TURKISH BLACK SALVE.

MORNING EDITION WEDNESDAY, NOVEMBER 27, 1850.

THIS SALVE, prepared from the original Receipt, precured from a celebrated. Turkish Hakim, (physician) of Smyrna, in Asis Minor, and which has obtained an unprecedented celebrity in Great Britain and the East Indies, from the astonishing Cures performed by it in both these countries, has fatsly been introduced into Monercal. As might be expected, its popularity has followed it, and its use is becoming general among all clauses. The contracted limits of an advertisement necessarily precludes entering into any adequate detail of its merits, but, for the information of the public, it is intended to publish, from time to time, such statements of cures as have or may occur. It has been used for the following complaints with the most completes success:—Sorbias Swellings, Whitlows, Scalda from Stamboat explosions, or other causes, Berns, Fever Sores, Scrofulous Sores, Sore Nipples, Carbuncles, Scald Head, Gun-shot Wounds, Bruises, Boils, Frostbites, Wens, Chibbiains, Uscernted and Common Sore Throats, and Bonions. If used in time, it will prevent or cure Cancers, also, Swelling arising from a blow on the Breast, Ring Worm, Pains in the Back, Rhemingtom, Gout, Pains in the Chest, Palpitation of the Heart, Complaints in the Liver, Spine, Heart and Hip, Rushing of Blood to the Head, Swelled Face and Toofhache. In fact, it is impossible to enumerate half the complaints that have been cared by the application of this Salve. Sold in Montreal by S. J. LYMAN & Co, Place

I not only promoted, to the utmost of my power, the claims of the Roman Cutholics to all civil rights, bur I thought it right and even desirable, that the ecclesiastical system of the Roman Catholics should be the means of giving instruction to the numerous Irah immigrants in Lo-don and elsewhere, who without such help would have been left in heathen ignorance.

This might have been done, however, without any such innovation as that which we have now seen.

any such impossion as that which we have now seen.

It is impossible to confound the recent measures of the Pope with the division of Scotland into discussions of the Pope with the division of Scotland into discussion of the argangement of districts in Eugland by the Wesleyan conference.

There is an assumption of power in all the documents which have come from Rome—a precession to supremacy over the realm of England, and a claim to sole and undivided sway, which is inconsistent with the Queen's supremacy, with the rights of our bishops and elergy, with the spiritual independence of the mition, as asserted even in Roman Catholic times.

I confess, however, that my alarm is not equal to my indigination:

Even if it shall appear that the ministers and servants of the Pope in this country, have not

of consess, nowever, which alarms me much more than any aggression of a loreign.

The servants of the Pope in this country have not transgressed the law, I feel persuaded that we are strong enough to repel any outward attacks. The liberty of Protestantism has been enjoyed too long in England to allow of any st coessell attempts to impose a foreign prince or potenta e will be permitted to fasten his fetters upon a nation which has so long and so nobly vindicated its right to freedom of opinion, civil, political and religious.

Upon this subject, then, I will only say that the present state of the law shall be carefully examined, and the propriety of adopting any proceedings with reference to the recent assumptions of power deliberately canadiered.

There is a danger, however, which alarms me much more than any aggression of a loreign Sovereign.

Clergymen of our own Church, who have substitible the Thirty-nine Articles, and acknowledged in explicit terms the Queen's supremacy, have been the most forward in leading their flocks, "step by step, to the very verge of the precipice." The honor paid to saints, the claim of inialibility for the Church, the superstitions, use of the sign of the cross, the multering of the Liturgy so as to disguise the language its which its written, the recommendation of superstitions, use of the sign of the cross, the multering of the Liturgy so as to disguise the language its which its written, the recommendation of superstitions of the Superstitions of the Superstitions of the Superstition, and are now openly reprehended by the Sishop of Loudon in his charge to the clergy of his diocese.

his diocese.

What, then, is the danger to be apprehended

What, then, is the danger to be apprehended from a foreign prince of no great power; compared to the danger within the gates from the unworthy sons of the Church of England herself?

