MEETING OF TOWN COUNCIL

Couns. Wallace and Chamberlain Believed of All Responsible Matters

Meeting of the Town Council was held Tuesday evening. The Worshipful Mayor presided. There were present: Couns. Wallace, Duncan, Chamberlain, St. George, Patterson and Bellefleur.

The reading of the minutes of four previous meetings took up the time for the first half of the evening but they were all ratified. Coun. Wallace, objecting to this course, especially in reference to the meeting of Aug. 1st, at which meeting he and Coun. Chamberlain were illegally forced to vacate their seats. There were several interesting reports from Coun. Wallace and Coun. Bellefleur.

The W. H. Miller Co., Ltd., made application for 30 or 40 H. P. electric power for their mill, they to pay one of five cents per kilowatt. This matter was referred to the Electric Light Committee with power to act.

M. P. Dixon, Clerk of the N. B. Executive Council, wrote that he had \$10,000 of the Government money available for "Campbellton." Letter acknowledged and placed on file.

Mr. Dickson, Poor Commissioner, reported that he had placed a proper charge to board of \$4.00 per week, and also recommended payment of \$4.00 per week for Mrs. Smith so that she could be out of town.

Referred to Public Charities Committee for report.

Geo. Hickey wrote a letter asking for a grant of \$100.00 for the purpose of erecting a new building. Referred to Assessment and Appeals Committee.

Wrote to the following effect: "He could give no assurance that work would be done."

Coun. Bellefleur said that if the street to the town they should be made to do as at once. They had been given Victoria Street in exchange for this.

Coun. Patterson moved that the letter of Mr. Hickey be referred to the Town Council and that the Council be instructed to take up the matter of this exchange of Victoria Street, which was the original Kings Highway and that he demand a 66-foot street from Ross Street to Water Street, and also look into the matter of compensation for the Railway authorities to do work on the street.

Referred to the Public Property and Streets Committee recommended that the Council be given leave of remainder of town lot upon which his house stands at the rate of \$8.00 per year.

Referred to Assessment and Appeals Committee.

Mayor MacKay wrote recommending that the moving of the balance due on moving of town lot be referred to the Police.

The usual Departmental accounts were passed.

Coun. Bennett, who was taken ill, over three years would make it easy for the town to be excused.

Coun. Wallace moved that Mr. James Fitzgerald, who was present, be heard, as a little grievance he had in reference to the police. Carried.

Mr. Fitzgerald said that he had been ordered by the police on duty at the Open House Saturday night to park his car parallel with the street, close up to the car shed. He had refused to do so and challenged the correctness of the order.

Coun. Bellefleur said that there was a man who appeared to have backed up the other policeman, so he had done to him.

Coun. Patterson said that he had a common courtesy to the other policeman, but that he had not been ordered to do so.

Coun. Patterson moved in amendment that the matter be left over until the next meeting.

Amendment lost. The matter was referred to the Police.

Coun. Chamberlain was excused and the meeting adjourned.

JOSEPH ROY OF CHARLO SHOT

Was At Edge of Lake When Fired At By Unseen Hunter

Another fatality has been added to the long list due to careless hunters. On Sunday last Mr. Joseph Roy of Charlottetown was shot while at the edge of a lake near Charlottetown.

So far few details are known. It is reported that Mr. Roy and a Mr. Hamilton were hunting moose. They were near a lake and in the middle of the day. Mr. Roy was shot while he was looking for a better view of the lake. He was shot in the chest and died shortly after.

Who fired the shot is not known. The body has been brought out to the lake and an inquest will be held.

The Graphic would like to express its sympathy to the family of the deceased. It is hoped that the inquest will bring to light the cause of the tragedy.

Greetings From Canada's New Governor General

The editor of the Graphic has received the following telegram from Lord Byng which clearly shows his Lordship's interest in our memorial to our soldier boys.

Ottawa, Ont., 451, Sept. 22-21.

H. B. ANSLAW, Editor Graphic, Campbellton, N. B.

Please accept message of greeting and hopes for a most successful fair, from Lady Byng and myself.

BYNG OF VIMY.

These words of greeting from the King's representative will be greatly appreciated by not only the ladies who have undertaken the work of the fair, but by all others who are interested in the erection of this splendid memorial to our heroes of whom General Byng (beloved by soldiers as "Byng of Vimy") and his gracious wife Lady Byng, evidently are one.

With a "dash and a bang" the 3rd Annual Fair of Campbellton opened up yesterday morning at 10 o'clock.

Everybody but that our reporter was not so flowery, altho' it was vivid. Wonder who told her?

Next comes the Ice Cream and Soft Drink Parlour, cosy arm chairs; "tote-a-tote" little tables, Gray's unbeatable ice cream and a charmingly restful spot to enjoy yourself and somebody else in. Mrs. John Collier is in charge.

Then comes the Cigar, Soft Drinks etc., Booth in charge of Mrs. H. S. Alexander. We said cigars—and they are cigars, not political campaign or circus ones in which real tobacco can

be found. The Public Property and Streets Committee recommended that the Council be given leave of remainder of town lot upon which his house stands at the rate of \$8.00 per year.

YOUNG INDIAN BADLY WOUNDED

Was Hunting When Gun Accidentally Discharged—In How Works Hospital Here.

