BRUCE, (dw) Guelph, April 23, 1873.

## DRESS and MANTLE MAKING

**The Fashionable West End.** To the Ladies: We have during the past two years contemplated the establishment of a Dress Making DEPARTMENT in connection with our other branches. The difficulty of obtaining a suitable person to take charge has, up to the present time, only prevented us from doing so. We have now great pleasure in informing you that we have secured the services of Miss Morrison, of Toronto, a lady of first-class abilities, highly recommended to us, and who believes eminently qualified to give complete satisfaction in every respect. Miss Morrison has for the past ten years occupied the position of cutter and fitter in one of the leading Fashionable Dress Making Establishments in the City of Toronto. Miss Morrison is also an experienced Mantle maker, and all orders entrusted to her will be executed in a style equal to anything that can be obtained in the largest cities. Orders for these departments will be received on and after Monday next, the 4th of May. A. O. BUCHAM, Fashionable West End Dress, Mantle and Millinery Establishment. (dw)

**Guelph Evening Mercury** MONDAY EVENING, MAY 5, 1873

**Town and County News.** A new post office has been opened at Marsville, East Garafraxa. We learn from the Mount Forest Examiner that some unscrupulous persons are now and again discovered inducing children from Miss Rye's "Western Home" settled in the neighborhood, to leave the protection of their guardians. The Examiner mentions one of two cases which have taken place recently and justly condemn such reprehensible conduct. LUMBERING ABOUT MOUNT FOREST.—The Examiner says an extensive business has been carried on in this vicinity during the past winter by certain lumbering firms, prominent among whom were Messrs. E. Koach, of Quebec; A. Wilson, of Ottawa; A. Macaulay, of Lindsay; and Edsell & Smith, of Toronto. An immense quantity of squared timber has been got out and deposited for shipment by the T. G. & B. and W. G. & B. Railways. About 250,000 cubic feet will be removed by the Toronto road, the greater part of which is at or near the Mount Forest station. Shipment commenced on Monday last and has since been proceeding briskly. ATTEMPT TO COMMIT SUICIDE.—On Saturday evening a young man named Alex. McGinnis made a sort of attempt to commit suicide—whether real or feigned it is hard to say. He had been drinking a little during the afternoon, but his effects were scarcely perceptible on him. Towards six o'clock he told a young man up town that he was going to drown himself, and that trouble was the cause of his taking this rash step. It seems that shortly after this he left, going towards the Dundas bridge. The young man referred to, thinking he might attempt to make away with himself followed at some distance, McGinnis when he got to the river near the bridge, took a rope he had with him, tied one end of it to a log and attached the other end to his body. He then got into the water, we suppose to try what drowning was like, for no one seriously bent on committing suicide would have fastened the rope to the stump. After splashing about in the water for a little the young man and some boys who were fishing near by, went to him, took him out of the water, and saw him on the way home. We are inclined to think from the foregoing that McGinnis had no serious intention of making away with himself, but on account of family and other troubles tried to frighten those with whom he is connected. POLICE COURT. Before T. W. Saunders, Esq., P. M. Monday, May 5. The Chief Constable charged Robert Emble, David Allan and Thos. Dobbie with breach of by-law in not erecting a fence to guard against accident in a quarry near the Waterloo Road. The two former were fined \$2 and costs; the case against the latter was dismissed. Mr. Allan intends to appeal. The regular monthly meeting of the Maple Leaf B. B. Club will be held tomorrow (Tuesday) evening, at the Queen's Hotel. The Baltimore defeated the Athletics at ball on Thursday by a score of 12 to 10. It appears that the recent accident on the Grand Trunk, at St. Hilarie, was the result of culpable negligence on the part of the trainman who remedied the defect, but never made the affair known at St. Hilarie.

