ONTARIO GOVERNMENT, ONE MEAL.
Just now the Ontario Ministers out on the stump are spelling binding the voters, or trying to do so, with verbal pictures of "progressive New Ontario," and pointing to the present rush of immigrants from Europe, some of whom are to become settlers in the province and customers of Toronto's merchants.

The World, discounting the verbal representations of the government's activity, took some observations yesterday with the cold eye of this glittering "New Ontario" picture from the newly arrived immigrant's standpoint. He walked up Simcoe-street from the Union Station and along Front-street to the dilapidated piles of brick rapidly falling into ruins still called the Old Parliament Buildings. Every step he suggested an ironical commentary upon the government's vote-catching phrase. The sidewalk on Front-street was in such a perilous condition that the pedestrian had to watch his feet for fear of breaking his neck. The government is responsible for the sidewalk.

From the gate up to the main entrance to the building, he would indeed be a reckless man with a large accident policy who would run the chance of stepping upon the rotten planks with deep holes beneath. The broad steps were overgrown with grass of last year's growth, still shaking in the wind, with this year's grass beginning to hide its yellowness. The immediate scenery of the "Moated Grange" would have been gay in comparison. The only thing of life around was a robin lugging worms out of the ground under the chest-nut.

Hanging out of a small door was a single with the legend "Immigration Department." This is the office to which newly arrived immigrants in Toronto are directed for government information. As affording a first impression of the country, the Immigration department of the Ontario government must be an awesome and despairful spectacle in the eyes of the poor immigrant.

The World went into the narrow hall, where the echoes of his step shook the venerable tapestry of cobwebs along the passage. There was still no sign of life. But a side door led into a room marked "Office" where two aged men sat over a bright coal fire. The reporter put some questions as to what they were able to do for immigrants. One of the patriarchs kindly and courteously suggested the name of a farmer "who had a job vacant for a hired man. That was nothing else "except this" -- a bracket, smaller than a baggage check with the words

ONT GOVT MEAL

"Is that all" was the ejaculation with which the largest eye of the man of years misanderstood. He thought the visitor wanted two tickets perhaps, and with a quavering but still kind voice, he lamented the expenditure of \$13 in a month on this form of aid to immigrants. Looking at him in those serious phases, they have resembled the Prophet Jeremiah weeping over the ruins of Jerusalem. It was pathetic! It was sad! The World rushed away. He could not stand it. Had he been a genuine immigrant he might have run down as far as the bay and escaped the fate of settlement in Canada, which the sight of this depressing immigration office conjured up by taking the "water cure."

A "SAPPER" CORPS.
One of the most striking phases of military life is an exhibition on Garrison Common. The University Company of Engineers is there encamped under the command of Capt. Lang. The commandant is a professor of the School of Practical Science, and his men are all students of the school. For them the examinations are over, and they are taking a vacation that means health, exercise, discipline and instruction. This afternoon the regiment will be inspected by the commandant of the R.M.C. A visit to the camp reveals the fact that the men are instructed in trench digging, bridge building and other pioneer work absolutely essential for the moving of an army over unknown and difficult ground. A bridge over 100 feet long, capable of sustaining the weight of a battery of artillery, has been erected from palings bound together by rope. This exhibit is unique, even in military Toronto. Today's inspection should draw a crowd to Garrison Common.

Capt. Lang is doing pioneer work in this arm of the service, and should be encouraged by the presence of all who wish our militia well.

GRAIN-FED MEN ARE STRONGEST.
Prof. Wiley, chief chemist of the United States Department of Agriculture, reinforces The World's advice to the people to substitute other foods for meat not only as a treat, but as a health-improving measure. "The meat-eating habit," he says, "is in no way essential to human life." Among the substitutes that are just as rich as meat in life-sustaining elements he names cotton-seed oil, peanut oil, sunflower oil and olive oil--all of them capable of being prepared in appetizing and palatable forms for the table. Prof. Wiley states it is a fact that meat is much more costly even than its present high price indicates, because only about one-fourth of any piece of meat as it is sold in the market has any nutritive value. That is to say, if a joint of beef costs 20 cents a pound, the nourishing part of it actually costs 80 cents a pound.

Per contra, Prof. Wiley corroborates The World's recent editorial on the subject by declaring that "so far as actual nourishment is concerned the very best and cheapest foods are Indian corn, wheat, oats, rye and rice."

The waste or non-nutritious part of cereals does not exceed 10 per cent, and men who feed mainly on them "are capable of enduring the hardest manual labor."