Young Bill Basque of Indian Mission met with a severe accident Saturday. He was hunting partridge back at the mission lake and in climbing up a steep bank he fell backwards and his gun fell with him shot for partridge exploded. The charge struck him in the abdomen, tearing a nasty gash upwards to his breast. Fortunately the wound was not deep and he will likely recover. He was brought to the Hotel Dieu Hospital for treatment Saturday night.

PRELIMINARY HYDRO SURVEY

Miss Rock and Upsalquitch Were Visited By Engineers.

Last week H. W. Mahon, B. S., Assistant Engineer of the Dominion Water Power Board, with Town Engineer J. R. Beebe and an extensive survey of proposed Hydro developments for the Upsalquitch and obtained much valuable information which Engineer Mahon will incorporate in his report to the New Brunswick Highway Commission.

The first place visited was Morrissey Rock, which after careful inspection was pronounced not feasible for development.

The next visit was made to Little Falls on the Upsalquitch.

While the site had power possibilities it was not thought advisable to recommend development here because of various reasons, among which was the flooding of the I. N. R. and the highway.

The party visited Great Falls, about five miles above the Upsalquitch river.

It was found that this site was very favorable. A thirty-five foot head could be procured with a dam only three hundred feet long at the top.

Bowling brook was also looked over for possible storage sites and a very practicable site found which would give extensive storage.

Just as soon as Mr. Mahon can procure data of water flow of the Upsalquitch, which is on file, at Halifax, he will report.

While it is true that 1500 H. P. could be developed at this site, it is hoped in time will be lost in getting this report so that he matter can be taken up seriously.

Next comes the exhibit of potted plants, flowers and cutflowers, an Elysium for sight and perfume. The arbor is in charge of Mrs. D. McBeath and is a delightful feature of the 1921 Fair success.

In the centre of the rear part of the rink stands three stately automobiles. A new McLaughlin-Buick The Master 4 for which Mr. E. Sullivan is local agent. A new Oldsmobile, for which Mr. E. A. LeGallais is local agent and one of the Lounsbury Coys. Ltd. Special Studebaker. How any mere mortal can make up his mind which is the best is a mystery. They all have their good and special features and it occurs to our reporter that he might get a "trial" ride three of "em" before more is written about them.

Brother Sullivan says his car will for old and young alike are Mrs. Robert Rossborough, Mrs. Jasper Davidson, Mrs. Thos. Matheson, Mrs. Frank Matheson, Mrs. Donald McLean, Mrs. Phillips, Mrs. H. Armstrong, Mrs. D. Lunam. These ladies have fast you can only see the scenery when certainly prepared a joyous time for your coming back. Truth is mighty, and must prevail. Suit yourself. It's who are enjoying it to the limit.

The end of the huge skating rink, seen when you own an auto and ride in it sight. Great piles of pumpkins, in it while the inferiors use—shanks mare.

The Produce Booths are all under the convenship of Mrs. D. McLaughlin, Mrs. Jas. Sargent, Mrs. Jas. Duncan, Mrs. John Fairley, Mrs. Peter Lee and New Brunswick, the whole display is simply amazing, superb. These donations were actuated by no hopes of prizes, their good hearts recognized the need of another up-to-date hospital in Campbellton and they have nobly responded in its aid by their contributions.

The Committee of the Ladies' Aid Society took much of their time visiting the surrounding farmers for many miles and their good work is proven by the raw materials from which the "FEC" brand of pure foods are made.

More than 1000 of these numbers of packages, glass containers, bottles etc.

BOY FALLS INTO

FIRE AND DIES.

Chatham, Sept. 26.—There has been a large number of gypsies camped near town for the past few days. On Saturday they moved across the river and yesterday one little fellow about four years old fell into a fire and was badly burned. Medical aid was summoned but the chap passed away early this morning.

Lift off Corns!

Don't hurt a bit and Painless corns only a few cents.

With your finger! You can lift off any hard corn, callus, or even ingrown toe, and the hard skin disappears from bottom of foot.

A tiny bottle of "Painless" costs little as any drug store, apply a few drops upon the corn or callus. Instantly it begins to burn, then shortly you feel the burning corn or callus right off, and with all this relief you lift off pain or corn. Ready! No harm!

THE BEST PROMISE.

The speech of Sir Lomer Gouin at the Liberal demonstration in Quebec on Thursday evening will be accepted by the business interests of Canada as a convincing guarantee that in the framing of a new tariff the Liberal party can be relied on to safeguard the industrial interests. The speech will be accepted by every Canadian who knows anything at all of Sir Lomer's administration of Quebec affairs as a guarantee that Liberal rule in Canada will inaugurate those economies which present-day conditions make imperative. The best promise the election has produced is the assurance that Sir Lomer Gouin is taking an active interest in the outcome.—Globe.

The Montreal Gazette does not consider the time propitious for experiments in tariff making. And yet it is considerably more than a year since Sir Thomas White declared tariff revision long overdue; many months ago since the present Premier began talking the necessity of tariff revision. Sir Thomas White retired from office without attempting the task, and Hon. Arthur Meighen proposes to dissolve parliament without taking a single step toward providing the trade relief which he and his party confesses the country demands.

EDEN AND THE SERPENT.

(R. O. Everhart in New York American Issue).

