BRITAIN PROSPEROUS

The enormous increase in the trade of the United Kingdom is the best answer to the arguments of the leaders of the Unionist party. The country is highly prosperous. There is no need for a change of policy. The manufacturing industries of the kingdom are rushed with orders and the overseas trade is steadily expanding.

A DARING WARRIOR

Colonel the Hon. Sam Hughes is a brave man. There will be no more question of this statement. Colonel Sam has sent out an invitation to members of the W. O. T. U. and the Daughters of the Empire to attend a general militia conference in Ottawa next month.

CHINESE RAID IN MONTREAL: GAMBLING AND OPIUM SMOKING

Montreal, Jan. 8.—Twenty-five Chinamen arrested in a sensational raid on a fan-tan and opium resort by Inspector O'Keefe of the morality squad, have been liberated on a cash bail of \$25 each, while the three alleged owners put up \$200 each to regain their freedom.

Psoriasis All Over Body

Doctors Said Incurable, But Now There is No Sign of Disease, Thanks to Dr. Chase's Ointment. Psoriasis is one of the most dreaded of itching skin diseases. It is a sort of chronic eczema. The itching it causes is almost beyond human endurance, and doctors are accustomed to give it up as incurable.

DISTINCTLY SUSPICIOUS

It was while on manoeuvres, and a soldier was being tried for the shooting of a chicken on prohibited ground. "Look here, my man," said the commanding officer to the farmer who brought the accusation, "are you quite certain this is the man who shot your bird? Will you swear to him?"

LIVINGSTONE MEMENTO WILL BE EXHIBITED

Inkless Letter by Noted Explorer in African Wilds

USED JUICE OF PLANTS

Centenary Celebration—Why There Were no Christmas Morning Newspapers in London—The Proposed Washington Monument in Westminster Abbey

(Times' Special Correspondence) London, Dec. 26—One day in the spring of 1870, when he was wandering in the African jungle, Dr. David Livingstone, the famous explorer, sat down and wrote a letter to a friend in England. Having ink, nor yet a pencil, he made a colored liquid from the juice of plants and used that as a writing fluid and made a message of no paper except an old copy of a London daily journal, he wrote his letter thereupon. The friend to whom the letter was addressed was the late John Murray, whose father was Byron's publisher, and whose son and namesake keeps up the traditions of the famous house of which he is now the head. The latter now prizes Livingstone's "inkless letter" as one of the chief items of a collection of mementoes of the explorer, which he has formed, but he is going to allow it to be exhibited in connection with the coming celebration of the great missionary's centenary.

The fragment of newspaper on which Livingstone's letter was written is from the London "Standard" of November 24, 1869, and oddly enough the subject matter of this is an account of Livingstone's work in Africa, which begins as follows: "Away from friends, away from family, he keeps along his course, untired and undismayed. For, tramping perpetually, bivouacking anywhere, he knows that his home is among the hills with good wishes; that his comrades in science are listening, as it were, for his every footfall on those remote and solitary sands, and that, physically speaking, the light of the world is watching as he carries forward the torch."

Over these printed words, Livingstone traced his letter in lonely jungle after having read the appreciation of his great work from the heart of civilization. The letter is written in a bold hand, and is descriptive of the wild savage part of the country in which Livingstone was traveling alone, but contented at that time. "The valleys into which the water is led," he says in the opening sentence, "are covered with a thick sward of wily, damp-loving grass and other aquatic plants up to the verge of the forest." Unfortunately the first sentence is practically the only one on either side of the fragment which can be read with little difficulty, and much is impossible to read with the naked eye. Why There Were No Xmas Papers There is rather an interesting bit of secret history behind the "unanimous" action of the London newspapers in refraining from publication on Christmas Day. This is a thing which the proprietors of the majority of the journals of the metropolis have been trying to bring about for several years, but previously two important newspapers, namely the "Times" and the "Daily Telegraph" refused to agree.

ONLY ONE WAY TO STOMACH HEALTH

Eat Three Meals a Day and Let Stuart's Dyspepsia Tablets Digest Them. The Stomach Soon Recovers After This Brief Rest

The very worst thing you can do is to starve yourself to overcome stomach misery. Make your meals just as comprehensive as possible. Use Stuart's Dyspepsia Tablets freely for awhile and all trace of the stomach trouble will be gone. Dieting is a fallacy. The misadventures and gardening of the present day forces such quick results that our dietary is lacking in the quantity of flesh-forming elements of former days. Thus we get a surplus of

