MORAL EFFECT OF REBEL VICTORY FAR-REACHING

Defeat of Imperial Chinese Troops at Hankow Will Mean That Other Provinces Will Secede—Northern Provinces, However, May Rally Round Manchus.

HANKOW, Oct. 20.—(Delayed in transmission.)—A two days' battle between the government forces from the north and the revolutionists ended in a victory for the latter.

The rebels forced the imperial troops to retreat to a point ten miles north of Hankow.

The loyalist gunboats dropped several miles down the river.

Report Leaked Out.
PEKIN, Oct. 20.—It is apparent here to-night that the imperial government knew the result of the battle at Hankow before more than twenty-four hours before it became public here.

Reports of the rebel victory gradually leaked out during the day, but the first positive account of the defeat of the imperial troops was delivered to the foreign legations to-night by the Associated Press. It created a profound impression.

The success of the revolution has been considered here to hinge upon the result of the first encounter, as its moral effect would be far-reaching in China, as probably nowhere else would be the case.

When the fugitive imperialists reach the main army, which is mobilizing near Sin Yang Chow, the news of the repulse, it is believed, will utterly demoralize the troops, while on the other hand the news as it goes along the Yangtze River probably will result in further important adhesions to the rebel cause.

Effect of the Victory.
The foreign legations here believe that to-day's news from Hankow and Yun-Nan will mean that the provinces south of the Yangtze and also some on the north side of the river sooner or later will secede.

The government acknowledges that there is a serious situation in Chang-Sha, Province of Hu-Nan, which it is believed in Peking means that Chang-Sha has joined the revolt.

Foreigners whose business it is to study China think that the northern provinces, which are not deeply affected by sedition, may rally around the Manchus. Everything, however, seems to depend on an immediate and successful advance by Minister of War Yin Tehang, who now commands 20,000 men within one hundred miles of Hankow, but only the foreign ministry pretends to enjoy confidence in his promised attack.

Already Yin Tehang is issuing proclamations in which he is offering pardon to all who desert the rebel standard, and it is believed he will rely on proclamations and negotiations, fearing or being unable to move his army.

Rebels Attacked Night.
At midnight to-night a report from Yin Tehang was published in the official gazette. It does not refer to Wednesday's fight at Hankow. It says the twenty-second regiment arrived at Hankow Sunday, and that the rebels attacked twice, but were repulsed, and that three rebels were captured. His spies report that the rebels are preparing for a defence of Wu-Chang and Hankow. Many desertions from the rebel ranks are reported. Yin Tehang says he has made Sin-Yang-Chow his temporary headquarters, and will proceed southward after the arrival of the fourth division of the troops.

An edict which also is published sanctions Yin Tehang's proposals, and says it hopes he will lose no time in suppressing the rebels. Another edict expresses compassion for the people in those provinces, which are suffering from drought and rebellion, and orders 200,000 taels from the late emperor's dowager's hoard to be paid to Yuan Shi Kai, who will arrange for its distribution among the distressed people.

Government Victory?
BERLIN, Oct. 20.—The Chinese embassy here has received a cablegram.

To-morrow's Garrison Parade

To-morrow two thousand or more soldiers will take part in the garrison parade, which will leave the armories at 2:30 and march along Albert-street to Massey Hall for service. At four o'clock the troops will again form in line and march east on Shuter-street, north on Jarvis-street and return to the armories via Wellesley-street, St. Alban's-street and University-avenue.

The 8th Highlanders have charge of the service in Massey Hall and their chaplain, Rev. Crawford Brown, will deliver the sermon.

NO FIERY REVOLT AGAINST MACKAY

Local Liberals Seem Indifferent as to Leadership of Party in Ontario—Apathy Seems to Rule.

If the Toronto Liberals are in revolt against the leadership of Hon. A. G. MacKay they are not shouting about it. The World got in touch with some of the local leaders, and while not exactly reticent, they were not anxious to talk about the supposed split between the outside Liberals and the Toronto men.

Apparently amongst the rank and file of the party in Toronto there is a carelessness sort of feeling that it really doesn't matter who is leader, but if the local leaders have any particular ideas upon that subject they are not expressing them. But their attitude is significant.

F. S. Mearns, when asked for his opinion about the leadership, absolutely refused to talk. Mr. Mearns is president of the Toronto Liberal Association.

H. M. Mowat, K.C., the president of the General Reform Association of Ontario, declined to make any comment whatever upon whether or not the Toronto Liberals would become insurgents against the rest of the party over Mr. MacKay. Asked if the matter would come up at the All-Ontario meeting of the Liberals on the 31st inst., he replied: "I don't think it will; I shouldn't think it will come up at all."

Mr. Mowat gave the impression that the leadership was settled for once and all, and that Mr. MacKay was acceptable to all concerned.

N. W. Rowell Surprised.
N. W. Rowell, K.C., was asked if there was war on between the outside and the local Liberals. "I know nothing of it. If there is it is news to me. I know of no foundation for such a statement as has been made."

Dr. McConnell, president of the West Toronto Liberals, said he had been so busy professionally that he had not time to discuss hostilities over the action of the outside party men in the policies of the party and the question of leadership. He really, he said, had not had time to think about it at all.

A. E. Hacker, the local organizer, didn't think there was anything to the talk of a fight, and W. J. O'Reilly, the secretary of the Toronto Association, said the same. W. H. Shaw had a good word for Mr. MacKay. He thought he was a brilliant man and an excellent leader, provided he had recovered from his weaknesses of a few years ago.

If the Toronto Liberals have any notion of protesting against the action of the outside Liberals, they certainly have not made any concerted move. And from what can be gathered, there will be no protests made before the 31st, and it is doubtful if any will be made then.

Premier is Disregard.
Sir James Whitney hasn't much to say about the alleged dissension in the Ontario Liberal party with regard to the leadership.

"It is a delicate question for me to discuss," he remarked yesterday afternoon.

"Besides, I don't see any gratification in taking part in the troubles of our neighbors."

Just the same it looks as if Sir James had definite opinions formed on the matter, and if he were a private citizen he doubtless would not hesitate to express them.

VERDICT OF SUICIDE.
PARRY SOUND, Oct. 20.—A verdict of suicide was returned by the coroner's jury enquiring into the death of Miss Violet Smith at Dillanport, late this afternoon.

There were no marks of violence on the body, so the jury concluded she had taken her own life while in a despondent mood.

DUKE OF SUTHERLAND COMING.
WINNIPEG, Oct. 20.—Sir William Whyte to-day wired to Mr. Thomas C. Irving, general manager of Bradstreet's, Toronto, as follows:

"The Duke of Sutherland left here last night for Toronto. He desires you to visit him on his yacht, the Catania."

The Biggest Sale of the Season.
Manager O. B. Sheppard of the Princess Theatre reports the advance sale of seats for Maude Adams' "Chatterbox" to be bigger than the sale for "The Pink Lady," which has played to capacity houses this week.

"Chatterbox" will establish a new record at the Princess.

DEBARRED FROM THEATRE STUDENTS WAXED NOISY

But Police and Peaceful Counsels Prevailed and College Boys Found Solace Elsewhere.

"We absolutely refuse to let you in." And to hear such a thing as that after standing in line for an hour and a half patiently waiting a chance to see the Pink Lady. It was a hard blow to the seven or eight hundred students who last night lined up at the Princess gallery door, and who had the pleasure of seeing said door slammed bang in their faces. It caused them to break out into song, but the songs were not paeans of praise for the faithful doorkeeper.

It may be said that the other patrons of the theatre, while not desirous of seeing the rah! rah! boys disappointed, viewed their debarment with feelings of equanimity, some having lively recollections of an occasion when flour in generous bulk was poured down from the gallery. The theatre took its stand from a belief, whether well-founded or otherwise, that the general public required protection.

Police Took a Hand.
The news that the Princess refused to let 'em in because they might disturb the show and the audience, too, was not received in dignified silence. Far from such, it took a dozen especially phoned for cops to disperse the boys, who on finding themselves dispersed, again lined up, a la student, and wended their way back to Yonge-street. Then they again dispersed, this time voluntarily, and rambled round the town, making night hideous, begging pardon, making the streets to resound with college and other yells.

Hundreds of the students found their way into the Gaiety and were scattered around the lower part of the house, but they were on their good behavior, as Manager Henry cheerfully testified.

Two hundred pharmacy students had their tickets purchased in advance for Pomander Walk at the Royal Alexandra, where they behaved in an orderly manner.

Within a short time K. L. Aitken, managing engineer of the Toronto hydro-electric system, will report to the city power commission on the matter of more cluster lights for the city. Mr. Aitken has been working on the matter, making estimates and preparing a report for some time.

