ROYAL ARCANUM CRISIS AT HAND

Supreme Council Must Withdraw New Rates or STAND CONSEQUENCES. Quarter Million Arcanumites Decide to Wreck the Order if Supreme Council Does Not Modify Rates--Will Investigate Conditions.

NEW YORK, Aug. 28.—The World says: "At a twelve-hour secret session, attended by representatives of seven-eighths of the Royal Arcanum membership of the United States and Canada, held yesterday in the Manhattan Hotel, resolutions were adopted demanding that the Supreme Council of the order discontinue at Putnam Bay next week the action of raising rates taken in Atlantic City last May. If this is not done it was announced there would be wholesale secessions and scores of lawsuits by members that will disband the order. Open charges of breach of trust were made against the Supreme Council. The session was attended by prominent Arcanumites from the State of New York, New Jersey, Connecticut, Pennsylvania, Ohio, Massachusetts, Rhode Island and Michigan, embracing a membership of 200,000 out of the total of 300,000 in the entire order. General H. C. Cochrane, of Chester, Pa., one of the leaders of the order, said that "it should be investigated as carefully as the affairs of the Equitable Life Assurance Society." If anything is wrong it must be known and steps taken to right it. This is the Grand Sec. of the order in Massachusetts, and that if the Supreme Council did not revoke its action the matter would be placed before the Supreme Council on August 31. There will be at least 100,000 law suits against the order filed on that day." It was stated that the Supreme Council will be practically annihilated as it would pass into the hands of a receiver. It was agreed that if the Supreme Council will to abandon the objectionable rates the grand council in each state should meet and prepare a uniform procedure to be acted upon at a special meeting of representatives. A resolution was also passed to formulate a plan for a permanent organization to look after the interests of all Arcanumites against the "future tyranny of the supreme council."

CANADA AND JAMAICA Pall Mall Gazette Has a Word to Say Respecting Possible Confusion

MONTREAL, Aug. 28.—(Special)—A special London cable says: "The Pall Mall Gazette, referring to the Confederation of Canada and the West Indies, says: 'Canada's interest is mainly in a revival of sugar planting. Confederation would mean the free admission of Jamaican raw sugar. Canada could not take these islands over without some expense in providing their naval defenses and arriving at a difficult decision about the treatment of the colored population.'"

Gilmore Brown, when asked this morning when the work would begin, replied that they had already started organization and orders for material had already been sent, so that the work would be rushed as quickly as possible.

ON UNION PACIFIC

East Bound Wheat Extra Crashed Into Western Freight—May be Five Dead but Search of Wreckage Revealed Only Three Bodies

TOPEKA, Kan., Aug. 28.—Three persons were killed early today in a head on collision between two Union Pacific freight trains near Rossville, a town on the Union Pacific 18 miles west of Topeka. The dead are: William H. Gibson, engineer, Kansas City, Kan.; Owen Freeman, and Clarence Reese, conductor. Nobody was seriously injured. The three men killed were members of the crew of an extra eastbound wheat train which crashed into the second section of a regular west bound train at the sharp curve. Some of the girls were in the habit of going to dinner before the time, and as we desired to systematize things we announced that in future the whistle would blow three minutes before noon. This did not meet the ideas of some of the girls and they went out. We knew they were going, so the Sun's pen picture of the hub-bub and astonishment was not a true one. The statement that the train of the girls had returned is also incorrect. "Wherever the information was received, we know that the Sun managed to twist and distort it to suit its own purposes."

MARITIME BAPTISTS Declare Themselves for Sabbath Observance and Prohibition, but Oppose Formation of Independent Party.

CHARLOTTETOWN, P. E. I., Aug. 28.—(Special)—The Maritime Baptist convention adjourned last night to meet at Liverpool (N.S.). Resolutions were passed reaffirming the support of the principle of separation of church and state and opposing further extension of separate schools throughout the Dominion. The report on temperance strongly endorsed prohibition, and declared that the convention had no sympathy with the third party, but asked the temperance electors in each party to demand pledges from their candidates in support of prohibition. The Dominion and Provincial parliaments were requested to enact legislation securing to the cities the right to protect the Sabbath day.

SENATOR WARK LAID IN THE GRAVE TODAY

FREDERICTON, N. B., Aug. 28.—(Special)—The funeral of the late Senator Wark took place this afternoon and was one of the largest seen here since the death of the late Governor Fraser. A number of prominent public men from outside points were present, and joined with the citizens of Fredericton in doing honor to the world's oldest legislator.

