KING MAY COME IN 1909 TO OPEN QUEBEC BRIDGE

Three-Hundredth Anniversary of Founding of the City May Be Put Off a Year If His Majesty Will Honor Us With His Presence.

Montreal, Oct. 26.—(Special.)—Will King Edward come to Quebec to attend the three hundredth anniversary of the founding of that city, if the event is postponed till 1909, when the bridge will also be opened?

Ulric Barthe, the secretary of the bridge, says: "It is absolutely useless to expect that the Quebec bridge will be completed in 1908. It is quite probable that the bridge will be ready by 1909, but not before."

"There is another reason for the delay. The visit of Edward VIII. is greatly to be desired, and if the opening of the bridge could be made to coincide with the 500th anniversary of the King of England would be more likely to come to Quebec."

R. L. Borden Takes Up Gauntlet Thrown Down by Mr. Aylesworth and Defends His Opposition to Northwest School Clauses—Not Opposed to Separate Schools.

Kincardine, Oct. 26.—(Special.)—R. L. Borden was the chief speaker at a great Conservative rally in the opera house to-night. The theatre was filled to the doors, and the utmost enthusiasm prevailed.

Col. Hugh Clark, M.L.A. for North Bruce, also spoke. Mr. Locombe, K. C., was chairman, and also on the platform were Mayor Temple and Rev. Messrs. Ryan and Miles.

Colonel Clark spoke of the record of the government as one of a series of practically uninterrupted broken promises. They had promised economy, but the only instance of economy had been of Hon. Clifford Sifton, who, out of his small salary as minister of the interior, had been able to save a million dollars.

Mr. Borden dealt with the prosperity cry, the school question, and the scandals which had alarmed the country. He had challenged the government to place a finger upon one act of theirs which had been conducive to the present prosperity.

Mr. Borden said he had not desired to touch upon this matter. Hon. Mr. Aylesworth had, however, thrown down the gauntlet, and he was obliged to take it up, and to repeat what he had contended for in the House of Commons.

INSPECTOR LETS BARTENDER GO DR. JESSOP RE-INSTATES MAN

St. Catharines, Oct. 26.—(Special.)—St. Catharines license commissioners have raised a perplexing question, which may have to be answered shortly.

Inspector King was making the rounds of the hotels he heard William Church, bartender at the St. Catharines House, ask a man against whom papers had been issued what he was going to have.

After lecturing the proprietor Mr. King discharged the bartender and put him out of the house.

Later Dr. Jessop, with Commissioner Hudson, visited the hotel and reinstated the bartender, who claims he did not sell drink to the man and that no papers against him were in the house.

Dr. Jessop and Mr. Hudson contended that the inspector should discharge no man before giving him a fair opportunity to explain the circumstances.

FOUR DAYS ON SEA VOYAGE WITH HALIFAX TERMINAL DREAM OF MONTREALER

Sir George A. Drummond, Home From Britain, Says Faster Boats and Improved Land Service Will Prove Superiority of Canadian Route.

Montreal, Oct. 26.—(Special.)—"I want still faster boats, and if the federal government would only grant running powers over the Intercolonial Railway from Halifax to Montreal to both the Canadian Pacific and the Grand Trunk, the problem of a four-days Atlantic sea voyage from Canada to Great Britain would be solved."

Sir George A. Drummond, president of the Bank of Montreal, returned to-day from England, more firmly convinced than ever of the soundness of the policy of utilizing Halifax as the all-the-year-round Canadian seaport for a fast steamship line between the Dominion and the motherland.

Sir George had been discussing the matter with Lord Strathcona, and while the high commissioner is strongly in favor of a 24 knot service on the lines just indicated, Sir George thinks that the object can be obtained with ships of a little less speed.

He had never before crossed in such fine boats as the Empresses, but he says we must have faster ships and more of them. The present time on the I. C. R. can be cut down very considerably and with the faster ships to Halifax, New York will be outdistanced completely.

WESTERN CANNERIES, LIMITED

WINNIEG WESTERN CANADA CAPITAL \$1,000,000

In 5,000 Shares of Ten Per Cent. (10%) Preference Stock and 5,000 Shares of Common Stock.

THE ONLY PACKERS OF The Beef, Pork and Other Food Products of the Ranches and Farms of Western Canada.

The only Cannery of Meat Supplies in the Provinces of Manitoba, Alberta and Saskatchewan.

EASTERN ISSUE OF 2,000 TEN PER CENT. (10%) PREFERENCE SHARES OF \$100 EACH

NOTE-The two thousand shares of this issue are 10% Preference Shares. The Western issue having been wholly taken up by the Ranching, Farming and Commercial Men of the West.

CALLS-\$10 per share on application and \$10 per share on allotment, and the balance in calls of \$10 per share as required at intervals of not less than two months.

A limited number of shares are reserved for the several Provinces of Eastern Canada.

This company has been organized amongst western men, and a large number of the principal farmers, cattle ranchers, and commercial men of Alberta, Saskatchewan and Manitoba are already shareholders.

Over Imperial Bank of Canada (First Floor) Corner McDermot Ave. and Albert Street, Winnipeg.

Prospectus. This company is organized with special powers under its charter to engage in the business of a General Canning and Packing Company.

Efficiency-The Company, with its superior equipment, will handle in an efficient manner all the products of the Dominion.

Goods Packed-The principal staple pack of the Company will be canned meat, of which beef is the most important.

Demand-Owing to the virgin field open for the Company's operations, coupled with the general rise in the price of canned beef and other foods.

Canneries Essential to Progress-The establishing of this industry, with ample capital, is one of the pressing needs of Western Canada.

Field Unlimited-The field for the Company's operations is practically unlimited, and being the only cannery existing in Western Canada.

Money Circulated-In addition to the above, the purchase of the raw material required for the Company's operations will place large sums of money in the hands of the rural population.

Only Cannery in Central Canada-Strange as it may seem, this is the first undertaking of this nature attempted in Canada west of the Great Lakes.

Central Position-Western Canada (being the great centre of the agricultural and pastoral industries of the Dominion) will without doubt very soon become the centre of the packing industry of Canada.

Magnitude of Operations-The magnitude of the operations involved is hardly yet realized in the Dominion.

Remunerative Business-So profitable has the business proved in the United States that many of the canneries are being bought up.

Profits-The profits of this business are well known to be very substantial, and the magnitude of the operations may be gauged from the business transacted by the Chicago packing establishments.

Location-The reason that Medicine Hat has been selected for the Company's first cannery is that, in addition to being the centre of a large cattle-producing region, fuel, also an important item, equalling elsewhere some 15 per cent in cost of production.

Buildings-The Western Canneries of Canada, Limited, will commence business in substantial premises, specially erected for its use on its own freehold land.

