CALENDAR, 1898-99.

Meetings of the University Council are held on the last Tuesday of September, and on the first Tuesday of other months. Meetings of the University College Council are held on the fourth Friday of September, and on the first Friday of other months. Meetings of the Senate are held on the second Friday of each month, and meetings of the Faculty of Medicine on the first Friday of each month from October to May, inclusive.

1898-Sept. 14-Supplemental Examinations in all Faculties begin.

Oct. 1—Academic year begins.

Registration of Students in Arts by the Registrar; and in-Medicine by the Secretary of the Medical Faculty; enrolment in classes by the various Professors.

Oct. 3-Leetures in Arts and Medicine begin.

Dec. 19-22—Term Examinations.

RUARY

ARCH.

Dec. 22-Michaelmas Term ends.

Dec. 25-University Buildings closed.

1899—Jan. 1—University Buildings closed.

Jan. 9—Easter Term begins.

Lectures in Arts and Medicine begin.

Feb. 15—University Buildings closed.

March 21—Annual Examinations in Dentistry begin.

March 31—University Buildings closed.

April 10—Annual Meeting of Medical Faculty.

April 15-Examinations in School of Practical Science begin.

April 18-21-Term Examinations.

April 21-Lectures in Arts end.

Lectures in Medicine end.

May 1—Annual Examinations in Arts, Law, Medicine, and Agriculture begin.

Last day for presentation of M.A. Theses.

May 9-Annual Examinations in Applied Science begin.

May 11-Annual Examinations in Music begin.

May 24-University Buildings closed.

June 1-Applications for Fellowships.

June 7-Senior Matriculation Examinations in Arts begin.

June 9-University Commencement.

July 1-University Buildings closed.

N.B.—Candidates are required to give notice to the Registrar of intention to present themselves at the annual examinations in Arts at/least_six weeks before the commencement of the examinations. At the examination for Matriculation Scholarships similar notice must be given on or before the 24th May, and at any other University examination at least three weeks before the commencement of the examination.

Time Table of Lectures in Arts.

Note.—In the following table * indicates "Honor Subject"; + indicates "Hon. Chem. and Min."; (a) indicates "Michaelmas Term"; and (b) "Easter Term." Numerals (1), (2), etc., denote the class-rooms of the main building. Subjects for which no class-rooms are indicated are provided for in the various buildings appropriate to them. Laboratory hours in upper years of Chem. (Chem., Min. and Phys. and Chem.) and in Psychol. will be arranged at the beginning of Term. School of Science students attend Math. Div. E. of the First year.

Organization of the University.

The management of the finances and academic business of the University is entrusted to the Crown, the Board of Trustees, the Senate, Convocation, the University Council, and the Council of University College. The functions of these various bodies are defined in the following paragraphs:—

1. The Crown.—The supreme authority in all matters is vested in the Crown. The Lieutenant-Governor of Ontario is the Visitor of the University and of University College on behalf of the Crown, and his visitatorial powers may be exercised by commission under the Great Seal. All the property of these institutions is vested in the Crown, in trust, and is managed and administered by the Bursar, who is an officer of the Crown. Annual appropriations are made on the authorization of the Lieutenant-Governor in Council. All expenditures of

..

endowment are similarly authorized, subject to ratification by the Legislative Assembly. The Crown exercises also a veto power as to statutes of the Senate and enactments and regulations of the Councils. Appointments in the University and University College are made by the Crown after such examination, inquiry and report as are considered necessary.

2. The Board of Trustees.—The Eoard of Trustees consists of ten members, viz., the Chancellor, the Vice-Chancellor, the President of University College, ex officio; five members elected by, but not necessarily members of, the Senate of the University of Toronto; and two members elected by, but not members of, the Council of University College. This board has general advisory powers with regard to the management and disposition of the endowments and income of the University and College, subject to the control of the Crown. In the discharge of its functions the Board makes recommendations regarding the investment of the funds, the leasing of University properties, the letting of contracts, and exercises a general superintendence over the University property as to insurance of buildings, etc.

3. THE SENATE.—The Senate consists of three classes of members: (1) Ex officio members; (2) Appointed members; and (3) Elected members. The ex officio members are the Minister of Education, the President of University College, the president or head of each federated university or college, the present Chancellor and Vice-Chancellor, and all past chancellors and vice-chancellors. The appointed members consist of three representatives from the Council of the University of Toronto, one from the Council of University College, one from the Law Society of Upper Canada, one from each federated or affiliated institution (subject, however, in the latter case to certain restrictions), and nine members appointed by the Lieutenant-Governor in Council. The elected members at present number twenty-five, and represent the graduates of the University of Toronto in Arts (twelve members), in Medicine (four members), in Law (two members), the graduates of the federated University of Victoria (five

members), and to members)—the puniversity voting of Toronto in the

members), and the High School teachers of the Province (two members)—the graduates in Medicine and Law of Victoria University voting along with the graduates of the University of Toronto in the same faculties.

The body thus composed is renewed once in three years, when all except the ex officio members must retire, being eligible, however, for re-appointment or re-election. The chairman of the Senate is the Chancellor, who is the elected representative of the whole body of graduates, or in his absence the Vice-Chancellor, who is elected by the Senate from among its members at its inaugural meeting after the triennial dissolution.

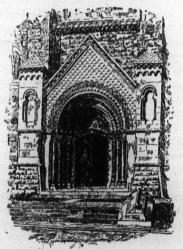

The functions of the Senate regard the general management of the business of the University, the prescription of curricula in the various faculties and schools, the examinations for degrees, scholarships, prizes, and certificates of honor, the granting of degrees, the levying of fees for examination and degrees, and the promotion of the welfare of the University in cases not otherwise provided for by law. The Senate is also required to report annually to the Lieutenant-Governor on the general condition and progress of the University, and has power to inquire and report concerning the conduct, teaching, and efficiency of members of the Faculties of the University of Toronto and of University College.

4. Convocation.—Convocation consists of the whole body of graduates of the University, in all faculties. Except indirectly through its elected representatives, no part of the management of the University is exercised by it as a whole. It elects the Chancellor, and, in divisions according to faculty, it elects members of Senate as its representatives in Arts, Medicine, and Law. Any question relating to University affairs may be discussed by it, and a vote taken. The result of such discussion is communicated to the Senate, which must consider the representation made, and return to Convocation its conclusion thereon.

5. THE UNIVERSITY COUNCIL.—This body consists of the President (who is also President of University College) and

the Professors of the University in Arts and Medicine. The Council has full powers with reference to all instruction in the Faculties of Arts and Medicine in the University, the discipline of all students and student societies or associations in these faculties, and the control of all officers and servants. Laboratory fees are also determined by the Lieutenant-Governor in Council on report of the University Council.

6. The Council of University College.—This body is composed of the President, the Professors in University College, and the Dean of the University College Residence for the time being. The Council of University College has authority over the students of University College, control of the servants, and power to regulate registration fees and fees for occasional students in University College subjects. Its functions are, however, more extensive than those of the corresponding governing body of the University of Toronto, notably as to its constitution as a corporation with a common seal, with power to hold property. All students in Arts are enrolled in University College, or in a federated University.

GENERAL INFORMATION FOR STUDENTS IN ARTS.

Degrees.

The degree of Bachelor of Arts is conferred on those persons who have completed the prescribed courses of study, and passed the required examinations. The courses of study extend over a period of four years, and are divided into General and Honor courses. A corresponding distinction is made in the degree conferred. Attendance on lectures is compulsory, unless a dispensation is granted owing to special circumstances. The degree of Master of Arts is conferred on Bachelors of Arts of at least one year's standing, on the presentation of an approved thesis in one of the departments of study in Arts. Provision is also made for admission ad eundem gradum in the case of both degrees. The curriculum of study prescribed for the degree of Bachelor of Arts will be found on pp. 66-113. For further details, see also pp. 114-140. The Degree of Doctor of Philosophy is conferred upon Bachelors of Arts of at least two years standing, who have complied with the requirements prescribed by the Senate, see p. 190.

Entrance.

Candidates for the degree of Bachelor of Arts may enter this Faculty either by Junior Matriculation or Senior Matriculation (the examination of the First year). The certificate of the Department of Education is accepted pro tanto at both of these examinations. The subjects of Latin; English; History; Mathematics; French or German; and either (1) Greek or (2) the second Modern Language with Physical Science (Physics and Chemistry), are required of all candidates at Junior Matriculation. The subjects of English; Latin; any two of the following languages, viz., Greek, French, German, Hebrew;

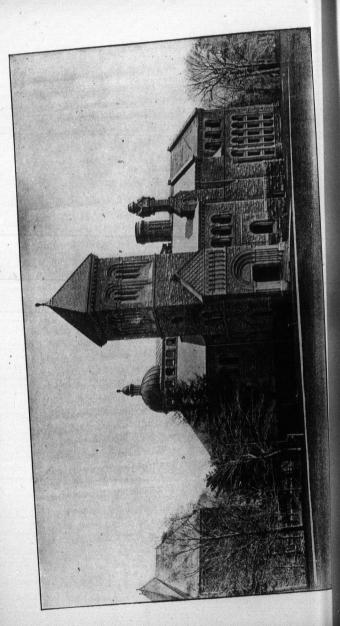

Ancient History; Mathematics; and Physics or Biology are required of all candidates at Senior matriculation. Additional work in the various subjects is prescribed for honor standing. The Junior Matriculation examination is held in July, and applications must be sent to the Education Department before 24th May. The Senior Matriculation examination is held in May and June, while Supplemental examinations for both Junior and Senior Matriculation are held in September, applications for all such examinations being sent to the Registrar of the University of Toronto. All applications must be accompanied by the prescribed fee, namely, two dollars for Part I. of the Junior Matriculation examination, five dollars for Part II. (or five dollars for the whole examination in case Parts I. and II. are taken at the same time), fifteen dollars for Senior Matriculation, and ten dollars for Supplemental examination. Provision is also made for admission ad eundem statum, the fee being ten dollars. For details see p. 57, etc.

Examinations.

In addition to the Matriculation examination mentioned above, candidates proceeding to the degree of Bachelor of Arts are required to pass an annual examination, held in the month of May, in all the subjects of their course of study. In the First and Second years a report is required from the professor or lecturer in all subjects of the General course, except Chemistry, Natural Science, and Physics, based upon the attendance of candidates and their proficiency during the year. This report is incorporated with the results of the May examination, of which it constitutes an essential part. Candidates for honors in Physics, Chemistry, Biology, Mineralogy and Geology, and Psychology, before proceeding to the annual examination, must present a certificate of having attained honor standing in the practical work of the subject during the year. For details see pp. 60-65.

Prayers are of pulsory, but all expected to be pure ity College 1 to 6.30 p.m.

Instruction.

Instruction is given in the various subjects of the Arts course by the Arts Faculty of the University of Toronto, the Faculty of University College, and the Arts Faculty of Victoria University. In the division of the work of instruction between these faculties the subjects are assigned as follows:-To the Faculty of the University of Toronto: Mathematics, Physics, Mineralogy and Geology, Biology, Chemistry, History of Philosophy, Logic and Metaphysics, Comparative Philology, Phonetics, Italian, Spanish, Modern History, Political Economy and Constitutional History, Constitutional and International Law, Roman Law, General Jurisprudence, and History of English Law; and to the Faculty of University College, as also to that of Victoria University: Latin, Greek, Ancient History, English, French, German, Oriental Literature, Ethics. Instruction in certain options allowed to theological students of federated institutions is given in Victoria University, Knox College, and Wycliffe College. St. Michael's College also co-operates with the University in the work of instruction in Modern-History and Philosophy.

Discipline.

All students attending courses of instruction in the University of Toronto or University College are responsible to the Councils for proper and orderly conduct within the University class-rooms, buildings, and grounds. The Councils have authority to impose fines, to levy assessments for damages done to property, to inflict at their discretion the penalties of suspension or expulsion, and to use all other appropriate means of discipline. For the regulations relating to the College Residence, see Appendix.

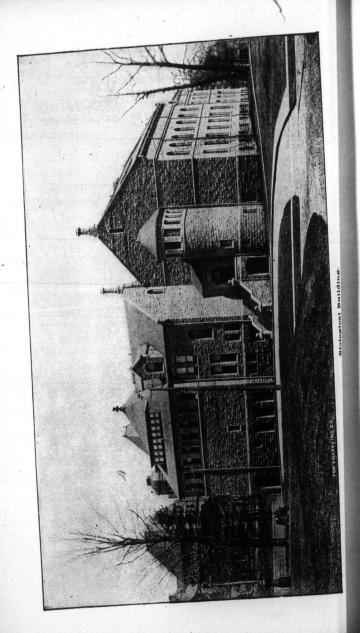

Religious Worship.

Prayers are offered daily at 10 a.m. Attendance is not compulsory, but all those who have no conscientious scruples are expected to be present. Under similar regulations in the University College Residence prayers are offered at 8.10 a.m., and at 6.30 p.m.

The Library.

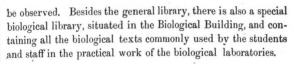

The University Library occupies a separate building erected almost wholly by private benefaction, and completed in 1892. Besides a fire-proof book-room with a storage capacity of 100,000 volumes, it contains a reading-room capable of seating upwards of 200 readers, a periodical-room, seven departmental libraries, offices, cloak-rooms, and conversation-rooms. The building is heated by steam throughout, thoroughly ventilated. and supplied with electric light. The library contains at present about 60,000 volumes, together with upwards of 6.000 unbound pamphlets. It is provided, as far as the income permits, with the standard and current literature of all sub-In the departments of the jects taught in the University. natural and physical sciences it includes the principal journals and transactions of societies. In the departments of language and literature, the works of all authors of primary or secondary importance from the origins of each literature to the present time are available, as well as the principal philological and literary periodicals. Corresponding facilities are provided in the departments of philosophy, history and political science. The library is a circulating one for members of the Faculty, and a library of reference for students. The latter, however, are allowed under certain conditions the use of books at home outside of library hours, and students engaged in special work. which requires the consultation of books of reference, are allowed access to the stack-room by the librarian on the recommendation of the professors. The departmental libraries are in charge of the professors in each department, and contain special reference collections of books. These rooms are used for the instruction of advanced students, who may at the discretion of their professors use the rooms and the books contained in them for private study. The conversation-rooms situated in the basement, are intended for the use of students who wish to withdraw for the purpose of discussion or combined study, to avoid disturbance of the reading-room proper, where absolute quiet must

The graphic work a

Laboratories.

The Physical Laboratory, established in 1878, is situated in the Western part of the main University Building, and consists of a set of rooms for elementary work, together with a number of special laboratories. The apparatus in the former is suitable for preliminary exercises in reading and constructing scales, and for the simpler experiments in Mechanics, Geometrical Optics, Heat, Sound, and Electricity. The special laboratories are equipped for the use of advanced Arts students taking the honor course in Physics, and for senior students in Engineering. The collection of apparatus includes balances by Collot and Ertling, cathetometer and dividing engine by Dumoulin-Froment, comparator by Troughton and Sims, clock by Dent, chronograph and clockfork by Kenig, exhaustion and compression pumps by Bianchi, Golaz, Alvergniat, and Carré. In the Heat Laboratory the collection includes the Golaz apparatus designed to repeat the classical experiments of Regnault. The equipment of the Acoustical Laboratory is exceptionally complete, and includes all the more important instruments constructed by Koenig, amongst them being the large forks with which his original experiments on beats were made. The Optical Room is provided with heliostat by Duboscq, Jamin's universal circle with accessories by Lutz, Gouy's spectroscope by Lutz, optical bench for diffraction and interference experiments by Lutz, Norremberg's polariscope, microscopes by Natchet and Zeiss, etc. The Electrical Laboratory is furnished with electrometers, galvanometers, resistance coils, magnetometer, dip-circle, voltmeters, ammeters, etc., for the most part constructed by Carpentier of Paris. The Laboratory is also well equipped for photographic work and for the ordinary operations of glass-blowing.

Biological Building.

In connection with the Laboratory is a well equipped workshop in charge of a skilled mechanician who makes the necessary repairs, and constructs many of the new instruments added to the collection. Special arrangements may be made by graduate students for pursuing original investigations in the Laboratory.

The Psychological Laboratory, which was established in 1892, is situated in the west wing of the main University Building, in close proximity to the Physical Laboratory, the apparatus of which is available for some of the work in Psychology. The Laboratory is well equipped for investigations in Psycho-Physics, Psychological Optics and time relations of mental phenomena. There is in connection with the Laboratory a small library containing the periodicals and the special literature of Experimental Psychology. On account of the increased number of undergraduates and graduates in the Philosophical Department, and especially in order to facilitate the independent research of the graduates, it has been found necessary to extend the Psychological Laboratory by the addition of the rooms adjoining the Ethnological Museum.

The Biological Building contains laboratories both for general and special work. On the ground floor are laboratories for Physiology and Physiological Chemistry. On the first floor there are, in addition to the large laboratory for general purposes, laboratories for Morphology, Bacteriology, Physiological Botany, a photographic room, and a store-room for chemical re-agents. The large laboratory mentioned above is used for the practical instruction of students of the First and Second years in Arts and Medicine. The Morphological Laboratory for students of the Third year has accommodation for twenty-two students, while for students of the Fourth year accommodation is furnished in the two large laboratories of the ground floor, one of which, specially designed for Physiology, is at present used also for morphological work, and the other fitted up for practical instruction in Physiological Chemistry. The Morphological Laboratories are provided with microscopes and all

The University of the Biological is now so far adversely public. It is proposed for the students

apparatus used by the students in morphological work, and they contain, stored in glass cases, a large number of models and museum preparations for the illustration of animal and vegetable Morphology. The Bacteriological Laboratory is provided with apparatus to illustrate the Biology of Bacteria. The Physiological Laboratory is provided with a fairly complete outfit of apparatus for demonstrations in Physiology. apparatus is used for illustrating the lectures in Physiology delivered to the students of the First and Second years in Arts and Medicine, but is also employed by students in advanced Physiology (of the Fourth year Arts) in repeating for themselves all the important experiments dealt with in the advanced lectures on the subject. The apparatus for lecture purposes includes a projection microscope by Zeiss for electric light. The photographic room in connection with the laboratories is supplied with all the apparatus used in photography as applied to the various kinds of biological work.

The new Chemical Building was completed in 1895. It contains, in addition to two lecture-rooms with accommodation for 300 and 100 students respectively, special laboratories for qualitative analysis, quantitative analysis, organic preparations, physical chemistry, gas analysis, combustion and furnace operations, and for the prosecution of original investigation. The total number of working places in these laboratories exceeds 200.

The Laboratory for Mineralogy and Geology is accommodated temporarily in the west wing of the Biological Building. Assay-furnaces and other appliances for the practical work of the Department are provided.

Museums.

The University Biological Museum forms the central portion of the Biological Buildings. The equipment of the Museum is now so far advanced as to permit of its being opened to the public. It is primarily intended as an educational Museum for the students taking biology as part of their University

work, and is arranged in such a way as to facilitate the most elementary as well as the most advanced studies. Each specimen is furnished with a printed label indicating the most salient points which it is designed to illustrate, but it is anticipated that the Museum will also be of great interest to the general public, and will attract even greater numbers of visitors than the old Natural History Museum in the University Building.

The public entrance to the Museum is approached from the west façade to the Biological Buildings, while the students gain access to the rooms through the eastern wing, in which the laboratories are situated. The interior of the Museum, which occupies two floors, is sub-divided into four rooms, seventy-five by twenty-five feet in size, amply lighted by handsome windows on the north and south sides. Three of these rooms are devoted to Animal Biology, while the fourth, which is to be arranged for the illustration of Vegetable Biology, is temporarily fitted up for the accommodation of the Ferrier collection of minerals.

The public entrance opens into the north ground floor room, the wall cases in which contain stuffed specimens of the various orders of Mammals, while the free-standing cases between the windows illustrate the comparative anatomy and development of that class. All the show cases are constructed of iron and plate class, those destined for the exhibition of smaller specimens standing on wooden storage cases, built of cherry and cedar, and containing skins and other specimens for private study. The south ground floor room is devoted to the remaining vertebrate classes, the wall cases containing stuffed specimens of birds, reptiles, batrachians and fishes, and the smaller cases between the windows containing specimens illustrating the comparative anatomy and development of these classes.

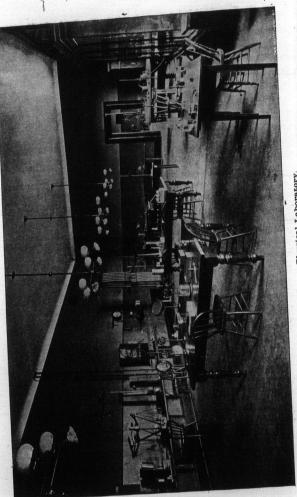

A handsome staircase decorated with busts of distinguished biologists connects the ground floor with the first floor; a number of wall cases in ascending series contains a small collection of fossils from all parts of the world, as a graphic illusa the most Each speciy the most it is anticirest to the numbers of e University

The Ethnological Museum is situated in the second story It contains that part of of the main University Building. the ethnological collection which was saved from the fire of 1890, together with the additions which have been made since There is a fair collection of skulls, including that time. ancient Egyptian and Roman skulls and models of the Neanderthal, Cro-Magnon, and other famous skulls. There are also interesting palæolithic implements from the English and French Drift, and the beginning of a good collection of stone implements from various parts of Canada. As the aborigines of this country are rapidly disappearing, it becomes increasingly important to preserve as many objects as possible illustrating their ethnological characteristics. Many friends of the University are in a position to contribute to the ethnological collection, and it is hoped that they will do what they can to aid in its completion.

University Publications,

Under the general title of "University of Toronto Studies," a publication in the interests of scholarship and research has been begun, which will contain selected papers by members of the University. The committee of management represents the Faculties of the University, University College, Victoria University, and the School of Practical Science. The President of the University is Chairman, and the Librarian is general editor. Each series is under the special editorship of the professor to whose department the series relates, and his name is the guarantee of the value and originality of the papers published on his recommendation. From the nature of the publication there is no regularity of issue, but as papers are accepted and recommended for publication, they are published to the extent of the funds available, without regard to any consideration except that of their value as contributions to the literature of learning.

For list of studies published from July, 1897, to May, 1898, see Appendix, p. 32.

Elementary Physical Laboratory

Public Lectures.

In addition to the regular courses of instruction, a number of public lectures on special subjects of interest are delivered annually under the auspices of the University, on Saturday afternoons, by members of the Faculty and others whose services are given voluntarily in this work. The lectures cover a large variety of topics, and those delivered hitherto have been numerously attended by the public as well as by the students of the University. For the list of subjects and lectures during 1897-98, see Appendix, p. 32.

Scholarships, Prizes and Medals.

A large number of scholarships are awarded upon the result of competitive examinations, both in the University of Toronto and in University College. Through the generosity of the Chancellor, Mr. Edward Blake, and others, twenty-nine scholarships are offered annually at Matriculation for proficiency in the subjects of the examination on the whole, and also for proficiency in one or more branches of learning. In nearly all cases these scholarships include free tuition throughout the undergraduate course, being made dependent, however, upon the maintenance of a certain standard of scholarship by the winner after matriculation. With the exception of one scholarship with special conditions, they range in value from \$105 to \$230. In addition to the above, various undergraduate scholarships are offered for competition in Classics, Modern Languages, Mathematics, Physics, Philosophy, Natural Science, Chemistry and Mineralogy, and Political Science. These scholarships range in value from \$50 to \$75, and are tenable for one year. A scholarship of \$60 in Political Economy, and one of £150 sterling in some other department of Physical Science, are offered for post-graduate competition, the former annually, and the latter every second year. Prizes in books are offered in English, French, Italian, Chemistry, and Mineralogy and Geology. Medals are also awarded in Classics, Modern Languages,

Natural Science, certain of the Hosee pp. 47-56.

dern Languages,

Natural Science, in the work of the General Course, and in certain of the Honor departments with English. For details, see pp. 47-56.

Fellowships.

Tutorial Fellowships are offered in Mathematics, Chemistry, Biology, and Political Science. They are of the value of \$500, and are open to graduates of the University only. The Fellows are appointed annually, and are eligible for reappointment for a period not exceeding three years in all. Fellowships are also offered in Political Science and Philosophy. For details, see p. 56.

Student Societies.

Various societies and associations, both of young men and of young women, have been organized for the promotion of Christian effort, social intercourse, literary and scientific activity. The Young Men's Christian Association has a building especially devoted to its purposes, in which a devotional meeting is held every Thursday, and a public meeting every Sunday, at which latter addresses are delivered by prominent Christian workers. There is also a Young Women's Christian Association which meets weekly. The Literary and Scientific Society, whose membership is made up of male students, holds weekly meetings for discussion, the reading of essays, etc. This society furnishes a well-equipped reading-room for the use of students. The Women's Literary Society has similar aims and methods. Besides the above there are several associations for the encouragement of special branches of study. These are the Classical Association, the Modern Language Club, the Mathematical and Physical Society, the Natural Science Association, and the Political Science Club. Clubs have also been organized for the cultivation of musical talent and athletics. devoted to literature and college news is published weekly, its staff consisting of representatives from various sections of the undergraduate body. For lists of officers of the various Societies, see Appendix, p. 37.

Gymnasium and Athletic Grounds.

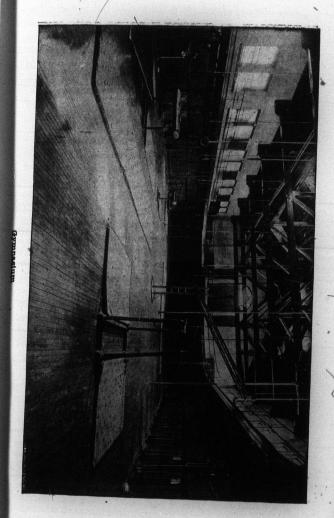

The University Gymnasium was completed and equipped in 1893. It is fully provided with the best and most modern appliances for physical culture, and contains a running-track, bowling-alleys, shower-baths and swimming-baths, besides the necessary dressing-rooms and other conveniences. A competent instructor in Gymnastics is in constant attendance to superintend and direct the exercises of students. In addition to the lawn in front of the main University Building, a large plot of ground in the rear has been put into order for athletic purposes. By this addition the facilities for football, cricket, tennis and other out-door athletic sports are doubled, as compared with previous accommodation; and by these grounds, in conjunction with the Gymnasium, ample opportunity is afforded to all students for healthful exercise and physical development. To assist in meeting the expenses of the Gymnasium, a nominal annual fee is imposed on those who avail themselves of its advantages. Applications from clubs for the use of the grounds must be made annually to the directorate of the Athletic Association. All such applications must be accompanied by a list of officers and a report (including financial statement) on the work of the club for the previous year. In the case of new clubs, the list of officers must be accompanied by particulars as to the organization and objects of the club making application. The allotment of the grounds will be made by the directorate, subject to the approval of the Councils. For table of gymnasium hours, see Appendix, p. 41.

Students' Union Building.

In 1894 additions were made to the front of the building in which the Gymnasium is situated, consisting of a large hall for public meetings, a reading room and committee rooms. This additional accommodation is available for the work of the various student societies and for academic purposes. Applications for the use of rooms, accompanied by a list of officers

Arrangements have also been made by which recognized societies may obtain the use of committee rooms on application to the janitor of the Students' Union Building.

Lodging and Board.

There is in connection with University College a Residence which provides accommodation for about forty students. The Residence forms a wing of the main University Building, and is under the supervision of the Dean of Residence, to whom is entrusted, under the Council, the discipline of resident students. The fee payable for board, rent of room, etc., varies from three and three-quarters to four dollars and a-half per week. For rules and regulations respecting the Residence, see Appendix. Accommodation is also readily obtainable in numerous private boarding-houses within convenient distance of the University, at a cost of from three dollars upwards for comfortable lodging with board; or rooms may be rented at a cost of from one dollar per week upwards, and board obtained separately at moderate rates. A list of accredited boarding-houses is kept by the Secretary of the University College Young Men's Christian Association, and students are recommended to consult him with reference to the selection of suitable accommodation.

Regulations Relating to Students, Terms, and Examinations.

1. The regular students include undergraduates of the University, and matriculants, i.e., students who, though they have not passed the prescribed matriculation examination, are taking the full undergraduate course.

Students entering University College are required to produce satisfactory certificates of moral character and previous good conduct.

 No student will be enrolled in any year, or be allowed to continue in attendance, whose presence for any cause is deemed by the Council to be prejudicial to the interests of the College. 4. Matriculated students are required to attend the courses of instruction and examinations in all subjects prescribed for students of their respective standing, and no student will be permitted to remain in the College who persistently neglects academic work.

5. The certificate required for admission to the University examinations will not be granted to students who have been reported to the Council for not conforming to the College or University regulations, or for improper conduct

of any kind.

6. Matriculated students are required to reside, during the period of their attendance on lectures, in the College, or in houses selected by their parents or guardians, or approved by the President.

7. Men and women students, unless members of the same family, are not

permitted to reside in the same lodging-houses.

Women students are under the supervision of the Lady Superintendent, whose directions as to conduct are to be observed.

9. All interference on the part of any student with the personal liberty of another, by arresting him, or summoning him to appear before any tribunal of students, or otherwise subjecting him to any indignity or personal violence, is forbidden by the Council. Any student convicted of participation in such proceedings will forfeit the certificate required for admission to the University examinations, and will render himself liable to expulsion from the University.

10. A student who is under suspension, or who has been expelled from the College or University, will not be admitted to the University buildings or grounds.

11. The constitution of every College or University society or association of students and all amendments to any such constitution must be submitted for approval to the College or University Council. All programmes of such societies or associations must, before publication, receive the sanction of the Council. Permission to invite any person not a member of the Faculty of the University or University College to preside at or address a meeting of any society or association must be similarly obtained. Societies and associations are required to confine themselves to the objects laid down in their constitution.

12. The name of the University or College is not to be used in connection with a publication of any kind without the permission of the University or College Council.

13. The Gymnasium and Athletic grounds are under the supervision of the President and a Joint Committee of the University and College Councils, who are authorized to make rules and regulations with regard to the use thereof.

14. Occasional students may be admitted to lectures on application to the President.

15. Certificates of attendance on lectures in any department during an academic year may be given to occasional students who have been regular in their attendance, and who have also passed the examinations in such department.

FEES.

N.B.—All fees, with the exception of those for Matriculation, are payable to the Bursar, at his office in the main University building, between the hours of ten and one o'clock except on Saturday.

I. UNIVERSITY FEES.

General.

The following fees are payable :-		
For Junior Matriculation (Part I.)	. Two Do	llars.
For Junior Matriculation (Part II.)	. Five	"
For Junior Matriculation (Parts I. and II. together)	. Five	"
For Senior Matriculation	. Fifteen	"
For each Supplemental examination	. Ten	"
For each examination after Matriculation		"
For change of Faculty	. Five	"
For admission ad eundem statum		"
For the Degree of B.A	. Ten	"
For the Degree of M.A. (examination, \$10; degree, \$10		"
For admission ad eundem gradum (B.A. or M.A)	A STATE OF THE PARTY OF THE PAR	"
For registration for Ph.D. course	wenty-five	.66
For the Degree of Ph.D		"
For admission to a higher year on the certificate of th		,
Head of a federated College		"
For dispensation from attendance at lectures in a feder		
ated College		"
For certificates of Honor, each		"

The fee for each examination after Matriculation shall be \$14, this regulation to include Supplemental examinations in cases where the full examination is taken, and does not arise in consequence of rejection at a previous examination.

The fee for a partial Supplemental examination and for a full Supplemental examination, which does arise in consequence of rejection at a previous examination, shall be \$10.

Matriculated undergraduates who are registered students of University College, or of any federated University, may attend lectures of University professors and lecturers in the Faculty of Arts without payment of fees, except those imposed for laboratory work; but such students must enter their names with the Registrar of the University.

Laboratory Fees.

"A course in laboratory work" means the continuous course of instruction in laboratory or practical work offered to the student in any one year in any of the undermentioned subjects, namely, Physics, Chemistry, Mineralogy and Geology, Psychology, Biology (including Physiology, Zoology, Botany, and Histology), and any other separate subject in which laboratory work is or may be prescribed.

