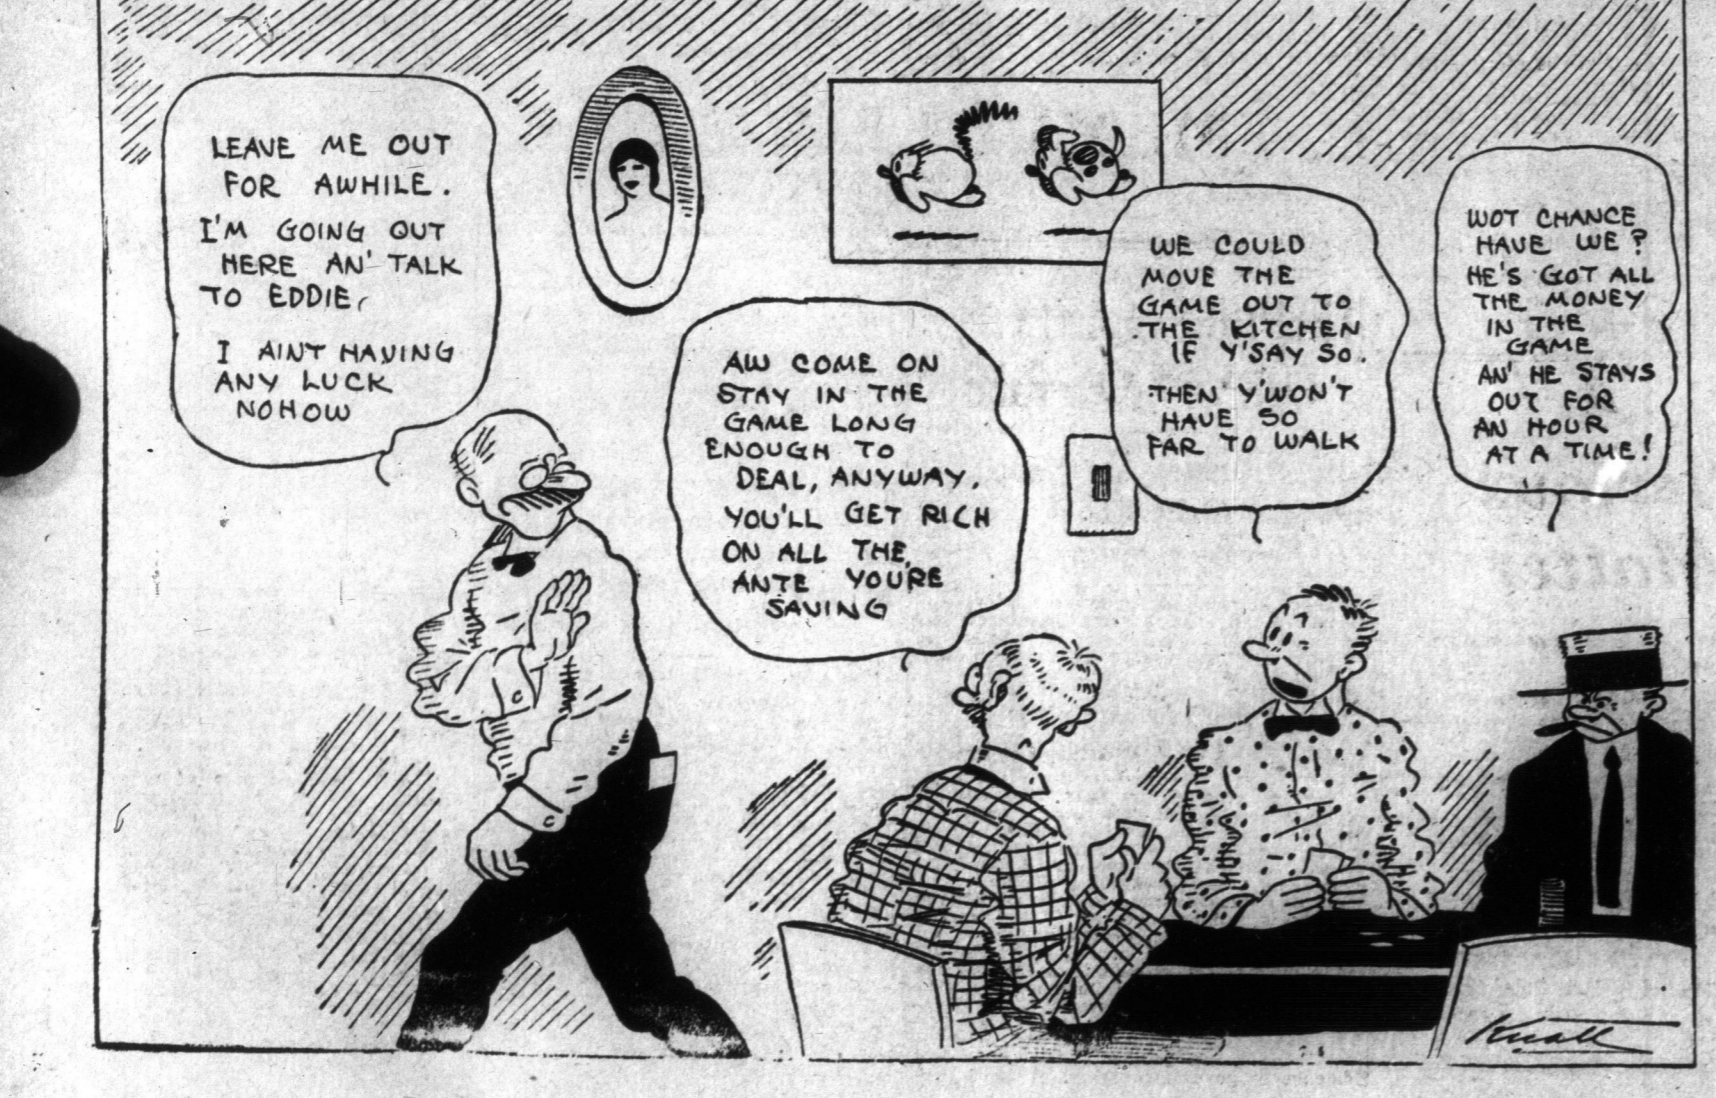

**WOODSTOCK JUNIOR HOCKEY
TEAM WILL BE INTACT.**
Woodstock, Sept. 16.—Last year's junior hockey team, which won its way into the semi-finals for the O.H.A. championship, will be practically intact for the coming season. The only absentee will be Norman Douglas, who will be over age before January rolls around. King and Carson, the two stars of the team, are finishing their education at the college here, and the other boys are either at the collegiate or working in the city. Several lads with enviable home reputations are at the college this fall, and will try for the team. A first-class coach is being looked for, as the fans believe they lost the championship last year thru lack of proper coaching.

BRANTFORD BASEBALL.
Brantford, Sept. 16.—The Pratt & Lynchworth nine carried off the championship of the City League here in a sudden death game on Saturday, after being positioned for three days because of bad weather. The only run was scored by the Malleables, Johnson being air-tight, limiting the Veritys to three hits. As a result of their play Saturday the Malleables will play Hamilton here on Wednesday in the semi-finals of the Ontario Amateur Baseball Association. The score:
Veritys..... 0 3 2
Malleables..... 1 5 1
Batteries—Harwood and Sears (Hull) and Lunington.

LABOR PARLIAMENT OPENS SESSIONS

Congress Refuses to Pass on Committee's Motion to Repeal M.S.A.

CRITICISM ILLEGAL

Executive Report Deals With Growth of Organized Labor During Year.

Quebec, Sept. 16.—The Trades and Labor Congress opened its first business sessions at the convention here in Columbus Hall this afternoon with four spirited debates on questions upon which the delegates were clearly divided. The first was a motion to pass on to the resolutions committee recommendation that the Military Service Act should be repealed. The congress refused, by a large majority, to let the resolutions committee consider the matter. The second was the application of a number of Russian workers in Toronto to allow their delegates to be heard on the floor of the convention. The request was refused because the Russians were not members of the trade unions. The third was the recommendation that a message of greeting be sent from the congress to the Canadian army. This was opposed because it had not come up as a recommendation of the resolutions committee, but was submitted to the convention by P. Draper, secretary, at the request of Senator Robertson, and finally carried amid cheers. The last issue dealt with the time and day of electing members and was indicative of the keenest interest with which the election is regarded. The recommendation in reference to the Military Service Act came from the International Union of Marine and Socialists' Union of Montreal. It reads as follows: "We demand the immediate repeal of the Military Service Act."