Railroad Facilities-Being on the main line of railroad, all the utilities of the great cities are available.

The Canneries being erected on the line of railway, and on the banks of important rivers, will command the main arteries throughout the whole of Western and Central Canada.

Canning Industry Report-Extract from Report, June 30th, 1905: An interesting brochure published by Swift & Co., the Chicago packers, gives statistics of the past year's business.

Output-Western Canneries-On completion of the machinery and plant, the capacity of the cannery will be 2,500 cases of four dozen per day, in value from \$14,000 to \$23,000 at the factory.

Extensions-The Company will increase the capacity of the building, machinery and equipment as required, on a scale commensurate with the requirements and the vast resources in raw material available in Central and Western Canada.

Staple Goods-The lines of goods handled by the Company are practically cash in the markets of the world.

Local Consumption-Although of minor importance, yet it may be mentioned that the local consumption in Western Canada is by no means inconsiderable.

Plant and Equipment-This cannery is to be thoroughly equipped with a plant capable of packing 2,500 cases of canned goods per day of ten hours, and will pack or can beef, pork, mutton, butter, cheese, etc.

Double Seaming Plant-The double seaming system of making and closing cans is the latest and most approved up-to-date method employed in canning operations.

The following Shareholders have all paid their money on equal terms, and have subscribed for the western issue of the Company's stock.

Other representative Eastern Canadians are invited to join the undertaking, thus securing the absolute control of this business for the future in the hands of Canadians.

STOCKS OF PACKING HOUSES.

Profits Earned on Operations, With Ratio of Dividends Actually Paid.

As the stock of most packing establishments elsewhere is watered down to about 60 per cent of the cash invested, in order to avoid the appearance of excessive dividends being paid to shareholders, it is evident that a company organized on the sound basis of this one, that an annual dividend of two hundred (200) per cent. per annum is a very moderate anticipation.

In prospectus of this kind it is no doubt usual and fashionable to estimate probable dividends at from 8 per cent. to 15 per cent. per annum. But in this instance our foundation members have our entire confidence, and taking the present low price of beef into consideration, and the fact that the shares of the Company are not watered down to a low percentage basis, also that the capacity of each cannery is 2,500 cases, equalling about \$23,000 daily, on a profit fully explained on pages 18 and 19 herein, that an estimated profit of 200 per cent. is very modest indeed, and in the present instance more likely to be exceeded, if the canneries of the Company are kept in continuous operation, and the supply of packing material available adequate to the Company's requirements.

The present price of Beef ranges from 2 to 4 cents per lb., live weight, with a falling market value, in sympathy with the downward trend of prices in the United States.

The value of the canned product is from 10 to 20 cents per lb., and it may also be observed that it is practically impossible to glut the markets of the world, the Company's manufactures being meat staples of universal consumption.

IMPORTANT.

The privilege of becoming a Shareholder of this Company, now open to representative Canadians, and thus securing a voice in the control and profits of this important industrial undertaking, will be open for a few days only.

Early application is, therefore, essential for securing an interest in this issue of stock (i.e., 2000 shares), of which a few are still available.

NOTES.

Prospectus and application forms for Preference Shares will be forwarded through the post upon receipt of written request for same.

Shares will be allotted by priority of application. The Qualification for a Director of the Company is a minimum of Five Shares (\$50) fully paid to the order of the Company.

All Shareholders have one vote for each share registered in their name, at all General or Special Meetings of the Company.

Shareholders desiring to pay their Shares in full will be credited with interest at the rate of 5 per cent. per annum (in addition to dividends declared) until calls are due.

The whole of the capital derived from the sale of shares is devoted to the Company's use and requirements, and for building, organizing and equipping canneries and packing houses, etc.

The western issue has already been subscribed by Western Canadians. The Company will commence immediate operations in building and equipping their canneries on completion of this issue of shares in Eastern Canada.

QUESTION OF JURISDICTION.

At Present Interferes With Enforcing 2-Cent Fare on G.V. Ry.

With respect to the complaint in yesterday's World, that the Grand Valley Railway Company, was charging a three-cent fare over the twenty miles between Brantford and Gait, Vice-Chairman Ingram stated that he has had the question of jurisdiction under consideration. A general circular letter was sent out by the board to all railways, when the work of the board was first inaugurated, requiring them to comply with the act. No reply was received from the Grand Valley Road, and the question of jurisdiction came up in consequence. Mr. Ingram said that he was aware that legislation had been sought at Ottawa by the Grand Valley Company "for the general advantage of Canada," which euphemistic phrase covers a three-cent fare. The Dominion statutes of last session have not yet been distributed, and the board is unable to say if the road is still under provincial jurisdiction of the act of 1895, Cap. 97, and the amended act of 1896, Cap. 102. Until this point is decided no further action can be taken, but it is expected to have definite information in a few days.

VANITY

From time immemorial moralists have railed at the vanity of woman. Here is a woman, and a beautiful one at that, who says that vanity is an imperishable instinct; that vanity, like love, is one of the great forces that makes the world go round; that to be vain is a duty to humanity and an essential of success.

It's an original view; what is your opinion? This defense of an old time sin is set forth in our new magazine—

THE GOLDEN LEAVES. If my friend comes back to the bustling town Ere the golden leaves come rustling down How shall he see, and how shall he hear The luring lustre of mead and mere, And the sweetest last words of the dying year? When the golden leaves come rustling down Lettered in amber and gold and brown, And vine crowned autumn tricks fields and slopes, And harvests richer than spring sown hopes, How shall his inmost spirit know, At gaze in the glorious gufts of glow, Of the blending of blessing and balm and prayer That fills and thrills and stills the air. In the long bright glamor, before the snow? How shall he see, and hear, and know, If he hastens back to the bustling town, Ere the golden leaves come rustling down?

WORLD'S PATTERN DEPARTMENT.

LITTLE GIRLS' COSTUME—No. 1082—Baby suits for girls have lost nothing in popularity and are brought out each season with slight changes. A pretty design is here shown, the blouse is fitted by underarm and attached to the lower edge of the underwaist, the shoulder seams, and finished at low edge with a casing and drawing string, the upper part of the blouse is cut away in a V shape, and completed with a sailor collar, which may be square or pointed as outlined. The bishop sleeves are gathered in wristbands or formed into pleats as desired. Serge, mohair or flannel with white and shield of white, trimmed with braid, would make this garment effective. The pattern is cut in 5 sizes, 5, 6, 7, 8 and 9 years. For medium size it requires 4 3/4 yards of material 2 1/2 inches wide.