She came, broken and threadbare, and unburdened her heart in the office of the Anti-Saloon League.

Her husband had been a drinking man long before Prohibition came. When sober he was an enjoyable gentleman. When drunk he was a fiend. She was not a woman ignorant of literature, for she spoke of him in his two divergent conditions as being "a Dr. Jekyll and Mr. Hyde." Before Prohibition came "Mr. Hyde" had become so brutally dominate in him by reason of drink that she could no longer live with him. She climbed out of the worst of the hell of it and saved some of her shattered life by going apart. He drank on till he was a starving bum.

Then came Prohibition. Then came also the saloonkeeper at whose place he had squandered his means, his body and his soul. The saloonkeeper told her where the starving wretch was and the condition he was in. In a flood of pity she went to him. She took him to her home. She cleaned him up, nourished him, fought with the devil for his redemption to manhood once more. He answered to her love and toil. She got him a job. He made good. He was promoted. They finally achieved a ninety dollar a month flat and life was wonderfully renewed for them.

What did the saloonkeeper do about it? He did what calloused, devilized liquor sellers always do—he smelled money and went after it with satanic guile. He gradually readjusted his slimy coils about the man. Once held fast the old blood-sucking process was renewed at a terrible pace. As best the woman could she fought the saloonkeeper every inch of the way while he spit upon the Constitution, defied the law, made a business of anarchy and crushed her, redeemed husband back into worse nothingness.

Again the victim of drink—drink sold while and because public officials refused to do their duty—the man became a criminal. He stole blank checks from his wife's check book, forged her name on them, and the first endorser of each of those checks was the saloonkeeper. Eight hundred dol-

lars—all she had saved in her years of lonely self-support—the serpentine saloonkeeper got. He got three hundred dollars belonging to the firm for which her husband worked. He got the man himself—made him a fugitive and her savings like bread and butter.

And now worse-than-widowed twice, heart and nerves wrecked till she is incapable of exertion, weighed down with a crushing burden of woe, disgraced and robbed of her last penny, she is left alone to try to fulfill her obligations to her two children as best she can.

And the saloonkeeper who got her to take her husband back and clean him up and make him a producer and a man again is the black scoundrel who, in defiance of law, ate up her life and her savings like bread and broke her heart utterly.

We found a hundred years to get that sort of thing outside the pale of

the law. It is outside. (Thank God no saloonkeeper can now point to a permit given him by law, heading him to drug and ruin men in that way.) It was outside the pale of law when this tragedy was enacted. The powers of government, local and otherwise, which the law commanded should be used against drink-vending villians was palsied as respects that saloonkeeper, and the poor, heroic soul of the woman got riddled and shredded while the officers of law dithered.

How long shall such things be. Where has this tale hit YOU? Only in the feelings? Doesn't it make your fingers ache to act? Act, then!

Nothing but steady, increasing mobilization of public opinion against official connivance at such tragedies in lawless centers will ever stop them. That means the holding of Prohibition, and fighting through to its enforcement everywhere. This involves added education, and organization—not less, but greater activity, and the Anti-Saloon League is the sole hope and source of adequate effort of that kind.

Then help untie the League's hands, bound by financial limitations from doing what cries to be done, both to meet with stiffened resistance the attempts at congressional nullification of the Eighteenth Amendment, and to reach, teach and direct in battle the people who can and will ultimately end official inaction where it exists.

Wherever you are, you may hit squarely at this saloonkeeper and all his kind. You can help pay for work which will stir and enlist irresistible sentiment for the enforcement of the pidoYkr semorapiaooy helzhewkup law and against officials who fail. There is no other cure. That is a cure and money, as used by the Anti-Saloon League, goes to the doing of that job.

THE POPE FOR PROHIBITION.
A newspaper item, dated at Rome September 14, carries the news that the Vatican will enter the world prohibition battle. Prof. Angelini, who represented the Holy See at the Sixteenth International Non-alcoholic Congress at Lausanne, was received in audience by Pope Benedict.

The pontiff announced "the Vatican would do its utmost to fight alcoholism."

This is the most significant, far-reaching and important announcement for Prohibition that has occurred in late years.

Tens of thousands of Catholic altars all around the globe are thundering against alcoholism will surely awaken a sodden, drunken world and give Gomerius a jolt from which he will never recover. The dawn of a dry world was never brighter than it is today.

WENT AROUND WORLD

HISTORIC TRIP IN 10TH CENTURY TOOK THREE YEARS.
Leaky Little Tub Under Captain Del Cano Was, Sole Survivor of the Magellan's Expedition—Unlabeled Harlequin and Baugers in Uncharted Oceans—Set Sail In August, 1519. Arrived Home In September, 1521.

JUAN SEBASTIAN DEL CANO, a Basque sailor, was the first man to be able to lay claim to the honor of having circumnavigated the globe.

Del Cano went to Seville, seeking employment, in 1518, and in the same year Fernando Magellan, an experienced Portuguese mariner, arrived in Spain with an offer to the Emperor, Charles V., to discover a westward route to the East Indies. That project was accepted, and a squadron of five vessels, the Trinidad, San Antonio, Victoria, Concepcion, and Santiago, the largest being only 150 tons, and the smallest of 40 tons was equipped. Del Cano being appointed master of the Concepcion. The fleet left Seville on August 10, 1519. The vessels kept to the coast of Africa, and soon encountered bad weather. "The body of St. Elmo appeared to us several times," says the journal, in describing the bad weather. "One night when it was very dark, the saint appeared in the form of a fire, lighted on the main truck, which comforted us greatly, for we were in tears, only expecting the hour of perishing. When that light once descended upon a vessel she is never lost."