## Local and Other Items.

So far 849 bodies have been recovered from the wreck of the Atlantic. Work has been again commenced on the Owen Sound extension of the T. G. & B. R. They are talking of erecting at Nanapanee this year 200 new buildings—120 being now under contract. The Directors, with the Engineers, of the Credit Valley Railway, have located the line as far as Streetsville. MITCHELL has a vigilance committee that keeps an eye open for the tavern-keepers on Saturday nights and Sundays. The first meeting of the season on the Hamilton Driving Park will be held on the 24th and 25th of June. Premiums \$3,000. The Milton Champion chronicles the death of Mr. Daniel McLean, who for many years held a prominent position in the County of Halton. The annual public examination of the French Canadian Missionary Society's School at Pointe-aux-Trembles was held last week, and was in every respect highly gratifying. The latest English wool shows a decline in prices amounting to 2d to 3d per pound on Australian wools, and 1d to 3d on Cape wools as compared with the closing rates of December. The dwelling house of Mr. McDonald, 9th line, Esquimaux, was on Wednesday totally destroyed by fire, together with all its furniture. The fire was the result of an accident. The contractors for the construction of the Toronto, Grey and Bruce Railway between Wrexeter and Teeswater, Messrs. John & Thomas Robinson, have pushed the work with considerable energy. Since the 1st of February the road has been cleared out, and the principal cutting and filling done, with the timber and rails for fencing all on the ground. As an indication of the sudden rise in property in St. Thomas, the Home Journal says:—Two months ago Mr. James Hutchinson, of the Hutchinson House, bought Dary's Saloon, on the corner of Talbot and William Streets, for \$4,000. Finding that one house was as much as he could attend to he disposed of it the other day to Mr. Samuel Martin for \$6,000. Property is going up with rapid strides. ANOTHER DARING BURGLARY.—Another daring burglary was committed at Stratroy on Friday night. An entrance was effected into Pearce & Polley's dry goods establishment by means, it is supposed, of skeleton keys. The burglars drilled a hole in the door of a safe and then blew it open with gunpowder. Two hundred and forty-five dollars in cash were abstracted from the safe. The goods in the store were not molested, the object being money. No trace of the burglars yet. SUDDEN DEATH.—Mr. Geo. Rice, Manager of the Great Western Refreshment Rooms in London, died on Saturday from the effects of chloroform administered by Dr. Caldwell. The deceased had gone to the Teemchess House on the Thursday previous to have tumors removed from his eyes. At his own request chloroform was administered. After removing one tumor the patient was, to all appearance, dead. He was, however, resuscitated, but after lingering till Saturday, expired. His remains will be taken to Detroit for interment. THE BRUCE MURDER CASE.—The trial of the five prisoners indicted for the murder of George Price, in the township of Bruce, on the 17th of March last, terminated on Saturday, and resulted in a verdict of wilful murder against James Johnston, and manslaughter against James Best, Arthur Best, John Kerr and Edward Johnston. James Johnston was sentenced to be hanged on the 3rd of July. James Best, three years in the penitentiary; Arthur Best, two years in the penitentiary; John Kerr, twelve months in jail; and Edward Johnston, six months in jail. The prisoners were defended by Hon. M. C. Cameron. TEMPERANCE IN MASHTON.—In the House on Saturday Dr. Tupper said in acceptance of the suggestion of Mr. McKenzie, he would move an amendment to the consolidated Act for the Government of Manitoba "That no spirituous or vinous liquors shall be allowed to be manufactured in, or brought into, that territory from any of the Provinces of Canada, except by special permission of the Lieutenant-Governor, and if such spirituous liquors were brought into the territories in contravention of this Act, they should be seized by an excise or other officer of the Government, and that a sum of not more than one hundred dollars be paid as a penalty by the person upon whom such liquor was found, one half of which would go to the party prosecuting, and one half to Her Majesty." THE GLOBE OF TO-DAY.—The Ontario Government have determined to send Mr. Edwards, Secretary of the Public Works, to England, for the purpose of clearing up all difficulties in the Emigration Department in London. The attacks of the Opposition press here on Mr. Horrocks Cocks, originally instigated by rivals of that gentleman in the emigration business in England, have created confusion and hesitation in London. Mr. Edwards, who sails by the next steamer from New York, will enquire into all complaints made against Mr. Cocks, and ascertain whether Mr. Carling was in the right when he promised that gentleman an appointment in England. SONS OF SCOTLAND.—A publication has been laid on our table bearing the above title and is brimful of the melodies of Scotland. All lovers of Scottish song should have it. This is the Royal Edition, and both music and words are beautifully printed. For sale in Guelph by Mr. John Anderson. Price 75 cents.