Nursing-at-Home Mission. Mrs. Barclay McMurrich presided at the quarterly meeting of the nursing branch of the Toronto Mission Union on Hayter-street. Mrs. McKillop of Jamaica gave an address and a graduation medal and diploma to Miss Ethel Wilkins. The reports of the secretary, Miss Sophia Robb, and the superintendent, Miss Middleton, showed that since May 27 cases have been attended, with 2023 visits made and 83 cases of night duty. Mrs. W. R. Ledger, the treasurer, reported a small surplus. The work of the branch is that of a nurses' training school, but is conducted on purely mission lines for the special benefit of the poor, and a most commendable work is thus being performed. During the summer four Church of England deaconesses took a short course in nursing preparatory to going to mission fields, one to a station in China and one in the Northwest.

Will Be Given Civic Welcome. On Monday morning Miss Slack of the World's W. C. T. U. Mission of the British and German delegates to the recent convention in Boston, will arrive in Toronto, and Ald. Graham, chairman of the civic reception committee, has arranged to give them a drive around the city.

Personal Mention. Mrs. Seely B. Brush, formerly of Gloucester-street, now of 17 Bernard-avenue, will receive first and second Fridays after the New Year.

Mrs. W. A. Denton will receive in her new home, 380 Manning-avenue, on Tuesday afternoon, Oct. 30, and afterwards on the second and third Thursdays of each month.

Miss Mamie Ryan of 181 Beatrice-street has returned home after a month's visiting.

Dr. and Mrs. Bradt of Peterboro announce the engagement of their daughter, Eva Weirfield, to Mr. Leslie Leonard Kennedy, son of Dr. William Kennedy of Chicago. The marriage will take place early in January.

Mr. and Mrs. Joseph R. Miller have returned from their long and pleasant trip thru the west, extending over Yukon and Alaska, and are guests of Mrs. G. W. Parsons, 48 Howland-avenue, for the present.

Mrs. Arthur W. Ellis will receive for the first time with her mother, Mrs. John Westbrook, at 30 Wilton Crescent on the afternoon of Thursday, Nov. 1, and the afternoon and evening of Friday, the 2nd.

Mrs. Percy W. Ball (nee Farr) will receive for the first time since her marriage on Friday, Nov. 2, at her home, Brook-avenue, in the afternoon from 4 until 6 o'clock, and in the evening from 7.30 until 9, after which she will be at home on the first and third Tuesdays of each month.

Regan-Cooney. A wedding was celebrated Tuesday morning at Newmarket by Rev. Father Whitney at St. John's Church, the contracting parties being Mr. H. Regan, son of Mr. and Mrs. M. Regan, Roseneath Hall, Lemonville, and Miss Florence Cooney, daughter of Mr. and Mrs. James Cooney, Lakeview Farm, Lemonville. The bride looked charming in a gown of white tulle and silk, with the customary veil and orange blossoms. She was attended by her sister, Miss Teresa Cooney, who also wore white silk with a large picture hat. The groom was supported by his brother, Mr. P. Regan. The groom's gifts to the best man and ushers were pearl fleur de lis tie pins; the bridesmaid and organist presented at the conclusion of the ceremony a reception was held at the home of the bride's parents. Mr. and Mrs. Regan left for an extended tour amid showers of rice and good wishes. They will reside on Lindsey-avenue, Toronto.

Lemon Rice. This is made much like an ordinary rice pudding. With a sherry glass of well washed rice place in a baking dish, a pinch of salt added, and two

tablespoonsful of sugar; over this is poured one quart of rich milk; and, if desired, a little nutmeg grated over the top. Dot the top of the milk with bits of butter, and then add the grated rind of one lemon and one tablespoonful of juice. Bake for two hours in a slow oven, covering the top for the first half hour.

Value of Ammonia as Cleaning Agent. At cleaning time ammonia is a great saver of labor. Its uses are many and very beneficial. To begin with two tablespoonfuls added to the bath makes hard water as good as soft, keeps the skin clean and gives an especially clean feeling; after doing any rough or dirty work a little in the water you wash your hands in will help to keep them nice and soft. It makes an excellent silver polish, too, if mixed in equal quantities with whiting, enough to make a cream; rub this lightly on with a flannel and polish with a dry cloth. This will remove all tarnish and help to keep the silver and electroplated in good condition. It is also as effective for brass, nickel and steel. Glassware, windows and mirrors are made cleaner and brighter with less labor if washed with warm water and a little ammonia. For washing up, too, it is helpful, half a teaspoonful to each quart of water, and with this no soap or washing powder is needed. Blankets and flannels are greatly improved and softened if a tablespoonful of ammonia is allowed to every pailful of water in which the soap has been boiled. Brushes, combs, sponges, chamois leather are made clean and fresh by using ammonia in the water. In washing the leathers the great secret for keeping them soft is to leave the soap in them at the last, not to rinse it out. Ammonia in the water with which you wash carpets helps greatly to revive the color and to clean them. In the wash, if ammonia is used in the soaking water, a tablespoonful to each pail of water, as well as to that in the bath, the work will be halved, and much less soap and soda needed. When scrubbing floors and tables a little ammonia in the water will whiten them in a very short time. It is also efficacious in cleaning sinks.

National W. C. T. U. Hartford, Conn., Oct. 26.—The 33rd annual convention of the National Women's Christian Temperance Union opened here to-day at Parsons theatre. When it was called to order Mrs. Lillian M. N. Stevens of Portland, Me., over 400 delegates from all parts of the United States were present. Delegates from Austria, Japan, England, Greece and other countries were on hand.

Samaria Stopped His Drinking. A London Lady cares her husband permanently of the drink habit and without his knowledge. "Now glad I am that I ever came my husband about getting rid of a free sample of Dr. Williams' Pink Pills. At that time my husband was drinking very hard, and was in despair. The effect of your medicine was immediate, and now my husband is free from the drink habit. I gave my husband the tablets he has used, and he never knew. As the taste for liquor left him, his general health improved and is now splendid. I will tell others of my experience."

WE, THE JURY, FIND—that RED WHEAT is an absolutely pure whiskey—that it is smooth as velvet (we tasted the evidence and would like more of it)—that it is melted by age—that it is bottled in bond under Government supervision—that we heartily recommend its use, especially in the home and sickroom. By unanimous vote, the jury wish to add that they consider RED WHEAT the finest of all Canadian Whiskies.

WOMEN WANT A PLACE.

Petition Methodist General Conference for Representation. Belleville, Oct. 25.—The board of managers of the Women's Missionary Society of the Methodist Church elected the following officers to-day: President, Mrs. W. E. Ross, Hamilton; first vice-president, Mrs. A. Carman, Toronto; recording secretary, Mrs. Phillips; field corresponding secretary, Mrs. Struchan; home corresponding secretary, Mrs. McKay; treasurer, Mrs. Wilkes; editor of the Outlook, Miss McCallum; editor of The Palm Branch, Miss Lathern; treasurer, Mrs. W. W. Ogden; auditor for rest fund, J. Earl; auditor for the board, Arthur Lawson.