The funeral service was conducted by Rev. Wilfred MacDonald at the late home of the deceased and was very simple in character. The choir of St. Paul's was present and rendered in an affecting manner three favorite hymns of the deceased. The funeral cortege, which was a very lengthy one, left the house at three o'clock and proceeded to Forest Hill cemetery, where the interment was made. The list of chief mourners included: Hon. Charles Burpee, J. W. Hunt, Dan Gilmore, Dr. Harrison, Principal Spickett, J. D. Phinney, Senator MacDonald, Senator Thompson, Hon. J. P. Fisher, Hon. Harrison, A. H. Barker, H. F. B. Burpee, Ernest Burpee, Sydney Burpee, and others. The session and burial of St. Paul's church and members of the city council walked in the rear of the chief mourners. It was the wish of the family that there should be no flowers but several beautiful pieces were received on a floral crown from the Dominion government with the words: "Faithful unto death," inscribed on purple ribbon. Among the telegrams of condolence received by Mrs. Wark was one from Earl Grey, Governor-General. It was as follows: "OTTAWA, Ont., Aug. 27, 1905. Mrs. Wark, Fredericton N. B.—Please accept my sincere sympathy. (Sgd.) GREY."

Mr. Anderson Talks of the Sun's Wonderful Story of Alleged Strike in T. S. Simms'

It is a shame to spoil a good story even if it is grossly exaggerated, but a deep and sincere regard for truth compelled Mr. Anderson to state in the T. S. Simms Company, who in Mr. Simms' statement, is in charge of operations in the big Union street establishment, to come out this morning with the announcement that the Sun's story, published this morning, in reference to an alleged strike among girls employed in the Simms concern was about as far from the fact as it could be. "We had no strike," said Mr. Anderson. "Some of the girls, 17 in number, instead of 25 as the Sun stated, went out a few days ago, but the other twelve have returned, and the other five will, I believe, come back. In fact some of them have asked for their places. "The trouble arose over the question of dinner hours. Some of the girls were in the habit of going to dinner before the time, and as we desired to systematize things we announced that in future the whistle would blow three minutes before noon. This did not meet the ideas of some of the girls and they went out. We knew they were going, so the Sun's picture of the hub-bub and astonishment was not a true one. The statement that the train of the girls had returned is also incorrect. "Wherever the information was received, we know that the Sun managed to twist and distort it to suit its own purposes."

TOMORROW WILL TELL Whether McArthur and McVey Will Accept Bonus Offered by the City.

There was unusual activity about City Hall this morning. The mayor, recorder and others were closeted for some time, and it is learned that Engineer Hunter has been summoned to attend a meeting of the water board tomorrow morning at 11 o'clock. It is understood that McArthur and McVey will notify the city at this meeting whether they will accept the city's proposition. It is stated that should they decide not to accept, that the city will take over the work and complete it, rushing it through. It is realized that no time should be lost, but no definite promise to complete as soon as possible.

A SCHOONER IS ASHORE

The Pardon G. Thompson Went On Partridge Island

The American schooner Pardon G. Thompson, Captain Milton McLeod bound to this port from Harford, Conn., in ballast, went ashore about 7 o'clock this morning at Partridge Island, during a dense fog. The tide at the time was about two hours ebb and Capt. McLean, who came up to the city in the vessel's boat, stated that his vessel was high and dry with her hull resting on two big boulders. The place where she went ashore is midway of the island, facing the Bay of Fundy. The captain stated also that he heard the fog whistle, but the vessel drifted on the rocks. It is thought that she will come off at high tide this afternoon with slight damage.

ST. LOUIS, Mo., Aug. 28.—Dr. William Ringer, a member of the faculty of the Marquette Medical College, was killed by an explosion of benzene in the laboratory of the home yesterday. MEMOIRS OF SHERLOCK HOLMES, BY A. CONAN DOYLE.

THE ADVENTURE OF THE SPECKLED BAND

(Continued) "Ah, but I sleep more heavily than you." "Well, it is of no great consequence, at any rate." She smiled back at me, closed my door, and a few moments later I heard her key turn in the lock.

forget. "Oh, my God! Helen! It was the band! The speckled band! There was something else which she would faint have said, and she stabbed with her finger into the air in the direction of the doctor's room, but a fresh convulsion seized her and choked her words. I rushed out, calling loudly for my stepfather, and I met him hastening from his room in his dressing-gown. When he reached my sister's side she was unconscious, and, though

consciousness. Such was the dreadful end of my beloved sister." "One moment," said Holmes, "are you sure about this whistle and metallic sound? Could you swear to it?" "That was what the County Coroner asked me at the inquiry. It is my strong impression that I heard it, and yet among the crash of the gale and the creaking of an old house, I may possibly have been deceived."

"My sister appeared at the opening, her face blanched with terror."

"He investigated the case with great care, for Dr. Roylott's conduct had long been notorious in the county, but he was unable to find any satisfactory cause of death. My evidence showed that the door had been fastened upon the inner side, and the windows were blocked by old-fashioned shutters with broad iron bars, which were secured every night. The chimney was wide, but it is barred up by four large staples. It is certain, therefore, that my sister was quite alone when she met her end. Besides, there were no marks of any violence upon her."

"Miss Roylott, you have not. You are screening your stepfather." "Why, what do you mean?" "For answer Holmes pushed back the fringe of black lace which framed the face that lay upon our visitor's knee. Five little livid spots, the marks of four fingers and a thumb were printed upon the white wrist. "You have been cruelly used," said Holmes. The lady colored deeply and covered over her injured wrist. "He is a hard man," she said, "and perhaps he hardly knows his own strength. There was a long silence during which Holmes leaned his chin upon his hands and stared into the crackling fire. "This is a very deep business," he said at last. "There are a thousand details which I should desire to know before I decide upon our course of action. Yet we have not a moment to lose. If we were to come to Stoke Moran today, would it be possible for us to see over these rooms without the knowledge of your stepfather?"