"A partial course of laboratory work" means a special course, or any subdivision, complete in itself, of a course of laboratory work as above defined.

"A matriculated student in Arts" means a student who is matriculated in the University of Toronto, and enrolled in University College or a federated University, and whose name is entered with the Registrar of the University of Toronto.

"An occasional student" includes every student in whose case the Senate of the University of Toronto is by law authorized to determine fees for courses of lectures in the University of Toronto.

Laboratory fees shall be divided into, (a) Fees for practical instruction in the laboratory, (b) Charges for supplies.

Practical Instruction Fees.

The annual practical instruction fee for an occasional student attending a course, or partial course, of laboratory work shall be based on the lecture fee prescribed for occasional students by the Senate statute, namely:

For	each	course	of not n	nore	than	15	hours	 					\$2	00
			between											
	"	"	" -	30	""	50	"						5	00
"	"	"	"	50	"	80	""	 			 		71	00
			more th											

The annual practical instruction fee for an occasional student attending a course, or partial course, of laboratory work, shall be ascertained by adding for the purpose of calculation, to the number of lecture hours in the same course, or partial course, the number of hours of laboratory work therein; and by rating the aggregate lecture and laboratory fee for that course combined accordingly, as for example :-

Assuming the course of lectures to comprise fifteen hours, and the course of laboratory work to comprise fifteen hours, making thirty in all, the total fee for the course of lectures and laboratory work combined shall be that prescribed above for thirty lecture hours, namely, \$3.

Charges for Laboratory Supplies.

Charges for supplies shall include laboratory materials and instruments used by or for the student, and ordinary wear and tear of instruments; but not charges for waste, neglect and breakage, which are to be met out of a deposit, to be fixed by the Professor.

Second Year	3 00	.2	75

The payment of fees shall not entitle any occasional student to be admitted to the laboratory work of a later year without having taken that of the earlier year or years, unless this requisite is dispensed with by the Professor or the Senate.

Fees for Occasional Students in Arts, and Library Fees.

1. "A course of lectures" means the continuous course of instruction, excepting laboratory work, offered in the University Faculty to students in Arts in any one year in any of the undermentioned subjects, namely: History; Italian and Spanish; History of Philosophy, Logic, Metaphysics and Psychology; Political Science (including Political Economy, Jurisprudence and Constitutional Law); Mathematics; Physics; Chemistry; Mineralogy and Geology; Biology (including Physiology, Zoology, Botany and Histology); and any other separate subject in which instruction is or may be given by the teaching Faculty in the University of Toronto.

"A partial course of lectures" means any special course or any subdivision, complete in itself, of a course of lectures as above defined.

66		66	more tl	han		80	"					8	00	

3. Every matriculated student in Arts shall, during his undergraduate course, pay, at the time of the entry of his name with the Registrar, an annual library fee of \$2.

4. No occasional or other student of any class shall be admitted to the library, save upon payment of an annual fee of \$2.

N.B.—All the above fees are payable in advance, and in the case of fees for lectures, if not paid during the month of October (or in the case of students attending in Easter term only, during the month of January), an additional fee of one dollar per month will be imposed until the whole amount is paid.

The fee for each examination must be paid at the time of application.

The fee for admission ad eundem statum, for change of faculty, for admission to a higher year on the certificate of the head of a federated college, for dispensation from attendance at lectures, or for certificates of honor, must be paid at the time of application.

II. UNIVERSITY COLLEGE FEES.

Graduates in Arts, who have pursued the undergraduate course in University College, may attend lectures free; but this privilege does not exempt them from laboratory and other special fees.

For regular students in Arts, "a course of lectures" means a continuous course of instruction offered to matriculated students in Arts in any one year in any subject.

"A partial course of lectures" means any special course or any subdivision, complete in itself, of a course of lectures as above defined.

"A matriculated student in Arts" means a student who is matriculated in the University, and enrolled in University College, and whose name is entered with the Registrar of the University.

"An occasional student" includes every student, not being a matriculated

and Library

se of instruction, ulty to students in namely: History; aphysics and Psy-Jurisprudence and ; Mineralogy and up and Histology); nay be given by the

or any subdivision,

student under the above definition, in whose case the Lieutenant-Governor in Council is by law authorized to determine fees for courses of lectures on the report of the Council of University College.

Every matriculated student in Arts shall, on each year's enrolment in University College, pay an enrolment fee according to the following table; which fee shall include all instruction for which fees are by law chargeable, except laboratory supply charges and library fees:—

Table.

FIRST YEAR Any course or department	\$36	00	
SECOND YEAR Any course or department	36	00	
THIRD YEAR Chemistry and Mineralogy	31	00	
Natural Science or Physics and Chemistry	31	00	
Any other course or department	36	00	
FOURTH YEAR Physics and Chemistry, Chemistry and			
Mineralogy, or Physics	31	00	
Biology	26	00	
Any other course or department	36	00	

The annual enrolment fee of a matriculated student in Arts taking, under the regulations, more than one honor course, shall be \$36 only.

The enrolment fee of a matriculated student in Arts attending lectures for one term, or part of a term, shall be \$18.

The enrolment fee for students receiving dispensation from attendance at lectures in University College shall be \$5 for each term, in addition to the University fee of \$5. The payment of these fees entitles the student to supervision of "term work" prescribed in connection with his course.

\The annual fee for an occasional student attending a course, or partial course, of lectures in University College shall be similar to the lecture fee prescribed by the Senate statute for occasional students, namely:

For each	course	of not m	ore	than	15	hours	 \$2	00	-
"	"	between	15	and	30	"	 3	00

SCHOLARSHIPS, PRIZES AND MEDALS.

I. University.

A. Matriculation Scholarships.

The scholarships hereinafter mentioned, with the exception of the Prince of Wales Scholarship and the Mary Mulock Scholarships, are provided from the endowment fund presented by the Honorable Edward Blake, Chancellor of the University, and are known as the Edward Blake Matriculation Scholarships.

I.

There are, including the Prince of Wales Scholarship, nine Junior Matriculation scholarships for general proficiency in the four departments of Classics, Mathematics, Modern Languages and Science, and the sub-department of History.

These scholarships are of the following values :-

	Source of Money.		FREE TUI	TOTAL VALUE.	
1)	The Prince of Wales	\$50 00			\$50 00
la)	The Hon. Edward Blake (Name, Edward Blake.)	60 00	Four years	\$144 00	204 00
۵۱		42 50	"	144 00	\$254 00 186 50
2) 3)	" " "	25 00	"	144 00	169 00
	" " "	22 50	"	144 00	166 50
() ()	" "	20 00	Thues years	108 00	128 00

7)	(" " "	15 00		108 00	123 00
8)		25 00			25 00
0)	(Name, West Durham.)				5 22 10 10 10 10

Candidates for these scholarships must obtain first-class honors in at least one department.

The scholarship (1a) shall be held together with the Prince of Wales Scholarship.

The scholarship (8) is preferentially tenable by a scholar from the Bowmanville High School.

II.

There are twelve Junior Matriculation scholarships for proficiency in two departments, of the following values:— $\{*\}$

		Source of Money.		FREE TUITION.		TOTAL VALUE.	
CLASSICS AND MATH- SEMATICS, two CLASSICS AND MODERNS, four :	(1) (2) (1) (2) (3) (4)	The Hon. Edward Blake. (Name, Edward Blake.)	\$60 00 20 00 60 00 42 50	Four Years. Three Years Four Years. Three Years		\$204 00 128 00 204 00 186 50 128 00 125 50

GENERAL REGULATIONS.

The marks for all classes of Scholarships shall be assigned in the following proportions :-

CLASSICS	Latin	600
MATHEMATICS	(English	19
Modern Languages	English French German	400
		19
Science	Chemistry	400
HISTORY		2

The marks obtained at the examination for Part I. shall not be taken into account in awarding any of the scholarships. The marks assigned to each of the subjects in the General course shall be as follows:-Latin, 200; Greek, 200; Mathematics, 400; English, 250; French, 125; German, 125; Chemistry, 75; History, 75.

All candidates for scholarships in one or more departments shall at the same examination pass in the other subjects prescribed for Part II., of the Junior Matriculation. The subjects of Part I., in which they are also required to pass, may be taken at the same or a previous examination.

A candidate who has been awarded a scholarship at a Junior Matriculation examination shall not be eligible for a scholarship at a subsequent Matriculation examination.

Saving the exception as to the Prince of Wales Scholarship, no one shall be entitled to hold more than one scholarship; but anyone who would, but for this provision, have been entitled to a second scholarship shall be published in the lists and receive a certificate of honor.

Every candidate for a Junior Matriculation scholarship in the University of Toronto, shall, on application for examination sign a declaration to the effect that he intends to proceed to a degree in the University of Toronto.

No scholarship shall be awarded save on condition that the candidate becomes a matriculated student in actual attendance in the University of Toronto.

Free tuition awarded shall be available on the following conditions:-For the irst year on the award of the scholarship; for any year after the first on proof hat the claimant has passed his examination for the preceding year with firstclass honors in at least one department.

In the case of candidates who obtained scholarships prior to 1896, free tuion shall be accorded on a second class standing.

In case in any year any scholarship be not taken, it shall be allowable to ward such scholarship, or some part thereof, to a candidate who has shown

special excellence in the examination in some other group, and has taken scholarship rank therein, but has failed to win a scholarship therein.

In case in any year any scholarship be not awarded, the money undisposed of shall be divided among the scholarships for the succeeding year.

The Board of Arts Studies may from time to time make and amend any regulations requisite to carry out the plan: such regulations shall be laid before the Senate at its next meeting, and may be from time to time amended by the Senate or referred back to the committee for reconsideration.

RESOLUTION PASSED BY THE JOINT BOARD, DECEMBER 28, 1895.

That examinations for University Scholarships be held at any centre where there is an examination for Matriculation, provided any additional necessary expenditure be met by the locality; and that the appointment of presiding examiners receives the approval of the Joint Board.

B. Undergraduate Scholarships.

The following scholarships have been founded and endowed in the University, and are open for competition to all undergraduates in Arts, who are candidates for Honors in the departments and years to which they are assigned:—

POLITICAL SCIENCE.

THE BANKERS' Scholarship, of the value of \$70, the gift of the Bank of Toronto, the Canadian Bank of Commerce, the Dominion, Imperial, Standard, and Traders' Banks, and the Union Bank of Lower Canada. Only such candidates are eligible as are of one year's standing and have passed the examination of the First year. A special examination on some special text-book of history or finance will be held at the time of the Supplemental examinations in September. This scholarship is not tenable with any other.

THE ALEXANDER MACKENZIE Scholarships, two of the value of \$75 each, and two of the value of \$50 each, the gift of friends of the late Hon. Alexander Mackenzie.

PHILOSOPHY.

THE JOHN MACDONALD Scholarship, of the value of \$50, the gift of the late Hon. John Macdonald.

MATHEMATICS AND PHYSICS.

THE WILLIAM MULOCK Scholarship, of the value of \$60, the gift of William Mulock, M.A., LL.D.

THE FULTON Scholarship, of the value of \$60, the gift of the late A. T. Fulton.

A scholarship of the value of \$75, the gift of the Local Committee for the Toronto meeting of the American Association for the Advancement of Science In awarding this scholarship, the theoretical and practical work in the department will be estimated in the proportion of three to one.

. 70

No candidate shall be permitted to hold more than one scholarship; but any one who would, but for this provision, have been entitled to a second

scholarship, shall have his name published in the lists.

All undergraduate scholars must sign a declaration of intention to proceed to a Degree in this University, and must attend lectures in University College or Victoria University for the academic year immediately following such examination. The Senate however may, upon satisfactory reasons being shown, permit such scholar to postpone attendance upon lectures for a year. If at the end of the year a further postponement is necessary, special application must be made to the Senate. In every such case the payment of the scholarship shall likewise be postponed. The scholarships are paid in three instalments—on the fifteenth November, the fifteenth January and the fifteenth March; and each scholar is required to send to the Registrar a certificate of attendance upon lectures at least three glays before the date of each payment.

No scholarship will be awarded to any candidate who has been placed lower than the First Class in the department to which the scholarship is attached.

C. Prizes in Books.

Four prizes in books, the gift of the Minister of Foreign Affairs for the Kingdom of Italy, are offered for competition among the students of the First, Second, Third and Fourth years, respectively.

The CHEMISTRY Prize, the gift of Professor Pike, of the annual value of \$15, is open for competition among students of the Fourth year in the Depart-

ment of Chemistry and Mineralogy.

The MINERALOGY and Geology Prizes, the gifts of Professor Chapman, are open for competition among students of these subjects in the Second and Third years. The value of the Second year prize is \$5, and of the Third year prize is \$10.

D. Medals.

THE GOVERNOR GENERAL'S Medals, the gift of His Excellency the Earl of Aberdeen, are awarded under the following conditions:—

1. The Gold Medal shall be awarded to that candidate in the final examination for the B.A. degree who, taking not less than 66 per cent. in English (as defined below), and not less than 75 per cent. in some one of the following Honor departments:—(a) Classics, (b) Philosophy, (c) (d) Mathematics or Physics, (e) (f) Natural Science (either division), shall also take the best aggregate mark in the two subjects.

2. English shall be understood to mean only the papers (at present four in number) on later English Literature (from the end of the 15th century).

3. In order to obviate any unfairness arising from a different system of marking in different departments, the principle shall be always adopted of raising the marks of the best candidate in the first class of each department to the maximum, and those of the others in proportion, unless the examiners of any department report that the marks of the best candidate in their department are not of sufficient merit to be so raised.

4. The Registrar date, but also the ditions, are eligible

fferent system of lways adopted of ach department to the examiners of e in their depart4. The Registrar shall publish not only the name of the successful candidate, but also the names of all candidates who, by satisfying the above conditions, are eligible for the award.

5. The Silver Medal shall be awarded to that candidate in the Second year of the General course who, taking not less than 75 per cent. in this examination, takes also the highest aggregate of marks when the result of the First and Second year examinations in this course are added together, such examinations having been taken in two consecutive calendar years.

The discretion of the examiners (paragraph three above), as in the examination for the Gold Medal, shall apply also to this examination.

NATURAL SCIENCE.

The McMurrich Medal (Silver), the gift of W. B. McMurrich, M.A., awarded on the recommendation of the Natural Science Association.

The Cawthorne Medal, the gift of F. T. Shutt, M.A., awarded on the recommendation of the Natural Science Association.

MATHEMATICS.

The Glashan Gold Medal, the gift of J. C. Glashan, Esq., awarded by the University Council to the University College candidate of the Fourth year who stands highest in First Class Honors.

PHYSICS.

The Ottawa Gold Medal, awarded by the University Council to the University College candidate of the Fourth year who stands highest in First Class Honors.

This Medal is the gift of the following Alumni, residents of Ottawa: Otto Klotz, Esq., J. C. Glashan, Esq., J. L. McDougall, M.A., C.M.G., W. Fitzgerald, M.A., Frederick Hayter, B.A., W. D. LeSueur, B.A., A. H. McDougall, B.A.

E. Graduate Scholarships.

THE RAMSAY Scholarship in Political Economy, of the value of \$60, the gift of Mr. William Ramsay. This Scholarship is open for competition to all graduates or undergraduates who have been placed in the First Class in one of the Economic subjects of the Fourth year in the Honor department of Political Science (Third year in the Faculty of Law); but not more than two years must have elapsed since the competitor passed the examination above specified. The award is made upon an essay, the subject of which must be some question in Economics or Finance of interest to the commercial community in Canada, to be announced in May of each year, and the competition closes on the 15th of September thereafter, by which date the essays must be sent to the Registrar.

The 1851 Exhibition Science Scholarship, of the value of £150 sterling, given by the Commissioners for the International Exhibition of 1851, is awarded once in two years by the University Council for research in some branch of Physics or Chemistry. Subject to a satisfactory report as to progress in study, it is ordinarily tenable for two years at home or abroad.

THE GEORGE PAXTON YOUNG Memorial Fellowship in Philosophy, of the value of \$400, will be awarded in June, 1899. The holder must be a Bachelor of Arts who has taken an Honor course in Philosophy. This Scholarship is tenable for one year, and the holder must devote his whole time to the study of some topic falling under the general term Philosophy. He may pursue his studies either in the University of Toronto, or in some other University approved by the University Council; but in either case he shall furnish to the University Council such evidence as may from time to time be required, that he is faithfully observing the conditions under which the scholarship was awarded. Applications must be in the hands of the Registrar on or before June 15th, 1899. Further particulars may be obtained from the Registrar.

F. Graduate Fellowships.

THE ALEXANDER MACKENZIE Fellowships in Political Science, two of the value of \$375 each, the gift of the friends of the late Hon. Alexander Mackenzie. These fellowships are awarded annually by the University Council to graduates of the University of Toronto and they are tenable for one year, but the Council may, at its discretion, award them for a second term. The holder of a Mackenzie Fellowship shall devote his time to the prosecution of special studies at the University of Toronto under the direction of the head of the department in which the fellowship is awarded. The sum of \$125 shall be paid to the holder of the Fellowship on the 15th October; a further sum of \$125 on the 15th January, provided that the progress of his studies is satisfactory to the Council at that date; and a final instalment of \$125 on the 15th April, or as soon thereafter as his thesis shall be accepted by the Council. During his tenure of the fellowship he shall not be permitted to pursue a professional or technical course of study, nor shall he engage in remunerative employment except by permission of the Council. He shall further conform to such other regulations as the Council may deem necessary for carrying out the object of special research for which these fellowships are designed. Any violation of the conditions under which the appointment is made shall operate to vacate the fellowship.

II. University College.

A. Scholarships.

The following scholarships have been founded and endowed in University College, and are open for competition among the students in actual attendance in the College:—

THE MOSS CLASSICAL Scholarships, two of the value of \$60 each, in Classics of the First and Third years respectively, founded by subscription in honor of the late Hon. Chief Justice Moss.

THE WILLIAM MULOCK Scholarship in Classics in the Second year, of the value of \$60, the gift of William Mulock, M.A., LL.D.

THE EDWARD BLAKE Scholarship in Modern Languages in the First year, of the value of \$60, the gift of the Hon. Edward Blake.

THE GEORGE BROWN Scholarship, in Modern Languages in the Second year, of the value of \$60, founded in honor of the late Hon. George Brown.

The Julius Rossin Scholarship in Modern Languages in the Third year, of the value of \$60, the gift of Julius Rossin, Hamburg, Germany.

THE JOHN MACDONALD Scholarship in Philosophy, of the value of \$50 in the Third year, the gift of the late Hon. John Macdonald.

THE KNOX COLLEGE Scholarships in Oriental Literature, of the value of \$45 and \$60, are offered by the Senate of Knox College, to be competed for by students of the Second and Third years respectively, who shall be in actual attendance in University College, and intend to enter the Theological classes of Knox College.

B. Prizes in Books.

THE FREDERICK WYLD Prize, the gift of F. Wyld, Esq., of the annual value of \$25, for English Composition, is open for competition among all students of the Third and Fourth years in attendance on lectures.

THE FRENCH PROSE Prize, of the annual value of \$10, for French Composition, is open for competition among matriculated students of all years in attendance on lectures.

C. Medals.

Medals are offered for competition to undergraduates in the following departments in actual attendance as students in the College:—

CLASSICS (in the Fourth year).

The McCaul Medal (Gold), established in 1886 by the late W. H. C. Kerr, Gold Medallist in Classics of 1859, in memory of the Rev. John McCaul, LL.D., First Professor of Classics and First President of University College. It was presented by Mr. Kerr from 1886 up to his death, and from 1891 to 1894, after his death, by his widow. Since then the donors have been John Hoskin, Q.C.,

LL.D., Chairman of the Board of Trustees (for 1895); Nicol Kingsmill, M.A., Q.C., Classical Medallist of 1856 (for 1896); and A. M. Crombie, Esq., of Montreal (for 1897), in memory of his brothers Ernestus Crombie, M.A., Gold Medallist in Classics of 1854, and Marcellus Crombie, M.A., LL.B., Gold Medallist in Classics of 1857. The medal will be donated in 1898 and 1899 by William Dale, M.A., Gold Medallist in Classics of 1871.

MODERN LANGUAGES (in the Third Year).

The Governor General's Medal (Silver), the Gift of His Excellency the Earl of Aberdeen.

FELLOWSHIPS.

University.

Tutorial Fellowships in Mathematics, Chemistry, Biology and Political Economy, of the annual value of \$500 each, are awarded annually. The selection is made from among graduates of the University. Each Fellow is appointed annually; but he may be re-appointed for a period not exceeding, in all, three years.

Each Fellow is required to assist in the teaching and practical work of his department, under the direction of the Professor or Lecturer. The Fellows are selected with a special view to their aptitude for teaching, and their attainments in the department in which the appointment is to be made. Every Fellow on accepting his appointment comes under an obligation to fulfil the duties of his Fellowship during the Academic Year in which he is appointed, unless specially exempted.

Candidates must send in their applications annually to the Registrar, not later than the first day of June.

REGULATIONS

AND

CURRICULUM IN ARTS.

Degree of Bachelor of Arts.

1. There are two ordinary modes of proceeding to the Degree of Bachelor of Arts, viz.: (1) by taking the General course; or, (2) by taking an Honor course.

2. Candidates may enter the Faculty of Arts by passing the Junior Matriculation examination or the Senior Matriculation examination.

Junior Matriculation.

Candidates for Junior Matridulation must produce satisfactory certificates
of good conduct, and of having completed the sixteenth year of their age.

4. All candidates for Junior Matriculation shall take the following subjects:—
English, Latin, History, Mathematics, French or German, and either (1) Greek
or (2) the second Modern Language with Physics and Chemistry.

5. The examination may be taken at once or may be divided into the following two parts:—I. Arithmetic and Mensuration, English Grammar and Rhetoric, and the History of Great Britain and Canada; II. Greek, Latin, French, German, English Composition, English Literature, Ancient History, Algebra, Geometry, and Chemistry; Physics shall be taken at the examination for either Part I. or Part II. Either Part I. or Part II. may be taken first, at the option of the candidate, and the parts may be taken in different years, or in the same year at the July and September examinations. The Physics of the Third Form of the examinations of the Education department may be substituted for the Physics of Form II.

6. Candidates for Honors and for Scholarships will be examined only on the Honor papers in a department, always provided that such candidates may receive pass standing on these papers.

7. Candidates who have already passed Parts I. and II. of the present Matriculation, or who have passed Junior Matriculation prior to 1896, shall, if they again present themselves for examination at Matriculation, be regarded as having passed Part I. only; and Physics, if not already taken, shall be taken at the examination for Part II. in the case of those who do not take Greek.

8. Candidates failing in not more than one subject of Part I., and not more than two subjects of Part II. may take at the Supplemental Examination of the following September, the subject or subjects in which they have failed, but, if the examination be postponed until a subsequent year, they must repeat the whole examination in the Part or Parts in which they have failed and which they have postponed.

9. The percentage for pass shall be thirty-three and one-third on each paper. The marks for sight-work on each of the "Authors" papers shall constitute at least thirty-three and one-third per cent. of the whole of the marks for the

paper.

10. The ordinary annual examinations for Junior Matriculation shall commence in July, and applications therefor must be sent to the Education Department, through the Public School Inspector or the Registrar of the University, not later than 24th May, except in the case of candidates for scholarships, whose application and fee must be sent to the Registrar of "the University by the above-mentioned date.

Senior Matriculation.

11. The examinations for Senior Matriculation shall be held in May at the University of Toronto, and in June at the University of Toronto and such other centres as may be determined by the standing committee on examinations.

12. All candidates for Senior Matriculation shall take the following subjects:—English; Latin; any two of the following languages, viz., Greek, French, German, Hebrew; Ancient History; Mathematics; Physics or Biology.

13. Candidates who have not previously passed the examination in Arithmetic and Mensuration, and English Grammar of Part I. of the Junior Matriculation Examination will be required to take papers on each of these subjects at Senior Matriculation.

14. Candidates who present themselves in May will be examined in the papers of the First year examination, and the number and the standard of the examination papers and the regulations respecting the subjects of examination at the June examination shall be the same in each department as for the First year examination. The percentage for Pass at each of the examinations shall be one-third of the maximum of marks assigned to each paper. The percentage required for honors, shall be the same in each department in May and June as for the ordinary First year examination.

15. Candidates for this examination shall make application to the Registrar of the University not later than the fifteenth day of March for the May examination, and the fifteenth day of May for the June examination.

16. Applications for a local examination shall be made to the Registrar of the University by the authorities of a School or College, not later than the first day of May in each year.

17. The presiding examiner or examiners at each centre shall be appointed by the standing committee on examinations, and of these examiners, as many

18. The fee for the presiding examiner at a centre shall be \$4.00 a day, and this fee and such other expense as may be incurred in connection with the local examination shall be paid to the persons concerned by the authorities of the School or College on whose application the examination is held.

19. The Board of Examiners for the June and Supplemental examinations shall be, as far as practicable, that appointed for the Junior Matriculation Supplemental examination in Arts.

Matriculation Equivalent Examinations.

- 20. Senior or Junior Leaving Certificates of the Education Department will be accepted pro tanto at any Junior Matriculation examination.
- 21. Senior Leaving certificates, or certificates of having passed portions of the examination for such certificates, may be accepted *pro tanto* at the Senior Matriculation and First year examinations.
- 22. Candidates presenting Senior Leaving certificates covering the complete work of the First year, or such work wanting one or two subjects, may be admitted respectively to standing of the Second year, or to such standing starred on such subjects.
- 23. The standing of candidates for the whole or part of the examination for a higher grade of certificate than Senior Leaving shall be determined in each case by the Senate.
- 24. Candidates claiming the standing of the Second year, in whole or in part, on First C. or Senior Leaving certificates, shall not be exempt from the examination in Ancient History prescribed for the First year of the General course.
- The examinations of the School of Practical Science in Mathematics, Physics, Chemistry, Mineralogy and Geology, are accepted pro tanto.
- 26. Candidates presenting pro tanto certificates must complete the entire examination at one time, and are not eligible for scholarships or relative standing at the examinations except in the case of candidates for Junior Matriculation honors and scholarships, who may present pro tanto certificates for Part I.
- 27. An undergraduate in the Faculty of Arts in another University may be admitted ad eundem statum on such conditions as the Senate may prescribe.
- 28. If such applicant be admitted to a lower standing in this University than he held in his own University, he may not compete for scholarships at the next ensuing examination; but if he obtain honors, he shall, at the next succeeding examination, enjoy the same rights and privileges with respect to obligatory subjects as an original undergraduate of this University who has passed an examination of the same merit.
- 29. The Local examinations for students, conducted by the University of Cambridge, are accepted pro tanto for Junior Matriculation.

tion.

Supplemental Matriculation Examinations.

30. Supplemental examinations for Junior and Senior Matriculation will be held at the University about the middle of September, at which those who are rejected at previous examinations, as well as new candidates, may present themselves; but no honors or scholarships will be awarded at such examinations. The number and the standard of the examination papers, the regulations respecting the subjects of examination, and the percentage required for Pass, shall in each case be the same as at the ordinary examinations. Applications therefor must be sent to the Registrar of the University not later than 1st September.

Matriculation Fees.

31 The fees payable are as follows :-

or. The rees payable are as rollows.	
For Junior Matriculation, if Parts I. and II. are taken at the	
same time	Five Dollars.
For Junior Matriculation, Part I	Two Dollars.
For Junior Matriculation, Part*II	Five Dollars.
For Supplemental Junior Matriculation, each part	Five Dollars.
For Senior Matriculation	Fifteen Dollars.
For Senior Matriculation on pro tanto certificate	Fifteen Dollars.
For Senior Matriculation Examination in Arithmetic and	the same and
English Grammar	Two Dollars.
For Ad eundem statum	Ten Dollars.
The fee must be paid to the Bursar at the time of applicat	ion for examina-

Regulations Relating to all Undergraduates.

1. Undergraduates proceeding to the Degree of Bachelor of Arts must be enrolled either in University College or in Victoria University. They must also attend lectures on all the subjects of their course of study for the year, unless for sufficient reasons the Senate, on recommendation of the College is which they are enrolled, grants them a dispensation from lectures in whole of in part. The fee for such dispensation shall be five dollars. All application for such dispensation for the Michaelmas Term must be lodged with the Registrar before October 1st, and for Easter Term before January 1st.

2. In case a student who has won a scholarship at matriculation applies for dispensation from attendance for one or more of the years during which he is entitled to exemption from tuition fees, he shall be exempt from the usual

fee for dispensation in lieu of tuition fees.

3. Every undergraduate must, before being admitted to any examination subsequent to that by which he enters the University, produce a certificate from the head of the College in which he is enrolled, to the effect that he has complied with all the requirements of that College affecting his admission to such examination, and no candidate shall be admitted to standing at any examination who has been reported by his College Council to have violated it regulations.

4. Notice of the tin will be given annually

to any examination produce a certificate the effect that he has g his admission to such anding at any examito have violated in Notice of the time of commencement of the undergraduate examinations will be given annually in January.

5. Candidates in all the years are required to send to the Registrar of the University, at least six weeks before the commencement of each examination, an application for examination according to a printed form to be obtained from the Registrar. The fee for examination and, in the case of candidates for degrees, that for the degree, must be paid not later than April 15th

Regulations Relating to the General Course.

 An undergraduate is entitled to the degree of Bachelor of Arts if in each year of his course he passes the examinations in the prescribed work of the General course.

2. Candidates in the General course in Arts must obtain at the annual examinations a minimum average of sixty-six per cent. in order to be placed in the first class in General Proficiency, and a minimum average of fifty per cent. in order to be placed in the second class. The candidates in these two classes shall be ranked in order of merit. All candidates failing to obtain fifty per cent. in each subject but obtaining not less than thirty-three per cent., shall be ranked as Pass candidates. The names of candidates in the General course in Arts who avail themselves of the theological options shall be placed in a list, separate from those who have not availed themselves of this privilege.

3. Candidates in the General course in Arts shall be arranged alphabetically in each subject in the annual class lists in three grades, A, B, and C; the minimum for Grade A shall be sixty-six per cent. of the marks, and for Grade B, fifty per cent.; all who pass with less than fifty per cent., but not less than thirty-three per cent., shall be placed in Grade C.

4. The name of a Pass candidate in Arts may be allowed to appear in the class lists of his year, provided there are not more than two subjects in which he has failed. These subjects may be among the obligatory subjects of the year, or they may be subjects attempted at a previous examination or examinations. Honor and General Proficiency candidates in Arts may be starred in one, but not more than one subject of the General course on like conditions.

5. Honor candidates who have failed in one subject under the above regulation, and who in consequence have been starred in that subject, may repeat in May the whole examination at which they were starred, and similarly General Proficiency or Pass candidates who have been starred in one or two subjects, may repeat the whole examination either in September or in May, but such candidates shall not be eligible for scholarships. All candidates who do not exercise this option may present themselves for examination in the subjects in which they have been starred, either in September or in May, but on sopresenting themselves, they shall be entitled to examination in those subjects only in which they have been starred.

Candidates of the Fourth year who have been starred in one or two subjects, but who have not succeeded in writing off these subjects at some previous.

examination, may be allowed to take this work at a special examination to be held in the latter part of April. Candidates taking advantage of this provision shall pay an additional fee of ten dollars. But in the case of English and Latin of the Third and Fourth years, a candidate shall not be considered to have written off his star, unless the Third year examination which he passes covers a different prescription of texts from that covered by his Fourth year examination.

7. When a candidate at an examination is starred in a subject which is one of two or more subjects between which an option exists at the said examination, the candidate at his supplemental examination may present

himself in any one of such alternative subjects."

8. At the beginning of the Second, Third, or Fourth year a candidate may be transferred from the General course to an Honor course or vice versa, for from one Honor course to another Honor course, by passing an examination on such subjects, and by obtaining therein such a percentage as may be required by the Senate in view of the nature of the transfer granted. But transfer to an Honor course shall not be granted to any student who is starred in any subject of the General course.