A resolution was passed ordering the presentation of a memorial to the next general conference of the Methodist Church, asking that women in future be given a place in the councils of the Methodist Church in Canada.

TORONTO ACTRESS STRANDED

Was With Will-o'-the-Wisp Company Which Disbanded Recently. Detroit, Oct. 26.—Miss Lillian Owen, who says she is a Toronto girl, is stranded here because of the disbanding of a show with which she left home. She went on the stage with "The Will-o'-the-Wisp" Company, a musical show. It went to pieces. Miss Owen had money enough to reach this city, where she found work in a dining-room. The manager of the company promised to send her trunk after her, but so far that has not reached her. She declares that she will never send home for assistance.

For Registrar of Feet. Brampton, Oct. 25.—The county Conservative executive met here to-day, when it was decided to recommend R. Johnston, ex-M.P. for Cardwell, for the vacant registrarship of deeds. Samuel Jackson, defeated candidate for the legislature, and Thomas Sheppard, deputy registrar for twenty-five years, were also applicants.

South American Rheumatic Cure

is the effective means, and while lack of provision for your "loved ones" from such a cause may be counted secondary to a life of suffering to oneself, it is one of the many sides in the study of health that we should take in dead earnest. Every disease has its symptoms—every ailment that flesh is heir to has its note of warning, and it's for us to heed or suffer the consequences; and who does not know the signs by experience or observation?—fever, chills, sweating, shooting pains, numbness, aching muscles, stiffened and swelled joints. The great South American Rheumatic Cure gives ease from the first dose and it gently and effectually eradicates the trouble from the system. It gets at the root of the evil and it gets there quickly—most stubborn cases cured in one to three days. Influential physicians prescribe it as the best and surest cure they know of.

ALL DRUGGISTS AND MEDICINE DEALERS SELL IT. SOUTH AMERICAN NERVINE makes blood that is poor and pale rich and red—and that means good health.

Magistrate Denison Refuses to Allow Prisoner Liberty Pending Hearing of Charges.

Yesterday John O'Meara of London, who on Monday in police court swore he had no connection whatever with the Brantford election of some years ago and that he had never met John O'Gorman, now on trial for election conspiracy, during the Heyd-Henry election in 1897, was brought before Magistrate Denison on a charge of perjury and positively identified by four witnesses as the man arrested in Brantford for impersonation.

Sergt. John Wallace of the Brantford police force told of the arrest of O'Meara in Brantford on Feb. 4, 1897, on a charge of impersonation. He was hiding behind a piano box in the Liberal committee rooms and O'Gorman was in the room at the time the arrest was made. In London Thursday he arrested the man when he positively identified as the man whom he had taken in Brantford. At that time he gave the name of Joseph Johnston of Chatham.

Robert Henry, Conservative candidate in the election of 1897, swore positively that the prisoner was John O'Meara, who had been arrested regarding that election. Moose Westbrooke and Henry Osborne of Brantford were also sure that the prisoner was the O'Meara arrested in Brantford.

## ST. ALBAN'S SCHOOL

Annual Distribution of Prizes a Pleasant Event.

The annual distribution of prizes in this school was held in the crypt of the cathedral yesterday afternoon. There was a large gathering of friends and parents of the boys. The headmaster opened the proceedings and called to the attention of the diocese to present the pupils. The bishop spoke of the very satisfactory condition of the school, both from the standpoint of an institution of learning, and of training the boys in healthful and manly exercises. He also congratulated Mr. Matthews, the headmaster, on the high position the school has attained in the hands of the masters to fill the vacancies of those who have left the staff.

The other speakers were Archbishop Sweeney, Rev. Dr. Cayley, Prof. J. W. G. Andras, Rev. Prof. Wm. Clark, David Kemp and Rev. J. B. Potheringham. The prize list is as follows:

Preparatory Form—General proficiency—John Drynan, 1; Geoffrey Heighington, 2; Willie Heighington, 3. English history—Lloyd Thompson. Good work and punctuality—Prof. Johnson. Good work—Harold Roberts.

Form IB—Reading, spelling and English grammar—Reginald Pettigrew. Drawing and painting—John Hancock. Arithmetic—Reginald Pettigrew. Geography, history and divinity—Marion Dunn.

Form III A—English—T. Bolte. Drawing and writing—N. Gardner. Arithmetic—Charles Boyer. Latin—Felix Bolte. History—Jack Boulter.

Form IV B—English—Harold Clark. Mathematics—Harold Clark. Divinity (Bishop's)—Lionel Amstern. Classics and modern languages—Davidson Ketchum.

Form V—Classics (Trinity prize)—Harold Gordon. Mathematics (Corporation)—Harold Gordon. The Goodman medal—This medal is given to the boy in any form who obtains the highest percentage of marks in all subjects, conduct and punctuality, through the year. The winner was Harold Gordon.

Chauffeur's Strike Grows. New York, Oct. 26.—The strike of chauffeurs employed by the New York Transportation Co., which began at the company's main garage, spread to-day to one of the company's substations. Ninety of the 120 chauffeurs employed at the sub-station joined the 300 strikers who went out yesterday. Thirty men remained at work, and as they took out their cars, each was accompanied by an officer in plain clothes. The men are striking for an increase in wages and regular hours of labor.

Four More Bodies Found. Kansas City, Oct. 26.—Four bodies were removed this morning from the ruins of the chamber of commerce building, in Kansas City, making the total known dead to be eight. The loss of life is attributed in part to the lack of fire-fighting apparatus.

# HAS UNWARPABLE SOLES

IMPROVEMENT NUMBER EIGHT

A Bowl Shaped Sole

A Foot-rite Unwarpable Sole

Nearly every shoe is built without regard to sole warping, on soles of red, rigid, lifeless, hemlock tan leather which curls up, bowl shape at the first wearing and, like bent lead, stays put. Until the invention of Foot-rite, warping soles were never given the slightest consideration. The Foot-rite makers have solved the sole warping problem, and this is how: Foot-rite's sole leather is sun seasoned; and sun seasoned leather, like sun seasoned lumber, is unwarpable. Foot-rite uppers are made of "Normal Calf," also of sun seasoned leather almost as soft and supple as the live calf's hide, which doesn't shrink and draw up the soles. The drying of water-soaked shoes causes shrinking and warping. As Foot-rite are almost waterproof, little water is soaked up. And, being formed over foot sculptured lasts, Foot-rite insides are precisely the same shape and size as the feet which inhabit

them. What does this mean? It means that the foot bears down on every single, solitary square inch of insole space. There's no vacant or waste floor space, and the great weight of the body, thus evenly and equally distributed over the sole, irons out all warping and holds the sole as flat as a flat-iron bottom.

