POWERFUL GUNS WON

British Crippled Before They Could Get Within Striking Distance

SEA FIGHT IN A TERRIFIC GALE

All Over in an Hour—British Loss Very Great, May be Nearly 2,000, But German Casualties Only Two Wounded—Detailed Story of Naval Battle

Valparaiso, Chile, Nov. 4.—Officers of the German cruiser Scharnhorst expressed the belief today that nearly 2,000 British officers and sailors had been killed in the naval engagement off Coronel.

ONLY TWO GERMANS WOUNDED

If, as believed, the fire-stricken and shell-riddled cruiser Good Hope went to the bottom in the gale that was raging during the battle, it is certain that Sir Christopher Cradock, who was commander of the British squadron in Mexican waters, lost his life.

The German cruisers Scharnhorst, Gneisenau, and the Nürnberg, which came into this harbor on Saturday night after the engagement, had steam up at dawn ready to depart.

The destination of the German fleet is unknown, but it was reported that they would cruise off the South American coast until the Japanese fleet, which is said to be on the way from the Orient, arrives and its strength is ascertained.

The warships in the fleet which defeated the British, were the Scharnhorst, Gneisenau, Nürnberg, Leipzig and Bremen. They won because their ordnance was heavier than that of the British.

The weather was rainy and there was a gale blowing when the battle opened. The Germans opened fire at 9,000 metres, but the British reserved their fire until only 6,000 metres separated them from the German ships.

Officers of the German fleet, who came ashore, said that they believed the Eastern Pacific had now been cleared of warships.

"The British fought gamely," said the German officers, "but their ships were outclassed. The Monmouth, Good Hope and Glasgow were all set on fire by our shells."

That the Germans were able to sink or scatter the British squadron with only minor damage to their own ships, and a casualty list of only two wounded, is a subject of wonder.

The Monmouth is known to have been lost, with practically all of her crew as a result of this first big naval fight of the war; the Good Hope was severely damaged and on fire when she escaped, under cover of darkness, and it is believed here that she went to the bottom, while the Glasgow and the Otranto took refuge in a Chilean port.

The Scharnhorst, Gneisenau and Nürnberg were still in the harbor early today, coaling and provisioning, in preparation for steaming away later in the day. It is supposed they will relieve the cruisers Leipzig and Bremen, which have the Glasgow and Otranto bottled up in the port of Talcahuano, eight miles northwest of Concepcion. It would seem like madness for these British ships to leave this haven of refuge and it is likely they will be dismantled and interned unless a superior British and Japanese fleet should make its appearance and go to their relief.

Admiral Von Spee, in his official report of the battle, which took place late on Sunday afternoon off the Chilean island of St. Maria, says the action lasted only an hour, being discontinued at nightfall, when the British were forced to give way.

The Good Hope, he says, was so badly damaged that she was unable to resist and could only make her escape protected by the darkness.

The Monmouth, under identical conditions, tried to escape, but was followed by a cruiser and was sunk with a few shots and consequently there was terrible loss of life.

LONG RANGE GUNS DID IT

Details of the fight, picked up from informal conversations with German officers, who came ashore from the war ships, show that the Germans, owing to the superior range of the guns on the armored cruisers Scharnhorst and Gneisenau, opened fire when six miles away, as the ships closed and the range came down to a distance of four miles, the British ships were able to reply but by that time they were already seriously damaged.

The British fought heroically but that their artillery was ineffective against a superior weight of metal that the Germans were able to pour from their heavy guns of the armored cruisers.

SUBMARINE AND TWO DRIFTERS SUNK

London, Nov. 4.—Telegraphing from Yarmouth regarding a raid made by a German squadron in the North Sea on Tuesday the correspondent of the Times says:

"The whole of the crew of the submarine 'D-5' which was sunk by a mine dropped by a German cruiser, were lost except two officers and two men. Four men were saved from the mine drifter which was also sunk, but of its crew only one was saved. The mine drifter Copious was also struck by a mine about the same time as the others and sank. Only one member of her crew was saved and nine were drowned."

"The light was so close to the shore that some of the shells dropped within a mile of the beach, one exploding within a few hundred yards of the naval station on the south side of Yarmouth."

"It is believed here that the German raiding squadron intended to bombard the coast."

GERMAN WARSHIPS IN BALTIC

Copenhagen, Denmark, Nov. 4.—A fleet of German warships has gathered off the island of Bornholm, in the Baltic Sea northeast of Stockholm, and opposite the entrance to the Gulf of Finland.

They evidently were proceeding north and have stopped to await orders, Turks said.

FIGHT LASTED ONLY AN HOUR

Valparaiso, Chile, Nov. 4.—The naval engagement between the German fleet, under Admiral Von Spee, consisting of the armored cruisers Scharnhorst and Gneisenau and the light cruisers Nürnberg, Leipzig and Bremen, and the British squadron made up of the cruisers Monmouth, Good Hope, and Glasgow, and the transport Otranto, commanded by Rear Admiral Cradock, continues the nation of the hour here.

Austrian Cruiser Is Blown Up

New York, Nov. 4.—The East and West News Bureau made public today the following cable dispatch received by them from the following official announcement: "On November 1 the Japanese fleet, together with English warships, made an effective bombardment on the Itois and other forts. At 8 a. m., November 1 the Austrian cruiser Kaiserin Elizabeth seemed to have been blown up in the Bay of Chong Bay. On November 3 the floating dock in the Tsing Tau harbor is said to have sunk."

Seven Divorces Granted In New Brunswick Court

Three Cases Come From St. John-- Judge Mckeown Delivers Judgments

Frederickton, N. B., Nov. 4.—That the divorce mill in New Brunswick has been working overtime late was shown this morning when Judge Mckeown, in an adjourned sitting of the divorce court, granted decrees annulling seven marriages. All the divorces were granted on statutory grounds. The list is as follows:— Sarah Frances Ross vs. Robert Ross, a St. John case.

Richard Brohoe vs. Annie Brohoe, a Petticoat case.

Herbert B. Parlee vs. Mary E. Parlee, a Sussex case.

Wm. H. Appleby vs. Maggie Appleby, a St. John case.

John J. Melanson vs. Mary Melanson, a St. John case.

Clara K. Douthright vs. Adam M. Douthright, a Kings county case.

Thomas H. Belyea vs. Annie Maria Belyea, a Carleton county case.

Judgment in a case of Milton I. Perry vs. Flora G. Perry, of Carleton county, will be delivered at the next term.

Edward Bates, of St. John, was last evening appointed by the city council to arbitrate on the value of buildings on lots owned by the city.

General Manager Godelius and other I. C. R. officials who are inspecting the Valley Railway will return to Fredericton this evening. They made numerous stops between here and Woodstock and closely inspected the bridges and station buildings.

DUNCAN BUCHANAN FOUND DEAD IN BED

Was Inventor of Buchanan Turbine—A Kindly Man Who Had Helped Many Through Normal School

Many friends in New Brunswick and Nova Scotia will learn with deep regret of the death, at Mars Hill, Maine, at the home of his daughter, Mrs. Morton, of Duncan Buchanan, formerly of Apohaqui, N. B.

Mr. Buchanan was about 58 years of age and for some years past had visited St. John regularly about twice a year. He was here at exhibition time in September, and also visited Norton, Sussex and Moncton. He was taken ill on Sunday last, but was better on Monday. Yesterday morning, however, he was found dead in bed. He leaves two daughters in Maine, one at Norton, N. B., one at Upper Keswick, one in Lowell, Mass., and another in Bangor, Me.

Mr. Buchanan was born on a farm near Norton, and for many years carried on farming himself. His chief work, however, was that of a millwright, and he invented the Buchanan turbine which he placed in many mills in the province. He built mills not only in New Brunswick and Nova Scotia, but in Newfoundland and West Virginia, and worked on the construction of mills in several American states.

One of the finest things Mr. Buchanan did in his lifetime was to advance money to a large number of young men and women to enable them to attend the Normal School or college, and it was his great happiness to be able to say that all were worthy of his confidence.