9. A student in the General course who wishes to take honors in a department may be allowed to repeat his year, taking the work of the Honor department only if he so desires, and on passing with honors he shall be allowed to proceed in that department. Candidates claiming exemption from examination and attendance at lectures in the First year, in one or more subjects, on the ground that they are pursuing an Honor course, and obtained Honors at Junior Matriculation in the subject or subjects, shall not be exempt from the examination in Ancient History prescribed for the First year of the General course.

10. Undergraduates of any year, who have been rejected, or who have by sickness, domestic affliction, or other causes beyond their control been prevented from aftending the Annual examinations in May, may present themselves for examination in September; but candidates who have failed to attend at the May examinations, must prove to the satisfaction of the Vice-Chancellor, before presenting themselves in September, the existence and sufficiency of the alleged cause of absence, and all such cases shall be subsequently reported to the Senate.

11. Undergraduates in the General course in the Third and Fourth years may, in lieu of one or more of the subjects prescribed for each of these years, take certain of the following subjects, namely, Biblical Greek, Biblical Literature, Apologetics, Church History, and Christian Ethics, according to the following schedule:—

THIRD YEAR... Biblical Greek for Classical Greek; Church History or Biblical Literature for Modern History; Apologetics for Physics.

FOURTH YEAR....Biblical Greek for Classical Greek; Biblical Literature or Church History for Modern History; Christian Ethics or Apologetics for History of Philosophy.

Note.—Candidates are allowed two of the three options in the Third, and all three in the Fourth year.

12. Undergraduat College in which the (unless granted dispensions in the subject University other than in the same year as

12. Undergraduates who exercise the theological options must present to the College in which they are enrolled certificates of having attended lectures (unless granted dispensation by the University) and of having passed examinations in the subjects so selected at an affiliated or federated College or University other than University College. These examinations must be taken in the same year as the corresponding University examinations, and be subject to the same regulations as to standard.

Term Work in the General Course.

13. Reports of attendance at pass lectures in the First and Second years shall be made in all departments except those of Chemistry, Natural Science, and Physics, and marks for such attendance shall be assigned in connection with the May examination as follows:—

For	attendance	at	four-fifths and over	20	marks
"	66	"	two-thirds and over	13	"
66		"	one-half and over	7	66

14. No student attending less than one half the lectures shall receive any marks for attendance.

15. Reports on term pass work in the First and Second years shall be made in all departments except those of Chemistry, Natural Science, and Physics. In the department of English four essays at least shall be required during the session from each student; and the reports on term work in that department shall be based on the essays. In other departments the report on term work shall be based on those parts of the work which the professor or lecturer may deem most appropriate as tests of proficiency. The maximum number of marks to be assigned for term work in connection with the May examination shall be thirty, except in the case of English, in which the term work shall count as eighty marks.

16. Students to whom the foregoing regulations apply must obtain on the May examination at least thirty-three per cent. of the examination marks; and must also obtain at least thirty-three per cent. of the aggregate number of marks assigned according to the following schedule:—

May examin	ation	 	 	100
*Term work		 	 	30
Attendance		 	 	26
Total				150

17. The Senate may, upon the report of the University or College Council concerned, based on the recommendation of a Professor or Lecturer, excuse registered students from term work and from attendance at lectures in any one or more subjects. Such exemption must be obtained at the beginning of each term, and no exemption from term work shall be allowed in the case of English.

*English term work 80, and total 200.

Regulations Relating to the Honor Course.

1. In this course there are eleven Honor departments, viz.: I. Classics; II, Modern Languages; III. English and History; IV. Oriental Languages; V. History; VI. Political Science; VII. Philosophy; VIII. Mathematics and Physics; IX. Natural Science; X. Chemistry and Mineralogy; XI. Physics and Chemistry.

2. Candidates shall not have the right to claim examination in more than two

Honor courses after the first year.

3. An undergraduate is entitled to the degree of Bachelor of Arts, if in each year of his course he passes the examinations in the prescribed work of one of these departments, and also the subjects of the General course prescribed in connection therewith, at the respective times mentioned in the schedule at the head of each department.

4. In the annual class lists, the names of candidates who obtain honors in any department or subject shall be arranged in order of merit in three classes, those obtaining seventy-five per cent. and over of the total number of marks being

placed in the first class, those obtaining sixty-six per cent., and less than seventy-five per cent. being placed in the second class, and those obtaining fifty per cent. and less than sixty-six per cent. being placed in the third class.

5. A candidate pursuing a course in an Honor department who falls below the third class in his department, shall not be allowed standing of the following year. But in the departments of Modern Languages, English and History, History, Political Science, Philosophy, Chemistry and Mineralogy, Physics and Chemistry, and Natural Science, candidates whose average is not less than third class, but who have fallen below third class in any one subject, may, on the recommendation of the examiners, be allowed to proceed as Honor candidates in the following year.

6. A candidate who competes for honors at the examination for Bachelor of Arts, and fails to obtain the requisite number of marks to entitle him to be classed in honors, may, on the recommendation of the examiners, be awarded a degree without honors; it being at the option of the candidate to accept the award of such a degree, or to wait until a subsequent examination, and again

compete for a degree in honors.

7. An undergraduate who has obtained honors in any department may with the consent of the Senate be transferred to any other department, and proceed therein, but as a prerequisite to obtaining the Degree of Bachelor of Arts, he must during his course have passed the examinations in the subjects of the General course required in the Honor department to which he is transferred. Undergraduates who are pursuing an Honor course, and who at Junior Matriculation obtained honors in a subject, shall be exempt from examination and attendance at lectures in this subject, provided it is one of the pass subjects attached to their Honor department in the First year, and is prescribed for the First year only.

Candidates in the honor subjects of Physics, Chemistry, Biology, Mineralogy and Geology, and Psychology will be ranked in the class lists on

practical work done the session; and no of these honor subje Professor that he h subject.

practical work done in the laboratories of the respective departments during the session; and no candidate will be allowed to proceed to examination in any of these honor subjects unless he presents to the Registrar a certificate from the Professor that he has attained honor standing in the practical work of that subject.

9. In the departments of Mathematics and Physics, Chemistry and Mineralogy, and Natural Science, each candidate for honors must attend all examinations in the practical work of the year in which he presents himself for the University examination.

10. Undergaduates in the Honor department of Philosophy may, in the Third year, substitute for Modern History and Economics any two of the three following subjects, viz.: Church History, Apologetics, Biblical Literature. Undergraduates in the Honor department of Oriental Languages may, in the Third and Fourth years, substitute Biblical Greek for Classical Greek. Candidates exercising these options must present certificates of having attended lectures and passed examinations in the subjects so selected at an affiliated or federated College or University other than University College. These examinations must be taken in the same year as the corresponding University examinations, and be subject to the same regulations as to standard. These examinations do not count for honors.

11. In the Honor department of Philosophy two distinct examinations are held upon the two systems of Philosophy taught in the federated Arts Colleges.

Degree of Master of Arts.

Candidates for the Degree of Master of Arts must have been admitted to the Degree of Bachelor of Arts, must be of the standing of one year from admission to the Degree of Bachelor of Arts, and must have sent in an approved thesis upon some subject in one of the departments in the Faculty of Arts. The thesis must be sent to the Registrar not later than 1st May.

Degree of Doctor of Philosophy.

A candidate for the Degree of Doctor of Philosophy must have been admitted to a degree in Arts in the University of Toronto, must have pursued for at least two years the study of a major subject, must pass examinations on two minors subjects equivalent to first class honor standing for the B.A. Degree, and must present an approved thesis embodying the results of an original investigation. For details, see p. 190.

Admission "ad Eundem Gradum."

A graduate in the Faculty of Arts in any University in Great Britain or Ireland (if his degree be not an honorary one) may be admitted to the same degree in the University of Toronto.

JUNIOR MATRICULATION.

GENERAL COURSE.

PART I.

English Grammar and Rhetoric.

The main facts in the development of the language. Etymology and Syntax, including the inflection, classification, and elementary analysis of words, and the logical structure of the sentence. Rhetorical structure of the sentence and paragraph. As far as possible the questions shall be based on passages from authors not prescribed.

Arithmetic and Mensuration.

ARITHMETIC: Proofs of Elementary Rules; Fractions (Theory and Proofs); Commercial Arithmetic.

MENSURATION: Rectilinear Figures, Right Parallelopiped, Prisms, and Pyramids; Circle, Sphere, Cylinder, and Cone.

History of Great Britain and Canada,

Great Britain and Canada from 1763 to 1871, with the outlines of the preceding periods of British History.

The Geography relating to the History prescribed.

Physics.

An experimental course defined as follows :-

Metric system of weights and measures. Use of the balance. Phenomena of gravitation. Matter attracts matter. Laws of attraction. Cavendish experiment. Attraction independent of condition. Illustration of weight of gases, liquids, and solids. Specific gravity.

Meaning of the term "a form of matter." All matter may be subjected to transmutation; "Chemistry;" application of measurement by weight (mass) to such transmutation leads to the theory of elements. Matter indestructible

Meaning of "Force." Various manifestations of force, with illustration from the phenomena of electricity, magnetism, and heat. Force measured in gravitation units; consequent double meaning of the terms expressing units of weight as mass, and units of weight as force.

Meaning of "Work." Measurement of work in gravitation units. Meaning of "Energy."

Effects of force continuously applied to matter. Laws of matter in motion Velocity. Acceleration. Statement of Newton's Laws of Motion. Definition

of "Mass." Me matter.

of "Mass." Meaning, value, and application of "g." Mass a measure of matter.

Conservation of Energy. Energy, like matter, indestructible and transmutable.*

Study of the three states of matter. Properties and laws of gases, liquids, and solids. Laws of diffusion.

Elementary laws of heat. Mechanical equivalent. Latent heat. Specific heat. Calorie.

PART II.

Greek.

Translation into English of passages from prescribed texts.

Translation at sight (with the aid of vocabularies) of easy Attic prose, to which special importance will be attached. Candidates will be expected to have supplemented the reading of the prescribed texts by additional practice in the translation of Greek.

Grammatical questions on the passages from prescribed texts shall be set, and such other questions as arise naturally from the context.

Translation from English into Greek of sentences and of easy narrative passages based upon the prescribed prose texts.

The following are the prescribed texts:-

1899: Selections from Xenophon, Anabasis I, in White's Beginner's Greek Book (pp. 304-428) with the exercises thereon; Homer, Iliad VI.

1900: Selections from Xenophon, Anabasis I, in White's Beginner's Greek Book (pp. 304-428) with the exercises thereon; Homer, Iliad I.

1901: Selections from Xenophon, Anabasis I, in White's Beginner's Greek Book (pp. 304-428) with the exercises thereon; Homer, Iliad I.

Latin.

Translation into English of passages from prescribed texts.

Translation at sight (with the aid of vocabularies) of passages from some easy prose author, to which special importance will be attached. Candidates will be expected to have supplemented the reading of the prescribed texts by additional practice in the translation of Latin.

Grammatical questions on the passages from prescribed texts will be set and such other questions as arise naturally from the context.

Translation from English into Latin of sentences and of easy narrative passages based upon the prescribed prose texts.

The following are the prescribed texts:-

1899 : VERGIL, Aeneid I; CAESAR, Bellum Gallicum V, VI.

1900: VERGIL, Aeneid II; CAESAR, Bellum Gallicum V, VI.

1901: Vergil, Aeneid II; Caesar, Bellum Gallicum II, III, IV.

N.B.—The Roman method of pronouncing Latin is recommended:— $\bar{\alpha}$ as in far, $\check{\alpha}$ the same sound, but shorter; \bar{e} like α in fate, \check{e} as in set; \bar{i} as in machine; \check{i} as in fit; \bar{o} as in note; \check{o} as in obe; \check{o} as in obe; obe as in obe; obe, obe; obe as in obe; obe and obe are obe.

Mathematics.

ALGEBRA: Elementary Rules; Highest Common Measure; Lowest Common Multiple; Fractions; Square Root; Simple Equations of one, two and three unknown quantities; Indices; Surds; Quadratics of one and two unknown quantities.

GEOMETRY: Euclid, Books I, II, and III; Deductions.

French.

The candidate's knowlege of Grammar will be tested mainly by questions based upon prose extracts.

The examination in Composition will consist of (a) translation into French of short English sentences as a test of the candidate's knowledge of grammatical forms and structure, (b) formation in French of sentences of similar character, and (c) translation of passages from English into French.

Translation at sight of modern French, to which special importance will be attached. Cambidates will be expected to have supplemented the reading of the following texts by additional practice in the translation of French:—

1899 and 1901: De MAISTRE, Voyage autour de ma Chambre; Labiche, la Grammaire.

1900 : ÉNAULT, le Chien du Capitaine ; FEUILLET, la Fée.

German.

The candidate's knowledge of Grammar will be tested mainly by questions based upon prose extracts.

The examination in Composition will consist of (a) translation into German of short English sentences as a test of the candidate's knowledge of grammatical forms and structure, (b) formation in German of sentences of similar character, and (c) translation of passages from English into German.

Translation at sight of modern German, to which special importance will be attached. Candidates will be expected to have supplemented the reading of the following texts by additional practice in the translation of German:—.

1899 and 1901: LEANDER, Träumereien (selected by Van Daell).

1900: HAUFF, das kalte Herz, Kalif Storch.

English.

Composition: An essay, to which special importance will be attached, or one of several themes set by the examiners. In order to pass in this subject, legible writing, correct spelling and punctuation, and proper construction of sentences are indispensable. The candidate should also give attention to the structure of the whole essay, the effective ordering of the thought, and the accurate employment of a good English vocabulary. About three pages of foolscap is suggested as the proper length for the essay; but quality, not quantity, will be mainly regarded.

LITERATURE: St didate's familiarity the prescribed text of the finest passag of the specified wor others shall be set pret literature for l

be attached, or in this subject, construction of ttention to the ought, and the three pages of ality, not quanLITERATURE: Such questions only shall be set as may serve to test the candidate's familiarity with, and intelligent and appreciative comprehension of, the prescribed texts. The candidate will be expected to have memorized some of the finest passages, and to have read carefully both prose and poetry outside of the specified work. In addition to the questions on the following selections, others shall be set on a "sight passage" to test the candidate's ability to interpret literature for himself:—

1899.

SCOTT: Lady of the Lake.

Wordsworth (Arnold's Selections): Michael, To the Daisy ("Bright flower, whose home," etc.), To my Sister, Expostulation and Reply, The Tables Turned, "O Nightingale, thou surely art," At the Grave of Burns, Thoughts suggested the Day Following, The Solitary Reaper, The Primrose of the Rock, Ode to Duty, Sonnets: "Fair Star of Evening, Splendour of the West," "It is not to be thought of that the flood," "Scorn not the Sonnet," "I am not one who much or oft delight," "Wings have we and as far as we can go," "Nor can I not believe," "It is a beauteous Evening, calm and free," "I thought of Thee, my partner and my guide," "A trouble, not of clouds, or weeping rain," "A Poet!—he hath put his heart to school," Influence of Natural Objects, Nutting, Character of the Happy Warrior, Elegiac Stanzas suggested by a Picture of Peele Castle, To the Rev. Dr. Wordsworth.

1900

COLERIDGE: The Ancient Mariner, Youth and Age.

LONGFELLOW: Evangeline, A Psalm of Life, Wreck of the Hesperus, "The day is done," The Old Clock on the Stairs, The Fire of Driftwood, Resignation, The Warden of the Cinque Ports, Excelsior, The Bridge, A Gleam of Sunshine.

Wordsworth (Palgrave's Golden Treasury of Songs and Lyrics) The Education of Nature ("Three years she grew"), "She was a phantom of delight," A Lesson ("There is a flower, the Lesser Celandine"), To the Skylark, The Green Linnet, To the Cuckoo, To the Daisy, and the following Sonnets, To a Distant Friend ("Why art thou silent"), England and Switzerland ("Two voices are there"), "Milton, thou shouldst be living at this hour," Westminster Bridge, The Inner Vision ("Most sweet it is, with unuplifted eyes"), "O Friend!, I know not which way I must look," To Sleep, Within King's College Chapel.

1901.

TENNYSON: The Epic, including Morte D'Arthur, The Day Dream, The Talking Oak, Locksley Hall, The Miller's Daughter, Tithonus, Ode on the Duke of Wellington, Ulysses, "You ask me why," "Of old sat Freedom," "Love thou thy land," Œnone, The Lotus Eaters, The Lady of Shalott, St. Agnes Eve, Sir Galahad, the six interlude songs in the Princess, and "Tears, idle tears."

The following selections from Palgrave's Golden Treasury:—

GRAY: Ode on Vicissitude, Elegy written in a Country Churchyard.

COWPER: Sonnet to Mary Unwin, To the Same, The Castaway, The Poplar

Field, The Shrubbery, Loss of the Royal George.

Ancient History.

Outlines of Roman History to the death of Augustus, and of Greek History to the battle of Chaeronea.

The Geography relating to the History prescribed.

Chemistry.

Properties of Hydrogen, Chlorine, Oxygen, Sulphur, Nitrogen, Carbon, and their more important compounds. Nomenclature. Laws of combination of the elements. The Atomic Theory and Molecular Theory. Tran Tran Gran such of Tran

HONOR COURSE.

Greek

Translation into English of passages from prescribed texts.

Translation at sight of passages of average difficulty.

Grammatical questions on the passages from prescribed texts will be set, and such other questions as arise naturally from the context.

Translation into Greek of ordinary narrative passages of English.

The following are the prescribed texts :-

1899.: XENOPHON, Anabasis I (Chaps. I-VIII); HOMER, Iliad VI, Odyssey XIII; LYSIAS, Contra Eratosthenem, and Epitaphius.

1900: Xenophon, Anabasis I (Chaps. I-VIII); Homer, Iliad I, Odyssey XV; Lysias, Contra Eratosthenem, and Epitaphius.

1901: XENOPHON, Anabasis I, Chaps. I-VIII; Homer, Iliad I, Odyssey XV.; LUCIAN, Charon, Vera Historia II.

Latin.

Translation into English of passages from prescribed texts.

Translation at sight of passages of average difficulty.

Grammatical questions on the passages from prescribed texts will be set, and such other questions as arise naturally from the context.

Translation into Latin of ordinary narrative passages of English.

The following are the prescribed texts :-

1899 : CAESAR, Bellum Gallicum, V, VI ; VERGIL, Aeneid I ; HORACE, Odes III, IV ; CICERO, in Catilinam I, II, III, IV, and Pro Archia.

1900: CAESAR, Bellum Gallicum V, VI; VERGIL, Aeneid II; HORACE, Odes III, IV; LIVY XXI.

1901 : CAESAR, Bellum Gallicum, II, III, IV; VERGIL, Aeneid II; HORACE, Odes I, II; LIVY XXI.

Mathematics.

ALGEBRA: Elementary Rules; Highest Common Measure; Lowest Common Multiple; Fractions; Square Root; Simple Equations of one, two, and three unknown quantities; Indices; Surds; Quadratics of one and two unknown quantities; Theory of Divisors; Ratio, Proportion, and Variation; Progressions; Notation; Permutations and Combinations; Binomial Theorem; Interest Forms; Annuities.

GEOMETRY: Euclid, Books I, II, III, IV, and VI; Definitions of Book V; Deductions.

TRIGONOMETRY: Trigonometrical ratios with their relations to each other; Sines, etc., of the sum and difference of angles with deduced formulas; Use of Logarithms; Solution of Triangles; Expressions for the area of Triangles; Radii of circumscribed, inscribed, and escribed circles.

French.

The prescription of work in Grammar, Composition and Sight Translation is the same for Honors as for the General course, but the examination will be of a more advanced character.

The following are the prescribed texts:-

1899 and 1901: De Maistre, Voyage autour de ma Chambre; Labiche, la Grammaire; Erckmann-Chatrian, Madame Thérèse; Labiche, la Poudre aux Yeux.

1900: Énault, le Chien du Capitaine; FEUILLET, la Fée, le Roman d'un jeune Homme pauvre; Labiche, Voyage de M. Perrichon.

German.

The prescription of work in Grammar, Composition and Sight Translation is the same for Honours as for the General course, but the examination will be of a more advanced character.

The following are the prescribed texts:-

1899: Leander, Träumereien (selected by Van Daell); Freytag, die Journalisten; Gerstäcker, Gernelsbausen.

4900: HAUFF, das kalte Herz, Kalif Storch; Eichendorff, Aus dem Leben eines Taugenichts; Wilhelm, Einer muss heiraten; Benepix, Eigensinn.

1901: LEANDER, Träumereien (selected by Van Daell); BAUMBACH, der Schwiegersohn; GERSTACKER, Germelshausen; ELz, Er ist nicht eifersüchtig; Wicherr, Post Festum.

English.

COMPOSITION: An essay, to which special importance will be attached, on one of several themes set by the examiner.

LITERATURE: The candidate will be expected to have memorized some of the finest passages, and to have read carefully both prose and poetry outside of the specified work. Besides questions to test the candidate's familiarity with, and comprehension of, the following selections, questions may also be set to determine within reasonable limits his power of appreciating literary art:

1899.

SCOTT: Lady of the Lake.

MILTON: Paradise Lost, Book I.

SHAKESPEARE: The Merchant of Venice, Richard II.

WORDSWORTH (Arnold's Selections): Michael, To the Daisy ("Bright flower, whose home," etc.), To my Sister, Expostulation and Reply, The

COLERIDGE: The Ancient Mariner, Youth and Age.

LONGFELLOW: Evangeline, A Psalm of Life, Wreck of the Hesperus, "The day is done," The Old Clock on the Stairs, The Fire of Driftwood, Resignation, The Warden of the Cinque Ports, Excelsior, The Bridge, A Gleam of Sunshine.

SHAKESPEARE: Macbeth, The Tempest.

MILTON: L'Allegro, Il Penseroso, Lycidas, On the Morning of Christ's Nativity.

Wordsworth (Palgrave's Golden Treasury of Songs and Lyrics) The Education of Nature ("Three years she grew"), "She was a Phantom of delight," A Lesson ("There is a flower, the Lesser Celandine"), To the Skylark, The Green Linnet, To the Cuckoo, To the Daisy, and the following Sonnets, To a Distant Friend ("Why art thou silent"), England and Switzerland ("Two voices are there"), "Milton, thou shouldst be living at this hour," Westminster Bridge, The Inner Vision ("Most sweet it is with unuplifted eyes"), "O Friend! I know not which way I must look," To Sleep, Within King's College Chapel.

1901.

TENNYSON: The Epic, including Morte D'Arthur, The Day Dream, The Talking Oak, Locksley Hall, The Miller's Daughter, Tithonus, Ode on the Duke of Wellington, Ulysses, "You ask me why," "Of old sat Freedom," "Love thou thy land," Enone, The Lotos Eaters, The Lady of Shalott, The "Voyage, Sir Galahad, the six interlude songs in the Princess, and "Tears, idle tears."

MILTON: Paradise Lost, Book VII.

SHAKESPEARE: Julius Cæsar, Henry IV, Part I.

The following selections from Palgrave's Golden Treasury :-

GRAY: Ode on Vicissitude, Elegy written in a Country Churchyard.

COWPER: Sonnet to Mary Unwin, To the Same, The Castaway, The Poplar Field, The Shrubbery, The Loss of the Royal George.

History.

English History from the discovery of America to 1763.
Outlines of Roman History to the death of Agustus, and of Greek History to the battle of Chaeronea.

The Geography relating to the History prescribed.

Physics.

An experimental course defined as follows :-

MECHANICS: Uniformly accelerated rectilineal motion, particularly under gravity; composition and resolution of forces; triangle and parallelogram of forces; friction; polygon of forces; with easy examples.

Hydrostatics: Fluid pressure at a point; pressure on a horizontal plane; pressure on an inclined plane; resultant vertical pressure, and resultant horizontal pressure, when fluid is under air pressure and when not; transmission of pressure; Bramah's press; equilibrium of liquids of unequal density in a bent tube; the barometer; air-pump; water-pump, common and force; siphon.

ELECTRICITY: Voltaic cells, common kinds; chemical action in the cell; magnetic effects of the current; chemical effects of the current; voltameter; astatic and tangent galvanometers; simple notions of potential; Ohm's law, with units; best arrangement of cells; electric light, are and incandescent; magnetism; inclination and declination of compass; current induction; induction coil; dynamo and motor; electric bell; telegraph; telephone; electroplating.

Sound: Caused by vibrations; illustration of vibrations, pendulums, rods, strings, membranes, plates, columns of air; propagated by waves; its velocity; determination of velocity; pitch; standard forks, acoustical, C = 512, musical, A = 870; intervals; harmonic scale; diatonic scale; equally tempered scale; vibration of air in open and closed tubes, with wave-lengths; resonators; nodes and loops; vibration of strings and wires; reflection of sound; manometric flames.

Light: Rectilinear propagation; image through a pin-hole; beam, penoil; photometry; shadow and grease-spot photometers; reflection and scattering of light; laws of reflection; images in plane mirrors; multiple images in inclined mirrors; concave and convex mirrors; drawing images; refraction; laws and index of refraction; total reflection; path through a prism; lenses; drawing image produced by a lens; simple microscope; dispersion and color spectrum; recomposition of white light.

Chemistry.

Chemical Theory. The study of the following elements, with their most characteristic compounds, in illustration of Mendelejeff's Classification of the Elements: Hydrogen; Sodium, Potassium; Magnesium, Zinc; Calcium, Strontium, Barium; Boron, Aluminium; Carbon, Silicon, Tin, Lead; Nitrogen, Phosphorus, Arsenic, Antimony, Bismuth; Oxygen, Sulphur; Fluorine,

Chlorine, Bromine, Iodine; Manganese, Iron. Elementary Qualitative Analysis. 1. ELE gills, and of the sar systems of the mi Compa

Biology.

1. ELEMENTS OF ZOOLOGY: Thorough examination of the external form, the gills, and the viscera of some common fish. Study of the prepared skeleton of the same. Demonstration of the arrangement of the muscular and nervous systems and the sense-organs, as far as these can be studied without the aid of the microscope.

Comparison of the structure of the frog with that of the fish. The skeleton of the pectoral and pelvic girdles and, of the appendages of the frog, should be studied, and the chief facts in the development of its spawn till the adult form is attained should be observed.

Examination of the external form of a turtle and a snake.

Examination of the structure of a pigeon or a fowl.

Study of the skeleton, and also of the teeth and viscera of a cat or dog.

Study of the crayfish as a type of the Arthropods.

Comparison of the crayfish with an insect (grasshopper, cricket, or cockroach); also with a millipede and a spider.

Examination of an earthworm and a leech.

Study of a fresh-water mussel and a pond-snail.

The principles of zoological nomenclature as illustrated by some of the common fresh-water fish, such as the sucker and herring, bass and perch.

Study of an amœba, or paramœcium as a type of a unicellular animal,

The modifications of the form of the body in vertebrates in connection with different methods of locomotion.

2. Elements of Botany: The examination will test whether the candidate has practically studied representatives of the flowering plants of the locality in which the preparatory school is situated, and representatives of the chief subdivisions of cryptogams, such as a fern, a lycopod, a horsetail, a liverwort, a moss, a lichen, a mushroom, and a chara.

An elementary knowledge of the microscopic structure of the bean and the maize. Attention will be given in the examination to drawing and description of parts of plants supplied, and to their classification. Comparison of different organs, morphology of root, stem, leaves and hair, parts of the flower, reproduction of flowering plants, pollination, fertilization, and the nature of fruit and seeds.

UNDERGRADUATE GENERAL COURSE.

The subjects to be taken by those pursuing the General Course, with the options permitted, are set forth in the following schedule:—

- FIRST YEAR.... English; Latin; any two of the following languages, viz.,
 Greek, French, German, Hebrew; Ancient History; Mathematics;
 Physics or Biology.
- Second Year.... English; Latin; any two of the following languages, viz.,
 Greek, French, German, Hebrew; Mediæval History; Logie;
 Psychology; Chemistry or Geology.
- THIRD YEAR.... English; Latin; any two of the following languages, viz., Greek, French, German, Hebrew; Modern History as for honors; English Constitutional History; Ethics; Physics.
- FOURTH YEAR.... English; Latin; any two of the following languages, viz.,
 Greek, French, German, Hebrew; Modern History as for Honors;
 Economics; Canadian Constitutional History; History of Philosophy;
 Astronomy.

Note.—Students who completed the examination of the First year in Arts, with Greek as the optional language, under the curriculum of 1891-1895 will be allowed to take, in the Second, Third and Fourth years, one of the languages:
—French, German, Hebrew, as prescribed for students of the First, Second and Third years respectively.

First Year.

English.

SHAKESPEARE.—Critical reading of the following plays:— 1899: Richard II., Merchant of Venice. 1900: Macbeth, The Tempest.

Composition: The writing of at least four original compositions in connection with the study of models of prose style. There will be no examination on this portion of the work, but the marks assigned for compositions written during the term will count as Term Work. Provision will be made by a special paper in English Composition for the examination of candidates for Senior Matriculation who are not in attendance, and who have not presented the essays required.

FIRST SECONI the books mentioned in (5). 8. QUINTILIAN, Bk. X. Questions will be set on the history of Roman Poetry (except Satire) to A. D. 120, and on the influence of Roman upon English Literature, so far as covered by the following books: Sellar's Essays on Lucretius and Virgil; Tyrrell's Roman Poetry; Myers' Essay on Virgil; and Mackail's Handbook to Roman Literature. 9. The paper described under (9) in the Greek course or a paper on Descriptive and Comparative Syntax of the Greek and Latin Languages dealing with (a) the substantive—number, gender and case; (b) the verb—voice, mood and tense; (c) particles and prepositions. Students will use Thompson's Greek Syntax; Goodwin's Greek Moods and Tenses; Gildersleeve's and Roby's Latin Grammar; Bennett's Appendix.

[Note.—The Education Department of Ontario accepts an honor degree of the University of Toronto, obtained in the above course, as the non-professional qualification for specialist standing in the Department of Classics.]

DEPARTMENT OF MODERN LANGUAGES.

Additional requirements:—Candidates in this Department are required to take the following subjects of the General course in addition to the work prescribed below:

FIRST YEAR..... Latin; Mathematics; Physics or Biology.

SECOND YEAR ... Latin; History; Psychology.

THIRD YEAR History.

Term Work in Honors:—Every candidate for Honors in this Department shall, during the Fourth Year of his course, write an essay on some subject connected with the work of the Department, such subject to be previously approved by the professor of the branch of study selected by the candidate. This essay shall, on or before the 1st of April in each year, be laid before the Professors and Lecturers in the Department of Modern Languages in the University of Toronto, University College and Victoria University, who shall examine the essay and assign marks according to their judgment of its merit. These marks shall be reported to the Registrar, and shall be taken into account by the Examiners in determining the standing of the candidate at the Examination of the Fourth year.

Options in Honors:—Candidates for Honors in this Department are allowed options in the various years, according to the following schedule:

FIRST YEAR Italian or Spanish.

SECOND YEAR Italian or Spanish.

THIRD YEAR Italian or Spanish or Honor Modern History (the last option

for specialist standing, Education Department).

FOURTH YEAR...Old English or Italian or Spanish or Honor Modern History together with a paper on Historical English Grammar (the last option for specialist standing, Education Department).

1899: NINETEENTH CENTURY LITERATURE.—A general acquaintance with the work of the following writers together with a special study of the specified selections:—

Wordsworth, Michael, Tintern Abbey, Preface to Lyrical Ballads, Preface to the Edition of 1815; Shelley, Alastor, Adonais, Defence of Poetry; Keats, Eve of St. Agnes; Carlyle, Essays on Burns, Johnson, Biography, Characteristics; Macaulay, Essays on Boswell's Life of Johnson and Memorials of Hampden; Tennyson, "You ask me why," "Of old sat Freedom," "Love thou thy Land," Oenone, Ulysses, Enoch Arden, The Palace of Art, Rizpah, Freedom, Merlin and The Gleam; and the selections from these writers in Palgrang's Golden Tressury.

A thorough acquaintance with Coleridge's Biographia Literaria, Chaps. 14, 17-20, 22, J. S. Mill's Essay on Poetry, and M. Arnold's Essays on the Function of Criticism, and the Study of Poetry is also required.

