The wishes of the men are fairly well acceded to in regard to schedules of working hours, granting of leave of absence, arrangements for payment of uniforms; right of discharged or suspended employes to appeal for re-instatement, the return of fare boxes, providing of seats for employes, and equipment of cars; regulation for shop and shedmen, and

STRIKE IS AVERTED REPORT DECLARES

But Men Now in Session Will Have the Deciding Word -Prospects for a Lively Discussion Before Decision

As The World goes to press this Toronto Street Railway Co. are in session in the Star Theatre discussing, clause by clause, the report of the board of conciliation, which was made public at midnight. A special edition will be issued as soon as the result of their deliberations is announced.

What the outcome will be is hard to foretell. In the arbitrators' report, the statement is plainly made "A STRIKE HAS UNDOUBTEDLY BEEN AVERTED. . . IT IS JUST TO THE DISPUTANTS TO SAY BEEN AVERTED. THAT NEITHER PARTY EVER OVERLOOKED THE PUBLIC IN-TEREST: THAT THE RESULT OF THE NEGOTIATIONS HAS BEEN MAINLY ACHIEVED FROM A DEEP SENSE OF THE RESPONSIBILITY EACH SIDE FELT THAT IT OWED

TO THE CITY OF TORONTO." A poll of several representative em-ployes taken while they were assembling for the meeting, however, was not so reassuring. A good deal of disappointment was expressed at the proprised wage schedule. Opinion seemed to be that 26 cents an hour at least should be pressed for. The report gives the 3-year man 1-2 cent an hour increase over the flat cent an hour increase which President Mackenzie offered early in the week. It was no-tleable, tho, that the older employes seemed inclined to accept the agreement, and that the more pronounced kickers were the younger element. When seen by the newspaper men at

midnight. Judge Barron said: "I desire to say that our meetings have been most interesting, and, in fact, in many ways most instructive. Each side prepared its case with singular intuition of what it would have to meet from the other, and the amount of inform 1tion on economic conditions given by each side was a great surprise,

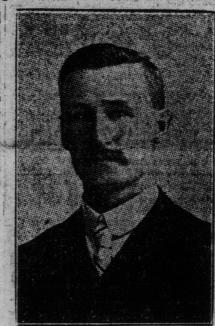

and to me a great education. One of the reporters complimented the judge on his success in bringing in unanimous report.

Board Declares Strike Has Been Averted by Reason of Concessions From the Men.

In the matter of the Industrial Dis-putes Investigation Act, 1907, and amendments thereto, and of disputes between the Toronto Railway Co., em-ployers, and the Toronto Railway Em-ployes' Union, No. 113, employes

The board of conciliation and investigation appointed by the honorable the minister of labor, in pursuance of a recommendation of the parties immediately concerned, and under and in pursuance of the said act and of its various amendments, to consider and settle the said disputes, having taken upon itself the full burden and responsibility of investigating and endeavoring to settle the same, have made an expeditious and careful enquiry into all matters affecting the merits and the right of settlement thereof, and respectfully report to the honorable the minister as follows:

1. The said board sat for several days hearing the various statements advanced on behalf of the employers and employes and in receiving from them, a large mass of documentary and other information in support of their respective views covering the disputes in question, and in this and other ways have endeavored to fully and carefully ascertain all the facts and circumstances in connection with the said disputes.

THE TERMS

(Schedule "A" referred to in the foregoing report and made part and parcel thereof).

A-An agreement made this 18th day

A—An agreement made this 18th day of August, A.D., 1910, between the Roronto Railway Company, hereinafter called "the company," and a committee of the employes of the said company, appointed at a meeting open to all employes of the company, hereinafter called "the committee."

Whereas a certain agreement bearing date the 18th day of July, A.D. 1907, entered into between the company and a committee of the employes of the said company, appointed at a meeting open to all employes of the company, held on the 11th day of May, 1907, has expired by effluxion of time, and it is in the interest of the parties hereto that a new agreement should be entered into, whereby their mutual interests may be ascertained and fixed for the period, of this agreement, having in mind as a first consideration, the service of the Toronto Railway Company as a public utility, and these presents are intended to carry out such purpose.

Therefore it is agreed as follows:

First—All Settled.

All matters in dispute between the

All matters in dispute between the company and its employes are hereby settled.

Second—Wage Schedules.

The wage schedule shall relate back and be in full force and effect on and from the 16th day of June, 1910, until the end of the term of this agreement, and shall be as follows:

lotormen and conductors—
For 1st year21 cents an hour. For 2nd year 23 For 3rd yr. and after 25 Assistant Car washers21 Motor and truck repair men-For 1st year 21 "
For 2nd year 23 "
For 3rd year 25 Third—For Two Years.

The term of this agreement shall be for two years from the 16th day of

Fourth-Cost of Uniforms. The company will pay half the cost of the uniforms of the motormen and conductors who have been in the company's service for a period of one year, and will provide free uniforms for mo-tormen and conductors who have been in the company's service for a longer period than two years, it being the understanding that no employe shall be required to pay for more than one uniform and a half. Regulations from time to time will be made by the company to provide for protection against loss in this matter from employes leavnany's service.

Fifth-Discipline The following regulation is agreed upon as to discipline: Any employe against whom charges may be received. ed will be required to report when off duty to the superintendent. His case will then be considered by the proper officials of the company, and will be dealt with upon the following principle: For minor cases he is to be ed. For serious cases, including drunkenness, drinking in uniform or drinking on cars, destruction of property, accidents thru carelessness or neglect, missing fares thru neglect, or carrying friends free, using stools on portion of route not allowed by company, ity to passengers and profanity oncars, he may be suspended or dismissed at the discretion of the proper offi-

Sixth-Right of Appeal. Any employe against whom any charges may be received shall have the right of appeal in person to the general superintendent, and, except as to a charge of dishonesty, may bring with him in his interest a deputation or any committee of his fellow-employes. Attendance in such capacity shall not operate to an employe's disadvantage. An employe attending on such deputation or committee shall give due no tice to his car starter or foreman, and, he be a motorman or conductor, shall take his car upon reporting to his car starter and shall not be required to report in the usual course to the head readmaster.

Seventh-Providing Seats. The company will provide seats for motormen upon closed cars, and will

The Hand That Deadens and the Chicago Dead Hog's Preferential Treatment

Let us open to-day's discussion of the great railway question in Ontario by noting, first, that Farmer Maclean's wheat got over to Miller Campbell's siding at the Junction yesterday, and, doubtless, by this time is ground into good flour; whether the customers of the Campbell Milling Co. will be able to get the flour as quickly remains to be seen. Another incident was that the Montreal and Toronto express on the C. P. R. came in two sections in the morning, and, marvelous to relate, the second section had a regular baggage car instead of an old-time box car for express and luggage! The great feature of these baggage cars, according to the yellow-back Folder, as outlined on page 3, is "the Krupp steel" in the passenger train wheel equipment, a steel which has "never failed." Old Krupp must have been a personal friend of George Ham.