That a rumor to the effect that a de-benture bylaw would have to be issued in order to complete the lighting system was published yesterday nothing of the sort will be necessary for the system as originally planned can be completed now within the original estimates and much better than was thought. But a clamor has been raised by the citizens for even better lighting than they voted for, so steps will be taken to satisfy the general desire. That will mean that more money will need to be voted, but only for improvements to the system and not to complete it.

Within a short time the hydro-electric commission will meet for the purpose of formally considering the report on the installation of more cluster lights.

EARL GREY IS ROYALLY WELCOMED AT LIVERPOOL

Glad To Be Back in England, But Sorry to Leave Canada, the "Land of Open Sunshine."

LIVERPOOL, Oct. 20.—(C. A. P. Cable.)—Earl Grey, accompanied by Ladies Sybil and Evelyn Grey, were given a royal welcome on their arrival here to-day. They were received by the lord mayor of Liverpool, wearing his chain of office, Harold D. Bateson, chairman of the Liverpool Chamber of Commerce; Lieut.-Gen. Sir Henry MacKinnon, general officer command-in-chief of the western command; General Bingham, whose son has been acting as A.D.C. to Lord Grey in Canada; and W. J. Doll, general manager of the Allan line. His excellency, invited to give a public message, said:

"It is impossible to be too sanguine as to the future development of Canada. It is a splendid country. It is going ahead as fast as anyone could desire. The more it increases in strength, the greater will be the accession of strength to the empire."

"I am glad to be back in England after seven eventful years. They have been seven happy years in a land of open sunshine, and, altho I am glad to be back among those who are carrying on practically singlehanded the whole burden of the British Empire, I confess

First Judicial Appointment

OTTAWA, Oct. 20.—(Special.)—At to-day's cabinet council an order-in-council was passed appointing J. M. McDougall, K.C., judge of the superior court of the Ottawa district. This is the first judicial appointment of the new government.

Mr. McDougall has for many years been a successful practicing barrister, and succeeds the late James Chambrague on the bench. Last session he conducted the enquiry into the charges brought by P. B. Blomfield against Adolphe Lanctot in the famous point case before the committee of privileges and elections.

There will be another cabinet council in the morning, and Mr. Borden expects to be able to leave in the afternoon for a few days' rest.

I was sorry to leave the Dominion. "As to the Canadian climate, I can only say that I thoroughly enjoyed it, whether in summer or winter, and I am not sure that before the present winter is over I shall not wish to be in Canada again."

The Canadian census returns, he held, had not shown, as had been too hastily assumed in some quarters, that Canada had had a setback. The increase in her population was a substantial one and it was only as compared with the estimates that a falling off had been shown. He would not even agree that those who had framed those estimates had been too sanguine.

Lord Grey and family later journeyed to London by special train, in which was reserved a royal saloon decorated with choice flowers, the gift of the Canada Club, the Allan Line, and the C. P. R.

"DEI GRATIA" WILL BE RESTORED TO THE COINS

Its Omission From the Canadian Currency of 1911 Due to Mistake at British Mint.

OTTAWA, Oct. 20.—(Special.)—A good deal of comment has been created by the disappearance of "Dei Gratia" from the Canadian coins of this year. The peculiarity is shared by all the copper and silver coins struck off in the mint this year.

No gold coins have been struck off so far this year, the apparatus for so doing is in a forward state. The dies for these coins have the "Dei Gratia." It further to be noted that next year's coins will have the stately and reverent motto restored.

The cause of the omission is an inadvertence on the part of the authorities of the British mint. The dies were prepared in England, and it was there that the mistake was made. They arrived early in the year. The situation in which the department of finance found itself with regard to the matter was that for one thing, Canada was under a substantial obligation to the British authorities in the matter, and for another, that there was acute need for currency. Accordingly the designs were accepted and approved.

None the less, the 1912 coins will revert to the ancient usage, so that the 1911 coinage will be distinguished from that of other years after as well as before.

Judicial Recklessness.
"It is, I believe, an advantage to have fixed in the court the power to state that a legislative act is unconstitutional, but only provided that the power is exercised with wisdom and self-restraint. If the courts continue to use it with the recklessness that has too often been shown in the past it is almost inevitable that efforts will be made to amend it. It is a rank absurdity to hold that the violation of the constitution is 'evident' in a case where the present chief justice of the United States and enough of his colleagues to come within one of a majority of a court hold strongly the opposite view."

"I believe that the only ultimate safety for our people is in self control; not in control from the outside. I do not believe in hasty judgments, I do not believe in permitting the determination of a moment to be transmitted to a permanent policy, but I do believe that the serious, sober, well-thought-out judgment of the people must be given effect. I do believe that the people must ultimately control its own destinies, and cannot surrender the right of ultimate control to a judge any more than to a legislator or an executive."

High Level Interceptor of New Trunk Sewer.

This section of the sewer, at the east end of the Wilton Avenue Bridge, was about the only portion of the work on which any trouble was experienced. After being completed once it broke and had to be reconstructed. It is thought that the break was caused by pressure of the foundations of the new Wilton Avenue Bridge.

TEDDY WOULD CURB JUDGES

Ex-President Roosevelt Says Blocking of Social Reforms Shows Need of Popular Control of American Judiciary.

NEW YORK, Oct. 20.—The judiciary of the United States must be brought within the control and answerable to the well-thought-out judgment of the people, in the opinion of Theodore Roosevelt, who spoke to-night on "The Conservation of Womanhood and Childhood," before the civic forum. This control, in Mr. Roosevelt's judgment, should be "exercised more cautiously and in different fashion than the control by the people over the legislator and the executive, but the control must be there."

Control of the judges, Mr. Roosevelt said, was but half-alto by far the more important part of a program which should be carried out for the proper conservation of manhood, womanhood and childhood. The first half of the program, he said, consisted in placing upon the statute books of the nation and the various states, legislation to remedy existing defects.

The ex-president spoke at length of what he termed "crying abuses connected with child labor." He referred to the need of laws to prevent the employment of children as young as ten years in the canneries of this state, and to other legislation for the protection of children.

Power Could Be Abused.
"I most emphatically believe that we have been wise in giving great power to our judges, including this power of judicial interpretation of statutes to see whether they conform with the fundamental law of the land. But I also most firmly believe that like any other power this power can be abused, and that it is a power with which the people have merely temporarily parted and not one which they have permanently alienated."

"Used cautiously and moderately and only in the clearest cases, it is fraught with the utmost good to the body politic. Used recklessly, wantonly and foolishly, where the case is so doubtful that the judges themselves may be divided nearly equally on the two sides, it results in very great evil, as it has resulted again and again in this State of New York, and it may result in even greater evil, for it may, in the end, cause such a revolution in the minds of the people at large as to result in totally taking away this power from the judges—action which I should deplore."

"During the last twenty-five years the courts here in New York, helped, I am sorry to say, once or twice by the supreme court of the nation, have shown what have at times proved well nigh or altogether insurmountable obstacles in the path of needed social reforms."

Judicial Recklessness.
"It is, I believe, an advantage to have fixed in the court the power to state that a legislative act is unconstitutional, but only provided that the power is exercised with wisdom and self-restraint. If the courts continue to use it with the recklessness that has too often been shown in the past it is almost inevitable that efforts will be made to amend it. It is a rank absurdity to hold that the violation of the constitution is 'evident' in a case where the present chief justice of the United States and enough of his colleagues to come within one of a majority of a court hold strongly the opposite view."

HAMILTON HAPPENINGS

UNIDENTIFIED MAN KILLED AT HAMILTON

Run Down by T. H. and B. Tra In
—City Clerk's Statistics Show Ambitious City's Progress.

HAMILTON, Oct. 20.—(Special)—An unknown man was killed by a T. H. and B. train early this evening at the head of Grant-avenue. The body was removed by the police to the city morgue, where all efforts to identify it has so far proved unsuccessful. The man was apparently about forty years of age, and wore a sandy moustache. He was dressed in working man's clothes. In his pockets were found some blank time-checks, which, however, do not bear the name of any manufacturing concern. A Sawyer-Massey key ring, such as might be possessed by any one, a cotton glove, which had evidently been blackened in handling machinery or possibly moulders' sand; a striped necktie, a pipe, a pencil, \$3 in money and a pay envelope on which the numbers 182 and 1988 are written in ink. It is thought that these numbers refer to the pay roll of the man's employer.

It was learned from the superintendent of the Sawyer-Massey Co. to-night that the man did not work there. The police think the unfortunate man lived on the east end mountain, and that he was on his way home when killed.

Hamilton's Progress.
Hamilton's rapid progress and development has been told in no more eloquent language than in the statistics just completed by City Clerk Kent, which show comparative conditions here to-day and ten years ago. Within the period of time covered by the comparisons the taxable property of the city has increased 10 per cent. to \$1,000,000,000. Notwithstanding the increase in the debt of the city from \$3,464,322 in 1901 to \$4,819,838 at present, the per capita debt has decreased \$3, and is now \$70.77, while the ratio of debt to taxable property has decreased from 11.54 per cent. ten years ago to an even 11 per cent. to-day.

