St. John Gas Price To Drop Ten Per Cent On January 1 GERMANY STORES LOOTED FOR FOOD

POWER CO. DIRECTORS CUT PRICE

Drop in Gas First Effect of Placing Local Men on the Board.

IMPROVE PLANT

Extension of Street Railway is Also Planned, Letter Says.

Announcement of a reduction of ten per cent in the price of gas on January 1, and the prospect of further reductions in the cost of electric current and the extension and improvement of the street railway lines, are features of a communication received today from the St. John men who were recently appointed to the board of directors of the New Brunswick Power Company.

The communication also contains a statement to the effect that an expenditure of \$850,000 has been recommended to improve the gas plant of the company and is now being considered, and that an initial expenditure of \$61,000 in this connection has already been approved.

Future Depends on People. A further reduction in the rate for light and power, and a continuance of the present street car fares, the directors say, will depend on the amount of light and power business which the people will give the company. The present hydro policy of the city is viewed with alarm.

The announcement of gas rate reduction is the first concrete result following the appointment of local men to the board of the N. B. Power Co. recently.

Here is Letter. To the Editor of The Evening Times-Star: Dear Sir,—In view of the present situation pertaining to the distribution of electric energy in the City of St. John, and of our position as Directors of the New Brunswick Power Company, we feel that the public will be interested in the following statement: We have been endeavoring as quickly as possible to familiarize ourselves with the affairs of this company and the events affecting the present situation, that transpired previous to October 4, 1923, on which date we were requested to accept positions on the board of this company by the Federal Light & Traction Company of New York. RENEW THEIR PLEA

Grand Trunk Stockholders Have Interview With Canadian Ministers.

London, Nov. 6.—(Special cable to the Canadian Press by Geo. Hambleton, staff correspondent.)—Delegations representative of the Grand Trunk Railway Junior stockholders and also the Grand Trunk Pacific four per cent debenture holders had another long interview last evening with Premier King and Hon. G. E. Graham, to renew their appeal for special consideration.

The stockholders pressed two points, first, that the meeting of shareholders at which the agreement with the Canadian Government was approved was not held regularly, and second, they emphasized their plea for a compassionate grant.

The legal point, it was understood, was not discussed at any length. In regard to compassionate consideration they were informed again that the Canadian people at present was too heavy to think of a compassionate allowance. If the road should pay eventually the matter might be considered again.

Ask Venizelos To Be Arbitrator

London, Nov. 6.—Former Premier Venizelos, says an Exchange Telegraph despatch from Athens, is to be asked to act as arbitrator in the confusing situation that has grown out of the discussions over the form of the Greek Government.

Denied "Raise," Clerk Burns Million Lire

Genoa, Italy, Nov. 6.—Nicola Pellegrini, bank clerk, is in jail charged with burning nearly a million lire worth of banknotes in revenge against the Bank of America and Italy because he was refused an increase in salary.

Pellegrini received \$25 a month and told the bank officials this was not enough to live on. When his request for more money was refused he is alleged to have taken the notes from the bank to his home, saturated them with gasoline and then watch the flames consume them.

U. S. REPLY TO FRANCE IS FRIENDLY

Premier Poincare Receives Cable on Reparation Conversation With Hughes.

Paris, Nov. 6.—Premier Poincare today received Ambassador Messersand's cable report on his conversation with Secretary of State Hughes in Washington yesterday. The conversation is described as most friendly, but no further indications of the U. S. government's attitude is given in official quarters.

Bulgaria Accepts. Sofia, Nov. 6.—The Bulgarian government has accepted the conditions of reparation laid down in Jugo-Slavia's note for the attack here last Friday on the Jugo-Slav military attaché, Colonel Kraschitz.

The conditions will probably be carried out today.

GOES DOWN IN GALE

British Schooner Nellie is Lost, Captain and Crew Are

Havana, Nov. 6.—Captain Dunsheily and seven members of the British motor schooner Nellie were brought into port yesterday by the British steamer Artemis. The Nellie went down in a gale near Guipport, Miss., on Oct. 15. The schooner sailed from Havana Oct. 8, with lumber. She had clearance papers for Isla De Cozumel, Mexico, off the east coast of Yucatan.

Maritime Express From North Delayed

Moncton, Nov. 6.—A rear-end collision, in which the van of one freight train and six empty cars were derailed and broken up, delayed the Maritime Express from Moncton over three hours this morning. The accident occurred at Tobin's Bridge on the Rimouski sub-division.

A freight train of 48 cars was struck by another of 68 cars, including five which were loaded. Little damage was done to the roadbed, it is reported, and no one was injured.

Wire Briefs

Quebec, Nov. 6.—George E. Tanguay, one of Canada's leading architects, died early today after 24 hours illness. The late Mr. Tanguay was the Provincial Government's chief architect.

Paris, Nov. 6.—Premier Poincare has approved suggestion of Great Britain that the Allies make joint representation to Holland to prevent former Crown Prince Frederick William from leaving Holland for Germany.

Washington, Nov. 6.—The reply of the New York Coffee and Sugar Exchange and the New York Coffee and Sugar Clearing Association to the appeal of the Government to restrain them from making sugar quotations was filed yesterday in the Supreme Court.

Ottawa, Nov. 6.—Joseph Sauve, 61, died last night after being found at noon unconscious in Major Hill Park. It is thought that he fell down the cement steps in the park, causing injuries to his head.

Montreal, Nov. 6.—A resolution urging the Trades and Labor Congress of Canada to bring pressure to bear on the Government of Nova Scotia to release J. M. McLaughlin, imprisoned Sydney Miners' leader, on bail, pending appeal, will come before District Lodge 82.

MONTREAL THUGS FAIL; START FIRE

Explosion in Trying to Blow Open Safe, Prevents Robbery.

\$200,000 DAMAGE

Two Firemen are Injured as Bandits Make Their Escape.

Montreal, Nov. 6.—Nitro glycerine, used by bandits at an early hour this morning in an effort to blow the safe in the offices of the Chas. Clérisi Co., Peter street, and the safe in the Italian Consulate, on the second floor of the same building, resulted in a fire which gutted the structure and damaged the adjoining premises. The disaster caused losses totalling \$200,000.

Terror struck by the force of the explosion, which evidently exceeded their calculations, the bandits fled, but not before they were seen by several charwomen and janitors hurrying to their early morning work.

The explosion and fire prevented the bandits from getting away with any of the valuables either in the Chas. Clérisi Co. premises or in the Consulate.

Two firemen were injured during the fire, but were able to resume their work after being treated by doctors on the scene.

ROYAL DUTCH LIQUOR VOTE IS RECORD

Seven Years Ago Province Gave Dry Majority of 20,000 Votes.

Calgary, Nov. 6.—In by far the largest vote ever polled in Alberta on the liquor question, prohibition yesterday was beaten decisively. Seven years ago the province gave a dry majority of 20,000 in a total vote of 64,000 on the abolition of the retail sale of liquor. In 1920 the matter of importation came up, and with a total vote of 108,000 there was a majority against importation of 18,890. Yesterday's vote will go close to 180,000 and the majority against prohibition standing at the moment at about 24,000, probably will approach 30,000 when the returns are complete.

There are 52 provincial constituencies and on incomplete returns there appears to be a majority for Government control in thirty-six of them, including the four cities, Calgary, Edmonton, Lethbridge and Medicine Hat. In some rural constituencies the figures are so close that later returns will involve some shifting from one column to another.

PLAN UNVEILING

Sir Douglas Hazen to Deliver Dedicatory Address Sunday at Fredericton.

Fredericton, N. B., Nov. 6.—Sir Douglas Hazen, chief justice of New Brunswick, will deliver the dedicatory address at the unveiling of the Fredericton war memorial here next Sunday afternoon.

Announcement to the effect was made today by Mr. Justice Crockett, chairman of the war memorial committee. Sir Douglas formerly resided here, and was once the mayor of the city. During the war he was N. B.'s minister in the Federal Government, his department including that of naval affairs, and his two sons served with the Canadian expeditionary force, one of them being killed in action and the other having an excellent record of service.

Railroad Labor Men Will Confer

Cleveland, Nov. 6.—A meeting of the chief executive of the sixteen standard railroad labor organizations "for the purpose of agreeing upon a definite legislative policy in connection with matters to come before the next congress," has been called by Warren S. Stone, president of the Brotherhood of Locomotive Engineers, to meet in Washington Wednesday morning, Nov. 14, Mr. Stone announced today.

Canadian Women Voters Invited

Washington, Nov. 6.—Canadian leagues of women voters were invited yesterday to send representatives to the fifth annual convention of the National League of Women Voters in Buffalo, April 24 to 29.

