

FROM ALL OVER THE MARITIME PROVINCES

(Continued from page 3.)

Miss Helen Alcorn, of Blackville, who graduates from the Rhode Island hospital this month.

Miss F. Ingham, of the post office, and Misses Nellie and Clara Lawlor spent Victoria Day in Moncton.

Mrs. William Sturges, who was married on the 19th of May, is spending the afternoon at the first time in her new home.

Mrs. Sturges was very prettily gowned in mauve silk of princess pattern. She was assisted in receiving by her mother, Mrs. Charles, who was wearing a gown of black and white silk with sequins trimming, and blue and white.

Mrs. Allan J. Ferguson, who wore a very pretty green gown. In the drawing room Mrs. E. A. McCune presided, assisted by Mrs. E. A. Williston and Robert Nichols.

Miss Addie Stables ushered. Mrs. McCune wore black silk and a handsome (chanteuse) hat. Miss Williston was gowned in Alice color with black picture.

Miss Nicholson wore red voile with white hat. Miss Stables' dress was black silk, hat of black net trimmed with white.

Mrs. Fleming went to Moncton on Saturday to attend the funeral of her son, Mr. J. DeWolfe Spurr, who died in St. John on Friday.

Miss Addie Harriman spent the holiday in St. John.

Miss Anne Lawlor is visiting friends in Sussex.

Sister St. Dunstan, mother superior of St. Mary's Academy, has returned from Montreal.

Miss Bertie Crocker spent the holiday with Mrs. Patterson at Bathurst.

Miss Anne Crocker visited her friend, Miss Hubert, in Bathurst on Tuesday.

Alexandra Lodge, No. 188, T. B. A., celebrated its seventh anniversary in the P. C. T. U. hall this evening. About 100 people were present. Henry Wyse presided.

As a result of the meeting, four or five new members will be secured.

Miss Ince, of the Royal Bank staff, Misses MacCabe and Master Schofield, of Blackville, visited Mrs. H. A. Yre this week and left for Chatham.

They will visit their sisters, Mrs. Robert McNeil and Mrs. Allan Schofield, who had undergone an operation in St. John, has returned much improved.

Mrs. Thomas Foley and Miss Gladys returned from a visit to Mrs. J. D. Buckley at Rogersville.

Herbert C. Read, of Blackville, who lately returned from Buenos Ayres, was in town this week on business.

Miss Florence, daughter of Mr. and Mrs. J. B. Russell, went to Montreal to accept a position as C. P. R. telegrapher.

Mr. and Mrs. Timothy Carroll are under Dr. Deacon's treatment, being slowly recovered from being thrown out of their carriage on Sunday last.

Allan A. Russell, of the Newcastle Opera House, has joined the newly organized Musical Association.

Mr. and Mrs. Benjamin Burnett, of Whiteville, are receiving congratulations on the arrival of a new daughter.

Miss Edith Fleigler will leave tomorrow for friends in California and British Columbia.

Miss Mae McEachern returned this week from New Glasgow, where she had been for several months.

St. Mary's, Patricia, of St. Louis de Kent, was here this week and visited St. Mary's Academy.

THE MOST WONDERFUL REMEDY EVER DISCOVERED

Would naturally be the one which would cure the greatest number of ailments in man and beast.

The healing power of Dr. Kendrick's White Liniment are almost magic. It is a cure for almost any ailment of the every-day ailments which afflict you or your animals.

The largest bottle and best value is the one which does not separate. It is a cure for almost any ailment of the every-day ailments which afflict you or your animals.

It contains a large proportion of camphor and is especially adapted for the treatment of all sorts of rheumatism, sprains, bruises, cuts, and all other ailments of the skin.

Manufactured by the Bala Co. Ltd., Woodstock, N. B., and sold by all good druggists for 25 cents a bottle.

Mr. and Mrs. J. W. A. Baird, of Windsor, will occupy the residence of Mr. Ness on Western avenue during the summer.

Mrs. A. D. McKinnon, who has been visiting her mother, Mrs. M. L. Tucker, returned to her home in Roxbury (Mass.) the first of the week. She was accompanied by her sister, Mrs. M. D. McKinnon, and two little daughters, Eva and Ruth.

The death of Nita Fader, daughter of Mr. and Mrs. Henry Fader, occurred at an early hour on Friday. Death was due to appendicitis. Little Nita was a general favorite, her pleasant smile and cheery manner endeared her to many.

The funeral which was held on Sunday afternoon, was attended by a large number of people. The members of the Baptist Sunday School participated in procession to the cemetery. Many beautiful floral offerings rested on the casket, among which were cut flowers from Miss Nita Tupper, pillow, carnations and lilies from the St. John's Brotherhood of Railway Trainmen.

Mr. Fred Murray, Royal Bank, Bathurst, visited their home in town this week. Mr. Fred Murray was at home for the weekend, returning to Bathurst on Tuesday.

Mr. A. G. Tingle, of Hopewell Cape, visited Shediac during the week.

Mrs. James Cadman, of Blackville, was the guest for a couple of days of this week of Mr. and Mrs. W. A. Yre.

Miss J. M. Northrup spent the weekend in town, the guest of Miss Bray. Miss Northrup, who is shortly to be married to W. W. Nickerson, of Boston, has a large circle of Shediac friends much interested in the coming nuptials on June 8.

Mr. Hal Weldon, Bank of Montreal, Quebec, spent Sunday with his parents, Mr. and Mrs. J. D. Weldon.

Mr. and Mrs. L. Bourque, who have been spending the winter with their daughter, Mrs. F. X. Comeau, of Halifax, have returned home and are occupying their residence here.