"MAY NOT ACCEPT Quite Improbable that McArthur and McVey Will take the \$15,000 Bonus Offered. It is not probable that McArthur & McVey will accept the city's proposal of \$15,000 and no extra. In an interview last evening Mr. McVey did not appear to think that the agreement would be signed. He said that while the matter had not come up for final consideration between the contractors he, for one, did not think he could accept. They would be willing to go on with section 1 and section 2 as far as Ellersley Brook, but from that point to the lake the plans laid before them had proved so misleading—the test pits and borings being quite incorrect—that they could not complete that portion unless they received a bonus on the material taken out. They had already lost heavily on that part of the section on account of the rock encountered. The proposed payment of \$15,000 would not enable them to finish the contract and come out without a loss. Mr. McVey was not prepared to say what would be done if they declined to accept the new proposal. They were willing to shoulder some of the cost, he said, but they expected the city to give them a fair price for the enormous amount of additional work they had to do. As regards finishing the work by Nov. 1 the state of the weather would greatly affect the progress made. A rainy fall would render it almost impossible to get through, especially when the right class of men for the work were so hard to find. Mr. McVey spoke earnestly and in evident good faith of his desire to see the work completed this year. "We are willing to do all we can," he said. "I have had 22 years experience in all kinds of work and hitherto I have always made a success. I see by the papers that one of the aldermen wants to see us go on 'like men.' It is easy to talk, it is difficult to do. We don't seem to get any credit for what we have done. Section 1 is now the most advanced section of the four, and by the middle of September I estimate it will be completed. There are about 7,000 feet of the woodstave pipe now in position and we are making rapid progress. Reversing once more to the proposed new agreement Mr. McVey said: "The city seems to have hung this bait so high that there is little probability of our reaching it."

"YELLOW FEVER New Orleans is Convinced That the Disease is Checkered In That City and Regards the Situation as Encouraging. NEW ORLEANS, Aug. 22.—With the fever checked in the city, and plans under way to prevent further re-infection from the country, the local situation is still encouraging. Of the new disease centers eight are above Canal street, one is in Rosa Park, a fashionable residence park opening into St. Charles avenue, a well known citizen and member of Governor Blanchard's staff being the victim. Another case is at a boys' college far down town, one of the employes being stricken. Rev. Father Avellio, pastor of St. Maurice church, is another patient reported today. Of the deaths, only one occurred up town. The news from outside the city shows the continued seriousness of the situation. Definite information was received from Dr. J. A. Devron, the State Board physician sent to Levee, at the mouth of Bayou Lafourche, a few days ago. His report shows that the first news received from there was not exaggerated. During two days of work he found 60 positive cases of fever; 53 suspicious cases, and 15 cases of dengue. Paterson reports 15 new cases and no deaths. Hanson city reports six new cases; Kenner one; and Saxe plantation two. There was one death on Elizabeth plantation in Yborville. St. Rose, in St. Charles parish, has two cases, and one is dead. Corrine plantation in St. Bernard parish, below the city, reports one death, that of an Italian boy. Mississippi city reports three new cases, and states that the report that the state board has declared the fever epidemic there is unfounded. Sherbrooke, Aug. 22.—(Special)—At Lambton (Que.) on the Quebec Central Railway, the today destroyed twenty-nine houses, church, convent and presbytery. The burnt houses formed one-third of the village."

"WHY HAVE 'BORE PARK.' Moncton, Aug. 22.—(Special)—The city council tonight decided to take steps to purchase a property at the lower end of the city for 'Bore Park.' Legislation authorizing the council to purchase the property for park purposes will be had, and it was decided to vote \$7,500 towards the proposed park, providing \$4,500 in private subscriptions is secured. The street pavement question was up for discussion, and a committee that visited New York favored Hastings Asphalt block pavement, but the majority of the board, including Ald. Oivan, the new man at the board, decided to refer the pavement question to the city engineer and chairman of the board of works to report on the most suitable roadway. CHITTIK GOES UP THE LINE Halifax, Aug. 22.—William Chittick, of St. John, was found guilty of breaking into buildings and stealing on three counts and was sentenced to two years in Dorchester penitentiary on each charge, the sentences to run concurrently. An American writing from Calgary to the Boston News Bureau gives Sir William Van Horne credit for all that the fathers of the federation in Canada accomplished in opening up the far west by the construction of the Canadian Pacific Railway.

Fortunately, there were great and mighty men in Canada, some of whom controlled the Bank of Montreal, and they listened to Van Horne.

Although these provinces are farther north than Illinois, Michigan and Iowa, yet the soil, snow and blizzards of the latter are not touched there, owing to the warm trade winds, the "Chinook," which blows down over the Rockies.

IS ABOUT RIPE FOR THE PUBLIC High Level Necessary to Stimulate the Speculative Appetite, Says the New York Sun.