The population of the city has increased approximately 20,000 within the decade. Charged with stealing \$250 from the man who had provided Kelly with a boozie and a free bed, Jonathan Kelly faced the magistrate in police court this morning. James Jackson, Elgin-street, was the complainant. According to Jackson's story, he sold a lot in East Hamilton yesterday for \$200, and shortly after receiving the money met the accused, and the two blew in \$10, in accumulating a load of good cheer. Kelly said he had no place to sleep, and was taken to Jackson's home.

When the latter awoke this morning, his erstwhile companion and his recently acquired wealth were both missing. Detective Sayers and Plain-clothesman Beakley, found Kelly, and later recovered the money. A plea of not guilty was entered by Geo. H. Kerr, K.C., on behalf of the prisoner, who elected to be tried by a higher court.

Kennough Released on Bail.
Geo. H. Kennough, arrested in connection with the \$2000 cash and press robbery, and subsequently held on a minor charge of theft from the same company, was allowed his liberty to-day, after giving \$2000 bail in three \$250 bills, provided by W. A. Davidson, of Dundas, and Fred Gayler of this city. Kennough's trial, it was announced to-day, will probably be held next Tuesday.

AS GOOD AS A DOCTOR IN THE HOUSE.

Baby's Own Tablets should be kept in every home where there are little ones. They are as good as a doctor; are absolutely safe and can always be relied upon to drive away any malady arising from derangements of the stomach or bowels. Concerning them Mrs. C. A. Ayer, North-bands, Spask, says: "I have found Baby's Own Tablets an invaluable medicine. I live twenty miles from town and doctor, so am glad to have so reliable a medicine at hand. I consider the Tablets a real necessity in the home and shall never be without them. They have kept my baby well and have made him a 'bonnie baby'." The Tablets are sold by medicine dealers, or by mail, in a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Sent Wrong Remains.

KINGSTON, Oct. 20.—(Special)—When what was supposed to be the cremated remains of the late David Trotter arrived for burial from Long Beach, California, it was discovered that the little case contained the ashes of Mrs. Farrington, who died some months ago. The discovery was made just as interment was about to take place at the Cataract Cemetery, where the friends of the late Mr. Trotter had gathered. The undertaker at Long Beach has been written to give an explanation. Trotter was for many years a prominent resident of this district.

Assaulted His Father.

KINGSTON, Oct. 20.—(Special)—Jas. Devine, while under the influence of liquor, attacked his father, James Devine, knocked him to the ground and brutally assaulted him. Magistrate Farrell imposed a fine of \$20 and costs or two months. The father gave evidence against his son, who has been in the police court on several occasions.

Farmer's Horse Poisoned.

KINGSTON, Oct. 20.—(Special)—A valuable horse, owned by Alexander Quinn, farmer, of Fermoy, dropped dead, and the post mortem showed that the animal had been poisoned with arsenic and Paris green. The owner and his friends are up in arms, and an arrest is expected to result from an investigation.

ABILITIES OF MR. LENNOX SHOWN TO HAVE LIMITS

Kilowatts and Watts Look Alike to Architect—Records Rather Loosely Kept.

E. J. Lennox was again in the witness box all day yesterday, being cross-examined by City Counsel Drayton on the architecture and building charges in regard to the city hall, on which Mr. Lennox is suing for \$208,000. The case is advancing rapidly and will probably be finished before the end of another week.

The architect is suing for commissions on a number of items on which he made no charge until the present suit, nor did he even record these items in his book save three of them, and no amount to be charged was referred to. Yesterday afternoon Mr. Drayton began to probe into these extra charges, and gained many admissions from the architect, one of which was that he was not an expert on such matters as the installation of elevators.

Chairs and Tables.
The chairs and tables used in the hall were said to have been specially designed. Mr. Lennox could not say whether there was any difference between the design of the chairs and those of the Bank of England. In reference to the tables he said that Mr. Drayton had not sufficient technical knowledge to understand the difference between them and other tables.

When She Attempted To Work, So Exhausted Was the Nervous System.

The Feeble, Wasted Nerves Were Restored and Revitalized by Dr. Chase's Nerve Food

Nervous prostration is a terrible disease to all who understand its symptoms. At times the sufferer feels comparatively well, but with slight exertion the dreadful helplessness returns and all strength and vitality seems to leave the system. This letter from Mrs. Martin very well describes the terrible condition in which many a sufferer finds herself. She also tells how she regained health and strength by using Dr. Chase's Nerve Food after all other treatments had failed.

Mrs. Edwin Martin, Ayer's Chf., Que., writes:—"Before I began using Dr. Chase's Nerve Food I was in a terrible condition from nervous exhaustion and prostration. Dizzy spells would come over me and I would fall to the floor. The weakness was so great that I could not so much as sweep the floor without after the doctors failed. It has done wonders in building up my nervous system. I can do my own housework now and washing, and feel that this great medicine has been a godsend to me. I think it is the best of medicines."

As an almost due necessity, it would be as well to come in here and let us examine your eyes and talk the matter over with F. E. Luke, optician, 159 Yonge St. Toronto. "Mist" is dangerous in glasses; the might ruin the sight instead of improving it. So "Come here to have them adjusted."

"Did Rogers draw the design for the tables?"
"No."
"Did anyone draw the design for you?"
"No."

Not Electrical Expert.
Mr. Lennox, when questioned regarding the elevators admitted that he was not a practical man and knew very little regarding electricity. The charge for expert knowledge regarding electric elevators is \$250, and in rendering the item Mr. Lennox said the elevators were operated with 1000 kilowatt power.

"What is a kilowatt?" asked the city counsel.
"A kilowatt denotes power."
"Yes, I know that, but what is a kilowatt and what relation has a kilowatt to a watt?"
"I don't know," admitted the architect.

Cut Out Competition.
It appeared that Bennett and Wright wrote to the Sprague Elevator Co. of New York, for whom they were the Toronto agents, asking them to draw plans and specifications for the elevators in such a way that competition would be impossible. Mr. Drayton inferred that the specifications returned by Sprague are what the city is asked to pay for at a rate of 2-1-2 per cent. of the cost of construction.

Mr. Lennox claimed that he saved the city from \$2 to \$5 per cent. on taking over the Elliott and Neelson contract when the latter failed to carry out their contract. Instead of relating the work. Tenderers, however, were called. The tenders were for \$689,000, \$674,000, \$678,000 and \$819,000, and Mr. Lennox's ultimate figures were \$364,000.

"Yes, that is correct," said Mr. Lennox.
"How do you account for that?" queried Mr. Drayton.
The architect explained that stone and brick advanced in price, and that he was charged a higher price for material, as he was not in the builders' ring.

When asked whether he at any time had received money for fees other than those of architect, Mr. Lennox said he had not, but later, when questioned further, said he did not know what the city council and legislature had in mind when issuing the cheques.

DOCTORS GAVE ME UP

But "Fruit-a-tives" Cured Me.

MOORFIELD, ONT., March 25th, 1910.
"I suffered from severe indigestion and dyspepsia for nearly two years. I could not take food without fearful distress.
"I could not do any work and became so run down and weak that I could hardly walk. I was attended by two experienced doctors and they both pronounced my case incurable, that they could do nothing more for me as they thought my disease was HEAVY FAILURE AND INCURABLE. The doctors gave me up and I looked forward for death in a short time.

"At this time my son asked me to try 'FRUIT-A-TIVES', and from the outset of taking these wonderful tablets I was better, and gradually this medicine completely cured me. I took a large number of boxes, perhaps a dozen, and now I am entirely cured and I have gained over thirty pounds in weight."

THREE BIG AUCTIONS—A WEEK OF GREAT OPPORTUNITY

GREAT SALE OF HORSE SHOW STARS

Wednesday, October 25th, at 11 a.m.

This will be the greatest aggregation of Show Horses ever brought together for sale in Canada, and there will be some sensational horses brought under the hammer.

HON. J. R. STRATTON

Peterboro, Ont.

To sell for him his entire string of Show Horses, along with their harness and all traps. These horses are "Blue Ribbons", and have been shown at some of the best shows in the world. They were shown at the Olympic Exhibition, London, England; at Madison Square Garden, New York City; at Ogdensburg, N.Y., and right in our own country at Montreal, Ottawa, Toronto and other places. Perhaps you know them, the horses are MIDGET (an unbeaten runner in Canada and the United States), MY PRIDE and PREMIER, a fine chestnut pair; NONE NICER, PERFECT DREAM, SHAWHILL PRINCESS, LADY NAVARRIE, LATEST NEWS and LOCHRYAN PRINCESS. We cannot begin to give you a list of the winnings of these horses, but if you will ask for a list of the prizes which will give most complete information. The traps and harness belonging to Mr. Stratton are all in good show condition. This sale provides one of the most excellent opportunities to purchase a good horse that have ever been offered.