He had never lost a dollar in that way. In his private life he was a kindly, generous man, and to go about and gather aid for the destitute, beginning with a substantial gift of his own, was always a labor of love.

He had outlived most of his contemporaries, but retained his vigor until the very last. He had traveled widely and in recent years moved back and forth among the homes of his children, all of whom are well settled in life. He knew the life of the Kennebec valley before the railway was built, and when primitive conditions still prevailed among the early settlers. His father was a Scottish emigrant, and the family were staunch supporters of the old Kirk at Norton. The end of a very active, honorable and useful life has come, and the news will be heard with deep regret by many old friends in the province.

NEW FISSURE IN OLD YESUVIUS CRATER

Naples via Rome, Nov. 4.—The operation of Mt. Vesuvius have been augmented by the opening of a new fissure in the bottom of the old crater. From this new opening an extraordinary amount of smoke and a great quantity of ashes are being emitted and are blown toward the seashore, clouding the villages around the gulf and also the island of Capri, twenty miles south of Naples. The island appears as if in a mist.

CHARLOTTETOWN, P. E. I., Nov. 4.—The damage by fire in M. F. Schurman and Company's sash and door factory in Summerside yesterday is estimated at \$6,000, partially covered by insurance.

Valuable woodworking machines and a considerable quantity of manufactured and rough lumber was destroyed. This was the most serious fire in Summerside since the big blaze of 1906.

THE FUNDS

The following contributions to the Canadian Patriotic Fund were acknowledged this morning: Half proceeds pie social, Quispamsis, \$20.82; Geo. Rathburn, Westfield (Nov. contribution) \$2; Mrs. C. H. Smith, Hampton, \$2.50; Miss E. T. Smith, Hampton, \$2.50; Mrs. E. C. Fowler, \$8; The Two Barkers, \$2; John J. Donovan, (November payment) \$2.

A pie social and dance in aid of the Patriotic Fund will be held in the Clarion Hall, Torriburn, this evening.

FOR THE BELGIANS

Mayor Frink has received subscriptions to the Belgian relief fund as follows: First Church of Christ Scientist, \$22.80; Mrs. P. R. Inches, \$10; Lewis Knorr, Stanley Knorr, Arthur Congle, Percy Walters, Robby Scott and Harry Galbraith, collectively, 60 cents; Dipper Harbor, St. John County, per Rev. J. D. Wetmore, \$20; C. C. Knight, Mill Cove, Queens County, N. B., \$3.

WEDDING IN WEST

The wedding of Miss Margaret Kerr, daughter of Mrs. William Kerr, formerly of this city, and Eric Agur, of Summerside, B. C., is to take place in the Presbyterian church, Summerside, today. Miss Kerr has many friends in the city who will wish her much happiness in her new life.

THE DEMOCRATS STILL IN CONTROL

Republicans, However, Have Made Great Gains

A BLOW AT ROOSEVELT

Progressives Have Taken a Decided Slump—Whitman is Chosen Governor of New York By Nearly 150,000

New York, Nov. 4.—The democratic party, through yesterday's elections, apparently retains control of both branches of congress, although gains made by the Republicans in the lower house threaten to reduce the democratic majority to a minimum. This is the outstanding feature of yesterday's general election, of which the most significant development was the winding away of the progressive party of the progressive party. Returns from every section of the country indicate that the Progressives, who last year voted that the Republicans in 1912, have been absorbed in a large part by that party. In almost every case there was a decisive falling off in the progressive vote, with the conspicuous exception of California, which apparently has re-elected Herman Johnson, its Progressive governor.

Republican gains were made in every section of the country, and leaders of that party asserted that the tariff issue has been instrumental in bringing it about. Some of the more optimistic of the leaders asserted early today that there was a chance that the democratic majority in the house of representatives would be overturned, but there appeared to be small prospects of such an outcome.

The result of state elections was less definite. In some cases, Democratic administrations were overturned, but these were offset by instances in which the reverse was the case. Republican leaders were elated, however, by the showing made in New York, where District-Attorney Charles S. Whitman was elected to succeed Governor Glyn, the democratic incumbent, by what bid fair to be a record vote. As the late returns came in, Mr. Whitman's plurality mounted steadily, and early today it was estimated that he would win by nearly 150,000. In Pennsylvania there was a huge increase in the republican vote.

Complete returns show the following: Democrats elected to the senate—Oscar W. Underwood, Alabama; Marcus A. Smith, Arizona; James P. Clark, Arkansas; Demmon U. Fletcher, Florida; Hoke Smith, (long term), Thomas W. Hardwick, (term ends 1919), Georgia; J. C. W. Beckham, (long term), Johnson, (term ends March 3, 1916), Kentucky; R. F. Broussard, Louisiana; William J. Stone, Missouri; Lee S. Overman, North Carolina; John Walter Smith, Maryland.

Incomplete returns indicate the election of the following Republicans to the senate: Benjamin F. Shively, Indiana; George E. Chamberlain, Oregon; Roger C. Conner, Utah.

Complete returns show the election of the following Republicans to the senate: James H. Brady, Idaho; Albert B. Cummins, Iowa; Jacob H. Gallinger, New Hampshire; James W. Wadsworth, New York; Asa J. Gronna, North Dakota; Warren G. Harding, Ohio; Boies Penrose, Pennsylvania; William P. Dillingham, Vermont.

According to the latest returns, the results of the senatorial contests were uncertain in California, Colorado, Kansas and Nevada.

Big Cut in Democratic Majority

At an early hour today returns from the congressional districts in many states were incomplete. Actual returns showed a Republican gain of fifty-four seats, which would make a difference of 108 in the house majority, if the late returns should not develop Democratic gains. That would reduce the present democratic majority of 141 to 33. There was every indication, however, that this majority would be reduced still further.

On the basis of returns received to date, the Republicans gained ten in New York, five in Connecticut, one in Delaware, twelve in Illinois, two in Indiana, one in Maryland, three in Massachusetts, two in Michigan, two in New Hampshire, one in New Jersey, one in New Mexico, one in Ohio, six in South Dakota, and one in West Virginia.

Walsh Re-elected.

Boston, Nov. 4.—Revised returns for governor in the state election yesterday from all but one city ward and one small town, comprising 1124 out of 1125 election districts, give David L. Walsh (Dem.) 208,281; Samuel W. McCall (Rep.), 194,983; Joseph Walker, (Progressive), 16,774.

Washington, D. C., Nov. 4.—Democratic national committee headquarters advised President Wilson early today that James D. Phelan, Democrat, to the senate from California, and the re-election of Senator Shively and Thomas, Democrats, of Indiana and Colorado.

GETTING NEW ITALIAN CABINET TOGETHER

Paris, Nov. 4.—A despatch to the Havas agency from Rome says: "A long conference was held on Tuesday night by 'Regener Salandra with Baron Sidney Sonnino, Paolo Carcano and Vittorio E. Orlando who, it is reported have accepted the posts of foreign minister, minister of treasury and minister of justice in the new cabinet. The seriousness of the international situation was discussed but nothing was made public."

Germans Have Drawn Back on Right Bank of Yser; On Left Occupy Only Head of a Bridge

Paris, Nov. 4.—The French War Office today gave out an official announcement as follows: "On our left wing, to the north, the situation shows no change as compared to yesterday. The enemy has drawn back on the right bank of Yser. We have recaptured Lombardzelle. The Germans occupy on the left of the Yser nothing more than the head of a bridge."

KAISER AT THEILT ON SUNDAY

London, Nov. 4.—Daily Mail despatches give elaborate details of Emperor William's visit to the German headquarters at Thielt, near Courtrai, Belgium, on Sunday. With a brilliant staff of officers, he dined with the officials of the headquarters and then drove away for an unknown destination.

Soon after his departure, British airmen dropped bombs on the town, doing great damage to the town hall, the palace of justice and other buildings, and killing two German soldiers. It has since been reported that the German headquarters have been transferred from Thielt to Ghent, and there are indications of a German retreat in the direction of Brussels.

BRITISH BOMBS DO MUCH DAMAGE

London, Nov. 4.—A despatch from Rotterdam to the Daily Mail, dated Tuesday night, says: "This morning British aeroplanes dropped bombs on the state railway works at Bruges, Belgium, doing great damage. At four o'clock, this afternoon another British war plane dropped bombs on Bruges."