Miss G. Hanington has returned to her home in Shediac, after spending the winter in St. John with Mr. and Mrs. A. H. Hanington.

Miss Schwartz, of Moncton, visited Pt. du Chene during the week.

The Bridges Club at Tynewood, entertained this week by Mrs. J. L. Newman, Shediac Cape.

Mr. and Mrs. F. Knight and children, of Moncton, spent a few days in town this week. Mrs. Knight's sister, Mrs. J. Livingstone.

Miss Elsie Weldon, who is studying vocal music at Mt. Allison, was at her home in town for Sunday.

Miss Marie Dugas, of Moncton, spent Sunday at her home in Coogee.

Mr. Robert Dyart, of Boston, who has been paying a short visit to his relatives in Coogee, returned to the States during the week.

Mr. and Mrs. E. R. Burpee, of Moncton, have opened up their summer cottage at Pt. du Chene.

Mr. and Mrs. G. Hallett, of Sussex, were in town for a few days recently, guests at the Weldon House.

Miss Grace Williams, of Moncton, was in town on Sunday.

Mr. G. Lalach, of Moncton, was the guest this week of Rev. I. and Mrs. Howie.

Mrs. D. Schurman, of Moncton, was the guest this week of Mrs. A. Murray.

Mr. Rupert Irving, of Bouchette, was in town visiting his grandparents, Mr. and Mrs. James Inglis, Shediac, this week.

Mr. and Mrs. J. P. McDonald spent Saturday last in Moncton.

Miss Ada Kintley, of Moncton, visited Pt. du Chene on Monday.

Miss Marie Dugas left recently on a visit to friends in St. John.

Miss Jennie Webster goes to Blackville today to be the guest for a short while of Mr. F. Ryan.

Mrs. C. G. Ross has been confined to her residence for the past few weeks owing to a severe attack of neuritis.

Mr. and Mrs. E. R. Burpee, of Moncton, have opened up their summer cottage at Pt. du Chene.

Mr. and Mrs. G. Hallett, of Sussex, were in town for a few days recently, guests at the Weldon House.

Miss Grace Williams, of Moncton, was in town on Sunday.

Mr. G. Lalach, of Moncton, was the guest this week of Rev. I. and Mrs. Howie.

Mrs. D. Schurman, of Moncton, was the guest this week of Mrs. A. Murray.

Mr. Rupert Irving, of Bouchette, was in town visiting his grandparents, Mr. and Mrs. James Inglis, Shediac, this week.

Mr. and Mrs. J. P. McDonald spent Saturday last in Moncton.

PRINCE EDWARD ISLAND HAS A NEW GOVERNOR

Hon. Benjamin Rogers Appointed to Succeed Hon. Mr. MacKinnon, the Present Incumbent

Cabinet Decides Not to Change Law Making June 3, King George's Birthday, a Bank Holiday—Canadian and American Authorities to Take Joint Action to Regulate Railway Rates on International Roads.

Ottawa, May 29—Hon. Benjamin Rogers, of Alberta, Prince Edward Island, has been appointed lieutenant-governor of that province, in succession to Hon. D. A. MacKinnon. The new lieutenant-governor was a member of the Peters and Farquharson provincial governments.

The proposed international tribunal for control of railway traffic crossing the border between Canada and the United States will be established shortly. Judge Mabey, chairman of the Canadian board of railway commissioners, has already been named as Canadian member of the tribunal. The United States representative will probably be a member of the interstate commerce commission.

The tribunal, which is being established on the initiative of the minister of railways, Hon. Geo. P. Graham, will deal with such matters as through rates on international railway traffic, with a view to securing as far as possible some uniformity of rules and rates for shippers. The Canadian railway board and the interstate commerce commission have now no medium

Four views of King Edward's funeral are shown in the above photographs

---One depicts the cortege passing through the Mall, another its entrance to Westminster Palace yard, and another its arrival at Westminster Hall---An enlarged photograph of the Queen Mother's carriage as it appeared in the procession---The fourth shows arrival of the gun carriage bearing the body of King Edward.

The accompanying pictures are the first to reach this country depicting scenes at the funeral of the late King Edward VII. in London, and it may be interesting to know just how the pictures were secured. As soon as the pictures were taken they were rushed by special messenger to Southampton and there placed on board the Kronprinz Wilhelm. The New York Herald's despatch boat Owllet steamed outside the harbor and met the steamer.

The Owllet, by special arrangement with Collector of the Port of New York Loeb, had Acting Deputy Collector Max Sizabo, Inspector John W. Jeffrey and Appraiser W. C. McKenzie aboard, and through the courtesy of Dr. Doty, health officer, the pictures were transferred, examined, appraised and the duty paid in two minutes' time, the Owllet thence proceeding to the Battery, whence the photographs were rushed to the train and put aboard the fast mail for St. John. Thus we have secured another best over our contemporaries, just as we have been doing continually in the past.

AN OPEN LETTER TO PREMIER HAZEN

Grave Charges as to Favoritism and Discrimination in Regard to Crown Land Operations in Kent County—Aged Complainant Says He is Ready to Give Chapter and Verse.

(Richibucto Review).

To the Honorable J. D. Hazen, Fredericton:

Dear Sir,—You will remember that it says in the good Book, "the worm will turn." Well, sir, let this be my reason for writing this letter.