The athletes of old Greece in her most glorious days ate no meat, but only grains and fruits. Japan whipped China on a diet of rice. The sturdy Scot is based on "oatmeal porridge," and the hardy Italian laborer whom we see working on railway construction all day long in all weathers is a product of much macaroni and little meat.

CANADA'S NATURAL PORT.
The opening of ocean-going navigation at the port of Quebec bids fair to be the occasion of labor troubles between the longshoremen and the steamship companies. The former, who, thru their demands and regulations, have for years been instrumental in driving the Scot to sea from that port, are holding out for their former tariff of thirty cents an hour. The representative of the Leyland Line, of steamers ineffectually attempted to bring about a reduction to the rate of twenty-five cents an hour for day work and thirty cents an hour for night work.

The Leyland Line inaugurated a service from Quebec last spring under a contract with the Great Northern Railway of Canada to carry grain from the latter's new elevator. The season's cost of loading and unloading exceeded by over \$8000 the cost at other Canadian ports which are more up to date in the matter of facilities for handling grain and freight. Not wishing to have last year's extra expense incurred anew, the Leyland Company tried to induce the ship laborers to reduce their rates, which, even at the reduced figures, would still be higher than those in force at Montreal, Halifax and St. John. The Great Northern Railway of Canada, which runs in connection with the Parry Sound-Railway and the Canada Atlantic Railway, is instrumental in giving to Quebec port a new impetus, awakening her after years of slumber, and it would be deplorable were this to be spoiled by differences between the longshoremen and the steamship companies.

As far as the merits of the wages rate is concerned, we are not in a position to judge, but it does seem to us that this is a good occasion for Hon. Mr. Mulock's labor adjusters to offer their conciliating services to both sides.

But on the other hand, it is of the highest importance to all Western Canada, that no obstacles should be placed in the way of Quebec assuming the position which should undoubtedly be hers--one of Canada's national ports. The day when one of our western ports should be diverted from natural ways to American ports will be a grand one for Canada.

MUNICIPAL OWNERSHIP.
Philadelphia Record: Of 175,000 voters in Chicago who expressed themselves, more than 150,000 were in favor of municipal ownership of the street railways. Because of the Eastern editor's prejudice to be greatly disturbed in his mind, since it seems to him to indicate an alarming growth of a State Socialism sentiment. The Record on the other hand, which has direct control of the white, economical or extravagant, comfortable or wretched. The main objection to municipal ownership of the street railways is that the right is as distinct as the right to have the water supply, to have the gas supply, to have the enterprise of a public character, which is the right of the community, and which the citizen as an individual cannot do for himself. GORDON MEMORIAL COLLEGE.
It is now upwards of three years since Lord Kitchener, on his return to London from the Sudan after the fall of the Khalifa and the capture of Omdurman, issued his appeal to the British public in the name and memory of General Gordon for funds to establish a college at Khartoum "as a pledge of the memory of Gordon to still alive among us and that his aspirations are at length to be realized." A report of the accounts of the work done has just been issued by the college committee. The total amount subscribed to the fund is \$125,015. The educational institutions which have supported during the past year, pending its own completion, have been: I. An industrial school with 162 pupils; II. A higher primary school at Omdurman with 162 pupils; III. A school for the blind with 60 pupils; IV. A small training college at Omdurman with 6 students.

The aims of the college are: I. The creation of a competent artisan class, which is entirely lacking at present; II. the diffusion among the masses of the people of education sufficient to enable them to understand the most elements of the machinery of government, particularly with reference to the equitable and impartial administration of justice; III. the creation of a small native administrative class who will ultimately fill minor government posts.

Contributions should be sent to The Right Hon. Lord Hillingdon.

Boards of Trade Will Take Part in Coming Conference and Submit Resolutions.

QUESTION OF CATTLE EMBARGO
Trade Within the Empire and the Preference Are Live Topics Just Now.

The conference of Dominion Boards of Trade to be held in Toronto on June 4 and 5 promises to be the most important gathering of its kind ever held in Canada. Secretary Jarvis of the Toronto board, who is making all arrangements for the gathering, is meeting with great success in interesting other bodies in the subjects to be discussed. Boards of Trade from all over Canada have signified their intention of sending delegates and resolutions to the conference.

Yesterday Mr. Jarvis received two important resolutions from the Brandon and Gait Boards for consideration at the meeting. The former board's resolution is "That the members of this board are of the opinion that the coming Imperial Conference in June will afford an opportunity to negotiate with the Dominion Board of Trade for the importation of Canadian live cattle into Great Britain, and that the present prohibition prejudicially affects Canadian stock raisers, and no contagious disease is known to be present in Canada."