## GUILD'S SIGNAL.

AN INCIDENT OF THE STONINGTON RAILWAY ACCIDENT. Two low whistles, quiet and clear. That was the signal the engineer gave to his wife at Providence. As through the sleeping town, and thence, Out in the night, On to the light, Down past the farms, lying white, he sped! As a husband's greeting, scant no doubt, Yet to the woman looking out, Watching and waiting, no serenade, Love song or midnight roundelay, Said what that whistle seemed to say: "To my trust true So love to you!" Working or waiting, Good night!" it said. Brisk young bagmen, tourists fine, Old commuters along the line, Brakemen and porters glanced ahead, Smiled at the signal, sharp, intense, Pierced through the shadows of Providence "Nothing amiss! Nothing!—It is Only Guild calling his wife," they said. Summer and Winter, the old refrain Rang o'er the billows of ripening grain, Pierced thro' the budding boughs o'erhead, Flew down the track when the red leaves burned Like living coals from the engine spurned: "To our trust true, First of all Duty—Good night," it said. And then, one night, it was heard no more, From Providence to the westward, And the folk in Providence smiled and said As they turned in their beds, "The engineer Has once forgotten his midnight cheer!" One only knew To his trust true Guild lay under his engine—dead. N.Y. Tribune. BRET HARTE.

**News From Ottawa.** (Special to The Evening Mercury). OTTAWA, May 5, 2 p.m. Sir George E. Cartier has taken his passage for Canada, with the full assent of his doctors. He is expected to arrive in two or three weeks. There is a rumor abroad, based upon apparently reliable authority, that orders have been issued for a parade of the Governor-General's Foot Guards, on Saturday next, the 10th, on the occasion of the prorogation of Parliament. It seems, however, utterly impossible that the Government business can be got through by that time. Some members from the Marine Provinces do not hesitate to say that Parliament will not be prorogued until the 20th, but will consummate the arrangements for union with Prince Edward Island before the close of the session. A delegation from the New Government of the Island is expected to arrive to-day to arrange final terms of union. The Select Committee, on charges made by Huntington in relation to the Pacific Railway charter, met this morning and decided to adjourn to July. Sir John Macdonald stated that Parliament would not now be prorogued but would simply adjourn. The Committee on re-assembling will probably sit in Montreal. In the Public Accounts Committee this morning the investigation into the irregularities at the Levis Camp was proceeded with. Col. Robson Ross, Adjutant-General, made a statement in which he said he was only responsible to the Governor-General for his conduct, and should demand a full enquiry into his conduct; and repudiated certain allegations made that he was the political tool of the Government. The Senators and members of Parliament from New Brunswick have this morning sent a message over the wires to Sir H. Doyle, bidding him farewell, on his leaving for England, on the expiration of his term of office as Lieutenant-Governor of Nova Scotia. Beautiful weather.

**Latest from Ottawa.** (Special to The Evening Mercury). **Attempt to Choke Off the Pacific Railway Inquiry Committee.** The Corruption Committee met this forenoon. Sir John asked for an adjournment until July then to meet in secret, when convenient. A resolution to this effect was brought to the Committee out and dried, and carried. OTTAWA, May 5, 2:30 p. m. The Opposition are indignant at this disgraceful trick. A strong discussion will take place on the report to-day. **The New English Church, Guelph.** To the Editor of THE MERCURY. Sir,—Being a stranger in town, and having a desire to attend divine service, I went with other strangers yesterday to the English Church. Seeing no one at the door to show us to a seat, and after waiting awhile, our only alternative was to ask the bell-ringer if we could sit in a certain pew, in which there was only one occupant—a lady. He replied in the affirmative, and we took our seats. Having sat some time a gentleman came up to us, and enquired our names, which we gave, adding that we were strangers. He then ordered us out of the pew, and had we consulted our personal feelings, and not taken into account the sanctities of the place, we would have come straight out of church. When a mistake occurs, especially with strangers, it would surely be better instead of affronting them to show them a little kindness, to explain the mistake, and to give them a welcome by showing them to another and unoccupied seat. This is the custom in other Christian churches, special attention being invariably shown to strangers; and surely the English Church in Guelph does not profess to practise a different form of Christian procedure from other churches, for the course I have referred to is unquestionably the right one, and bears the stamp of true Christian fellowship. Yours, &c., Guelph, May 5, 1873.