"This market," says the head of a conservative commission house, "has all the marks of a big bull market in process of development. All the precedents lead to the belief that speculation is going to broaden out in the autumn, with a big influx of public buying. Now we have only a professional market, the chief feature of which is the unmistakable bullheadedness of important investors and the accumulation of stocks by Wall Street."

WHEAT MARKET Factors That Aid in the Downward Trend of Prices.

Palmer, Webber & Co.'s Market Letter says: Primary wheat receipts last week were nearly one million less than the previous week and also nearly as much less than a year ago—\$800,000 against \$4,000,000 and \$4,000,000 respectively, and this in the face of liberal cash premiums over futures in all markets.

A BATTLE ROYAL

Will the new provinces of Saskatchewan and Alberta, which are to be formally constituted on Sept. 1st, divide politically on federal party lines? This question has aroused a great deal of interest, and will evidently be answered in the affirmative, despite the fact that Premier Haultain of the present Northwest Territories has vigorously opposed such a course.

It is charged by the Liberals that Mr. Haultain really aims to work in the interests of the Conservatives, and that he attended a Conservative convention at Moose Jaw in 1902, which he declared in favor of federal party lines.

Reviewing the situation the Montreal Witness (Liberals) expresses the opinion that Mr. Haultain probably has the majority of the people with him, but the politicians against him; while a correspondent of the Toronto News, recalling an instance where the premier's views clashed with those of other Conservatives, declares that "his looks on it both machine elements are combining against the common foe—the man who gives the people good service without consulting partisan advantages."

It is further alleged that the authorities at Ottawa would like to see Mr. Haultain out of the way, because he threatens if returned to power to have the constitutionality of the school clauses in the autonomy bills tested in the courts.

The name of Mr. G. H. V. Bulyea has figured much in this controversy. He is a liberal member of the non-partisan Northwest government, and it was charged by Conservatives last winter that he did not give Mr. Haultain proper support when they were in Ottawa in connection with the proposed autonomy bills.

Mr. Bulyea, while not charging all the responsibility for the convention or its actions upon Mr. Haultain or complaining of any breach of faith on the part of his leader, intimated very plainly that his position as a member of Mr. Haultain's government became an uncomfortable and almost impossible one. More than once he had been inclined to resign from the government, but it was the practically unanimous opinion not only of the liberal members of the assembly but of his liberal friends throughout the length and breadth of the Territories that he should remain in the government, and thus maintain that unanimity which Premier Haultain declared it was absolutely essential should be maintained to secure a satisfactory settlement of the autonomy question.

Following the presentation of the resolution approving the autonomy act, a number of speeches in support were made. One of the last speakers was Hon. G. H. V. Bulyea, who has been rather severely criticised for remaining in the Haultain government after the Moosejaw convention and after Mr. Haultain had over and over again proven by his actions that he was no longer living up to his professions of non-partisanship.

Mr. Bulyea, while not charging all the responsibility for the convention or its actions upon Mr. Haultain or complaining of any breach of faith on the part of his leader, intimated very plainly that his position as a member of Mr. Haultain's government became an uncomfortable and almost impossible one. More than once he had been inclined to resign from the government, but it was the practically unanimous opinion not only of the liberal members of the assembly but of his liberal friends throughout the length and breadth of the Territories that he should remain in the government, and thus maintain that unanimity which Premier Haultain declared it was absolutely essential should be maintained to secure a satisfactory settlement of the autonomy question.

Coming to another matter, Mr. Bulyea stated that in view of the generally accepted fact that the first provincial elections would be fought on party lines, certain friends had expressed the opinion that he had in the past been to a certain extent their representative in the Northwest government, he would naturally be their leader in the approaching contest.

While thanking all these, Mr. Bulyea asked the convention when selecting a leader not to consider him. He had made other arrangements which rendered it absolutely impossible for him to accept the position.

Mr. George Brown, M. L. A., followed in a short speech expressive of Mr. Bulyea's valuable services to the liberal party and people of the Territories and

said that if he would accept the leadership he would have the loyal support of the whole party. It will be observed that Mr. Bulyea remained in the territorial government because he believed it desirable to have a non-partisan administration up to the point where autonomy was secured. Thus far, therefore, he agrees with Mr. Haultain. But at this point agreement ends, and Mr. Haultain finds himself opposed by Mr. Bulyea and those Liberal politicians who formerly supported him for non-partisan government of the Northwest. In Mr. Scott he has a clever and strong opponent, and since the gambit has been thrown down it may be expected, despite his recent letter strongly opposing partisanship, that he will rally the Conservative forces and fight it out on that line. He will be opposed not only by the Liberals of Saskatchewan, but by the influence of the Ottawa government, which means that Mr. Haultain has before him the fight of his life.

There can be no doubt whatever that the governor of the new provinces of Saskatchewan will call upon Mr. Walter Scott to form a government and that he will not select Mr. Haultain as one of his colleagues. Nor would the latter accept a subordinate position after having been premier in the Territories. Hence a party fight may be expected.