Last winter I cut on vacant crown land 14,000 superficial feet of spruce and pine logs and hauled them to my mill at Portage River. Your scaler visited me in March, he made no seizure or served me with no notice of seizure, and now, sir, he goes to J. D. Irving (the man who was kind enough to advance me means to get a few logs) and demands double stumpage and expenses for 16,000 feet, making in all \$50; will take no less. This would be all right if the same methods were adopted all along the line, but when I know, and everybody else knows, there are large quantities of lumber (cut as low as six inches) got out in this section on which practically there is NO STUMPAGE BEING PAID, is it any wonder that I say, "the worm will turn." Of course, I believe you know nothing of these things, and therefore personally I hold you innocent, but it has been said, a man who works hard with my axe every day last winter until March 11, when I was struck by a falling tree and confined to my bed until April 7. I was only able to resume work the 2nd of this month, and the doctor says I will never be completely well again. Still, I am working hard, firing every day in the mill, trying to earn a bit to eat and to pay back the

honest dollars that were advanced to me, and yet I am persecuted for stumpage and the oulpet are let go scot free.

Is there any fair play, is there any justice, is there any humanity in it? Do you think the public in general will stand for this kind of thing? No, sir, I demand an investigation into this matter. As to information, I can give you chapter and verse. Come to me, I am right here with the goods.

While I was laid up in bed last spring, some men that were working for me, say mistake, cut about 1,000 logs on licensed lands. The sheriff was sent, the logs were taken, but not a line was run to see if the logs or what portion of them was cut from the license. I had no means to go to law and so I had to let them go, and I was not allowed one dollar for cutting and hauling them.

All this was done at the instigation of your scaler, who has allowed himself to be made a tool of by the little cigars and bloated autocrats who are the oppressors of the land.

In speaking of me they say, exterminate him, starve him out, that the man who supplied me with the means to go on with is as bad as I am. Harrass, annoy, persecute the both of them.

Mr. Premier, if you will take your Bible and turn to the thirtieth chapter of Proverbs and the fourteenth verse, you will find a passage that will fill the bill.

Yours truly,
B. MATTINSON.
Lower Sabin, May 23, 1910.

Little Prince Edward Albert, who now becomes Prince of Wales and heir apparent to the British throne, will be sixteen this coming June.

A skeleton, 8 ft. 5 1/2 in. in height, with a sword bearing the Gaelic inscription, "Donach Okeefe, A. D. 1281," has been unearthed at Ballinahalla, Co. Galway.

NUMBER OF ALLAN BERNIER GETS WERE ALMOST

FLIERS DEPENDS ON SUBSIDY

Sir Hugh Announces That Tenders Have Been Called for One 22-Knot Steamer.

London, May 27—Sir Hugh Allan states his company has invited tenders for a liner for the Liverpool-Canada express service of 22 knots speed, 700 feet long and 22,000 tonnage, accommodating 2,300 passengers. Mr. Allan said the number of steamers to be ordered depends upon the conditions of the 1912 mail contract.

Lord Kitchener, speaking at the Australian banquet, said that under his scheme of defence for Australasia there would be continuity of policy. The Australasians would be able to solve the military problems which gave so much trouble elsewhere.

Sir G. Reid, who presided, said Australia had already made a beginning with the creation of a fleet and army. Whenever danger to the empire came, whatever ships Africa possessed in the world would very soon be in the firing line. Our future Waterloo and Trafalgar might be anywhere, but wherever it was, the sons of Britain from across the seas would stand by the flag and keep it flying.

The steamer Royal George sailed today with 400 passengers. The Lake Champlain has 1200 emigrants including fifty female lace workers.

Many a man spends half his time anticipating tomorrow, and the other half regretting yesterday.

BERNIER GETS ARCTIC ESTATE

Government Sells Him 960 Acres on Coast of Baffin Island

BUYS IT CHEAP

One Dollar Fixed as the Consideration--Principal Crop is Snow and Ice, and Some Flowers in Summer

Explorer Buys Fishing Station Building.

Ottawa, May 27—Capt. J. E. Bernier, Canada's Arctic explorer, is now the farthest-north landholder in North America. He has been awarded by the Dominion government, in return for the payment of \$1, a tract of land containing 960 acres at Pond Inlet on the north coast of Baffin Island.

The order-in-council deeding the land to him sets forth that it is given in recognition of his services in connection with the expedition of the steamer Arctic in planting the British flag and asserting British sovereignty over all the known land to the north of Canada.

Capt. Bernier has named his estate Bernieria. He says that flowers bloom there in the summer, but snow and ice will always be the principal annual crop. However, there may be minerals of value discovered.

Capt. Bernier has purchased for \$100 from Robert Kinnes, of Dundee, Scotland, all the buildings known as Pond's Bay fishing station, which are situated on the captain's northern estate.

WERE ALMOST ASPHYXIATED IN COMET'S TAIL

Captain of Gaspe Schooner, at Montreal, Tells of Passing Through Choking Sulphurous Fumes at Sea.

Montreal, May 27—Captain Robert, of the schooner Missie Maud, of Gaspe, is positive that his vessel passed through the tail of Halley's comet on the night of the 19th.

According to the story the captain told here today the man on watch became almost overcome by a sulphurous gas. The night was calm and the man was at a loss to account for the disturbance. The air became so stifling that the watch became alarmed and charged into the cabin, where he roused the captain, who in turn called the other members of the crew, a man and a boy.

To keep out the choking gas the Missie Maud's crew were compelled to cover their mouths and noses with handkerchiefs for breath filters. All were more or less overcome with a feeling of bitousness which continued for an hour, until a cool puff of wind cleared the atmosphere. The sailors then knew that they had passed through the tail of the comet and were safe.

A patent has been granted to a Minnesota man on a slight provided with wheels that can be lowered so as to raise the runners from the ground should its driver find a road bare of snow.

