NO 24

## WEDNESDAY

# HALF HOLIDAY

It has been mutually agreed by the undersigned, the Merchants of Newcastle, to close their stores, Wednesday afternoons, beginning July 10th, and continuing until September 25th, at one o'clock p. m. The Public are kindly asked to co-operate in every way to make this Half Holiday Closing a Success. This can be done by Remembering every Tuesday that the following Wednesday is a Half Holiday, and to shop as early as possible on Wednesday mornings, and thus enable the merchants to render a better service.

#### Annual Meeting Women's Institute

#### Officers Elected and Child Welfare Discussed

The annual meeting of the Newcastle Women's Institute was held on Tuesday evening of this week at the home of Mrs. T. H. Whalen.

Reports of the various committees were read and adopted. The treasurer reported \$353.45 raised for the year.

Over 200 pairs of socks were knitted for our soldiers in the trenches.

The following officers were elected for the ensuing year:—

Pres.—Mrs. A. J. Ferguson.  
Vice-Pres.—Mrs. R. W. Crocker.  
Sec.—Mrs. J. S. Stables.  
Assist. Sec.—Mrs. T. H. Whalen.  
Directors—Mrs. Haywood, Mrs. Barry and Mrs. Jarvis.  
Work Com.—Mrs. McCormack, Mrs. Petrie, Miss Reid.  
Program Com.—Mrs. Leary, Mrs. Stothart, Mrs. John Russell, Miss Harley.

Finance Com.—Miss Russell, Mrs. Gough, Mrs. Maltby.  
Visiting Com.—Mrs. McCormack, Mrs. Whalen, Mrs. McCullum, Mrs. Astles.

On motion of Mrs. Stothart seconded by Mrs. Whalen a resolution of sympathy to Mrs. Morrissy and Miss Hennessy was passed.

Mrs. R. W. Crocker as convener of Com. appointed to interview the Town Council read a letter from the Town Clerk advising the Institute that the Day Policeman would enforce the Truancy Law; that the law regarding children attending moving pictures unattended by parents or guardians would be enforced by the night policeman, and that this officer was also instructed to do all in his power to see that children under fourteen years are off the street after nine o'clock.

The meeting appreciates the consideration given to their requests but hopes that upon further consideration the Council may decide to have the curfew rung.

The enforcement of these three laws would be most beneficial to our town and community and should interest every parent and right thinking citizen.

The Women's Institute is a non-sectarian, non-political organization for betterment of home and country. The Newcastle branch is devoting its energies along the lines of child welfare and soldier's comforts and gladly welcome all women interested in work of this nature. The meetings are open to the public.

#### Germans Forty Miles From Paris

The Germans began their third great drive of this spring, on Sunday last. While the attack of March 21st was on a 50 mile front, and that of May 27th on a 25 mile front, the last is on a front of only 20 miles. They advanced, at the widest point, nine miles in three days, but were driven back three miles by a French Counter attack. The enemy under Ludendorff is drawing dangerously near to Compiègne, forty miles from Paris while the withdrawal of Foch to the South of Ribecourt has formed an awkward salient south of Noyon. The 3 day of the battle for Compiègne, found the situation an extremely anxious one. The enemy was paying a big price, and the French defenders were fighting with great stubbornness and bravery, but the enemy were advancing steadily if not rapidly.

Evidence that Germany, in its efforts to end the war this summer, is planning to support its land offensive by sending its high sea forces against the combined British and American grand fleet, is given in a despatch from Switzerland on Tuesday.

The Allies are at present outnumbered on the western front, but during May 250,000 American troops were landed in France, where there are now 750,000 Americans.

The Russian Ambassador at Paris appeals to the Allies to send an army to Russia to forestall Germany.

### Had Piles For Ten Years

And Tried Nearly Everything Except a Surgical Operation Without Obtaining Relief - Tells How Complete Cure Was Effected.

There are reported here three cures of chronic cases of piles. In all three cases many treatments were tried before it was discovered that Dr. Chase's Ointment is about the only real cure for this distressing ailment.

### ANOTHER SUCCESSFUL C. S. E. T. CONCERT

Interesting Address by a Swedish Canadian On "Canada As I See It"

A very excellent concert was given in the Newcastle Kirk Hall on Thursday evening, June 6th instant, by the C. S. E. T. boys of the Presbyterian church assisted by a large number of friends.

- 1. Chorus—Soldiers of the King—C. S. E. T. boys and girls. 2. Reading—Picnic Time—Robert Sutherland. 3. Selections—Jean McNeil and (encore) Oh the Bonny Lassies Love the Kilty Lad—John Elder.

CANADA AS I SEE IT Mr. Ander's address was as follows: When I came to Canada some years ago from Sweden, I did not come with the intention of staying.

### Procedure of Registration

On June 22nd every person residing in Canada, male or female, British or alien, of sixteen years or over, must attend one of the registration booths located in his or her district, and there observe the procedure explained below.

scale down towards true democracy, one having been able to advance a step further than the other, and my firm conviction is that in the Canadian National Spirit we reach the broad, all-human base of perfect democracy.

Add to this that the Canadian spirit is youthful, buoyant and pure, and that it is free from many of the ailments instant to old age from which other nations, more or less, suffer.

Before I go any farther I wish to say that I am in a fairly good position to compare and judge about the things of higher values that are to be found in the life of this and other nations.

I am familiar also, to a certain extent, with social conditions among other nations in Europe. When I was a boy, British politics interested me considerably.

Creonoid is a powerful, non-poisonous, inexpensive creosote product which is obnoxious to insects but not to animals or fowl.

Where to Register: Every person required to register has the privilege of registering at any of the public places provided for that purpose. The location of all such places will be specified in proclamations posted conspicuously.

## Of Course, it makes good Pastry

In fact, "Beaver" Flour is a special Pastry flour. It contains the choicest Ontario fall wheat (the finest pastry wheat in the world) blended with western spring wheat to increase the strength.

## BEAVER FLOUR

MILLED OF BLENDED WHEAT

makes the lightest, flakiest Pies and Tarts—the most inviting Cakes, Cookies and Doughnuts—and real homemade Bread, with the delicious, nutlike flavor.

There's no comparison between the tough Pastry and tasteless Bread, made with western wheat flour, and the "good things" made with "Beaver" Flour. Order some.

DEALERS—write us for prices on Feed, Coarse Grains and Cereals. 204 THE T. H. TAYLOR CO. LIMITED, CHATHAM, Ont.

## LUMBER FOR Ship-Building

We are open to contracts for immediate delivery and also for delivery during coming winter of Yellow Birch, Maple and Spruce in lengths 20 feet and up, 10 inches at top end, also Spruce Knees.

Specifications Furnished by applying to: MARITIME FOUNDRY & MACHINE WORKS, LTD. CHATHAM, N. B. or at the Ship Yard at Nordin, INTERNATIONAL SHIP BUILDING CORPORATION

## LUMBERMEN OF N. B. FORM ASSOCIATION

Will Complete Organization, Co-operate With Each Other, and Employ Permanent Secretary

Representative N. B. Lumber operators at St. John, June 5th inst., formed the N. B. Lumbermen's Association.

An organization committee comprised of W. B. Snowball, of Chatham; F. C. Beatey of St. John; Donald Fraser of Plaster Rock; Daniel Richards of Campbellton and R. W. McLellan of Fredericton has been working on the scheme for some time. While there had been at one time a Limit Holders Association for N. B. this had not fulfilled its functions as expected and was finally disbanded.

The new association will include in its membership all those directly interested in the lumbering industry who desire to become identified

with it. A secretary will be paid in the vicinity of \$4,000 a year. He will be an expert forester and one qualified not only to give technical advice to the members of the association but also keep in touch with all proposed legislation affecting the lumber industry introduced in the legislature. It was suggested that a membership fee of \$10 be fixed upon and an additional fee of \$10 per million feet of lumber cut or ten cents per mile, this matter was however, not finally settled upon. The association aims to keep its members in close touch with the market situation so that the smaller operator will benefit by the experience of the larger concerns with a view to complete co-operation in the industry.

## DOUBLE DAILY SERVICE TO PRINCE EDWARD ISLAND

All Rail Short Route Tormentine--Borden and Car Ferry

With the Summer Time Table in effect June 2nd, 1918 will be a Mainland and Prince Edward Island Passenger train by the Maritime Express from Montreal and the morning express from St. John and Halifax will be able to arrive at Charlottetown 7 05 p.m., Summerside, 6 05 p.m., and Tignish at 9 35 p.m. By the Ocean Limited from Montreal, the Boston express via St. John, passengers will arrive Summerside at 11 00 p.m., and Charlottetown 11 20 p.m. From the Island by leaving Summerside at 6 30 and Charlottetown at 6 00 a.m., passengers will connect with the Ocean Limited for Montreal, the express for Boston and the Maritime Express for Halifax. By leaving Tignish at 9 20 a.m., Souris 6 45 a.m., Charlottetown 12 50 noon, and Summerside, 1 30 p.m., passengers will connect with the Maritime Express for Montreal.