Vancouver Grain Shipments Drop

Vancouver, B. C., Nov. 6.—Vancouver grain shipments and bookings for the current season are only 190,627 bushels short of the total shipped last season and the first quarter of the shipping season for the 1923 crop has yet to pass, it is learned at the Vancouver Merchant's Exchange.

To date Vancouver has shipped and booked for shipment to the United Kingdom and Continent 12,978,901 bushels of grain. Last season 19,169,528 bushels were shipped.

TELLS DEATH PLOT FOR THE BOLSHEVIKI

Swiss Engineer Relates Plans For Revenge For Sufferings of Family.

Lausanne, Nov. 6.—Assurice Conrad, Swiss taginer, who on May 10 last, shot and killed Vaslav Vorovsky, Soviet envoy to the second Lausanne conference, told of his determination to kill leading Bolsheviki in revenge for the sufferings inflicted on his family in Russia when examining yesterday at the opening of his trial.

He accepted full responsibility for the crime telling the court: "I had no need of encouragement, but Polominie agreed with me, when the judge asked if his accomplice, police had not incited him."

Paul Polominie, a Russian, was secretary of the Russian Red Cross organization in Geneva under the Czarist regime.

Conrad said his plan of revenge was made when at Gallipoli, he learned that his father had died of hunger in Russia and that his uncle and several members of his family had been killed by the Bolsheviki. He told in a clear voice how he had fired bullets from his pistol at Vorovsky.

SUCCESSOR TO LAW IS DISCUSSED

Interest in British Politics Centres on the New Member.

CHURCHILL NAMED

Liberals Want Former Colonial Secretary to be Their Candidate

(By Canadian Press.)

London, Nov. 6.—Interest in domestic politics for the moment is focused on the representation of the Glasgow central division in the House of Commons, for a successor to the late Bonar Law is to be elected forthwith. The attention of the public was sharply drawn to that district last evening by a report that Winston Spencer Churchill had received an invitation from local Liberals to become their candidate. Mr. Churchill declines to confirm or deny the rumor, but there seems to be no doubt that the invitation was received.

The incident has caused a great flutter in official quarters, and in both factions of the Liberal party, for not only was it a complete surprise but it immediately raised the question of whether the invitation involves an attempt to reunite the two wings of the party—the Asquithian and Lloyd George groups.

There is much mystery as to who was responsible for sending Mr. Churchill to have come from the independent side. It is quite unknown whether Mr. Churchill is a party to this sudden movement or whether he will accept. Political quarters differ completely in their views on this point, some asserting that Mr. Churchill's candidature would be likely to result in the co-operation of the two Liberal wings in his support, while others just as emphatically say it would stress the cleavage and would inevitably lead to the nomination of an Asquithian candidate to oppose him, he being an adherent of the Lloyd George faction.

IN SOCIETY

Mrs. Nina Diamantopoulou, sister of the secretary of the Greek Legation in Washington, will be presented to society there this winter. She is being entertained now by members of the Diplomatic Corps.

Fox Terrier, Driven Off Time After Time, Persists; Saves Nine Lives

New York, Nov. 6.—Lady, a fox terrier, reputed several times yesterday, carried on and saved nine persons from death by asphyxiation by coal gas fumes. She became uneasy when she sniffed strange odors in the home of her master, Samuel Gelbart of Whitehouse, Queens. So she jumped on his bed and awakened him. He cuffed her and went back to sleep. Again she jumped upon him. He threw her to the floor, this time. For a third time she jumped on the bed and was thrown aside.

Finally she licked his face and, thoroughly awakened, Gelbart got up just as his son fell unconscious to the floor. Three other members of his family and three of their guests he found in their beds, unconscious. All were revived by a physician.

MORE NEWS!

Direct British Cable Services for The Times-Star—More Developments

The Times-Star is a pretty good newspaper—even if we do say it ourselves, and even if it is the only one cent full-sized newspaper on the North American Continent. Our readers think it is a good newspaper too—to judge by its steadily growing circulation—so do its advertisers. But it's not good enough yet to suit us, by a long shot. We are going to improve it a lot right away, and have big plans for progressive development.

First, we are going to provide more news. The Times-Star is a member of the Canadian Press and is connected by private telegraph wires with every city in Canada and the States. The Canadian Press gets the bulk of its British and foreign news and cables run all over the world.

The only other agency supplying a world news service in Canada is the British United Press, which offers the advantage of direct cable connection with Great Britain, so that its British news supply does not have to pass through an American agency. For this service the Times-Star has secured exclusive provincial rights, giving our readers complete assurance not only of all the news from all the world, but of an accurate and uncolored supply of British news. This service will begin in a few days. No other paper in the Province will have it.

Keep your eye open also for other new features—a page for women and the home—a real live sporting page, and other things.

The Times-Star is the only one cent newspaper left in Canada. Papers of inferior quality in other Canadian cities sell at three cents or even five cents. We want to keep this distinction as long as possible. We are determined to sell the Times-Star as cheaply as possible and still get out a newspaper of first-class quality—the quality to which the people of this city and Province are entitled.

If in the process of development we come to a point where we have to choose between lowering the quality or raising the price, we know which choice our readers will endorse.

TRADE TREATY IS AGAIN IN THE AIR

Pact Between Canada and South Africa is Discussed at Conference.

London, Nov. 6.—A trade treaty between Canada and South Africa is in the air. At a conference yesterday between Premier King and Hon. Geo. P. Graham, representing Canada, and Premier Smuts and Hon. H. Burton, Finance Minister, representing the South African Union, improvement in the trade relations between the two countries was discussed.

The South Africans expressed a desire to come under the higher preferential tariff on certain dried fruits provided in the legislation passed by the Canadian Parliament last session. It was then understood that the legislation would not become effective till the proposed trade treaty with Australia was concluded.

But the Australian treaty was not concluded and the increased duty did not come into effect. South Africa, however, is anxious to take advantage of the new preferential rate on dried fruits whether Australia proposes to do so or not, and has intimated her willingness to give Canada some reciprocal advantage in the South African market.

Yesterday's conference did not reach the stage of definite proposals for a trade treaty, although it is hoped that such will be the ultimate outcome.

Indian Murderer Slain In West

Lethbridge, Alta., Nov. 6.—Joe Blackhorse, alias Two Slab, blood Indian, charged with slaying Winifred Tollestrup at Raymond, Friday, was captured about midnight near his mine on the St. Mary's River, 15 miles west of Raymond.

WOMEN RAID SHOPS

Rhineland Separatists Complete the Evacuation of Cologne Area.

(By Canadian Press.)

Cologne, Nov. 6.—The Rhineland separatists have completed their evacuation of the Cologne area.

The looting of food and clothing shops continued throughout the night in the northern districts of Berlin, while in the fashionable west end of the city numerous autos were held up, the occupants of the cars being robbed of their personal belongings. Considerable anti-Semitic rioting occurred in the Jewish quarter.

Most of the pillaging was done by gangs of men and youths whose numerical strength was in some cases as large as 300. Women freely participated in storming the food shops.

Price of Bread. The price of bread was fixed at 80,000,000,000 marks a loaf, as against 140,000,000,000 yesterday. The Bourse has contributed \$70,000 to the public feeding fund.

Is Offered Post. London, Nov. 6.—Herr Jarres, chief burgomaster of Duisburg, has been invited to become Minister of Home Affairs in the Stresemann Cabinet, taking the place of one of the Socialists who recently withdrew from the ministry, says an Exchange Telegraph despatch from Berlin.

The same message announces that the Reichwehr in Thuringia, the territory threatened by irregular Bavarian bands just across the frontier, has been reinforced by several batteries of artillery and cavalry.

ENGINEER FROM ONTARIO COMING

H. G. Acres, Consulting Expert, is Studying Grand Falls Development.

Fredericton, N. B.—H. G. Acres, chief hydraulic consulting engineer of the Ontario Hydro Commission and one of the outstanding experts in Canada, is the engineer to whom the Provincial Government have referred the report of the N. B. Electric Power Commission on the feasibility of the development of the Grand Falls on the St. John River and it will be upon his advice that the Government will set in the matter.

Mr. Acres has been engaged on the Grand Falls proposition for some time, but it was only at noon today that the Government revealed the identity of the expert who had been engaged. He has not yet made any report and has not visited Grand Falls as yet, but he is checking up the commission's reports and will be in New Brunswick at an early date it was said. The expectation is that he will also be an important witness in the Ingelwood expropriation in connection with the development at Musquash.

50 Miners Are Reported Entombed

Breckley, W. Va., Nov. 6.—Between 35 and 60 miners were reported to be entombed in the Glen Rogers Mine of the Raleigh Wyoming Coal Company at Glen Rogers, Wyo., by an explosion at 7.30 a. m. today.

First reports were lacking in details, but it was said that at the time of the explosion between 60 and 75 men were in the mine and that 23 had been brought out uninjured.