You Can Make Every Meal Feel Snug starch; meats are often depleted of much of their nutritive quality; the soil is depleted of the amount of vegetable salts it ought to have. We do not obtain the natural ripened fruits and vegetables hence the stomach requires assistance to digest an overabundance of fibrous material and take care of fruit acids that Nature had no chance to convert into grape sugar. So we need more pepsin than the system can supply, more disease, more of the natural tonic and preservative properties which ripened vegetation should give us. This deficiency is made up in Stuart's Dyspepsia Tablets and is the only way to have stomach-health under modern conditions. Try just one box and you will never want to be without this wonderful remedy for stomach trouble. Stuart's Dyspepsia Tablets contain an ingredient, one grain of which will digest 2,000 grains of food. They are so entirely harmless because they are so entirely food. They are system one way or another except to do just the one thing—digest food. Every drug store sells and recommends Stuart's Dyspepsia Tablets. The price is 50 cents per box.

FEARED FOR BRITISH CRUISER IN NINETY MILE GALE ON WAY TO STATES WITH AMBASSADOR'S BODY

REMOVING REID'S BODY FROM THE NATAL

This year, it was decided by all the other newspapers to refrain from publication and let the "Times" and "Telegraph" do as they saw fit, when the selectest journals suddenly received an ultimatum from the newspapers of the metropolis that they could publish on Xmas day, or not as they pleased, but that if they did publish they could sell all papers themselves. This brought the "Times" and "Telegraph" into line, and so yesterday for the first time within living memory, London found itself newspaperless on Christmas morning. An acquaintance in the newspaper business in London tells me that this is nearly the thin end of the wedge—the probable next move being to cease publication on Good Friday and later, "Bank Holiday," when the sales of newspapers in the metropolis do not cover the cost of printing them.

HE HAS CAPTAIN'S PAPERS AT 25, WANTS SHORE BERTH

The Story of a Ship's Officer in Merchant Service—Why he is Tired of It

The following communication has been addressed by a ship's officer to the secretary of the Imperial Merchant Service Guild:— "I was greatly interested in the article you sent to the press concerning the sea as a profession, and the apprentices serving in the firm of W. Ronman & Company. I would like to say a few words about this matter myself. Eight years ago I was appointed to a northeast coast steamship company and for four years I had to save for forty sovereigns, doing exactly the same work as a sailor and getting the same foot-over-time paid. Last November we arrived in Liverpool, and the system of leave came into operation, i. e., the second and third officers take twenty-four hours alternatively. I found myself a stranger in Liverpool in charge of a ship with no food provided, all heating apparatus was off, and unable to sleep owing to the rattling of steam winches and 100 men of so tramping and shouting throughout the whole of the night. "The next day was my day off, but where could I go. I could only tramp the streets, but I was glad to get away from the ship for a few hours. On Saturday night I laid in a supply of provisions intending to cook them myself on the Sunday. When Sunday morning arrived, greatly to my surprise the ship was taking in bunker coal. The galley funnel was unshipped and the fire out, and throughout

New York, Jan. 8.—The British cruiser Natal, which brought home the body of Ambassador Whitaker Reid, will remain in port two weeks to repair the damage she suffered on the passage from Portsmouth. The crew is passing the ship's hull, repairing top masts, and gear, and cleaning up the ship generally, while the armorers are bending two plates on the starboard bow that were smashed in by the furious seas. According to stories told by the officers and men, the cruiser almost went to Davy Jones' locker on the night of Monday, December 23, when she was two days from the Irish coast. A northwest gale blew ninety miles an hour and the sea rose over the foretop, crashing down on the decks and giving the ship a list of forty degrees to port, which jammed the men

on the watch below, who were sleeping in their hammocks, against the deck above them to their alarm. The sudden lurch to port was caused by two guns breaking loose. Two searchlights were smashed, a cutter was blown from the davits away into the sea to leeward, the fore and main topmasts were broken off, and the wireless apparatus carried away. "So I have decided if I can get an opportunity to find a position on shore, I will willingly serve as a clerk, take charge of a river launch, or any other suitable situation, so long as I can make from 35c. to 42 a week. I am twenty-five years of age, hold a master's certificate, a total abstinence, and have a clean record, and would be very glad if you could assist me to obtain employment on shore."

San Francisco, Cal., like some other cities, is showing a determination to abstain from bill-board advertising. The good Sabbath day the vessel was wrapped in a cloud of coal dust. I went without food all that day, but the day following I did justice to breakfast, dinner and tea on shore, but found that it exhausted my whole day's pay. "So I have decided if I can get an opportunity to find a position on shore, I will willingly serve as a clerk, take charge of a river launch, or any other suitable situation, so long as I can make from 35c. to 42 a week. I am twenty-five years of age, hold a master's certificate, a total abstinence, and have a clean record, and would be very glad if you could assist me to obtain employment on shore."