**ROBERT CURTIS**  
The death of Robert, the fifteen year old son of Mr. and Mrs. Alex. Curtis of Grey Rapids, occurred on the 2nd. The funeral took place on the 4th, interment in St. Agnes cemetery, services by Rev. D. F. Forester. Deceased leaves his parents and several brothers and sisters.

## Blackville Women's Institute

**BLACKVILLE W I**  
At the May meeting of the Women's Institute, Blackville, Miss Lottie E. Underhill read a very instructive paper on the Importance of Nature Study and School and Home Gardening. Miss Underhill's paper showed very clearly the importance of this subject from a moral and industrial standpoint. Mr. Chester Walls, gave a detailed account of the Halifax Disaster, from the viewpoint of an eyewitness. The Institute donated \$15 to the Maritime School for the Blind and \$10 for Y. M. C. A. huts overseas. A box containing the following articles was sent by this institute to Red Cross headquarters at Fredericton:— 20 pairs of socks, 28 bandages, 1 pair blankets. The following articles were donated by the Loyal Helpers Sunday School Class:—24 knitted face cloths, 40 handkerchiefs, 7 pairs socks, 500 mouth wipers.

**CAPTAIN GAIN'S**  
**SCHOONER LOST**  
The schooner Sarah P. Ayer of Summerside is ashore and a total loss. She was on her way to the Magdalen Islands with a cargo of salt when she struck on Grand Entry Island. The crew was saved. The vessel and cargo were uninsured. The schooner was owned by Captain Schurman Cain and well known on the Miramichi.

**PROVINCE CLAIMS \$150,000 FROM LUMBER COMPANY**  
Representatives of the Miramichi Lumber Company were before the government last week in connection with the alleged claim of the province against the company on account of pulpwood cut on Crown Lands contrary to regulations and exported. Mr. J. W. Brankley of Chatham representing the company was here in connection with the matter also Mr. George Stearns of Portland, Me., president of the International Pulp & Paper Company. This claim was frequently referred to during the last session of the legislature. The amount involved is about \$150,000.

**With the Fingers! Says Corns Lift Out Without Any Pain**

Sore corns, hard corns, soft corns or any kind of a corn can shortly be lifted right out with the fingers if you will apply directly upon the corn a few drops of freestone, says a Cincinnati authority. It is claimed that at small cost one can get a quarter of an ounce of freestone at any drug store, which is sufficient to rid one's feet of every corn or callus without pain or soreness or the danger of infection. This new drug is an ether compound, and while sticky, dries the moment it is applied and does not inflame or even irritate the surrounding tissue. This announcement will interest many women here, for it is said that the present high-heeled footwear is putting a corn on practically every woman's foot.

## Children Cry for Fletcher's CASTORIA

The Kind You Have Always Bought, and which has been in use for over thirty years, has borne the signature of *Chas. H. Fletcher* and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but Experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

**What is CASTORIA**  
Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

**PALMER'S Summer Packs**  
for the **SOLES**

The "Soldiers of the Soil" recruits need Palmer's Summer Packs, or plough Shoes as they are often called, to keep their feet in good condition while doing hard farm work which their feet are not accustomed to. Even farmers whose feet are hardened to farm labor find Palmer's Summer Packs very restful to tired, aching, burning feet. They are light in weight, roomy, pliable, comfortable, durable and waterproof. Get a pair from your dealer. Look for the "Moose Head Brand" stamped on every pair—a warranty of satisfaction. **JOHN PALMER COMPANY, LIMITED** Fredericton, N.B., Canada

**Something New, Something Helpful, The B-H Color Scheme Adviser**

**W**OULD you like to "see" your house in its new coat of paint, before you paint it? You can. The Brandram-Henderson "Color Scheme Adviser" enables you to try out different color combinations before deciding on the color scheme most pleasing to your eye. This unique device consists of a transparent outline of a house, behind which you place color cards of every known shade—one color for the walls and another color for the roof. With the transparent sheet, there comes a set of 40 cards each of a different color. First you try a white card on the walls, in combination with a green card for the roof. Then you try a brown card behind the wall section of the transparency, along with a red card for the roof. And so on, until you have exhausted the possibilities of every known color combination. We have one of these "Color Scheme Advisers" and will be pleased to let you experiment with it before you select your **B-H "ENGLISH" PAINT** (70% Pure White Lead (See Jersey Genuine B.B.) 30% Pure White Zinc 100% Pure Pigment) for the Spring painting of your house or any other building. Of course you are going to paint this Spring—and equally, of course, you are going to use B-H "English" Paint—the paint with the guarantee behind it. Our store is the B-H Store—which means that this is paint headquarters. The outstanding reputation of this brand is based on its superior covering-capacity and exceptional durability—both of which features we know to be due to the combination of Brandram's Genuine B.B. white lead and pure white zinc, which the makers of B-H "English" Paints maintain in spite of the repeated advances in the cost of these ingredients. Color Cards from our local agents.

Manager.

THURSDAY, JUNE 13th 1918

#### WEDNESDAY HALF HOLIDAY

The action of the Retail Merchants of Newcastle in granting their employees a weekly half holiday for the months of July, August and September, is a move that will meet with the approval of the majority of the buying public, both in Newcastle and the surrounding districts. The merchants of Newcastle are always pleased to render every service possible to the public in general and in this instance ask the co-operation of the citizens in assisting them to keep up this standard, by doing their shopping either Tuesday afternoons or as early as possible on Wednesday mornings, so that the stores may close promptly at one o'clock on Wednesday afternoons, and thus give the employees ample time to assist in the work at home and in the interest of Greater Production, which at the present time is a very vital question.

The half holiday idea is not designed as a matter of convenience for the merchant or his employees, but as a necessary, or rather a war measure, that is being observed in practically every town and city in the Dominion, and in order that that it should be carried out, a provincial law was passed last year making it compulsory for all stores to close one half day each week, in any town where seventy-five per cent of the Merchants request it, but in Newcastle it has not been necessary to invoke that law, as the merchants are a unit on the closing idea.

### OBITUARY

#### JOHN CASSIDY

The death of John Cassidy took place at his home at North West Bridge, Newcastle, on Tuesday, at the age of about 89 years. Deceased had been in failing health for several years. He was a native of New Jersey, in this County, and an honored member of the Presbyterian church. He is survived by a widow, formerly Miss Mary Morrison of the North West Miramichi; two sons, Charles at home and George in the U. S.; and one daughter, Miss Margaret, at home. The funeral was held this afternoon, interment in the Miramichi Cemetery, services by Rev. L. H. MacLean.

#### THOMAS FLYNN

The death of Thomas Flynn, a well-known resident, occurred yesterday afternoon after an illness of several years. Deceased was about 80 years of age and unmarried. He was a native of Newcastle, son of late Mr. and Mrs. Jeremiah Flynn, two of the early settlers of this town. He was a ship carpenter by trade, made many voyages, and finally returned to his home and farm here. He was a very well-informed man and very entertaining. The funeral will be held to-morrow, interment in St. Mary's cemetery. Several sisters survive, all in the U. S. One of his sisters, Mrs. Waters of St. John, died recently.

#### MRS. JANE DUNNETT

The death of Mrs. Jane Dunnett, widow of late Edward Dunnett who predeceased her by 31 years, occurred early Tuesday morning at her home at Whitbyville. Deceased was 78 years of age. She had been in her usual good health until within two hours of death. She leaves five children: Edward, at home; Robert, of Whitneyville; Ross (Mrs. Wm. Whittney), Burlington; Wash; Marjory, (Mrs. Parley Tozer), Redbank; and Miss Margaret, a teacher in Newcastle. Deceased was a faithful member of the Baptist Church. The funeral took place yesterday afternoon at 3 o'clock, interment in Whitneyville Baptist Cemetery. Services were conducted by Rev. S. Gray.