I have little hope that the propounders and framers of these innovations will desist from their insidious course. But I rely with confidence on the people of England; and a will not bate a jot of heart or hope so long as the glorious principles and the immortal martyrs of the Reformation shall be held in reverence by the great mass of a nation which looks with contempt on the mummeries of which looks with contempt on the mammeries of superstitions and with scorn at the laberious en-dearpurs which are now making to confine the in-

We are enabled to state that the recent Papel aggressions in England have not only created great alarm in the minds of many of the aristocracy, but that a number of titled persons, who have been in the habit of attending the principal Puscyite Churches at the West-end, have determined to absent themselves from these places in struct. It has struck the parties to whom we refer, that, apart from all other considerations, it would henceforth be disrepartful, if not disloys te their Soveriers, to give the sanction of their presence to shut our form the lower uders of the people; and, and the lower uders of the people and the people and the people and the lower uders of the property and the property and the property and the public on certain days. Circular in form, and destitute of the wonted Abvasilian pillar in the centre, the mastive and lofty clay walls of the chamber glittered with a profusion of silver ornaments, emblasomed shields, matchlocks, and double barrelled gans. Persian expets and rogs of all sizes, colors, and patterns, covered the floor, and crow ho of Alckas, Governors, Chieft, and principal Officers of the Court, arrayed in their holiday attire, stood around in a posture of respect, uncovered to the girdle. Two wide alcoves receited on either site; in one of which blazed a cheerful wood fire, engroused by indolonic cats, whilst in the other, on a flowered actin in the other, on a flowered actin in the country of the cremonies, stood with a rod of green rushes to preserve the exact distance of approach to hivality; and, as the British guests entered the half and made their bows to the Throne, incitoned them to be scatted upon chairs which had previously been sent in; which done, it was commanded that all might be covered. On the part of the lessees, \$2,400 the was demanded for the certificate of character, and that was demanded for the certificate of character, and the impending hostilities between Austria and Prussia. The pretensions of Prussia are much diminished; Radowitz and the war party in the Cabinet have resigned, and, altogether, the aspect of affairs is far less threatening than it was a week and Hawkins—and that the latter pretended to have the authority of the College for carrying out this piece of extortion.

sel and his detested Ordinances upon the people. The Hessians received the troops quietly, but tore down everywhere the Commissary's proclamations. As soon as the news of the entry of these troops reached General Groeben, the Prussian troops were ordered to march into the electorate, and, in fact, the 18th Regiment of Infantry, with a Squadron of Hussars and a battery of Attillery, have entered the Town of Cassel. It is evident that whatever arrangements may have been made at Warsaw, the previous orders issued at Frankfort thave not been countermanded. We are told that Prussia has so far been compelled to recede from her position as to admit the validity of the decrees of Frankfort; but I do not accept for truth all the contradictory reports given of the humiliating terms imposed on Prussia. The E-mperor Nicholas has, of course, sided with Austria, and Prussia can only retrieve her position by putting herself in the right. Out of the conferences at Warsaw have sprung a more marked disposition on the part of Prussia not to commit herself further in the Schleswig-Holstein quarrel. Accordingly a truce, has been suggested to the Stadtholderate; but I doubt exceedingly, whether, if that body agrees to the terms laid down, Denmark will accede to them. In spite of all the declarations put forth, that the German differences have been composed at Warsaw, there is not the slightest diminution of activity in the marchings of troops. For the moment, Austria seems delighted with the issue of the Warsaw Conference; whether Prussia will be contented ignominously to recede from her proud declarations, is now to be ascertained. As I have before or served, the regignation of M. Vankand the leader of the war party, would appear to point to such a result. here. It is called a flying debenture. a permanent existence. It will be remembered, that the proposal to establish this Institution appeared in the early part of this year, and that abortly afterwards a sum of money was cheerfully contributed for its support. This was, however, a limited one, for it was not thought prudent to contributed for its support. This wes, however, a limited one, for it was not thought prudent to take up more than was sufficient for present jurposes, as it remained to be seen whether the finitiation was entitled to a temporary or permanent existence. The experience of six months has proved that the arguments which went to shew that it was wented, and that it would be sought after by the goor and labouring classes. Now as the reporte demonstrate, that it has wrought mich substantial good, and that there is now an imperative necessity for it by its growing popularity, it becomes a duty to strive to confirm and extend its usefulness, and with this object it has been determined to adopt the plan of obtaining a number of Annual Subscribers, sufficient to defray its yearly expenses. About this, it is expected there will be no difficulty from the well-known charity and liberality of our citizens, as already evinced in its cause, and because its expenses so far from being great, are so little that there is no charity swhich can do the same amount of good in as economical a manner. The gentlemen of the Committee present formed themselves into parties, of which each is to take up a particular, district, and personally call upon its residents, to solicit their contribution towards the general cause. REDUCED RATES OF PREMIUM—HALE CREDIT RATES OF PREMIUM.

THE great and decided success which has attended this institution, has induced the Directors to REDUCE the RATES originally required in British Morth America, to the ordinary European Rates. The result of such Reduction is to enable parties to avail themselves of the important benefits to "Life Assurance" at much lover Rates of Premisus than thoused any other Assurance Company t ansacting business in Canada.