GRAT AMOUNT OF AMMUNITION TO MEXICO FROM UNITED STATES

New Orleans, La., Jan. 8.—Approximately 5,000,000 rounds of ammunition have been shipped from New Orleans to Mexico since the neutrality proclamation was issued by President Taft last spring, according to testimony given here before Senator Smith, chairman of the committee investigating the Mexican situation. Senator Smith questioned the witnesses to ascertain if capitalists money for the supplies was furnished by Americans.

"KID" CARTER ARRAIGNED

Charge is Murder of Waiter in a Boston Saloon

Boston, Jan. 8.—Charles William Carter, known as "Young Kid Carter," and known in various parts of the country under several other names, including that of Patrick McKenna, was arraigned at the municipal court.

After a preliminary hearing, Judge Creed continued the case until January 13. Bail was refused the prisoner, who was taken back to the Tombs, where he will remain until his case comes up again.

Jennings' mother and sister paid a visit to the prisoner in his cell in the Tombs, spending considerable time with the accused.

The family of Jennings has engaged counsel Melvin B. Breath of Chelsea.

INTERCOLONIAL RAILWAY CALENDAR FOR YEAR 1913

Bringing visions of comfortable and luxurious travel through a territory untraveled for scenic beauty, the Intercolonial Railway is just received with the compliments of the traffic department. The calendar is, as usual, very handsome, and is printed in exquisite taste. On a hand tinted background of maple leaves is an oval center piece printed in quadra color showing the Ocean Limited speeding through a scene where ocean and land with a setting of fleecy clouds combine to form a very beautiful picture. Over this is the emblematic monochrome of the Intercolonial Railway, with the words "The Fast Line—The People's Railway," in pale yellow.

Set in the four corners are the reproductions of the four I. C. R. booklets describing Quebec and the Maritime Provinces. The lettering is done in white with gold outline, while the tab is of chocolate brown with white figures showing prominently the stately holidays being marked by squares of shaded white and gold. On each side of the tab is white lettering on a tablet of gold, some cheerful facts concerning the splendid through trains, The Ocean Limited and the Maritime Express. The design of the calendar is greatly enhanced by a surprising of gold on a background of maple leaves. As a reminder of the Intercolonial and its fine train service it is excellent. As something both ornamental and useful for office use it is much to be desired.

LEG FRACTURED.

While loading coal on the steamer Pompanon off Long wharf yesterday afternoon, William Cummings, age 44, received injuries which resulted in a fracture of the leg. He was employed by the Dominion Coal Company. A coal shoveler which was being hoisted to the deck slipped, striking his leg. He was taken to the hospital.

KINDNESS BRINGS \$8,000

Harrisburg, Penn., Jan. 8.—Margaretta Jane Brown's kindness four years ago in helping an old pedler onto a trolley car, here has won her a reward of \$8,000.

The young woman, who recently became Mrs. Ray Mason Knasel received in her mail this week a check for this amount and a note addressed: "To the little girl who helped me on a trolley car four years ago." She had almost forgotten the incident. The reward was from Valentine R. VanCortlandt and was mailed from California.

"The man I marry must have common sense," said the happy one.

"He won't," the other answered bitterly.

STORY OF A GARDEN

He Picked up \$3,000 and Received \$1 Reward—Commissary Worried by Heading in of Worthless Trifles—The Soldier's Trick

(Times Special Correspondence)

Paris, Dec. 29.—According to an old French law the finder of any object is bound under considerable penalties to take it at once to the nearest police commissary, and if within a year and a day it is not claimed, it becomes his own property. It is quite astonishing how faithfully this law is observed here, and especially by chauffeurs, cadavres, and the poorer classes, who, if the police are to be believed, bring back twenty found articles to every one deposited by the well-to-do. The objects most frequently reported to the commissary are articles of value, but the soldier's trick is not very easy to dispose of a valuable ring, bracelet, or other precious trifle, and the soldier's trick is to bring in a large sum of money, and the soldier's trick is to bring in a large sum of money, and the soldier's trick is to bring in a large sum of money.

THE WINNER WILL RECEIVE A FIRST-CLASS TICKET GOOD FOR THE FOLLOWING ROUND TRIP:

St. John to Montreal (by rail); Toronto (by rail and steamer through the Thousand Islands); Niagara Falls (choice of steamer or rail); Buffalo, Rochester and Albany (by rail); New York (choice of day or night sail down the famous Hudson River); Boston (by Fall River Line); St. John (via Eastern Steamship Co. RECORD OF PROGRESS IN TAX REFORM

At a recent conference on taxation in Toronto, H. B. Cowan, editor of "Farm and Dairy," Peterborough, gave an address on the necessity of exempting farm improvements and showing how this would tend to counteract the depopulation of the rural districts, and that this would have a direct effect towards lowering the cost of living.