SMOKE TACKETTS  
T&B PLUG

### PERSONALS

Miss Martha O'Donnell is visiting friends in Caraduff, Sask.  
Misses Laura Whiston and Gretta Bunde are among the graduates of the Rutland Hospital. They also took the States Board examinations for Registered Nurses and passed successfully.  
The many friends of Miss Blanche Sinclair of Bushville are glad to hear she has recovered from her recent illness.  
Miss Maudie Archibald of Millerton spent the week end in town.  
Mr. Adam Hill of Chassille spent Tuesday in town.  
Rev. Dr. Harrison, for four years Pastor of the Newcastle Methodist Church, here, but now of Marysville, was a visitor in town on Monday for a few hours and was warmly greeted by his many friends.  
Miss Corinne Lawlor, stenographer with The Dunlop Rubber Co., Halifax, is spending a two weeks vacation with her parents, Mr. and Mrs. J. R. Lawlor.  
Spr. Robt. B. Graham of the Engineers Training Depot, St. John's, Quebec, is spending a few days in town.  
Mr. Wm. Rogers of Campbellton was a visitor to town on Monday.  
Miss Octavia Murdoch of Loggieville spent Sunday with relatives in town.  
Miss May Wright left on Tuesday for Edmundston, N. B. where she has accepted a position as stenographer with the Fraser Lumber Co.

Mr. Fred W. Nesbitt of the Board of Pension Commissioners, St. John, was a visitor in town this week in connection with business of the Board.  
Pte. and Mrs. Edward Wiseman and son Ned, have returned to their former home at Regina.  
Miss Bessie McKee, R. N. of Boston visited her sister, Mrs. Signa Walters, Chatham, last week.  
Edward Sinclair is home from Horner's Academy, Wolfville, for the summer.  
Miss Grace Savage of Campbellton was the guest of Miss Jennie McMaster, last week.  
Mrs. W. A. Hickson and Miss Florence Hickson have returned from a six months visit to Bermuda.  
Miss Kathleen Armstrong is home on a vacation from St. Luke's hospital, New York.  
Mrs. Charles McKinlay of Upper Nelson is visiting in Moncton the guest of her daughter, Mrs. Douglas Kelly.

Dr. C. C. Jones, L. L. D., Chancellor of the University of New Brunswick, visited Harkins Academy on Wednesday and addressed the pupils of the High School.  
Mrs. T. A. Clarke and little daughter Margaret returned this week from St. Stephen.  
Miss Pauline Crocker of Millerton spent Sunday with Miss Doris Atkinson.  
R. A. N. Jarvis, Manager of the Union Advocate, is attending the Canadian Press Association at Toronto.

### Constipated Children

Mothers if your little ones are constipated; if their little stomachs and bowels are out of order; if they cry a great deal and are cross and peevish, give them a dose of Baby's Own Tablets—the ideal medicine for little ones. The Tablets are a gentle but thorough laxative and never fail to right the minor disorders of childhood. Concerning them Mrs. Noble A. Pyle, Egan Secum, N. S., writes:—"My baby was terribly constipated but Baby's Own Tablets soon relieved her and I now think them a splendid medicine for little." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

### ARCHIE MATHESON SERIOUSLY WOUNDED

Mrs. R. Blackstock Matheson of Newcastle has received the following letter from her son Archie, who went overseas with the 122nd Franco, 10-5-1918:  
"Dear Mrs. Matheson,  
"I regret to inform you that your son has been wounded and is now in 42 casualty Clearing Station. His injuries are serious. But he is receiving every care and attention and we trust that he may be spared to you, though it will be several days before he is out of danger. If all goes well he will communicate with you. The wound is in the back and necessitates his lying perfectly still, hence he is unable to write you himself. I shall let you know later of progress."  
Yours Sincerely,  
W. S. KIRKPATRICK,  
Chap. 42 C. C. S.  
R. E. K.

### Dr. R. F. Quigley Passes Away

The death of Richard F. Quigley, Ph. D., one of the most able and prominent lawyers of St. John and a well-known author, occurred at noon today. Dr. Quigley was overtaken by an attack of acute indigestion at the Knights of Columbus Hall on Tuesday evening and was hurried to the Infirmary. His conditions continued to grow worse until he passed away. Yesterday. One of his sisters, Miss Mary, arrived in St. John from Fredericton and remained in attendance upon her brother till the last.  
Dr. Quigley was unmarried. He leaves three brothers: John and Michael of Atchison, Kansas; and Lawrence of Concordia, Kansas; and two sisters, Misses Mary and Kate of Newcastle.  
Deceased was prominent in the Knights of Columbus, and had many friends. He was a native of Newcastle. The remains will be interred in St. Mary's Cemetery, Newcastle, on Sunday afternoon.

### LITTLE LAND KEEPS MANY

Twelve thousand square miles—8,680,000 acres—constitute the rice land of Japan, which feeds a nation of about 50,000,000 people on an average of a pound a day for each person. It takes 125 days to grow a crop of rice, and in Japan, the laborious work of cultivation is done almost entirely by hand.

### Tenders For School House

Tenders addressed to the undersigned will be received until Saturday July 6th, for the building of a new school at Allison Settlement, District No. 10, North Esk. Plans and specifications can be seen at the Can. Gen. Works Office, Newcastle or at the home of Frank A. Menzies, Whitneyville, on and after JUNE 19th.  
The lowest or any tender not necessarily accepted.  
By Order of  
FRANK A. MENZIES,  
BENJAMIN DUNNETT,  
CHAS. MULLIN,  
Trustees.

### IN THE SUPREME COURT CHANCERY DIVISION

(L.S.)  
(Consolidated Actions)  
Between—  
Ernest Frederic Sullivan,  
Ernest Edward Shaw, and  
Edmund Freeman. Plaintiffs  
And—  
The Swedish Canadian Lumber Company Limited. Defendant  
AND BY AMENDMENT  
Between—  
Ernest Frederic Sullivan,  
Ernest Edward Shaw, and  
Edmund Freeman. Plaintiffs  
And—  
The Swedish Canadian Lumber Company Limited, Eastern Trust Company, Billett, Campbell & Grenfell, Allison A Davidson and the Swedish Canadian Lenders Limited. Defendants.  
GEORGE THE FIFTH By the Grace of God of the United Kingdom of Great Britain and Ireland and of the British Dominions beyond the Seas, King, Defender of the Faith, etc.  
To—The Swedish Canadian Lumber Company Limited of Nerdia in the County of Northumberland, Eastern Trust Company, Billett, Campbell & Grenfell, Swedish Canadian Lenders Limited and Allan A Davidson of Newcastle in the County of Northumberland.

WE COMMAND you and each of you that within ten days after the service of this writ on you inclusive of the day of such service, you do cause an appearance to be entered for you in an action at the suit of Ernest Frederic Sullivan, Ernest Edward Shaw and Edmund Freeman.  
AND TAKE NOTICE that in default of your so doing the plaintiffs may proceed therein and judgment may be given in your absence.  
WITNESS the Honourable J. Douglas Hasen, Chief Justice of New Brunswick, the fourth day of June in the year of our Lord, One Thousand Nine Hundred and Eighteen.  
(Sgd.) Allen.  
N. B. This writ is to be served within twelve calendar months from the date thereof or if renewed within six calendar months from the date of the last renewal including the day of such date and not

afterwards.  
The Plaintiffs' claim is for the foreclosure of four several mortgages made by the Defendant, The Swedish Canadian Lumber Company, Limited, to the Defendant, Billett, Campbell & Grenfell, and by them assigned to the Plaintiffs as follows:—  
(1) A Mortgage dated the Third day of September A. D. 1912, and is on property in the County of Kent in the Province of New Brunswick, known as the Curran Property.

# Solve The Fuel Problem

With a New Perfection Oil Cook Stove

BOTH Summer and Winter The New Perfection Oil Cook Stove will do more work than a Coal or wood Stove of twice its size.

THE Long Blue Chimney New Perfection Burners are the latest type of oil cooking burners. They were adopted after years of experience.

The long chimney creates a draft, furnishes the flame with enough air for perfect, clean combustion and makes every drop of kerosene do all the work in its power. All the oil is turned into heat. No smoke—no odors. No soot to blacken pots and pans.

**ONE CENT SALE**

Rexall Drug Store

**The Plan**

You pay the regular price for One Article and then we give you another of the Same Article for

**One Cent**

1 for \$1.00

2 for \$1.01

**THURSDAY -- FRIDAY -- SATURDAY**  
June 27th June 28th June 29th

**Example**

Buy one bottle of Rexall Tasteless Cod Liver Oil Compound at the regular price of \$1.00 and we will give you another bottle for

**One Cent**

or 2 for \$1.01

This ONE CENT SALE Plan was originated by the United Drug Company for the Rexall Drug Stores. The United Drug Company are the largest manufacturers and buyers of Toilet Articles, Remedies, Chocolates, Perfumes, Rubber Goods, Stationery, and Drug Sundries in the world, and this is an advertising plan pure and simple, of which they bear most of the expense. Instead of spending money in the regular way, such as Free Samples, etc., it is their desire that we place full sized packages, or articles, in your hands, giving you an opportunity to judge the real value of these goods, the cost of which they charge to advertising.