**THE BILL** for the regulation and control of the Clergy has finally passed the Prussian Diet.

## THIS MORNING'S DESPATCHES

**New Cables on the Atlantic.** Review of the Russian Troops. Expedition against Khiva. New Republican Journal. Party disputes. Indian Troubles. Natural Bridge Formed. Railway Extension. Shooting Affray. Fall of an Iron Bridge—Thirty persons killed. London, May 4.—The steamer Hibernian leaves on Monday, the 5th inst., to repair the French cable. The Great Eastern and Edinburgh leave the latter part of the month to lay the cable from Valencia to Heart's Content. The Great Eastern will then return to repair the broken Anglo-American cable, and the Edinburgh will proceed to lay two new cables between Ploceatis, Newfoundland, and Syka, Cape Breton. It is expected that four cables will be working across the Atlantic, and five across the Gulf of St. Lawrence, before the 1st of September. The first report that a number of persons were killed and injured by an accident to a railway train from London to Chester was exaggerated. St. Petersburg, May 3.—Fifty thousand Russian troops stationed in and near this city were reviewed yesterday afternoon by the Emperor of Germany and the Czar. Last evening St. Petersburg was illuminated in honor of the Imperial visit. St. Petersburg, May 4.—Despatches from Orenburg report the column marching from that point against Khiva finds its progress difficult and makes only 20 versts a day. The vanguard arrived at Techkaskule on the 16th of April, and the main body was at Namaztan. Havana, May 5.—The announcement is made that a new Republican journal will soon be established here. The dispute between the Conservatives and Republican papers here is violent, and vexes hotter every day. San Francisco, May 4.—There are no new demonstrations against the Indians and none by Modocs against the troops. Lieut. Egan will probably leave San Francisco in a few days with batteries A and K. Mortars will be sent in future. New York, May 3.—A letter from British Columbia states that the recent earthquake threw the banks of the Columbia River near Fort Shepherd together in such a manner as to form a perfect bridge across. New York, May 4.—Arrived steamship Oceanic from Liverpool. New York, May 5.—The railroad on the west side of the Hudson River is being rapidly pushed forward, and will be completed to Rockland Lake in a few days. A plan is being considered for extending it further toward Albany. Lieut. Yeager, 12th Infantry, left for the Modoc War yesterday with 140 recruits. St. Louis, May 5.—On Saturday night John Zerliner, employed in a mill at Belleville, Ill., shot Jas. Lang with a shot gun, while the latter was in bed, blowing his head almost from his body. Lang was engaged to be married to Zerliner's sister, and the latter opposed the marriage. Zerliner fled and has not been captured. Dixon, Ills., May 4.—The Iron Bridge at this place fell with a terrible crash, this afternoon, while crowded with people to witness a baptism. Thirty-two bodies have been recovered, and many more are supposed to be under the wreck. PREVENTING DECAY OF SHINGLES.—Take a potash kettle or large tub and put into one barrel of wood ashes lye, five pounds of alum, and as much of salt as will dissolve in the mixture. Make the liquor quiet warm, and put as many shingles in it as can be conveniently wetted at once. Stir them up with a fork, and when well soaked take them out and put in more, renewing the liquor as necessary. Then lay the shingles in the usual manner. After they are laid take the liquor that is left, put lime enough into it to make whitewash, and if any color is desirable add ochre, Spanish brown, lamp-black, &c. and apply to the roof with a brush or old broom. This wash is renewed from time to time. Salt and lye are excellent preservatives of wood. It is well known that lead tubes, troughs and other articles used in the manufacture of potash never rot. They become saturated with alkali, turn yellowish inside and remain impervious to the weather.—Scientific American.

**CANADIAN MONTHLY.**—The May number of this popular magazine is now before us, and is as usual full of interest. The contributors are among the most prominent men of the day and their productions up to the standard in every respect. The contents are "Our New Provinces"—"British Columbia" by Lieut. Col. Coffin, Ottawa—"Manitoba" by Prof. Bryce, Winnipeg. "What is Culpable Luxury," by Goldwin Smith, M. A., besides poems, selections, the continued story and the usual contribution "Current Events" in which the author still harps upon the evils of party. The Pacific Railway Scandal Committee commences to take evidence on oath to-day (Monday) under the authority of the Act which received the Royal Assent on Saturday. Two short hand reporters will take the evidence in extenso, meantime it is understood that at the opening of the proceedings the chairman will warn all present that any publication of the proceedings until they shall have been laid before Parliament will be treated as a breach of privilege.

Marine and Fisheries for 1872. The annual report on the Marine and Fisheries of the Dominion is a valuable repertoire of information on the various matters of which it treats, and shows how the country in these respects is making progress.