Enroll 7,600 Specials To Replace Police

Melbourne, Nov. 6.—A force of 7,600 special constables has now been enrolled to take over the duties of the striking police. The shops on the main streets are still barricaded against the possible recurrence of rioting.

Weather Report

Toronto, Nov. 6.—Pressure is lowest near the Atlantic coast and north of the Great Lakes, while over the western provinces it is quite high. The weather is cloudy and showery from eastern Ontario to the Maritime Provinces and fine throughout the west.

Occasional Showers. Maritime—Moderate winds; cloudy and foggy, with occasional showers today and on Wednesday. Gulf and North Shore—Moderate winds; mild and showery today, and on Wednesday. New England—Unsettled, with light rain tonight and probably Wednesday morning; little change in temperature.

POOR DOCUMENT NOV 20 1923

THE EVENING TIMES-STAR, ST. JOHN, N. B., TUESDAY, NOVEMBER 6, 1923

BELIEVES ST. JOHN SOON WILL HAVE NEW, BIG, SNAPPY ATHLETIC CLUB

H. B. Gilbert Reports Success in Preliminary Work of Organization.

If present plans of some prominent young athletes in this city materialize, St. John will soon boast of a club, which will rival those in larger centers. The need of a modern club where big athletic meets can be arranged, financed, etc., is declared urgent, and with this object in view an effort will be made to interest prominent citizens, and by their co-operation the organizers of this movement feel assured that success will attend their efforts.

H. B. Gilbert, who is well known to followers of athletics and more particularly to hockey fans, is fabricating this scheme and his experience in upper Canadian cities is expected to prove of great value. He has taken the scheme up with several citizens and reports that all have heartily agreed that the time is ripe for the establishment of such a club.

In conversation with a representative of The Times today, Mr. Gilbert said there is every indication that St. John is recovering from the slump occasioned by the world war, and he feels that athletics go a long way toward brightening up a city and making it more attractive. He is confident that sufficient money can be raised to purchase a building suitable for the purpose and a strong board of directors could be secured to carry on the business. At the present time he said St. John is making a mark in athletics, and the fame of local skaters, scullers and boxers is spreading. He pointed out that this is largely due to individual effort, but if a club was organized all lines of sports could be cared for and representatives sent to big meets throughout Canada and the United States. He considers that this is one of the greatest means of advertising a city.

Mr. Gilbert was formerly captain of the senior St. John hockey team and was one of the best players developed hereabouts in recent years. Some years ago he went to Upper Canada as an employe of the Royal Bank and while in Montreal played with the crack bank skaters and also with St. Anne's. This winter he will acquire to the local team should go a long way towards strengthening it. His plan is to organize a club which should prove a big factor in educating the younger talent.

MARKING 43 YEARS OLD IN TREE TRUNK

Interesting Evidence Develops in School Lot Line Case in Court.

An element of woodcraft was injected into the proceedings of the Supreme Court yesterday before Mr. Justice Chandler, in the suit of the trustees of School District No. 20, Parish of Simonds, for an injunction to restrain James F. Bean from continuing to trespass on a school lot on which it is alleged he built a log cabin.

Evidence was given by G. G. Murch to show that an old blaze which was made on the side of a tree, marking the corner of the lot some 47 years ago was found when a piece was chopped from the tree in 1919, that the letter "S," which was used as a distinguishing mark, was found plainly decipherable under 40 rings of wood which had grown, one each year, since that time. Pieces chopped from the tree were presented in court to bear out this testimony.

Deputy Crown Land Surveyor Smith was the last witness heard for the defence yesterday and Frank Lenihan and James B. English were called in rebuttal of Mr. Bean's statement that the trustees did not know where the lot line was when he built his log cabin. Mr. Lenihan testified that Francis Kane, an old school trustee, and James English had pointed out to the defendant, when he was building, that he was on school ground, and pointed out the line in question to bear out their contention.

The case was adjourned until tomorrow for argument. Kelly & Ross are representing the trustees, and H. A. Powell, K. C., Mr. Bean.

FIVE CHINESE BUY 'HECTOR'S'

It was learned today that a syndicate composed of five Chinese, all cousins, were the purchasers of Hector's restaurant in Prince William street. They plan on opening up in a couple of weeks. At the present time they are arranging to have the premises renovated.

PLUCKY SWISS WANDERERS.

Two young men Charles Piel and Louis Kretsch, natives of Basel, Switzerland, arrived in the city yesterday seeking engagement as accordionists. In Europe the accordion of the large "Mansel" type, has been developed to orchestral possibilities. The good-looking Swiss came to Canada with a pilgrimage of their fellow-townsmen in August, landing at Halifax. They first took up farm work in Cape Breton, and then came to St. John, where they have fallen back upon their musical abilities to earn a livelihood for the present. They played in Halifax and Moncton with much acceptance, now they are in St. John. They take the name of their record quartette in the old country, the Stradella Duo and are being heard here in connection with a theatre's concert.

Present Rates Fair.

Regarding street railway, we consider that the present rates of fares are low and it is our wish to have these low rates continued if at all possible. We are prepared to recommend that a further reduction be made in the rates for light and power, but feel it is necessary to postpone action along this line until it becomes known what amount of business the citizens will give this company. In other words, the price of light and power and the continuance of the present railway fare will depend on the amount of light and power business that the people give to the company. An increase in business will mean a decrease of rates and a continuance of the present street railway fare.

The Federal Light & Traction Company is in a position, and quite willing if the business warrants, to extend the street railway, improve the roadbed, supply new cars, and develop the Lepreau and Magaguadavic water powers. It is in their interest, and they will use every effort to advance the industrial life of this city.

We view with great alarm the position of the city in continuing its present Hydro policy. St. John now has an opportunity of having associated with it a corporation that is in a position to improve conditions here and is desirous of doing so, and we feel that every effort should be made whereby the city and the Federal Light & Traction Company could co-operate along these lines, and we are prepared to discuss the details with representatives with a view of working out some solution which would be in the best interests of all concerned.

VICTORY WON BY 'WETS' IN ALBERTA

Give a Large Majority for Control of Liquor for Government.

Calgary, Alta., Nov. 5.—On figures compiled at 10:30 tonight there was a majority for prohibition control in Alberta of 28,845 in a total counted vote of 114,938. Slightly more than half of the polls were carried by voters accounted for about 75 per cent of the expected vote and so the result was a surprise to many.

As in Manitoba the result showed that the prohibition forces were not able in this case to rely on the farmers' vote as they did in the 1916 election. The Moderation League that Government control would reduce taxes on liquor and a strong effect, but as voters in the cities obviously were impressed by the argument that prohibition would reduce the profits which were going to bootleggers under the present system.

Prohibition voters in their publicity campaign had a strong effect, but as voters in the cities obviously were impressed by the argument that prohibition would reduce the profits which were going to bootleggers under the present system.

SAYS MILL STREET IS TOO NARROW

Contractor Speaks of Work on Rails—Three Weeks of Jam.

That Mill street should be widened considerably because of the exceptionally heavy traffic was a statement made today by Contractor Frank Wade, who is in charge of the replacement work being done there by the N. B. Power Company. When asked how long the replacement work would take he said they would be ready to pour concrete tomorrow, but before the street cars could pass over the new rails nine days would have to elapse in order to give the concrete base a chance to set. When one side is ready the other will have to be torn up. As a result traffic in the section fronting the Union station will be tied up for nearly three weeks, as the street is very narrow there.

The work of placing the diamond crossings was finished today and trains were able to pass to the north and south of the station. Heavy pine timber was placed under the crossings so as to strengthen the foundation.

Friends of Mrs. Gilbert McMullin, 15 Horsfield street, who was operated on last Friday in the General Public Hospital, will be pleased to hear she is out of danger and on the road to recovery.

ROB TWO BANKS

Two Citizens Are Wounded As Indiana Bandits Nab \$15,000.

Spencer, Ind., Nov. 6.—A band of robbers variously estimated in number from fourteen to twenty, robbed two banks here early today of approximately \$15,000 and wounded two citizens. Traveling in four cars, the robbers first isolated the town by cutting all telephone and telegraph wires and then posted guards to prevent interruption while they blew open the bank vaults.

The bandits remained in the town more than an hour and in gaining access to the bank vaults used several explosives almost wrecking one of the buildings. The banks entered were the National Bank of Spencer and the Exchange Bank.

New Freighter Is Total Loss

Havana, Nov. 6.—The new freight steamer Inglaterra, recently built in England for a Cuban company, and which went aground near Nassau, Bahamas Islands, while on her voyage to Havana to receive Cuban registry, probably will be a total loss. The crew was saved when she hit the reef off Nassau.

Solving the breakfast problem

Breakfast is the big problem these chilly mornings when the children must get off to school and Daddy must make a quick getaway to office or store. The problem is easily solved with Shredded Wheat Biscuit. It is ready-cooked and ready-to-eat. Two of these crisp, tasty little loaves of baked whole wheat with milk make a nourishing meal—and they are just as good for lunch and dinner as for breakfast.