Secretary Draper pointed out that, as the recommendation was in the form of a resolution and had not been deposited with him ten days before the congress, it would require a two-thirds vote to get it considered by the congress. He reminded the delegates that at the last session of the congress in Ottawa legal advice was taken upon the committee's motion that it was illegal to condemn the act. He asked that a vote be taken as to what disposal was to be made of the resolution.

J. D. Houston, Montreal, said he supported the motion to send the resolution to the committee because "we were now making war on the Russians without asking the people for their endorsement." Michael Bahay, Montreal, said he thought it would be all right to discuss the matter in a light of present conditions. After a two-hour debate on the constitutional side of the matter, during which all consideration of the merits of the resolution was vigorously voted by President Watters, the congress decided, by a vote of 304 to 115, to refuse to pass the motion on to the resolutions committee.

Would Not Hear Russians. The application of the Russian workers for permission for their delegates to speak at the convention was made by W. C. Cassidy of Montreal. Secretary Draper summarized the case for those opposing the Russians by saying that if the congress opened its doors to every movement and allowed its business instead of the affairs of trade unionism, it would never get its work done. He advised the Russians to join unions if they did not want to be persecuted.

Among the greetings sent the congress was the message from Senator Robertson, who urged that a message should be sent to the soldiers in France. Secretary Draper moved that greetings be sent to "our army," as suggested.

Mr. Kavanagh said the motion should be debatable, or sent to the resolutions committee. He objected to the congress being stamped by a message from Senator Robertson. A vote taken on the motion to favor sending the greetings to the soldiers was carried overwhelmingly.

The question of election day for officers brought out two motions, one by T. A. Stevenson, that Thursday, and the other by John M. Bruce, Toronto, that they select Friday at three. There were four amendments to the motion submitted by Mr. Stevenson and several speakers to each. Finally Mr. Bruce's suggestion was accepted.

Some doubt existed this morning as to the position of President Watters, who has been refused credentials by his union. It was established this afternoon that Mr. Watters is entitled to take his place in the convention to run for office again, under an amendment to the constitution passed at Ottawa last year.

The Executive Report. The report of the executive committee recorded the growth of the organized labor movement. At the close of 1917, the membership for all classes of trades unions was 204,680, compared with 174,000 in 1916, a total increase for the year of 44,228 in membership and 132 in local unions. During the year 1917 there were 4893 trade unionists enlisted for active service. With the enforcement of conscription, the total of unionists with the army rose to 32,000.

ALLIES NEED MEN FOR VOLGA FRONT

Released Prisoners of War Compel Bolsheviks to Fight.

UKRAINE MAY REVOLT

Berlin Fears Untoward Happenings—Can Operate in Winter.

Olovannaya, Transbaikalia, Sept. 16.—If the allies intend to combat the German forces in Russia and to save the Russians from falling under the German yoke it is absolutely essential that troops be sent immediately to the present eastern front along the Volga. This is the opinion of General Galda, the commander of the Czechoslovak fighting on the Volga, who has arrived here from the west. Along the Volga the Czechoslovak units, aided by newly organized Russian units, the general said, are attempting to press westward against greatly superior enemy forces which increase daily owing to the mobilization of released Austro-German prisoners. The Bolshevik red guards, he added, would have stopped fighting but for these prisoners who were ordered to enter the Bolshevik ranks by Berlin when it became known there of the situation in Siberia. Berlin also fears untoward happenings in the Ukraine. There is unbounded enthusiasm throughout Siberia owing to the deliverance from Bolshevik rule through the activities of the Czechs. East of the Urals mountains volunteers are flocking to the Siberian railway to join the new Siberian army. Twenty thousand men already are under arms. The 1918 and 1919 classes have been ordered mobilized and are making a splendid response.

Enthusiasm in Siberia. General Galda said he believed it would be fatal if the present enthusiasm in Siberia was permitted to die out. In a few months Russia would possess an army capable of fighting the Germans to the frontier, if the allies will send troops to aid the Czechs in their work of reorganization. Within the territory freed from the Bolsheviks by the Czechs are between 800,000 and 400,000 Austro-German prisoners. Formerly they roamed about the country at will, but they now have been placed at useful work. To guard the prisoners and protect the railways, lines of communication and important towns a considerable portion of the Czech forces east of the Urals are required. In addition to the number of the contingent, commanded by General Dietrichs.

It is declared that there is sufficient food and supplies for the maintenance of a large army. The winter period is quite suitable for military operations in south Russia. The Czechs are now searching in all directions for news of their children, and women were seeking vainly for their lost husbands. It mattered nothing that warm, dry clothing was distributed to the place of the scanty attire the survivors snatched as they left the ship. Their one thought was to get news of their relatives and friends.