A large portion is occupied with details concerning the lighthouses of the Dominion which would not be of interest to the general reader, we may mention, however, the fact that the Dominion owns about twenty first-class costly lighthouses with dioptric apparatus, the others are less expensive structures, costing about \$8,000 each and are furnished with catoptric lights. Our shipping interests take a prominent place in the Blue Book before us. We glean a few interesting facts. The total shipping registered in Canada in 1867 amounted to 776,343 tons. In 1871 this had risen to 857,203 tons. This does not, however, represent the total tonnage of vessels owned by Canadians, as a large amount of shipping possessed by them, and trading exclusively to Canada, is registered at some British port. An important increase in the number of steamers owned in Canada, has taken place. There were inspected in 1869, 401 steamers; in '70, 403; in '71, 438; in '72, 473. The aggregate value of the new steamers added in 1872 is estimated at \$1,420,000.

The Fishery season of 1872 was an average one in point of quality but above the average in money value. There are one thousand decked vessels and seventeen thousand open boats engaged in fishing, employing forty-two thousand men. The total number supported by this industry is over 200,000 souls. The value of fish caught last year in the Dominion, exclusive of Manitoba and British Columbia, was \$9,570,116. The catch of the United States during the same year was \$11,696,982, greenbacks. Really, the product of our fisheries exceeds that of theirs: Ours produce \$24,470 quintals of codfish, theirs \$59,982; ours, 119,809 barrels of mackerel—theirs 221,003; ours 330,857 barrels of herring—theirs 31,210; ours, 18,727 barrels of salmon—theirs, 24,118.

The fisheries are improving under the system of protection afforded them: the supply of fish is so increasing that the business will in a short time give remunerative employment to many more persons than are now so engaged.

It is stated that \$140,000 worth of oysters are consumed in the Dominion, of which only one-third is derived from native sources. From the information supplied it appears that the oyster grounds on the Canadian coast are very extensive and are situated in localities admirably adapted for the growth and nutrition of oysters. Along the tidal shores of New Brunswick oysters of the finest description might be raised in enormous quantities, if the natural facilities for their culture were enhanced by artificial aids.

Hon J. G. Currie at Welland.

We learn from the St. Catharines News that the Hon. J. G. Currie has been addressing his constituents at Welland, and defining his position. He said that "when elected he distinctly stated that he was an opponent of Springfield's administration, and they had elected him as such." After reviewing the acts passed during his speakership and endorsing the course taken by the Government, he referred to his recent action as follows:—"Some capital had been made out of the statement that he was disgusted with the Government. He would rather not have seen some of the amounts placed in the estimates, but he would be sorry for that reason to see them succeeded by the present opposition. He had the utmost confidence in Mr. Mowat, and would give him a fair and honest support. He had no sympathy no, feeling whatever with the opposition. Their energy was zeal without knowledge. Would the people be willing to exchange Oliver Mowat for M. C. Cameron. If they did they would choose the days of the old Family Compact."

Respecting the charges made against Messrs. Scott & McKellar, he said "it was quite true that Mr. Scott was somewhat extravagant in his timber land policy, but he attributed this to his having been a Conservative for some time and he was not yet properly reconstructed. The charges against Mr. McKellar were unfounded and untrue. If there was anything wrong in the appointment of the Rev. Mr. Cocks as Emigration Agent, the blame should be attached to Mr. Carling, as Mr. McKellar had appointed Mr. Cocks at Mr. Carling's express request.

Will the Opposition organs be satisfied with the above expressions, or will they continue to assert with their usual hardihood that Mr. Currie is disgusted with the present Administration.

FOR SALE:

MORRISTON HOTEL.

For sale, that well-known old established and popular house, known as the Morrison Hotel, in the Village of Morrison, on the Brock Road, 9 miles from Guelph and 18 from Hamilton. It is a substantial stone and frame building, containing all the necessary accommodation for doing a large business. Attached to it are also commodious stables and driving shed, hard and soft water, and everything complete. There is a large garden belonging to the hotel, also a good ice house, and a fair bank scale for the use of the public.

The purchaser can have the furniture, bar-room fittings, liquors, and all other appurtenances belonging to the house at a valuation, or on such terms as may be agreed upon. The hotel is situated in the heart of a thriving village, and fine farming country surrounding. It is also the leading hotel on the Brock Road between Guelph and Hamilton, and has enjoyed for many years a large and remunerative business. The present proprietor is giving up solely on account of ill health.

For terms and other particulars apply to the undersigned, the proprietor, on the premises, or by letter post-paid to Morrison.

THE DAISY.