TRISCUIT is the Shredded Wheat cracker—a real whole wheat toast—eaten with butter, soft cheese or marmalades.

Bride Solves Dishwashing Problem

Neighbors Eventually Learn How Kitchen Gets Cleared So Quickly.

New York, Nov. 5.—Some say the little bride is a poor housekeeper, and some say she is a good one. It's all in the point of view. The negative side is firmly upheld by her mother-in-law, maiden aunts and even her own mother. Those who approve highly of her methods are the other members of the sorority to which the little bride belongs.

And even a few of her neighbors who have taken advantage of a neighbor's inalienable privilege to drop in unexpectedly have yielded grudgingly to admiration.

For no matter how hastily the little bride has departed to attend a meeting of her sorority, those whom she gathers up to bring home to dinner always find her kitchen looking neater than an office boy applying for a job. No matter how soon after breakfast one of her neighbors choose to make the borrowing of a cup of sugar the occasion for a little chat, the kitchen never shows a sign of an egg plate or an unwashed percolator.

"How do you ever manage to get your dishes done so soon?" one of the neighbors finally asked. "Why, I declare, it isn't ten minutes since I saw you at the window waving good-bye to your husband and now there isn't a sign of a dirty dish."

The little bride giggled that silly little giggle that her husband says is the cause of his downfall.

"Well," she explained, "I loathe the sight of dirty dishes myself. And often I can't stop to wash them immediately after every meal. In fact, for a while I had to lie down for an hour after each meal and rest. The thought of those dishes nearly drove me crazy and destroyed all the good the resting did me. So finally, after I had returned time and again to an upset kitchen I decided I would just stick them in the wash tub after each meal and wash them all together at the end of each day. They go over so much easier, particularly if I have friend husband here to help me, as he most always does."

Veniot At Moncton On Milk Question

Moncton, Nov. 5.—Premier Veniot who was in Moncton today said that a meeting of the Provincial Government might be held in Moncton on the first Tuesday in December.

The premier and the Hon. Fred Magee were met here today by a delegation consisting of President Charters, representing the Farmers and Dairy-men, and Councillor C. B. Keith of Berry Mills, in connection with the proposed provincial regulations governing the milk supply of Moncton.

Hon. Mr. Magee said that he believed that a satisfactory solution of the problem which has been facing the farmers in this district for the last year or more would be reached at an early date.

President Charters of the association said that the farmers saw nothing unreasonable in the regulations with the amendments as submitted to them by the Minister of Health on Saturday last.

The meeting of the government, which it is proposed to hold in this city will be held, it is said, upon the receipt of the written request of the farmers for a meeting. Premier Veniot stated that the government would at that time hear delegations from any body regarding any matter of interest in this country.

Premier Veniot said that the report of Mr. Acker, who expressed his opinion on the Grand Falls project would probably be made public at the meeting of the government on Dec. 4.

Hon. Messrs. Veniot and Magee motored this afternoon to Fox Creek where with the district road engineers, Walter Melanson, they dealt with road matters.

RECENT DEATHS

Mrs. Edward Cranice.

Relatives and friends were greatly shocked by the sudden death of Mrs. Edward Cranice last night at her residence, 18 Ready street, Fairville. Mrs. Cranice had been in her usual health during the day and up to 6 o'clock in the evening when she suffered a stroke of paralysis which proved fatal. She passed away about 9 o'clock. Mrs. Cranice was well known and highly regarded in Fairville where she was a lifelong resident. She is survived by her husband, two sons, Gerald and Thomas, at home, and two daughters, the Misses Nellie and Evelyn, at home, and Mrs. Joseph Babineau, of Fairville. Three brothers also survive: Stephen, Charles and Martin Doyle, all of Fairville. The arrangements for the funeral had not been completed last night.

INTERFERENCE STOPPED. Interference with radio receiving, which was caused by efforts of some person to transmit, and which has caused investigation by the authorities, was discontinued during the last week. A. L. Atkinson, inspector of radio in New Brunswick, reports that he is receiving more applications for licenses daily. He says that there is every indication of good reception conditions here this winter.

GIRL RALLIES TO WED ON DEATH BED

Nods Head as Ceremony is Performed—Suffered From Tetanus

Louisville, Ky., Nov. 6.—With death hovering near, love had its determined way in the little sick room at Norton Memorial Infirmary, when Miss Margaret Roeder, 28, was married to William A. Ulmer, 33. Death had already come to take its victim, and unconsciousness had set in. The bridegroom, the magistrate who performed the ceremony, and the two nurses who would be witnesses waited for the moment of chance revival of consciousness so the bride might give answer to the marriage questions. A nurse suggested artificial stimulants. It was administered and the bride opened her eyes. The magistrate was ready.

"Will you have this man?" Miss Roeder, in the last stages of the disease of tetanus, was unable to speak. She dropped her eyes languidly and nodded her head. The ring was pronounced and they were pronounced man and wife. Almost immediately the bride relaxed and unconsciousness came again.

"How do you ever manage to get your dishes done so soon?" one of the neighbors finally asked. "Why, I declare, it isn't ten minutes since I saw you at the window waving good-bye to your husband and now there isn't a sign of a dirty dish."

The little bride giggled that silly little giggle that her husband says is the cause of his downfall.

"Well," she explained, "I loathe the sight of dirty dishes myself. And often I can't stop to wash them immediately after every meal. In fact, for a while I had to lie down for an hour after each meal and rest. The thought of those dishes nearly drove me crazy and destroyed all the good the resting did me. So finally, after I had returned time and again to an upset kitchen I decided I would just stick them in the wash tub after each meal and wash them all together at the end of each day. They go over so much easier, particularly if I have friend husband here to help me, as he most always does."

WOMEN'S INSTITUTE ENTERTAIN VISITORS

The St. John Women's Institute entertained members of the Hampton Women's Institute yesterday in a delightful way. The Hampton members were visitors at the regular meeting of the St. John society at the Health Centre in the afternoon and later were guests of the St. John society at the Cathedral high tea and at the performance at the Opera House. The visitors were also shown over the Health Centre and were greatly interested and pleased with its splendid equipment and admirable arrangement. The party of institute members at the Cathedral tea and the Opera House numbered about 45.

At the afternoon meeting the president, Mrs. T. N. Vincent, was in the chair and the members were delighted to hear from the Hampton members of the good work which this institute was accomplishing. The Hampton members who gave short addresses were Mrs. Forehall, the president, Mrs. W. S. Morrison, Mrs. Humphrey and Mrs. Ross.

The suggestion box contained many new ideas and these were duly considered in the discussion of the year's programme.

Mrs. Ayre and Miss Minnie Lawlor were cordially welcomed as new members. Great regret was expressed at the resignation of Mr. Richard Hooper from the office of treasurer and there were many expressions of appreciation of Mrs. Hooper's efficient work for the institute.

FEAR OF BUFFALO MAY HAVE CAUSED SNAKE TO RATTLE

Interesting Theory to Explain Noise That Mankind Fears.

Boston, Nov. 6.—Why has the snake that mankind fears perhaps more than any other been generously provided with a rattle, and why do snakes vibrate their tails when frightened? Doubtless many persons have wondered at all at least Dr. Thomas Barbour, lecturer in zoology in Harvard University, reminded us of this curiosity in his third lecture of the course on "The Structures and Habits of Some Reptiles and Amphibians," at the Lowell Institute.

It was admitted by the lecturer that the rattle of the rattlesnake seems at first sight to be one of the most difficult of developments to understand and explain. Yet when one considers the common habit of a vast number of different species of snakes of vibrating the tip of the tail when they are excited, coupled with the fact that the outer layer of the skin is shed at frequent intervals, it is not difficult to look back over what has been the steps which led to the formation of the rattle.

STOP IT! Why Cough Your Head Off

Make Your Own Cough Mixture for the Whole Family and Save Money. It's Easy

When you can make in your own home a wonderful cough mixture far ahead of any you can buy ready-made, why not do it?

This home made mixture will stop the most stubborn cough and is safe for chest colds and acute catarrh. Children love it.

Get from any druggist one ounce of Parmitin (double strength)—this is a little granulated sugar and a little water to make half a pint—that's all there is to it.

Like a soothing, healing poultice one costly substance in this home made cough mixture spreads itself completely over the membrane of the throat.

Any remedy that overcomes catarrh, partially or wholly, is bound to be of benefit to those who are troubled with head noises and catarrhal deafness. Get Parmitin and get better.