NIKOPOL IS IN RUINS

London, Nov. 4.—Telegraphing from the north of France the correspondent of the Chronicle says: "Nikopol, which suffered severely from bombardment by the allies and Germans and was lost and taken three times in one day is now in ruins. It is occupied only by the dead lying in unburied heaps."

Berlin Report

Berlin, Nov. 4.—(By wireless to Sayville)—Information was given out to the press from official quarters today as follows: "The first encounters on the Turkish front, in which Turkish soldiers met Russian forces, from the Caucasus resulted unsuccessfully for the Russians."

Nineteen Russian transports sunk by the Turks had on board 1,700 mines destined for the blockading of Turkish waters. This fact proves the hostile intentions of Russia."

BULGARIA IS STIRRING

London, Nov. 4.—An Amsterdam despatch to Reuters says: "A Berlin telegram states that railway communication between Serbia and Bulgaria has been broken. The Bulgarian government has stopped marine movements in all Bulgarian ports and it has called to the colors, the troops of the second line. There is much excitement in Sofia."

Fredericton, N. B., Nov. 4.—Victor Hatheway, son of Fred W. Hatheway, of this city, was a midshipman on the cruiser Good Hope, supposed to have been sunk off the coast of Chili. He was a graduate of the Halifax Naval College, and was visiting at his home here when the war broke out. He joined the cruiser Berwick in Halifax, and was transferred to the Good Hope. His brother, Harold, is a member of the Canadian contingent now in England.

Halifax, N. S., Nov. 4.—Two Halifax boys were on the Hope—Midshipman Astor W. Silver, son of St. Clair Silver, and Midshipman W. A. Palmer, son of Lieut. Palmer, Royal Canadian Engineers. Midshipman J. W. Conn of Yarmouth, also was on board.

TURKS SAD TO HAVE SUNK A RUSSIAN BATTLESHIP

Amsterdam, Nov. 4.—The Vossische Zeitung publishes a despatch from Sofia saying that Turkish warships have sunk the Russian battleship Sloop purports to be the Turkish version of the Black Sea incident.

The recital appears to be based on a report of a German admiral, Soukhon. It says that the Turkish explanation is that Russian vessels opened fire on a Turkish squadron when the latter advanced toward the Russians and that the responsibility for the outbreak of hostilities rested on the Russians for having manoeuvred in Turkish territorial waters.

The Bordeaux despatch declares also that Turkey is ready to turn over the Russians who have been taken prisoners. Turkey's Preparations.

Berlin, Nov. 4.—The Frankfurter Zeitung publishes a despatch from Vienna saying that Torrut Pasha has been appointed commander-in-chief of the Danubian and the Bosphorus, and that Izzet Pasha and Shukri Pasha have taken command of Turkish armies. The despatch says that a large number of Turkish vessels and recently purchased merchantmen have been changed into auxiliary cruisers.

London, Nov. 4.—A despatch to Reuters from Constantinople via Berlin asserts that the ministers of public works, marine and commerce, have resigned.

The Turkish cabinet resignations are undoubtedly due to discussions which have arisen regarding the Black Sea raid of the Turkish fleet, which precipitated Turkey's entrance into the European war.

JAMES KNOX STRICKEN; CONDITION IS SERIOUS

James Knox, one of St. John's oldest and most esteemed residents, is critically ill at his home, 160 Sydney street, having suffered a paralytic stroke last evening about 6 o'clock. A strong, hearty man, despite his eighty-two years of age, his friends could hardly credit the report that he had been so suddenly stricken. Mr. Knox was at his business yesterday, and returned to his home at six o'clock. During the day he was in the best of spirits, but a little after entering his home, while stooping to remove his shoes he was overcome with paralysis. A call was sent for Dr. D. Bishop, who remained with him during the greater part of the evening. Mr. Knox remained semi-unconscious all night, and this morning showed practically no signs of improvement.

Hearing Is Restored To Deaf

Without Mechanical or Artificial Hearing Devices. Deaf Hear With Their Own Ears. A Wonderful English Dis- covery.

Thousands of people suffer from catar- rhal deafness, or poor hearing, who are treated, artificial ear drums, phones, electric vibrators and various other appliances without success have at last resigned themselves to a "world of sil- ence" thinking that nothing can ever be done to them their normal hearing. But their case is not hopeless. A remarkable scientific treatment discovered a little more than a year ago in England is mak- ing people hear after years of deafness and is also unequalled for quickly stop- ping the distressing head noises that are so often the companions of defective hearing. This discovery is called Par- mint and has attracted widespread notice throughout Europe where reports of the remarkable results it has given to deaf people have come in by the hundreds. The effect of Parminit it seems is by some action to produce a stimulus nec- essary to reduce or thicken of the or- gans of hearing and to stimulate the entire auditory tract.

Parminit is now being sold by many leading druggists in St. John and vicin- ity and a speedy trial is urged upon all who suffer from catarrhal deafness or head-noises in any degree. Ask the druggist for 1 oz. of Parminit (Double Strength) and take it home and mix with 1/2 pint of hot water and 4 oz. of granulated sugar until dissolved. Take one tablespoonful four times a day and you should soon find a remarkable im- provement in your hearing.

A CLEAN MOUTH PROMOTES HEALTH

Oral hygiene is quite properly focus- ing the attention of the medical profes- sion as well as the laity. A noted author- ity is quoted as saying: "There is not one single thing more important in the whole range of hygiene than hygiene of the mouth.

In the process of sterilizing the mouth-destroying disease germs—diphen- tery may be placed by Absorbine Jr. This germicidal liniment has made good under severe laboratory tests and its use as a germ destroyer and preventive is becoming quite general. It is unlike the usual germicide because it is non-poi- sonous and is safe and harmless to use.

Prof. J. D. Hird, Biological Chemist, Washington, D. C., after an extensive laboratory examination of Absorbine Jr. reports: "Four or five drops of Absor- bine Jr. to an ounce of water is suffi- cient to thoroughly cleanse the mouth and teeth of injurious bacteria, without injurious action on the teeth." (Com- plete report mailed upon request).

Sold by most druggists at \$1.00 per bottle or sent postpaid by the manufac- turer, W. F. Young, P. D. F., 317 Ly- man's Bldg., Montreal, Can.

From Atchison, Kan., comes the tale that a woman returned a bag of salt to her grocer because the "flavor" of the salt was not good.

Tribute to Mrs. Fiske.
The Women's Suffrage Association adopted a resolution at their monthly meeting last evening expressing regret on hearing of the death of Mrs. E. S. Fiske and a high tribute was paid to her life and her accomplishments as president of the society which was now firmly established, largely through her efforts. A fund was instituted during the meeting to be called the Emma S. Fiske Memorial Suffrage Fund, which, during the war, will be devoted to citi- zen relief work.

It is Every Man's Ambition to Own His Own Home

Read This!

It Tells of Your Opportunity

The ambition of every home-loving man is to own his own home, to free himself of the regular monthly rent burden, become independent, give his family the right to live as they should live, his children every opportunity to grow up under the best environment.

These conditions cannot be found in the crowded tenement districts of every city. Therefore, what has a man to do to realize his ambition?

Take an opportunity, pick out a lot of land in a good section within a short distance of the city, where land values are increasing and street car line has been extended, then arrange to purchase on easy terms and build a home according to his own require- ments.

With little money you can start building a home paving the way to independence and realizing your ambi- tion of "Owning Your Own Home."

Call in and see us. We will be pleased to give you particulars of our Great Marsh Road lots and also show you how you can collect rent instead of paying it, thus having money com- ing in instead of money going out.

USE THE WANT AD. WAY

Less Than a Cent

You may know a woman who has a reputation for making delicious cake, biscuits, etc.,—who seems to hit it right every time.

You may also know a woman, who, no matter how painstaking, can't seem to get the knack of successful baking.

Both use the same butter, same eggs, same flour and sugar. What is the difference?