We will only be permitted to run this sale occasionally. Beware of imitations in other stores, and take advantage of this exceptional opportunity. We can not afford to charge or deliver goods during this sale. So please don't ask us to do it. These prices do not include the War Tax.

**REGISTRATION**

Jas. W. Davidson is Deputy Registrar for Newcastle and will have 24 assistants, at the Armory and Bute School on the 22nd. J. H. O'Brien has charge of Nordin, Douglastown and Ferryville, with 7 assistants at the above places. Any one may register before the 22nd, and none later.

**METHODIST STATION SHEET**

The first draft of the Methodist Station Sheet for Chatham district is as follows: J. J. Pinkerton; William Godfrey, C. E. Forcos; Newcastle, F. T. Bertram; Tabusintac, L. Lund; Derby, Ernest Rowlands; Richbucto, Thos. Pierce; Buchanan, James Crisp; Harcourt, Chas. Stobbing; Bathurst, George A. Ross

New Bandon, H. C. Upton; Campbellton, G. Stanley Helps; Bonaventure, to be supplied; Caspe and Cape Oro, Henry Scott; George S. Patterson, C. E. Forcos

**AN ACREAGE INCREASE**

OF 4,000,000 ACRES. J. D. McDougall, Director of the Canadian Food Board, estimates

that the three Prairie Provinces of Canada will have sown an increase of 2,600,000 acres in wheat, oats and barley; and Dr. J. W. Robertson, says that the farmers of Eastern Canada are increasing the acreage for wheat, barley, rye, oats, peas, beans, fodder, potatoes and other roots. An increased acreage of about 2,000,000 acres is aimed at

in the five Eastern Provinces and an increased garden acreage of at least 200% over that of last year is estimated. Great efforts will have to be made to can, dry, and store the surplus crop. To do this many Home Efficiency Clubs are needed. There were some 220 of these in N. B. last year.

### HOW MRS. BOYD AVOIDED AN OPERATION

Canton, Ohio.—"I suffered from a female trouble which caused me much suffering, and two doctors decided that I would have to go through an operation before I could get well. My mother, who had been helped by Lydia E. Pinkham's Vegetable Compound, advised me to try it before submitting to an operation. It relieved me from my troubles so I can do my house work without any difficulty. I advise any woman who is afflicted with female troubles to give Lydia E. Pinkham's Vegetable Compound a trial and it will do as much for them."—Mrs. MARIE BOYD, 1421 5th St., N. E., Canton, Ohio.

Sometimes there are serious conditions where a hospital operation is the only alternative, but on the other hand so many women have been cured by this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound, after doctors have said that an operation was necessary—every woman who wants to avoid an operation should give it a fair trial before submitting to such a trying ordeal.

If complications exist, write to Lydia E. Pinkham Medicine Co., Lynn, Mass., for advice. The result of many years experience is at your service.

### BECAUSE THEY FIND SATISFACTION HERE

### Concert and Tea At Nelson

The Women's Institute of Nelson held a tea in the I. O. F. Hall, on the afternoon of June 3rd. Quite a few pleasure seekers came and had tea about 5 p. m.

In the evening a concert was given under the direction of Miss Parks of Redbank teacher of the school at Nelson, which proved to be a success in every respect. The programme is as follows:

Chorus—Our own red white and blue.  
Recitation—Evelyn Coughlan.  
Chorus—The old Maid of Lee.  
Solo—Mr. D. Gulliver.  
Barn Dance—Greta McLaughlan and Ethel Brown.  
Recitation—French Canadian—Harry Brown.  
Chorus—"Over There"  
Solo—Louise Coughlan.  
Recitation—Barbara McLeod.  
Highland Flings—Ethel Brown.  
Retreating Lancers.  
Dialogue—Jecham and Mrs. Stocum.  
Solo—Mr. D. Gulliver.  
Chorus—Somewhere in France.  
Recitation—Monty.  
Closing  
Evelyn Coughlan—England—God Save the King.  
Greta McLaughlan—Scotland—Blue Bells of Scotland.  
Ethel Brown—Ireland—Come back to Erin.  
God Save Our Splendid Men—Accompanists Mrs. Harry Brown and Mr. Fred Brown violin.

The proceeds amounted to \$82.90 which will go towards Soldiers' Comforts.

### A Nervous Breakdown

When the Blood is out of Order the Nerves are in a Starved Condition

The nervo system is the governing system of the whole body, controlling the heart, lungs, digestion and brain; so it is not surprising that nervous disturbances should cause acute distress. The first stages of nervous debility are noted by irritability and restlessness, in which the victims seem to be oppressed by their nerves. The matter requires immediate attention, for nothing but suitable treatment will prevent a complete breakdown. The victim, however, need not despair for even severe nervous disorders may be cured by improving the condition of the blood. It is because Dr. Williams' Pink Pills actually make new, rich blood that this medicine has cured extreme nervous disorders after all other treatment had failed. The nerves thrive on the new blood made by these pills; the appetite improves, digestion is better, sleeplessness no longer troubles the former nerve-shattered victim, and life generally takes on a cheerful aspect. Every sufferer from nerve troubles, no matter how slight, should lose no time in giving Dr. Williams' Pink Pills a fair trial. 'has regained their old-time health and comfort. Mrs. Victor Booth, Parry Sound, Ont., offers proof of the value of Dr. Williams' Pink Pills in nervous troubles. She says:—"Some years ago I was taken ill with typhoid fever. The attack was not a severe one and after a few weeks I was around again. But I did not recover my former strength, and my nerves began to give me trouble. The trouble went on from one stage to another until finally St. Vitus dance developed. I was under the care of our family physician but my condition appeared to be growing worse. It was at this stage I decided to try Dr. Williams' Pink Pills, and after taking a couple of boxes I could see they were helping me. I continued taking the pills until I had used eight boxes when my health was fully restored, and I have since continued to enjoy that blessing. I have recommended the pills to others and I always keep them in the house, having proved their great value."

You can get Dr. Williams' Pink Pills through any dealer in medicine, or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

**GOT LIQUOR ON THE TRAIN**  
One day last week Indian Policeman William Barnaby of Eel Ground Reserve arrested an Indian for drunkenness and brought him before Judge J. R. Lawlor. The prisoner confessed that he got the liquor from another Eel Ground Indian, who had stolen it from a third Indian who had purchased twelve bottles of rye whiskey at \$4 a bottle on the train between here and Campbellton from a white man coming from Montreal who had liquor in his suitcase. The Indian informed on being paroled and back.

WAS TOO STRONG			
Inspector Fraser Saunders of Marysville operating under the Intoxicating Liquors Act 1916 seized twenty gallons of liquor at O'Donnell's Still on the C. G. R. and took it to Fredericton Friday. The liquor was being sold as cider but is alleged to have an alcoholic percentage of eight.			

### Methodist Notes

At the Chatham Methodist District meeting at Millerton last week Mr. I. F. Curtis, of Newfoundland who has supplied the Methodist pulpit at Tabusintac the past year, was, after oral examination by the District, recommended for Ordination.

Mr. H. C. Upton, who has been preaching at New Bandon two years, was recommended for College.

Mr. A. E. Tingley, who is taking a course in Theology in Boston School of Theology was given leave of absence another year.

A resolution was sent to Conference asking that a committee be appointed to act with the committee of the Miramichi Presbytery to look into and report upon the possibility of greater co-operation between the Presbytery and Methodist bodies in certain charges on the North Shore, for instance Harcourt, Buctouche, Richibucto, Rexton, New Bandon.

It was recommended that one-half the numbers of the Conference Stationing Committee be Laymen.

The Missionary fund reports showed a large increase over last year, as follows:

	1918	1917
Harcourt	75.00	68.00
Chatham	230.00	\$209.00
Newcastle	100.00	64.57
Tabusintac	32.69	
Derby	120.00	120.28
Richibucto	35.00	67.50
Buctouche	87.88	87.45
Bathurst and New Bandon	191.31	160.05
Campbellton	100.00	75.00
Gaspé and Cape Oro	102.35	35.65
Increase	1074.23	837.80

**Every Farmer Needs a Ford**

THE Motor Car is a greater convenience to the average farmer than the telephone, the rural mail or even the grain binder.

The binder which is considered as a very useful implement is rarely used more than a few days during the entire year. The rest of the time it stands idle, taking up space, while the automobile is available for use throughout all seasons, and both day and night.

It is ever ready to run down the lane to the back field or the pasture with a parcel or a message, or take you and your family to town for shopping purposes—or on an errand to the neighbors.

The motor car is called upon whenever anything is wanted in a hurry. It is the most useful implement or convenience for the farm. It helps you conserve your energies and time for productive work and enables you and your family to accomplish more with less energy. You surely feel the need of a Ford. Why not order one today?