CHARLES WILLMOT, Esq.

Belleville, Ontario.

With instructions to sell his show horses, Mr. Willmot has accepted a high government position, and his duties leave him no time to attend his horses. This gentleman has hundreds of winnings to his credit, and his list includes STRIP CUP, a fine Hackney pony; PICK-EM-UP, BUTTER CUP, a beautiful strawberry-roan, and GOLD CUP, a dark iron grey, and winner of over \$1500 in the past two years. Complete information in catalogue.

AUCTION SALES NEXT WEEK

OCT. 23rd MONDAY AT 11 A.M., 200 HORSES

Several of our shippers have advised us of their consigning full carloads of all classes of horses for sale on this day. There will, therefore, be no scarcity of stock. We would call your attention in particular to the large number of high-class Heavy Draughts and Expresses we have on hand at present, also a good selection of Ponies of all sizes and classes. FOR MONDAY NEXT we have received instructions to sell

A CARLOAD OF CONTRACTOR'S HORSES, twenty in the lot, and all of them young, of great size and strength, and practically sound. The contractor who is consigning these to us has no fault to find with the horses, but is selling them for the sole reason that his contract is completed, and he has no use for them at present. He has, therefore, instructed us to sell every horse by auction to the highest bidder.

PNONES: We are being consigned for absolute sale on Monday next TWO COMPLETE PONY OUTFITS, consisting of Pony, Cart and Harness, all in the best possible shape. The ponies are an extra lot, varying in size, and all broken to harness, and kind, quiet and reliable. To anyone wishing a good pony we would say this will be an unequalled opportunity to secure a high-class one at a reasonable figure. Remember, all to be sold unreservedly.

OCT. 26th THURS'DAY AT 11 A.M., 150 HORSES

We shall hold our regular sale of all classes of horses, including the finest selections of Heavy Draughts, General Purpose, Express and Delivery Horses, Carriage Cobs, Matched teams, Saddle and Road Horses.

AND EVERY MONDAY AND THURSDAY WE ALSO SELL a number of Serviceably Sound Workers and Drivers consigned to us by city people who have no further use for them, also an unlimited number of new and second-hand Sets of Harness, Vehicles of all classes, Blankets, Robes, etc., all consigned to us for unreserved sale.

M'GILL ATHLETES EXPECT RAIN AT PHILADELPHIA AND MORE PROMISED TO DEFEAT VARSITY MEN

Three Records, Including One by J. B. Morrow, Beaten at McGill's Class Games. MONTREAL, Oct. 20.—The annual inter-class games of McGill University took place to-day at the M.A.A. grounds. The student body turned out practically en masse to witness the events as the team to participate in the annual Canadian inter-collegiate championships is chosen from those who take places in the inter-class games.

The afternoon was featured by the breaking of three college records and by the equaling of two more. Students from the Maritime Engineers started, J. J. McDougall, a sophomore from Cape Breton, won all three weight events, discus, hammer and shot-put, and in each hung up a new mark. Stanley, a runner from Prince Edward Island, won the quarter, equaling the row when he was a student at McGill. Mackenzie, another Prince Edward Islander, won both the high jump and pole vault and in the latter event took Smith from the same province, took the most conspicuous work.

On the whole the performances were remarkably good and the students confidently predict that they will triumph when the two teams come together. The day was enlivened by the usual student parades thru the streets and by fights at frequent intervals between freshmen and sophomores in the grandstands. Summary: 100 yards—Hollinghead, 2 Dakin. 200 yards—Mackenzie, 2 Smith. 300 yards—Mackenzie, 2 Smith. 400 yards—Mackenzie, 2 Smith. 500 yards—Mackenzie, 2 Smith. 600 yards—Mackenzie, 2 Smith. 800 yards—Mackenzie, 2 Smith. 1000 yards—Mackenzie, 2 Smith. 1200 yards—Mackenzie, 2 Smith. 1500 yards—Mackenzie, 2 Smith. 2000 yards—Mackenzie, 2 Smith. 3000 yards—Mackenzie, 2 Smith. 4000 yards—Mackenzie, 2 Smith. 5000 yards—Mackenzie, 2 Smith. 6000 yards—Mackenzie, 2 Smith. 8000 yards—Mackenzie, 2 Smith. 10000 yards—Mackenzie, 2 Smith.

Argonauts Play Rough Riders at Rosedale, 3 P.M.

The Argonauts are all ready for the Rough Riders, with the possible exception of Hancock, the great line plunger, who has for the last couple of days been bothered with a cold, and he may not play to-day. In the event of Hancock not playing, the right wing line will be Murphy, Arnold and Moore. O'Connor will play quarter. The back division will be Smith, Binkley, Mallett and Lockhart.

MORALEFFECT OF REBEL VICTORY FAR-REACHING

Continued From Page 1.

from Pekin announcing a government victory at Nanking. It says the insurgents were "considerably beaten" and the government troops and naval vessels victorious.

Stringency of Money. SHANGHAI, Oct. 20.—Despite alarm rumors, trustworthy information received here is to the effect that all is quiet at Kiangsu, Wuhu, Nanking, and Hangchow. There has been a large exodus to Shanghai from these places, but reports of impending trouble there are almost all traceable to the situation in the stringency of money, due to a demand for silver for the best paper. Several native banks in Shanghai have suspended business.

A loan of \$3,000,000 in new currency of Nanking, sent to the official banks here has partially relieved the situation, but business is at a standstill and a crisis is threatened unless negotiations are begun by the merchant guilds to avoid it.

As viewed from here, the Chinese who are not openly identified with either the loyalist or the revolutionary cause, appear like a flock of sheep, hesitating and pretty certain to follow the majority when they are sure of the probable outcome. Everything depends upon the result of the first few battles.

Sympathy With Rebels. Local sympathy is generally with the rebels who will be supplied openly with funds if they seem in a fair way to win. Up to now the revolutionary element here have conducted their campaign with great strategy. There are practically no Manchus in this section. Two English newspapers here now speak of "constitutionalists" instead of "revolutionists."

There was a riot in a native newspaper office last night when a telegram announcing that the imperialists had won the first battle was posted.

It is stated that the plans of the rebels do not contemplate the destruction of bridges over the Yangtze. On the contrary their object is to lure the imperial troops south and then bring about an uprising in North China, thus placing the imperialists between two fires.

Shoppers and hundreds of others who usually suffer with tired, aching feet, or with weak ankles or general fatigue after a few hours of constant standing or walking, should wear the

Scholl "Foot-Eazer"

It is an anatomical foot rest, and is worn in the shoe like an insole. Gives firm, elastic, spring support to the arch or instep of the foot. Reduces the weight from heel to toe. Not heavy or rigid, but thoroughly delightful and comfortable to wear.

The Scholl "Foot-Eazer" prevents crowding and cramping of the toes, and instantly removes pressure of the aching callosities on the sole. Cures corns and bunions, aches the instep and prevents flat-foot.

The Scholl "FOOT-EAZER" not only eases the feet, but the nervous, body and mind.

FOUND ROOM DISORDERED AND THREE GAS JETS OPEN

Evidence at Inquest on Five Gas Victims Showed Carousal Preceded Tragedy.

An inquest into the deaths of the five men suffocated by gas in the Occidental Hotel, West Toronto, was opened by Coroner Gilmour at the morgue last night, and the information gleaned from the proprietor, Frederick McKeown, and several lodgers was largely corroborative of facts as previously understood. There being many witnesses to be examined, the inquest was adjourned until Tuesday next at 8.15 p.m. W. H. Cook is acting for the crown.

The men who met death in the hotel were George H. Knowles, Samuel Eadie, George Williams, William Downes and William Allan. Alexander Bruce, a C.P.R. engineer, said his room was on the opposite side of hall and that he slept soundly until about seven o'clock Sunday morning, at which time he went into the hall to wash. He did not notice any odor of the gas and when told of it did not believe the report. He went into Allan's room after being told repeatedly by another boarder, William J. Vasey, that there was sufficient gas in the house to raise the roof.

Turned Off the Gas. He saw the men burning in Allan's room and believing that there was no gas in that room, went into the next, where he could hear the gas escaping and after turning it off told one of the men partly up and told him to go to bed.

"Why did you tell him to go to bed?" asked the crown. "I did not think they were dead, but only drunk," replied the witness. After examining the men further he found they were dead. After opening the window, he returned to his room and opened the window in that room. He then examined Allan and found he too was dead. But his body still warm.