Very likely it's all in the baking powder. Undoubtedly the woman with the knack uses Royal Baking Powder, and the unsuccessful woman uses an alum baking powder thinking it cheaper.

Yet the difference in the cost of a whole large cake is less than a cent.

It is economy to use

Rheumatism Muscle Colds

"It is easy to use and quick to respond. No work. Just apply. It penetrates without rubbing."

Read What Others Say:

"Have used your Liniment very successfully in a case of rheumatism, and always have a bottle on hand in case of a cold or sore throat. I wish to say I think it one of the best of household remedies. I would not have used it only it was recommended to me by a friend of mine who, I wish to say, is one of the best boosters for your Liniment I ever saw.—J. W. Fuller, Denver, Col.

"Just a line in praise of Sloan's Liniment. I have been ill nearly fourteen weeks with rheumatism, have been treated by doctors who did their best. I had not slept for the terrible pain for several nights, when my wife got me a small bottle of the Liniment and three applica- tions gave me relief so that I could sleep.—Joseph Tanky, 616 Con- vers Street, McKeesport, Pa.

THE RECRUITING CAMPAIGN

The province of New Brunswick has an opportunity to be represented by a regiment in the second Canadian contingent. It is true that Prince Edward Island recruits are to be incorporated with this body; but it is not anticipated that the number from that province will be large, and it is up to the young men of New Brunswick to fill up the ranks so that the province may be fittingly represented.

The campaign which was inaugurated at a meeting in the mayor's office yesterday has a larger purpose than that of arousing interest in recruiting for the present contingent. We are in for a long war. More contingents must go from Canada. It will be continually necessary to add more and more men to the ranks. It has been thrown at us as a reproach that of the first contingent which went little more than fifteen per cent were native born Canadians.

It is necessary, moreover, that our people should realize very clearly all that is involved in the war, in addition to the contribution of men. There is the Patriotic Fund, the Red Cross fund, the Belgian Fund, the care of the families of those who have gone to the front, and other important considerations which ought to be impressed very strongly upon the minds of the people from one end of the province to the other.

Let us have a similar campaign in New Brunswick, and surely we may hope that it will not be discouraged by any militia officers in Fredericton or any other portion of the province.

THE WAR NEWS

Off the coast of Chile yesterday a German squadron sank the British cruiser Monmouth, seriously damaged, if not destroyed, the cruiser Good Hope, on board of which was Rear Admiral Sir Christopher Cradock, and forced the latter to take refuge in harbor, where he will be interned until the end of the war. This is the news that came from Valparaiso last night. Five German vessels opposed the British, and they were armed with more powerful guns. The question naturally arises why it has occurred that with British, French and Japanese naval vessels on the lookout for them it should be possible for the German vessels to get together and thus easily relieve themselves of any further danger from three British craft.

The exploit of the German squadron in the Pacific waters much less safe for British commerce. The Emden and the Karlsruhe are not the only German vessels making trouble for their enemies.

There was also a German raid in the North Sea yesterday, which was carried close to the British coast, with the result that a British submarine and two mine drifters were sunk. On the whole, therefore, yesterday was a decidedly unfortunate one for the British navy. There was a rumor late last night that the German fleet was coming out from its base, and that a number of battleships and cruisers had put to sea from Kiel. Today's news will perhaps furnish fuller information.

Germany certainly needs all the success she can gain at sea, for she is getting decidedly the worst of it on land. The raid on Calais has failed, and the attempt to drive through the British lines farther south has not succeeded. The official reports show that the German army which attempted to drive back the Belgians has itself been driven back with heavy loss, leaving its dead and wounded on the field. At no point along the line in Belgium and France have the Germans been able to claim even a partial victory, while in the east the Russians claim to have driven the German armies back into East Prussia, and followed them over the German border into that region. They are also continuing the offensive in Poland and Galicia.

A demonstration hostile to the Germans in Persia, shows that Britain and Russia have nothing to fear from that quarter, while the spiritual head of the Mohammedans in India, East Africa and Central Asia has counselled his people that, Turkey having drawn her sword in an unholy cause, it is the duty of Moslems to remain loyal in their allegiance to their own rulers. The German effort, therefore, to induce the Moslems to engage in a holy war has not succeeded.

THE SWEET LITTLE MAN.

(Oliver Wendell Holmes.)

All brave boys under canvas are sleeping. All of them pressing to march with the van. Far from the home where their sweet-hearts are weeping. What are you waiting for, sweet little man?

You with the terrible warlike moustaches. Fit for a colonel or chief of a clan, You with the waist made for sword-belts and sashes. Where are your shoulder-straps, sweet little man?

Bring him the buttonless garment of woman! Pluck the white feathers from bonnet and fan. Make him a plume like a turkey-wing dusted. That is the crest for the sweet little man!

Oh, but the Apron-String Guards are the fellows! Drilling each day since our troubles began—'Handle your walking-sticks!' 'Shoulder umbrellas!' That is the style for the sweet little man!

Have we a nation to save? In the first place Saving ourselves in the sensible plan— Surely we are not in there's shooting's the worst place Where I can stand, says the sweet little man.

Such was the stuff of the Malakoff-takers. Such were the soldiers that scaled the Redan; Truculent housemaids and bloodthirsty Quakers. Brave not the wrath of the sweet little man!

Yield him the sidewalk, you nursery maidens! Now being mad, is that of the Barnardo Homes. The little quarterly published by the Barnardo Homes Association presents in its October issue some very interesting facts. There is a full report of the addresses given at a great meeting held on July 4 on the 66th anniversary of the founding of the Homes. The chairman was His Grace the Archbishop of Armagh, and he pointed out that during these forty-eight years 80,000 children had been shielded and sheltered and put into the world through this institution. Of these, 26,000 had come to Canada; and out of that number the failures were less than two per cent. Moreover, these children had sent back from Canada about \$65,000 to the Barnardo Homes.

Another speaker was Mr. G. Bogue Smart, chief inspector of immigrant children for Canada, who said that the progress of the Barnardo children in Canada had been most gratifying. Their deposits in the bank, of boys and girls under the age of twenty-one years, on the 1st of April last reached the aggregate of \$229,794. Mr. Smart declared that the Barnardo Homes are doing a great work for God, for the children and for the Empire. Sir George Reid, high commissioner for Australia, also spoke in the highest terms of commendation of the work of the Homes, and noted the fact that Australia had been a generous contributor to the funds.

There are now nearly 8,000 children maintained by the Homes, and necessarily the number will be increased as a result of the war. At the same time there has been some falling off in the receipts, and the honorary director, Mr. William Baker, makes an appeal to the public. Among other things he points out that large numbers of their staff have enlisted, while hundreds of their boys are serving in the Royal Navy. Others have enlisted in Kitchener's army. Their band in London has been doing excellent work in promoting recruiting, and their Boy Scouts are performing valuable service at the call of the authorities. There was, however, a deficit of £2,000 during the last year, and this must be faced as well as the increased demands upon the Homes caused by the war.

It may be hoped that in spite of the numerous other demands made upon a generous public the cry of the children will be heard, and the Barnardo Homes enabled to carry on their great work with increasing success.

The death of Mr. Charles Miller is a loss to the industrial and social life of the city. He was another of that group of American citizens, which numbered also the late Mr. E. L. Jewett, who had been identified for many years with the lumber industry of this city and province. Mr. Miller was widely known and universally esteemed.

Some Fredericton military men whose names are not given are reported to have said that there is no necessity for a campaign for recruits in that part of the province. At the same time one of the officers of the 71st regiment is credited with making a statement concerning the officers of the contingent which would tend to discourage recruiting. This is one way of helping the Germans.

PIMPLES APPEARED ON HIS FACE AND HANDS.

The primary cause of pimples arises from the blood not being in a good condition. When the blood becomes impure you will find that pimples will break out all over the body, but more particularly on the forehead, nose and chin, and although they are not a dangerous trouble, they make you appear unsightly both to your friends and yourself. What you need, when these pimples break out, is to get a real good blood purifying medicine such as Burdock Blood Bitters. One that will build up the purifying blood of all the impurities and poisons which cause the skin to break out in these eruptions.