All prices subject to war tax charges, except trucks and chassis

CHICKENS FOR EMPTY CANS

Trading of Discarded Tins and Bottles for Food is Common in Thibet, Explorer Reports.

Bringing with him an extensive collection of small mammals, reptiles and birds, Roy C. Andrews, head of the Asiatic zoological expedition, has arrived in New York after a year and a half in the remote provinces of China.

The expedition spent much of the time in the mountains of Yunnan and progressed as far as Thibet. Mr. Andrews' adventures included everything from hunting "blue" tigers to buying chickens at the rate of two for one empty condensed milk can.

Politically China is in a chaotic state, Mr. Andrews reports, as most of the provinces are so far removed from the central government at Peking that any change of authority seems to make itself felt. Socially, he declares, it is overrun with bandits, most of whom are recruits from the army.

According to Mr. Andrews, there is no great moral difference between a Chinese common soldier and a bandit. In many places he found traffic in water impossible because the rivers have a habit of using small river boats for target practice.

MOVIE OF MODERN BOOKWORM

Student Would Not Be Influenced by Any Pleasures the World Could Offer Him.

Now behold the student coming up the street! He is clad in rubber and shining black. He is thin as a reed and becomes a scholar. He sags with knowledge. He hungers for wisdom. He comes opposite the book shop. It is but coquetry that his eyes seek the window of the tobacconist. His heart, you may be sure, looks through the buttons at his back.

At last he turns, Charles S. Brooks writes in Yale Review. He passes on the curb. Now desire has clutching him. He jingles his trousers and shillings. He trends the gutter. He squats upon the rack. He lights upon a treasure. He plucks it forth. He is unresolved whether to buy it or to spend the extra shilling on his dinner. Now all your cooks together, to save your business rattle your pants to rouse him! If within these ancient buildings there are onions ready peeled—quick!—throw them in the skillet that the whiff may come beneath his nose! Cheese trembles and casts its votive incense—down goes the shilling—he has bought the book. Tonight he will spread it beneath his candle. Feet may beat a snare of pleasure on the pavement, glad cries may pipe across the darkness, a fiddle may scratch its invitation—all the rumbling notes of midnight traffic will tap in vain their summons upon his window.

18-Cylinder Engine.

By leaps and bounds the stationary type airplane engines are increasing in power rating in the stern competition between the central powers and the allied nations. In England Louis Costalen has been doing commendable work along these lines, and among his latest products is the 18-cylinder Sunbeam-Catalan engine, which develops 475 brake horse power, and has no fewer than half a dozen magates and an equal number of carburetors, says the Scientific American. The arrangement of the cylinders is interesting: Twelve of the cylinders are arranged as in the usual twin-six practice, while the remaining six are arranged in the upper center, forming what is styled the "broad arrow" type.

Too Busy to Help.

Even in war times a heroine is often without influence in her own home town, writes a correspondent. A young woman nurse gave up a paying practice and offered her services to her country. She is now nursing "Jacksies" in a naval hospital, and, finding how much pleasure the convalescents take in music, she wrote home to her father to put a notice in the local paper asking for records if anyone had duplicates or discards.

It is a place of about 8,000 inhabitants, but not one record did she receive in answer to her appeal.

"Probably they are all too busy with war work," she commented, humorously.

China is on Guard.

While China has not provided for the internment of Germans and Austrians, even those of military age, all citizens of the central powers are required to register and are forbidden to travel. They may engage in peaceful occupations with China's permission. The mildness of the regulating created some comment among foreigners, but Chinese officials replied to such criticism by saying they closed the German banks and are limiting the activities of Germans and Austrians even more than the United States and Japan are.

Leaves it to Audience.

One of the small Paris theaters has set about proving that dramatic critics are not infallible. Every evening before the rise of the curtain on an adversely criticized but no less successful play, the irate manager appears, bearing a bundle of newspapers, from which he reads the choicest condemnatory excerpts. Having thus stated the newspaper view of his play, he leaves the rest to the judgment of the audience.

TO CO-OPERATE IN RESEARCH

British Plan on Method of Bringing out Best Possible Results for Various Industries.

Realizing that many industrial firms are barred from the benefits of scientific research into their particular lines of activity by the great cost, reports Consul Franklin D. Hale, Ruedersfeld, England, the Committee of the Privy Council for Scientific and Industrial Research proposes the introduction of the co-operative idea. In this way a firm that is unable to bear the entire expense of research could contribute to the cost and share in the benefits accruing to an industry as a whole. It is planned to establish trade research associations in England to be formed as needed for each industry or group of industries, and aided by certain funds which the committee has in charge. One association is about to be organized for the cotton industry, and others will be formed as soon as possible for the wool, flax, oil, and photographic industries.

The work that has already been accomplished through the committee's efforts, according to Mr. Hale, includes the discovery of three kinds of optical glass, the investigation of light alloys for use in aircraft, and the production of a new hard porcelain from purely British raw material. Researches into the recovery of tin are expected to save that industry a very large amount each year.

BUILD SHIP IN FIVE MONTHS

Others of British Standardized Type to Be Turned Out in About Sixteen Weeks Time.

The first of the standardized merchant ships built to order for the British government recently went through successful trials of a very exhaustive character, says the Scientific American. The type has been designed to provide a good cargo-carrier, in the shortest time, and with the least expenditure of material. The keel of this trial ship was laid last February, and in less than six months the ship was completed, loaded and ready for trial.

The standardized vessels, which are of 8,000 tons capacity, are built in two types—one a single-deck for grain and the other a two-deck ship for general cargo. It is also intended to build two smaller types, each of 5,000 and 3,600 tons carrying capacity. Not only the hull but the engines are standardized. They have extra large hatchways to facilitate quick loading and discharging—a most important feature. The first vessel was built in five months' time, and it is expected that future vessels will be turned out in from four to four-and-one-half months.

Women as Jockeys.

Since jockeys from the race courses in England have gone, almost to a man, to the firing line, women have professed themselves as eager to take their places. Some already are trained for the purpose, among them not a few who, in more prosperous and less beligerent days, rode to hounds over English fields and meadows. Many of these, confident in their riding ability and skill, have petitioned the stewards of England's governing jockey club—the arbiters of the turf—to grant them jockeys' licenses. Recent reports bore the information that the stewards are giving the petition serious consideration and that there is strong probability of their granting it.

Knew Teddy by His Teeth.

Col. Theodore Roosevelt has objected at all times to being referred to as a one-time president; but that only by facial adornments is he known in some sections may be even worse. It was at a church, where he was on the program, that an elderly woman approached the doorman and asked if "that there man" was going to speak. "What man?" asked the attendant. "I can't remember his name," was the reply, "but it's the chap I always thought would make a good advertisement for a dental. He's got wonderful teeth, and always shows them." "Yes," answered the doorman, "he's going to speak."

Target Balloons.

In training aerial marksmen to shoot straight the British government makes use of small target balloons which are manufactured in large quantities, says the Scientific American. Double target balloons are made in two sections, so that when one section is punctured by a successful shot from the gun of the aerial apprentice the balloon remains in the air, permitting a second hit and thus doubling the life of the target. An electric air pump is being used to fill the balloons.

Just a Mouthful.

Mrs. Brewster was entertaining her club and the ices were being served. Presently the hostess observed that one of her guests had eaten all of her serving of cream, whereupon she hastened to her side. "My dear Mrs. Glover, do let me give you some more ice cream." "Well, thank you, Mrs. Brewster, I will take some more, but just a mouthful, please," replied the young woman. "Martha," announced the hostess, "fill Mrs. Glover's plate."

Rabbit Hair for Hats.

Rabbit hair is supplanting wool in the felt hat-making industry of Australia, where there are 80 factories in operation at present making use of rabbit fur for this purpose. It is said to be superior to the finest merino, and millions of rabbit skins are made use of annually.

Improve Your Looks by purifying the blood. Sallow skin, liver spots, pimples and blotches are usually due to impure or impoverished blood. Clear the skin, put roses in pale cheeks, brighten the eyes, build up the whole system by taking Dr. Wilson's HERBINE BITTERS. It's a wonderful tonic for women, especially. Prepared of Nature's herbs and gives the happiest results when used regularly and according to directions. At most stores, 25c. a bottle; Family size, five times as large, \$1. The Braxley Drug Company, Limited St. John, N.B.

LOGGIEVILLE

Loggiewille, June 10.—On Monday evening of last week a bush fire broke out near the property of the Great Canada Northern Black Fox Co. The timely arrival of a band of energetic workers saved the town from a serious situation. There was a strong North West-erly wind blowing, and if the fire had not been controlled at the start it would have been impossible to stay its progress before much damage had been done.