Every Spring Mrs. Manson Had Bronchial Trouble—How She Was Relieved

It is a very advanced case of anemia, nervousness, neurasthenia, chronic bronchitis or general feebleness that will not show marked improvement after taking six bottles of Carnol, according to directions. Read how Mrs. Manson was relieved of a yearly recurrence of bronchitis:

"Myself and friend, Miss E. McKernell, 309 King St., East, Toronto, would like to let you know how very highly we think of Carnol. We are now taking our sixth bottle and the great benefit we have derived from it is wonderful. It certainly does everything the advertisements say and more. It is a genuine tonic and body builder. For my part I am subject to every springtime. We feel it would interest you to know this. You are also at perfect liberty to use this unsolicited testimonial if you should so wish. We both of us take pleasure in recommending Carnol to anyone whom we know is feeling below par." Mrs. Laura M. Manson, 1447 DeWitt St., Toronto. 159

Carnol is sold by all good druggists everywhere.

ZAMBUKA CAN LIVE YOUR WANTS IF YOU HAVE THEM

Modern Commercial Age as Full of Opportunity as Old Romantic Days.

New York, Nov. 5.—The period of European cloak and sword romance has been generally regarded as the heyday of the free lance and the adventurer. Time has dimmed the rough spots and softened the canvas generally so that, one is apt to overlook the opportunities of today—and right in New York, too, the modern free lance is making his mark.

Just as the European adventures of days ago would rise from their litter of mottos and gaudy through multi-paned windows into a little courtyard paved with kidney stones and dreamt out ways and means to earn their bread and wine or beef and small beer, so does the modern New York free lance tinker from his bed and plan the day's adventure which will bring him material returns.

He was one big advantage over his antetype—he has the wand. His fine comb the "For Sale" advertisement, business opportunities, personal ads; in fact, every kind of medium which may mean money to him. He goes through all the columns analytically and uncovers some rare adventure as well as financial profit.

The modern free lance is planning a trip to the Pacific coast recently discovered an advertisement: "Wealthy man leaving for winter in California wishes reliable male secretary for trip. Return for services offered to share his drawing room accommodations. New York to Los Angeles."

The young man found the advertiser and talked himself into the job. He was only a fair if willing typist, and knew nothing about stenography, but he really has been in of his drawing room accommodations, stood to lose his letters in abbreviated long hand and type them at his leisure on his part.

Having transacted his own Los Angeles business, he found an opportunity at super cable here in New York. He had a free and pleasant voyage, a chance to see Havana and other places, and instead of sending money he was money ahead.

Since the war the French producer has bought Indian poloquet and sold them in New York at big profits. He has ferreted out dozens of these poloquets and for a time, hundreds of profitable little deals. His friends wonder where his career is if at all. Many have been independent means. He thinks his work is more interesting than the cloak-and-sword business, and is more remunerative than the cloak-and-sword business. He is never really employed, in the accepted sense, but he thinks his profession has a regular job hanging on the ropes.

FRENCH JAIL FOES OF PALATINATE REBELLION

London, Nov. 6.—Serious disturbances seem imminent in the German Palatinate, where a recent attempt was made to set up a separate state, according to advices to the Exchange Telegraph, received through Amsterdam.

French forces are reported to have surrounded the town of Speyer, capital of the Palatinate, made prisoner one hundred men guarding the building against possible separatist attacks, and transferred them to French barracks.

The dispatches say it is considered that French occupation authorities are preparing the way for a new separatist action.

THUGS PICK ON WRONG MAN IN AN ATTEMPT TO ROB HIM

Chatham, Ont., Nov. 5.—Two thugs received a bad mauling at the hands of a local water works plant, when they attempted to rob last week, while on duty.

Proceeding along the railway tracks adjacent to the water works plant, they were accosted by two men who demanded money. One of the men, being refused, they attempted to search him and Clements put up a fight. After a struggle, the men were driven toward the other, rolled down the railway embankment from well directed blows of Clements.

BRONCHITIS YIELDS TO VICKS

Dunedin Man Tells of Prompt Relief.

Mr. Lee Berrigan, Dunedin, Prince Edward Island, says: "During the winter months I was always troubled with bronchitis and tried many preparations to relieve the trouble. None were successful until I tried Vicks VapoRub. It gives relief in a very timely manner and I can honestly advise sufferers from bronchitis to use this Vicks."

BUZZER CODE SAVES STEPS IN WALK-UP

Husband Signals on Doorbell to Check on Wife.

New York, Nov. 5.—Perhaps Brown would never have devised the plan if he had not been an officer in the signal corps during the war. It works so well that he says it would be worth while for any man to study the international code, just to save his energy. That is, it would be worth while for any man who lives on the top floor.

THE PRINCESS ACCUSES SCHOEDER OF STEALING AFFECTIONS.

Despaired of Life at 50 Strong and Well at 70

Mr. Jacob H. Macksey, 336 Midland Ave., Midland, Ont. writes—

"I have used Dr. Chase's Kidney-Liver Pills for over 20 years and feel that I owe my life to them. I suffered severely from rheumatism and heart failure. One doctor just gave me one year to live, and even told me I might be found dead at any time. A neighbor advised Dr. Chase's Kidney-Liver Pills and I have been using them as needed ever since. I am now 70 years of age, weigh 217 pounds and can work as well as any young man."

ANOTHER ST. JOHN MAN SPEAKS

Mr. Reg. Wilkins Tells How Quickly Drego Overcomes Digestive Troubles—Praises This Fine Medicine Highly.

A majority of people's ills can be traced to the stomach. When that important organ becomes weak or disordered, and fails to supply nourishment to the other organs, many ills follow. The liver, kidneys, bowels and blood all depend on the stomach to keep them going. Drego, by toning and regulating the stomach to proper working condition, quickly restores these vital organs and the blood to normal, healthy action.

Dr. Reg. Wilkins, of 677 Main street, St. John, N. B., found as soon as he started taking Drego. "It was a great sufferer from stomach trouble and indigestion," says Mr. Wilkins. "Everything I ate seemed to cause gas to form and also caused a burning sensation in my stomach. My kidneys were very weak and my liver was not working properly. In fact, I was very badly run down in health. I have only used two bottles of Drego, but my stomach trouble has disappeared, and my kidneys and liver are better. I am no longer constipated and have gained five pounds in weight since I began taking this wonderful medicine."

Statements like this from reliable people right in St. John should be enough to convince people of the true merits of Drego. This famous remedy is made of pure mercury, potash and other ingredients. It is composed entirely of the juices of medicinal herbs, roots, bark and leaves, prepared with scientific exactness, and acts on the vital organs quickly, safely and with sure result. It is particularly valuable at this season of the year, when the system requires a thorough house-cleaning.

Drego is being specially introduced in St. John by Ross Drug Co., 100 King street. It is also sold by Moore's Drug Store, 105 Prince Edward street, and F. W. Munro, 357 Main street. It is also sold in Fairville by T. W. Wilson in West St. John by Watson R. Dunlop, and by a good druggist everywhere.

Whatever You Do Don't Neglect Your Eyes, Says Dr. Lewis, Who Tells How to Strengthen Eyesight 50% in One Week's Time in Many Instances

A Free Prescription You Can Have Filled and Use at Home.

Philadelphia, Pa.—Do you wear glasses? Are you a victim of eye strain or eye weakness? If so, you will be glad to know that according to Dr. Lewis there is real hope for you. He says neglect causes more eye troubles and poor sight than any other thing. Many whose eyes were failing say they have their eyes restored through the principle of this wonderful free prescription. One man says "I'm trying it. It was almost blind, could not see to read at all. Now I can read everything without any glasses and my eyes don't water any more. At night they would pain dreadfully, now they feel fine all the time. It was like a miracle to me." A lady who used it says: "The atmosphere seemed hazy with or without glasses, but after using this prescription for fifteen days everything seems clear. I can even read the print without glasses." It is believed that thousands who wear glasses can now discard them in a reasonable time and multitudes more will be able to strengthen their eyes so as to be spared the trouble and expense of ever getting glasses. Eye troubles of many descriptions may be wonderfully benefited by following the simple rules. Here is the prescription: Go to any active drug store and get a bottle of Non-Opto tablets. Drop one Non-Opto tablet in a fourth of a glass of water and allow to dissolve. With this liquid bathe the eyes two or four times daily. You should notice your eyes clear up perceptibly right from the start and inflammation will quickly disappear. If your eyes are bothering you, even a little, take steps to save them now before it is too late. Many hopelessly blind might have been saved if they had cared for their eyes in time.

NOTE: Another prominent Physician to whom the above article was submitted said, "Non-Opto is a very remarkable remedy. Its constituent ingredients are well known to eminent eye specialists and widely prescribed by them." The manufacturers guarantee it to strengthen eyesight 50% in one week's time in many instances or refund the money. It can be obtained from any good druggist, and is one of the very few preparations that should be kept on hand for regular use in almost every family. It is sold in this city by all leading druggists.