My heart is like the daisy, she said, Silver white with a flash of red, That stoops to stand in the meadow grass, While the golden sunny hours pass: Soft and slow The long hours go And the brook is murmuring low. In the tangled hedge of the meadow grows, Flushed and fragrant, a briar-rose, Flung like incense on the air The wealth of its perfume rich and rare, Floating sweet Through sunny heat, Far aloft to the daisy's feet. Over the daisy's patient head Flit the butterflies, brown and red, Bearing the loves of flower and tree—"Have ye never a love for me?" Half afraid, The daisy said, While the bright wings over her played. The bright wings dash and are gone again; Nought have they brought but a little pain To throbb and ache in the daisy's heart—Sitting alone and forever apart, Ah! so far From the rosy star That scarce is conscious that daisies are! But courage! little daisy she said; Fear not to love though hope be dead; The heart that loves, though it love alone, Something better than peace doth own; Hearts are strong, Though life be long, And the blind birds sing the sweetest song!

ANNABEL

THE TEMPTATION.

CHAPTER XVII. JOSEPH LANGTON IS UNEXPECTEDLY DELIVERED FROM HIS DIFFICULTIES. Mr Langton sat alone in his private room, with his elbow resting on the table, and his head bent on his hand. He was deep in thought, and had an air of great dejection and anxiety. The lines which we noticed as visible in his countenance the first time he came before us had now grown into furrows, and as but a few months had elapsed since that time, this proved how his source of anxiety had augmented, how the burden had become day by day heavier, till now it was weighing him down with a force which he could not long sustain. The unexpected entailment of his resources had done all the mischief. But for that he would have been prospering exceedingly, for the extensions he had inaugurated in the business of the house had succeeded according to his shrewd calculations, and a greater command of capital alone was needed to render the new enterprises as lucrative as they were large. But this was just what constituted his difficulties. Deprived of the funds on which he had confidently calculated when he entered upon the speculation, the very magnitude and success of these were pressing hard upon him and threatening to overwhelm him. Twenty thousand pounds would have opened up the way for him to a splendid fortune; but such a sum not being within his reach, the want of it was likely not only to render the extensions abortive, but to involve his whole business operation in an embarrassment from which the very gravest consequences were to be apprehended.

To an upright and honorable merchant, such as was Mr. Langton, a position of this kind is a agony indescribable, and his furrowed brow, haggard features, and whitened hair attested the crushing influence it had upon him. The very worst which could befall was now threatening, and it looked as if his whole worldly affairs were to suffer shipwreck when age was coming upon him, and strength and energy were forsaking him.

Absorbed in reflections of the most gloomy description, the darkness of which no ray of hope could penetrate, Mr. Langton was sitting alone, as we have indicated, when a clerk handed in a morning letter which had come by the afternoon post.

"A letter from France, sir," he remarked with an air of interest, created by the broad border which encircled the envelope.

"Lay it down, Hobbs," returned the merchant listlessly, without looking round.

The man did so, but stood a moment hesitating, as if he would have liked to draw his master's attention to the ominous character of the missive. Mr. Langton's abstraction, however, did not encourage him to do so, and he silently withdrew, leaving the letter lying close to the merchant's elbow.

Little dreamt the latter that the letter which had thus been placed by his side contained intelligence which dissipated all the fears under which he labored, and removed from his shoulders the mountain of care and anxiety which was bruising him to the dust.

The intimation that the letter was from France made the heaviness of his spirits greater rather than otherwise, for it made him think of those who would be brought to poverty by his downfall—of his wife, whose character he feared was very unflinching to bear adversity, yet who was destined ere long to learn that the state of luxury in which she had been kept must be exchanged for indigence and all the privations which it entailed.

With a deep groan which anguish wrung from his bosom, he reached forth his hand mechanically and lifted the letter. He was about to open it in the same mechanical way, when at that moment his eye was caught by the broad border and the large black seal. The sight caused him to start violently, and with a spasmodic jerk he turned the letter to look at the address. It was in his wife's handwriting, and ejaculating "Good God!" he tore open the letter with nervous fingers, while a swift expression of apprehensive consternation took possession of his features.