Mr. F. A. McKenzie, Portage La Prairie, Man., writes: "Last summer I was all run down and unfit for work of any kind. All kinds of food seemed distasteful to me. Pimples appeared on my face and hands, and I seemed to grow worse every day. One day a friend advised me to try Burdock Blood Bitters. Halfheartedly I did so, and the results obtained were marvellous. I regained my health. FOUND A FRIEND IN DR. CHASE

His Medicines Proven Effective, and Always Kept at Hand in This Home. Mrs. Chas. Lovell, Agassiz, B. C., writes: "I feel it my duty to tell you what a great friend Dr. Chase's medicines have been to myself and family. I cannot praise his medicines too highly, and Dr. Chase's name is a household word in our home. Well, quite a number of years ago I sent you for a sample box of Dr. Chase's Ointment for protruding piles, and, having used the sample and found relief, I sent to a neighboring town for four boxes, and I am completely cured. "I have also used Dr. Chase's Kidney-Liver Pills for constipation, and, after using them, I was completely cured of this dreadful disease. I am the mother of ten children, of whom nine are living, and when seven of my children were all very bad with whooping cough, caught in the middle of a severe winter, I used Dr. Chase's Syrup of Linseed and Turpentine, and they were all cured before the winter was over, and now we are never without Dr. Chase's medicines in our home, and I recommend them to all."

Because we want to see the goods we are buying. Because we want to get what we buy when we pay for it. Because some part of every dollar we spend at home stays at home and helps work for the welfare of our home town. Because the home man we buy from stands back of the goods, thus always giving value received. Because the man we buy from pays his share of the taxes.

Because the man we buy from helps to support our poor—and needy, our schools, our churches, and our homes. Because when luck, misfortune or bereavement comes, the man we buy from is here with his kindly expressions of greeting, his words of cheer, and, if need be, his pocketbook. NOSE AND HEAD STOPPED UP FROM COLD OR CATARRH, OPEN AT ONCE

My Cleansing, Healing Balm Instantly Clears Nose, Head and Throat—Stops Nasty Catarrhal Discharges. Dull Headache Goes.

Try "Ely's Cream Balm." Get a small bottle anyway, just to try it—Apply a little in the nostrils and instantly your clogged nose and topped-up air passages of the head will open; you will breathe freely; dullness and headache disappear. By morning he catarrh, cold-in-head or catarrhal sore throat will be gone.

End such misery now! Get the small bottle of "Ely's Cream Balm" at any drug store. This sweet, fragrant balm dissolves by the heat of the nostrils; penetrates and heals the inflamed, swollen membrane which lines the nose, head and throat; clears the air passages; stops nasty discharges and a feeling of cleansing, soothing relief comes immediately.

Don't lay awake tonight struggling for breath, with head stuffed; nostrils closed, hawking and blowing. Catarrh or a cold, with its running nose, foul mucous dripping into the throat, and raw dryness is distressing but truly needless.

Put your faith—just once—in "Ely's Cream Balm" and your cold or catarrh will surely disappear.

"SWEET SIMPLICITY" IS FASHION'S KEYNOTE

From Paris and New York comes the edict that extravagance in dress must be curtailed until the war clouds lift, and simple dressing for formal occasions will be the fashion for the coming season.

A charming frock for a dinner, or an informal dance is illustrated here. It is made of white chiffon, with a band of white charmeuse at the bottom, and the underkirt is also of charmeuse.

HAVE YOU A NEEDLE ECONOMY HINTS FOR THE HOUSEWIFE

BY MARGARET J. BLAIR
(Lecturer on Home Economy, University of Minnesota.)
(Copyright, 1914, by Margaret J. Blair.)

It should be white and simple, and line the young girl's party dress.

Youth in itself is so charming, so winsome that it needs no gaudy colors, no "latest fashion" fads to adorn the girl.

The girl adorns the gown, the gown should not presume to adorn her.

So the gown she'll wear to high school parties or to the young people's dances should be simple. It should fall in folds as straight as the mode will permit, have short or elbow sleeves and either square or round neck.

The end of the neck should not suggest décolleté or "low neck," but it should leave the throat bare. A fussy overtrimmed party dress robs the young girl of her chief charm—that of youthful freshness.

The fact has been ignored the past two seasons, which have seen young girls decked out in multi-colored linery.

The absence of Paris patterns this season gives an excellent opportunity for a reaction against the unwhimsical styles that have prevailed, besides which the war in Europe will give American mothers a chance to exercise their own quieter taste in dress.

But for all its simplicity, the party frock should be carefully chosen, and as carefully made. Sheer muslin and lawn are prettiest for it. Persian lawn being particularly good because it launders so well. Swiss muslin and organdies are very pretty.

In shopping for sheer materials, beware of the knotted and uneven cotton threads that appear in the wool, or cross threads, if at all, when the cross threads are as fine and well twisted and even as the warp, the material will be finer and keep its lines unimpaired.

SCHOOL CHILDREN'S TEETH

(Ottawa Journal.)

A striking indictment of the indifference which many of us show in regard to care of the teeth of children is made by statistics resurrected by Aid. Fisher of the result of dental inspection in two public schools in April last. A majority of the children had defective teeth; many had unclean teeth. Good teeth are very important to good health. Also, they are very expensive to be without, if we may be permitted to phrase it in a somewhat Irish way. A very small expenditure in early life, accompanied by care later, will usually avert a large expenditure later accompanied by pain, trouble and inferior digestion.

Aid. Fisher has an estimate that \$1,500 would provide for a dental inspection of all the schools, public and separate, and proper attention for such children as may not have parents sufficiently well-to-do to look after the matter, Al-

so, there would be warnings to parents in cases where cleanliness was not being observed. The sum required is not large; money could hardly be better spent.

SUGARLESS RECIPES TAKE CRIMP OUT OF SUGAR FAMINE
(By Caroline Coe.)

Here are the rules for "sugarless preserves." Follow them carefully and you won't need to worry about the "sugar famine."

Bull the fruit in water without sugar. Scald the jars, put the fruit in while they are still piping hot.

Use fresh, firm fruit. Over-ripe fruit is likely to spoil.

Keep the jars airtight.

Add sugar when the preserves are served at the table.

STOMACH SOUR? STOP INDIGESTION, GAS, HEARTBURN—PAPE'S DIAEPSIN

Don't Suffer! Regulate Your Upset Stomach in Five Minutes

Do some foods you eat hit back—taste good, but work badly; ferment into stubborn lumps and cause a sick, sour gassy stomach? Now, Mr. and Mrs. Dyspeptic, put this down: Pape's Diaepsin digests everything, leaving nothing to sour and upset you. No difference how badly your stomach is disordered, you get happy relief in five minutes, but what pleases you most is that it strengthens and regulates your stomach

so you can eat your favorite foods without fear. Most remedies give you relief sometimes—they are slow, but not sure. Diaepsin is quick, positive and puts your stomach in a healthy condition so the misery won't come back.

You feel different as soon as Pape's Diaepsin comes in contact with the stomach—distress, flat, vanishes—your stomach gets sweet, no gases, no belching, no eructations of undigested food, your head clears and you feel fine.

Put an end to stomach trouble by getting a large fifty-cent case of Pape's Diaepsin from any drug store. You realize in five minutes how needless it is to suffer from indigestion, dyspepsia or any stomach disorder.

Hints for the Cook

Nut Bread.

Two cups graham flour, one and a half cups white flour, two cups of sweet milk, half cup brown sugar, half cup molasses, one teaspoonful salt, one large teaspoon of soda and one cup of walnut meats.

Apple Tapioca.

Five or six apples quartered, arrange in buttered pudding dish and over them put the following: Little grated nutmeg, half cup sugar, little juice of lemon unless apples have good flavor (some apples are lacking in this), pinch of salt, dot with bits of butter. Bake till soft. Three cups milk or water, quarter cup sugar, half level teaspoon salt, quarter cup instantanous tapioca. Mix all dry ingredients, then add liquid and cook five or ten minutes in a double boiler, stirring frequently. Flavor with little vanilla if desired. Pour over apples in baking dish and set in oven for few minutes. Serve cool with milk or cream.