VESSEL TORPEDOED WITHOUT WARNING

Hundreds of Survivors of Galway Castle Arrive at Plymouth.

Plymouth, Sept. 16.—Heartrending scenes were witnessed here when hundreds of survivors of the torpedoed steamer Galway Castle were landed at 7 o'clock Thursday morning. The passengers were mostly women and children, and it is believed that whole families have been lost. Among the survivors were little tots scarcely able to walk, crying in vain for their parents. Parents were searching in all directions for news of their children, and women were seeking vainly for their lost husbands. It mattered nothing that warm, dry clothing was distributed to the place of the scanty attire the survivors snatched as they left the ship. Their one thought was to get news of their relatives and friends.

MONSTROUS THING TO FLOUT PROPOSAL

Manchester Expansion Favors Some Expression of Views.

Manchester, Eng., Sept. 16.—The Guardian, discussing the Austrian peace note, asks if the central powers would be willing to restore the countries they have overrun, reverse the Brest-Litovsk treaty set Russia free and leave Poland, Lithuania and the Ukraine to determine their own destinies. "These are among the questions which the allied governments are entitled to ask before consenting to enter upon confidential negotiations," The Guardian declared.

Crew Five Days Exposed In Open Boat on High Seas

An Atlantic Port, Sept. 16.—After five days' exposure in an open boat, sixteen of the crew, including the captain, of the Portuguese steamer Leikwas arrived here today, reporting that their steamer had been torpedoed in the North Atlantic five days ago. It is feared that three other boats, with thirty-five men, the remainder of the crew, have been lost. The survivors who landed here suffered considerably during their five days at sea in the boats.

Mitchell, thigh, slight; T. N. Rowing, face, severe.

