## JUNIORS WIN NINTH VICTORY

Bridgetown Ball Team Defeats Mid-  
dleton 3-2 in Ten Inning Game.  
—Contest With One Excep-  
tion Best Seen Here  
In Years.

Bridgetown Juniors won their ninth  
straight victory on Friday evening  
when they defeated Middleton 3 to 2  
in the best and fastest ball game that  
has been played on the Bridgetown  
Athletic grounds for at least over  
two years. The score was identical  
with that made when the local boys  
visited Middleton a short time ago.  
The game was splendidly played and  
aroused great enthusiasm among the  
fans as the different teams made ex-  
position of snappy work. The bat-  
tles on both teams were particularly  
good and the support except on one  
or two brief occasions was gilt edged.  
The batters found difficulty in con-  
necting with safe hits and only five  
were made off Coleman and 2 off  
Dorey.

Dorey struck out 15 men, Coleman  
6. Batsmen were all retired in one,  
two, three order till the end of the  
fifth innings when the situation be-  
gan to loosen up at intervals but no  
scoring was done till the sixth, when  
with two men on bases Hoyt got a  
safe hit, bringing home Mack and  
Dorey who slid around without much  
trouble while Jack's manoeuvres held  
the attention of Middleton fielders.  
The score remained unchanged till  
the eighth when a two batter by Par-  
sons brought home Baker and Bent-  
ley, tying the score.

Ten innings were necessary to  
break the deadlock. Mack getting  
around the bases through hit by Dorey  
and fielding errors by Middleton. The  
game as a whole was the best and  
most exciting played on the local  
grounds in years, barring only the  
twelve inning game between Bridgetown  
and Middleton Seniors three  
seasons ago.

NOTES.  
Three more consecutive victories  
and the baseball boys win that big  
box of chocolates put up by Mr. A.  
H. Pitcher.

The only unfortunate incident in  
the game was when Robinson was  
struck by a pitched ball and rendered  
unconscious for some moments and  
so injured that he was unable to con-  
tinue play.

## BRIDGETOWN BEAT DIGBY TEAM 17-4.

Home Run by Hoyt Featured.—Win-  
ners Have Not Lost a Game  
This Season.

Digby Juniors suffered a bad defeat  
at the hands of the fast Bridgetown  
Juniors last Wednesday evening, the  
score being 17-4.

Aside from the first inning the  
game was not a bad one to watch,  
but in this inning Bridgetown rolled  
up eight runs. The game was called  
in the seventh inning on account of  
darkness. Miller started the game on  
the mound for the visitors, but was  
so badly hammered that he was taken  
out and after that quite an inter-  
esting game was turned in.

The outstanding feature of the game was a  
home run by Hoyt, for Bridgetown,  
over the left field fence. This makes  
the eighth straight victory for the  
home boys, who have not been de-  
feated this year.

Bridgetown—Hoyt, c; Gatti, 3b;

## BRIDGETOWN WINS TENNIS LEAGUE

Defeat of Middleton Gives Local Club  
Lead in Their Section of Valley  
League.—Play Offs to Settle  
Championship.

By virtue of a seven to one win  
over Middleton on Saturday, Bridgetown  
clinched its half of the Western  
Section of the Valley Tennis League.  
The home club has yet to play  
Lawrencetown but win or lose it can-  
not effect the final standing of the  
clubs as Bridgetown to date has not  
lost a league tournament, and now  
meets the winners of the other half  
of this section and the winners of  
that tournament meet Wolfville for  
the Valley championship. Although  
Bridgetown emerged a decisive win-  
ner on Saturday the events were hol-  
ly contested, many of them going to  
three sets. The ladies singles after a  
three set match finally went to  
Bridgetown. Mrs. Flett dropped the  
first set 5-7 but came back strong  
and captured the next two, 6-2, 6-2.  
The girls doubles between H. B.  
Hicks and L. Ruggles vs F. Lloy and  
C. Fisher also produced some good  
tennis. Due to the steadiness of C.  
Fisher and the net play of F. Lloy  
Bridgetown captured the first set 6-4.  
Bridgetown players however soon set-  
tled down and ran out on the next  
two sets by the score of 6-2, 6-4.

Tea was served on the home  
grounds and some twenty odd Mid-  
dleton players and spectators were  
hospitably entertained.

The scores of the different events  
are as follows:

Men's Singles—Fred Lloy defeated  
Vinton Lloy 6-4, 6-0.

Men's Doubles—H. B. Hicks and  
L. Ruggles defeated C. Fisher and F.  
Lloy, 4-6, 6-2, 6-4. Dr. Crowe and  
Vinton Lloy defeated J. McDaniel  
and W. Bowby 6-3, 6-4.

Mixed Doubles—Mrs. F. R. Fay and  
James Fay defeated C. Fisher, and Mrs.  
Balcom 6-3, 6-3. Miss Ruth  
Fowler and J. H. Freestone defeated  
Miss M. Freeman and W. Bowby 7-5,  
6-2.

Ladies' Doubles—Mrs. F. R. Fay and  
Mrs. W. Flett defeated Mrs. Broadfoot  
and Miss B. Gullivan 6-2, 6-3, 6-3.

Miss Ruth Fowler and Miss D.  
Lloy defeated Miss Freeman and Mrs.  
Balcom 6-3, 6-1.

Ladies' Singles—Mrs. W. Flett de-  
feated Miss B. Gullivan 5-7, 6-2,  
6-2.

Gordon Ross, 15 Year Old Boy, Acci-  
dentally Shot by Companion  
in Revolver Practice.

Digby, N. S.—As a result of the acci-  
dental discharge of a revolver in  
the hands of a St. John boy named  
Flaherty, Gordon Ross, aged 15 years  
liead at his home in Culoden, six  
miles from here. The accident took  
place near his home, while the two  
were shooting at bottles.

Ross was replacing the targets  
when his companion, who is a relative  
of his, in some way discharged  
the revolver. He is a brother of Cap-  
tains Harry and Wiley Ross, among  
the most successful of the "Captains  
Courageous" of the Gloucester fleet  
and is a son of Mr. and Mrs. Alex.  
Ross. Besides these mentioned he al-  
so leaves one other brother, Roy, and  
seven sisters, Mrs. Monty Squire and  
Miss Gertrude Ross of Montreal, Hael  
and Frances at home, sister Ruth in a  
convent in St. John, Mrs. Charles  
Vantassel, of Culoden, and Mrs. J.  
Tidd, of Mt. Pleasant.