**CATHEDRAL HIGH
TEA HAS LARGE
OPENING CROWD**

Many Suppers Served and Other Features Well Patronized.

About 450 persons took supper last night at the Cathedral high tea, and were highly pleased with the menu provided for the ladies of the parish for this looked forward to event of the year. Rev. Raymond McCarthy is director general this year and has as his assistant in the games Dennis McCarthy. The decorations were most artistic and the booths arranged to the best advantage.

The prize winners were as follows: Door prize, a ham, won by ticket No. 280; rose booth, a pair of children, E. J. Wall, fancy booth, a centerpiece, Mrs. P. Fitzpatrick; St. Vincent's Alumnae, grocery or expectation booth, a roll of bacon, won by ticket No. 64.

The Mysterious Lady who was described as of medium height, rather slight, dark and pale, with brown eyes and hair, good style and very pleasant and friendly, turned out to be Miss Mary Ward, of Dorchester street, who acted as one of the ciphers, but who was not discovered by anyone and was known only to Miss Gertrude Ryan, who advised the description on the blackboard.

The tables were most attractively arranged, each being in charge of one of the several societies in the Cathedral parish. The color scheme in each case followed that of the society represented, as follows:

Confraternity of the Blessed Sacrament table, gold and white, with Mrs. Charles O'Keefe, convenor, assisted by Mrs. Robert Hennessy, Mrs. Frank McElate, Mrs. William McLean and Mrs. John Milne, as replacers. The waitresses were Misses Catherine Murphy, Annie Fitzgerald, Catherine Silve, Marie Morrison, Edith Burns, Helen Murphy and Kathleen Caplan.

The St. Vincent de Paul Society table was in charge of Mrs. E. Haney, assisted by Mrs. J. Simpson, Mrs. R. Dolan and Mrs. J. A. Sinclair. The waitresses were Mrs. A. J. McDermott, Miss M. Chaisson, Miss N. Jennings, Miss A. Mullin, the Misses Leighton, Miss F. Murphy and Miss L. Driscoll.

Altar Society—Mrs. John O'Regan, assisted by Mrs. M. Nugent, Mrs. John McDonald, Mrs. T. Coughlan, Mrs. A. P. O'Neil, waitresses Misses Josephine Jenkins, Ellen O'Regan, Laura McGoney, Lillian Wallace, Nellie Carleton, Gertrude O'Neil, Petta Campbell, Mary Bowes and Bernice Bortien.

The Pike Animated Scene.

The pike presented a very fine appearance, with booths on each side and several girls and young men in the centre of the hall announcing the various articles for sale. All the usual attractions were there and several new ones. The Washing Well, in charge of the young ladies of St. Vincent's Alumnae, was romantic and did a flourishing business. Miss Kathleen Lundy and Miss Gertrude Leahy were in charge and also assisted at the expectation or grocery booth, which was convened by Mrs. R. J. McCann, and

**TO TAKE CARE OF
WINTER'S CURRENT**

Power Commission Member Says Arrangements are Made.

It is understood that adequate arrangements have been made by the St. John Power Commission and the New Brunswick Electric Power Commission to supply all their customers with electricity during the coming winter months. The New Brunswick Power Company recently announced that during the winter months when its load was heaviest it might be unable to supply all the current which the commission had been purchasing.

In view of this announcement a representative of the electric commission was asked last night if there was any danger of the local hydro systems being without current. He said that, if necessary, the hydro lines would be connected up with the McAvity plant in order that the city of St. John might

**SKULL OF WORLD'S FIRST
MAMMAL FOUND IN WEST**

Junction City, Kan., Nov. 6.—The fossil skull of a marsupial, said by Dr. W. H. Ballou, New York scientist, to be the first type of mammal that ever existed on earth, was discovered by him at Milford, near here. Dr. Ballou is investigating the geology of Central Kansas. He regards the skull as about 4,000,000 years old.

**PRESENTATION TO
REV. J. A. MORISON**

Retiring West Side Clergyman Receives Gift from Ministers.

A pleasant gathering took place yesterday afternoon in Knox church manse, Wright street, when the Presbyterian ministers of the city met to say good bye and wish God-speed to the Rev. A. J. Morison, D. D., on the occasion of his leaving the pastorate of First Presbyterian church, West St. John, which he has held for the last 11 years.

After the enjoyment of afternoon tea, Rev. W. M. Townsend, acting as spokesman for his brother ministers, asked Dr. Morison's acceptance of an addition to his library in the shape of a copy of Papius' "Life of Christ" as a token of respect and esteem from his co-presbyters. Expression was given to the regret with which Dr. Morison's departure was viewed, not only by his brethren in the ministry, but also by a wide community.

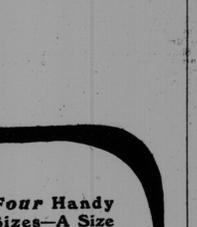

Dr. Morison, in acknowledging the gift, made a feeling reply. Dr. Morison intends to rest for a time.

HEAD STRUCK TRAIN

In a letter from David Hipwell, from Chilliwack, B. C., received yesterday, it will be pleasing news to many friends to learn that his son Harry, who was so badly injured in an automobile accident several weeks ago, and whose life was thought to be endangered, is recovering and is expected to be around

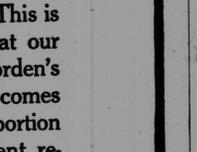

in a short time. It was first reported in St. John that an automobile in which Mr. Hipwell was a passenger, had been struck by a railway train. This is incorrect, as the train was standing still. The weather was very foggy and Mr. Hipwell looked out from the side of the automobile to see what was going on. The chauffeur pulled the car quickly to one side to clear the rear of the train, and as the car was passing Mr. Hipwell's head came in contact with the end of the rear car. He was immediately conveyed to a hospital and for some time was in a very serious condition.

The conductor generally lives on high mountains from 8,000 to 20,000 feet above the sea.

**WILDCATS MAKE ATHOL
DISTRICT UNEASY**

Athol, Mass., Nov. 6.—So numerous have wildcats become in this vicinity, in spite of the number that have been killed recently, that a united effort to rid the surrounding territory of them is in prospect and it was said that families living between this town and Royalston have given up night travel except in cases of necessity. Four dogs have recently been killed in Royalston by the cats, and one cat shot within a week by a hunter weighed twenty-five pounds. Parents are becoming uneasy lest children compelled to go long distances to outlying district schools come to harm.

**Blotchy skin—
upset stomach—
constipation—**

Ills that embitter the lives of millions . . . yet, in most cases, needless!

Failure to nourish the body properly, or—failure to remove its waste-matter regularly—these are at the root of 99 out of every 100 cases of constipation, skin trouble, digestive disorders.

When the intestinal tract is sluggish and weak, the whole body becomes flooded with poisons: the blood is impoverished, the skin perhaps affected. The digestive organs may not be equal to the strain. In many cases medical or surgical aid becomes imperative.

Scientists agree, however, that medicine can never cure the trouble: it can only relieve the symptoms temporarily. The body must cure itself, so to speak.

The really startling results which Fleischmann's Yeast has given so many sufferers are easily explained. 2 or 3 cakes a day of this fresh, natural food contain the very elements needed to help

build up the body afresh. The millions of tiny living plants in each yeast cake make digestion easy, and give the intestinal muscles regular, healthy exercise. The wealth of vitamins and proteins increases the white corpuscles in the blood, and gives new tone and vigor to the whole system.

Remember that Fleischmann's Yeast for health comes only in the tin foil wrapper, and cannot be purchased in tablet form.

All grocers have it. Eat it before or between meals, plain, in water or fruit juices, or spread on crackers or on bread, whichever you prefer.

Send for free booklet, "The New Found Value of Fleischmann's Yeast in Building Health." THE FLEISCHMANN COMPANY, Dept. 209 C, 208 Simcoe street, Toronto, Ont.

"I believe I tried every kind of salts advertised in America," writes Wilson Lovett, of Louisville, Kentucky, "and the same thing with pills. I ran, played tennis, rode horseback, took abdominal massages—still constipation stuck with me. . . . Fleischmann's Yeast appealed to me as logical. I began eating two cakes every day at the lunch hour. . . . After about eight weeks I was able to do without pills or salts of any sort. It is now eight months since I have found it necessary to use a cathartic of any kind—and this, understood, is after a condition of chronic constipation that had lasted for seventeen years."

"When I say that I used to dread the sight, smell, or taste of food—well, it's the absolute truth," writes Homer Gaudin of Beverly Road, Brooklyn, N. Y. "I would come home and mother would have the table fairly groaning with good healthy foods—yet just as sure as fate, about three hours later a thousand demons would seem to start fighting inside me." Then he began eating Fleischmann's Yeast. In less than a month "my agonies vanished. I gradually indulged in the foods which used to have the most appalling effect, but nothing doing—they couldn't annoy me!"