In Alberta, of which Mr. Bulyea will be governor, the leader of the Conservatives will be Mr. R. B. Bennett, another native of this province. Who the Liberal leader will be is not yet decided.

The new editor of the Ottawa Free Press is a man who does things. An Ottawa letter says of him:—"Mr. Thomas Marquis is a well-known literary man, educationist and athlete. He graduated from Queen's in 1890, with honors in English, and for some time taught with marked success in Stratford, Kingston, and Brockville. He had written a number of works, including Canada's Sons on Kojje and Veldt, a history of the Canadian contingent in South Africa, a Life of Earl Roberts, and lives of the American Presidents from Pierce to McKinley. He is one of the best known Rugby players in Ontario."

A St. Petersburg cable yesterday said: "The Emperor spent today witnessing minor military manoeuvres by the corps of Guards between Tsarsko-Selo and Krasnoyelo, based on lessons learned by actual experiences in Manchuria. The Emperor, the Dowager Empress, some of the Grand Dukes and other high officials were present. No foreign military attaches were invited."

If the movements of the troops were based on actual lessons learned in Manchuria, the Emperor and party must have found it somewhat fatiguing exercise to keep them in sight.

The union of the Baptist and Free Baptist churches, which will soon be an accomplished fact, illustrated the growing spirit of tolerance among the churches. A dozen years ago there seemed great difficulties in the way, and advocates of union had an up-hill task. The union will be productive of great good. It will enable these two churches to concentrate their work where hitherto their efforts and sympathies have been divided, and the good effect of the change will be especially manifest in small communities where each denomination has struggled to sustain a church.

"Taxpayer," who writes to the Sun on the subject of manual training, and indulges in somewhat contemptuous criticism of those who declare themselves in favor of it, should come out into the open. He affects to know more about this question than those who have openly expressed their views. They would like to know who it is that treats them and their views so cavalierly.

Russia is still greatly troubled about her dignity and honor. She should have given more attention to that aspect of affairs before the war broke out. Then there would have been no war.

If Moncton establishes a "Bore" park, St. John will gladly contribute specimens of the bearded ladies that flourish on the benches on King square, in this city.

WHO'S CRAZY?

(By a Lunatic.) I'd like to know whether I'm crazy, or whether some of the other residents talking at this board are crazy.—Ald. Christie at the water board.

When I received my tax bill, I thought I'd go insane; I thought about John Lombard, and had water on the brain.

And what my frantic murrurings they listened to my groans. They say that all I raved about was fifteen thousand bores.

The doctor pulled his whiskers, and asked me could I pay. I threw another fit last time, and loudly shouted nay.

I thought I must be dreaming when he said they'd pay for me, The barbour labored freely—so free 'twas hard to see.

Money-eyed they were not, Money-eyed they were, somebody was crazy blind, and all eyes had a blur.

I'm wondering if that contract had gone the other way, Would we get fifteen thousand plunks from Meagher and McVey?

"Why," they asked him, "do you have such a large number of court orders in your pocket?" "I have a right legal chukka," I could not carry the same one about me. I was careful to keep my wits about me. The courtiers died laughing.—The Independent.

SONS OF TEMPERANCE Past and Present Work Done on the West Side of the Harbor. Members of the order of the Sons of Temperance in this city are facing a condition which is partly a result of the great increase in the number of societies and apparently in part to a declining interest in such work as this order endeavored to do in its more active period of existence. The division in Carleton has not been holding regular meetings of late, and last evening two district officers and quite a number of members of other divisions went over to give encouragement to the few who endeavor to keep the organization alive. Seats to other divisions will also be made. Discussing the history of Granite Rock division, one of the old members last evening regretted the present lack of interest, and told of incidents of the days when men, partially intoxicated were induced to take the pledge, and were looked after by members, to keep them in the path of sobriety. He told of one man who broke his pledge, was taken in the same night and re-obligated, and a member of the division went to his home with him till morning. In the morning another member took up the task, and the victim of appetite was looked after until he was himself again. "We are not doing such work now," said this member, sadly, "but there is need of it—even in Carleton, where no liquor is supposed to be sold." When the visitors were returning down Rodney wharf to the ferry steamer, they were accosted by a drunken man. As they boarded the ferry boat three more youths, who had been over to the east side of the harbor, walking uncertainly, and strongly under the influence of liquor. "Evidently," observed one of the visiting party, "there is still work for Granite Rock to do." It has been suggested that if some one would start out with a petition to license saloons in Carleton, temperance sentiment there would experience a wonderful revival.

CANADIAN MEDICOS Yesterday's Session of Canadian Medical Association at Halifax Was an Interesting One.