Besides the one gas cock, which was open wide, the other two were partly open, he said. Knowles was intoxicated. Knowles entered the hotel drunk in the afternoon in a rather bad condition. An hour before that time Bruce found Eadie lying on his (Bruce's) bed fast asleep. He returned to his room at 6.45 to awaken Eadie and he thought he heard Allan in another room, telling Knowles to go away. Bruce went downstairs again, where he met Downes, who asked him if Allan was in the room. He was not more of the man until next morning.

Bruce did not observe any signs of liquor on Saturday further than that Eadie had entered the wrong room, but when awakened was quite sober. He did, however, find a bottle of gin on a table near where Knowles lay the next morning.

William Vasey, who first spoke of the gas, was in the hotel all Saturday afternoon, but did not remember having seen anyone of the five men around. He left the hotel after having his supper at 6 o'clock and returned shortly after 7 o'clock the next evening, when he went directly to his room and renewed his coat. He then started downstairs to wash, but on asking Bruce if he smelled gas returned and entered the room occupied by the men in search of the key. They found Williams and Allan on the floor and the other two lying on a bed near the window.

Liquor in Room. "Did you see any liquor in the room?" "Yes, I saw a flask and a broken glass on the floor."

"What condition was the room in?" "Very much disordered."

Vasey said that no liquor was obtainable in the hotel. Annie Geisley, who occupied the room directly under Allan's that Saturday evening and did not hear any noise whatever in the room above. On hearing the report that five men had been asphyxiated she went to the top flat, but on seeing the bodies, ran downstairs in excitement.

The proprietor of the hotel, Neil Frederick McKeown, said he was at the hotel during the early part of Saturday afternoon and returned about 4 o'clock.

"Did you see any of the five men 'Not on Saturday. The last I saw of them was on Friday, when they were in the dining room."

Mr. McKeown turned the gas in the

PORT McNICOLL

ONTARIO ONTARIO THE NEW C.P.R. EASTERN TERMINAL ON GEORGIAN BAY, AT TORONTO'S BACK DOOR 117 MILES FROM TORONTO

Quietly, and without the knowledge of Toronto people, the Canadian Pacific Railway have been building on the shores of Georgian Bay, at Port McNicoll, what one of their own officials has said will be the LARGEST TERMINAL on their system. For months the work of creating a new shipping port has been going on. Seven Million Dollars have already been spent, ten millions will be spent. Grain elevators are now being erected, freight sheds provided and a city is in the making.

We have in our offices maps and photos showing the immensity of the work being so rapidly pushed to completion by the C. P. R. We ask you to call and look these over—it will pay you. We will also show you the best located lots in Port McNicoll. Lots that are situated in the heart of the busiest district. We are selling them at a price that will re-imburse you more than four fold. You do not need a heavy cash deposit—and the lots are not high priced.

PORT McNICOLL IS NOW THE TERMINAL OF THE C.P.R., GEORGIAN BAY All freight and tourist travel is via Port McNicoll. Port McNicoll will have low freight rates. It is the logical point for flour mills, factories and distributing warehouses, and is 134 miles nearer the seaboard than the former Georgian Bay Terminal. Port McNicoll has to-day what many a new town takes 10 years to acquire, namely, sewers and water. History repeats itself. What Fort William, Port Arthur, and Owen Sound are to-day, Port McNicoll will be in a few short months.

WE VENTURE TO SAY THAT PORT McNICOLL IN 1915 WILL HAVE 15,000 PEOPLE BUY YOUR LOT TO-DAY WE HAVE SOLD TO DATE OVER 62 LOTS. PRICES RANGE FROM \$175 TO \$250. 1-3 CASH

From Owen Sound to Peterboro is about 210 miles. From Port McNicoll to Peterboro about 90 miles or a saving of 120 miles on the haul from Georgian Bay to Montreal and the ocean liners. Grades out of Owen Sound are heavy. From Port McNicoll to Peterboro a perfect line allows the carrying of 60 cars per train of grain. See this advantage? The Canadian Pacific Railway directors know all about Port McNicoll. Look out for huge flour mills, for the Lake of the Woods and Ogilvy Flour Companies at Port McNicoll. Port McNicoll is blessed in every way. Bala Falls is only a few miles away and great power, under the auspices of the C.P.R., will be generated and transmitted to Port McNicoll.

ALLY YOUR DOLLARS WITH PORT McNICOLL AND REAP FOUR-FOLD

OUR GUARANTEE We guarantee the title to our lots in Port McNicoll to be perfect. We guarantee to furnish a good and valid deed to each purchaser of a lot or lots in Port McNicoll. We guarantee to pay all expenses, both for time and money expended if any person who upon investigation finds that we have stated anything in printed literature or written letter materially at variance with the facts in regard to Port McNicoll. We guarantee to return all money paid to us if conditions are not as represented in our printed matter and written letters.

WARD 6 TORIES WOULDN'T LET A. W. WRIGHT RETIRE

He's President Again by Acclamation — Conservatives Must Listen to Voice of People.

Brocton Hall was packed at the Ward Six Liberal-Conservative Association meeting held last night. Routine business, reports, and nominations for the various offices took up most of the evening, but at the conclusion addresses were delivered by A. W. Wright, president of the association; Hon. Thomas Crawford, and W. D. McPherson, M.L.A.

OMEGA WATCHES You'll save much time and some inconvenience by making the "OMEGA" your first choice, because it is sure to be your final selection. ELLIS BROS., Limited, 105 Young St., Toronto, Diamond Importers.

Wright congratulated the association on their splendid achievements in the recent election, and regretted that the part of he had taken in the interests of imperial preference in Great Britain had prevented him from being present at the election campaign here. Canada, he believed, had risen in the estimation of the entire world by the stand which was taken on the reciprocity pact, and he predicted that the Dominion would soon be awarded, not only by internal prosperity, but in the shape of imperial preference in Great Britain.

"The truth," he said, "to which the Conservative party must set itself is that to realize the real meaning of the verdict on the 21st of September, and then try to understand what it is that Canada would have the Conservative party to do for Canada and for the empire, for henceforth these are one."

Up Goes Canada's Status. Thomas Crawford congratulated the members of the association upon their splendid work during the last election campaign. He believed that the Conservative victory had raised Canada in the estimation of the United States just as it had across the seas. The party, however, had another duty to perform, but with such a government and such an organization there was no room for doubt as to the result.

In a brief speech, W. D. Macpherson, M.L.A., dealt with the glorious prospects of the country resulting from the verdict of the recent election. The present Ontario Government was responsible for many great boons to the province.

The meeting passed a resolution to the effect that the association's candidates for parliament should contribute \$50 annually toward expenses. This met with uproarious approval even by the candidates.

Nominations for the various offices were received as follows: President, A. W. Wright (acc.); vice-presidents, Dr. J. M. Palmer, Wm. McBrien, John Hall, Dr. and W. T. Burns; second vice-presidents, H. G. Larkin, H. C. Cardinal, Thos. Rooney, and Robt. Millett; third vice-presidents, W. J. Eadie, Robt. Irving, Jas. O. Bates, W. H. Price, Geo. Rathburn, W. Corrigan; recording secretary, W. H. Scott; treasurer, Robt. Evans; financial secretaries, R. J. Clark, A. Taylor, Angus McLeod and R. K. Hurst.

The elections will be held next Friday night.

VICTIM STILL UNKNOWN. Sergeant Drury, the inquest into the death of the unknown man who died at the General Hospital Thursday as a result of being struck by a street car at the corner of Coxwell-avenue and Queen-street a week ago, was adjourned until next Friday evening. Drury said he was near the scene when he heard the motorman call out that someone was hurt. A number of the passengers on the car will be subpoenaed.