## EDITORIAL NOTES.

### THE DUTIES OF EMPIRE.

Bulwago Chronicle: The Empire to which we belong is a fact and an ideal far beyond the considerations of local nationality or of any Dominion or Colonial affairs. Britain, as the heart of the Empire, has a permanence and significance entirely distinct from the politics and the personalities of the moment. . . . What the Empire is yet to be depends upon the men and women of which it consists. Broad lands we have in all quarters of the globe, but they were there before our own or any other Empire arose, and they will still exist in ages to come. It is being emphasized more and more that the happiness and strength of any nation or group of nations depend upon new wealth created by industry from day to day and upon its just distribution.

### PREPARATIONS FOR PROSPERITY.

Westminster Gazette: Any schemes which would improve and cheapen our transport system, or our supplies of industrial power, or which promise in other ways a future return in the shape of increased trade, are suitable objects for State assistance at the present time. During a boom period in trade most of our available labor is needed to supply goods, and it is during a time of depression like the present that we should try to improve and to add to our industrial equipment. It is necessary, moreover, that we should do this, not only in order to enable us to compete successfully with other industrial nations in the future, and if we refrain from doing it we may find that the only alternative is to reconcile ourselves permanently to a lower standard of life.

### THE NON-NATIONALS.

Auckland (N. Z.) Weekly News: The party the Labor Government represents has made much of "internationalism," however, is to mislead words. It is not international, but non-national. International co-operation presupposes distinct nations able to co-operate. In the vague cosmopolitanism that forms so large a part of Labor's creed a strong nation is out of place, an embarrassment, a danger. What is desired is a fusion of peoples into a structureless conglomerate, without national distinctions of language or law or custom. It is an impracticable and unutterable dream as foolish as it is fantastic. In the present age of the world, with many peoples still barbaric and undisciplined, any feverish attempt to compass a universal federation would be doomed to defeat itself.

### PULLING TOGETHER.

Natal Advertiser: The great problems that face the country (British India) at the present moment are three, and they are all connected, while being as old as the country itself. The first is to be found in the poverty and ignorance of the people. The second lies in the difficult of maintaining order in so vast and so thickly populated an empire. The third is the religious difficulty, the troubles which grow out of the fanatical enthusiasm resulting from the variety of creeds which are to be found side by side. Experts say that the sensible Indians know that the solution of these vast problems lies largely with them, and it is to be hoped they will set to work with that object instead of eternally squabbling with each other and with the Government. If they do that—whether they call themselves Swaraj, Liberal, Landowner or Official—they will have the hearty sympathy of all the British peoples.

### SERVANTS OR TYRANTS.

The maintenance of essential services by all means at the disposal of the state is something entirely distinct from taking sides in an ordinary industrial dispute. The unlimited right

to strike is clearly analogous to the unlimited right to lock-out. A private firm can close down at its pleasure; therefore the employees of a private firm cannot reasonably be denied the right to withhold their labor when they deem it to their interest to do so. But a railway company, a water supply company, a gas or electricity company cannot suddenly announce that it is giving notice to all its staff in order to bring about a revision of wages. It is bound, under statute to perform certain services, whether the are for the moment profitable or not, and accordingly its employees enjoy a security which attaches to no strictly private employment.

### STATISTICS VS. STATEMENTS.

London Daily News: The statement very frequently made that crimes of passion have increased since the war has been repeated so often and with such authority that it is time to say quite frankly that it is not true. . . . The criminal statistics for 1913 and 1921 of offences against the person reveal the following facts.

	1913	1921
Murder (persons aged over one year)	111	90
Threats or conspiracy to murder	20	16
Manslaughter	154	113
Felonious wounding	240	184
Assault	50	39
Total of all offences against the person	4,710	4,239

These figures of some of the offences against the person, taken from a list covering 26 different types of crime, show quite clearly that during the year before the war there were actually nearly 500 more "crimes known to the police," to use the official phrase, than in 1921. The truth is that although there have been many remarkable crimes of passion which can be attributed directly or indirectly to the after effects of the war, there has not been the great increase in crime to which reference is so frequently made. The erroneous statements of this subject should be contradicted whenever they are made.

### "SOB STUFF."

The Australian: An observant and reflective person may be inclined to despair of democracies when he contemplates the selfishness which is so profusely supplied to them. The United States, the largest of democracies, is the one wherein these tendencies are most rife; but it is happily also, a country which has coined the phrase that describe them accurately. It must not be supposed, however, that the proneness to be gratified by "sob stuff" is merely a matter of theoretical bad taste and poorness of understanding. It is really a form of social menace. . . . Mr. Taft, a former President and a lawyer of eminence has written that "the lax administration of the criminal law is due in a marked degree to the prevalence of maudlin sentiment among the people and the alluring limelight in which the criminal walks if only he can give a little sensational coloring to his mean or sordid offence."

## PROGRESS BY BEAR RIVER PULP CO.

The Bear River Pulp Mills, Ltd., are spending in the neighborhood of \$300,000 in the rehabilitation of Clarke Bros. mill at Bear River. Several new machines are being installed which will not only increase production but will put the mill on a more efficient basis and reduce overhead. A pipe line for the supplying of water is already practically completed. The line is about 5 1/2 miles in length and runs from the east branch of the Bear River to the plant. It is expected that alterations will be completed and the mill in operation by October 1st.

## SAMPLE THE GOODS, SAYS THIS FARMER.

Tells Why He Considers Nova Scotia Good Enough For Him.

They met in the country Market. They were both farmers. Not having met for some time, there were mutual inquiries regarding the crops and the general outlook. Presently one said: "I think I'll sell out and go to Florida or California. There's nothing any more for a farmer in this country."

The speed with which the other man seized him and backed him in to a corner may have caused the speaker some apprehension, but he was not left long in doubt. "Say," said the other man, "I want to tell you something right now. I know all you got to say about working from daylight till dark—fighting grubs and bugs and worms and flies getting no price for anything—freezing to death in winter and taxed to death all the year around. I've said all that—and I've said it harder than a good Methodist like you would ever think of saying it."