ADULTERATION OF TEA.—In the British journals there are constant complaints about the adulteration of tea; and while there are some substantiated cases, it can scarcely be doubted that a great deal of unfeared suspicion exists as to this subject. At the places of growth the price of tea, as compared with other articles of commerce that could be used for purposes of adulteration, is so low that few of these articles could be so used with any advantage to the producer or seller, especially as his reputation is involved. It is, however, a well-established fact that green tea is colored with a mixture of Prussian blue and gypsum, or some similar compound. This does not add to the weight, but simply adapts it to British and American tastes. When the tea trade with Japan was first opened, green tea in its natural state was exported, but it proved a drug in the market; it had not the bright, coppery green, though possessed of a fine and delicate flavor, and the excellent defect of not being painted prevented its sale. Japan tea now mostly goes to China for the necessary part before coming to Europe and America.

The census of St. Catharines has just been taken by the assessors, and it has been found that they have now 8,800 inhabitants, an increase of 400 over last year.

"OCEAN TO OCEAN."—We are in receipt of the advance sheet of a work of uncommon interest to Canadians, entitled, "Ocean to Ocean," being a diary kept during a journey from the Atlantic to the Pacific, with the expedition of the Engineer-in-chief of the Canadian Pacific and Intercolonial Railways, by the Rev. Geo. M. Grant, of Halifax, N. S., Secretary to the Expedition. The work is to be profusely illustrated, and by a glance at the contents we find it to contain varied information respecting the soil, climate, resources, &c., of the different provinces of the Dominion. The work is thoroughly Canadian, and is published by James Campbell & Son, Toronto, and Sampson Low, Marston, Low & Searle, Crown Buildings, 158 Fleet Street, London, Eng.

A NEW LINE OF STEAMERS.—A Company, to be known as the Georgian Bay Transportation Company, has been organized in Owen Sound, for the purpose of running a line of steamers between Chicago, Collingwood and Owen Sound. The company have purchased the steamer "City of London" from the North Shore Transportation Company, at a cost of about \$30,000. They also own the "Mary Ward," now lying on the rock upon which she stranded last Fall, and she too will form one of the line. She is reported to be comparatively little damaged, and as soon as the ice clears away will be taken off the rock and to the dry-dock for repairs. In addition to these two vessels, the steamer barge "Mary Robertson," owned by Mr. Craig of Port Elgin, will run on the same route, the three forming an efficient freight and passenger line, leaving Collingwood twice a week.

The Chicago, it is expected, will leave Collingwood on the 8th for Fort William and Duluth, as she is all ready for a start as soon as the breaking up of the ice allows of her making the trip.

**BOOK FOR EVERY MAN.**—The SCIENCE OF LIFE, OR SELF-PRESERVATION. Medical Treatise on the Cause and Cure of Exhausted Vitality, Premature Decline in Man, Nervous and Pysical Debility, Hypochondria, Impotency, Spermatorrhoea or Seminal Weakness, and all other diseases arising from the errors of youth or the influence of excesses of mature years. This is indeed a book for every man. Thousands have been taught by this work the true way to health and happiness. It is the cheapest and best medical work ever published, and the only one on this class of life worth reading. Edition, revised, much enlarged, illustrated, bound in beautiful French cloth. Price 25c. Sent by mail, post-paid, on receipt of price. Address: PEABODY MEDICAL INSTITUTE, No. 4, Bulfinch Street, Boston, Mass., or Dr. W. H. PARKER, Assistant Physician, N.B.—The author may be consulted on the above as well as all diseases requiring skill and experience. Guelph, Sept. 20, 1872.

**PHOSPHOROUS, Lime, Iron, Calcium, or Peruvian Bark.** Dr. Wheeler's Compound Elixir of Phosphates and Calcium combines these valuable remedies in the form of a delicious cordial. Phosphorus, brain food; Lime, an excitant of nutrition; Iron, a blood maker; and Calcium or Peruvian Bark, the only specific for malaria, fever, and all conditions of nervous prostration and general debility. Phosphates are the only agents known that immediately act on the stomach, perfecting the digestion and assimilation of food, and determining the formation of red blood. No combination ever discovered is so remarkable in its combination of these elements. It is a good remedy for all complaints that have their origin in the alimentary tract, and is sold by all druggists.

## LIBRARY GIFT CONCERT.

NINETY DAYS POSTPONEMENT.  
A Full Drawing Certain!  
\$500,000 in Bank to Pay Gifts!  
10,000 Cash Gifts paid in Full!  
\$100,000 for only Ten Dollars!