The Directors have also resolved to extend to British North America the advantages afforded by the HALF CREDIT RATES of FREMIUM which have been so highly inproved, and are so generally adopted by Policy Holders in the United Kingdom. The most liberal conditions are likewise offered to the Assured in the limits to which they may proceed by sea or land, to other parts of North America without affecting their interest in their respective Policies.

RADWAY'S READY RELIEF.

Taken Internally and applied Externally.

Its first action, when freely applied, is so bust the acute sensibilities of the nerves, and almost instantly religives the pain; its secondary action is to excite perspiration, and redden the parts over which it is applied almost to a giow, thereby determining the blood from the minoral parts to the surface. In these case, the READY RELIEF should be applied feely, at the same time rubbing the parts with a piece of finance, and it will be found in every case to give immediate and permanent relief.

PLANTAGENET WATER.

Among the objects of attraction at the late Industrial Fair, the celebrated Plantagenet Water held a conspicuous position, and its exhibition was attended, we learn, with the most favorable results. The demand at the Depot for this health-inspiring draught was so urgent that it was with great difficulty strangers and visitors to the city could be supplied. The celebrity of these Mineral Springs has been so theroughly and satisfactorily established that testimony of the uncert valuable character seems daily accumulating. The highly respectable certificates given in our paper of to-day will, if possible, increase their reputation, and add to their value throughout the Province. The testimony of the medical gentlemen is certainly highly favorable to the character and quality of thems Springs—Drs. Nelson and Gibb placing them above all other Mineral waters on this Continent:—

"I believe I was one of the first Practicipers of this city who recommended the use of the Plantagenet Spring—Water, and since that time I have prescribed it to a very large number of my patients with invariable advantage.

"Two members of any famility, of feelble and delicate onstitutions, have derived marked banefit from the use of the Water. One had nearly lost all power in the right farm, the result of a severe and protrasted attack of Rheamatsm; the other was excessively debilitated from demantagement of the discestive and alumentary organs.

"In heartburn, morning sickness, and the other complaints to which wappen are subject, under certain circumstances, it acts most agreeably and effectually, but in these derangements, as and so as where these is ever-action of the Kitchey's and bowells, it should be taken in smaller quantities at a time, but morning sickness, and the other complaints to which wappen are subject, under certain circumstances, it acts most agreeably and effectually, but in these derangements, as and so many of the Mineral Waters as a great bon conferred by Provideice or impation, "Phy, & Sur., Canada PLANTAGENET WATER.

"Certainly, too much has not been said in their favor for they are, probably, the most valuable Waters on the Continuity

ontinent.

The value of this water has been generally acknowledged in this communication of those who may freely use it. The value of this water has been generally acknowledged in this communication and my own experience of its excellent againties.

HALSEY'S FOREST WINE!

Putronized by the Nobility and Medical Faculty
of England, and esteemed the most extraordinary Medicine of the Age.

EDICINES containing Molasses or Liquorice, like the beasted Sarsaparillas, require many large bottles to produce the slightest change in health. The Forest Wine is altogether a different article. It contains no Syrups to give it consistency, but acquires the excellent flavor and powerful medicinal qualities from the vegetable plants of which it is composed. The Forest Wine cumbines the virtues of the
WILD CHERRY, DANDELION, YELLOW I.O. Ke, and NARSAPARSLLA.
With other valuable Plants whose properties are still more powerful.

With other valuable Flams whose properties at still more powerful.

Its high concentration renders it one of the most efficient Medicines new in use. Less than a single bottle restores the lingering Patient from weakness, de bility, and sickness, to strong and vigorous health. Every dose shows its good clifects on the constitution, and improves the state of the health. The Forst Wise is recommended, in the strongest terms, for all complaints of the

While in this deadful studition, your Porest Wine and Pills were procured for me, and box of Pills, I experienced great relief; my body and limbs, which were greatly awollen, became sensibly reduced. Hoper of my recovery began new to revive, and after continuing the use of your medicines for about a meeth, the Piles and Asthma were completely cared. The Drophy, with which my life was placed in such great danger, was also hearly gone. I have continued the use of your Medicines until the present time; and I now enjoy as perfect health as ever I did in my life, although I am more than sixty years of ege. I ascribe my recovery entirely to the use of your excellent Medicines until the present success in looking complaints, and I can chee fully recompleted the many continued the complaints and I can chee fully recomors have also used them with similar success in