The annual Missionary meeting held on Wednesday evening under the auspices of the W. M. S. of Knox church, proved a most successful one. An able and inspiring address was given by the pastor on the subject "War and Missions." The offering amounted to \$68.00. During the evening the duet "When I survey the wondrous Cross" was finely rendered by Mrs. Clark and Miss Harvey.

Representatives of the Biological Society of Canada are now doing business here. The fish which they take from the river are inspected in a room of the bank building, which they have fitted up for the purpose.

Mrs. William Stewart is very ill at her home here. Her many friends will regret to learn that her condition is the cause of much alarm on the part of those waiting upon her.

Miss Florence Harvey is spending a few days with Chatham relatives.

Miss Mildred Tait and Miss Pearl Tait are visiting their parents here.

Albert Loggie's many friends are sorry to learn of his ill health.

Miss Kathleen Redmond, who has been spending some time with Newcastle friends, has returned to her home.

Miss Lula Manderson of Bath, Maine, is visiting at the home of her parents.

Lemons Make Skin

White, Soft, Cleer

Make this Beauty Lotion for a

Cents and See for Yourself

What girl or woman hasn't heard of lemon juice to remove complexion blemishes; to whiten the skin and to bring out roses, the freshness and the hidden beauty? But lemon juice alone is acid, therefore irritating, and should be mixed with orchard white this way. Strain through a fine cloth the juice of two fresh lemons into a bottle containing about three ounces of orchard white, then shake well and you have a whole quart of skin and complexion lotion at about the cost one usually pays for a small jar of ordinary cold cream. Be sure to strain the lemon juice so no pulp gets into the bottle, then this lotion will remain pure and fresh for months. When applied daily to the face, neck, arms and hands it should help to bleach, clear, smoothen and beautify the skin. Any druggist will supply three ounces of orchard white at very little cost and the grocer has the lemons.

Teachers Wanted

Teacher with Superior License to take charge of Derby Superior School after the summer holidays; also Teacher for the Primary Department. Apply, stating salary to BOARD OF TRUSTEES, Millerton, N.B.

Estate James McElwee

The undersigned having been appointed Executors of the above estate, all persons having claims against the same will get their accounts duly proven. And all parties indebted to the estate are required to make early payment to W. T. RYAN, Boiestown, N.B. MORRIS O'DONNELLA W. T. RYAN.

CANADIAN WATER POWERS

By H. P. TIMMERMAN, Industrial Commissioner, Canadian Pacific Railway.

The following estimate is given by the Dominion Water Power Branch of the water power available in each province, showing to what extent this already has been developed.

Table showing Power Available by Province, with columns for Electrical, Paper and Pulp, and Other Industries. Total power available is 1,803,000.

It will be seen from the above that of some sixteen million horse-power available, and which further exploration will enlarge, less than ten per cent has so far been developed. Nevertheless, with but few exceptions all our principal cities, and by far the greater number of our towns and villages are supplied with hydro-electric energy, and the surplus production permits of the exportation of considerable power from New Brunswick to the State of Maine, from Quebec to New York, from Ontario to Ontario and Quebec, and from British Columbia to Washington.

The pitth at Grand Falls, N.B.

Table showing the pitth at Grand Falls, N.B., with columns for Electrical, Paper and Pulp, and Other Industries. Total power available is 1,735,599.

The relative cost of steam and hydro-power being subject in the case of coal to labor, transportation and other variable expense is at present rather difficult to estimate, but admittedly the advantage in economy is with the latter source of energy. The relative cost of steam and hydro-power being subject in the case of coal to labor, transportation and other variable expense is at present rather difficult to estimate, but admittedly the advantage in economy is with the latter source of energy.

York, with a population of five million, and to have got all its up to one-fifth or less, providing also for traction purposes, indicates that the manufacturing enterprises of that great city must have some somewhat shy on power, excepting such as may have been produced from coals that would otherwise have been available for heating. A similar comparison doubtless might be made between Toronto and Chicago, or any other Canadian or American city of relative position, and it is very likely that the same striking tendency in the cost of coal is contrasted with the lowering cost of hydro-power.

City Renders Practical Help in Greater Production

It is not often that the residents of a city have an opportunity of seeing farming operations on a large scale carried on right at their own doors. Even in Western Canada, where hundreds of thousands of acres of virgin land are being turned over and cultivated in order to raise increased crops of wheat and other food grains to supply the needs of the Allies, the spectacles which are presented to the citizens of Calgary, Alberta, recently was an unusual one. Not far from the centre of the city—about a mile from the city hall to be more exact—two hundred acres of valuable land were put under the plow. The use of the land had been granted to the city of Calgary through the courtesy of the Canadian Pacific Railway Company, the owners.

and here such a tract of land to be plowed when all available machinery was being used to the utmost capacity in the country; when the demand for all kinds of machinery is so great that it cannot be delivered to the farmers fast enough. That was the question asked by many of the city fathers. The implement companies came to the rescue. A day was not when the work should be begun. Tele- phones and telegraph wires were put into operation. And by the date set seventeen tractors and the requisite plows and other implements were set together. One large tractor pulled sixty miles over the country in order to participate in the event.

Soheim has such an array of farm machinery concentrated on an area of two hundred acres. Never, perhaps, has such an area been broken and cultivated in shorter time. Although there was no competition, all engaged were animated by the good they were doing in the cause of greater production. Furthermore, the machinery was wanted in the country, and it must not tarry in the city. Unfortunately rain prevented the work being completed in one day, an achievement which if it had been accomplished, would no doubt have constituted a record not easily surpassed.

A crop of oats, potatoes and flax is now sown on the land and it is hoped that this will add considerably to the production now so earnestly desired. The illustrations show the workers on the land.

# FIRST AID IN ILLNESS AND INJURY

The Following Lecture was Given to the Newcastle Women's Institute by Mrs. Mabel D. Richards of The Miramichi Hospital

When asked to talk with you on some subject pertaining to nursing, I was somewhat at sea; but decided that emergency cases would probably be as useful a subject as I could talk on.

The great and most important point in an emergency case is to keep cool. Do not get excited, for if you do you are of absolutely no use to the one to whom the accident or injury may have occurred. Emergency cases would come under the following heads which we shall take up consecutively: Burns and Scalds, Fainting, Epileptic fits, Hysterics and Hysteria, Convulsions in children, Nose bleed, Dislocation, Fracture, Drowning, Removal of foreign body, Dogs or animal bites, Freezing, Chilblains.

## Scalding or Burns

We have three classes of burns, 1st more reddening, 2nd blisters, 3rd charring. We also have burns caused by fire, by chemicals, or water scalds. We always have reddening of skin in first class, blisters second, and destruction of skin and more or less underlying tissue in third. With some burns we get great prostration such as symptoms of shock. First remove clothing by cutting it away with knife or scissors or whatever is at hand. If it sticks in burn cut it, do not pull it off but cut around it, and flood the part with oil. If only reddening occurs, apply cloths to exclude the air wet in soda solution (common baking soda) (teaspoonful to pint of boiling water). Keep this up for three days, then apply Boracic Acid ointment. If large area is burned call Dr. at once. If blisters, hold a needle so as to have it sterile and prick at the loose edge being careful not to expose the surface under the blister. If you are to use oil take any you have at hand such as olive oil salad oil, sweet oil, fresh lard or unsalted butter, vasoline or carbolized vasoline but be very sure they are absolutely clean. Carbon oil is used in hospitals; generally this is made by adding equal parts lime water and kerosene oil. Always exclude the air, this will lessen the pain. Burns with carbolic acid are best treated by Alcohol externally or whiskey or brandy would do internally if no alcohol at hand. Burns caused by caustic soda or ammonia should be drenched with water then vinegar and treated as any other burn. If shock, give whiskey.

## Fainting

Fainting is the variety of insensibility most frequently seen and occurs in a number of conditions in all of which however weakness of the heart's action is present. Many conditions may cause this, such as hunger, indigestion, pain, fright, heat and fatigue, bleeding excessively, a close atmosphere such as an overcrowded church hall or any gathering when a person is especially apt to become weak. Mental emotion may cause it such as bad news. Even good news may throw delicate persons in a faint. The loss of consciousness is due to a small amount of blood going to brain or even temporary stopping of heart action. The treatment must be to restore the blood to brain. If person was where you could, put them on their back and elevate feet, sending blood to brain. If in a chair just tip the chair by so doing lowering the head and feet will be kept higher than same. Or if in an assembly and seats are close together you can have patient lean forward with head between knees for a minute. If patient does not return to consciousness in a few minutes send for a physician at once. Meanwhile if where you can, inject whiskey or brandy (2 tablespoonfuls in cup of water) into bowels. Artificial respiration may need to be resorted to.