Stewart Logan, of the Globe, gave an exhaustive resume of taxation in England, showing how there, as well as all over the world the trend of thought was in the direction of relieving improvements of taxation.

J. W. Brough explained the working of the tax system of Alberta, and showed how practically all the tax on land values is now being raised on land values.

A. B. Farmer, Secretary of the Tax Reform League of Eastern Canada, explained to the committee. "All farm buildings and farm implements are completely exempt from taxation in Saskatchewan and the system in vogue there has much to commend it to Ontario," he said, in 1910 the western provinces had adopted the optional provision of the act. By 1912 fifteen more villages had gone over to the land tax villages. Practically all the cities and one town had adopted the system or were progressing in that direction, by reducing the taxation on improvements gradually. He read a letter from Chas. A. Brothers, of Moose Jaw, declaring that the land taxation was most satisfactory to the farmers, and that while the townspeople were not wholly satisfied, they would not replace it by any system by which taxes would be levied on anything but the land.

Alan C. Thompson showed the essential differences between land values and improvement values. One was the result of the growth of the community, while the other was the result of individual effort. He also showed how in Manitoba the farmers had had their improvements exempt for many years, and though the law did not apply to the towns, yet Winnipeg having been given a special charter, had recently reduced the taxation of improvements by over one-third.

In British Columbia it was compulsory to exempt improvements 50 per cent of the value, and all municipalities had power to still further reduce their taxation, or abolish it entirely.

The system there had been so successful that Vancouver, Victoria, and most of the larger towns now levy no tax on improvements.

H. H. Robinson, M.P. for Vancouver, who had stopped off on his way to Ottawa, was heard next.

Mr. Robinson, who is of all kinds in Vancouver are entirely exempt from taxation," he said, "but I might say that this is a purely municipal measure, not a provincial law."

"We started by exempting them, first 25 per cent, then 50 per cent, then 75 per cent, and three years ago wiped out the assessment altogether."

"We believe this has been a good method," he said, "and I have heard no objection to it, so far as the residential sections are concerned. There has been some criticism with regard to the downtown sections on the ground that as they require more fire and police protection, they should pay more."

"We feel that the change has been a success, and that it has encouraged building."

Mr. Stevens said that the change in the method had not been accompanied by any change in the tax rate. In the past five years the land had almost doubled in value. He admitted that in a smaller municipality not expanding as the western places do, the system might not work out so well.

Mr. Rowell—"What is the attitude of the owners of unimproved land toward this system?"

Mr. Stevens—"They accept it generally without murmuring, although a few individual owners of 'inside' property—that you might call property carrying the highest fire risk rates—have objected from time to time. But there is no organized opposition, and I think I am safe in saying that the large majority of such owners are quite satisfied."

THE BAPTIST MINISTERS

(Maritime Baptist)

Rev. F. N. Atkinson, Apple River, N. S., spent the holidays at Newcasale.

To Rev. W. R. Robinson, Ludlow street church, was presented a gold headed umbrella by the N. B. C. S. of the church.

Rev. H. G. Mellick, Lavenham, N. B., is recovering rapidly.

Rev. H. B. Boyer, Fairville, N. B., was kind remembered by his people at Christmas. They presented him an address and a purse of gold.

Rev. W. C. Keirstead, C. N. B., preached in the First Church, Moncton on the last Sunday in December.

Dr. Severly has resigned from the pastorate of the College street church Toronto. His health has not been good lately and he will rest from pastoral work for a time.

Rev. W. P. Parker was honored by a farewell "at home" by the Ottawa church which he has left to take up the work at Sussex, N. B. The Men's Bible class gave him a check, the Young People's Union gave him a clock, and the congregation a purse of gold.

Rev. J. B. Ganong will leave for North Sydney on Thursday of this week. His going from Harewood is much regretted, his ministry there having been much blessed. The good will of the people has been shown in various ways. At the close of the service on Sunday, December 29th, Deacon C. F. Alward briefly addressed Bro. Ganong on behalf of the congregation, expressing appreciation of his work, and presenting to him a gift of \$35. The ladies of the Mission society presented to Mrs. Ganong a beautiful teacher's Bible. Bro. Ganong's New Brunswick friends, and who are many, will regret his going, wish him large success in his new pastorate.

A correspondent writes: "Rev. J. I. Fitch terminated his pastoral relations with the Cambridge, N. S., church on the last Sunday of the old year. The date and the event also signified his retirement from the Gospel ministry for, at least, an indefinite time. Neither of these actions was effected without mental struggle and heart strain on the part of our brother. He worked as minister of his church he deeply enjoyed, and the people he sincerely loved; while the church and people on their part highly esteemed him for his native worth and many deportment. His withdrawal from the ministry means to him leaving of the most honorable and most delightful vocation open to men. But the reasons leading to the event mentioned became irresistible."