The fleet anchored in Port St. Julian, on the Patagonian coast, on March 31, 1520.

In the following May the smallest vessel, the Santiago, was driven on shore by a gale while exploring the coast to the southward, the crew being saved, reaching Port St. Julian by land after great hardships.

The whole fleet then sailed, and on October 21 a cape was discovered and named Cape of the Eleven Thousand Virgins, this proving to be the entrance to the Straits which bear the name of Magellan. The fleet entered the straits on October 28, with provisions for three months, and in November the San Antonio was sent to explore what appeared to be another channel. As soon as the other vessels were off sight the San Antonio, under the command of the Portuguese captain, and set sail for home, leaving Magellan with only three vessels.

On November 27 the three ships emerged from the straits and entered the Pacific Ocean, the great South Sea, which they traversed in only eight years before, and for 93 days no land was seen. On March 6 the fleet sighted the Ladrones Islands, and in April reached Zebu, one of the Philippines, Magellan becoming friendly with the king of this island to whom he commended all neighboring islands to pay tribute. This demand was refused by the Chief of Matan, and Magellan, attacking him with a force of 60 men, was defeated and killed.

Following the death of Magellan, two of his Portuguese lieutenants, Barbosa and Serrano, became joint commanders, but through treachery on the part of the King of Zebu, they and 28 men were slaughtered by the natives. It was found that there were not men enough left to man three ships, and the Concepcion was burnt, the Trinidad and Victoria making their way to Bornen in July. In August Gomez de Espinosa became the new commander of the Trinidad, Sebastian del Cano being made captain of the Victoria. In November the two ships reached Tidore, one of the Moluccas, and so accomplished the first object of the journey. Then the Trinidad set sail and was captured by the Portuguese.

Thus Del Cano was left with his leaky vessel of 80 tons, a crew of 47 Europeans and 13 natives to complete the voyage. They were ill supplied with provisions, as they had no means of sailing or preserving meat or fish, and their perils were increased by the hostility of the Portuguese, whose ships alone navigated those seas. Sailing from Tidore in December 21, 1521, the Victoria eventually reached Timor, and there obtained fresh provisions, finally setting sail for the Cape on February 11.

The island, since called Amsterdam, was discovered on March 18. Then followed nine weeks of great hardships in the sea to the east of the Cape of Good Hope. On May 13 they doubled the Cape. The sailors were gradually becoming weaker, and deaths were of frequent occurrence, but Del Cano inspired them with hope on July 1, when they came in sight of Santiago, the largest of the Cape Verde Islands. With desperate courage they anchored in the Portuguese port, and the Portuguese, thinking they were returning from America, they were able to obtain some provisions.

After 28 days of incessant work at the pumps, Cape St. Vincent was sighted, the Victoria arriving at San Lucar, the port of Seville, on September 6. She had set sail from the same port almost three years before, had traversed, according to the ship's reckoning, over 42,000 miles, and arrived with only 18 of the crew on board. Del Cano was rewarded with a pension of 500 ducats a year for life, and a coat of arms, with a globe for crest, and the motto, "Tu Primus Circumdedit me."

Blenheim Palace, —Blenheim Palace, the residence of the Duke of Marlborough, is one of the finest in England. There are 120 rooms in the palace, and fifteen staircases. It is said that \$4,000 worth of gilt is required every year to keep the window panes in repair.

Redprocty. —The minister was loud in his praise of the fat and juicy bird his colored host served for dinner, and finally he asked, "Where did you get such a fine goose as that?"

"Pahson," replied his host "when you preach a good sermon ah doan ax you whar you got it. Ah hopes you'll have de same consideration for me."

BOY SCOUTS IN FRANCE.

(By Sir Robert Baden-Powell Bt., in the Scout.)

I have been over to France to see your Brother Scouts there, in the devastated regions, that is the parts where their homes had been wrecked by the war.

The Americans have been awfully generous in giving funds for the past two years to run Scouts' camps for these poor French boys. These I visited, but it was not till I saw a bathing parade of these lads that I saw how much they needed the camping.

They were so thin and poorly developed through the bad feeding and bad houses they had had during the war, and many of them were a dazed, tired look that showed how much they had suffered. I was very glad to see that the good feeding, the open air life, and the jolly games that they were getting as Scouts, is setting them up again and making them once more healthy and cheery.

The S. O. S. fund which your Scouts have raised among you has done a tremendous lot of good; you did a real "Good Turn" to your Brother Scouts abroad when you collected that money.

I visited two large camps for these boys at different parts of the devastated districts; and also one for Boy Scouts and Wolf Cubs from Paris. This one was a very different affair, because here the boys looked big and fat and cheery.

You should have heard the Wolf Cubs sing Mr. Arthur Poyser's song "The Road to Maresfield!"

Generally it is the town boys who look thin and pale and the country lads who look bronzed and burly; but here it was just the opposite. The Paris boys had not undergone the terrible hardships that their brothers of the war-swept districts had done, and were altogether livelier and happier, and looked exactly like any of you Scouts.