Halifax, N. S., Aug. 22.—(Special)—The Canadian Medical Association opened its annual session here this morning with a large number of delegates. President John Stewart occupied the chair. The first business was the presentation of the reports of the general secretary, Dr. Elliot, of Toronto, showing 237 names inscribed in the treasurer's register at the 37th annual meeting of the association held in Vancouver (B. C.), in 1904. The proceedings today were highly interesting. On the platform were the president, Dr. John Stewart; President Marsh, of the Nova Scotia Medical Association; Lieut. Governor Jones; Mayor MacCallister and others, while scattered throughout the audience were prominent members of the profession from all parts of Canada and the United States. The president first called upon Lieut. Governor Jones, who welcomed the members of the association. The Canadian medical men and eminent medical men from across the border who had come to participate in the session. Mayor MacCallister spoke briefly, giving welcome to all. Dr. John Stewart delivered his address, which was adjudged as one of the most interesting delivered. It dealt with general and historical facts in an interesting manner. The association, he said, had met in Halifax twice before, first in 1873, and again in 1881. In 1873 the attendance was 100. Today it is more than 200. He spoke at length on the dangers of sedentary life, and with attending it. To modern times, he said, the old-fashioned idea of domestic economy. He urged for temperance in all things. He dealt with the historic side of Nova Scotia. She had two very able men in the late Sir Wm. Dawson, principal of McGill, and the late president, G. M. Grant, of Queens. At the conclusion of his address a vote of thanks was moved by Dr. Blackadar, of Montreal. Dr. D. A. Campbell, of Halifax, gave an address on Medicine, and was listened to with closest attention. During the meeting the president called from among the audience Dr. Howard Kelly, of Johns Hopkins University, who made a brief speech; Dr. Francis M. Caird, M. B. F. C. S., Surgeon of the Royal Infirmary, Edinburgh, who also presented a short speech. A reception was held at the Province building tonight in honor of the visiting doctors and was a brilliant affair. The arrangements were perfect. The interior was lavishly decorated. The reception was held in the legislative council chamber, the Fifth Royal Garrison Regiment band playing a choice programme. The guests were received by Mrs. G. Carlton Jones. The assembly hall was used as a refreshment room. More than 700 invitations had been issued for the function.

RUSSIA IN SORRY FIX Revolutionary Conspiracies and Strikes Continue to Menace Czar's Domains—The Famine Reports.

ST. PETERSBURG, Aug. 22.—Minister of Agriculture Von Schwanebach informed the Associated Press today that the reports that famine conditions were threatened in 22 provincial towns greatly exaggerated. There was no fear of a general famine. M. Von Schwanebach declared that the situation was under control by the government in the provinces affected were adequate. Outside of six provinces, where the situation was bad, the crop had failed only to a small extent and the effect was entirely local. MOSCOW, Aug. 22.—It is reported here on good authority that a revolutionary conspiracy has been discovered among the troops encamped in the outskirts of Moscow, and that 28 arrests, including those of some officers were made before the conspiracy was broken up. The conspirators were arrested in the city of Moscow. MOSCOW, Aug. 22.—At a public meeting in the town hall today the emperor's ministers on the Douma project was discussed. On speaker denounced the manifesto and the project in violent terms; another urged armed rebellion. Later the municipal officials entered the hall and the mayor, Prince Galitzin, made a speech after which a resolution was passed which declared that the meeting attached great value to the constitution of the Douma as the first step towards participation of the public in the work of legislation, but that it fully realized that a national government was possible only on the condition that the Russian people be given immediately all civil rights, freedom of the press, freedom of speech and meeting and inviolability of person, and urged that changes be made based on the principle of universal suffrage in order to restore the complete calm of the country. The action of the meeting was greeted with applause. VARSÁW, Aug. 23.—Owing to the strong military measures adopted the strike will not become absolutely general. Only a few banks, insurance companies and commercial offices are closed. Still the situation is serious. Practically all the factories at Warsaw and Lodz are closed. Serious rioting has occurred at the latter place, the strikers forcing the shops to close by smashing the windows. The strike on the state railways and tramways continues. Many all the tanks are drying and the question of water for locomotives, between Moncton and Truro, is a serious one. The only place at present where water is available for engines is at Oxford Junction. The tanks at Springfield Junction and at Westlock are both out of business and there are very few tanks along the line, but are low and liable to give out at any time unless rain come soon. In sections where the drought has not scorched the country, frost has done considerable damage. In many low places fields of buckwheat have been killed by the frost and farmers are looking forward to a slim harvest. Not only are the crops suffering for rain, but streams and wells in many places are drying up in all directions. East of Moncton the I. C. SUFFERING FROM DROUGHT Westmorland County as Dry as a Chip and Rain is Badly Needed. Moncton, Aug. 22.—(Special)—This section of the country is experiencing a drought that is causing great damage to the crops. The rain fall in this part of the province has been exceptionally light during the summer, and in the vicinity of Moncton there has been no rain to amount to anything for more than a month. The consequence is that the grain crops are burning up. Rain at the present juncture would improve the situation some but the drought has lasted so long that the farmers are now figuring on the lightest grain and root crops for years. In sections where the drought has not scorched the country, frost has done considerable damage. In many low places fields of buckwheat have been killed by the frost and farmers are looking forward to a slim harvest. Not only are the crops suffering for rain, but streams and wells in many places are drying up in all directions. East of Moncton the I. C. THE DISCIPLES OF CHRIST

Closing Sessions of their Annual Convention in Halifax Marked With Great Success—Excellent Addresses on Timely Topics.