"The next next door play that pianola incessantly. Still, they seem kind-hearted. They have offered to loan us any records we like."

"I should prefer to borrow some of those we don't like, and thus get them out of commission for a few days."

Mother—"What do you think you will make out of my daughter's talent?"

THE WIDOWS OF TIPPERARY

(Mail and Empire)

It may be a "long, long way to Tipperary," but it is also a "sad, sad day in Tipperary." That famous Irish town has 300 new widows—bereft wives of men in Irish regiments at the front. It is fortunate that most of us are spared experience of the grim agonies of the battlefield, that only in imagination can we depict the tragedies there. Were we handicapped by familiarity with bloodshed and carnage we should have only blunted and dulled sense of the pitiable sufferings of broken hearts far away from the front. The grim theories of war are not all on the battlefield. If Tipperary alone has 300 new widows and this is her "doom and her pride"—what of the scores of thousands, say, the millions, in the rest of Britain, in France, Belgium, Russia and Germany and Austria themselves? Upon what monsters, wrapped in the gilded trappings of state, do the responsibility and awful burden of this welter of blood and war fall? If we but stop to consider throwing aside all our inherited notions of the comparative value of rulers and laborers and peasants, that to each individual his life is all he has, what a cry against humanity is the bringing on of war for mere national aggrandizement, empire extension, or just for power! The Kaiser and those about him stepped in militarism, ever feel, facing their consciences alone at night, the force of Massinger's lines in one of his plays: "Some undone widow sits upon mine arm, And takes away the use of it; and my Garter, to my scabbard with wronged orphan's tears, Will not be drawn!"

Of all the countries engaged in the war the cruelty and heartlessness in the war has come most heavily to Germany above all "deadly thousand doors" open yawningly. There are dozens of Tipperaries between the Rhine and the Atlantic, "Mad Ambition's" hand," of which Burris speaks, is laid upon them with crushing force. The Nietzsche, Hobbes, and Schopenhauer and others of the league of nation-beggars have only the justifica-

URGES CANADIANS

TO ENLIST FOR WAR

Arthur Hawkes Says Dominion-wide Recruiting Campaign Should be Started

Ottawa, Nov. 4.—Arthur Hawkes, Toronto, at a public meeting here said that a propaganda should be started in Canada similar to that in England, to urge Canadians to enlist for the war. Cabinet ministers and leaders of the Opposition, he said, should go upon the same platform, leaving all party strife behind and impress upon the people the seriousness of the struggle and the fact that it was Canada's war just as much as England's. The majority of the men of the first contingent was not Canadian born, and in two Ontario battalions being raised for the second contingent out of 220 names examined only 33 were Canadian born.

Men Greatest Need Canada should not feel satisfied with having made gifts of flour and other supplies. The greatest need was for men. There would be one hundred, or perhaps two hundred thousand, required from Canada and an active propaganda should at once be begun. Mr. Hawkes thought that steps should be taken to ensure that the foreigners of many different races in this country should be made to feel that they belonged to Canada, and had a part in this war, as well as the Canadian born. They should not be allowed to feel that they stood apart. "The war should be a means of welding men into the Canadian nationality."

Waltham Watches

The boy who is proud of his watch is pretty apt to be "on time". Give your boy a Waltham Watch and notice the way he "lives up to it".

The immense strength of Waltham timepieces fits them especially for the strenuous use of young people. Walthams will go through a surprising amount of "hard service" and yet stick manfully to the truth. There are models particularly appropriate for boys and girls and your jeweler will be glad to show them to you.

There are Walthams for as low a price as will buy a good watch, and up to as high a price as any one should pay.

BOMBARDING TURKISH PORTS; GERMANS ABANDON ATTACK

London, Nov. 3.—11.40 p. m.—The secretary of the admiralty announces that a combined British and French squadron bombarded the Dardanelles forts at long range at daybreak this morning. The forts replied, but no ships were hit, only one shot falling alongside them.

The statement adds that the damage to the forts cannot be estimated, but that a great explosion, accompanied by dense volumes of black smoke, occurred at the Helles fort.

Dover, via London, Nov. 4.—12.35 a. m.—The report is being circulated that the German fleet has come out from its base. It is also reported from Dantzig that four battleships and four cruisers have put to sea from Kiel.

London, Nov. 3.—8.40 p. m.—A Constantinople despatch states that Serbia today severed diplomatic relations with Turkey, and the Serbian ambassador asked for his passports. "I says the Rome correspondent of the Exchange Telegraph Company.

London, Nov. 3, 10.45 p. m.—That the German army has abandoned its attempt to back its way along the Belgian coast to Calais is agreed by all the official reports tonight. A combination of inundated country, the remnant of the Belgian army under King Albert, and the activity of the British warships seemingly all contributed toward ending the costly struggle.

After nearly three weeks of desperate fighting, the brunt of the attack has now shifted to the Ypres region, where the English army of Field Marshal Sir John French, reinforced by Indians and Territorials, apparently must meet another onslaught. To the scene of this contemplated battle, according to reports, Emperor William has gone to give encouragement by his presence.

It may be assumed that Turkey can employ in the Black Sea the following ships: The two fast, powerful cruisers obtained from Germany, the battle cruiser Goeben and the small cruiser Breslau. Two dreadnoughts, the Beharudish, 23,000 tons, and the Birinji-Osman, 27,500 tons.

Six pre-dreadnoughts, ranging from 5,000 tons to 10,000 tons. Two cruisers, the Hamidieh and the Mevlidieh. Three torpedo gunboats. Ten effective destroyers. Ten torpedo boats.

Russia's fleet includes the following: Five pre-dreadnoughts, of which the most powerful are the Ivan Zlatoust, the Panteleimon and the Etetat, 12,480 tons; the Rotislav, the Tri Svyatitsya, 13,818 tons; the Georgi Polykonovskis and Eltop, 11,082 and 11,299 tons respectively.

Two large cruisers, the Admiral Lazarev and the Admiral Nachimov, 7,085 tons. Two cruisers, Pamjat Merkuria and Kozni, 6,675 tons. Sixteen old destroyers. Eight old torpedo boats. Four submarines.

A small gunboat, the Donets. Nine armed merchant ships. Three 25,000 ton dreadnoughts laid down in January and June, 1912 may be about ready for service.

"So we Parisians live on fowls and French roast is costly, even two francs (forty cents) for a pound of beefsteak, one franc-sixty-five (thirty-three cents) for a pound of mutton, and so on."

"We women have learned that nothing matters which can be had for money. We must live wisely for the sake of a happier tomorrow. Observe that no man is asked of saints seeking salvation."

"At last one may see the real Paris. The Apaches are gone, the military government has ended the sale of absinthe, there are no gendarmes any more, no correctional police courts. And the court martials in the Palais de Justice are empty."

"Also the change has spread to our homes. Men in the army, less money, fewer servants. We Frenchwomen can't live without decorum. Having no assistance we begin to do things for ourselves. My ladies were forgetting how to sew. Today they make their children's clothes. I see them exchanging little paper patterns."

"By eight o'clock Paris is in darkness, one street lamp in three is lighted; cafes are closed, no more open, the newspapers mere handbills. With one's heart on the firing line there remains no desire for folly. Therefore one sits at home and reads serious books. Therefore one has something real to think about—to talk about."

"Helas! that is the worst of the war, our Paris is now a childless city. General Michel, who was military governor when war broke out, ordered them away to safety. Thousands and thousands of little ones went in those first mad days to grandparents, or friends, or schools far to the south in Bordeaux or Marseilles. We called them 'Au revoir' gayly; some even said to their neighbors, 'At last we will have peace in the Helles!'"

"But when we heard no laughing any more, had no mischief makers playing underfoot, ah, then we knew. Our Helles have become a dreary place without the children."

BATTLEFIELD TROPHIES REACH LONDON! GERMAN HELMETS WAR RELICS FOR BRITONS

TURKEY HAS AN ADVANTAGE IN NUMBERS IN BLACK SEA

In Case of Battle Russia Would be Outnumbered by the Enemy, According to Estimate of Black Sea Fleet

It may be assumed that Turkey can employ in the Black Sea the following ships: The two fast, powerful cruisers obtained from Germany, the battle cruiser Goeben and the small cruiser Breslau.