"Then what are you grabbin' me for?" demanded the first man. "Because," said the second man, "I've been to Florida. Yes, sir—I've been to Florida. I'd been farmin' home here for thirty years. I got a good farm—as you know—and a good orchard—but I got fed up on it the same as you are, and wanted a change. I thought if I could go south and let an orange grove or something like that keep me—without my working or freezing to death—it was just what I wanted."

"But you didn't sell out," said the first man. "No," said the other, "I did have sense enough not to sell. But I'll tell you what I did. I bought a Ford car last fall, fixed things up at home and away I went to Florida to spy out the land—like them first old fellers that went into Canada. I got there in November. Goin' to a hot climate, I didn't take any heavy clothes; but when I got there late in November I nearly froze till I bought a heavy mackintosh. Believe me, Mister, they have weather in Florida, too. Then, when it was hot, me and another feller started for a swimmin' hole. One of the natives said the alligators was waitin' round lookin' for northern meat—and that settled that. We went to the hotel and paid for our bath. "One hot day I thought I'd lay down under a tree—and along comes a man and tells me I better keep an eye out for rattlesnakes. They warned me to look out for pizn spiders

and things if I went pickin' any fruit. Say—they had more 'Thou shalt nots' in Florida than were ever learnt about in Sunday school. I got so cautious before long that I looked under the bed for snakes and didn't dare take a nap in the old Ford. When I wanted fruit I bought it at the store.

"Well, sir—so long as I'd gone so far and planned to stay awhile, I thought I'd earn a dollar. I got a job pickin' oranges. Pickin' apples at home was drudgery, of course; but pickin' oranges in Florida was something to write poetry about. I didn't write any, and all I could get was a dollar and a half a day. That was the rate for unskilled labor in that part of Florida. I pay more to the help in my own orchard. I figured that the owner of that orange grove, gettin' help so cheap, and sellin' his oranges at five cents apiece, as I 'posed he did, judgin' from what I used to pay for them at home, must be gettin' rich awful fast. I thought an orange grove was just the thing I needed.

"That idea didn't stay with me very long. After workin' two weeks the boss come around and knocked us all off. The trees was still loaded with oranges and I asked him what was the matter. He said there was no market and the oranges wasn't worth pickin' for what he could get for them. Then he talked about the frost, and how it sometimes killed the trees as well as the fruit—and I concluded the old orchard back home wasn't so bad after all.

"But I haven't mentioned the flies—sand flies, mosquitoes, fleas almost as big as a pullet—flies that had what you'd call an aim in life. And they didn't offend miss their aim, either. Well—I got home all right, and I have a nice crop comin' along—and old Nova Scotia looks good to me. If you'll take my advice you won't sell out till you tramp over the distant hills that look so green, and find out what they have that's better than you have right here."

"I guess," said the first man, "you're about right, after all."

IN THE MATTER of the expropriation of certain lands alleged to be owned by ESTELLA MORINE of Bear River, in the County of Annapolis, Widow of Leigh Morine, late of Bear River, in the County of Annapolis, Deceased, which lands are situate at Bear River, in the County of Annapolis.

IN THE MATTER of Chapter 124 of the Acts of Nova Scotia for the year 1924, entitled, "An Act relating to Bear River Pulp Company, Limited."

TAKE NOTICE that under and by virtue of Chapter 124 of the Acts of Nova Scotia for the year 1924, Bear River Pulp Company, Limited, expropriated certain lands situate at Bear River, in the County of Annapolis, the last recorded owner of said lands being Leigh Morine, Deceased, the said lands so expropriated being more particularly described as follows:—

"ALL of that certain lot, piece or parcel of land situate, lying and being on the eastern side of Bear River, in the County of Annapolis, and which said land may be more particularly described as follows, that is to say:— BEGINNING on the northern boundary of lands of Mrs. Estella Morine and at a point where it is intersected by the centre line of one pipe line of the Bear River Pulp Company, Limited, as shown on a plan marked Bear River Pulp Company, Limited, Pipe Line, dated July, 1924; thence to run north 50 deg. 47 min. East 15 1/2 feet, more or less, to a point distant 15 feet measured at right angles and in an easterly direction from the centre line of the said pipe line; thence southerly parallel to the centre line of the said pipe line 125 feet, more or less, to the southern boundary of the said Mrs. Estella Morine lands; thence south 50 deg. West along the said last mentioned boundary 31 feet, more or less, to a point distant 15 feet measured at right angles in a westerly direction from the centre line of said pipe line; thence northerly parallel to and distant 15 feet from the centre line of said pipe line measured in a westerly direction from the centre of the said pipe line 104 feet, more or less, to the northern boundary of the said Savery Estate lands; thence north 52 deg. 15 min. East along said last mentioned boundary 15 feet, more or less, to the place of beginning. Being that area enclosed by red lines and designated '35' upon the aforementioned plan."

AND FURTHER TAKE NOTICE that a plan, identified by the signature of Pickings and Wilson, Civil Engineers, Halifax, N. S., showing the said lands, which plan is dated July, 1924, was duly filed in the office of the Registrar of Deeds at Bridgetown, in the County of Annapolis, on the 17th day of July, A. D., 1924, by Bear River Pulp Company, Limited.

AND FURTHER TAKE NOTICE that a description of the said lands, identified by the signature of C. W. Rantoul, Manager of Bear River Pulp Company, Limited, was also filed in the office of the Registrar of Deeds at Bridgetown aforesaid on the 17th day of July, A. D., 1924, by Bear River Pulp Company, Limited.

AND FURTHER TAKE NOTICE that you, the said Estella Morine, or whoever else may claim an interest in the said property, are hereby required, within twenty days from the 17th day of July, A. D., 1924, to appoint an arbitrator to determine the compensation payable in respect to the lands herein described and expropriated by Bear River Pulp Company, Limited, and the damages, if any, sustained by you by reason of such expropriation, as provided by the terms and provisions of said Act.

AND FURTHER TAKE NOTICE that if within twenty days next after the 17th day of July, A. D., 1924, you, the said Estella Morine, or any of you, fail or neglect to appoint an arbitrator to ascertain the compensation payable for such lands and the damages, if any, sustained by you by reason of such expropriation, and to notify said Bear River Pulp Company, Limited, of such appointment, as provided by the said Act provided, the said Bear River Pulp Company, Limited, will, at the expiration of said twenty days, apply to a Judge of the Supreme Court of Nova Scotia to appoint a person to be arbitrator to represent you, or any of you, so in default in the appointment of such arbitrator.