OLD ENGLISH: Sweet's Anglo-Saxon Reader (7th edition), Secs. II, IV, VI, VIII, XIII, XV, XXIV, XXVI, or Bright's Anglo-Saxon Reader, Secs. V, VI, VIII, XIV, XVI, XXIII, XXIV (II. 1-84).

1900: SIXTEENTH AND SEVENTEENTH CENTURY LITERATURE.—An outline of the history of literature from Wyatt and Surrey to the beginning of the Civil Wars, with special study of the following works:—

SPENSER, Faerie Queen, Book I; SHAKESPEARE, Romeo and Juliet, Twelfth Night, Othello; Bacon, Advancement of Learning, Book I; Milton, Areopagitica, Comus, Paradise Lost, Books I, II, IV; together with the selections from Wyatt, Surrey, Sidney, Marlowe, Shakespeare, Elizabethan Miscellanies, Chapman, and Donne, in Ward's English Poets, Vol. I, and the extracts from Lyly to Milton (inclusive) contained in Garnett's English Prose Selections.

OLD ENGLISH: Sweet's Anglo-Saxon Reader (7th edition), Secs. III, V, XIV, XVI, XXIII.

* Greek.

1899: Aristophanes, Clouds; Demosthenes, De Pace, De Halonneso, De Chersoneso (speeches V, VII and VIII in Dindorf); Plato, Republic, Bks. I-1V and Apology.

1900: ARISTOPHANES, Wasps; DEMOSTHENES, De Pace, De Halonneso, De Chersoneso (speeches V, VII and VIII in Dindorf); Plato, Republic, Bks. I-IV and Apology.

Translation at sight.

^{*}In the Greek and Latin subjects of this course the same examination papers will be set as in the corresponding subjects of the Classical Honor course, and the standard required will be the same.

* Latin.

HOBACE, Satires, and JUVENAL, Satires, I-XIII (except II, IV, VI, IX); PERSIUS, Satire I, with the history of Roman Satire; CICERO, De Finibus, Bks. I, II; TACITUS, Annals, Bks. I, II, III, IV.

Translation at sight.

Note.—The author papers will include questions on the contents, style, and literary history of the books. In connection with the Horace and Juvenal students will read Sellar's Roman Poets of the Republic, chap. VIII, Sellar's Horace, and Inge's Society in Rome under the Caesars.

History.

The chief movements in European History A.D. 1250-1763, including (a) the continuous History of England, (b) European effort in America, (c) a special study of the period of the Commonwealth and Protectorate.

Essays will be required during the term on topics connected with the course in History. Marks will be assigned on the basis both of matter and of form by the instructors in English and History, and will be taken into account by the examiners in determining honor standing.

Fourth Year.

English.

1899: NINETEENTH CENTURY LITERATURE: A general acquaintance with the work of the following writers together with a special study of the specified selections:—

WORDSWORTH, Michael, Tintern Abbey; SHELLEY, Alastor, Adonais; KEATS, Eve of St. Agnes; CARLYLE, Essays on Burns, Johnson, Biography, Characteristics; MACAULAY, Essays on Boswell's Life of Johnson and Memorials of Hampden; TENNYSON, "You ask me why," "Of old sat Freedom," "Love thou thy land," Oenone, Ulysses, Enoch Arden, The Palace of Art, Rizpah, Freedom, Merlin and the Gleam; and the selections from these writers in Palgrave's Golden Treasury.

SIXTEENTH AND SEVENTEENTH CENTURY LITERATURE: An outline of the history of literature from Wyatt and Surrey to the beginning of the Civil

The following works are to be studied critically:—SPENSER, Faerie Queen, Book I; SHAKESPEARE, Henry IV, Pts. I and II, As You Like It, Julius Cæsar, Antony and Cleopatra, Henry VIII; MILTON, Paradise Lost, Books I, II, and III.

'In the Greek and Latin subjects of this course the same examination papers will be set as in the corresponding subjects of the Classical Honor course, and the standard required will be the same.

pers will be lard required The following works are to be read carefully:—SIDNEY, Apology for Poetry; SPENSER, Faerie Queen, Book II; MARLOWE, Tamburlaine, Pt. I, Edward II; JONSON, Every Man in his Humour; BACON, Advancement of Learning, Book I; together with the selections from Wyatt, Surrey, Sackville, Sidney, Marlowe, Shakespeare, Elizabethan Miscellanies, Chapman, and Donne in Ward's English Poets, Vol. I, and the extracts in Garnett's English Prose from Lyly to Milton inclusive.

OLD ENGLISH: Beowulf, Il. 1-1250, are to be studied critically in the original; a general knowledge of the remainder of the poem will be expected, which may be gained from Hall's, Earle's, or Garnett's translation; Historical Grammar, and Sweet's First Middle English Primer.

1900: SIXTEENTH AND SEVENTEENTH CENTURY LITERATURE: An outline of the history of literature from Wyatt and Surrey to the beginning of the Civil War, with special study of the following works:—

SPENSER, Faerie Queen, Book I; SHAKESPEARE, Romeo and Juliet, Twelfth Night, Othello; Bacon, Advancement of Learning, Book I; Milton, Areopagitica, Comus, Paradise Lost, Books I, II, IV; together with the extracts from Wyatt, Surrey, Sidney, Marlowe, Shakespeare, Elizabethan Miscellanies, Chapman and Donne in Ward's English Poets, Vol. I, and the extracts from Lyly to Milton (inclusive) contained in Garnett's English Prose.

THE HISTORY OF THE ENGLISH DRAMA from its origin to the death of Shakespeare.

The following works are to be studied critically: Shakespeare, Hamlet, The Tempest, Henry VIII.

The following works are to be read carefully †:—Pollard's Miracle Plays, the selections entitled The Fall of Lucifer, Noah's Flood, The Sacrifice of Isaac, Secunda Pastorum, The Castle of Perseverance, the Pardoner and the Frere; Gorboduc; Marlowe, Tamburlaine, Pt. I, and Edward II; Greene, Friar Bacon and Friar Bungay; Shakespeare, Love's Labor Lost, Midsummer Night's Dream, King John, Richard III; Jonson, Every Man in his Humor; Milton, Samson Agonistes.

NINETEENTH CENTURY LITERATURE: TENNYSON, In Memoriam.

OLD ENGLISH: CAEDMON, Exodus and Daniel (Ginn & Co.); Historical Grammar, and Sweet's First Middle English Primer.

† In the case of these works, the examination shall be confined to broad literary characteristics, and shall not bear on minute points in regard to text, allusion, or interpretation.

UNIVERSITY AND UNIVERSITY COLLEGE

DEPARTMENT OF ORIENTAL LANGUAGES.

Additional Requirements: -Candidates in this Department are required to take the following subjects of the General course, in addition to the work prescribed below:—

FIRST YEAR English; Latin; any two of the languages: Greek, French,
German, Hebrew; Ancient History; Mathematics; Physics or Biology.

Second Year... English or History; any two of the languages: Latin, Greek, French, German; Psychology, and Logic.

THIRD YEAR . . . Latin or Greek or French or German; Ethics.

FOURTH YEAR . . . Latin or Greek or French or German.

Term work in Honors:—Every candidate for Honors in this Department shall, during the Fourth year of his course, present a dissertation on some subject connected with Oriental Languages or Literature, such subject to be previously approved by his instructors in the Department. The essay shall, on or before the 1st of April in each year, be laid before the instructors in Oriental Languages in University College and Victoria University, who shall examine it and assign to it marks according to their judgment of its merit. Such marks shall be reported to the Registrar and be taken into account by the examiners in determining the standing of the candidate at the examination of the Fourth year.

Second Year.

HEBREW: Historical and narrative Prose—Exodus I-XIX; Numbers XXI-XXIV; Deuteronomy I-XIII; Judges XIV-XVI; Ruth; 1 Samuel XVII-XIX; 2 Samuel XVII, XVIII; 1 Kings, V, VIII, XVII-XIX; 2 Kings XVI-XIX; 2 Chronicles XXX. Hebrew syntax and Hebrew prose composition. Translation at sight of prose passages. Outlines of Hebrew literature.

ARAMAIC: West Aramaic grammar, with extracts from Targums. Syriac grammar with reading lessons; outlines of Aramaic literature.

General Semitic history, geography and antiquities. /

HEBREW: Amos I-VI; Micah V-VII; Isaiah I-XIV, XXV, XXVIII, XXXI, XXXV, XL-LXVI; Jeremiah IV-VIII, XIV-XVII, XXII, XXIII; Ezekiel XXVI, XXVII, XXXIII, XXXIIV; Nahum; Haggai. Translation at sight. Syntax and composition. Introduction to the literary study of the prophetic writings. History of Israel to fall of Samaria.

BIBLICAL ARAMAIC: Outlines of the grammar with selections from Daniel

ARABIC: Introduction to Arabian history and literature. Arabic grammar, Reading of prescribed specimens of the literature.

Fourth Year.

HEBREW: Psalms I-XXXIV, XXXIX-I-V, LXXII-LXXVII, LXXXIV-LXXXVII, XC-C, CII-CIV, CX, CXXI-CXXVII, CXXX, CXXXVII, CXXXIX, CXLV-CL; Proverbs I-V, VIII, IX-XII, XV, XXV, XXX, XXXI; Job III-XIV, XIX, XXVIII; Ecclesiastes XII; Lamentations I. Composition and translation at sight. Characteristics of Hebrew poetry in detail and of the several poetical books. History of Israel to Maccabean period-Assyrian history. Introduction to the literature, with the history of modern discoveries and their relations with the Old Testanient.

Comparative grammar of the Semitic languages.

DEPARTMENT OF HISTORY.

Additional Requirements:—Candidates in this Department are required to take the following subjects of the General course in addition to the work prescribed below:

First Year..... English; any two of the following languages, viz., Greek, French, German, Hebrew; Mathematics; Biology or Physics.

SECOND YEAR.....English; any two of the following languages, viz., Greek, French, German, Hebrew; Psychology.

THIRD YEAR English.

First Year

†LATIN: 1. Composition. 2. Sight translation. 3. Grammar (including Prosody). 4. VIRGIL, Æneid, Bks. V, VI; CICERO, Pro Murena. 5. CICERO, Pro Cluentio and Philippic II; Horace, Odes and Carmen Saeculare.

† In the Greek and Latin subjects of this course the same examination papers will be set as in the corresponding subjects of the Classical Honor course, and the standard required will be the same

The questions in (3) will be based on the prescribed authors; (4) and (5) will include questions on the contents, style, and literary history of the books.

Ancient History: (a) Roman History (Pelham's Outlines of Roman History);
(b) Greek History (Oman's History of Greece).

Second Year.

- †Latin: Composition; sight translation; grammar (including prosedy);
 Livy, III, IV, V, VI.
- 2. †Ancient History: (a) Roman History to 266 B.C. (Mommsen, Bks. I and II, Fustel de Coulanges' La Cité Antique); (b) Greek History to 421 B.C., (Oman's History of Greece; Grote's History of Greece, Part II, chaps. VI, XI, XXX, XXXI, XLV, XLVI).
- 3. Medleval History: The chief movements in European History, 300 A.D. to 1250, including (a) the continuous History of England, (b) a special study of the thirteenth century.
- 4. The Constitutional History of England to Magna Charta, including the study of the text of the principal constitutional documents.
 - 5. The Elements of Economics.

Third Year.

- †ANCIENT HISTORY: (a) Roman History from 266 B.C. to 78 B.C., (Mommsen, Bks. III and IV); Tacitus, Annals, Bks. I, II. (b) Greek History from 421 B.C. to 362 B.C. (Oman's History of Greece, Grote's History of Greece, chaps. LXVII and LXVIII).
- 2. Modern History: The chief movements in European History from 1250 A.D. to 1763, including (a) the continuous history of England, (b) European effort in America, (c) a special study of the period of the Commonwealth and Protectorate. An essay will be required on some selected topic connected with (c), and the merits of this essay will be taken into account by the examiners in determining honor standing.
- 3. English Constitutional History from Magna Charta, including the study of the text of the principal documents.
 - 4. History of Economic Theory.
 - 5. History of Ethics; the theory of Ethics.
 - 6. English Constitutional Law.
- † In the Greek and Latin subjects of this course the same examination papers will be set as in the corresponding subjects of the Classical Honor course, and the standard required will be the same.

1. 'ANGIENT HISTORY: (a) Roman History from 78 B.C. to 37 A.D., (Mommsen, Bk. V; Merivale, Vols. III, IV, and V); Cicero's Letters (Watson's selection). (b) Greek History, †Thucydides I, II, III, VI, VII, VIII, †Herodotus VII, VIII, IX; Grote's History of Greece, Part I, chaps. XV, XVII, XVII, XX, XXI.

2. Modern History: The chief movements in European and American History from 1763 to the present time, including (a) the continuous History of England, the United States and Canada, (b) a special study of the French Revolutionary period, (c) the Philosophy of History. An essay will be required on some selected topic connected with (b), and the merits of this essay will be taken into account by the examiners in determining honor standing.

3. Political Philosophy; Economic History; Public Finance.

4. Constitutional Law (Colonial and Federal).

5. Ethnology.

DEPARTMENT OF POLITICAL SCIENCE.

Additional Requirements:—Candidates in this Department are required to take the following subjects of the General course, in addition to the work prescribed below:

First Year... English; Latin; any two of the following languages, viz., Greek, French, German, Hebrew; Mathematics (including Permutations and Combinations, so far as necessary for the Binomial Theorem; and the Binomial Theorem); Biology or Physics (Biology recommended); Ancient History.

Second Year.... English; Latin; any two of the following languages, viz.,
Greek, French, German, Hebrew; Logic and Psychology.

THIRD YEAR English.

Term Work in Honors:—The following term work, to be prescribed by the Professor of Political Economy and Constitutional History, is required in these subjects:

SECOND YEAR: Two essays in each term, in all four essays, and also a Term examination to be held before or shortly after Christmas vacation.

THIRD YEAR: Two essays in each term, in all four essays, and also a Term examination to be held before or shortly after Christmas vacation.

FOURTH YEAR: Two essays in each term, in all four essays, and also a Term examination to be held before or shortly after Christmas vacation.

In each year such term work and examination count for Honors in the annual examination.

* In the Greek and Latin subjects of this course the same examination papers will be set as in the corresponding subjects of the Classical Honor course, and the standard required will be the same.

† Thucydides and Herodotus may be read in translations.

First Year.

Candidates for Honors in the Department of Political Science are required to take, in addition to the above subjects of the General course, the full Honor course in one or other of the following Honor subjects in the First year: Latin; Greek; any two of the three languages; English, French, German.

Note.—Students are recommended to take the Honor Latin in the First year in tead of the Latin of the General course, in order that they may have the option of entering the History course in the Second year should they so desire.

Second Year.

1. The Elements of Economics.

2. Roman History to 266 B.C., Mommsen, Bks. I and II and Fustel de Coulanges' La Cité Antique.

3. Mediæval History to 1250.

4. English Constitutional History to Magna Charta, including the study of the text of the principal constitutional documents.

 Mathematics (Elements of the Infinitesimal Calculus, with Elements of Analytical Geometry).

Third Year.

- 1. The Theory of Political Economy.
- 2. Modern History from 1250 to 1763.
- 3. English Constitutional History from Magna Charta, including the study of the text of the principal constitutional documents.

4. English Constitutional Law.

- 5. Ethics (Honor Ethics of the Third Year).
- 6. Roman Law.
- 7. History of English Law.
- 8. Colonial Constitutional Law.

Fourth Year.

1. Economic History; Public Finance; Political Philosophy.

Modern History from 1763 to the present time (See Department of History for details).

DEPARTMENT OF PHILOSOPHY.

1

Additional Requirements:—Candidates in this Department are required to take the following subjects of the General course in addition to the work prescribed below:

First Year.... English; Latin; any two of the following languages, viz., Greek, French, German, Hebrew (Greek and German recommended) Ancient History; Mathematics; Physics or Biology (Biology recommended).

SECOND YEAR.....Geometrical Optics; any two of the following languages, viz., Greek, German, Latin, French, Hebrew (Greek and German-recommended).

THIRD YEAR English or History; Honor Economics (Pass standing).

Second Year

Logic: Formal and Inductive; Scientific Methods.

PSYCHOLOGY: (a) Sensation, Thought, Emotion, Volition; (b) Experimental, Introductory Course, Psychophysical methods, the senses of taste and smell, and the dermal and kinesthetic Senses.

METAPHYSICS: Locke, Essay on the Human Understanding; Berkeley, Principles of Knowledge; Hume, Treatise on Human Nature, Book I.

Third Year.

Logic: Scientific Methods; J. S. Mill.

ETHICS: Theory of Ethics; History of Ethics; Essays on Ethical Topics.
HISTORY OF PHILOSOPHY: Ancient and Mediæval; Cicero, De Finibus,
Books I and II.

PSYCHOLOGY: (a) Experimental, Study of psychological optics and acoustics and the time and space relations of mental phenomena; (b) the more important problems of General Psychology, with selected readings from Bain, Baldwin, James, Ladd, Sully, Tracy, Ward, Wundt.

Fourth Year.

HISTORY OF PHILOSOPHY: Modern; Special study of Kant's Critiques. ETHICS: Aristotle, Nicomachean Ethics; Kant's Ethical Writings; 1898. 99 Leslie Stephens' The Science of Ethics; 1899-1900 Sidgwick's Methods of Ethics; Essays.

PSYCHOLOGY: Practical work in the Laboratory.

METAPHYSICS :-

(a) *Kant's Prolegomena (paragraphs 1-50 in the original). Aristotle's Metaphysics.

(b) (1898-99). Hamilton's Notes on Reid; Mansel; Comte, Positive Philosophy; J. S. Mill, Examination of Sir William Hamilton; Spencer's First Principles.

(c) (1899-1900). Descartes Meditations and Method; Spinoza's Ethic; Leibnitzs, Nouveaux Essais; Lotze, Metaphysics; Wundt, System of Philosophy. Essays on Metaphysical Topics.

Review of the work of previous years, and Essays.

Note.—Candidates from St. Michael's College may substitute Lorimer's Institutes of Law for Kant's Ethics, in Fourth year; and also Aristotle's Ethics, Bks. I-IV in the original, and one of Plato's Dialogues in the original, for the Experimental Psychology in the Fourth year.

DEPARTMENTS OF MATHEMATICS AND PHYSICS.

Additional Requirements:—Candidates in this Department are required to take the following subjects of the General course in addition to the work prescribed below:

FIRST YEAR English: Latin or Greek: French: German.

First Year.

Elementary Physics (Mechanics, Hydrostatics and Heat); Elementary Chemistry; Algebra; including Determinants and omitting Theory of Probability; Trigonometry (Plane and Spherical); Analytical Plane Geometry.

Second Year.

Elementary Physics (Electricity and Magnetism, and Geometrical Optics); Physical Chemistry with Laboratory work; Newton's Principia, sec. I; Differential Calculus; Integral Calculus; Solid Geometry; Elementary Analytical Statics and Particle Dynamics.

*Candidates who have not taken German may read this work in translation.

Fourth Year.

Candidates are allowed to take either Division I or Division II in the Fourth year.

DIVISION I .- MATHEMATICS.

Astronomy; Differential Equations; Higher Plane Curves with introductory course in Modern Geometry; Quaternions with outlines of similar space analyses; also any two of the following courses, the selection to be made by the Mathematical Department at the beginning of each year:—

1. Invariant Theory. 2. Theory of Numbers. 3. Theory of Substitutions. 4. Elementary Theory of Functions. 5. Elliptic Functions. 6. Tangential Co-ordinates and Trilinear Co-ordinates—outlines of one of these, with fuller treatment of the other. 7. Projective Geometry with Modern Synthetic Geometry—outlines of one of these, with fuller treatment of the other. 8. Theory of Probability.

DIVISION II.—PHYSICS.

Elasticity; Hydrodynamics; Acoustics; Physical Optics; Thermodynamics (advanced); Electricity and Magnetism; Method of Least Squares; Laboratory Work.

The Education Department of Ontario accepts an Honor degree of the University of Toronto, obtained in the above course, as the non-professional qualification for specialist standing in the Department of Mathematics.]

DEPARTMENT OF NATURAL SCIENCE.

Additional Requirements:—Candidates in this Department are required to take the following subjects of the General course in addition to the Honor work prescribed below:

m.

First Year.

Elementary Biology with Laboratory work, including the study of typical animals and flowering plants.

Elementary Physics (Mechanics, Hydrostatics, and Heat), including Labora.

Elementary Chemistry.

Second Year.

Zoology of the Invertebrata, with a practical knowledge of typical forms; Structure of the Vegetative and Floral Organs of Phanerogamous Plants, the course to include Laboratory work; Elementary Physiology; Chemistry with practical work; Elementary Mineralogy, Lithology and Dynamical Geology, with practical work; Physics (Acoustics, Geometrical Optics, Electricity and Magnetism) with Laboratory work.

Third Year.

The candidate may select either of the two following divisions for examination:

DIVISION I.—BIOLOGY.

Zoology of the Vertebrata, with Laboratory and Museum work illustrative of this course; Vegetable Physiology; Structure and classification of Cryptogamic Plants, with practical knowledge of types; Organic Chemistry, with Laboratory work; Stratigraphical Geology and Falæontology, with excursions and Laboratory work.

DIVISION II.—GEOLOGY.

Zoology of the Vertebrata, with Laboratory and Museum work illustrative of this course; Palæontology of the Invertebrata and Palæophytology, with practical work; Stratigraphical Geology; Economic Geology; Mineralogy, Elementary Crystallography and Determination of Minerals, with Laboratory practice; Lectures and Laboratory work in Mineral Chemistry.

At the examination of the Third Year in 1898, candidates will be examined upon "Zoology of the Invertebrata, with a practical knowledge of typical forms." In 1899 "Zoology of the Vertebrata, with Laboratory and Museum work illustrative of this course," will be the subjects of examination.

Fourth Year.

The candidate may select either of the two following divisions for examination:—

DIVISION I.—BIOLOGY.

Morphology and Embryology of Vertebrates, with special dissection of a typical Vertebrate Form; Histology; Bacteriology; General Biology; Physiology; Physiology; Physiology Physiology.

Archaean Geology; Glacial Geology; Structural Geology; Field work in Geology; Physiography; Meteorology; Petrology (Megascopic and Microscopic); Palæontology of the Vertebrata; Crystallography (Theoretical and Practical); Mineral Chemistry and Assaying.

Students in the department are required to submit a Mineralogical, Petrographical or Palæontological collection made during the previous holidays.

The Education Department of Ontario accepts an Honor degree of the University of Toronto, obtained in the above course, as the non-professional qualification for specialist standing in the Department of Science.]

DEPARTMENT OF CHEMISTRY AND MINERALOGY.

Additional Requirements:—Candidates in this Department are required to take the following subjects of the General course in addition to the Honor work prescribed below:

FIRST YEAR..... English; Latin; German; French; Algebra; Trigonometry.

First Year

CHEMISTRY: Elementary Chemistry; Physical Chemistry; Laboratory work.

PHYSICS: Elementary Physics (Mechanics, Hydrostatics and Heat).
MATHEMATICS: Elementary Analytical Geometry.

Second Year.

CHEMISTRY: Inorganic Chemistry; Physical Chemistry; Elementary Organic Chemistry; Laboratory work.

MINERALOGY: Theoretical and Practical.

Physics: Electricity and Magnetism; Geometrical Optics; Acoustics; Laboratory work.

MATHEMATICS: Elementary Differential and Integral Calculus.

Third Year.

CHEMISTRY: Advanced Organic Chemistry; Physical and Inorganic Chemistry; Laboratory work.

MINERALOGY: Spectrum Analysis; Determinative Mineralogy; Crystallography.

Physics: Practical Electricity.

Fourth Year.

CHEMISTRY: History of Chemical Theory; Organic and Inorganic Chemistry, including the study of selected Monographs; Theory of Chemical Equilibrium; Electro-Chemistry.

MINERALOGY: Systematic Mineralogy; Advanced Crystallography; Assaying

(practical).

In the case of students who desire to obtain a "Specialists Certificate in Science," the Biology of the First year of the Department of Natural Science may be substituted for the Mineralogy of the Third year; and the Biology of the Second year for the Mineralogy of the Fourth year.

[The Education Department of Ontario accepts an Honor degree of the University of Toronto, obtained in the above course, as the non-professional qualification for specialist standing in the Department of Science.]

Courses of Instruction in Arts.

The undergraduate courses of instruction in the University of Toronto and University College are based upon the Curriculum, as above (pp. 76-113). The following statements regarding the scope and aim of the courses are added in cases in which such additional information is considered desirable, together with the names of the teaching staff for 1897-98:—

Classics.

MAURICE HUTTON, M.A	Professor of Greek
J. FLETCHER, M.A., LL.D	Professor of Latin.
W. S. MILNER, M.A	Lecturer on Latin.
A. CARRUTHERS, M.A	Lecturer on Greek.
G. W. JOHNSTON, B.A., PH.D	Lecturer on Latin.

The division of the examination papers given below has been recommended to the Senate by the Professors in Classics for insertion in the instructions to examiners.

The examination papers in the First year will be distributed as follows: 1. Greek and Latin Grammar. 2. Greek and Latin Sight Translation. 3. Greek Prose. 4. Latin Prose. 5. Greek and Roman History. 6. Homer and Plato (or Demosthenes). 7. Herodotus. 8. Virgil and Cicero (Pro Murena). 9. Cicero (Cluentius and Philippic II.), Horace, Odes.

The examination papers in the Second year will be distributed as follows:

1. Greek and Latin Grammar.

2. Greek and Latin Sight Translation.

3. Greek Prose.

4. Latin Prose.

5. Greek and Roman History.

6. Euripides and Plato.

7. Sophocles, Aristophanes, and Thucydides.

8. Livy.

9. Virgil, Horace, and Terence.

The examination papers in the Third year will be distributed as follows:

1. Greek and Latin Grammar and Philology.

2. Greek and Latin Sight Translation.

3. Greek Prose.

Note.—(10), (11), and (12) will include questions on the contents, style and literary history of the books. For (10) Martha's Les Moralistes Romains (Perse, Epictète, Juvenal) is recommended for reference.

The examination papers in the Fourth year will be distributed as follows:

1. Greek Sight Translation. 2. Latin Sight Translation. 3. Greek Prose.

4. Latin Prose. 5. Roman History. 6. Plato and Aristotle's Ethics. 7. Thucydides (two-thirds of the paper) and Herodotus. 8. Æschylus, Homer, and Theocritus. 9. Aristotle, Poetics, and Quintilian, Bk. X with the other books prescribed therewith (translation and questions). 10. Aristotle, Politics, IV, VIII, with the books prescribed therewith (vide paper (9) in the Greek course p. 86) or Descriptive and Comparative Syntax (vide paper (9) in the Latin course p. 87). 11. Lucretius and Virgil. 12. Sallust, Cicero's Letters, Tacitus, and the Monumentum Ancyranum. 13. Cicero (De Finibus and Academica) and History of Greek Philosophy. 14. Greek History, and Aristotle's Politics. Bk. II.

Note.—In connection with (5) candidates are recommended to refer to Boissier's L'Opposition sous les Césars, and his La Religion romaine, Vol. I.; and in connection with (11) Sainte Beuve, Virgile; Martha, Lucrèce.

N.B.—The Roman method of pronouncing Latin is recommended:— \bar{a} as in far, \bar{a} the same sound but shorter; \bar{e} like a in fate, \bar{e} as in set; \bar{i} as in machine; \bar{i} as in fit; \bar{o} as in note; \bar{o} as in obey; \bar{u} as in rude; \bar{u} as in full; \bar{i} (i.e., \bar{i} consonant) like \bar{u} in year; $\bar{v} = w$; \bar{c} and \bar{g} always hard as in can, go; \bar{s} always as in this, never as in his; \bar{t} always as \bar{t} , never as \bar{s} ; \bar{u} is \bar{u} in aisle; as either as \bar{u} in aisle, or as \bar{u} in bay; \bar{u} as \bar{u} in our; \bar{e} as in feint; $\bar{e}u = \bar{e}h$, $\bar{o}o$; $\bar{o}e$ as $\bar{o}i$ in oil; $\bar{u}i$ almost as $\bar{u}e$.

English.

W. J. ALEXANDER, B.A., Ph.D: Professor.
D. R. KEYS, M.A. Lecturer.

A. General Course :-

FIRST AND SECOND YEARS.—An attempt is made to develop the understanding and appreciation of literature through the study of two plays of Shakespeare in the First year, and Tennyson's In Memoriam in the Second year. Students are expected, in the case of Shakespeare, to master for themselves the explanatory notes of some good edition such as Rolfe's.

Composition is taught in connection with the study of prose literature. The methods of the various forms of composition are investigated in selections from good writers. An original essay on a subject set by the instructor is required of each student on or before each of the following dates: October 31st, December 15th, February 1st, and March 15th. If any articles or books are read in preparation for such essays, the titles of these and the parts specially made use of must be definitely specified in each essay. The marks assigned for these four essays count as term work at the final examination (80 marks out of 200).

Roman ristotelian THIRD AND FOURTH YEARS.—In these years the literature of a period is studied, and an attempt is made to enable the student not only to appreciate and understand the individual works selected, but also to grasp their relation to one another, and the way in which they give expression to the personality of the writer and the tendencies of the time.

B. Honor Course :-

The work prescribed in the General course is also incumbent upon Honor students, but a fuller and more advanced knowledge is expected than in the case of General students. The marks assigned for compositions during the term will count as one paper at the annual examinations.

The special Honor work is intended to broaden the knowledge and deepen the insight which the student may acquire in the General work. In the Third year, besides additional work in the period prescribed in the General course, the study of Old English is begun. In the Fourth year this lastmentioned work is continued, and a course on Historical Grammar is given. In literature the period from Surrey to the beginning of the Civil War is the subject for Honor work. The student is expected to make a minute study of certain typical works, and to extend his acquaintance with the literature of the time by a careful reading of other prescribed books. The class work is devoted partly to a special examination of the prescribed selections, partly to an exemplification by lectures of the general characteristics of the various writers and periods.

Books recommended: Good one volume editions of the poetical works of Milton (90 cents), Wordsworth (\$1.75), Shelley (\$1.75), Tennyson (\$1.75), Spenser (90 cents), and Shakespeare (\$1.75), in Macmillan's Globe edition; of Keats, in Macmillan's Golden Treasury (\$1.00), or in Bell's Aldine edition (75) cents). Annotated editions of Shakespeare's plays, by Rolfe (58 cents each), or in the Clarendon Press (40 cents each); of Beowulf (ed. Wyatt, Pitt Press, \$2.00); of Milton's Paradise Lost, in the Clarendon Press, or in Pitt Press (60) cents); of Selections (containing all the texts prescribed) from Wordsworth ed. by Dowden (\$1.25), Shelley ed. Alexander (\$1.25), Keats ed. Bates (\$1.00), in Ginn's Athenæum Press Series; of Burke's Conciliation with America (Macmillan, 70 cents), of Bacon's Advancement of Learning, Bk. I (Macmillan, 40 cents), of Spenser's Faerie Queen, Bk. I (Clarendon Press, 60 cents; Macmillan, 50 cents). Cheap texts of Marlowe's Edward II (Dent, 35 cents), Jonson's Every Man in His Humor (Dent, 35 cents), Marlowe's Tamburlaine (Henninger, Heilbronn, 65 cents), Coleridge's Biographia Literaria (Bohn, \$1.00), Sidney's Apologie for Poetry (Cassel's National Library, 15 Spencer's Philosophy of Style (Effingham Maynard, N. Y., 15 cents), Carlyle's Essays prescribed (Chapman & Hall, 3 vols., one shilling each), Arnold's Function of Criticism (Macmillan's, 30 cents), Macaulay's Essays prescribed (Routledge, 2 shillings; Ward Lock, 1 shilling), Bacon's Advancement (Cassel's National Library, 15 cents). Gummene's Poetics (\$1.00), Garnett's English Prose (\$1.50), Bright's Anglo-Saxon Reader (\$2.50), Sweet's First and Second Middle English Primers (each 60 cents), Ward's English

French

J.	SQUAIR,	B. A		Associate-Professor.
		Control of the last of the las	A CONTRACTOR OF THE PARTY OF TH	

A. General Course :-

In all the years special stress will be laid on grammar, pronunciation and translation into French, commencing in the First year with simple exercises in each of these subjects, and continuing with those of a more difficult character to the end of the Fourth year. In the First and Second years, particular attention will also be paid to careful translation from French into English; a short text in modern French will be read in class in each of these years. In the Third year the prose texts, and in the Fourth year the poetical and dramatic texts, belonging to various periods, which have been prescribed by the University, will be read and will be illustrated by such critical and historical lectures as may be necessary for their proper understanding and appreciation.