Now, let us discuss the treatment accorded by the Grand Trunk to the towns east of Toronto, including Whitby, Oshawa, Bowmanville, Port Hope, Cobourg and the rest of them. What has been the net result of the Grand Trunk service to these towns? Our answer is that the net result of the lack of service to these towns, and the denial of service, has palsied and paralyzed most of them.

For years they were charged a greater passenger rate than any other portion of Ontario, because the G.T.R. had a monopoly.

For years and even to-day the station in most of these towns has been kept away from the town because of real estate speculation in the early days of the road, and no effort since to couple up.

The finest lot of men that ever attempted to develop any portion of Canada were resident in the Town of Whitby and the others down to Belleville. Recall the men who tried to start the big agricultural works in Oshawa, and who had to give it up.

Recall the fact that the late Hart A. Massey, whose greatest monument to-day is the Massey-Harris works in Toronto, tried to get a start at Newcastle, one of these Lake Ontario towns, and, having tried it, had the foresight to see that his only salvation was to get away and come to Toronto, and he came.

Recall also how the Ontario Bank, with Bowmanville as a centre, had to get out; but before it got out and came to Toronto had developed a constitutional weakness from which it never recovered.

Recall all the fine residences in these Eastern Ontario towns, on which their builders spent some of them ten, some twenty and some

which their builders spent some of them ten, some twenty and some even thirty thousands of dollars, and which, at one time or another, nearly every one of them, have been sold for a song. We have seen a \$25,000 residence in one of these towns sold for \$800, its windows left broken, its doors wide open and the once beautiful grounds overrun with weeds!

If these people wanted anything, if they wanted a suburban service and a commutation ticket, they were told by Mr. Hays, or by his representatives or predecessors, to build trolley lines for themselves!

Recall the fact that an attempt was made when the railway commission compelled equality of passenger rates to these towns, to make up the money thus lost by increasing the rates on coal!

Very few industries have been built up in these towns compared with what there should have been, compared to the enterprise of the original inhabitants and their aspirations. They wanted to make their country productive, to build up their towns, to ship their products everywhere; but if there is one past of Casaria to the country products.

country productive, to build up their towns, to ship their products everywhere; but if there is one part of Canada that has never yet got into touch with the Canadian West it has been the towns along Lake Chtaric and the Grand Trunk

Fortunately, some of the manufacturers have been able to survive and profit, and have every promise now of sharing in some of the development of the Dominion, but they are all looking forward to one thing more than anything else, and that is that the Canadian Pacific may be coming to them, and that, as a matter of fact, the Canadian Northern will be in Trenton from Toronto before Christmas. The first mile of rails from the junction in the Don Valley on the road to Trenton was spiked yesterday on the Canadian Northern, and the work will be pushed with the greatest vigor from now on; yet we suppose the same old policy of the Grand Trunk will be continued, notwithstanding the other two roads are going in, and the business will be switched from that old and, in many respects the best, line, to the others, because there will be a continuation of that policy which has prevailed from the day the Grand Trunk was constructed and these others, because there will be a continuation of that policy which has prevailed from the day the Grand Trunk was constructed and these towns were established; namely, to run the railway from Montreal without any regard for the people who live in these towns and who have had to put up with such railway service as they got. Again we say to-day, for all the evidence of railway paralysis it is in this district of the Grand Trunk east of Toronto that one must look for it.

Mr. Hays is supposed to be a great big railway man, but, if he is, he should have so nursed the country where he had a monopoly that the people would have respected him, respected his service, and joined with him and he join with them, in developing what they both had. Instead of saying "build trolleys for yourselves" he should have built others like the trolley system in Oshawa, and on which his company has an option. If he gives the towns out from Montreal a suburban service, why deny it to towns out from Toronto? He has improved things a little in Whitby, but Whitby still feels the dead hand. a little in Whitby, but Whitby still feels the dead hand.

Take the Town of Cobourg, which has every requisite for both a city and a delightful summer resort, and still stagnation reigns!

ASK MR. HAYS THE CAUSE OF THE DIFFERENCE BETWEEN COBOURG AND PETERBORO. People from Toronto who want to go to the horse show prefer to go in motors rather than go down on the splendid day service of the International Limited and come back in the slow coach that takes from 7 o'clock to 10 at night-one makes the trip in two hours, the other in three; the one amid reasonable comfort.

If the Grand Trunk had done its duty by these towns, had been sympathetic, and had it given a good service. The World believes there would have been five cities at least where there are now many poor towns; and if any community and set of people, farmers included, were justified in cursing their railway service, it was that splendid community of people who lived along the shores of Lake Ontario, and whose fancies and dreams were never realized! One after another they went to their long homes and, as they went, saw the dead hand of the Grand Trunk upon the place they left.

We give the Grand Trunk every credit for its thru line of double track, for taking out the grades and improving the equipment since Mr. Hays took hold. But Mr. Hays, like Sir Thomas Shaughnessy, had his big eye on the dead-meat trade of Chicago. He wanted to run the refrigerator cars from Chicago to Montreal, and he got a lot of business; refrigerator cars from Chicago to Montreal, and he got a lot of business; but he got it because he gave the service and gave the rates to the dead hogs of Chicago which he denied to the live citizens of Canada who lived along his line. There were fast trains for all the Chicago dead hogs that could come along at half the freight charges on Canadian products, especially of Canadian farmers. You could not get the hogs of the Canadians of Durham, Northumberland and Ontario Counties into Toronto with anything like the speed and facility and the rates accorded Chicago dead hogs! accorded Chicago dead hogs!

In fact, for years, the main thing on the Grand Trunk, as it is on the Canadian Pacific, has been to hustle the dead hogs of Chicago thru Ontario in preference to all other traffic. Passenger trains are switch-Ontario in preference to all other traffic. Passenger trains are switched to do this, and the best engines, and the right of way, and the first-class rolling stock, and all the local agents, and the chief executives, all these forces are devoted to the dead hogs of Chicago and their rapid transit thru Canada. The dead hog of Chicago is only held at divisional points for icing. And he gets it, and the man in Chicago sees that Mr. Hays and Sir Thomas get it to him. The cultivation of the Chicago dead hog on the two great Canadian railways that cross the Province of Ontario is the greatest achievement in Canadian railway history, at least so think Mr. Hays and Sir Thomas Shaugnessy. Hurrah for the Chicago hog and what we've done for him!