GENERAL FRENCH WARNS MONTREAL MILITIA

Tells Officers They Must Become More Efficient if They Want to Uphold British Traditions

Says War Nowadays is No Child's Play—Praises the Ross Rifle as a Very Superior Weapon, and the Government for Its Forward Policy in Empire Defence.

Montreal, May 29—A note of warning was sounded by General Sir John French to the officers of the Montreal garrison, after he had inspected the city troops on Saturday afternoon, as to the necessity for better training and preparation for active service in Canada, as to this, General French said:

"If you (the Canadian militia) desire to carry out your role so as to emulate and uphold the splendid traditions handed down to you, you must first realize that in many respects you have an infinitely harder task. Every officer and man of you must awake to the fact that war, as it is carried out today, is a very different business to what it ever was before; that it makes far greater demands upon the officer who leads and directs, as upon the men who follow and obey. You did splendid work in South Africa, but if you will uphold your country at home, or bring efficient succor to the empire in different parts of the world, far greater efforts and a much higher degree of efficiency and readiness will be necessary to secure success."

General French dwelt upon the loyal manner in which officers and men gave their time to the service of the state, but in an able address insisted that much greater knowledge of the arts of war was needed all through the service.

He praised the rifle supplied the Canadian militia as a weapon of unsurpassed range and power, and pointed out that this involved greater knowledge and skill on the part of the men using it.

Concluding, General French said: "Your government has done an immense deal for you in the past years, as no one who takes the trouble to inquire can fail to realize. It is the best guarantee you can have, that as time goes on and opportunity offers they will do whatever more is necessary or possible to help you. Remember that governments have their own difficulties to contend with. In every country there are people, often of some political power, who resolutely oppose all military or naval expenditure, and the curious thing is that they are the very people who cry out loudest when, at critical times in the national life, national defenses are not found as efficient as they should be."

General French with his staff left tonight for Quebec to inspect the garrison there.

A WARNING TO CANADIAN GIRLS

6510 Yale Avenue, Chicago, Ill., May 24.

To the Editor of The Semi-Weekly Telegraph:

Sir—At the request of Mr. E. B. Sproul, I am sending the renewal of my subscription to your paper. It might interest you, in passing, to know that Mr. Sproul is past 85 years of age and has recently moved to Chicago which he intends to make his home in the future, provided, however, that he is assured of the old home news through the Semi-Weekly Telegraph, which he has greatly missed the past few months. May I take advantage of this opportunity to enclose a circular issued by the Travellers' Aid Department of the Young Women's Christian Association of Chicago of which I am a member. They greatly desire that this article should appear in as many papers as possible throughout the United States and Canada. Having been a subscriber to your paper for several years and a frequent visitor to New Brunswick I have gained some knowledge of the extent of the circulation of your paper throughout the provinces, and consider it the best possible agency in reaching the largest number of homes where this article would do the most good in warning young women and their parents as well, as to the conditions existing not only in our city, but in Boston, New York, Montreal and many other large cities as well. A copy of this circular in one or more editions of your paper will be much appreciated. Thanking you in advance, I am,

Very respectfully yours,
CLARA J. SPROUL.

The circular follows:

Sir—It has been recognized for some years that there is a "traffic in girls" in many large cities. An innocent, ignorant girl is often caught by the offer of help from some well-dressed man or woman who is creating a depot or an incoming train for a victim.

Sometimes the victim lives in the country or in a small town and knows nothing of the wickedness of a large city. She is written to, or visited, and urged to come to the city to take a position with large pay and little work, and she is very likely to fall into the trap set for her.

Sometimes it is an advertisement in a paper that lures her to destruction. She generous offers and comes often to find herself an inmate of some house of infamy from which it is hard to escape.

To save such girls from lives worse than death the Young Women's Christian Association of Chicago, with headquarters at 288 Michigan Avenue, has a Travellers' Aid Department. Women with blue badges are kept at the depots to assist and protect girls who are in danger from the evil persons who are seeking them.

It is so difficult to reach all the girls the association desires to help, as they are constantly arriving day and night, that the Traveller's Aid Department wishes co-operation in the home towns from which the girls come.

Will newspapers in small cities and towns aid in printing articles in their papers, from time to time, warning girls and their parents of the dangers encountered by young girls who go alone to a large city?

Girls arriving on the trolley cars, who need advice, are also invited to seek the blue badge women at the depots.

If more information is desired, write to the chairman of the department, MRS. MARY E. HOLMES, Chairman, 288 Michigan Ave., Chicago, Ill.

WANTED
PORTRAIT AGENTS—Write and we start in business and give credit. Merchants Toronto.

WANTED—A second-class male teacher to take charge of once in District No. 8, Victoria county. Apply to R. M. Gillespie, See Ridge, Victoria county.

WANTED—A housemaid; required. Apply by letter David Robertson, Rotherham.

WANTED—Reliable And to sell for Canada's Great. Largest list of Hardy Vets. Province of New Brunswick recommended by the Ministry of Agriculture. Apply season now starting. Liberal weekly. Permanent situation Wellington, Toronto, Ont.

FARM TOPICS

THE VENTILATED PLATFORM.

This Keeps the Well Clean and Insures Pure Water at All Times.

I have discovered a way to keep the well clean and pure at all times, says a writer in Farm and Home. I make the frame of the platform of 2x4's, all

Insures Pure Water Always.

leaving a space two to six inches between the top and bottom parts of the sides. This space is covered on the inside with a fly screen to keep out dirt and insects, and outside of this with a larger meshed screen to keep out large vermin. This gives good ventilation to the well, which never becomes foul. In the winter I cover the platform with straw and snow.

CARE AND FEEDING OF TEAM.