B. Honor Course :-

As in the General course, special stress will be laid, in all the years, on grammar, pronunciation and translation into French. In addition to these subjects there will, in the Honor course, be regular and continuous exercises in conversation and composition in French during the Second, Third and Fourth years. The study of literature will begin in the Second year, the period for this year being the Seventeenth century; the Eighteenth century will be studied in the Third year, and the Nineteenth century in the Fourth year. In each year appropriate critical and historical lectures will be given for the purpose of aiding students to thoroughly understand and appreciate the works, belonging to each period, which are prescribed by the University. During the Third and Fourth years, students will be expected to read systematically some good grammar of the French language. In these two years, also, lectures will be given on the History of the French language, the lectures to be illustrated in the Third year by a selection from the Chanson de Roland. Students of the Fourth year will be encouraged to undertake the independent study of topics in connection with the history of the language and literature.

German.

W. H. VANDERSMISSE	N, M.A	Associate-Professo	r
G. H. NEEDLER, B.A.	, Рн. D	Lecturer.	
P. Toews, M.A., Ph.1			

The courses in this subject comprise (1) the study of the literary language of classical authors of the 18th and 19th centuries; (2) practice in writing and speaking German as illustrative of and a means to the above-mentioned end; (3) the history of German literature; and (4) for the Honor courses the elements of the history of the language.

A. General Course :-

Practice in dictation will be regularly given, and also exercises in translation at sight.

Practice in translation into German will be based on Horning's Book of

(b) Students of the Third and Fourth years will read carefully the texts prescribed, and will have more advanced work in grammar, composition and sight translation. An outline of the literature prescribed will be given in lectures.

B. Honor Course :-

(a) Exercises in grammar and sight translation will be regularly given, and exercises in translation into German based on Horning's Book of Exercises and Harris' German Composition.

(b) Similar exercises of rather more advanced character will be given in the Second year. Students will also read carefully the texts prescribed.

In both the First and Second years an outline of literature as prescribed will be given in lectures.

(c) Honor students of the Third and Fourth years are expected to be familiar with the works of the modern authors prescribed, and lectures on the literature of the respective periods will the given, with illustrative references to the authors read.

In both Third and Fourth years exercises in sight translation, dictation, grammar and translation into German will receive much attention. Original essays in German will be required from time to time. Practice will also be given in conversation. Students will provide themselves with the following book for translation into German: Humour, Wit and Wisdom (Routledge's Pocket Library).

(d) In the Fourth year an outline of the history of the language will be given, according to a syllabus to be agreed upon by the instructors. The elements of Middle High German grammar and literature will be studied with special reference to the works prescribed.

Italian and Spanish.

W. H. Fraser, B.A		
E. J. SACCO	.Special Instructor in Italian.	
P. TOEWS, M. A., PH. D.	Special Instructor in Spanish	

The courses in these subjects extend over four years, and are arranged with the object of giving the student, (1) a knowledge of the language of the present time; (2) an appreciation of some of the more important masterpieces of the literature; (3) a knowledge of the historical development of the literature; and (4) an elementary acquaintance with the historical phonology.

FIRST YEAR ITALIAN.—Simple narratives are used as a basis for instruction in grammar, and for the acquisition of vocabulary and idiom. The understanding of Italian when read or spoken, and the expression of thought

sh.

nstruction he underf thought directly in Italian are regarded as fundamental, and hence oral practice forms a large part of the work throughout the year. Phonetic transcription is employed as a means of giving definiteness to the knowledge of pronunciation and orthography. Grandgent's Italian Grammar (Heath & C...) is used as a book of reference.

FIRST YEAR SPANISH.—The course in Spanish is parallel in scope, object and method with that in Italian. H. Butler Clarke's First Spanish Reader and Writer (London, Swan, Sonnenschein & Co.) is used as a basis for practice in the language, and for instruction in grammar, vocabulary and idiom. Manning's Practical Spanish Grammar (Holt & Co.) is used as a book of reference.

SECOND YEAR ITALIAN.—Bowen's Italian Reader is used as a basis for oral practice in the comprehension of Italian and for exercise in the reproduction of the substance of the text in Italian form. Constant practice is given in phonetic transcription and dictation, and in the understanding of unseen passages when read. Composition in Italian on familiar topics is required. Grandgent's Italian Composition (Heath & Co) is used for additional work in composition and for more systematic instruction in the rules of construction. In the work of the Second year the use of a dictionary entirely in Italian is strongly recommended. Petrocchi's Novo Dizionario Scolastico (Milano, Fratelli Treves, price 7 francs) is the most suitable for this purpose.

SECOND YEAR SPANISH.—The course in Spanish is parallel in scope, object and method with that in Italian of the Second year. Matzke's Spanish Reader is used for oral practice, as in Italian above. Exercises in phonetic transcription, dictation, composition and sight translation similar to those in Italian are required. The use of a dictionary entirely in Spanish is strongly recommended. The Diccionario Castellano, Campano Ilustrado (Garnier, Paris,

price 7 francs) is the most suitable for this purpose.

THEO YEAR ITALIAN.—Attention is given principally to the systematic study of the history of literature from the origins up to the end of the fifteenth century and to the comprehension and interpretation of illustrative specimens of literature. Lectures on the subject are given, and ten cantos of Dante's Divina Commedia are read, together with copious extracts from Petrarca and Boccaccio, and shorter extracts from a number of writers of subordinate importance. The work in literature is largely oral, the objective point being the appreciation of the literature as far as possible without the intermediary aid of English translation. Students are frequired to provide themselves with Dante's Divina Commedia (ed. Fraticelli, Firenze, Barbera, recommended), and with vol. I. of Torraca's Manuale della Letteratura Italiana (3rd ed., Firenze, Sansoni, 1894). In the work of the Third year the use of a dictionary entirely in Italian is strongly recommended. Petrocchi's Novo Dizionario Scolastico (Milano, Fratelli Treves, price 7 francs) is the most suitable for this purpose.

THIRD YEAR SCANISH.—The course in Spanish is parallel in scope, object and method with that in Italian of the Third year. The period of literary history covered is that extending from the origins to about the death of Cervantes (exclusive of the drama). Ten chapters of Cervantes' Don Quijote and

illustrative extracts from a number of writers of subordinate importance are read. Students are required to furnish themselves a copy of Don Quijote (Brockhaus edition, vol. 3 Col. de aut. esp., recommended), with the Curso de Literatura de García Al-Deguér y Giner de los Ríos (Madrid, Administracion de la Biblioteca andaluza, 1889), and with Keller's Altspanisches Lesebuch (Leipzig, Brockhaus). For the work of the Third year the use of a dictionary entirely in Spanish is strongly recommended. The Diccionario Castellano, Campano Ilustrado (Garnier, Paris, price 7 francs), is the most suitable for this purpose.

FOURTH YEAR ITALIAN.—The course is practically a continuation of that of the Third year, and similar methods are employed. Lectures are given on the history of literature from Ariosto, inclusive, to the present time. Considerable portions of Ariosto and Tasso are read, together with numerous illustrative extracts from writers of subordinate importance. The elements of historical phonology are briefly presented, and further instruction in this subject is given incidentally in conection with the readings in literature. Students are required to provide themselves with Vols. II and III of Torraca's Manuale della Letteratura Italiana (3rd edition, Firenze, Sansoni, 1895 and 1897 respectively). The use of dictionary entirely in Italian is strongly recommended. Petrocchi's Novo Dizionario Scolastico (Milano, Fratelli Treves, price 7 francs) is the most suitable for this purpose.

FOURTH YEAR SPANISH .- The course in Spanish is parallel in scope, object and method with that in Italian of the Fourth year. The period of literary history covered is that extending from the beginning of the 17th century to the present time, with the addition of the history of the drama from its origin. Calderon's Principe Constante is read, together with numerous illustrative extracts from writers of subordinate importance. The elements of historical phonology are briefly presented, and further instruction in this subject is given incidentally in connection with the readings in literature. required to provide themselves with a copy of El Príncipe Constante (Vol. I of Krenkel's Klassische Bühnendichtungen der Spanier, Leipzig, Barth, recommended), with the Curso de Literatura de García Al-Deguér y Giner de los Ríos (Madrid, Administracion de la Biblioteca Andaluza, 1889), and with Keller's Altspanisches Lesebuch (Leipzig, Brockhaus). The use of a dictionary entirely in Spanish is strongly recommended. The Diccionario Castellano, Campano Ilustrado (Paris, Garnier, price 7 francs) is the most suitable for this purpose.

Oriental Literature.

The Oriental course has the main object of affording an introduction to the study of the Semitic languages and literature and of Semitic history. On account of the paramount importance of the literature of ancient Israel, the Hebrew language and the Old Testament in the original are made very prominent throughout the pourse, being taught in all the years and occupying almost as much time as all the other languages taken together. The aim of the course, more definitely, is a twofold one: to give those interested in the Bible a competent acquaintance with the Hebrew text, and to furnish all who desire a liberal education an opportunity of becoming acquainted with the literature and history of the Semites, who divide with the Indo-European race the controlling moral and intellectual influence of mankind. These ends are kept in view in the General as well as in the Honor lectures.

For purely linguistic study the General course is confined to Hebrew and Biblical Aramaic, and is so arranged that, with two or three lectures a week throughout the four years, the student may gain some familiarity with the different kinds of literature in the Old Testament: narrative, historical, prophetical and poetical. The Honor course secures in its Hebrew department an intimate familiarity with the language and literary features of the Old Testament in all its divisions, and at the same time introduces the learner to the other important languages of the Semitic family. In the Second year of the curriculum, which begins the Honor course, the Aramaic is taken up in its two dialects, East and West Aramaic; in the Third year Arabic is the subject of study; and in the Fourth year the student is made acquainted with the Assyrian in the original cuneiform texts. In all the years care is taken not only to impurt an exact knowledge of linguistic forms, but also to convey an accurate idea of the genius of the Semitic race and of the several peoples among them who in succession helped materially in the education of the world.

Thus, while Philology is duly studied for its own sake and as an indispensable instrument of research, the whole tendency of the discipline is to make it subservient to the higher ends of literary and historical culture. The Oriental Seminary Room is well provided with maps and other illustrative material; and the library, although so lately founded, has already one of the best selections of Semitic literature, including inscriptional works, to be found in America.

A Seminary in Oriental languages will be held twice a month for the benefit of advanced students, the work done in which will count as part of the sessional duties. Graduates of the University who may apply for admission may take part in the work of the Seminary.

Books Required for Term Work: Davidson's Hebrew Grammar; Davidson's Hebrew Syntax; Driver's Hebrew Tenses; Davies' Hebrew Lexicon; Text of Old Testament with Massoretic Clavis; Nestle's Syriac Grammar and Chrestomathy; Socin's Arabic Grammar and Chrestomathy; Baer and Delitzsch's

Texts of Daniel and Ezra with Paradigms; Lyon's Assyrian Grammar; Delitzsch's Assyrian Grammar; Winckler's Assyrische Keilschrift-Texte; Wright's Comparative Grammar of the Semitic Languages; Robertson's Old Testament Literature; Driver's Literature of the Old Testament; McCurdy's History, Prophecy and the Monuments; Articles in the Encyclopædia Britannica on Hebrew Language, Semitic Languages, Arabic Literature, Septuagint, Targum.

Books Recommended for Reference and Special Study: The Hebrew Grammars of Green, Strack, Koenig, Gesenius, Stade; Brown's Gesenius' Hebrew Lexicon; Noeldeke's Syrische Gyammatik; Brockelmann's Lexicon Syriacum; Wright's Arabic Grammar; Arabic Lexicons of Lane, Wortabet, and Belot; Renan's Histoire des Langues sémitiques ; Conder's Palestine ; G. A. Smith's Historical Geography of the Holy Land; Babelon's Manual of Oriental Antiquities: Duncker's History of Antiquity, Vols. IV-VI; Meyer's Geschichte des Alterthums; Maspero's Life in Ancient Egypt and Assyria; Ragozin's Chaldaea and Assyria; Rawlinson's History of Phænicia, and Five Great Monarchies (Archæological chapters); Kaulen's Assyrien and Babylonien: Schrader's Cuneiform Inscriptions and the Old Testament; Bypaths of Bible Knowledge; articles on Semitic literature and antiquities in the Encyclopædia Britannica, especially: Alphabet, Arabia, Asia Minor, Babylonia, Bible, Canaanites, Canon, Egypt, Hittites, Inscriptions, Jerusalem, Mesopotamia, Midrash, Mishnah, Mohammedanism, Nineveh, Palestine, Phœnicia, Samaritans, Syriac Literature, Talmud.

History.

G. M. WRONG, M.A.	Professor of Modern History.
W. S. MILNER, M.A.	Lecturer on Roman History.
A. CARRUTHERS, M.A.	Lecturer on Greek History.

In the lectures the more important movements will be discussed, and attention will be directed to the causes of social and political changes rather than to narrative history. Special emphasis will be laid upon the history of England, the United States and Canada. Honor students in the departments of History and of English and History must write the essays required by the curriculum of the Third and Fourth years. With Honor students in History in the Departments of Political Science and Modern Languages this work is optional.

A. General Course :-

The General course covers the history of Ancient Greece and Rome in outline in the First year, the history of Mediæval Europe in outline in the Second year, and modern European and American history in outline in the Third year. In the Fourth year European and American history since 1763 is studied over again in greater detail, and the course closes with an inquiry into the possibilities of a Philosophy of History. The following list of books has been made as brief as possible, and represents a minimum standard of reading:—

SECOND YEAR: Duruy, Middle Ages; Green or Gardiner on England.

THIRD YEAR: Lodge, Modern Europe; Fiske, Discovery of America, chapters II, III, IV, V, XII; Goldwin Smith, United States; Green or Gardiner on England; Bourinot, Canada (Story of the Nations).

FOURTH YEAR: In the General course of the Fourth year the work is the same as that of the Honor course in Modern History, omitting the period selected for special study. Fuller information than that of previous years will be expected. The books by the following authors set forth fully in the Fourth year Honor course should be read:—On Modern History: Tocqueville, Morse Stephens, Fyfe or Mueller, Channing, Green or Gardiner, Bourinot. On the Philosophy of History: Morris's Hegel. The Philosophy of History is so closely associated with anthropological and ethnological questions that students are recommended to take also the course of study prescribed in Ethnology.

B. Honor Course :-

Honor work in History is done in five of the Honor departments of the In the Department of History the whole course of study on the curriculum in ancient, mediæval, and modern history is required during the four years, and this study is combined with that of political economy and constitutional law. In the Department of English and History the study of mediæval and modern history is combined with that of literature, both English and classical; in the Department of Political Science, history is combined with economic and legal study, and in the Department of Classics with Greek and Latin literature. In the Department of Modern Languages History is allowed as an option for Italian or Spanish in the Third year, and for Old English or Italian or Spanish in the Fourth year. Candidates desiring to qualify in the Education Department as specialists in English and History are required to take the History option. In the Honor Departments of History and of English and History, an essay is required in both the Third and Fourth years. These essays must be based upon the study of some of the original authorities for a selected short period, and in judging them regard will be had to both their literary and historical merits.

The following list of works has been made as brief as possible, and represents a minimum standard of reading for the periods covered. The list applies in its entirety only to students in the Department of History. Students taking Honor History in connection with other departments can determine by reference to the curriculum what portions of the list apply to their work. For Constitutional History a list will be found in the Department of Political Science.

FIRST YEAR: Oman, History of Greece; Pelham, Outlines of Roman-History.

SECOND YEAR: (a) Ancient History: Oman's History of Greece; the portions of Grote, Mommsen and Livy prescribed in the curriculum; Fustel de Coulanges, La Cité Antique (English translation, "The Ancient City").

(b) Mediaval History: Hodgkin, The Dynasty of Theodosius; Bryce, Holy Roman Empire (to the Fall of the Hohenstaufen); Duruy, Middle Ages; Green or Gardiner on England.

THIRD YEAR: (a) Ancient History: Oman, History of Greece; the portions of Grote. Mommsen and Tacitus prescribed in the curriculum.

(b) Modern History: Bryce, Holy Roman Empire (from the Fall of the Hohenstaufen); Lodge, Modern Europe; Symonds, Short History of the Renaissance in Italy; Seeley, Expansion of England; Fiske, Discovery of America, chapters II, III, IV, V, XII; Fisher, The Colonial Era (American History Series); Parkman, The Old Régime in Canada; Bourinot, Canada Story of the Nations); Green or Gardiner on England.

FOURTH YEAR: (a) Ancient History: The portions of Thucydides, Herodotus, Grote, Cicero, Mommsen and Merivale prescribed in the curriculum;

Boissier, l'Opposition sous les Césars, and La Religion Romaine.

(b) Modern History: Tocqueville, France Before the Revolution; Morse Stephens, European History, 1789-1815; Fyffe, Modern Europe, Period since 1815, or Mueller, Political History of Recent Times with special reference to Germany; Channing, The United States of America 1765-1865 (Cambridge Historical Series); Green or Gardiner on England; Bourinot, Canada (Story of the Nations), Morris, Exposition of Hegel's Philosophy of History (Griggs' Philosophical Classics).

(c) Ethnology: Keane, Ethnology; Tylor, Anthropology. The lectures will be illustrated by maps, skulls, primitive implements, etc.

Political Science.

Hon. D. Mills, LL.B..........Professor of Constitutional and International Law.

HON, MR. JUSTICE PROUDFOOT. . Professor of Roman Law.

A. General Course :-

Lectures will be given as follows to those students who require to take Political Science in the General course.

THIRD YEAR.—Constitutional History. The elements of English Constitutional History. Books for reference: Fielden's Constitutional History; Henderson's Historical Documents of the Middle Ages; Taswell-Langmead, Constitutional History of England; Bagehot, The English Constitution; Dicey, the Law of the Constitution.

FOURTH YEAR.—The Elements of Political Economy. The lectures, text-books and examinations are the same as those prescribed for students taking the Second year Honor course. See below.

Canadian Constitutional History. See synopsis of this subject in Honor course below.

B. Honor Course :-

The Honor course in Political Science and the related instruction in languages, mathematics, natural science, history and philosophy are intended to afford a means of preparation for those who desire to enter the professions of law, the ministry, journalism or teaching. etion in laneintended to professions ets of study are economic history and theory, constitutional history, international audconstitutional law, jurisprudence, history and philosophy with special reference to the growth of political ideas. The Honor course begins in the Second year in Arts and continues for three years.

Prior to entrance into the Honor course in Political Science, candidates must have passed the Honor examination of the First year in one or other of the following subjects: Latin; Greek; any two of the three languages, English, French, German.

SECOND YEAR.—Economics. The lectures give a general introduction to the study of modern political economy. The chief text-book is Marshall's Principles of the Economics of Industry, Vol. I. The following works will also be found useful: Gide's Political Economy; Smart's Introduction to the Theory of Value; Devas' Political Economy; Ely's Introduction to Political Economy; Mavor's Economic History, Tables and Diagrams.

English Constitutional History to Magna Charta. The chief topics are the Hundred and County Courts, the Witenagemot, the Feudal System. The principal constitutional documents are required to be studied. A list of these documents is furnished to students. For reference, selected portions of Stubbs' Constitutional History, to be designated by the lecturer; Fielden's Constitutional History; Henderson's Historical Documents of the Middle Ages; Introduction to Stubbs' Select Charters; Freeman's Growth of the English Constitution; Bagehot's English Constitution; Wakeman & Hassall's Constitutional Essays (excepting Essay 1); Taswell-Langmead's English Constitutional History; Bibliographical Notes No. 1, English and Canadian Constitutional History.

Roman History to 266 B. C. Mommsen, Bks. I and II, and Fustel de Coulanges' La Cité Antique. See Department of Classics.

Mediaval History to 1250. See Department of History.

Mathematics. Special class in the elements of the Infinitesimal Calculus with Elements of Analytical Geometry.

Third Year.—History and Criticism of Economic Theory. The course of lectures will present a systematic account of the development of the history of economic theory and a criticism of current economic theories of value, interest, rent, wages and international trade. The chief text-book for the work of the Michaelmas Term is Ingram's History of Political Economy, and for the work of the Easter Term, Marshall's Principles of Economics, Vol. I. Students are also expected to study Böhm-Bawerk's Capital and Interest, and The Positive Theory of Capital (transl. Smart); Wieser's Natural Value; Smart's Introduction to the Theory of Value. The following books will also be useful: Cossa's Introduction to the Study of Political Economy; Bonar's Philosophy and Political Economy; Nicholson's Principles of Economics; Keynes' Scope and Method of Political Economy, chaps. 1-3, 7, 9. Bastable's Theory of International Trade, and The Commerce of Nations; Adam Smith's Glasgow Lectures, ed. Cannan; Adam Smith's Wealth of Nations, ed. Nicholson; Ricardo's Works, ed. Gonner.

Modern History, from 1250 to 1763. See Department of History.

English Constitutional History from Magna Charta. The lectures are in continuation of those of the Second year. They deal with the Growth of Parliament, and of Responsible Government. The books recommended are the same as those in the Second year.

English Constitutional Law. The lectures on this subject comprise a discussion of the Royal Prerogatives; the constitution and functions of the two Houses of Parliament, the constitution of the Executive Government; the rise of the Cabinet and its relation to the Crown and the two Houses of Parliament; the military forces of the Crown, the constitution of the judicial department of government and its relation to the Crown and to Parliament, and the rights and obligations of the subject, the leading cases, the constitutional statutes, and the conventions of the constitution are discussed. For reference: Dicey's Law of the Constitution; Hearn's Government of England; Traill's Central Government: Boutmy's Studies in Constitutional Law, Part I; Broom's Constitutional Law, Anson's Law and Custom of the Constitution.

History of English Law. The history of the English law from the Roman Conquest until the Norman Conquest; the Roman occupation; the Saxon invasions; the laws of the Confessor; the change effected in the law, especially of real property, by the Conqueror and his successors,—the introduction or extension of the feudal system; the difference between that system on the continent and in England; the creation of new tenures; the Great Charter and its frequent renewals, as showing the condition of the people, and the evils to be remedied; the great changes effected by the legislation of Edward I and Edward III; the creation of entailed estates; the struggle to obtain power to alienate them; legislation to restrict alienations in mortmain; the evasion of the law; the law giving power to devise lands, and the legislation of Elizabeth to prevent frauds upon creditors and purchasers; the abolition of feudal tenures by Charles II. The efforts in the reign of George III to ameliorate the criminal law, and the English Statutes after 1792 that have their counterpart in our Colonial legislation are discussed and explained. For reference: Reeve's History of English Law; Pollock and Maitland's History of English Law; Hale's History of English Law; Blackstone's Commentaries; a collection of English Statutes, and the Revised Statutes of Canada, and of Ontario.

History of Roman Law. The lectures on Roman Private Law comprise a sketch of the history of the law from the time of the decemviri to the death of Justinian, giving an account of the growth of the unwritten law, of judicial legislation to the suppression of the formulary system by Diocletian, and from that time to the death of Justinian, and treating of the statutory legislation during the Republic and under the Empire, and of the several attempts to form a code, finally terminated by the work of Justinian. The larger number of lectures is devoted to the substance of Roman Law during the reign of Justinian. The law of testamentary succession, the various kinds of wills, the duties of the heir, the gift of legacies, and the history of trust gifts and codicils are explained. The remedial processes for

changes

5, 9, 10 of Unite the protection and enforcement of rights are traced from the legis actiones, the changes effected by the formulary system, the summary jurisdiction of the practor, the abolition of the formulary system, terminating in the extraordinaria cognitio. The series is closed by a discussion of the law as to specific performance of contracts; of the law as to frauds upon creditors; and an examination of the influence of Christianity upon Roman legislation. For reference: Muirhead's Historical Introduction to the Private Law of Rome; Saudars' Justinian; Institutes of Gaius, translated by Muirhead. The Digest, the Code, and the Novels should be consulted.

Honor Ethics. See Department of Philosophy, Third year.

FOURTH YEAR.—Economic History. The lectures will trace economic history from the early middle ages down to modern times, with special reference to England. Books recommended: Ashley's Economic History, Parts I, II; Toynbee's The Industrial Revolution; Seebohm's English Village Community; Vinogradoff's Villenage in England; Gomme, The Village Community; Gross' Gild Merchant, chaps. 1-4; Rogers' Six Centuries of Work and Wages, chaps. 1-6, 8-10; Cunuingham's Growth of English Industry and Commerce (ed. 1890); Marshall's Principles, Bk. I, chaps. 2, 3; Jevons' State in Relation to Labour, chaps. 3, 4, 6, 7; Fowle's Poor Law, chaps. 1, 3, 4; D. A. Wells' Recent Economic Changes; Ely's Labour Movement in America, chaps. 3, 4; Webb's History of Trade Unionism.

Canadian Economic History. A short course of lectures will be given with special reference to the following: the grain and produce trade, timber, textiles, minerals, transportation, insurance, loan companies, the government in relation to trade, trade unions, trade monopolies, and cooperation.

Public Figure. The lectures will deal with National and Local Finance, and with important questions of modern economic policy. They will discuss, among other topics: the History of Public Finance and of Financial Science; the Currency and Banking Systems of Great Britain, Canada and the United States; Public Debts and the Policy of National and Local Governments in relation to them; Methods of Extinction and Conversion of Debt; Sinking Funds; Public Domain-Lands, Forests, Minerals; Railroad Policy, its history in Europe and America; Principles of Taxation; Incidence of Taxation; Tariff Policy-outline of its history in Great Britain, Canada and the United States; Local Taxation in Canada and the United States. Books recommended: Bastable's Public Finance; Bastable's The Theory of International Trade; Seligman's The Incidence of Taxation; Seligman's Essays in Finance; Elliott's The Tariff Controversy in the United States; Cossa's Taxation; Dunbar's Theory and History of Banking; Walker's Money, Trade and Industry; Adams' Public Debts; Ely's Taxation; Hadley's Railroad Transportation; Mavor's English Railway Rates; Bagehot's Lombard Street; Jevons' Money; Leroy-Beaulieu's Science des Finances, Livre II, chaps. 4, 5, 9, 10; Giffen's Essays in Finance, 1st series, IX; Taussig's Tariff History of United States.

Modern History from 1763 to the present time. See Department of History.

History and Criticism of Political Theories. The following are recommended for study: Sidgwick's Elements of Politics; Pollock's History of the Science of Politics; Bonar's Philosophy and Political Economy; Ritchie's Principles of State Interference; Seeley's Introduction to Political Science; Mackenzie's Introduction to Social Philosophy.

General Jurisprudence. In lecturing on this subject, the attention of the student is directed to the definition and analysis of law and of rights, to the sources of law, to the classification of rights, to the consideration of antecedent rights in rem and in personam, to remedial rights, to adjective private law, to the nature of public law and its various divisions, to international law. and to the application of law. For reference: Holland's Elements of Jurisprudence; Austin's Elements of Jurisprudence (Campbell's Students' edition); Maine's Ancient Law, and Early History of Institutions (Lectures XII, XIII). Public International Law. Besides the elementary principles of International Law, the lectures comprise a discussion of the growth of International Law, its sources, and the characteristics which distinguish it from international morality. Also a discussion of the doctrine of non-intervention, of the Monroe Doctrine, and of the various treaties and conventions relating to Canada. Controversies raised by the Civil War in the United States. The Geneva Arbitration and the rights of neutrals. For reference: Wheaton's International Law (ed. Boyd); Hall's International Law, or Kent's International Law (ed. Abdy).

General Jurisprudence and Public International Law together are alternative to the Honor History of Philosophy of the Fourth year, for which see Department of Philosophy.

Colonial Constitutional Law. The lectures on this subject trace the sources of Colonial Constitutional Law; the prerogatives of the Crown in the constitution of colonial governments; different forms of government; colonies by occupancy; colonies by cession and conquest; powers of Parliament in respect to the colonies; conventional limitations arising from local self-government. For reference: Creasy's Constitutions of the British Empire; Forsyth's Cases and Opinions on Constitutional Law; Todd's Parliamentary Government in the Colonies, as far as page 318; Tarring's Law in Relation to the Colonies.

Federal Constitutional Law. The lectures deal with the origin of the United States Constitution and the relation of the federal government to the States; the federal institutions, legislative and executive and judicial, and the leading decisions of the Courts in reference to the same. The Constitution in Canada; rules of interpretation applied by the Supreme Court of the United States; rules of interpretation applied by the Judicial Committee in construing the Constitution in Canada. For reference: Houston's Constitutional Documents of Canada; Lefroy's Law of Legislative Power in Canada; Todd's Parliamentary Government in the Colonies, page 318 to the end of the volume; Clement's Constitution of Canada or Munro's Constitution of Canada; Cartwright's Decisions on the B.N.A. Act; Cooley's Principles of Constitutional Law in the United States; Pomeroy's Constitutional Law; Boutmy's

Term Work in Honors:—The following term work is required in subjects to be prescribed by the Professor of Political Economy and Constitutional History

SECOND YEAR: Two essays in each term, in all four essays; and also a Term examination to be held before or shortly after Christmas vacation

THIRD YEAR: Two essays in each term, in all four essays; and also a Term examination to be held before or shortly after Christmas vacation

FOURTH YEAR: Two essays in each term, in all four essays; and also a Term examination to be held before or shortly after Christmas vacation

In each year such term work and examination count for Honors in the annual examination

The Departmental Library in Economics is open under certain conditions to all Honor students in the Department of Political Science. Tutorial classes in Economics and in Constitutional History are held several times each week during the Michaelmas and Easter terms. Facilities for research are afforded to senior students and also to graduates who desire to prosecute the study of any of the subjects in the Department

Philosophy.

J. G. Hume, M.A., Ph.D....... Professor of Ethics and History of Philosophy.

A. Kirschman, M.A., Ph.D. Director of Psychological Laboratory and Lecturer on Philosophy.

F. TRACY, B.A., Ph.D. Special Lecturer on Philosophy.

The work of this Department is pursued during the Second, Third and Fourth undergraduate years. The course which embraces Logic, Psychology, Metaphysics, Ethics and History of Philosophy, affords a training to those who intend entering the professions of the Ministry, Teaching or Law. In every case the work in Philosophy of the General Course is to be taken by Honor students, and will be counted along with the Honor work in determining their standing.

Logic.

A. General Course :-

SECOND YEAR.—A course of lectures is given dealing with the scope and method of Logic; the nature of Deductive and Inductive Reasoning, and their relation to each other; the Definition of Terms; the Laws of Thought; the Forms of the Judgment and their mutual relation; the Syllogism; the Canons and Methods of Inductive inquiry; the detection and rectification of ambiguities in reasoning and logical fallacies. Exercises in logical problems are given from time to time and corrected. Books recommended: Jevons, Elementary Lessons in Logic; Fowler, Inductive Logic; Hyslop, The Elements of Logic.

B. Honor Course :-

THIRD YEAR.—A course is given in the study and criticism of Mill's System of Logic, the exposition of scientific methods, and the discussion of the philosophical presuppositions underlying theories of Induction. The ground covered in the lectures of the General course will not be taken up here, but will be presupposed. Books recommended: Mill, System of Logic; Bradley, Principles of Logic; Venn, Empirical Logic; Jevons, Principles of Science; Jevons, Studies in Logic.

Psychology.

A. General Course :-

SECOND YEAR.—The lectures deal, in a general way, with the phenomena of consciousness, their description, correlation and classification; covering, in outline, the whole field of psychic phenomena. The course is designed to introduce the subject, to familiarize the student with fundamental principles, and lead him to observe his own mental states. Term work is required. Books recommended: Wundt, Grundriss der Psychologie (English translation); Höffding, Outlines of Psychology; Titchener, Primer of Psychology.