## In The Matter of Bear River Pulp Company, LIMITED

IN THE MATTER of the expropriation of certain lands alleged to be owned by GEORGE SAVERY, whose address is at present unknown, and which lands are situate at Bear River, in the County of Annapolis.

IN THE MATTER of Chapter 124 of the Acts of Nova Scotia for the year 1924, entitled, "An Act relating to Bear River Pulp Company, Limited."

TAKE NOTICE that under and by virtue of Chapter 124 of the Acts of Nova Scotia for the year 1924, Bear River Pulp Company, Limited, expropriated certain lands situate at Bear River, in the County of Annapolis, the last recorded owner of said lands being George Savery, whose last known address was 332 Congress Street, South Boston, Massachusetts, and whose address is at present unknown, the said lands so expropriated being more particularly described as follows:—

"ALL of that certain lot, piece or parcel of land situate, lying and being on the eastern side of Bear River, in the County of Annapolis, and which said land may be more particularly described as follows, that is to say:— BEGINNING on the northern boundary of lands of the Estate of George Savery and at a point where it is intersected by the centre line of the pipe line of the Bear River Pulp Company, Limited, as shown on a plan marked Bear River Pulp Company, Limited, Pipe Line, dated July, 1924; thence north 52 deg. 15 min. East 15 feet, more or less, to a point distant 15 feet measured at right angles and in an easterly direction from the centre line of the said pipe line; thence southerly parallel to the centre line of the said pipe line 104 feet, more or less, to the southern boundary of the said Savery Estate lands; thence south 36 deg. 15 min. West along the southern boundary of the said Savery property 30 feet, more or less, to a point distant 15 feet measured at right angles and in a westerly direction from the centre line of the said pipe line; thence to run northerly parallel to and distant 15 feet measured at right angles and in a westerly direction from the centre of the said pipe line 104 feet, more or less, to the northern boundary of the said Savery Estate lands; thence north 52 deg. 15 min. East along said last mentioned boundary 15 feet, more or less, to the place of beginning. Being that area enclosed by red lines and designated '39' upon the aforementioned plan."

AND FURTHER TAKE NOTICE that a plan, identified by the signature of Pickings and Wilson, Civil Engineers, Halifax, N. S., showing the said lands, which plan is dated July, 1924, was duly filed in the office of the Registrar of Deeds at Bridgetown, in the County of Annapolis, on the 17th day of July, A. D., 1924, by Bear River Pulp Company, Limited.

AND FURTHER TAKE NOTICE that a description of the said lands, identified by the signature of C. W. Rantoul, Manager of Bear River Pulp Company, Limited, was also filed in the office of the Registrar of Deeds at Bridgetown aforesaid on the 17th day of July, A. D., 1924, by Bear River Pulp Company, Limited.

AND FURTHER TAKE NOTICE that you, the said George Savery, are hereby required, within twenty days from the 17th day of July, A. D., 1924, to appoint an arbitrator to determine the compensation payable in respect to the lands herein described and expropriated by Bear River Pulp Company, Limited, and the damages, if any, sustained by you by reason of such expropriation, as provided by the terms and provisions of said Act.

AND FURTHER TAKE NOTICE that if within twenty days next after the 17th day of July, A. D., 1924, you, the said George Savery, or any of you, fail or neglect to appoint an arbitrator to ascertain the compensation payable for such lands and the damages, if any, sustained by you by reason of such expropriation, and to notify said Bear River Pulp Company, Limited, of such appointment, as provided by the said Act provided, the said Bear River Pulp Company, Limited, will, at the expiration of said twenty days, apply to a Judge of the Supreme Court of Nova Scotia to appoint a person to be arbitrator to represent you, or any of you, so in default in the appointment of such arbitrator.

DATED at Bear River, N. S., this 17th day of July, A. D., 1924.  
C. W. RANTOUL,  
General Manager Bear River Pulp Company, Limited.

## Railways now Preparing for Harvest Rush

Cutting of all wheat is expected to begin within about a week, says a report of the Ontario Department of Agriculture, and as a rule fall wheat is looking very promising. Western reports are also very encouraging, but just what the harvest is expected to be will not be generally known until representatives of the three prairie Provincial Governments and the two railroads meet in Winnipeg to discuss the labor situation and the best means of securing help to harvest whatever crop there is. However, the crop reports issued to date by the Agricultural Department of the Canadian Pacific Railway have been very optimistic and this company is already gathering and distributing equipment to various points in anticipation of a heavy movement of harvest.

The movement of harvesters has developed into quite a department in railroad transportation offices. As once the movement starts it must be rushed through to completion as speedily and effectively as possible, the attention of a large staff of men is concentrated for nearly a month before, during and for some time after the rush on assembling equipment, distributing it to the various parts of the country from whence the harvesters are drawn, making up the special trains, securing supplies for the lunch cars, and the hundred and one things which have to be looked after in order to ensure smooth running and of which the traveler usually knows nothing and probably cares less.

During the last four years the Canadian Pacific Railway has handled some 85,000 west-bound harvesters. Last year this Company inaugurated the Lunch Counter car which afforded facilities hitherto unknown to excursionists and, although perhaps not as a direct result of this innovation, over 26,000 men travelled in special trains over Canadian Pacific lines.

This year the Company is making practically the same preparation as last. As soon as it is known just how many are required to work in the harvest the excursions will be arranged and the excursions originate from as far east as the Maritimes and as far west as the border of Ontario, but all are of the same type as far as rail equipment is concerned.

Colonist cars are used which afford comfortable seating during the day, facilities are afforded those who wish to prepare their own meals in a small kitchen at the end of each car, and at night the seats are pulled down as an upper berth or the seats extended to afford comfortable sleeping quarters. The lunch counter car in which as many as fifty men can take a meal at the same time is an important section of the train. The travelling harvester is sure of being able to secure a meal to suit his purse and of the food supplied him being of good quality and served in a sanitary manner. Last year this department on Canadian Pacific lines served over two hundred thousand meals, and the experiment was so much appreciated, and proved such a success that it has now become a regular institution.