College Heights

Look at This Map

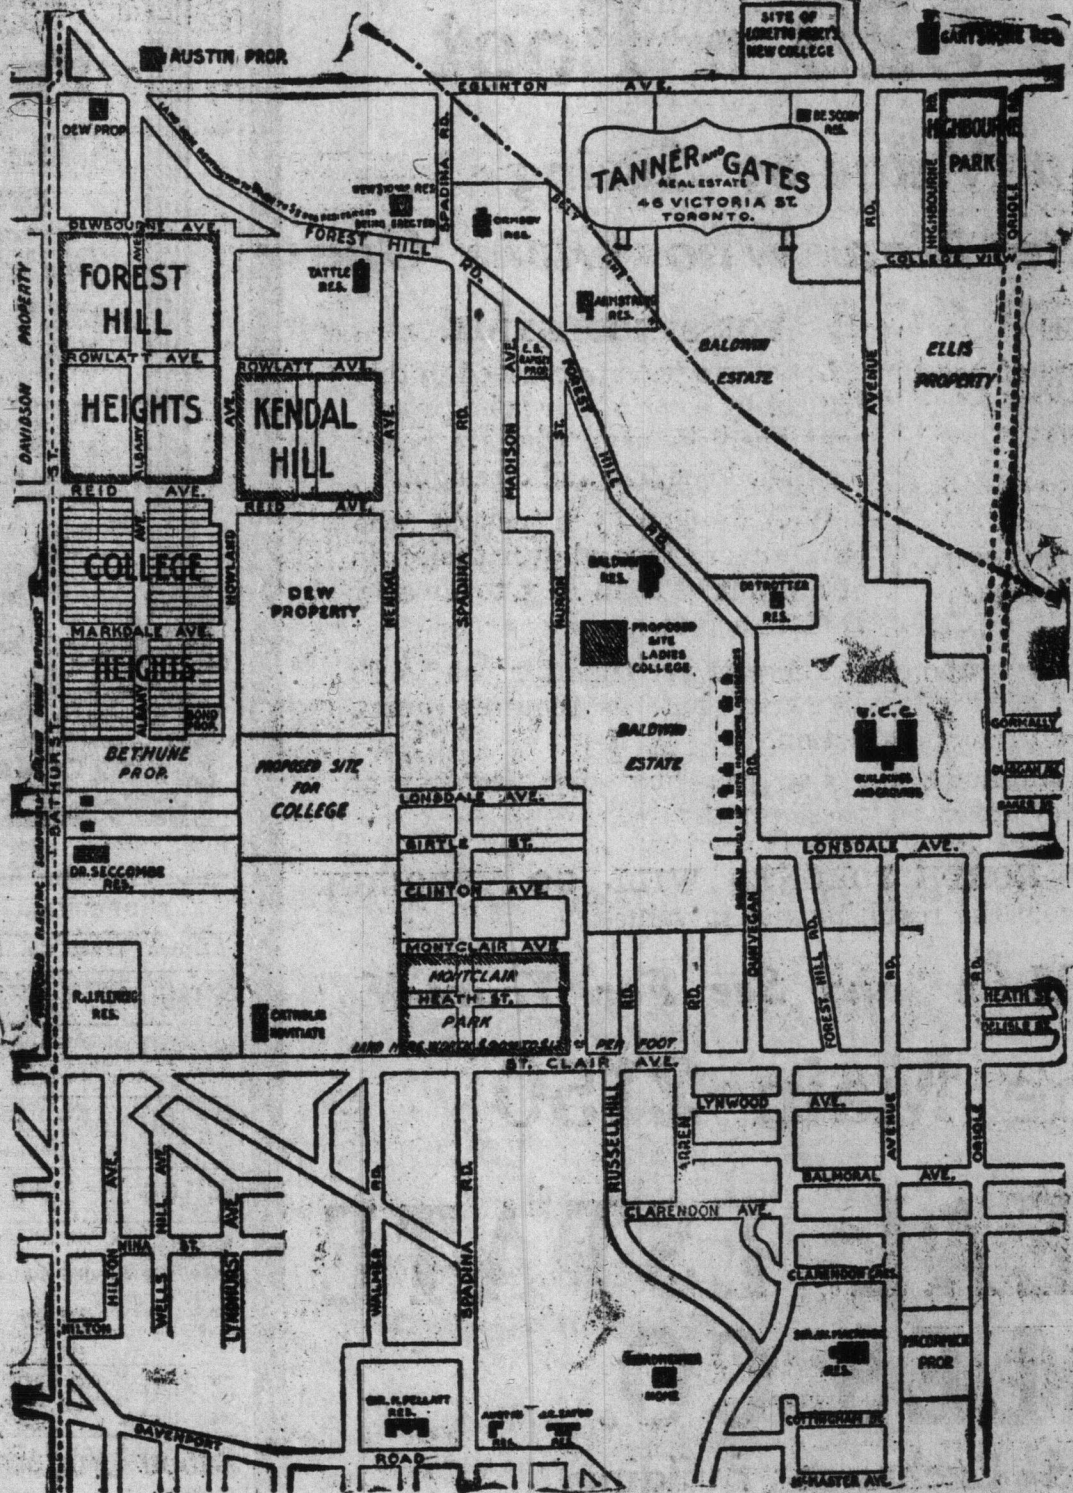

It shows you the location of what is the finest and will be the most exclusive residential district in or around Toronto, commonly known as the "Hill" district.

- HEALTH.** This district has the reputation of being the healthiest in Toronto—College Heights is the highest and most healthy section of this district.
- CONVENIENCE.** It is at present not more than 25 to 35 minutes from King and Yonge and will be much less when the civic car lines, now under construction, are completed.
- RAPID GROWTH.** Just think for a moment of the fact that Toronto spreads nearly ten miles east and west and only two and a half to three north—then you will understand why the future growth is bound to be northward and through this district.
- EXCLUSIVE-NESS.** Most of the property surrounding College Heights is being held at and sold under stringent residential building restrictions so that the entire district will be uniformly high class.
- HIGHER PRICES.** Considerably higher prices are being asked for and obtained on the surrounding property than we are asking for College Heights—in fact, just a short distance south, lots are being sold at five or six times as much.
- SAFE INVESTMENT.** There is every reason to believe that College Heights lots will sell in two or three years at as high prices as St. Clair property sells for now.
- BIG PROFITS.** We believe this is the most promising investment in Toronto to-day. It will cost you nothing to let us give you full particulars of this desirable property—nor place you under any obligation whatever.

"BOILED CURATEY" KIND OF HYMNS IN MAJORITY
Principal Peterson of McGill Will Write Hymn Book That Will Be All Pure Poetry.
MONTREAL, Oct. 20.—"Perhaps you do not know it, but I am quite a specialist on hymns, and when I have time, I am going to compile a hymn-book which will contain nothing but good English and pure verse. At present, in the words of a friend, we have only hymns of the nobby-pamby, boiled curatey kind," said Principal Peterson of McGill University at the morning session of the annual convention of the Provincial Association of Protestant Teachers of Quebec. Principal Peterson spoke on "Poetry in the Schools," and strongly urged its more general adoption.
"The symbols of civilization in this country are said to be the railroad, the newspapers and the schools. The railroads are successful and make all the money. As regards the newspapers, we never cease prying for their improvement. The school is at the other extreme. It makes no money and the profession is poorly paid. The school should be regarded as one part of the social problem, and the first object is to get to the masses and give them the broadest and most liberal education, to make the most of the brains of our people, not only by learning, but also by doing things. A nation at school is the counterpart of a nation in arms."
He deplored the going out of the practice of recitation and recitation. "Parents, too," said the speaker, "regard poetry more or less as a waste of time, but never object to lots of arithmetic being taught to their children, because they love the multiplication table and all that is on it. It would be a fatal error for the spirit of materialism of the seniors to be reflected on the minds of the children. Poetry can be made an educational agent of the most important kind."

CUT OUT THE DEAD WOOD.
The board of trade issues the following bulletin, which contains sound advice for all public bodies:
"Now that the holidays are over the members of the board of trade are reminded that in the forests of our Northern Ontario playground there is a good deal of dead wood. It obstructs the woodland paths, interrupts the growth of healthy young seedlings and is useful only when removed to a bonfire. Dead wood is a nuisance anywhere. There should be none in the board of trade membership."

ESTATE NOTICES.
LIQUIDATORS SALE OF CERTAIN Assets of the Barron Brick Company, Limited.
Pursuant to the Winding-Up Act and to the Order of the High Court of Justice for Ontario, dated 4th February, 1910, there will be offered for sale by public auction in one or more parcels, as hereinafter set out, with the approval of the Master-in-Ordinary, at the auction rooms of Chas. M. Henderson & Co., 37-38 King-street east, Toronto, on Saturday, the 18th day of November, 1911, at 12 o'clock noon, the real estate, factory, plant and equipment of the above named company, as set out in the schedule hereinafter mentioned, which will be produced at time of sale.
The real estate consists of two plots containing nine acres and 32 acres, more or less, respectively, situated in the factory district northwest of the Village of Weston, adjacent to the property owned by the Roman Stone Co., and is intersected by the Canadian Pacific Railway Company's line of railway, and contains part of lots 8 and 9, Concession 5, west of Yonge-street, Township of York, County of York, and the same, together with certain rights of way connected therewith, is more particularly described in a Deed of Conveyance dated 21st July, 1911, from The Weston Land & Improvement Company, Limited, to E. R. Clarkson, which said Deed was duly registered on the 30th September, 1911, as No. 6225.
Upon the said nine acre plot are erected two frame one-storey buildings, 100x100 feet and 60x50 feet respectively, and one brick dry kiln, containing four boilers, and other connected machinery in position.
The entire property, lands and chattels, will first be offered en bloc, and if the reserve bid be not reached, it will then (subject to a reserved bid in each case) be offered in the following parcels:
Parcel "A."—Containing the westerly plot of 9 acres, more or less, with the buildings, plant, machinery and other chattels set out in the schedule above mentioned.
Parcel "B."—Said westerly 3-acre plot with the buildings, boilers and other fixed plant set out in a separate schedule produced at the time of sale.
Parcel "C."—The chattel property not included in Parcel "B," but set out in said stock sheet.
Parcel "D."—The easterly plot of 22 acres, more or less.
The purchaser (except of Parcel "C," if sold separately) shall pay 10 per cent of his purchase money at the time of sale to the liquidator, or his solicitors, and the balance in 30 days thereafter, without interest. The purchaser of Parcel "C," if sold separately, shall pay the purchase price to the liquidator or his solicitors on day of sale.
Other conditions of sale shall be the standing conditions of sale of the High Court of Justice, as varied by conditions of sale, which will be made known at any time on application to the liquidator or to the solicitors hereinafter named, and by the auctioneer at the time of sale.
The stock sheet and schedules of assets offered for sale may be examined at the offices of the under-mentioned liquidator or his solicitors, or at the office of Mr. W. W. Vickers, 77 York street, Toronto, and the property, machinery, etc., may be inspected upon application to the said liquidator.
Dated this 12th day of October, 1911.