Indeed I saw two Troops of British Scouts visiting France and upon my word I could not tell whether they were French or British until I heard them speak and looked more closely into their badges.

I was glad to find such a lot of British Scouts have been over the sea to visit Brother Scouts in different parts of Europe this year. I believe that there are over a thousand over there this month.

Well, it is a jolly good thing in two ways—it gives you fellows a new experience in seeing a foreign country and how the people there live, and it teaches foreign Scouts how to do trekking and hiking as we do it—and best of all, it makes you all friends together and that when you all grow up to be the men of your respective countries you will be good pals and will not want to go to war and fly at each other's throats as used to be the way in the past.

IMPERIAL Polarine MOTOR OILS

Quality maintains economy. No matter how much you pay "per gallon" for other lubricating oils you get more lubrication "per dollar" when you buy Imperial Polarine Motor Oils.

Maintains Economy

IMPERIAL Polarine Motor Oils save many thousands of dollars every year for Canadian motorists because of reduced operating expenses.

Imperial Polarine Motor Oils cut down repair and maintenance costs, reduce fuel bills and insure you for all time against excessive depreciation and repair expenses. Imperial Polarine quality maintains economy all along the line.

Judged by quality—gauged by actual miles of perfect lubrication each gallon will give, and by real motoring satisfaction, Imperial Polarine is the least expensive motor lubricant that you can obtain. The more carefully you check up costs, the more thoroughly convinced you will be of the advantages of using Imperial Polarine Motor Oils exclusively.

Standardize on the correct grade of Imperial Polarine Motor Oils. Consult our Chart of Recommendations at your dealer's or write to 50 Church Street, Toronto, for our interesting booklet, "Automotive Lubrication."

YOUR CUP OF TEA

Your cup of Tea means much to you. It is more than an item in the daily fare. It is the one thing that "rounds off"—or spoils—an enjoyable repast.

Tea is fortunately so cheap in this country that there are few who cannot afford Choice Tea. The cost per pound is only slightly higher than ordinary Tea, while the increased pleasure you get from every cup you make is worth many times the difference. It is true also, that a FLAVOR-FULL Tea like KING COLE Orange Pekoe will actually spend further—that is, make more cups to the pound. KING COLE Orange Pekoe is prepared particularly for lovers of Choice Tea.

FAIR BRIEFS.

The Ogilvie Milling Coy. through their local agent Charles Goss presented the Ladies' Aid Committee with a barrel of their Royal Household flour.

The "Red Rose" Tea Packers donated all the tea used and to be used at the Fair also the paper table napkins.

Mr. R. L. Hicks of the Maple Leaf Farm at Dalhousie Junction donated a bountiful supply of general farm produce. His sanitary equipment is well worth seeing. It shows just how pure milk is handled so that it stays pure. He will begin a milk delivery route in Campbellton about 1st Oct. Write or phone.

Grays' Ice Cream only, is served at the Fair.

Mrs. Sharpe's orchestra rendered some very superior music, both classic and popular melody. They are a credit to Campbellton.

Little sister was watching little brother eat piece after piece of cake, at the Fair. She said to mama—Isn't it funny how much bigger he is inside then he looks from the outside.

Several motor parties arrived from Newcastle, Bathurst, Petit Rocher and other points for the Fair, and the occupant visitors proved to be good spenders.

Every hotel in Campbellton is working overtime to accommodate the crowds almost hourly arriving for the Fair.

Retail merchants are busy here this week.

We ought to have a regular Exhibition yearly in Campbellton and a regular Exhibition building and grounds. There is none held nearer than in Chatham and the city of Quebec. Surely we could draw a week's crowd.

CAMPBELLTON SHOE SHINE PARLOR.

DUNPHY-HOGAN.

A wedding of widespread interest took place in the Church of Our Lady of the Snows Wednesday morning at eight o'clock, when Rev. Father Street united in the holy bonds of matrimony Ethel, only daughter of Mr. and Mrs. John Hogan of Campbellton and Richard Dunphy, son of Mr. and Mrs. Thomas Dunphy, Woodstock, N. B. The double ring service was used.

The bride, who was given away by her father was very charmingly gowned in ivory chambrasse satin, with bridal veil of tulle over net, hands of pearls forming cap effect, and carried a beautiful shower bouquet of maiden hair fern; also a magnificent pearl rosary, the gift of the Bishop of Charlottetown.

Miss Dunn of Blackville acted as bridesmaid, and was beautifully gowned in pale pink duchess satin with large picture hat, and wore a corsage bouquet of pink carnations.

Three charming little Misses, Rose-mand and Eleanor Howard and Mary Harquail were the flower girls, and added a touch of sweet daintiness to the event. They carried baskets of orange blossoms and sweet peas.

Mr. C. J. Dunphy, brother of the groom acted as best man while Messrs. J. MacDonald and Adjutor Bonner officiated as ushers.

Mrs. John Hogan, mother of the bride, was dressed in black satin, and wore American beauty roses.

The marriage service was immediately followed by a nuptial High Mass, Father Street celebrating.

The Mass was sung by a choir of young ladies and gentlemen and was most beautifully rendered, under the capable direction of Mrs. Rene Laviole and Mrs. Wm. Boulay.