The Gait resolution reads: "That in the opinion of this board the opportunity of the coming conference of trade within the empire should be taken advantage of by this country in the present prohibition of our products in the British markets over those of any foreign nation, and that this board heartily endorses at the coming conference at Toronto any proposition in line with the sentiments expressed at this meeting, the feeling of this board being entirely in favor of the establishment of such a consolidation of British trade interests."

"And further, this board approves of the promotion of the questions of transportation, defence, postal and telegraph communication being factors of no little interest to all trades in Canada."

"And that this board instructs its delegates to act at the conference in conformity with the spirit and sentiments of the foregoing resolutions. The Farmers' Institute has notified Mr. Jarvis that it will send resolutions."

So far the following delegates have been appointed: A. S. Chisholm and E. J. Oliver, Ontario; C. W. T. Murray, President R. T. Torrance, Vice-president J. M. Duff and J. M. Bond, Guelph Board of Trade; Charles C. Cole, president Niagara Falls Board of Trade; Mayor David Brown and A. H. Baird, Paris Board of Trade.

The Council of the board will meet this afternoon at 4 o'clock to further arrangements for the conference.

TARIFF FOR TARIFF.
Orange Sentinel: The dread of a retaliatory tariff is already disturbing some of our neighbors to the south of us, for quite recently three large States have decided to come to Canada and establish big works. These are the McCormick Harvester Co., the Deering Harvester Co., and the Advance Thrasher Co. There are quite a number of other works arranging to follow suit, and when the big business of tariff has such an effect it is certain that the imposition of such a tariff would cause the loss of scores of other works in this Dominion.

In another column will be found a statement of the Standard Life Assurance Co. of Edinburgh, Scotland, for the year ending Nov. 15 last. During the year 4446 policies amounting to \$9,919,726.66 were issued. The total existing assurance in force is \$27,750,139.59. The death claims paid during the year amounting to \$2,803,823.25, and the accumulated funds up to the same date amounted to \$56,155,197.92, showing an increase during the year of \$1,430,545.59.

BROTHERS HAVE SMALLPOX.
Two Cases of the Disease Discovered on Sackville-Street.

Two cases of smallpox were discovered yesterday afternoon at 168 Sackville-street. The patients are brothers, named Godin, French-Canadians, who have been employed as linemen in the telephone service and have been in numerous places during the past week or so. Their father is up north in the lumber camps but it is understood that he has been home once or twice since he first went there, and he might have brought the disease with him. The father suspected the case but found each to be well developed, and not of a particularly mild type. He had them removed to the Swiss Cottage Hospital. Mrs. Godin, mother of the boys, was the only other occupant of the house, and at her earnest request Dr. Sheard allowed her to accompany her sons to the hospital, where she will stay till they recover, and it will, therefore, be unnecessary to quarantine the house. Dr. Sheard locked the place up and took the key away with him.

This outbreak is rather a disappointment to the Medical Health Department, as they had hoped to close up the Swiss Cottage Hospital to-day.

Ill With Bronchitis.
Judge Ferguson has been seriously ill with bronchitis during the past week, but his medical attendants, Dr. Sylvester, informs The World that he is making rapid progress towards recovery and will be about in a short time.

TO-MORROW'S CEREMONY.
Arrangements for Decoration of Monument to Northwest Heroes.

At a meeting of the Northwest Field Force 1885 Association on Tuesday night, arrangements were completed for the ceremony of decorating the monument to those who fell in the Northwest, which will take place tomorrow at 3 o'clock in Queen's Park. A large space has been roped in for those holding tickets. Nearly all the garrison will turn out, also the Public and High School children, the school cadets, Boys' Brigades, Broadview Battalion, '86 Veterans, Army and Navy Veterans and South African Veterans. The Chief of Police will have charge of the parade, which will form up at 2:30 at the Armouries and move off at 3. The speaking will start at 3:30.

The association is indebted to the following who have so far contributed towards the fund: T. Eaton Company Limited, Dunlop, Tidy & Son, Leitch, Coul, Davidson, Major Peters, Renfrew & Co., W. T. Murray, the officers of the Queen's Own Rifles, members of the Grenadiers, Sergeants' Mess, Q.O.B., Grenadiers and 12th York Rangers--school children, the City of Toronto (plants loaned), the gift of Charles Rogers, Frank Rogers and Andrew Murdoch from Buffalo N.Y., Old 1885 Boys, and others.

A smoking concert will be held in Victoria Hall in the evening.