It is a strange thing, however, that nobody has come forth, up to the present, to champion the cause of these towns and the farmers along the Grand Trunk east of Toronto. When the unfair passenger rates question was raised in parliament not one of the members from these counties stood up to make protest. An outsider, however, after a good deal of hammering, succeeded in getting the Railway Commission order for equality of passenger rates, so that the Grand Trunk could not charge 3 %c east of Toronto and 3c west of it. Nor did any of the news-

Instead of wearing heavy serge coats, trousers and puttees, the men wore their canvas fatigue uniforms. Because of that they did not suffer much from the heat.

Brig. Gen. Otter is taking a great interest in the corps. Apparently he wants to make sure that the regiment is fit to represent Canada. He has spent the past four afternoons and sevoral mornings here. Gen. Otter highly complimented the pioneers by saying that this was the cleanest and neatest camp he had ever seen.

Brig. General Cotton of Toronto was a visitor here to-day. He came attired in civilian clothes and carried his camera. A party of eighteen members of the Australian Mounted Cadets, who are circling the globe at their own expense, were in camp to-day. All are wearing their uniforms. Their ages range between 18 and 20.

The band was invited by the City of Quebec to play on the Terrace. They have done a lot of practicing since arrival. A concert was held last night and regimental talent provided a good time.

The Hand That Deadens and the Chicago Dead Hog's Preferential Treatment

CONTINUED FROM PAGE 1.

papers of the country ever make protest that we know of: they all sat mum; and one thing in regard to this country to-day is the lack of spirit in its press. Like the people, their heart has been about broken. There was one newspaper in this province that should have championed the people's rights. But many years ago the men who then directed, and who direct it to-day, started in to help the Grand Trunk to get the Midland system and the old Great Western, and that paper and Sir Oliver Mowat and his government aided and passed the necessary legislation. That consolidation may have been for the benefit of the country or may not have been, but, at all events, it was the fact that these towns never got any assistance from the newspaper in question. Nor will it say a word for them to-day or a word against the Grand Trunk. And there is another paper in Montreal that has drawn a great deal of business and circulation out of this country, and never yet has it said one word assaipst its unfair treatment by the Brydges up to Hays' executives.

The World, however, has referred time and again to it, and it in tends to keep on hammering until the situation is changed and until. at least, the Canadian Northern and perhaps the Canadian Pacific get into this country. We are glad to notice that even under the wing of the Canadian Northern a number of men in Oshawa are proposing to build a trolley line on or near the Kingston-road, from Bowmanville thru Oshawa, Whitby, Pickering and then on and into and over the new Canadian Northern tracks to Toronto. We trust this project will go thru. We would like to have seen it a municipal monopoly.

Again, we say to Mr. Hays that local traffic is the backbone of a railway, and the Canadian people along the line of traffic are of greater importance than the dead hogs of Chicago, and that if Mr. Hays will even yet change his methods and come to Toronto at times and come and see the people who live in these Lake Ontario towns and see that they get better service, both passenger and freight, he will make friends and business for his road and build up these towns. Give them the suburban service. It is better to do that than to Lynch poor devils of strikers at Allandale!

And now we come to the last thing which we wish to say to-day, and that is that The World proposes to keep putting it up to the Ontario Government, the duty of intervening in the interest of these towns, and all the towns in Ontario that do not receive decent railway treatment from the big companies that are in this province. Sir James Whitney, who happens to be prime-minister, must, of his own owledge, know almost better than anybody else of the paralysis t has affected the towns of the St. Lawrence and of Lake Ontain consequence of the arrogance of the Grand Trunk. He must know that when complaint was made to Sir Wilfrid Laurier of these grievances he declared that anybody with grievances of that kind should "go to Mr. Foy" and Sir James Whitney of the Ontario Legislature. The Ontario Legislature and Ontario Government is supreme in many things and has in its hand the enforcement of all the railway laws of the Dominion. It has also the right of taxation, and can compel justice to every one, even tho the railway law is made at Ottawa. Our advice to the people of Eastern Ontario is to put it up to Sir. James till he moves. The World will help them, and we imagine more good has been done in the last few days than has been done in many years previously by the exposure of the fact that the chief executives of the Grand Trunk and the Canadian Pacific, and of their best motive power, and of their right of way, and of their quick transit are consecrated to the Chicago dead hog instead of the ordinary citizen of Ontario.

The above is not pleasant reading, but it is a cold-blooded statement of facts, and when the facts come out the improvement sometimes comes.

Shaughnessy. We also wish you well, Sir James, too. Recall who

We wish you well, Mr. Hays. We wish you well, Sir Thomas

wished you to give the Ontario and Timiskaming to the Grand Trunk.

Wasn't it a God's-blessing that you did not do it? But get this into the heads of all of you, oh you magnates, that the

trust reposed in you is to give the best possible local service to the people who franchised your roads, not to Chicago dead hogs. Again we say, we wish you well, gentlemen; we wish you well. And the Mayor of Wexford joins the member for South York in this wish-you-well.

These articles are not yet finished-just commenced P.S.—The two broken panes in the window of the Donlands station may have been caused by one of the chefs in the day car throwing out a tin that contained mock turtle soup made from a recipe given to Sir Thomas by a Lady of England and confided by him to his chief purveyor. But Mr. Oborne is goins to put them in all right. His powers will soon be widened!

P.P.S .- The C. P. R. freight jam still continues. The World heard from several manufacturers and shippers who gave goods and carloads to the C. P. R. two weeks ago, and they believe that they are still in the yard! Anyway, the consignees are wiring to know when they may be

The real trouble is this: The C. P. R., as far as Toronto and this part of Ontario is concerned, has been trying to do a two-horse business with a one-horse outfit. As usual, the one-horse outfit falls down under the strain. Sir Thomas Shaushnessy, if he's too busy with monograms for hotel doyleys, should send some one up here to reorganize things, or give some man here authority to do it.

EATON'S DAILY STORE NEWS

The Formal Display of Our Dress Fabrics and Silks for Fall Takes Place Monday

Beauty, Newness and Elegance of Weave and Coloring combine to make in the Dress Fabric Sections one of the most interesting displays we ever presented.

Demonstrating the far-reaching possibilities of the Store in procuring the worthiest in weave and coloring, and emphasizing the position of this section as exponents of what's most correct and desirable in the world of dress fabrics. Those circles devoted to fancy diagonals, broadcloths and worsteds offer a wealth of choice that makes this display an authoritative exposition of the best of the new season's productions.

Perhaps the most interesting of the new fabrics is called ratine -a heavy looking, thick material, but quite light-weight, for tailored suits and separate coats. This you'll see shown in conjunction with a wonderful display of fur effects, such as baby lamb, Persian lamb, Russian

Fancy Diagonals, surpassing in loveliness any collection we ever presented before. These magnificent goods, with their beauty of finish, and the attractiveness, the heavy sergelike weave, that has already created a demand, promise to become favorites. England, Germany and France have contributed their choicest weaves, and the rich color array is a feature of this circle. Prices from \$1.00 to \$1.50.