As a General Rule Farm Horses Do Not Receive the Proper Attention Due Them.

Perhaps no subject is of more importance to the average farmer than the proper care and feeding of the teams that are relied upon to do the farm work, and as a rule I do not believe that these horses receive the care and consideration that they should, says E. Lara. A good horse used in a common sense manner should live to an old age and be in condition to perform good work at all times.

The essential requisites for a working horse are good size, quick action and strength. A high-spirited animal or one of great value is not the most desirable animal for the farmer. What we need is a good walker, as much of the usefulness and efficiency depends upon that quality. This faculty is quite as much a matter of education as inherited qualities.

Under ordinary circumstances it is judicious to use mares for working teams upon a farm. Except for a short time during the period of parturition and immediately after they are fully as well adapted to farm work as are geldings. They also possess the advantage of annually bringing colts, and in event of their being incapacitated by accident or labor they may still be kept with profit as breeders.

WELL ARRANGED SWINE LOTS

Sketch Showing How Breeding and Fattening Shotes Can Be Separated.

Keep the pigs in long houses which are divided into compartments opening into small lots. The sketch shows how they stand. Breeding hogs and fattening shotes are allowed the run of their own lots, as well as occasional

Pig Houses and Pens.

changes into the larger field shown at the bottom of the sketch, which is a timothy and clover pasture. It is better to have pigs in separate quarters in small bunches, for in this way they can be better attended to and the growths are more uniform.

NOTES ABOUT SHEEP.

The man who goes into the sheep business has a reasonable assurance that good prices for mutton and wool will continue for some time.

Much of the business of feeding sheep must be learned by associating with the stock and studying their habits and characteristics.

The most careful man will devote much time to the study of his sheep, and it is unwise for a man without experience to undertake the sheep business on a large scale.

The safest way is to buy, say, 25 choice ewes and an excellent ram, and secure your education with a minimum amount of expense.

Pasture that is ideal for sheep will not be ideal for sheep. Sheep will thrive better on shorter and finer grass than on coarse grasses.

There are very few farms but what would be better by having a few sheep on them.

USEFUL LIVESTOCK NOTES.

Pigs may be pastured on rape with a certainty of their rapid growth. If fed some protein food at the same time it is still better.

Hogs finished for market at seven or eight months old and weighing 250 to 300 pounds, are the most profitable to the grower.

Sheep can be fattened on grain alone without any close fodder what ever.

A DEVICE TO RAISE LOGS.

Illustration and Plans for Making Home-Made Log Jack, Useful on the Farm.

The accompanying sketch shows a device to raise logs to be cut in stove wood or post length. Two boards are bolted together at each end with a 2-

Home-Made Log Jack.

by 4-inch piece between them, says Popular Mechanic. This forms an opening into which a lever is fitted and worked on pins thrust through holes bored at intervals in the two boards shown. A chain is fastened to the lever with an eye-bolt, the end passed under the log and the large link at the opposite end hooked over one limb of a crooked stick.

AN OLD-FASHIONED GARDEN.

A Partial List of the Flowers Grandmother Planted in Her Front Yard.

A garden like our grandmothers' will have in it good-sized clumps of anemone, aquilegia, ferns of various kinds, all hardy; foxglove, larkspur, monk's hood, adonis, allium, campanula, aster, daisies, chrysanthemums, coreopsis, dicentra, dianthus, gallardia, grasses and bamboos, gypsophila, helianthus, helleborus, hibiscus, hollyhocks, iris, liatris, lily, lupinus, lychnis, lobelia, monarda, myosotis, peonies, poppies, phlox, pink, primula, pyrethrum, ranunculus, saxifraga, sedum, sweet-william, veronica, viola, vinca, wall-flowers.

The above is not a complete list of the plants which may be included in a hardy garden, but covers those which have been grown as successes for many years past, and of which there are modern forms which are many times finer than the types which were known to our grandmothers in the olden time.

As the garden is intended to be permanent, use great care that the plants which are near one another do not clash as to colors, scents, the flower-keeper. Blues and reds, reds and purples, and pink and reds should not be planted in juxtaposition if you desire to keep a reputation for good taste.

After the garden has been in successful cultivation for two or three years, and all necessary re-planting done, you should plant the undergrowth, or "jungle." This is composed of such flowers as the wild violet, forget-me-not, arabis, cyripediums and other low-growing moisture and shade loving plants, which do best under and between the stalks of larger forms. They are shallow-rooted plants and will not rob their neighbors, the taller plants. This will add wonderfully to the effectiveness of the garden in mid-summer.

PLOW SHOE, HANDY ARTICLE.

In Moving Share from One Field to Another Blade is Saved by Novel Device.

In taking the plow to and from the field or from one field to another, a plow shoe is a handy article to have. Here is one which is easily made and will do the work nicely, says a writer in Farm and Home. Take a piece of plank 1/2 inches thick, or 3/4 inches wide and 2 feet long. Nail a strip on one side near the middle and bolt a block on in a slanting position, having first rounded the lower corner off, so the plowshare will slip under it. Round off the nose on the sides and bottom, and the shoe is ready for use.

A Feed Box.

and of feed as they like, mixing it to suit themselves.

His stock is always healthy and thrifty. He never feeds any wet or damp feed to his fowls, old or young. From the first they are fed on dry feed and get it from the hoppers.

Each hopper contains a variety of grain, bran and middlings and a compartment full of dry best scrape. His plan saves an immense amount of dirt and work and muzzling with hot mash and mixed feed.

POULTRY NOTES.

Bolled oats or other grain makes a good laying feed.

Be sure the hens are provided with a dust bath.

