The Long-Legged Man:

Needs a coat which makes the body appear longer because he usually has a short body, long arms, and long legs but square shoulders.

A close fitting "Cut-away" or "Frock" which apparently elongates the body thus shortening to the eye the legs and arms, best offsets these peculiarities.

Rough surfaced Tweeds of large but subdued patterns are best adapted to this form—stripes should be avoided. Plain black quietly finished is also desirable.

Semi-ready suits for this type are made with studious regard to its peculiar requirements.

Finished and delivered two hours after ordered.

Suits or Overcoats \$25.00 to \$10.00. Trousers \$6.00 to \$3.00.

LENNY OR HARRY FORBES

Looks Like An Even Thing For Tonight's 20-Round Bout at the Pavilion.

Ed. Lenny and his manager, J. F. Dougherty, Philadelphia, arrived yesterday for the 20-round battle tonight at the Pavilion, with Harry Forbes of Chicago, under the direction of the Crescent A.C. Lenny is nicely at weight and could easily do 110 lbs. this afternoon, and is perfectly confident of victory. Manager Dougherty thinks that Lenny will beat Forbes easier than he did, and then nothing can stop this much-talked-of match. At all events the winner of tonight's bout is sure of a battle with the Brooklyn lad. Lenny has already signed with the Arena, Philadelphia, to meet McGovern, Dixon and Gardner, April 21. Tonight's program: Archie McEachern v. Fred Bird, 6 rounds at catch weight; Bobby Thompson v. Oliver Brown, 10 rounds, at 155 lbs.; Ed. Lenny v. Harry Forbes, 20 rounds, at 118 lbs. The men weigh in at Pender's Turkish Bath, 129 Yonge-street, at 3 p.m. to-day. First bout at 8:30, main bout at 10 o'clock. The reserved seat plan will be open all day at Griffiths, 235 Yonge-street.

Around the Ring.
 Dan Kelly has letters from Billy Purdy of Buffalo and Arthur Schram of Bat Portage, both wanting matches, the former at 120 lbs. anywhere, and Schram at the weight limit in his own town.

Owing to the small attendance last night "Tourists" show in the Pavilion was called off.

Jack McDermott of Rochester, who once fought J. L. Sullivan, has come over for tonight's bout. He has Emil Sanchez, the Cuban, in tow and will match him with anyone at 125 lbs.

Sporting Editor World: I am willing to meet Mr. Mougher or any other of the local lads at 110 or 115 lbs.

Bowling and Lawn Tennis.
 The members of this club held their annual meeting to-night. Judging from the financial statement to be submitted, the club has proved a success, both financially and numerically. Starting a year ago with a very small membership now shows over 200. The officers are certainly to be congratulated on this splendid showing. The Executive Committee have under consideration a large covered curling rink, which will likely be erected during the summer.

The Big Horse Show.
 Sir Charles Tupper and Hon. Clifford St. John, together with about fifty of the M. P.'s from the capital, have accepted the invitation of the Reception Committee to be present at the Horse Show in April.

OPENING OF THE DOG SHOW

Canadian Fox Terrier Club's Annual Exhibition in the Walker Building.

WELL BRED CANINES BEFORE JUDGES.

Summary of First Day's Awards—Judging To Be Continued This Morning.

The second annual dog show given by the Canadian Fox Terrier Club opened yesterday in the Walker Building on King-street under most favorable circumstances. There was in attendance during the whole day.

The exhibit is without doubt one of the best ever seen at a Canadian bench show, there being nearly 400 dogs in the building. The judges commenced work shortly before noon and by 6 o'clock had handled 10 of the classes. The fox terriers, setters, and collies are particularly good, there being a large number of both these, in fact, the whole show throughout. The fox terriers, these were awarded first, second and third, and a number of special prizes were given.

The show is well worth seeing.

LACROSSISTS TAKE THE TOWN

A Big Bunch of Them Here For the General Annual Meeting of the C.L.A.

DELEGATES IN RED, WHITE AND BLUE.

Secretary Hartley's Statement as Prepared for Presentation This Afternoon.