After the ceremony the immediate friends repaired to the home of the bride where a dainty breakfast was served. The house was artistically decorated with cut flowers.

The happy couple left on the Ocean Limited for a trip to the St. John Valley, Maine, and the Annapolis Valley, thence to New Glasgow where they will reside.

The bride's travelling costume was of brown with mole skin trimmings and hat to correspond. The very many gifts in silverware, cut glass, china and money, testified to the popularity of the young couple.

HON. CHAS. MARCIL AGAIN CHOSEN

Will Be Liberal Candidate in
Bonaventure Co.—Large
Gathering.

A very representative convention of the Liberals of the County of Bonaventure was held on Saturday, the 24th inst., in the Parish Hall, New Carlisle, P. Q.

On motion F. X. Chapados, Esq., Vice President of the Liberals Association was called to the chair.

The ladies were invited to seats on the platform.

Moved by Mr. F. Bujold, M.P.P. for Bonaventure County and seconded by Mr. Chapados, that Hon. Charles Marcil be chosen to represent the Liberals and unanimously carried. Cries of "He's all right," "He is the man we want," were heard from the audience.

Replying to the choice Mr. Marcil thanked the delegates most heartily for having been chosen for the sixth time to represent them in Federal politics. He gave a touching review of those who had passed away during the twenty-one years he had been their member. Scarcely a house had been lost since.

There is his own unparalleled way Mr. Marcil addressed the convention. He spoke first in English, eloquently and forcibly to a most interested and appreciative audience.

He touched on the fact that the majority of the County of Bonaventure is Liberal, and who wish to be represented by such.

Then followed a review of the political history from the Union Government of 1917 and showed that the present government is forced to the country because of lack of majority.

He paid a most sincere and true tribute to the memory of the late Sir Wilfrid Laurier, who without a peer had served in parliament for forty-four years and leader of the country for fifteen years. Being struck down he left behind him an unblemished name and an example to the young men of Canada. He is gone but his policy remains.

Hon. William Lyon Mackenzie had been chosen because he represented the English-speaking people in Canada, in appreciation of the treatment accorded to Sir Wilfrid Laurier for fifteen years.

Then Mr. Marcil asked what has become of the Canada of 1911.

During the Liberal administration the country had developed as though touched by the hand of a wizard. There had been a surplus of fourteen million dollars.

He continued by pointing out the astounding indebtedness of the country, 250,000 men without employment and dissatisfaction and discontent on every side.

The Farmers' Party had been formed because there had been no improvement in the tariff. To-day, Canadians were formed into groups and only a remnant remained of the old Conservative party.

Our Canadian dollar today is only worth 82c. in the United States, while an American dollar is worth here \$1.15. The reason being that for one dollar's worth which we sell to the States, we buy six. To-day the United States market is closed against the fish and products of Canada.

Reciprocity was rejected because the monopolists of Canada opposed it. He asked his audience to put their hands in their pockets and see if they were galled with ten years of folly and declared we are going into insol-

It is time for a Change.

Why are no potatoes sold? Why is the pulp and lumber unsold? Where were the ships?

The West voted for reciprocity with the United States. They want markets and means of transportation.

Then he turned to the subject of the railways beginning with the Gaspe

railway, the government would not do anything to help it, and last year the C. N. Railways lost \$70,000,000 in their operations.

The probabilities are one hundred million dollars will be this year's loss. He named the great number of lines and declared that the C. P. R. gives the best railway service.

Mr. Marcil spoke of the entrance into political arena of women. By the new election act to be a voter whether man or woman, the requirements are:

That the person be 21 years of age; that the person be a British subject; that the person has lived one year in Canada and two months in the constituency where the vote is cast. Mr. Marcil said women had entered into their share of the responsibility, and he was prepared to stand by their verdict. Naturally women would vote for clean government. They know their children have been handicapped, having to go away for opportunities for work.

Again he thanked the convention for his candidature and reminded them that for four years he had been Speaker for the House of Commons. During the last four years nothing had been given to Bonaventure County.

Mr. Marcil then addressed the convention in French in equally eloquent and forcible language.

Hon. John Hall Kelly was the next speaker on the programme and began his address by suggesting that the women make a study of the principles of the Liberal party, and teach their brothers. He prophesied that prosperity would then come back to the country.

Mr. Kelly paid a fitting tribute to the Hon. Mr. Marcil, saying that the Liberals of this county should be proud to have a man like Mr. Marcil to lead them and further defend anyone to say that he had been guilty of a single dishonest act during the 21 years he had been their representative.

In a touching incident he showed that Mr. Marcil's heart was as tender and kind as his brain was clear and keen.

He reminded the hearers that Mr. Marcil had been first appointed Deputy Speaker and then Speaker of the House; the highest honour that could be conferred. Further when Sir Lomer Gouin, the Premier of Quebec chose a commission to administer the affairs of the City of Montreal, of the four men chosen, Hon. Mr. Marcil was one, and annually \$25,000,000 had been honestly administered. Our country had stood by the principles of liberalism and should the county decide that they be the leaders in the future, it would be asking too much to request that Mr. Marcil be a Crown Minister for the Province of Quebec.