"My face was so covered with pimples that I could scarcely touch it without an exclamation of pain, and so unattractively that I was ashamed to go out," says Olive Kras Kestin, of N. Sacramento Blvd., Chicago. "Then a skin specialist advised me to eat two cakes of Fleischmann's Yeast every day, saying that my bodily resistance was low, and that there were not enough white corpuscles in my blood. I took the yeast regularly in a little orange juice, and now my face has changed so that my friends don't recognize me."

TECHNICAL COLLEGE BEING CONSIDERED

Thos. Nagle Urges That St. John Make Bid to Have It Here.

The establishment of a provincial technical college here similar to the institution conducted by the Government of Nova Scotia at Halifax is a project under serious consideration by the vocational committee of the local Board of School Trustees, according to Thomas Nagle, member of that committee, during discussion of vocational matters at a meeting of the Board of Trade in their rooms last evening following a short address by A. W. Crawford, director of technical education for Canada.

Mr. Nagle declared that in the near future complete information on the question of building a vocational school here would be submitted to the Common Council. He pointed out that the expense borne by the city would be greatly lessened by the 25 per cent grant of the cost of equipping the school from the Provincial Government, the 60 per cent grant of the cost of equipping the school from the Federal Government, the 10 per cent grant of the cost of equipping the school from the Provincial Government, and the sharing of the salary item equally between the city and the Provincial Government. He believed, however, that the Provincial Government might be prevailed upon to establish a school here on the same basis as the one in Halifax. Either St. John or Moncton would be the site of the school and he thought the Board of Trade and other local organizations should unite in bringing the school to St. John.

Mr. Crawford in his remarks said that Nova Scotia had 620 enrollees in technical colleges taking corresponding courses and through vocational education a start toward the revival of the apprenticeship system was being made.

There was one important factor in the establishing of a school of this kind in St. John that was most essential to its success, said Professor Crawford. That was complete co-operation between the school and the employers in the city. It was his experience that unless this co-operation could be obtained, the school would be a dismal failure. Just such a situation had arisen in Hamilton, where the school had been giving a technical course without considering the situation from the employers' point of view. When cordial relations had been established between employers and the schools, the effect was most marked. Professor Crawford laid great stress on that point.

In moving the vote of thanks Mr. Crawford Alexander Wilson declared St. John was not making any mistake in moving toward the establishment of a vocational school. W. Simms, vice president of the Board of Trade, endorsed the sentiments of Mr. Wilson and G. E. Barbour, president of the Board of Trade, in extending the vote of thanks, pointed out that there was the benefit to the people themselves as well as the employer to be thought of.

WEEK OF PRAYER TO BE OBSERVED

The Y. W. C. A. and the Y. M. C. A. branches throughout the world will unite in observing a week of prayer next week. The local associations will follow in this observance and are now planning for the special programme which will be held at the special service in St. Andrew's church on Sunday evening, Nov. 18, when Rev. J. S. Bonnell will give an appropriate address.

Subjects have been selected for the programme for each day in the week of prayer by the World's Association. These subjects are as follows: "Revelation of the presence of Christ," "Quietness," "Lowliness of heart," "Bearing the yoke," "Sharing the yoke," "Whose service is perfect freedom," and "Ye shall find rest."

Each of the national associations has sent some subjects for which it has requested intercession or thanksgiving during the week of prayer. The Canadian Association has requested prayer for more women with necessary preparation to enter Y. W. C. A. work for guidance in giving an adequate programme of training, and thanksgiving for the growing interest which the local associations had shown in national and world problems.

The Y. W. C. A. in St. John has arranged for two afternoon meetings on Wednesday afternoon a special meeting will be held in the recreation centre and will be led by Rev. H. E. Thomas. At the same time and place on Friday afternoon the second meeting in prayer will be held and the leader at that meeting will be Rev. A. L. Fleming. It is hoped that organizations of young women, such as the C. G. I. T. members and the Girl Guides will cooperate in attendance at these meetings.

LONGSHOREMEN NAME OFFICERS

The semi-annual meeting of the International Longshoremen's Association, Local No. 278, was held in their hall, Water street, last night. There was a large attendance. The principal part of the business was the election of officers for the ensuing term, which resulted as follows: President, J. J. Donovan; senior vice-president, Robert Carlin; junior vice-president, Charles Stevens, Jr.; secretary-treasurer, Joseph Moore; business agent, John McKeon; marshal, John Kindred. All those under the marshal were re-elected. The janitor appointed was Thomas Sullivan. Those chosen on the water front council were: John McKinnon, Joseph Monteleth, Andrew Craig, Robert Carlin and James Sharpe. The executive board is composed of the following: Fred Mahoney, Malcolm McLeod, James Sharp, Percy Taylor, Andrew Craig, Patrick O'Keefe, Harry Linton, Charles H. Stevens, William Harding, John Newcombe, Herbert Churley and William Arbo.

While the wage question was only briefly discussed, a wage committee was appointed to meet with the shipping interests in the near future, probably this week, to discuss the matter of wages for the coming season. While nothing was given out last night by officials of the association, who said that matters of wages would not be given out until after the committee had met the shipping men, it is said that no increase will be requested at the present time.

NORTH END C. W. L. PREPARES PLANS

The first regular meeting of the St. John North sub-division of the Catholic Women's League was held in the rooms of the society in Dogias avenue last evening with Miss M. H. McKinley, the president, in the chair. Routine business was transacted and conveners were named for the winter activities. Mrs. J. Gerald Burke, who was the society's delegate to the national convention in Halifax this summer, read an interesting report of the convention meeting. Miss Alice Phillips was elected corresponding secretary to take the place of Miss Isabelle Gormley, who is leaving St. John shortly to reside in New York. Mrs. Arthur Coburn was elected treasurer, succeeding Miss S. Lynch, who is retiring. It was decided that the branch should take charge of the grocery booth at the St. Peter's high tea towards the end of the month and Mrs. Margaret Corkey was appointed convenor for the committee in charge with Mrs. William O'Connor as her assistant.

Look And note the prettier teeth you see everywhere today

Note how many teeth now glinted where dairy people gather. Mark what added beauty those whiter teeth convey. Millions now clean teeth in a new way. They combat the film. Accept this test and learn how much that method means to you.

Film a dingy coat. You feel on teeth a viscous film. Much of it resists the tooth brush, clings and stays. Soon that film discolors, then forms dingy coats which cloud the beauty of the teeth. But film does more. It holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay. Germs breed by millions in it. And they, with tartar, are the chief cause of pyorrhea.

Under old-way methods, very few escaped the film-caused troubles. The modern way dental science has found two effective ways to fight that film, and has amply proved them. One acts to disintegrate the film at all stages of formation. One removes it without harmful scouring.

A new-type tooth paste was created to apply these methods daily. The name is Pepsodent. Now leading dentists the world over advise it, and careful people of some 50 nations use it.

'Twill surprise you Pepsodent brings these whiter, cleaner, safer teeth in natural ways, without any harmful scouring. It multiplies the alkalinity of the saliva, also its starch digestant. Those are Nature's agents for fighting acids and digesting starch deposits. Pepsodent gives them a manifold effect, while old ways reduced their power.

Protect the Enamel. Pepsodent disintegrates the film, then removes it with an agent far softer than enamel. Never use a film combant which contains hard grit. Made in Canada. Pepsodent The New-Day Dentifrice. Now advised by leading dentists the world over. Send the coupon for a 10-Day Tube. Note how clean the teeth feel after using. Mark the absence of the viscous film. See how teeth become whiter as the cloudy coats disappear. You will then know a way to bring vast benefits to all people in your home. Cut out coupon now.

H. J. ANDERSON IS DEAD IN RENFORTH

A Former Newspaper Man and Manager of Opera House

Herbert J. Anderson, former magistrate in Renforth, and for many years in newspaper life in St. John, died at his home in Renforth at 10 o'clock this morning after a long illness following a stroke of paralysis. Mr. Anderson was a son of James and Sarah Anderson. His father was for many years shipping editor of the Daily Telegraph in the times when the paper was owned or commanded or managed the sailing vessels which made this port famous the world over.

Herbert Anderson was in early life a stock broker in Bangor, Maine, returning to St. John he joined the staff of the Evening Gazette, published by the late John A. Bowes, and became city editor. When the Gazette ceased publication, Mr. Anderson engaged in varied activities and then became manager of the Opera House and secretary of the company. The latter position he held at the time of his death. He had made his home at Renforth for some years and for a period until ill health caused his retirement, was magistrate there, dealing principally with traffic law violations. He was an active Liberal in politics and was chairman of assessors of Rothesay parish.