Old hens make the best mothers, but the pullets are the better layers.

MINERAL MATTER FOR HENS.

Chickens Need a Great Deal More Mineral Matter Than is Generally Supposed.

Chickens consume a great deal more mineral matter than is commonly supposed. Not only is there mineral matter in the general body composition, but large amounts in the bony framework and a considerable amount in the feathers. The growing chick, probably more than any other animal, needs an abundance of mineral matter to meet its growing demand.

It is a well-known fact that chickens go about picking up every small bit of mineral substance that they can find. This is surely an indication that these things are of a benefit to them. Also it has been held that grit in the form of small pebbles and other hard substances are used exclusively for grinding food. Of late, after more careful study of digestion processes with poultry, authorities have come to the conclusion that grit does not aid materially in the grinding of food in the gizzard. It is very likely that the pebbles grinding together there are reduced to a powder and are utilized in the animal system as a mineral food, the slow reduction making digestion possible.

Different animal and vegetable foods contain different proportions of mineral matter, some containing a large and some a small amount. Of the grains, for instance, wheat contains more mineral matter than corn. Animal bony matter contains more mineral matter than animal flesh. Also, some common natural mineral substances contain a greater amount of mineral elements than can be utilized for food than others. Some granites contain more inorganic elements than limestone. Oyster shells, the popular mineral chicken feed, contains practically nothing but lime, yet it is an excellent mineral poultry feed.

GOOD STOCK FOR BREEDING

White Cochins Are Fair Layers, But Excel in Weight and Hardiness.

White Cochins belong to the Asiatic class. They are only fair layers, but are of good build and generous weight. The Standard gives weight as follows:

A Trio of White Cochins.

Cock, 11 pounds; hen, 8 1/2 pounds; cockerel, nine pounds, and pullet, seven pounds.

They have a bright yellow beak, bay colored eyes, yellow shanks and a pure white plumage. They are very hardy, lay brown-colored eggs and are very persistent sitters. They are a single-combed breed.

MIXING FEED FOR THE HENS.

To Raise Flock of Healthy, Thrifty and Active Chickens Method of Feeding Important.

A prominent poultry man of Massachusetts, who breeds very high-class birds, has a method of feeding which is simplicity itself. He has in each pen self-feeding hoppers; these hoppers are transversely divided into different compartments and in each compartment is a different kind of feed.

They are kept supplied at all times and his birds eat as much of each

A Feed Box.

and of feed as they like, mixing it to suit themselves.

His stock is always healthy and thrifty. He never feeds any wet or damp feed to his fowls, old or young. From the first they are fed on dry feed and get it from the hoppers.

Each hopper contains a variety of grain, bran and middlings and a compartment full of dry best scrape. His plan saves an immense amount of dirt and work and muzzling with hot mash and mixed feed.

POULTRY NOTES.

Bolled oats or other grain makes a good laying feed.

Be sure the hens are provided with a dust bath.

Old hens make the best mothers, but the pullets are the better layers.

The breed you like best is the best breed for you to keep.

Shells and gravel as well as charcoal should be accessible to the poultry.

By running vegetable parings, bones, small potatoes, dry bread and other scraps through a bone cutter each day and feeding it to the hens, you will have eggs when others have none.

OBITUARY.

John Ross.

John Ross, a well known and highly respected citizen of Sussex, died Saturday morning at 10 o'clock, at his residence in Main street there, aged sixty-two years. Heart disease was the cause of death. His wife and one daughter, Ella, at home, survive. The funeral will take place on Sunday afternoon at 2:30 o'clock, Rev. Frank Baird officiating.

Mr. Ross was born in Scotland and came to Canada with his parents. He served his time as a cabinet maker in St. John for a number of years and later went to Sussex and with his brother-in-law, Adam McPherson, established a furniture and cabinet shop in the Sussex Mill Co., until they amalgamated with the Sussex Mfg. Co., about a year ago.

A year ago Mr. Ross severed his connection with the Sussex Mfg. Co., and for the past six months had been confined to his home in poor health.

Miss Evelyn Lambert.

The death of Evelyn, only daughter of Mrs. S. Lambert, occurred Friday at her mother's residence in Wentworth street. The deceased who was only thirteen years of age, had been ill but a very short time. She was a pupil at the Victoria school, and was very popular.

R. H. Lee Young.

R. H. Lee Young, one of the prominent men of Bathurst, died suddenly at his home Friday. News of his decease was received in the city last evening in a telegram from his cousin, Mrs. C. Robinson, of Elliott Row. The late Mr. Young was proprietor of a large general store business and was a loving father of note. He was a son of the late Hon. Robt. Young, who was president of the legislative council at the time when that body was abolished. Mr. Young was well known here, having attended school in the city. He is survived by his wife, who is a daughter of the late Alex. Ferguson, of Bathurst, and by several children. Two brothers and two sisters are also alive. The brothers are F. T. B. Young and James Young, of Carleton; the sisters, Miss Isabella Young, of Carleton, and Mrs. Fraser, wife of Rev. Frank Fraser, of Minnesota.

Miss Lucy Vail Pickett.

A great many people in this city and province will be shocked this morning to learn of the sudden death of Miss Lucy Vail Pickett, which occurred at Green-wood Friday. Miss Pickett was the daughter of Mr. W. W. Pickett, of M. A. D. D., who was for many years rector of Greenwich parish and who died last June. Deceased was for a long time superintendent of the staff of nurses in the hospital in Newport (R. I.). She had given up her position there to attend her father during his declining years and after his death had volunteered as a diocesan nurse among the clergy of the diocese. The synod readily accepted her services and the David Wetmore Pickett memorial was instituted by Bishop Richardson and, assisted by the diocesan women's auxiliary, had contributed good work among the families of the clergy. Miss Pickett had been spending some days in Kingston and returned to her home on Wednesday apparently in good health. Yesterday she was seized with a stroke of apoplexy and died within an hour without having recovered consciousness. The

Dr. Edward T. Gaudet.