REAL ESTATE NEWS

A. E. Masie, manager of the Canadian Consolidated Rubber Company, Limited, who is the head of the syndicate which has just taken over from L. Stokes and W. T. Tennant the property at Drury Cove, said yesterday he had no statement of any kind to make except that some manufacturing developments may be looked for. It is said, however, that no more will be made to develop the property for two or three months yet at all events. There are two lots of land just disposed of, 90 acres in one and 123 acres in another, or 213 acres altogether. There is a fine water frontage on the property and much limestone of superior quality.

Dr. G. Spencer has just completed the purchase of the property at Onnetete recently acquired by J. H. Crockett from Dr. G. Crockett. The Onnetete property immediately adjacent to that of Mr. Spencer's and this gives the latter upwards of eight acres of the most valuable suburban lots in the vicinity, together with three fine houses and other buildings.

GOT HIS OWN BACK.

At a homopoeopathic convention, a doctor told a story about a breeder specialist who is an authority on the stomach.

"Blank," he said, "was travelling in the wild and woolly west, where they are all great jokers. At a country club a jocular-looking stranger accosted Blank and said:—

"Dr. Blank, I believe"

"Yes, sir, blank you."

"Well, er—L—well, yes. I have been called—"

"The Dr. Blank who treats stomachs?"

"Precisely, sir."

"That Dr. Blank, as it is the luncheon hour and our table d'otie is excellent, I wish you'd treat mine," said the joker.

"Dr. Blank's veins run right with generous sporting blood, and he treated the stranger—an amiable western millionaire, as it turned out—to luncheon. But he got his revenge. Later on in the afternoon he approached a group of men, with

Skin Diseases ARE PAINFUL AND UNSIGHTLY.

Among the most prevalent are Salt Rheum, Eczema, Tetter, Rash, Boils, Pimples and Itching Skin Eruptions.

These troubles always arise from the blood being in a bad condition and it is absolutely impossible to eradicate them from the system unless you put your blood into good shape. This you can do without the slightest trouble by using Burdock Blood Bitters.

It drives out all the humor from the blood, and makes it pure and rich. Thousands of people have used it during the last thirty-five years and have been cured.

Mr. Robert Gamble, Jones Falls, Ont., says:—"I write with the greatest of pleasure to recommend your great blood purifier, Burdock Blood Bitters. My wife and I had itching sores on our face and ears, and tried everything to help them, but found no relief. We saw your B.B.B. advertised and got a bottle, and before it was half gone both were getting better, and when it was all gone we were cured."

Burdock Blood Bitters is manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

ITCHY BURNING ECZEMA ON FACE

Very Bad Case. Little Blisters Broke and Formed Scabs. Thought Would Be Disfigured for Life. Used Cuticura Soap and Ointment a Month. Completely Cured.

Cold Brook, St. John, N. B.—Cuticura Soap and Ointment cured my little girl of a very bad case of eczema. She had eczema on her face for almost two years. First little white blisters covered her face, then these would break and form scabs, and they were very itchy and burning. I used to have great trouble in getting her to sleep at night. She scratched so I had to do all I could to prevent her from scratching. She would scratch the scabs off and then it would be very sore and burning. She was certainly a great case. I treated her for it and also used different kinds of blood medicine, and ointment but got no cure. I thought she would be disfigured for life.

SEVENTY IN THIS SECT

The Brethren Church of Province of Quebec is Incorporated

Montreal, Jan. 8.—There have been received in Montreal copies of a bill passed by the provincial legislature to incorporate what is probably the smallest church body in the dominion, under the name of "The Brethren Church of the Province of Quebec." The church has between thirty-five and seventy members in Montreal, where the only Canadian branch of this sect exists.

TRY TO GET EMIGRANTS TO COME HOME

Lancashire Beginning to Be Angry at Losing Its Girl Mill-Hands

SEND TO CANADA FOR THEM

Large Increase in Cotton Industry Makes Labor Matter Pressing One—A Question as to Future Supply of Settlers For The Dominion

(Times' Special Correspondence) London, Dec. 17.—Lancashire is beginning to be angry at losing its girl mill-hands, who have been leaving in large numbers for Canada. The recent trade boom in the United Kingdom has revealed a scarcity of trained workers, which has been a surprise to employers generally.