Worsteds, most popular of all for dressy suits. These weaves show an elegance in finish this year that adds to the beauty of the new colorings.

The New Colors-Dull, sombre shades, as beautiful as they are unusual, are featured for the new season. The darker tints of Autumn, intensified by contrasting shades, will be worn for street costumes as well as evening dresses, and even coat linings will be of contrasting shades. Harmony of coloring is the keynote of the new fashions, and in a display of such lavishness as we show selection becomes

is one round of surprise—there are brocaded moires, a fabric of extreme daintiness, combining a rich moire effect, with beautiful BROCADED CREPE_ an absolutely new weave-an exquisite effect of satin roses on soft, clinging crepe. In exclusive costume lengths; this material is very suitable for those wishing a distinctive evening gown of the utmost elegance. Per yard \$2.50

Here also are lovely effects in crepe de chene, in Persian patterns, in the transparent effects so

Eoliennes-more beautiful than ever-soft, clinging, lustrous fabrics, silk and wool mixtures, in Persian designs that will be worn for dresses, waists or trimming effects. Per yard \$2.00 Moire Stripe Eolienne-another lovely material

to be worn over satin—is shown in shot effect. Per A Feature of this showing are the exclusive costume lengths in crepe in such effective combina-

tions as rose and blue, green and navy, green and brown, etc. Per costume length \$18.00 Silks, Satins, Velvets

and Velveteens

The beauty of the new silks will but emphasize the extensive use of silks and kindred fabrics for Fall and Winter of 1910 and 1911. Plain silks having a bright or satin finish are most popular, though vieing for favor come the foulards, Dresdens. Paisley and neat fancy dress silks in both evening and street shades.

The use of satins will be quite remarkable for the coming season, according to all indications-for evening gowns and afternoon dresses, street wraps, foundations for transparent fabrics-even tailored suits of satin

The new double fold foulard is a feature. as is also the new Chantecler surah silk for and waists, and the lovely double width chiffon velvet has a most closely sheared pile, making it a most beautiful fabric for dress purposes.

Note and Comment

The Toronto Ball Club piayers failed to make good on the start of this long series at home. The excuse is that the 13 hours journey from Providence unfitted the men for bassball. Still Killian pleased the expert fans by his initial effort, showing that he was not affected by the journey. It was Baltimore on the opposing line, and the wonder is how we won those four straight at Oystertown.

Jack Dunn is still a crab. He started out by bluffing the umpire first time upthen drawing a base on balls, hitting safely three times and finnally working wilson for four bad ones.

According to a report from Baltimore the supremacy of the umpire in the baseball field was rudely assailed there early this week when the chief of police told Umpire Brown that if his decisions were such as to cause a disturbance he would put him off the grounds and never let him officiate again. Dunn must be educating the chief along his own lines.

No wonder the press and city council displayed medicore form in the second same of the afternoon that went four infungs into darkness, being viewed by many spectators, including the chief nooter. The main feature was the versatility displayed by Mayor Geary, who had good control and all the twists, and on going to second base his worship started the only dobule play of the day, corralling a high fly when the runner on first forgot the signals. Besides playing in a spirit of fairness the aldermen appear not a bad lot who could hardly be connected with some proceedings at city hall as depicted in the evening papears. They did not rag the umpire weekers, and the forgot the signals. Complete Records of the Toronto Cricketers in Their Seventeen Games of the Tour in England and Ireland.

According to the figures furnished by the secretary of the Toronto Zingarl, wins of the tour totaled nine. The Cheshire match was a victory, instead of a draw. There were seventeen games originally arranged for the Zingarl, of which fifteen were played. The match against the Green Jackets at Winchester was canceled, and the Blackheath game was abandoned on account of rain. The correct record of games played and results are:

Gentlemen of Liverpool

Royal Artillery at Woolwich

Royal Engineers at Chatham

Gentlemen of Surrey at Oval

St. Lawrence C. C. at Canterbury

Won by 123 runs

Gentlemen of Sursey at Oval

St. Lawrence C. C. at Canterbury

Scores of the sames received by mail, including the M.C.C. have been given

Scores of the games received by mail, including the M.C.C., have been given in The World. The two concluding games of the tour in Ireland were both drawn In the first match against Leinster C.C., the Canadians, after facing an innings defeat, managed to pull the game around, and at the close of time it was very probable that with another ten minutes' play they would have scored their tenth victory. In the final game against Phoenix C.C. the draw was in the Zingari's favor. Interruptions during the second day, on account of rain prevented any chance of a definite result, and the game was drawn before a o'clock, owing to the bad light.

Zingari's batting which was the most depended on was not as big a factor as expected in their victories. The bowling, backed up by good fielding, was very successful.

VICE IS VICE.

When the city council acquiesced in Crawford on the ground that he was "totally incapacitated," they sealed a ten when the Ontario Opposition want ammunition.

Partisans will retort that it is no bus iness of the opposition what Mr. Crawford does in his private capacity as a fireman or ex-fireman as long as he satisfactorily performs the duties of the office to which the Whitney government has appointed him.

This will not satisfy people who look to Sir James Whitney for fair dealing. If any Grit had done what Mr. Crawford has done, the howls of The Mail and Empire would have been direful to hear, and Mr. Crawford himself would have been virulent in denunciation. What would have been a vice in a Grit, does not lose any of its vi- paration for possible contingencies clousness in Mr. Crawford.

AN OPPONENT OF SPIRITUALISM. accept his view that any theory or ideals. hypothesis, however incredible, is better than the admission that human personality survives the grave and may

sentations of an official who plainly has no conception of the true nature of a public market. It is, or ought to be, a place where sellers and buyers congregate and transact their business without any restriction save what is necessary to facilitate the course of trade. Regulation that has a contrary effect is preposterous. Not only the gardeners, but the citizens have good rights to call for the elimination of the rule prohibiting sales except in specified quantities. While it stands, the city market is not one at all. If relief is refused, a remedy can easily be found, were vegetable growers and other producers alert enough to act for themselves, as has been successfully done elsewhere.

BRITISH RAILROAD TRUSTS.

Great Britain is about to get its first taste of the whip that can be used by railroad monopolies. Until recently the British railways were keen competitors for passenger and freight traffic and the public benefited thru the efforts made to secure customers by the provision of superior facilities and advantageous rates. Profits naturally diminished and of recent years dividends have been maintained with difficulty, the proportion of working expenses to gross receipts steadily inper cent. In that year considerable of pole-finders, Messrs. Peary, Cook & progress was made with the co-opera- | Co. tive methods which the companies had begun to adopt, but which of course were directly opposed to the policy of competition always fostered by parliament. Indeed, efforts made to obtain parliamentary sanction to amaigamation schemes during 1909 all came to naught on account of the unwillingness of the promoters to accept the safeguards sought to be imposed in the public interest. Disappointed in this the companies have achieved their objective by means of agreements and pooling arrangements which do not require legislative confirmation. and the country is now confronted with a group of what are virtually railroad trusts covering every section of Great Britain.

