Dimensions of Shamrock

Many New Wrinkles in England's Challenge for the America's Cup

Capt. Hogarth Says She'll Win

Construction Under Greatest Secrecy at Blackwall-Her Crew Completed

London, March 2.—Many important details of the new cup challenger Shamrock, have just been given out, though the secret construction of a vessel has never been so jealously guarded.

The Shamrock will be about 88 feet on the water line, 128 feet over all, and 22 feet beam.

Her hull is covered with a sheeting of phosphor or gun metal bronze to the water line, from the water line to deck, aluminium will be used, as in a Defender.

The Shamrock will have a gun metal deck three inches thick, over which will be laid a pine flooring.

The rivets will be made of exceedingly strong Muntz metal.

Captain Hogarth says the yard daily has completed the choosing of a crew for the yacht.

There will be 30 men, half of them from the Clyde, and the other half, English yachts. Places in the crew have been much coveted.

Hogarth feels confident that the Shamrock will win in the races off New York next fall.

John Guinane's "Anna" Shoes for Men

Choice of High-Class \$5-\$6.50 Shoes for

First-class shoes at second-class prices—saving \$1.25 to \$2.75 on your pair.

What makes a shoe cheap? Cheapness depends on the wear—the wear depends on the leather and the welt.

If there's one particular time of the year when cheap shoes are dear it's in March and April—the months of wind and wet.

Stick to the best shoes. See these.

London Hockeyists Default

Guelph Nationals Get the Round by Winning the Protest and the Losers Are Score

London has officially notified Secretary Beaton of the C.H.A. that they would default in the game tonight against the Guelph Nationals.

The London representatives were in town yesterday, they being President W. L. Smith, Vice-President I. A. Macbeth and Captain J. Brown.

When seen at the Palmer House by the world reporter they were feeling sore over the matter.

Macbeth said that he thought the ruling was an injustice and that it had killed hockey in London, as far as the O. H. A. was concerned.

He also said that he would be sending three men to Toronto to attend a meeting of the executive, when the matter will be discussed.

The Guelph Nationals, who received and treated them in a courteous way, told them the decision.

London now positively refuses to play Guelph again, and as the O. H. A. is determined to stick to the ruling, tonight's game will go by default.

Guelph will play the Frontenacs in the final at an early date.

Simcoe 5, Wellington 2

A final game was played last night on Mutualist ice in the Lacrosse-Hockey League series, between the Simcoe and Wellington at the Caledonia rink.

The whole game the playing was fast and clean. The Simcoe forwards played great combination, while the Wellington line neither team had scored, but in the second, referee to the brilliant play of John White, the score stood 2 to 2, when Referee Lamont called time.

Seaford Beat Wingham

Seaford, March 2.—The game of hockey played to-night between Wingham and Seaford was one of the most exciting and keenest contested games played here this season.

Seaford scored the two final goals in the second period. The score was 2 to 2.

Seaford (G): Goal, Stevenson; point, Hunt; cover-point, Dunlop; forwards, Seaford; defence, Matthews, Harrows, Forbess, H. Cline, Jack.

Shelburne Beat Orangeville

The long-contested game of hockey between Shelburne and Orangeville teams met here to-night in the final game of a series.

The game was fast from start to finish, resulting in a victory for the home team by 7 to 6.

This leaves Shelburne winners of the series played here this afternoon.

Shelburne (F): Forwards, Madill, McKay, Porter, McKay; cover-point, Bretz; point, MacMillan; defence, Brundage, H. Cline, Orangeville (G): Forwards, Hunter, Hendry, Mennery, Henderson; cover-point, Nicholas, Hough, Fox.

A Championship for Ottawa

Ottawa, March 2.—Ottawa Secunda won the Intermediate championship of the Canadian Hockey Association.

The Ottawa team won by 6 goals to 2 to-night. The Montrealers had a big heavy team, and the Ottawa team, under the leadership of Coach H. A. Brown, played very well.

The Montrealers were refereed, and the players were: Goal, Hutton; point, Putnam; defence, H. A. Brown, H. Cline, H. Cline, H. Cline.

A JOINT STOCK DISILLERY Is What the Egin and St. Thomas Hotelkeepers Are After Now.

St. Thomas, March 2.—Egin and St. Thomas hotelkeepers are after a joint stock distillery. The association held a largely-attended meeting here on March 1.

It was decided to try and get legislation introduced in the Ontario Legislature to abolish the two-year storage clause in the Liquor Act.