Foot-rite soles are not warranted unwarpable, as too long shoes turn up at the ends, and wearers who insist on having them too long might complain of warping. But get a Foot-rite that fits; don't soak it in the St. Lawrence; tree it at night, and the original smart, flat line of its sole will remain flat till you're through with the shoe.

A Foot-rite retailer holds forth in your town. Run in on him and his shoe. His name's below. You'll find his door swinging inward but never outward to find a more welcome store. Anywhere in America, Canada or Great Britain—\$4.00 and \$5.00. Every pair Goodyear Welted.

# I'LL CURE YOU FIRST

Don't Suffer Pains and Weakness While You Wait for the "Sure Cure" to Come Along. YOU CAN TRY MY BELT AND PAY IF IT CURES YOU.

MILLIONS OF PEOPLE, especially in Canada, live on indifferent to a loss of power more serious even than loss of blood—THE LOSS OF NERVE STRENGTH. A man who suffers with nervous breakdown or nervous prostration is like one of those electric automobiles that you may see stranded because the battery has given out. The Canadian citizen, man or woman, goes ahead using up nerve force regardless of consequences, regardless of thousands of daily warnings. At last the end comes—the battery is exhausted. There is no more nerve electricity, or so little as to make an attempt at labor, painful and useless. Try to show as least as much intelligence in caring for the body as you would in caring for an electric "runabout."

A loss of Nerve strength means a great deal more than is generally known. Weak Back, Lumbago, Rheumatism, Sciatica, Neuralgia, Stomach, Liver, Bowel, Kidney and Bladder Troubles, weakness of any organ of the body, Tired Feeling, Sleeplessness, Poor Memory, Lack of Ambition, and a run-down condition—that which makes a man feel as if he were only half a man—are all evidences that the animal electricity, or nerve force and power, has been or is being drained from the nervous system.

For ability to perform its functions every organ of the body depends upon the nerves which control it. If the nerves are weak, then the organs become weak and the patient resorts to the doctor. The old-fashioned treatment was to give frequent doses of poisonous drugs. Just fancy putting poisons into the body to build up starved and impoverished nerves! Is it any wonder that so many complain that drugs have failed? What the nerves require to restore lost power is nourishment—nerve food. When that is supplied the weakness and ailments caused by weak nerves disappear. This is the secret of the success of my methods of restoring vigor and general good health to men and women. As a plant droops and withers for lack of water, so does the nervous system of man weaken because of the lack of electricity, which is its natural food and refreshment. Electricity, as I apply it, saturates every nerve centre of the body, and revitalizes and strengthens every nerve and every organ controlled by the nerves.

The basis of all strength in the human body, the actual animal life of the heart, stomach, kidneys and all organs, is ELECTRICITY. When you lack that strength, which is the foundation of youth, you simply lack ELECTRICITY, and this I can restore to you with my improved

HAVEN'T GOT CERTIFICATES BUT KNOW HOW TO TEACH

Success of Separate School Candidates in the University Exams.

Despite all arguments to the contrary, Brother Edward, principal of the De la Salle Institute, will never be convinced that the Christian Brothers are not qualified teachers, merely because they may not have conformed with the requirements of the Ontario education department. He grants that if certain certificates are demanded by the government the future aspirations to the teaching profession should arm themselves with the prescribed qualifications, but would deem it an injustice to bar out those who have already proven themselves worthy, competent and efficient teachers.

The results attained by the above institute in the recent examinations are certainly a flattering tribute to the system of teaching employed by the Christian Brothers in charge of that institution, and a most forcible point in favor of Brother Edward's argument. Out of nine scholars writing in the July departmental examinations, eight got thru. The ninth was only 14 years of age and promotion was hardly expected of him.

The commencement exercises of the institute were held yesterday, a bright variety program of music and picture plays, furnished entirely by the accomplished students of the institution, serving to render more enjoyable the ceremony of presenting the certificates and special awards, which were distributed as follows:

Gold medals—Christian doctrine (by Rev. M. D. Whelan), John Burns, commercial subjects (by Eugene O'Rourke), James Kenny, penmanship (by J. L. Woods), William Cannon, gymnasium (by W. E. Blake), Percy McAleer, medals for matriculation results, English (by Rev. Edward Kelly, Dixie), Austin Dees, mathematics (by James T. Dees, Richmond, Va.), Thomas M. Boland, for entrance examination results (by Rev. Hugh Murray), Percy Small.

Prizes: Matriculation results (by J. Setz), to Arthur Eamesperger and Arthur Leonard; essays—prize up to \$30 (by Francis O'Farrell, Goldfield, Newfoundland), to Walter Moran, James Doyle, Wilfrid Chase, John Neville, Joseph Doohey, Carroll March.

Institute diplomas—James J. Kennedy and Neil McGrath. The results of the July departmental examinations are as follows: Junior teachers' Austin Dees; junior matriculation in arts, Arthur Leonard; matriculation for applied science and practical engineering, Thomas M. Boland; Arthur Eamesperger, partial junior matriculation, Wilfrid Chase, Gerald Connelly, James Doyle, Walter Moran.

Rev. Hugh Murray presided in the absence of Vice-General McCann, and in his address alluded to the success of the commercial and matriculation work.

Those taking part in the program were: Edward McGrath, vocal; Victor Cosbett and John Neville, vocal duet; Malcolm Moore and Wm. Kelly, piano duet; Wilfrid Chase, instrumental; W. Keley and J. Neville, accompanists. Choroques were also rendered by the French and German classes and the Choral Union.

Invited guests present were: Rev. Father J. J. Rohleder, M. D. Whelan, E. H. Murray, E. F. Murray, C. S. B., Kelly, H. Canning, W. McCann, Brothers, Odo Baldwin, Rev. L. Minahan, P. Coyle, R. WINS CASE AGAINST CROWN CABINET HAD FULL POWER

Independent Cordage Co. Can Claim Damage for Cancellation of Contract.

A contract which is ratified by the legislature does not amount to a statute and the Lieutenant-governor and his executive council can, by order in council, make any changes in that contract, was the judgment of Chief Justice Meredith yesterday afternoon at the non-jury sittings in the action brought by the Independent Cordage Company against the Whitney government, in which they claimed \$13,000 in lieu of a full settlement of the contract given by the company to the government in 1897 for the manufacture of binder twine at the Central Prison, and which was ratified by the legislature. In 1897 another contract was made by the government without the consent of the legislature.

The government maintained that the order-in-council was not operative, and that instead of owing the company, the company was indebted to the present government for over \$50,000.