The Canadian Lacrosse Convention in the Temple Building, Bay and Richmond streets, promises to be the hottest on record. The delegates arrived steadily all day and by night they were heard and seen everywhere. The national colors decorated all red, white and blue were the prevailing colors down town last night. Chief interest of course centres in the meeting. Good men are out for all the offices and consequently the running will be close.

A pleasant feature of to-day's gathering will be the banquet to the delegates at Duncan's at 7 p.m.

Secretary W. A. S. Hartley has prepared an excellent statement, which gives a lot of splendid information and reads as follows:

In presenting to you my annual report, I am glad to congratulate this association upon their arrival at the 12th milestone in their career, and it is with pleasure I note the progress and growing interest in our national game throughout the length and breadth of the Dominion. The national colors decorated all red, white and blue were the prevailing colors down town last night. Chief interest of course centres in the meeting. Good men are out for all the offices and consequently the running will be close.

The fact that the applicants for the honor of office at the disposal of your association are men of such marked ability and undoubted integrity as the retiring officers and the candidates for the meeting is another evidence of the ever-increasing influence and power of lacrosse in Canada.

DEAD HEAT FOR ARKANSAS DERBY.

Prince McEurg and Leo Planter divided the honor, Harry Pardee third.

Little Rock, Ark., March 30.—The Derby, the fourth event on the card at the Little Rock Jockey Club spring meeting to-day, furnished one of the hottest finishes of the day. After some delay Leo Planter was first away, with Harry Pardee second, Prince McEurg third and Mona B. last.

The race started at 12:30 p.m. and Harry Pardee's colt was on even terms with Mona B. two lengths away. The dust was kicked up when Harry Pardee worked hard to get the Prince's nose ahead of the son of Leonatus, but his efforts only resulted in catching up even with him on the last jump. The stake was divided.

DeBary Artist Out West.
 Washington, March 30.—Drury J. Tallant of Great Falls, Montana, has been appointed an immigration inspector for service at Coeur d'Alene, Idaho. This appointment is made in accordance with the recommendation of the collector of customs at Great Falls, who states that an additional inspector is urgently needed to prevent the importation into this country of alien contract laborers.

The "Naughty Naughts" Dinner.
 The "Naughty Naughts" (100) class dinner of the Royal College of Dental Surgeons was held last night in Albert Williams' dining room. A spirit of hilarity was in evidence, as the exams have just been concluded. Mr. T. B. Armstrong was in the chair, and Drs. Primrose, Clark, Webster, W. E. Willmott and Messrs. McPherson, Harnes and Gray and Howard responded to the toasts. The committee for the dinner was: T. B. Armstrong, chairman; K. C. Campbell, secretary-treasurer; Charles Harding, representatives from the freshmen; J. J. Leacy, A. D. A. Mason. The menu was an artistic one and a jolly evening was spent. Harry Baker, vocal; Bert Monroe, accompanist, assisted.

On Tuesday night last was played one of the finest hockey games ever seen in the northern district. The game was for the championship of the district and was played on the new rink at Warren, between the Warren and Sudbury teams. The Warren boys played all round the Sudbury men, made the score 5 to 3 in favor of Warren. They have winter yet in the north.

"Take it back"

—go to some grocer who will give you Pearl-ine. That's the only way to do when they send you an imitation. The popularity of Pearl-ine begets the habit of calling anything that's washing-powder, "Pearl-ine." Those who notice the difference in name, think perhaps "it's about the same thing." It isn't. Nothing else equals Pearl-ine, the original and standard washing compound.

A RIGHT ROYAL SPENDTHRIFT.