ALLIES GIVEN CHANCE TO SET FORTH WAR AIMS

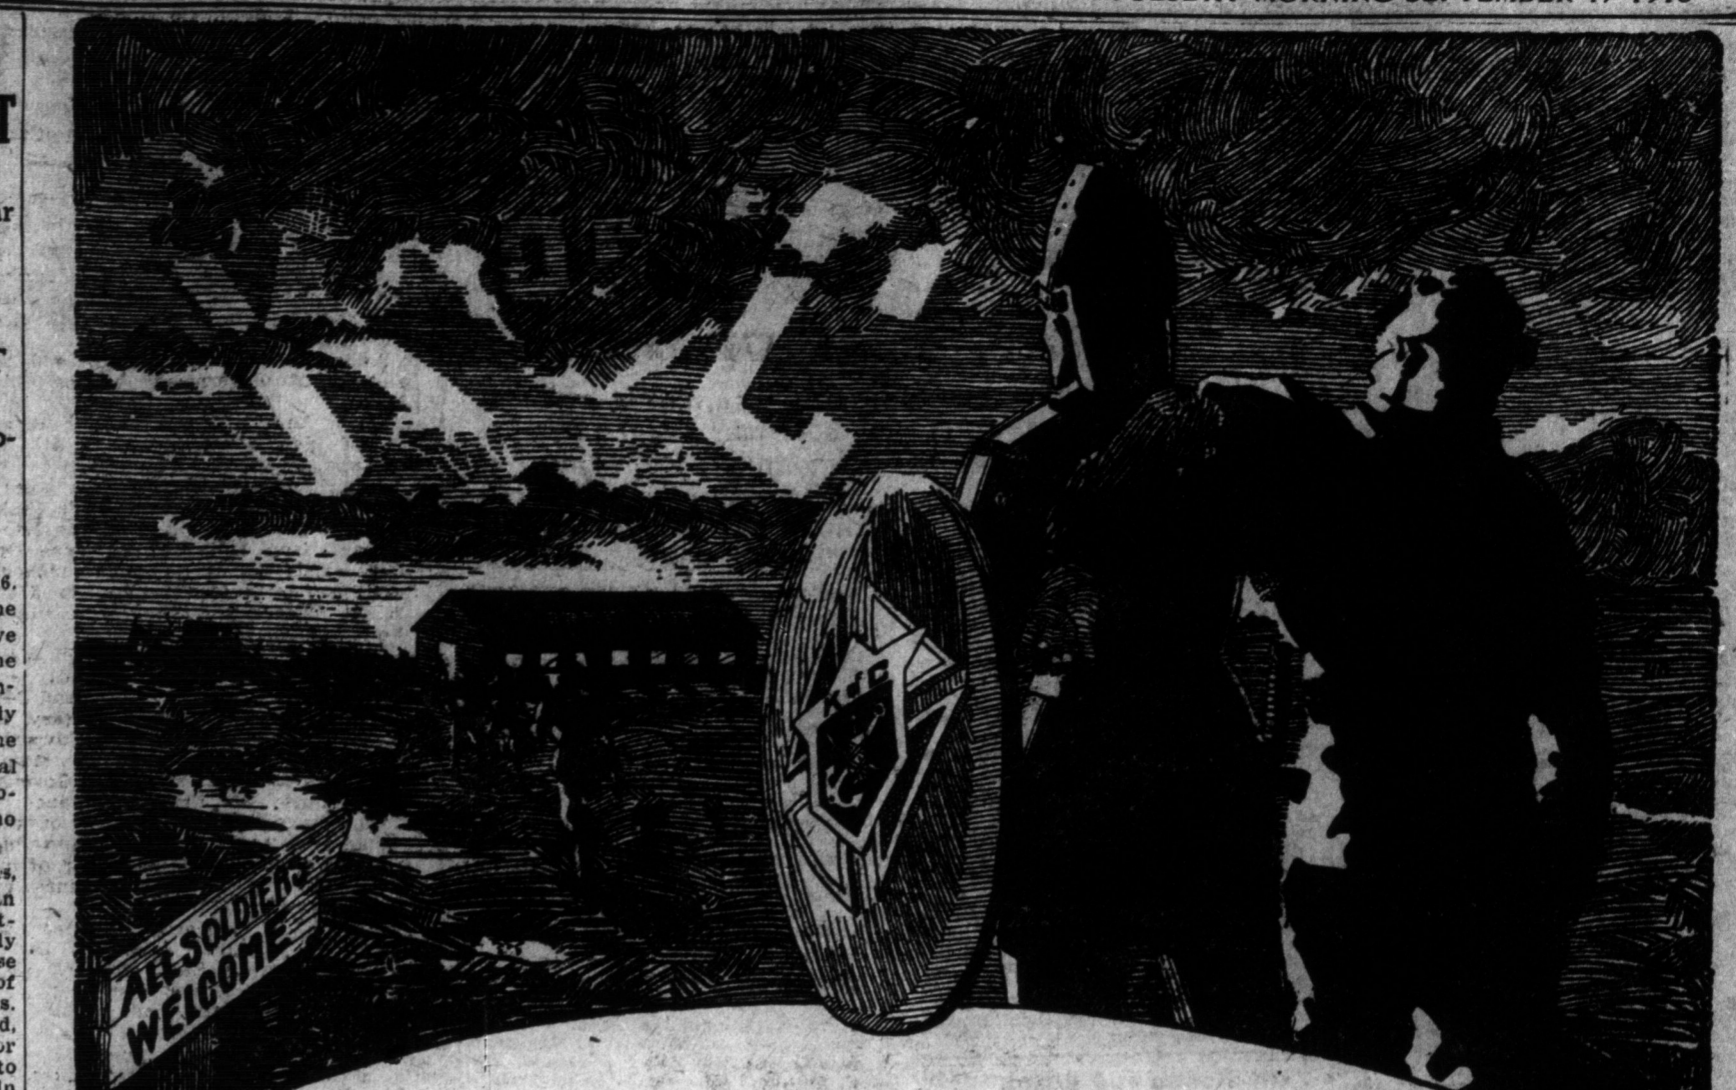

London, Sept. 16.—The Westminster Gazette considers that the Austrian note gives the entente powers an opportunity to set forth anew their idea of the world as it should be after the war, the world of a league of nations. "That and not the contemptuous negotiation which some people seem to favor is the right way to challenge the German war aims and to appeal beyond them to the peoples of Austria and Germany." Referring to Vice-Chancellor von Payer's speech, which the newspaper says contemplates an unqualified German victory in the east, The Westminster Gazette concludes:

LACROSSE PLAYER DEAD

St. Catharines, Sept. 16.—Word was received today that Serg. Howard "Finn" Reid, who was on Saturday reported, gassed and seriously ill at Bologna, had died. For several years he played cover point on the Athletic Lacrosse Club.