For the moment the storm centre is Blackburn. At a meeting of the board of guardians a clergyman moved a resolution that the board should approve of the emigration of a number of suitable girls to Canada. English men in the dominion, he said, wanted English wives, but owing to their absence, they were marrying Poles and Kossaks. Mothers of those nationalities would not bring up their children in the same patriotic spirit as English mothers, from a patriotic standpoint the emigration of English girls should be encouraged.

AMAZING FEATS OF SLEEP WALKERS

(London Telegraph) We are all more or less familiar, said a well-known brain specialist, with the ordinary cases of sleep-walking, which are perhaps as old as humanity itself. But the startling forms it has taken in recent years are little known to the public at large as they are mysterious and unaccountable to men like myself whose business it is to study the vagaries of the brain.

For Two Years SUFFERED SEVERE PAIN IN THE BACK.

Many people fail to understand the significance of a lame, weak, sore or aching back. When the back aches or becomes weak it is a warning that the kidneys are affected in some way. Take notice to the warning and cure the backache on the first sign, for if you do not do this, serious complications are sure to arise, and perhaps develop into Dropsy, Diabetes or Bright's Disease, the most deadly forms of kidney trouble.

CONVICTED LABOR LEADERS ON WAY TO PRISON

CROWD WATCHING IN INDIANAPOLIS

Fort Leavenworth, Kan., Jan. 8.—The special train bearing the thirty-three labor leaders sentenced to terms from one year and one day to seven years in connection with the great dynamite conspiracy arrived here safely. The convicted prisoners are now in the federal prison, where their lawyers are busy trying to secure a new trial. From the time the train left Indianapolis after the men had been sentenced by Federal Judge Albert B. Anderson until it reached this place the greatest precautions were taken to prevent any attempt at communication with the prisoners and to guard against accident. The doors of the cars were locked and shades drawn, and armed deputies stood on each platform whenever the train stopped.

FOHALL KEENE, POLO PLAYER, WILL PROBABLY INHERIT FATHER'S WEALTH

McCARTY, NEW CHAMPION HAD VARIED CAREER

Wonderfully built both for speed and strength, the fighter is seemingly adding a rapid development of headwork that should give him a look in with any of the big fighters in the game today.

He has exhibitions in New York City, McCarty showed that he is game, can hit hard and has some speed, but he has a plentiful lack of experience that was distracting to his admirers.

Since he went to the coast he has, however, shown marked improvement, and had little trouble in stopping the veteran, Jim Flynn, and now has defeated Al Felner.

Jack of all Trades

McCarty has had a varied career. He has been a district messenger boy, cowboy, farm hand, lumberjack, deep sea sailor, bill "atcher," roostabout and many and various other things.

His mother died when he was less than two years of age, but it was not until his father sold the ranch, in 1901, that he struck out for himself, making his first stop at the home of a relative in Colorado Springs, Colorado.

Here he stayed for nearly two years, attending school, much against his wishes, as he longed for the open air life. He first took "French leave" in the night and started on his journey alone—and penniless.

He had not yet reached his twelfth year. His mother died when he was less than two years of age, but it was not until his father sold the ranch, in 1901, that he struck out for himself, making his first stop at the home of a relative in Colorado Springs, Colorado.

Here he stayed for nearly two years, attending school, much against his wishes, as he longed for the open air life. He first took "French leave" in the night and started on his journey alone—and penniless.

SAY KEENE WON \$3,000,000 IN HORSE RACING

New York, Jan. 7.—James R. Keene left behind him the greatest individual turf record in the history of the sport of kings.

During the season of 1907 on the turf, he won a total of \$400,000, a world's record. In 1889 the Duke of Portland's thoroughbred won \$38,750 on the English turf, a mark that was unsurpassed until Mr. Keene's record.

Mr. Keene's record was made in the opinion of the Jockey Club's records in this state, the Keene horses won a total of \$400,000, a world's record.

January Rod and Gun

Rod and Gun (published by W. J. Taylor, Limited, Woodstock, Ont.), for January has a somewhat striking cover.

The same issue contains an article on the Culture of Black and Silver Foxes, under the heading "Value."

In addition, there are stories of outdoor life and sports representative of both the eastern and western provinces.

"Along the Mackenzie to the Arctic Ocean," descriptive of a trip from Edmonton to the last post on the Mackenzie River; A Wild Goat Hunt in the Rockies; The Bear that Kept an Appointment; Filling a Big Game License in New Brunswick; Mink Trapping; Good Luck at the Klondike Hunting Camps; and other stories in prose and rhyme, combine to make an interesting issue of this Canadian sportsman's magazine.

An interesting write-up of the St. Thomas Tournament, held December 2 to 6, and to be found in the trap department, along with other notes of trap-shooting.