Enough of the 100,000 Tickets issued for the Third Grand Gift Concert, in aid of the Public Library of Kentucky, having been sold to insure a full drawing, and the wish having been universally expressed that the 10,000 cash gifts offered should be drawn in full and paid in full without any scaling down, as heretofore, the management, and the concurrence of the trustees, have determined to allow ninety days more for the sale of the remainder of tickets left on hand. The concert and distribution advertised for April 8, is therefore postponed to TUESDAY, JULY 8, 1873, on which day, and on no other, they will positively and unconditionally take place in the Public Library Hall, Louisville, Kentucky.

The grand concert for the following cash gifts will be distributed by lot and paid in full to the ticket holders who draw them—

9000 Cash Gifts of 10 " 90,000

Total, 10,000 Gifts all Cash, \$500,000  
The money to pay all these gifts in full is now upon deposit in the Farmers' and Drovers' Bank of Louisville, and set aside for that purpose, and can only be used for that purpose, as will be seen by the following certificate of the Cashier—

OFFICE OF FARMERS' AND DROVERS' BANK, Louisville, Ky., April 7, 1873.  
This is to certify that there is in the FARMERS' AND DROVERS' BANK, to the credit of the Third Grand Gift Concert for the benefit of the Public Library of Kentucky, FIFTY HUNDRED THOUSAND DOLLARS, which has been set apart by the Managers to pay the gifts in full, and which are held in the Bank and paid out for this purpose, and this purpose only. R. S. VECH, Cashier.

The party, therefore, who holds the ticket drawing the capital gift will get \$100,000 in greenbacks, and so of the \$50,000 gift, the \$25,000, the \$20,000, the \$10,000, and all the other gifts, 10,000 in number, amounting to \$500,000.

The concert and distribution of gifts will be held at 6 o'clock on Tuesday morning, July 8th, in Public Library Hall, and the following will be the order of proceedings: 1st, Music by orchestral band. 2nd, Placing of tags for each ticket sold in large wheel. 3rd, Placing of gifts in small wheel. 4th, Music by orchestral band. 5th, Explanatory remarks by President. 6th, Drawing of first half of gifts, and music by orchestral band. 7th, Drawing of last half of gifts. 8th, Placing of large wheel with tags in hands of committee appointed by audience. 10th, Grand orchestral concert.

The music on this grand occasion will be the best that can be procured, and the gentlemen who count and place the tags and gifts in the wheels and superintend the drawing and keep the record, will be drawn numbers will be chosen from the best known and most trustworthy citizens of the State. All will be so conducted as to be a perfect guarantee against complaint from any just source.

The payment of gifts will begin on Saturday, July 12th, at 9 o'clock, a.m. Tickets drawing gifts must be presented prior to the Public Library Building, where cash checks upon the Farmers' and Drovers' Bank of Louisville, or Sight Drafts upon the Fourth National Bank of New York, at the option of the holder, will be given for the tickets. All gifts not called for in six months from the drawing, will be turned over to the Public Library fund.

For full particulars sent for circulars. THOS. E. BIEMETTE, Agent Public Library of Kentucky, Louisville, Ky.

## Iron in the Blood

**PERUVIAN IRON TONIC SYRUP**  
MAKES THE WEAK STRONG.

The Peruvian Syrup, a Protected Solution of the Protochloride of Iron, is so combined as to have the character of an aliment, as easily digested and assimilated with the blood as the simplest food. It increases the quantity of Nature's Own Vitalizing Agent, Iron in the blood, and cures "a thousand ills," simply by Tonicing up, Energizing and Vitalizing the System. The enriched and vitalized blood permeates every part of the body, repairing damage, and waste, searching out and ridding secretions, and leaving nothing for disease to feed upon.

This is the secret of the wonderful success of this remedy in curing Dyspepsia, Liver Complaint, Dropsy, Chronic Diarrhoea, Boils, Nervous Affections, Chills and Fevers, Humors, Loss of Constitutional Vigor, Diseases of the Kidneys and Bladder, Female Complaints, and all diseases originating in a bad state of the blood, or accompanied by debility or a low state of the system. Being free from Alcohol, in any form, its energizing effects are not followed by corresponding reaction, but are permanent, infusing strength, vigor, and new life into all parts of the system, and building up an Iron Constitution.

Thousands have been changed by the use of this remedy, from weak, sickly, suffering creatures, to strong, healthy, and happy men and women; and invalids cannot reasonably hesitate to give it a trial.

See that each bottle has PERUVIAN SYRUP blown in the glass. Pamphlets Free.