Old timers travelling west now-day's regard the trip as a holiday and the number of women and children who have been seen travelling with the harvesters since the standard of service rendered has been what it now is, has increased to a remarkable degree.

**STOMACH TROUBLE DUE TO THIN BLOOD**

It Usually Disappears When the Blood is Made Rich and Red.  
Thin blood is one of the most common causes of stomach trouble. It affects the digestion very quickly. The glands that furnish the digestive fluids are diminished in their activity, the stomach muscles are weakened and there is a loss of nerve force. In this state of health nothing will more quickly restore the appetite, digestion and normal nutrition than good, rich, red blood.  
Dr. Williams' Pink Pills Act directly on the blood, making it rich and red, and this enriched blood strengthens weak nerves, stimulates tired muscles and awakens to normal activity the glands that supply the digestive fluids. This is shown by an improved appetite, and soon the effect of these blood enriching pills is evident throughout the whole system. You find that what you eat does not distress you, and that you are vigorous instead of irritable and listless. If your appetite is fickle, if you have any of the distressing pains and symptoms of indigestion, you should at once take Dr. Williams' Pink Pills and profit by the better condition in which they will put your blood.  
These pills are sold by all dealers in medicine, or you can get them by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

#### ST. MARY'S CHURCH, BELLEISLE. ANNUAL PICNIC.

A brilliant day, a warm welcome, genial hospitality, generous provision for the needs of the inner man—these were the outstanding features of the very successful combined congregational and Sunday school picnic of St. Mary's, Belleisle, on Wednesday of last week.

The rendezvous chosen was the spacious grounds about the home of Major and Mrs. Ovens at Granville Centre. This is an ideal spot for a picnic. Large playing fields for games and races, shady spots, protecting from the sun's fierce heat, woods and pastures in which to ramble, with a most home-like home as the heart of it all, no better place could be found.

The party, numbering about fifty, got under way soon after an early dinner, and with many a quip and jest—had a merry time as they went along.

Arriving at the appointed place, the first order seemed to be rest for the older ones on the spacious verandah of the house or under the shade of some kindly tree, and exploration for the young. Then, when the heat became tempered by a cooling breeze, races and contests.

Supper was served at 5.30 in true picnic fashion. After supper the inevitable scramble, and then harnessing up for home going, all agreeing that the outing had been a success in every way and loud in their praises of the Major and Mrs. Ovens and their warmhearted hospitality.

MR. and MRS. F. CLYDE BISHOP. 19-11c.

We are sorry to learn Mrs. Manetta Piggett, who is now making her home with her niece, Mrs. Winburn Lyttle of Martock, Hants Co., had the misfortune to slip in descending the stairs and fell to bottom. Fortunately no bones were broken but she was bruised terribly. After thinking all was well a swelling developed just below her knee which necessitated going to P. M. hospital for constant treatment. After three weeks there she has returned to her home but is not able to leave the bed and will not be able to use that foot for some time.

George S. Bradley, Grand Falls, N. B., and Dr. W. E. Haslam, Brookfield, were also guests at the same house.

The Pictou Advocate reports "a land farmer" man, Elmer Daniels, 63 years of age, who is just completing a walking tour of the Continent, and who called at Pictou town last week. He is going to write a book on his experiences. About 35 years ago he lived at Mount Thom and Durham in Pictou County.

#### OBITUARY.

The late Mrs. S. T. Jefferson.

Lawrencetown, Annapolis Co.—The death of Mrs. Stephen Jefferson occurred Tuesday morning, July 22nd, after a long illness at her home in Lawrencetown, Annapolis County.

Mrs. Jefferson was a native of Torquay, England, but came to this country when a mere child. She is survived by her husband Stephen Jefferson, his son Evans Jefferson, of the Maritime Telephone Company, Halifax, and two daughters, Grace and Dorothy at home, also two sisters, Mrs. Edward Hull, Vernon street Halifax, and Mrs. Tashe of England, and four brothers, Albert, formerly of Winnipeg, but now of Santa Ana, Cal.; George of Ely, Nevada; Henry of Washington and F. A. of Brookfield, Colchester County, N. S. She was a sister of the late Senator Dennis of Halifax.

The late Mrs. Jefferson was a splendid type of womanhood and of a particularly sweet and lovable nature. She loved the beautiful in life. Her loss in her own home is irreparable and will be greatly felt wherever she was known. She was proverbial for her kindness in her own community and far beyond it, but it was in her own home that her influence was most felt and she typified that rare gift—a perfect hostess.

The great sympathy is felt for her sorrowing family and friends.

The funeral took place from her late residence in Lawrencetown on Friday morning.

## Four Reasons Why YOU Should Purchase A Farm in the Annapolis Valley.

- 1.—Because the Annapolis Valley is the best and most dependable Country in which to farm.
- 2.—Because the basic source of Man's subsistence is the farm. It is the most honorable business on earth. It means health, wealth, happiness and contentment.
- 3.—Because milk from your cows and eggs from your poultry, will give you a daily cash income the year round. Apples, small fruits, berries, garden truck, grains, hogs and sheep will build you a big bank account.
- 4.—Because Lloyd's Service will find the farm you want, where you want it, at the price you want to pay.

# Burn Air!

It Costs Nothing

We are burning coal similar to that which they burned a thousand years ago, although the methods of burning it have been improved. Yet it has always been admitted by heating engineers that half of our heat, as unburnt gas, has sailed away up our chimneys.

Now comes a wonderful new addition to the Enterprise All-Cast Pipeless Furnace—an entirely NEW INVENTION—

## The ENTERPRISE-ROBB CARBURETOR

that sprays air over the fuel bed — FIRES THE GASES as they lift from the coal — gives you a GAS FIRE on top of your coal fire — keeps your fire red at the TOP — red all the way through, where you want it for heating purposes — burns your fire from THE TOP DOWN. SMOKE and GAS are turned into HEAT — you SAVE 20% of your coal. Tests have been conducted by manufacturing plants and private homes, all with the same findings—MORE HEAT FROM LESS FUEL. In an actual 48 hours official test at the ENTERPRISE FOUNDRY, the saving effected was shown to be 22.8%.

And you KEEP ON SAVING—day after day, year after year!