B. H See dealii

term Gr. Labo

B. Honor Course :-

SECOND YEAR.—An introductory course on Experimental Psychology is given, dealing with the senses of taste and smell, and the dermal and kinæsthetic senses. Special attention is given to the Psychophysical methods and their application. In this connection students are required to familiarize themselves with the elements of the Infinitesimal Calculus and Analytical Geometry, Books recommended: Wundt, Outlines of Psychology, Human and Animal Psychology; Ladd, Elements of Physiological Psychology; Scripture, The New Psychology.

THIRD YEAR.—(a) General: The lectures deal with such special problems as: Association, Memory, Attention, Emotion, Volition. Books recommended: Wundt, Outlines of Psychology, Human and Animal Psychology; Külpe, Outlines of Psychology; Bail, Senses and Intellect, Emotions and Will; James, Psychology; Baldwin, Handbook, The Mental Development in the Child and the Race; Ladd, Psychology Descriptive and Explanatory; Sully, the Human Mind; Stout, Analytic Psychology; Tracy, Psychology of Childhood (2nd ed.).

(b) Experimental: The lectures on experimental Psychology (three hours per week) deal with the chief problems of contemporary Psychology, in so far as they are accessible to exact experiment, special attention being devoted to the Psychology of the higher senses (Psychological Optics and Acoustics) and to the time-relations of Mental Phenomena. The practical work (one to two hours per week) in the laboratory is designed to afford the student an opportunity to become familiar with experimental methods. There is no text-book for this course; but as recommended books may be mentioned: Wundt, Physiologische Psychologie (4th ed.); Ladd, Elements of Psychology; Wundt, Human and Animal Psychology (English Translation by Titchener and Creighton); Külpe, Outlines of Psychology; Ribot, German Psychology of To-day; Sanford, Laboratory Course.

FOURTH YEAR.—The Fourth Year consists partly of a supplementary series of lectures on metaphysical problems in their relations to Psychology, and partly of experimental work in the laboratory. The lectures are devoted to the criticism of Materialism and to a presentation of the philosophical views of Wundt in outline. In the Laboratory, the students work in groups under the guidance of the Director of the Laboratory, or his Assistant, upon special experimental investigations. The subjects of these investigations, which are at the same time intended to lead to useful results and to make the students familiar with the nature and difficulties of exact research, are arranged at the beginning of the term. The students are required to acquaint themselves with the literature relating to their special subject, to keep a record of their investigations, and to hand in at the end of the Easter term a detailed statement of results obtained, and of their significance.

Graduates have full opportunity for independent investigations in the Laboratory.

l's System the philond covered out will be dley, Prine; Jevons,

enomena of overing, in esigned to principles, red. Books anslation);

Metaphysics.

Honor Course :-

SECOND YEAR: Theory of Knowledge—Honor students are required to read Locke's Essay on the Human Understanding; Berkeley's Principles of Knowledge; and Hume's Treatise on Human Nature, Book I. They are expected to write expository summaries of these works, and to discuss and criticize them in the class. It is the aim of the lectures to assist the student in making the transition from observation and analysis of mental phenomena to the reflective consideration of the underlying philosophical principles. Books recommended: Fraser, Selections from Berkeley, Locke and Berkeley (Blackwood's Series); Green, Introduction to Hume, Prolegomena to Ethics Bk. I; Aikins, The Philosophy of Hume; Ward, Psychology in Encyclopædia Britannica, 9th ed.; Dewey, Psychology.

FOURTH YEAR.—Theories of Knowledge and Being: Several courses are given as follows: 1. A course of lectures setting forth the lecturer's views of the principles and methods of philosophical speculation, and showing the inter-relation of Logic, Psychology, Metaphysics and Ethics. No text-books are prescribed in this course, but certain reading may be recommended from time to time in the lecture room. 2. A careful study of Aristotle's Metaphysics, and Kant's Prolegomena. Kant's Critiques will be studied in connection with the class in History of Philosophy (See History of Philosophy IV year). 3. Lectures on the chief problems of Philosophy, as they have been dealt with by representative thinkers: (a) For 1899 these lectures will be based upon the works of Hamilton, Mansel, Comte, Mill and Spencer. (b) For 1900 they will be based upon the Metaphysical works of Des Cartes, Spinoza, Leibnitz, Lotze, Wundt. 4. A seminary is held for the study of advanced Metaphysical problems.

In the seminaries papers are read and discussed by the members. Everything is done to encourage independent thinking on the part of the students. Graduates may become members of any of the seminaries in the Department of Philosophy by arrangement with the professor in charge.

Ethics.

A. General Course :-

Third Year.—(a) Theory of Obligation: Lectures on the scope and methods of Ethics, the relation of Moral Philosophy to Natural Science, The Moral Ideal, Personality, Instinct, Desire, Motive, Volition, Freedom of the Will, Conscience, Duty, Responsibility, Sensational Theories, Intuitional Theories, Transcendental Theories, Relation of Ethics to Theoretical Philosophy, Political Economy, and Religion. Essays will be written by members of the class, and examinations held during the term. Books recommended: Hyslop, Bowne, Seth, Muirhead, Calderwood, Pt. I., Chaps, I-IV; Green, Prolegomena to Ethics, Book II. (b) History of Ethics: The lectures cover the ground from Hobbes to the present time. Attention is given to fundamental standpoints rather than to details of doctrine. The interrelation of the various historical

phases of Ethical thought are considered, the development of cardinal doctrines followed, and the chief representatives of the leading schools expounded. Books recommended: Sidgwick, History of Ethics; Bain, Moral Science; Watson, Hedonistic Theories.

B. Honor Course :-

THIRD YEAR. -(a) Theory of Ethics: The students in this course will make, under the guidance of the professor in charge, a special and careful study of Green's Prolegomena to Ethics. Lectures will be given to assist in the exposition, explanation, and estimation, of Green's position. (b) History of Ethics: This course is supplemental to, and given in connection with, the General course on the History of Ethics. The aim of the lectures is to set in a clear light the real significance of the problems occupying the attention of moralists, and to estimate the solutions that have been offered for these problems. Books recommended: Martineau, Types of Ethical Theory; Butler's Sermons; Mill, Utilitarianism; Spencer, Principles of Morality; Janet, Theory of Morals; Sidgwick, Methods of Ethics; Jodl, Geschichte der Ethik; Courtney, Constructive Ethics; Sorley, the Ethics of Naturalism; D'Arcy, Short Study of Ethics; Fairbrother, Philosophy of T. H. Green; Mackenzie, Manual of Ethics. (c) Applied Ethics: The class will meet once a week for the reading and discussion of papers written by members of the class. In these essays an attempt will be made to apply ethical principles to the investigation of social problems, such as Temperance, Charity, Socialism, etc. Books recommended: Spencer, Man vs. State; Ritchie, Principles of State Interference; T. H. Green, Lectures on Political Obligation, A. M. N., in Vol. II.; J. G. Hume, Value of a Study of Ethics, Political Economy and Ethics, Socialism.

FOURTH YEAR.—In this year the Honor students will be expected to make a thorough study of representative Ethical writers of ancient and modern times and also to undertake independent investigations into social problems of the present time, requiring for their solution the application of Ethical principles: Aristotle, Nicomachean Ethics; Kant, Grundlegung zur Metaphysik der Sitten; Kritik der praktischen Vernunft. In 1898-99, Leslie Stephens, The Science of Ethics; in 1899-1900, Sidgwick, The Methods of Ethics. Stephens and Sidgwick in alternate years. Essays: Application of Ethical principles in the examination of Problems in Political Economy, Sociology and Criminology.

History of Philosophy.

A. General Course :-

FOURTH YEAR.—A course is given, intended as an introduction to the critical study of Philosophy. The student is led to trace the development of philosophical speculation from the beginning of Modern Philosophy up to the time of Kant; to discover the relation of the various thinkers to one another; to estimate the contribution made by each; and to note how inadequacies and errors were subsequently met and corrected. Books recommended: Weber, Windelband, Falckenberg, Schwegler.

nd critiudent in mena to Books (Black-

Everytudents. tment of

nd methhe Moral he Will, Theories, y, Politihe class, , Bowne, mena to and from indpoints

historical

B. Honor Course :-

Third Year.—Lectures are given on the History of Ancient and Mediæval Philosophy. The chief centre of interest is the Platonic Philosophy; but the Pre-Socratic and Post-Aristotelian periods are dealt with as fully as time permits; the former, as the essential prelude to the study of the Platonic Philosophy; the latter, as showing the various directions in which its influence was felt in later times. The influence of Christianity on philosophic thought; the main features of Scholasticism; and the preparation of the thinking world for Modern Philosophy, are considered. Special attention is given to connecting links, and the relation of the thinkers to one another. An extra hour a week will be devoted to a more special study of some of the more important Platonic Dialogues. Books recommended: Weber; Zeller; Ueberweg; Butler; Erdmann; Windelband; Ferrier; Schwegler; Benn; Tennemann; Burt; Mayor; Jowett's Plato; Grote's History of Greece (chapter on the Sophists); Aristotle's works.

FOURTH YEAR.—(a) Pre Kantian Period: Honor students will attend the lectures on this period given to the students of the General course (see above), and the class reading selections in Metaphysics (see Metaphysics Fourth year). Books recommended: Erdmann; Ueberweg. (b) Kant: The development of the Kantian Philosophy, through the Critiques and Prolegomena, is followed. The Kritik der reinen Vernunft and the Kritik der Urtheilskraft are carefully studied in the class, essays by the students, are read and discussed, and lectures are given on Kant's relation to previous philosophers, the significance of his new method, the various links in his system and the positive and negative elements in his philosophy. Books recommended: Caird; Watson; Morris; Stirling; Mahaffy and Bernard Adamson; Vaihinger; Erdmann; Riehl. (c) Post-Kantian Period: Lectures will trace the development of Idealism after Kant, sympathetic and antagonistic. Special attention is given to Fichte, Schelling, Hegel, Schopenhauer, Von Hartmann, Herbert Spencer and Wundt.

A seminary in the History of Philosophy is conducted for the reading and discussion of papers written by the students. Books recommended: (a) General Histories: Kuno Fischer; Windelband; Falckenberg; Ravaisson; Lewes; Morell; Külne; Paulsen. (b) Special: On Hobbes, Croom Robertson; on Des Cartes, Kun, Fischer; on Spinoza, Pollock, Caird; on Locke, Berkeley and Hume, Green, Frazer, Selby-Bigge; on Leibnitz, Dewey; on Scottish Philosophy, Seth, Murray, Bowen, McCosh; on Kant (see above); on Fichte, Everett, Adamson; on Schelling, Watson; on Hegel, Wallace, Caird, Harris, Royce, Sterrett; on Spencer, Watson, Collins; on Schopenhauer and Von Hartmann, Bowen, Caldwell.

Note.—Candidates from St. Michael's College may substitute Lorimer's Institutes of Law for Kant's Ethics in the Fourth year; and also Aristotle's Ethics, Bks. I-IV in the original, and one of Plato's Dialogues in the original, for the Experimental Psychology in the Fourth year.

Mathematics.

Alfred Baker, M.A	. Professor.
A. T. DELURY, M.A	. Lecturer.
W. J. Rusk, B.A	. Fellow.

Supplemental to the General course of the First year, embracing Euclid, Elementary Algebra and Trigonometry, a course is offered in Permutations, Combinations and Binomial Theorem, and also in Elementary Analytical Geometry of two dimensions, suitable for such as, in the Second year, wish to enter upon the study of Elementary Infinitesimal Calculus. The course in Elementary Analytical Geometry is valuable also for its own sake, as it establishes the more important properties of the Conic Sections.

In the Honor work of the First year the following text-books are recommended: Hall and Knight's Higher Algebra, C. Smith's Treatise on Algebra, Todhunter and Hogg's Trigonometry, Hobson's Trigonometry, Todhunter's Spherical Trigonometry, C. Smith's Conic Sections, Salmon's Conic Sections.

In the Second year the elementary course in Differential and Integral Calculus is designed to afford such knowledge of the character, methods and place in science of this important subject as educated men should possess, and also to enable students in Chemistry, Engineering, etc., to understand those of their text-books in which the Calculus is introduced.

A further course of lectures is given in the elements of Analytical Geometry and of the Infinitesimal Calculus, intended specially for students in Economics, who it is hoped will thus be in a position to follow recent developments in this science.

In the Honor work of the Second year the following text-boooks are recommended:—Williamson's Differential Calculus, Williamson's Integral Calculus, Kiepert's Differential—und Integral—Rechnung, C. Smith's Solid Geometry, Evans' Main's Principia, Frost's Principia. For the remainder of the work in the Second year, see Department of Physics.

Mathematical students in the Third year take Theory of Equations, including Determinants continued from the First year; text-book—Burnside and Panton. For the remainder of the work in the Third year, see Department of Physics

In the work of the Fourth year the following text-books are recommended: Newcomb and Holden's Astronomy, Barlow and Bryan's Elementary Mathematical Astronomy, Godfray's Astronomy, Chauvenet's Astronomy; Godfray's Lunar Theory; Cheyne's Planetary Theory; Johnson's Differential Equations, Forsyth's Differential Equations; Page's Ordinary Differential Equations, Murray's Introductory Course in Differential Equations; Salmon's Higher Plane Curves; Kelland and Tait's Quaternions, Hime's Outlines of Quaternions, Tait's Quaternions; Elliott's Algebra of Quantics, Salmon's Higher Algebra; Mathew's Theory of Numbers; Netto's Theory of Substitutions; Durége's Theory of Functions, Forsyth's Theory of Functions, Harkness and Morley's Theory of Functions; Dixon's Elliptic Functions, Cayley's Elliptic Functions, Appell and Lacour's Fonctions Elliptiques; Papelier's Coordonnées Tangentielles; Ferriers' Trilinear Coordinates; Cremona's Projective Geometry; Lachlan's Modern Pure Geometry.

The Department is furnished with the admirable thread and plaster models of Brill for illustrating the teaching of Geometry of three dimensions.

Physics.

JAMES LOUDON, M.A., LL.D	Professor.	
W. J. LOUDON, B.A		
C. A. CHANT, B.A	Lecturer.	
J. C. McLennan, B.A	Assistant-Demonstrator.	

The work of instruction in Physics consists of courses of lectures and of practical work in the laboratories. The lectures include, (1) an introductory course for Medical students, (2) an elementary course illustrated by experiments in Mechanics, Hydrostatics, and Heat, as required by students of the First year in Arts, (3) a similar course in Optics, Electricity and Magnetism for students of the Second year in Arts, (4) a similar course on Acoustics and Physical Optics for students of the Third year in Arts, and 5 advanced courses on Mathematical Physics for Honor students in the Second, Third and Fourth years in Arts.

The elementary courses for students of the First, Second and Third years in Arts are also attended by students in Engineering, Architecture and other departments.

In the practical work of the Laboratory there are at present eleven courses, six elementary and five advanced, which have been arranged to meet the requirements of Arts students, Engineers, Architects, and candidates for specialists' certificates at the Education Department.

Text-books: General Physics: Ganot's Physics. Elementary Mechanics: Lock, Mechanics for Beginners; Glazebrook, Statics and Dynamics. Elementary Hydrostatics: Glazebrook, Hydrostatics. Elementary Heat: Glazebrook, Heat; R. W. Stewart, Text-book of Heat. Elementary Light: Glazebrook, Light. Elementary Electricity and Magnetism: Poyser, Advanced Magnetism and Electricity; Silvanus Thompson, Elementary Lessons. Advanced Mechanics: Minchin, Statics; Routh, Statics; Tait and Steele, Dynamics of a Particle. Geometrical Optics: Jamin, Optique Géométrique. Hydrostatics: Besant. Rigid Dynamics: Loudon. Acoustics: Donkin. Elasticity, Williamson. Physical Optics: Preston, Theory of Light. Thermodynamics: Clausius, Mechanical Theory of Heat. Electricity: J. J. Thomson, Elements of Electricity and Magnetism. Least Squares: Merriman. Practical Physics: Loudon and McLennan.

Works of Reference: General Physics: Deschanel's Natural Philosophy (by Everett); Jamin's Cours de Physique; Daniell; Gallatly; Nichols and Franklin; Jones's Examples in Physicies; Thomson and Tait's Natural Philosophy; Christiansen; Macfarlane's Tables; Chambers's Tables. Elementary Mechanics: Briggs and Bryan, Statics, Dynamics; Magnus; Loney, Dynamics; Garnett, Dynamics; Clifford; Greaves; Hicks.

Biology.

R.	RAMSAY	WRIGHT,	M:A.,	B.Sc	Professor.
----	--------	---------	-------	------	------------

- A. B. Macallum, B.A., Ph.D. Associate-Professor of Physiology.
- E. C. JEFFREY, B.ALecturer on Biology.
- A. KIRSCHMANN, M.A., Ph.D.Lecturer on Psychology.

The lectures and practical instruction in this subject are given in the University Biological Building.

- The following arrangements will be in force for 1898-99:-
- 1. A course of elementary lectures on Biology will be given three days a week to prepare candidates for the University examination of the First year. For reference: Jeffrey Parker, Biology; High School Zoology; Vines' Textbook of Botany.
- 2. A course of lessons involving 100 hours' instruction is given in connection with the above course of lectures for students entering the Honor department of Natural Sciences. Each member of the class will be required to provide himself with a case of instruments and an engraver's lens, both of approved pattern.
- 3. Candidates for the Second year Honor examinations will attend special courses on the Zoology of the Invertebrata and the Anatomy and Classification

of the Phanerogams during the Michaelmas Term. A series of lectures and demonstrations on selected topics in Physiology will be delivered during the Easter Term.

4. The practical course for Honor students of the Second year will be arranged so as to form a complement to the lectures on Animal and Vegetal Morphology. There will also be opportunities in the Museum for the study of the Canadian Vertebrate fauna (Text-book, Jordan's American Vertebrates), but the student is expected to have familiarized himself with the Canadian flora during the preceding long vacation. For reference: Spotton's Canadian Flora, or Gray's Manual; Vines' Text-book of Botany, 2 vols; Van Tieghem's Traité de Botanique, 2nd ed., revised.

5. Honor students of the Third year will study the Zoology of the Invertebrata three days a week during the Michaelmas and part of the Easter Terms, and, during the remainder of the Easter Term, Cryptogamic Botany and Vegetable Physiology. Books of reference: McMurrich, Invertebrate Morphology; Lang, Vergleichende Anatomie; Vines' Text-book of Botany; A. B. Frank, Lehrbuch der, Botanik; Van Tieghem, Traité de Botanique, 2nd ed.,

hapirar

6. The practical course for Third year students will be devoted to the study of typical forms of Cryptogamic plants and Invertebrate animals.

7. Wiedersheim-Parker's Elements of Comparative Anatomy of the Vertebrata, Bunge's Physiologische Chemie, and Foster's Physiology, last English edition, are recommended for Honour students of the Fourth year, and the following works will be required in the practical course: Stöhr's Handbuch der Histologie; Parker's Zootomy; Foster and Balfour's Embryology.

Works of reference on Bacteriology and the other subjects specified in the

University curriculum will be found in the laboratory.

8. Honor students of all years are required to pay laboratory supply fees in advance to the Bursar.

Chemistry.

W. H. PIKE, M.A., Ph.D	Professor of Chemistry.
W. L. MILLER, B.A., Ph.D	Demonstrator.
F. J. SMALE, B.A., Ph.D	Lecturer.
F. B. ALLAN, B.A	Fellow.
F. B. Kenrick, B.A., Ph.D.	Lecture-Assistant.

The following courses of lectures on Chemistry will be delivered in the Chemical Laboratory:—

INORGANIC CHEMISTRY: 1. Elementary. An introductory course on descriptive Chemistry, and on the Atomic and Molecular theories, for First year Chemistry and Mineralogy, First year Physics and Chemistry, First year Natural Science, First year Mathematics and Physics, First year Medicine, and Second year Pass. 2. Special. A special course on Inorganic Chemistry for First year Chemistry and Mineralogy, and Physics and Chemistry. 3. Advanced. A course on the relations between Chemical and other forms of

Energy, for and Chem and Physical

vered in the

ourse on desior First year ry, First year ear Medicine, nic Chemistry d Chemistry, other forms of Energy, for Second year Chemistry and Mineralogy, Second year Physics and Chemistry, Second year Natural Science, and Second year Mathematics and Physics.

ORGANIC CHEMISTRY: 1. Introductory. The fatty and the aromatic compounds, for the Third year Physics and Chemistry, and for the Third year Natural Science. 2. Elementary. A more elementary course on the fatty compounds, with a few lectures explanatory of the Benzene theory, for the Second year Medicine and Second year Chemistry and Mineralogy. 3. Advanced. A course on Synthetic methods, and on Stereochemistry for Third year Chemistry and Mineralogy, and Fourth year Physics and Chemistry.

Physical Chemistry: 1. Introductory. Stechiometry, Theory of Solutions, Introduction to Electrochemistry, etc., with elementary applications of the calculus to physico-chemical problems, for Second year Chemistry and Mineralogy, and Second year Physics and Chemistry. 2. Theory of Affinity. Velocity of reactions, the mass law, Electrochemistry, and elementary applications of thermodynamics to chemical problems, for Third year Chemistry and Mineralogy. 3. Chemical Thermodynamics. A general course on Energetics, with special application to chemical problems, for the Fourth year Chemistry and Mineralogy.

HISTORY OF CHEMICAL THEORY: For Fourth year Chemistry and Mineralogy, and Physics and Chemistry.

Special instruction will in addition be given to the students of the Departments of Chemistry and Mineralogy, and Physics and Chemistry, as occasion requires.

Each student proposing to attend lectures or practical work in the Chemical Laboratory must apply to the Demonstrator of Chemistry for a ticket which will have marked on it the number of his seat in the lecture room, of his hat rack, of his working place in the laboratory and of his locker. This ticket will be given only to students presenting their registration tickets, and no working place in the laboratory will be allotted until a deposit of three dollars has been made. Each student will be held responsible for the seat, etc., allotted him, and no change may be made without the consent of the professor. At the close of the Easter term this ticket must be presented for certificate of attendance.

Each student is required to provide himself with a suitable note-book in which to keep an account of the work done by him during the year. These books will be examined from time to time, and marks will be assigned. The student's standing in practical Chemistry is based upon these marks, together with those assigned for the practical examinations of the term, and for written examinations on the work.

At the beginning of the term the following apparatus will be provided:—
For Qualitative Analysis: A key; a test tube stand; twelve test tubes; a
test tube cleaner; one mortar and pestle; one evaporating dish; two watch
glasses; one crucible and cover; a pair of crucible tongs; a package of filter
paper; two funnels; a Bunsen burner with rubber tubing; a sandbath and
tripod; a blowpipe; a wash bottle; H₃S generator; a duster. For Quanti-

tative Analysis: A key; five beakers; mortar and pestle; evaporating dish; two crucibles and covers; a pair of crucible tongs; a pair of weighing glasses; package of filter paper; two funnels; a Bunsen burner with tubing; an Argand burner with tubing; an exsiccator; a stand and ring; a wash bottle; a duster.

An account will be kept with each student; all apparatus broken or destroyed and all fines will be charged against his deposit, which must be renewed when exhausted.

The apparatus provided is intended for use in the laboratory only, and may not be removed from the building. At the close of the term's work it must be returned clean and dry to the Demonstrator.

Mineralogy and Geology.

A. P. Coleman, M.A. Acting Professor.
W. A. Parks, B.A. Instructor.

An elementary course in Geology is given in the Second year, and arrangements are made for the study of rocks and fossils. Lectures and laboratory work in Mineralogy and Dynamical and Structural Geology are provided for Honor students.

In the Third year, lectures are given in Historical and Stratigraphical Geology, Economic Geology, Mineralogy, Elementary Crystallography, Palæontology of the Invertebrates and Palæobotany. Practical work will be conducted in Geology, Mineralogy and Palæontology.

In the Fourth year, lectures are given in Physiography, Geology, Palæontology of the Vertebrates, Lithology, Meteorology and Physical Crystallography. The practical work of the year comprises Excursions and other Geological work, Megascopic and Microscopic Lithology, Practical Crystallography, Mineral Chemistry and Assaying. It is expected that students in the Department will make a collection of minerals rocks or fossils during the previous vacation.

Text-books and works of reference: Chapman's Minerals and Geology of Ontario and Quebec; Dana, Manual of Geology; Geikie, Text-book of Geology; Le Conte, Elements of Geology; Prestwich, Geology; Phillips, Ore Deposits; Kemp, Ore Deposits of the United States; Nicholson, Palæontology; Zittel, Handbuch der Palæontologie; Steinmann Döderlein, Elemente der Palæontologie; Dana, Mineralogy; Naumann, Mineralogie; Tschermack, Mineralogie; Chapman, Mineral Indicator and Blowpipe Practice; Rosenbusch (and Iddings) Microscopical Physiography of Rock Making Minerals; Zirkel, Lehrbuch der Petrographie; Reports of the Geological Survey of Canada.

Honor students of all years are required to pay laboratory supply fees in advance to the Bursar.

CURRICULA AND REGULATIONS

FOR DEGREES OF

Ph.D., LL.B., B.A.Sc., C.E., M.E., E.E., D.D.S., Phm. B., B.S.A., Mus. Bac., B. PæD., D. Pæd.

DEGREE OF PH.D.

The Degree of Doctor of Philosophy has been established for the purpose of encouraging research in the University of Toronto, and is conferred on the following conditions:—

1. The candidate shall be a graduate in Arts of the University of Toronto, and shall register in the University of Toronto as a graduate student. Graduates in Arts of other Universities who have been admitted ad euglem gradum in this University may also register. The Registrar shall not register any student unless he present a certificate of qualification from the professors and heads of that department in the University of Toronto, University College, and Federated Universities, from which he proposes te select his major subject. Such registration may take place at any time in the academic year.

The candidate shall after registration have pursued for at least two years the study of a special subject, to be termed the major subject, under the direction of the professor of such subject in the University of Toronto, University

College, or Federated Universities.

3. Exemption from attendance for the first of the two years of study may be granted upon the report of the professor, but the candidate shall present satisfactory evidence of study in his major subject at another University during that year.

4. The candidate shall wass examinations in two other subjects, to be termed the minor subjects. He shall obtain a standing in the examinations in the two minor subjects equivalent at least to that required for second class Honors in the examination for the B.A. degree. The examination in either or both minor subjects shall be dispensed with in case the candidate has obtained first-class Honors in either or both of such subjects at the examination for B.A. in this University.

 The candidate shall present a thesis on some topic in his major subject embodying the results of an original investigation conducted by himself.

6. The acceptance of the thesis shall be determined upon the report of the professors and heads of that department which includes the major subject, in the University of Toronto, University College and Federated Universities, and such report shall also state that the candidate has passed a satisfactory examination in his major subject. The candidate, after the acceptance of the thesis, shall furnish to the Registrar one hundred printed copies of such thesis together with the report thereon, before he receives the degree.

7. The annual fee for registration in the University of Toronto and University College is \$25, and the fee for the degree of Doctor of Philosophy is \$50.

8. The candidate shall select one of his minor subjects from the group to which his major subject belongs, and shall select his second minor as indicated in the annexed table.

Minor subjects also may be chosen from the following groups:

GROUP VIII. MODERN LANGUAGES AND LITERATURE.

- 1. Old English.
- 2. Modern English.
- 3. Modern French.
 - 4. Old French.
 - 5. Modern German.

GROUP IX. LATIN AND GREEK LANGUAGES AND LITERATURE.

- 1. Greek Language and Literature.
 - 2. Latin Language and Literature.
 - 3. Greek Philosophy.
- 4. Latin and Greek History.

GROUP X. HISTORY.

- 1. Canada under the French Regime.
- 2. Canada under British Rule.
- 3. The American Revolution.

GROUP XI. MATHEMATICS.

- 1. Geometry.
- 2. Analysis.

The provisions of this statute may be extended to any other department in the University of Toronto, University College and Federated Universities, upon application of the head or heads of such department to the University or Collage to which he or they belong, and upon satisfying such governing body of the ability of their department to carry out the purposes of this statute.

Until the extension of the provisions of this statute to departments not at present included in the preceding enumeration of groups, the heads of such departments shall, when asked so to do, name subjects as second minors in their departments.

Any person having the degree of Bachelor of Arts or of Master of Arts in the University of Toronto; or any person having the degree of Bachelor of Arts or of Master of Arts of another University, who has been admitted adeundem gradum in the University of Toronto; or any person who has been admitted to the Bar by the Law Society of Upper Canada; or any person who has been admitted a Student-at-Law by the Law Society of Upper Canada, and who has passed his Intermediate examinations as required by the said Society, provided that before he be entitled to receive the degree of LL.B. he shall have been admitted as a Barrister by the said Law Society, may enter the Faculty of Law at the Third year off the course of study in that Faculty; but prior to presenting himself for the final examination in the course for the degree of LL.B. he shall pass in addition to the examinations of the Third and Fourth years in the Faculty of Law, the following examinations in the Faculty of Arts, viz.:—

- English Constitutional History: Honor examinations of the Second and Third years, or the examination in the Third year of the Undergraduate General course.
- $2. \ \, {\rm English}$ and Colonial Constitutional Law : Honor examination of the Third year.
 - 3. HISTORY OF ROMAN LAW: Honor examination of the Third year.
 - 4. HISTORY OF ENGLISH LAW: Honor examination of the Third year.
- 5. POLITICAL ECONOMY: Honor examinations of the Second or Third year, or the examination of the Fourth year in the Undergraduate General course.
- 6. JURISPRUDENCE: Honor Examination of the Fourth year.
- 7. Public International Law: Honor examination of the Fourth year.
- 8. Canadian Constitutional History: Honor examination of the Fourth year, or examination of the Fourth year of the Undergraduate General course.
- 9. FEDERAL CONSTITUTIONAL LAW: Honor examination of the Fourth year. Undergraduates in the Faculty of Arts who intend to proceed to the degree of LLB may take these examinations either during their Arts course, or during the Third and Fourth years of their Law course.

95

Matriculation.

The Matriculation examination in the Faculty of Law shall be identical with the examination of the First year in the Undergraduate General course:—English; Latin; any two of the following languages—Greek, French, German, Hebrew; Ancient History; Mathematics; Physics or Biology.

First Year.

The subjects of examination in the First year in the Faculty of Law are as follows:—

- (a) Subjects of the General course in the Faculty of Arts in which Pass standing will be required:
 - 1. English of the Third year with the addition of English Composition.
- 2-3. Any two of the following languages of the Second year, viz.—Latin, Greek, French, German, Hebrew.
 - 4. Mediæval History of the Second year.
 - 5. English Constitutional History of the Third year.
 - 6. Ethics of the Third year.
 - 7. Logic of the Second year.
 - 8. Psychology of the Second year.
- (b) Subjects of the Political Science course of the Third year, in which Honor standing will be required:
 - 1. English and Colonial Constitutional Law.
 - 2. Theory of Political Economy.
 - 3. History of English Law.
 - 4. History of Roman Law.

Second Year.

The subjects of examination in the Second year in the Faculty of Law shall be as follows, viz.:—

- (a) Subjects in the Faculty of Arts in which Pass standing will be required:
 - 1. English of the Fourth year of the General Course.
- 2.3. Any two of the following languages of the Third year of the General Course—Latin, Greek, French, German, Hebrew.
 - 4. Economic History of the Honor Course of the Fourth year.
- (b) Subjects of the Political Science course, in which Honor standing will be required:
 - 1. Modern History of the Third year.
 - 2. Canadian Constitutional History.
 - 3. Public Finance.
 - 4. Political Philosophy.
 - 5. Jurisprudence.
- 6. Public International Law.
- 7. Federal Constitutional Law.

Each candidate for the degree of LL.B., must present a thesis satisfactory to the examiners in law, upon a legal subject on or before the 31st of March in the year in which he presents himself for examination in his Fourth year in the Faculty of Law, or on or before the said date in any subsequent year. The subject of the thesis will be prescribed by the Senate, and will be announced at least twelve months before the date upon which it is due. An oral examination on the subject of the thesis may be required at the option of the examiners in Law. Candidates for the degree may defer presenting the thesis until a subsequent annual examination, in which case the fee for examination shall be \$10.