Mr. Kelly then spoke on the double heavy tax imposed on the salmon fisherman and trusted that the tax would be removed. Why are times hard in the County of Bonaventure? Because there is nothing to do; our forests are not developed, examples of the lumber men in Nouvelle and Bonaventure where the wood is taken to New Brunswick. He considered it unfair that the raw material should be manufactured outside.

Regarding issue of lumber Bonaventure County cannot compete with the Ottawa district, but because transportation is dear a preference should be given to the man who manufactures in this county. He pointed out that the Gaspe railway needs repairs and the company has not the necessary money. The county was paying taxes and should receive help from the Government so that the train service would be helped. He did not approve of the branch road being taken over by the Government, but helped to give good service.

He congratulated Mr. Bujold on the road which had been built between Causapical and Matapedia and suggested that he try to meet the Minister of Public Works and endeavor to keep the tourist road in the Counties of Gaspe and Bonaventure.

Mr. Kelly paid a touching tribute to the work done by our soldiers and the misery and poverty endured in many homes because the bread winner was injured and not enough had been done for those disabled ones. He gave a graphic description of a dug-out and said that to realize what our boys had endured it was necessary to go over to the battlefields as he had done recently. Our first duty was to see justice done to these soldiers.

Then he reminded his hearers that it was necessary to re-organize our Liberal Association for the County.

Mr. Thomas Clapperton of Maria declared himself like a good soldier, always ready to answer his leader's call. He most heartily endorsed the remarks of the previous speaker. Mr. Clapperton was well received and listened to with great attention.

One of the ladies present being asked to speak responded briefly, concluding with the wish that "Hon. Mr. Marcil may long be spared to look after our interests, as he has never failed to do on every opportunity."

SUFFERING OF YOUNG WOMEN

This Letter Tells How It May
be Overcome—All Mothers
Interested.

Toronto, Ont.—"I have suffered since I was a school girl with pain in my left side and with cramps, growing worse each year until I was all run down. I was so bad at times that I was unfit for work. I tried several doctors and patent medicines, but was only relieved for a short time. Some of the doctors wanted to perform an operation, but my father objected. Finally I learned through my mother of Lydia E. Pinkham's Vegetable Compound, and how thankful I am that I tried it. I am relieved from pain and cramps, and feel as if I have saved my life. You may use my letter to help other women as I am glad to recommend the medicine."—Mrs. H. A. Goodwin, 14 Rockvale Ave., Toronto.

Those who are troubled as Mrs. Goodwin was should immediately seek restoration to health by taking Lydia E. Pinkham's Vegetable Compound. Those who need special advice may write to Lydia E. Pinkham Medicine Co. (confidential), Lynn, Mass. These letters will be opened, read and answered by a woman and held in strict confidence.

followed Mr. Kelly.

His address was in French and was received with attention and applause. He reminded them what he had been able to do for the county. Mr. Bujold is a fluent and convincing speaker.

Cheap Living in Germany

After adding an article by
Max Lief in the New York
Tribune we have arrived at
the conclusion that if the
Allies are determined upon winning
the war they ought to move to Ger-
many. There they will receive the
fruits of victory. They will be able
to get a fine meal for fifty cents,
and for twelve dollars a year in
Hamburg they will be able to have
the same sort of accommodation that
they will get in Canada and the
United States for twelve dollars a
week. A six-room bungalow with
bath is to be had there for twelve
dollars a year. It has been decreed
by the authorities and authorities in
Germany are quite as authoritative
as ever they were. It is true that it
may be difficult to find the six-room
bungalow with bath. When found
it may be tenanted, and builders, ter-
ritory for the building of six-room
bungalows and bath with
any great volition. Nevertheless,
it is a great pleasure to live in
Germany if one does not have to
pay the exorbitant German taxes, and
if he is able to take real money with
him.

Mr. Lief explains that whereas
school children were taught that
German mark was worth twenty-five
cents, so highly did the Germans
esteem it, now it is possible to buy
down an American dollar and re-
ceive from 67 to 71 marks for it.
The Canadian dollar being some-
what less valuable internationally,
though highly sought in Canada, we
may figure that a German mark is
worth about two of our cents. For
sixty or eighty cents one may have
a dinner consisting of fish salad,
potato soup, cutlets, fried potatoes,
apples and a large stein of fine
beer. If you don't feel like eating
you can still have the beer, which to
many would seem an advantage.

The disappointed waiter is said to
expect a ten-cent tip, but we pre-
sume that by this time he has ceased
to be an optimist, and after the meal
is ready to call the incident closed
if the guest doesn't place him on the
shins. Nevertheless, he lives on his
tips.

Milk remains a luxury in Germany.
Coffee is not drunk as it was for-
merly because of the milk scarcity.
Sugar is almost as it was in the good
old days of the big game, but Mr.
Lief voices his astonishment at the
fact that pigs and chickens with huge
quantities of sugar and candy are
sold. He has read the newspaper
explanations of Canadian candy mak-
ers to the effect that all the candy
manufactured in a year accounts for
merely a decimal point of sugar.