DIED OF TETANUS

St. Catharines, Sept. 16.—Mrs. H. T. Bell, of this city, formerly of Grimby, died at the hospital today from tetanus and blood poisoning. At Montebello Park a week ago, during the sports at the picnic of the College street military hospital patients and nurses she fell and broke her wrist.

That HE may NOT need in vain

From across the sea there comes a plea to the loyal hearts of Canada. On the blood-soaked field of battle, suffering the intense anguish of a mortal wound, many a brave Canadian lad is calling, pleading, praying for the relief, the comfort, the assistance of those for whom he is fighting. He has nobly borne his cross, but the barbarism of a heathen foe has placed him helpless at your mercy, and from out the awful abyss comes to YOU his voice, begging in all the pathos of his agony for the relief which YOU can give.

Won't you give as freely of YOUR MONEY as HE has of HIS BLOOD?

There is absolutely no distinction of race or creed. All soldiers are administered to alike.

The amount asked of the good people of Canada during the week of September 15th to 23rd is absolutely necessary to supply the comfort, recreation and relief our boys at the front so badly need.

WON'T YOU GIVE THEM WHAT YOU WOULD WANT IF YOU WERE "OVER THERE"?

Enquiry into Soldiers' Votes in Chambly - Vercheres Election Resumed.

Ottawa, Sept. 16.—Resumption here today of the investigation by Judge MacLennan of Montreal into the Chambly-Vercheres election charges led to protracted examination of piles of military ballots. Envelopes containing the military ballots were reviewed individually to pick out the rejected ones on which the charges made by Mr. Archambault, M.P., last session were based.

FISHING SCHOONER OVERDUE

Missing for a Week and Owners Fear That She is Lost. A Canadian Atlantic Port, Sept. 16.—The Canadian fishing schooner Otokio, 99 tons, which was expected to make port from the fishing banks about a week ago, has not yet returned, and her owners fear that she has been lost. A report that the masts of an abandoned sailing vessel have been sighted at a point on the coast some distance east of here is being investigated by the marine and fisheries department.

BAD STAGE MANAGEMENT IN AUSTRIAN INITIATIVE

Amsterdam, Sept. 16.—The Berlin Telegraph editorially expresses the opinion that the "independent action" of Austria-Hungary will probably cause the entente to redouble its military effort. The Austria-Hungary offer, coming on top of the program announced by Vice-Chancellor von Payer, it comments, betrays bad stage management.

AUSTRIAN PEACE NOTE INSPIRED BY GERMANY

Paris, Sept. 16.—The newspapers in general declare that no attention must be paid to the Austro-Hungarian proposition, arguing that Germany's ally is merely acting as her cat's paw. They see in the new peace offensive a proof of the weakness of the enemy, who is endeavoring to re-establish unity among the powers in the Teutonic alliance while creating division among the entente allies. All the newspapers agree that it would be a most serious mistake for the entente to fall into the trap.

Judge MacLennan is Appointed Labor Appeal Board Chairman

Ottawa, Sept. 16.—The minister of labor has appointed Hon. Justice F. S. MacLennan of Montreal, chairman of the labor appeal board, which has been constituted for the purpose of reviewing findings of boards of conciliation. The other members of the board are: G. H. Duggan and Gustave Franco of Montreal, and John W. Bruce and B. F. Parsons of Toronto.

GERMANS UNABLE TO CHECK FRENCH

Counter-Attacks of Enemy Fail, With Terrific Losses. With the French Army in France, Sept. 16.—The sacrifices the Germans are making to stay the slow and steady advance of General Mangin's force toward the Chemin des Dames are made evident by the large number of the enemy dead found on the field of Saturday's and Sunday's operations. The number of prisoners, which increased during the day to more than 8500, also is very large for the length of front attacked.

LIVE STOCK MARKET

There was an exceptionally heavy run of cattle at the Union Stock Yards yesterday, 6258 head all told, of which a very large proportion were of medium to common quality. For the choice lots, which were few, prices held good and steady with last week. The medium and lower grades saw a slight heavy run, sold from 25c to 40c lower, and slow sale at that. Good stockers and tenders were in demand at steady prices, and anything a little extra choice in the medium class were left unsold, but taking the market as a whole, it was regarded as a pretty satisfactory one.

MARKET NOTES
The representative sales of live stock on the Union Yards, as given in today's World, are complete in all respects, and can make them, and will repay a careful look over by everybody interested in the live stock market. The receipts, 6258 head, are exceptionally large and almost constitute a record.