These groups are stated by The Lonn Daily Express to be the Great orthern, Great Central and Great Eastern lines; the London and North-Western, Midland, Lancashire and Yorkshire and Cheshire lines; the Great Western and South-Western lines, and the Caledonian, North British and Glasgow and South-Western linesthe latter covering the greater part of Scotland. Already traders are complaining that they have lost the power to compel reasonable treatment, because they are no longer able to divert their traffic. In some cases the screw has been unmercifully applied and one great manufacturing firm in the north received an ultimatum on behalf of seven railroad companies threatening that unless it ceased what were

called its irregular methods of securing attention to its grievances, its credit accounts would be suspended. Traders are combining in a campaign to obtain parliamentary safeguards against arbitrary treatment and freight increases, altho the pooling agreement it was represented would save and actually has saved considerable sums in working expenses. The elimination of competition, hitherto regarded as the principal public protection, will undoubtedly bring the whole railroad situation before the government and parliament and will certainly strengthen the movement for nationalization.

COMPULSORY MILITARY SERVICE

In an editorial paragraph The Globe refers to Gen. Botha's declaration in o the grant of a pension to Mr. William favor of compulsory military service for all boys in South Africa and adds: "He is forgetting the lesson of the transaction which will not be forgot- Boer war, the very thing he should remember." The Globe, however, itself forgets that the one ever-impending menace to South Africa is not external invasion or the renewal of the British and Boer struggle for supremacy, but arises from the large and constantly increasing black population. This constitutes the gravest problem set before the statesmen of United South Africa, and its avoidance in critical form will tax their quality to the uttermost. Of all the British states Canada is the most fortunately situated as regards foreign aggression or civil trouble and possesses therefore quite a number of peace-at-any-price doctrinaires, who nose "militarism" in the slightest preeither particular or imperial. But N OPPONENT OF SPIRITUALISM.

Judgment: It is clear that the devise of real estate to one "when he shall attain the age of 25 years" without more, is contingent upon the he shall attain the age of 25 years' without more, is contingent upon the devises attaining that age. The words of contingency are in the gift itself and, unless controlled by other portions of the will, must prevail. Re Francis, 1905, 2 chapter 295. The same principles apply to a bequest of personalty. It is equally clear that the context, may show that the testator used words which, standing alone, would import a future vesting and contingency as indicating merely a future enjoyment of property immediately vested. The wording of the will in question is peculiar and requires careful consideration. The material clauses give Homer Carr a vested interest in the residuary estate subject to be devested in the event of his death before he attains 25. I read the earlier part of the 2nd clause as being a complete gift to bir and the latter words of that clause is being equivalent to "to be his absolutely," when he attains the age of ""." This equivalent to "to be his absolutely, when he attains the age of "1". This construction is aided by the provisions of clause "60." Upon Homer Carr attaining the age of 25 years, the estate is to be "handed over' to him. This shows that it was therefore vested and that what the testator intends shall then take place in a handing over" of that which was the son's property, till then subject to be de-vested upon his dean and then his absolutely. Finding this the key to the testator's meaning in the words of the will it is not necessary to investhe will it is not necessary to inves-figate the many cases challon the ar-gument, but my impression is that there are two indications favoring vesting. (1) the gift over on death; (2) the gift of the income from 21 to 25. It was admitted on all hands that if vested the application for mainten-ance should be granted. Upon the originating notice the order will de-clare the estate vested subject to be de-vested in the event mentioned in para-

AUCTION SALES 275 HORSES

Tuesday and Friday of Next Week

Sales begin each day at 11 o'clock Private sales every day.

175 HORSES AUCTION TUESDAY, AUGUST 23

The best of all classes: Heavy Draughts, General Purpose, Express, Delivery, Drivers, Carriage and Saddle Horses.

Many of our shippers have advised us that they will be in with their loads for next week, among them being James Williamson, Louis Green, John Bongard, P. Jackson, B. Weese, C. Mitchell and W. Leith. We will have a good supply of horses, and intending purchasers will have a good range for selection.

100 HORSES AUCTION FRIDAY, AUGUST 26

GOOD SELECTIONS OF ALL CLASSES. At each of our next week's auctions we will sell a large number of Serviceably Sound City Horses, and they will in the majority of cases go for the high dollar.

We also offer at each auction such vehicles as we have consigned to us for sale, as well as many sets of single and double harness.

S	SPECIAL SALE OF REGISTERED CLYDES
E	We have been favored by instructions from the well-known
PT	a consignment of Registered Clydesdale Mares and Fillies at THE REPOSITORY on THURSDAY, SEPT. 8TH. These Mares and Fillies
	have been recently imported, and are of the best stamp of Clydesdale stock. Any one of them will certainly be a desirable acquisition for farmer or breeder. Catalogues on application to THE RE-
8	POSITORY.

The Great Annual Sale

Thoroughbred Stallions, Brood Mares, Two-yearold Colts and Fillies,

THE PROPERTY OF THE ESTATE OF THE LATE WM. HENDRIE,
ESQ. (VALLEY FARM STABLE, HAMILTON),
will be held at THE REPOSITORY on

Wednesday, Sept. 28th

This sale takes rank as one of the most important that are held in Canada during the course of the year, and we may say that in receiving instructions to hold this special sale we were informed that this would be the greatest and most important auction of Thoroughbreds ever held in Canada. In previous years, at such similar sales, we have sold such well-known horses as "DENHAM." "SHIMONESE" and "KELVIN," among many, many others. Catalogues will be ready within a short time, and are had for the asking.

RACE-HORSE MEN should be interested in the fact that we are making a special cut in the prices of all Horse Boots and Horse Goods during the next two weeks. This special reduction pertains to all Racing-Horse Goods, with the exception of Gilliam Grand Circuit Hopples, and on these our price is now, as heretofore, only \$11.75 per set.

Our CARRIAGE and HARNESS DEPARTMENT occupies four floors of our Main Building, and, as Exhibition opens within so short a time, we take this opportunity to invite any visitors to call and inspect our complete stock of Horse Goods,

ACCIDENTAL DEATH Verdict of Coroner's Jury Into Railway Fatality.

In an inquest held at the morgue last night by coroner Geo. Graham into the death of William Cunningham, who was killed last Saturday by a yard engine in the C.P.R. yard in Ward Seven. the jury rendered a verdict of accidental death. W. H. McClement, engineer of the locomotive that ran over deceased, gave evidence that Cunning- Hord ham, who had been employed by the C.P.R. as fireman, made an antemortem statement that he was going to the round house to take out an engine to pull a train to Hamilton, that he had seen the yard engine approaching, but thought it was going to take a switch to the water tank. Instead, it came right on and struck him before he could get out of the way.