HALIFAX, Aug. 19.—The Maritime Christian Missionary rally was held to night. The members of the official board occupied seats on the platform, J. S. Flagg, St. John, president of the M. C. M. S. presided. Four addresses were given. L. A. Miles, St. John, secretary treasurer of the society, spoke on "The Work Accomplished." During the last five years, under the direction of this society, one church was established, three restored, four assisted, and 273 added to the churches. E. C. Ford of Westport, N. S. gave an address on "The Open Door." He said that in a large measure the Disciples of Christ ought to be credited with working up the spirit of union among the people. The whole religious world accepts what they have as the basis of our belief. H. A. Deros, of Digby, N. S. gave an earnest address on "Our Difficulties and How to Overcome Them."

The speaker of the evening was J. Youth Lord, evangelist for New Brunswick and Nova Scotia. Mr. Lord is a graduate of the Bible College, Lexington, Ky. and since his engagement with the M. C. M. S. has accomplished splendid work among the churches. He spoke on "Forward to Victory." Christ has commanded every church, every individual to go forward to victory. All of us believe this. Are we ready to start on a campaign for Christ? Yes, because we have been ordered and provided with the instruments of our warfare. (1) Girdle of truth, (2) Breastplate of righteousness, (3) Feet shod with the preparation of the gospel of peace, (4) Shield of faith, (5) Helmet of salvation. (6) Sword of the Spirit which is the word of God. We have (1) Christian earnestness, (2) Zeal, (3) Passion for souls. Every individual must possess these characteristics. These must be overcome (1) by each minister and delegate taking the message of the gospel to their respective churches, (2) by each church doing real missionary work, sending their own ministers to surrounding towns and country to hold protracted meetings, giving more liberally for support of missions.

Patriotic Christians are needed. The Japanese demand that we should be patriotic. We are requested to do our utmost. Nelson's message: "England expects every man to do his duty." God's message: "To every man his work whatsoever they have assigned to do, do it with thy might." (1) Banner of recruit, (minister) who is on the Lord's side, (2) Banner of defence (churches). The Gates of Hell shall not prevail against it. (3) Banner of triumph (for everyone) Victory through our Lord. Christ has commanded every church to plan this banner on every hill-top and wave it at the gates of heaven. At the close of the service, including the singing of hymns, the choir sang "The Banner of the Cross." At an adjourned meeting of the C. W. B. M. the following officers were elected for the coming year: President, Mrs. A. Murray, Deer Island; vice-presidents for New Brunswick, Mrs. J. S. Flagg, St. John; secretary Mrs. E. Locke, Burt's Corner; vice presidents for Nova Scotia: Miss Lila N. Jackson, Port William, N. S.; secretary Mrs. O. Wallace, Halifax; treasurer, Miss Clara A. Wood, Port William, N. S.

MR. ROOSEVELT MAY SETTLE IT

Portsmouth, N. H., Aug. 22.—The Associated Press is now in a position to reveal substantially the suggestion of President Roosevelt for breaking the deadlock in the peace negotiations and rescuing the conference from failure. His solution would ingeniously permit the satisfaction of the demands of the victors and at the same time enable Russia to face the world with the declaration that she had not ceded a foot of territory or paid a coopek of war damage to the victors.

Why furnaces crack in Summer.

In the old fashioned hotwater heaters with wide, flat surfaces, the soot finds a splendid resting place. A scraper and brush jams soot into the interstices between the water sections. There it cakes and hardens, absorbs moisture, then it expands, and you have a cracked waterpot. If you have a "Blow" hotwater heater you won't have any such trouble. There are no flat soot collecting surfaces in the "Blow" heaters where soot can lodge; there will be no cracked waterpots, no delays, no mess, no plumbers' bills. The H. B. Lytles Co., Limited, Montreal.

ARTHUR DUFFY LOSES MEDALS

NEW YORK, Aug. 21.—Arthur Duffy, the sprinter who is here writing magazines on his trip, has been robbed. Like Tom Burke he has been robbed of many of his valuable medals.

The other night he looked for his trunk and found it gone. A search showed it in the adjoining room. The occupant was from Roxbury, where Duffy's home is, but after he had rifled the contents of the trunk, flew.

The articles missing are six gold medals, two gold bracelets, gold watch and chain, \$150 in gold, hard cash, and last, but not least, the presentation medal won at the King Edward coronation games.

The medals and bracelets are valued very highly, and the actual money value is not much less than \$1000.

CHAMPIONS OF MAINE WILL PLAY HERE SATURDAY

The game of baseball scheduled for Saturday, between Presque Isle and the St. John promoters to be one of the fastest of the season. The Presque Isle aggregation is composed almost entirely of fast college ball players, who have signed for the holiday month, and from all reports the team is the swiftest that that section of Maine at least can produce. The Presque Isle boys, however, claim the championship of Maine, having beaten every team in the state, and they will play the Browns on Monday and Tuesday for the championship of the pine tree state. The visitors will be equipped with new uniforms for this trip, and will present a natty appearance. They play the Tartars at Fredericton on Friday and will arrive here Saturday morning.