Dorchester, N. B., May 29.—(Special)—Dr. Edward T. Gaudet, the well known physician at St. Joseph's, and surgeon also of the Dorchester penitentiary, died at his home at St. Joseph's at 8 o'clock this morning after a short illness, death being due to Bright's disease, with which he had been troubled for the past few years. Three years ago he recovered from a severe attack and returned to work somewhat carelessly of his own health. Dr. Gaudet was one of the best known physicians in the province and had patients all over the country, especially in troubles of the eye, in which cases he had great success. He was born in the parish of Memramouc, in the county of Miramichi, September, and studied at St. Joseph's College, graduating in the distinguished class of 1875. Two others of that class were the late Geo. V. McInerney, K. C., and Rev. H. A. Meahan, of Moncton. He studied medicine at Victoria College, Montreal, where he took his diploma in 1879, continuing there a year in the hospital with Dr. Desjardins, the famous eye specialist. On his return to the province he practiced some years successfully at St. Joseph's, and was in the meantime a member of the New Brunswick Medical Society. At the request of the late Father Lefebvre he returned to his native parish as doctor for the college and community at St. Joseph's, where he soon established a large practice. He was one of the councillors for the parish for a long time and for a time warden of the municipality of Westmorland. On the death of the late Dr. E. P. Doherty in the fall of 1908 he was appointed surgeon at the Dorchester penitentiary. He was prominent in Catholic and Acadian societies, being a member of the C. M. B. A. and of the Knights of Columbus, and president of the Society of L'Assomption. He was a warm friend, and before his illness was an active and energetic supporter of the Liberal government.

Mrs. Mary West.

Hopewell Hill, N. B., May 29.—(Special)—Mrs. Mary West, widow of Wm. A. West, died quite suddenly at the hospital this morning, the death, which followed an operation for internal trouble, coming as a severe shock to her relatives and occasioning widespread sorrow and regret throughout the community. Although for a few weeks symptoms of a serious character had been present, the deceased had been in apparently good health and was able to go about until the time of the operation on Thursday. Her death was particularly sad and circumstances had cast a gloom over the community and the deepest sympathy is felt for the bereaved family.

Mrs. West, who was sixty-four years of age, was a daughter of the late William Read, of Harvey, and was held in very high esteem by all her friends and acquaintances, being a woman of particularly kind and generous disposition, and of most exemplary Christian character. She had been a resident of this village for a long time, having moved here from Harvey with her husband and family about twenty years ago. She was a devoted

member of the Baptist church, a teacher in the Sunday school and had been president of the B. W. M. Aid Society for several years. A friend to all, her death will be deeply mourned by all those with whom she came in contact.

Deceased is survived by three sons and four daughters, Clifford C. West and Misses Edna, Bertha and Hannah, of this place, and John A. and W. Henry West and Mrs. Frederick Mills, of Winnipeg. She also leaves one sister, Mrs. McGellan, of the Hon. A. R. McCallum, of Riverside, Albert county, and three brothers, Watson E. Read, of Riverside, and James and Merritt, of California; Her husband died eight years ago.

John O'Connor.

The death occurred in this city Sunday of John O'Connor, an old and respected citizen of this city in the 80th year of his age. The deceased was born in Ireland, but came to this country about 56 years ago. He is survived by two sons, Matthew, in the United States, and William, of this city, also one daughter, Annie, at home.

NEW BRUNSWICK LUMBERMEN WILL MAKE A PROTEST

Delegation to Meet Premier Gouin, of Quebec, Regarding Increase in Stumpage Rates.

A delegation of New Brunswick lumbermen will today meet Premier Gouin, of Quebec, to protest against the Quebec government's raise in the stumpage and mileage rates. At the recent session of the Quebec legislature the stumpage rate was raised from 65 cents to \$1 and on cedar and other lumber in proportion. Several local firms and more of the North Shore firms operate in Quebec province. In fact, most of the cedar from which shingles are manufactured in New Brunswick is brought in from Quebec. These firms are therefore interested in the protest which is being made. Arthur Hilyard, of Dalhousie, who was in the city on Friday and Saturday, received a wire just before taking the Quebec express for home on Saturday evening asking him to be one of the delegation, but he was unable to make connections in time.

Mr. Hilyard received a telegram while here stating that the water was rising in the Quebec streams, but does not feel at all confident as yet that any large portion of the cut will be got out. With prices good on the English market and freights low, however, Mr. Hilyard estimates that the summer will be a fairly good one.

THROW AWAY ALL YOUR FEARS

Backache, Gravel and Rheumatism Vanish Before Dodd's Kidney Pills

Palmer Rapids, Ont., May 27.—(Special) The thousands of Canadians who live in daily terror of those terrible forms of Kidney Disease known as Backache, Gravel and Rheumatism, will be deeply interested in the story of Mrs. Fred Krieger, of this place.

"I was for years a great sufferer from Kidney Disease, Gravel, Rheumatism and Backache," Mrs. Krieger states. "It all started through a cold, but I got so my head ached, I was nervous, my limbs were heavy, I had a dragging sensation across my loins, and I was totally unfit to do anything."

"Reading about wonderful cures by Dodd's Kidney Pills led me to buy some. After using a few I found they were doing me good and this encouraged me to continue their use. Eight boxes made me well."