After the evidence of T. S. Hobbs, president of the company, and John Smith, expert machinist, regarding the installation of a new plant, there ensued an interesting argument between his lordship and Mr. Hodgins.

Mr. Hodgins argued that the basis of the government's case was on the second agreement and the order-in-council. He maintained that the contract was not sanctioned by the legislature, and therefore was inoperative.

The chief justice thought this was a poor argument, in view of the fact that it was not necessary to have the sanction of the legislature except when it came to the voting of money.

Mr. Hodgins still submitted that where a contract was approved by the legislature it could not be altered by the government without the consent of the legislature.

Chief Justice then instanced his point by the way in which the government sold large areas of land. "Assume, if you like," he said, "that the first contract made with this company by the legislature was the very best in the interests of the province and that the second was the very worst, the government still have the power to make the change, but they are of course responsible to the house and to the people of the province."

Mr. Hodgins quoted Dilley, Todd, Bourinot and other parliamentary authorities to show that when a cabinet received instructions from the legislature there was no more power vested in them to reverse those instructions, nor to alter the contracts made with the contractors. If this was not so the legislature might consent to a policy, agree to the terms and yet, next day, the government might alter the contract in toto.

Next session the legislature might turn the government out," was the chief justice's comment on the argument.

Mr. Hobbs testified to having taken

over the Field Co.'s binder twine factory and installing about \$45,000 of new machinery, which was consequently added to. In 1902 there was not sufficient prison labor to get out more than four tons a day.

Mr. Hobbs declared he received no profit whatever for the purchase of the machinery outside of the 5 per cent. Of this he paid over \$1200. No business man would have undertaken it on a five per cent. basis.

The defendant summoned the Central Prison until 1901, considered the charges for repairs were very fair, even cheap.

BULLDOG KILLED COLLIE.

But Court Holds Evidently That There Was Contributory Negligence

The afternoon police court heard a tale of two dogs. One, a collie, was owned by J. W. Siddall, the architect, and the other, a bulldog, was the property of A. Bertram Holmes, 8 Southgate drive, Rosedale. The dogs met as dogs will. There was a mix-up, which resulted in the death of the collie.

Siddall summoned Holmes on the charge of keeping a vicious dog. The defendant, however, had a number of witnesses, who testified that the bulldog was the sweetest thing that ever lived, and the case was dismissed.

Last Sunday a German fellow amused himself by firing a revolver out of his bedroom window at 43 Niagara street. His fun cost him \$1 and costs.

William Cronon, on Sept. 13, shocked a number of passengers on a Yonge-street car. Thru the efforts of Crown Prosecutor Felix McKenna he was made to pay \$5 and costs into court.

Fredarians on West Bloor-street have been much annoyed lately by the young men who congregate at corners, block the sidewalks and in other ways make themselves a nuisance.

P. McMillan had four of them in court. Edward Goldsmith, 1069 Dufferin-street, and G. McManie, 424 Gladstone-avenue, were each fined \$1 and costs. Herman Tideman, 3 Lapan-avenue, got off with a \$1 fine.

Made Fortune in Klondike.

Charlottetown, P. E. I., Oct. 26.—Twenty years ago Thomas and Lemuel Sheppard, colored, natives of Cardigan, P. E. I., left home with scarcely a dollar. They went first to Maine, working first as ship carpenters; thence they drifted to the Klondike, suffering many hardships in the search for gold.

From the Klondike they went to the Fairbanks district in Alaska, where they cleared three-quarters of a million dollars.

They are now on a visit to their aged mother in Cardigan.

Toronto Chinese Mission.

The annual meeting of the Toronto Chinese Mission will be held in the West Presbyterian Church, Denison-avenue on Tuesday evening next. An address will be delivered by Rev. J. C. Thomson, M.D., of Montreal, the Presbyterian Church's missionary to the Chinese in Canada from Halifax to Winnipeg.

Army Officer's Crime.

Kiev, European Russia, Oct. 26.—Lieut. Konovoiat, an artillery officer, has been sentenced to five years' imprisonment at hard labor for having bombs in his possession.

Herbert Vince fell between the shafts of the wagon he was driving yesterday, and had his leg broken by a kick from the horse.

DEBENTURES FOR BRIDGE AND A VOTE IN JANUARY

Controllers Decide to Take Some Definite Action in Regard to the Problem.

Another attempt is to be made to solve the Yonge-street bridge puzzle. Controller Jones moved at yesterday's meeting of the board of control that the city solicitor be instructed to prepare a bylaw to be submitted at the next meeting of the city council, providing that the city issue debentures for the cost of the bridge, and to cover the land damages as estimated by the city engineer and assessment commissioner, less \$100,000 to be contributed by the railways. The motion also asks that the bylaws be submitted to a vote of the ratepayers at the next municipal election.

In the absence of Controller Shaw the motion was allowed to stand over until Tuesday. It appears likely that it will pass the board of control, since, besides the mayor, Controllers Ward and Hubbard, who are very wary of the protracted dickerings, are understood to be kindly disposed toward the new move. On the other hand, the mayor and Controller Shaw are hostile toward any arrangement which would let the railways off so lightly, so that a bare majority in the best result to be hoped for, while, should the motion reach the city council, it is a pretty fair conjecture that it will be turned down.

As Mr. Forman estimates that the land damages alone would amount to \$25,000, the railway's share of the expense would not even cover these, leaving it for the city to bear the entire cost of building the bridge.

An Ambulance Station. Dr. Sheppard reported in favor of the city's building an ambulance station at a cost of \$3000, in connection with the new city morgue to be built on the north side of Lombard-street. He pointed out that there would be the advantage of having someone in constant attendance at the morgue, and declared that the city's expansion would soon make a new night ambulance service necessary. The city architect and property commissioner will deal with the suggestion.

The board of control has come to the decision that in paying the expenses of Park Commissioner Chambers, Exhibition Architect Goulnick and Ald. Vaughan on the tour of inspection of grand stands in United States cities, the city is doing enough. The Exhibition Association will have to foot the bills for Manager Orr and Vice-President George.

To Beautify the City. The Guild of Civic Art, thru its honorary secretary, W. E. Howland, made written application for a contribution of \$1000 towards the objects of the league. The matter will be considered.

The street railway is laying the new tracks on King and Queen-streets in a shipboard manner, so that the city will clear a few years will have to do considerable repairing, so the city engineer reported.

The board is not entirely convinced that Mr. Rust has made a good move in engaging Cecil B. Smith to aid him in inspection of the new rails, owing to the multifarious nature of Mr. Smith's other duties.

Events of a year ago are recalled by a letter to the board of control from R. Newell, 785 Lansdowne-avenue, alleging that the Paddy exhibit on Paton-road creates an unbearable stench in the neighborhood.