The Enterprise-Robb Carburetor is another EXCLUSIVE Enterprise feature. The Enterprise All-Cast Pipeless Furnace has always been the best. The new invention lifts it into a class by itself.

## THE EDUCATION OF THE FARM BOY.

John M. Trueman.

Professor of Animal Husbandry, College of Agriculture, Truro, N.S.

There are two definite lines of work facing agricultural leaders and teachers. First, research work, second, dissemination of the knowledge that has been obtained by experience and investigation. In research work there are many problems awaiting solution.

All agriculturists, farmers as well as teachers, are agreed that thoroughly trained men are needed to work continuously at these problems. Such men should be comparatively few in number, should be given every facility for work, and should receive adequate compensation so that they are not worried by the economic questions of daily life.

I am particularly interested at this time, however, in the second line of work, that is, the teaching of agricultural science and practice. It is easy in our enthusiasm for big Colleges and efficient research departments to forget that the ordinary farmer is not using one-half the knowledge already possessed by the best teachers. Since agricultural practice lags woefully behind modern scientific knowledge a special attempt should be made to get more information to the young men on the farms.

The agricultural experts may reply that efforts have been made to reach larger numbers of farmers by the establishment of Schools of Agriculture and the giving of Short Courses. The trouble with many of these schools is that they have not been managed and taught by experienced and successful agricultural teachers, and the courses have been too short to appeal to any large numbers.

The work of teaching divides into two headings: First, teaching and training young men for professional work in agriculture; Second, teaching and training the men who are to earn their living by actual work on the farm. It is to this last phase of agricultural education that I invite attention in this article. The courses given by degree-conferring colleges cover four years of study. These courses are of value to the young man who can afford to spend four years and two or three thousand dollars getting a College education. The work is scientific the training excellent and the College life is full of interest. I only wish that every farm boy in Canada could and would take such a course. However, this is manifestly impossible as not even one-tenth of the farm boys will spend time and money to take a four years' course.

The degree courses will train enough men for the work of research and teaching, with a few left over to return to the farm.

What can be done, then, for the thousands of boys who cannot take a four years' course and yet are sorely in need of help in solving their farm and community problems? I think we must admit, first of all, that the Agricultural College should reach as many of them as possible. The

County Representative will help a great many, provided he is the right kind of man. The district Short Course will help many more, but nothing can take the place of a College course with its influence upon the whole life of the boy. He not only needs information but he needs training, inspiration, leadership, friendship with wide awake teachers, the liberalizing effect of acquaintance with boys from different sections and the other fellow's viewpoint. All these things he gets best at a College.

What course can be given him that will accomplish the most, in the time and for the money that he will feel justified in spending? Various courses have been suggested. Some Colleges have tried a two years course. This will not give us what is needed, as it is still too long and expensive an appeal to the large numbers who should get technical training in agriculture. Let me here again emphasize the fact that I am not thinking of the few who can take a college course but of the many who should get some help and who are now getting nothing.

Another plan has been to give a one year course; this is also open to objection. The boys must be away from home in the fall and they must raise several hundred dollars at once. In addition it has the objection that all the work is given in one year and the student hardly finds himself in the rush of college work before it is all over and he is back at the farm with a great mass of poorly digested information. He has not had a chance to go home and try out some of the things learned before finishing his course, and, therefore, he has no chance to question or teach again after a season's test of his new knowledge.

A course consisting of two three-month periods, given in two separate years appeals to me as most likely to give what is needed for the greatest number. The work would begin right after the new year and continue until April 1st. This gives the farm boy a chance to finish the fall work; he gets the fall plowing done and may even get all, or a part, of the winter's wood cut. He is not called upon to leave home in October when the weather is open and his time can be used to good advantage on the farm. He is not obliged to spend extra money in travelling expenses in making a trip home for the Christmas holidays. He goes to school the first of January and stays there until his three-month course is finished. The first three-month term gives the boy a good start but it is not enough. During the following spring and summer the College teachers should keep in touch with every boy who has taken the course. Even if there were great numbers of them, provide teachers, who are enthusiastic farmers, with enough time and help to correspond with and, if possible, visit every boy during the summer. Make each one feel that you are interested in him personally. If agricultural education is ever to reach the great mass of farm boys rear personal work must be done. The boys from outlying districts and remote farms must be made to realize that they are a part of the national life and that the success of agriculture depends on them as well as upon the boys in the centers. Every Agricultural College and Provincial Department of Agriculture should spend some money studying boys and girls as well as plants and animals, I have already admitted that there are big problems to be solved in Agriculture, but in my opinion the biggest one is the problem of how to reach and inspire all the farm boys instead of only a selected few. Therefore, follow up the boys who took the winter course, keep in touch with these prospective farmers. It is good salesman-ship. It is the method used by all successful business firms. We, as agricultural teachers have a big thing to sell to the farm boy, that we believe will be a great help to him all his life. Let's get out of the classroom routine and get in touch with the boys on the farms.

Having kept in touch with him all summer with friendly interest he will be anxious to come back the first of January for another three-month term at the College. The spring and summer work has brought him some discouragements; the home folks and neighbors are skeptical about his new methods learned at College and taught by "book farmers." Some of the things he tries, do not turn out as he expected. He is badly in need of another term at the school to check up his ideas, to correct wrong impressions, to emphasize first principles, and settle him firmly in his determination to improve his methods of farming. The second term is worth even more than the first. All teachers notice how quickly the students get to work the second year and what great improvement has taken place in their ability to study. They are familiar with the class-room methods, with the teachers and with the whole of College life. This second term puts them on their feet, gives them confidence and a good start along the way toward becoming first-class farmers.

The expense of such a course would not be heavy and would be divided between two years. The three-month

term should not cost much above \$100.00. An advertising campaign could be carried on urging every farmer to spend \$100.00 per term for two terms in getting a good start in his agricultural education. Young men could be encouraged to save money to take the course. It could be made an appeal to their pride to be graduates of the Farmer's Course, Agricultural Societies, Women's Institutes and Creamery organizations could use their influence to get boys interested. I see no reason why large numbers could not be secured.