The evidence of Dr. Mason, who saw him on the scene of the accident, of Dr. Beaty, who attended him at the Western Hospital, and Dr. Thomas The final report of the insurance who performed the autopsy, showed commission, of which R. S. Lennie cf that both legs of deceased were sever. McAule Nelson is chairman, was laid before ed that he was otherwise terribly mu tilated, and that nothing could hav saved his life.

Defeats Duthie of Parkdale 22 to 7 -Boubles and Singles To-day.

The Dominion Lawn Bowling tournament will be concluded to-day at the Victoria Rink with the play-off in the Scotch doubles and singles at 10.30 o'clock. Yesterday's program consisted of the play in the doubles, singles and Toronto trophy. The trophy was won by W. Brown's rink of Westmont, which defeated G. Duthie's quartet of Parkdale. While Parkdale were a shade off color, Brown's rink never played stronger, and those who witnessed the game considered it to be the best playing seen during the entire tourney. The score was 22 to 7, and considering Duthie's playing during the tournament an idea of the merits of Brown's rink is easily formed.

A glance at the score by ends will now the consistency of Brown's play-ig. From the beginning till the end is grind never faltered for a moment is playing being of championship calibra-

Tarewell of Miss Percy Haswell.

Those who purpose availing themselves of the opportunity of bidding good-by to Miss Percy Haswell next week at the Royal Alexandra Theatre will do well to procure seats as early as possible, as the demand has been very large. Every lady who attends any performance will receive a photo-engraving of Miss Haswell, as a memento of her visit to Toronto.

Miss Haswell and her players will present as their farewell offering that most amusing farce "The Arabian thur is a very impressionable young man who, while his wife is away from home, reads for the first time the fantastic tales of "The Arabian Vients in who, while his wife is away from home, reads for the first time the fantastic tales of "The Arabian Nights." Feeling lonesome on account of his wife's absence, he decides to imitate Haroun al Raschid, and he sallies forth disguised, to see what adventure he can have in the City of London. It is a foggy night, and he meets a charming young lady who has lost her way. He offers to see her home, and, as the night is chilly, he lends her his hand-kerchief to protect her neck, not knowing that his thoughtful mother-in-law had embroidered his name and address on the handkerchief. It is this little adventure that starts all his trouble and creates the uproarious fun.

Miss Haswell will be seen in the role of the circus girl, which will give her

Nights," by Sydney Grundy, who is a splendid opportunity for the display responsible for so many laughing successes. This piece has been admitted by critics to be the most amusing work that he has given the public. It may well be called a continuous

scream of laughter.

What little plot there is deals with Arthur Hummingtop, a very much married young man. When he took his wife as a partner for life, much to his disgust, he was saddled with a mother-in-law of the virago style, and a prominent musical comedy favorite. nincompoop of a brother-in-law. Ar-

Next Week at Shea's. Next week at Shea's Theatre, Manager Shea has a great bill, headed by prominent musical comedy favorite. Mr. Lonergan is indeed no stranger, as for two seasons he was an immense stock company favorite in this city. Mr. Lonergan is one of America's best leading men, a splendid actor, who has been associated with Mme. Modjeska, Mrs. Fiske and other well-known stars, while Miss Ricard made a splendid record in "Girls," "A College Widow" and the "Babes in Toyland." "An Idyl of Erin" is one of the best mediums either has had as yet. The play-let is from the pen of Mr. Lonergan, and one of the prettiest stage settings of the season is employed. There is plenty of comedy in the story, and the principals are ably assisted by Ed-ward Phelan and Edgar Allen. The special extra attraction for the week is the European animal novelty "Night in a Monkey Musical Hall," presented by Maud Rochez's wonderfu

monkeys. The entire performance is given by monkeys. The same monkey orchestra leader. who was a genuine New York sensation this summer, will e in his place in the orchestra.

Hugh Lloyd, the sensational boundng wire artist, is another feature, and will find the same warm welcome that Bothwell Brown appears here for the first time, and his wonderful pre-

sentation of girl types made him the big feature of the Cohan & Harris Minstreis last season.

Harry Fox and the Millership Sisters' artistic dances and clever up-to-date songs are always a welcome feature. The three Westons, Catherine, Florence and Juliet, are dainty musical comedy girls, and their offering is sprightly and artistic.

Cook and Lorenz are called "The Two Millionaires," and their wealth of comedy is well rated.

Irene Green is a newcomer at Shea's, and her comedy planulog is one of the new things of the season.

The kinetograph closes the bill with new pictures.

"In Panama" at the Grand.

The Grand opens the regular season or Monday evening with the Rogers Brothers' famous musical comedy success "In Panama," in which production the Klein Brothers have the leading comedy roles this season. The ofng comedy roles this season. The

fering is especially appropriate for the opening, as it is a real summer show for the summer. It has been given an entirely new scenic equipment and costuming; many new and tuneful song numbers have been added; the dialog has been brought up-to-date in humor, and the principals are the pick of the profession for the roles assigned them: The Klein Brothers for many months played the roles formerly presented by the Rogers Brothers, and are credited with being two very funny fellows. Miss Sybil Brennan, the prima donna, has a splendid voice, and is heard to good effect in several of the latest song hits. The chorus is an attractive one and the ensemble numbers are render-ed in capital style. The sale of seats patrons are always assured of the scal of prices remaining unchanged no mat-ter whether the show comes to Toronto after playing high-priced time. The usual Wednesday and Saturday mat!ness will be given when seats can be reserved at 25 and 50 cents.

What is described as an entertainment—a direct departure from anything previously presented at the Star Theatre—is promised for next week. The offering will be the Big Review in a thoroly original and up-to-date musical comedy. The comments come musical comedy. The company contains the names of some of the cleverest comedians before the public. There are sixty people in the cast, in-cluding twenty bewitching young la-

THIS is to announce our "Fur Opening" for fall and winter of 1910 and 1911. It is timely now because of the National Exhibition which begins next week in Toronto. Many thousand visitors from all parts of Canada and the United States will be here and our display is designed to act as an additional feature to their sight-seeing.

DINEEN'S FALL FUR OPENING

You know that Canada is particularly noted abroad as a "Land of Furs" and this opening in our showrooms will serve to convince visitors and the citizens that Toronto takes the premier position as the largest fur depot in Canada.

Throughout the summer we have been working overtime on these goods and the result is that we are able to place before the public reproductions in splendid fur of the very latest of Parisian Neckwear, coats, jackets, ruffs and muffs.