## Epileptic Fits

Epilepsy is a disease of the brain which manifests itself in fits or convulsions, recurring at more or less frequent intervals sometimes as many as two or three a day. Patient usually experiences symptoms such as headache, dizziness, terror or peculiar creeping sensation. He usually utters a peculiar cry just before falling and becomes unconscious immediately, falls foaming at the mouth grinding teeth and biting tongue or lips. Face becomes livid, the eyeballs roll, the pupils are unaffected by light. The fit may last four or five minutes and is usually followed by drowsiness or deep sleep sometimes by headache and debility. Nothing can be done to stop the fit. Place patient so he cannot injure himself, loosen clothing about neck, making breathing and circulation as free as possible. Tie a handkerchief between teeth about back of head to prevent the teeth closing upon the tongue. Give patient plenty of fresh air. Keep as quiet as possible after fit has ceased. Hysterics is similar but not serious. Partial unconsciousness is assumed not real as you may determine by the attempt to open their eyes. Patients rarely injure themselves in hysterics nor do they bite their tongues as in epilepsy. There is no one-sided paralysis flapping of cheeks or apoplexy. No treatment is necessary. They will soon recover if left alone. Hysterics must not be taken for Hysteria which is an actual nervous disease demanding medical skill of the best obtainable for treatment.

vent the teeth closing upon the tongue. Give patient plenty of fresh air. Keep as quiet as possible after fit has ceased. Hysterics is similar but not serious. Partial unconsciousness is assumed not real as you may determine by the attempt to open their eyes. Patients rarely injure themselves in hysterics nor do they bite their tongues as in epilepsy. There is no one-sided paralysis flapping of cheeks or apoplexy. No treatment is necessary. They will soon recover if left alone. Hysterics must not be taken for Hysteria which is an actual nervous disease demanding medical skill of the best obtainable for treatment.

## Children's Fits

Fits in children are due to irritation of nervous system caused by constipation, indigestion, worms cutting teeth, fright, etc. Convulsions are not as serious in children as adults. Symptoms usually for a fit; child is fretful, restless and grinds teeth in sleep. During the fit the child is absolutely unconscious. The muscles of face twitch, the body stiffens, at first then passes into a series of jerking motions, head draws backward, limbs draw up and straighten. Put child in bath as fast as can be done with a teaspoonful of mustard in it and leave it for several minutes and repeat if it occurs. Give an injection of small amount of oil or a larger soap and water injection. Summon the Dr. at once.

## Nose Bleed

Nasal hemorrhage proceeds from the vessels of the mucous membranes of the nose. And while this usually is of no great danger and it will stop spontaneously, it may be so severe and prolonged as to be very alarming. Usually however it need not be the source of the least anxiety for sufficient clot will form to hold it in check. If not, cold water or a solution of salt or alum or some vinegar can be snuffed into the nose. The arms should be lifted above the head. If these methods fail, plug the nose with strips of gauze or old linen  $\frac{1}{2}$  inch wide. Use a pencil or pen holder and pack it firmly as far up as it will go. In removing plug if dried moisten with warm water. Better not remove it for twenty four hours.

## Sprains and Dislocations

A sprain is a violent twist or strain of the soft part about a joint. Usually we get great pain at joint. Swelling, discolorations similar to a bruise. Put the joint in position of complete rest. Apply hot water as hot as can be borne freely about the joint, and increase temperature as much as it can be endured. Continue this for half an hour then substitute ordinary hot fomentations for another half hour. Then put joint up in wet bandages. Keep it elevated and consult surgeon. Ice cap or ice packs are helpful.

## Dislocation

A dislocation is a displacement of end of a bone from its proper contact with another. With sprain we get a strain twist or wrench but with dislocation the ligaments tear and allow the bone to slip out of place. Usually the shape of the joint will tell the trouble. One limb will be shorter or longer than the opposite one. Great pain in the joint. Patient cannot move the limb. Send for surgeon at once. Place patient in as comfortable a position as possible, support the injured side with pillows and pads and surround the joint with hot moist fomentations. Do not handle joint. Ice packs or ice cap can be applied.

## Fractures

A fracture is a break in one bone. We have many kinds which should always be treated by surgeon at once. If surgeon cannot be gotten at once place patient in as comfortable a position as possible. Support the injured part with pillows or pads made from cotton.

**Drowning**  
Loosen clothing about neck, turn patient on face, raise body at waist line slightly. Clear out mouth. Then turn patient on back and try artificial respiration.

**Removal of Foreign Bodies**  
To remove clinkers, grains of sand, bits of metal or grain of gunpowder, the tears usually flow freely. You can sometimes see the body embedded in the cornea or conjunctiva. Close the eye for a minute and allow the tears to so-

cumulate and the body may be washed out with the tears. Then you open the eye again. If the body lies under the lower lid make patient look up and at same time press down upon the lid when the inner surface of eye-ball is exposed and the foreign body can be brushed off into soft cloth. If body lies under upper lid grasp lash of upper lid and pull it down over the lowered at same time with other hand to push up under upper. Repeat this and foreign body will be brushed out on the lower lid. The eye may still have sensation as if it were still there. If this continues better call Dr's attention to it.

## Foreign body in the ear

Usually insects in adults but children may insert such articles as buttons, etc. If the body is a living insect hold a bright light to the ear. The insect will go to the light. If this fails syringe the ear with warm salt and water or pour warm oil with a teaspoon and the intruder will generally be drawn out. If the body be a bean or a pea or any substance that would swell do not syringe the ear for fear it will cause it to swell and soften and render it much more difficult to extract. If the body is not liable to swell syringing with tepid water will often wash it out. If simple remedies fail consult Dr. at once.

## Foreign body in nose

Children may introduce small articles into nose. Close the clear side by pressure with finger and have patient blow not hard. Do not syringe if body is liable to swell. A hair pin may be passed beside it to hook it out of the nose if foreign body is in sight.

## Foreign body in throat

If body be mass of food, bones from fish, false teeth etc; in children, coins, buttons, etc, usually we get difficulty in breathing, a distressing cough, retching, the face purple, eyes starting from sockets. It is often difficult to tell where the foreign body lies. If patient can swallow it is safe to presume body lies in larynx or windpipe. If in gullet there is little or no coughing. Although swallowing is impossible. If in the pharynx there is both coughing and inability to swallow. Slapping the patient on back will often dislodge if body is larynx or windpipe. When this does not succeed open mouth and pass two fingers down the throat and grasp object if possible. Summon a Dr. telling him what trouble is when he is called.

## Dog Bites

Dogbite or the wounds inflicted by the teeth of other animals are usually simple, wounds, unless the animal be mad. In this case the saliva of the animal contains a poison which is carried into the wound by the teeth to pass into the circulation and produce a similar disease in man. Absolute safety to person who has been bitten can only be secured by immediately cutting or burning the wound out of the body. Always call surgeon immediately.

## Freezing

Treatment: rub part with snow or cold water until blue color is replaced by natural color and an aching pain is felt in parts. Then treat like burn.

## Chilblains

Chilblains are the result of too rapid warming of cold feet. The blood having been to a considerable extent crowded out of feet by the cold, when they are rapidly warmed it finds its way back in so large a quantity that it cannot all be disposed of and the excess can be seen collected in small patches scattered over the soles of the feet. This form of congestion sometimes becomes chronic in persons of poor circulation. An individual subject of chilblains should never come in out of the cold and toast his feet at a warm fire. He should warm them by stamping them or briskly rubbing them. As hygienic applications such as alcohol or alum and water will control them.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh, Catarrh being greatly influenced by constitutional conditions requires constitutional treatment. Hall's Catarrh Cure is taken internally and acts thru the Blood on the Mucous Surface of the System thereby destroying the foundation of the disease giving the patient strength by building up the constitution and assisting nature in doing his work. The proprietors have so much faith in the curative powers of Hall's Catarrh Cure that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address: F. J. Cheney & Co. Toledo, Ohio. Sold by all Druggists, 75c.

## EVANGELINE'S LAND TO HAVE A SHRINE

**A giant of the orchard in full bloom. The fisherman doing his bit. Memorial Park, Grand Pre, N.S.**

**A** new Mecca is beckoning to devotees of art and religion. Its name is Nova Scotia. Already the artists have made their pilgrimages and returned with charming pictures of Evangeline's Land. A collection of sixty paintings, the work of six New York men, known as the Nova Scotia Group, were exhibited recently in New York and elicited much praise.