Paying Up Well. The citizens are making most satisfactory water rates, so the city treasurer states. The time for payment closes at the end of the month, by which time it is expected \$40,000 will have been received.

The city is going to the court of appeal in an attempt to have reversed the decision of Judge Mabee in the case of the C.P.R., Toronto, when it was held that the city was liable for a portion of the cost of protecting crossings outside the bounds of the city on the main road and Bathurst and Dufferin-streets.

Land Sales. The following sales have been made by the Commissioner Forman: 20 ft. east side Christie-street to the Prince, at \$11 a foot; 30 feet west side Glaven-street, to Robert G. Purdy for \$5; lots 4, 5, 11, west side of Marjorie-street, to W. H. Purdy for George Nicholson at \$4, \$5 and \$5 respectively.

The board of control has transferred to John P. Conolly the contract for the construction of a 12-inch tile pipe sewer on Hudell-avenue, from Jones-avenue 618 feet east. He will do the work for \$1210. It was originally contemplated by the engineer to do it by day labor.

The board of control has provided \$100 for an overdraft on the legislation account of the city solicitor.

The application of C. G. Dawkes for permission to take out a butcher license for premises at 89 Davenport-road was granted.

The city architect has issued a permit to the Adams Furniture Co. for the construction of a warehouse at 227-223 Victoria-street. It will be of brick, four storeys in height and cost \$30,000.

Special building permits were granted by the board of control to A. J. Savage for a private stable in the rear of his residence at 127 Farnham-avenue and W. S. Dingman for a stable in the rear of 95 Spencer-avenue.

Defunct.

Secretary G. E. Henderson of the Municipal Reform League, an organization formed two years ago to mould public sentiment in civic elections, intimates that it is unlikely to be revived again this year. Mr. Henderson stated that the league, being practically a temperance organization, had been limited in its influence, and the lack of a temperance issue in the coming contest would not give the league any scope for action.

Examination Appeals.

Today the educational council will consider some 400 appeals from various parts of the province following the recent departmental examinations. The results will be mailed on Tuesday.

Charged with the theft of a coat from Hattie Cox, of 57 Jarvis-street, and of \$4.25 from W. Baird, of the same address Emma Coleman was arrested by Detective Guthrie yesterday afternoon.

THREE CITY HOSPITALS

Grace, Western and St. Michael's Would have Civic Assistance in Building Projects.

It is almost certain that, within the next week or two, the board of control will be called upon by a deputation representing St. Michael's, Western and Grace Hospital to request that the city make a grant of \$50,000 to each institution for the purpose of building additions to keep pace with the increasing demand for accommodation.

Before such grants can be made it is necessary that a bylaw should be submitted to the ratepayers authorizing the measure. The contribution towards the new general hospital project was made after permission had first been obtained from the legislature, and, in the absence of such special provision it will rest with the people to endorse or reject the proposition.

Dr. John Ferguson of the Western Hospital, who was prominently to the fore at the time the \$200,000 donation was under consideration, asserts that no better treatment is asked than that the people should rule in the matter, and that those interested in the movement should be perfectly willing to abide by the decision. The bylaw, if submitted, will be voted upon on Jan. 15.

Dr. W. V. Emory is stated to be the "man behind" the idea of asking for a grant is understood to have originated with him, and for some weeks past has been sounding the alarm to the trustees of the three hospitals. No formal meetings have been held, but the matter has been talked over by the individual trustees, and it will be for the coming week to bring about a general conference.

It is authoritatively stated that the trustees of St. Michael's Hospital have not as yet committed themselves to the undertaking, which is still in the embryonic stage. It is hardly likely that there will be any difference on the main issue, however, whatever there may be on minor points. The Western Hospital board is warmly advocating the move, and Grace Hospital is believed to be equally favorable.

Mayor Coochworth and the controllers say that the subject has not yet been broached to them. Dr. Sheard says it appears to him that the hospitals have some claim, but he would like to see the conditions made in the request before giving a decided opinion.

Dr. John Ferguson of the medical staff of the Western Hospital said that the institution, which now has over five acres of land, did not require any more space in which to extend.

It is stated that the money will go entirely into building, and last night, adding that the hospital had plans for large extensions to be made from time to time. The general idea was to have a system of five pavilions to extend about 100 feet to the east from the main building. The sum of \$50,000 would be sufficient for two such pavilions, which would furnish accommodation for 100 more patients and would meet the present needs. The addition, which would be opened in a few days, would accommodate about thirty patients, and would bring the available accommodation up to 150. The other three pavilions could be built later, as the need arose.

ITALIAN REPEATS CRIME

SARAL'S BROOKVILLE GIRL After Serving Term for Abduction Returns to Locality and is Again Arrested.

Brookville, Oct. 26.—(Special.)—Tony Roggazio, an Italian, who was arrested here over two years ago and sentenced to a term in the Central Prison on a charge of having abducted two little girls, the children of Fred Widdis, residing in the neighborhood of Brookville, is in the toils again on a similar charge, relative to one of the same children, Luella, aged 15 years.

After his release the Italian returned to his old haunts and has since been a source of annoyance off and on. The girl's story is that she left home this morning to walk to Brookville, and that while she was on the road Tony, who was in concealment, jumped up, seized her and took her into a wood close by. There he gave her \$5. In struggling to get away she fell down. Just then two men came to her rescue, when Tony and she had a scuffle, and he threatened to shoot. While he was thus engaged she heard her escape and fled to Brookville.

When arrested Roggazio had a loaded .32-calibre revolver and \$70 in his possession. The prisoner has lived near Widdis' farm for many years and exhibits a strong attachment to the children. After their mother's death he enticed them to desert their father and decamp with him to New York State. Upon returning for his father, after leaving the children at a farmhouse near Philadelphia, N. Y., he was nabbed and jailed.

In June of 1906 his hut was raided by white caps and destroyed by fire, and he was given a coat of iron and feathers. The late Detective John Murray visited this section with a view to clearing up the mystery of that attack and, but for the fact that the prisoner stoutly denies the charge now registered against him.

Editor World: Reading in this morning's World the presence of typhoid thruout the country generally, I will say that it is nothing but what the people deserve.

It is reported that a similar watch has been kept upon the train staffs on the Ontario and Quebec system, in Port Huron, and that no less than fifty-seven conductors on the different parts of the Grand Trunk have been employed in that division since the Ontario, Col. Galloway, D.A.A.G., Col. J. I. Davidson and staff officers proceeded along the lines. The inspection proved, however, that the conductors were not carrying the watches.

The report has created a feeling of uneasiness among railway men with conductors themselves are no more communiting in this connection. The claim that they have been arbitrarily dealt with in not being allowed an opportunity to clear themselves of any improper charges, is somewhat exaggerated. It is their intention to bring the matter before the executive committee of the Ontario Railway and Trainers, who were expected to demand an investigation into the circumstances connected with each case and to send a committee here to look into the details of the subject. In the event of the evidence being deemed insufficient to warrant the steps taken, a demand will be made for the reinstatement of the men.