A 00B.
The following fees must be paid :-
For Matriculation or entranceTen dollars.
For each examination after Matriculation Ten dollars.
For each supplemental examination Ten dollars.
For the degree of LL.BTwenty dollars.
For admission ad eundem gradum LL.BTwenty dollars.

The fee for Matriculation and for each subsequent examination must be paid to the Bursar at the time the candidate makes application for the examination.

The fee for the degree must be paid to the Bursar before the candidate is admitted to the Final examination.

Examinations.

The examinations will take place in the month of May. Notice of the day when they commence will be given in January.

Every student who purposes presenting himself at any examination is required to send to the Registrar, at least six weeks before the day appointed for the examination, a paper (according to a printed form which will be provided on application) stating his standing, and whether he is a candidate for Honors or otherwise.

Candidates who at any examination have failed in not more than two subjects may present themselves for examination in such subjects at the next ensuing Supplemental examinations.

Undergraduates below the Fourth year in the Faculty of Law, who have been rejected or who have been prevented from attending the Annual examinations in May by sickness or other cause beyond their control, may present themselves in September, at the time of the Supplemental examinations in Arts.

Candidates in the Faculty of Law shall not be required to pass an examination on those subjects in which they have already passed the required examination in the University of Toronto, or an equivalent examination in the course of studies prescribed by the Law Society of Upper Canada.

Candidates who have taken the course at the Law School are required to present to the Registrar a certificate from the Secretary of the Law Society, showing the subjects in the Law School curriculum on which the candidate has passed examinations at the said School, and such certificate shall entitle the candidate to exemption from examination on the subjects mentioned in said certificate, where said subjects are included in the University curriculum in Law

Subject of Thesis.

The subject of the thesis for 1899 shall be "The Prerogatives of the Crown in the Dominion and Provinces of Canada."

Certificates of Honors.

Certificates of Honor will be given at each examination to those students who have been placed in the first and second class of Honors. The fee for such certificates shall be one dollar.

CURRICULUM IN APPLIED SCIENCE.

Degree of Bachelor of Applied Science.

Candidates who have fulfilled the requirements of the Fourth year in the School of Practical Science are eligible for the degree of Bachelor of Applied Science in the University of Toronto under the following conditions and regulations :-

1. Candidates for the said degree shall hold the diploma of the School of Practical Science in any one of the regular courses of the said school, or shall be of the standing of the Fourth year in the Honor department of Chemistry and Mineralogy in the University of Toronto.

2. They shall have fulfilled the conditions relating to the Fourth or postgraduate year in the School of Practical Science, and shall present certificates of having done so to the Registrar of the University. Honors may be granted with such certificates by the Faculty of the School.

3. Each candidate shall prepare a Thesis based on the results of his Fourth year work in the said School of Practical Science for the approval of the University examiners. This Thesis is to be accompanied by all necessary drawings, specifications, tables and estimates. To pass in the Thesis a candidate must obtain 50 per cent., and to take honors 75 per cent., of the marks assigned.

4. Candidates will be required to select two sub-divisions in any one of the following groups, and to pass such written and oral examinations on the subjects selected as may be prescribed by the University examiners.

(Astronomy.

Geodesy and Metrology.

Architecture.

Strength and Elasticity of Materials.

B. | Hydraulics.

Thermodynamics and Theory of Heat Engines.

Electricity and Magnetism.

Industrial Chemistry.

Sanitary and Forensic Chemistry. Inorganic and Organic Chemistry.

D. Mineralogy and Geology.
Metallurgy and Assaying.

The sub-division "Inorganic and Organic Chemistry" will be obligatory on all candidates who select group C.

To pass in each subject 33 per cent., and to take honors 66 per cent. of the marks assigned will be required.

5. The degree with honors will be conferred on candidates who obtain three out of the four honors possible.

Viz.—Certificate with honors(cl. 2.)
Thesis with honors (cl. 3.)
Honors in each subject of examination(cl. 4.)

6. Candidates are required to send to the Registrar of the University at least three weeks before the commencement of the annual examination an application for examination according to a printed form to be obtained from the Registrar, and at the time of making such application a fee of ten dollars must be paid to the Bursar.

7. The examination for the degree shall be held in May.

8. The fee for the degree shall be ten dollars, and shall be paid to the Bursar not later than the first day of May.

9. The ordinary time for conferring the degree shall be at the University Commencement in June. The degree may be conferred at any meeting of the Senate.

10. The thesis, drawings, and other papers accompanying them, shall be the property of the University.

11. In case any change be made in the conditions referred to in the second clause, such change shall be submitted to the Senate, and shall have no force so far as the said clause is concerned, unless approved by resolution of the Senate,

Degrees in Engineering.

By a Statute of the University of Toronto, passed in 1896, graduates of the School of Practical Science may be admitted to degrees in Engineering upon the following terms:—

I. That all previous Statutes of the University relating to degrees or diplomas in Engineering be repealed.

II. That the following degrees be hereby established, viz., Civil Engineer (C. E.), Mining Engineer (M. E.), Mechanical Engineer (M. E.), Electrical Engineer (E. E.).

III. That the following be the conditions and regulations governing the conferring of the said degrees:—

 A candidate for one of the said degrees shall hold the Diploma of the School of Practical Science and the degree of Bachelor of Applied Science of the University of Toronto, except in the case provided for in clause 11 hereander.

2. He shall have spent at least three years after receiving the degree of Bachelor of Applied Science in the actual practice of the branch of Engineering wherein he is a candidate for a degree.

degree of Engineer-

 Intervals of non-employment or of employment in other branches of Engineering shall not be included in the above three years. It shall not be necessary that the several periods requisite to make up the said three years be consecutive;

Satisfactory evidence shall be submitted to the University Examiners as
to the nature and length of the candidate's professional experience for the
purposes of clauses 2 and 3.

The Examiners shall satisfy themselves by oral or written examinations in regard to the candidate's experience and competence.

5. The candidate shall prepare an original Thesis on some engineering subject in the branch in which he wishes a degree; the said Thesis to be accompanied by all necessary descriptions, details, drawings, bills of quantities, specifications, and estimates.

The candidate may be required at the option of the Examiners to undergo an examination in the subject of this Thesis.

6. Notice in writing shall be sent to the Registrar not later than the first day of February, informing him of the degree to which the candidate wishes to proceed, and of the title of his proposed Thesis, for the approval of the Senate.

7. The evidence under clause 4, and the Thesis, with accompanying papers described in clause 5, shall be sent to the Registrar not later than the first day of May.

8. The candidate shall be required to present himself for examination in the month of May at such times as may be arranged by the Registrar.

9. The fee for any one of the said degrees shall be twenty dollars, and shall be paid to the Bursar not later than the first day of May.

10. The Thesis, drawings and other papers submitted under clause 7 shall become the property of the University.

11. Candidates who graduated from the School of Practical Science before June, 1895, shall not be required to hold the degree of Bachelor of Applied Science.

CURRICULUM IN DENTISTRY

Degree of Doctor of Dental Surgery.

Matriculation.

Candidates for the degree of Doctor of Dental Surgery must pass the Matriculation examination hereinafter mentioned, unless

- 1. They possess a degree in Arts (not being an Honorary Degree), from some recognized University; or
- 2. Have already matriculated in the Faculty of Arts, or the Faculty of Law, or the Faculty of Medicine, in this or some other University in Canada; or
- 3. Are Matriculants in the College of Physicians and Surgeons of Ontario : or
- 4. Have passed the 1st, 2nd or 3rd class Departmental Non-professional examinations in which the Latin option has been taken.

Candidates not possessing any of the above named qualifications, will be required to pass the examination prescribed for matriculants in the Faculty of Medicine in this University, provided always that candidates registered as matriculants of the Royal College of Dental Surgeons of Ontario, on the first day of November, A.D. 1888, shall be admitted matriculants in the Department of Dentistry.

Undergraduates.

Undergraduates (candidates for the degree) residents of the Province of Ontario, must have complied with all the requirements prescribed from time to time by the Board of Directors of the Royal College of Dental Surgeons of Ontario, for admission to examination for a certificate of license to practice Dentistry in Ontario.

Undergraduates (candidates for the degree), not resident in Ontario, must:

- 1. Have devoted at least three and one-half calendar years (not being engaged in any other business) to the study of Dentistry.
- 2. Must have attended at least three full courses of lectures, embracing all the subjects of the curriculum, of not less than five months each (exclusive of the time occupied in examination), and including the daily clinic at a dental school recognized by this University; the last of which must be at the School of Dentistry of the Royal College of Dental Surgeons of Ontario.
- Must have spent that portion of time, when not in attendance at lectures and clinics at the School of Dentistry, as students in the office of an approved dentist.

Examinations.

Candidates for the degree must pass two examinations, an intermediate and a final, an interval of not less than one year intervening between them. Until further provision be made, a certificate of having passed the intermediate examination of the Royal College of Dental Surgeons of Ontario will be accepted by this University.

Applications for the final examination, which will be held at a time fixed by the Committee on Examinations, must present to the Registrar satisfactory certificates, covering all the requirements relating to undergraduates as given above, and of having passed the intermediate examination. The subjects for intermediate examination shall be:—

- (a) Comparative Dental Anatomy.
- (b) General Histology.
- (c) Bacteriology.
- (d) Theory of Operative Dentistry.
- (e) Theory of Dental Prosthetics.
- (f) Dental Technique.
- (g) Dental Materia Medica and Therapeutics.
- (h) Principles and Practice of Medicine and Surgery as applied in Dentistry.
- (i) Anatomy.
- (k) Physiology.
- (l) Chemistry.

The subjects for final examination shall be:

- (a) Theory and Practice of Operative Dentistry.
- (b) Theory and Practice of Dental Prosthetics.
- (c) Dental Pathology.
- (d) Dental Histology.
- (e) Principles and Practice of Medicine and Surgery as applied in Dentistry.
- (f) Dental Materia Medica and Therapeutics.
- (g) General Anatomy and special Anatomy of Head and Neck.
- (h) Physiology.
- (k) Chemistry.
- (l) Jurisprudence.

(These Examinations will be written.)

(m) Practical Dentistry:

Candidates shall be examined in practical work from time to time, during the session of the Royal College of Dental Surgeons, on completion of the required work in the Infirmary and Laboratory of the College.

Candidates may take the final examination in Anatomy and Chemistry at the close of the Second college year, on payment of a fee of two dollars.

No candidate shall be considered as having passed the examination who has not obtained 60 per cent. of the marks allotted; nor shall a candidate be considered as having passed in any subject who has not obtained at least 40 per cent. of the marks allotted to such subject.

Equivalent Examinations.

Examinations in the Faculty of Arts in the Department of Natural Science Division 1, are accepted in lieu of examinations for the degree of Doctor of Dental Surgery, as follows:—

(a) Physiology and Chemistry of the Second year for the Physiology and Chemistry of the intermediate examination.

(b) Histology of the Fourth year for the General Histology and Bacteriology of the intermediate examination.

(c) Chemistry of the Third year and Physiology of the Fourth year for Chemistry and Physiology of the final examination.

Fees

The fee for matriculation shall be five dollars.

The fee for registration of a certificate accepted in lieu of said examination shall, be five dollars.

The fee for final examination shall be ten dollars.

The fee for the degree of D.D.S. shall be fifteen dollars.

No fee shall be charged for transference from any Faculty of the University to the Department of Dentistry.

The fee for admission ad eundem gradum shall be twenty dollars.

CURRICULUM IN PHARMACY.

Degree of Bachelor of Pharmacy.

Matriculation.

Candidates for the degree of Bachelor of Pharmacy must either:

- 1. Possess a degree in Arts (not an Honorary degree) from some recognized University, or
- 2. Have already matriculated in the Faculty of Arts, or the Faculty of Law, or the Faculty of Medicine in this or some other University in Canada, or
- 3. Be matriculants in the College of Physicians and Surgeons of Ontario, or
- 4. Have passed the Primary or the Junior or Senior Leaving examinations of the Education Department of Ontario in which Latin has been taken.

Provided always that all candidates registered as apprentices of the Ontario College of Pharmacy, or who have received the diploma of the College of Pharmacy up to the first day of July, A.D. 1898, shall be admitted as matriculants in the Department of Pharmacy on payment of the registration fee of five dollars.

Regulations.

Undergraduates (candidates for the degree), resident in the Province of Ontario must have complied with all the requirements prescribed from time to time by the Council of the Ontario College of Pharmacy for admission to examination for a diploma licensing to practice Pharmacy in Ontario, and must have received from the Registrar of the Ontario College of Pharmacy a certificate of having passed the Final examination of that College.

Candidates for the degree, not resident in Ontario, must have devoted at least four years (not being engaged in any other business) to the study of Pharmacy, being apprenticed during that time to a regularly qualified Pharmaceutical Chemist; must have attended the full courses of lectures, embracing all the subjects of the curriculum, the length of each course being not less than that required from time to time by the Council of the Ontario College of Pharmacy, and including practical work at some College of Pharmacy recognized by this University; the last of which courses must be at the Ontario College of Pharmacy.

All candidates who have, prior to August 15th, 1892, received the diploma of the Ontario College of Pharmacy shall not be required to conform to the above, but shall be allowed their degree on passing the examination on the subjects hereinafter given.

Examinations.

Candidates for the degree must pass an examination to be held in the month of May of each year—hour and date of commencing to be hereafter given—must present to the Registrar satisfactory certificates covering all the requirements relating to undergraduates as given above, and of having passed the final examination of the Ontario College of Pharmacy.

The subjects of the examination shall be as follows:

1. Botany and Microscopy.

2. Theory and Practice of Chemistry and Toxicology.

3. Materia Medica, including Posology and Pharmacognosy.

4. Theory and Practice of Pharmacy, including Interpretation of Prescriptions and Dispensing.

These examinations shall be partly written, partly oral, and partly practical. No candidate shall be considered as having passed the examination who has not obtained fifty per cent. of the marks allotted; nor shall a candidate be considered as having passed in any subject who has not obtained at least forty per cent. of the marks allotted to such subject.

Fees

For Matriculation or registration of matriculation		\$5	00
For annual examination (each)		10	00
For each practical examination	٠.	0	50
For the degree Phm.B		10	00

No fee shall be charged for transference from any faculty of this University to the Department of Pharmacy.

CURRICULUM IN AGRICULTURE.

The Course of Study for an Associate Diploma of the Ontario Agricultural College is one of two years, and embraces the following subjects:—

First Year.

Agriculture.
Live Stock.
Dairying.
Poultry.
Apiculture.
Inorganic Chemistry.
Organic Chemistry.

Poultry.
Apiculture.
Morganic Chemistry
Organic Chemistry.
Zoology.
Botany.
Geology.

Entomology.

Veterinary Anatomy.
Veterinary Materia Medica.
English Grammar.
English Literature.
English Composition.
Drawing.
Book-keeping.
Arithmetic.
Mensuration.

Second Year.

Agriculture.
Live Stock.
Dairying.
Poultry.
Apiculture.
Horticulture.
Agricultural Chemistry.
Analytical Chemistry.
Systematic and Economic Botany.

Veterinary Pathology.
Veterinary Surgery and Practice.
English Grammar.
English Literature.
Political Econom.
Drawing.
Mechanics.
Physics.
Levelling and Road-making.

Third Year.

Any associate who ranks high in the theory and practice of the first two years, and takes not less than sixty per cent. of the aggregate number of marks in English Grammar, Literature, and Composition, may remain for a third year and take the following course for the degree of B. S. A. (Bachelor of the Science of Agriculture).

General Course-To be taken by-all Third year students.

Agriculture.

- 1. Review of first and second year work.
- 2. Lectures and practical work (Fall Term).

Chemistry.

- 1. Review of Second year work in Agriculture and Animal Chemistry.
- 2. General Chemistry, lectures, with experiments, 2 hours per week till Christmas.
- 3. Reading: Storer, Vol. I, Chaps. 1, 2, 3, 4, 7, 8, 10, 11, and 12; Vol. II, Chaps. 5, 6, 7, 8, 9, 10, 15, 17, 18, and 19; Manual of Cattle Feeding (Armsby).

Geology.

- Lectures: A general review of the subject, referring particularly to the ages, systems, and formations in Canada; special attention to the geology of Ontario, New Brunswick, Nova Scotia, Manitoba, and the North-West, with regard to their most valuable economic products; the disintegration and decomposition of rocks in the formation of soil, etc.
- Reading: Elements of Geology (Le Conte), Part I, Chaps. 2 and 3; Part II, Chaps. 5 and 6; Part III, Chaps. 3 and 5.

Reference. - Handbook of Canadian Geology (Dawson).

Botany.

- Structural and Physiological Botany; cells and tissues of plants; organs
 of vegetation and reproduction; plants in relation to soil; processes of absorption, circulation, assimilation, metabolism, and transpiration.
- Vegetable Histology; technique of microscope; mounting, examination, and drawing of vegetable cells and tissues, etc.
 - 3. Reading: Botany (Bastin); Physiological Botany (Vines).

English.

A general acquaintance with the character of the work of the following writers, together with critical study of the specified selections:—

SHAKESPEARE, King Lear and A Winter's Tale; MILTON, Paradise Lost, Bk. I, L'Allegro, and Il Penseroso; WORDSWORTH, The Leech Gatherer, To the Daisy, and Nutting; Scott, Kenilworth; Tennyson, In Memoriam, Guinevere, and Maud.

LITERATURE.

Introduction to English Literature. - Pancoast.

COMPOSITION.

- 1. Composition from models.—Alexander and Libby.
- 2. Impromptu compositions and four original essays on subjects to be assigned.

There will be no formal examination on this subject at the end of the year, but marks assigned for compositions written during the year will count as one paper at the final examinations.

In order to pass in this department, it is necessary above everything else that the candidate spell correctly and write fairly good English.

I.-Agriculture.

Students intending to take this course must present a certificate of having spent two years at practical work with a good farmer, and submit to a practical test at the discretion of the Lecturer on Agriculture.

General Field Agriculture.

Soils, methods of cultivation, draining, manures, rotation of crops, adaptation of soils to different plants, seeds and seeding, growing and harvesting of crops, including a scientific and practical knowledge of the grasses and clovers found in Ontario, and all else pertaining to the soils and crops of this Province, with lectures on experimental work.

Reading: All works and selections prescribed for First and Second years; Storer's Agriculture, Vols. I and II; The Soil (King); additional books, bulletins, and reports as directed.

Live Stock.

CATTLE: The principal breeds of beef and dairy cattle, including Short-horns, Herefords, Aberdeen-Angus, Galloways, Sussex, Devons, Ayrshires, Jerseys, Guernseys, Holsteins, Crosses, and Grades; general characteristics, with emphasis on the strong and weak points, of each; principles and practice of breeding; foods, fodders, feeding, and management.

2. Sheep: The principal breeds of sheep, including Shropshires, Oxford Downs, Southdowns, Hampshire Downs, Suffolks, Cotswolds, Lincolns, Leicesters, Dorset Horns and Merinos; the general characteristics, with the strong and weak points, of each as regards carcass, wool and mutton; breeding; food, feeding, and management of flock, ewes and lambs; also an exact and thoroughly practical knowledge of the different kinds of wool.

3. Swine: Principal breeds of swine, including Berkshires, Yorkshires, Tamworths, Poland Chinas, Chester Whites, Duroc Jerseys, Suffolks and Victorias; general characteristics, with emphasis on strong and weak points of each; breeding; foods, feeding and management.

4. Horses: Heavy-draught—Clydesdale, Shire, Suffolk Punch, and Percheron; Coach horses—Hackney, Cleveland Bay, etc.; roadsters; thoroughbreds; saddle horses; horse-breeding; education of horse; soundness; foods, feeding and management.

5. POULTRY: Principal breeds of poultry, including Wyandottes, Plymouth Rocks, Javas, American Dominiques, Andalusians, Leghorns, Minorcas, Spanish, Brahmas, Cochins, Langshans, Hamburgs, Polish, French, Dorkings, India Game and Black-Red Game; poultry houses; food, feeding and management of poultry.

Reading: Stock Breeding (Miles); Live Stock Hand Books; Farm Live Stock of Great Britain (Wallace), Chaps. 3, 4, 5, 6, 7, and 17; The Business Hen (Rural Publishing Co., N. Y.); additional books, bulletins and reports as

directed.

Biology.

 Fungi: Microscopic study of rust, smut, and other injurious fungi, with all available information as to remedies.

INSECTS: (1) Review of Second year work; (2) Further study of those species which attack farm and garden crops.

Reading: Economic Entomology (Smith); portions of Comstock's Entomology.

Forestry.

Lectures on the importance of forests, their effect on climate, etc.; kinds
of trees, their occurrence, habits, and uses; raising trees from seed; planting
and management of trees with a view to shelter, ornament, and economy.
Reading: Practical Forestry (Fuller).

Chemistry and Physics.

1. AGRICULTURAL AND ANIMAL CHEMISTRY as in chemical option.

2. CHEMISTRY OF INSECTICIDES AND FUNGICIDES: Preparation of copper sulphate, oxide and hydride of lime, ammonia, copper carbonate, sodium carbonate, potasium sulphide, and acetate of copper; physical and chemical properties of the substances used in the preparation of insecticides and fungicides; the preparation of insecticides and fungicides and the examination of their physical and chemical properties.

3. AGRICULTURAL PHYSICS: Laboratory work and lectures.

II.—Dairying.

Students intending to take this course must present a certificate of having spent one season at work in a good butter or cheese factory, or of having taken a course of ten weeks in a dairy school.

Dairying.

Theory and practice in everything pertaining to the setting of milk, handling of milk and cream, milk-testing, butter-making, and the running of cream separators; cheddar cheese-making; the making of sweet curd cheese; pasteurization of milk; town and city milk supply; experimental work and original investigation; full courses of lectures and practical work; examinations in theory and practice of all branches of subject; the making of a prime article of both butter and cheese necessary in order to pass.

Bacteriology.

Laboratory work and lectures; bacteriological analysis of milk, butter and cheese; pasteurization of milk and cream.

Text books: Bacteriology (Migula); Dairy Bacteriology (Russell). Reading and reference as directed.

Chemistry.

1. Dairy Chemistry: Composition of milk, butter, cheese, and whey; determinations of specific gravity of milk; determinations of total solids, moisture, ash, fat, casein, albumin, and sugar in milk, cheese and whey; milk adulterants; determination of the melting point of butter; distinction between butter and oleomargarin; recent investigations and results.

2. Animal Chemistry: Laboratory work and lectures as in chemical option; science and practice in cattle feeding.

Reading: Analysis of Milk and Milk Products (Leffman and Beam); Manual of Cattle Feeding (Armsby); additional books and periodicals as directed.

Live Stock,

 CATTLE: The principal breeds of cattle, including Shorthorns, Herefords, Aberdeen-Angus, Galloways, Sussex, Devons, Ayrshires, Jerseys, Guornseys, Holsteins, Crosses, and Grades; general characteristics, with emphasis on the strong and weak points of each; principles and practice of breeding; foods, fodders, feeding, and management.

2. Swine: Principal breeds of swine, including Berkshires, Yorkshires, Tamworths, Poland Chinas, Chester Whites, Duroc Jerseys, Suffolks, and Victorias; general characteristics, with emphasis on strong and weak points of each; breeding; foods, feeding, and management.

3. POULTRY: Principal breeds of poultry, including Wyandottes, Plymouth Rocks, Javas, American Dominiques, Andalusians, Leghorns, Minorcas, Spanish, Brahmas, Cochins, Langshans, Hämburgs, Polish, French, Dorkings, Indian Game, and Black-Red Game; poultry houses; food, feeding, and management of poultry.

Reading: Cattle Breeding (Warfield); The Business Hen (Rural Publishing Co., N.Y.); additional books, bulletins, and periodicals as directed.

III.—Horticulture.

Students intending to take this course must present a certificate of having spent at least one year at practical work with a good fruit grower, market gardener, or florist, and a recommendation from the College Horticulturist as to ability and proficiency in the practice of horticulture during the first two years of his College course.

Horticulture.

FRUIT GROWING: 1. General Review of Second year lectures.

2. Laboratory work in pollination; propagation of plants; preparation of insecticides and fungicides; management of pumps, nozzles, and other appliances for spraying; laying out of orchards and fruit gardens; classification and description of fruits; making drawings of fruits.

Reading: American Fruit Culturist (Thomas), Amateur Fruit Grower (Green), Small Fruit Culturist (Fuller), Nursery Book (Bailey), and The Apple

in North America (Bailey).

VEGETABLE GARDENING: 1. General review of Second year lectures.

2. Laboratory work in testing seeds and conditions favorable to germination; transplanting seedlings; forcing vegetable crops; handling and storing vegetables; planning, arrangement, and rotation of crops in garden; making of hotbeds and cold frames, etc.

Reading : How to make the Garden Pay (Greiner), Vegetable Garden

(Vilmorin), and Origin of Cultivated Plants (De Candolle).

FLORICULTURE: 1. Lectures based on work in laboratory and greenhouses. 2. Laboratory work in the preparation of soil for plants; propagating plants; study of the effects of atmosphere, temperature, and light on plants; watering; trimming; training; treatment of frozen plants; resting plants; making collections suitable for window, conservatory, hanging baskets, rockeries and flower beds; arrangement of plants for effect.

Reading: Home Floriculture (Vick), and Practical Floriculture (Hender-

Forestry: Lectures on the importance of forests, their effect on climate, etc. : kinds of trees, their occurrence, habits, and uses : raising trees from seed; planting and management of trees with a view to shelter, ornament and economy.

Reading: Practical Forestry (Fuller).

Botany.

1. General review of First and Second year work, with "Spaulding's Introduction to Botany "as a text-book.

2. Systematic Botany and experimental plant physiology; mounting of 100 plants; collection and identification of seeds of 25 species of weeds.

3. Microscopic study of injurious fungi which affect orchard, garden, and greenhouse crops and plants.

4. Vegetable Histology: technique of microscope; mounting and study of tissues, etc.

Reading: Experimental Plant Physiology (Oels and Macdougall); Physiological Botany for Gardeners (Sorauer); Fungi and Fungicides (Weed); Botany (Strasburger, Noll, Schenck, and Schimper); Text Book of Botany (Vines); Zimmerman's "Micro-Technique"; additional books, bulletins, and periodicals as directed.

il); Phy-

(Weed);

f Botany

etins, and

Further study of species, especially those which attack orchard, garden, and greenhouse crops and plants.

 Reading: Economic Entomology (Smith); Insects Injurious to Fruit (Saunders); portions of Comstock's Entomology; additional books and periodicals as directed.

Practical work to be done in afternoons; a record of practical work throughout the year to be kept; eccasional examinations on reading and practical work to be held; and the whole record of daily work, practical examinations, and written examinations to be taken into account in determining the standing of students.

IV.-Biology.

Botany.

1. Review of First and Second year work, with Spaulding's "Introduction to Botany" as a text-book.

Systematic Botany; mounting of 100 plants; collection and identification of 25 species of weeds.

3. Experimental Plant Physiology; Laboratory work, with "Experimental Plant Physiology" by Oels and Macdougall, as a text-book.

4. Negetable Histology; technique of microscope; mounting and study of tissues, etc.

Reading: Zimmerman's "Micro-Technique"; Strasburger, Noll, Schenck, and Schimper's Botany; Vines' Text Book of Botany; additional books and periodicals as directed.

5. Cryptogamic Botany and Plant Pathology: A laboratory course, supplemented by lectures—microscopic study of the diseases of plants; remedies, etc.; collection and identification of 25 species of injurious fungi.

Reading and reference: Fungi and Fungicides (Weed); British Uredineae and Utilagineae (Plowright); British Fungous Flora (Massee); Myxogastres (Massee); Text Book of Botany (Vines; Outlines of the Classification of Plants (Goebel); Spotton, Part II; Manual of Botany (Gray); Comparative Anatomy of the Phanerogans and Ferns (De Barry); Mosses and Ferns (Campbell); Physiological Botany (Sachs); additional books and periodicals as directed.

Zoology.

1. Lectures and laboratory work, including dissection and critical examination of typical specimens of the main divisions of the animal kingdom.

2. Histology: Methods; imbedding, cutting, mounting, and study of specimens; laboratory with lectures and reference.

Reading: Zoology (Wright); Invertebrate Zoology (McMurrich); Biology (Parker); Biology (Huxley); Practical Zoology (Colton); Zootomy (Parker); additional books and periodicals as directed.

Dissecting Instruments, etc., to be provided by student, say 1 scalpel, 1 pair scissors (fine), 1 pair forceps, and 1 lens.

V-Bacteriology.

Bacteriology.

 Technique of microscope; life history of bacterial cell; form and classification of bacteria; requirements and chemistry of bacteria; staining; preparation of culture media.

2. Laboratory work with pathogenic and non-pathogenic germs; post mortem and microscopical examination.

3. Some special line of bacterial investigation, to be chosen with the approval of the Bacteriologist and pursued to his satisfaction, and a thesis written thereon, which thesis shall be based on original work and shall be a contribution to knowledge.

Reading: Bacteriology (Sternberg); Bakteriologie (Kramer); Dairy Bacteriology (Russell); additional books and periodicals as directed.

Zoology.

1. Lectures and laboratory work, including dissection and critical examination of typical specimens of the main divisions of the animal kingdom.

2. Histology Methods; imbedding, cutting, mounting, and study of specimens; laboratory work with lectures.

Reading and reference: Zoology (Wright); Invertebrate Zoology (McMurrich); Biology (Parker); Biology (Huxley); Practical Zoology (Colton); Zootomy (Parker); Normal Histology (Huber); Histology (Shohr); Histology (Schafer); additional books and periodicals as directed.

VI.—Chemistry and Physics.

Chemistry.

- 1. Organic Chemistry: A course of 48 lectures.
- 2. INORGANIC CHEMISTRY: A course of 28 lectures.
- 3. AGRICULTURAL CHEMISTRY: The constituents of plants; functions of leaves and roots; germination; plant development; composition of the atmosphere at d the soil; physical properties of soils in relation to soil cultivation and plant growth; nitrification; farmyard and artificial manures; application of manures to farm crops; manurial constituents in crops; characteristic composition of cereal, leguminous, and root crops; composition of shrubs and trees; feeding value of crops; rotations; crop residues; recent investigations and results.
- 4. Animal Chemistry: Composition of the animal body and of fodders; resorption; circulation; respiration; determination of the digestibility and nutritive value of food and fodder; formation of flesh and fat; feeding for work, maintenance, fat, milk, and growth; feeding standards; albuminoid ratio; recent investigations and results.
 - 5. LABORATORY WORK:
 - a. Full course in qualitative analysis of bases and acids.
 - b. Gravimetric and volumetric analysis.

TEXT BOOKS: Agricultural Chemistry (Warington); Agriculture, Vols. I and II (Storer): Manual of Cattle Feeding (Armsby); Compounds of Carbon (Remsen); Inorganic Chemistry, Advanced Course (Remsen); Preparation of Organic Compounds (Fischer-Kling).

Reading: As prescribed by Professor of Chemistry.

Physics.

1. Review of Second year work.

2. AGRICULTURAL PHYSICS: Lectures and laboratory work-analysis of soils with reference to texture, -sandy, clay, loamy, etc.; physical properties of soils of different textures; determination of water capacity and its relation to soil texture; soil in relation to heat; soil-water, its movements and methods of controlling and preserving it; drainage and cultivation; physics of the plant; osmosis, absorption, selection, and transpiration.

3. Reading: The Soil (King); How Crops Feed (Johnson); Molecules and the Molecular Theory (Risteen); additional books, bulletins and periodicals

as prescribed by the Lecturer on Physics.

Notes regarding Special courses. In all Special courses:

1. A record of each student's practical work throughout the year will be kept. 2. A record of each student's reading, as tested from time to time, will also

3. Practical, as well as written, examinations will be held wherever such

examinations are practicable.

4. Each student shall prepare a Thesis on some branch or department of the work in his special course. This Thesis must be based chiefly on original investigation and must be approved in order to pass. All Theses must be handed to committees of adjudication on or before the 1st March.