Superb examples of exclusive garments in Alaska Seal, Hudson Seal, Canadian Mink, Hudson Bay Sable, Russian Sable, Chinchilla, Pointed Fox, Isabella, Brown, Black and Arctic Fox, Russian Pony, Marmot, Electric Seal, Blue, Grey and Black Lynx, Persian Lamb, Alaska Sable, Fisher and Royal Russian Ermine.

Furs are steadily advancing in price. To buy early is to make a good investment and get a wide assortment of new garments from which to choose from.

The scenic equipment easily eclipses anything heretofore shown on the "wheel," while in point of original features, sensations, surprises and jingling music, the comedy is said to surpass any similar entertainment. This is Mr. Stair's own show. He has made a reputation as a manager and this show is a winner.

At the Gayety

"Follies of New York and Paris" will be the opening attraction at the Gayet Theatre, beginning to-night and continuing next week. Charles Howard, who heads the cast of fifty clever people, needs no introduction. The popular comedian has been before the public for many years and has been starring in a number of musical comedies. In "Night Yif" ring in a number of musical comedies. In "Night Life in Two Gay Cities," Howard portrays the part of an all round good fellow. Jennie Austin, the stately and beautiful leader of the extravaganzas, impersonates a well-known member of the "400," while the many other principals introduce them-selves in various types to be met in Paris and New York. The plot is woven very closely around the most characteristic parts of the two big cities. There are many captivating and hypnotizing song ensembles, novel features and specialties running thru-out the comedietta. The array of beautiful women attired in dainty and be-withching gowns, and the luxurious equipment of the production are bound to please. There are several striking features, among which are the famous "Scarecrow Girls," the Eight English Roses, The Parisian Beauty Dolls, Martin Ferrari, grotesque whirlwind dancer and pantomimist, assisted by

YOUR VISIT TO THE EXHIBITION WILL GIVE YOU THE OPPORTUNITY TO CALL AT MY OFFICE AND SEE MY BELT. CONSULTATION IS FREE.

IS THIS HOW YOU FEE! Without energy, without inclination to work, with muddled thoughts,

depressed brain, lack of vitality, pains in the back, headaches, dull, stupid sensations, loss of appetite, arising in the morning unrefreshed from sleep, gloomy and despendent—the man whose nerves and vitality are breaking down feels like giving up the fight. Do you feel these symptoms? If so, take heed.

DR. McLAUCHLIN'S ELECTRIC BELT

is for you. It pours glowing, exhibitanting vitality into a weakened body; it rejuvenates, animates sluggish vitals, stimulates the brain to activity and fills the body with life, ambition and endurance. In one day it will make you feel as if born anew. It furnishes the motive power that runs your body, and quickly banishes weakness. If you haven't confidence in electricity, let me treat you at my risk.

I will give you the Belt on trial, without one cent of risk to yourself. Give
me reasonable security and I will take your case, and

WHEN YOU ARE CURED, PAY ME CURED WHEN EVERTHING ELSE FAILED.

Dear Sir, —I have given your Belt a fair trial, with satisfactory results. It has done for me what everything else has taken in my case. I am, yours truly, The Dr. McLaughlin Electric Belt is a cure for all signs of breakdown in men and women. The vitality of the body is Electricity—the force in the nerve cells. My Electric Belt will give you back this power, and enable you to fight on in the battle of life. Now, if you suffer, do not lay this aside and say you will try it later. Act to-day—NOW.

The Chicora, forging away from Ni-agara-on-the-Lake, was about a mile and a half from shore. Brockwell, with two other men, Al. Murphy and A. Whyte, in charge of Second Officer
J. Tisdale, was engaged in hauling
up the big wooden fenders that protect the boat from, being scraped
against the wharf when in dock, and
had reached that part of the deck
where there is no railing near the

Here the three of us, with Brocksays Mr. Whyte, "when, without warning, the rope snapped and poor Brockwell pitched forward into the lake. Murphy immediately threw in a life-preserver, while I notified the second officer, and he passed the word to the captain.

"I don't think the man could swim, for he made no attempt to move his arms, but simply swung them up in

Capt. King reversed engines full speed astern, and within three minutes the starboard lifeboat was manned and swung over the side. At this a and swing over the side. At this a panic came very nearly spreading among the passengers, most of them being under the impression that fire had broken out, but they were soon made aware of their mistake. Tho a keen search was kept up for forty minutes with the United States life boat from Youngstown two wachts boat from Youngstown, two yachts, fishing boats and the Chippewa and Corona circling round in every direction, no sign was had of the missing

so quickly had the engines been reversed that part of the machinery came to grief, and the Chieora is now laying to in the shipbuilding plant at the foot-of Bathurst-street for repairs.

Edward Brockwell is practically unknown in Toronto. No one even knows known in Toronto, No one even knows what his address was. He was about 21 years old. He had worked for the company early in the spring, and after a long absence applied for a position again last Monday.

ART AT THE EXHIBITION

Canadian Paintings Will Be Given a Good Display.

In connection with the art display at the Canadian National Exhibition, the fact must not be overlooked that while many noble specimens of British and French paintings will be displayed, Canadian art will not be ignored.

The art gallery will contain a number of the finest specimens of the work of leading Canadian artists. That Canadian art is not to be specred at is demonstrated by the fact that in Liverpool at the present time an exhibilon of Canadian pictures is in progress which will be later on view in the other leading cities of England. So fine is this exhibition, that a publica-tion like The New York Sun, which pays a wide attention to art, recently devoted a lengthy article to it.

The exhibition of Canadian pictures ir England is largely made up of paintings which have been seen in past years at the Canadian National Ex-

Harbord Cadets Win Fourth Prize. Militia orders will shortly contain the announcement that the Harbord Collegiate Institute Cadets won fourth prize in the Empire Day competition for the Schumacher Challenge Cup, open to cadets thruout the British Dominions. The first prize and cup do-nated by Col. John Schumacher of Johannesburg, South Africa, went to Pietermaritzburg College, Natal, the winners making the extraordinary score of 950 points out of 2000. The contest required special figure targets at 300, 400 and 500 yards, and involves very rapid firing. Considering that they had had only one practice and that the magazines of their mark II Ross Rifles jammed in the rapid firing, the Harbord boys did remarkably well. A BROKEN-DOWN SYSTEM. This is a condition (or disease) to which dectors give many names, but which few of them really understand. It is simply weakness—abreak-down, as it were, of the vital forces that sustain the system. No matter what may be its causes (for they agree almost fumberless), its symptoms are much the same; the mere prominent being sleeplessness, sense of prostrations or weariness, depression of spirits and want of energy for all the ordinary affairs of life. Now, what alone is absolutely essential in all such cases is increased vitality vigour— VITAL STRENGTH & ENERGY to throw off these morbid feelings, and experience a proves that as night succeeds the day this may be o more certainly secured by a course of

The Secret in Getting Ahead is in Getting a Start

The first step toward substantial progress in life is getting a home. Every man should have a home, and if he is married and has a family, the duty is even more imperative.