The conductors of passenger trains are a well paid class, the majority receiving \$100 per month, and upwards. Several of these, however, are in the service of the company are in good pecuniary circumstances, one of them being reputed worth \$100,000 and several others owning houses and other property in the city.

Dismiss 57 Conductors "Spotters" Saw Them Wholesale Discharge Order by G.T.R. Follows Alleged Exposure of Loose Methods.

Having "spotted" for conductors who were not giving the company a square deal, the G.T.R. yesterday-if rumor be quite correct—asked for the resignations of between 50 and 60 conductors. No statement is forthcoming from headquarters at Montreal, and local officials profess a blissful ignorance either of the causes leading up to the discharges or the men affected.

It appears, however, that for some time there have been suspicions of irregularities in the receipts obtained in respect of passengers taken on the trains at intermediate points, who had not obtained tickets from any of the regular agents. Persons were observed to enter the trains at certain stations without having tickets, and there was no record in the conductors' returns of the names between Montreal and Toronto, and that no less than fifty-seven conductors on the different parts of the Grand Trunk have been employed in that division since the Ontario, Col. Galloway, D.A.A.G., Col. J. I. Davidson and staff officers proceeded along the lines.

The program for the conference of farmers' institutes, lecturers and officers, to be held at the Ontario Agricultural College, Guelph, the week commencing Nov. 20, has been announced. This conference has been directed by the minister of agriculture with a view to affording men who attend to the duties of the farm, and to delegates for the first time and regular institute speakers an opportunity to equip themselves for the important instruction of the farmers regarding their vocation.

Mining Stocks Are Profitable

Investments only when the selections are properly made. Money sunk in a bad mine is lost, but in a good one will return handsome profits.

I AM A PRACTICAL MINING MAN

I have never advised the purchase of any Cobalt stock that has not afterwards materially advanced in value. This is a fact-based statement to which I attach no exception.

I AM NOW PRESENTING

a most exceptional opportunity--one which, after most careful investigation, I believe to be, without exception, the finest proposition that has yet emanated from Cobalt--and upon which I stake my name and successful record.

SAO PAULO AND SOME OTHER LOCAL ISSUES RECEIVE SUPPORT

World Office, Friday Evening, Oct. 26. The lower range of levels in domestic stocks brought more activity, and considerable liquidation ensued in today's market.

International Paper report shows resumption of common dividend would not have been justified.

London.—Bullion amounting to £272,000 was taken into the Bank of England today, and £20,000 was withdrawn for shipment to Malta.

After crediting the local banks with the \$1,000,000 in gold coin received from the American Bank of Commerce on Friday, which will figure in the bank statement for only two days, the banks look on the known amounts of money in the market ending with the close of business Thursday, \$6,223,000.

The American Ice Company declared its quarterly dividends of 1 1/2 per cent, each on its cumulative preferred stock, amounting to \$1,000,000, which was paid on Friday.

Joseph says: On these moderate recessions Union and Southern Pacific are a purchase, at least for now. Values must assert themselves, and as recent declines have been out of all proportion to actual partial recoveries must follow.

On Wall Street, Marshall Spader & Co. wired J. G. Beatty, King Edward Hotel, at the close of the market.

About \$500,000 have been applied for increased circulation under the new treasury regulations, a tentative amount of \$1,000,000 having been asked for.

To-morrow's bank statement, while possibly reflecting a low level in sub-treasury and other securities, will be less than \$6,000,000 as affected by reduced deposits and loans in a way to offset the loss in cash.

King has declined under pressure of commercial bills, which continued to increase in volume for cotton and grain.

With the progress of the crop movement east of the Mississippi River, shipments of cotton to that section may increase in the near future, but next week the government will pay \$4,000,000 interest on bonds, and New York interest and dividend payments of about \$6,000,000 will be distributed.

Bank of Montreal, which has been in a favorable position to take advantage of the monetary situation at home and abroad, has declined to see this reflected in the stock market.

Bank & Stoppani wired to J. L. Mitchell, Melburn Building, at the close of the market.

ROYAL VICTORIA IN LIGHT LITTLE COST TO ORGANIZE

Insurance Investigation Concludes at Montreal and Resumes With I.O.F. in Ottawa.

Montreal, Oct. 26.—(Special)—Evidence in the investigation of the Royal Victoria Assurance Company of Montreal resumed to-day, and with it ended the session of the insurance commission in Montreal.

Chief emphasis was laid in the evidence of David Burke, general manager, on the small cost with which the company had been organized. He stated that the entire cost of stock, parliamentary expenses, etc., had been only \$1700, and the Royal Victoria, unlike many new companies, had never had any bonuses or gifts from shareholders or directors.

Mr. Burke had organized the company. The men he sought to interest in the first place were A. F. Gault, James Crabb, Senator Forget, Senator Mackay and S. Finley. In the matter of inducements there was nothing of a personal character held whatever.

The witness had pointed out to the stockholders that a considerable period must elapse before there could be any dividend. He had never felt safe in naming any definite period, and he had never discounted any notes.

The capital stock authorized was a million dollars, and the sum was now subscribed. No premium had been charged for the stock, but the cost of obtaining business was not so great.

The policeholders took no part in the Regain Strength and Freshen Quickly with Ferrozene. Nothing is more certain than the direct action Ferrozene exerts in female complaints.

It is the best medicine for restoring virility and strength. By instilling new life into the blood, every organ in the body is better nourished, and in consequence takes on strength.

Ferrozene's record is marvelous. It makes you feel strong and sturdy. Nourishes the weak, rebuilds nature, restores to you a new life.

GLASS EYES

Nothing but a first class eye should be worn, one which will keep a good smooth surface. A cheap eye soon becomes rough and irritates the lids.

Dr. McTaggart's vegetable remedies for the liquor and tobacco habits are safe, safe, safe, and have been used for over 100 years for their wonderful medicinal and curative properties. Consultation or correspondence invited.

The Dunlop Creed

WE believe that the trade mark, the two hands, is the most valuable asset in our business, and we shall aim to keep it always in good repute by fair and square dealing.

We believe it is in the fullest sense injurious to our prospects to allow the Dunlop trade mark to be placed on any goods not made of a superior quality of rubber.

We believe in quality. We know that the satisfaction quality gives is lasting, while the satisfaction a purchaser has in buying cheaply is short lived. When he does not find quality he forgets the price paid and begins to think he has been fooled.

As we hope to last in this business we affirm it is our unalterable determination never to compromise the Dunlop standard of quality in rubber.