Anyone who enjoys fast ball should not miss seeing Saturday's game. The Victoria grounds will be the scene of operations and the time of day, 2 o'clock.

GEORGE DIXON IS BACK HOME

After an absence of over three years George Dixon returned to America on Saturday last. The ex-heavyweight champion of the world was a passenger on the Campania. Congressman Tim Sullivan was on the same boat, although it is said the little pugilist was not a member of the politician's party. Times have evidently changed with the one-time invincible boxer. His homecoming was far from being like the occasion of his arrival from abroad after he had won the bantam title of England from Nino Wallace about 15 years ago.

"That Dixon is a clever and quick as a flash, and an average of 20 a year. Out of these 20 he has the ex-champion only lost one, and that was with Owen Moran, the Birmingham bantam, who was in America last season. The majority of Dixon's mills were drawn. All the fights Dixon had in England only netted him about \$1500. In his heyday Dixon got twice as much as this for a four-round bout, and sometimes spent the sum in less than two weeks.

The fighting game is down and out in England, and under way for a six-round match between Dixon and Tommy Murphy of Harlem at Philadelphia. Johnny Oliver, Murphy's manager, will have a talk with O'Rourke about the mill some day this week, and in all likelihood will be arranged. It is understood that Lord Londale, paid Dixon's passage to America and befriended him in many ways.

CLOSING OF THE NORTH END CHURCH LEAGUE

The North End Church League met in the Doucette Avenue Christian church, on Tuesday last, and formally closed their baseball season. President, Handron was in the chair, and after the season's business was finished, speeches were heard from the team representatives. The treasurer, R. Handron, presented a very satisfactory report, and the secretary reported the story of the season's baseball as follows:

Another big match for Labor Day will take place in Philadelphia, Pa., when Jimmy Walsh meets Tommy O'Rourke, who is said to be the best bantam in the state of Pennsylvania. Eddie Keavin says that Walsh does not care any picnic, as O'Rourke is a tough proposition, and he has been defeating everything put up to him—Boston Traveller.

WITH THE BOXERS

The big battle of this week will be the mill between Jimmy Gardner of Lowell and Buddy Ryan of Boston. The fight is scheduled to fight 25 rounds for the welterweight championship at Colma, Cal., on Friday night. Unless the unexpected happens, Gardner will come out of the mill with a new title.

The Douglas Club has signed some crack cricketers for future meetings. Yesterday word came from New York that Harlowe O'Brien was engaged to fight Tommy Murphy on Labor Day at Chelsea. The boys will probably meet at 122 pond street in New York Monday night.

Readville Races

Readville, Mass., Aug. 22.—The annual grand circuit meeting at the Readville track opened today under the best of weather conditions. The racing was fast and exciting, and the spectators were in the best of humor. The meeting will close on Friday, but the excitement will not seem to keep down the up to expectations looking the race in straight heat.

Among the other starters were Angle, the winner of the M. M. in Detroit, and Lott, which took five straight heats on the New England tracks this season, but the former was unable to show his usual form. In the last heat Delere had a bad break, but he managed to drive the mare hard to capture the heat.

The "Ponka Hoag" for the 2 1/2 class of last spring for Ebbel's prize in the initial contest above, but one of the star trotters produced this year, winning the event straight heat. Gieswood M. had been picked to win.

In the opening heat of this race, Ed. Osera came very fast through the home stretch, finishing at Mr. Wood's wheel, while Ebbel's Prize finished third. After that the Ohio stallion and the mare had a fine battle, and in the second Ebbel's Prize won by a nose, cutting the record for the event by a full second. The next two heats were also well contested. Gieswood M. always being a dangerous factor. The baby trotter had their fillings in the Home Breeders Futurity, for foals of 1903 and 1904, secured in Chicago, proved the best of the lot.

Admiral Dewey in an exhibition cut his record from 2:04 to 2:04.

The five freight handlers who were dismissed by the I. C. R. from the C. P. R. warehouse here will resume work on Monday next, having been away two weeks. The other twelve will be given a suspension of a week each, two at a time. This it is thought, will be a lesson for the men and obviate any further trouble.

Tomorrow the third gathering of the Galt family, so numerous in Albert Co. and Westmorland Co. will be held at Forest Glen, on the farm of Mrs. Havlock Colpitt. A very pleasant time will no doubt be spent.

The grand council of the Royal Templars of Temperance of the Maritime Provinces opened at Sackville yesterday afternoon. Grand Councilor Reeves of Amherst was in the chair. Reports were read from officers and committees appointed.

With a cargo of wild animals and birds and snakes the German steamer Maricopa left Boston, Friday evening, bound to Philadelphia, where she will discharge part of her cargo before proceeding to New York. The shipment includes 12 large box cubs of the most venomous species known in India. One of them nearly escaped from its box while the steamer was at Boston, and there was great excitement for a time among the crew and longshoremen until some of the native Indian sailors, who understand how to handle reptiles, shoved it back into the box. The Maricopa came from Calcutta and Colombo.