Mr. Lief says that he was frequently
mistaken for an Englishman as a Span-
ard or a Hungarian, but never for
an American. If once we saw his
name and should have read
Sherlock Holmes for nothing if we
had confused him with any of these
others. There is a third body of
German police system, and as sug-
gests that by means of it Germany is
trying to evade some of the condi-
tions of the Peace of Versailles. Ger-
many's army was cut down. It could
hardly quell a beer garden riot. Ger-
many's police, however, is a tremen-
dous force, so far as numbers go.
The regular police have been re-
placed by a great uniformed body,
composed chiefly of young and sturdy
soldiers. There is a third body of
plainclothesmen, practically all of
them trained soldiers. Their salary
is \$10 a month with board thrown
in, and whatever washing may occur
on duty. They work only every sec-
ond day, and usually have some
other line of business which they
depend upon to make a living wage.
One gather from Mr. Lief that their
favorite avocation is selling police
bats. He tells us that the detective
is practically extinct. It seems that
in the most desperate days of the
war it was a choice between the Ger-
mans and the daschunde. With their
characteristic blundering the Ger-
mans chose themselves.

We quote his concluding sen-
tences:

"My habitual question, everywhere
I went, was: 'Was denken Sie von
den Kaiser?' Without any prelimi-
nary introduction I fired this
question like a bolt from the blue
sky at a middle-aged ticket-taker
in a Berlin railroad station. He was
not surprised at my boldness and
answered placidly:

"We are well off as we are," he
said. "Nobody is starving, and soon
every one will have work. The mili-
tary regime has gone, and we are
glad. The Kaiser is better off where
he is, and we are better off where
we are."

The next four people I approached,
a policeman, letter carrier, proprie-
tor of a Fruhstuck-Stube, and ship
worker, expressed similar views. But
the coachman who took us around
Berlin shook his head. He wanted
the Kaiser back. He missed the old
pomp and splendor and Hohenzol-
lern ostentatiousness.

A graduate of the University of
Berlin, disappointed with his position
as clerk with the Hamburg-
American Line, was frankly disgust-
ed with the Ebert Government.

"The people have too much liberty
these days," he said.

"It May Suffice.

"Patience! Now I wish you'd give
me something to help my memory."
Doctor—"All right. I'll send you
in a bill every month."

If you want work well done, select
a fine man, the other and has no
time.

Write—John, the doctor says I need
a little change.

Hub—Ask him to give it to you.
He's got the last of mine.

Those Aggravating Optimists.

"The pessimist was suffering from
rheumatism. 'Every bone in my body
aches,' he complained. 'You ought
to be glad you are not a herring,' said
the optimist."

"How old are you?" asked the judge
of a woman witness.

"Thirty," she replied.

"Thirty!" exclaimed the judge.

"I've heard you give that same age in
this court for three years."

"Yes," returned the witness, "I am
not one of those persons who say one
thing today and another thing to-
morrow."

NOTICE!

"The Mollycoddle" not to be shown at Opera House.

In last week's Special Edition a Douglas Fairbanks production "The

Mollycoddle" was advertised for presentation at the Opera House this Friday and Saturday.

However owing to a misunderstanding regarding dates the picture is not available just now and later notice will be given when definite booking has been arranged.

In place of "The Mollycoddle" the management have secured a splendid select picture "Seeds of Vengeance" at the Opera House on Friday night and Saturday will be shown at the Imperial Theatre (the Opera House having been engaged for three days, starting Saturday by local guarantee, in the interests of Chautauqua.)

"Seeds of Vengeance" is a mighty fine picture. It is taken from the novel "The Sowing of Alderson-Cree" by Margaret Prescott Montague, an author who has gained fame for the popular success of her writings. Bernard Durning, the original "Bearcat" of the screen is starred in this production and is ably supported by a selected cast of accomplished players.

There is also another chapter of the Ruth of the Rockies' serial story and a comedy reel to round out a fine program. Remember this is Friday's bill at the Opera House and on Saturday will be transferred to the Imperial Theatre.

The Newington of Boston, Mrs. C. Smith

Campbellton's Big Fair Now in Full Swing.

(Continued from page 1.)

Now during the afternoon of Wednesday the crowds began to gather and in the evening the big fair was packed full right up to closing hours, the largest attendance yet had upon the first day of the previous year's fair. This year the Campbells wisely and widely advertised the Fair and its drawing results prove that it pays to advertise.

Mrs. W. Sharpe's orchestra rendered a very choice program during the evening. The President of the Ladies' Aid, Mrs. John C. Ferguson and her many able assistants are one and all to be congratulated and admired for their faithful, careful, consistent work and good judgment.

The remaining two days of the Fair will doubtless draw even greater crowds and success beyond expectation is now assured.

Red Rose Tea was served at the 4.30 of Bathurst and W. Gould of Dalhousie.

The funeral was held on Saturday, Rev. P. H. McLean, pastor of St. John's Presbyterian Church conducting the services at the house and grave.

PURCHASED! Mr. George Kerr has purchased the Fenwick Mill property at Bathurst and will operate it.

CONCERT. The St. Andrews' ladies and mixed quartette held a most enjoyable concert in Chatham, Thursday, Sept. 22nd, at which \$54.50 was netted for the Hospital Aid. The organization was a very enterprising one, this being the second of the series of concerts they are presenting, the proceeds in every case for the Soldiers' Memorial Hospital.

Monday evening while the owner was in the Opera House some person threw a large stone through the windshield of an auto parked there. It is too bad the police could not discover the offender and make an example of him.