Delated Profit-Taking Gives Easier Tone to Mining Market

Selling on Signs of Strength Drag Weight on the Market

Perceptions Show Further Irregularity—Signs of Both Strength and Weakness—Beaver Carried Lower.

World Office, Oct. 20. Further irregularity was shown by the various Porcupine issues in the mining exchanges to-day, the market displaying a rather mixed undertone with price changes erratic in consequence. Signs of strength and weakness were both apparent, but on the whole a slightly easier tone developed. Profit-taking on the recent bulge has not altogether disappeared and it is selling of this nature which is proving a drag-weight on the market at the present time. Equilibrium puts in an apathetic tone to the strong spots, and uncertainty is taken care of, will put a check on any determined upward move.

Hollinger was weak spot in the market to-day, the big issues selling off an additional 20 points to \$11.85 on being sold at the lower price, however, and at the close the market was bidding 11.40 for the shares. There was some profit-taking in Dome Extension early in the day, and under that headline the shares got off over a point to 78, closing bid at that figure. The recent advance in the stock has resulted in some weakly held accounts coming on the market at the higher price, and these are being well taken care of, and are not proving burdensome to any great extent. Losses were also shown by some of our cheaper issues, but these did not cause apprehension among holders, who set the movement down to a cheap period of hesitancy, preceding a rise.

Signs of buoyancy. Crown Chartered was one of the most active issues in the day, and got up to a new high record for the movement, the price advancing a full point to 42 under an excellent buying demand. United Porcupine was also active, but the price did not succeed in going into any material volume, and did not cause apprehension among holders, who set the movement down to a cheap period of hesitancy, preceding a rise.

Porcupine Notes

Porcupine, Oct. 18.—(From Our Man-Up North.)—Reports from the Porcupine Township Company, operating on the Munro Mines lot in Munro Township, plan to install a compressor plant immediately. With the big six-drill compressor in running, the Lucky Cross Mines at Swastika will soon show to the public what lies underneath in the six well-defined gold veins. The "Golden Sidevalley" reported to the public a year ago this month by the late "Billy" More was cut at the 75-foot level. It still shows free gold, in a much narrower lead, however. Engineers who contend that the Porcupine formation runs in lenticular lenses state that there is no discontinuity in the fact that wide showing on the surface narrows with depth. They also widen again. This appears to be the rule with quartz veins of the lenticular character. And, aside from the few fissure veins reported, most of the Porcupine veins so far explored take this same irregular course. The values generally comes strongest in the narrower leads.

BRODERICK'S OVERCOATS

The most conspicuous garment a man wears is his overcoat. An overcoat looks conspicuous, by well-made when it is the product of Broderick's tailoring. Aside from quality of material, there is an effect obtained only by artistic workmanship, and that effect is one of the accomplishments of Broderick's.

Our showing of overcoats includes all the fabrics most fashionable in London and New York. Outside these two cities, Broderick's is the only place where many of these choice lines can be secured. We make overcoats as high as \$55, and as low as \$22.50.

President Heffernan Well Pleased With Showing of Property.

Porcupine, Oct. 18.—(From Our Man-Up North.)—John W. Heffernan, head of the Crown Chartered, is pleased with the showing of property this week, leaving last night for Montreal. He is accompanied by the company's consulting engineer, W. Leach, and the manager, Mr. Heffernan left the shaft on the Davidson, where all the energies of Manager Dike and his 40 men are now concentrated at the 105-foot level, where the shaft is being cut in the bottom of the shaft will go on at the same time. Manager Dike believes with good luck the vein will be within five days of the surface.

CUTTING VEIN AT DEPTH

ON THE DOME EXTENSION

Main Shaft Down 115 Feet—High Average Assays From Anchor Vein.

Porcupine, Oct. 18.—Mining operations have been resumed on the Dome Extension, and the camp is a scene of great activity. The main shaft is down 115 feet, and is within 25 feet of the anchor vein, which is 32 feet wide. Many samplings of the vein have been made, and the averages have run all the way from \$20 to \$35 to the ton. For so great an ore body this is a high average, and if it continues at the various levels there will soon be millions of dollars of ore in sight.

The plans now being gone on with are to put the shaft down several hundred feet and to cut the Anchor vein to the south each hundred feet down from the 200-foot level. A cross cut will shortly be run in the north to cut three different veins, which carry ore known to be of high value. The Anchor vein is topped a drift will be run eastward toward the Little Dome, which is about 100 feet wide. Probably more rich samples have been picked up on the surface of the Little Dome than in any other part of the Porcupine camp. When the sun comes out after a rain innumerable sparkles from little specks of gold can be seen all over the surface.

A drift will also be run along the vein westward to the Dome line, where it is expected that the famous Dome circuit, Sample box free if you mention this paper and enclose 5c. stamp to pay postage.

BEAUTIFUL SHOWING IS THE BIG DOME FIND

Herseshoe, Star and Diamond Wreathed in Gold in Wonderful Stairway Vein.

Porcupine, Oct. 18.—(From Our Man-Up North.)—Two domes, one that stands out like a sepulchre of white with a mantle of yellow spread light over it, and the one that is now being uncovered, six feet of clay with stairways paved with precious metal, with now and then a figure in the outline of a horseshoe, a star, and a diamond all wreathed in gold, are in evidence at the Big Dome.

Supt. Meek is confident from the stripping done on a second dome line in places splatters over the rock, where the quartz finally pinches out in the schist to the east. The pay streak in the new find is from two to eight inches in width, in places splatters over the rock, where the quartz finally pinches out in the schist to the east. The pay streak in the new find is from two to eight inches in width, in places splatters over the rock, where the quartz finally pinches out in the schist to the east.

Workers are still engaged in uncovering the rock. The first reported extends from the quartz for perhaps 100 feet. But, on uncovering, the "dome" was found to extend fully 60 feet further. And the gold is just as freely disseminated in the quartz, from a surface view, in the last 50 feet as in the first 100.

Where the lead pinches out the schist dips straight down. Mine men are satisfied that the dome ends there.

Chas. Fox.

WORKING TOGETHER

Preston and Brydges to Co-operate in Proving New Vein.

The Preston and Brydges people are co-operating in the opening up of the "Jewelry" vein on the Davidson. The Brydges was naturally most anxious to start active operations immediately, to further open up the world-famous vein, but to equip a power plant would have taken some time. This has been overcome through an arrangement made yesterday, by which the Preston will lease the Brydges' power to run their drills until such time as the Brydges power plant is ready. Next week inching drills will be running on the "Jewelry" vein on both the Preston and Brydges sides of the line, and interesting developments may be expected.

The strike on the East Dome claim is no doubt very important. Some ore from it arrived by express yesterday, and was on exhibition at the offices of Messrs. A. E. Oiler & Co. It is very rich. Mr. Fred Preston has received a wire from his agent in Porcupine saying that this last strike is tremendous.

Further news was received at the offices of the Preston East Dome Company yesterday, saying that good ore had been cut in the drift from main shaft at the 75 foot level.

PHONE CASES TO BE HEARD

City Will Apply for More Uniform Rates on Island.

Cases in which the Bell Telephone Company is interested will come before the railway commission at their meeting on Monday next.

The Union Stock Yards will apply for an order directing the telephone company to allow the patrons of the stock yards to use the stock yards phones in telephoning to their offices.

The city asks that the telephone company charge the rates to subscribers on the island and other parts of the city so that the rates are more uniform and do not discriminate against outlying districts.

HAILEYBURY THRIVES ON PORCUPINE FIELDS

Gold From Northern Camp is Building Up Town, Tho Most of It Returns.