The pioneers of Nova Scotia have blazed a trail over which a brush and palette laden army will follow in seasons to come. They will come to paint the gentle beauty of apple-blossoms when the great Annapolis Valley is covered with a fragrant pink and white veil. They will come in cherry time to paint the rich red fruit and the happy people enjoying the Cherry Festival, a time honored custom. They will come in autumn to transfer to canvas the mad riot of brilliant coloring with which Nature paints the woods and hillsides and when the orchards green beneath

their heavy burdened boughs of ripened apples. They will come at all seasons to picture the quaint fisherfolk and their quaint surroundings.

The Dominion Atlantic Railway that swings you around a half-circle from Halifax to Yarmouth, takes you through a Land of Romance, the Land of Evangeline. At the little station of Grand Pre you will find a wide meadow which is soon to be transformed into a shrine. Here, previous to 1775, stood the Roman Catholic Church of St. Charles, the church of the Acadians. To-day a massive stone cross marks the site of the old burying ground that surrounded the church and nearby is Evangeline's Well, with its long sweep.

The French Acadians have always cherished a reverence for this spot and now through the generosity of the Dominion Atlantic Railway Company they may call it their own.

The railway company has purchased this meadow and will make it into an old-fashioned garden surrounded with a rustic fence and has deeded a portion of the ground to the Societe L'Assomption, composed of French Acadians, of whom the Rev. C. Y. Landry of Butechie, N.B., is President. The only consideration for this transfer is the promise of the Societe to erect a chapel. This they are eager to do and plans are now under consideration.

With the dedication of the new shrine, large numbers of French Acadians from Quebec, Montreal and Upper Canadian points, will make pilgrimages to Grand Pre similar to those made yearly to Ste. Anne de Beaupre. Their numbers will be swelled by many others who cherish a fondness for the gentle Evangeline and who will be eager to visit the scene of her story and to walk under the ancient willows that still guard this storied spot.

### COAL GAS FOR AUTOMOBILES

Fuel Costs Only Twelve Cents per Charge Equal in Power to One Gallon of Gasoline.

Arthur H. Jackson, an English mechanical engineer, who arrived in New York from London on his way to Hong Kong, said that the high price of gasoline in England, where it sells at \$1.10 a gallon, has caused motor power experts to experiment with compressed coal gas for motor trucks and automobiles. The point in its favor is that the gas fuel costs only 12 cents for a charge equal in power to a gallon of gasoline.

"The ministry of munitions," Mr. Jackson said, "favors the coal gas fuel, as its manufacture increases the output of by-products needed for explosives. The Glasgow Corporation has been advised by a special commission that coal gas is practicable for commercial motor vehicles. Any engine can be fitted for its use in a few hours without interfering with the use of gasoline, should any change be desired. In closed cars and motor trucks the gas is carried in containers on the roof, and in open cars it may be carried on canopies running the length of the body. Containers now in use hold only 250 feet of gas, which is about equal to a gallon of gasoline, and that is one of the objections to its use."

### Mail Contract

SEALED TENDERS, addressed to the Postmaster General, will be received at Ottawa until noon, on Friday, the 19th July, 1918, for the conveyance of His Majesty's Mails, on a proposed Contract for four years, three and one times per week on the Boiestown Rural Route No. 2, commencing from the pleasure of the Postmaster General. Printed notices containing further information as to conditions of proposed Contract may be seen and blank forms of Tender may be obtained at the Post Offices of Boiestown and Eloomfield Ridge and at the office of the Post Office Inspector.

 There will be a Chaplains' ser  
 vice for Canada, in proportion to  
 the number of enlisted men from  
 each denomination, the Anglicans  
 and Catholics to have 14 each,  
 Methodists and Presbyterian 9 each  
 Baptists 2, and Congregationalists 1.

**FOREST FIRES**  
 Until the recent rains there were  
 serious forest fires in many places.  
 Some 20 acres of woods were  
 burned near Boletown; and there  
 were big fires near McGivney,  
 Burnside, Kent Junction and else  
 where.

**FUNERAL OF LATE ALEX STEWART JR.**  
 The funeral of the late Alexander  
 Stewart Jr., of 1795 Eighth avenue  
 west, was held at 2 o'clock on Mon  
 day from the parlors of Messrs  
 Harron Bros. Granville street south.  
 There was a large attendance and  
 the many floral offerings spoke of  
 the esteem in which the deceased  
 was held by friends in the city, and  
 in other towns of the province, as  
 well as by several of his old school  
 mates from his native town of New  
 Brunswick. Messrs. Fraser, Reid,  
 Russell, Miller, Robinson and  
 Marshall acted as pallbearers. The  
 services at the undertaking parlors  
 and at the grave in Mountain View  
 cemetery were conducted by Rev. Mr.  
 McGill.

**NEW FOOD REGULATIONS**  
 On and after June 15th, canned  
 preserved, condensed, evaporated  
 or desiccated foods may be sold or  
 made for sale only by licensed  
 dealers; there shall be no more than  
 one profit or commission between  
 wholesaler and retailer; no li  
 censee shall destroy any food or  
 food products which are fit for  
 human, animal or poultry consump  
 tion, and shall not knowingly com  
 mit waste or willfully permit de  
 terioration in any such food or  
 food products.

**ECLIPSE OF SUN PLAINLY SEEN**  
 The eclipse of the sun, which  
 occurred on Saturday evening, was  
 seen under particularly favorable  
 conditions here. The first signs of  
 the eclipse were noticed at 7.20  
 and continued until sunset at 9.05.  
 A nearly 50 per cent eclipse was  
 clearly marked. Much interest was  
 taken in the eclipse and many peo  
 ple had provided themselves with  
 carefully smoked pieces of glass  
 before the eclipse arrived saw it  
 very plainly.

**RECITAL**

**MRS. F. H. McKEEN**

**D. J. BUCKLEY ON FORESTRY COMMISSION**  
 Mr. D. J. Buckley of Newcastle  
 has been elected by the limit holders  
 of the province to represent them  
 on the Forestry Commission which  
 was created by recent legislation.  
 The choice of the private land  
 owners has not yet been announced.

**NEW ARRIVALS**  
 Three boys, were recently born  
 at the Miramichi Hospital, Newcas  
 tle, one on the 4th instant to Mrs.  
 Edward Somers of Redbank; an  
 other on the 10th to Mrs. Allen Mc  
 Kenzie of Nelson; and the third to  
 Mrs. Barbour Williston of Bay du  
 Vin on the 11th.

**FUEL ADMINISTRATOR**  
 On Thursday the government  
 appointed Dr. James H. Frink of  
 St. John Fuel Administrator for the  
 Province of New Brunswick. Dr.  
 Frink has been acting as fuel  
 controller without remuneration for  
 the past year. All fuel dealers must  
 take out licenses. The powers of  
 the fuel controller are considerable.

**BARGAINS**  
 You will notice our 1c Sale Ad. on  
 another page. These are bargains  
 and real values. This is positively  
 the last 1c sale we will have as  
 the Rexall Company have decided  
 to discontinue them on account of  
 the high price of drugs and chem  
 icals, till the war is over. Come  
 early and buy often.  
**DICKISON & TROY**

**HAPPY HOUR FRIDAY AND SATURDAY**  
 The story of a patriotic young  
 American who, together with sev  
 eral veterans of the Civil War res  
 cued the whole township from an  
 impending disaster and the perils  
 of a strike at the mines. "The Spir  
 it of '17" furnishes clever young  
 Jack Pickford (brother of our Mary)  
 with a screen success which brings  
 out his very best work. Written  
 by Judge Willis Brown of the  
 Chicago Juvenile Court, ar  
 ranged for the screen by Julia  
 Crawford Ivers, "The Spirit of '17"  
 was directed by William D. Taylor  
 who has been responsible for many  
 of Jack Pickford's recent Para  
 mount successes. It will appear for  
 the first time in this town at Happy  
 Hour Theatre, on Friday and Sat  
 urday.

**THE FAMILY TREE OF THE MODERN HUN**  
 The lecture on the above sub  
 ject, which was such a great suc  
 cess in Moncton recently, will be  
 given by Dr. D. R. Moore, in New  
 castle's Kirk Hall next Monday ev  
 ening, June 17th, under the auspices  
 of the Ladies' Aid of the Presby  
 terian Church. Dr. Moore traces the  
 history of the German tribes up to  
 and since their coming in contact  
 with the Huns of Asia, and de  
 scribes their fierce record in war  
 and the development of their art  
 and science, philosophy and culture.  
 The Moncton newspapers both  
 spoke in highest terms of the lec  
 ture, and no person who can hear  
 it should fail to do so.

**BORN**  
 On June 11th to Mr. and Mrs. R.  
 K. Galloway, Newcastle, a daughter.  
 Born at Moncton, N. B., on June  
 6th to Mr. and Mrs. Dr. J. S. Kelley,  
 a daughter.