Six pre-dreadnoughts, ranging from 5,000 tons to 10,000 tons. Two cruisers, the Hamidieh and the Mevlidieh. Three torpedo gunboats. Ten effective destroyers.

Russia's fleet includes the following: Five pre-dreadnoughts, of which the most powerful are the Ivan Zlatoust, the Panteleimon and the Etetat, 12,480 tons; the Rotislav, the Tri Svyatitsya, 13,818 tons; the Georgi Polykonovskis and Eltop, 11,082 and 11,299 tons respectively.

Two large cruisers, the Admiral Lazarev and the Admiral Nachimov, 7,085 tons. Two cruisers, Pamjat Merkuria and Kozni, 6,675 tons. Sixteen old destroyers. Eight old torpedo boats. Four submarines.

A small gunboat, the Donets. Nine armed merchant ships. Three 25,000 ton dreadnoughts laid down in January and June, 1912 may be about ready for service.

IN GREAT DISTRESS FROM ECZEMA

Suffered Over Two Years. Grew Thin and Lost Appetite. Itching, Burning, Sore Eruption. Cuticura Soap and Ointment Completely Healed.

233 George St., Sarnia, Ont.—"I suffered for over two years with eczema which first appeared in small pimples and broke into red, inflamed eruptions. It was very itching and when my clothing rubbed against them it was in great distress. I lost my rest at night and was much distressed by the eruption. The eczema was so bad that I grew thin and lost my appetite. My hands, arms, face and various parts of my body were covered with an itching, burning eruption of sores and though I took many common and much recommended remedies they failed to do any good."

"I used Cuticura Soap and Ointment and after about three weeks I was completely healed. I take pleasure in recommending them to any other needy sufferers from eczema or other eruptions of the skin. (Signed) Miss Bertha Allan, May 23, 1914."

Samples Free by Mail A manufacturer of mothers has found no soap so well suited for cleansing and purifying the skin and hair of infants and children as Cuticura Soap. Its absolute purity and refreshing fragrances alone are enough to recommend it above ordinary skin soaps, but there are added to these qualities delicate yet effective emollient properties, derived from Cuticura Ointment, which render it most valuable in overcoming a tendency to distressing eruptions and promoting skin and hair health. Cuticura Soap and Ointment sold by druggists and dealers throughout the world. Liberal sample of each mailed free, with 32-p. book. Address Postcard "Cuticura, Dept. D, Boston, U. S. A."

EFFECTIVE CHARITY IS RELIEF PLUS SERVICE

Rufus Smith Addresses Social Workers on Methods of Giving Relief

(Montreal Mail) "Effective charity work must give relief plus service; the service must be that which discovers the cause of the needs of the poor and their possibilities. The relief must be adequate, generous, prompt, and kind. Why should relief be given on March 28 and withheld on March 27, especially if a man has typhoid? Winter does not create poverty; it increases its distress, but relief knows no seasons. In the best work there must be the spirit of friendliness, of co-operation and understanding."

This was part of the summing up which Rufus Smith gave to his talk on "Methods of Relief Giving—A Comparison," yesterday afternoon in the Social Service Course.

What American Cities Are Doing. The first part of the lecture was taken up with a comparison of four American cities which were not in any way selected for comparison with Canadian cities. They were taken because each has worked out a scheme of organized charity that is effective to an unusual degree and is the direct outgrowth of each particular city's personality.

Buffalo was taken first as in many respects the finest example of charitable work. Before 1876 Buffalo, with a population of 140,000 people, spent \$112,000 in charity, which was ten per cent of its population. By 1881-82 the number had decreased to three per cent, and in 1911, including city, church and private, had decreased to one and a half per cent of the population. Keeping up the proportion of 1876 the city would have spent \$488,000 in charity in 1911.

The aid given was so generous that an increase of ten per cent was added in order to meet the increased cost of living. The city treats indigent poverty; its workers have a knowledge of the fundamental needs of the poor; social problems are controlled and it has one of the lowest death rates on the continent. No widow has to send her children to an institution because of charity alone.

Creed Not Considered. There is practically one organization, the city and charity board working together. Buffalo stands for the development of church co-operation. The city is divided into districts, and churches are asked to look after certain districts, and the 1200 teachers assembled hope to have something substantial for the purpose before the close of the week.

Chicago Commercial. If ever Santa Claus was caught at work in Bangor, it was on Monday morning, when a Commercial reporter from Brooklyn in a United States collier on Nov. 10. If the shipments from all over the country are too large to be contained in one collier, enough will be supplied by the United States government to carry all the gifts contributed by the children of America.

Christmas Cheer to THE BELGIAN KIDDIES (Toronto World) One of the most appropriate things done at the meeting of the Teachers' Institute yesterday in Convocation Hall was the decision that a Christmas ship should carry good cheer to the Belgian children for Christmas. The co-operation of the board of education is secured, and the 1200 teachers assembled hope to have something substantial for the purpose before the close of the week.

Could Hardly Do Her Housework. If a pain attacks you in the back "stop and think" what it is and what causes it. If the kidneys are at fault—and in a large majority of cases of pain in the back they are—doctor them at once, and do not persistently, as it is impossible to have a well strong back unless the kidneys perform their functions properly.

Doan's Kidney Pills cure all forms of kidney trouble, and cure them to stay cured. Mrs. H. F. Jacob, Lavanat Station, Ont., writes: "I took pleasure in telling you how much good your medicine has done me. I had suffered from intense pains in my back, and was so bad I could hardly do my housework. My kidneys were also bothering me a great deal. I tried several kinds of patent medicines, and was almost discouraged, and was looking for some other kind of medicine to try when I noticed your advertisement of Doan's Kidney Pills, so I thought it could not hurt to try them. I noticed a great difference when I had used one box, and to my great relief when I had used three boxes I was entirely cured, and I have not been bothered since. I will not hesitate to recommend them to all I know."

Doan's Kidney Pills are 60c a box, or 3 boxes for \$1.25, at all dealers or mailed direct on receipt of price by The T. Millburn Co., Limited, Toronto, Ont. When ordering direct specify "Doan's."

TEACH 'EM TO SHOOT IS THE SLOGAN NOW Uncle Sam Will Supply the Guns and Ammunition for Citizens' Rifle Clubs

The war in Europe has stimulated interest in private rifle clubs under the provisions of the recently enacted law authorizing the secretary of war to issue rifles and ammunition to citizens who agree to engage in practice shooting. The secretary has delegated the work of promoting the organization of citizens' clubs to the National Rifle Association of America.

The law has been in operation four months, and within that period 40 rifle clubs have organized and affiliated with the National Rifle Association, which has adopted the laconic order of Lord Kitchener, "Teach 'em to shoot."

Under the law the secretary will issue the rifles with which the regular army was formerly equipped, popularly known as the "Krag." It is said to be the equal of any of the rifles now being used in the present war. With each rifle will go 120 rounds of ammunition, a like amount to be issued annually to every club member who will guarantee to use it in practice shooting as prescribed by the war department.

The government owns only one large range, near Sparta, Wis., which at present is out of commission. There are small ranges at or near most of the army posts, but they are used only at stated times each year for the practice of the local garrison. Practically all of the states have ranges for the National Guard, but owing to restriction on lack of funds, they are in use only during the period when the National Guard organizations are practicing. It is believed that a rifle club movement would flourish if ample ranges were provided.