The instruction to be given in this course of two three-month terms must be of the most practical kind. The young men who will take such a course expect to go back to the farm. The course will not allow time for, and most of the students will not have the interest in, so called "cultural studies." The man who cannot see the "cultural" value in teaching a farm boy how to do his farm work properly should not be appointed a teacher in this school. Furthermore no great amount of time can be spent in giving these farm boys a complete elementary course in even such valuable subjects as biology, chemistry and botany. Courses in these subjects should be arranged entirely from the standpoint of the boy who is to work on the farm. The life history and control of harmful and beneficial insects; the simplest study possible of the chemistry of soils, fertilizers and feeds, the identification and life history of farm plants and weeds, may all be given in such a way as to help and interest the young farmer. All these subjects furnish a certain amount of cultural training.

When the student begins his work it must all appeal to him as being useful on the farm. The idea that the teacher is best qualified to give the student what he wants, whether the student likes it or not, will not do here. The boy and his father must feel that time and money are being used to get what will help the boy make a better living on the farm. Otherwise, the boys will not take the course. It is all well enough to insist that these scientific and cultural studies are valuable, but the boy we are after has not a foundation of knowledge to appreciate them and if forced to take them will often give up the course. Boys coaxed into starting such a course have often become discouraged and even embittered, have decided that agricultural education was useless and have given up in despair. A study of actual farm problems would have held them and made them enthusiastic for better farming.

When the two three-month terms have been satisfactorily finished the student will be given a certificate stating that he has graduated from the Farmer's Course.

Among the men who take this course will be some who will develop an aptitude and a love for study. For such men the Farmer's Course certificate should admit them to the second year of the two-year professional course. If they are then able to make up the studies necessary for College matriculation they will be in a fair way to go on with their College work and eventually obtain a College degree. These will furnish some of the best men in the degree course as they will have farm experience and ambition.

It has been decided that such a course as I have outlined will be given at the Nova Scotia Agricultural College beginning Jan. 1st, 1925.

The subjects to be taught will be selected from the following list:—  
Soils and their treatment.  
Fertilizers—composition, buying, home-mixing and application.  
Barnyard Manure—value, methods of preservation and application.  
Crops—Botanical characteristics, life history.  
Poultry Husbandry.  
Animal Husbandry—horses, cattle, sheep and swine.  
Dairying—with special reference to the handling of milk and cream.  
Economic entomology—useful and injurious insects and their control.  
Horticulture—orchards on the general farm.  
Olericulture—With special reference to the home garden.  
Farm Mechanics—farm machinery, gasoline engines, electric lighting for farms, etc.  
Business methods—farm accounts, letter writing, use of banks and banking, notes and business forms, credit.  
Agricultural Societies—debating and speaking, presiding at meetings, rules of order.  
Music—Glee club and community singing.

The success of this course will depend largely on the type of teacher selected. Inexperienced men, who do not know how to teach, must not be appointed. No matter how brilliant they may have been in College, the men who are not enthusiastic about farming and who do not have the real teacher's faculty of imparting knowledge to others will be worse than useless. The teachers must be selected from experienced men and made to understand that this is a big job, needing all the fortitude and patience of the true missionary.

## MRS. BUDGE SO WEAK COULD HARDLY STAND

Tells How Lydia E. Pinkham's Vegetable Compound Restored Her Health

River Desert, Que.—"I used to have a severe pain in my side. I would be unable to walk fast and could not stand for any length of time to do my ironing or washing, but I would have to lie down to get relief from the pain. I had this for about two years, then a friend told me to try Lydia E. Pinkham's Vegetable Compound as she had had good results. I certainly got good results from it, too, as the last time I had a sore side was last May and I have not had it since. I am also glad of leaving good nursing for my baby, and I think it is your medicine that helped me in this way."—Mrs. L. V. BUDGE, River Desert, Quebec.

If you are suffering from the tortures of a displacement, irregularities, backache, headaches, nervousness, or a pain in the side, you should lose no time in trying Lydia E. Pinkham's Vegetable Compound.

## Here and There

A party of 50 Australian boys will be the guests of the Exhibition at Toronto from August 30th to September 3rd. They are public school boys from all parts of Australia and their visit to Toronto will be made on their way home from the British Empire Exhibition.

British Columbia is now the third manufacturing province of Canada, with 2,673 manufacturing establishments, over 41,000 employees, invested capital amounting to nearly \$225,000,000 and a value of products of approximately \$260,000,000, according to Government statistics.

New Brunswick in 1923 produced more coal than at any other time in her history. The output for the year exceeded that of 1922 by more than 12,000 tons and amounted to 251,091 long tons. It is estimated that this industry creates a value of over \$1,100,000 annually, most of which goes out in supplies and wages for the benefit of the province.

What will probably be the last big roundup of horses in the West will take place shortly in the range country south-east of Calgary, Alberta, for the purpose of clearing the range of stray horses. The horses will be gathered in one central corral, where owners may claim their animals. It is anticipated that about 10,000 animals will be secured. The Department of Agriculture is supervising the arrangements.

Unstinted praise from prominent citizens and the press of Alberta is given the Canadian Pacific Railway in connection with the Company's recently announced branch line connecting the southern portion of the province. C. R. Mitchell, member of the Provincial Legislature for Bow Valley, describes the announcement as the most important made in many years.

"Perhaps the most noteworthy fact we discovered was the vastly improved psychology of the people of the west to that which existed a year ago," commented E. W. Beatty, President of the Canadian Pacific Railway, on his return from a recent inspection of the Company's property. "They are full of hope and confidence and realize, as the west should realize, the tremendous benefit to be derived from the harvest of a second consecutive year."

The number of big industrial undertakings projected for immediate construction on the coast of British Columbia provides a striking indication of how that province is going ahead. A \$400,000 logging railway up the Shehalis River Valley, a \$1,000,000 mill plant at Chehalis, a \$200,000 amusement centre at Victoria and a \$200,000 saw-mill at Port Coghlan, with about \$10,000,000 in power plants in the Seave Lake District are some of the more important and a host of smaller projects are also under way.

Practically all Canada's production of newsprint for export in March was absorbed by the United States. Of March shipments amounting to 127,583 tons valued at \$9,756,530, the United States received 125,848 tons, valued at 9,617,823. The only other Canadian exports of newsprint of importance were 599 tons to South Africa and 1,067 tons to New Zealand. It is expected that 40 per cent proportion of consignments to the United States.