Mr. J. Israel Tarte is inviting all Canada to participate with him in a great national crusade. He would have us abandon our thrifty Canadian habits and inaugurate a reign of public extravagance. Mr. Tarte is facile princeps the most magnificent national spendthrift that has yet appeared in Canadian politics. There have been none equal to him, or even a good second. Count Mercier had the Tarteen idea of doing things in regal style, but his extravagance was of a personal character. The Count cut a wide swath in Paris, but he spent the people's money on himself and his immediate household. Mr. Tarte's prodigality is planned on a larger and nobler scale. He would have the whole country go hand in hand with him in his spending crusade. Mr. Tarte's recent speech is a bold attempt to bribe the nation into accepting his policy of extravagance. And we are free to admit that many will succumb to the tempter. He promises magnificently for all us. Toronto, for instance, is to get half a million for harbor improvements. And that is only a starter. In regard to the Collingwood-Toronto grain route, he is not prepared to say that this work should not be carried out. He leads us to believe we may yet see that enterprise undertaken by the Government. Then there is New Ontario, in which Toronto is particularly interested. He thinks half a million ought to be given for railway development in this section. The rest of the Ontario schemes are numerous. Mr. Tarte referred to these, among others: harbor improvements to be undertaken at Hamilton, Collingwood, Godfrich, Midland, Kingston, Port Burwell, Port Dover, Parry Sound. Many think the Trent Valley Canal a fad. Not so Mr. Tarte. According to him, "it would be a fatal mistake and a blunder to think for a single moment of not proceeding with that national work." All these improvements involve a large expenditure of money. But, says Mr. Tarte, are they not needed? And shouldn't the people have them? Can the city of Toronto, can the Province of Ontario resist such a tempting outlay? Hardly, even though it involves a much more magnificent program for Quebec and some of the other provinces. It is not necessary for Mr. Tarte to bribe Quebec. That province is already with him heart and soul. Still, our magnificent spendthrift hints at a few projects which he proposes to undertake for the benefit of that province. Montreal is to have a great national harbor and Quebec is to secure a bridge across the St. Lawrence. These are works that will run into millions each. Then there is the Georgian Bay Canal, providing a short cut from the Georgian Bay to Montreal, via the Ottawa River. Mr. Tarte has "no hesitation in saying that, in his opinion, that project is worthy of all consideration." This canal is a twenty million dollar scheme and the Government has been asked to guarantee the interest on the capital necessary to build it. But, says Mr. Tarte, if this Canadian nation is to grapple with the national question of transportation, it must be prepared to spend money. This, the spending of money, is the motif that courses through the whole of Mr. Tarte's "great" speech. Mr. Tarte has already hypnotized the members of his own party, including even such an economic philosopher as Mr. Mullock. They have all come to accept Mr. Tarte's money spending mania as genius. Will he be successful in hypnotizing the Opposition and the country? We are not so sure that he will not. But let the people depend upon it, that, however fascinating Mr. Tarte's money spending program may be, there will be a grand row over it all in the end. Mr. Tarte's promises are, many of them, bogus. He is flinging his promises far and wide, not with the intention of carrying them all out, but for the express purpose of keeping the voters quiet until he gets through certain schemes that are particularly interesting to political partisans. We do not say that all Mr. Tarte's schemes are suspicious. By no means. But the multiplicity of them—real and bogus—will enable him to successfully pilot through many that are bad and that would not succeed on their own merits.

THE FRESH AIR FUND.

The Committee in Charge of the Lovable Work Lay Plans For the Summer Season.

The committee that has had charge of the Fresh Air Fund met yesterday afternoon, and talked over the prospects of the coming season. It was unanimously decided to continue, but with the hope that they will be able to augment largely what has been done during the past years. The work is past its experimental stage, and has proved to be of an inestimable benefit to many hundreds of poor and delicate children. It may seem premature to speak of the undertaking at this season of the year, but we hope a few words of explanation will justify it. The committee has made it a rule, to cut out the clothing of the children, and to furnish them with clothing according to the climate, and as the children do not naturally think of outtings until the warm weather arrives, it is a large degree prevents arrangements being made for the homes, etc., until the summer is upon us. This does not give the committee an opportunity of selecting the best places, or yet the careful consideration as to who shall go. Often as many children as are sent during the whole of the season have the work in full operation. We mention this because we believe it escapes the notice of those who, from year to year, have so liberally given of their means. Last year some 1200 mothers and children were given outings, and about 200 were sent to the country for two weeks, but as mission workers state they could double that number and still keep to those who stand in need of it, it is sincerely hoped that the philanthropic friends of the poor will rally round the committee as in the past. The committee is composed of well-known gentlemen, and a guarantee that every cent will be carefully spent. The names are as follows: J. M. Treble, Evelyn Macrae, Fred W. Richards, Rev. C. Dixon, treasurer, who will acknowledge all donations through the press, as well as by letter.

