

Quality Never Stoops. To a consideration of a price in any dental work that we are employed to perform.

Some of you particular men should just look in a long mirror and see how your coat hangs when it is unbuttoned. Does it gap and spread? That's bad tailoring, and you'll see it in many made-to-order coats.

Look at these sketches. See how the edges of the coat come together, even when unbuttoned. That is good tailoring—our kind.

Come in and see the \$18.00 coats we are now selling at 13.65.

HOW COCKBURN EARNED V.C.

"Oh, Nothing Very Much, Only a Case of Sticking to One's Guns!"

SOMEBODY HAD TO TAKE A CHARGE.

Modest Way in Which the Gallant Soldier Tells of His Daring Exploit.

The Telegram's correspondent in London, Eng., writing under date of Jan. 17, about Capt. Cockburn, son of Mr. George R. R. Cockburn of Toronto, says: One of the bravest passengers on board the Galica, which arrived at Southampton this evening, was Captain Cockburn of the Royal Canadian Dragoons, when I gave him the first news of his recommendation for the V.C.

"Have I really got it?" was his first question. "Not yet; but the recommendation makes it a sure thing; you will get it," I replied. "I am sure that you will get it," I replied.

He had the Queen's decoration for valor. Bearers of it will now prize it more than ever.

Island Company, congratulated him for the distinguished honor. Captain Cockburn, who is in the best of spirits on this evening, is in the pleasant news to him, and he said: "I am in splendid health and never felt better, but the good news you have brought me makes me feel better still."

"Oh, nothing very much, only a case of sticking to one's guns; somebody had to take a chance, and I was there, and I took that chance and we managed to hold the enemy long enough for the guns to be got away, but we got nabbed ourselves. I will never forget that night at Belfast. It was the most ghastly night I ever passed in my life. The poor fellows that were wounded were in an awful state. I got what I could in the way of coats and blankets to cover them up, but what they cried for was water, and that I had none handy, the Boers having taken away all our water bottles. What water I could get I had to carry in my hat from a pool some distance away. The men had to lie out on the cold all night; the ambulances were far too long in arriving."

COUNTY COURT CASES.

Pennock Bros. Secure a Verdict for \$150 Damages From George Rowatree.

In the County Court yesterday, Mr. E. J. Merritt, who conducts a painting and glazing business on West King-street, sued Dr. James D. Thornton of West Bloor-street to get \$122.50 for extra work done. The defence claimed that the contract price was paid and in fact overpaid. Besides this, Mrs. Merritt began some work and didn't finish it and the cost of such finishing would be \$100. For this amount a counter claim was put in. Judge McLaughlin reduced the plaintiff's claim to \$97 and adjourned the hearing of evidence on the counter claim till this morning.

Pugley v. Electric Light Co.

The action of John Pugley against the Toronto Electric Light Company was adjourned till the March sittings. On May 23 last Pugley was driving a team of horses near the corner of King and Yonge-streets, when the animals became frightened at a passing street railway car, and in running away fell into an excavation made to place underground electric wires in position. The horses were severely injured and Pugley claims \$200 damages.

Judge Moron gave judgment in the suit of Pennock Bros. against George Rowatree to get \$2000 damages for alleged breach of contract. The plaintiffs conducted the Lord Roberts Restaurant at the Exhibition grounds last September and entered into an agreement with Rowatree to supply them with meat. On the day the defendant failed to turn up with meat, and the plaintiffs suffered considerable loss thereby. Judge Moron found that Pennock Bros. were entitled to \$1500, and judgment for that sum, with costs, has just been entered.

In the Charge Against a Montreal Woman Now in Ottawa—Baby Born in Trains.

The child's cries attracted attention and it was picked up. Miss McLean is in the hospital. It is likely the charge will be attempted infanticide. The police are watching Miss McLean, who is, however, too ill to leave the hospital.

BREWING POISON.

Over Five Million Interested in Canada.

Science has demonstrated that in a few days time you have enough acid in your body to produce death.

Your kidneys are your only salvation, because when they are well they filter out this deadly poison.

When they are weak or out of order, you can understand how quickly your entire body is affected, and how every organ may become deranged, and this is why eighty-five per cent. of diseases are caused in the beginning by disorders of the kidneys.

St. Eugene Concentrator Closed Down and Many Miners Have Been Dismissed.

TROUBLE WITH THE SMELTERS.

Crow's Nest Pass Coal Company Affairs—Sales and Quotations on Mining Stocks.

Mr. B. T. A. Bell says editorially in The Canadian Mining Journal of January: No one who has followed the history of the War Eagle mine would be surprised at an announcement of its permanent abandonment at any moment.

It is stated that the General Manager, Mr. Kirby, who is a thoroughly efficient and practical mining engineer, practically turned it down in his last annual report. He told the directors in so many words: "You have no reserves; the future of your mine depends upon development disclosing pay ore." Since then the year's prospecting has been done, and from the monthly reports issued by Mr. Kirby it is perfectly clear that no considerable quantity of pay ore has yet been discovered.

St. Eugene Concentrator Closed.

St. Eugene Leader: The St. Eugene concentrator was closed down last week. It is reported that the 270 employed at the mine were laid off. Manager Toronto, who turned from California a few days ago, when some wonderful and amazing things down would be for an indefinite time. The company has finished its contract and has signed any remaining. The shutdown is due to several causes, amongst which are the expense of American smelters, the obtaining of dry ores for smelting purposes, and the excessive freight charges on the American smelters to treat the American silver lead ores at a profit. Smelters in British Columbia are unable to handle the ore of this district, and the C.P.R. charges \$9 per ton on the ore, which is a distance of 200 miles for \$3 per ton.

Easy Colds

Are you frequently hoarse? Do you have that annoying tickling in your throat? Would you feel relieved if you could raise something? Does your cough annoy you at night, and do you raise more mucus in the morning? Then you should always keep on hand a bottle of **Ayer's Cherry Pectoral**. If you have a weak throat, you cannot be too careful. You cannot begin treatment too early. Each cold makes you more liable to another, and the last one is always the harder to cure.