The concentration camp for emigrants to Canada and the United States maintained by the Canadian Pacific Railway and other steamship companies, is located at Southampton, England. It has an average daily attendance of 600 and, on some days, the number is about 1,000. Comfortable quarters and meals at moderate cost are provided and features of the camp are the special dining-room for Jewish passengers, the private shower baths, with towels and bathing gowns supplied and the individual rooms which are also available.

NARCOTIC DRUG RING BROKEN UP

Dr. J. G. Shearer, Social Service Council of Canada.

Cheering progress is being made in suppressing the terrible traffic in the strong narcotic drugs, opium, cocaine and their derivatives. A recent interview with the Chief of the Narcotics Division of the Federal Department of Health brought to light some exceedingly encouraging recent developments.

Within the past two years no less than three hundred traffickers in drugs big and little have after conviction and imprisonment been deported to the country of their origin. About 50% of these were Chinese and 25% Americans. The others were from various lands.

One, the head of the greatest ring known to the Department, an Englishman, who has gone under twenty-five or thirty aliases, has just been deported to the Motherland. This ring controlled 75% of the traffic in Canada and probably as large a proportion of the traffic in the U. S. A. He, the chief of it, lived in a palatial residence in Montreal with servants and automobiles to satisfy the most extravagant multi-millionaire.

There were ten members of this gang of highest-ups. Seven of these have now been caught and put out of business so far as this country is concerned. Two or three of them are being executed for murder in a notorious bank-rob hold-up in Montreal streets. Only three remain at large. It has taken years of painstaking and expensive effort to accomplish this. But it is accomplished. Two of Winnipeg's most notorious traffickers have died also. It has long been known that Vancouver and Montreal were the double headquarters of this traffic for Canada if not for the continent. Considerable improvement is reported in Vancouver and great improvement in Montreal. This is due to aggressive effort and close co-operation by the Federal and Municipal Police forces. In Montreal, too, much help has been given by Dr. Haywood of the General Hospital where numerous addicts have been treated and valuable information obtained.

This leads us to report what has been undertaken by way of compulsory treatment of the unfortunate victims in different Provinces. This is a Provincial matter. The Federal Department of Health, however, drafted a model Act providing for compulsory treatment, which was sent to all Provincial Governments and its enactment pressed for by the Social Service Council. Nova Scotia has enacted and put into operation this important measure. Quebec is looking for an institution that can be used for treatment of addicts from all over the Province. Meantime, the General Hospital, Montreal, is doing much to meet the need.

Saskatchewan has provision in its laws to deal with cases. Alberta legislated requiring the sending of such cases to the Poncha Mental Hospital, British Columbia, Manitoba, Ontario, New Brunswick and Prince Edward Island have taken no action as yet. The three of these first named have great need, and it is hoped that ere long action will be taken to meet the need.

It is estimated that there are about 10,000 persons addicted the use of these drugs in Canada, two-thirds of these being in Quebec and British Columbia, and about 150,000 in the United States. Not many years ago some publicists were crediting Canada with 60,000, and the U. S. A. with from one to four millions. Those figures of course, were wild exaggerations. But the numbers are being steadily reduced. In November at Geneva a conference on the world's production and its control will be held.

Progress of Firm.

In 1895 the firm began in quite a small way. Progress was rapid and consistent ability in salesmanship and straight dealing has brought about its rise to the proud position now held. There is no record of any Firm in the Fruit Trade having gained such confidence with growers.

Shops And Warehouses.

The business necessitates, in addition to shops and stands in the most central position of Covent Garden Market, twelve warehouses, with a floor space of 16 acres. Through these warehouses in the course of the year there passes an average of three million packages.

Offices.

The Accountancy Department is conducted by a large staff of competent qualified men under the personal direction of the principals. The staff is composed of men whose natural ability has been trained and developed.

T. J. P. may fairly claim to have world wide business connections.

T. J. P. sells fruit grown practically at their own door and from the Antipodes.

No part of the world where fruit is grown escapes notice.

All fruit roads lead to "Poupart's Long Acre, Covent Garden. The Firm you can trust.

EUROPEANS IN CHINA.

Hong Kong Press: There is, no doubt, a growing spirit of revolt against the foreigner which will need firm handling by the Legations. It is significant, for instance, to read that two hundred and eighty members of the Chinese Parliament are said to have endorsed the decision to send a cable to the British Government the keynote of which, according to the Chinese paper, is this: "Great Britain can bar the Chinese from landing in Australia and Canada, but not from the City Wall in Peking." What these childish intellects seemingly fail to understand is that these regulations which debar Chinese soldiers from being on the City Wall within the Legation Quarter are not the regulations of the British Legation, but those of the entire Diplomatic Corps.

Local Happenings

The continued absence of rain is creating very serious conditions. Brooks are down, water supplies are low, crops are everywhere suffering and the drought has caused heavy crop in apples. A good soaking rain for twenty-four hours would be worth a great many thousands of dollars to the Annapolis Valley, which is suffering from dry weather more than any other part of the Province. The visitors who came to Nova Scotia from the New England States last season, were very much pleased with the tea we drink down here. Some of them made enquiry as to its name, and when they found that it was MORSE'S SELECTED ORANGE PEKOE, they purchased a few pounds to take home with them. Since then there have been numerous shipments of this tea to American consumers by grocers in different parts of the Province.

Reserve Wednesday afternoon Aug. 13th to attend Annual Garden Party on the Rectory Grounds of Clementsvalle. Enjoy dainty refreshments in one of Nova Scotias most beautiful spots.

Public are asked to refrain from using water for washing cars, or watering lawns, as owing to the continued dry weather, the reservoir is getting very low, and if care is not exercised there will not be sufficient water for necessary and essential purposes.

Town Clerk American autos with large numbers have been fairly numerous in this Valley the past few weeks. Some were recently noticed in town which bore numbers between one and two million. They were from New York. Come to the Annual Garden Party on the Rectory Grounds at Clementsvalle, Queen of the Basin, Wednesday afternoon, August 13th.

Great interest is being taken in gathering the Coupons given by the Merchants and other business men of the town which entitle holders to a chance of winning either a Chevrolet car, Enterprise range, Radio set or fifty dollars in gold on each cash purchase of one dollar. Be sure to demand a coupon with each purchase of \$1.00 from the merchants and garage men of Bridgetown. You may be the lucky winner.