"I have been able to do my own work ever since and today I am completely cured. Dodd's Kidney Pills gave me health and I feel like a new woman."

If you keep your Kidneys strong and healthy you can never have Backache, Rheumatism or Gravel. Dodd's Kidney Pills never fail to make the Kidneys strong and well.

MONCTON STRONG FOR LEASING LIGHTING PLANT

Moncton, May 27.—By a decisive vote, which was almost unanimous, the citizens today endorsed the agreement prepared by the city council with the Street Railway, Electric & Gas Company for the leasing of the city lighting plant for a period of thirty-nine years.

The vote in favor of the proposition was over twelve to one. The vote was large considering there were no rival factions to get out the vote. In the last civic election 876 votes were polled, compared with 826 cast today.

The voting was conducted quietly, the only activity shown being by citizens who were anxious to see the agreement carried by a large majority. There was little doubt from the outset as to the result, the only question being the majority.

The total vote was 783 for the agreement and 63 against. Vote by wards: Ward 1—For, 150; against, 7. Ward 2—For, 314; against, 20. Ward 3—For, 299; against, 36.

Following the endorsement of the agreement with the street railway company a large number of enthusiastic citizens met in No. 3 fire station this evening for the purpose of forming a greater Moncton club. The discussion was favorable to the proposal and a committee was appointed to look into the matter and report to an adjourned meeting.

MONSTER GREY TROUT

25-Pounder Is Caught in Kagama Lake.

(Ottawa Citizen). The Kagama Club is now celebrating. One of the largest trout ever caught in this district was landed from Kagama lake, up the Gattineau, Tuesday. It is a gray trout and when taken from the water just tipped the scales at 25 pounds. It is a beauty, 36 3/4 inches long and of 24 inches girth. The lucky fisherman was James B. Gillespie, who was using a troll with 600 feet of copper wire. The big fish twisted the boat about as a whirlpool would and there was great difficulty in landing it. J. B. McRae was also in the boat and as there was no dip-net they tipped the boat sufficiently to reach the fish with their hands and catching it by the gills, pulled it in, with many a cut on their fingers to prove it. The fish will probably be given over to the museum. Prof. Prince is very anxious that this fine specimen be mounted as a proof of what Canadian lakes contain.

MAINE WOMAN DIES AT 103.

Westbrook, Me., May 29.—Mrs. Mary McKeague, probably the oldest woman in Maine, died at her home here tonight, aged 103 years. Mrs. McKeague was born near Belfast, Ireland, and came to this country when 19 years old. Her maiden name was Gordon.

Bees never store honey in the light, because honey thus exposed granulates, and is thus useless to the bees.

In England and Wales last year there were 18,757 more boys than girls born.

KING'S BIRTHDAY, JUNE 3, IS A BANK HOLIDAY

Ottawa, May 27.—The king's birthday, June 3, is, under the bills of exchange act, a statutory holiday, and falling action by the government-in-council, must be so observed in Canada. No action has yet been taken by the council.

A vinegar and bran poultice is invaluable for pains and aches of all kinds. To make it moisten some bran with vinegar, heat it in a sauceron or in the oven until it is nearly boiling, then put the mixture into a flannel bag. Stitch up the opening, and apply the poultice as hot as possible.

The poorest man may give as much as the richest, if he will give all he can.

CASTORIA

The Kind You Have Always Bought, and which has been in use for over 30 years, has borne the signature of and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but Experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is Pleasant. It contains neither Opium, Morphine nor other Narcotic substance. Its age is its guarantee. It destroys Worms and allays Feverishness. It cures Diarrhoea and Wind Colic. It relieves Teething Troubles, cures Constipation and Flatulency. It assimilates the Food, regulates the Stomach and Bowels, giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

GENUINE CASTORIA ALWAYS Bears the Signature of

The Kind You Have Always Bought

In Use For over 30 Years.

THE CASTORIA COMPANY, 77 NASSAU STREET, NEW YORK CITY.

MONCTON STRONG FOR LEASING LIGHTING PLANT

Moncton, May 27.—By a decisive vote, which was almost unanimous, the citizens today endorsed the agreement prepared by the city council with the Street Railway, Electric & Gas Company for the leasing of the city lighting plant for a period of thirty-nine years.

The vote in favor of the proposition was over twelve to one. The vote was large considering there were no rival factions to get out the vote. In the last civic election 876 votes were polled, compared with 826 cast today.

The voting was conducted quietly, the only activity shown being by citizens who were anxious to see the agreement carried by a large majority. There was little doubt from the outset as to the result, the only question being the majority.

The total vote was 783 for the agreement and 63 against. Vote by wards: Ward 1—For, 150; against, 7. Ward 2—For, 314; against, 20. Ward 3—For, 299; against, 36.

Following the endorsement of the agreement with the street railway company a large number of enthusiastic citizens met in No. 3 fire station this evening for the purpose of forming a greater Moncton club. The discussion was favorable to the proposal and a committee was appointed to look into the matter and report to an adjourned meeting.

MIDGET NOVA SCOTIA MAN DEAD

Edward Hupman, Two Feet, Nine Inches Tall, and Weight 30 Pounds, Dies at Age of 38.

Halifax, May 27.—Edward Hupman, probably the smallest man in Canada, died yesterday in his home at Allende, Nova Scotia. He was thirty-eight years of age. His height was two feet nine inches and he weighed thirty pounds. He had been ill for five months with stomach trouble, but the immediate cause of death was paralysis, with which he was stricken on Sunday.

His sister, who is now about twenty years of age, also is of exceedingly small stature. During the construction of the public wharf at Lockport station, Hupman was employed as timekeeper.