Mr. Anderson was gifted with a facile pen, an alert mind and companionable qualities that made him a great favorite. He was much interested in theatricals and had to do with some of the big amateur productions in the city some years ago. Soon after the jubilee of 1877 he himself painted a large picture illustrating the great fire and he took this through the Maritime Provinces and exhibited it to raise funds for relief of the fire sufferers. He was always in demand for illustrated performances and such like and was very ready to assist.

Mr. Anderson is survived by his wife, who was Miss Emma Maxwell of North End, and by five children; also six sisters and three brothers. The sisters are Mrs. J. M. Perkins of St. John, Mrs. Clarence Ward of Chicago, Mrs. E. E. Beaumont of Montreal and Misses Helen, Edith and Annie, at home. The brothers are E. M. of St. John, Arthur E. of Montreal and William E. also of St. John. They will have the sympathy of a host of friends in their bereavement. The funeral will be held at 8 o'clock on Thursday afternoon.

BRIDGE SOON READY.

The pouring of concrete at the Pokok bridge has been completed, it was reported this morning, and with a little fine weather for filling in, the whole job will soon be done and the bridge opened to the public.

HON. WM. PUGSLEY IMPROVES.

Word was received from Ottawa today that Hon. Wm. Pugsley, whose illness has been causing anxiety, is continuing to make satisfactory progress towards recovery. A report from the hospital this morning said that he spent a good night. This will be gratifying news to his many friends who will unite in wishing him a speedy recovery.

WANT MONEY GRANT.

Mayor Fisher this morning brought up at a committee meeting of the council the matter of a further grant for the engineering and incidental account of Civic Power Commission as there was only \$41 in the account. The members of the council wanted more detail about the expenditure under sundry items, which totalled \$2,808.19.

TO AUDIT BOOKS.

Mayor Fisher said this morning that H. G. Hober and Frederick had been engaged to make an audit of the books and accounts of the McLaughlin & Co. and had entered upon their duties today. This audit is being made in connection with the appeal of the company from their 1923 assessment.

DOG MUST DIE.

George Brown appeared in the Police Court this morning charged with keeping an unlicensed dog, and also for harboring a ferocious and unlicensed dog. He contended that he had a license, but after hearing complaints made by the dog owner, the magistrate ordered that the dog be destroyed, and he was allowed to depart upon promise to have the dog destroyed.

DESTRUCTIVE BOYS.

A juvenile appeared in the Police Court yesterday afternoon charged with throwing stones in Queen Square, West St. on the 2nd inst. For some time boys have been breaking electric lamps in that section and also smashing windows that protects the fire alarm boxes. A complaint was made to the police and efforts to learn the identity of the culprits have been made. Sergeant O'Neill caught this boy throwing stones, but not see him smash any lighters. He was summoned to court as a warning to others. Magistrate Henderson severely lectured him and allowed him to go home after he had promised to stop this practice.

SOCIAL ENJOYED.

The members of the Young People's League of Carleton Methodist church enjoyed their monthly social in the school room last evening. The programme was under the direction of Miss Mary Bell Owens and was thoroughly enjoyed. Pleading selections were rendered by a quartette composed of Miss Margaret Barrett, Miss Helen Henderson, Gordon Tippetts and Howard Blair. A reading was given by Mrs. Charles Watters, and a vocal solo by Miss Helen Henderson. A novel sketch was presented by Herbert Owens and Frank Ellis, representing ghosts, and the Misses Eva Adams and Vera Wright as witches. Refreshments were served.

TALK VOCATIONAL EDUCATION.

The committee on vocational education recently appointed by the St. John school board met yesterday afternoon and discussed the local situation with regard to vocational training. A. W. Crawford, of Ottawa, national director of vocational education, and Fletcher Peacock, director of vocational education in New Brunswick, met with the committee and gave many valuable suggestions. No definite action was taken and adjournment was made to meet again at the call of the chair. Those present were Mrs. D. P. Chisholm, A. A. McIntyre, S. J. Worell, Alexander Wilson, George P. Hennessy and A. Gordon Leavitt.

ELEVATOR MEN WAIT ON SUPER.

A delegation from employes of the C. P. R. elevators in West St. John waited on M. Woodman, general superintendent of the C. P. R., this morning to take up matters pertaining to working conditions and wages. The various subjects to be taken up were touched upon, but nothing definite was decided on. Further meetings will be held and arrangements for the season will be made. The delegation consisted of Robert Rose, John C. Sweet, William Armstrong, Harry Ferguson, W. H. McDonald and E. J. Tighe, international organizer of the I. L. A.

NO CONFERENCE YET.

The Mayor reported this morning that he had been notified that Hon. Dr. Baxter, M. P., city solicitor, would not be in the city until noon tomorrow, and that Hon. Dr. Smith, chairman of the New Brunswick Electric Power Commission, would be here for a few hours this afternoon, and nothing further had been done about a conference.

OPEN INSTITUTE ON NOVEMBER 15

Council of Church of England Organization Completes Its Plans.

Plans for the formal opening of the enlarged building were made at the meeting of the council of the Church of England Institute held last night with Ven. Archdeacon A. H. Crowfoot, the president, in the chair. A large hall has been built in the rear of the building, the library has been removed to double rooms on the eastern side of the building and the bookstore occupies the entire space of the western side, while the reading room has been moved upstairs. A new kitchen has been built opening off the large hall in the rear and offices for the secretary of the synod have also been arranged. Funds for the work were provided in the generous gift of \$10,000 which was made by the late Senator W. H. Thorne. The members of the council were delighted with the new premises when they inspected them last night.

It was decided to have the formal opening on Thursday, Nov. 15, in the evening and it was hoped that His Lordship Bishop Richardson might be present on that occasion. A programme of speeches and music was arranged.

It was reported that several donations towards the furnishing, which had not been provided for in Senator Thorne's gift, had been received and these were gratefully acknowledged. Several new members were elected. Preparations were made for holding the annual church services of the Institute. The services, it was decided should be held on Tuesday of this week. The celebration of Holy Communion was to be in Trinity church this morning and the annual service in St. Paul's church this evening, when the preacher was to be Rev. Dr. W. W. Leonard, of Rothesay Collegiate School.

BREAD WAGON IS SMASHED; 1 HURT

Horse Runs Away; Tries to Shoot Across in Front of a Car.

Market Square at its busiest hour—between 12 and 1 o'clock today was the scene of a series of accidents in which a bakery wagon of the Independent Bakery Co. and street car took prominent parts and which inflicted considerable excitement for the many people who were thereabouts at the time. As a result the bakery wagon stands in front of the Bank of B. N. A. building with its top badly shattered and the driver, Harry Bamford, 58 Sewell street, is confined to his home suffering from bruises about the legs and general shock.

Bamford was driving along Prince William street about 12:15 o'clock when his horse became unmanageable and bolted. He headed across Market Square at a terrific rate and in an effort to pull him up Bamford placed his feet against the dashboard and pulled steadily on the reins. The dashboard gave way and the driver fell to the ground between the horse's heels and the whiffletree. He was dragged for about eight yards between the front wheels before he let go of the reins and the wagon passed over him without the wheels touching him.

The horse continued in his mad career across the square until he reached the foot of Dock street where he met a street car. The animal dashed across in front of the car but before the wagon had cleared the tracks the street car had hit it full broadside, turning the vehicle on its side and throwing the horse on to the sidewalk. Bread and buns were scattered about, Policeman Young was on the scene in a few minutes and, with the aid of some passers-by, secured the animal and righted the overturned vehicle. The ambulance responded to his call, Policeman Duffy accompanying it.

As Bamford did not seem to be severely hurt, his request to be taken home was complied with. He was quite badly bruised in one knee but the horse escaped injury. The wagon is almost a complete wreck, but no serious damage was done to the street car.

As Hiram Sees It

"Well, sir," said Mr. "Hiram," said the Times reporter to Mr. Hiram Hornbeam, "I was thinking just now about an alligator. Why has he got such long jaws and so many teeth?"

"Then it ain't a burnin' question," said Hiram.

"Well, to tell you the truth," replied the reporter, "I have often thought about it. Why couldn't an alligator get along with at least two feet less of jaws and teeth?"

"Any alligators round here?" asked Hiram.

"Oh, no," said the reporter.

"Likely to be any?" persisted Hiram.

"I fancy not," said the reporter.

"Why, of course not."

"Then it ain't a burnin' question," said Hiram.

"Quite right—quite right," said the reporter.

"You're like a hull lot more folks," quoth Hiram. "Why don't dollars grow on trees? How much ice is there on the North Pole? Why don't we get younger instead of older? Kin give you some back exercise like that by the yard? S'posen you turn your mind to something 'nuth' white. Why ain't St. John folks gittin' together more to go after things they orto hev? Why ain't we all plannin' to git pore tourists to come here an' spend money? Why ain't we workin' harder to git noo industries? Why ain't we sawin' more wood every way? You can't change the alligator—but you kin do a lot to boost the town. Go to it—By Hen!"