5. The Thesis and the whole record of daily work, reading, practical examinations, and written examinations, will be taken into account in determining

the standing of each student.

Laboratory work in the afternoons is required of all Third year students.

All Third year students are to provide themselves with forceps, slides, and

cover-glasses.

An Associate whose general standing would entitle him to take the Third year, but who has failed to reach the required percentage in English, may be admitted by passing a special examination on prescribed work in that subject.

CURRICULUM IN MUSIC.

Degree of Bachelor of Music.

The Degree of Bachelor of Music (Mus. Bac.) will be conferred by the University of Toronto upon students of Music, on compliance with the requirements of the curriculum in Music which may from time to time be prescribed by the Senate.

Matriculation.

The candidate for the Degree of Bachelor of Music must pass the following examination of the University for a certificate of proficiency in general education:—

I ENGLISH

ENGLISH GRAMMAR AND RHETORIC: The main facts in the development of the language. Etymology and Syntax, including the inflection, classification and elementary analysis of words, and the logical structure of the sentence. Rhetorical structure of the sentence and paragraph. As far as possible the questions shall be based on passages from authors not prescribed.

Composition: An essay to which special importance will be attached, on one of several themes set by the examiners. In order to pass in this subject, legible writing, correct spelling and punctuation, and proper construction of sentences are indispensable. The candidate should also give attention to the structure of the whole essay, the effective ordering of the thought, and the accurate employment of a good English vocabulary. About three pages of foolscap is suggested as the proper length for the essay; but quality, not quantity, will be mainly regarded.

LITERATURE: Such questions only shall be set as may serve to test the candidate's familiarity with, and intelligent and appreciative comprehension of, the prescribed texts. The candidate will be expected to have memorized some of the finest passages, and to have read carefully both prose and poetry outside of the specified work. In addition to questions on the following selections, others shall be set on a "sight passage" to test the candidate's ability to interpret literature for himself:—

1899

Scorr: Lady of the Lake.

Wordsworth (Arnold's Selections): Michael, To the Daisy ("Bright flower, whose home," etc.), To my Sister, Expostulation and Reply, The Tables Turned, "O Nightingale, thou surely art," At the Grave of Burns, Thoughts suggested the Day Following, The Solitary Reaper, The Primrose of

the Rock, Oo West," "It "I am not of can go," "N "I thought of weeping rain Natural Objesuggested by

Dr. Wordsworth.

1900

COLERIDGE: The Ancient Mariner, Youth and Age.

LONGFELLOW: Evangeline, A Psalm of Life, Wreck of the Hesperus, The Day is Done, The Old Clock on the Stairs, The Fire of Driftwood, Resignation, The Warden of the Cinque Ports, Excelsior, The Bridge, A Gleam of Sunshine.

WORDSWORTH (Palgrave's Golden Treasury of Songs and Lyrics) The Education of Nature ("Three years she grew"), "She was a Phantom of delight," A Lesson ("There is a flower the lesser Celandine"), To the Skylark, The Green Linnet, To the Cuckoo, To the Daisy, and the following Sonnets, To a Distant Friend ("Why art thou silent"), England and Switzerland ("Two voices are there"), "Milton, thou shouldst be living at this hour," Westminster Bridge, The Inner Vision ("Most sweet it is, with unuplifted eyes"), "O Friend! I know not which way I must look," To Sleep, Within King's College Chapel.

1901.

TENNYSON: The Epic, including Morte D'Arthur, The Day Dream, The Talking Oak, Locksley Hall, The Miller's Daughter, Tithonus, Ode on the Duke of Wellington, Ulysses, "You ask me why," "Of old sat Freedom," "Love thou thy land," Œnone, The Lotus Eaters, The Lady of Shalott, St. Agnes Eve, Sir Galahad, the six interlude songs in the Princess, and "Tears, idle tears."

The following selections from Palgrave's Golden Treasury

GRAY: Ode on Vicissitude, Elegy written in a Country Churchyard.

COWPER: Sonnet to Mary Unwin, To the Same, The Castaway, The Poplar
Field, The Shrubbery, Loss of the Royal George.

II. ARITHMETIC.

Simple rules, vulgar and decimal fractions, proportion and interest.

III. One of the following languages :-

1. GREEK

Translation into English of passages from either of the prescribed texts.

Translation at sight (with the aid of vocabularies) of easy Attic prose, to which special importance will be attached. Candidates will be expected to have supplemented the reading of the prescribed texts by additional practice in the translation of Greek.

ce with the time be pre-

y ("Bright Reply, The e of Burns, Primrose of Grammatical questions on the passages from prescribed texts shall be set, and such other questions as arise naturally from the context.

Translation from English into Greek of sentences, and of easy narrative passages based upon the prescribed prose texts.

The following are the prescribed texts :-

1899: Selections from Xenophon, Anabasis I, in White's Beginner's Greek Book (pp. 304-428) with the exercises thereon; Homer, Iliad VI.

1900 and 1901: Selections from Xenophon, Anabasis I, in White's Beginner's Greek Book (pp. 304-428) with the exercises thereon; Homer, Iliad I.

2. LATIN.

Translation into English of passages from prescribed texts.

Translation at sight (with the aid of vocabularies) of passages from some easy prose author, to which special importance will be attached. Candidates will be expected to have supplemented the reading of the prescribed texts by additional practice in the translation of Latin.

Grammatical questions on the passages from prescribed texts shall be set, and such other questions as arise naturally from the context.

Translation from English into Latin of sentences and of easy narrative passages upon the prescribed prose texts.

The following are the prescribed texts :-

1899 : Virgil, Æneid I; Cæsar, Bellum Gallicum V, VI.

1900 : VIRGIL, Æneid II ; CÆSAR, Bellum Gallicum V, VI.

1901 : VIRGIL, Æneid II ; CÆSAR, Bellum Gallicum II, III, IV.

N.B.—The Roman method of pronouncing Latin is recommended: \bar{a} as in far; \bar{a} the same sound but shorter; \bar{e} like a in fate; \bar{e} as in set; \bar{i} as in machine; \bar{i} as in fit; \bar{o} as in note; \bar{o} as in obey; \bar{u} as in rude; \bar{u} as in fit; \bar{o} as in note; \bar{o} as in obey; \bar{u} as in rude; \bar{u} as in fit; f (i.e., i consonant) like g in g in g in g always hard as in g as in g always as in g as in g as g in g in g in g in g as g in g in

3. FRENCH.

The candidate's knowledge of Grammar will be tested mainly by questions based upon prose extracts.

The examination in Emposition will consist of (a) translation into French of short English sentences as a test of the candidate's knowledge of grammatical forms and structure, (b) formation in French of sentences of similar character, and (c) translation of passages from English into French.

Translation at sight of modern French, to which special importance will be attached. Candidates will be expected to have supplemented the reading of the following texts by additional practice in the translation of French:—

1899 and 1901: DE MAISTRE, Voyage autour de ma chambre; LABICHE, la Grammaire.

1900 : ÉNAULT, le Chien du Capitaine ; FEUILLET, la Fée.

4. GERMAN.

The candidate's knowledge of Grammar will be tested mainly by questions based upon prose extracts.

The examination in Composition will consist of (a) translation into German of short English sentences as a test of the candidate's knowledge of grammatical forms and structure, (b) formation in German of sentences of similar character, and (c) translation of passages from English into German.

Translation at sight of modern German, to which special importance will be attached. Candidates will be expected to have supplemented the reading of the following texts by additional practice in the translation of German:—

1899 and 1901: LEANDER, Träumereien (selected by Van Daell).

1900: HAUFF, das kalte Herz, Kalif Storch.

5. ITALIAN.

Elementary Grammar (Grandgent's Grammar and the Italian Principla recommended); translation into Italian of short English sentences; and an examination on the following text:—

1899, 1900, and 1901: DE AMICIS, Cuore (I Racconti mensili).

In lieu of the above a certificate of having passed the Primary or any subsequent examination in a High School, or Matriculation in Arts in any University in Her Majesty's Dominions, including one of the languages: Greek, Latin, French, German, Italian will be accepted.

Candidates at the Junior Leaving or Junior Matriculation examination who fail to pass such examination, but who obtain the necessary percentage in the subjects required for Matriculation in Music may, on petition to the Senate, be granted Matriculation in Music.

Special applications for Matriculation may be dealt with by the Senate.

The Senate may in the case of musicians of established reputation who apply for standing in the Faculty of Music, dispense with the Matriculation examination.

Undergraduate Course.

In addition to Matriculation the candidate must have passed three examinations, theoretical and practical, before the degree of Bachelor of Music may be granted.

All candidates must prove ability as practical musicians:-

- (a) As actual performers upon the pianoforte, organ or some orchestral instrument.
- (b) As vocalists with satisfactory knowledge of pianoforte accompaniment.

First Year.

THEORY OF MUSIC:

- 1. Harmony in three and four parts.
- 2. Counterpoint in two and three parts.
- 3. Musical History up to 1750.

PRACTICAL MUSIC:

Candidates shall be required to play—on the piano or some orchestral instrument—or sing :—

- 1. Test exercises of a technical character.
- 2. Two compositions (or portions of them), selected by the examiner.

They shall also be required to play at the keyboard :--

- (a) A four-part harmony upon a given figured bass.
- (b) A simple chorale, or an accompaniment to a song, in a key other than, that in which the piece is written.

Second Year.

THEORY OF MUSIC:

- 1. Harmony in not more than five parts.
- 2. Strict Counterpoint (including the treatment of the various species in combination) in not more than four parts.
 - 3. Double Counterpoint.
 - 4. Fugue, and Canon, in not more than three parts.
 - 5. Elements of Acoustics.
 - 6. History of Music from 1750 to the present time.

PRACTICAL MUSIC:

Candidates shall be required to play—on the piano or some orchestral instrument—or sing:—

Two compositions (or portions of them), selected by the examiner.

- They shall also be required to play, at the keyboard, the following tests, etc.:-
 - 1. A figured bass, to be filled up, making a piece of four-part harmony.
 - 2. A melody, to be harmonized in four parts.
 - 3. To modulate from one key to another, as asked for by the examiner.
- 4. A piece of music, or an accompaniment to a song, to be transposed into a key named by the examiner.
 - 5. An extract of four-part vocal score.

Third Year.

THEORY OF MUSIC:

- 1. Harmony in not more than six parts, including some original work in four or five parts.
- 2. Strict, and free, Counterpoint in not more than five parts, with illustrations of imitative work.
 - 3. Canon, and Fugue with special reference to the Episode, in four parts.
- 4. A general review of the History of Music from the earliest period to the present time.
- 5. Musical forms, and analysis,
- 6. Instrumentation, and scoring for the various sections of a modern orchestra.
 - 7. Analysis of the full orchestral score of some classical work :-
 - 1899: MENDELSSOHN'S Elijah.
 - 1900 : SULLIVAN'S Golden Legend.

PRACTICAL MUSIC:

Candidates shall be required to play—on the piano or some orchestral instrument—or sing :—

Two or three compositions (or portions of them), selected by the examiner.

They shall also be required to play, at the key-board, the following tests, etc.:—

- 1. A melody to be harmonized in four parts.
- 2. A piece of music, or an accompaniment to a song, to be transposed into a key named by the examiner.
 - 3. From a piece of vocal score.
 - 4. To extemporize, in proper form, upon a given phrase.
 - 5. From an orchestral score, and reproduce, as to pitch, the portions asked for.
 - In addition to the prescribed course for the Final examination, an original composition, either sacred or secular, will be required, containing five-part harmony, imitative counterpoint and four-part fugue with orchestral accompaniment and sufficiently long to occupy fifteen minutes in performance. This composition must be sent to the Registrar not later than May 1st.

Candidates for the degree may defer presenting this composition until a subsequent annual examination, in which case the fee for examination shall be \$10.

A certificate of having passed the examinations of the First and Second years of the affiliated College of Music will be accepted pro tanto in lieu of the First year examination.

The examination for the diploma of the affiliated College of Music will be accepted pro tanto in lieu of the First and Second year examinations.

The Senate may admit ad eundem statum undergraduates of other Universities, after due inquiry as to the requirements demanded by the institutions in which the candidates obtained their standing.

Degree of Bachelor of Pedagogy.

The degree of Bachelor of Pedagogy (B. Pæd.) is granted under the following conditions and regulations :-

1. The candidate shall hold (1) a degree in Arts, not being an honorary degree, from a University in the British Dominions; and (2) a permanent first-class or High school assistant's certificate, granted by the Education Department of Ontario.

2. The candidate shall pass an examination in Psychology and Ethics, with their applications to Pedagogy; the Science of Education; the History and Criticism of Educational Systems; School Organization and Management; Methods in English, Mathematics, Latin, and one of the following: Greek, Natural Sciences (Biology, Physics, and Chemistry), and French with German. Candidates holding a High School specialist's certificate may substitute for the foregoing examination in Methods, an examination in Methods in one of the following departments: (1) Classics; (2) Mathematics; (3) English and History; (4) Moderns and History; (5) Science.

3. The examination shall be held in May at the University of Toronto, or in any other locality in the Province chosen by the candidate and approved by the Senate, and under a presiding examiner appointed by the Senate, provided the candidate or candidates thereat defray the cost of the local examination. The candidate shall send notice to the Registrar of the University, not later

than the first of April, of the locality he has selected.

4. The fee for the examination shall be twenty dollars; and, for the degree, ten dollars. Both fees shall be paid to the Registrar not later than the first day of April.

5. The following text-books are recommended :-

McLellan's Applied Psychology; Dr. W. T. Harris's The Psychological Foundations of Education; Dewey's Psychology; Titchener's Primer of Psychology; Halleck's Education of the Central Nervous System; Wundt's Outlines of Psychology; McLellan's Psychology of Number; Preyer's Mental Development of the Child; Tracy's Psychology of Childhood; Watson's Hedonistic Theories; Seth's A Study of Ethical Principles; Quick's Educational Reformers; Mahaffy's Old Greek Education; Spencer's Education; Fitch's Lectures on Teaching; Millar's School Management; Radestock's Habit in Education; Guyau's Education and Heredity; Fouillée's Education

Degree of Doctor of Pedagogy.

The degree of Doctor of Pedagogy (D. Pæd.) is granted under the following conditions and regulations:—

1. (1) The candidate shall hold a degree in Arts, not being an honorary degree, from a University in the British Dominions; and a permanent certificate as specialist, granted by the Education Department of Ontario, in one of the following departments: Classics, Mathematics, English, French and German, English and History, Moderns and History, Science, Natural Science; or, in the case of a University teacher, an honor degree.

(2) He shall also hold the degree of Bachelor of Pedagogy from this University, unless he has had at least seven years' experience in Ontario as teacher in

a University, or in a High School or Collegiate Institute.

(3) He shall submit certificates of successful experience satisfactory to the Committee on Examinations.

2. The candidate who holds the degree of B. Pæd. from this University may, not less than two years after having taken the degree of B. Pæd., proceed to the degree of D. Pæd.

3. (I) The candidate shall pass an examination in Psychology and Ethics, with their applications to Pedagogy; the Science of Education; and the

History and Criticism of Educational Systems.

(2) He shall also submit through the University Registrar, on or before the first day in May of the year in which he presents himself for examination, a thesis on some pedagogical topic, embodying the results of original investigation conducted by himself. After the examiners have reported in favour of his answer papers and his thesis, he shall, on the requisition of the Registrar, furnish him with one hundred printed copies of the thesis on or before the first day of June of the same year. The printed thesis shall contain the report of the examiners, which will be furnished to the candidate by the Registrar.

4. The examination shall be held at the same time and under the same conditions as the examination for the degree of Bachelor of Pedagogy. The fee for the examination shall be forty dollars; and, for the degree, ten dollars. Both fees shall be forwarded by the candidate to the Registrar of the University not later than the first day of April, with his application and his certificates

of successful experience.

HISTORICAL SKETCH.

The movement which ended in the establishment of the University of Toronto as the centre of the educational system of the Province of Ontario originated with General Simcoe, the First Governor of Upper Canada, who repeatedly expressed his conviction, both before his departure from England and also during his term of office (1792-1796), that the best interests alike of the Government and of the inhabitants demanded the establishment of a University in Upper Canada. It was not, however, during his administration that the project assumed a definite form.

In 1797 the Legislative Council and House of Assembly in a joint address to King George III. asked "that his Majesty would be graciously pleased to direct his Government in the Province to appropriate a certain portion of the waste lands of the Crown as a fund for the establishment and support of a respectable Grammar School, in each district thereof; and also a College or University for the instruction of youth in the different branches of liberal knowledge." To this address a favorable answer was transmitted, and the acting Lieutenant-Governor, the Hon. Peter Russell, was directed to determine the manner and character of the appropriation. In accordance with this request the Executive Council of Upper Canada reported on the 1st December, 1798, that an appropriation of 500,000 acres would be sufficient for the support and maintainance of four Grammar Schools and a University. For the foundation of the latter nothing was done until 1827, when a Royal Charter was granted for the establishment at or near York, as Toronto was then called, of a College "with the style and privilege of a University," to be called "King's College," having for its endowment that portion of the grant of "waste lands" originally provided for the University in the report above referred to. These lands were in 1828 exchanged for 225,944 acres of Crown Reserves.

Owing not only to the character of the endowment, which required time for its realization in a form yielding an annual revenue, but also owing to the terms of the charter, which required all the members of the Faculties to be adherents of one particular religious denomination, the opening of the College was delayed for fourteen years. In consequence of public representations on the sectarian character of the College, all religious tests were abolished by an amended charter which passed the two Houses of the Provincial Legislature and received the Royal Assent in 1837. In 1842 the affairs of the University had assumed such a condition as to render its organization possible, and Faculties of Arts, Medicine, Law, and Divinity were established. In that year the erection of the College Building was begun on the eastern portion of the site of the present Legislative Buildings. In 1843 the first matriculation of students took place, and inaugural addresses and lectures were delivered on the 8th and 9th June of that year.

The agitation which resulted in the amended charter of 1837 had continued after the opening of the College in 1842, owing to efforts made to defeat the purpose of the amendment, and in 1849 an Act of the Legislature effected important modifications in the constitution of King's College whereby all instruction in Divinity was discontinued, and a larger measure of public control of the affairs of the University instituted, through the formation of a Senate, of which a number of the members were appointed by the Crown. The name was now changed from that of the University of King's College to that of "The University of Toronto."

Three years afterwards the University underwent a further transformation, by which the Act of 1853 abolished the Faculties of Medicine and Law, and divided its functions between the two newly organized corporations of the "University of Toronto" and "University College." To the Senate were assigned the duties of framing the curriculum, holding examinations and admitting to degrees in Arts, Law and Medicine, while to the President and Professors of University College, as a distinct and independent corporation with special powers, were assigned the teaching in Arts and the entire discipline and control of students. The models followed in the reorganization of the Universities, it was claimed, were the University of London and University College, London, both of which had then been only recently established. For thirty-four years, the University of Toronto and University College performed the functions respectively assigned to them by this Act.

During the early years of the University it experienced repeated changes in its local habitation. The faculty and students of King's College were at first temporarily accommodated in the Parliament Buildings until the erection of the east wing of King's College admitted of the occupation of their own building. From this they were anew transferred to the old Parliament Buildings in 1853, when, by a special Act, the site of King's College was appropriated for the proposed new buildings for the use of the Parliament of Upper and Lower Canada. On the return of the Legislature to Toronto, in 1856, the Faculty resumed the occupation of the old King's College Building, while one formerly in use by the Medical Faculty, situated on the site of the present Biological Building, was being adapted for their occupation. There accordingly the work of the College was carried on, pending the erection of the new University buildings. These buildings were begun in 1856, and on October 4th, 1858, the top stone of the main tower was placed in position by Sir Edmund Head, the Governor-General, an old Oxford professor, the value of whose sympathy and support at this critical period in the history of the University cannot be overestimated.

For thirty-four years the constitution of the University of Toronto and of University College remained unchanged. Other collegiate bodies, principally denominational schools of theology, entered into affiliation with the University, and, with regard to their especial requirements, the course of study in Oriental Languages was augmented, but the Faculty of University College continued to the work of instruction for nearly all the students in Arts who presented themselves for examination. The candidates for examinations and degrees in

Medicine were trair in the Faculty of L by the Senate, witl

to and of incipally liversity, Oriental tinued to resented egrees in Medicine were trained in medical schools in affiliation with the University, and in the Faculty of Law the examinations were based upon text-books prescribed by the Senate, without teaching.

In 1887 both the University of Toronto and University College were remodelled by the University Federation Act. The main object of genewed legislation was to secure a more uniform standard of higher education by the union of the various denominational universities of Ontario with the Provincial University. Since the proclamation of the Act, Victoria University at Cobourg, representing the Methodist body, has entered into federation with the University of Toronto. The governing body of this institution is now represented on the Senate of the University of Toronto, its graduates elect representatives to the same body, and by the removal of the faculty and students of Victoria University to Toronto, where college buildings have been erected to the north of Queen's Park, the Union of the two universities has been effected. Under the Federation Act, the theological colleges also, formerly in affiliation with the University of Toronto, have become federated colleges, and enjoy increased representation on the Senate.

The Faculty of University College, by the Act of 1887, consists of professors and lecturers in Classical Languages and Literature (including lecturers in Ancient History), Oriental Languages, English, French, German, and Moral Philosophy. All other portions of the Arts course are assigned to the Faculty of the University of Toronto, of which the lectures are made equally available to the students of University College, and those of all federating universities and colleges. For the maintenance of certain of the departments of science on a scale demanded by modern methods of research, special provision has been made by the erection of new and the enlargement of old buildings. In the new Biological building every facility is now provided for practical training in Biology and Physiology. The new Chemical Building was completed in 1895, and affords similar facilities for practical work in Chemistry.

A Faculty of Medicine in the University of Toronto was established immediately upon the passing of the Act in 1887, and teaching is imparted in all branches of medical science. All the advantages of the Faculty of Arts are available for the students in Medicine, and the laboratories of the scientific departments are utilized equally by students in both faculties.

In 1888 a stimulus was given to the study of scientific methods of farming by the affiliation of the Ontario Agricultural College, and the adoption of a curriculum of study for the degree of Bachelor of the Science of Agriculture. Similarly an examination for the degree of Doctor of Dental Surgery was instituted, as a consequence of the affiliation of the Royal College of Dental Surgeons of Ontario. The College of Pharmacy was subsequently admitted to affiliation, and with the extension of the same privileges to the Toronto College of Music, a curriculum of study was prepared for the degree of Bachelor of Music. The School of Practical Science was affiliated in 1889, and graduates of the School are specially eligible on certain conditions for the degrees of Bachelor of Applied Science and of various degrees in Engineering in the University. By a recent enactment of the Senate a curriculum was

prescribed leading to the degree of Bachelor and Doctor of Pedagogy. In 1897; the Ontario Veterinary College was affiliated, and a curriculum in Veterinary Science is under consideration.

On February 14th, 1890, the main University building was partly destroyed by fire. In the reconstruction thereby rendered necessary, opportunity was afforded for important improvements in lighting, heating, and ventilation. Considerable extension was effected in the numbers, capacity and equipment of the lecture-rooms and laboratories. A new library building was erected on plans embracing the most recent improvements suggested by the experience of leading Universities in the United States and elsewhere. A building for the accommodation of the Gymnasium was erected in 1892, and additions to it were completed in 1894 for the accommodation of student societies.

Museum.

The following donations were received by the Biological Museum since June, 1897:—

A collection of fifty specimens of Marine Invertebrates from the Zoological Station, Naples, presented by the Director, Dr. Anton Dohrn, Four Japanese-Pheasants from Heber S. Hamilton, B.A., '85, Gifu, Japan.

Portraits and Works of Art.

The following portraits and works of art have been presented to the University:—

- 1. A portrait of the late Hon. William Hume Blake (oil painting by T. Hamel), presented by the Hon. Edward Blake.
- 2. A portrait of the Hon. Edward Blake, Chancellor of the University (oil painting by E. Wyly Grier), presented by graduates and friends.
- 3. A portrait of Prof. E. J. Chapman (oil painting by Miss Frances Sutherland), presented by the artist.
- 4. A portrait of the late Professor Henry Holmes Croft (oil painting by A. Dickson Patterson), presented by friends of Professor Croft.
- 5. A portrait of the late President Dr. McCaul (oil painting by A. Dickson Patterson), presented by the artist.
- 6. A portrait of the late Vice-Chancellor Moss (oil painting by Miss C. S. Berthon, copy of oil painting by M. Berthon), presented by Charles Moss, Esq.
- 7. A portrait of the late Right Reverend Bishop Strachan (oil painting copy), presented by the Council of University College.
- 8. A portrait of the late President Sir Daniel Wilson (oil painting by A. Dickson Patterson), presented by friends of Sir Daniel Wilson.
- 9. A marble bust of the late Professor George Paxton Young (by Hamilton McCarthy), presented by friends of Professor Young.
- 10. A portrait of the late Professor George Paxton Young (oil painting by W. Allaire Shortt), presented by the artist.
- 11. The "Call to Duty" (oil painting by Paul Giovanni Wickson), presented to the Medical Faculty by the artist.
- 12. The "Marriage of the Duke of York" and "The King of Denmark's. First Visit," commemorative medals, presented by the Town Clerk of London, England.

13. Bronze medal commemorative of the sesquicentennial anniversary of the founding of the College of New Jersey (Princeton University), presented by the Trustees of Princeton University.

14. Bronze medal commemorative of the 150th anniversary of the capture of Louisbourg in 1745, presented by the Louisbourg Memorial Committee of the General Society of Colonial Wars.

University Studies

The following Studies were published between June, 1897, and May, 1898, the first year of the existence of the publication:—

History, 1st Series.—Review of Historical Publications relating to Canada, Vol. II.: Publications of the year 1897, edited by Professor George M. Wrong, assisted by H. H. Langton, B.A. (pp. X., 238).*

History, 2nd Series, No. 1.—Louisbourg in 1745, the anonymous "Lettred'un Habitant de Louisbourg," edited and translated by Professor George M. Wrong (pp. 74).

Economic Series (under the editorship of Professor Mavor), No. 1.—Public Debts in Canada, by J. Roy Perry, B.A. (pp. 88).

Biological Series (under the editorship of Professor Ramsay Wright), No. 1.—The Gametophyte of Botrychium Virginianum, by E. C. Jeffrey, B.A. (pp. 32).

Psychological Series (under the editorship of Dr. Kirschmann), No. 1.— Spatial Threshold of Colours and its Dependence on Contrast Phenomena, by W. B. Lane, M.A., with appendices on Abnormal Colour Sense, by J. W. Baird, B.A., R. J. Richardson, B.A., and A. Kirschmann, Ph.D. (pp. 100).

* Volume I. of this Review was issued before the publication of the Studies was finally provided for under the management of the Faculties.

Local Lectures.

To meet the demand for popular lectures on literary and scientific subjects, a committee of the Councils has been annually appointed for several years back to arrange for the delivery of such lectures by members of the Faculty at various centres throughout the Province, and also in Toronto. In order to extend the benefits of the lectures as widely as possible the services of the lecturers are placed at the disposal of any literary or scientific organization desiring them, as far as is consistent with the academic engagements of the lecturers, and no charge has hitherto been imposed other than travelling expenses. During the passent academic year 90 lectures have been delivered at 36 local centres. The following programme of lectures was prepared and circulated early in the session:—

PROFESSOR W. J. ALEX
(1) Robert Browni

UNIVERSITY EXTENSION.

The following statute, relating to University extension work, was passed by the Senate in April, 1894:—

1. A standing committee of seven members of Senate shall be appointed annually for the purpose of carrying on "University Extension" work of a kind similar to that carried on under the same designation in connection with the Universities of Cambridge and Oxford.

2. The Committee shall have authority to appoint a secretary, define his duties, and fix his renumeration.

3. No part of the expense incurred for teaching and examining done at "local centres" of instruction, or for secretarial work done under the authority of the Committee, or for any other purpose connected with University extension, shall be a charge on the ordinary revenue of the University.

4. It shall be the duty of the Committee, subject to ratification by the Senate, to appoint teachers and examiners for approved or prescribed courses of study at local centres, and to grant certificates to such students as may have passed the final examination in each course, and complied with other conditions prescribed from time to time by the Committee.

5. It shall be the duty of the secretary to keep a register, in which shall be entered the name and address of each student who obtains a certificate, with a description of the course of study in which he has passed, and such other particulars as the Committee may from time to time order to be inserted.

UNIVERSITY COLLEGE RESIDENCE.

General Regulations.

- 1. Resident students are under the immediate charge of the Dean.
- 2. Only matriculated students in Arts registered in University College, and members of the University or College Arts staff, are admitted as residents.
- Each student upon entering is required to sign his name in the Dean's book to a declaration that he will conform to the statutes and regulations relative to resident students.
- 4. All interference with the personal liberty of any student by arresting him, or summoning him before any tribunal of students, or otherwise subjecting him to any indignity or personal violence, or by disturbing him in the possession of his room, is forbidden by the Council.
- 5. All use of beer, wine or spirits in the students' rooms is strictly forbidden.
- 6. Resident students shall regularly attend morning and evening prayers, unless exempted from so doing in consequence of the objection of their parents or quardians.
- 7. A register shall be kept of the attendance of the residents at prayers, and also of the hours of passing the gate.
- 8. No stranger shall be admitted after the closing of the gate, nor remain in the building after 12 o'clock at night.

9. No student will be allowed to continue in Residence who is reported to the Council to be persistently neglecting his work.

10. The Dean is authorized to impose fines for infraction of regulations, and for insubordination or disorderly conduct.

11. The authority to dismiss from Residence is vested in the College Council.

Rules.

1. The first morning bell shall be rung at 7.30 A.M.; second morning bell and prayers at 8.10 A.M.; breakfast from 8.15 to 9 A.M.; lunch at 1 P.M.; evening bell and prayers at 6.30 P.M.; dinner from 6.40 to 7.15 P.M.; gate closed at 10.40 P.M.

2. No student shall remain out after 12 o'clock at night, except by permission of the Dean.

3. Students may invite their friends to any meal, having informed the Steward, to whom they shall pay the charge fixed for such meal.

4. The officers of the College and non-resident students may purchase from the Steward tickets for meals.

5. The fee payable by resident students for board and rent of room varies from three and three-quarters to four dollars and a half per week.

6. All fees of resident students are to be paid monthly in advance.

7. Resident students shall regularly attend their respective places of worship on Sunday.

Circular of Dean of Residence.

University College ...

As your son (or ward) proposes coming into Residence in this College, I beg to inform you that it is the desire of the Council that, where there are no conscientious objections, all the students under their charge should be present in the hall at daily morning and evening prayers, with reading of Scriptures. It is also their wish that they should regularly attend on Sundays their respective places of worship, and receive such other religious instruction as their parents or guardians may desire. I have to request that you will be so good as to let me know whether you desire your son (or ward) to attend such daily prayers in the College, and that you will also mention the Minister under whose charge you wish to place him.

The Council will afford every facility for the carrying out of your intentions, and with this view will exercise such control over your son (or ward) during his residence, as may be best calculated to effect your wishes. In the event of your not informing me of your desire on the subject, the Council will assume that you have no objection to his being required to attend the daily prayers of the College, and will exercise an oversight as to his attendance on the ministrations of a clergyman of the denomination to which he belongs.

The Gymnasium.

The Gymnasium, including gymnasium proper, locker rooms, oaths, and the bowling alley, is open daily from 8.30 a.m. to 6 p.m. to all Members. Instruction will be given to classes by Sergeant Williams at the following hours:—

Gymnasium Class. 4.30-6 p.m. Mondays, Wednesdays and Fridays.

Fencing Class. . 4-6 p.m. Tuesdays and Thursdays.

Fencing Class . . . 4-6 p.m. Tuesdays and Thursdays.

General Work. . . . Saturdays and when special work is not required.

Instruction may also be had in boxing, quarter-staff, bayones, only-swinging, dumb-bells and other exercises. During the hours that Class work is going on all Members other than those in the Class will be excluded from the floor. All Members wishing information as to further regulations are requested to apply to the Instructor, Sergeant Williams, or to some of the Members of the Executive.