Judgment for Defendant.

Judgment was given yesterday for the defendant in the suit of Alex. Elliott of Peterboro to recover \$300 on a promissory note from J. B. Hay of this city. The judge upheld the contention of the defence that the note was given for accommodation purposes, and that the defendant was the director of the Toronto Smelting Company.

THE CATTLE SHIPPERS' GRIEVANCE.

It is high time a railway commission was appointed to adjust the glaring inequalities that exist in the freight rates on the Canadian railways. The World yesterday quoted some of these discriminatory rates. To-day we give another instance of the unfair treatment that is accorded Canadian cattle shippers in comparison with their United States competitors. The rate for shipping cattle from Detroit to New York via the Michigan Central and the Washburn Railway is 19 1/2 per cwt. The rate charged by these same lines from Windsor, just across the river from Detroit, to New York is 20 1/2, a difference in favor of the American dealer of 10 per cent. The Grand Trunk and Canadian Pacific rate from Windsor to New York is 28c. These lines accordingly secure the business. The two American lines are tied up by agreements not to compete with the Grand Trunk and C. P. R. If the Michigan Central can carry cattle to New York for 19 1/2 cwt., shouldn't they be compelled to carry cattle offered them in Canada at the same rate? The cattle shippers of Canada have a grievance against the railways, equally as objectionable as that of the oil dealers. They ought to receive immediate redress.

OF GOLDEN STAR DIVIDENDS. Something About Okanagan Free Gold Mines—General Mining Information to Date.

There will be no sessions of the Toronto Mining Exchange to-day (Good Friday), Saturday or Monday. The Board yesterday afternoon adjourned until Tuesday morning.

Golden Star Dividends. The cheques for the Golden Star March dividend arrived in town yesterday, i.e., five days late. The next dividend will be declared on April 15. It is understood that the cheques received yesterday did not come through the Bank of Toronto, as it

had been announced they would. This stock would want a better show for an advance if the people connected with it would refrain from making announcements which they afterwards fail to carry out.

J. O. 41. A wire received from Dunith confirms the fact that work will be resumed on the U. O. property on Monday. The company purpose operating on a very extensive basis, and are now negotiating for a large plant. It is said that they have sufficient funds in treasury to develop until the mine is on a paying basis.

Okanagan Free Gold. In company with Manager Edgecombe, The Spokesman-review correspondent paid a visit to the property of the Okanagan Free Gold Mines (limited). The company owns and controls 12 locations, beginning at the Similkameen river and running up the mountain, and having a width of about 3000 feet. In ascending the mountain several ledges are crossed, which run east and west through the property.

A Unique Record. Camp McKinney has a unique record from the standpoint of the investor as well as that of the miner. Every dollar that the miner and prospector has spent on the ground has made the property 100 times more valuable, and so far the records of full-grown have been practically nil.

The Ecuador Claim. The Ecuador claim is located on the mineral belt, which is a continuation Easterly of the Cariboo, Minnehaha, Slocan, Waterloo ledges. The north fork of Rock Creek crosses the claim, furnishing abundant water—some for power and plenty for all mining purposes; in fact, enough to run 200 stamps if necessary.

Capital Stock. The Capital Stock of the Company is \$100,000, the stock being divided into 1,000,000 shares of ten cents each. It will be seen that the capitalization is much smaller than that of the average British Columbia mine.

Lucky Coon Mine Rainy River District. Capital Stock \$1,000,000. Par value \$1.00. Non-Assessable. Our Hamilton office has for sale 15,000 shares of this famous stock. The property is one of the best, if not the best, in Ontario. Development work is progressing rapidly and shows up some unusually rich ore from both veins. A contract was recently let for the sinking of a shaft in each of the veins to the 100-ft. level, and ore, which had been taken from vein 5, at a depth of 15 feet, assayed \$250.72 to the ton. A letter just received from these states that the ore from the shaft of vein two is even richer than anything yet taken out. There is a five stamp mill on the property, which will be in operation the latter part of April. A seven-drill air compressor has been bought and is being shipped to the mine. We recommend the purchase of this stock, which is bound to advance.