The New First Sea Lord Much of Britain's Readiness for Action Due to Lord Fisher's Preparations

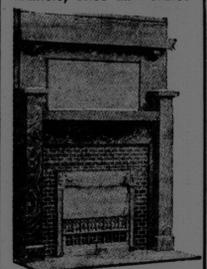

(From the N. Y. Evening Post.) It is safe to assert that the recall of at stanch old sea-dog, Lord Fisher, on his retirement, to take the place of Lord Battenberg, as First Sea Lord of the Admiralty, will cause an instantaneous sigh of relief to rise from the decks of the British fleets, North Channel, Mediterranean, Special Force, wherever they may be. For the sea and men of the Royal Navy who roundly detest Admiral Lord Fisher as a hard-handed, harder-tongued disciplinarian, have every confidence in his professional skill and far-sighted strategy. They know, far better than the politicians can hope to know, that it is him that England owes the remarkable readiness for action which the navy displayed when the big war, which men had been expecting for more than a generation, burst in the midst of a peaceful summer. Nor will he come to the Admiralty as a man who faces a new job without, no matter how efficient he might be, Lord Fisher—in the navy he is known simply as "Jackie," with a tinge of hatred or admiration expressed in the piece of the First Sea Lord's name; in fact, for seven tempestuous, work-fraught years, from 1904 to '11, and before that he was Second Sea Lord for two years, and before that he served at the Admiralty as Director of Naval Ordnance, 1896-91; and Controller of the Navy and Lord of Admiralty from 1892-97. He has been one of the principal naval advisers of the last three sovereigns in England, and to him is very largely due the credit for the re-education of the "old régime"—as it was called—which was spring the heart out of Britain's sea-service in the latter part of the nineteenth century. Indeed one of his most conspicuous successes in reorganization of the navy was in stopping the issue of

ST. JOHN BOYS FAIL TO GET LETTERS SENT FROM HOME—WHY?

Why are not St. John soldiers at Salisbury Plain, England, receiving mail sent to them from here? That was a question which the Times was asked today instance, at least, it is known that sev-

to place before the authorities. In one letter—three in one week—have failed to reach one of the soldiers boys though it is declared they were directed as advised. Letters from the young men ask for word from home and declare that not a line has been received since before they left Valcartier. Naturally they want to hear from their families. The letters are sent but, apparently, do not reach their destination. It should be looked into.

English Biscuits

This is the first shipment of English Biscuits, which we have received since the war started. They are costing us more to land, including extra custom duty, freight and war insurance. However, this extra cost we are going to lose, and have decided to sell them at the same old price as before.

The Man In The Street

"Ambitious colored man," advertises for a position as elevator attendant. He wants to rise, as it were.

The apple is beginning to regain the prestige it held when Adam was on earth.

Some one has suggested that in view of the enemy's hostilities doctors should be well armed. Ah, probably to take the germ out of German.

While speaking in similar vein why not a corps of dentists in order to kill the Germans' nerve?

If the men now fighting in Europe were engaged in Canada instead they might have an easier time of it, for it is hardly likely that the Lord's Day Alliance would let them scrap on Sunday.

For the benefit of beginners we might say that a German reverse is slightly different from a waltz step.

Well, there's one satisfaction for the soldier fighting in France. He doesn't have to make the excuse that he thought the moving object was a deer.

So far the patriots who have objected to the German suffix, have apparently overlooked Iceberg.

World's Champion Polo tournament is billed for the Panama Exposition, but at the rate they've been shipping remnants from St. John to Europe, there'll be no polo ponies left by 1915.

Do your Xmas shopping early.

Letters from our boys in Salisbury Plain might be used for recruiting purposes some of them sound as though they were on a big excursion, rather than a war expedition.

Famous Last Lines
"Allowed to go on suspended sentence."

No doubt the British navy will retaliate for the Chile defeat of yesterday by a warm reception the next time they fall in with the German boats.

Frederick Gleener says it's a long time since St. John won even an interscholastic championship. It is not many years since the silverware reposed in the S. J. H. library.

Magistrate Ritchie is a thorough believer in the "St. John" campaign in all articles except one—and that is the stuff they make here and call it whisky.

Perhaps the reason Turkey mixed up in the war was on account of the publicity the other nations were getting while she was practically forgotten.

"Don't worry," says Tommy Atkins. "Stick around and you'll get all the publicity you want."

Despite the Kaiser's trust in his alliance with Providence he seems to put more faith in a bomb proof shelter when the bullets are flying.

CHAS. MILLER DEAD

St. John Loses Another Worthy Citizen

ILL. ONLY FEW HOURS

Stroke of Paralysis Came Yesterday—A Man Prominent in Business Life and Esteemed by All

Citizens were shocked this morning to learn of the suddenness with which the call of death had come to Charles Miller, who passed away early today at his home, 87 Douglas avenue, following a stroke of paralysis which he sustained only yesterday. Up to yesterday he had enjoyed his usual good health. All medical aid possible was given, but the stroke had left him beyond recovery, and death removed him from his sorrowing family this morning.

Mr. Miller was a most esteemed resident of St. John, where he had lived since being brought here by his parents, Mrs. and the late Henry U. Miller, from Hollis, Me., where he was born. They there he grew up, retaining the popularity gained in his youth, and regarded as a citizen of shrewd business ability, business in Bernersay, and Frank in Canada and local affairs, and pursued his business activities in St. John, where he gave employment to a large number of men.

His father was well known here as a lumber operator, and under his skillful guidance he received his early business education in the firm of Miller & Woodman in which his father was partner. He and his brother, the late James Miller, conducted a line and cement business for a time, and then he founded a saw business himself, later establishing a saw and shingle mill in Pokok. He had successfully operated this plant for about twenty-five years, besides being active in the lime business. By his employees he was held in the highest esteem, for he was always approachable and of a genial disposition.

Mr. Miller was 55 years old. He is survived by his wife, who was formerly Miss Helen, daughter of the late Archie bald Tapley of this city, and by three sons—Jaher, who has of late been managing the lumber plant here; George, in business in Bernersay, and Frank in the office of the St. John Iron Works. His mother, Mrs. H. U. Miller, also survives, with his brother, Harry, also engaged in the lumber business here. The funeral will be held on Friday afternoon with services at his late residence at two o'clock. The sympathy of a host of friends will be extended to the family in their bereavement.

EVANS-DWYER

A very pretty wedding was solemnized this morning in St. Peter's church, at 5 o'clock, when Richard Henry Evans and Miss Mary Dwyer were united in marriage. The ceremony was performed by Rev. E. Walsh, C.S.S.R., with nuptial mass. The bride wore a cream serge suit with hat to match, with white silk feathers. Miss Margaret Christie acted as bridesmaid. She wore a navy blue suit with hat to match. The bride was given away by John Dwyer, her brother, who acted as best man. The groom's present to the bride was a check, to the bridesmaid a gold bracelet, to the groomsmen gold cuff links. Mr. and Mrs. Evans drove to the home of the bride's parents, where a dainty breakfast was served, and then left for Moncton to stay for a few days, enroute to upper provinces. They will reside in St. John. The bride's travelling suit was of blue with hat to match. They received useful presents, including cut glass and silverware.

SYRIANS IN ST. JOHN ARE AGAINST THE TURKS

According to representatives of the Syrian race in St. John, viz.: Raymond Tobias and Louis Corey, who represent the Syrian Protective Association, it is not correct to classify them among the alien enemies of Great Britain. There are between 400 and 500 Syrians in this city, and there is not one Mohammedan among them. They are all Christian Syrians hailing from the district of Mount Lebanon, and are under the joint protection of the British, French and Russian powers since 1861. They are not liable to military service, although nominally part of the Ottoman empire, and so far as likely to aid the Turks, nothing would please them better than to fight against them.

Messrs. Corey and Tobias advised that they had information from Mt. Lebanon that at the time the war started a great many Syrians from there joined the French army. One of the representatives, Mr. Tobias, is a representative of the Patriotic Fund Committee, and has collected money for this in this city. The Syrian Protective Association has contributed to this fund and will be glad to do so again. Nothing would give greater pleasure to the Syrian Christians than the destruction of Turkish power.

BUYING OPPORTUNITIES

Readjustments in the various merchandise markets have brought many opportunities.

While in some instances prices have risen, in others there have been great cutting of quotations due to the fact that the holders of goods desire to liquidate.

This liquidation is not unhealthy.

It merely means that commerce is readjusting itself to new conditions.

But the fact that such price fluctuations exist make it more than usually important that people post themselves before buying, in other words—

It will pay your pocketbook to study the advertising in The Telegraph and Times.