HAILEYBURY, Oct. 20.—(Special.)—The people of Haileybury have been enriched to the extent of \$4,000,000 through the discovery of Porcupine. This amount of money, in gold cash, has been deposited in the banks of Haileybury by the people of the town. It has come from sales of properties in the gold fields.

But very little of this big sum has remained in the banks or has even been deposited in the town. Fully 95 per cent. of this three million, according to one Haileybury bank manager, has gone back into the north, for the development of mines, and the discovery of new fields.

Haileybury is the mecca of the prospectors. From there into all parts of the north of Ontario, into northern Quebec, and even into far Vancouver, are being sent the Porcupine proceeds and Haileybury men are sending them out.

The money the men of the north make out-of-the north stays in the north. Some of it is put into magnificent homes, and there is many a house in Haileybury that has been built with Porcupine money. But a great deal of this three millions has been sent out again in the form of well supplied prospectors have departed with the proceeds and Haileybury men are sending them out.

Scattered all over the north country are thousands of Haileybury-financed prospectors. They are certain to return when the freeze up comes, with news of discoveries that will rival, and perhaps exceed, the present rich fields of the north country.

Perplexing Changes in Wall St. But Market Closes on a Rally

Erratic Movements in New York Exchange End in Substantial Gains For Day—Toronto Market Irregular.

NEW YORK, Oct. 20.—Erratic movements again characterized the stock market to-day, although it exhibited a consistently firm undertone. Prices seemed to fluctuate in response to no well defined changes in opinion, which remains in a state of confusion and uncertainty. Changes in consequence were often perplexing, and could be attributed only to the varying fortunes of large speculative interests, whose operations have been expanded considerably in the last few days. The market closed with substantial gains, ranging from 1 to 2 points among the active stocks, but the advance seemed to represent more the temporary advantage of one faction than a genuine enhancement of market values.

Manipulators at work. Activity increased on both sides of the market the bears were not able to bring about such periods of weakness as they produced yesterday. According to the gossip of the street a large pool was at work in United States Steel. Whether or not there is any ground for such a report, evidence of manipulation in various parts of the list were plain. Bears attacked the market energetically in the early trading, but made little headway. Selling at the outset was unusually heavy. More than 50,000 shares of United States Steel were thrown on the market within the first few minutes, but although the list weakened somewhat, it soon recovered. After a series of unimportant fluctuations, the market took on renewed activity before the close, and in the last half hour prices were carried up rapidly.

The metal stocks were most conspicuous. Transactions in United States Steel constituted one-half of the total morning's business. The copper stocks, after several months of inactivity, became prominent in speculation. Amalgamated Copper advancing two points on heavy dealings, and Anaconda, Tennessee Copper, Utah Copper and American Smelting gaining a point or more.

Large Sale of Coppers. While the movement in these stocks is largely speculative, it has a basis in current conditions in the copper metal trade. Sales of copper, on a large scale, for both domestic and foreign delivery, and prices have been quite generally advanced by producers and selling agencies. Although sales thus far this month are estimated at more than 100,000,000 pounds, a large increase in surplus stock at the end of October is expected.

Declaration of an initial dividend on American Red Sugar common, placing it on a 2 per cent basis, had been discredited some time ago, although the stock made a further advance to 99 3/4, its highest price on record. Allis Chalmers recovered part of its recent loss. The movement was most pronounced in the 5 per cent bonds, which gained more than 3 points. There was no continuation of yesterday's heavy selling of Great Northern Ore. Certificates, which resulted from the announcement that the United States Steel Corporation would terminate its lease of the Hill ore lands, and the stock moved narrowly.

TORONTO STOCK EXCHANGE.
Friday Evening, Oct. 20. Trading in the Toronto stock market was on a quiet basis again to-day, and proved about the only feature evolved in the dealings. Some of the specialties were firm, but the usual favorites continued to reflect an easier trend, and lower prices were consequently recorded in these instances. Public speculation in the exchange was at a low ebb, but since this is being realized in all the stock markets, both on this side and across the border, the fact is occasioning little comment here. One of the features in the situation in the domestic issues is the firmness with which holders are hanging on to their stocks. At times the market seems fairly bare of securities, but this is true more of the specialties than of the accustomed active securities. The latter are not meeting with much interest.

quidation, however, and are consequently holding their own with little difficulty. Traction Issues Easy. A further reaction in Sao Paulo, which carried the shares back to 177, a loss of a quarter of a point, was about the only feature of the traction issues to-day. The idea is gaining ground that the recent upward movement in the stock was a little overdone by enthusiastic bulls, and now that profit-taking is being indulged in, the market is proving more than usually vulnerable on that account. At the close the shares were on offer at 177, with bids a quarter removed. Rio showed a firm tone during the morning hour, getting up to 114 1/4, a fraction above yesterday's top figure. Later on the improvement was lost, however, and at the close the best bid was 113 3/4, with the stock offering an eighth higher.

Strength in the specialties was the feature on the strong side of the market. The Maple Leafs were the significant instances of this, both the common and the preferred issues showing marked firmness. Maple Leafs common got up nearly a point, and at the outset was unusually heavy. More than 50,000 shares of United States Steel were thrown on the market within the first few minutes, but although the list weakened somewhat, it soon recovered. After a series of unimportant fluctuations, the market took on renewed activity before the close, and in the last half hour prices were carried up rapidly.

Men! It's Time to Be Putting on Your 'Body Guard' Underwear

Photograph of St. Margaret's Works, Leicester, and some of the employees. This is where "Body Guard Underwear" is made exclusively for The Robert Simpson Company, Limited.

Surely the poet who wrote of this season that the melancholy days were come did not wear "BODY GUARD" UNDERWEAR. If this fine protection had been invented then, the poet would probably have given us a quick-stepping rhythm, full of life and energy, instead of a mournful dirge. And that's just about the difference that "BODY GUARD" UNDERWEAR will make to many a man this Autumn and Winter.

The wool used in "Body Guard" Underwear has been weighed and tested. We want you to compare it—take hold of the garment, and compare it with anything sold near the price. You can feel its superiority instantly. This wool has been thoroughly cleaned, combed and made absolutely sanitary. The underwear is woven by expert operators, on the newest machines, in all weights.

OUR GUARANTEE: ANY GARMENT BEARING THE "BODY GUARD" LABEL WHICH SHRINKS IN WASHING WE WILL REPLACE ABSOLUTELY FREE OF CHARGE.

Double Breasted and Double Backed Soft, Medium and Heavy Weight Natural Wool "Body Guard" Underwear

These two makes of "Body Guard" Underwear made with double breast and double back, and knitted in the flat knit style, have been manufactured especially for us to our own specification, and you will notice that the prices quoted are exceptionally low for this high grade of underwear.

KG1884. "Body Guard" Undershirt, made from fine selected yarns that will not irritate the skin, and will not felt in the wash. The double breast and double back is a safeguard against the coldest winds. Sizes are 34 to 46. Simpson's special price 1.50

KG1885. "Body Guard" Drawers, to match, with a large double back, where the warmth is most needed; sizes of drawers, 32 to 44. Simpson's special price 1.50

KG1886. "Body Guard" Undershirt, double breast and double back, heaviest winter weight, silk braided trimmings, extra well made from fine Australian wools that will not irritate the most sensitive skin; spliced to strengthen the parts where the most wear comes. The quality of this garment is the same as you would expect to find in much higher-priced goods; sizes 34 to 44. Suit of shirt and drawers, 4.75. Special, each shirt 2.50

KG1887. "Body Guard" Drawers, to match, 1 1/2" double back, spliced knees; sizes 32 to 42. 4.75 suit of shirt and drawers. Special, each garment 2.50

Two lines of "Body Guard" Natural Wool Underwear for men, which at these prices cannot be equaled. To enable us to sell them at such low prices, we had to buy immense quantities—You profit by that.

KG1888. "Body Guard" Underwear, a medium weight undershirt for fall or early winter wear; made in the natural shade, double-breasted, non-irritating and guaranteed unshrinkable; sizes 34 to 44. Special, each 1.00

KG1889. Drawers to match, beige waist-band; sizes 32 to 42. Special, each 1.00

KG1890. "Body Guard" Natural Wool Underwear, made same style as KG1888, but in the regular winter weight. These are beautifully soft and well-finished shirts. Sizes 34 to 44. Special, each 1.50

KG1891. Drawers to match, good, close-fitting ankles. Sizes 32 to 42. Each 1.50

KG1892. "Body Guard" Scotch Wool Undershirt, such as these can be thoroughly relied upon to give the greatest satisfaction; they are made from pure undyed wool; the double breast and back is taped with galoon to match the wash, giving it a very neat appearance; sizes 34 to 44. Special, each 1.50