The Doublon Government will be asked to abolish the two-year storage clause in the Liquor Act.

It is necessary. Stock sheets were presented and enough stock subscribers to more than make up the quota of Egin's share for a joint stock distillery, to be run by the benefit of the Doublon Government.

These sheets will be forwarded at once to every county in the province.

Steps were taken to see that rufianism in hotels in this district will be prosecuted promptly.

The meeting adjourned till March 23.

Now for Fight.

Those who want to take advantage of the reduction in fares by the Atlantic Transport Line between New York and London, should secure their passages at once. If lower, the company will get the advantage. Direct steamer, finest cuisine out of New York. New ships and the best of service. Full particulars, H. M. Melville, General Can. Agent, Toronto and Adelaide-Street, Toronto.

THE BONUS AND EXEMPTION EVIL.

As far as Toronto is concerned, Mr. Pattullo may count on this city's support of his resolution to prevent municipalities from bonussing or exempting factories.

THE RIGHTS OF POLICY-HOLDERS.

Hamilton Times: The cat is out of the bag, and the milk in the cocoanut has become visible to the naked eye. Mr. Samuel Barker made a splendid speech at the annual meeting of the shareholders of the Canada Life Assurance Company, and though he did not succeed in preventing the removal of the head offices of the company from Hamilton to Toronto, he made out such a good case for the representation of the policyholders on the board of directors that he has secured the appointment of all who heard or read his remarks.

Everybody who has used Laxa-Liver Pills says they are the finest thing in the world of medicine. Mr. B. H. Orde, of Greystock, Ont., is of this opinion and this is how he expresses himself: "Some time ago I got a sample package of Laxa-Liver Pills, and after I had used them with great satisfaction I sent to Mr. Madill's drug store, in Peterboro, and bought two bottles, one of which I gave to a friend of mine. He assured me they did him a world of good. His trouble was constipation and suffering of the heart. "In my own case the trouble was very similar, i.e., constipation, fluttering and palpitation of the heart, and pains in my legs, like rheumatism, when I lay down at night. I have only taken the pills a short time, but every one of the unpleasant symptoms has disappeared. The pills did their work thoroughly, yet so mildly that a person would not think he was taking medicine at all. I am highly pleased with their effects, and recommend Laxa-Liver Pills to all who suffer as I did."

THE ONTARIO ART EXHIBITION

The Twenty-Seventh Annual Was Opened Last Night With the Usual Crush. Excellent Arrangement of Groups of Pictures is a Feature—The Show is Now on.

The twenty-seventh annual exhibition of the Ontario Society of Artists, which opened last night, was, as usual, a great crush. There were delightful music, splendid lighting, hundreds of guests, all in gala dress, and a rarely good collection of pictures on the walls.

Notable exhibitors are: Mr. G. A. Reid, whose two panels are charming in color; Miss Mung, whose strong broad handling and use of color makes her one of the most promising of our Canadian painters; Frederick Challenger, McGillivray, and Mr. R. O. Grier, J. W. L. Forster, Miss Hawley and Miss Hagarty. Mrs. Hester is represented by a portrait of her sister, that shows much strength and artistic ability, although it is somewhat muddy in color.

Among the water colors there is some very charming work, but notices of these will appear later. Some of the present night were: Mr. and Mrs. Byron E. Walker, Judge and Mrs. MacCannan, Mr. and Mrs. W. R. Fraser, Mrs. Price-Brown, Dr. Price-Brown, the Misses Hagarty, Mrs. Macdonald, Mrs. Goldman, Prof. Shuter, Mr. Fred, and Mrs. Vandermissen, Prof. Keys, Mrs. Keys, Mr. and Mrs. J. A. Proctor, Mr. and Mrs. Alley, Prof. Mayor, Mrs. Mayor, Mr. E. F. B. Johnstone, Mrs. Johnstone, Mr. James Wilkinson, Dr. Stowe-Gullen, Mrs. Stowe-Gullen, Mackie, Mr. G. Reid, Mrs. Reid, Mr. McGillivray Knowles, Mrs. McGillivray Knowles and many others.

Truesdale Elected President.

THE LOSS OF THE LABRADOR

The Dominion Liner Ran on Mackenzie

Rock-Off the Scottish Coast

in a Thick Fog.

THOSE ON BOARD SAVED IN BOATS.

One Boat Load landed at the Light-

house and the Balance Picked

Up by German Steamer.