WORKINGMEN! HERE'S YOUR START-TAKE IT!

Tes, you heed not look at your more fortunate friends and wonder how they managed to get a home—you can have one of your own

As Easy as Paying Rent

PARSONS ESTATE

You can buy one for \$4 to \$12 per foot, on easy terms—\$10 down and \$5 per month. You get immediate possession and can start building at once. Our terms are so easy that by setting aside the amount you formerly paid in rent, it will very largely pay for building your house. Start now and build in your spare time and you will have it done by fall.

GO AND SEE PARSONS ESTATE SATURDAY AFTERNOON OR ON YOUR SUNDAY WALK

Parsons Estate is located at north end of Dufferin Street. Take Lansdowne Avenue car, Sundays, and go up to Davenport Road, then east to Dufferin Street, and thence north to the property. The Carlton Street car goes up Lansdowne Avenue every week-day to the Canada Foundry. On Saturday afternoon our motor cars will meet visitors from 2 p.m. to 5 p.m. at end of Carlton Street line and take them to see the Parsons Estate. This is the best way of seeing the property. an earnest and eloquent eulogy of his conduct in office by Bishop Clinton of this city.

Recalling the words of the former executive, that he would not be one "to close the door of hope in the face of a man because his skin happened to be black," Bishop Clinton expressed the gratitude of all negroes expressed the gratitude of all negroes for the encouragement which this attitude of the then president had given to his race, and closed by assuring Col. Roosevelt that whatever "promoin public life he might seek, he would always find the negro element solidly allied in his support. The cheering which greeted this de

claration had hardly abated when Booker T. Washington, chairman of the meeting, advanced to the front of the platform and urged that all in sympathy with the sentiment expressed by Bishop Clinton rise to their feet. The entire assembly rose amid re newed cheering.

PRAISE FOR MISS HASWELL Minneapolis Critic Glad to See the Talented Actress Here.

"It was, therefore, like the glimpse of a friendly face to see upon the bill-boards the name of Percy Haswell, and to learn that she was playing a summer stock engagement at your beautiful Royal Alexandra Theatre.

"In Minneapolis we have enjoyed two ummer stock seasons, with Miss Haswell as leading woman of the com-pany, and we realize, as I am delighted to observe. Toronto does also, her exceptional personal charm and the fact that she is to-day one of the foremost actresses of America. No American actress is more sure of herself or more certain to get the very point of her play and every nuance of her role 'across

'I saw her to-night as Syprienne in Sardou's brilliant satire 'Divorcons,' and it was as artistic and it telligent a performance as that of Sarah Bernhardt or of Grace George in the same In 'The Darling of the Gods' she has excelled, in my opinion. COBOURG HORSE SHOW

Record High Jump Marked the Closing Day's Program.

COBOURG, Aug. 19.—(Special.)—
What proved to be the most attractive program of the horse show was presented to-day, the fourth and closing day. The high jumping contest produced a new record for the Cobourg Horse Show Park, Confidence, owned by Hon. Clifford Sifton, taking the jump at 7 feet 4 inches. The red coat race, which was won by Waterbridge, with T. J. Macabe of Toronto up, proved to be the most exciting event. The prize for this race is a \$500 cup, to be won twice by the same owner. The four-in-hand contest brought together an exceptionally handsome exhibit, there being four entries. Following are the awards:

\$3.50 Recipe Cures Weak Men---Free

Send Name and Address To-day-You Can Have It Free and Be Strong and Vigorous.

I have in my possession a prescription for nervous debility, lack of vigor, weakened manhood, failing memory and lame back, brought on by excesses, unnatural drains, or the follies of youth, that has cured so many worn and nervous men right in their own homes—without any additional help or medicine—that I think every man who wishes to regain his manly power and virility, quickly and quietly, should have a copy. So I have determined to send a copy of the prescription free of charge, in a plain, ordinary sealed envelope, to any man who will write me for it.

LIST IS GAINING AN UNDERTONE.

Friday Evening, Aug. 19. The setback which was administered to speculation in local securities yesterday had a further influence in to-day's operations in the market. This, however, was chiefly in curtailing dealings, as no recessions in prices worth mentioning developed. On the other hand, further strength was shown in some issues, which rose above their recent high levels. The check administered to the market has served to prevent undue speculation, and to-day's purchases were mainly for investors. This is the best thing that can possibly happen for the market's future, and, altho prices may not advance rapidly, the list is gaining an undertone which will give an account of itself when things are more propitious for buoyancy than they are at the present time.

No Rabies Patients. For the past ten days the provincial board of health have been totally immune from rables patients, but the regulation concerning the muzzling of dogs is likely to remain in force for so he time, as many dogs' heads have been submitted to the department which have been infected with rabies. It is also likely that the provincial enactment prohibiting the transportation of dogs on trains, which was recently extended to September 7, will be extended when that time arrives.

MANAGER OF GOLDFIELDS

Says That Larder Lake Property Ha Large Body of Rich Pay Ore.

B. T. Brooks, manager of Goldfields, Dimited, from Larder Lake, has written to J. A. Whaley, secretary, giving a general idea of the results of his operations on the claims in the New Ontario goldfields. Mr. Brooks says: stripping, trenching, sinking test pits and a shaft, which is now thirty-five feet deep, all of which is independent of the large amount of development already done on the property.

The quartz-zone can easily be traced

across the property from twenty-five to thirty-five feet wide.

have rich ore, which gave \$27 per ton, average taken from five hundred pounds of ore.

By this it can easily be seen that we have an ore body from at least twenty-five to thirty-five feet wide by sixty feet in depth, and it will no doubt continue as we go deeper. It is only fair to assume that it will.

The mill tests that were made The mill tests that were made from the surface, and the development that we have done, prove that we have a very large body of pay ore, which only requires a large will to which only requires a large mill to make it an immense proposition.

BUYING OF PETERSON LAKE. The first real demand for Peterson Lake since the change in the directors of the company came into the market of the company came into the yesterday, the buying being of a con-

centrated nature and due to the belief that the shares have now reached a point altogether out of conformity with their real value.

One buyer yesterday expressed himself to The World in this way:

SIMIPSON:

Europe to You---Via Simpson's

If you haven't been to Europe this summer, you'll be glad to know that Europe's new merchandise has already been brought to you through the medium of this great store. All our buyers are back early, and their purchases fairly chased them home. So that never before in August has there been seen here such a bountiful display of new European goods.

With regard to prices; we have fairly punctuated Europe with big orders, and consequently all these goods, bought in huge quantities, are owned by us at the best possible prices. Their early arrival means that stocks have to "step lively"-so you'll find prices here just a little less than usually prevail on new merchandise of this class.