Cutting Opium Trade

Delhi, British India, Jan. 8.—The Indian government, owing to the situation in China, has given the necessary notice of three months for the suspension of sale of opium and, in order further to facilitate the liquidation of stocks held in treaty ports, it has decided temporarily to reduce the amount of opium to be sold in 1912 for consumption in countries other than China from 12,000 to 9,000 chests.

Domino was the classic Wilbers in 1894, but Mr. Keene didn't have another chance of this stake until ten years later, when Delhi bred home. Hilarius was a prominent Keene winner in 1909, taking the Wilbers and the Tidal Stakes. Domino's winnings exceeded \$30,000.

In 1881 Mr. Keene's Fohall won the

CONCERT LAST NIGHT.
The members of the St. John Brass Band, composed of colored musicians of much promise, gave an excellent concert last evening in the Temple Building, Main street, which attracted an audience of large proportions, filling the auditorium. The programme gave delight to all present. It consisted of instrumental and vocal selections, numbers by the band with recitations by the Bizzard quartet and other pleasing features. The band played several numbers in commendable style, under direction of Band Master Jones, and were well received.

HELD ASSEMBLY.
The members of the Cimeterella Club last evening conducted a successful assembly in the rooms of the A. O. U. Union street. It was attended by more than 100, all of whom were present heartily. A fine programme of dances was carried out. The chaperons were Mrs. H. G. Atcheson, Mrs. F. Sheehan, Mrs. W. H. O'Neil, Mrs. L. T. Noonan, and Mrs. Thomas Martin. The assembly was in the charge of a committee composed of Harry G. Atcheson, chairman; J. P. Martin, secretary; W. H. O'Neil, floor manager; T. W. Pope, C. Murphy, E. J. Harrington, F. J. Kelley, and E. J. Noonan.

ROBT. J. MURPHY AND MISS GENEVIEVE MURPHY WED
Ceremony in Holy Trinity Church This Afternoon, Rev. J. J. Walsh Officiating

In the presence of a large number of relatives and friends, a successful ceremony took place at 3:30 o'clock, two popular young people were united in marriage, Robert J. Murphy, of St. John, and Miss Genevieve Murphy, daughter of Mr. and Mrs. George Murphy of Rockland road. The ceremony was performed by Rev. J. J. Walsh, the pastor. The bride entered the church with her father, by whom she was given in marriage, as Mendleson's wedding march was played by the organist, Mrs. A. McMillan.

Miss Murphy was attractively gowned in a handsome costume of white duchess satin with pearl trimmings. She wore a well trimmed orange blossom, and carried a bouquet of bridal roses. Her sister, Miss Annie Murphy, was bridesmaid, and wore a becoming gown of apricot satin with pearl and spangle trimmings. Her hat was of black and gold and she carried a bouquet of roses. Frederick T. Murphy, brother of the groom, was best man. The ushers were: Frank V. and Harold Murphy, brothers of the bride, and Edward Lawler.

After the ceremony, a reception was held at the home of the bride in Rockland road, where a dainty luncheon was served. Mr. and Mrs. Murphy will leave for Upper Canada on a honeymoon trip. On their return they will reside until spring at 208 Rockland road. Among the guests at the wedding were: Dr. E. F. Murphy and wife, of Boston, and Dr. George Murphy, also of Boston.

Many handsome and useful remembrances were received by the bride and groom, both of whom enjoy the esteem of a large circle of friends. The groom was formerly a member of the firm of Murphy Bros. in the City Market, but is now in the customs service. He has been deputy grand knight of St. John Council K. of C. for some time, and is popular with not only his fellow members but a great many others about the city, who extend the best wishes for the future happiness of himself and his bride.

LOCAL NEWS

STOLE TWO BLACK FOXES.
During the rain and darkness of Saturday night, Mr. Birch's fox ranch at Alberton, P. E. I., was broken into and a pair of valuable black foxes valued at from \$10,000 to \$15,000 were stolen.

WILL STAY HERE.
Frederick Gleason—Andrew Driscoll, who was a student at the U. N. B. of New Brunswick last term, has accepted a position with the Canadian Fairbanks Co. of St. John, and will not return to college.

FREDERICTON HORSES.
Fredericton horsemen are planning a series of marine races during the winter. Weekly or bi-weekly races are being talked of, but nothing definite will be known until after a meeting tonight. The postponed races on the ice track at St. John may take place on next Saturday.

NO ARRESTS.
The police did not make any arrests last night, and consequently there was no session of the police court this morning. Hearing in the case of James A. McDonald, charged with stealing from the P. P. Collier Publishing Company, was to have come up, but was further adjourned until Monday morning next.