Tobemory, Scotland, March 2.—Investigation

into the wreck of the British steamer

Labrador, from St. John, N.B., on Feb.

25, by way of Halifax on Feb. 20, for Liv-

erpool, shows that she ran ashore about

four miles from Skerryvore on Wednesday

morning.

Captain Erskine, her commander, has

sent the following despatch to the agents

of the steamer at Liverpool:

"Labrador ran on Mackenzie Rock in a

thick fog at 7 o'clock yesterday morning.

Four miles from Skerryvore. The ship was

caught amidships, the seas breaking over

her. Holds No. 1, 2 and 3 were soon full

of water. The passengers and crew were

saved in the boats. One boat load was

landed at Skerryvore Light-house. The Ger-

man steamer Viking picked up the remain-

der. No steamer is obtainable to return

the passengers. If the ship is not

broken up will endeavor to save the mails

when a steamer is obtained."

When the Fog Was Struck.

The Labrador had a good passage until

Sunday, when she entered a fog bank and

lost her bearings. Skerryvore Light was

mistaken for Inistrahull light, on the north

of Ireland. Most of the passengers were

still in bed when the steamer struck, and

there was much excitement, but the pas-

sengers were calmed by the assurances of

the captain, the boats were lowered off

a stern and all on board left the steamer

in safety.

The passengers and crew lost everything

they possessed.

Captain Erskine endeavored to save the

mails, but was obliged to abandon them

to the vessel threatening to break up.

The women and children were put in

the first boat, in charge of the fourth offi-

cer, the other passengers were placed in

the second boat, under the command of

the second officer.

The crew of the Labrador then took the

other boats and as they left the steamer

was pouring, into-the sea from her

boat.

Met the Steamer Viking.

After three and a half hours had expired

the boats met the steamer Viking from

Norway, which took them on board, though

the operation was dangerous, owing to the

ice, the seas breaking over the

Viking's funnel.

When the Labrador was last seen she was

settling down when the steamer Viking

was in sight. The wrecked steamer is full

of prize for the Labrador's officers and crew

and the conduct of the captain of the

Viking.

The passengers of the Labrador have been

accommodated at the hotels here and at

private houses.

The owners of the Labrador have caused

the wreck to be despatched to the

scene of the wreck in order to salvage the

cargo of the steamer.

DISCOVERY ABOUT JUPITER.

Professor Hough Believes the Plan-

et Rotates in Separate En-

velopes or Strata.

Chicago, March 2.—Prof. George W.

Hough, the astronomer at Dearborn Obser-

vatory, in Evanston, has made public a

new discovery in regard to the surface ro-

tations of the planet Jupiter, which is com-

pletely at variance with the existing be-

liefs. It is the general tenet of astronomers

and the statements are embodied in the

most recent text books on the science, that

the surface rotates in the same direction

similar to that of the sun, being quickest

near the equator and slowest in the higher

latitudes near the poles.

Having his conclusions upon a long re-

cord of observations, extending over

twenty years, and which he has just com-

pleted, Prof. Hough announces his belief

that the surface of the planet Jupiter ro-

tates upon its axis in separate envelopes,

or strata.

Prof. Hough further discovered in the

long series of observations that the spots

shift in longitude as well as having a ro-

tary movement, and this also supports the

ring or strata theory, evidencing the great

irregularity of the surface, and strengthening

the belief that the surface of Jupiter is

not more than a gaseous or plastic state.

FRENCH EYES OPENED.

Dangerous Undertaking for France

to Pursue a Coalition Policy

Against Anglo-Saxons.

Paris, March 2.—The Temps in a leader-

to-day points out that there is a stronger

bond between England, the United States

and Germany than Frenchmen care to ad-

mit. The paper says American forbear-

ance toward Germany in the face of evi-

dent gain provocations, and Germany's evi-

dence to make amends for her former ap-

praisement of hostility, are indications of

desire of hostility, and indications of

the article concludes with the warning

that in case France to direct

her policy toward a European coalition

against England and America.

BLIZZARD AND SUFFERING.

People Out in Colorado Living on

One Meal a Day.

Leadville, Colo., March 2.—Following a

heavy snow fall for the past two days, a

blizzard blizz set in and has been in

progress for 24 hours. Trains from the

east got in with difficulty, and the rail-

roads are blocked with ice. A large

number of families in the interior are

living on one meal a day and the col-

dest of bread, potatoes and water. No

coal is to be had, and the people are

digging timber out of snow and cutting it

up for fuel.