THE OLDEST GRADUATE.
The death of Rev. Dr. Street leaves Lt. Col. John L. Marsh, police magistrate of Fredericton, the oldest living graduate of the U. N. B. He was graduated with a Bachelor of Arts degree in 1832, while the late Dr. Street graduated in 1831. This month Col. Marsh celebrates his 84th birthday. He is also the eldest living barrister-at-law in the province.

OPEN FOR INSPECTION.
The new Donaldson liner Letitia which is being at No. 4 level at Grand Point, will be open to the public for inspection this afternoon from two till five o'clock. All who desire may go on board and will be shown throughout the ship by the members of the crew. The Letitia will sail tomorrow for Glasgow. It is expected that a large number will avail themselves of the opportunity to inspect this fine new ship, which was launched only a short time ago.

ST. JOHN TO HAVE ANOTHER LINE OF STEAMERS

C. P. R. to Inaugurate a Service Between Canada and Austria

TRIESTE, ST. JOHN, MONTREAL

This Will Make Four Operated by This Company—Winterport Connections Now Touch Practically Whole Commercial World

Another steamship line is to be added to the list of those making terminus at St. John. The steamers of the new line, which will be operated by the Canadian Pacific Railway will run between Trieste and Canada, coming to St. John in the winter and using Montreal in the summer. This is the first regular steamship connection from St. John to a Mediterranean port.

The news was contained in a Canadian Press dispatch from London reading as follows:

"The C. P. R. will soon inaugurate an American-Canadian steamship service, having a direct line from Trieste to Canada, Montreal will probably be the landing port in summer and St. John in winter."

No information regarding the plans for the new service has been received at the local offices of the C. P. R., but it is supposed that the arrangements were completed by G. M. Bostworth on his recent trip to Europe. The line will give direct connection with a territory which should yield considerable traffic, much of it new to Canada.

This will make the fourth line for the C. P. R. operating to this port. The others run from St. John to Liverpool, St. John to London and Antwerp, and St. John to London and Havre.

With each new line the port of St. John is becoming more cosmopolitan in its connections and its trade and now reaches out to all parts of the world for the traffic which is handled through this port. In addition to the lines already mentioned there are the Donaldson Line to Glasgow, the Manchester Line to Manchester, the Head-Line to Belfast and Dublin, the Allan Line to Cuba and Mexico, the New Zealand line to Australia, the Pickford & Black line to the West Indies and South America, and the Canada Line to Hamburg, Bremen and Rotterdam.

All the lines are doing a good business this winter, and it is believed that the passenger traffic will surpass all previous records. The eastbound traffic before the war was not so large as it is now, and the west-bound rush in the spring will be greater than any previous year.

The chief problem of the port now is, not the securing of steamship connection but the securing of accommodation for the business which is coming here. The construction of new wharves is regarded as not rapid enough to keep pace with the business and even the great plans for harbor development which are being undertaken will not be more than sufficient to accommodate the steady growth of business.

SAY-TAKING OF COAL FROM CARS IN YARD MUST CEASE

Business Gets Too Large—Several Tons Said to Have Disappeared From One Consignment

That stealing goes on almost nightly in the vicinity of Forest street from cars on the I. C. R. siding there, is the belief of those closely in touch with the situation. Coal is being taken. At different times there have been complaints of coal having been taken from the cars, and in some instances people have been caught, but during the last few nights this helping themselves has become particularly noticeable, and so much so that the authorities are determined it must cease.

The Courtenay Construction Co. say they have lost several tons since Sunday night from cars which are stored there for them, and it is also said that Norton Griffith's consignments have also been reduced. It is felt that since there is a special watchman on duty in the service of the I. C. R. and with the protection of city policemen, the practice of procuring a free coal supply from the cars on the siding should not be possible, and steps are to be taken to end it.

MOOSE GET A HOME

Take Over Quarters in Furlong Building Vacated by Elks

The local branch of the Order of Moose has secured a home and will take possession of the new quarters immediately. Their rooms will be those just vacated by the Elks, including the two upper flats in the Furlong building on the corner of Charlotte and North Market streets. The first floor will contain pool and billiard tables, lounge room and parlor, kitchen and lavatory. The second floor is fitted up as a lodge room with an ante-room and another smaller room on the same floor. Some of the furniture and furnishings of the Elks have been taken over, new equipment is being added and the rooms are being overhauled and renovated.

The formal opening will take place early next week when a smoker will be held by the members and their friends. As more than 400 members have been initiated already and 150 more have applied, the rooms will be none too large. It is expected that this number will increase to 500 or 600 before the charter closes next month.

Later on when the lodge is more completely organized it is the intention of the members to secure a building of their own as a permanent home. In the meantime they will have very comfortable quarters in addition to the social features which will centre around the rooms the organization will go in for all branches of athletics.
